Subtitle B—Army Programs

SEC. 111. ARMY HELICOPTER MODERNIZATION PLAN.

(a) **LIMITATION.**—Not more than 80 percent of the total of the amounts authorized to be appropriated pursuant to section 101(1), 105(1), and 105(3) for modifications or upgrades of helicopters may be obligated before the date that is 30 days after the date on which the Secretary of the Army submits to the congressional defense committees a comprehensive plan for the modernization of the Army's helicopter fleet.

(b) **CONTENT OF PLAN.**—The plan required by subsection (a) shall include the following:

(1) A detailed assessment of the Army's present and future helicopter requirements and present and future helicopter inventory, including number of aircraft, age of aircraft, availability of spare parts, flight hour costs, roles and functions assigned to the fleet as a whole and to its individual types of aircraft, and the mix of active component aircraft and reserve component aircraft in the fleet.

(2) Estimates and analysis of requirements and funding proposed for procurement of new aircraft.

(3) *An analysis of the requirements for and funding proposed for extended service plans or service life extension plans for fleet aircraft.*

(4) *A plan for retiring aircraft no longer required or capable of performing assigned functions, including a discussion of opportunities to eliminate older aircraft models and to focus future funding on current or future generation aircraft.*

(5) *The implications of the plan for the defense industrial base.*

(c) **RELATIONSHIP TO FUTURE-YEARS DEFENSE PROGRAM.**—*The Secretary of the Army shall design the plan under subsection (a) so that the plan could be implemented within the funding levels expected to be available for Army aircraft programs in the next future-years defense program to be submitted to Congress pursuant to section 221(a) of title 10, United States Code. The Secretary shall include in the plan a certification that the program of the Army prepared for inclusion in the future-years defense program submitted to Congress in 1998 pursuant to section 221(a) of title 10, United States Code, included full funding for implementation of the plan.*

SEC. 112. MULTIYEAR PROCUREMENT AUTHORITY FOR SPECIFIED ARMY PROGRAMS.

(a) **AH-64D LONGBOW APACHE FIRE CONTROL RADAR.**—*Beginning with the fiscal year 1998 program year, the Secretary of the Army may, in accordance with section 2306b of title 10, United States Code, enter into a multiyear procurement contract for procurement of the AH-64D Longbow Apache fire control radar.*

(b) **MEDIUM TACTICAL VEHICLES.**—*Beginning with the fiscal year 1998 program year, the Secretary of the Army may, in accordance with section 2306b of title 10, United States Code, enter into a multiyear procurement contract for procurement of vehicles of the Family of Medium Tactical Vehicles. The contract may be for a term of four years and may include an option to extend the contract for one additional year.*

SEC. 113. M113 VEHICLE MODIFICATIONS.

Of the amount made available for the Army pursuant to section 101(3), \$35,244,000 shall be available only for the procurement and installation of A3 upgrade kits for the M113 vehicle.

Subtitle C—Navy Programs

SEC. 121. NEW ATTACK SUBMARINE PROGRAM.

(a) **AMOUNTS AUTHORIZED FROM SCN ACCOUNT.**—*Of the amounts authorized to be appropriated by section 102(a)(3) for fiscal year 1998, \$2,599,800,000 is available for the New Attack Submarine Program.*

(b) **CONTRACT AUTHORITY.**—(1) *The Secretary of the Navy may enter into a contract for the procurement of four submarines under the New Attack Submarine program.*

(2) *Any contract entered into under paragraph (1)—*

(A) shall, notwithstanding section 2304(k) of title 10, United States Code, be awarded to one of the two eligible shipbuilders as the prime contractor on the condition that the prime contractor enter into one or more subcontracts (under such

prime contract) with the other of the two eligible shipbuilders as contemplated in the New Attack Submarine Team Agreement; and

(B) shall provide for—

(i) construction of the first submarine in fiscal year 1998; and

(ii) advance construction and advance procurement of materiel for the second, third, and fourth submarines in fiscal year 1998.

(3) The following shipbuilders are eligible for a contract under this subsection:

(A) The Electric Boat Corporation.

(B) The Newport News Shipbuilding and Drydock Company.

(4) In paragraph (2)(A), the term “New Attack Submarine Team Agreement” means the agreement known as the Team Agreement between Electric Boat Corporation and Newport News Shipbuilding and Drydock Company, dated February 25, 1997, that was submitted to Congress by the Secretary of the Navy on March 31, 1997.

(c) *LIMITATION OF LIABILITY.*—If a contract entered into under this section is terminated, the United States shall not be liable for termination costs in excess of the total amount appropriated for the New Attack Submarine program.

(d) *REPEALS OF SUPERSEDED PROVISIONS OF PREVIOUS DEFENSE AUTHORIZATION LAWS.*—(1) Section 131 of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104–106; 110 Stat. 206) is amended—

(A) in subsection (a)(1)(B)—

(i) in clause (i), by striking out “, which shall be built by Electric Boat Division”; and

(ii) in clause (ii), by striking out “, which shall be built by Newport News Shipbuilding”; and

(B) in subsection (b), by striking out paragraph (1).

(2) Section 121 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201; 110 Stat. 2441) is amended—

(A) in subsection (a)—

(i) in paragraph (1)(B), by striking out “to be built by Electric Boat Division”; and

(ii) in paragraph (1)(C), by striking out “to be built by Newport News Shipbuilding”;

(B) in subsection (d), by striking out paragraph (2);

(C) in subsection (e), by striking out paragraph (1); and

(D) in subsection (g), by striking out “the committees specified in subsection (e)(1)” in paragraphs (3) and (4) and inserting in lieu thereof “the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives”.

(e) *INAPPLICABILITY OF SUPERSEDED ASPECTS OF ATTACK SUBMARINE DEVELOPMENT PLAN.*—The Secretary of Defense and the Secretary of the Navy are not required to carry out the portions of the program plan submitted under subsection (c) of section 131 of the National Defense Authorization Act for Fiscal Year 1996 that

are included in the plan pursuant to subparagraphs (A), (B), and (E) of paragraph (2) of such subsection.

SEC. 122. CVN-77 NUCLEAR AIRCRAFT CARRIER PROGRAM.

(a) *AUTHORIZATION OF SHIP.*—The Secretary of the Navy is authorized to procure the aircraft carrier to be designated CVN-77, subject to the availability of appropriations for that purpose.

(b) *AMOUNT AUTHORIZED FROM SCN ACCOUNT.*—Of the amount authorized to be appropriated by section 102(a)(3) for fiscal year 1998, \$50,000,000 is available for the advance procurement and advance construction of components (including nuclear components) for the CVN-77 aircraft carrier program. The Secretary of the Navy may enter into a contract or contracts with the shipbuilder and other entities for the advance procurement and advance construction of those components.

(c) *OTHER FUNDS.*—Of the funds authorized to be appropriated under this Act for programs, projects, and activities of the military departments and Defense Agencies, other than the CVN-77 aircraft carrier program, up to \$295,000,000 may be made available, as the Secretary of Defense may direct, for the CVN-77 aircraft carrier program. Authority to make transfers under this subsection is in addition to the transfer authority provided in section 1001.

(d) *MANAGEMENT OF FUNDS.*—The Secretary of the Navy shall obligate and expend the funds available for advance procurement and advance construction of components for the CVN-77 aircraft carrier program for fiscal year 1998 in a manner that is designed to result in such cost savings as may be required in order to meet the cost limitation specified in subsection (f).

(e) *ADJUSTMENTS TO FUTURE-YEARS DEFENSE PROGRAM.*—The Secretary of Defense shall make such plans for the CVN-77 aircraft carrier program as are necessary to attain for the program the cost savings that are contemplated for the procurement of the CVN-77 aircraft carrier in the March 1997 procurement plan.

(f) *LIMITATION ON TOTAL COST OF PROCUREMENT.*—(1) The Secretary of the Navy shall structure the program for the procurement of the CVN-77 aircraft carrier, and shall manage that program, so that the total cost of the procurement of the CVN-77 aircraft carrier does not exceed \$4,600,000,000 (such amount being the estimated cost for the procurement of the CVN-77 aircraft carrier in the March 1997 procurement plan).

(2) The Secretary of the Navy may adjust the amount set forth in paragraph (1) for the CVN-77 aircraft carrier program by the following:

(A) The amounts of outfitting costs and post-delivery costs incurred for the program.

(B) The amounts of increases or decreases in costs attributable to economic inflation after September 30, 1997.

(C) The amounts of increases or decreases in costs attributable to compliance with changes in Federal, State, or local laws enacted after September 30, 1997.

(D) The amounts of increases or decreases in costs of the program that are attributable to new technology built into the CVN-77 aircraft carrier, as compared to the technology built into the baseline design of the CVN-76 aircraft carrier.

(E) *The amounts of increases or decreases in costs resulting from changes the Secretary proposes in the funding plan (as contemplated in the March 1997 procurement plan) on which the projected savings are based.*

(3) *The Secretary of the Navy shall annually submit to Congress, at the same time as the budget is submitted under section 1105(a) of title 31, United States Code, written notice of any change in the amount set forth in paragraph (1) during the preceding fiscal year that the Secretary has determined to be associated with a cost referred to in paragraph (2).*

(g) **MARCH 1997 PROCUREMENT PLAN DEFINED.**—*In this section, the term “March 1997 procurement plan” means the procurement plan for the CVN-77 aircraft carrier that was submitted to the Navy and Congress by the shipbuilder in March 1997.*

SEC. 123. EXCLUSION FROM COST LIMITATION FOR SEAWOLF SUBMARINE PROGRAM.

(a) **AUTHORITY TO EXCLUDE AMOUNTS APPROPRIATED FOR CANCELED VESSELS.**—(1) *The Secretary of the Navy may exclude from the application of the cost limitation for the Seawolf submarine program such amounts, not in excess of \$272,400,000, as were appropriated for fiscal years 1990, 1991, and 1992 for procurement of Seawolf-class submarines that have been canceled.*

(2) *For the purposes of this subsection, the term “cost limitation for the Seawolf submarine program” means the limitation in section 133(a) of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104-106; 110 Stat. 211).*

(b) **DETERMINATION AND REPORT BY INSPECTOR GENERAL.**—(1) *Not later than March 30, 1998, the Inspector General of the Department of Defense shall submit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a report containing the Inspector General’s determination as to whether any further exclusion from, adjustment to exclusion from, or increase in the dollar amount of the cost limitation referred to in subsection (a) will be required.*

(2) *The Inspector General shall include in the report the following:*

(A) *A thorough and comprehensive accounting for the amount of \$745,400,000 identified by the Secretary of the Navy as having been obligated or expended for the detailed design for Seawolf-class submarines that have been canceled and for the procurement of nuclear components and construction spare parts for those canceled submarines, including a statement of the current disposition of items specifically purchased using those funds.*

(B) *Cost growth, if any, in the cost of construction of the SSN-21, SSN-22, and SSN-23 Seawolf-class submarines that has not been reported to Congress before the date of the report of the Inspector General.*

(C) *The current cost estimate of the Secretary of the Navy for completion of the SSN-21, SSN-22, and SSN-23 Seawolf-class submarines.*

(3) *The Inspector General shall include in the report such supporting information and analyses as the Inspector General considers*

appropriate for aiding in understanding the determination and findings of the Inspector General.

Subtitle D—Air Force Programs

SEC. 131. AUTHORIZATION FOR B-2 BOMBER PROGRAM.

(a) *FUNDING AVAILABILITY.*—Of the funds made available for procurement of aircraft for the Air Force for fiscal year 1998, the amount of \$331,000,000 is available for long-lead activities related to the procurement of additional B-2 bomber aircraft. However, if the President determines that no additional B-2 bombers should be procured during fiscal year 1998 and certifies that decision to Congress, the funding authorized in the preceding sentence shall be made available to modify and repair the existing fleet of B-2 bomber aircraft.

(b) *SECRETARY OF DEFENSE TO PRESERVE OPTIONS OF PRESIDENT.*—The Secretary of Defense shall ensure that all appropriate actions are taken to preserve the options of the President until the panel to review long-range airpower established by section 8131 of the Department of Defense Appropriations Act, 1998 (Public Law 105-56; 111 Stat. 1249), submits its report.

SEC. 132. ALR RADAR WARNING RECEIVERS.

(a) *COST AND OPERATION EFFECTIVENESS ANALYSIS.*—The Secretary of the Air Force shall conduct a cost and operation effectiveness analysis of upgrading the ALR69 radar warning receiver as compared with the further acquisition of the ALR56M radar warning receiver.

(b) *SUBMISSION TO CONGRESS.*—The Secretary shall submit the cost and operation effectiveness analysis to the congressional defense committees not later than April 2, 1998.

SEC. 133. ANALYSIS OF REQUIREMENTS FOR REPLACEMENT OF ENGINES ON MILITARY AIRCRAFT DERIVED FROM BOEING 707 AIRCRAFT.

(a) *ANALYSIS REQUIRED.*—The Secretary of Defense shall submit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives an analysis, to be carried out by the Under Secretary of Defense for Acquisition and Technology, of the requirements of the Department of Defense for replacing engines on the aircraft of the Department of Defense that are derived from the Boeing 707 aircraft and the costs of meeting those requirements.

(b) *CONTENT.*—The analysis shall include the following:

(1) The number of aircraft described in subsection (a) that are in the inventory of the Department of Defense as of October 1, 1997, and the number of such aircraft that are projected to be in the inventory of the Department as of October 1, 2002, as of October 1, 2007, and as of October 1, 2012.

(2) For each type of such aircraft, the estimated cost of operating the aircraft for each fiscal year beginning with fiscal year 1998 and ending with fiscal year 2014, taking into account historical patterns of usage and projected support costs.

(3) For each type of such aircraft, the estimated costs and the benefits of replacing the engines on the aircraft, analyzed on

the basis of the experience under the limited program for replacing the engines on RC-135 aircraft that was undertaken during fiscal years 1995, 1996, and 1997.

(4) Various plans for replacement of engines that the Under Secretary considers best on the basis of costs and benefits.

(c) SUBMISSION DEADLINE.—The analysis under subsection (a) shall be submitted not later than March 1, 1998.

Subtitle E—Other Matters

SEC. 141. PILOT PROGRAM ON SALES OF MANUFACTURED ARTICLES AND SERVICES OF CERTAIN ARMY INDUSTRIAL FACILITIES WITHOUT REGARD TO AVAILABILITY FROM DOMESTIC SOURCES.

(a) PILOT PROGRAM REQUIRED.—During fiscal years 1998 and 1999, the Secretary of the Army shall carry out a pilot program to test the efficacy and appropriateness of selling manufactured articles and services of Army industrial facilities under section 4543 of title 10, United States Code, without regard to the availability of the articles and services from United States commercial sources. In carrying out the pilot program, the Secretary may use articles manufactured at, and services provided by, not more than three Army industrial facilities.

(b) TEMPORARY WAIVER OF REQUIREMENT FOR DETERMINATION OF UNAVAILABILITY FROM DOMESTIC SOURCE.—Under the pilot program, the Secretary of the Army is not required under section 4543(a)(5) of title 10, United States Code, to determine whether an article or service is available from a commercial source located in the United States in the case of any of the following sales for which a solicitation of offers is issued during fiscal year 1998 or 1999:

(1) A sale of articles to be incorporated into a weapon system being procured by the Department of Defense.

(2) A sale of services to be used in the manufacture of a weapon system being procured by the Department of Defense.

(c) REVIEW BY INSPECTOR GENERAL.—The Inspector General of the Department of Defense shall review the experience under the pilot program under this section and, not later than July 1, 1999, submit to Congress a report on the results of the review. The report shall contain the following:

(1) The Inspector General's views regarding the extent to which the waiver under subsection (b) enhances the opportunity for United States manufacturers, assemblers, developers, and other concerns to enter into or participate in contracts and teaming arrangements with Army industrial facilities under weapon system programs of the Department of Defense.

(2) The Inspector General's views regarding the extent to which the waiver under subsection (b) enhances the opportunity for Army industrial facilities referred to in section 4543(a) of title 10, United States Code, to enter into or participate in contracts and teaming arrangements with United States manufacturers, assemblers, developers, and other concerns under weapon system programs of the Department of Defense.

(3) The Inspector General's views regarding the effect of the waiver under subsection (b) on the ability of small businesses

to compete for the sale of manufactured articles or services in the United States in competitions to enter into or participate in contracts and teaming arrangements under weapon system programs of the Department of Defense.

(4) Specific examples under the pilot program that support the Inspector General's views.

(5) Any other information that the Inspector General considers pertinent regarding the effects of the waiver of section 4543(a)(5) of title 10, United States Code, under the pilot program on opportunities for United States manufacturers, assemblers, developers, or other concerns, and for Army industrial facilities, to enter into or participate in contracts and teaming arrangements under weapon system programs of the Department of Defense.

(6) Any recommendations that the Inspector General considers appropriate regarding continuation or modification of the policy set forth in section 4543(a)(5) of title 10, United States Code.

SEC. 142. NATO JOINT SURVEILLANCE/TARGET ATTACK RADAR SYSTEM.

(a) FUNDING.—Amounts authorized to be appropriated under this title and title II are available for a NATO alliance ground surveillance capability that is based on the Joint Surveillance/Target Attack Radar System of the United States, as follows:

(1) Of the amount authorized to be appropriated under section 101(5), \$26,153,000.

(2) Of the amount authorized to be appropriated under section 103(1), \$10,000,000.

(3) Of the amount authorized to be appropriated under section 201(1), \$13,500,000.

(4) Of the amount authorized to be appropriated under section 201(3), \$26,061,000.

(b) AUTHORITY.—(1) Subject to paragraph (2), the Secretary of Defense may utilize authority under section 2350b of title 10, United States Code, for contracting for the purposes of Phase I of a NATO Alliance Ground Surveillance capability that is based on the Joint Surveillance/Target Attack Radar System of the United States, notwithstanding the condition in such section that the authority be utilized for carrying out contracts or obligations incurred under section 27(d) of the Arms Export Control Act (22 U.S.C. 2767(d)).

(2) The authority under paragraph (1) applies during the period that the conclusion of a cooperative project agreement for a NATO Alliance Ground Surveillance capability under section 27(d) of the Arms Export Control Act is pending, as determined by the Secretary of Defense.

(c) MODIFICATION OF AIR FORCE AIRCRAFT.—Amounts available pursuant to paragraphs (2) and (4) of subsection (a) may be used to provide for modifying two Air Force Joint Surveillance/Target Attack Radar System production aircraft to have a NATO Alliance Ground Surveillance capability that is based on the Joint Surveillance/Target Attack Radar System of the United States.

SEC. 201. AUTHORIZATION OF APPROPRIATIONS.

Funds are hereby authorized to be appropriated for fiscal year 1998 for the use of the Department of Defense for research, development, test, and evaluation as follows:

- (1) *For the Army, \$4,633,495,000.*
- (2) *For the Navy, \$7,774,877,000.*
- (3) *For the Air Force, \$14,338,934,000.*
- (4) *For Defense-wide activities, \$9,831,646,000, of which—*
 - (A) *\$258,183,000 is authorized for the activities of the Director, Test and Evaluation; and*
 - (B) *\$27,384,000 is authorized for the Director of Operational Test and Evaluation.*

SEC. 202. AMOUNT FOR BASIC AND APPLIED RESEARCH.

(a) *FISCAL YEAR 1998.*—Of the amounts authorized to be appropriated by section 201, \$3,935,390,000 shall be available for basic research and applied research projects.

(b) *BASIC RESEARCH AND APPLIED RESEARCH DEFINED.*—For purposes of this section, the term “basic research and applied research” means work funded in program elements for defense research and development under Department of Defense category 6.1 or 6.2.

SEC. 203. DUAL-USE SCIENCE AND TECHNOLOGY PROGRAM.

(a) *FUNDING 1998.*—Of the amounts authorized to be appropriated by section 201, \$75,000,000 is authorized for dual-use projects.

(b) *GOALS.*—(1) Subject to paragraph (3), it shall be the objective of the Secretary of each military department to obligate for dual-use projects in each fiscal year referred to in paragraph (2), out of the total amount authorized to be appropriated for such fiscal year for the applied research programs of the military department, the percent of such amount that is specified for that fiscal year in paragraph (2).

(2) The objectives for fiscal years under paragraph (1) are as follows:

- (A) For fiscal year 1998, 5 percent.
- (B) For fiscal year 1999, 7 percent.
- (C) For fiscal year 2000, 10 percent.
- (D) For fiscal year 2001, 15 percent.

(3) The Secretary of Defense may establish for a military department for a fiscal year an objective different from the objective set forth in paragraph (2) if the Secretary—

- (A) determines that compelling national security considerations require the establishment of the different objective; and
- (2) notifies Congress of the determination and the reasons for the determination.

(c) *DESIGNATION OF OFFICIAL FOR DUAL-USE PROGRAMS.*—(1) The Secretary of Defense shall designate a senior official in the Office of the Secretary of Defense to carry out responsibilities for dual-use projects under this subsection. The designated official shall report directly to the Under Secretary of Defense for Acquisition and Technology.

(2) The primary responsibilities of the designated official shall include developing policy and overseeing the establishment of, and adherence to, procedures for ensuring that dual-use projects are initiated and administered effectively and that applicable commercial technologies are integrated into current and future military systems.

(3) In carrying out the responsibilities, the designated official shall ensure that—

- (A) dual-use projects are consistent with the joint warfighting science and technology plan referred to in section 270 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201; 10 U.S.C. 2501 note); and
- (B) the dual-use projects of the military departments and defense agencies of the Department of Defense are coordinated and avoid unnecessary duplication.

(d) *FINANCIAL COMMITMENT OF NON-FEDERAL GOVERNMENT PARTICIPANTS.*—The total amount of funds provided by a military department for a dual-use project entered into by the Secretary of that department shall not exceed 50 percent of the total cost of the project. In the case of a dual-use project initiated after the date of the enactment of this Act, the Secretary may consider in-kind contributions by non-Federal participants only to the extent such contributions constitute 50 percent or less of the share of the project costs by such participants.

(e) *USE OF COMPETITIVE PROCEDURES.*—Funds obligated for a dual-use project may be counted toward meeting an objective under subsection (a) only if the funds are obligated for a contract, grant, cooperative agreement, or other transaction that was entered into through the use of competitive procedures.

(f) *REPORT.*—(1) Not later than March 1 of each of 1998, 1999, and 2000, the Secretary of Defense shall submit a report to the congressional defense committees on the progress made by the Department of Defense in meeting the objectives set forth in subsection (b) during the preceding fiscal year.

(2) The report for a fiscal year shall contain, at a minimum, the following:

(A) The aggregate value of all contracts, grants, cooperative agreements, or other transactions entered into during the fiscal year for which funding is counted toward meeting an objective under this section, expressed in relationship to the total amount appropriated for the applied research programs in the Department of Defense for that fiscal year.

(B) For each military department, the value of all contracts, grants, cooperative agreements, or other transactions entered into during the fiscal year for which funding is counted toward meeting an objective under this section, expressed in relationship to the total amount appropriated for the applied research program of the military department for that fiscal year.

(C) A summary of the cost-sharing arrangements in dual-use projects that were initiated during the fiscal year and are counted toward reaching an objective under this section.

(D) A description of the regulations, directives, or other procedures that have been issued by the Secretary of Defense or the Secretary of a military department to increase the percentage of the total value of the dual-use projects undertaken to meet or exceed an objective under this section.

(E) Any recommended legislation to facilitate achievement of objectives under this section.

(g) *COMMERCIAL OPERATIONS AND SUPPORT SAVINGS INITIATIVE.*—(1) The Secretary of Defense shall establish a Commercial Operations and Support Savings Initiative (in this subsection referred to as the “Initiative”) to develop commercial products and processes that the military departments can incorporate into operational military systems to reduce costs of operations and support.

(2) Of the amounts authorized to be appropriated by section 201, \$50,000,000 is authorized for the Initiative.

(3) Projects and participants in the Initiative shall be selected through the use of competitive procedures.

(4) *The budget submitted to Congress by the President for fiscal year 1999 and each fiscal year thereafter pursuant to section 1105(a) of title 31, United States Code, shall set forth separately the funding request for the Initiative.*

(h) *REPEAL OF SUPERSEDED AUTHORITY.—Section 203 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201; 110 Stat. 2451) is repealed.*

(i) *DEFINITIONS.—In this section:*

(1) *The term “applied research program” means a program of a military department which is funded under the 6.2 Research, Development, Test and Evaluation account of that department.*

(2) *The term “dual-use project” means a project under a program of a military department or a defense agency under which research or development of a dual-use technology is carried out and the costs of which are shared by the Department of Defense and non-Government entities.*

SEC. 204. REDUCTION IN AMOUNT FOR FEDERALLY FUNDED RESEARCH AND DEVELOPMENT CENTERS.

The total of the amounts authorized to be appropriated in section 201 that are available for Federally Funded Research and Development Centers (other than amounts for capital equipment investment) is hereby reduced by \$42,000,000.

Subtitle B—Program Requirements, Restrictions, and Limitations

SEC. 211. MANUFACTURING TECHNOLOGY PROGRAM.

(a) *PARTICIPATION OF MANUFACTURERS.—Section 2525(c)(2) of title 10, United States Code, is amended to read as follows:*

“(2) In order to promote increased dissemination and use of manufacturing technology throughout the national defense technology and industrial base, the Secretary shall seek, to the maximum extent practicable, the participation of manufacturers of manufacturing equipment in the projects under the program.”.

(b) *FIVE-YEAR PLAN.—Section 2525 of such title is amended by adding at the end the following new subsection:*

“(e) FIVE-YEAR PLAN.—(1) The Secretary of Defense shall prepare a five-year plan for the program which establishes—

“(A) the overall manufacturing technology goals, milestones, priorities, and investment strategy for the program; and

“(B) for each of the five fiscal years covered by the plan, the objectives of, and funding for the program by, each military department and each Defense Agency participating in the program.

“(2) The plan shall include an assessment of the effectiveness of the program.

“(3) The plan shall be updated annually and shall be included in the budget justification documents submitted in support of the budget of the Department of Defense for a fiscal year (as included in the budget of the President submitted to Congress under section 1105 of title 31).”.

(c) *DEADLINE FOR FIRST PLAN.*—The Secretary of Defense shall prepare the first five-year plan required under section 2525(e) of such title, as added by subsection (b), within 60 days after the date of the enactment of this Act.

SEC. 212. REPORT ON OPERATIONAL FIELD ASSESSMENTS PROGRAM.

(a) *FINDING.*—Congress recognizes the potential value that the Department of Defense Operational Field Assessments program, which is managed by the Director of Operational Test and Evaluation, provides to the commanders of the Unified Combatant Commands with respect to assessment of the effectiveness of near-term operational concepts and critical operational issues in quick-response operational tests and evaluations.

(b) *REPORT.*—Not later than March 30, 1998, the Secretary of Defense shall submit to the congressional defense committees a report on the Operational Field Assessments program.

(c) *CONTENT OF REPORT.*—The report shall contain the following:

(1) A review of the Operational Field Assessments program which describes the goals and objectives of the program, assessments by the program conducted as of the date of the submission of the report, and the results of those assessments.

(2) A description of the current management and support structure of the program within the Department of Defense, including a description of how program responsibilities are assigned within the Office of the Secretary of Defense and a description of the roles of the Joint Staff, the commanders of the Unified Combatant Commands, and the military departments.

(3) An analysis of and recommendations regarding the management structure required within the Office of the Secretary of Defense to ensure that the program is responsive to the mission needs of the commanders of the Unified Combatant Commands.

(4) The funding plan for the program.

(5) A description of future plans for the program and funding requirements for those plans.

(6) Recommendations regarding additional statutory authority that may be required for the program.

SEC. 213. JOINT STRIKE FIGHTER PROGRAM.

(a) *REPORT.*—Not later than February 15, 1998, the Secretary of Defense shall submit to the congressional defense committees a report on the options for the sequence in which the variants of the joint strike fighter are to be produced and fielded.

(b) *CONTENT OF REPORT.*—The report shall contain the following:

(1) A review of the plan for production under the Joint Strike Fighter program that was used by the Department of Defense for developing the funding estimates for the fiscal year 1999 budget request for the Department of Defense.

(2) An estimate of the costs, and an analysis of the costs and benefits, of producing the joint strike fighter variants in a sequence that provides for fielding of the naval variant of the aircraft first.

(3) *A comparison of the costs and benefits of the various options for the sequence for fielding the variants of the joint strike fighter that the Secretary of Defense considers likely to be the options from among which a sequence for fielding is selected, including a discussion of the effects that selection of each such option would have on the costs and rates of production of the units of F/A-18E/F and F-22 aircraft that are in production when the Joint Strike Fighter Program proceeds into production.*

(4) *A certification that the Joint Strike Fighter Program contains sufficient funding to carry out an alternate engine development program that includes flight qualification of an alternate engine in a joint strike fighter airframe.*

(c) **LIMITATION ON USE OF FUNDS PENDING SUBMISSION OF REPORT.**—*Not more than 90 percent of the total amount authorized to be appropriated under this Act for the Joint Strike Fighter Program may be obligated until the date that is 30 days after the date on which the congressional defense committees receive the report required under this section.*

(d) **FISCAL YEAR 1998 BUDGET DEFINED.**—*In this section, the term “fiscal year 1999 budget request for the Department of Defense” means the budget estimates for the Department of Defense for fiscal year 1999 that were submitted to Congress by the Secretary of Defense in connection with the submission of the budget for fiscal year 1998 to Congress under section 1105 of title 31, United States Code.*

SEC. 214. KINETIC ENERGY TACTICAL ANTI-SATELLITE TECHNOLOGY PROGRAM.

Of the funds authorized to be appropriated under section 201(4), \$37,500,000 shall be available for the kinetic energy tactical anti-satellite technology program.

SEC. 215. MICRO-SATELLITE TECHNOLOGY DEVELOPMENT PROGRAM.

(a) **ESTABLISHMENT OF MICRO-SATELLITE TECHNOLOGY DEVELOPMENT PROGRAM.**—*The Secretary of Defense shall restructure the Clementine 2 micro-satellite development program into a micro-satellite technology development program that supports a range of space mission areas.*

(b) **REPORT.**—*Not later than February 15, 1998, the Secretary of Defense shall submit to the congressional defense committees a report describing the structure and objectives of the micro-satellite technology development program established under subsection (a) and how the program can benefit existing or future space systems or architectures.*

SEC. 216. HIGH ALTITUDE ENDURANCE UNMANNED VEHICLE PROGRAM.

(a) **LIMITATION ON TOTAL COST OF ADVANCED CONCEPT TECHNOLOGY DEMONSTRATION.**—*The total amount obligated or expended for advanced concept technology demonstration under the High Altitude Endurance Unmanned Vehicle Program for fiscal year 1998 through fiscal year 2003 may not exceed \$476,826,000.*

(b) **LIMITATION ON PROCUREMENT.**—*The Secretary of Defense may not procure any high altitude endurance unmanned vehicles, other than the currently planned vehicles, until the completion of*

the testing identified in phase II of the test and demonstration plan for the advanced concept technology demonstration for the vehicles.

(c) **LIMITATION ON PROCEEDING.**—The High Altitude Endurance Unmanned Vehicle Program may not proceed beyond advanced concept technology demonstration until the Secretary of Defense—

(1) provides to Congress a firm unit cost (referred to in this section as the “fly away cost”) for each of the currently planned vehicles; and

(2) certifies to Congress the military suitability and the worth of each such vehicle.

(d) **GAO REVIEW.**—(1) The Comptroller General shall review the High Altitude Endurance Unmanned Vehicle Program for purposes of determining whether the average fly away cost for each vehicle is within the cost goal under the program of \$10,000,000.

(2) The Secretary of Defense and the prime contractors under the High Altitude Endurance Unmanned Vehicle Program shall provide the Comptroller General with such information on the program as the Comptroller considers necessary to make the determination under paragraph (1).

(e) **CURRENTLY PLANNED VEHICLES.**—In this section, the term “currently planned vehicles” means the four Dark Star air vehicles and the five Global Hawk air vehicles that have been approved for procurement by the Secretary of Defense as of the date of the enactment of this Act.

SEC. 217. F-22 AIRCRAFT PROGRAM.

(a) **LIMITATION ON TOTAL COST OF ENGINEERING AND MANUFACTURING DEVELOPMENT.**—The total amount obligated or expended for engineering and manufacturing development under the F-22 aircraft program may not exceed \$18,688,000,000.

(b) **LIMITATION ON TOTAL COST OF PRODUCTION.**—The total amount obligated or expended for the F-22 production program may not exceed \$43,400,000,000.

(c) **ADJUSTMENT OF LIMITATION AMOUNTS.**—The Secretary of the Air Force shall adjust the amounts of the limitations set forth in subsections (a) and (b) by the following amounts:

(1) The amounts of increases or decreases in costs attributable to economic inflation after September 30, 1997.

(2) The amounts of increases or decreases in costs attributable to compliance with changes in Federal, State, or local laws enacted after September 30, 1997.

(d) **ANNUAL GAO REVIEW.**—(1) Not later than March 15 of each year, the Comptroller General shall review the F-22 aircraft program and submit to Congress a report on the results of the review. The Comptroller General shall also submit to Congress for each report a certification regarding whether the Comptroller General has had access to sufficient information to make informed judgments on the matters covered by the report.

(2) The report submitted on the program each year shall include the following:

(A) The extent to which engineering and manufacturing development under the program is meeting the goals established for engineering and manufacturing development under the program, including the performance, cost, and schedule goals.

(B) *The status of modifications expected to have a significant effect on cost or performance of F-22 aircraft.*

(C) *The plan for engineering and manufacturing development (leading to production) under the program for the fiscal year that begins in the following year.*

(D) *A conclusion regarding whether the plan referred to in subparagraph (C) is consistent with the limitation in subsection (a).*

(E) *A conclusion regarding whether engineering and manufacturing development (leading to production) under the program is likely to be completed at a total cost not in excess of the amount specified in subsection (a).*

(3) *The Comptroller General shall submit the first report under this subsection not later than March 15, 1998. No report is required under this subsection after engineering and manufacturing development under the program has been completed.*

(e) *REQUIREMENT TO SUPPORT ANNUAL GAO REVIEW.—The Secretary of Defense and the prime contractors under the F-22 aircraft program shall provide the Comptroller General with such information on the program as the Comptroller General considers necessary to carry out the responsibilities under subsection (d).*

(f) *LIMITATION ON OBLIGATION OF FUNDS.—Of the total amount authorized to be appropriated for the F-22 aircraft program for a fiscal year, not more than 90 percent of the amount may be obligated until the Comptroller General submits to Congress—*

(1) *the report required to be submitted in that fiscal year under subsection (d); and*

(2) *a certification regarding whether the Comptroller General has had access to sufficient information to make informed judgments on the matters covered by the report.*

Subtitle C—Ballistic Missile Defense Programs

SEC. 231. NATIONAL MISSILE DEFENSE PROGRAM.

(a) *PROGRAM STRUCTURE.—To preserve the option of achieving an initial operational capability in fiscal year 2003, the Secretary of Defense shall ensure that the National Missile Defense Program is structured and programmed for funding so as to support a test, in fiscal year 1999, of an integrated national missile defense system that is representative of the national missile defense system architecture that could achieve initial operational capability in fiscal year 2003.*

(b) *ELEMENTS OF NMD SYSTEM.—The national missile defense system architecture specified in subsection (a) shall consist of the following elements:*

(1) *An interceptor system that optimizes defensive coverage of the continental United States, Alaska, and Hawaii against limited ballistic missile attack (whether accidental, unauthorized, or deliberate).*

(2) *Ground-based radars.*

(3) *Space-based sensors.*

(4) *Battle management, command, control, and communications (BM/C³).*

(c) **PLAN FOR NMD SYSTEM DEVELOPMENT AND DEPLOYMENT.**—*Not later than February 15, 1998, the Secretary of Defense shall submit to the congressional defense committees a plan for the development and deployment of a national missile defense system that could achieve initial operational capability in fiscal year 2003. The plan shall include the following matters:*

(1) *A detailed description of the system architecture selected for development.*

(2) *A discussion of the justification for the selection of that particular architecture.*

(3) *The Secretary's estimate of the amounts of the appropriations that would be necessary for research, development, test, evaluation, and for procurement for each of fiscal years 1999 through 2003 in order to achieve an initial operational capability of the system architecture in fiscal year 2003.*

(4) *For each activity necessary for the development and deployment of the national missile defense system architecture selected by the Secretary that would at some point conflict with the terms of the ABM Treaty, if any—*

(A) *a description of the activity;*

(B) *a description of the point at which the activity would conflict with the terms of the ABM Treaty;*

(C) *the legal analysis justifying the Secretary's determination regarding the point at which the activity would conflict with the terms of the ABM Treaty; and*

(D) *an estimate of the time at which such point would be reached in order to achieve a test of an integrated missile defense system in fiscal year 1999 and initial operational capability of such a system in fiscal year 2003.*

(d) **FUNDING FOR FISCAL YEAR 1998.**—*Of the funds authorized to be appropriated under section 201(4), \$978,091,000 shall be available for the National Missile Defense Program.*

(e) **ABM TREATY DEFINED.**—*In this section, the term "ABM Treaty" means the Treaty Between the United States of America and the Union of Soviet Socialist Republics on the Limitation of Anti-Ballistic Missile Systems, signed at Moscow on May 26, 1972, and includes the Protocol to that treaty, signed at Moscow on July 3, 1974.*

SEC. 232. BUDGETARY TREATMENT OF AMOUNTS FOR PROCUREMENT FOR BALLISTIC MISSILE DEFENSE PROGRAMS.

(a) **REQUIREMENT FOR INCLUSION IN BUDGET OF BMDO.**—(1) *Chapter 9 of title 10, United States Code, is amended by inserting after section 222 the following new section:*

"§ 224. Ballistic missile defense programs: display of amounts for procurement

"(a) REQUIREMENT.—Any amount in the budget submitted to Congress under section 1105 of title 31 for any fiscal year for procurement for a Department of Defense missile defense program described in subsection (b) shall be set forth under the account of the Department of Defense for Defense-wide procurement and, within

that account, under the subaccount (or other budget activity level) for the Ballistic Missile Defense Organization.

“(b) COVERED PROGRAMS.—Subsection (a) applies to the following missile defense programs of the Department of Defense:

“(1) The National Missile Defense program.

“(2) Any system that is part of the core theater missile defense program.

“(3) Any other ballistic missile defense program that enters production after the date of the enactment of this section and for which research, development, test, and evaluation was carried out by the Ballistic Missile Defense Organization.

“(c) CORE THEATER BALLISTIC MISSILE DEFENSE PROGRAM.—For purposes of this section, the core theater missile defense program consists of the systems specified in section 234 of the Ballistic Missile Defense Act of 1995 (10 U.S.C. 2431 note).”

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 222 the following new item:

“224. Ballistic missile defense programs: display of amounts for procurement.”

(b) FISCAL YEAR 1998 FUNDS.—(1) The Secretary of Defense shall transfer to appropriations available to the Ballistic Missile Defense Organization for procurement for fiscal year 1998 any amounts that are appropriated for procurement for that fiscal year for any of the Armed Forces by reason of the transference of certain programs to accounts of the Army, Navy, Air Force, and Marine Corps pursuant to Program Budget Decision 224C3, signed by the Under Secretary of Defense (Comptroller) on December 23, 1996.

(2) Any transfer pursuant to paragraph (1) shall not be counted for purposes of section 1001.

SEC. 233. COOPERATIVE BALLISTIC MISSILE DEFENSE PROGRAM.

(a) REQUIREMENT FOR NEW PROGRAM ELEMENT.—The Secretary of Defense shall establish a program element for the Ballistic Missile Defense Organization, to be referred to as the “Cooperative Ballistic Missile Defense Program”, to support technical and analytical cooperative efforts between the United States and other nations that contribute to United States ballistic missile defense capabilities. Except as provided in subsection (b), all international cooperative ballistic missile defense programs of the Department of Defense shall be budgeted and administered through that program element.

(b) AUTHORITY FOR EXCEPTIONS.—The Secretary of Defense may exclude from the program element established pursuant to subsection (a) any international cooperative ballistic missile defense program of the Department of Defense that after the date of the enactment of this Act is designated by the Secretary of Defense (pursuant to applicable Department of Defense acquisition regulations and policy) to be managed as a separate acquisition program.

(c) RELATIONSHIP TO OTHER PROGRAM ELEMENTS.—The program element established pursuant to subsection (a) is in addition to the program elements for activities of the Ballistic Missile Defense Organization required under section 251 of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104–106; 110 Stat. 233; 10 U.S.C. 221 note).

SEC. 234. ANNUAL REPORT ON THREAT POSED TO THE UNITED STATES BY WEAPONS OF MASS DESTRUCTION, BALLISTIC MISSILES, AND CRUISE MISSILES.

(a) *ANNUAL REPORT.*—The Secretary of Defense shall submit to Congress by January 30 of each year a report on the threats posed to the United States and allies of the United States—

(1) by weapons of mass destruction, ballistic missiles, and cruise missiles; and

(2) by the proliferation of weapons of mass destruction, ballistic missiles, and cruise missiles.

(b) *CONSULTATION.*—Each report submitted under subsection (a) shall be prepared in consultation with the Director of Central Intelligence.

(c) *MATTERS TO BE INCLUDED.*—Each report submitted under subsection (a) shall include the following:

(1) Identification of each foreign country and non-State organization that possesses weapons of mass destruction, ballistic missiles, or cruise missiles, and a description of such weapons and missiles with respect to each such foreign country and non-State organization.

(2) A description of the means by which any foreign country and non-State organization that has achieved capability with respect to weapons of mass destruction, ballistic missiles, or cruise missiles has achieved that capability, including a description of the international network of foreign countries and private entities that provide assistance to foreign countries and non-State organizations in achieving that capability.

(3) An examination of the doctrines that guide the use of weapons of mass destruction in each foreign country that possesses such weapons.

(4) An examination of the existence and implementation of the control mechanisms that exist with respect to nuclear weapons in each foreign country that possesses such weapons.

(5) Identification of each foreign country and non-State organization that seeks to acquire or develop (indigenously or with foreign assistance) weapons of mass destruction, ballistic missiles, or cruise missiles, and a description of such weapons and missiles with respect to each such foreign country and non-State organization.

(6) An assessment of various possible timelines for the achievement by foreign countries and non-State organizations of capability with respect to weapons of mass destruction, ballistic missiles, and cruise missiles, taking into account the probability of whether the Russian Federation and the People's Republic of China will comply with the Missile Technology Control Regime, the potential availability of assistance from foreign technical specialists, and the potential for independent sales by foreign private entities without authorization from their national Governments.

(7) For each foreign country or non-State organization that has not achieved the capability to target the United States or its territories with weapons of mass destruction, ballistic missiles, or cruise missiles as of the date of the enactment of this Act, an estimate of how far in advance the United States is like-

ly to be warned before such foreign country or non-State organization achieves that capability.

(8) For each foreign country or non-State organization that has not achieved the capability to target members of the United States Armed Forces deployed abroad with weapons of mass destruction, ballistic missiles, or cruise missiles as of the date of the enactment of this Act, an estimate of how far in advance the United States is likely to be warned before such foreign country or non-State organization achieves that capability.

(d) CLASSIFICATION.—Each report under subsection (a) shall be submitted in classified and unclassified form.

SEC. 235. DIRECTOR OF BALLISTIC MISSILE DEFENSE ORGANIZATION.

(a) IN GENERAL.—Subchapter II of chapter 8 of title 10, United States Code, is amended by adding at the end the following new section:

“§ 203. Director of Ballistic Missile Defense Organization

“If an officer of the armed forces on active duty is appointed to the position of Director of the Ballistic Missile Defense Organization, the position shall be treated as having been designated by the President as a position of importance and responsibility for purposes of section 601 of this title and shall carry the grade of lieutenant general or general or, in the case of an officer of the Navy, vice admiral or admiral.”

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such subchapter is amended by adding at the end the following new item:

“203. Director of Ballistic Missile Defense Organization.”

SEC. 236. REPEAL OF REQUIRED DEPLOYMENT DATES FOR CORE THEATER MISSILE DEFENSE PROGRAMS.

Section 234(a) of the Ballistic Missile Defense Act of 1995 (subtitle C of title II of Public Law 104–106; 110 Stat. 229; 10 U.S.C. 2431 note) is amended—

(1) in the matter preceding paragraph (1), by striking out “, to be carried out so as to achieve the specified capabilities”;

(2) in paragraph (1), by striking out “, with a first unit equipped (FUE) during fiscal year 1998”;

(3) in paragraph (2), by striking out “Navy Lower Tier (Area) system” and all that follows through “fiscal year 1999” and inserting in lieu thereof “Navy Area Defense system”;

(4) in paragraph (3), by striking out “, with a” and all that follows through “fiscal year 2000”; and

(5) in paragraph (4), by striking out “Navy Upper Tier” and all that follows through “fiscal year 2001” and inserting in lieu thereof “Navy Theater Wide system”.

Subtitle D—Other Matters

SEC. 241. RESTRUCTURING OF NATIONAL OCEANOGRAPHIC PARTNERSHIP PROGRAM ORGANIZATIONS.

(a) NATIONAL OCEAN RESEARCH LEADERSHIP COUNCIL.—Section 7902 of title 10, United States Code, is amended—

(1) in subsection (b)—

- (A) by striking out paragraphs (11), (14), (15), (16) and (17); and
- (B) by redesignating paragraphs (12) and (13) as paragraphs (11) and (12), respectively;
- (2) by striking out subsection (d); and
- (3) by redesignating subsections (e), (f), (g), (h), and (i) as subsections (d), (e), (f), (g), and (h), respectively.
- (b) OCEAN RESEARCH ADVISORY PANEL.—(1) The text of section 7903 of such title is amended to read as follows:
- “(a) ESTABLISHMENT.—The Council shall establish an Ocean Research Advisory Panel consisting of not less than 10 and not more than 18 members appointed by the chairman, including the following:
- “(1) One member who will represent the National Academy of Sciences.
- “(2) One member who will represent the National Academy of Engineering
- “(3) One member who will represent the Institute of Medicine.
- “(4) Members selected from among individuals who will represent the views of ocean industries, State governments, academia, and such other views as the chairman considers appropriate.
- “(5) Members selected from among individuals eminent in the fields of marine science or marine policy, or related fields.
- “(b) RESPONSIBILITIES.—The Council shall assign the following responsibilities to the Advisory Panel:
- “(1) To advise the Council on policies and procedures to implement the National Oceanographic Partnership Program.
- “(2) To advise the Council on selection of partnership projects and allocation of funds for partnership projects for implementation under the program.
- “(3) To advise the Council on matters relating to national oceanographic data requirements.
- “(4) Any additional responsibilities that the Council considers appropriate.
- “(c) FUNDING.—The Secretary of the Navy annually shall make funds available to support the activities of the Advisory Panel.”
- (2) Section 282(c) of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201; 110 Stat. 2473) is amended by striking out “January 1, 1997” and inserting in lieu thereof “January 1, 1998”.
- (c) CONFORMING AMENDMENTS.—Section 282 of the National Defense Authorization Act for Fiscal Year 1997 is amended—
- (1) by striking out subsection (b); and
- (2) by redesignating subsections (c), (d), (e), and (f) as subsections (b), (c), (d), and (e), respectively.
- (d) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall be effective as of September 23, 1996, as if included in section 282 of Public Law 104–201.
- SEC. 242. MAINTENANCE AND REPAIR OF REAL PROPERTY AT AIR FORCE INSTALLATIONS.**
- (a) IN GENERAL.—Chapter 949 of title 10, United States Code, is amended by adding at the end the following new section:

“§9782. Maintenance and repair of real property

“(a) *ALLOCATION OF FUNDS.*—The Secretary of the Air Force shall allocate funds authorized to be appropriated by a provision described in subsection (c) and a provision described in subsection (d) for maintenance and repair of real property at military installations of the Department of the Air Force without regard to whether the installation is supported with funds authorized by a provision described in subsection (c) or (d).

“(b) *MIXING OF FUNDS PROHIBITED ON INDIVIDUAL PROJECTS.*—The Secretary of the Air Force may not combine funds authorized to be appropriated by a provision described in subsection (c) and funds authorized to be appropriated by a provision described in subsection (d) for an individual project for maintenance and repair of real property at a military installation of the Department of the Air Force.

“(c) *RESEARCH, DEVELOPMENT, TEST, AND EVALUATION FUNDS.*—The provision described in this subsection is a provision of a national defense authorization Act that authorizes funds to be appropriated for a fiscal year to the Air Force for research, development, test, and evaluation.

Subtitle B—Military Readiness Issues

SEC. 321. MONTHLY REPORTS ON ALLOCATION OF FUNDS WITHIN OPERATION AND MAINTENANCE BUDGET SUBACTIVITIES.

(a) IN GENERAL.—(1) Chapter 9 of title 10, United States Code, is amended by adding at the end the following new section:

“§228. Monthly reports on allocation of funds within operation and maintenance budget subactivities

“(a) MONTHLY REPORT.—The Secretary of Defense shall submit to Congress a monthly report on the allocation of appropriations to O&M budget activities and to the subactivities of those budget activities. Each such report shall be submitted not later than 60 days after the end of the month to which the report pertains.

“(b) MATTERS TO BE INCLUDED.—Each such report shall set forth the following for each subactivity of the O&M budget activities:

“(1) The amount of budget authority appropriated for that subactivity in the most recent regular Department of Defense Appropriations Act.

“(2) The amount of budget authority actually made available for that subactivity, taking into consideration supple-

mental appropriations, rescissions, and other adjustments required by law or made pursuant to law.

“(3) The amount programmed to be expended from such subactivity.

“(c) IDENTIFICATION OF CERTAIN FLUCTUATIONS.—(1) If, in the report under this section for a month of a fiscal year after the first month of that fiscal year, an amount shown under subsection (b) for a subactivity is different by more than \$15,000,000 from the corresponding amount for that subactivity in the report for the first month of that fiscal year, the Secretary shall include in the report notice of that difference.

“(2) If, in the report under this section for a month of a fiscal year after a month for which the report under this section includes a notice under paragraph (1), an amount shown under subsection (b) for a subactivity is different by more than \$15,000,000 from the corresponding amount for that subactivity in the most recent report that includes a notice under paragraph (1) or this paragraph, the Secretary shall include in the report notice of that difference.

“(d) REPORT ON FLUCTUATIONS.—If a report under this section includes a notice under subsection (c), the Secretary shall include in the report with each such notice the following:

“(1) The reasons for the reallocations of funds resulting in the inclusion of that notice in the report.

“(2) Each budget subactivity involved in those reallocations.

