^a The electric power sector comprises electricity-only and combined-heat-power (CHP) within the North American Industry Classification System (NAICS) 22 category whose primary business is to sell electricity, or electricity and heat, to the public.

^b Agriculture byproducts/crops, sludge waste, tires, and other biomass solids, liquids and gases.

^c Ethanol primarily derived from corn.

P=Preliminary.

Note: Data revisions are discussed in the Highlights section. Totals may not equal sum. of components due to independent rounding.
