#### 2003 REGION TO REGION

#### PUBLIC DOMAIN DATA BASE

by Origin

# WATERBORNE COMMERCE STATISTICS CENTER P.O. BOX 61280 NEW ORLEANS, LA 70161

(504) 862-1404

The following data reflects the movement from region to region of a commodity by tonnage. In order to protect the confidentiality of the data provided by individual companies, the following procedures were implemented.

#### PROCEDURE 1:

Specific commodities were changed to more general categories. For example sugar becomes labled as "Food and Food Products," sulphur becomes "Chemicals excluding Fertilizer," and gasoline becomes a "Petroleum Product."

#### PROCEDURE 2:

If three or more vessel operating companies do not carry a particular commodity from a region of origin to a region of destination, then that commodity is reclassified to "Unknown and Not Elsewhere Classified Products." For example, if only two companies carry farm products from the Tennesse River to the Arkansas River, the tonnage for those farm products would be classified under "Unknown and Not Elsewhere Classified Products."

Public Domain Database Region Codes and descriptions that are included in this database.

| Reg | ion                             | Region Description *                                                           |
|-----|---------------------------------|--------------------------------------------------------------------------------|

|     |                                 |                                                                                |

\* All tributaries are included in the above regions. For example, the Arkansas river includes the Verdigris, White and Black Rivers.

Includes Intransit Merchandise: Inbound merchandise coming into the United Regions from a foreign country without having been entered as an import. Intransit merchandise is treated as an IMPORT when unloaded from a vessel and as an EXPORT when loaded onto a vessel.