“(3) The effect of those reallocations on the operation and maintenance activities funded through the subactivity with respect to which the notice is included in the report.

“(e) O&M BUDGET ACTIVITY DEFINED.—For purposes of this section, the term ‘O&M budget activity’ means a budget activity within an operation and maintenance appropriation of the Department of Defense for a fiscal year.”.

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

“228. Monthly reports on allocation of funds within operation and maintenance budget subactivities.”.

(b) EFFECTIVE DATE.—The first report under section 228 of title 10, United States Code, as added by subsection (a), shall be for the month of December 1997.

SEC. 322. EXPANSION OF SCOPE OF QUARTERLY READINESS REPORTS.

(a) EXPANDED REPORTS REQUIRED.—(1) Section 482 of title 10, United States Code, is amended to read as follows:

“§ 482. Quarterly reports: personnel and unit readiness

“(a) QUARTERLY REPORTS REQUIRED.—Not later than 30 days after the end of each calendar-year quarter, the Secretary of Defense shall submit to Congress a report regarding military readiness. The report for a quarter shall contain the information required by subsections (b), (d), and (e).

“(b) READINESS PROBLEMS AND REMEDIAL ACTIONS.—Each report shall specifically describe—

“(1) each readiness problem and deficiency identified using the assessments considered under subsection (c);

“(2) planned remedial actions; and

“(3) the key indicators and other relevant information related to each identified problem and deficiency.

“(c) *CONSIDERATION OF READINESS ASSESSMENTS.*—The information required under subsection (b) to be included in the report for a quarter shall be based on readiness assessments that are provided during that quarter—

“(1) to any council, committee, or other body of the Department of Defense—

“(A) that has responsibility for readiness oversight; and

“(B) whose membership includes at least one civilian officer in the Office of the Secretary of Defense at the level of Assistant Secretary of Defense or higher;

“(2) by senior civilian and military officers of the military departments and the commanders of the unified and specified commands; and

“(3) as part of any regularly established process of periodic readiness reviews for the Department of Defense as a whole.

“(d) *COMPREHENSIVE READINESS INDICATORS FOR ACTIVE COMPONENTS.*—Each report shall also include information regarding each of the active components of the armed forces (and an evaluation of such information) with respect to each of the following readiness indicators:

“(1) *PERSONNEL STRENGTH.*—

“(A) Personnel status, including the extent to which members of the armed forces are serving in positions outside of their military occupational specialty, serving in grades other than the grades for which they are qualified, or both.

“(B) Historical data and projected trends in personnel strength and status.

“(2) *PERSONNEL TURBULENCE.*—

“(A) Recruit quality.

“(B) Borrowed manpower.

“(C) Personnel stability.

“(3) *OTHER PERSONNEL MATTERS.*—

“(A) Personnel morale.

“(B) Recruiting status.

“(4) *TRAINING.*—

“(A) Training unit readiness and proficiency.

“(B) Operations tempo.

“(C) Training funding.

“(D) Training commitments and deployments.

“(5) *LOGISTICS—EQUIPMENT FILL.*—

“(A) Deployed equipment.

“(B) Equipment availability.

“(C) Equipment that is not mission capable.

“(D) Age of equipment.

“(E) Condition of nonpacing items.

“(6) *LOGISTICS—EQUIPMENT MAINTENANCE.*—

“(A) Maintenance backlog.

“(7) *LOGISTICS—SUPPLY.*—

“(A) Availability of ordnance and spares.

“(B) Status of prepositioned equipment.

“(e) **UNIT READINESS INDICATORS.**—Each report shall also include information regarding the readiness of each active component unit of the armed forces at the battalion, squadron, or an equivalent level (or a higher level) that received a readiness rating of C-3 (or below) for any month of the calendar-year quarter covered by the report. With respect to each such unit, the report shall separately provide the following information:

- “(1) The unit designation and level of organization.
- “(2) The overall readiness rating for the unit for the quarter and each month of the quarter.
- “(3) The resource area or areas (personnel, equipment and supplies on hand, equipment condition, or training) that adversely affected the unit’s readiness rating for the quarter.
- “(4) The reasons why the unit received a readiness rating of C-3 (or below).

“(f) **CLASSIFICATION OF REPORTS.**—A report under this section shall be submitted in unclassified form. To the extent the Secretary of Defense determines necessary, the report may also be submitted in classified form.”

(2) The item relating to section 482 in the table of sections at the beginning of chapter 23 of such title is amended to read as follows:

“482. Quarterly reports: personnel and unit readiness.”

(b) **IMPLEMENTATION PLAN TO EXAMINE READINESS INDICATORS.**—Not later than January 15, 1998, the Secretary of Defense shall submit to the congressional defense committees a plan—

- (1) specifying the manner in which the Secretary will implement the additional reporting requirement of subsection (d) of section 482 of title 10, United States Code, as added by this section; and
- (2) specifying the criteria proposed to be used to evaluate the readiness indicators identified in such subsection (d).

(c) **LIMITATION PENDING RECEIPT OF IMPLEMENTATION PLAN.**—Of the amount available for fiscal year 1998 for operation and support activities of the Office of the Secretary of Defense, 10 percent may not be obligated until after the date on which the implementation plan required by subsection (b) is submitted.

(d) **TRANSITION TO COMPLETE REPORT.**—Until the report under section 482 of title 10, United States Code, as amended by subsection (a), for the third quarter of 1998 is submitted, the Secretary of Defense may omit the information required by subsection (d) of such section if the Secretary determines that it is impracticable to comply with such subsection with regard to the preceding reports.

SEC. 323. SEMI-ANNUAL REPORTS ON TRANSFERS FROM HIGH-PRIORITY READINESS APPROPRIATIONS.

(a) **REPORTS REQUIRED.**—Chapter 23 of title 10, United States Code, is amended by adding at the end the following new section:

“§ 483. Reports on transfers from high-priority readiness appropriations

“(a) **ANNUAL REPORTS.**—Not later than the date on which the President submits the budget for a fiscal year to Congress pursuant to section 1105 of title 31, the Secretary of Defense shall submit to

the Committee on Armed Services and the Committee on Appropriations of the Senate and the Committee on National Security and the Committee on Appropriations of the House of Representatives a report on transfers during the preceding fiscal year from funds available for each covered budget activity.

“(b) MIDYEAR REPORTS.—Not later than June 1 of each fiscal year, the Secretary of Defense shall submit to the congressional committees specified in subsection (a) a report on transfers, during the first six months of that fiscal year, from funds available for each covered budget activity.

“(c) MATTERS TO BE INCLUDED.—In each report under subsection (a) or (b), the Secretary of Defense shall include for each covered budget activity the following:

“(1) A statement, for the period covered by the report, of—

“(A) the total amount of transfers into funds available for that activity;

“(B) the total amount of transfers from funds available for that activity; and

“(C) the net amount of transfers into, or out of, funds available for that activity.

“(2) A detailed explanation of the transfers into, and out of, funds available for that activity during the period covered by the report.

“(d) COVERED BUDGET ACTIVITY DEFINED.—In this section, the term ‘covered budget activity’ means each of the following:

“(1) The budget activity groups (known as ‘subactivities’) within the Operating Forces budget activity of the annual Operation and Maintenance, Army, appropriation that are designated as follows:

“(A) All subactivities under the category of Land Forces.

“(B) Land Forces Depot Maintenance.

“(4) The aircraft inventory requirements approved by the Joint Chiefs of Staff.

“(c) *DISPLAY OF INFORMATION.*—The report shall specify the information required by subsection (b) separately for the active component of each armed force and for each reserve component of each armed force and, within the information set forth for each such component, shall specify the information separately for each type, model, and series of aircraft provided for in the future-years defense program submitted to Congress.”

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 483, as added by section 323, the following new item:

“484. Report on aircraft inventory.”

(b) *SPECIAL SUBMISSION DATE FOR FIRST REPORT.*—The Under Secretary of Defense (Comptroller) shall submit the first report required under section 484 of title 10, United States Code (as added by subsection (a)), not later than January 30, 1998.

(c) *MODIFICATION OF BUDGET DATA EXHIBITS.*—The Under Secretary of Defense (Comptroller) shall ensure that aircraft budget data exhibits of the Department of Defense that are submitted to Congress display total numbers of active aircraft where numbers of primary aircraft or primary authorized aircraft are displayed in those exhibits.

SEC. 325. ADMINISTRATIVE ACTIONS ADVERSELY AFFECTING MILITARY TRAINING OR OTHER READINESS ACTIVITIES.

(a) *CONGRESSIONAL NOTIFICATION.*—Chapter 101 of title 10, United States Code, is amended by adding at the end the following new section:

“§2014. Administrative actions adversely affecting military training or other readiness activities

“(a) *CONGRESSIONAL NOTIFICATION.*—Whenever an official of an Executive agency takes or proposes to take an administrative action that, as determined by the Secretary of Defense in consultation with the Chairman of the Joint Chiefs of Staff, affects training or any other readiness activity in a manner that has or would have a significant adverse effect on the military readiness of any of the armed forces or a critical component thereof, the Secretary shall submit a written notification of the action and each significant adverse effect to the head of the Executive agency taking or proposing to take the administrative action. At the same time, the Secretary shall transmit a copy of the notification to the President, the Committee on Armed Services of the Senate, and the Committee on National Security of the House of Representatives.

“(b) *NOTIFICATION TO BE PROMPT.*—(1) Subject to paragraph (2), the Secretary shall submit a written notification of an administrative action or proposed administrative action required by sub-

section (a) as soon as possible after the Secretary becomes aware of the action or proposed action.

“(2) The Secretary shall prescribe policies and procedures to ensure that the Secretary receives information on an administrative action or proposed administrative action described in subsection (a) promptly after Department of Defense personnel receive notice of such an action or proposed action.

“(c) CONSULTATION BETWEEN SECRETARY AND HEAD OF EXECUTIVE AGENCY.—Upon notification with respect to an administrative action or proposed administrative action under subsection (a), the head of the Executive agency concerned shall—

“(1) respond promptly to the Secretary; and

“(2) consistent with the urgency of the training or readiness activity involved and the provisions of law under which the administrative action or proposed administrative action is being taken, seek to reach an agreement with the Secretary on immediate actions to attain the objective of the administrative action or proposed administrative action in a manner which eliminates or mitigates the adverse effects of the administrative action or proposed administrative action upon the training or readiness activity.

“(d) MORATORIUM.—(1) Subject to paragraph (2), upon notification with respect to an administrative action or proposed administrative action under subsection (a), the administrative action or proposed administrative action shall cease to be effective with respect to the Department of Defense until the earlier of—

“(A) the end of the five-day period beginning on the date of the notification; or

“(B) the date of an agreement between the head of the Executive agency concerned and the Secretary as a result of the consultations under subsection (c).

“(2) Paragraph (1) shall not apply with respect to an administrative action or proposed administrative action if the head of the Executive agency concerned determines that the delay in enforcement of the administrative action or proposed administrative action will pose an actual threat of an imminent and substantial endangerment to public health or the environment.

“(e) EFFECT OF LACK OF AGREEMENT.—(1) If the head of an Executive agency and the Secretary do not enter into an agreement under subsection (c)(2), the Secretary shall submit a written notification to the President who shall take final action on the matter.

“(2) Not later than 30 days after the date on which the President takes final action on a matter under paragraph (1), the President shall submit to the committees referred to in subsection (a) a notification of the action.

“(f) LIMITATION ON DELEGATION OF AUTHORITY.—The head of an Executive agency may not delegate any responsibility under this section.

“(g) DEFINITION.—In this section, the term ‘Executive agency’ has the meaning given such term in section 105 of title 5, except that the term does not include the General Accounting Office.”

(b) CLERICAL AMENDMENT.—The table of sections of the beginning of such chapter is amended by adding at the end the following new item:

“2014. Administrative actions adversely affecting military training or other readiness activities.”.

SEC. 326. COMMON MEASUREMENT OF OPERATIONS TEMPO AND PERSONNEL TEMPO.

(a) MEANS FOR MEASUREMENT.—The Chairman of the Joint Chiefs of Staff shall, to the maximum extent practicable, develop (1) a common means of measuring the operations tempo (OPTEMPO) of each of the Armed Forces, and (2) a common means of measuring the personnel tempo (PERSTEMPO) of each of the Armed Forces. The Chairman shall consult with the other members of the Joint Chiefs of Staff in developing those common means of measurement.

(b) PERSTEMPO MEASUREMENT.—The measurement of personnel tempo developed by the Chairman shall include a means of identifying the rate of deployment for individual members of the Armed Forces in addition to the rate of deployment for units.

SEC. 327. INCLUSION OF AIR FORCE DEPOT MAINTENANCE AS OPERATION AND MAINTENANCE BUDGET LINE ITEMS.

For fiscal year 1999 and each fiscal year thereafter, Air Force depot-level maintenance of materiel shall be displayed as one or more separate line items under each subactivity within the authorization request for operation and maintenance, Air Force, in the proposed budget for that fiscal year submitted to Congress pursuant to section 1105 of title 31, United States Code.

SEC. 328. PROHIBITION OF IMPLEMENTATION OF TIERED READINESS SYSTEM.

(a) PROHIBITION.—The Secretary of a military department may not implement, or be required to implement, a new readiness system for units of the Armed Forces (as outlined in sections 329 and 330), under which a military unit would be categorized into one of several categories (known as “tiers”) according to the likelihood that the unit will be required to respond to a military conflict and the time in which the unit will be required to respond, if that system would have the effect of changing the methods used as of October 1, 1996, by the Armed Forces under the jurisdiction of that Secretary for determining the priorities for allocating to such military units funding, personnel, equipment, equipment maintenance, and training resources, and the associated levels of readiness of those units that result from those priorities.

(b) REPORT TO CONGRESS REQUESTING WAIVER.—If the Secretary of Defense determines, following the review required by sections 329 and 330 (or any similar review), that implementation for one or more of the Armed Forces of a tiered readiness system that is prohibited by subsection (a) would be in the national security interests of the United States, the Secretary shall submit to Congress a report setting forth that determination, together with the rationale for that determination, and a request for the enactment of legislation to allow implementation of such a system.

(c) RULE OF CONSTRUCTION.—Nothing in subsection (a) is intended to preclude the Secretary of Defense from taking necessary actions to maintain the combat preparedness of the active and reserve components of the Armed Forces.

SEC. 329. REPORT ON MILITARY READINESS REQUIREMENTS OF THE ARMED FORCES.

(a) **REQUIREMENT FOR REPORT.**—Not later than January 31, 1998, the Chairman of the Joint Chiefs of Staff shall submit to the congressional defense committees a report on the military readiness requirements of the active and reserve components of the Armed Forces (including combat units, combat support units, and combat service support units). The report shall assess such requirements under a tiered readiness and response system that categorizes a given unit according to the likelihood that it will be required to respond to a military conflict and the time within which it will be required to respond.

(b) **PREPARATION BY JCS AND COMMANDERS OF UNIFIED COMMANDS.**—The report required by subsection (a) shall be prepared jointly by the Chairman of the Joint Chiefs of Staff, the Chief of Staff of the Army, the Chief of Naval Operations, the Chief of Staff of the Air Force, the Commandant of the Marine Corps, the commander of the Special Operations Command, and the commanders of the other unified commands.

(c) **ASSESSMENT SCENARIO.**—The report shall assess readiness requirements in a scenario that is based on the following assumptions:

(1) That the Armed Forces of the United States must be capable of—

(A) fighting and winning, in concert with allies, two major theater wars nearly simultaneously; and

(B) deterring or defeating a strategic attack on the United States.

(2) That the forces available for deployment are the forces included in the force structure recommended in the Quadrennial Defense Review, including all other planned force enhancements.

(d) **ASSESSMENT ELEMENTS.**—(1) The report shall identify, by unit type, all major units of the active and reserve components of the Armed Forces and assess the readiness requirements of the units. Each identified unit shall be categorized within one of the following classifications:

(A) Forward-deployed and crisis response forces, or “Tier I” forces, that possess limited internal sustainment capability and do not require immediate access to regional air bases or ports or overflight rights, including the following:

(i) Force units that are deployed in rotation at sea or on land outside the United States.

(ii) Combat-ready crises response forces that are capable of mobilizing and deploying within 10 days after receipt of orders.

(iii) Forces that are supported by prepositioning equipment afloat or are capable of being inserted into a theater upon the capture of a port or airfield by forcible entry forces.

(B) Combat-ready follow-on forces, or “Tier II” forces, that can be mobilized and deployed to a theater within approximately 60 days after receipt of orders.

(C) *Combat-ready conflict resolution forces, or “Tier III” forces, that can be mobilized and deployed to a theater within approximately 180 days after receipt of orders.*

(D) *All other active and reserve component force units which are not categorized within a classification described in subparagraph (A), (B), or (C).*

(2) *For the purposes of paragraph (1), the following units are major units:*

(A) *In the case of the Army or Marine Corps, a brigade and a battalion.*

(B) *In the case of the Navy, a squadron of aircraft, a ship, and a squadron of ships.*

(C) *In the case of the Air Force, a squadron of aircraft.*

(e) **PROJECTION OF SAVINGS FOR USE FOR MODERNIZATION.**—*The report shall include a projection for fiscal years 1998 through 2003 of the amounts of the savings in operation and maintenance funding that—*

(1) *could be derived by each of the Armed Forces by placing as many units as is practicable into the lower readiness categories among the tiers; and*

(2) *could be made available for force modernization.*

(f) **FORM OF REPORT.**—*The report under this section shall be submitted in unclassified form, but may contain a classified annex.*

(g) **PLANNED FORCE ENHANCEMENT DEFINED.**—*In this section, the term “planned force enhancement”, with respect to the force structure recommended in the Quadrennial Defense Review, means any future improvement in the capability of the force (including current strategic and future improvement in strategic lift capability) that is assumed in the development of the recommendation for the force structure set forth in the Quadrennial Defense Review.*

SEC. 330. ASSESSMENT OF CYCLICAL READINESS POSTURE OF THE ARMED FORCES.

(a) **REQUIREMENT.**—(1) *Not later than 120 days after the date of the enactment of this Act, the Secretary of Defense shall submit to Congress a report on the readiness posture of the Armed Forces described in subsection (b).*

(2) *The Secretary shall prepare the report required under paragraph (1) with the assistance of the Joint Chiefs of Staff. In providing such assistance, the Chairman of the Joint Chiefs of Staff shall consult with the Chief of the National Guard Bureau.*

(b) **READINESS POSTURE.**—(1) *The readiness posture to be covered by the report under subsection (a) is a readiness posture for units of the Armed Forces, or for designated units of the Armed Forces, that provides for a rotation of such units between a state of high readiness and a state of low readiness.*

(2) *As part of the evaluation of the readiness posture described in paragraph (1), the report shall address in particular a readiness posture that—*

(A) *establishes within the Armed Forces two equivalent forces each structured so as to be capable of fighting and winning a major theater war; and*

(B) *provides for an alternating rotation of such forces between a state of high readiness and a state of low readiness.*

(3) *The evaluation of the readiness posture described in paragraph (2) shall be based upon assumptions permitting comparison with the existing force structure as follows:*

(A) *That there are assembled from among the units of the Armed Forces two equivalent forces each structured so as to be capable of fighting and winning a major theater war.*

(B) *That each force referred to in subparagraph (A) includes—*

(i) *four active Army divisions, including one mechanized division, one armored division, one light infantry division, and one division combining airborne units and air assault units, and appropriate support and service support units for such divisions;*

(ii) *six divisions (or division equivalents) of the Army National Guard or the Army Reserve that are essentially equivalent in structure, and appropriate support and service support units for such divisions;*

(iii) *six aircraft carrier battle groups;*

(iv) *six active Air Force fighter wings (or fighter wing equivalents);*

(v) *four Air Force reserve fighter wings (or fighter wing equivalents); and*

(vi) *one active Marine Corps expeditionary force.*

(C) *That each force may be supplemented by critical units or units in short supply, including heavy bomber units, strategic lift units, and aerial reconnaissance units, that are not subject to the readiness rotation otherwise assumed for purposes of the evaluation or are subject to the rotation on a modified basis.*

(D) *That units of the Armed Forces not assigned to a force are available for operations other than those essential to fight and win a major theater war, including peace operations.*

(E) *That the state of readiness of each force alternates between a state of high readiness and a state of low readiness on a frequency determined by the Secretary (but not more often than once every six months) and with only one force at a given state of readiness at any one time.*

(F) *That, during the period of state of high readiness of a force, any operations or activities (including leave and education and training of personnel) that detract from the near-term wartime readiness of the force are temporary and their effects on such state of readiness minimized.*

(G) *That units are assigned overseas during the period of state of high readiness of the force to which the units are assigned primarily on a temporary duty basis.*

(H) *That, during the period of high readiness of a force, the operational war plans for the force incorporate the divisions (or division equivalents) of the Army Reserve or Army National Guard assigned to the force in a manner such that one such division (or division equivalent) is, on a rotating basis for such divisions (or division equivalents) during the period, maintained in a high state of readiness and dedicated as the first reserve combat division to be transferred overseas in the event of a major theater war.*

(c) **REPORT ELEMENTS.**—*The report under this section shall include the following elements for the readiness posture described in subsection (b)(2):*

(1) *An estimate of the range of cost savings achievable over the long term as a result of implementing the readiness posture, including—*

(A) *the savings achievable from reduced training levels and readiness levels during periods in which a force referred to in subsection (b)(3)(A) is in a state of low readiness; and*

(B) *the savings achievable from reductions in costs of infrastructure overseas as a result of reduced permanent change of station rotations.*

(2) *An assessment of the potential risks associated with a lower readiness status for units assigned to a force in a state of low readiness under the readiness posture, including the risks associated with the delayed availability of such units overseas in the event of two nearly simultaneous major theater wars.*

(3) *An assessment of the potential risks associated with requiring the forces under the readiness posture to fight a major war in any theater worldwide.*

(4) *An assessment of the modifications of the current force structure of the Armed Forces that are necessary to achieve the range of cost savings estimated under paragraph (1), including the extent of the diminishment, if any, of the military capabilities of the Armed Forces as a result of the modifications.*

(5) *An assessment whether or not the risks of diminished military capability associated with implementation of the readiness posture exceed the risks of diminished military capability associated with the modifications of the current force structure necessary to achieve cost savings equivalent to the best case for cost savings resulting from the implementation of the readiness posture.*

(d) **FORM OF REPORT.**—*The report under this section shall be submitted in unclassified form, but may contain a classified annex.*

(e) **DEFINITIONS.**—*In this section:*

(1) *The term “state of high readiness”, in the case of a military force, means the capability to mobilize first-to-arrive units of the force within 18 hours and last-to-arrive units within 120 days of a particular event.*

(2) *The term “state of low readiness”, in the case of a military force, means the capability to mobilize first-to-arrive units within 90 days and last-to-arrive units within 180 days of a particular event.*

SEC. 331. REPORT ON MILITARY EXERCISES CONDUCTED UNDER CERTAIN TRAINING EXERCISES PROGRAMS

(a) **REPORT.**—*Not later than February 16, 1998, the Secretary of Defense shall submit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a report on the military exercises conducted by the Department of Defense during fiscal years 1995, 1996, and 1997 and the military exercises planned to be conducted during fiscal*

years 1998, 1999, and 2000, under the following training exercises programs:

- (1) The program known as the "CJCS Exercise Program".
- (2) The program known as the "Partnership for Peace program".
- (3) The Cooperative Threat Reduction programs.

(b) **INFORMATION ON EXERCISES CONDUCTED OR TO BE CONDUCTED.**—The report under subsection (a) shall include the following information for each exercise included in the report, which shall be set forth by fiscal year and shown within the fiscal year by the sponsoring command:

- (1) Name of the exercise.
- (2) Type, description, duration, and objectives of the exercise.
- (3) Participating units, including the number of personnel participating in each unit.
- (4) For each participating unit, the percentage of the tasks on that unit's specification of tasks (known as a mission essential task list) or a comparable specification (in the case of any of the Armed Forces not maintaining a mission essential task list designation) that were performed or are scheduled to be performed as part of the exercise.
- (5) The cost of the exercise paid or to be paid out of funds available to the Chairman of the Joint Chiefs of Staff and the cost to each of the Armed Forces participating in the exercise, with a description of the categories of activities for which those costs are incurred in each such case.
- (6) In the case of each planned exercise, the priority of the exercise in relation to all other exercises planned by the sponsoring command to be conducted during that fiscal year.
- (7) In the case of an exercise conducted or to be conducted in a foreign country or with military personnel of a foreign country, the military forces of the foreign country that participated or will participate in the exercise.

(c) **ASSESSMENT.**—The report under subsection (a) shall include—

- (1) an assessment of the ability of each of the Armed Forces to meet requirements of the training exercises programs specified in subsection (a);
- (2) an assessment of the training value of each exercise covered in the report to each unit of the Armed Forces participating in the exercise, including for each such unit an assessment of the value of the percentage under subsection (b)(4) as an indicator of the training value of the exercise for that unit;
- (3) options to minimize the negative effects on operational and personnel tempo resulting from the training exercises programs; and
- (4) in the case of exercises to be conducted in a foreign country or with military personnel of a foreign country—
 - (A) an assessment of the training value of each exercise covered in the report to the foreign countries involved and the extent to which the exercise enhances the readiness capabilities of all military forces involved in the exercise (both United States and foreign); and

(B) an assessment of the benefits to be derived through enhanced military-to-military relationships between the United States and foreign countries.

(d) **FUNDING LIMITATION PENDING RECEIPT OF REPORT.**—Of the funds available for fiscal year 1998 for the conduct of the CJCS Exercise Program, not more than 90 percent may be expended before the date on which the report required under subsection (a) is submitted.

SEC. 332. REPORT ON OVERSEAS DEPLOYMENTS.

(a) **REPORT.**—Not later than 90 days after the date of the enactment of this Act, the Secretary of Defense shall submit to Congress a report on the deployments overseas of members of the Armed Forces (other than the Coast Guard). The report shall describe the deployments as of June 30, 1996, and as of June 30, 1997.

(b) **ELEMENTS.**—The report shall include the following, shown as of each date specified in subsection (a) and shown for the Armed Forces in the aggregate and separately for each of the Armed Forces:

(1) The number of military personnel deployed overseas pursuant to a permanent duty assignment, shown in the aggregate and by country or ocean to which deployed.

(2) The number of military personnel deployed overseas pursuant to a temporary duty assignment, including—

(A) the number engaged in training with units of a single military department;

(B) the number engaged in United States military joint exercises; and

(C) the number engaged in training with allied units.

(3) The number of military personnel deployed overseas who were engaged in contingency operations (including peace-keeping or humanitarian assistance missions) or other activities (other than those personnel covered by paragraphs (1) and (2)).

Subtitle C—Environmental Provisions

SEC. 341. REVISION OF MEMBERSHIP TERMS FOR STRATEGIC ENVIRONMENTAL RESEARCH AND DEVELOPMENT PROGRAM SCIENTIFIC ADVISORY BOARD.

Section 2904(b)(4) of title 10, United States Code, is amended by striking out “three” and inserting in lieu thereof “not less than two and not more than four”.

SEC. 342. AMENDMENTS TO AUTHORITY TO ENTER INTO AGREEMENTS WITH OTHER AGENCIES IN SUPPORT OF ENVIRONMENTAL TECHNOLOGY CERTIFICATION.

(a) **AUTHORITY TO ENTER INTO AGREEMENTS WITH INDIAN TRIBES.**—Section 327 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201; 110 Stat. 2483; 10 U.S.C. 2702 note) is amended—

(1) in subsection (a), by inserting “, or with an Indian tribe,” after “with an agency of a State or local government”;

(2) by redesignating subsection (e) as subsection (f); and

(3) by inserting after subsection (d) the following new subsection:

“(e) *DEFINITION.*—In this section, the term ‘Indian tribe’ has the meaning given that term by section 101(36) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601(36)).”.

(b) *ELIMINATION OF CERTAIN LIMITATION ON AUTHORITY.*—Subsection (b)(1) of such section is amended by striking out “in carrying out its environmental restoration activities”.

(c) *ADDITIONAL REPORT INFORMATION.*—Subsection (d) of such section is amended by adding at the end the following:

“(5) A statement of the funding that will be required to meet commitments made to State and local governments and Indian tribes under such agreements entered into during the fiscal year preceding the fiscal year in which the report is submitted.

“(6) A description of any cost-sharing arrangement under any such agreements.”.

(d) *GUIDELINES FOR REIMBURSEMENT AND COST-SHARING.*—Not later than 90 days after the date of enactment of this Act, the Secretary of Defense shall submit to Congress a report setting forth the guidelines established by the Secretary for reimbursement of State and local governments, and for cost-sharing between the Department of Defense, such governments, and vendors, under cooperative agreements entered into under such section 327.

(e) *EFFECTIVE DATE.*—The amendments made by this section shall take effect 30 days after the date on which the report required by subsection (d) is submitted to Congress.

SEC. 343. MODIFICATIONS OF AUTHORITY TO STORE AND DISPOSE OF NONDEFENSE TOXIC AND HAZARDOUS MATERIALS.

(a) *STORAGE OF MATERIALS OWNED BY MEMBERS AND DEPENDENTS.*—Subsection (a)(1) of section 2692 of title 10, United States Code, is amended by striking out “by the Department of Defense.” and inserting in lieu thereof the following: “either by the Department of Defense or by a member of the armed forces (or a dependent of the member) assigned to or provided military housing on the installation.”.

(b) *ADDITIONAL AUTHORITY.*—Subsection (b) of such section is amended—

(1) by redesignating paragraphs (1) through (9) as paragraphs (2) through (10), respectively; and

(2) by inserting before paragraph (2) (as so redesignated) the following new paragraph (1):

“(1) the storage, treatment, or disposal of materials that will be or have been used in connection with an activity of the Department of Defense or in connection with a service to be performed on an installation of the Department for the benefit of the Department.”.

(c) *STORAGE AND DISPOSAL OF EXPLOSIVES TO ASSIST LAW ENFORCEMENT AGENCIES.*—Subsection (b) of such section is amended in paragraph (3) (as redesignated by subsection (b))—

(1) by striking out “Federal law enforcement” and inserting in lieu thereof “Federal, State, or local law enforcement”; and

(2) by striking out “Federal agency” and inserting in lieu thereof “Federal, State, or local agency”.

(d) *STORAGE OF MATERIAL IN CONNECTION WITH AUTHORIZED AND COMPATIBLE USE OF A DEFENSE FACILITY.*—Subsection (b) of such section is amended in paragraph (9) (as redesignated by subsection (b))—

(1) by striking out “by a private person in connection with the authorized and compatible use by that person of an industrial-type” and inserting in lieu thereof “in connection with the authorized and compatible use of a”; and

(2) by striking out “; and” at the end and inserting in lieu thereof the following: “; including the use of such a facility for testing materiel or training personnel.”

(e) *TREATMENT AND DISPOSAL OF MATERIAL IN CONNECTION WITH AUTHORIZED AND COMPATIBLE USE OF A DEFENSE FACILITY.*—Subsection (b) of such section is amended in paragraph (10) (as redesignated by subsection (b))—

(1) by striking out “by a private person in connection with the authorized and compatible commercial use by that person of an industrial-type” and inserting in lieu thereof “in connection with the authorized and compatible use of a”;

(2) by striking out “with that person” and inserting in lieu thereof “or agreement with the prospective user”;

(3) by striking out “for that person’s” in subparagraph (B) and inserting in lieu thereof “for the prospective user’s”; and

(4) by striking out the period at the end and inserting in lieu thereof “; and”.

(f) *STORAGE OF MATERIAL IN CONNECTION WITH SPACE LAUNCH FACILITIES.*—Subsection (b) of such section is further amended by adding at the end the following new paragraph:

“(11) the storage of any material that is not owned by the Department of Defense if the Secretary of the military department concerned determines that the material is required or generated in connection with the use of a space launch facility located on an installation of the Department of Defense or on other land controlled by the United States.”.

(g) *TECHNICAL AMENDMENTS.*—(1) Subsection (a)(1) of such section is further amended by striking out “storage” and inserting in lieu thereof “storage, treatment.”

(2) The heading for such section is amended to read as follows:

“§2692. Storage, treatment, and disposal of nondefense toxic and hazardous materials”.

(3) The item relating to such section in the table of sections at the beginning of chapter 159 of such title is amended to read as follows:

“2692. Storage, treatment, and disposal of nondefense toxic and hazardous materials.”.

(h) *SAVINGS CLAUSE.*—Nothing in the amendments made by this section is intended to modify environmental laws or laws relating to the siting of facilities.

SEC. 344. ANNUAL REPORT ON PAYMENTS AND ACTIVITIES IN RESPONSE TO FINES AND PENALTIES ASSESSED UNDER ENVIRONMENTAL LAWS.

(a) *ANNUAL REPORTS.*—Section 2706(b)(2) of title 10, United States Code, is amended by adding at the end the following:

“(H) A statement of the fines and penalties imposed or assessed against the Department of Defense under Federal, State, or local environmental law during the fiscal year preceding the fiscal year in which the report is submitted, setting forth each Federal environmental statute under which a fine or penalty was imposed or assessed during the fiscal year, and, with respect to each such statute—

“(i) the aggregate amount of fines and penalties imposed or assessed during the fiscal year;

“(ii) the aggregate amount of fines and penalties paid during the fiscal year;

“(iii) the total amount required for environmental projects to be carried out by the Department of Defense in lieu of the payment of fines or penalties; and

“(iv) the number of fines and penalties imposed or assessed during the fiscal year that were—

“(I) \$100,000 or less; and

“(II) more than \$100,000.”.

(b) **REPORT IN FISCAL YEAR 1998.**—The statement submitted by the Secretary of Defense under subparagraph (H) of section 2706(b)(2) of title 10, United States Code, as added by subsection (a), in 1998 shall, to the maximum extent practicable, include the information required by that subparagraph for each of fiscal years 1994 through 1997.

SEC. 345. ANNUAL REPORT ON ENVIRONMENTAL ACTIVITIES OF THE DEPARTMENT OF DEFENSE OVERSEAS.

Section 2706 of title 10, United States Code, is amended—

(1) by redesignating subsection (d) as subsection (e); and

(2) by inserting after subsection (c) the following new subsection (d):

“(d) **REPORT ON ENVIRONMENTAL ACTIVITIES OVERSEAS.**—(1) The Secretary of Defense shall submit to Congress each year, not later than 30 days after the date on which the President submits to Congress the budget for a fiscal year, a report on the environmental activities of the Department of Defense overseas.

“(2) Each such report shall include a statement of the funding levels during such fiscal year for each of the following categories:

“(A) Compliance by the Department of Defense with requirements under a treaty, law, contract, or other agreement for environmental restoration or compliance activities.

“(B) Performance by the Department of Defense of other environmental restoration and compliance activities overseas.

“(C) Performance by the Department of Defense of any other overseas activities related to the environment, including conferences, meetings, and studies for pilot programs, and travel related to such activities.”.

SEC. 346. REVIEW OF EXISTING ENVIRONMENTAL CONSEQUENCES OF THE PRESENCE OF THE ARMED FORCES IN BERMUDA.

Not later than 120 days after the date of enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a report on any remaining environmental effects of the presence of the Armed Forces of the United States in Bermuda.

SEC. 347. SENSE OF CONGRESS ON DEPLOYMENT OF UNITED STATES ARMED FORCES ABROAD FOR ENVIRONMENTAL PRESERVATION ACTIVITIES.

(a) *SENSE OF CONGRESS.*—It is the sense of Congress that members of the Army, Navy, Air Force, and Marine Corps should not be deployed outside the United States to provide assistance to another nation in connection with environmental preservation activities in that nation, unless the Secretary of Defense determines that such activities are necessary for national security purposes.

(b) *SCOPE OF SECTION.*—For purposes of this section, environmental preservation activities do not include any of the following:

(1) Activities undertaken for humanitarian purposes, disaster relief activities, peacekeeping activities, or operational training activities.

(2) Environmental compliance and restoration activities associated with military installations and deployments outside the United States.

SEC. 348. RECOVERY AND SHARING OF COSTS OF ENVIRONMENTAL RESTORATION AT DEPARTMENT OF DEFENSE SITES.

(a) *REGULATIONS.*—Not later than March 1, 1998, the Secretary of Defense shall prescribe regulations containing the guidelines and requirements described in subsections (b) and (c).

(b) *GUIDELINES.*—(1) The regulations prescribed under subsection (a) shall contain uniform guidelines for the military departments and defense agencies concerning the cost-recovery and cost-sharing activities of those departments and agencies.

(2) The Secretary shall take appropriate actions to ensure the implementation of the guidelines.

(c) *REQUIREMENTS.*—The regulations prescribed under subsection (a) shall contain requirements for the Secretaries of the military departments and the heads of defense agencies to—

(1) obtain all data that is relevant for purposes of cost-recovery and cost-sharing activities; and

(2) identify any negligence or other misconduct that may preclude indemnification or reimbursement by the Department of Defense for the costs of environmental restoration at a Department site or justify the recovery or sharing of costs associated with such restoration.

(d) *DEFINITION.*—In this section, the term “cost-recovery and cost-sharing activities” means activities concerning—

(1) the recovery of the costs of environmental restoration at Department of Defense sites from contractors of the Department and other private parties that contribute to environmental contamination at such sites; and

(2) the sharing of the costs of such restoration with such contractors and parties.

SEC. 349. PARTNERSHIPS FOR INVESTMENT IN INNOVATIVE ENVIRONMENTAL TECHNOLOGIES.

(a) *AUTHORITY.*—Subject to subsection (b), the Secretary of Defense may enter into a partnership with one or more private entities to demonstrate and validate innovative environmental technologies.

(b) *LIMITATIONS.*—The Secretary of Defense may enter into a partnership with respect to an environmental technology under subsection (a) only if—

(1) any private entities participating in the partnership are selected through the use of competitive procedures;

(2) the partnership provides for parties other than the Department of Defense to provide at least 50 percent of the funding required (not including in-kind contributions or preexisting investments); and

(3) the Secretary determines that—

(A) the technology has clear potential to be of significant value to the Department of Defense in its environmental remediation activities at a substantial number of Department of Defense sites; and

(B) the technology would not be developed without the commitment of Department of Defense funds.

(c) *EVALUATION GUIDELINES.*—Before entering into a partnership with respect to an environmental technology under subsection (a), the Secretary of Defense shall give consideration to the following:

(1) The potential for the technology to be used by the Department of Defense for environmental remediation.

(2) The technical feasibility and maturity of the technology.

(3) The adequacy of financial and management plans to demonstrate and validate the technology.

(4) The costs and benefits to the Department of Defense of developing and using the technology.

(5) The potential for commercialization of the technology.

(6) The proposed arrangements for sharing the costs of the partnership through the use of resources outside the Department of Defense.

(d) *FUNDING.*—Under a partnership entered into under subsection (a), the Secretary of Defense may provide funds to the partner or partners from appropriations available to the Department of Defense for environmental activities, for a period of up to five years.

(e) *REPORT.*—In the annual report required under section 2706(a) of title 10, United States Code, the Secretary of Defense shall include the following information with respect to partnerships entered into under this section:

(1) The number of such partnerships.

(2) A description of the nature of the technology involved in each such partnership.

(3) A list of all partners in such partnerships.

(f) *COORDINATION.*—The Secretary of Defense shall ensure that the Department of Defense coordinates with the Administrator of the Environmental Protection Agency in any verification sponsored by the Department of Defense technologies demonstrated and validated by a partnership entered into under this section.

(g) *PROCEDURES.*—The Secretary of Defense shall develop appropriate procedures to ensure that all Department of Defense funds committed to a partnership entered into under this section are expended for the purpose authorized in the partnership agreement. The Secretary may not enter into a partnership under this section until 30 days after the date on which a copy of such procedures is provided to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives.

(h) *TERMINATION OF AUTHORITY.*—The authority to enter into agreements under subsection (a) shall terminate three years after the date of the enactment of this Act.

SEC. 350. PROCUREMENT OF RECYCLED COPIER PAPER.

(a) *PROCUREMENT REQUIREMENTS.*—Chapter 140 of title 10, United States Code, is amended by adding at the end the following new section:

“§2378. Procurement of copier paper containing specified percentages of post-consumer recycled content

“(a) *PROCUREMENT REQUIREMENT.*—(1) Except as provided in subsections (b) and (c), a department or agency of the Department of Defense may not procure copying machine paper after the applicable date specified in paragraph (2) unless the percentage of post-consumer recycled content of the paper meets the percentage then in effect under such paragraph.

“(2) The percentage of post-consumer recycled content of paper required under paragraph (1) is as follows:

“(A) 20 percent as of January 1, 1998.

“(B) 30 percent as of January 1, 1999.

“(C) 50 percent as of January 1, 2004.

“(b) *EXCEPTIONS.*—A department or agency of the Department of Defense is not required to procure copying machine paper containing a percentage of post-consumer recycled content that meets the applicable requirement in subsection (a) if the Secretary concerned determines that one or more of the following circumstances apply with respect to that procurement:

“(1) The cost of procuring copying machine paper satisfying the applicable requirement significantly exceeds the cost of procuring copying machine paper containing a percentage of post-consumer recycled content that does not meet such requirement. The Secretary concerned shall establish the cost differential to be applied under this paragraph.

“(2) Copying machine paper containing a percentage of post-consumer recycled content meeting such requirement is not reasonably available within a reasonable period of time.

“(3) Copying machine paper containing a percentage of post-consumer recycled content meeting such requirement does not meet performance standards of the department or agency for copying machine paper.

“(c) *EFFECT OF INABILITY TO MEET GOAL IN 2004.*—(1) In the case of the requirement that will take effect on January 1, 2004, pursuant to subsection (a)(2)(C), the requirement shall not take effect with respect to a military department or Defense Agency if the Secretary of Defense determines that the department or agency will be unable to meet such requirement by that date.

“(2) The Secretary shall submit to Congress written notice of any determination made under paragraph (1) and the reasons for the determination. The Secretary shall submit such notice, if at all, not later than January 1, 2003.

“(d) *SECRETARY CONCERNED DEFINED.*—In this section, the term ‘Secretary concerned’ means the Secretary of each military department and the Secretary of Defense with respect to the Defense Agencies.”.

(b) *CLERICAL AMENDMENT.*—*The table of sections at the beginning of such chapter is amended by adding at the end the following new item:*

“2378. Procurement of copier paper containing specified percentages of post-consumer recycled content.”.

SEC. 351. PILOT PROGRAM FOR THE SALE OF AIR POLLUTION EMISSION REDUCTION INCENTIVES.

(a) *AUTHORITY.*—(1) *The Secretary of Defense may, in consultation with the Administrator of General Services, carry out a pilot program to assess the feasibility and advisability of the sale of economic incentives for the reduction of emission of air pollutants attributable to a facility of a military department.*

(2) *The Secretary may carry out the pilot program during the period beginning on the date of the enactment of this Act and ending two years after such date.*

(b) *INCENTIVES AVAILABLE FOR SALE.*—(1) *Under the pilot program, the Secretary may sell economic incentives for the reduction of emission of air pollutants attributable to a facility of a military department only if such incentives are not otherwise required for the activities or operations of the military department.*

(2) *The Secretary may not, under the pilot program, sell economic incentives attributable to the closure or realignment of a military installation under a base closure law.*

(3) *If the Secretary determines that additional sales of economic incentives are likely to result in amounts available for allocation under subsection (c)(2) in a fiscal year in excess of the limitation set forth in subparagraph (B) of that subsection, the Secretary shall not carry out such additional sales in that fiscal year.*

(c) *USE OF PROCEEDS.*—(1) *The proceeds of sale of economic incentives attributable to a facility of a military department shall be credited to the funds available to the facility for the costs of identifying, quantifying, or valuing economic incentives for the reduction of emission of air pollutants. The amount credited shall be equal to the cost incurred in identifying, quantifying, or valuing the economic incentives sold.*

(2)(A)(i) *If after crediting under paragraph (1) a balance remains, the amount of such balance shall be available to the Department of Defense for allocation by the Secretary to the military departments for programs, projects, and activities necessary for compliance with Federal environmental laws, including the purchase of economic incentives for the reduction of emission of air pollutants.*

(ii) *To the extent practicable, amounts allocated to the military departments under this subparagraph shall be made available to the facilities that generated the economic incentives providing the basis for the amounts.*

(B) *The total amount allocated under this paragraph in a fiscal year from sales of economic incentives may not equal or exceed \$500,000.*

(3) *If after crediting under paragraph (1) a balance remains in excess of an amount equal to the limitation set forth in paragraph (2)(B), the amount of the excess shall be covered over into the Treasury as miscellaneous receipts.*

(4) Funds credited under paragraph (1) or allocated under paragraph (2) shall be merged with the funds to which credited or allocated, as the case may be, and shall be available for the same purposes and for the same period as the funds with which merged.

(d) DEFINITIONS.—In this section:

(1) The term “base closure law” means the following:

(A) Section 2687 of title 10, United States Code.

(B) Title II of the Defense Authorization Amendments and Base Closure and Realignment Act (Public Law 100-526; 10 U.S.C. 2687 note).

(C) The Defense Base Closure and Realignment Act of 1990 (part A of title XXIX of Public Law 101-510; 10 U.S.C. 2687 note).

(2) The term “economic incentives for the reduction of emission of air pollutants” means any transferable economic incentives (including marketable permits and emission rights) necessary or appropriate to meet air quality requirements under the Clean Air Act (42 U.S.C. 7401 et seq.).

Subtitle D—Depot-Level Activities

SEC. 355. DEFINITION OF DEPOT-LEVEL MAINTENANCE AND REPAIR.

(a) DEPOT-LEVEL MAINTENANCE AND REPAIR DEFINED.—Chapter 146 of title 10, United States Code, is amended by inserting before section 2461 the following new section:

“§2460. Definition of depot-level maintenance and repair

“(a) IN GENERAL.—In this chapter, the term ‘depot-level maintenance and repair’ means (except as provided in subsection (b)) material maintenance or repair requiring the overhaul, upgrading, or rebuilding of parts, assemblies, or subassemblies, and the testing and reclamation of equipment as necessary, regardless of the source of funds for the maintenance or repair. The term includes (1) all aspects of software maintenance classified by the Department of Defense as of July 1, 1995, as depot-level maintenance and repair, and (2) interim contractor support or contractor logistics support (or any similar contractor support), to the extent that such support is for the performance of services described in the preceding sentence.

“(b) EXCEPTIONS.—(1) The term does not include the procurement of major modifications or upgrades of weapon systems that are designed to improve program performance or the nuclear refueling of an aircraft carrier. A major upgrade program covered by this exception could continue to be performed by private or public sector activities.

“(2) The term also does not include the procurement of parts for safety modifications. However, the term does include the installation of parts for that purpose.”

(b) CONFORMING AMENDMENT.—Section 2469 of title 10, United States Code, is amended in subsections (a) and (b), by striking out “or repair” and inserting in lieu thereof “and repair”.

(c) CLERICAL AMENDMENTS.—(1) The table of sections at the beginning of chapter 146 of title 10, United States Code, is amended

by inserting before the item relating to section 2461 the following new item:

“2460. *Definition of depot-level maintenance and repair.*”

(2) *The tables of chapters at the beginning of subtitle A, and at the beginning of part IV of subtitle A, of such title are amended by striking out the item relating to chapter 146 and inserting in lieu thereof the following new item:*

“146. *Contracting for Performance of Civilian Commercial or Industrial Type Functions* 2460”.

SEC. 356. CORE LOGISTICS CAPABILITIES OF DEPARTMENT OF DEFENSE.

(a) *IN GENERAL.*—Section 2464 of title 10, United States Code, is amended to read as follows:

“§2464. Core logistics capabilities

“(a) *NECESSITY FOR CORE LOGISTICS CAPABILITIES.*—(1) *It is essential for the national defense that the Department of Defense maintain a core logistics capability that is Government-owned and Government-operated (including Government personnel and Government-owned and Government-operated equipment and facilities) to ensure a ready and controlled source of technical competence and resources necessary to ensure effective and timely response to a mobilization, national defense contingency situations, and other emergency requirements.*

“(2) *The Secretary of Defense shall identify the core logistics capabilities described in paragraph (1) and the workload required to maintain those capabilities.*

“(3) *The core logistics capabilities identified under paragraphs (1) and (2) shall include those capabilities that are necessary to maintain and repair the weapon systems and other military equipment (including mission-essential weapon systems or materiel not later than four years after achieving initial operational capability, but excluding systems and equipment under special access programs, nuclear aircraft carriers, and commercial items described in paragraph (5)) that are identified by the Secretary, in consultation with the Chairman of the Joint Chiefs of Staff, as necessary to enable the armed forces to fulfill the strategic and contingency plans prepared by the Chairman of the Joint Chiefs of Staff under section 153(a) of this title.*

“(4) *The Secretary of Defense shall require the performance of core logistics workloads necessary to maintain the core logistics capabilities identified under paragraphs (1), (2), and (3) at Government-owned, Government-operated facilities of the Department of Defense (including Government-owned, Government-operated facilities of a military department) and shall assign such facilities sufficient workload to ensure cost efficiency and technical competence in peacetime while preserving the surge capacity and reconstitution capabilities necessary to support fully the strategic and contingency plans referred to in paragraph (3).*

“(5) *The commercial items covered by paragraph (3) are commercial items that have been sold or leased in substantial quantities to the general public and are purchased without modification in the*

same form that they are sold in the commercial marketplace, or with minor modifications to meet Federal Government requirements.

“(b) **LIMITATION ON CONTRACTING.**—(1) Except as provided in paragraph (2), performance of workload needed to maintain a logistics capability identified by the Secretary under subsection (a)(2) may not be contracted for performance by non-Government personnel under the procedures and requirements of Office of Management and Budget Circular A-76 or any successor administrative regulation or policy (hereinafter in this section referred to as OMB Circular A-76).

“(2) The Secretary of Defense may waive paragraph (1) in the case of any such logistics capability and provide that performance of the workload needed to maintain that capability shall be considered for conversion to contractor performance in accordance with OMB Circular A-76. Any such waiver shall be made under regulations prescribed by the Secretary and shall be based on a determination by the Secretary that Government performance of the workload is no longer required for national defense reasons. Such regulations shall include criteria for determining whether Government performance of any such workload is no longer required for national defense reasons.

“(3)(A) A waiver under paragraph (2) may not take effect until the expiration of the first period of 30 days of continuous session of Congress that begins on or after the date on which the Secretary submits a report on the waiver to the Committee on Armed Services and the Committee on Appropriations of the Senate and the Committee on National Security and the Committee on Appropriations of the House of Representatives.

“(B) For the purposes of subparagraph (A)—

“(i) continuity of session is broken only by an adjournment of Congress sine die; and

“(ii) the days on which either House is not in session because of an adjournment of more than three days to a day certain are excluded in the computation of any period of time in which Congress is in continuous session.”

