

Estimated Temperatures at 10 Kilometers

Legend

- Rivers
- Lakes
- Geopressure Zones
- Sediment Thickness - Contour Interval 1500m

Map Prepared by the Idaho National Laboratory Geothermal Technologies Program and Idaho National Laboratory Geospatial Science & Engineering

Temperature data provided by:
 Southern Methodist University Geothermal Laboratory as of July 2005
<http://www.smu.edu/geothermal>

Geopressured potential data from U.S.G.S. Circular 790 Map
 "Geopressured - Geothermal Energy in Reservoir Fluids of the Northern Gulf of Mexico Basin"
