November 1988

FEDERAL INFORMATION

Users' Current and Future Technology Needs

United States General Accounting Office Washington, D.C. 20548

General Government Division

B-231160

November 30, 1988

The Honorable Frank Annunzio Chairman, Joint Committee on Printing Congress of the United States

Dear Mr. Chairman:

As requested by the former Chairman and you, we have completed a survey of the current and future needs of federal information users with emphasis on how technology might help meet these needs.

Our survey was undertaken to provide information to assist the Office of Technology Assessment (OTA) in the study it did at your request entitled "Technology, Public Policy, and the Changing Nature of Federal Information Dissemination." The Committee requested the OTA study at the same time it requested assistance from us. The Committee's overall objective in requesting this work was to assess the implications of evolving public printing, publishing, and information dissemination technology on the future of the Government Printing Office (GPO) and public information functions of the federal government. As agreed, we obtained information through questionnaires sent to two categories of nonfederal users of federal information: libraries and associations.

The questionnaire was developed in consultation with the Committee and OTA. Federal information users who were sent questionnaires were asked to describe their current experiences and future expectations. We received 1,161 completed questionnaires from the following five groups of federal information users:

¹⁰TA's resulting report, dated October 1988, is entitled Informing the Nation: Federal Information Dissemination in an Electronic Age. At the Committee's request we also did a survey of federal agency information needs and practices. Results are reported in Federal Information: Agency Needs and Practices (GAO/GGD-88-115FS, Sept. 20, 1988).

- -- 149 scientific and technical associations; and
- -- 173 general associations.

SAMPLING AND DATA ANALYSIS METHODOLOGY

We developed questionnaires in consultation with JCP and the Office of Technology Assessment (OTA). We pretested the questionnaires during October and November 1987 with 10 organizations representing the target populations. In addition, we provided drafts of the questionnaires to the Government Printing Office (GPO), OTA, JCP, library associations, and OTA advisory groups for review and comment. We made modifications to the questionnaire on the basis of comments we received. The final version was approved by JCP.

In four of the five surveys we did not survey the entire universe. Consequently, our results contain sampling errors. The sampling errors are presented in each appendix where sampling was used so readers can estimate the variability for each question that would be obtained if different samples of libraries and associations had been selected. The sampling errors range from not more than 5 percent to not more than 8 percent.

Appendixes II through VI contain our specific methodology and survey results for each of the five groups of respondents.

REGIONAL DEPOSITORY LIBRARIES N=46

- 1. Is your library located in a Standard Metropolitan Statistical Area (SMSA)? (Check one.)
 - 1. [84.8] Yes (Skip to question 3.)
 - 2. [15.2] No (Continue with question 2.)
- 2. In which of the following size cities or towns is your library located? (Check one.)
 - 1. [] Large city (100,000 500,000)
 - 2. [15.2] Small city (10,000 99,999)
 - 3. [] Small town (Population under 10,000)
 - 4. [] Rural area (Population under 1,000)

Skip 84.8

- 3. Please indicate the number of people employed by your library system? (Check one.)
 - 1. [] Less than 5
 - 2. [] 5 to 14
 - 3. [] 15 to 24
 - 4. [10.9] 25 to 49
 - 5. [89.1] 50 or more

APPENDIX II

5. How often or rarely does your library use the following sources of federal information?

RESPONSE SCALE

1 = VERY OFTEN (At least once a week)

2 = OFTEN (At least once a month)

3 = OCCASIONALLY (At least once in the last 6 months)

4 = RARELY (At least once in the past 12 months)

5 = NEVER

8. This question deals with four possible problems that your library may encounter when obtaining and using federal information in PAPER FORMAT, either (A) directly from federal sources, or (B) indirectly from non-federal sources. How much of a problem, if any, are these four factors for your library as a user of federal information in paper format for the following types of publications from these sources?

RESPONSE SCALE

- 1 = A very great problem
- 2 = A great problem
- $3 = A \mod \text{erate problem}$
- 4 = Some problem
- 5 = Little or no problem
- 6 = Do not use this document in paper format from this source

SOURCE CODE

- (A) Directly from federal sources
- (B) Indirectly from non-federal sources

SELECTIVE DEPOSITORY LIBRARIES - METHODOLOGY AND SURVEY RESULTS

Between December 30, 1987, and March 16, 1988, we did a mail survey of a random sample of selective depository libraries. These libraries do not receive all documents GPO publishes. Under the federal depository library program they select documents they believe would interest their patrons.