(b) **CLERICAL AMENDMENT.**—The item relating to such section at the beginning of chapter 146 of such title is amended to read as follows:

“2464. Core logistics capabilities.”

SEC. 357. INCREASE IN PERCENTAGE OF DEPOT-LEVEL MAINTENANCE AND REPAIR THAT MAY BE CONTRACTED FOR PERFORMANCE BY NON-GOVERNMENT PERSONNEL.

Section 2466(a) of title 10, United States Code, is amended by striking out “40 percent” and inserting in lieu thereof “50 percent”.

SEC. 358. ANNUAL REPORT ON DEPOT-LEVEL MAINTENANCE AND REPAIR.

Subsection (e) of section 2466 of title 10, United States Code, is amended to read as follows:

“(e) **REPORT.**—(1) Not later than February 1 of each year, the Secretary of Defense shall submit to Congress a report identifying, for each military department and Defense Agency, the percentage of the funds referred to in subsection (a) that were expended during the preceding fiscal year for performance of depot-level maintenance

and repair workloads by the public and private sectors as required by section 2466 of this title.

“(2) Not later than 90 days after the date on which the Secretary submits the annual report under paragraph (1), the Comptroller General shall submit to Congress the Comptroller General’s views on whether the Department of Defense has complied with the requirements of subsection (a) for the fiscal year covered by the report.”.

SEC. 359. REQUIREMENT FOR USE OF COMPETITIVE PROCEDURES IN CONTRACTING FOR PERFORMANCE OF DEPOT-LEVEL MAINTENANCE AND REPAIR WORKLOADS FORMERLY PERFORMED AT CLOSED OR REALIGNED MILITARY INSTALLATIONS.

(a) **APPLICATION TO CERTAIN WORKLOADS.**—(1) Chapter 146 of title 10, United States Code, is amended by inserting after section 2469 the following new section:

“§2469a. Use of competitive procedures in contracting for performance of depot-level maintenance and repair workloads formerly performed at certain military installations

“(a) **DEFINITIONS.**—In this section:

“(1) The term ‘closed or realigned military installation’ means a military installation where a depot-level maintenance and repair facility was approved in 1995 for closure or realignment under the Defense Base Closure and Realignment Act of 1990 (part A of title XXIX of Public Law 101–510; 10 U.S.C. 2687 note).

“(2) The term ‘military installation’ includes a former military installation that was a military installation when it was approved in 1995 for closure or realignment under the Defense Base Closure and Realignment Act of 1990 and that has been closed or realigned under the Act.

“(3) The terms ‘realignment’ and ‘realigned’ mean a decision under the Defense Base Closure and Realignment Act of 1990 that results in both a reduction and relocation of functions and civilian personnel positions.

“(b) **COVERED DEPOT-LEVEL MAINTENANCE AND REPAIR WORKLOADS.**—Except as provided in subsection (c), this section applies with respect to any depot-level maintenance and repair workload that—

“(1) was performed as of January 1, 1997, at a military installation that was approved in 1995 for closure or realignment under the Defense Base Closure and Realignment Act of 1990 and that has been closed or realigned under the Act; and

“(2) is proposed to be converted from performance by Department of Defense personnel to performance by a private sector source.

“(c) **EXCEPTIONS.**—This section shall not apply with respect to—

“(1) a depot-level maintenance and repair workload that is to be consolidated to another military installation (other than a closed or realigned military installation) as a result of a base closure or realignment action or a decision made by the Secretary concerned or the Defense Depot Maintenance Council;

“(2) a workload necessary to maintain a core logistics capability identified under section 2464 of this title; or

“(3) any contract originally entered into before the date of the enactment of the National Defense Authorization Act for Fiscal Year 1998.

“(d) *CONDITIONS AND SOLICITATION.*—A solicitation of offers for the performance of any depot-level maintenance and repair workload described in subsection (b) may be issued, and a contract may be awarded pursuant to such a solicitation, only if the following conditions are met with respect to the contract and the solicitation specifically states the conditions:

“(1) The source selection process used in the case of the solicitation and contract permits the consideration of offers submitted by private sector sources and offers submitted by public sector sources.

“(2) The source selection process used in the case of the solicitation and contract requires that, in the comparison of offers, there be taken into account—

“(A) the fair market value (or if fair market value cannot be determined, the estimated book value) of any land, plant, or equipment from a military installation that is proposed by a private offeror to be used to meet a specific workload (whether these assets are provided to the offeror by a local redevelopment authority or by any other source approved by an official of the Department of Defense); and

“(B) the total estimated direct and indirect costs that will be incurred by the Department of Defense and the total estimated direct and indirect savings (including overhead) that will be derived by the Department of Defense.

“(3) The cost standards used to determine the depreciation of facilities and equipment shall, to the maximum extent practicable, provide identical treatment to all public and private sector offerors.

“(4) Any offeror, whether public or private, may offer to perform the workload at any location or locations selected by the offeror and to team with any other public or private entity to perform that workload at one or more locations, including a Center of Industrial and Technical Excellence designated under section 2474 of this title.

“(5) No offeror may be given any preferential consideration for, or in any way be limited to, performing the workload in-place or at any other single location.

“(e) *CONTRACTS FOR MULTIPLE WORKLOADS.*—(1) A solicitation may be issued for a single contract for the performance of multiple depot-level maintenance and repair workloads described in subsection (b) only if—

“(A) the Secretary of Defense determines in writing that the individual workloads cannot as logically and economically be performed without combination by sources that are potentially qualified to submit an offer and to be awarded a contract to perform those individual workloads;

“(B) the Secretary submits to Congress a report setting forth the determination together with the reasons for the determination; and

“(C) the solicitation of offers for the contract is issued more than 60 days after the date on which the Secretary submits the report.

“(2) The Comptroller General shall review each report submitted under paragraph (1)(B) and, not later than 30 days after the report is submitted to Congress, shall submit to Congress the Comptroller General’s views regarding the determination of the Secretary that is set forth in the report, together with any other findings that the Comptroller General considers appropriate.

“(f) COMPETITIVE PROCEDURES REQUIRED.—Section 2304(c)(7) of this title shall not be used as the basis for an exception to the requirement to use competitive procedures for any contract for a depot-level maintenance and repair workload described in subsection (b).

“(g) REVIEWS OF COMPETITIVE PROCEDURES.—If a solicitation of offers for a contract for, or award of, any depot-level maintenance and repair workload described in subsection (b) is issued, the Comptroller General shall—

“(1) within 45 days after the issuance of the solicitation, review the solicitation and report to Congress on whether the solicitation—

“(A) provides substantially equal opportunity for public and private offerors to compete for the contract without regard to the location at which the workload is to be performed; and

“(B) is in compliance with the requirements of this section and all applicable provisions of law and regulations; and

“(2) within 45 days after any contract or award resulting from the solicitation is entered into or made, review the contract or award, including the contracting or award process, and report to Congress on whether—

“(A) the procedures used to conduct the competition—

“(i) provided substantially equal opportunity for public and private offerors to compete for the contract without regard to the location at which the workload is to be performed; and

“(ii) were in compliance with the requirements of this section and all applicable provisions of law and regulations;

“(B) appropriate consideration was given to factors other than cost in the selection of the source for performance of the workload; and

“(C) the contract or award resulted in the lowest total cost to the Department of Defense for performance of the workload.

“(h) RESOLUTION OF WORKLOAD AWARD OBJECTIONS.—Any public or private entity may, pursuant to procedures established by the Secretary, object to a solicitation of offers under this section for the performance of any depot-level maintenance and repair workload, or the award or proposed award of any workload pursuant to such a solicitation. The Secretary may designate a qualified individual or entity to review the objection; however, the Secretary shall not designate the Source Selection Authority or any individual from the

same military department as the Source Selection Authority to review the objection. The Secretary shall take appropriate action to address any defect in the solicitation or award in the event that the objection is sustained.”.

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 2469 the following new item:

“2469a. Use of competitive procedures in contracting for performance of depot-level maintenance and repair workloads formerly performed at certain military installations.”.

(b) **LIMITATION RELATING TO TIMING OF SOLICITATION.**—The first solicitation of offers from private sector sources for the performance of a depot-level maintenance and repair workload described in subsection (b) of section 2469a of title 10, United States Code, as added by subsection (a), may be issued pursuant to such section only after the date that is 30 days after the latest of the following:

(1) The date on which the Secretary of Defense publishes and submits to Congress a plan or Department of Defense directive that sets forth the specific procedures for the conduct of competitions among private and public sector entities for such depot-level maintenance and repair workloads.

(2) The date on which the Secretary of Defense submits to Congress the report on allocation of workloads required under subsection (c).

(3) The date on which the Comptroller General is required to submit the report to Congress under subsection (d).

(c) **REPORT OF ALLOCATION OF WORKLOAD.**—Before any solicitation of offers for the performance by a private sector source of a depot-level maintenance and repair workload at a closed or realigned installation described in subsection (b) of section 2469a of title 10, United States Code, as added by subsection (a), is to be issued, the Secretary of Defense shall submit to Congress a report describing the allocation proposed by the Secretary of all workloads that were performed at that closed or realigned military installation (as defined in subsection (a) of such section) as of July 1, 1995, including—

(1) the workloads that are considered to be core logistics functions under section 2464 of such title;

(2) the workloads that are proposed to be transferred to a military installation other than a closed or realigned military installation;

(3) the workloads that are proposed to be included in the public-private competitions carried out under section 2469a of such title, and, if any of such workloads are to be combined for purposes of such a competition, the reasons for combining the workloads, together with a description of how the workloads are to be combined;

(4) any workload that has been determined within the Department of Defense as no longer being necessary;

(5) the proposed schedule for implementing the allocations covered by the report; and

(6) the anticipated capacity utilization of the military installations and former military installations to which workloads are to be transferred, based on the maximum potential ca-

capacity certified to the 1995 Defense Base Closure and Realignment Commission, after the transfers are completed (not taking into account any workloads that may be transferred as a result of a public-private competition carried out under section 2469a of such title, as described in paragraph (3)).

(d) **REVIEW REGARDING AWARD FOR C-5 AIRCRAFT WORKLOAD.**—(1) The Comptroller General shall conduct a review of the award for the performance of the C-5 aircraft workload that was made to Warner Robins Air Logistics Center. As part of the review, the Comptroller General shall—

(A) determine whether the procedures used to conduct the competition—

(i) provided substantially equal opportunity for public and private offerors to compete for the award without regard to the location at which the workload is to be performed; and

(ii) are in compliance with the requirements of all applicable provisions of law and the Federal Acquisition Regulation; and

(B) determine whether that award results in the lowest total cost to the Department of Defense for performance of the workload.

(2) Not later than 60 days after the date of the enactment of this Act, the Comptroller General shall submit to Congress a report containing the results of the review.

SEC. 360. CLARIFICATION OF PROHIBITION ON MANAGEMENT OF DEPOT EMPLOYEES BY CONSTRAINTS ON PERSONNEL LEVELS.

Section 2472(a) of title 10, United States Code, is amended by striking out the first sentence and inserting in lieu thereof the following: “The civilian employees of the Department of Defense, including the civilian employees of the military departments and the Defense Agencies, who perform, or are involved in the performance of, depot-level maintenance and repair workloads may not be managed on the basis of any constraint or limitation in terms of man years, end strength, full-time equivalent positions, or maximum number of employees.”

SEC. 361. CENTERS OF INDUSTRIAL AND TECHNICAL EXCELLENCE.

(a) **DESIGNATION AND PURPOSE.**—(1) Chapter 146 of title 10, United States Code, is amended by adding at the end the following new section:

“§2474. Centers of Industrial and Technical Excellence: designation; public-private partnerships

“(a) **DESIGNATION.**—(1) The Secretary of Defense shall designate each depot-level activity of the military departments and the Defense Agencies (other than facilities approved for closure or major realignment under the Defense Base Closure and Realignment Act of 1990 (part A of title XXIX of Public Law 101-510; 10 U.S.C. 2687 note)) as a Center of Industrial and Technical Excellence in the recognized core competencies of the activity.

“(2) The Secretary shall establish a policy to encourage the Secretary of each military department and the head of each Defense Agency to reengineer industrial processes and adopt best-business

practices at their depot-level activities in connection with their core competency requirements, so as to serve as recognized leaders in their core competencies throughout the Department of Defense and in the national technology and industrial base (as defined in section 2500(1) of this title).

“(3) The Secretary of a military department may conduct a pilot program, consistent with applicable requirements of law, to test any practices referred to in paragraph (2) that the Secretary determines could improve the efficiency and effectiveness of depot-level operations, improve the support provided by depot-level activities for the armed forces user of the services of such activities, and enhance readiness by reducing the time that it takes to repair equipment.

“(b) PUBLIC-PRIVATE PARTNERSHIPS.—The Secretary of Defense shall enable Centers of Industrial and Technical Excellence to enter into public-private cooperative arrangements for the performance of depot-level maintenance and repair at such Centers and shall encourage the use of such arrangements to maximize the utilization of the capacity at such Centers. A public-private cooperative arrangement under this subsection shall be known as a ‘public-private partnership’.

“(c) CREDITING OF AMOUNTS FOR PERFORMANCE.—Amounts received by a Center for work performed under a public-private partnership shall be credited to the appropriation or fund, including a working-capital fund, that incurs the cost of performing the work.

“(d) ADDITIONAL WORK.—The policy required under subsection (a) shall include measures to enable a private sector entity that enters into a partnership arrangement under subsection (b) or leases excess equipment and facilities at a Center of Industrial and Technical Excellence pursuant to section 2471 of this title to perform additional work at the Center, subject to the limitations outlined in subsection (b) of such section, outside of the types of work normally assigned to the Center.”.

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

“2474. Centers of Industrial and Technical Excellence: designation; public-private partnerships.”.

(b) LEASE OF EXCESS DEPOT-LEVEL EQUIPMENT AND FACILITIES.—(1) Section 2471(c) of such title is amended to read as follows:

“(c) CONFORMANCE WITH AUTHORITY UNDER SECTION 2667.—The provisions of subsection (d) of section 2667 of this title shall apply to this section in the same manner as such provisions are applicable under that section.”.

(2) Section 2667(d)(2) of such title is amended by inserting “or working capital fund” before “from which”.

(c) REPORTING REQUIREMENT.—Not later than March 1, 1999, the Secretary of Defense shall submit to Congress a report on the policies established by the Secretary pursuant to section 2474 of title 10, United States Code, to implement the requirements of such section. The report shall include—

(1) the details of any public-private partnerships entered into as of that date under subsection (b) of such section;

(2) the details of any leases entered into as of that date under section 2471 of such title with authorized entities for dual-use (military and nonmilitary) purposes; and

(3) the effect that the partnerships and leases had on capacity utilization, depot rate structures, and readiness.

SEC. 362. EXTENSION OF AUTHORITY FOR AVIATION DEPOTS AND NAVAL SHIPYARDS TO ENGAGE IN DEFENSE-RELATED PRODUCTION AND SERVICES.

Section 1425(e) of the National Defense Authorization Act for Fiscal Year 1991 (Public Law 101-510; 104 Stat. 1684) is amended by striking out "September 30, 1997" and inserting in lieu thereof "September 30, 1999".

SEC. 363. REPEAL OF A CONDITIONAL REPEAL OF CERTAIN DEPOT-LEVEL MAINTENANCE AND REPAIR LAWS AND A RELATED REPORTING REQUIREMENT.

Section 311 of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104-106; 110 Stat. 247; 10 U.S.C. 2464 note) is amended by striking out subsections (f) and (g).

SEC. 364. PERSONNEL REDUCTIONS, ARMY DEPOTS PARTICIPATING IN ARMY WORKLOAD AND PERFORMANCE SYSTEM.

(a) *LIMITATION.*—Except as necessary to implement BRAC 1995 decisions at Red River Army Depot, Texas, and Letterkenny Army Depot, Pennsylvania, the Secretary of the Army may not initiate a reduction in force of civilian employees at the five Army depots participating in the demonstration and testing of the Army Workload and Performance System until after the date on which the Secretary submits to Congress a report certifying that the Army Workload and Performance System is fully operational.

(b) *BRAC 1995 DECISIONS DEFINED.*—The term "BRAC 1995 decisions" means the decisions to close or realign certain military installations resulting from the recommendations approved in 1995 under the Defense Base Closure and Realignment Act of 1990 (part A of title XXIX of Public Law 101-510; 10 U.S.C. 2687 note).

SEC. 365. REPORT ON ALLOCATION OF CORE LOGISTICS ACTIVITIES AMONG DEPARTMENT OF DEFENSE FACILITIES AND PRIVATE SECTOR FACILITIES.

(a) *REPORT.*—Not later than May 31, 1998, the Secretary of Defense shall submit to Congress a report on the allocation among facilities of the Department of Defense and facilities in the private sector of the logistics activities that are necessary to maintain and repair the weapon systems and other military equipment identified by the Secretary, in consultation with the Chairman of the Joint Chiefs of Staff, as being necessary to enable the Armed Forces to conduct a strategic or major theater war.

(b) *ELEMENTS.*—The report under subsection (a) shall set forth the following:

(1) The systems or equipment identified under subsection (a) that must be maintained and repaired in Government-owned, Government-operated facilities, using personnel and equipment of the Department, as a result of the Secretary's determination that—

(A) the work involves unique or valuable workforce skills that should be maintained in the public sector in the national interest;

(B) the base of private sector sources having the capability to perform the workloads includes industry sectors that are vulnerable to work stoppages;

(C) the private sector sources having the capability to perform the workloads have insufficient workforce levels or skills to perform the depot-level maintenance and repair workloads—

(i) in the quantity necessary, or as rapidly as the Secretary considers necessary, to enable the armed forces to fulfill the national military strategy; or

(ii) without a significant disruption or delay in the maintenance and repair of equipment;

(D) the need for performance of workloads is too infrequent, cyclical, or variable to sustain a reliable base of private sector sources having the workforce levels or skills to perform the workloads;

(E) the market conditions or workloads are insufficient to ensure that the price of private sector performance of the workloads can be controlled through competition or other means;

(F) private sector sources are not adequately responsive to the requirements of the Department for rapid, cost-effective, and flexible response to surge requirements or other contingency situations, including changes in the mix or priority of previously scheduled workloads and reassignment of employees to different workloads without the requirement for additional contractual negotiations;

(G) private sector sources are less willing to assume responsibility for performing the workload as a result of the possibility of direct military or terrorist attack; or

(H) private sector sources cannot maintain continuity of workforce expertise as a result of high rates of employee turnover.

(2) The systems or equipment identified under subsection (a) that must be maintained and repaired in Government-owned facilities, whether Government operated or contractor-operated, as a result of the Secretary's determination that—

(A) the work involves facilities, technologies, or equipment that are unique and sufficiently valuable that the facilities, technologies, or equipment must be maintained in the public sector in the national interest;

(B) the private sector sources having the capability to perform the workloads have insufficient facilities, technology, or equipment to perform the depot-level maintenance and repair workloads—

(i) in the quantity necessary, or as rapidly as the Secretary considers necessary, to enable the armed forces to fulfill the national military strategy; or

(ii) without a significant disruption or delay in the maintenance and repair of equipment; or

(C) the need for performance of workloads is too infrequent, cyclical, or variable to sustain a reliable base of private sector sources having the facilities, technology, or equipment to perform the workloads.

(3) *The systems or equipment identified under subsection (a) that may be maintained and repaired in private sector facilities.*

(4) *The approximate percentage of the total maintenance and repair workload of the Department of Defense necessary for the systems and equipment identified under subsection (a) that would be performed at Department of Defense facilities, and at private sector facilities, as a result of the determinations made for purposes of paragraphs (1), (2), and (3).*

SEC. 366. REVIEW OF USE OF TEMPORARY DUTY ASSIGNMENTS FOR SHIP REPAIR AND MAINTENANCE.

(a) *FINDINGS.*—Congress makes the following findings:

(1) *In order to reduce the time that the crew of a naval vessel is away from the homeport of the vessel, the Navy seeks to perform ship repair and maintenance of the vessel at the homeport of the vessel whenever it takes six months or less to accomplish the work involved.*

(2) *At the same time, the Navy seeks to distribute ship repair and maintenance work among the Navy shipyards (known as to “level load”) in order to more fully utilize personnel resources.*

(3) *During periods when a Navy shipyard is not utilized to its capacity, the Navy sometimes sends workers at the shipyard, on a temporary duty basis, to perform ship repairs and maintenance at a homeport not having a Navy shipyard.*

(4) *This practice is a more efficient use of civilian employees who might otherwise not be fully employed on work assigned to Navy shipyards.*

(b) *COMPTROLLER GENERAL REVIEW AND REPORT.*—(1) *The Comptroller General shall review the Navy’s practice of using temporary duty assignments of personnel to perform ship maintenance and repair work at homeports not having Navy shipyards. The review shall include the following:*

(A) *An assessment of the rationale, conditions, and factors supporting the Navy’s practice.*

(B) *A determination of whether the practice is cost-effective.*

(C) *The factors affecting future requirements for, and the adherence to, the practice, together with an assessment of the factors.*

(2) *Not later than May 1, 1998, the Comptroller General shall submit a report on the review to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives.*

SEC. 367. SENSE OF CONGRESS REGARDING REALIGNMENT OF PERFORMANCE OF GROUND COMMUNICATION-ELECTRONIC WORKLOAD.

It is the sense of Congress that the transfer of the ground communication-electronic workload to Tobyhanna Army Depot, Pennsylvania, in the realignment of the performance of such function should be carried out in adherence to the schedule prescribed for that transfer by the Defense Depot Maintenance Council on March 13, 1997, as follows:

(1) *Transfer of 20 percent of the workload in fiscal year 1998.*

(2) *Transfer of 40 percent of the workload in fiscal year 1999.*

(3) *Transfer of 40 percent of the workload in fiscal year 2000.*

SEC. 376. PLAN FOR USE OF PUBLIC AND PRIVATE PARTNERSHIPS TO BENEFIT MORALE, WELFARE, AND RECREATION ACTIVITIES.

(a) *PLAN REQUIRED.*—The Secretary of Defense shall prepare a plan containing a proposal regarding the advisability and feasibility of permitting nonappropriated fund instrumentalities of the Department of Defense to enter into leases, licensing agreements, concession agreements, and other contracts with private persons and State or local governments to facilitate the provision of facilities, goods, or services to authorized patrons of nonappropriated fund instrumentalities and to generate revenues for the Department of Defense to be used solely for the benefit of nonappropriated fund instrumentalities.

(b) *RECOMMENDATIONS FOR SCOPE OF PLAN.*—In developing the proposal under subsection (a), the Secretary shall include recommendations regarding the following:

(1) The proposed criteria to be used to select goods or services suitable for provision to patrons of nonappropriated fund instrumentalities through a lease or other contractual arrangement.

(2) The proposed mechanism to be used to assess the likely impact of such a lease or other contractual arrangement on pri-

vate businesses in the locality that provide the same goods or services proposed to be provided under such a lease or other contractual arrangement.

(3) The feasibility and desirability of authorizing persons who are not authorized patrons of nonappropriated fund instrumentalities to receive goods and services provided through such a lease or other contractual arrangement.

(4) The proposed mechanism to be used to ensure that such a lease or contract will not be inconsistent with and will not adversely affect the mission of the Department of Defense or the nonappropriated fund instrumentality involved.

(c) *SUBMISSION OF PLAN.*—Not later than March 1, 1998, the Secretary shall submit to Congress the plan required under subsection (a).

Subtitle F—Other Matters

SEC. 381. ASSISTANCE TO LOCAL EDUCATIONAL AGENCIES THAT BENEFIT DEPENDENTS OF MEMBERS OF THE ARMED FORCES AND DEPARTMENT OF DEFENSE CIVILIAN EMPLOYEES.

(a) *CONTINUATION OF DEPARTMENT OF DEFENSE PROGRAM FOR FISCAL YEAR 1998.*—Of the amount authorized to be appropriated pursuant to section 301(5) for operation and maintenance for Defense-wide activities—

(1) \$30,000,000 shall be available for providing educational agencies assistance (as defined in subsection (d)(1)) to local educational agencies; and

(2) \$5,000,000 shall be available for making educational agencies payments (as defined in subsection (d)(2)) to local educational agencies.

(b) *NOTIFICATION.*—Not later than June 30, 1998, the Secretary of Defense shall—

(1) notify each local educational agency that is eligible for educational agencies assistance for fiscal year 1998 of that agency's eligibility for such assistance and the amount of such assistance for which that agency is eligible; and

(2) notify each local educational agency that is eligible for an educational agencies payment for fiscal year 1998 of that agency's eligibility for such payment and the amount of the payment for which that agency is eligible.

(c) *DISBURSEMENT OF FUNDS.*—The Secretary of Defense shall disburse funds made available under paragraphs (1) and (2) of subsection (a) not later than 30 days after the date on which notification to the eligible local educational agencies is provided pursuant to subsection (b).

(d) *DEFINITIONS.*—In this section:

(1) The term “educational agencies assistance” means assistance authorized under section 386(b) of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102-484; 20 U.S.C. 7703 note).

(2) The term “educational agencies payments” means payments authorized under section 386(d) of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102-484; 20 U.S.C. 7703 note).

(3) The term “local educational agency” has the meaning given that term in section 8013(9) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7713(9)).

(e) **TECHNICAL CORRECTION RELATING TO ORIGINAL ASSISTANCE AUTHORITY.**—Section 386(c)(1) of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102–484; 20 U.S.C. 7703 note) is amended—

(1) by striking out “section 8003(a)” and inserting in lieu thereof “section 8003(a)(1)”; and

(2) by striking out “(20 U.S.C. 7703(a))” and inserting in lieu thereof “(20 U.S.C. 7703(a)(1))”.

SEC. 382. CENTER FOR EXCELLENCE IN DISASTER MANAGEMENT AND HUMANITARIAN ASSISTANCE.

(a) **ESTABLISHMENT AND OPERATION OF CENTER.**—(1) Chapter 7 of title 10, United States Code, is amended by adding at the end the following new section:

“§ 182. Center for Excellence in Disaster Management and Humanitarian Assistance

“(a) **ESTABLISHMENT.**—The Secretary of Defense may operate a Center for Excellence in Disaster Management and Humanitarian Assistance (in this section referred to as the ‘Center’).

“(b) **MISSIONS.**—(1) The Center shall be used to provide and facilitate education, training, and research in civil-military operations, particularly operations that require international disaster management and humanitarian assistance and operations that require coordination between the Department of Defense and other agencies.

“(2) The Center shall be used to make available high-quality disaster management and humanitarian assistance in response to disasters.

“(3) The Center shall be used to provide and facilitate education, training, interagency coordination, and research on the following additional matters:

“(A) Management of the consequences of nuclear, biological, and chemical events.

“(B) Management of the consequences of terrorism.

“(C) Appropriate roles for the reserve components in the management of such consequences and in disaster management and humanitarian assistance in response to natural disasters.

“(D) Meeting requirements for information in connection with regional and global disasters, including the use of advanced communications technology as a virtual library.

“(E) Tropical medicine, particularly in relation to the medical readiness requirements of the Department of Defense.

“(4) The Center shall develop a repository of disaster risk indicators for the Asia-Pacific region.

“(5) The Center shall perform such other missions as the Secretary of Defense may specify.

(c) **JOINT OPERATION WITH EDUCATIONAL INSTITUTION AUTHORIZED.**—The Secretary of Defense may enter into an agreement with appropriate officials of an institution of higher education to provide for joint operation of the Center. Any such agreement shall provide for the institution to furnish necessary administrative serv-

ices for the Center, including administration and allocation of funds.

“(d) ACCEPTANCE OF DONATIONS.—(1) Except as provided in paragraph (2), the Secretary of Defense may accept, on behalf of the Center, donations to be used to defray the costs of the Center or to enhance the operation of the Center. Such donations may be accepted from any agency of the Federal Government, any State or local government, any foreign government, any foundation or other charitable organization (including any that is organized or operates under the laws of a foreign country), or any other private source in the United States or a foreign country.

“(2) The Secretary may not accept a donation under paragraph (1) if the acceptance of the donation would compromise or appear to compromise—

“(A) the ability of the Department of Defense, any employee of the Department, or members of the armed forces, to carry out any responsibility or duty of the Department in a fair and objective manner; or

“(B) the integrity of any program of the Department of Defense or of any person involved in such a program.

“(3) The Secretary shall prescribe written guidance setting forth the criteria to be used in determining whether or not the acceptance of a foreign donation would have a result described in paragraph (2).

“(4) Funds accepted by the Secretary under paragraph (1) as a donation on behalf of the Center shall be credited to appropriations available to the Department of Defense for the Center. Funds so credited shall be merged with the appropriations to which credited and shall be available for the Center for the same purposes and the same period as the appropriations with which merged.”

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

“182. Center for Excellence in Disaster Management and Humanitarian Assistance.”

(b) FUNDING FOR FISCAL YEAR 1998.—Of the funds authorized to be appropriated pursuant to section 301(5) for operation and maintenance for Defense-wide activities, \$5,000,000 shall be available for the operation of the Center for Excellence in Disaster Management and Humanitarian Assistance established under section 182 of title 10, United States Code, as added by subsection (a).

SEC. 383. APPLICABILITY OF FEDERAL PRINTING REQUIREMENTS TO DEFENSE AUTOMATED PRINTING SERVICE.

(a) IN GENERAL.—Subchapter I of chapter 8 of title 10, United States Code, is amended by adding at the end the following new section:

SEC. 385. COLLECTION AND RETENTION OF COST INFORMATION DATA ON CONVERTED SERVICES AND FUNCTIONS.

(a) **COLLECTION AND RETENTION REQUIRED.**—*Section 2463 of title 10, United States Code, is amended to read as follows:*

“§ 2463. Collection and retention of cost information data on converted services and functions

“(a) REQUIREMENTS IN CONNECTION WITH CONVERSION TO CONTRACTOR PERFORMANCE.—With respect to each contract converting the performance of a service or function of the Department of Defense to contractor performance (and any extension of such a contract), the Secretary of Defense shall collect, during the term of the contract or extension, but not to exceed five years, cost information data regarding performance of the service or function by private contractor employees.

“(b) REQUIREMENTS IN CONNECTION WITH RETURN TO EMPLOYEE PERFORMANCE.—Whenever the performance of a commercial or industrial type activity of the Department of Defense that is being performed by 50 or more employees of a private contractor is changed to performance by civilian employees of the Department of Defense, the Secretary of Defense shall collect, for a five-year period, cost information data comparing—

“(1) the estimated costs of continued performance of such activity by private contractor employees; and

“(2) the costs of performance of such activity by civilian employees of the Department of Defense.

“(c) RETENTION OF INFORMATION.—With regard to the conversion to or from contractor performance of a particular service or function of the Department of Defense, the Secretary of Defense shall provide for the retention of information collected under this section for at least a 10-year period beginning at the end of the final year in which the information is collected.”.

(b) **CLERICAL AMENDMENT.**—*The item relating to such section in the table of sections at the beginning of chapter 146 of title 10, United States Code, is amended to read as follows:*

“2463. Collection and retention of cost information data on converted services and functions.”.

SEC. 386. FINANCIAL ASSISTANCE TO SUPPORT ADDITIONAL DUTIES ASSIGNED TO ARMY NATIONAL GUARD.

(a) *AUTHORITY.*—Chapter 1 of title 32, United States Code, is amended by adding at the end the following new section:

“§ 113. Federal financial assistance for support of additional duties assigned to the Army National Guard

“(a) *AUTHORITY.*—The Secretary of the Army may provide financial assistance to a State to support activities carried out by the Army National Guard of the State in the performance of duties that the Secretary has assigned, with the consent of the Chief of the National Guard Bureau, to the Army National Guard of the State. The Secretary shall determine the amount of the assistance that is appropriate for the purpose.

“(b) *COVERED ACTIVITIES.*—Activities supported under this section may include only those activities that are carried out by the Army National Guard in the performance of responsibilities of the Secretary of the Army under paragraphs (6), (10), and (11) of section 3013(b) of title 10.

“(c) *DISBURSEMENT THROUGH NATIONAL GUARD BUREAU.*—The Secretary of the Army shall disburse any contribution under this section through the Chief of the National Guard Bureau.

“(d) *AVAILABILITY OF FUNDS.*—Funds appropriated for the Army for a fiscal year are available for providing financial assistance under this section in support of activities carried out by the Army National Guard during that fiscal year.”.

(b) *CLERICAL AMENDMENT.*—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

“113. Federal financial assistance for support of additional duties assigned to the Army National Guard.”.

SEC. 387. COMPETITIVE PROCUREMENT OF PRINTING AND DUPLICATION SERVICES.

(a) *EXTENSION OF REQUIREMENT TO USE PRIVATE-SECTOR SOURCES.*—Subsection (a) of section 351 of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104–106; 110 Stat. 266) is amended—

(1) by striking out “and 1997” and inserting in lieu thereof “through 1998”; and

(2) by striking out “Defense Printing Service” and inserting in lieu thereof “Defense Automated Printing Service”.

(b) *SURCHARGE FOR SERVICES.*—Such section is further amended by adding at the end the following new subsection:

“(d) *CONDITIONS ON IMPOSITION OF SURCHARGE.*—(1) Any surcharge imposed by the Defense Automated Printing Service on printing and duplication services for the Department of Defense shall be based on direct services provided by the Defense Automated Printing Service and reflect the costs incurred by the Defense Automated Printing Service, as described in its annual budget.

“(2) The Defense Automated Printing Service may not impose a surcharge on any printing and duplication service for the Depart-

ment of Defense that is procured from a source outside of the Department.”.

(c) **AUTHORITY TO PROCURE SERVICES FROM GOVERNMENT PRINTING OFFICE.**—Consistent with section 501 of title 44, United States Code, the Secretary of a military department or head of a Defense Agency may contract directly with the Government Printing Office for printing and duplication services otherwise available through the Defense Automated Printing Service.

SEC. 388. CONTINUATION AND EXPANSION OF DEMONSTRATION PROGRAM TO IDENTIFY OVERPAYMENTS MADE TO VENDORS.

(a) **SCOPE OF PROGRAM.**—Section 354 of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104-106; 110 Stat. 268; 10 U.S.C. 2461 note) is amended—

(1) in subsection (a), by striking out the second sentence; and

(2) in subsection (b)(1), by striking out “of the Defense Logistics Agency that relate to (at least) fiscal years 1993, 1994, and 1995” and inserting in lieu thereof “relating to fiscal years after fiscal year 1993 of the working-capital funds and industrial, commercial, and support type activities managed through the Defense Business Operations Fund, except the Defense Logistics Agency to the extent such records have already been audited”.

(b) **COLLECTION METHOD; CONTRACTOR PAYMENTS.**—Such section is further amended by striking out subsections (d) and (e) and inserting in lieu thereof the following new subsections:

“(d) **COLLECTION METHOD.**—(1) In the case of an overpayment to a vendor identified under the demonstration program, the Secretary shall consider the use of the procedures specified in section 32.611 of the Federal Acquisition Regulation, regarding a setoff against existing invoices for payment to the vendor, as the first method by which the Department seeks to recover the amount of the overpayment (and any applicable interest and penalties) from the vendor.

“(2) The Secretary of Defense shall be solely responsible for notifying a vendor of an overpayment made to the vendor and identified under the demonstration program and for recovering the amount of the overpayment (and any applicable interest and penalties) from the vendor.

“(e) **FEES FOR CONTRACTOR.**—The Secretary shall pay to the contractor under the contract entered into under the demonstration program an amount not to exceed 25 percent of the total amount recovered by the Department (through the collection of overpayments and the use of setoffs) solely on the basis of information obtained as a result of the audits performed by the contractor under the program. When an overpayment is recovered through the use of a setoff, amounts for the required payment to the contractor shall be derived from funds available to the working-capital fund or industrial, commercial, or support type activity for which the overpayment is recovered.”.

(c) **GAO REVIEW.**—Not later than December 31, 1998, the Comptroller General shall submit to Congress a report containing the results of a review by the Comptroller General of the demonstration program conducted under section 354 of the National Defense

Authorization Act for Fiscal Year 1996 (Public Law 104-106; 10 U.S.C. 2461 note). In the review, the Comptroller General shall—

(1) assess the success of the methods used in the demonstration program to identify overpayments made to vendors;

(2) consider the types of overpayments identified and the feasibility of avoiding such overpayments through contract adjustments;

(3) determine the total amount of overpayments recovered under the demonstration program; and

(4) develop recommendations for improving the process by which overpayments are recovered by the Department of Defense.

SEC. 389. DEVELOPMENT OF STANDARD FORMS REGARDING PERFORMANCE WORK STATEMENT AND REQUEST FOR PROPOSAL FOR CONVERSION OF CERTAIN OPERATIONAL FUNCTIONS OF MILITARY INSTALLATIONS.

(a) STANDARDIZATION OF REQUIREMENTS.—The Secretary of Defense is authorized and encouraged to develop standard forms (to be known as a “standard performance work statement” and a “standard request for proposal”) for use in the consideration for conversion to contractor performance of commercial services and functions at military installations. A separate standard form shall be developed for each service and function.

(b) RELATIONSHIP TO OMB REQUIREMENTS.—A standard performance work statement or a standard request for proposal developed under subsection (a) must fulfill the basic requirements of the performance work statement or request for proposal otherwise required under the procedures and requirements of Office of Management and Budget Circular A-76 (or any successor administrative regulation or policy) in effect at the time the standard form will be used.

(c) PRIORITY DEVELOPMENT OF CERTAIN FORMS.—In developing standard performance work statements and standard requests for proposal, the Secretary shall give first priority to those commercial services and functions that the Secretary determines have been successfully converted to contractor performance on a repeated basis.

(d) INCENTIVE FOR USE.—Beginning not later than October 1, 1998, if a standard performance work statement or a standard request for proposal is developed under subsection (a) for a particular service and function, the standard form may be used in lieu of the performance work statement or request for proposal otherwise required under the procedures and requirements of Office of Management and Budget Circular A-76 in connection with the consideration for conversion to contractor performance of that service or function at a military installation.

(e) EXCLUSION OF MULTI-FUNCTION CONVERSION.—If a commercial service or function for which a standard form is developed under subsection (a) is combined with another service or function (for which such a form has not yet been developed) for purposes of considering the services and functions at the military installation for conversion to contractor performance, a standard performance work statement or a standard request for proposal developed under subsection (a) may not be used in the conversion process in lieu of

the procedures and requirements of Office of Management and Budget Circular A-76.

(f) *EFFECT ON OTHER LAWS.*—Nothing in this section shall be construed to supersede any other requirements or limitations, specifically contained in chapter 146 of title 10, United States Code, on the conversion to contractor performance of activities performed by civilian employees of the Department of Defense.

(g) *GAO REPORT.*—Not later than June 1, 1999, the Secretary of Defense shall submit to Congress a report reviewing the implementation of this section.

(h) *MILITARY INSTALLATION DEFINED.*—For purposes of this section, the term “military installation” means a base, camp, post, station, yard, center, homeport facility for any ship, or other activity under the jurisdiction of the Department of Defense, including any leased facility.

SEC. 390. BASE OPERATIONS SUPPORT FOR MILITARY INSTALLATIONS ON GUAM.

(a) *CONTRACTOR USE OF NONIMMIGRANT ALIENS.*—Each contract for base operations support to be performed on Guam shall contain a condition that work under the contract may not be performed by any alien who is issued a visa or otherwise provided non-immigrant status under section 101(a)(15)(H)(ii) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(15)(H)(ii)).

(b) *APPLICATION OF SECTION.*—This section shall apply to contracts entered into, amended, or otherwise modified on or after the date of the enactment of this Act.

SEC. 391. WARRANTY CLAIMS RECOVERY PILOT PROGRAM.

(a) *PILOT PROGRAM REQUIRED.*—The Secretary of Defense may carry out a pilot program to use commercial sources of services to improve the collection of Department of Defense claims under aircraft engine warranties.

(b) *CONTRACTS.*—Exercising the authority provided in section 3718 of title 31, United States Code, the Secretary of Defense may enter into contracts under the pilot program to provide for the following services:

- (1) Collection services.
- (2) Determination of amounts owed the Department of Defense for repair of aircraft engines for conditions covered by warranties.
- (3) Identification and location of the sources of information that are relevant to collection of Department of Defense claims under aircraft engine warranties, including electronic data bases and document filing systems maintained by the Department of Defense or by the manufacturers and suppliers of the aircraft engines.
- (4) Services to define the elements necessary for an effective training program to enhance and improve the performance of Department of Defense personnel in collecting and organizing documents and other information that are necessary for efficient filing, processing, and collection of Department of Defense claims under aircraft engine warranties.

(c) *CONTRACTOR FEE.*—Under the authority provided in section 3718(d) of title 31, United States Code, a contract entered into

under the pilot program shall provide for the contractor to be paid, out of the amount recovered by the contractor under the program, such percentages of the amount recovered as the Secretary of Defense determines appropriate.

(d) *RETENTION OF RECOVERED FUNDS.*—Subject to any obligation to pay a fee under subsection (c), any amount collected for the Department of Defense under the pilot program for a repair of an aircraft engine for a condition covered by a warranty shall be credited to an appropriation available for repair of aircraft engines for the fiscal year in which collected and shall be available for the same purposes and same period as the appropriation to which credited.

(e) *REGULATIONS.*—The Secretary of Defense shall prescribe regulations to carry out this section.

(f) *TERMINATION OF AUTHORITY.*—The pilot program shall terminate on September 30, 1999, and contracts entered into under this section shall terminate not later than that date.

(g) *REPORTING REQUIREMENTS.*—(1) Not later than January 1, 2000, the Secretary of Defense shall submit to Congress a report on the pilot program. The report shall include the following:

(A) The number of contracts entered into under the program.

(B) The extent to which the services provided under the contracts resulted in financial benefits for the Federal Government.

(C) Any additional comments and recommendations that the Secretary considers appropriate regarding use of commercial sources of services for collection of Department of Defense claims under aircraft engine warranties.

(2) Not later than March 1, 2000, the Comptroller General shall submit to Congress a report containing the results of a review by the Comptroller General of the pilot program. In the review, the Comptroller General shall—

(A) assess the success of the methods used in the demonstration program to identify and recover Department of Defense claims under aircraft engine warranties;

(B) determine the total amount recovered by the Department of Defense under the pilot program;

(C) evaluate the report prepared by the Secretary under paragraph (1); and

(D) develop recommendations for improving the process by which warranty claims are recovered by the Department of Defense.

SEC. 392. PROGRAM TO INVESTIGATE FRAUD, WASTE, AND ABUSE WITHIN DEPARTMENT OF DEFENSE.

The Secretary of Defense shall maintain a specific coordinated program for the investigation of evidence of fraud, waste, and abuse within the Department of Defense, particularly fraud, waste, and abuse regarding finance and accounting matters.

SEC. 393. MULTITECHNOLOGY AUTOMATED READER CARD DEMONSTRATION PROGRAM.

(a) *PROGRAM REQUIRED.*—The Secretary of the Navy shall carry out a program to demonstrate expanded use of multitechnology automated reader cards throughout the Navy and the Marine Corps. The demonstration program shall include demonstration of

the use of the so-called “smartship” technology of the ship-to-shore work load / off load program of the Navy.

(b) *PERIOD OF PROGRAM.*—The Secretary shall carry out the demonstration program for two years beginning not later than January 1, 1998.

(c) *REPORT.*—Not later than 90 days after termination of the demonstration program, the Secretary shall submit to Congress a report on the results of the program.

(d) *FUNDING.*—Of the amount authorized to be appropriated pursuant to section 301(2) for operation and maintenance for the Navy, \$36,000,000 shall be available for the demonstration program under this section, of which \$6,300,000 shall be available for demonstration of the use of the so-called “smartship” technology of the ship-to-shore work load / off load program of the Navy.

SEC. 394. REDUCTION IN OVERHEAD COSTS OF INVENTORY CONTROL POINTS.

(a) *REPORT AND PLAN REQUIRED.*—Not later than March 1, 1998, the Secretary of Defense shall submit to Congress a report containing a plan to reduce overhead costs of the supply management activities of the Defense Logistics Agency and the military departments (known as Inventory Control Points) so that the overhead costs for each fiscal year after fiscal year 2000 do not exceed eight percent of net sales at standard price by Inventory Control Points during that year.

(b) *ADDITIONAL REPORT REQUIREMENT.*—In addition to the plan, the report shall include the following:

(1) An identification of inherently governmental, core and noncore functions in Inventory Control Points and Distribution Depots.

(2) A description of efforts, other than prime vendor and virtual prime vendor, underway or proposed to improve the efficiency, incentives, and accountability in Department of Defense supply, inventory and warehousing services and rates.

(3) An identification and description of the benchmarks established in the warehousing, distribution, and supply functions of the Department and the relationship of the benchmarks to performance measurement methods used in the private sector.

(4) A description of the outcome-oriented performance measures that are currently being used to evaluate Inventory Control Points and Distribution Depots.

(5) A specification of any legislative, regulatory, or operational impediments to achieving the requirement in subsection (a) and implementing best business practices in the warehousing, distribution, and supply functions of the Department.

(c) *DEFINITIONS.*—For purposes of this section:

(1) The term “overhead costs” means the total expenses of the Inventory Control Points, excluding—

(A) annual materiel costs; and

(B) military and civilian personnel related costs, defined as personnel compensation and benefits under the March 1996 Department of Defense Financial Management Regulations, Volume 2A, Chapter 1, Budget Account Title

File (Object Classification Name/Code), object classifications 200, 211, 220, 221, 222, and 301.

(2) The term “net sales at standard price” has the meaning given that term in the March 1996 Department of Defense Financial Management Regulations, Volume 2B, Chapter 9, and displayed in “Exhibit Fund—14 Revenue and Expenses” for the supply management business areas.

SEC. 395. INVENTORY MANAGEMENT.

(a) DEVELOPMENT AND SUBMISSION OF SCHEDULE.—Not later than 180 days after the date of the enactment of this Act, the Director of the Defense Logistics Agency shall develop and submit to Congress a schedule for implementing within the agency, for the supplies and equipment described in subsection (b), inventory practices identified by the Director as being the best commercial inventory practices for the acquisition and distribution of such supplies and equipment consistent with military requirements. The schedule shall provide for the implementation of such practices to be completed not later than three years after date of the enactment of this Act.

(b) COVERED SUPPLIES AND EQUIPMENT.—Subsection (a) shall apply to the following types of supplies and equipment for the Department of Defense:

- (1) Medical and pharmaceutical.*
- (2) Subsistence.*
- (3) Clothing and textiles.*
- (4) Commercially available electronics.*
- (5) Construction.*
- (6) Industrial.*
- (7) Automotive.*
- (8) Fuel.*
- (9) Facilities maintenance.*

(c) DEFINITION.—For purposes of this section, the term “best commercial inventory practice” includes a so-called prime vendor arrangement and any other practice that the Director determines will enable the Defense Logistics Agency to reduce inventory levels and holding costs while improving the responsiveness of the supply system to user needs.

(d) REPORT ON EXPANSION OF COVERED SUPPLIES AND EQUIPMENT.—Not later than March 1, 1998, the Comptroller General shall submit to Congress a report evaluating the feasibility of expanding the list of covered supplies and equipment under subsection (b) to include repairable items.

Subtitle A—Officer Personnel Policy

SEC. 501. LIMITATION ON NUMBER OF GENERAL AND FLAG OFFICERS WHO MAY SERVE IN POSITIONS OUTSIDE THEIR OWN SERVICE.

(a) *IN GENERAL.*—Chapter 41 of title 10, United States Code, is amended by adding at the end the following new section:

“§ 721. General and flag officers: limitation on appointments, assignments, details, and duties outside an officer’s own service

“(a) *LIMITATION.*—An officer described in subsection (b) may not be appointed, assigned, or detailed for a period in excess of 180 days to a position external to that officer’s armed force if, immediately following such appointment, assignment, or detail, the number of officers described in subsection (b) serving in positions external to such officers’ armed force would be in excess of 26.5 percent of the total number of the officers described in subsection (b).

“(b) *COVERED OFFICERS.*—The officers covered by subsection (a), and to be counted for the purposes of the limitation in that subsection, are the following:

“(1) Any general or flag officer counted for purposes of section 526(a) of this title.

“(2) Any general or flag officer serving in a joint duty assignment position designated by the Chairman of the Joint Chiefs of Staff under section 526(b) of this title.

“(3) Any colonel or Navy captain counted for purposes of section 777(d)(1) of this title.

“(c) *EXTERNAL POSITIONS.*—For purposes of this section, the following positions shall be considered to be external to an officer’s armed force:

“(1) Any position (including a position in joint education) that is a joint duty assignment for purposes of chapter 38 of this title.

“(2) Any position in the Office of the Secretary of Defense, a Defense Agency, or a Department of Defense Field Activity.

“(3) Any position in the Joint Chiefs of Staff, the Joint Staff, or the headquarters of a combatant command (as defined in chapter 6 of this title).

“(4) Any position in the National Guard Bureau.

“(5) Any position outside the Department of Defense, including any position in the headquarters of the North Atlantic Treaty Organization or any other international military command, any combined or multinational command, or military mission.

“(d) *TREATMENT OF OFFICERS HOLDING MULTIPLE POSITIONS.*—

(1) If an officer described in subsection (b) simultaneously holds both a position external to that officer’s armed force and another position not external to that officer’s armed force, the Secretary of Defense shall determine whether that officer shall be counted for the purposes of this section.

“(2) The Secretary of Defense shall submit to Congress an annual report on the number of officers to whom paragraph (1) was applicable during the year covered by the report. The report shall set forth the determination made by the Secretary under that paragraph in each such case.

“(e) *ASSIGNMENTS, ETC., FOR PERIODS IN EXCESS OF 180 DAYS.*—For purposes of this section, the appointment, assignment, or detail of an officer to a position shall be considered to be for a period in excess of 180 days unless the appointment, assignment, or detail specifies that it is made for a period of 180 days or less.

“(f) *WAIVER DURING PERIOD OF WAR OR NATIONAL EMERGENCY.*—The President may suspend the operation of this section during any period of war or of national emergency declared by Congress or the President.”.

SEC. 508. REPORT ON THE COMMAND SELECTION PROCESS FOR DISTRICT ENGINEERS OF THE ARMY CORPS OF ENGINEERS.

Not later than March 31, 1998, the Secretary of the Army shall submit to Congress a report on the command selection process for officers serving as District Engineers of the Corps of Engineers. The report shall include the following:

(1) An identification of each major Corps of Engineers project that—

(A) is being carried out by each District Engineer as of the date of the report; or

(B) is being planned by each District Engineer to be carried out during the five-year period beginning on the date of the report.

