

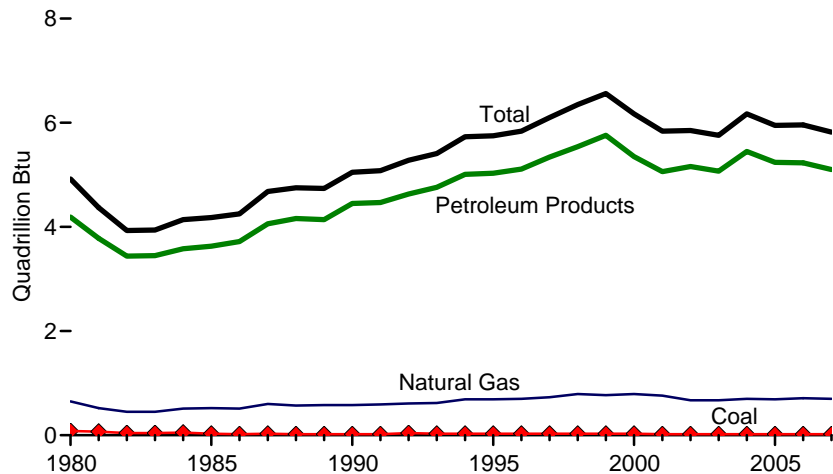

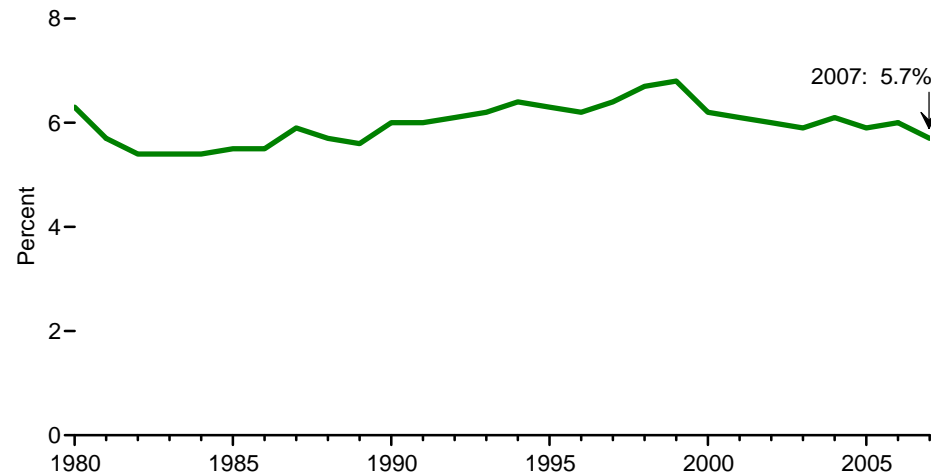

Figure 1.15 Fossil Fuel Consumption for Nonfuel Use

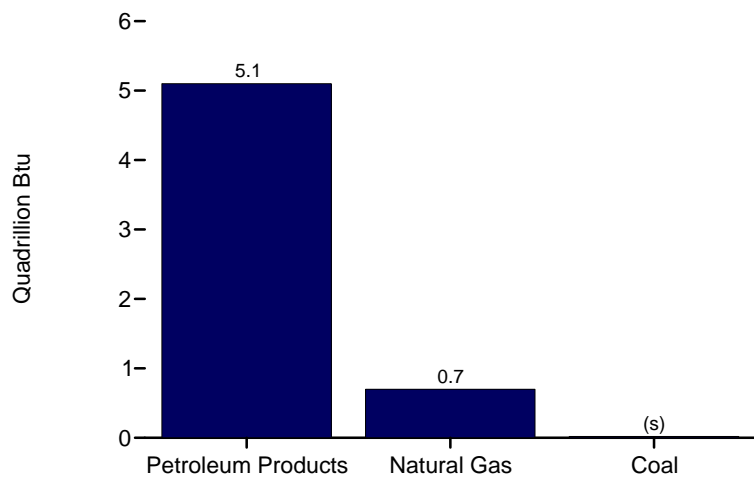

Total, 1980-2007

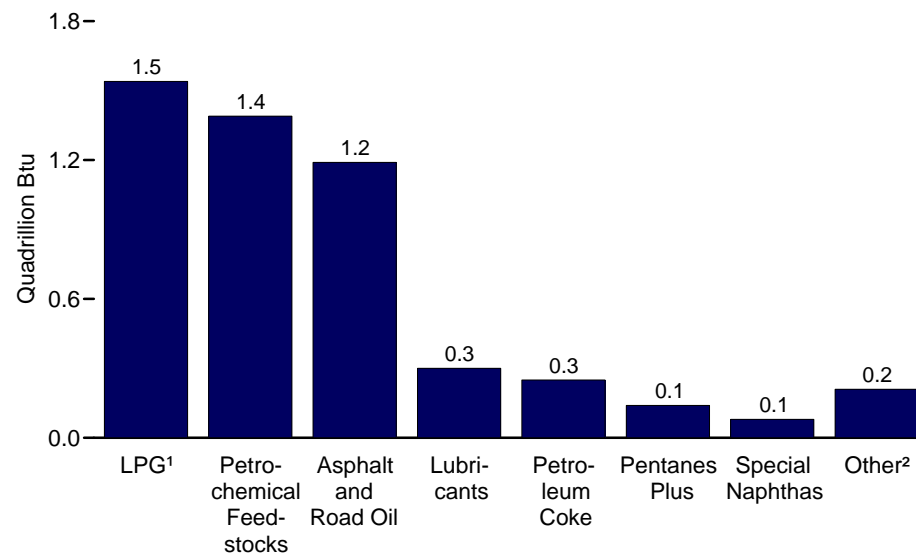

As Share of Total Energy Consumption, 1980-2007

By Fuel, 2007

By Petroleum Product, 2007

¹ Liquefied petroleum gases.

² Distillate fuel oil, residual fuel oil, waxes, and miscellaneous products.

(s)=Less than 0.05 quadrillion Btu.

Notes: • See Note 3, "Nonfuel Use of Fossil Fuels," at end of section. • Because vertical scales differ, graphs should not be compared.