METHODOLOGY

We obtained a computer tape from GPO of all selective depository libraries. As of November 1987, 1,342 libraries were classified as selective depository libraries. Of these, 69 were libraries in federal agencies and federal courts. Because of our interest in nonfederal users of federal information, we deleted these 69 libraries from our universe for an adjusted universe total of 1,273.

We sent questionnaires to a random sample of 400 of the 1,273 selective depository libraries and, where necessary, made one follow-up contact to obtain as much participation as possible.

SURVEY RESULTS

Of the 400 selective depository libraries mailed questionnaires, 357 responded for a response rate of 89 percent. Taking the nonrespondent libraries into account, the results of this survey are projectable to 1,136 libraries or 89 percent of the total of the 1,273 selective depository libraries. A copy of the questionnaire follows that is annotated to show the overall responses to each item in percentages of selective depository libraries. The results are subject to sampling errors of not more than 5 percent at the 95-percent confidence level except for question 2, which has a sampling error of not more than 8 percent. Totals may not add to 100 percent due to rounding.

4. Which of the following topics describe the general subject matter of federal information that your library currently uses or has used during the past 12 months? (Check all that apply.)

9. This question deals with four possible problems that your library may encounter when obtaining and using federal information from ON-LINE DATA BASES, either (A) directly from federal sources, or (B) indirectly from non-federal sources. How much of a problem, if any, are these four factors for your library as a user of federal information from on-line data bases for the following types of publications from these sources?

RESPONSE SCALE

- 1 = A very great problem
- 2 = A great problem
- 3 = A moderate problem
- 4 = Some problem
- 5 = Little or no problem
- 6 = Do not use this document from on-line data bases from this source

SOURCE CODE

- (A) Directly from federal sources
- (B) Indirectly from non-federal sources

deleted. We also deleted the 27 libraries on this list that were included on our list of federal depository libraries since they had already been sent questionnaires. As a result of this process, we reduced the sample to 676 libraries.

After the initial mailing, we sent a follow-up encouraging recipients to participate in our survey.

SURVEY RESULTS

We received information indicating that several libraries would not be completing the questionnaire. Seventeen libraries told us that they did not use federal information. In an additional 18 instances, we could not obtain completed questionnaires for a variety of reasons. Table IV.2 summarizes the reasons. Thus, from our initial sample, 641 could be considered potential respondents, which would be projectable to a universe of 13,352.

Table IV.2: Reasons Why General Libraries Did Not Complete Questionnaires

Reason for not completing questionnaires	Number of	libraries
Does not use federal information	17	
Declined to complete questionnaire	7	
Not a library	5	
Library is defunct, or nearly so	4	
Does not obtain federal information directly from the federal government	ent 1	
Undeliverable	_1	
Total	<u>35</u>	

We received 436 completed questionnaires from 641 potential respondents for a response rate of 68 percent. Taking the nonrespondent libraries into account, the results of the survey are projectable to an adjusted universe of 9,082 libraries or 68

GENERAL LIBRARIES N=436

- 1. Is your library located in a Standard Metropolitan Statistical Area (SMSA)? (Check one.)
 - 1. [44.5] Yes (Skip to question 3.)
 - 2. [54.1] No (Continue with question 2.)

No response 1.4

- 2. In which of the following size cities or towns is your library located? (Check one.)
 - 1. [1.1] Large city (100,000 500,000)
 - 2. [15.8] Small city (10,000 99,999)
 - 3. [25.9] Small town (Population under 10,000)
 - 4. [10.8] Rural area (Population under 1,000)

No response 1.6

Skip 44.7

- 3. Please indicate the number of people employed by your library system? (Check one.)
 - 1. [45.9] Less than 5
 - 2. [24.5] 5 to 14
 - 3. [9.4] 15 to 24
 - 4. [8.5] 25 to 49
 - 5. [9.6] 50 or more

No response 2.1

5. How often or rarely does your library use the following sources of federal information?

RESPONSE SCALE

- 1 = VERY OFTEN (At least once a week)
- 2 = OFTEN (At least once a month)
- 3 = OCCASIONALLY (At least once in the last 6 months)
- 4 = RARELY (At least once in the past 12 months)
- 5 = NEVER

GENERAL ASSOCIATIONS - METHODOLOGY AND SURVEY RESULTS

Between January 19, 1988, and May 9, 1988, we did a mail survey of a random sample of associations listed in eight sections of the Encyclopedia of Associations 1.