(2) The expected start and completion dates, during that period, for each major phase of each project identified under paragraph (1).

(3) The expected dates for changes in the District Engineer in each Corps of Engineers District during that period.

(4) A plan for optimizing the timing of changes in the District Engineer in each such District so that there is minimal disruption to major phases of major Corps of Engineers projects.

(5) A review of the effect on the Corps of Engineers, and on the mission of each District of the Corps of Engineers, of allowing major command tours of District Engineers to be of two-to-four years in duration, with the selection of the exact timing of the change of command to be at the discretion of the Chief of Engineers, who shall act with the goal of optimizing the timing of each change so that it has minimal disruption on the mission of the District Engineer.

Subtitle B—Reserve Component Matters

SEC. 511. INDIVIDUAL READY RESERVE ACTIVATION AUTHORITY.

(a) IRR MEMBERS SUBJECT TO ORDER TO ACTIVE DUTY OTHER THAN DURING WAR OR NATIONAL EMERGENCY.—Section 10144 of title 10, United States Code, is amended—

(1) by inserting “(a)” before “Within the Ready Reserve”;

and

(2) by adding at the end the following new subsection:

“(b)(1) Within the Individual Ready Reserve of each reserve component there is a category of members, as designated by the Sec-

retary concerned, who are subject to being ordered to active duty involuntarily in accordance with section 12304 of this title. A member may not be placed in that mobilization category unless—

“(A) the member volunteers for that category; and

“(B) the member is selected for that category by the Secretary concerned, based upon the needs of the service and the grade and military skills of that member.

“(2) A member of the Individual Ready Reserve may not be carried in such mobilization category of members after the end of the 24-month period beginning on the date of the separation of the member from active service.

“(3) The Secretary shall designate the grades and military skills or specialities of members to be eligible for placement in such mobilization category.

“(4) A member in such mobilization category shall be eligible for benefits (other than pay and training) as are normally available to members of the Selected Reserve, as determined by the Secretary of Defense.”

(b) **CRITERIA FOR ORDERING TO ACTIVE DUTY.**—Subsection (a) of section 12304 of title 10, United States Code, is amended by inserting after “of this title),” the following: “or any member in the Individual Ready Reserve mobilization category and designated as essential under regulations prescribed by the Secretary concerned.”

SEC. 513. CORRECTION OF INEQUITIES IN MEDICAL AND DENTAL CARE AND DEATH AND DISABILITY BENEFITS FOR RESERVE MEMBERS WHO INCUR OR AGGRAVATE AN ILLNESS IN THE LINE OF DUTY.

(a) *MEDICAL AND DENTAL CARE FOR MEMBERS.*—Section 1074a of title 10, United States Code, is amended—

(1) in subsection (a)(3), by inserting “while remaining overnight immediately before the commencement of inactive-duty training, or” after “in the line of duty”; and

(2) by adding at the end the following new subsection:

“(e) A member of a uniformed service described in paragraph (1)(A) or (2)(A) of subsection (a) whose orders are modified or extended, while the member is being treated for (or recovering from)

the injury, illness, or disease incurred or aggravated in the line of duty, so as to result in active duty for a period of more than 30 days shall be entitled, while the member remains on active duty, to medical and dental care on the same basis and to the same extent as members covered by section 1074(a) of this title.”

(b) *MEDICAL AND DENTAL CARE FOR DEPENDENTS.*—Section 1076(a) of such title is amended by striking out paragraph (2) and inserting in lieu thereof the following new paragraph:

“(2) A dependent referred to in paragraph (1) is a dependent of a member of a uniformed service described in one of the following subparagraphs:

“(A) A member who is on active duty for a period of more than 30 days or died while on that duty.

“(B) A member who died from an injury, illness, or disease incurred or aggravated—

“(i) while the member was on active duty under a call or order to active duty of 30 days or less, on active duty for training, or on inactive-duty training; or

“(ii) while the member was traveling to or from the place at which the member was to perform, or had performed, such active duty, active duty for training, or inactive-duty training.

“(C) A member who died from an injury, illness, or disease incurred or aggravated in the line of duty while the member remained overnight immediately before the commencement of inactive-duty training, or while the member remained overnight between successive periods of inactive-duty training, at or in the vicinity of the site of the inactive-duty training, if the site was outside reasonable commuting distance from the member’s residence.

“(D) A member who incurred or aggravated an injury, illness, or disease in the line of duty while serving on active duty for a period of 30 days or less (or while traveling to or from the place of such duty) and the member’s orders are modified or extended, while the member is being treated for (or recovering from) the injury, illness, or disease, so as to result in active duty for a period of more than 30 days. However, this subparagraph entitles the dependent to medical and dental care only while the member remains on active duty.”

(c) *ELIGIBILITY FOR DISABILITY RETIREMENT OR SEPARATION.*—(1) Section 1204(2) of such title is amended to read as follows:

“(2) the disability—

“(A) was incurred before September 24, 1996, as the proximate result of—

“(i) performing active duty or inactive-duty training;

“(ii) traveling directly to or from the place at which such duty is performed; or

“(iii) an injury, illness, or disease incurred or aggravated while remaining overnight, immediately before the commencement of inactive-duty training, or while remaining overnight between successive periods of inactive-duty training, at or in the vicinity of the site of the inactive-duty training, if the site of the inactive-

duty training is outside reasonable commuting distance of the member's residence; or

“(B) is a result of an injury, illness, or disease incurred or aggravated in line of duty after September 23, 1996—

“(i) while performing active duty or inactive-duty training;

“(ii) while traveling directly to or from the place at which such duty is performed; or

“(iii) while remaining overnight, immediately before the commencement of inactive-duty training, or while remaining overnight between successive periods of inactive-duty training, at or in the vicinity of the site of the inactive-duty training, if the site of the inactive-duty training is outside reasonable commuting distance of the member's residence.”.

(2) Section 1206 of such title is amended—

(A) by redesignating paragraphs (2), (3), and (4) as paragraphs (3), (4), and (5), respectively, and

(B) by inserting after paragraph (1) the following new paragraph (2):

“(2) the disability is a result of an injury, illness, or disease incurred or aggravated in line of duty while—

“(A) performing active duty or inactive-duty training;

“(B) traveling directly to or from the place at which such duty is performed; or

“(C) while remaining overnight immediately before the commencement of inactive-duty training, or while remaining overnight between successive periods of inactive-duty training, at or in the vicinity of the site of the inactive-duty training, if the site is outside reasonable commuting distance of the member's residence.”.

SEC. 531. REFORM OF MILITARY RECRUITING SYSTEMS.

(a) **IN GENERAL.**—The Secretary of Defense shall carry out reforms in the recruiting systems of the Army, Navy, Air Force, and Marine Corps in order to improve the quality of new recruits and to reduce attrition among recruits.

(b) **SPECIFIC REFORMS.**—As part of the reforms in military recruiting systems to be undertaken under subsection (a), the Secretary shall take the following steps:

(1) Improve the system of pre-enlistment waivers and separation codes used for recruits by (A) revising and updating those waivers and codes to allow more accurate and useful data collection about those separations, and (B) prescribing regulations to ensure that those waivers and codes are interpreted in a uniform manner by the military services.

(2) Develop a reliable database for (A) analyzing (at both the Department of Defense and service-level) data on reasons for attrition of new recruits, and (B) undertaking Department of Defense or service-specific measures (or both) to control and manage such attrition.

(3) *Require that the Secretary of each military department (A) adopt or strengthen incentives for recruiters to thoroughly prescreen potential candidates for recruitment, and (B) link incentives for recruiters, in part, to the ability of a recruiter to screen out unqualified candidates before enlistment.*

(4) *Require that the Secretary of each military department include as a measurement of recruiter performance the percentage of persons enlisted by a recruiter who complete initial combat training or basic training.*

(5) *Assess trends in the number and use of waivers over the 1991–1997 period that were issued to permit applicants to enlist with medical or other conditions that would otherwise be disqualifying.*

(6) *Require the Secretary of each military department to implement policies and procedures (A) to ensure the prompt separation of recruits who are unable to successfully complete basic training, and (B) to remove those recruits from the training environment while separation proceedings are pending.*

(c) *REPORT.—Not later than March 31, 1998, the Secretary shall submit to Congress a report of the trends assessed under subsection (b)(5). The information on those trends provided in the report shall be shown by armed force and by category of waiver. The report shall include recommendations of the Secretary for changing, revising, or limiting the use of waivers referred to in that subsection.*

SEC. 532. IMPROVEMENTS IN MEDICAL PRESCHOOLING OF APPLICANTS FOR MILITARY SERVICE.

(a) *IN GENERAL.—The Secretary of Defense shall improve the medical prescreening of applicants for entrance into the Army, Navy, Air Force, or Marine Corps.*

(b) *SPECIFIC STEPS.—As part of those improvements, the Secretary shall take the following steps:*

(1) *Require that each applicant for service in the Army, Navy, Air Force, or Marine Corps (A) provide to the Secretary the name of the applicant's medical insurer and the names of past medical providers, and (B) sign a release allowing the Secretary to request and obtain medical records of the applicant.*

(2) *Require that the forms and procedures for medical prescreening of applicants that are used by recruiters and by Military Entrance Processing Commands be revised so as to ensure that medical questions are specific, unambiguous, and tied directly to the types of medical separations most common for recruits during basic training and follow-on training.*

(3) *Add medical screening tests to the examinations of recruits carried out by Military Entrance Processing Stations, provide more thorough medical examinations to selected groups of applicants, or both, to the extent that the Secretary determines that to do so could be cost effective in reducing attrition at basic training.*

(4) *Provide for an annual quality control assessment of the effectiveness of the Military Entrance Processing Commands in identifying medical conditions in recruits that existed before enlistment in the Armed Forces, each such assessment to be per-*

formed by an agency or contractor other than the Military Entrance Processing Commands.

SEC. 533. IMPROVEMENTS IN PHYSICAL FITNESS OF RECRUITS.

(a) *IN GENERAL.*—The Secretary of Defense shall take steps to improve the physical fitness of recruits before they enter basic training.

(b) *SPECIFIC STEPS.*—As part of those improvements, the Secretary shall take the following steps:

(1) Direct the Secretary of each military department to implement programs under which new recruits who are in the Delayed Entry Program are encouraged to participate in physical fitness activities before reporting to basic training.

(2) Develop a range of incentives for new recruits to participate in physical fitness programs, as well as for those recruits who improve their level of fitness while in the Delayed Entry Program, which may include access to Department of Defense military fitness facilities, and access to military medical facilities in the case of a recruit who is injured while participating in physical activities with recruiters or other military personnel.

(3) Evaluate whether partnerships between recruiters and reserve components, or other innovative arrangements, could provide a pool of qualified personnel to assist in the conduct of physical training programs for new recruits in the Delayed Entry Program.

Subtitle E—Military Education and Training

PART I—OFFICER EDUCATION PROGRAMS

SEC. 541. REQUIREMENT FOR CANDIDATES FOR ADMISSION TO UNITED STATES NAVAL ACADEMY TO TAKE OATH OF ALLEGIANCE.

(a) *REQUIREMENT.*—Section 6958 of title 10, United States Code, is amended by adding at the end the following new subsection:

“(d) To be admitted to the Naval Academy, an appointee must take and subscribe to an oath prescribed by the Secretary of the Navy. If a candidate for admission refuses to take and subscribe to the prescribed oath, the candidate’s appointment is terminated.”

(b) *EXCEPTION FOR MIDSHIPMEN FROM FOREIGN COUNTRIES.*—Section 6957 of such title is amended by adding at the end the following new subsection:

“(d) A person receiving instruction under this section is not subject to section 6958(d) of this title.”

SEC. 542. SERVICE ACADEMY FOREIGN EXCHANGE PROGRAM.

(a) *UNITED STATES MILITARY ACADEMY.*—(1) Chapter 403 of title 10, United States Code, is amended by inserting after section 4344 the following new section:

“§ 4345. Exchange program with foreign military academies

“(a) *EXCHANGE PROGRAM AUTHORIZED.*—The Secretary of the Army may permit a student enrolled at a military academy of a foreign country to receive instruction at the Academy in exchange for a cadet receiving instruction at that foreign military academy pursuant to an exchange agreement entered into between the Secretary and appropriate officials of the foreign country. Students receiving instruction at the Academy under the exchange program shall be in addition to persons receiving instruction at the Academy under section 4344 of this title.

“(b) *LIMITATIONS ON NUMBER AND DURATION OF EXCHANGES.*—An exchange agreement under this section between the Secretary and a foreign country shall provide for the exchange of students on a one-for-one basis each fiscal year. Not more than 10 cadets and a comparable number of students from all foreign military academies participating in the exchange program may be exchanged during any fiscal year. The duration of an exchange may not exceed the equivalent of one academic semester at the Academy.

“(c) *COSTS AND EXPENSES.*—(1) A student from a military academy of a foreign country is not entitled to the pay, allowances, and emoluments of a cadet by reason of attendance at the Academy under the exchange program, and the Department of Defense may not incur any cost of international travel required for transportation of such a student to and from the sponsoring foreign country.

“(2) The Secretary may provide a student from a foreign country under the exchange program, during the period of the exchange, with subsistence, transportation within the continental United States, clothing, health care, and other services to the same extent that the foreign country provides comparable support and services to the exchanged cadet in that foreign country.

“(3) The Academy shall bear all costs of the exchange program from funds appropriated for the Academy. Expenditures in support of the exchange program may not exceed \$50,000 during any fiscal year.

“(d) *APPLICATION OF OTHER LAWS.*—Subsections (c) and (d) of section 4344 of this title shall apply with respect to a student enrolled at a military academy of a foreign country while attending the Academy under the exchange program.

“(e) *REGULATIONS.*—The Secretary shall prescribe regulations to implement this section. Such regulations may include qualification criteria and methods of selection for students of foreign military academies to participate in the exchange program.”.

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 4344 the following new item:

“4345. Exchange program with foreign military academies.”.

(b) *NAVAL ACADEMY.*—(1) Chapter 603 of title 10, United States Code, is amended by inserting after section 6957 the following new section:

“§ 6957a. Exchange program with foreign military academies

“(a) *EXCHANGE PROGRAM AUTHORIZED.*—The Secretary of the Navy may permit a student enrolled at a military academy of a for-

ign country to receive instruction at the Naval Academy in exchange for a midshipman receiving instruction at that foreign military academy pursuant to an exchange agreement entered into between the Secretary and appropriate officials of the foreign country. Students receiving instruction at the Naval Academy under the exchange program shall be in addition to persons receiving instruction at the Academy under section 6957 of this title.

“(b) LIMITATIONS ON NUMBER AND DURATION OF EXCHANGES.—An exchange agreement under this section between the Secretary and a foreign country shall provide for the exchange of students on a one-for-one basis each fiscal year. Not more than 10 midshipmen and a comparable number of students from all foreign military academies participating in the exchange program may be exchanged during any fiscal year. The duration of an exchange may not exceed the equivalent of one academic semester at the Naval Academy.

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 9344 the following new item:

“9345. Exchange program with foreign military academies.”

(d) REPEAL OF OBSOLETE LIMITATION.—Section 9353(a) of such title is amended by striking out “After the date of the accrediting of the Academy, the” and inserting in lieu thereof “The”.

SEC. 543. REIMBURSEMENT OF EXPENSES INCURRED FOR INSTRUCTION AT SERVICE ACADEMIES OF PERSONS FROM FOREIGN COUNTRIES.

(a) UNITED STATES MILITARY ACADEMY.—Section 4344(b) of title 10, United States Code, is amended—

(1) in paragraph (2), by striking out the period at the end and inserting in lieu thereof the following: “, except that the reimbursement rates may not be less than the cost to the United

States of providing such instruction, including pay, allowances, and emoluments, to a cadet appointed from the United States.”;
and

(2) by adding at the end the following new paragraph:

“(3) The amount of reimbursement waived under paragraph (2) may not exceed 35 percent of the per-person reimbursement amount otherwise required to be paid by a foreign country under such paragraph, except in the case of not more than five persons receiving instruction at the Academy under this section at any one time.”.

(b) *NAVAL ACADEMY.*—Section 6957(b) of such title is amended—

(1) in paragraph (2), by striking out the period at the end and inserting in lieu thereof the following: “, except that the reimbursement rates may not be less than the cost to the United States of providing such instruction, including pay, allowances, and emoluments, to a midshipman appointed from the United States.”; and

(2) by adding at the end the following new paragraph:

“(3) The amount of reimbursement waived under paragraph (2) may not exceed 35 percent of the per-person reimbursement amount otherwise required to be paid by a foreign country under such paragraph, except in the case of not more than five persons receiving instruction at the Naval Academy under this section at any one time.”.

(c) *AIR FORCE ACADEMY.*—Section 9344(b) of such title is amended—

(1) in paragraph (2), by striking out the period at the end and inserting in lieu thereof the following: “, except that the reimbursement rates may not be less than the cost to the United States of providing such instruction, including pay, allowances, and emoluments, to a cadet appointed from the United States.”; and

(2) by adding at the end the following new paragraph:

“(3) The amount of reimbursement waived under paragraph (2) may not exceed 35 percent of the per-person reimbursement amount otherwise required to be paid by a foreign country under such paragraph, except in the case of not more than five persons receiving instruction at the Academy under this section at any one time.”.

(d) *EFFECTIVE DATE.*—The amendments made by this section apply with respect to students from a foreign country entering the United States Military Academy, the United States Naval Academy, or the United States Air Force Academy on or after May 1, 1998.

SEC. 544. CONTINUATION OF SUPPORT TO SENIOR MILITARY COLLEGES.

(a) *DEFINITION OF SENIOR MILITARY COLLEGES.*—For purposes of this section, the term “senior military colleges” means the following:

- (1) Texas A&M University.
- (2) Norwich University.
- (3) The Virginia Military Institute.
- (4) The Citadel.
- (5) Virginia Polytechnic Institute and State University.
- (6) North Georgia College and State University.

(b) *FINDINGS.*—Congress finds the following:

(1) *The senior military colleges consistently have provided substantial numbers of highly qualified, long-serving leaders to the Armed Forces.*

(2) *The quality of the military leaders produced by the senior military colleges is, in part, the result of the rigorous military environment imposed on students attending the senior military colleges by the colleges, as well as the result of the long-standing close support relationship between the Corps of Cadets at each college and the Reserve Officer Training Corps personnel at the colleges who serve as effective leadership role models and mentors.*

(3) *In recognition of the quality of the young leaders produced by the senior military colleges, the Department of Defense and the military services have traditionally maintained special relationships with the colleges, including the policy to grant active duty service in the Army to graduates of the colleges who desire such service and who are recommended for such service by their ROTC professors of military science.*

(4) *Each of the senior military colleges has demonstrated an ability to adapt its systems and operations to changing conditions in, and requirements of, the Armed Forces without compromising the quality of leaders produced and without interruption of the close relationship between the colleges and the Department of Defense.*

(c) *SENSE OF CONGRESS.—In light of the findings in subsection (b), it is the sense of Congress that—*

(1) *the proposed initiative of the Secretary of the Army to end the commitment to active duty service for all graduates of senior military colleges who desire such service and who are recommended for such service by their ROTC professors of military science is short-sighted and contrary to the long-term interests of the Army;*

(2) *as they have in the past, the senior military colleges can and will continue to accommodate to changing military requirements to ensure that future graduates entering military service continue to be officers of superb quality who are quickly assimilated by the Armed Forces and fully prepared to make significant contributions to the Armed Forces through extended military careers; and*

(3) *decisions of the Secretary of Defense or the Secretary of a military department that fundamentally and unilaterally change the long-standing relationship of the Armed Forces with the senior military colleges are not in the best interests of the Department of Defense or the Armed Forces and are patently unfair to students who made decisions to enroll in the senior military colleges on the basis of existing Department and Armed Forces policy.*

(d) *CONTINUATION OF SUPPORT FOR SENIOR MILITARY COLLEGES.—Section 2111a of title 10, United States Code, is amended—*

(1) *by redesignating subsection (d) as subsection (f); and*

(2) *by inserting after subsection (c) the following new subsections:*

“(d) TERMINATION OR REDUCTION OF PROGRAM PROHIBITED.—The Secretary of Defense and the Secretaries of the military depart-

ments may not take or authorize any action to terminate or reduce a unit of the Senior Reserve Officers' Training Corps at a senior military college unless the termination or reduction is specifically requested by the college.

“(e) ASSIGNMENT TO ACTIVE DUTY.—(1) The Secretary of the Army shall ensure that a graduate of a senior military college who desires to serve as a commissioned officer on active duty upon graduation from the college, who is medically and physically qualified for active duty, and who is recommended for such duty by the professor of military science at the college, shall be assigned to active duty. This paragraph shall apply to a member of the program at a senior military college who graduates from the college after March 31, 1997.

“(2) Nothing in this section shall be construed to prohibit the Secretary of the Army from requiring a member of the program who graduates from a senior military college to serve on active duty.”.

(e) TECHNICAL CORRECTIONS.—Subsection (f) of such section, as redesignated by subsection (d)(1), is amended—

(1) in paragraph (2), by striking out “College” and inserting in lieu thereof “University”; and

(2) in paragraph (6), by inserting before the period the following: “and State University”.

(f) CLERICAL AMENDMENTS.—(1) The heading of such section is amended to read as follows:

“§2111a. Support for senior military colleges”.

(2) The item relating to such section in the table of sections at the beginning of chapter 103 of title 10, United States Code, is amended to read as follows:

“2111a. Support for senior military colleges.”.

SEC. 545. REPORT ON MAKING UNITED STATES NATIONALS ELIGIBLE FOR PARTICIPATION IN SENIOR RESERVE OFFICERS' TRAINING CORPS.

(a) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall submit to the Committee on National Security of the House of Representatives and the Committee on Armed Services of the Senate a report on the utility of permitting United States nationals to participate in the Senior Reserve Officers' Training Corps program.

(b) REQUIRED INFORMATION.—The Secretary shall include in the report the following information:

(1) A brief history of the prior admission of United States nationals to the Senior Reserve Officers' Training Corps, including the success rate of these cadets and midshipmen and how that rate compared to the average success rate of cadets and midshipmen during that same period.

(2) The advantages of permitting United States nationals to participate in the Senior Reserve Officers' Training Corps program.

(3) The disadvantages of permitting United States nationals to participate in the Senior Reserve Officers' Training Corps program.

(4) The incremental cost of including United States nationals in the Senior Reserve Officers' Training Corps.

(5) *Methods of minimizing the risk that United States nationals admitted to the Senior Reserve Officers' Training Corps would be later disqualified because of ineligibility for United States citizenship.*

(6) *The recommendations of the Secretary on whether United States nationals should be eligible to participate in the Senior Reserve Officers' Training Corps program, and if so, a legislative proposal which would, if enacted, achieve that result.*

SEC. 546. COORDINATION OF ESTABLISHMENT AND MAINTENANCE OF JUNIOR RESERVE OFFICERS' TRAINING CORPS UNITS TO MAXIMIZE ENROLLMENT AND ENHANCE EFFICIENCY.

(a) *REQUIREMENT.*—Chapter 102 of title 10, United States Code, is amended by adding at the end the following new section:

“§2032. Responsibility of the Secretaries of the military departments to maximize enrollment and enhance efficiency

“(a) *COORDINATION.*—The Secretary of each military department, in establishing, maintaining, transferring, and terminating Junior Reserve Officers' Training Corps units under section 2031 of this title, shall do so in a coordinated manner that is designed to maximize enrollment in the Corps and to enhance administrative efficiency in the management of the Corps.

“(b) *CONSIDERATION OF NEW SCHOOL OPENINGS AND CONSOLIDATIONS.*—In carrying out subsection (a), the Secretary of a military department shall take into consideration—

“(1) openings of new schools;

“(2) consolidations of schools; and

“(3) the desirability of continuing the opportunity for participation in the Corps by participants whose continued participation would otherwise be adversely affected by new school openings and consolidations of schools.”.

(b) *CLERICAL AMENDMENT.*—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

“2032. Responsibility of the Secretaries of the military departments to maximize enrollment and enhance efficiency.”.

PART II—OTHER EDUCATION MATTERS

SEC. 551. UNITED STATES NAVAL POSTGRADUATE SCHOOL.

(a) *AUTHORITY TO ADMIT ENLISTED MEMBERS AS STUDENTS.*—Section 7045 of title 10, United States Code, is amended—

(1) in subsection (a)—

(A) by inserting “(1)” after “(a)”; and

(B) by adding at the end the following new paragraph:

“(2) The Secretary may permit an enlisted member of the armed forces who is assigned to the Naval Postgraduate School or to a nearby command to receive instruction at the Naval Postgraduate School. Admission of enlisted members for instruction under this paragraph shall be on a space-available basis.”;

(2) in subsection (b)—

(A) by striking out “the students” and inserting in lieu thereof “officers”; and

(B) by adding at the end the following new sentence: “In the case of an enlisted member permitted to receive instruction at the Postgraduate School, the Secretary of the Navy shall charge that member only for such costs and fees as the Secretary considers appropriate (taking into consideration the admission of enlisted members on a space-available basis).”; and

(3) in subsection (c)—

(A) by striking out “officers” both places it appears and inserting in lieu thereof “members”; and

(B) by striking out “same regulations” and inserting in lieu thereof “such regulations, as determined appropriate by the Secretary of the Navy.”

(b) **CLERICAL AMENDMENTS.**—(1) The heading of section 7045 of such title is amended to read as follows:

“§ 7045. Officers of the other armed forces; enlisted members: admission”.

(2) The item relating to section 7045 in the table of sections at the beginning of chapter 605 of such title is amended to read as follows:

“7045. Officers of the other armed forces; enlisted members: admission.”

(c) **AMENDMENT TO REFLECT REVISED CIVIL SERVICE GRADE STRUCTURE.**—Section 7043(b) of such title is amended by striking out “grade GS-18 of the General Schedule under section 5332 of title 5” and inserting in lieu thereof “level IV of the Executive Schedule”.

SEC. 552. COMMUNITY COLLEGE OF THE AIR FORCE.

(a) **EXPANSION OF MEMBERS ELIGIBLE FOR PROGRAM TO INCLUDE INSTRUCTORS AT AIR FORCE TRAINING SCHOOLS.**—Section 9315 of title 10, United States Code, is amended—

(1) in subsection (a)(1), by striking out “enlisted members of the Air Force” and inserting in lieu thereof “enlisted members described in subsection (b)”;

(2) by striking out “(b) Subject to subsection (c),” and inserting in lieu thereof “(c)(1) Subject to paragraph (2),”;

(3) by redesignating subsection (c) as paragraph (2) and in that paragraph redesignating clauses (1) and (2) as clauses (A) and (B), respectively; and

(4) by inserting after subsection (a) the following new subsection (b):

“(b) **MEMBERS ELIGIBLE FOR PROGRAMS.**—Subject to such other eligibility requirements as the Secretary concerned may prescribe, the following members of the armed forces are eligible to participate in programs of higher education under subsection (a)(1):

“(1) Enlisted members of the Air Force.

“(2) Enlisted members of the armed forces other than the Air Force who are serving as instructors at Air Force training schools.”

(b) **CLERICAL AMENDMENTS.**—Such section is further amended—

(1) in subsection (a), by inserting “ESTABLISHMENT AND MISSION.—” after “(a)”; and

(2) in subsection (c), as redesignated by subsection (a)(2), by inserting “CONFERRAL OF DEGREES.—” after “(c)”.

(c) *EFFECTIVE DATE.*—Subsection (b) of section 9315 of such title, as added by subsection (a)(4), applies with respect to enrollments in the Community College of the Air Force after March 31, 1996.

SEC. 553. PRESERVATION OF ENTITLEMENT TO EDUCATIONAL ASSISTANCE OF MEMBERS OF THE SELECTED RESERVE SERVING ON ACTIVE DUTY IN SUPPORT OF A CONTINGENCY OPERATION.

(a) *PRESERVATION OF EDUCATIONAL ASSISTANCE.*—Section 16131(c)(3)(B)(i) of title 10, United States Code, is amended by striking out “, in connection with the Persian Gulf War,”.

(b) *EXTENSION OF 10-YEAR PERIOD OF AVAILABILITY.*—Section 16133(b)(4) of such title is amended—

- (1) by striking out “(A)”;
- (2) by striking out “, during the Persian Gulf War,”;
- (3) by redesignating clauses (i) and (ii) as subparagraphs (A) and (B), respectively; and
- (4) by striking out “(B) For the purposes” and all that follows through “title 38.”.

PART III—TRAINING OF ARMY DRILL SERGEANTS

SEC. 556. REFORM OF ARMY DRILL SERGEANT SELECTION AND TRAINING PROCESS.

(a) *IN GENERAL.*—The Secretary of the Army shall reform the process for selection and training of drill sergeants for the Army.

(b) *MEASURES TO BE TAKEN.*—As part of such reform, the Secretary shall undertake the following measures (unless, in the case of any such measure, the Secretary determines that that measure would not result in improved effectiveness and efficiency in the drill sergeant selection and training process):

- (1) Review the overall process used by the Department of the Army for selection of drill sergeants to determine—
 - (A) whether that process is providing drill sergeant candidates in sufficient quantity and quality to meet the needs of the training system; and
 - (B) whether duty as a drill sergeant is a career-enhancing assignment (or is seen by potential drill sergeant candidates as a career-enhancing assignment) and what steps could be taken to ensure that such duty is in fact a career-enhancing assignment.

(2) Incorporate into the selection process for all drill sergeants the views and recommendations of the officers and senior noncommissioned officers in the chain of command of each candidate for selection (particularly those of senior noncommissioned officers) regarding the candidate’s suitability and qualifications to be a drill sergeant.

(3) Establish a requirement for psychological screening for each drill sergeant candidate.

(4) Reform the psychological screening process for drill sergeant candidates to improve the quality, depth, and rigor of that screening process.

(5) Revise the evaluation system for drill sergeants in training to provide for a so-called “whole person” assessment that gives insight into the qualifications and suitability of a drill sergeant candidate beyond the candidate’s ability to accomplish required performance tasks.

(6) Revise the Army military personnel records system so that, under conditions and circumstances to be specified in regulations prescribed by the Secretary, a drill sergeant trainee who fails to complete the training to be a drill sergeant and is denied graduation will not have the fact of that failure recorded in those personnel records.

(7) Provide each drill sergeant in training with the opportunity, before or during that training, to work with new recruits in initial entry training and to be evaluated on that opportunity.

(c) REPORT.—Not later than March 31, 1998, the Secretary shall submit to the Committee on National Security of the House of Representatives and the Committee on Armed Services of the Senate a report of the reforms adopted pursuant to this section or, in the case of any measure specified in any of paragraphs (1) through (7) of subsection (b) that was not adopted, the rationale why that measure was not adopted.

SEC. 557. TRAINING IN HUMAN RELATIONS MATTERS FOR ARMY DRILL SERGEANT TRAINEES.

(a) IN GENERAL.—(1) Chapter 401 of title 10, United States Code, is amended by adding at the end the following new section:

“§4318. Drill sergeant trainees: human relations training

“(a) HUMAN RELATIONS TRAINING REQUIRED.—The Secretary of the Army shall include as part of the training program for drill sergeants a course in human relations. The course shall be a minimum of two days in duration.

“(b) RESOURCES.—In developing a human relations course under this section, the Secretary shall use the capabilities and expertise of the Defense Equal Opportunity Management Institute (DEOMI).”.

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

“4318. Drill sergeant trainees: human relations training.”.

(b) EFFECTIVE DATE.—Section 4318 of title 10, United States Code, as added by subsection (a), shall apply with respect to drill sergeant trainee classes that begin after the end of the 90-day period beginning on the date of the enactment of this Act.

Subtitle F—Commission on Military Training and Gender-Related Issues

SEC. 561. ESTABLISHMENT AND COMPOSITION OF COMMISSION.

(a) *ESTABLISHMENT.*—*There is established a Commission on Military Training and Gender-Related Issues to review requirements and restrictions regarding cross-gender relationships of members of the Armed Forces, to review the basic training programs of the Army, Navy, Air Force, and Marine Corps, and to make recommendations on improvements to those programs, requirements, and restrictions.*

(b) *COMPOSITION.*—(1) *The commission shall be composed of 10 members, appointed as follows:*

(A) *Five members shall be appointed jointly by the chairman and ranking minority party member of the Committee on National Security of the House of Representatives.*

(B) *Five members shall be appointed jointly by the chairman and ranking minority party member of the Committee on Armed Services of the Senate.*

(2) *The members of the commission shall choose one of the members to serve as chairman.*

(3) *All members of the commission shall be appointed not later than 45 days after the date of the enactment of this Act.*

(1) *Training of military personnel.*

(2) *Social and cultural matters affecting entrance into the Armed Forces and affecting military service, military training, and military readiness, such knowledge and expertise to have been gained through recognized research, policy making and practical experience, as demonstrated by retired military personnel, members of the reserve components of the Armed Forces, representatives from educational organizations, and leaders from civilian industry and other Government agencies.*

(3) *Factors that define appropriate military job qualifications, including physical, mental, and educational factors.*

(4) *Combat or other theater of war operations.*

(5) *Organizational matters.*

(6) *Legal matters.*

(7) *Management.*

(8) *Gender integration matters.*

(d) *APPOINTMENTS.*—(1) *Members of the commission shall be appointed for the life of the commission.*

(2) *A vacancy in the membership shall not affect the commission's powers, but shall be filled in the same manner as the original appointment.*

SEC. 562. DUTIES.

(a) *FUNCTIONS RELATING TO REQUIREMENTS AND RESTRICTIONS REGARDING CROSS-GENDER RELATIONSHIPS.*—*The commission shall consider issues relating to personal relationships of members of the Armed Forces as follows:*

(1) Review the laws, regulations, policies, directives, and practices that govern personal relationships between men and women in the Armed Forces and personal relationships between members of the Armed Forces and non-military personnel of the opposite sex.

(2) Assess the extent to which the laws, regulations, policies, and directives have been applied consistently throughout the Armed Forces without regard to the armed force, grade, rank, or gender of the individuals involved.

(3) Assess the reports of the independent panel, the Department of Defense task force, and the review of existing guidance on fraternization and adultery that have been required by the Secretary of Defense.

(b) *FUNCTIONS RELATING TO GENDER-INTEGRATED AND GENDER-SEGREGATED BASIC TRAINING.*—(1) The commission shall review the parts of the initial entry training programs of the Army, Navy, Air Force, and Marine Corps that constitute the basic training of new recruits (in this subtitle referred to as “basic training”). The review shall include a review of the basic training policies and practices of each of those services with regard to gender-integrated and gender-segregated basic training and, for each of the services, the effectiveness of gender-integrated and gender-segregated basic training.

(2) As part of the review under paragraph (1), the commission shall (with respect to each of the services) take the following measures:

(A) Determine how each service defines gender-integration and gender-segregation in the context of basic training.

(B) Determine the historical rationales for the establishment and disestablishment of gender-integrated or gender-segregated basic training.

(C) Examine, with respect to each service, the current rationale for the use of gender-integrated or gender-segregated basic training and the rationale that was current as of the time the service made a decision to integrate, or to segregate, basic training by gender (or as of the time of the most recent decision to continue to use a gender-integrated format or a gender-segregated format for basic training), and, as part of the examination, evaluate whether at the time of that decision, the Secretary of the military department with jurisdiction over that service had substantive reason to believe, or has since developed data to support, that gender-integrated basic training, or gender-segregated basic training, improves the readiness or performance of operational units.

(D) Assess whether the concept of “training as you will fight” is a valid rationale for gender-integrated basic training or whether the training requirements and objectives for basic training are sufficiently different from those of operational units so that such concept, when balanced against other factors relating to basic training, might not be a sufficient rationale for gender-integrated basic training.

(E) Identify the requirements unique to each service that could affect a decision by the Secretary concerned to adopt a gender-integrated or gender-segregated format for basic train-

ing and assess whether the format in use by each service has been successful in meeting those requirements.

(F) Assess, with respect to each service, the degree to which different standards have been established, or if not established are in fact being implemented, for males and females in basic training for matters such as physical fitness, physical performance (such as confidence and obstacle courses), military skills (such as marksmanship and hand-grenade qualifications), and nonphysical tasks required of individuals and, to the degree that differing standards exist or are in fact being implemented, assess the effect of the use of those differing standards.

(G) Identify the goals that each service has set forth in regard to readiness, in light of the gender-integrated or gender-segregated format that such service has adopted for basic training, and whether that format contributes to the readiness of operational units.

(H) Assess the degree to which performance standards in basic training are based on military readiness.

(I) Evaluate the policies of each of the services regarding the assignment of adequate numbers of female drill instructors in gender-integrated training units who can serve as role models and mentors for female trainees.

(J) Review Department of Defense and military department efforts to objectively measure or evaluate the effectiveness of gender-integrated basic training, as compared to gender-segregated basic training, particularly with regard to the adequacy and scope of the efforts and with regard to the relevancy of findings to operational unit requirements, and determine whether the Department of Defense and the military departments are capable of measuring or evaluating the effectiveness of that training format objectively.

(K) Compare the pattern of attrition in gender-integrated basic training units with the pattern of attrition in gender-segregated basic training units and assess the relevancy of the findings of such comparison.

(L) Compare the level of readiness and morale of gender-integrated basic training units with the level of readiness and morale of gender-segregated units, and assess the relevancy of the findings of such comparison and the implications, for readiness, of any differences found.

(M) Compare the experiences, policies, and practices of the armed forces of other industrialized nations regarding gender-integrated training with those of the Army, Navy, Air Force, and Marine Corps.

(N) Review, and take into consideration, the current practices, relevant studies, and private sector training concepts pertaining to gender-integrated training.

(O) Assess the feasibility and implications of conducting basic training (or equivalent training) at the company level and below through separate units for male and female recruits, including the costs and other resource commitments required to implement and conduct basic training in such a manner and the implications for readiness and unit cohesion.

(P) Assess the feasibility and implications of requiring drill instructors for basic training units to be of the same sex as the recruits in those units if the basic training were to be conducted as described in subparagraph (O).

(c) *FUNCTIONS RELATING TO BASIC TRAINING PROGRAMS GENERALLY.*—The commission shall review the course objectives, structure, and length of the basic training programs of the Army, Navy, Air Force, and Marine Corps. The commission shall also review the relationship between those basic training objectives and the advanced training provided in the initial entry training programs of each of those services. As part of that review, the commission shall (with respect to each of those services) take the following measures:

(1) Determine the current end-state objectives established for graduates of basic training, particularly in regard to—

(A) physical conditioning;

(B) technical and physical skills proficiency;

(C) knowledge;

(D) military socialization, including the inculcation of service values and attitudes; and

(E) basic combat operational requirements.

(2) Assess whether those current end-state objectives, and basic training itself, should be modified (in structure, length, focus, program of instruction, training methods or otherwise) based, in part, on the following:

(A) An assessment of the perspectives of operational units on the quality and qualifications of the initial entry training graduates being assigned to those units, considering in particular whether the basic training system produces graduates who arrive in operational units with an appropriate level of skills, physical conditioning, and degree of military socialization to meet unit requirements and needs.

(B) An assessment of the demographics, backgrounds, attitudes, experience, and physical fitness of new recruits entering basic training, considering in particular the question of whether, given the entry level demographics, education, and background of new recruits, the basic training systems and objectives are most efficiently and effectively structured and conducted to produce graduates who meet service needs.

(C) An assessment of the perspectives of personnel who conduct basic training with regard to measures required to improve basic training.

(3) Assess the extent to which the initial entry training programs of each of the services continue, after the basic training phases of the programs, effectively to reinforce and advance the military socialization (including the inculcation of service values and attitudes), the physical conditioning, and the attainment and improvement of knowledge and proficiency in fundamental military skills that are begun in basic training.

(d) *RECOMMENDATIONS.*—The commission shall prepare—

(1) with respect to each of the Army, Navy, Air Force, and Marine Corps, an evaluation of gender-integrated and gender-

segregated basic training programs, based upon the review under subsection (b);

(2) recommendations for such changes to the current system of basic training as the commission considers warranted; and

(3) recommendations for such changes to laws, regulations, policies, directives, and practices referred to in subsection (a)(1) as the commission considers warranted.

(e) REPORTS.—(1) Not later than April 15, 1998, the commission shall submit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a report setting forth a strategic plan for the work of the commission and the activities and initial findings of the commission.

(2) Not later than September 16, 1998, the commission shall submit a final report to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives. The final report shall set forth the activities, findings, and recommendations of the commission, including any recommendations for congressional action and administrative action that the commission considers appropriate. The report shall specifically set forth the views of the Secretaries of the military departments regarding the matters described in subparagraphs (O) and (P) of subsection (b)(2).

SEC. 563. ADMINISTRATIVE MATTERS.

(a) MEETINGS.—(1) The commission shall hold its first meeting not later than 30 days after the date on which all members have been appointed.

(2) The commission shall meet upon the call of the chairman.

(3) A majority of the members of the commission shall constitute a quorum, but a lesser number may hold meetings.

(b) AUTHORITY OF INDIVIDUALS TO ACT FOR COMMISSION.—Any member or agent of the commission may, if authorized by the commission, take any action which the commission is authorized to take under this title.

(c) POWERS.—(1) The commission may hold such hearings, sit and act at such times and places, take such testimony, and receive such evidence as the commission considers advisable to carry out its duties.

(2) The commission may secure directly from the Department of Defense and any other department or agency of the Federal Government such information as the commission considers necessary to carry out its duties. Upon the request of the chairman of the commission, the head of a department or agency shall furnish the requested information expeditiously to the commission.

(3) The commission may use the United States mails in the same manner and under the same conditions as other departments and agencies of the Federal Government.

(d) PAY AND EXPENSES OF COMMISSION MEMBERS.—(1) Each member of the commission who is not an employee of the Government shall be paid at a rate equal to the daily equivalent of the annual rate of basic pay prescribed for level IV of the Executive Schedule under section 5315 of title 5, United States Code, for each day (including travel time) during which such member is engaged in performing the duties of the commission.

(2) *Members and personnel of the commission may travel on aircraft, vehicles, or other conveyances of the Armed Forces when travel is necessary in the performance of a duty of the commission except when the cost of commercial transportation is less expensive.*

(3) *The members of the commission may be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for employees of agencies under subchapter I of chapter 57 of title 5, United States Code, while away from their homes or regular places of business in the performance of services for the commission.*

(4)(A) *A member of the commission who is an annuitant otherwise covered by section 8344 or 8468 of title 5, United States Code, by reason of membership on the commission shall not be subject to the provisions of such section with respect to such membership.*

(B) *A member of the commission who is a member or former member of a uniformed service shall not be subject to the provisions of subsections (b) and (c) of section 5532 of such title with respect to membership on the commission.*

(e) **STAFF AND ADMINISTRATIVE SUPPORT.**—(1) *The chairman of the commission may, without regard to civil service laws and regulations, appoint and terminate an executive director and up to three additional staff members as necessary to enable the commission to perform its duties. The chairman of the commission may fix the compensation of the executive director and other personnel without regard to the provisions of chapter 51, and subchapter III of chapter 53, of title 5, United States Code, relating to classification of positions and General Schedule pay rates, except that the rate of pay may not exceed the maximum rate of pay for grade GS-15 under the General Schedule.*

(2) *Upon the request of the chairman of the commission, the head of any department or agency of the Federal Government may detail, without reimbursement, any personnel of the department or agency to the commission to assist in carrying out its duties. A detail of an employee shall be without interruption or loss of civil service status or privilege.*

(3) *The chairman of the commission may procure temporary and intermittent services under section 3109(b) of title 5, United States Code, at rates for individuals that do not exceed the daily equivalent of the annual rate of basic pay prescribed for level IV of the Executive Schedule under section 5315 of such title.*

(4) *The Secretary of Defense shall furnish to the commission such administrative and support services as may be requested by the chairman of the commission.*

SEC. 564. TERMINATION OF COMMISSION.

The commission shall terminate 60 days after the date on which it submits the final report under section 562(e)(2).

SEC. 565. FUNDING.

(a) **FROM DEPARTMENT OF DEFENSE APPROPRIATIONS.**—*Upon the request of the chairman of the commission, the Secretary of Defense shall make available to the commission, out of funds appropriated for the Department of Defense, such amounts as the commission may require to carry out its duties.*

(b) *PERIOD OF AVAILABILITY.*—Funds made available to the commission shall remain available, without fiscal year limitation, until the date on which the commission terminates.

SEC. 566. SUBSEQUENT CONSIDERATION BY CONGRESS.

After receipt of each report of the commission under section 562(e), Congress shall consider the report and, based upon the results of the review (and such other matters as Congress considers appropriate), consider whether to require by law that the Secretaries of the military departments conduct basic training on a gender-segregated or gender-integrated basis.

Subtitle G—Military Decorations and Awards

SEC. 571. PURPLE HEART TO BE AWARDED ONLY TO MEMBERS OF THE ARMED FORCES.

(a) *IN GENERAL.*—(1) Chapter 57 of title 10, United States Code, is amended by adding at the end the following new section:

“§1131. Purple Heart: limitation to members of the armed forces

“The decoration known as the Purple Heart (authorized to be awarded pursuant to Executive Order 11016) may only be awarded to a person who is a member of the armed forces at the time the person is killed or wounded under circumstances otherwise qualifying that person for award of the Purple Heart.”.

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

“1131. Purple Heart: limitation to members of the armed forces.”.

(b) *EFFECTIVE DATE.*—Section 1131 of title 10, United States Code, as added by subsection (a), shall apply with respect to persons who are killed or wounded after the end of the 180-day period beginning on the date of the enactment of this Act.

SEC. 572. ELIGIBILITY FOR ARMED FORCES EXPEDITIONARY MEDAL FOR PARTICIPATION IN OPERATION JOINT ENDEAVOR OR OPERATION JOINT GUARD.

(a) *INCLUSION OF OPERATIONS.*—For the purpose of determining the eligibility of members and former members of the Armed Forces for the Armed Forces Expeditionary Medal, the Secretary of Defense shall designate participation in Operation Joint Endeavor or Operation Joint Guard in the Republic of Bosnia and Herzegovina, and in such other areas in the region as the Secretary considers appropriate, as service in an area that meets the general requirements for the award of that medal.

(b) *INDIVIDUAL DETERMINATION.*—The Secretary of the military department concerned shall determine whether individual members or former members of the Armed Forces who participated in Operation Joint Endeavor or Operation Joint Guard meet the individual service requirements for award of the Armed Forces Expeditionary Medal as established in applicable regulations. A member or former member shall be considered to have participated in Operation Joint Endeavor or Operation Joint Guard if the member—

(1) was deployed in the Republic of Bosnia and Herzegovina, or in such other area in the region as the Secretary of Defense considers appropriate, in direct support of one or both of the operations;

(2) served on board a United States naval vessel operating in the Adriatic Sea in direct support of one or both of the operations; or

(3) operated in airspace above the Republic of Bosnia and Herzegovina, or in such other area in the region as the Secretary of Defense considers appropriate, while the operations were in effect.

(c) **OPERATIONS DEFINED.**—For purposes of this section:

(1) The term “Operation Joint Endeavor” means operations of the United States Armed Forces conducted in the Republic of Bosnia and Herzegovina during the period beginning on November 20, 1995, and ending on December 20, 1996, to assist in implementing the General Framework Agreement and Associated Annexes, initialed on November 21, 1995, in Dayton, Ohio.

(2) The term “Operation Joint Guard” means operations of the United States Armed Forces conducted in the Republic of Bosnia and Herzegovina as a successor to Operation Joint Endeavor during the period beginning on December 20, 1996, and ending on such date as the Secretary of Defense may designate.

SEC. 573. WAIVER OF TIME LIMITATIONS FOR AWARD OF CERTAIN DECORATIONS TO SPECIFIED PERSONS.

(a) **WAIVER OF TIME LIMITATION.**—Any limitation established by law or policy for the time within which a recommendation for the award of a military decoration or award must be submitted shall not apply in the case of awards of decorations described in subsections (b), (c), and (d), the award of each such decoration having been determined by the Secretary of the military department concerned to be warranted in accordance with section 1130 of title 10, United States Code.

(b) **SILVER STAR MEDAL.**—Subsection (a) applies to the award of the Silver Star Medal as follows:

(1) To Joseph M. Moll, Jr. of Milford, New Jersey, for service during World War II.

(2) To Philip Yolinsky of Hollywood, Florida, for service during the Korean Conflict.

(3) To Robert Norman of Reno, Nevada, for service during World War II.

(c) **NAVY AND MARINE CORPS MEDAL.**—Subsection (a) applies to the award of the Navy and Marine Corps Medal to Gary A. Gruenwald of Damascus, Maryland, for service in Tunisia in October 1977.

(d) **DISTINGUISHED FLYING CROSS.**—Subsection (a) applies to awards of the Distinguished Flying Cross for service during World War II or Korea (including multiple awards to the same individual) in the case of each individual concerning whom the Secretary of the Navy (or an officer of the Navy acting on behalf of the Secretary) submitted to the Committee on National Security of the House of Representatives and the Committee on Armed Services of the Senate, before the date of the enactment of this Act, a notice as provided in section 1130(b) of title 10, United States Code, that the award

of the Distinguished Flying Cross to that individual is warranted and that a waiver of time restrictions prescribed by law for recommendation for such award is recommended.

SEC. 574. CLARIFICATION OF ELIGIBILITY OF MEMBERS OF READY RESERVE FOR AWARD OF SERVICE MEDAL FOR HEROISM.

(a) **SOLDIER'S MEDAL.**—Section 3750(a) of title 10, United States Code, is amended—

(1) by inserting “(1)” after “(a)”; and

(2) by adding at the end the following new paragraph:

“(2) The authority in paragraph (1) includes authority to award the medal to a member of the Ready Reserve who was not in a duty status defined in section 101(d) of this title when the member distinguished himself by heroism.”.

(b) **NAVY AND MARINE CORPS MEDAL.**—Section 6246 of such title is amended—

(1) by designating the text of the section as subsection (a); and

(2) by adding at the end the following new subsection:

“(b) The authority in subsection (a) includes authority to award the medal to a member of the Ready Reserve who was not in a duty status defined in section 101(d) of this title when the member distinguished himself by heroism.”.

(c) **AIRMAN'S MEDAL.**—Section 8750(a) of such title is amended—

(1) by inserting “(1)” after “(a)”; and

(2) by adding at the end the following new paragraph:

“(2) The authority in paragraph (1) includes authority to award the medal to a member of the Ready Reserve who was not in a duty status defined in section 101(d) of this title when the member distinguished himself by heroism.”.

SEC. 575. ONE-YEAR EXTENSION OF PERIOD FOR RECEIPT OF RECOMMENDATIONS FOR DECORATIONS AND AWARDS FOR CERTAIN MILITARY INTELLIGENCE PERSONNEL.

