USA Trade® Online Gets a Fresh "Perspective"

On September 6, 2007, USA Trade Online, the official Census Bureau source for U.S. merchandise (foreign) trade statistics, gets a new look! Powered by Beyond 20/20's innovative **Perspective 4.0** software in cooperation with STAT-USA®, the new USA Trade Online boasts a cleaner interface, new features and improved performance!

New Features

There are several enhanced and new features with USA Trade Online with the Perspective 4.0 interface:

- **Available Data.** No need to guess the current month of data available. It's now listed on the data source selection screen, and updated with each new monthly release!
- **Advanced Search.** Enhanced searching introduces AND, OR and NOT keyword searching.
- **Scaling.** Express measures in singles, thousands, millions and billions!
- **Set Dimension Order.** A new way to re-arrange the layout of your report tables without having to "drag and drop".
- **Print Options.** Format your table or report for the optimal print result.
- **More Chart Options.** More chart options with colorful preview icons!
- **Organize My Reports.** Create different folders to keep track of your various saved reports.

And many more!

No Worries

STAT-USA has prepared a new First-Time User's Guide and an updated Online Help to assist you in the transition to the new interface. We will also maintain the previous version with a quick link from the homepage for a few weeks, giving you some time to get used to the new system. However, we recommend you try the new interface today!

Please note: All existing saved reports under "My Reports" will be automatically transferred to the new interface September 5, 2007. Any reports saved on the old server after that day will not be moved and will have to be recreated by the user under the new format. Any questions or comments can be directed to the STAT-USA Help Center at 1-800-STAT-USA (800-782-8872) or statmail@doc.gov
