707-4813 if you cannot attend to
allow those on the waiting list an
opportunity to register.

As part of a series of orientations to libraries and information centers, FLICC is offering an opportunity for federal librarians to become acquainted with the programs and services of the Holocaust Museum Library.

The Library of the United States Holocaust Memorial Museum is a small, academic library that provides information and resources to the museum's staff of educators, exhibitions specialists and visiting researchers.

The library's resources are also available to the general public and are used by students, educators and family researchers. The library's extensive, multi-lingual collection of published materials on all aspects of the Holocaust supplements the museum's larger collection of artifacts, film footage, photographs and archival resources.

This session will feature a discussion of the library research services and activities, electronic and print collections and a tour of the facilities.