Section 523(b)(1) of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104-106; 110 Stat. 311; 10 U.S.C. 1130 note) is amended by striking out “during the one-year period beginning on the date of the enactment of this Act” and inserting in lieu thereof “during the period beginning on February 10, 1996, and ending on February 9, 1998”.

SEC. 576. ELIGIBILITY OF CERTAIN WORLD WAR II MILITARY ORGANIZATIONS FOR AWARD OF UNIT DECORATIONS.

(a) **AUTHORITY.**—A unit decoration may be awarded for any unit or other organization of the Armed Forces (such as the Military Intelligence Service of the Army) that (1) supported the planning or execution of combat operations during World War II primarily through unit personnel who were attached to other units of the Armed Forces or of other allied armed forces, and (2) is not otherwise eligible for award of the decoration by reason of not usually having been deployed as a unit in support of such operations.

(b) **TIME FOR SUBMISSION OF RECOMMENDATION.**—Any recommendation for award of a unit decoration under subsection (a) shall be submitted to the Secretary concerned (as defined in section 101(a)(9) of title 10, United States Code), or to such other official

as the Secretary concerned may designate, not later than two years after the date of the enactment of this Act.

SEC. 577. RETROACTIVITY OF MEDAL OF HONOR SPECIAL PENSION.

(a) *ENTITLEMENT.*—In the case of Vernon J. Baker, Edward A. Carter, Junior, and Charles L. Thomas, who were awarded the Medal of Honor pursuant to section 561 of Public Law 104-201 (110 Stat. 2529) and whose names have been entered and recorded on the Army, Navy, Air Force, and Coast Guard Medal of Honor Roll, the entitlement of those persons to the special pension provided under section 1562 of title 38, United States Code (and antecedent provisions of law), shall be effective as follows:

(1) In the case of Vernon J. Baker, for months that begin after April 1945.

(2) In the case of Edward A. Carter, Junior, for months that begin after March 1945.

(3) In the case of Charles L. Thomas, for months that begin after December 1944.

(b) *AMOUNT.*—The amount of the special pension payable under subsection (a) for a month beginning before the date of the enactment of this Act shall be the amount of the special pension provided by law for that month for persons entered and recorded on the Army, Navy, Air Force, and Coast Guard Medal of Honor Roll (or an antecedent Medal of Honor Roll required by law).

(c) *PAYMENT TO NEXT OF KIN.*—In the case of a person referred to in subsection (a) who died before receiving full payment of the pension pursuant to this section, the Secretary of Veterans Affairs shall pay the total amount of the accrued pension, upon receipt of application for payment within one year after the date of the enactment of this Act, to the deceased person's spouse or, if there is no surviving spouse, then to the deceased person's children, per stirpes, in equal shares.

Subtitle H—Military Justice Matters

SEC. 581. ESTABLISHMENT OF SENTENCE OF CONFINEMENT FOR LIFE WITHOUT ELIGIBILITY FOR PAROLE.

(a) *ESTABLISHMENT OF SENTENCE.*—(1) Chapter 47 of title 10, United States Code (the Uniform Code of Military Justice), is amended by inserting after section 856 (article 56) the following new section (article):

“§856a. Art. 56a. Sentence of confinement for life without eligibility for parole

“(a) For any offense for which a sentence of confinement for life may be adjudged, a court-martial may adjudge a sentence of confinement for life without eligibility for parole.

“(b) An accused who is sentenced to confinement for life without eligibility for parole shall be confined for the remainder of the accused's life unless—

“(1) the sentence is set aside or otherwise modified as a result of—

“(A) action taken by the convening authority, the Secretary concerned, or another person authorized to act under section 860 of this title (article 60); or

“(B) any other action taken during post-trial procedure and review under any other provision of subchapter IX;

“(2) the sentence is set aside or otherwise modified as a result of action taken by a Court of Criminal Appeals, the Court of Appeals for the Armed Forces, or the Supreme Court; or

“(3) the accused is pardoned.”

(2) The table of sections at the beginning of subchapter VIII of such chapter is amended by inserting after the item relating to section 856 (article 56) the following new item:

“856a. 56a. Sentence of confinement for life without eligibility for parole.”

(b) **EFFECTIVE DATE.**—Section 856a of title 10, United States Code (article 56a of the Uniform Code of Military Justice), as added by subsection (a), shall be applicable only with respect to an offense committed after the date of the enactment of this Act.

SEC. 582. LIMITATION ON APPEAL OF DENIAL OF PAROLE FOR OFFENDERS SERVING LIFE SENTENCE.

(a) **EXCLUSIVE AUTHORITY TO GRANT PAROLE ON APPEAL OF DENIAL.**—Section 952 of title 10, United States Code, is amended—

(1) by inserting “(a)” before “The Secretary”; and

(2) by adding at the end the following new subsection:

“(b) In a case in which parole for an offender serving a sentence of confinement for life is denied, only the President or the Secretary concerned may grant the offender parole on appeal of that denial. The authority to grant parole on appeal in such a case may not be delegated.”

(b) **EFFECTIVE DATE.**—Subsection (b) of section 952 of title 10, United States Code (as added by subsection (a)), shall apply only with respect to any decision to deny parole made after the date of the enactment of this Act.

Subtitle I—Other Matters

SEC. 591. SEXUAL HARASSMENT INVESTIGATIONS AND REPORTS.

(a) **INVESTIGATIONS.**—(1) Part II of subtitle A of title 10, United States Code, is amended by inserting after chapter 79 the following new chapter:

“CHAPTER 80—MISCELLANEOUS INVESTIGATION REQUIREMENTS AND OTHER DUTIES

“Sec.

“1561. Complaints of sexual harassment: investigation by commanding officers.

“§1561. Complaints of sexual harassment: investigation by commanding officers

“(a) **ACTION ON COMPLAINTS ALLEGING SEXUAL HARASSMENT.**—A commanding officer or officer in charge of a unit, vessel, facility, or area of the Army, Navy, Air Force, or Marine Corps who receives from a member of the command or a civilian employee under the

supervision of the officer a complaint alleging sexual harassment by a member of the armed forces or a civilian employee of the Department of Defense shall carry out an investigation of the matter in accordance with this section.

“(b) COMMENCEMENT OF INVESTIGATION.—To the extent practicable, a commanding officer or officer in charge receiving such a complaint shall, within 72 hours after receipt of the complaint—

“(1) forward the complaint or a detailed description of the allegation to the next superior officer in the chain of command who is authorized to convene a general court-martial;

“(2) commence, or cause the commencement of, an investigation of the complaint; and

“(3) advise the complainant of the commencement of the investigation.

“(c) DURATION OF INVESTIGATION.—To the extent practicable, a commanding officer or officer in charge receiving such a complaint shall ensure that the investigation of the complaint is completed not later than 14 days after the date on which the investigation is commenced.

“(d) REPORT ON INVESTIGATION.—To the extent practicable, a commanding officer or officer in charge receiving such a complaint shall—

“(1) submit a final report on the results of the investigation, including any action taken as a result of the investigation, to the next superior officer referred to in subsection (b)(1) within 20 days after the date on which the investigation is commenced; or

“(2) submit a report on the progress made in completing the investigation to the next superior officer referred to in subsection (b)(1) within 20 days after the date on which the investigation is commenced and every 14 days thereafter until the investigation is completed and, upon completion of the investigation, then submit a final report on the results of the investigation, including any action taken as a result of the investigation, to that next superior officer.

“(e) SEXUAL HARASSMENT DEFINED.—In this section, the term ‘sexual harassment’ means any of the following:

“(1) Conduct (constituting a form of sex discrimination) that—

“(A) involves unwelcome sexual advances, requests for sexual favors, and deliberate or repeated offensive comments or gestures of a sexual nature when—

“(i) submission to such conduct is made either explicitly or implicitly a term or condition of a person’s job, pay, or career;

“(ii) submission to or rejection of such conduct by a person is used as a basis for career or employment decisions affecting that person; or

“(iii) such conduct has the purpose or effect of unreasonably interfering with an individual’s work performance or creates an intimidating, hostile, or offensive working environment; and

“(B) is so severe or pervasive that a reasonable person would perceive, and the victim does perceive, the work environment as hostile or offensive.

“(2) Any use or condonation, by any person in a supervisory or command position, of any form of sexual behavior to control, influence, or affect the career, pay, or job of a member of the armed forces or a civilian employee of the Department of Defense.

“(3) Any deliberate or repeated unwelcome verbal comment or gesture of a sexual nature in the workplace by any member of the armed forces or civilian employee of the Department of Defense.”.

(2) The tables of chapters at the beginning of subtitle A, and at the beginning of part II of subtitle A, of such title are amended by inserting after the item relating to chapter 79 the following new item:

“80. **Miscellaneous Investigation Requirements and Other Duties** 1561”.

(b) **REPORTS.**—(1) Not later than January 1 of each of 1998 and 1999, each officer receiving a complaint forwarded in accordance with section 1561(b) of title 10, United States Code, as added by subsection (a), during the preceding year shall submit to the Secretary of the military department concerned a report on all such complaints and the investigations of such complaints (including the results of the investigations, in cases of investigations completed during such preceding year).

(2)(A) Not later than March 1 of each of 1998 and 1999, each Secretary receiving a report under paragraph (1) for a year shall submit to the Secretary of Defense a report on all such reports so received.

(B) Not later than the April 1 following receipt of a report for a year under subparagraph (A), the Secretary of Defense shall transmit to Congress all such reports received for the year under subparagraph (A) together with the Secretary’s assessment of each such report.

SEC. 592. SENSE OF THE SENATE REGARDING STUDY OF MATTERS RELATING TO GENDER EQUITY IN THE ARMED FORCES.

(a) **FINDINGS.**—The Senate makes the following findings:

(1) In the all-volunteer force, women play an integral role in the Armed Forces.

(2) With increasing numbers of women in the Armed Forces, questions arise concerning inequalities, and perceived inequalities, between the treatment of men and women in the Armed Forces.

(b) **SENSE OF THE SENATE.**—It is the sense of the Senate that the Comptroller General should—

(1) conduct a study on any inequality, or perception of inequality, in the treatment of men and women in the Armed Forces that arises out of the statutes and regulations governing the Armed Forces; and

(2) submit to the Senate a report on the study not later than one year after the date of the enactment of this Act.

SEC. 593. AUTHORITY FOR PERSONNEL TO PARTICIPATE IN MANAGEMENT OF CERTAIN NON-FEDERAL ENTITIES.

(a) *MILITARY PERSONNEL.*—(1) Chapter 53 of title 10, United States Code, is amended by inserting after section 1032 the following new section:

“§ 1033. Participation in management of specified non-Federal entities: authorized activities

“(a) *AUTHORIZATION.*—The Secretary concerned may authorize a member of the armed forces under the Secretary’s jurisdiction to serve without compensation as a director, officer, or trustee, or to otherwise participate, in the management of an entity designated under subsection (b). Any such authorization shall be made on a case-by-case basis, for a particular member to participate in a specific capacity with a specific designated entity. Such authorization may be made only for the purpose of providing oversight and advice to, and coordination with, the designated entity, and participation of the member in the activities of the designated entity may not extend to participation in the day-to-day operations of the entity.

“(b) *DESIGNATED ENTITIES.*—(1) The Secretary of Defense, and the Secretary of Transportation in the case of the Coast Guard when it is not operating as a service in the Navy, shall designate those entities for which authorization under subsection (a) may be provided. The list of entities so designated may not be revised more frequently than semiannually. In making such designations, the Secretary shall designate each military welfare society and may designate any other entity described in paragraph (3). No other entities may be designated.

“(2) In this section, the term ‘military welfare society’ means the following:

“(A) Army Emergency Relief.

“(B) Air Force Aid Society, Inc.

“(C) Navy-Marine Corps Relief Society.

“(D) Coast Guard Mutual Assistance.

“(3) An entity described in this paragraph is an entity that is not operated for profit and is any of the following:

“(A) An entity that regulates and supports the athletic programs of the service academies (including athletic conferences).

“(B) An entity that regulates international athletic competitions.

“(C) An entity that accredits service academies and other schools of the armed forces (including regional accrediting agencies).

“(D) An entity that (i) regulates the performance, standards, and policies of military health care (including health care associations and professional societies), and (ii) has designated the position or capacity in that entity in which a member of the armed forces may serve if authorized under subsection (a).

“(c) *PUBLICATION OF DESIGNATED ENTITIES AND OF AUTHORIZED PERSONS.*—A designation of an entity under subsection (b), and an authorization under subsection (a) of a member of the armed forces to participate in the management of such an entity, shall be published in the Federal Register.

“(d) *REGULATIONS.*—The Secretary of Defense, and the Secretary of Transportation in the case of the Coast Guard when it is not operating as a service in the Navy, shall prescribe regulations to carry out this section.”.

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 1032 the following new item:

“1033. Participation in management of specified non-Federal entities: authorized activities.”.

(b) *CIVILIAN PERSONNEL.*—(1) Chapter 81 of such title is amended by inserting after section 1588 the following new section:

“§ 1589. Participation in management of specified non-Federal entities: authorized activities

“(a) *AUTHORIZATION.*—(1) The Secretary concerned may authorize an employee described in paragraph (2) to serve without compensation as a director, officer, or trustee, or to otherwise participate, in the management of an entity designated under subsection (b). Any such authorization shall be made on a case-by-case basis, for a particular employee to participate in a specific capacity with a specific designated entity. Such authorization may be made only for the purpose of providing oversight and advice to, and coordination with, the designated entity, and participation of the employee in the activities of the designated entity may not extend to participation in the day-to-day operations of the entity.

“(2) Paragraph (1) applies to any employee of the Department of Defense or, in the case of the Coast Guard when not operating as a service in the Navy, of the Department of Transportation. For purposes of this section, the term ‘employee’ includes a civilian officer.

“(b) *DESIGNATED ENTITIES.*—The Secretary of Defense, and the Secretary of Transportation in the case of the Coast Guard when it is not operating as a service in the Navy, shall designate those entities for which authorization under subsection (a) may be provided. The list of entities so designated may not be revised more frequently than semiannually. (2) *The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 1588 the following new item:*

“1589. Participation in management of specified non-Federal entities: authorized activities.”.

SEC. 594. TREATMENT OF PARTICIPATION OF MEMBERS IN DEPARTMENT OF DEFENSE CIVIL MILITARY PROGRAMS.

Section 2012 of title 10, United States Code, is amended—

(1) by redesignating subsections (g) and (h) as subsections (h) and (i), respectively; and

(2) by inserting after subsection (f) the following new subsection:

“(g) TREATMENT OF MEMBER’S PARTICIPATION IN PROVISION OF SUPPORT OR SERVICES.—(1) The Secretary of a military department may not require or request a member of the armed forces to submit for consideration by a selection board (including a promotion board, command selection board, or any other kind of selection board) evidence of the member’s participation in the provision of support and services to non-Department of Defense organizations and activities under this section or the member’s involvement in, or support of, other community relations and public affairs activities of the armed forces.

“(2) Paragraph (1) does not prevent a selection board from considering material submitted voluntarily by a member of the armed forces which provides evidence of the participation of that member or another member in activities described in that paragraph.”.

SEC. 595. COMPTROLLER GENERAL STUDY OF DEPARTMENT OF DEFENSE CIVIL MILITARY PROGRAMS.

(a) STUDY REQUIRED.—The Comptroller General shall conduct a study to evaluate the following:

(1) The nature, extent, and cost to the Department of Defense of the support and services being provided by units and members of the Armed Forces to non-Department of Defense organizations and activities under the authority of section 2012 of title 10, United States Code.

(2) The degree to which the Armed Forces are in compliance with the requirements of such section in the provision of such support and services, especially the requirements that the assistance meet specific requirements relative to military training and that the assistance provided be incidental to military training.

(3) The degree to which the regulations and procedures for implementing such section, as required by subsection (f) of such section, are consistent with the requirements of such section.

(4) The effectiveness of the Secretary of Defense and the Secretaries of the military departments in conducting oversight of the implementation of such section, and the provision of such support and services under such section, to ensure compliance with the requirements of such section.

(b) SUBMISSION OF REPORT.—Not later than March 31, 1998, the Comptroller General shall submit to Congress a report containing the results of the study required by subsection (a).

SEC. 596. ESTABLISHMENT OF PUBLIC AFFAIRS SPECIALTY IN THE ARMY.

(a) *NEW SPECIALTY.*—Chapter 307 of title 10, United States Code, is amended by adding at the end the following new section:

(a) *IN GENERAL.*—Chapter 41 of title 10, United States Code, is amended by inserting after section 713 the following new section:

“§ 714. Defense attaché in France: required grade

“An officer may not be selected for assignment to the position of defense attaché to the United States embassy in France unless the officer holds (or is on a promotion list for promotion to) the grade of brigadier general or, in the case of the Navy, rear admiral (lower half).”.

(b) *CLERICAL AMENDMENT.*—The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 713 the following new item:

“714. Defense attaché in France: required grade.”.

SEC. 598. REPORT ON CREW REQUIREMENTS OF WC-130J AIRCRAFT.

(a) *STUDY.*—The Secretary of the Air Force shall conduct a study of the crew requirements for WC-130J aircraft to be procured for assignment to the aerial weather reconnaissance mission involving the eyewall penetration of tropical cyclones. The study shall include study of the anticipated operation of WC-130J aircraft in weather reconnaissance missions configured to carry five crewmembers, including a navigator. In carrying out the study, the Secretary shall provide for participation by members of the Armed Forces currently assigned to units engaged in weather reconnaissance operations.

(b) *REPORT.*—The Secretary shall submit to Congress a report on the results of the study. The Secretary shall include in the report the views of members of the Armed Forces currently assigned to units engaged in weather reconnaissance operations who participated in the study. If as a result of the study the Secretary determines that there are crewmembers assigned to weather reconnaissance duties in excess of the crew requirements that will be applicable for WC-130J aircraft, the Secretary shall include in the report

a plan for retraining or reassignment of those crewmembers. The study shall be submitted not later than September 30, 1998.

SEC. 599. IMPROVEMENT OF MISSING PERSONS AUTHORITIES APPLICABLE TO DEPARTMENT OF DEFENSE.

(a) **APPLICABILITY TO DEPARTMENT OF DEFENSE CIVILIAN EMPLOYEES AND CONTRACTOR EMPLOYEES.**—(1) Section 1501 of title 10, United States Code, is amended—

(A) by striking out subsection (c) and inserting in lieu thereof the following:

“(c) **COVERED PERSONS.**—(1) Section 1502 of this title applies in the case of any member of the armed forces on active duty—

“(A) who becomes involuntarily absent as a result of a hostile action or under circumstances suggesting that the involuntary absence is a result of a hostile action; and

“(B) whose status is undetermined or who is unaccounted for.

“(2) Section 1502 of this title applies in the case of any other person who is a citizen of the United States and a civilian officer or employee of the Department of Defense or (subject to paragraph (3)) an employee of a contractor of the Department of Defense—

“(A) who serves in direct support of, or accompanies, the armed forces in the field under orders and becomes involuntarily absent as a result of a hostile action or under circumstances suggesting that the involuntary absence is a result of a hostile action; and

“(B) whose status is undetermined or who is unaccounted for.

“(3) The Secretary of Defense shall determine, with regard to a pending or ongoing military operation, the specific employees, or groups of employees, of contractors of the Department of Defense to be considered to be covered by this subsection.”; and

(B) by adding at the end the following new subsection:

“(f) **SECRETARY CONCERNED.**—In this chapter, the term ‘Secretary concerned’ includes, in the case of a civilian officer or employee of the Department of Defense or an employee of a contractor of the Department of Defense, the Secretary of the military department or head of the element of the Department of Defense employing the officer or employee or contracting with the contractor, as the case may be.”

(2) Section 1503(c) of such title is amended—

(A) in paragraph (1), by striking out “one military officer” and inserting in lieu thereof “one individual described in paragraph (2)”;

(B) by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively; and

(C) by inserting after paragraph (1) the following new paragraph (2):

“(2) An individual referred to in paragraph (1) is the following:

“(A) A military officer, in the case of an inquiry with respect to a member of the armed forces.

“(B) A civilian, in the case of an inquiry with respect to a civilian employee of the Department of Defense or of a contractor of the Department of Defense.”

(3) Section 1504(d) of such title is amended—

(A) in paragraph (1), by striking out “who are” and all that follows in that paragraph and inserting in lieu thereof “as follows:

“(A) In the case of a board that will inquire into the whereabouts and status of one or more members of the armed forces (and no civilians described in subparagraph (B)), the board shall be composed of officers having the grade of major or lieutenant commander or above.

“(B) In the case of a board that will inquire into the whereabouts and status of one or more civilian employees of the Department of Defense or contractors of the Department of Defense (and no members of the armed forces), the board shall be composed of—

“(i) not less than three employees of the Department of Defense whose rate of annual pay is equal to or greater than the rate of annual pay payable for grade GS-13 of the General Schedule under section 5332 of title 5; and

“(ii) such members of the armed forces as the Secretary considers advisable.

“(C) In the case of a board that will inquire into the whereabouts and status of both one or more members of the armed forces and one or more civilians described in subparagraph (B)—

“(i) the board shall include at least one officer described in subparagraph (A) and at least one employee of the Department of Defense described in subparagraph (B)(i); and

“(ii) the ratio of such officers to such employees on the board shall be roughly proportional to the ratio of the number of members of the armed forces who are subjects of the board’s inquiry to the number of civilians who are subjects of the board’s inquiry.”; and

(B) in paragraph (4), by striking out “section 1503(c)(3)” and inserting in lieu thereof “section 1503(c)(4)”.

(4) Paragraph (1) of section 1513 of such title is amended to read as follows:

“(1) The term ‘missing person’ means—

“(A) a member of the armed forces on active duty who is in a missing status; or

“(B) a civilian employee of the Department of Defense or an employee of a contractor of the Department of Defense who serves in direct support of, or accompanies, the armed forces in the field under orders and who is in a missing status.

Such term includes an unaccounted for person described in section 1509(b) of this title, under the circumstances specified in the last sentence of section 1509(a) of this title.”.

(b) TRANSMISSION TO THEATER COMPONENT COMMANDER OF ADVISORY COPY OF MISSING PERSON REPORT.—(1) Section 1502 of such title is amended—

(A) by redesignating subsection (b) as subsection (c); and

(B) by inserting after subsection (a) the following new subsection (b):

“(b) *TRANSMISSION OF ADVISORY COPY TO THEATER COMPONENT COMMANDER.*—When transmitting a report under subsection (a)(2) recommending that a person be placed in a missing status, the commander transmitting that report shall transmit an advisory copy of the report to the theater component commander with jurisdiction over the missing person.”

(2) Section 1513 of such title is amended by adding at the end the following new paragraph:

“(8) The term ‘theater component commander’ means, with respect to any of the combatant commands, an officer of any of the armed forces who (A) is commander of all forces of that armed force assigned to that combatant command, and (B) is directly subordinate to the commander of the combatant command.”

(c) *INFORMATION TO ACCOMPANY RECOMMENDATION OF STATUS OF DEATH.*—Section 1507(b) of such title is amended adding at the end the following new paragraphs:

“(3) A description of the location of the body, if recovered.

“(4) If the body has been recovered and is not identifiable through visual means, a certification by a forensic pathologist that the body recovered is that of the missing person. In determining whether to make such a certification, the forensic pathologist shall consider, as determined necessary by the Secretary of the military department concerned, additional evidence and information provided by appropriate specialists in forensic medicine or other appropriate medical sciences.”

(d) *MISSING PERSON’S COUNSEL.*—(1) Sections 1503(f)(1) and 1504(f)(1) of such title are amended by adding at the end the following: “The identity of counsel appointed under this paragraph for a missing person shall be made known to the missing person’s primary next of kin and any other previously designated person of the person.”

(2) Section 1503(f)(4) of such title is amended by adding at the end the following: “The primary next of kin of a missing person and any other previously designated person of the missing person shall have the right to submit information to the missing person’s counsel relative to the disappearance or status of the missing person.”

(e) *SCOPE OF PREENACTMENT REVIEW.*—(1) Section 1509 of such title is amended by striking out subsection (a) and inserting in lieu thereof the following:

“(a) *REVIEW OF STATUS.*—(1) If new information (as defined in paragraph (2)) is found or received that may be related to one or more unaccounted for persons described in subsection (b) (whether or not such information specifically relates (or may specifically relate) to any particular such unaccounted for person), that information shall be provided to the Secretary of Defense. Upon receipt of such information, the Secretary shall ensure that the information is treated under paragraphs (2) and (3) of section 1505(c) of this title and under section 1505(d) of this title in the same manner as information received under paragraph (1) of section 1505(c) of this title. For purposes of the applicability of other provisions of this chapter in such a case, each such unaccounted for person to whom the new information may be related shall be considered to be a missing person.

“(2) For purposes of this subsection, new information is information that is credible and that—

“(A) is found or received after the date of the enactment of the National Defense Authorization Act for Fiscal Year 1998 by a United States intelligence agency, by a Department of Defense agency, or by a person specified in section 1504(g) of this title; or

“(B) is identified after the date of the enactment of the National Defense Authorization Act for Fiscal Year 1998 in records of the United States as information that could be relevant to the case of one or more unaccounted for persons described in subsection (b).”

(2) Such section is further amended by adding at the end the following new subsection:

“(d) ESTABLISHMENT OF PERSONNEL FILES FOR KOREAN CONFLICT CASES.—The Secretary of Defense shall ensure that a personnel file is established for each unaccounted for person who is described in subsection (b)(1) if the Secretary possesses information relevant to that person’s status. In the case of a person described in subsection (b)(1) for whom a personnel file does not exist, the Secretary shall create a personnel file for such person upon receipt of new information as provided in subsection (a). Each such file shall be handled in accordance with, and subject to the provisions of, section 1506 of this title in the same manner as applies to the file of a missing person.”

(f) WITHHOLDING OF CLASSIFIED INFORMATION.—Section 1506(b) of such title is amended—

- (1) by inserting “(1)” before “The Secretary”;
- (2) by redesignating paragraphs (1) and (2) as subparagraphs (A) and (B), respectively; and
- (3) by adding at the end the following:

“(2) If classified information withheld under this subsection refers to one or more unnamed missing persons, the Secretary shall ensure that notice of that withheld information, and notice of the date of the most recent review of the classification of that withheld information, is made reasonably accessible to the primary next of kin, members of the immediate family, and the previously designated person.”

(g) WITHHOLDING OF PRIVILEGED INFORMATION.—Section 1506(d) of such title is amended—

- (1) in paragraph (2)—
 - (A) by inserting “or about unnamed missing persons” in the first sentence after “the debriefing report”;
 - (B) by striking out “the missing person” in the second sentence and inserting in lieu thereof “each missing person named in the debriefing report”; and
 - (C) by adding at the end the following new sentence:

“Any information contained in the extract of the debriefing report that pertains to unnamed missing persons shall be made reasonably accessible to the primary next of kin, members of the immediate family, and the previously designated person.”; and
- (2) in paragraph (3), by inserting “, or part of a debriefing report,” after “a debriefing report”.

SEC. 601. INCREASE IN BASIC PAY FOR FISCAL YEAR 1998.

(a) *WAIVER OF SECTION 1009 ADJUSTMENT.*—The adjustment, to become effective during fiscal year 1998, required by section 1009 of title 37, United States Code (as amended by section 604), in the rate of monthly basic pay authorized members of the uniformed services by section 203(a) of such title shall not be made.

(b) *INCREASE IN BASIC PAY.*—Effective on January 1, 1998, the rates of basic pay of members of the uniformed services are increased by 2.8 percent.

SEC. 602. REFORM OF BASIC ALLOWANCE FOR SUBSISTENCE.

(a) *ENTITLEMENT TO ALLOWANCE.*—Section 402 of title 37, United States Code, is amended to read as follows:

“§ 402. Basic allowance for subsistence

“(a) *ENTITLEMENT TO ALLOWANCE.*—(1) Except as provided in paragraph (2) or otherwise provided by law, each member of a uniformed service who is entitled to basic pay is entitled to a basic allowance for subsistence as set forth in this section.

“(2) An enlisted member is not entitled to the basic allowance for subsistence during basic training.

“(b) *RATES OF ALLOWANCE BASED ON FOOD COSTS.*—(1) The monthly rate of basic allowance for subsistence to be in effect for an enlisted member for a year (beginning on January 1 of that year) shall be the amount that is halfway between the following amounts, which are determined by the Secretary of Agriculture as of October 1 of the preceding year:

“(A) The amount equal to the monthly cost of a moderate-cost food plan for a male in the United States who is between 20 and 50 years of age.

“(B) The amount equal to the monthly cost of a liberal food plan for a male in the United States who is between 20 and 50 years of age.

“(2) The monthly rate of basic allowance for subsistence to be in effect for an officer for a year (beginning on January 1 of that year) shall be the amount equal to the monthly rate of basic allowance for subsistence in effect for officers for the preceding year, increased by the same percentage by which the rate of basic allowance for subsistence for enlisted members for the preceding year is increased effective on such January 1.

“(c) *ADVANCE PAYMENT.*—The allowance to an enlisted member may be paid in advance for a period of not more than three months.

“(d) *SPECIAL RULE FOR MEMBERS AUTHORIZED TO MESS SEPARATELY.*—(1) In areas prescribed by the Secretary of Defense, and the Secretary of Transportation with respect to the Coast Guard when it is not operating as a service in the Navy, an enlisted member described in paragraph (2) is entitled to not more than the pro rata allowance established under subsection (b)(1) for each meal the member buys from a source other than a messing facility of the United States.

“(2) An enlisted member referred to in paragraph (1) is a member who is granted permission to mess separately and whose duties

require the member to buy at least one meal from a source other than a messing facility of the United States.

*(e) POLICIES ON USE OF DINING AND MESSING FACILITIES.—*The Secretary of Defense, in consultation with the Secretaries concerned, shall prescribe policies regarding use of dining and field messing facilities of the uniformed services.

(f) REGULATIONS.—(1) The Secretary of Defense shall prescribe regulations for the administration of this section. Before prescribing the regulations, the Secretary shall consult with each Secretary concerned.

(2) The regulations shall include the specific rates of basic allowance for subsistence required by subsection (b)."

(b) CONFORMING AMENDMENTS.—(1) Section 404 of title 37, United States Code, is amended—

(A) by striking out subsection (g); and

(B) by redesignating subsections (h), (i), (j), and (k) as subsections (g), (h), (i), and (j), respectively.

(2) Section 6081(a) of title 10, United States Code, is amended by striking out "Except" and all that follows through "subsistence, each" and inserting in lieu thereof "Each".

(c) TRANSITIONAL AUTHORITY TO PROVIDE BASIC ALLOWANCE FOR SUBSISTENCE.—

*(1) TRANSITIONAL AUTHORITY.—*Notwithstanding section 402 of title 37, United States Code, as amended by subsection (a), during the period beginning on January 1, 1998, and ending on the date determined under paragraph (2)—

(A) the basic allowance for subsistence shall not be paid under such section 402;

(B) a member of the uniformed services is entitled to the basic allowance for subsistence only as provided in subsection (d);

(C) an enlisted member of the uniformed services may be paid a partial basic allowance for subsistence as provided in subsection (e); and

(D) the rates of the basic allowance for subsistence are those rates determined under subsection (f).

*(2) TERMINATION OF TRANSITIONAL AUTHORITY.—*The transitional authority provided under paragraph (1) shall terminate on the first day of the month immediately following the first month for which the monthly equivalent of the rate of basic allowance for subsistence payable to enlisted members of the uniformed services (when permission to mess separately is granted), as determined under subsection (f)(2), is equal to or is exceeded by the amount that, except for paragraph (1)(A), would otherwise be the monthly rate of basic allowance for subsistence for enlisted members under section 402(b)(1) of title 37, United States Code, as amended by subsection (a).

(d) TRANSITIONAL ENTITLEMENT TO ALLOWANCE.—

(1) ENLISTED MEMBERS.—

*(A) TYPES OF ENTITLEMENT.—*An enlisted member is entitled to the basic allowance for subsistence, on a daily basis, of under one or more of the following circumstances:

(i) When rations in kind are not available

(ii) When permission to mess separately is granted.

(iii) When assigned to duty under emergency conditions where no messing facilities of the United States are available.

(B) *OTHER ENTITLEMENT CIRCUMSTANCES.*—An enlisted member is entitled to the allowance while on an authorized leave of absence, while confined in a hospital, or while performing travel under orders away from the member's designated post of duty other than field duty or sea duty (as defined in regulations prescribed by the Secretary of Defense). For purposes of the preceding sentence, a member shall not be considered to be performing travel under orders away from his designated post of duty if such member—

(i) is an enlisted member serving the member's first tour of active duty;

(ii) has not actually reported to a permanent duty station pursuant to orders directing such assignment; and

(iii) is not actually traveling between stations pursuant to orders directing a change of station.

(C) *ADVANCE PAYMENT.*—The allowance to an enlisted member, when authorized, may be paid in advance for a period of not more than three months.

(2) *OFFICERS.*—An officer of a uniformed service who is entitled to basic pay is, at all times, entitled to the basic allowances for subsistence. An aviation cadet of the Navy, Air Force, Marine Corps, or Coast Guard is entitled to the same basic allowance for subsistence as is provided for an officer of the Navy, Air Force, Marine Corps, or Coast Guard, respectively.

(e) *TRANSITIONAL AUTHORITY FOR PARTIAL ALLOWANCE.*—

(1) *ENLISTED MEMBERS FURNISHED SUBSISTENCE IN KIND.*—The Secretary of Defense may provide in regulations for an enlisted member of a uniformed service to be paid a partial basic allowance for subsistence when—

(A) rations in kind are available to the member;

(B) the member is not granted permission to mess separately; or

(C) the member is assigned to duty under emergency conditions where messing facilities of the United States are available.

(2) *MONTHLY PAYMENT.*—Any partial basic allowance for subsistence authorized under paragraph (1) shall be calculated on a daily basis and paid on a monthly basis.

(f) *TRANSITIONAL RATES.*—

(1) *ALLOWANCE FOR OFFICERS.*—The monthly rate of basic allowance for subsistence for a year (beginning on January 1 of that year) that is payable to officers of the uniformed services shall be the amount that is equal to 101 percent of the rate of basic allowance for subsistence that was payable to officers of the uniformed services for the preceding year.

(2) *ALLOWANCE FOR ENLISTED MEMBER WITH PERMISSION TO MESS SEPARATELY.*—The monthly rate of basic allowance for subsistence for a year (beginning on January 1 of that year) that is payable to an enlisted member of the uniformed services

entitled to the allowance under subsection (d)(1) shall be the amount that is equal to 101 percent of the rate of basic allowance for subsistence that was in effect for similarly situated enlisted members of the uniformed services for the preceding year.

(3) **PARTIAL ALLOWANCE FOR OTHER ENLISTED MEMBERS.**—The monthly rate of any partial basic allowance for subsistence for a year (beginning on January 1 of that year) payable to an enlisted member of the uniformed services eligible for the allowance under the regulations prescribed under subsection (e)(1) shall be the amount equal to the lesser of the following:

(A) The sum of—

(i) the partial basic allowance for subsistence in effect for the preceding year; and

(ii) the amount equal to the difference, if any, between—

(I) the monthly equivalent of the rate of basic allowance for subsistence that was in effect for the preceding year for members of the uniformed services above grade E-1 (when permission to mess separately is granted), increased by the same percentage by which the rates of basic pay for members of the uniformed services is increased for the current year; and

(II) the amount equal to 101 percent of the monthly equivalent of the rate of basic allowance for subsistence that was in effect for the previous year for members of the uniformed services above grade E-1 (when permission to mess separately is granted),

with the amount so determined under this clause multiplied by the number of members estimated to be entitled to receive basic allowance for subsistence under subsection (d) for the current year and then divided by the number of members estimated to be eligible for the partial allowance under the regulations prescribed under subsection (e)(1) for that year.

(B) The amount equal to the difference between—

(i) the amount that, except for subsection (c)(1)(A), would otherwise be the monthly rate of basic allowance for subsistence for enlisted members under section 402(b)(1) of title 37, United States Code; and

(ii) the amount equal to the monthly equivalent of the value of a daily ration, as determined by the Under Secretary of Defense (Comptroller) as of October 1 of the preceding year.

(g) **EFFECTIVE DATE.**—This section and the amendments made by this section shall take effect on January 1, 1998.

SEC. 603. CONSOLIDATION OF BASIC ALLOWANCE FOR QUARTERS, VARIABLE HOUSING ALLOWANCE, AND OVERSEAS HOUSING ALLOWANCES.

(a) **CONSOLIDATION OF ALLOWANCES.**—Section 403 of title 37, United States Code, is amended to read as follows:

“§ 403. Basic allowance for housing

“(a) GENERAL ENTITLEMENT.—(1) Except as otherwise provided by law, a member of a uniformed service who is entitled to basic pay is entitled to a basic allowance for housing at the monthly rates prescribed under this section or another provision of law with regard to the applicable component of the basic allowance for housing. The amount of the basic allowance for housing for a member will vary according to the pay grade in which the member is assigned or distributed for basic pay purposes, the dependency status of the member, and the geographic location of the member. The basic allowance for housing may be paid in advance.

“(2) A member of a uniformed service with dependents is not entitled to a basic allowance for housing as a member with dependents unless the member makes a certification to the Secretary concerned indicating the status of each dependent of the member. The certification shall be made in accordance with regulations prescribed by the Secretary of Defense.

“(b) BASIC ALLOWANCE FOR HOUSING INSIDE THE UNITED STATES.—(1) The Secretary of Defense shall determine the costs of adequate housing in a military housing area in the United States for all members of the uniformed services entitled to a basic allowance for housing in that area. The Secretary shall base the determination upon the costs of adequate housing for civilians with comparable income levels in the same area.

“(2) Subject to paragraph (3), the monthly amount of a basic allowance for housing for an area of the United States for a member of a uniformed service is equal to the difference between—

“(A) the monthly cost of adequate housing in that area, as determined by the Secretary of Defense, for members of the uniformed services serving in the same pay grade and with the same dependency status as the member; and

“(B) 15 percent of the national average monthly cost of adequate housing in the United States, as determined by the Secretary, for members of the uniformed services serving in the same pay grade and with the same dependency status as the member.

“(3) The rates of basic allowance for housing shall be reduced as necessary to comply with this paragraph. The total amount that may be paid for a fiscal year for the basic allowance for housing under this subsection is the product of—

“(A) the total amount authorized to be paid for such allowance for the preceding fiscal year (as adjusted under paragraph (5)); and

“(B) a fraction—

“(i) the numerator of which is the index of the national average monthly cost of housing for June of the preceding fiscal year; and

“(ii) the denominator of which is the index of the national average monthly cost of housing for June of the fiscal year before the preceding fiscal year.

“(4) An adjustment in the rates of the basic allowance for housing under this subsection as a result of the Secretary’s redetermination of housing costs in an area shall take effect on the same date

as the effective date of the next increase in basic pay under section 1009 of this title or other provision of law.

“(5) In making a determination under paragraph (3) for a fiscal year, the amount authorized to be paid for the preceding fiscal year for the basic allowance for housing shall be adjusted to reflect changes during the year for which the determination is made in the number, grade distribution, geographic distribution in the United States, and dependency status of members of the uniformed services entitled to the allowance from the number of such members during the preceding fiscal year.

“(6) So long as a member of a uniformed service retains uninterrupted eligibility to receive a basic allowance for housing within an area of the United States, the monthly amount of the allowance for the member may not be reduced as a result of changes in housing costs in the area, changes in the national average monthly cost of housing, or the promotion of the member.

“(7) In the case of a member without dependents who is assigned to duty inside the United States, the location or the circumstances of which make it necessary that the member be reassigned under the conditions of low cost or no cost permanent change of station or permanent change of assignment, the member may be treated as if the member were not reassigned if the Secretary concerned determines that it would be inequitable to base the member’s entitlement to, and amount of, a basic allowance for housing on the cost of housing in the area to which the member is reassigned.

“(c) BASIC ALLOWANCE FOR HOUSING OUTSIDE THE UNITED STATES.—(1) The Secretary of Defense may prescribe an overseas basic allowance for housing for a member of a uniformed service who is on duty outside of the United States. The Secretary shall establish the basic allowance for housing under this subsection on the basis of housing costs in the overseas area in which the member is assigned.

“(2) So long as a member of a uniformed service retains uninterrupted eligibility to receive a basic allowance for housing in an overseas area and the actual monthly cost of housing for the member is not reduced, the monthly amount of the allowance in an area outside the United States may not be reduced as a result of changes in housing costs in the area or the promotion of the member. The monthly amount of the allowance may be adjusted to reflect changes in currency rates.

“(d) BASIC ALLOWANCE FOR HOUSING WHEN DEPENDENTS ARE UNABLE TO ACCOMPANY MEMBER.—(1) A member of a uniformed service with dependents who is on permanent duty at a location described in paragraph (2) is entitled to a family separation basic allowance for housing under this subsection at a monthly rate equal to the rate of the basic allowance for housing established under subsection (b) or the overseas basic allowance for housing established under subsection (c), whichever applies to that location, for members in the same grade at that location without dependents.

“(2) A permanent duty location referred to in paragraph (1) is a location—

“(A) to which the movement of the member’s dependents is not authorized at the expense of the United States under section

406 of this title, and the member's dependents do not reside at or near the location; and

“(B) at which quarters of the United States are not available for assignment to the member.

“(3) In the case of a member with dependents who is assigned to duty at a location or under circumstances that, as determined by the Secretary concerned, require the member's dependents to reside at a different location, the member shall receive a basic allowance for housing, as provided in subsection (a) or (b), as if the member were assigned to duty in the area in which the dependents reside, regardless of whether the member resides in quarters of the United States or is also entitled to a family separation basic allowance for housing by reason of paragraph (1).

“(4) The family separation basic allowance for housing under this subsection shall be in addition to any other allowance or per diem that the member is otherwise entitled to receive under this title. A member may receive a basic allowance for housing under both paragraphs (1) and (3).

“(e) EFFECT OF ASSIGNMENT TO QUARTERS.—(1) Except as otherwise provided by law, a member of a uniformed service who is assigned to quarters of the United States or a housing facility under the jurisdiction of a uniformed service appropriate to the grade, rank, or rating of the member and adequate for the member and dependents of the member, if with dependents, is not entitled to a basic allowance for housing.

“(2) A member without dependents who is in a pay grade above pay grade E-6 and who is assigned to quarters in the United States or a housing facility under the jurisdiction of a uniformed service, appropriate to the grade or rank of the member and adequate for the member, may elect not to occupy those quarters and instead to receive the basic allowance for housing prescribed for the member's pay grade by this section.

“(3) A member without dependents who is in pay grade E-6 and who is assigned to quarters of the United States that do not meet the minimum adequacy standards established by the Secretary of Defense for members in such pay grade, or to a housing facility under the jurisdiction of a uniformed service that does not meet such standards, may elect not to occupy such quarters or facility and instead to receive the basic allowance for housing prescribed for the member's pay grade under this section.

“(4) The Secretary concerned may deny the right to make an election under paragraph (2) or (3) if the Secretary determines that the exercise of such an election would adversely affect a training mission, military discipline, or military readiness.

“(5) A member with dependents who is assigned to quarters of the United States or a housing facility under the jurisdiction of a uniformed service may be paid the basic allowance for housing if, because of orders of competent authority, the dependents are prevented from occupying those quarters.

“(f) INELIGIBILITY DURING INITIAL FIELD DUTY OR SEA DUTY.—(1) A member of a uniformed service without dependents who makes a permanent change of station for assignment to a unit conducting field operations is not entitled to a basic allowance for housing while on that initial field duty unless the commanding officer of the

member certifies that the member was necessarily required to procure quarters at the member's expense.

“(2)(A) Except as provided in subparagraphs (B) and (C), a member of a uniformed service without dependents who is in a pay grade below pay grade E-6 is not entitled to a basic allowance for housing while the member is on sea duty.

“(B) Under regulations prescribed by the Secretary concerned, the Secretary may authorize the payment of a basic allowance for housing to a member of a uniformed service without dependents who is serving in pay grade E-5 and is assigned to sea duty. In prescribing regulations under this subparagraph, the Secretary concerned shall consider the availability of quarters for members serving in pay grade E-5.

“(C) Notwithstanding section 421 of this title, two members of the uniformed services in a pay grade below pay grade E-6 who are married to each other, have no other dependents, and are simultaneously assigned to sea duty are jointly entitled to one basic allowance for housing during the period of such simultaneous sea duty. The amount of the allowance shall be based on the without dependents rate for the pay grade of the senior member of the couple. However, this subparagraph shall not apply to a couple if one or both of the members are entitled to a basic allowance for housing under subparagraph (B).

“(3) The Secretary of Defense, and the Secretary of Transportation with respect to the Coast Guard when it is not operating as a service in the Department of the Navy, shall prescribe regulation defining the terms ‘field duty’ and ‘sea duty’ for purposes of this section.

“(g) RESERVE MEMBERS.—(1) A member of a reserve component without dependents who is called or ordered to active duty in support of a contingency operation, or a retired member without dependents who is ordered to active duty under section 688(a) of title 10 in support of a contingency operation, may not be denied a basic allowance for housing if, because of that call or order, the member is unable to continue to occupy a residence—

“(A) which is maintained as the primary residence of the member at the time of the call or order; and

“(B) which is owned by the member or for which the member is responsible for rental payments.

“(2) Paragraph (1) shall not apply if the member is authorized transportation of household goods under section 406 of this title as part of the call or order to active duty described in such paragraph.

“(3) The Secretary of Defense shall establish a rate of basic allowance for housing to be paid to a member of a reserve component while the member serves on active duty under a call or order to active duty specifying a period of less than 140 days, unless the call or order to active duty is in support of a contingency operation.

“(h) RENTAL OF PUBLIC QUARTERS.—Notwithstanding any other law (including those restricting the occupancy of housing facilities under the jurisdiction of a department or agency of the United States by members, and their dependents, of the armed forces above specified grades, or by members, and their dependents, of the National Oceanic and Atmospheric Administration and the Public Health Service), a member of a uniformed service, and the depend-

ents of the member, may be accepted as tenants in, and may occupy on a rental basis, any of those housing facilities, other than public quarters constructed or designated for assignment to an occupancy without charge by such a member and the dependents of the member, if any. Such a member may not, because of occupancy under this subsection, be deprived of any money allowance to which the member is otherwise entitled for the rental of quarters.

“(i) *TEMPORARY HOUSING ALLOWANCE WHILE IN TRAVEL OR LEAVE STATUS.*—A member of a uniformed service who is in a pay grade E-4 (4 or more years of service) or above is entitled to a temporary basic allowance for housing (at a rate determined by the Secretary of Defense) while the member is in a travel or leave status between permanent duty stations, including time granted as delay en route or proceed time, when the member is not assigned to quarters of the United States.

“(j) *AVIATION CADETS.*—The eligibility of an aviation cadet of the Navy, Air Force, Marine Corps, or Coast Guard for a basic allowance for housing shall be determined as if the aviation cadet were a member of the uniformed services in pay grade E-4.

“(k) *ADMINISTRATION.*—(1) The Secretary of Defense shall prescribe regulations for the administration of this section.

“(2) The Secretary concerned may make such determinations as may be necessary to administer this section, including determinations of dependency and relationship. When warranted by the circumstances, the Secretary concerned may reconsider and change or modify any such determination. The authority of the Secretary concerned under this subsection may be delegated. Any determination made under this section with regard to a member of the uniformed services is final and is not subject to review by any accounting officer of the United States or a court, unless there is fraud or gross negligence.

“(3) Parking facilities (including utility connections) provided members of the uniformed services for house trailers and mobile homes not owned by the Government shall not be considered to be quarters for the purposes of this section or any other provision of law. Any fees established by the Government for the use of such a facility shall be established in an amount sufficient to cover the cost of maintenance, services, and utilities and to amortize the cost of construction of the facility over the 25-year period beginning with the completion of such construction.

“(l) *TEMPORARY CONTINUATION OF ALLOWANCE FOR DEPENDENTS OF MEMBERS DYING ON ACTIVE DUTY.*—(1) The Secretary of Defense, or the Secretary of Transportation in the case of the Coast Guard when not operating as a service in the Navy, may allow the dependents of a member of the armed forces who dies on active duty and whose dependents are occupying family housing provided by the Department of Defense, or by the Department of Transportation in the case of the Coast Guard, other than on a rental basis on the date of the member's death to continue to occupy such housing without charge for a period of 180 days.

“(2) The Secretary concerned may pay a basic allowance for housing (at the rate that is payable for members of the same grade and dependency status as the deceased member for the area where the dependents are residing) to the dependents of a member of the

uniformed services who dies while on active duty and whose dependents—

“(A) are not occupying a housing facility under the jurisdiction of a uniformed service on the date of the member’s death;

“(B) are occupying such housing on a rental basis on such date; or

“(C) vacate such housing sooner than 180 days after the date of the member’s death.

“(3) The payment of the allowance under paragraph (2) shall terminate 180 days after the date of the member’s death.

“(m) MEMBERS PAYING CHILD SUPPORT.—(1) A member of a uniformed service with dependents may not be paid a basic allowance for housing at the with dependents rate solely by reason of the payment of child support by the member if—

“(A) the member is assigned to a housing facility under the jurisdiction of a uniformed service; or

“(B) the member is assigned to sea duty, and elects not to occupy assigned quarters for unaccompanied personnel, unless the member is in a pay grade above E-4.

“(2) A member of a uniformed service assigned to quarters of the United States or a housing facility under the jurisdiction of a uniformed service who is not otherwise authorized a basic allowance for housing and who pays child support is entitled to the basic allowance for housing differential, except for months for which the amount payable for the child support is less than the rate of the differential. Payment of a basic allowance for housing differential does not affect any entitlement of the member to a partial allowance for quarters under subsection (n).

“(3) The basic allowance for housing differential to which a member is entitled under paragraph (2) is the amount equal to the difference between—

“(A) the rate of the basic allowance for quarters (with dependents) for the member’s pay grade, as such rate was in effect on December 31, 1997, under this section (as in effect on that date); and

“(B) the rate of the basic allowance for quarters (without dependents) for the member’s pay grade, as such rate was in effect on December 31, 1997, under this section (as in effect on that date).

“(4) Whenever the rates of basic pay for members of the uniformed services are increased, the monthly amount of the basic allowance for housing differential computed under paragraph (3) shall be increased by the average percentage increase in the rates of basic pay. The effective date of the increase shall be the same date as the effective date of the increase in the rates of basic pay.