The Encyclopedia lists national, nonprofit associations and is supplemented by listings for other types of organizations. National, nonprofit membership associations represent the largest number of the organizations listed. Nearly 21,000 organizations are listed and divided into 18 categories. In conjunction with JCP and OTA, we decided that eight categories made up the types of associations that should be sampled.

METHODOLOGY

We grouped all associations in the eight categories together for a combined universe of 12,904. Table V.1 shows the types of association by category and the total number of organizations initially included in each category.

¹Encyclopedia of Associations, Gale Research Company, 22nd ed., 1988.

Table V.2: Reasons Why General Associations Did Not Complete Questionnaires

Reason for not completing		
questionnaires	Number of	associations
Does not use federal information		59
Undeliverable		12
Organization is defunct, or nearly so		3
Declined to complete questionnaire		3
Not an association		2
Organization is dormant		1
Officer deceased		1
Federal organization		<u>1</u>
Total		<u>82</u>

We received 173 completed questionnaires from 268 potential respondents for a response rate of 65 percent. Taking the nonrespondent associations into account, the results of the survey are projectable to an adjusted universe of 5,977 associations from the eight categories or 65 percent of the total of the 9,260 associations. A copy of the questionnaire follows that is annotated to show the overall associations' responses to each questionnaire item in percentages. The overall survey results are subject to a sampling error of not more than 8 percent at the 95-percent confidence level. Totals may not add to 100 percent due to rounding.

5. Which of the following topics describe the general subject matter of federal information that your association currently uses or has used during the past 12 months? (Check all that apply.)

APPENDIX V APPENDIX V

10. This question deals with four possible problems that your association may encounter when obtaining and using federal information from ON-LINE DATA BASES, either (A) directly from federal sources, or (B) indirectly from non-federal sources. How much of a problem, if any, are these four factors for your association as a user of federal information from on-line data bases for the following types of publications from these sources?

RESPONSE SCALE

- 1 = A very great problem
- 2 = A great problem
- $3 = A \mod erate problem$
- 4 = Some problem
- 5 = Little or no problem
- $6 \approx$ Do not use this document from on-line data bases from this source

SOURCE CODE

- (A) Directly from federal sources
- (B) Indirectly from non-federal sources

APPENDIX VI APPENDIX VI

Table VI.1: Reasons Why Scientific and Technical Associations Did Not Complete Questionnaires

Reason for not completing questionnaires	Number of associations
Do not use federal information	36
Undeliverable	4
Not an association	4
Organization is defunct	2
Declined to complete questionnaire	_2
Total	<u>48</u>

We received 149 completed questionnaires from 202 potential respondents for a response rate of 74 percent. Taking the nonrespondent scientific and technical associations into account, the results of the survey are projectable to an adjusted universe size of 755 scientific and technical associations or 74 percent of the 1,024 associations. A copy of the questionnaire follows that is annotated to show the scientific and technical associations' overall responses to each item in percentages. The overall survey results are subject to a sampling error of not more than 8 percent at the 95-percent confidence level. Totals may not add to 100 percent due to rounding.

5. Which of the following topics describe the general subject matter of federal information that your association currently uses or has used during the past 12 months? (Check all that apply.)

1.	[20.1]	Aerospace/aviation	22.	[10.1]	Insurance

10. This question deals with four possible problems that your association may encounter when obtaining and using federal information from ON-LINE DATA BASES, either (A) directly from federal sources, or (B) indirectly from non-federal sources. How much of a problem, if any, are these four factors for your association as a user of federal information from on-line data bases for the following types of publications from these sources?

