

Hunting Migratory Birds?

Get HIP!

Registration with the Harvest Information Program is required for all migratory bird hunters.

Information you may be asked to provide about your hunting season helps wildlife managers protect the health of migratory bird populations, ensuring continued hunting opportunities in the future.

For more information on the HIP program, ask a store employee or call the U.S. Fish & Wildlife Service at 1 800/419 2965. Information can also be found online at <http://hunting.fws.gov>.