“(5) In the case of two members, who have one or more common dependents (and no others), who are not married to each other, and one of whom pays child support to the other, the amount of the basic allowance for housing paid to each member under this section shall be reduced in accordance with regulations prescribed by the Secretary of Defense. The total amount of the basic allowances for housing paid to the two members may not exceed the sum of the amounts of the allowance to which each member would be otherwise entitled under this section.

“(n) *PARTIAL ALLOWANCE FOR MEMBERS WITHOUT DEPENDENTS.*—(1) A member of a uniformed service without dependents who is not entitled to receive a basic allowance for housing under subsection (b), (c), or (d) is entitled to a partial basic allowance for housing at a rate determined by the Secretary of Defense under paragraph (2).

“(2) The rate of the partial basic allowance for housing is the partial rate of the basic allowance for quarters for the member’s pay grade as such partial rate was in effect on December 31, 1997, under section 1009(c)(2) of this title (as such section was in effect on such date).”

(b) *TRANSITION TO BASIC ALLOWANCE FOR HOUSING.*—The Secretary of Defense shall develop and implement a plan to incrementally manage the rate of growth of the various components of the basic allowance for housing authorized by section 403 of title 37, United States Code (as amended by subsection (a)), during a transition period of not more than six years. During the transition period, the Secretary may continue to use the authorities provided under sections 403, 403a, 405(b), and 427(a) of title 37, United States Code (as in effect on the day before the date of the enactment of this Act), but subject to such modifications as the Secretary considers necessary, to provide allowances for members of the uniformed services.

(c) *REPEAL OF SUPERSEDED AUTHORITIES.*—(1) Section 403a of title 37, United States Code, is repealed.

(2) Section 405 of such title is amended—

- (A) by striking out subsection (b); and
- (B) by redesignating subsections (c) and (d) as subsections (b) and (c), respectively.

(3) Section 427 of such title is amended—

- (A) by striking out subsection (a); and
- (B) in subsection (b)—
 - (i) by striking out “(b) *ADDITIONAL SEPARATION ALLOWANCE.*—” and inserting in lieu thereof “(a) *ENTITLEMENT TO ALLOWANCE.*—”;
 - (ii) in paragraph (1)—
 - (I) by striking out “, including subsection (a),” in the matter preceding the subparagraphs;
 - (II) by inserting “or” at the end of subparagraph (B);
 - (III) by striking out “; or” at the end of subparagraph (C) and inserting in lieu thereof a period; and
 - (IV) by striking out subparagraph (D);
 - (iii) in paragraph (3)—
 - (I) by striking out “(3) An allowance” and inserting in lieu thereof “(b) *ENTITLEMENT WHEN NO RESIDENCE OR HOUSEHOLD MAINTAINED FOR DEPENDENTS.*—An allowance”; and
 - (II) by striking out “this subsection” and inserting in lieu thereof “subsection (a)”; and
 - (iv) in paragraph (4)—
 - (I) by striking out “(4) A member” and inserting in lieu thereof “(c) *EFFECT OF ELECTION TO SERVE UNACCOMPANIED TOUR OF DUTY.*—A member”; and

(II) by striking out “paragraph (1)(A) of this subsection” and inserting in lieu thereof “subsection (a)(1)(A)”; and

(v) by striking out paragraph (5) and inserting in lieu thereof the following new subsection:

“(d) *ENTITLEMENT WHILE SPOUSE ENTITLED TO BASIC PAY.*—A member married to another member of the uniformed services becomes entitled, regardless of any other dependency status, to an allowance under subsection (a) by virtue of duty prescribed in subparagraph (A), (B), or (C) of paragraph (1) of such subsection if the members were residing together immediately before being separated by reasons of execution of military orders. Section 421 of this title does not apply to bar the entitlement to an allowance under this section. However, not more than one monthly allowance may be paid with respect to a married couple under this section.”.

(4) The table of sections at the beginning of chapter 7 of title 37, United States Code, is amended by striking out the items relating to sections 403 and 403a and inserting in lieu thereof the following new item:

“403. Basic allowance for housing.”.

(d) *CONFORMING AMENDMENTS.*—(1) Title 37, United States Code, is amended—

(A) in section 101(25), by striking out “basic allowance for quarters (including any variable housing allowance or station housing allowance)” and inserting in lieu thereof “basic allowance for housing”;

(B) in section 406(c), by striking out “sections 404 and 405” and inserting in lieu thereof “sections 403(c), 404, and 405”;

(C) in section 420(c), by striking out “quarters” and inserting in lieu thereof “housing”;

(D) in section 551(3)(D), by striking out “basic allowance for quarters” and inserting in lieu thereof “basic allowance for housing”; and

(E) in section 1014(a), by striking out “basic allowance for quarters” and inserting in lieu thereof “basic allowance for housing”.

(2) Title 10, United States Code, is amended—

(A) in section 708(c)(1), by striking out “basic allowance for quarters or basic allowance for subsistence” and inserting in lieu thereof “basic allowance for housing under section 403 of title 37, basic allowance for subsistence under section 402 of such title,”;

(B) in section 2830(a)—

(i) in paragraph (1), by striking out “basic allowance for quarters” and inserting in lieu thereof “basic allowance for housing under section 403 of title 37”; and

(ii) in paragraph (2), by striking out “basic allowance for quarters” and inserting in lieu thereof “basic allowance for housing”;

(C) in section 2882(b)—

(i) in paragraph (1), by striking out “section 403(b)” and inserting in lieu thereof “section 403”; and

(ii) in paragraph (2), by striking out “basic allowance for quarters” and all that follows through the end of the paragraph and inserting in lieu thereof “basic allowance for housing under section 403 of title 37.”;

(D) in section 7572(b)—

(i) in paragraph (1), by striking out “the total of—” and all that follows through the end of the paragraph and inserting in lieu thereof “the basic allowance for housing payable under section 403 of title 37 to a member of the same pay grade without dependents for the period during which the member is deprived of quarters on board ship.”; and

(ii) in paragraph (2), by striking out “basic allowance for quarters” and inserting in lieu thereof “basic allowance for housing”; and

(E) in section 7573, by striking out “basic allowance for quarters” and inserting in lieu thereof “basic allowance for housing under section 403 of title 37”.

(3) Section 5561(6)(D) of title 5, United States Code, is amended by striking out “basic allowance for quarters” and inserting in lieu thereof “basic allowance for housing”.

(4) Section 107(b) of title 32, United States Code, is amended by striking out “and quarters” and inserting in lieu thereof “and housing”.

(5) Section 4(k)(10) of the Military Selective Service Act (50 U.S.C. App. 454(k)(10)) is amended by striking out “as such terms” and all that follows through “extended or amended” and inserting in lieu thereof “shall be entitled to receive a dependency allowance equal to the basic allowance for housing provided for persons in pay grade E-1 under section 403 of title 37, United States Code.”.

(e) *EFFECTIVE DATE.*—This section and the amendments made by this section shall take effect on January 1, 1998.

SEC. 604. REVISION OF AUTHORITY TO ADJUST COMPENSATION NECESSITATED BY REFORM OF SUBSISTENCE AND HOUSING ALLOWANCES.

(a) *REMOVAL OF REFERENCES TO BAS AND BAQ.*—(1) Section 1009 of title 37, United States Code, is amended to read as follows:

“§ 1009. Adjustments of monthly basic pay

“(a) *ADJUSTMENT REQUIRED.*—Whenever the General Schedule of compensation for Federal classified employees, as contained in section 5332 of title 5, is adjusted upward as provided in section 5303 of such title, the President shall immediately make an upward adjustment in the monthly basic pay authorized members of the uniformed services by section 203(a) of this title.

“(b) *EFFECTIVENESS OF ADJUSTMENT.*—An adjustment under this section shall—

“(1) have the force and effect of law; and

“(2) carry the same effective date as that applying to the compensation adjustments provided General Schedule employees.

“(c) *EQUAL PERCENTAGE INCREASE FOR ALL MEMBERS.*—Subject to subsection (d), an adjustment under this section shall provide all eligible members with an increase in the monthly basic pay which is of the same percentage as the overall average percentage increase

in the General Schedule rates of both basic pay and locality pay for civilian employees.

“(d) ALLOCATION OF INCREASE AMONG PAY GRADES AND YEARS-OF-SERVICE.—(1) Subject to paragraph (2), whenever the President determines such action to be in the best interest of the Government, he may allocate the overall percentage increase in the monthly basic pay under subsection (a) among such pay grade and years-of-service categories as he considers appropriate.

“(2) In making any allocation of an overall percentage increase in basic pay under paragraph (1)—

“(A) the amount of the increase in basic pay for any given pay grade and years-of-service category after any allocation made under this subsection may not be less than 75 percent of the amount of the increase in the monthly basic pay that would otherwise have been effective with respect to such pay grade and years-of-service category under subsection (c); and

“(B) the percentage increase in the monthly basic pay in the case of any member of the uniformed services with four years or less service may not exceed the overall percentage increase in the General Schedule rates of basic pay for civilian employees.

“(e) NOTICE OF ALLOCATIONS.—Whenever the President plans to exercise the authority of the President under subsection (d) with respect to any anticipated increase in the monthly basic pay of members of the uniformed services, the President shall advise Congress, at the earliest practicable time prior to the effective date of such increase, regarding the proposed allocation of such increase.

“(f) QUADRENNIAL ASSESSMENT OF ALLOCATIONS.—The allocations of increases made under this section shall be assessed in conjunction with the quadrennial review of military compensation required by section 1008(b) of this title.”

(2) The item relating to such section in the table of sections at the beginning of chapter 19 of such title is amended to read as follows:

“1009. Adjustments of monthly basic pay.”

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on January 1, 1998.

SEC. 605. PROTECTION OF TOTAL COMPENSATION OF MEMBERS WHILE PERFORMING CERTAIN DUTY.

Section 1009 of title 37, United States Code, as amended by section 604, is further amended—

(1) by redesignating subsection (f) as subsection (g); and

(2) by inserting after subsection (e) the following new subsection:

“(f) PROTECTION OF MEMBER’S TOTAL COMPENSATION WHILE PERFORMING CERTAIN DUTY.—(1) The total daily equivalent amount of the elements of compensation described in paragraph (3), together with other pay and allowances under this title, to be paid to a member of the uniformed services who is temporarily assigned to duty away from the member’s permanent duty station or to duty under field conditions at the member’s permanent duty station shall not be less, for any day during the assignment period, than the total amount, for the day immediately preceding the date of the assign-

ment, of the elements of compensation and other pay and allowances of the member.

“(2) Paragraph (1) shall not apply with respect to an element of compensation or other pay or allowance of a member during an assignment described in such paragraph to the extent that the element of compensation or other pay or allowance is reduced or terminated due to circumstances unrelated to the assignment.

“(3) The elements of compensation referred to in this subsection mean—

“(A) the monthly basic pay authorized members of the uniformed services by section 203(a) of this title;

“(B) the basic allowance for subsistence authorized members of the uniformed services by section 402 of this title; and

“(C) the basic allowance for housing authorized members of the uniformed services by section 403 of this title.”

SEC. 625. PROVISION OF BONUSES IN LIEU OF SPECIAL PAY FOR ENLISTED MEMBERS EXTENDING TOURS OF DUTY AT DESIGNATED LOCATIONS OVERSEAS.

(a) *INCLUSION OF BONUS INCENTIVE.*—(1) Section 314 of title 37, United States Code, is amended to read as follows:

“§314. Special pay or bonus: qualified enlisted members extending duty at designated locations overseas

“(a) *COVERED MEMBERS.*—This section applies with respect to an enlisted member of an armed force who—

“(1) is entitled to basic pay;

“(2) has a specialty that is designated by the Secretary concerned for the purposes of this section;

“(3) has completed a tour of duty (as defined in accordance with regulations prescribed by the Secretary concerned) at a location outside the 48 contiguous States and the District of Columbia that is designated by the Secretary concerned for the purposes of this section; and

“(4) at the end of that tour of duty executes an agreement to extend that tour for a period of not less than one year.

“(b) *SPECIAL PAY OR BONUS AUTHORIZED.*—Upon the acceptance by the Secretary concerned of the agreement providing for an extension of the tour of duty of an enlisted member described in subsection (a), the member is entitled, at the election of the Secretary concerned, to either—

“(1) special pay in monthly installments in an amount prescribed by the Secretary, but not to exceed \$80 per month; or

“(2) an annual bonus in an amount prescribed by the Secretary, but not to exceed \$2,000 per year.

“(c) *SELECTION AND PAYMENT OF SPECIAL PAY OR BONUS.*—Not later than the date on which the Secretary concerned accepts an agreement described in subsection (a)(4) providing for the extension of a member’s tour of duty, the Secretary concerned shall notify the member regarding whether the member will receive special pay or a bonus under this section. The payment rate for the special pay or bonus shall be fixed at the time of the agreement and may not be changed during the period of the extended tour of duty. The Secretary concerned may pay a bonus under this section either in a lump sum or installments.

“(d) *REPAYMENT OF BONUS.*—(1) A member who, having entered into a written agreement to extend a tour of duty for a period under subsection (a), receives a bonus payment under subsection (b)(2) for a 12-month period covered by the agreement and ceases during that 12-month period to perform the agreed tour of duty shall refund to

the United States the unearned portion of the bonus. The unearned portion of the bonus is the amount by which the amount of the bonus paid to the member exceeds the amount determined by multiplying the amount of the bonus paid by the percent determined by dividing 12 into the number of full months during which the member performed the duty in the 12-month period.

“(2) The Secretary concerned may waive the obligation of a member to reimburse the United States under paragraph (1) if the Secretary determines that conditions and circumstances warrant the waiver.

“(3) An obligation to repay the United States imposed under paragraph (1) is for all purposes a debt owed to the United States.

“(4) A discharge in bankruptcy under title 11 that is entered less than five years after the termination of the agreement does not discharge the member signing the agreement from a debt arising under the agreement or under paragraph (1). This paragraph applies to any case commenced under title 11 on or after the date of the enactment of the National Defense Authorization Act for Fiscal Year 1998.

“(e) **EFFECT OF REST AND RECUPERATIVE ABSENCE.**—A member who elects to receive one of the benefits specified in section 705(b) of title 10 as part of the extension of a tour of duty is not entitled to the special pay authorized by subsection (b)(1) for the period of the extension of duty for which the benefit under such section is provided.”

(2) The item relating to section 314 in the table of sections at the beginning of chapter 5 of such title is amended to read as follows:

“314. Special pay or bonus: qualified enlisted members extending duty at designated locations overseas.”

(b) **APPLICATION OF AMENDMENT.**—Section 314 of title 37, United States Code, as amended by subsection (a), shall apply with respect to an agreement to extend a tour of duty as provided in such section executed on or after October 1, 1997.

SEC. 632. DISLOCATION ALLOWANCE.

(a) IN GENERAL.—Section 407 of title 37, United States Code, is amended to read as follows:

“§ 407. Travel and transportation allowances: dislocation allowance

“(a) ELIGIBILITY FOR PRIMARY DISLOCATION ALLOWANCE.—(1) Under regulations prescribed by the Secretary concerned, a member of a uniformed service described in paragraph (2) is entitled to a primary dislocation allowance at the rate determined under subsection (c) for the member's pay grade and dependency status.

“(2) A member of the uniformed services referred to in paragraph (1) is any of the following:

“(A) A member who makes a change of permanent station and the member's dependents actually make an authorized move in connection with the change, including a move by the dependents—

“(i) to join the member at the member's duty station after an unaccompanied tour of duty when the member's next tour of duty is an accompanied tour at the same station; and

“(ii) to a location designated by the member after an accompanied tour of duty when the member's next tour of duty is an unaccompanied tour at the same duty station.

“(B) A member whose dependents actually move pursuant to section 405a(a), 406(e), 406(h), or 554 of this title.

“(C) A member whose dependents actually move from their place of residence under circumstances described in section 406a of this title.

“(D) A member who is without dependents and—

“(i) actually moves to a new permanent station where the member is not assigned to quarters of the United States; or

“(ii) actually moves from a place of residence under circumstances described in section 406a of this title.

“(E) A member who is ordered to move in connection with the closure or realignment of a military installation and, as a result, the member's dependents actually move or, in the case of a member without dependents, the member actually moves.

“(3) If a primary dislocation allowance is paid under this subsection to a member described in subparagraph (C) or (D)(ii) of paragraph (2), the member is not entitled to another dislocation allowance as a member described in subparagraph (A) or (E) of such paragraph in connection with the same move.

“(b) **SECONDARY ALLOWANCE AUTHORIZED UNDER CERTAIN CIRCUMSTANCES.**—(1) Under regulations prescribed by the Secretary concerned, whenever a member is entitled to a primary dislocation allowance under subsection (a) as a member described in paragraph (2)(C) or (2)(D)(ii) of such subsection, the member is also entitled to a secondary dislocation allowance at the rate determined under subsection (c) for the member’s pay grade and dependency status if, subsequent to the member or the member’s dependents actually moving from their place of residence under circumstances described in section 406a of this title, the member or member’s dependents complete that move to a new location and then actually move from that new location to another location also under circumstances described in section 406a of this title.

“(2) If a secondary dislocation allowance is paid under this subsection, the member is not entitled to a dislocation allowance as a member described in paragraph (2)(A) or (2)(E) of subsection (a) in connection with those moves.

“(c) **DISLOCATION ALLOWANCE RATES.**—(1) The amount of the dislocation allowance to be paid under this section to a member shall be based on the member’s pay grade and dependency status at the time the member becomes entitled to the allowance.

“(2) The initial rate for the dislocation allowance, for each pay grade and dependency status, shall be equal to the rate in effect for that pay grade and dependency status on December 31, 1997, as adjusted by the average percentage increase in the rates of basic pay for calendar year 1998. Effective on the same date that the monthly rates of basic pay for members are increased for a subsequent calendar year, the Secretary of Defense shall adjust the rates for the dislocation allowance for that calendar year by the percentage equal to the average percentage increase in the rates of basic pay for that calendar year.

“(d) **FISCAL YEAR LIMITATION; EXCEPTIONS.**—(1) A member is not entitled to more than one dislocation allowance under this section during a fiscal year unless—

“(A) the Secretary concerned finds that the exigencies of the service require the member to make more than one change of permanent station during the fiscal year;

“(B) the member is ordered to a service school as a change of permanent station;

“(C) the member’s dependents are covered by section 405a(a), 406(e), 406(h), or 554 of this title; or

“(D) subparagraph (C) or (D)(ii) of subsection (a)(2) or subsection (b) apply with respect to the member or the member’s dependents.

“(2) This subsection does not apply in time of national emergency or in time of war.

“(e) **FIRST OR LAST DUTY.**—A member is not entitled to payment of a dislocation allowance under this section when the member is ordered from the member’s home to the member’s first duty station or from the member’s last duty station to the member’s home.

“(f) **RULE OF CONSTRUCTION.**—For purposes of this section, a member whose dependents may not make an authorized move in connection with a change of permanent station is considered a member without dependents.

“(g) *ADVANCE PAYMENT.*—A dislocation allowance payable under this section may be paid in advance.”

(b) *EFFECTIVE DATE.*—The amendment made by subsection (a) shall take effect on January 1, 1998.

Subtitle D—Retired Pay, Survivor Benefits, and Related Matters

SEC. 641. ONE-YEAR OPPORTUNITY TO DISCONTINUE PARTICIPATION IN SURVIVOR BENEFIT PLAN.

(a) *ELECTION TO DISCONTINUE WITHIN ONE YEAR AFTER SECOND ANNIVERSARY OF COMMENCEMENT OF PAYMENT OF RETIRED PAY.*—(1) Subchapter II of chapter 73 of title 10, United States Code, is amended by inserting after section 1448 the following new section:

“§ 1448a. Election to discontinue participation: one-year opportunity after second anniversary of commencement of payment of retired pay

“(a) *AUTHORITY.*—A participant in the Plan may, subject to the provisions of this section, elect to discontinue participation in the Plan at any time during the one-year period beginning on the second anniversary of the date on which payment of retired pay to the participant commences.

“(b) *CONCURRENCE OF SPOUSE.*—

“(1) *CONCURRENCE REQUIRED.*—A married participant may not (except as provided in paragraph (2)) make an election under subsection (a) without the concurrence of the participant’s spouse.

“(2) *EXCEPTIONS.*—A participant may make such an election without the concurrence of the participant’s spouse by establishing to the satisfaction of the Secretary concerned that one of the conditions specified in section 1448(a)(3)(C) of this title exists.

“(3) *FORM OF CONCURRENCE.*—The concurrence of a spouse under paragraph (1) shall be made in such written form and shall contain such information as may be required under regulations prescribed by the Secretary of Defense.

“(c) *LIMITATION ON ELECTION WHEN FORMER SPOUSE COVERAGE IN EFFECT.*—The limitation set forth in section 1450(f)(2) of this title applies to an election to discontinue participation in the Plan under subsection (a).

“(d) *WITHDRAWAL OF ELECTION TO DISCONTINUE.*—Section 1448(b)(1)(D) of this title applies to an election under subsection (a).

“(e) *CONSEQUENCES OF DISCONTINUATION.*—Section 1448(b)(1)(E) of this title applies to an election under subsection (a).

“(f) *NOTICE TO AFFECTED BENEFICIARIES.*—The Secretary concerned shall notify any former spouse or other natural person previously designated under section 1448(b) of this title of an election to discontinue participation under subsection (a).

“(g) *EFFECTIVE DATE OF ELECTION.*—An election under subsection (a) is effective as of the first day of the first calendar month

following the month in which the election is received by the Secretary concerned.

“(h) INAPPLICABILITY OF IRREVOCABILITY PROVISIONS.—Paragraphs (4)(B) and (5)(C) of section 1448(a) of this title do not apply to prevent an election under subsection (a).”

(2) The table of sections at the beginning of such subchapter is amended by inserting after the item relating to section 1448 the following new item:

“1448a. Election to discontinue participation: one-year opportunity after second anniversary of commencement of payment of retired pay.”

(b) TRANSITION PROVISION FOR CURRENT PARTICIPANTS.—Notwithstanding the limitation on the time for making an election under section 1448a of title 10, United States Code (as added by subsection (a)), that is specified in subsection (a) of such section, a participant in the Survivor Benefit Plan under subchapter II of chapter 73 of such title may make an election in accordance with that section within one year after the effective date of that section under subsection (c) if the second anniversary of the commencement of payment of retired pay to the participant precedes that effective date.

(c) EFFECTIVE DATE.—Section 1448a of title 10, United States Code, as added by subsection (a), shall take effect 180 days after the date of the enactment of this Act.

SEC. 642. TIME IN WHICH CHANGE IN SURVIVOR BENEFIT COVERAGE FROM FORMER SPOUSE TO SPOUSE MAY BE MADE.

(a) EXTENSION OF TIME FOR CHANGE.—Section 1450(f)(1)(C) of title 10, United States Code, is amended by adding at the end the following new sentence: “Notwithstanding the preceding sentence, a change of election under this subsection to provide an annuity to a spouse instead of a former spouse may (subject to paragraph (2)) be made at any time after the person providing the annuity remarries without regard to the time limitation in section 1448(a)(5)(B) of this title.”

(b) APPLICABILITY.—The amendment made by subsection (a) shall apply with respect to marriages occurring before, on, or after the date of the enactment of this Act.

SEC. 643. REVIEW OF FEDERAL FORMER SPOUSE PROTECTION LAWS.

(a) REVIEW REQUIRED.—The Secretary of Defense shall carry out a comprehensive review (including a comparison) of—

(1) the protections, benefits, and treatment afforded under Federal law to members and former members of the uniformed services and former spouses of such persons; and

(2) the protections, benefits, and treatment afforded under Federal law to employees and former employees of the Government and former spouses of such persons.

(b) MILITARY PERSONNEL MATTERS TO BE REVIEWED.—In the case of members and former members of the uniformed services and former spouses of such persons, the review under subsection (a) shall include the following:

(1) All provisions of law (principally those originally enacted in the Uniformed Services Former Spouses' Protection Act (title X of Public Law 97-252)) that—

(A) establish, provide for the enforcement of, or otherwise protect interests of members and former members of the uniformed services and former spouses of such persons in retired or retainer pay of members and former members; or

(B) provide other benefits for members and former members of the uniformed services and former spouses of such persons.

(2) The experience of the uniformed services in administering those provisions of law, including the adequacy and effectiveness of the legal assistance provided by the Department of Defense in matters related to the Uniformed Services Former Spouses' Protection Act.

(3) The experience of members and former members of the uniformed services and former spouses of such persons in the administration of those provisions of law.

(4) The experience of members and former members of the uniformed services and former spouses of such persons in the application of those provisions of law by State courts.

(5) The history of State statutes and State court interpretations of the Uniformed Services Former Spouses' Protection Act and other provisions of Federal law described in paragraph (1)(A) and the extent to which those interpretations follow those laws.

(c) **CIVILIAN PERSONNEL MATTERS TO BE REVIEWED.**—In the case of former spouses of employees and former employees of the Government, the review under subsection (a) shall include the following:

(1) All provisions of law that—

(A) establish, provide for the enforcement of, or otherwise protect interests of employees and former employees of the Government and former spouses of such persons in annuities of employees and former employees under Federal employees' retirement systems; or

(B) provide other benefits for employees and former employees of the Government and former spouses of such persons.

(2) The experience of the Office of Personnel Management and other agencies of the Government in administering those provisions of law.

(3) The experience of employees and former employees of the Government and former spouses of such persons in the administration of those provisions of law.

(4) The experience of employees and former employees of the Government and former spouses of such persons in the application of those provisions of law by State courts.

(d) **SAMPLING AUTHORIZED.**—The Secretary may use sampling in carrying out the review under this section.

(e) **REPORT.**—Not later than September 30, 1999, the Secretary shall submit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a report on the results of the review under subsection (a). The report shall include any recommendations for legislation that the Secretary considers appropriate.

SEC. 644. ANNUITIES FOR CERTAIN MILITARY SURVIVING SPOUSES.

(a) *SURVIVOR ANNUITY.*—(1) *The Secretary concerned shall pay an annuity to the qualified surviving spouse of each member of the uniformed services who—*

(A) *died before March 21, 1974, and was entitled to retired or retainer pay on the date of death; or*

(B) *was a member of a reserve component of the Armed Forces during the period beginning on September 21, 1972, and ending on October 1, 1978, and at the time of his death would have been entitled to retired pay under chapter 67 of title 10, United States Code (as in effect before December 1, 1994), but for the fact that he was under 60 years of age.*

(2) *A qualified surviving spouse for purposes of this section is a surviving spouse who has not remarried and who is not eligible for an annuity under section 4 of Public Law 92-425 (10 U.S.C. 1448 note).*

(b) *AMOUNT OF ANNUITY.*—(1) *An annuity under this section shall be paid at the rate of \$165 per month, as adjusted from time to time under paragraph (3).*

(2) *An annuity paid to a surviving spouse under this section shall be reduced by the amount of any dependency and indemnity compensation (DIC) to which the surviving spouse is entitled under section 1311(a) of title 38, United States Code.*

(3) *Whenever after the date of the enactment of this Act retired or retainer pay is increased under section 1401a(b)(2) of title 10, United States Code, each annuity that is payable under this section shall be increased at the same time and by the same total percent. The amount of the increase shall be based on the amount of the monthly annuity payable before any reduction under this section.*

(c) *APPLICATION REQUIRED.*—*No benefit shall be paid to any person under this section unless an application for such benefit is filed with the Secretary concerned by or on behalf of such person.*

(d) *DEFINITIONS.*—*For purposes of this section:*

(1) *The terms “uniformed services” and “Secretary concerned” have the meanings given such terms in section 101 of title 37, United States Code.*

(2) *The term “surviving spouse” has the meaning given the terms “widow” and “widower” in paragraphs (3) and (4) of section 1447 of title 10, United States Code.*

(e) *PROSPECTIVE APPLICABILITY.*—(1) *Annuities under this section shall be paid for months beginning after the month in which this Act is enacted.*

(2) *No benefit shall accrue to any person by reason of the enactment of this section for any period before the first month that begins after the month in which this Act is enacted.*

(f) *EXPIRATION OF AUTHORITY.*—*The authority to pay annuities under this section shall expire on September 30, 2001.*

SEC. 645. ADMINISTRATION OF BENEFITS FOR SO-CALLED MINIMUM INCOME WIDOWS.

(a) *PAYMENTS TO BE MADE BY SECRETARY OF VETERANS AFFAIRS.*—*Section 653(d) of the National Defense Authorization Act, Fiscal Year 1989 (10 U.S.C. 1448 note) is amended—*

(1) *by inserting “(1)” before “An annuity” the first place it appears; and*

(2) by adding at the end the following new paragraph:

“(2) Payment of annuities under this section shall be made by the Secretary of Veterans Affairs. In making such payments, the Secretary shall combine the payment under this section with the payment of any amount due the same person under section 4 of Public Law 92-425 (10 U.S.C. 1448 note), as provided in subsection (e)(1) of that section. The Secretary concerned shall transfer amounts for payments under this section to the Secretary of Veterans Affairs in the same manner as is provided under subsection (e)(2) of section 4 of Public Law 92-425 for payments under that section.”

(b) COMBINATION WITH OTHER BENEFITS.—Section 4(e)(1) of Public Law 92-425 (10 U.S.C. 1448 note) is amended—

(1) by inserting after the first sentence the following new sentence: “In making such payments, the Secretary shall combine with the payment under this section payment of any amount due the same person under section 653(d) of the National Defense Authorization Act, Fiscal Year 1989 (10 U.S.C. 1448 note).”; and

(2) by inserting “(and, if applicable, under section 653(d) of the National Defense Authorization Act, Fiscal Year 1989)” after “under this section”.

(c) EFFECTIVE DATE.—The amendments made by this section take effect on the first day of the first month beginning after the date of the enactment of this Act and shall apply with respect to payments of benefits for months beginning on or after that date, except that the Secretary of Veterans Affairs may provide, if necessary for administrative implementation, that such amendments shall apply beginning with a later month, not later than the first month beginning more than 180 days after the date of the enactment of this Act.

Subtitle E—Other Matters

SEC. 651. LOAN REPAYMENT PROGRAM FOR COMMISSIONED OFFICERS IN CERTAIN HEALTH PROFESSIONS.

(a) Chapter 109 of title 10, United States Code, is amended by adding at the end the following new section:

“§2173. Education loan repayment program: commissioned officers in specified health professions

“(a) AUTHORITY TO REPAY EDUCATION LOANS.—For the purpose of maintaining adequate numbers of commissioned officers of the armed forces on active duty who are qualified in the various health professions, the Secretary of a military department may repay, in the case of a person described in subsection (b), a loan that—

“(1) was used by the person to finance education regarding a health profession; and

“(2) was obtained from a governmental entity, private financial institution, school, or other authorized entity.

“(b) ELIGIBLE PERSONS.—To be eligible to obtain a loan repayment under this section, a person must—

“(1) satisfy one of the requirements specified in subsection (c);

“(2) be fully qualified for, or hold, an appointment as a commissioned officer in one of the health professions; and

“(3) sign a written agreement to serve on active duty, or, if on active duty, to remain on active duty for a period in addition to any other incurred active duty obligation.

“(c) **ACADEMIC AND PROFESSIONAL REQUIREMENTS.**—One of the following academic requirements must be satisfied for purposes of determining the eligibility of a person for a loan repayment under this section:

“(1) The person is fully qualified in a health care profession that the Secretary of the military department concerned has determined to be necessary to meet identified skill shortages.

“(2) The person is enrolled as a full-time student in the final year of a course of study at an accredited educational institution leading to a degree in a health profession other than medicine or osteopathic medicine.

“(3) The person is enrolled in the final year of an approved graduate program leading to specialty qualification in medicine, dentistry, osteopathic medicine, or other health profession.

“(d) **CERTAIN PERSONS INELIGIBLE.**—Participants of the Armed Forces Health Professions Scholarship and Financial Assistance program under subchapter I of chapter 105 of this title and students of the Uniformed Services University of the Health Sciences established under section 2112 of this title are not eligible for the repayment of an education loan under this section.

“(e) **LOAN REPAYMENTS.**—(1) Subject to the limits established by paragraph (2), a loan repayment under this section may consist of payment of the principal, interest, and related expenses of a loan obtained by a person described in subsection (b) for—

“(A) all educational expenses, comparable to all educational expenses recognized under section 2127(a) of this title for participants in the Armed Forces Health Professions Scholarship and Financial Assistance program; and

“(B) reasonable living expenses, not to exceed expenses comparable to the stipend paid under section 2121(d) of this title for participants in the Armed Forces Health Professions Scholarship and Financial Assistance program.

“(2) For each year of obligated service that a person agrees to serve in an agreement described in subsection (b)(3), the Secretary of the military department concerned may pay not more than \$22,000 on behalf of the person. This maximum amount shall be increased annually by the Secretary of Defense effective October 1 of each year by the percentage equal to the percent increase in the average annual cost of educational expenses and stipend costs of a single scholarship under the Armed Forces Health Professions Scholarship and Financial Assistance program. The total amount that may be repaid on behalf of any person may not exceed an amount determined on the basis of a four-year active duty service obligation.

“(f) **ACTIVE DUTY SERVICE OBLIGATION.**—(1) A person entering into an agreement described in subsection (b)(3) incurs an active duty service obligation. The length of this obligation shall be determined under regulations prescribed by the Secretary of Defense, but those regulations may not provide for a period of obligation of less

than one year for each maximum annual amount, or portion thereof, paid on behalf of the person for qualified loans.

“(2) For persons on active duty before entering into the agreement, the active duty service obligation shall be served consecutively to any other obligation incurred under the agreement.

“(g) **EFFECT OF FAILURE TO COMPLETE OBLIGATION.**—A commissioned officer who is relieved of the officer’s active duty obligation under this section before the completion of that obligation may be given, with or without the consent of the officer, any alternative obligation comparable to any of the alternative obligations authorized by section 2123(e) of this title for participants in the Armed Forces Health Professions Scholarship and Financial Assistance program.

“(h) **REGULATIONS.**—The Secretary of Defense shall prescribe regulations to carry out this section, including standards for qualified loans and authorized payees and other terms and conditions for the making of loan repayments.”.

(b) **CLERICAL AMENDMENT.**—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

“2173. Education loan repayment program: commissioned officers in specified health professions.”.

SEC. 652. CONFORMANCE OF NOAA COMMISSIONED OFFICERS SEPARATION PAY TO SEPARATION PAY FOR MEMBERS OF OTHER UNIFORMED SERVICES.

(a) **ELIMINATION OF LIMITATIONS ON AMOUNT OF SEPARATION PAY.**—Section 9 of the Coast and Geodetic Survey Commissioned Officers’ Act of 1948 (33 U.S.C. 853h) is amended—

(1) in subsection (b)(1), by striking out “, or \$30,000, whichever is less”;

(2) in subsection (b)(2), by striking out “, but in no event more than \$15,000”; and

(3) in subsection (d), by striking out “(1)”, and by striking out paragraph (2).

(b) **WAIVER OF RECOUPMENT OF AMOUNTS WITHHELD FOR TAX PURPOSES FROM CERTAIN SEPARATION PAY.**—Section 9(e)(2) of the Coast and Geodetic Survey Commissioned Officers’ Act of 1948 (33 U.S.C. 853h(e)(2)) is amended in the first sentence by inserting before the period at the end the following: “, less the amount of Federal income tax withheld from such pay (such withholding being at the flat withholding rate for Federal income tax withholding, as in effect pursuant to regulations prescribed under chapter 24 of the Internal Revenue Code of 1986)”.

(c) **EFFECTIVE DATE AND APPLICATION.**—The amendments made by this section shall take effect as of October 1, 1997, and shall apply to payments of separation pay that are made after September 30, 1997.

SEC. 653. ELIGIBILITY OF PUBLIC HEALTH SERVICE OFFICERS AND NOAA COMMISSIONED CORPS OFFICERS FOR REIMBURSEMENT OF ADOPTION EXPENSES.

(a) **PUBLIC HEALTH SERVICE.**—Section 221(a) of the Public Health Service Act (42 U.S.C. 213a(a)) is amended by adding at the end the following new paragraph:

“(16) Section 1052, Reimbursement for adoption expenses.”.

(b) NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION.—Section 3(a) of the Act of August 10, 1956 (33 U.S.C. 857a(a)), is amended by adding at the end the following new paragraph:

“(16) Section 1052, Reimbursement for adoption expenses.”.

(c) PROSPECTIVE APPLICABILITY.—The amendments made by this section shall apply only to adoptions that are completed on or after the date of the enactment of this Act.

SEC. 654. PAYMENT OF BACK QUARTERS AND SUBSISTENCE ALLOWANCES TO WORLD WAR II VETERANS WHO SERVED AS GUERRILLA FIGHTERS IN THE PHILIPPINES.

(a) IN GENERAL.—The Secretary of the military department concerned shall pay, upon request, to an individual described in subsection (b) the amount determined with respect to that individual under subsection (c).

(b) COVERED INDIVIDUALS.—A payment under subsection (a) shall be made to any individual who as a member of the Armed Forces during World War II—

(1) was captured within the territory of the Philippines by Japanese forces;

(2) escaped from captivity; and

(3) served as a guerrilla fighter in the Philippines during the period from January 1942 through February 1945.

(c) AMOUNT TO BE PAID.—The amount of a payment under subsection (a) shall be the amount of quarters and subsistence allowance which accrued to an individual described in subsection (b) during the period specified in paragraph (3) of subsection (b) and which was not paid to that individual. For the purposes of this subsection, the Secretary of War shall be deemed to have determined that conditions in the Philippines during the specified period justified payment under applicable regulations of quarters and subsistence allowances at the maximum special rate for duty where emergency conditions existed. The Secretary shall apply interest compounded at the three-month Treasury bill rate.

(d) PAYMENT TO SURVIVORS.—In the case of any individual described in subsection (b) who is deceased, payment under this section with respect to that individual shall be made to that individual's nearest surviving relative, as determined by the Secretary concerned.

SEC. 655. SUBSISTENCE OF MEMBERS OF THE ARMED FORCES ABOVE THE POVERTY LEVEL.

(a) STUDY AND REPORT.—(1) The Secretary of Defense shall conduct a study of members of the Armed Forces and their families who subsist at, near, or below the poverty level. The study shall include the following:

(A) An analysis of potential solutions for ensuring that members of the Armed Forces and their families do not have to subsist at, near, or below the poverty level, including potential solutions involving changes in the system of allowances for members.

(B) Identification of the military populations most likely to need income support under Federal Government programs, including—

(i) the populations living in areas of the United States where housing costs are notably high;

- (ii) the populations living outside the United States;
and
(iii) the number of persons in each identified population.

(C) The desirability of increasing rates of basic pay and allowances for members over a defined period of years by a range of percentages that provides for higher percentage increases for lower ranking members than for higher ranking members.

(2) Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall submit to Congress a report containing the results of the study and such recommendations as the Secretary considers to be appropriate.

(b) IMPLEMENTATION OF DEPARTMENT OF DEFENSE SPECIAL SUPPLEMENTAL FOOD PROGRAM FOR PERSONNEL OUTSIDE THE UNITED STATES.—(1) Subsection (b) of section 1060a of title 10, United States Code, is amended to read as follows:

“(b) FEDERAL PAYMENTS AND COMMODITIES.—For the purpose of obtaining Federal payments and commodities in order to carry out the program referred to in subsection (a), the Secretary of Agriculture shall make available to the Secretary of Defense the same payments and commodities as are made for the special supplemental food program in the United States under section 17 of the Child Nutrition Act of 1966 (42 U.S.C. 1786). The Secretary of Defense may use funds available for the Department of Defense to carry out the program under subsection (a).”

(2) Not later than 90 days after the date of the enactment of this Act, the Secretary of Defense shall submit to Congress a report regarding the intentions of the Secretary regarding implementation of the program authorized under section 1060a of title 10, United States Code, including any plans to implement the program.

- (1) in subparagraph (A)—
- (A) by striking out “dies” and inserting in lieu thereof “died”; and
- (B) by striking out “or” at the end of the subparagraph;

- (2) by striking out the period at the end of subparagraph (B) and inserting in lieu thereof “; or”; and
- (3) by adding at the end the following new subparagraph:
 “(C) who died while on active duty for a period of more than 30 days and whose eligible dependents are not eligible, or no longer eligible, for dental benefits under section 1076a of this title pursuant to subsection (i)(2) of such section.”.

SEC. 702. PROVISION OF PROSTHETIC DEVICES TO COVERED BENEFICIARIES.

(a) **INCLUSION AMONG AUTHORIZED CARE.**—Subsection (a) of section 1077 of title 10, United States Code, is amended by adding at the end the following new paragraph:

“(15) Prosthetic devices, as determined by the Secretary of Defense to be necessary because of significant conditions resulting from trauma, congenital anomalies, or disease.”.

(b) **CONFORMING AMENDMENT.**—Subsection (b) of such section is amended by striking out paragraph (2) and inserting in lieu thereof the following new paragraph:

“(2) Hearing aids, orthopedic footwear, and spectacles, except that, outside of the United States and at stations inside the United States where adequate civilian facilities are unavailable, such items may be sold to dependents at cost to the United States.”.

SEC. 703. STUDY CONCERNING THE PROVISION OF COMPARATIVE INFORMATION.

(a) **STUDY.**—The Secretary of Defense shall conduct a study concerning the provision of the information described in subsection (b) to beneficiaries under the TRICARE program established under the authority of chapter 55 of title 10, United States Code, and prepare and submit to Congress a report concerning such study.

(b) **PROVISION OF COMPARATIVE INFORMATION.**—Information described in this subsection, with respect to a managed care entity that contracts with the Secretary of Defense to provide medical assistance under the program described in subsection (a), shall include the following:

- (1) The benefits covered by the entity involved, including—
 - (A) covered items and services beyond those provided under a traditional fee-for-service program;
 - (B) any beneficiary cost sharing; and
 - (C) any maximum limitations on out-of-pocket expenses.
- (2) The net monthly premium, if any, under the entity.
- (3) The service area of the entity.
- (4) To the extent available, quality and performance indicators for the benefits under the entity (and how they compare to such indicators under the traditional fee-for-service programs in the area involved), including—
 - (A) disenrollment rates for enrollees electing to receive benefits through the entity for the previous two years (excluding disenrollment due to death or moving outside the service area of the entity);
 - (B) information on enrollee satisfaction;
 - (C) information on health process and outcomes;

(D) grievance procedures;

(E) the extent to which an enrollee may select the health care provider of their choice, including health care providers within the network of the entity and out-of-network health care providers (if the entity covers out-of-network items and services); and

(F) an indication of enrollee exposure to balance billing and the restrictions on coverage of items and services provided to such enrollee by an out-of-network health care provider.

(5) Whether the entity offers optional supplemental benefits and the terms and conditions (including premiums) for such coverage.

(6) An overall summary description as to the method of compensation of participating physicians.

Subtitle B—Tricare Program

SEC. 711. ADDITION OF DEFINITION OF TRICARE PROGRAM TO TITLE 10.

Section 1072 of title 10, United States Code, is amended by adding at the end the following new paragraph:

“(7) The term ‘TRICARE program’ means the managed health care program that is established by the Department of Defense under the authority of this chapter, principally section 1097 of this title, and includes the competitive selection of contractors to financially underwrite the delivery of health care services under the Civilian Health and Medical Program of the Uniformed Services.”.

SEC. 712. PLAN FOR EXPANSION OF MANAGED CARE OPTION OF TRICARE PROGRAM.

(a) **PLAN FOR EXPANSION OF TRICARE PRIME.**—The Secretary of Defense shall prepare a plan for the expansion of the managed care option of the TRICARE Program, known as TRICARE Prime, into areas of the United States located outside of the catchment areas of medical treatment facilities of the uniformed services, but in which the managed care option is a cost-effective alternative because of—

(1) the significant number of members of the uniformed services and covered beneficiaries under chapter 55 of title 10, United States Code (including retired members of the Armed Forces and their dependents), who reside in the areas; and

(2) the presence in the areas of sufficient nonmilitary health care provider networks.

(b) **ALTERNATIVES.**—As an alternative to expansion of TRICARE Prime to areas of the United States in which there are few or no nonmilitary health care provider networks, the Secretary shall include in the plan required under subsection (a) an evaluation of the feasibility and cost-effectiveness of providing a member of the Armed Forces on active duty who is stationed in such an area, or whose dependents reside in such an area, with one or both of the following:

(1) A monetary stipend to assist the member in obtaining health care services for the member or the member's dependents.

(2) A reduction in the cost-sharing requirements applicable to the TRICARE program options otherwise available to the member to match the reduced cost-sharing responsibilities of the managed care option of the TRICARE program.

(c) *SUBMISSION OF PLAN.*—Not later than March 1, 1998, the Secretary shall submit to Congress the plan required under subsection (a).

Subtitle C—Uniformed Services Treatment Facilities

SEC. 721. IMPLEMENTATION OF DESIGNATED PROVIDER AGREEMENTS FOR UNIFORMED SERVICES TREATMENT FACILITIES.

(a) *COMMENCEMENT OF HEALTH CARE SERVICES UNDER AGREEMENT.*—Subsection (c) of section 722 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201, 10 U.S.C. 1073 note) is amended—

(1) by redesignating paragraphs (1) and (2) as subparagraphs (A) and (B);

(2) by inserting “(1)” before “Unless”; and

(3) by adding at the end the following new paragraph:

“(2) The Secretary may modify the effective date established under paragraph (1) for an agreement to permit a transition period of not more than six months between the date on which the agreement is executed by the parties and the date on which the designated provider commences the delivery of health care services under the agreement.”.

(b) *TEMPORARY CONTINUATION OF EXISTING PARTICIPATION AGREEMENTS.*—Subsection (d) of such section is amended by inserting before the period at the end the following: “, including any transitional period provided by the Secretary under paragraph (2) of such subsection”.

SEC. 722. CONTINUED ACQUISITION OF REDUCED-COST DRUGS.

Section 722 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201; 10 U.S.C. 1073 note) is amended by adding at the end the following new subsection:

“(g) *CONTINUED ACQUISITION OF REDUCED-COST DRUGS.*—A designated provider shall be treated as part of the Department of Defense for purposes of section 8126 of title 38, United States Code, in connection with the provision by the designated provider of health care services to covered beneficiaries pursuant to the participation agreement of the designated provider under section 718(c) of the National Defense Authorization Act for Fiscal Year 1991 (Public Law 101–510; 42 U.S.C. 248c note) or pursuant to the agreement entered into under subsection (b).”.

SEC. 723. LIMITATION ON TOTAL PAYMENTS.

Section 726(b) of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201; 10 U.S.C. 1073 note) is amended by adding at the end the following new sentence: “In establishing the ceiling rate for enrollees with the designated provid-

ers who are also eligible for the Civilian Health and Medical Program of the Uniformed Services, the Secretary of Defense shall take into account the health status of the enrollees.”.

Subtitle D—Other Changes to Existing Laws Regarding Health Care Management

SEC. 731. IMPROVEMENTS IN HEALTH CARE COVERAGE AND ACCESS FOR MEMBERS ASSIGNED TO CERTAIN DUTY LOCATIONS FAR FROM SOURCES OF CARE.

(a) SUPPLEMENTAL CARE PROGRAM.—(1) Section 1074(c) of title 10, United States Code, is amended—

(A) by inserting “(1)” after “(c)”; and

(B) by adding at the end the following new paragraphs:

“(2)(A) Subject to such exceptions as the Secretary of Defense considers necessary, coverage for medical care for members of the armed forces under this subsection, and standards with respect to timely access to such care, shall be comparable to coverage for medical care and standards for timely access to such care under the managed care option of the TRICARE program known as TRICARE Prime.

“(B) The Secretary of Defense shall enter into arrangements with contractors under the TRICARE program or with other appropriate contractors for the timely and efficient processing of claims under this subsection.

“(3)(A) The Secretary of Defense may not require a member of the armed forces described in subparagraph (B) to receive routine primary medical care at a military medical treatment facility.

“(B) A member referred to in subparagraph (A) is a member of the armed forces on active duty who is entitled to medical care under this subsection and who—

“(i) receives a duty assignment described in subparagraph (C); and

“(ii) pursuant to the assignment of such duty, resides at a location that is more than 50 miles, or approximately one hour of driving time, from the nearest military medical treatment facility adequate to provide the needed care.

“(C) A duty assignment referred to in subparagraph (B) means any of the following:

“(i) Permanent duty as a recruiter.

“(ii) Permanent duty at an educational institution to instruct, administer a program of instruction, or provide administrative services in support of a program of instruction for the Reserve Officers’ Training Corps.

“(iii) Permanent duty as a full-time adviser to a unit of a reserve component.

“(iv) Any other permanent duty designated by the Secretary concerned for purposes of this paragraph.”.

(2) The amendments made by paragraph (1) shall apply with respect to coverage of medical care for, and the provision of such care to, a member of the Armed Forces under section 1074(c) of title 10, United States Code, on and after the later of the following:

(A) April 1, 1998.

(B) *The date on which the TRICARE program is in place in the service area of the member.*

(b) *TEMPORARY AUTHORITY FOR MANAGED CARE EXPANSION TO MEMBERS ON ACTIVE DUTY AT CERTAIN REMOTE LOCATIONS.—(1) A member of the Armed Forces described in subsection (c) is entitled to receive care under the Civilian Health and Medical Program of the Uniformed Services. In connection with such care, the Secretary of Defense shall waive the obligation of the member to pay a deductible, copayment, or annual fee that would otherwise be applicable under that program for care provided to the members under the program.*

(2) *A member who is entitled under paragraph (1) to receive health care services under CHAMPUS shall receive such care from a network provider under the TRICARE program if such a provider is available in the service area of the member.*

(3) *Paragraph (1) shall take effect on the date of the enactment of this Act and shall expire with respect to a member upon the later of the following:*

(A) *The date that is one year after the date of the enactment of this Act.*

(B) *The date on which the amendments made by subsection (a) apply with respect to the coverage of medical care for, and provision of such care to, the member.*

(c) *ELIGIBLE MEMBERS.—A member referred to in subsection (b) is a member of the Armed Forces on active duty who—*

(1) *receives a duty assignment described in subsection (d); and*

(2) *pursuant to the assignment of such duty, resides at a location that is more than 50 miles, or approximately one hour of driving time, from—*

(A) *the nearest health care facility of the uniformed services adequate to provide the needed care under chapter 55 of title 10, United States Code; and*

(B) *the nearest source of the needed care that is available to the member under the TRICARE Prime plan.*

(d) *DUTY ASSIGNMENTS COVERED.—A duty assignment referred to in subsection (c)(1) means any of the following:*

(1) *Permanent duty as a recruiter.*

(2) *Permanent duty at an educational institution to instruct, administer a program of instruction, or provide administrative services in support of a program of instruction for the Reserve Officers' Training Corps.*

(3) *Permanent duty as a full-time adviser to a unit of a reserve component of the Armed Forces.*

(4) *Any other permanent duty designated by the Secretary concerned for purposes of this subsection.*

(e) *PAYMENT OF COSTS.—Deductibles, copayments, and annual fees not payable by a member by reason of a waiver granted under the regulations prescribed pursuant to subsection (b) shall be paid out of funds available to the Department of Defense for the Defense Health Program.*

(f) *DEFINITIONS.—In this section:*

(1) *The term "TRICARE program" has the meaning given that term in section 1072(7) of title 10, United States Code.*

(2) The term “TRICARE Prime plan” means a plan under the TRICARE program that provides for the voluntary enrollment of persons for the receipt of health care services to be furnished in a manner similar to the manner in which health care services are furnished by health maintenance organizations.