RESPONSE SCALE

- 1 = A very great problem
- 2 = A great problem
- 3 = A moderate problem
- 4 = Some problem
- 5 = Little or no problem
- 6 = Do not use this document from on-line data bases from this source

SOURCE CODE

- (A) Directly from federal sources
- (B) Indirectly from non-federal sources

Requests for copies of GAO reports should be sent to:

U.S. General Accounting Office Post Office Box 6015 Gaithersburg, Maryland 20877

Telephone 202-275-6241

The first five copies of each report are free. Additional เป็นเป็นเลาะ \$2.00 each.

There is a 25% discount on orders for 100 or more copies method was single address.

Orders must be prepaid by cash or by check or money order made out to the Superintendent of Documents.

APPENDIX VII APPENDIX VII

QUESTIONNAIRE GLOSSARY

Compact Optical Disk

A digital optical disk, encoded, sized, and mastered according to standards in use for consumer digital audio systems. The most common type is CD-ROM (Read-only-memory).

Electronic Bulletin Board

A computerized message system that generally can be used to post messages or read those left by others. Computer users gain access by means of a modem and common telephone communication lines.

Electronic Mail

A computerized message system that can be used to send and receive messages in electronic form via remote computer terminals.

On-line Data Base

A store of data on continuously updated files which can be connected to a computer by a communications link and can be accessible via a terminal.

Videodisk

A transparent or reflective disk developed to record or play-back television signals, but having the capacity to store and randomly access enormous amounts of digital data.

14. For these ON-LINE (immediate access) information services, assuming that there would be no charge other than the on-line access charge, which of the following charges would be the maximum hourly on-line access charge that your association would be willing to pay? (Check one box for each row.)

(Note: Assume that telecommunications charges are a part of the on-line access charge.)

TOTAL HOURLY ON-LINE ACCESS CHARGE

	\$1-\$9 PER HOUR	\$10-\$24 PER HOUR	\$25-\$49 PER HOUR	\$50-\$99 PER HOUR	\$100 OR MORE PER HOUR	DO NOT KNOW	NOT WILLI TO PAY	NG NO ANSWER

APPENDIX VI APPENDIX VI

SCIENTIFIC AND TECHNICAL ASSOCIATIONS - METHODOLOGY AND SURVEY RESULTS

Between January 13, 1988, and May 9, 1988, we did a mail survey of a random sample of the associations listed in the Scientific, Engineering, and Technical section of the Encyclopedia of Associations. 1

METHODOLOGY

As a result of OTA's expressed interest in obtaining specific information from the scientific and technical community, we randomly selected 250 associations to be sent questionnaires from the total of 1,377 listed in this section. We sent questionnaires to associations where the following criteria were met:

- -- Listings must have included an official's name and title and a complete mailing address, including ZIP code.
- -- Addresses showed they were not affiliated with the federal government.
- -- Addresses were within the United States.

Of the 250 random numbers initially selected, 20 could not be used and were replaced with other listings meeting the requirements. This replacement procedure resulted in an initial downward adjustment of the universe, from 1,377 to 1,267.

After the initial mailing to increase the response rate, we sent two follow-ups encouraging recipients to participate in the survey.

SURVEY RESULTS

We received information indicating that several scientific and technical associations would not be completing questionnaires. Thirty-six of the scientific and technical associations said that they do not use federal information. In an additional 12 cases, we could not obtain completed questionnaires for a variety of reasons. Table VI.1 provides specific reasons. Thus, from our initial sample, 202 could be considered potential respondents, which would be projectable to a universe of 1,024.

¹See appendix V for a fuller description of the Encyclopedia of Associations, Gale Research Company, 22nd ed., 1988.

14. For these ON-LINE (immediate access) information services, assuming that there would be no charge other than the on-line access charge, which of the following charges would be the maximum hourly on-line access charge that your association would be willing to pay? (Check one box for each row.)

(Note: Assume that telecommunications charges are a part of the on-line access charge.)

