**MEMORANDUM FOR THE RECORD**

**FROM:** Raymond Hall

**SUBJECT:** Annual Weapons List

Attached is the current version of "Selected Weapons Costs from the President's 1992/1993 Program." The primary sources for the budget authority and quantities were the Congressional Data Sheets (CDS) and the Selected Acquisition Reports (SAR). CBO outlay rates were used to estimate the outlays. The column labeled outlays beyond the FYDP assumes that 100 percent of the budget authority will be spent. Historical outlays indicate that slightly less than 100 percent of the budget authority will actually be spent. The attached list is organized by service, with Army weapons data starting on page A-1, Navy and Marine Corps data starting on page N-1, and Air Force data starting on page F-1. Joint service or DoD programs are included at the end, starting on page J-1. An asterisk "\*" indicates that the data are classified.

On April 26, 1991, the President submitted to Congress amendments to the 1992/1993 request for appropriations, changes which would help fund the Department's restructured naval aviation plan and provide for adjustments in funding for other Defense programs. The "Weapons List" reflects these budget changes for the appropriate programs as indicated for fiscal years 1992 through 1997.