SEC. 732. WAIVER OR REDUCTION OF COPAYMENTS UNDER OVERSEAS DENTAL PROGRAM.

Section 1076a(h) of title 10, United States Code, is amended—

(1) in the first sentence, by striking out “Secretary” and inserting in lieu thereof “Secretary of Defense”; and

(2) by adding at the end the following new sentence: “In the case of such an overseas dental plan, the Secretary may waive or reduce the copayments otherwise required by subsection (e) to the extent the Secretary determines appropriate for the effective and efficient operation of the plan.”.

SEC. 733. PREMIUM COLLECTION REQUIREMENTS FOR MEDICAL AND DENTAL INSURANCE PROGRAMS; EXTENSION OF DEADLINE FOR IMPLEMENTATION OF DENTAL INSURANCE PROGRAM FOR MILITARY RETIREES.

(a) **PREMIUM COLLECTION FOR SELECTED RESERVE DENTAL INSURANCE.**—Paragraph (3) of section 1076b(b) of title 10, United States Code, is amended to read as follows:

“(3) The Secretary of Defense shall establish procedures for the collection of the member’s share of the premium for coverage by the dental insurance plan. To the maximum extent practicable, a member’s share shall be deducted and withheld from the basic pay payable to the member for inactive duty training or basic pay payable to the member for active duty (if pay is available to the member). Such share shall be used to pay the premium for coverage by the dental insurance plan.”.

(b) **PREMIUM COLLECTION FOR RETIREE DENTAL INSURANCE PLAN.**—Paragraph (2) of section 1076c(c) of such title is amended to read as follows:

“(2) The Secretary of Defense shall establish procedures for the collection of the premiums charged for coverage by the dental insurance plan. To the maximum extent practicable, the premiums payable by a member entitled to retired pay shall be deducted and withheld from the retired pay of the member (if pay is available to the member).”.

(c) **REPORT TO CONGRESS.**—Not later than March 1, 1998, the Secretary of Defense shall submit to Congress a report on the premium collection procedures established pursuant to paragraph (3) of section 1076b(b) of title 10, United States Code, and paragraph (2) of section 1076c(c) of such title. The report shall describe the extent to which premium collections are made under such paragraphs through deductions and withholding from pay.

(d) **LIMITATION ON IMPLEMENTATION OF ALTERNATIVE COLLECTION PROCEDURES.**—The Secretary of Defense may not implement procedures for collecting premiums under section 1076b(b)(3) of title 10, United States Code, or section 1076c(c)(2) of such title other than by deductions and withholding from pay until 120 days after the date that the Secretary submits a report to Congress describing the justifications for implementing such alternative procedures.

(e) **EXTENSION OF DEADLINE FOR IMPLEMENTATION OF DENTAL INSURANCE PLAN FOR MILITARY RETIREES.**—Section 703(b) of the *National Defense Authorization Act for Fiscal Year 1997* (Public Law 104–201; 110 Stat. 2590) is amended by striking “October 1, 1997” and inserting “April 1, 1998”.

SEC. 734. DENTAL INSURANCE PLAN COVERAGE FOR RETIREES OF THE PUBLIC HEALTH SERVICE AND NOAA.

(a) **ELIGIBILITY.**—(1) Subsection (a) of section 1076c of title 10, *United States Code*, is amended by striking out “military retirees” and inserting in lieu thereof “retirees of the uniformed services”.

(2) Subsection (b)(1) of such section is amended by striking out “Armed Forces” and inserting in lieu thereof “uniformed services”.

(b) **OFFICIALS RESPONSIBLE.**—(1) Subsection (a) of such section (as amended by subsection (a)) is further amended by inserting “, in consultation with the other administering Secretaries,” after “Secretary of Defense”.

(2) Subsection (h) of such section is amended by striking out “Secretary of Transportation” and inserting in lieu thereof “other administering Secretaries”.

SEC. 735. CONSISTENCY BETWEEN CHAMPUS AND MEDICARE IN PAYMENT RATES FOR SERVICES.

(a) **CONFORMITY BETWEEN RATES.**—Section 1079(h) of title 10, *United States Code*, is amended by striking out paragraphs (1), (2), and (3) and inserting in lieu thereof the following new paragraph:

“(1) Except as provided in paragraphs (2) and (3), payment for a charge for services by an individual health care professional (or other noninstitutional health care provider) for which a claim is submitted under a plan contracted for under subsection (a) shall be equal to an amount determined to be appropriate, to the extent practicable, in accordance with the same reimbursement rules as apply to payments for similar services under title XVIII of the *Social Security Act* (42 U.S.C. 1395 et seq.). The Secretary of Defense shall determine the appropriate payment amount under this paragraph in consultation with the other administering Secretaries.”.

(b) **REDUCED RATES AUTHORIZED.**—Paragraph (5) of such section is amended by adding at the end the following new sentence: “With the consent of the health care provider, the Secretary is also authorized to reduce the authorized payment for certain health care services below the amount otherwise required by the payment limitations under paragraph (1).”.

(c) **CONFORMING AMENDMENTS.**—Such section is further amended—

(1) in paragraph (5), by striking out “paragraph (4), the Secretary” and inserting in lieu thereof “paragraph (2), the Secretary of Defense”; and

(2) by redesignating paragraphs (4), (5), and (6) as paragraphs (2), (3), and (4), respectively.

SEC. 736. USE OF PERSONAL SERVICES CONTRACTS FOR PROVISION OF HEALTH CARE SERVICES AND LEGAL PROTECTION FOR PROVIDERS.

(a) **USE OF CONTRACTS OUTSIDE MEDICAL TREATMENT FACILITIES.**—Section 1091(a) of title 10, *United States Code*, is amended—

(1) by inserting “(1)” before “The Secretary of Defense”; and

(2) by adding at the end the following new paragraph:

“(2) *The Secretary of Defense, and the Secretary of Transportation with respect to the Coast Guard when it is not operating as a service in the Navy, may also enter into personal services contracts to carry out other health care responsibilities of the Secretary (such as the provision of medical screening examinations at Military Entrance Processing Stations) at locations outside medical treatment facilities, as determined necessary pursuant to regulations prescribed by the Secretary. The Secretary may not enter into a contract under this paragraph after the end of the one-year period beginning on the date of the enactment of this paragraph.*”

(b) **DEFENSE OF SUITS.**—Section 1089 of such title is amended—

(1) in subsection (a), by adding at the end the following new sentence: “*This subsection shall also apply if the physician, dentist, nurse, pharmacist, or paramedical or other supporting personnel (or the estate of such person) involved is serving under a personal services contract entered into under section 1091 of this title.*”; and

(2) in subsection (f)—

(A) by inserting “(1)” after “(f)”; and

(B) by adding at the end the following new paragraph:

“(2) *With respect to the Secretary of Defense and the Armed Forces Retirement Home Board, the authority provided by paragraph (1) also includes the authority to provide for reasonable attorney’s fees for persons described in subsection (a), as determined necessary pursuant to regulations prescribed by the head of the agency concerned.*”

(c) **REPORT.**—Not later than March 31, 1998, the Secretary of Defense shall submit to Congress a report on the feasible alternative means for performing the medical screening examinations that are routinely performed at Military Entrance Processing Stations. The report shall contain a discussion of the feasibility and cost of the use of—

(1) the TRICARE system for the performance of the examinations; and

(2) each other alternative identified in the report.

SEC. 737. PORTABILITY OF STATE LICENSES FOR DEPARTMENT OF DEFENSE HEALTH CARE PROFESSIONALS.

Section 1094 of title 10, United States Code, is amended—

(1) by redesignating subsection (d) as subsection (e); and

(2) by inserting after subsection (c) the following new subsection:

“(d)(1) *Notwithstanding any law regarding the licensure of health care providers, a health-care professional described in paragraph (2) may practice the health profession or professions of the health-care professional in any State, the District of Columbia, or a Commonwealth, territory, or possession of the United States, regardless of whether the practice occurs in a health care facility of the Department of Defense, a civilian facility affiliated with the Department of Defense, or any other location authorized by the Secretary of Defense.*

“(2) *A health-care professional referred to in paragraph (1) is a member of the armed forces who—*

“(A) has a current license to practice medicine, osteopathic medicine, dentistry, or another health profession; and
 “(B) is performing authorized duties for the Department of Defense.”

SEC. 738. STANDARD FORM AND REQUIREMENTS REGARDING CLAIMS FOR PAYMENT FOR SERVICES.

(a) **CLARIFICATION OF EXISTING REQUIREMENTS.**—Section 1106 of title 10, United States Code, is amended to read as follows:

“§ 1106. Submittal of claims: standard form; time limits

“(a) **STANDARD FORM.**—The Secretary of Defense, after consultation with the other administering Secretaries, shall prescribe by regulation a standard form for the submission of claims for the payment of health care services provided under this chapter.

“(b) **TIME FOR SUBMISSION.**—A claim for payment for services provided under this chapter shall be submitted as provided in such regulations not later than one year after the services are provided.”

(b) **CLERICAL AMENDMENT.**—The table of sections at the beginning of chapter 55 of title 10, United States Code, is amended by striking out the item relating to section 1106 and inserting in lieu thereof the following new item:

“1106. Submittal of claims: standard form; time limits.”

SEC. 739. CHIROPRACTIC HEALTH CARE DEMONSTRATION PROGRAM.

(a) **TWO-YEAR EXTENSION.**—Subsection (b) of section 731 of the National Defense Authorization Act for Fiscal Year 1995 (Public Law 103-337; 10 U.S.C. 1092 note) is amended by striking out “1997” and inserting in lieu thereof “1999”.

(b) **EXPANSION TO AT LEAST THREE ADDITIONAL TREATMENT FACILITIES.**—Subsection (a)(2)(A) of such section is amended by striking out “not less than 10” and inserting in lieu thereof “the National Naval Medical Center, the Walter Reed Army Medical Center, and not less than 11 other”.

(c) **REPORTS.**—Subsection (c) of such section is amended—

(1) by striking paragraph (3); and

(2) by adding at the end the following new paragraphs:

“(3) Not later than January 30, 1998, the Secretary of Defense shall submit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a report that identifies the additional treatment facilities designated to furnish chiropractic care under the program that were not so designated before the report required by paragraph (1) was prepared, together with the plan for the conduct of the program at the additional treatment facilities.

“(4) Not later than May 1, 1998, the Secretary of Defense shall modify the plan for evaluating the program submitted pursuant to paragraph (2) in order to provide for the evaluation of the program at all of the designated treatment facilities under the program, including the treatment facilities referred to in paragraph (3).

“(5) Not later than May 1, 2000, the Secretary shall submit to the committees referred to in paragraph (3) a final report in accordance with the plan submitted pursuant to paragraph (2).”

Subtitle E—Other Matters

SEC. 741. CONTINUED ADMISSION OF CIVILIANS AS STUDENTS IN PHYSICIAN ASSISTANT TRAINING PROGRAM OF ARMY MEDICAL DEPARTMENT.

(a) *CIVILIAN ATTENDANCE.*—(1) Chapter 407 of title 10, United States Code, is amended by adding at the end the following new section:

“§ 4416. Academy of Health Sciences: admission of civilians in physician assistant training program

“(a) *IN GENERAL.*—The Secretary of the Army may, pursuant to an agreement entered into with an accredited institution of higher education—

“(1) permit students of the institution to attend the didactic portion of the physician assistant training program conducted by the Army Medical Department at the Academy of Health Sciences at Fort Sam Houston, Texas; and

“(2) accept from the institution academic services to support the physician assistant training program at the Academy.

“(b) *AGREEMENT FOR EXCHANGE OF SERVICES.*—An agreement entered into with an institution of higher education under this section shall require the institution, in exchange for services provided under paragraph (1) of subsection (a), to provide academic services described in paragraph (2) of such subsection that the Secretary and authorized representatives of the institution consider appropriate.

“(c) *SELECTION OF STUDENTS.*—In consultation with the authorized representatives of the institution of higher education concerned, the Secretary shall prescribe the qualifications and methods of selection for students of the institution to receive instruction at the Academy under this section. The qualifications shall be comparable to those generally required for admission to the physician assistant training program at the Academy.

“(d) *RULES OF ATTENDANCE.*—Except as the Secretary determines necessary, a student who receives instruction at the Academy under this section shall be subject to the same regulations governing attendance, discipline, discharge, and dismissal as apply to other persons attending the Academy.

“(e) *LIMITATIONS.*—The Secretary shall ensure the following:

“(1) That the Army Medical Department, in carrying out an agreement under this section, does not incur costs in excess of the costs that the department would incur to obtain, by means other than the agreement, academic services that are comparable to those provided by the institution pursuant to the agreement.

“(2) That attendance of civilian students at the Academy under this section does not cause a decrease in the number of members of the armed forces enrolled in the physician assistant training program at the Academy.

“(f) *ANNUAL REPORT.*—(1) Each year, the Secretary shall submit to Congress a report on the exchange of services under this section during the year. The report shall contain the following:

“(A) The number of civilian students who receive instruction at the Academy under this section.

“(B) An assessment of the benefits derived by the United States.

“(2) Reports are required under paragraph (1) only for years during which an agreement is in effect under this section.”.

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

“4416. Academy of Health Sciences: admission of civilians in physician assistant training program.”.

(b) *EFFECT ON EXISTING DEMONSTRATION PROGRAM.*—An agreement entered into under the demonstration program for the admission of civilians as physician assistant students at the Academy of Health Sciences, Fort Sam Houston, Texas, established pursuant to section 732 of the National Defense Authorization Act for Fiscal Year 1995 (Public Law 103-337; 108 Stat. 2810) shall be treated as an agreement entered into under section 4416 of title 10, United States Code (as added by subsection (a)). The agreement may be extended in such manner and for such period as the parties to the agreement consider appropriate consistent with section 4416.

SEC. 742. PAYMENT FOR EMERGENCY HEALTH CARE OVERSEAS FOR MILITARY AND CIVILIAN PERSONNEL OF THE ON-SITE INSPECTION AGENCY.

(a) *PAYMENT OF COSTS.*—The Secretary of Defense may pay the costs of any emergency health care that—

(1) is needed by a member of the Armed Forces, civilian employee of the Department of Defense, or civilian employee of a contractor operating under a contract with the Department of Defense while the member or employee is performing temporary or permanent duty with the On-Site Inspection Agency outside the United States; and

(2) is furnished to such person during fiscal year 1998 by a source outside the United States.

(b) *FUNDING.*—Funds authorized to be appropriated for the expenses of the On-Site Inspection Agency for fiscal year 1998 by this Act shall be available to cover payments for emergency health care provided under subsection (a).

SEC. 743. AUTHORITY FOR AGREEMENT FOR USE OF MEDICAL RESOURCE FACILITY, ALAMOGORDO, NEW MEXICO.

(a) *AUTHORITY.*—(1) The Secretary of the Air Force may enter into an agreement with Gerald Champion Hospital, Alamogordo, New Mexico, under which the Secretary may furnish health care services to eligible individuals in a medical resource facility in Alamogordo, New Mexico, that is constructed and equipped, in part, using funds provided by the Secretary under the agreement.

(2) For purposes of this section:

(A) The term “eligible individual” means any individual eligible for medical and dental care under chapter 55 of title 10, United States Code, including any member of the uniformed services entitled to such care under section 1074(a) of that title.

(B) The terms “medical resource facility” and “facility” mean the medical resource facility to be constructed and equipped pursuant to the agreement authorized by paragraph (1).

(C) The term "Hospital" means Gerald Champion Hospital, Alamogordo, New Mexico.

(b) *CONTENT OF AGREEMENT.*—Any agreement entered into under subsection (a) shall specify, at a minimum, the following:

(1) The relationship between the Hospital and the Secretary of the Air Force in the provision of health care services to eligible individuals in the medical resource facility, including—

(A) whether or not the Secretary and the Hospital are to use and administer the facility jointly or independently; and

(B) under what circumstances the Hospital is to act as a provider of health care services under the managed care option of the TRICARE program known as TRICARE Prime.

(2) Matters relating to the administration of the agreement, including—

(A) the duration of the agreement;

(B) the rights and obligations of the Secretary and the Hospital under the agreement, including any contracting or grievance procedures applicable under the agreement;

(C) the types of care to be provided to eligible individuals under the agreement, including the cost to the Department of the Air Force of providing the care to eligible individuals during the term of the agreement;

(D) the access of Air Force medical personnel to the facility under the agreement;

(E) the rights and responsibilities of the Secretary and the Hospital upon termination of the agreement; and

(F) any other matters jointly identified by the Secretary and the Hospital.

(3) The nature of the arrangement between the Secretary and the Hospital with respect to the ownership of the facility and any property under the agreement, including—

(A) the nature of that arrangement while the agreement is in force;

(B) the nature of that arrangement upon termination of the agreement; and

(C) any requirement for reimbursement of the Secretary by the Hospital as a result of the arrangement upon termination of the agreement.

(4) The amount of the funds made available under subsection (c) that the Secretary will contribute for the construction and equipping of the facility.

(5) Any conditions or restrictions relating to the construction, equipping, or use of the facility.

(c) *AVAILABILITY OF FUNDS FOR CONSTRUCTION AND EQUIPPING OF FACILITY.*—(1) Of the amount authorized to be appropriated pursuant to section 301(4) for operation and maintenance for the Air Force, not more than \$7,000,000 may be used by the Secretary of the Air Force to make a contribution toward the construction and equipping of the medical resource facility in the event that the Secretary enters into the agreement authorized by subsection (a). Notwithstanding any other provision of law, the Secretary may not use other

sources of funds to make a contribution toward the construction or equipping of the facility.

(2) Notwithstanding subsection (b)(3) regarding the ownership and reimbursement issues to be addressed in the agreement authorized by subsection (a), the Secretary may not contribute funds made available under paragraph (1) toward the construction and equipping of the facility unless the agreement requires, in exchange for the contribution, that the Hospital provide health care services to eligible individuals without charge to the Secretary or at a reduced rate. The value of the services provided by the Hospital shall be at least equal to the amount of the contribution made by the Secretary, and the Hospital shall complete the provision of services equal in value to the Secretary's contribution within seven years after the facility becomes operational. The provision of additional discounted services to be provided by the Hospital shall be included in the agreement. The value and types of services to be provided by the Hospital shall be negotiated in accordance with principles of resource-sharing agreements under the TRICARE program.

(d) NOTICE AND WAIT.—The Secretary of the Air Force may not enter into the agreement authorized by subsection (a) until 90 days after the Secretary of Defense submits to the congressional defense committees the report required by subsection (e).

(e) REPORT ON PROPOSED AGREEMENT.—The Secretary of Defense shall submit to Congress a report containing an analysis of, and recommendations regarding, the agreement proposed to be entered into under subsection (a), in particular, the implications of the agreement on regional health care costs and its effect on implementation of the TRICARE program in the region. The report shall also include a copy of the agreement, the results of a cost-benefit analysis conducted by the Secretary of the Air Force with respect to the agreement, and such other information with respect to the agreement as the Secretary of Defense and the Secretary of the Air Force considers appropriate. The cost-benefit analysis shall consider the effects of the agreement on operation and maintenance and military construction requirements at Holloman Air Force Base, New Mexico.

(f) SUBSEQUENT REPORTS.—If the Secretary of the Air Force enters into the agreement authorized by subsection (a), the Secretary shall submit to Congress an annual report containing a revised cost-benefit analysis of the consequences of the agreement as in effect during the year covered by the report, including a full accounting of any cost savings realized by the Department of the Air Force as a result of the agreement. A report shall be submitted for each year in which the agreement is in effect or until the Hospital provides the full value of health care services required under subsection (c)(2), whichever occurs first.

SEC. 744. DISCLOSURES OF CAUTIONARY INFORMATION ON PRESCRIPTION MEDICATIONS.

(a) REGULATIONS REQUIRED.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense, in consultation with the administering Secretaries referred to in section 1073 of title 10, United States Code, shall prescribe regulations to require each source described in subsection (d) that dispenses a prescription medication to a beneficiary under chapter 55 of such title

to include with the medication the written cautionary information required by subsection (b).

(b) *INFORMATION TO BE DISCLOSED.*—Information required to be disclosed about a medication under the regulations shall include appropriate cautions about usage of the medication, including possible side effects and potentially hazardous interactions with foods.

(c) *FORM OF INFORMATION.*—The regulations shall require that information be furnished in a form that, to the maximum extent practicable, is easily read and understood.

(d) *COVERED SOURCES.*—The regulations shall apply to the following:

(1) Pharmacies and any other dispensers of prescription medications in medical facilities of the uniformed services.

(2) Sources of prescription medications under any mail order pharmaceuticals program provided by any of the administering Secretaries under chapter 55 of title 10, United States Code.

(3) Pharmacies paid under the Civilian Health and Medical Program of the Uniformed Services (including the TRICARE program).

(4) Pharmacies, and any other pharmaceutical dispensers, of designated providers referred to in section 721(5) of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201; 110 Stat. 2593; 10 U.S.C. 1073 note).

SEC. 745. COMPETITIVE PROCUREMENT OF CERTAIN OPHTHALMIC SERVICES.

(a) *COMPETITIVE PROCUREMENT REQUIRED.*—Beginning not later than October 1, 1998, the Secretary of Defense shall competitively procure from private-sector sources, or other sources outside of the Department of Defense, all ophthalmic services related to the provision of single vision and multivision eyewear for members of the Armed Forces, retired members, and certain covered beneficiaries under chapter 55 of title 10, United States Code, who would otherwise receive such ophthalmic services through the Department of Defense.

(b) *EXCEPTION.*—Subsection (a) shall not apply to the extent that the Secretary of Defense determines that the use of sources within the Department of Defense to provide such ophthalmic services—

(1) is necessary to meet the readiness requirements of the Armed Forces; or

(2) is more cost effective.

(c) *COMPLETION OF EXISTING ORDERS.*—Subsection (a) shall not apply to orders for ophthalmic services received on or before September 30, 1998.

SEC. 746. COMPTROLLER GENERAL STUDY OF ADEQUACY AND EFFECT OF MAXIMUM ALLOWABLE CHARGES FOR PHYSICIANS UNDER CHAMPUS.

(a) *STUDY REQUIRED.*—The Comptroller General shall conduct a study regarding the adequacy of the maximum allowable charges for physicians established under the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) and the effect of such charges on the participation of physicians in CHAMPUS. The study shall include an evaluation of the following:

(1) *The methodology used by the Secretary of Defense to establish maximum allowable charges for physicians under CHAMPUS, and whether such methodology conforms to the requirements of section 1079(h) of title 10, United States Code.*

(2) *The differences between the established charges under CHAMPUS and reimbursement rates for similar services under title XVIII of the Social Security Act and other health care programs.*

(3) *The basis for physician complaints that the CHAMPUS established charges are too low.*

(4) *The difficulty of CHAMPUS in ensuring physician compliance with the CHAMPUS established charges in the absence of legal mechanisms to enforce compliance, and the effect of noncompliance on patient out-of-pocket expenses.*

(5) *The effect of the established charges under CHAMPUS on the participation of physicians in CHAMPUS, and the extent and success of Department of Defense efforts to increase physician participation in areas with low participation rates.*

(b) **SUBMISSION OF REPORT.**—Not later than March 1, 1998, the Comptroller General shall submit to Congress a report containing the results of the study required by subsection (a).

SEC. 747. COMPTROLLER GENERAL STUDY OF DEPARTMENT OF DEFENSE PHARMACY PROGRAMS.

(a) **STUDY.**—Not later than March 31, 1998, the Comptroller General shall submit to Congress a study evaluating the pharmacy programs of the Department of Defense. The study shall examine the impact of such pharmacy programs on the aggregate cost, quality, and accessibility of health care provided to covered beneficiaries under chapter 55 of title 10, United States Code, and shall include an examination of the following:

(1) *The merits and feasibility of establishing a uniform formulary for military treatment facility pharmacies and civilian contractor pharmacy benefit administrators.*

(2) *The reasons that military treatment facilities deny covered beneficiaries access to pharmacy care and shift such beneficiaries to other sources of pharmacy care.*

(3) *The merits and feasibility of using private sector cost control mechanisms implemented by authorized civilian contractors in the Department of Defense medical programs, and the existence of any barriers to the use of such mechanisms, including factors that may undermine the incentives of such contractors to optimize treatment outcomes in managing the care of covered beneficiaries without exceeding budgeted resources.*

(4) *The cost impacts, if any, of the use of commercial managed care methods of furnishing pharmaceuticals to covered beneficiaries by TRICARE program contractors instead of procuring pharmaceuticals at discounted prices pursuant to section 8126 of title 38, United States Code.*

(5) *The existence of options for increasing the discounts available to TRICARE program contractors without undermining controls for preventing diversion of items procured by the Department of Defense to nonmilitary populations.*

(b) **RESPONSE TO STUDY.**—Not later than 90 days after the Comptroller General submits to Congress the study required by sub-

section (a), the Secretary of Defense shall submit to Congress a report on the feasibility and advisability of implementing changes to the pharmacy programs of the Department of Defense based on the findings and conclusions of the study.

SEC. 748. COMPTROLLER GENERAL STUDY OF NAVY GRADUATE MEDICAL EDUCATION PROGRAM.

(a) *STUDY REQUIRED.*—The Comptroller General shall conduct a study to evaluate the validity of the recommendations made by the Medical Education Policy Council of the Bureau of Medicine and Surgery of the Navy regarding restructuring the graduate medical education program of the Department of the Navy. The study shall specifically address the Council's recommendations relating to residency training conducted at Naval Medical Center, Portsmouth, Virginia, and National Naval Medical Center, Bethesda, Maryland.

(b) *SUBMISSION OF REPORT.*—Not later than March 1, 1998, the Comptroller General shall submit to Congress and the Secretary of the Navy a report containing the results of the study required by subsection (a).

(c) *MORATORIUM ON RESTRUCTURING.*—Until the report required by subsection (b) is submitted to Congress, the Secretary of the Navy may not make any change in the types of residency programs conducted under the Navy graduate medical education program or the locations at which such residency programs are conducted or otherwise restructure the Navy graduate medical education program.

SEC. 749. STUDY OF EXPANSION OF PHARMACEUTICALS BY MAIL PROGRAM TO INCLUDE ADDITIONAL MEDICARE-ELIGIBLE COVERED BENEFICIARIES.

Not later than six months after the date of the enactment of this Act, the Secretary of Defense shall submit to Congress a report regarding the feasibility and advisability of expanding the category of persons eligible to participate in the demonstration project for the purchase of prescription pharmaceuticals by mail, as required by section 702(a) of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102-484; 10 U.S.C. 1079 note), to include persons referred to in subsection (c) of section 1086 of title 10, United States Code, who are covered by subsection (d)(1) of such section and reside in the United States outside of the catchment area of a medical treatment facility of the uniformed services.

SEC. 750. COMPTROLLER GENERAL STUDY OF REQUIREMENT FOR MILITARY MEDICAL FACILITIES IN NATIONAL CAPITAL REGION.

(a) *STUDY REQUIRED.*—The Comptroller General shall conduct a study to evaluate the requirements for Army, Navy, and Air Force medical facilities in the National Capital Region (as defined in section 2674(f)(2) of title 10, United States Code). The study shall—

(1) specifically address requirements with respect to geography, facilities, integrated residencies, and medical environments; and

(2) provide specific recommendations with respect to how medical and health care provided by these facilities may be better coordinated to more efficiently serve, throughout the National Capital Region, members of the Armed Forces on active

duty and covered beneficiaries under chapter 55 of title 10, United States Code.

(b) SUBMISSION OF REPORT.—Not later than six months after the date of the enactment of this Act, the Comptroller General shall submit to Congress and the Secretary of Defense a report containing the results of the study required by subsection (a).

SEC. 751. REPORT ON POLICIES AND PROGRAMS TO PROMOTE HEALTHY LIFESTYLES FOR MEMBERS OF THE ARMED FORCES AND THEIR DEPENDENTS.

(a) REPORT.—Not later than March 30, 1998, the Secretary of Defense shall submit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a report on the effectiveness of the policies and programs of the Department of Defense intended to promote healthy lifestyles for members of the Armed Forces and their dependents.

(b) POLICIES AND PROGRAMS TO BE ASSESSED.—The report under subsection (a) shall include an assessment of the effectiveness of the following:

(1) Programs intended to educate members of the Armed Forces and their dependents about the potential health consequences of the use of alcohol and tobacco.

(2) Policies of the commissaries, post exchanges, and service clubs, and for entertainment activities of the Department of Defense, relating to the sale and use of alcohol and tobacco.

(3) Programs intended to provide support to members of the Armed Forces and their dependents who choose to reduce or eliminate their use of alcohol or tobacco.

(4) Any other policies or programs intended to promote healthy lifestyles for members of the Armed Forces and their dependents.

SEC. 752. SENSE OF CONGRESS REGARDING QUALITY HEALTH CARE FOR RETIREES.

(a) FINDINGS.—Congress makes the following findings:

(1) Many retired military personnel believe that they were promised lifetime health care in exchange for 20 or more years of service.

(2) Military retirees are the only Federal Government personnel who have been prevented from using their employer-provided health care at or after 65 years of age.

(3) Military health care has become increasingly difficult to obtain for military retirees as the Department of Defense reduces its health care infrastructure.

(4) Military retirees deserve to have a health care program that is at least comparable with that of retirees from civilian employment by the Federal Government.

(5) The availability of quality, lifetime health care is a critical recruiting incentive for the Armed Forces.

(6) Quality health care is a critical aspect of the quality of life of the men and women serving in the Armed Forces.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the United States has incurred a moral obligation to provide health care to members and former members of the Armed Forces who are entitled to retired or retainer pay (or its equivalent);

(2) it is, therefore, necessary to provide quality, affordable health care to such retirees; and

(3) Congress and the President should take steps to address the problems associated with the availability of health care for such retirees within two years after the date of the enactment of this Act.

Subtitle F—Persian Gulf Illness

SEC. 761. DEFINITIONS.

For purposes of this subtitle:

(1) The term “Gulf War illness” means any one of the complex of illnesses and symptoms that might have been contracted by members of the Armed Forces as a result of service in the Southwest Asia theater of operations during the Persian Gulf War.

(2) The term “Persian Gulf War” has the meaning given that term in section 101 of title 38, United States Code.

(3) The term “Persian Gulf veteran” means an individual who served on active duty in the Armed Forces in the Southwest Asia theater of operations during the Persian Gulf War.

(4) The term “contingency operation” has the meaning given that term in section 101(a) of title 10, United States Code, and includes a humanitarian operation, peacekeeping operation, or similar operation.

SEC. 762. PLAN FOR HEALTH CARE SERVICES FOR PERSIAN GULF VETERANS.

(a) **PLAN REQUIRED.**—The Secretary of Defense and the Secretary of Veterans Affairs, acting jointly, shall prepare a plan to provide appropriate health care to Persian Gulf veterans (and dependents eligible by law) who suffer from a Gulf War illness.

(b) **CONTENTS OF PLAN.**—In preparing the plan, the Secretaries shall—

(1) use the presumptions of service connection and illness specified in paragraphs (1) and (2) of section 721(d) of the National Defense Authorization Act for Fiscal Year 1995 (Public Law 103–337; 10 U.S.C. 1074 note) to determine the Persian Gulf veterans (and dependents eligible by law) who should be covered by the plan;

(2) consider the need and methods available to provide health care services to Persian Gulf veterans who are no longer on active duty in the Armed Forces, such as Persian Gulf veterans who are members of the reserve components and Persian Gulf veterans who have been separated from the Armed Forces; and

(3) estimate the costs to the Government of providing full or partial health care services under the plan to covered Persian Gulf veterans (and covered dependents eligible by law).

(c) **FOLLOW-UP TREATMENT.**—The plan required by subsection (a) shall specifically address the measures to be used to monitor the quality, appropriateness, and effectiveness of, and patient satisfaction with, health care services provided to Persian Gulf veterans after their initial medical examination as part of registration in the

Persian Gulf War Veterans Health Registry or the Comprehensive Clinical Evaluation Program.

(d) *SUBMISSION OF PLAN.*—Not later than March 1, 1998, the Secretaries shall submit to Congress the plan required by subsection (a).

SEC. 763. COMPTROLLER GENERAL STUDY OF REVISED DISABILITY CRITERIA FOR PHYSICAL EVALUATION BOARDS.

Not later than March 1, 1998, the Comptroller General shall submit to Congress a study evaluating the revisions made by the Secretary of Defense (as required by section 721(e) of the National Defense Authorization Act for Fiscal Year 1995 (Public Law 103-337; 10 U.S.C. 1074 note)) to the Physical Evaluation Board criteria used to set disability ratings for members of the Armed Forces who are no longer medically qualified for continuation on active duty so as to ensure accurate disability ratings related to a diagnosis of a Gulf War illness.

SEC. 764. MEDICAL CARE FOR CERTAIN RESERVES WHO SERVED IN SOUTHWEST ASIA DURING THE PERSIAN GULF WAR.

(a) *IN GENERAL.*—Chapter 55 of title 10, United States Code, is amended by inserting after section 1074d the following new section:

“§ 1074e. Medical care: certain Reserves who served in Southwest Asia during the Persian Gulf Conflict

“(a) *ENTITLEMENT TO MEDICAL CARE.*—A member of the armed forces described in subsection (b) is entitled to medical care for a qualifying Persian Gulf symptom or illness to the same extent and under the same conditions (other than the requirement that the member be on active duty) as a member of a uniformed service who is entitled to such care under section 1074(a) of this title.

“(b) *COVERED MEMBERS.*—Subsection (a) applies to a member of a reserve component who—

- “(1) is a Persian Gulf veteran;
- “(2) has a qualifying Persian Gulf symptom or illness; and
- “(3) is not otherwise entitled to medical care for such symptom or illness under this chapter and is not otherwise eligible for hospital care and medical services for such symptom or illness under section 1710 of title 38.

“(c) *DEFINITIONS.*—In this section:

“(1) The term ‘Persian Gulf veteran’ means a member of the armed forces who served on active duty in the Southwest Asia theater of operations during the Persian Gulf Conflict.

“(2) The term ‘qualifying Persian Gulf symptom or illness’ means, with respect to a member described in subsection (b), a symptom or illness—

“(A) that the member registered before September 1, 1997, in the Comprehensive Clinical Evaluation Program of the Department of Defense and that is presumed under section 721(d) of the National Defense Authorization Act for Fiscal Year 1995 (10 U.S.C. 1074 note) to be a result of service in the Southwest Asia theater of operations during the Persian Gulf Conflict; or

“(B) that the member registered before September 1, 1997, in the Persian Gulf War Veterans Health Registry maintained by the Department of Veterans Affairs pursuant

to section 702 of the Persian Gulf War Veterans' Health Status Act (38 U.S.C. 527 note).”.

(b) **CLERICAL AMENDMENT.**—The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 1074d the following new item:

“1074e. Medical care: certain Reserves who served in Southwest Asia during the Persian Gulf Conflict.”.

SEC. 765. IMPROVED MEDICAL TRACKING SYSTEM FOR MEMBERS DEPLOYED OVERSEAS IN CONTINGENCY OR COMBAT OPERATIONS.

(a) **SYSTEM REQUIRED.**—(1) Chapter 55 of title 10, United States Code, is amended by inserting after section 1074e (as added by section 764) the following new section:

“§ 1074f. Medical tracking system for members deployed overseas

“(a) **SYSTEM REQUIRED.**—The Secretary of Defense shall establish a system to assess the medical condition of members of the armed forces (including members of the reserve components) who are deployed outside the United States or its territories or possessions as part of a contingency operation (including a humanitarian operation, peacekeeping operation, or similar operation) or combat operation.

“(b) **ELEMENTS OF SYSTEM.**—The system described in subsection (a) shall include the use of predeployment medical examinations and postdeployment medical examinations (including an assessment of mental health and the drawing of blood samples) to accurately record the medical condition of members before their deployment and any changes in their medical condition during the course of their deployment. The postdeployment examination shall be conducted when the member is redeployed or otherwise leaves an area in which the system is in operation (or as soon as possible thereafter).

“(c) **RECORDKEEPING.**—The results of all medical examinations conducted under the system, records of all health care services (including immunizations) received by members described in subsection (a) in anticipation of their deployment or during the course of their deployment, and records of events occurring in the deployment area that may affect the health of such members shall be retained and maintained in a centralized location to improve future access to the records.

“(d) **QUALITY ASSURANCE.**—The Secretary of Defense shall establish a quality assurance program to evaluate the success of the system in ensuring that members described in subsection (a) receive predeployment medical examinations and postdeployment medical examinations and that the recordkeeping requirements with respect to the system are met.”.

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 1074e (as added by section 764) the following new item:

“1074f. Medical tracking system for members deployed overseas.”.

(b) **REPORT.**—Not later than March 1, 1998, the Secretary of Defense shall submit to Congress an analysis of the administrative

implications of establishing and administering the medical tracking system required by section 1074f of title 10, United States Code, as added by subsection (a). The report shall include, for fiscal year 1999 and the 5 successive fiscal years, a separate analysis and specification of the projected costs and operational considerations for each of the following required aspects of the system:

- (1) Predeployment medical examinations.*
- (2) Postdeployment medical examinations.*
- (3) Recordkeeping.*

SEC. 766. NOTICE OF USE OF INVESTIGATIONAL NEW DRUGS OR DRUGS UNAPPROVED FOR THEIR APPLIED USE.

(a) NOTICE REQUIREMENTS.—Chapter 55 of title 10, United States Code, is amended by adding at the end the following new section:

“§ 1107. Notice of use of an investigational new drug or a drug unapproved for its applied use

“(a) NOTICE REQUIRED.—(1) Whenever the Secretary of Defense requests or requires a member of the armed forces to receive an investigational new drug or a drug unapproved for its applied use, the Secretary shall provide the member with notice containing the information specified in subsection (d).

“(2) The Secretary shall also ensure that health care providers who administer an investigational new drug or a drug unapproved for its applied use, or who are likely to treat members who receive such a drug, receive the information required to be provided under paragraphs (3) and (4) of subsection (d).

“(b) TIME OF NOTICE.—The notice required to be provided to a member under subsection (a)(1) shall be provided before the investigational new drug or drug unapproved for its applied use is first administered to the member, if practicable, but in no case later than 30 days after the drug is first administered to the member.

“(c) FORM OF NOTICE.—The notice required under subsection (a)(1) shall be provided in writing unless the Secretary of Defense determines that the use of written notice is impractical because of the number of members receiving the investigational new drug or drug unapproved for its applied use, time constraints, or similar reasons. If the Secretary provides notice under subsection (a)(1) in a form other than in writing, the Secretary shall submit to Congress a report describing the notification method used and the reasons for the use of the alternative method.

“(d) CONTENT OF NOTICE.—The notice required under subsection (a)(1) shall include the following:

“(1) Clear notice that the drug being administered is an investigational new drug or a drug unapproved for its applied use.

“(2) The reasons why the investigational new drug or drug unapproved for its applied use is being administered.

“(3) Information regarding the possible side effects of the investigational new drug or drug unapproved for its applied use, including any known side effects possible as a result of the interaction of such drug with other drugs or treatments being administered to the members receiving such drug.

“(4) Such other information that, as a condition of authorizing the use of the investigational new drug or drug unapproved for its applied use, the Secretary of Health and Human Services may require to be disclosed.

“(e) RECORDS OF USE.—The Secretary of Defense shall ensure that the medical records of members accurately document—

“(1) the receipt by members of any investigational new drug or drug unapproved for its applied use; and

“(2) the notice required by subsection (a)(1).

“(f) DEFINITIONS.—In this section:

“(1) The term ‘investigational new drug’ means a drug covered by section 505(i) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(i)).

“(2) The term ‘drug unapproved for its applied use’ means a drug administered for a use not described in the approved labeling of the drug under section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355).”.

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

“1107. Notice of use of an investigational new drug or a drug unapproved for its applied use.”.

SEC. 767. REPORT ON PLANS TO TRACK LOCATION OF MEMBERS IN A THEATER OF OPERATIONS.

Not later than March 1, 1998, the Secretary of Defense shall submit to Congress a report containing a plan for collecting and maintaining information regarding the daily location of units of the Armed Forces, and to the extent practicable individual members of such units, serving in a theater of operations during a contingency operation or combat operation.

SEC. 768. SENSE OF CONGRESS REGARDING THE DEPLOYMENT OF SPECIALIZED UNITS FOR DETECTING AND MONITORING CHEMICAL, BIOLOGICAL, AND SIMILAR HAZARDS IN A THEATER OF OPERATIONS.

It is the sense of Congress that the Secretary of Defense, in conjunction with the Chairman of the Joint Chiefs of Staff, should take such actions as are necessary to ensure that the units of the Armed Forces deployed in the theater of operations for each contingency operation or combat operation include specialized units with sufficient capability (including personnel with the appropriate training and expertise, and the appropriate equipment) to detect and monitor the presence of chemical, biological, and similar hazards to which members of the Armed Forces could be exposed in that theater during the operation.

SEC. 769. REPORT ON EFFECTIVENESS OF RESEARCH EFFORTS REGARDING GULF WAR ILLNESSES.

Not later than March 1, 1998, the Secretary of Defense shall submit to Congress a report evaluating the effectiveness of medical research initiatives regarding Gulf War illnesses. The report shall address the following:

(1) The type and effectiveness of previous research efforts, including the activities undertaken pursuant to section 743 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 10 U.S.C. 1074 note), section 722 of the

National Defense Authorization Act for Fiscal Year 1995 (Public Law 103-337; 10 U.S.C. 1074 note), and sections 270 and 271 of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103-160; 107 Stat. 1613).

(2) Recommendations regarding additional research regarding Gulf War illnesses, including research regarding the nature and causes of Gulf War illnesses and appropriate treatments for such illnesses.

(3) The adequacy of Federal funding and the need for additional funding for medical research initiatives regarding Gulf War illnesses.

SEC. 770. PERSIAN GULF ILLNESS CLINICAL TRIALS PROGRAM.

(a) FINDINGS.—Congress finds the following:

(1) There are many ongoing studies that investigate risk factors which may be associated with the health problems experienced by Persian Gulf veterans; however, there have been no studies that examine health outcomes and the effectiveness of the treatment received by such veterans.

(2) The medical literature and testimony presented in hearings on Gulf War illnesses indicate that there are therapies, such as cognitive behavioral therapy, that have been effective in treating patients with symptoms similar to those seen in many Persian Gulf veterans.

(b) ESTABLISHMENT OF PROGRAM.—The Secretary of Defense and the Secretary of Veterans Affairs, acting jointly, shall establish a program of cooperative clinical trials at multiple sites to assess the effectiveness of protocols for treating Persian Gulf veterans who suffer from ill-defined or undiagnosed conditions. Such protocols shall include a multidisciplinary treatment model, of which cognitive behavioral therapy is a component.

(c) FUNDING.—Of the funds authorized to be appropriated in section 201(1) for research, development, test, and evaluation for the Army, the sum of \$4,500,000 shall be available for program element 62787A (medical technology) in the budget of the Department of Defense for fiscal year 1998 to carry out the clinical trials program established pursuant to subsection (b).

SEC. 771. SENSE OF CONGRESS CONCERNING GULF WAR ILLNESS.

(a) FINDINGS.—Congress makes the following findings:

(1) Americans served in the Persian Gulf Conflict of 1991 in defense of vital national security interests of the United States.

(2) It was known to United States intelligence and military commanders that biological and chemical agents were in theater throughout the conflict.

(3) An undetermined amount of these agents were released into theater.

(4) A large number of United States military veterans and allied veterans who served in the Southwest Asia theater of operations have been stricken with a variety of severe illnesses.

(5) Previous efforts to discern the causes of those illnesses have been inadequate, and those illnesses are affecting the health of both veterans and their families.

(b) *SENSE OF CONGRESS.*—It is the sense of Congress that all promising technology and treatments relating to Gulf War illnesses should be fully explored and tested to facilitate treatment for members of the Armed Forces and veterans who served the United States in the Persian Gulf conflict and are stricken with unexplainable illness.

Subtitle A—Amendments to General Contracting Authorities, Procedures, and Limitations

SEC. 801. EXPANSION OF AUTHORITY TO ENTER INTO CONTRACTS CROSSING FISCAL YEARS TO ALL SEVERABLE SERVICE CONTRACTS NOT EXCEEDING A YEAR.

(a) *EXPANDED AUTHORITY.*—Section 2410a of title 10, United States Code, is amended to read as follows:

“§2410a. Severable service contracts for periods crossing fiscal years

“(a) *AUTHORITY.*—The Secretary of Defense, the Secretary of a military department, or the Secretary of Transportation with respect to the Coast Guard when it is not operating as a service in the Navy, may enter into a contract for procurement of severable services for a period that begins in one fiscal year and ends in the next fiscal year if (without regard to any option to extend the period of the contract) the contract period does not exceed one year.

“(b) *OBLIGATION OF FUNDS.*—Funds made available for a fiscal year may be obligated for the total amount of a contract entered into under the authority of subsection (a).”.

(b) *CLERICAL AMENDMENT.*—The item relating to such section in the table of sections at the beginning of chapter 141 of such title is amended to read as follows:

“2410a. Severable service contracts for periods crossing fiscal years.”.

SEC. 802. VESTING OF TITLE IN THE UNITED STATES UNDER CONTRACTS PAID UNDER PROGRESS PAYMENT ARRANGEMENTS OR SIMILAR ARRANGEMENTS.

Section 2307 of title 10, United States Code, is amended—

- (1) by redesignating subsection (h) as subsection (i); and
- (2) by inserting after subsection (g) the following new subsection (h):

“(h) *VESTING OF TITLE IN THE UNITED STATES.*—If a contract paid by a method authorized under subsection (a)(1) provides for title to property to vest in the United States, the title to the property shall vest in accordance with the terms of the contract, regardless of any security interest in the property that is asserted before or after the contract is entered into.”.

SEC. 803. RESTRICTION ON UNDEFINITIZED CONTRACT ACTIONS.

(a) *APPLICABILITY OF WAIVER AUTHORITY TO HUMANITARIAN OR PEACEKEEPING OPERATIONS.*—Section 2326(b)(4) of title 10, United States Code, is amended to read as follows:

“(4) *The head of an agency may waive the provisions of this subsection with respect to a contract of that agency if that head of*

an agency determines that the waiver is necessary in order to support any of the following operations:

“(A) A contingency operation.

“(B) A humanitarian or peacekeeping operation.”.

(b) *HUMANITARIAN OR PEACEKEEPING OPERATION DEFINED.*—Section 2302(7) of such title is amended—

(1) by striking out “(7)(A)” and inserting in lieu thereof “(7)”; and

(2) by striking out “(B) In subparagraph (A), the” and inserting in lieu thereof “(8) The”.

SEC. 804. LIMITATION AND REPORT ON PAYMENT OF RESTRUCTURING COSTS UNDER DEFENSE CONTRACTS.

(a) *IN GENERAL.*—(1) Chapter 137 of title 10, United States Code, is amended by inserting after section 2324 the following new section:

“§ 2325. Restructuring costs

“(a) *LIMITATION ON PAYMENT OF RESTRUCTURING COSTS.*—(1) The Secretary of Defense may not pay, under section 2324 of this title, a defense contractor for restructuring costs associated with a business combination of the contractor unless the Secretary determines in writing either—

“(A) that the amount of projected savings for the Department of Defense associated with the restructuring will be at least twice the amount of the costs allowed; or

“(B) that the amount of projected savings for the Department of Defense associated with the restructuring will exceed the amount of the costs allowed and that the business combination will result in the preservation of a critical capability that otherwise might be lost to the Department.

“(2) The Secretary may not delegate the authority to make a determination under paragraph (1) to an official of the Department of Defense below the level of an Assistant Secretary of Defense.

(b) *REPORT.*—Not later than March 1 in each of 1998, 1999, 2000, 2001, and 2002, the Secretary of Defense shall submit to Congress a report that contains, with respect to business combinations occurring on or after August 15, 1994, the following:

“(1) For each defense contractor to which the Secretary has paid, under section 2324 of this title, restructuring costs associated with a business combination, a summary of the following:

“(A) An estimate of the amount of savings for the Department of Defense associated with the restructuring that has been realized as of the end of the preceding calendar year.

“(B) An estimate of the amount of savings for the Department of Defense associated with the restructuring that is expected to be achieved on defense contracts.

“(2) An identification of any business combination for which the Secretary has paid restructuring costs under section 2324 of this title during the preceding calendar year and, for each such business combination—

“(A) the supporting rationale for allowing such costs;

“(B) factual information associated with the determination made under subsection (a) with respect to such costs; and

“(C) a discussion of whether the business combination would have proceeded without the payment of restructuring costs by the Secretary.

“(3) For business combinations of major defense contractors that took place during the year preceding the year of the report—

“(A) an assessment of any potentially adverse effects that the business combinations could have on competition for Department of Defense contracts (including potential horizontal effects, vertical effects, and organizational conflicts of interest), the national technology and industrial base, or innovation in the defense industry; and

“(B) the actions taken to mitigate the potentially adverse effects.

“(c) DEFINITION.—In this section, the term ‘business combination’ includes a merger or acquisition.”.

(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 2324 the following new item:

“2325. Restructuring costs.”.

(b) GAO REPORTS.—(1) Not later than April 1, 1998, the Comptroller General shall—

(A) in consultation with appropriate officials in the Department of Defense—

(i) identify major market areas affected by business combinations of defense contractors since January 1, 1990; and

(ii) develop a methodology for determining the savings from business combinations of defense contractors on the prices paid on particular defense contracts; and

(B) submit to the congressional defense committees a report describing, for each major market area identified pursuant to subparagraph (A)(i), the changes in numbers of businesses competing for major defense contracts since January 1, 1990.