TOTAL HOURLY ON-LINE ACCESS CHARGE

	\$1-\$9 PER HOUR	\$10-\$24 PER HOUR	\$25-\$49 PER HOUR	\$50-\$99 PER HOUR	\$100 OR MORE PER HOUR	DO NOT KNOW	NOT WILLII TO PAY	NG NO ANSWER

- 6. [2.9] Over 1 million
- None 2.9

No response 1.7

APPENDIX V APPENDIX V

Table V.1: Number and Type of Associations

Description	Universe
Trade, business, and commercial organizations	3,927
Agricultural organizations and commodity exchanges	912
Legal, governmental, public administration, and military organizations	711
Educational organizations	1,217
Social welfare organizations	1,641
Health and medical organizations	2,045
Public affairs organizations	2,217
Labor unions, associations, and federations	234
Total	12,904

We randomly selected 350 organizations from this total of 12,904. From this initial sample, we sent questionnaires to associations where an official's name and title were included, the addresses shown were within the United States, and the association did not appear to be affiliated with the federal government. When these criteria were not met, we replaced those initially selected with others also selected at random. As a result, 22 of the 350 random numbers initially selected were replaced. Because of our replacement procedure, the universe of 12,904 was adjusted down to 12,093.

After the initial mailing to increase the response rate, we sent out two follow-ups to obtain the greatest number of responses.

SURVEY RESULTS

We received information indicating that several associations would not be completing questionnaires. Fifty-nine of the associations said that they do not use federal information. In an additional 23 instances, we could not obtain completed questionnaires for a variety of reasons. Table V.2 summarizes these reasons. Thus, from our initial sample, 268 could be considered potential respondents, which would be projectable to a universe of 9,260 associations.

APPENDIX IV

14. For these OFF-LINE (CD-ROM) information services, assuming that there would be no charge other than the purchase price of the CD-ROM, which of the following prices would be the maximum price that your library would be willing to pay for these information services issued monthly? (Check one box for each row.)

PURCHASE PRICE FOR CD-ROM ISSUED MONTHLY

	\$1-19 PER CD-ROM	\$20-49 PER CD-ROM	\$50-199 PER CD-ROM	\$200-499 PER CD-ROM	\$500~999 PER CD-ROM	\$1,000 OR MORE PER CD-ROM		NOT WILLING TO PAY	NO ANSWER

9. This question deals with four possible <u>problems</u> that your library may encounter when obtaining and using federal information from <u>ON-LINE DATA BASES</u>, either (A) directly from federal sources, or (B) indirectly from non-federal sources. How much of a problem, if any, are these four factors for your library as a user of federal information from <u>on-line data bases</u> for the following types of publications from these sources?

RESPONSE SCALE

- 1 = A very great problem
- 2 = A great problem
- 3 = A moderate problem
- 4 = Some problem
- 5 = Little or no problem
- 6 = Do not use this document from on-line data bases from this source

SOURCE CODE

- (A) Directly from federal sources
- (B) Indirectly from non-federal sources

percent of the total 13,352 libraries. A copy of the questionnaire follows that is annotated to show these libraries' overall responses to each questionnaire item in percentages. The overall survey results are subject to a sampling error of not more than 6 percent at the 95-percent confidence level. Totals may not add to 100 percent due to rounding.

GENERAL LIBRARIES METHODOLOGY AND SURVEY RESULTS

Between March 8, 1988, and May 13, 1988, we did a mail survey of public, college, and corporate libraries.

METHODOLOGY

From the R. R. Bowker Company, which publishes The American Library Directory, we purchased a computer tape containing a systematic sample taken from mailing lists this company maintains from the five categories shown below. JCP and OTA agreed with this approach.

Table IV.1:
Number of General Libraries by Type

Type of library	Number	shown	in	category
Public libraries		8,88	3 4	
College and university (Main/4 years)		1,88	37	
Junior college libraries	S	1,13	79	
Corporate business libra	aries	92	29	
Corporate technical lib	raries	_1,80	<u>)6</u> a	
Total		14,68	<u>3 5</u>	

aIn the Bowker listing, corporate and government technical libraries are shown together and total 1,819. As a result of our interest in nonfederal libraries, we asked that government libraries be deleted from this number. Bowker's List Manager told us that the number of corporate technical libraries is 1,806 and this is the number we used.

We asked that a systematic sample 1 be taken from this list of 14,685 libraries in the various types. As a result, 705 libraries were selected. The list we obtained contained one listing for a federal library and one duplicate entry which we

¹We randomly selected a starting point in the list of libraries, and then selected libraries at a fixed interval following that for our survey.

13. For these $\overline{\text{ON-LINE}}$ (immediate access) information services, assuming that there would be no charge other than the on-line access charge, which of the following charges would be the maximum hourly on-line access charge that your library would be willing to pay? (Check one box for each row.)

(Note: Assume that telecommunications charges are a part of the on-line access charge.)

TOTAL HOURLY ON-LINE ACCESS CHARGE

	\$1-\$9 PER HOUR	\$10-\$24 PER HOUR	\$25-\$49 PER HOUR	\$50-\$99 PER HOUR	\$100 OR MORE PER HOUR			NG NO ANSWER
ON-LINE ELECTRONIC INFORMATION SERVICES

8. This question deals with four possible <u>problems</u> that your library may encounter when obtaining and using federal information in <u>PAPER FORMAT</u>, either (A) directly from federal sources, or (B) indirectly from non-federal sources. How much of a problem, if any, are these four factors for your library as a user of federal information <u>in paper format</u> for the following types of publications from these sources?

RESPONSE SCALE

- 1 = A very great problem
- 2 = A great problem
- 3 = A moderate problem
- 4 = Some problem
- 5 = Little or no problem
- 6 = Do not use this document in paper format from this source

SOURCE CODE

- (A) Directly from federal sources
- (B) Indirectly from non-federal sources

REGIONAL DEPOSITORY LIBRARIES - METHODOLOGY AND SURVEY RESULTS

Between December 30, 1987, and March 16, 1988, we did a mail survey of the 51 regional depository libraries in GPO's depository library program. These libraries are required by law (44 U.S.C. 1912) to receive from GPO copies of all new and revised government publications authorized for distribution to depository libraries.

METHODOLOGY

Questionnaires were sent to each of the 51 regional depository libraries identified on a computer tape of all federal depository libraries, other than map depositories, we obtained from GPO.

To assure the greatest possible participation, we sent one additional request after the initial mailing.

SURVEY RESULTS

Of the 51 libraries mailed questionnaires, 46 responded for a response rate of 90 percent. A copy of the questionnaire follows that is annotated to show the overall responses for this group of 46 regional depository libraries. Results are expressed in percentages. Totals may not add to 100 percent due to rounding.

OBJECTIVE, SCOPE, AND METHODOLOGY

Our objective was to develop data on current experiences and future expectations of selected nonfederal users in obtaining and using federal information. This information was to assist the Joint Committee on Printing (JCP) and others in determining if and how technology might help meet these needs. 1

Through a questionnaire we obtained data from selected users of federal information who were not part of the federal government. In conjunction with JCP, we determined that various categories of libraries and associations were appropriate groups to sample. We selected all regional depository libraries and used statistical sampling techniques to select potential respondents from four other groups of nonfederal users of federal information. The other groups were

- -- selective depository libraries;
- -- other nonfederal libraries such as public, university and college, and corporate libraries;
- -- scientific and technical associations; and
- -- general associations, categorized as being trade, business, and commercial organizations; agricultural organizations and commodity exchanges; legal, governmental, public administration, and military organizations; educational organizations; social welfare organizations; health and medical organizations; public affairs organizations; and labor unions, associations, and federations.

We received completed responses from

- -- 46 regional depository libraries;
- -- 357 selective depository libraries;

¹This fact sheet is a companion to our earlier fact sheet, Federal Information: Agency Needs and Practices (GAO/GGD-88-115FS, Sept. 20, 1988). The earlier fact sheet contains information we obtained directly from federal departments and agencies to help assess their current efforts and their plans for disseminating information in new formats made possible by technological advances.

- -- Regional depository libraries, 46 responses.
- -- Selective depository libraries, 357 responses.
- -- General libraries, 436 responses.
- -- Scientific and technical associations, 149 responses.
- -- General associations, 173 responses.

As agreed with the Committee, information in this fact sheet is limited to a compilation of library and association questionnaire responses. We edited responses for completeness and internal consistency. However, we did not independently verify the accuracy of the responses.

Appendix I describes our objective, scope, and overall methodology. Appendixes II through VI each contain the specific methodology and the aggregate questionnaire results for one of the five groups surveyed. A glossary of terms included in the questionnaire is contained in appendix VII.

As agreed with the Committee, we are sending copies to interested parties and making copies available to others upon request. The major contributors to this fact sheet are listed in appendix VIII.

Sincerely yours,

L. Nye Stevens Associate Director