(2) Not later than December 1, 1998, the Comptroller General shall submit to the congressional defense committees a report containing the following:

(A) Updated information on—

(i) restructuring costs of business combinations paid by the Department of Defense pursuant to certifications under section 818 of the National Defense Authorization Act for Fiscal Year 1995, and

(ii) savings realized by the Department of Defense as a result of the business combinations for which the payment of restructuring costs was so certified.

(B) An assessment of the savings from business combinations of defense contractors on the prices paid on a meaningful sample of defense contracts, determined in accordance with the methodology developed pursuant to paragraph (1)(A)(ii), as well as a description of the methodology.

(C) Any recommendations that the Comptroller General considers appropriate.

(3) In this subsection, the term “business combination” has the meaning given that term in section 2325(c) of title 10, United States Code, as added by subsection (a).

(c) *EFFECTIVE DATE.*—Section 2325(a) of title 10, United States Code, as added by subsection (a), shall apply with respect to business combinations that occur after the date of the enactment of this Act.

“(3) The term ‘fiscal year’ means a fiscal year established by a contractor for accounting purposes.”.

(c) LEVELS OF COMPENSATION NOT ALLOWABLE.—(1) The Office of Federal Procurement Policy Act (41 U.S.C. 401 et seq.) is amended by adding at the end the following:

“SEC. 39. LEVELS OF COMPENSATION OF CERTAIN CONTRACTOR PERSONNEL NOT ALLOWABLE AS COSTS UNDER CERTAIN CONTRACTS.

“(a) DETERMINATION REQUIRED.—For purposes of section 2324(e)(1)(P) of title 10, United States Code, and section 306(e)(1)(P) of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 256(e)(1)(P)), the Administrator shall review commercially available surveys of executive compensation and, on the basis of the results of the review, determine a benchmark compensation amount to apply for each fiscal year. In making determinations under this subsection the Administrator shall consult with the Director of the Defense Contract Audit Agency and such other officials of executive agencies as the Administrator considers appropriate.

“(b) BENCHMARK COMPENSATION AMOUNT.—The benchmark compensation amount applicable for a fiscal year is the median amount of the compensation provided for all senior executives of all benchmark corporations for the most recent year for which date is available at the time the determination under subsection (a) is made.

“(c) DEFINITIONS.—In this section:

“(1) The term ‘compensation’, for a fiscal year, means the total amount of wages, salary, bonuses and deferred compensation for the fiscal year, whether paid, earned, or otherwise accruing, as recorded in an employer’s cost accounting records for the fiscal year.

“(2) The term ‘senior executive’, with respect to a corporation, means—

“(A) the chief executive officer of the corporation or any individual acting in a similar capacity for the corporation.

“(B) the four most highly compensated employees in management positions of the corporation other than the chief executive officer; and

“(C) in the case of a corporation that has components which report directly to the corporate headquarters, the five most highly compensated individuals in management positions at each such component.

“(3) The term ‘benchmark corporation’, with respect to a fiscal year, means a publicly-owned United States corporation that has annual sales in excess of \$50,000,000 for the fiscal year.

“(4) The term ‘publicly-owned United States corporation’ means a corporation organized under the laws of a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or a possession of the United States the voting stock of which is publicly traded.

“(5) The term ‘fiscal year’ means a fiscal year established by a contractor for accounting purposes.”.

(2) The table of sections in section 1(b) of such Act is amended by adding at the end the following:

“Sec. 39. Levels of compensation of certain contractor personnel not allowable as costs under certain contracts.”.

(d) REGULATIONS.—Regulations implementing the amendments made by this section shall be published in the Federal Register not later than the effective date of the amendments under subsection (e).

(e) EFFECTIVE DATE.—The amendments made by this section shall—

(1) take effect on the date that is 90 days after the date of the enactment of this Act; and

(2) apply with respect to costs of compensation incurred after January 1, 1998, under covered contracts entered into before, on, or after the date of the enactment of this Act.

(f) EXCLUSIVE APPLICABILITY.—Notwithstanding any other provision of law, no other limitation in law on the allowability of costs of compensation of senior executives under covered contracts shall apply to such costs of compensation incurred after January 1, 1998.

(g) DEFINITIONS.—In this section:

(1) The term “covered contract” has the meaning given such term in section 2324(l) of title 10, United States Code, and section 306(l) of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 256(l)).

SEC. 848. REQUIREMENTS RELATING TO MICRO-PURCHASES.

(a) **REQUIREMENT.**—(1) Not later than October 1, 1998, at least 60 percent of all eligible purchases made by the Department of Defense for an amount less than the micro-purchase threshold shall be made through streamlined micro-purchase procedures.

(2) Not later than October 1, 2000, at least 90 percent of all eligible purchases made by the Department of Defense for an amount less than the micro-purchase threshold shall be made through streamlined micro-purchase procedures.

(b) **ELIGIBLE PURCHASES.**—The Secretary of Defense shall establish which purchases are eligible for purposes of subsection (a). In establishing which purchases are eligible, the Secretary may exclude those categories of purchases determined not to be appropriate or practicable for streamlined micro-purchase procedures.

(c) **PLAN.**—Not later than March 1, 1998, the Secretary of Defense shall provide to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a plan to implement this section.

(d) **REPORT.**—Not later than March 1 in each of the years 1999, 2000, and 2001, the Secretary of Defense shall submit to the congressional defense committees a report on the implementation of this section. Each report shall include—

(A) the total dollar amount of all Department of Defense purchases for an amount less than the micro-purchase threshold in the fiscal year preceding the year in which the report is submitted;

(B) the total dollar amount of such purchases that were considered to be eligible purchases;

(C) the total amount of such eligible purchases that were made through a streamlined micro-purchase method; and

(D) a description of the categories of purchases excluded from the definition of eligible purchases established under subsection (b).

(e) **DEFINITIONS.**—In this section:

(1) The term “micro-purchase threshold” has the meaning provided in section 32 of the Office of Federal Procurement Policy Act (41 U.S.C. 428).

(2) The term “streamlined micro-purchase procedures” means procedures providing for the use of the Government-wide commercial purchase card or any other method for carrying out

micro-purchases that the Secretary of Defense prescribes in the regulations implementing this subsection.

SEC. 849. PROMOTION RATE FOR OFFICERS IN AN ACQUISITION CORPS.

(a) REVIEW OF ACQUISITION CORPS PROMOTION SELECTIONS.—Upon the approval of the President or his designee of the report of a selection board convened under section 611(a) of title 10, United States Code, which considered members of an Acquisition Corps of a military department for promotion to a grade above O–4, the Secretary of the military department shall submit a copy of the report to the Under Secretary of Defense for Acquisition and Technology for review.

(b) REPORTING REQUIREMENT.—Not later than January 31 of each year, the Under Secretary of Defense for Acquisition and Technology shall submit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a report containing the Under Secretary’s assessment of the extent to which each military department is complying with the requirement set forth in section 1731(b) of title 10, United States Code.

(c) TERMINATION OF REQUIREMENTS.—This section shall cease to be effective on October 1, 2000.

SEC. 850. USE OF ELECTRONIC COMMERCE IN FEDERAL PROCUREMENT.

(a) POLICY.—Section 30 of the Office of Federal Procurement Policy Act (41 U.S.C. 426) is amended to read as follows:

“SEC. 30. USE OF ELECTRONIC COMMERCE IN FEDERAL PROCUREMENT.

“(a) IN GENERAL.—The head of each executive agency, after consulting with the Administrator, shall establish, maintain, and use, to the maximum extent that is practicable and cost-effective, procedures and processes that employ electronic commerce in the conduct and administration of its procurement system.

“(b) APPLICABLE STANDARDS.—In conducting electronic commerce, the head of an agency shall apply nationally and internationally recognized standards that broaden interoperability and ease the electronic interchange of information.

“(c) AGENCY PROCEDURES.—The head of each executive agency shall ensure that systems, technologies, procedures, and processes established pursuant to this section—

“(1) are implemented with uniformity throughout the agency, to the extent practicable;

“(2) are implemented only after granting due consideration to the use or partial use, as appropriate, of existing electronic commerce and electronic data interchange systems and infrastructures such as the Federal acquisition computer network architecture known as FACNET;

“(3) facilitate access to Federal Government procurement opportunities, including opportunities for small business concerns, socially and economically disadvantaged small business concerns, and business concerns owned predominantly by women; and

“(4) ensure that any notice of agency requirements or agency solicitation for contract opportunities is provided in a form that allows convenient and universal user access through a single, Government-wide point of entry.

“(d) IMPLEMENTATION.—The Administrator shall, in carrying out the requirements of this section—

“(1) issue policies to promote, to the maximum extent practicable, uniform implementation of this section by executive agencies, with due regard for differences in program requirements among agencies that may require departures from uniform procedures and processes in appropriate cases, when warranted because of the agency mission;

“(2) ensure that the head of each executive agency complies with the requirements of subsection (c) with respect to the agency systems, technologies, procedures, and processes established pursuant to this section; and

“(3) consult with the heads of appropriate Federal agencies with applicable technical and functional expertise, including the Office of Information and Regulatory Affairs, the National Institute of Standards and Technology, the General Services Administration, and the Department of Defense.

“(e) REPORT.—Not later than March 1, 1998, and every year afterward through 2003, the Administrator shall submit to Congress a report setting forth in detail the progress made in implementing the requirements of this section. The report shall include the following:

“(1) A strategic plan for the implementation of a Government-wide electronic commerce capability.

“(2) An agency-by-agency summary of implementation of the requirements of subsection (c), including timetables, as appropriate, addressing when individual agencies will come into full compliance.

“(3) A specific assessment of compliance with the requirement in subsection (c) to provide universal public access through a single, Government-wide point of entry.

“(4) Beginning with the report submitted on March 1, 1999, an agency-by-agency summary of the volume and dollar value of transactions that were conducted using electronic commerce methods during the previous calendar year.

“(5) A discussion of possible incremental changes to the electronic commerce capability referred to in subsection (c)(4) to increase the level of government contract information available to the private sector, including an assessment of the advisability of including contract award information in the electronic commerce functional standard.

“(f) ELECTRONIC COMMERCE DEFINED.—For the purposes of this section, the term ‘electronic commerce’ means electronic techniques for accomplishing business transactions, including electronic mail or messaging, World Wide Web technology, electronic bulletin boards, purchase cards, electronic funds transfers, and electronic data interchange.”

Subtitle B—Department of Defense Personnel Management

SEC. 911. REDUCTION IN PERSONNEL ASSIGNED TO MANAGEMENT HEADQUARTERS AND HEADQUARTERS SUPPORT ACTIVITIES.

(a) **IN GENERAL.**—(1) Chapter 3 of title 10, United States Code, is amended by adding at the end the following new section:

“§ 130a. Management headquarters and headquarters support activities personnel: limitation

“(a) **LIMITATION.**—Effective October 1, 2002, the number of management headquarters and headquarters support activities personnel in the Department of Defense may not exceed 75 percent of the baseline number.

“(b) *PHASED REDUCTION.*—The number of management headquarters and headquarters support activities personnel in the Department of Defense—

“(1) as of October 1, 1998, may not exceed 95 percent of the baseline number;

“(2) as of October 1, 1999, may not exceed 90 percent of the baseline number;

“(3) as of October 1, 2000, may not exceed 85 percent of the baseline number; and

“(4) as of October 1, 2001, may not exceed 80 percent of the baseline number.

“(c) *BASELINE NUMBER.*—In this section, the term ‘baseline number’ means the number of management headquarters and headquarters support activities personnel in the Department of Defense as of October 1, 1997.

“(d) *LIMITATION ON MANAGEMENT HEADQUARTERS AND HEADQUARTERS SUPPORT PERSONNEL ASSIGNED TO THE UNITED STATES TRANSPORTATION COMMAND.*—(1) Effective October 1, 1998, the number of management headquarters activities and management headquarters support activities personnel assigned to, or employed in, the United States Transportation Command may not exceed the number equal to 95 percent of the number of such personnel as of October 1, 1997.

“(2) For purposes of paragraph (1), the United States Transportation Command shall be considered to include the following:

“(A) The United States Transportation Command Headquarters.

“(B) The Air Mobility Command of the Air Force.

“(C) The Military Sealift Command of the Navy.

“(D) The Military Traffic Management Command of the Army.

“(E) The Defense Courier Service.

“(F) Any other element of the Department of Defense assigned to the United States Transportation Command.

“(3) The Secretary of Defense may waive or suspend operation of paragraph (1) in the event of a war or national emergency.

“(e) *MANAGEMENT HEADQUARTERS AND HEADQUARTERS SUPPORT ACTIVITIES PERSONNEL DEFINED.*—In this section:

“(1) The term ‘management headquarters and headquarters support activities personnel’ means military and civilian personnel of the Department of Defense who are assigned to, or employed in, functions in management headquarters activities or in management headquarters support activities.

“(2) The terms ‘management headquarters activities’ and ‘management headquarters support activities’ have the meanings given those terms in Department of Defense Directive 5100.73, entitled ‘Department of Defense Management Headquarters and Headquarters Support Activities’, as in effect on November 12, 1996.

“(f) *LIMITATION ON REASSIGNMENT OF FUNCTIONS.*—In carrying out reductions in the number of personnel assigned to, or employed in, management headquarters and headquarters support activities in order to comply with this section, the Secretary of Defense and

the Secretaries of the military departments may not reassign functions in order to evade the requirements of this section.

“(g) FLEXIBILITY.—If the Secretary of Defense determines, and certifies to Congress, that the limitation in subsection (b) with respect to any fiscal year would adversely affect United States national security, the Secretary may waive the limitation under that subsection with respect to that fiscal year. If the Secretary of Defense determines, and certifies to Congress, that the limitation in subsection (a) during fiscal year 2001 would adversely affect United States national security, the Secretary may waive the limitation under that subsection with respect to that fiscal year. The authority under this subsection may be used only once, with respect to a single fiscal year.”.

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

“130a. Management headquarters and headquarters support activities personnel: limitation.”.

(b) IMPLEMENTATION REPORT.—Not later than January 15, 1998, the Secretary of Defense shall submit to Congress a report—

(1) containing a plan to achieve the personnel reductions required by section 130a of title 10, United States Code, as added by subsection (a); and

(2) including the recommendations of the Secretary regarding—

(A) the revision, replacement, or augmentation of Department of Defense Directive 5100.73, entitled “Department of Defense Management Headquarters and Headquarters Support Activities”, as in effect on November 12, 1996; and

(B) the revision of the definitions of the terms “management headquarters activities” and “management headquarters support activities” under that Directive so that those terms apply uniformly throughout the Department of Defense.

(c) DUTIES OF TASK FORCE ON DEFENSE REFORM TO INCLUDE CONSIDERATION OF MANAGEMENT HEADQUARTERS ACTIVITIES.—(1) The Secretary of Defense shall require that the areas of study of the Task Force on Defense Reform (established by the Secretary of Defense on May 14, 1997, and headed by the Deputy Secretary of Defense) include an examination of the missions, functions, and responsibilities of the various management headquarters activities and management headquarters support activities of the Department of Defense. In carrying out that examination of those activities, the Task Force shall identify areas of duplication in those activities and recommend to the Secretary options to streamline, reduce, and eliminate redundancies.

(2) The examination of the missions, functions, and responsibilities of the various management headquarters activities and management headquarters support activities of the Department of Defense under paragraph (1) shall include the following:

(A) An assessment of benefits of consolidation or selected elimination of Department of Defense management headquarters activities and management headquarters support activities.

(B) An assessment of the opportunities to streamline the management headquarters and management headquarters support infrastructure that were realized as a result of the enactment of the Federal Acquisition Streamlining Act of 1994 (Public Law 103-355) and the Clinger-Cohen Act of 1996 (divisions D and E of Public Law 104-106) or as result of other management reform initiatives implemented administratively during the period from 1993 through 1997.

(C) An assessment of such other options for streamlining or restructuring the management headquarters and management headquarters support infrastructure as the Task Force considers appropriate and as can be carried out under existing provisions of law.

(3) Not later than March 1, 1998, the Secretary of Defense shall submit to Congress a report on the results of the examination by the Task Force under this subsection. The Secretary shall include in the report any report to the Secretary from the Task Force with respect to the matters described in paragraphs (1) and (2).

(d) CODIFICATION OF PRIOR PERMANENT LIMITATION ON OSD PERSONNEL.—(1) Chapter 4 of title 10, United States Code, is amended by adding at the end a new section 143 consisting of—

(A) a heading as follows:

“§ 143. Office of the Secretary of Defense personnel: limitation”;

and

(B) a text consisting of the text of subsections (a) through (f) of section 903 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 110 Stat. 2617).

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

“143. Office of the Secretary of Defense personnel: limitation.”

(3) Section 903 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 110 Stat. 2617) is repealed.

SEC. 912. DEFENSE ACQUISITION WORKFORCE.

(a) REDUCTION OF DEFENSE ACQUISITION WORKFORCE.—(1) The Secretary of Defense shall accomplish reductions in defense acquisition personnel positions during fiscal year 1998 so that the total number of such personnel as of October 1, 1998, is less than the total number of such personnel as of October 1, 1997, by at least the applicable number determined under paragraph (2).

(2)(A) The applicable number for purposes of paragraph (1) is 25,000. However, the Secretary of Defense may specify a lower number, which may not be less than 10,000, as the applicable number for purposes of paragraph (1) if the Secretary determines, and certifies to Congress not later than June 1, 1998, that an applicable number greater than the number specified by the Secretary would be inconsistent with the cost-effective management of the defense acquisition system to obtain best value equipment and would adversely affect military readiness.

(B) The Secretary shall include with such a certification a detailed explanation of each of the matters certified.

(C) *The authority of the Secretary under subparagraph (A) may only be delegated to the Deputy Secretary of Defense.*

(3) *For purposes of this subsection, the term “defense acquisition personnel” means military and civilian personnel (other than civilian personnel who are employed at a maintenance depot) who are assigned to, or employed in, acquisition organizations of the Department of Defense (as specified in Department of Defense Instruction numbered 5000.58 dated January 14, 1992).*

(b) *REPORT ON SPECIFIC ACQUISITION POSITIONS PREVIOUSLY ELIMINATED.—Not later than 30 days after the date of the enactment of this Act, the Secretary of Defense shall submit to Congress a report on reductions in the defense acquisition workforce made since fiscal year 1989. The report shall show aggregate reductions by fiscal year and shall show for each fiscal year reductions identified by specific job title, classification, or position. The report shall also identify those reductions carried out pursuant to law (and how the Secretary implemented any statutory requirement for such reductions, including definition of the workforce subject to the reduction) and those reductions carried out as a result of base closures and realignments under the so-called BRAC process. The Secretary shall include in the report a definition of the term “defense acquisition workforce” that is to be applied uniformly throughout the Department of Defense.*

(c) *IMPLEMENTATION PLAN TO STREAMLINE AND IMPROVE ACQUISITION ORGANIZATIONS.—(1) Not later than April 1, 1998, the Secretary of Defense shall submit to Congress a report containing a plan to streamline the acquisition organizations, workforce, and infrastructure of the Department of Defense. The Secretary shall include with the report a detailed discussion of the recommendations of the Secretary based on the review under subsection (d) and the assessment of the Task Force on Defense Reform pursuant to subsection (e), together with a request for the enactment of any legislative changes necessary for implementation of the plan. The Secretary shall include in the report the results of the review under subsection (d) and the independent assessment of the Task Force on Defense Reform pursuant to subsection (e).*

(2) *In carrying out this subsection and subsection (d), the Secretary of Defense shall formally consult with the Chairman of the Joint Chiefs of Staff, the Director of Program Analysis and Evaluation, the Under Secretary of Defense (Comptroller), and the Under Secretary for Acquisition and Technology.*

(d) *REVIEW OF ACQUISITION ORGANIZATIONS AND FUNCTIONS.—The Secretary of Defense shall conduct a review of the organizations and functions of the Department of Defense acquisition activities and of the personnel required to carry out those functions. The review shall identify the following:*

- (1) *Opportunities for cross-service, cross-functional arrangements within the military services and defense agencies.*
- (2) *Specific areas of overlap, duplication, and redundancy among the various acquisition organizations.*
- (3) *Opportunities to further streamline acquisition processes.*
- (4) *Benefits of an enhanced Joint Requirements Oversight Council in the acquisition process.*

(5) *Alternative consolidation options for acquisition organizations.*

(6) *Alternative methods for performing industry oversight and quality assurance.*

(7) *Alternative options to shorten the procurement cycle.*

(8) *Alternative acquisition infrastructure reduction options within current authorities.*

(9) *Alternative organizational arrangements that capitalize on core acquisition competencies among the military services and defense agencies.*

(10) *Future acquisition personnel requirements of the Department.*

(11) *Adequacy of the Program, Plans, and Budgeting System in fulfilling current and future acquisition needs of the Department.*

(12) *Effect of technology and advanced management tools in the future acquisition system.*

(13) *Applicability of more flexible alternative approaches to the current civil service system for the acquisition workforce.*

(14) *Adequacy of Department of Defense Instruction numbered 5000.58 dated January 14, 1992.*

(e) **DUTIES OF TASK FORCE ON DEFENSE REFORM TO INCLUDE CONSIDERATION OF ACQUISITION ORGANIZATIONS.**—(1) *The Secretary of Defense shall require that the areas of study of the Task Force on Defense Reform (established by the Secretary of Defense on May 14, 1997, and headed by the Deputy Secretary of Defense) include an examination of the missions, functions, and responsibilities of the various acquisition organizations of the Department of Defense, including the acquisition workforce of the Department. In carrying out that examination of those organizations and that workforce, the Task Force shall identify areas of duplication in defense acquisition organization and recommend to the Secretary options to streamline, reduce, and eliminate redundancies.*

(2) *The examination of the missions, functions, and responsibilities of the various acquisition organizations of the Department of Defense under paragraph (1) shall include the following:*

(A) *An assessment of benefits of consolidation or selected elimination of Department of Defense acquisition organizations.*

(B) *An assessment of the opportunities to streamline the defense acquisition infrastructure that were realized as a result of the enactment of the Federal Acquisition Streamlining Act of 1994 (Public Law 103–355) and the Clinger-Cohen Act of 1996 (divisions D and E of Public Law 104–106) or as result of other acquisition reform initiatives implemented administratively during the period from 1993 through 1997.*

(C) *An assessment of such other options for streamlining or restructuring the defense acquisition infrastructure as the Task Force considers appropriate and as can be carried out under existing provisions of law.*

(3) *Not later than March 1, 1998, the Task Force shall submit to the Secretary a report on the results of its review of the acquisition organizations of the Department of Defense, including any recommendations of the Task Force for improvements to those organizations.*

(f) **TECHNICAL REFERENCE CORRECTION.**—Section 1721(c) of title 10, United States Code, is amended by striking out “November 25, 1988” and inserting in lieu thereof “November 12, 1996”.

Subtitle C—Department of Defense Schools and Centers

Subtitle D—Department of Defense Intelligence Matters

SEC. 931. TRANSFER OF CERTAIN MILITARY DEPARTMENT PROGRAMS FROM TIARA BUDGET AGGREGATION.

(a) *TRANSFER.*—Effective March 1, 1998, the Secretary of Defense shall, for each program identified by the Secretary under subsection (c)(2), transfer the management and budgeting of funds for that program from the TIARA budget aggregation to a nonintelligence budget activity of the military department responsible for that program.

(b) *ASSESSMENT.*—The Secretary of Defense shall conduct an assessment of the policy of the Department of Defense that is used for determining the programs of the Department that are included within the TIARA budget aggregation. In conducting the assessment, the Secretary—

(1) shall consider whether the current policy is in need of revision to reflect changes in technology and battlefield use of TIARA systems;

(2) shall specifically consider the appropriateness of the continued inclusion in the TIARA budget aggregation of each of the programs described in subsection (e); and

(3) may consider the appropriateness of the continued inclusion in the TIARA budget aggregation of any other program (in addition to the programs described to in subsection (e)) that as of the date of the enactment of this Act is managed and budgeted as part of the TIARA budget aggregation.

(c) *REPORT.*—Not later than March 1, 1998, the Secretary of Defense shall submit to Congress a report on the assessment carried out under section (b). The Secretary shall include in the report—

(1) a description of any proposed changes to Department of Defense policies for determining which programs are included in the TIARA budget aggregation; and

(2) identification of each program (among the programs considered pursuant to paragraphs (2) and (3) of subsection (b)) for which the management and budgeting of funds is to be transferred under subsection (a).

(d) *IDENTIFICATION OF PROGRAMS.*—(1) In specifying the programs to be included on the list under subsection (c)(2), the Secretary—

(A) shall (except as otherwise provided pursuant to a waiver under paragraph (2)) include each program described in subsection (e); and

(B) may include such additional programs considered in the assessment pursuant to subsection (b)(3) as the Secretary determines appropriate.

(2) The Secretary, after considering the results of the assessment under subsection (c), may waive the applicability of paragraph (1)(A) to any program described in subsection (e). The Secretary shall include in the report under subsection (c) identification of each such program for which the Secretary has granted such a waiver and supporting rationale for each waiver.

(e) *COVERED PROGRAMS.*—The programs described in this subsection are the following (each of which, as of the date of the enactment of this Act, is managed and budgeted as part of the TIARA budget aggregation):

(1) Each targeting or target acquisition program of the Department of Defense, including the Joint Surveillance and Target Attack Radar System (JSTARS) and the Advanced Deployable System.

(2) Each Tactical Warning and Attack Assessment program of the Department of Defense, including the Defense Support Program, the Space-Based Infrared Program, and early warning radars.

(3) Each tactical communications system of the Department of Defense, including the Joint Tactical Terminal.

(f) *TIARA BUDGET AGGREGATION DEFINED.*—For purposes of this section, the term “TIARA budget aggregation” means the aggregation of programs of the Department of Defense for which funds are managed and budgeted through a common designation as Tactical Intelligence and Related Activities (TIARA) of the Department of Defense.

SEC. 932. REPORT ON COORDINATION OF ACCESS OF COMMANDERS AND DEPLOYED UNITS TO INTELLIGENCE COLLECTED AND ANALYZED BY THE INTELLIGENCE COMMUNITY.

(a) *FINDINGS.*—Congress makes the following findings:

(1) Coordination of operational intelligence support for the commanders of the combatant commands and deployed units of the Armed Forces has proven to be inadequate.

(2) Procedures used to reconcile information among various intelligence community and Department of Defense data bases

have proven to be inadequate and, being inadequate, have diminished the usefulness of that information and have precluded commanders and planners within the Armed Forces from fully benefiting from key information that should have been available to them.

(3) Excessive compartmentalization of responsibilities and information within the Department of Defense and the other elements of the intelligence community has resulted in inaccurate analysis of important intelligence material.

(4) Excessive restrictions on the distribution of information within the executive branch have disadvantaged units of the Armed Forces that would have benefited most from the information.

(5) Procedures used in the Department of Defense to ensure that critical intelligence information is provided to the right combat units in a timely manner failed during the Persian Gulf War and, as a result, information about potential chemical weapons storage locations did not reach the units that eventually destroyed those storage areas.

(6) A recent, detailed review of the events leading to and following the destruction of chemical weapons by members of the Armed Forces at Khamisiyah, Iraq, during the Persian Gulf War has revealed a number of inadequacies in the way the Department of Defense and the other elements of the intelligence community handled, distributed, recorded, and stored intelligence information about the threat of exposure of United States forces to chemical weapons and the toxic agents in those weapons.

(7) The inadequacy of procedures for recording the receipt of, and reaction to, intelligence reports provided by the intelligence community to combat units of the Armed Forces during the Persian Gulf War has caused it to be impossible to analyze the failures in transmission of intelligence-related information on the location of chemical weapons at Khamisiyah, Iraq, that resulted in the demolition of chemical weapons by members of the Armed Forces unaware of the hazards to which they were exposed.

(b) **REPORT REQUIREMENT.**—Not later than March 1, 1998, the Secretary of Defense shall submit to Congress a report that identifies the specific actions that have been taken or are being taken to ensure that there is adequate coordination of access of commanders of the combatant commands and deployed units of the Armed Forces to intelligence collected and analyzed by the intelligence community.

SEC. 933. PROTECTION OF IMAGERY, IMAGERY INTELLIGENCE, AND GEOSPATIAL INFORMATION AND DATA.

(a) **PROTECTION OF INFORMATION ON CAPABILITIES.**—Paragraph (1)(B) of section 455(b) of title 10, United States Code, is amended by inserting “, or capabilities,” after “methods”.

(b) **PRODUCTS PROTECTED.**—(1) Paragraph (2) of such section is amended to read as follows:

“(2) In this subsection, the term ‘geodetic product’ means imagery, imagery intelligence, or geospatial information.”.

(2) Section 467(4) of title 10, United States Code, is amended—

- (A) by inserting “and” at the end of subparagraph (A);
 (B) in subparagraph (B), by striking out “and geodetic data; and” and inserting in lieu thereof “geodetic data, and related products.”; and
 (C) by striking out subparagraph (C).

SEC. 934. POW/MIA INTELLIGENCE ANALYSIS.

(a) **INTELLIGENCE ANALYSIS.**—The Director of Central Intelligence, in consultation with the Secretary of Defense, shall provide intelligence analysis on matters concerning prisoners of war and missing persons (as defined in chapter 76 of title 10, United States Code) to all departments and agencies of the Federal Government involved in such matters.

(b) **USE OF INTELLIGENCE IN ANALYSIS OF POW/MIA CASES IN DEPARTMENT OF DEFENSE.**—The Secretary of Defense shall ensure that the Defense Prisoner of War/Missing Personnel Office of the Department of Defense takes into full account all intelligence regarding matters concerning prisoners of war and missing persons (as defined in chapter 76 of title 10, United States Code) in analyzing cases involving such persons.

SEC. 1001. TRANSFER AUTHORITY.

(a) AUTHORITY TO TRANSFER AUTHORIZATIONS.—(1) Upon determination by the Secretary of Defense that such action is necessary in the national interest, the Secretary may transfer amounts of authorizations made available to the Department of Defense in this division for fiscal year 1998 between any such authorizations for that fiscal year (or any subdivisions thereof). Amounts of authorizations so transferred shall be merged with and be available for the same purposes as the authorization to which transferred.

(2) The total amount of authorizations that the Secretary of Defense may transfer under the authority of this section may not exceed \$2,000,000,000.

(b) LIMITATIONS.—The authority provided by this section to transfer authorizations—

(1) may only be used to provide authority for items that have a higher priority than the items from which authority is transferred; and

(2) may not be used to provide authority for an item that has been denied authorization by Congress.

(c) EFFECT ON AUTHORIZATION AMOUNTS.—A transfer made from one account to another under the authority of this section shall be deemed to increase the amount authorized for the account to which the amount is transferred by an amount equal to the amount transferred.

(d) NOTICE TO CONGRESS.—The Secretary shall promptly notify Congress of each transfer made under subsection (a).

SEC. 1002. INCORPORATION OF CLASSIFIED ANNEX.

(a) STATUS OF CLASSIFIED ANNEX.—The Classified Annex prepared by the committee of conference to accompany the conference report on the bill H.R. 1119 of the One Hundred Fifth Congress and transmitted to the President is hereby incorporated into this Act.

(b) CONSTRUCTION WITH OTHER PROVISIONS OF ACT.—The amounts specified in the Classified Annex are not in addition to amounts authorized to be appropriated by other provisions of this Act.

(c) LIMITATION ON USE OF FUNDS.—Funds appropriated pursuant to an authorization contained in this Act that are made available for a program, project, or activity referred to in the Classified Annex may only be expended for such program, project, or activity in accordance with such terms, conditions, limitations, restrictions, and requirements as are set out for that program, project, or activity in the Classified Annex.

(d) DISTRIBUTION OF CLASSIFIED ANNEX.—The President shall provide for appropriate distribution of the Classified Annex, or of appropriate portions of the annex, within the executive branch of the Government.

SEC. 1003. AUTHORITY FOR OBLIGATION OF UNAUTHORIZED FISCAL YEAR 1997 DEFENSE APPROPRIATIONS.

(a) *AUTHORITY.*—The amounts described in subsection (b) may be obligated and expended for programs, projects, and activities of the Department of Defense in accordance with fiscal year 1997 defense appropriations.

(b) *COVERED AMOUNTS.*—The amounts referred to in subsection (a) are the amounts provided for programs, projects, and activities of the Department of Defense in fiscal year 1997 defense appropriations that are in excess of the amounts provided for such programs, projects, and activities in fiscal year 1997 defense authorizations.

(c) *DEFINITIONS.*—For the purposes of this section:

(1) *FISCAL YEAR 1997 DEFENSE APPROPRIATIONS.*—The term “fiscal year 1997 defense appropriations” means amounts appropriated or otherwise made available to the Department of Defense for fiscal year 1997 in the Department of Defense Appropriations Act, 1997 (as contained in section 101(b) of Public Law 104–208).

(2) *FISCAL YEAR 1997 DEFENSE AUTHORIZATIONS.*—The term “fiscal year 1997 defense authorizations” means amounts authorized to be appropriated for the Department of Defense for fiscal year 1997 in the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201).

SEC. 1004. AUTHORIZATION OF PRIOR EMERGENCY SUPPLEMENTAL APPROPRIATIONS FOR FISCAL YEAR 1997.

Amounts authorized to be appropriated to the Department of Defense for fiscal year 1997 in the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201) are hereby adjusted, with respect to any such authorized amount, by the amount by which appropriations pursuant to such authorization were increased (by a supplemental appropriation) or decreased (by a rescission), or both, in the 1997 Emergency Supplemental Appropriations Act for Recovery from Natural Disasters, and for Overseas Peacekeeping Efforts, Including Those in Bosnia (Public Law 105–18).

SEC. 1005. INCREASE IN FISCAL YEAR 1996 TRANSFER AUTHORITY.

Section 1001(a)(2) of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104–106; 100 Stat. 414) is amended by striking out “\$2,000,000,000” and inserting in lieu thereof “\$3,100,000,000”.

SEC. 1006. REVISION OF AUTHORITY FOR FISHER HOUSE TRUST FUNDS.

(a) *CORRECTION TO ELIMINATE USE OF TERM ASSOCIATED WITH FUNDING AUTHORITIES.*—Section 2221(c) of title 10, United States Code, is amended by striking out “or maintenance” each place it appears.

(b) *CORPUS OF AIR FORCE TRUST FUND.*—The Secretary of the Air Force shall deposit in the Fisher House Trust Fund, Department of the Air Force, an amount that the Secretary determines appropriate to establish the corpus of the fund.

SEC. 1007. FLEXIBILITY IN FINANCING CLOSURE OF CERTAIN OUTSTANDING CONTRACTS FOR WHICH A SMALL FINAL PAYMENT IS DUE.

(a) *CLOSURE OF OUTSTANDING CONTRACTS.*—The Secretary of Defense may make the final payment on a contract to which this

section applies from the account established pursuant to subsection (d).

(b) **COVERED CONTRACTS.**—This section applies to any contract of the Department of Defense—

(1) that was entered into before December 5, 1990; and

(2) for which an unobligated balance of an appropriation that had been initially applied to the contract was canceled before December 5, 1990, pursuant to section 1552 of title 31, United States Code, as in effect before that date.

(c) **AUTHORITY LIMITED TO SMALL FINAL PAYMENTS.**—The Secretary may use the authority provided by this section only for a contract for which the amount of the final payment due is not greater than the micro-purchase threshold (as defined in section 32 of the Office of Federal Procurement Policy Act (41 U.S.C. 428)).

(d) **ACCOUNT.**—The Secretary may establish an account for the purposes of this section. The Secretary may from time to time transfer into the account, from funds made available to the Department of Defense for procurement or for research, development, test, and evaluation, such amounts as the Secretary determines to be needed for the purposes of the account, except that the total of such transfers may not exceed \$1,000,000. Amounts in the account may be used only for the purposes of this section.

(e) **CLOSURE OF ACCOUNT.**—When the Secretary determines that all contracts to which this section applies have been closed and there is no further need for the account established under subsection (d), the Secretary shall close the account. Any amounts remaining in the account shall be covered into the Treasury as miscellaneous receipts.

SEC. 1008. BIENNIAL FINANCIAL MANAGEMENT IMPROVEMENT PLAN.

(a) **BIENNIAL PLAN.**—(1) Chapter 131 of title 10, United States Code, is amended by adding at the end the following new section:

“§ 2222. Biennial financial management improvement plan

“(a) **BIENNIAL PLAN REQUIRED.**—The Secretary of Defense shall submit to Congress a biennial strategic plan for the improvement of financial management within the Department of Defense. The plan shall be submitted not later than September 30 of each even-numbered year.

“(b) **CONCEPT OF OPERATIONS.**—Each plan under subsection (a) shall include a statement of the Secretary of Defense’s concept of operations for the financial management of the Department of Defense. Each such statement shall be a clear description of the manner in which the Department’s financial management operations are carried out or will be carried out under the improvements set forth in the plan under subsection (a), including identification of operations that must be performed.

“(c) **MATTERS TO BE ADDRESSED IN PLAN.**—(1) Each plan under subsection (a) shall address all aspects of financial management within the Department of Defense, including the finance systems, accounting systems, and data feeder systems of the Department that support financial functions of the Department.

“(2) For the purposes of paragraph (1), a data feeder system is an automated or manual system from which information is derived for a financial management system or an accounting system.”.

(2) *The table of sections at the beginning of such chapter is amended by adding at the end the following new item:*

“2222. Biennial financial management improvement plan.”.

(b) *ADDITIONAL CONTENT OF FIRST PLAN.—The first financial management improvement plan submitted under section 2222 of title 10, United States Code (as added by subsection (a)), shall include the following:*

(1) *A description of the costs and benefits of integrating the various finance and accounting systems of the Department of Defense and reducing the total number of such systems, together with the Secretary’s assessment of the feasibility of implementing such an integration.*

(2) *Identification of problems with the accuracy of data included in the finance systems, accounting systems, and data feeder systems that support financial functions of the Department of Defense, together with a description of the actions that the Secretary can take to address those problems.*

(3) *Identification of weaknesses in the internal controls of the systems referred to in paragraph (2), together with a description of the actions that the Secretary can take to address those weaknesses.*

(4) *A description of actions that the Secretary can take to eliminate negative unliquidated obligations, unmatched disbursements, and in-transit disbursements and to avoid such obligations and disbursements in the future.*

(5) *A description of the status of the efforts being undertaken in the Department to consolidate and eliminate—*

(A) redundant or unneeded finance systems; and

(B) redundant or unneeded accounting systems.

(6) *A description of efforts being undertaken to consolidate or eliminate redundant personnel data systems, acquisition data systems, asset accounting systems, time and attendance systems, and other data feeder systems of the Department.*

(7) *A description of efforts being undertaken to integrate the data feeder systems of the Department with the finance and accounting systems of the Department.*

(8) *A description of problems with the organization or performance of the Operating Locations and Service Centers of the Defense Finance and Accounting Service, together with a description of the actions the Secretary can take to address those problems.*

(9) *A description of the costs and benefits of reorganizing the Operating Locations and Service Centers of the Defense Finance and Accounting Service according to function, together with the Secretary’s assessment of the feasibility of carrying out such a reorganization.*

(10) *A description of the costs and benefits of contracting for private-sector performance of specific functions currently performed by the Defense Finance and Accounting Service, together with the Secretary’s assessment of the feasibility of contracting for such performance.*

(11) *A description of actions that can be taken to ensure that each comptroller position (and comparable position) in the*

Department of Defense, whether filled by a member of the Armed Forces or by a civilian employee, is held by a person who, by reason of education, technical competence, and experience, has the core competencies for financial management.

(12) *A description of any other change in the financial management structure of the Department or revision of the financial processes and business practices of the Department that the Secretary considers necessary to improve financial management in the Department.*

(c) **ADDITIONAL MATTERS.**—*For each of the problems and actions identified pursuant to paragraphs (1) through (12) of subsection (b) or in any other part of the plan covered by that subsection, the Secretary shall include statements of objectives, performance measures, and schedules and shall specify the individual and organizational responsibilities.*

(d) **DEFINITION.**—*In subsection (b), the term “data feeder system” has the meaning given that term in subsection (c)(2) of section 2222 of title 10, United States Code, as added by subsection (a).*

SEC. 1009. ESTIMATES AND REQUESTS FOR PROCUREMENT AND MILITARY CONSTRUCTION FOR THE RESERVE COMPONENTS.

(a) **DETAILED PRESENTATION IN FUTURE-YEARS DEFENSE PROGRAM.**—*Section 10543 of title 10, United States Code, is amended—*

(1) *by inserting “(a) IN GENERAL.—” before “The Secretary of Defense”; and*

(2) *by adding at the end the following:*

“(b) **ASSOCIATED ANNEXES.**—*The associated annexes of the future-years defense program shall specify, at the same level of detail as is set forth in the annexes for the active components, the amount requested for—*

“(1) *procurement of each item of equipment to be procured for each reserve component; and*

“(2) *each military construction project to be carried out for each reserve component, together with the location of the project.*

“(c) **REPORT.**—(1) *If the aggregate of the amounts specified in paragraphs (1) and (2) of subsection (b) for a fiscal year is less than the amount equal to 90 percent of the average authorized amount applicable for that fiscal year under paragraph (2), the Secretary of Defense shall submit to Congress a report specifying for each reserve component the additional items of equipment that would be procured, and the additional military construction projects that would be carried out, if that aggregate amount were an amount equal to such average authorized amount. The report shall be at the same level of detail as is required by subsection (b).*

(2) *In this subsection, the term ‘average authorized amount’, with respect to a fiscal year, means the average of—*

“(A) *the aggregate of the amounts authorized to be appropriated for the preceding fiscal year for the procurement of items of equipment, and for military construction, for the reserve components; and*

“(B) *the aggregate of the amounts authorized to be appropriated for the fiscal year preceding the fiscal year referred to in subparagraph (A) for the procurement of items of equipment, and for military construction, for the reserve components.”.*

(b) *PROHIBITION.*—The level of detail provided for procurement and military construction in the future-years defense programs for fiscal years after fiscal year 1998 may not be less than the level of detail provided for procurement and military construction in the future-years defense program for fiscal year 1998.

SEC. 1010. SENSE OF CONGRESS REGARDING FUNDING FOR RESERVE COMPONENT MODERNIZATION NOT REQUESTED IN PRESIDENT'S BUDGET.

(a) *CRITERIA.*—It is the sense of Congress that, to the maximum extent practicable, Congress should authorize appropriations for procurement of reserve component modernization equipment for a fiscal year for equipment that is not included in the budget of the President for that fiscal year only if—

(1) there is a requirement for that equipment that has been validated by the Joint Requirements Oversight Council;

(2) procurement of that equipment is included for reserve component modernization in the modernization plan of the military department concerned and is incorporated into the current future-years defense program;

(3) procurement of that equipment is consistent with planned use of reserve component forces under Department of Defense war plans; and

(4) funds for that procurement, if authorized and appropriated for that fiscal year, could be obligated during that fiscal year.

(b) *CONSIDERATION OF VIEWS OF CHAIRMAN OF JOINT CHIEFS OF STAFF.*—It is further the sense of Congress that, in applying the criteria set forth in subsection (a) with respect to procurement of reserve component modernization equipment, Congress should obtain the views of the Chairman of the Joint Chiefs of Staff on whether, under Department of Defense war plans, that equipment is appropriate for procurement for, and assignment to, reserve component forces.

SEC. 1011. MANAGEMENT OF WORKING-CAPITAL FUNDS.

(a) *CONTRACTING FOR CAPITAL ASSETS PROCUREMENT IN ADVANCE OF FUNDS.*—Section 2208 of title 10, United States Code, is amended by striking out subsection (k) and inserting in lieu thereof the following new subsection:

“(k)(1) Subject to paragraph (2), a contract for the procurement of a capital asset financed by a working-capital fund may be awarded in advance of the availability of funds in the working-capital fund for the procurement.

“(2) Paragraph (1) applies to any of the following capital assets that have a development or acquisition cost of not less than \$100,000:

“(A) An unspecified minor military construction project under section 2805(c)(1) of this title.

“(B) Automatic data processing equipment or software.

“(C) Any other equipment.

“(D) Any other capital improvement.”

(b) *USE OF ADVANCE BILLING.*—Such section is further amended by adding at the end the following new subsection:

“(l)(1) An advance billing of a customer of a working-capital fund may be made if the Secretary of the military department con-

cerned submits to Congress written notification of the advance billing within 30 days after the end of the month in which the advanced billing was made. The notification shall include the following:

“(A) The reasons for the advance billing.

“(B) An analysis of the effects of the advance billing on military readiness.

“(C) An analysis of the effects of the advance billing on the customer.

“(2) The Secretary of Defense may waive the notification requirements of paragraph (1)—

“(A) during a period war or national emergency; or

“(B) to the extent that the Secretary determines necessary to support a contingency operation.

“(3) In this subsection:

“(A) The term ‘advance billing’, with respect to a working-capital fund, means a billing of a customer by the fund, or a requirement for a customer to reimburse or otherwise credit the fund, for the cost of goods or services provided (or for other expenses incurred) on behalf of the customer that is rendered or imposed before the customer receives the goods or before the services have been performed.

“(B) The term ‘customer’ means a requisitioning component or agency.”.

(c) FISCAL YEAR LIMITATIONS.—(1) The total amount of advance billings for Department of the Navy working-capital funds and the Defense Business Operations Fund may not exceed—

(A) \$1,000,000,000 for fiscal year 1998; and

(B) \$800,000,000 for fiscal year 1999.

(2) For purposes of paragraph (1), the term “advance billing” has the meaning given such term in section 2208(l)(3) of title 10, United States Code, as added by subsection (b).

SEC. 1012. AUTHORITY OF SECRETARY OF DEFENSE TO SETTLE CLAIMS RELATING TO PAY, ALLOWANCES, AND OTHER BENEFITS.

Section 3702(e) of title 31, United States Code, is amended—

(1) in paragraph (1), by striking out “Comptroller General” and inserting in lieu thereof “Secretary of Defense”; and

(2) by striking out paragraph (2) and inserting in lieu thereof the following new paragraph:

“(2) Payment of a claim settled under paragraph (1) shall be made from an appropriation that is available, for the fiscal year in which the payment is made, for the same purpose as the appropriation to which the obligation claimed would have been charged if the obligation had been timely paid.”.

SEC. 1013. PAYMENT OF CLAIMS BY MEMBERS FOR LOSS OF PERSONAL PROPERTY DUE TO FLOODING IN RED RIVER BASIN.

(a) PAYMENT AUTHORIZED.—Notwithstanding section 3721(e) of title 31, United States Code, the Secretary of a military department may pay the claim of a member of the Armed Forces who resided (or whose dependents resided) in the vicinity of Grand Forks Air Force Base, North Dakota, during April and May 1997 for loss and damage to personal property incurred by the member as a direct result of the flooding in the Red River Basin during such months.

(b) **REPORT ON DEPARTMENT POLICY.**—*The Secretary of Defense shall submit to Congress a report describing the Department of Defense policy regarding the payment of a claim by a member of the Armed Forces who is not assigned to quarters of the United States for losses and damage to personal property of the member incurred at the member's residence as a result of a natural disaster. The report shall include a description of the number of such claims received over the past 10 years, the number of claims paid, and the number of claims rejected. If the Secretary determines the Department of Defense should modify its policy in order to accept additional claims by members who are not assigned to quarters of the United States for losses and damage to personal property, the Secretary shall also include in the report any legislative changes that the Secretary considers necessary to enable the Secretary to implement the policy change.*

SEC. 1014. ADVANCES FOR PAYMENT OF PUBLIC SERVICES.

(a) **IN GENERAL.**—*Subsection (a) of section 2396 of title 10, United States Code, is amended—*

- (1) *by striking out “and” at the end of paragraph (2);*
- (2) *by striking out the period at the end of paragraph (3) and inserting in lieu thereof “; and”; and*
- (3) *by adding at the end the following new paragraph:*
“(4) public service utilities.”

(b) **CLERICAL AMENDMENTS.**—(1) *The heading of such section is amended to read as follows:*

“§2396. Advances for payments for compliance with foreign laws, rent in foreign countries, tuition, public utility services, and pay and supplies of armed forces of friendly foreign countries”.

(2) *The item relating to such section in the table of sections at the beginning of chapter 141 of such title is amended to read as follows:*

“2396. Advances for payments for compliance with foreign laws, rent in foreign countries, tuition, public utility services, and pay and supplies of armed forces of friendly foreign countries.”

SEC. 1015. UNITED STATES MAN AND THE BIOSPHERE PROGRAM LIMITATION.

During fiscal year 1998, the Secretary of Defense may not take any steps to carry out or support the United States Man and the Biosphere Program or any related project.

Subtitle B—Naval Vessels and Shipyards

SEC. 1021. PROCEDURES FOR SALE OF VESSELS STRICKEN FROM THE NAVAL VESSEL REGISTER.

Section 7305(c) of title 10, United States Code, is amended to read as follows:

“(c) PROCEDURES FOR SALE.—(1) A vessel stricken from the Naval Vessel Register and not subject to disposal under any other law may be sold under this section.

“(2) In such a case, the Secretary may—

“(A) sell the vessel to the highest acceptable bidder, regardless of the appraised value of the vessel, after publicly advertising the sale of the vessel for a period of not less than 30 days; or

“(B) subject to paragraph (3), sell the vessel by competitive negotiation to the acceptable offeror who submits the offer that is most advantageous to the United States (taking into account price and such other factors as the Secretary determines appropriate).

“(3) Before entering into negotiations to sell a vessel under paragraph (2)(B), the Secretary shall publish notice of the intention to do so in the *Commerce Business Daily* sufficiently in advance of initiating the negotiations that all interested parties are given a reasonable opportunity to prepare and submit proposals. The Secretary shall afford an opportunity to participate in the negotiations to all acceptable offerors submitting proposals that the Secretary considers as having the potential to be the most advantageous to the United States (taking into account price and such other factors as the Secretary determines appropriate).”.

SEC. 1022. AUTHORITY TO ENTER INTO A LONG-TERM CHARTER FOR A VESSEL IN SUPPORT OF THE SURVEILLANCE TOWED-ARRAY SENSOR (SURTASS) PROGRAM.

The Secretary of the Navy is authorized to enter into a contract in accordance with section 2401 of title 10, United States Code, for the charter, for a period through fiscal year 2003, of the vessel RV CORY CHOUEST (United States official number 933435) in support of the Surveillance Towed-Array Sensor (SURTASS) program.

SEC. 1023. TRANSFER OF TWO SPECIFIED OBSOLETE TUGBOATS OF THE ARMY.

(a) **AUTHORITY TO TRANSFER VESSELS.**—The Secretary of the Army may transfer the two obsolete tugboats of the Army described in subsection (b) to the Brownsville Navigation District, Brownsville, Texas.

(b) **VESSELS COVERED.**—Subsection (a) applies to the following two decommissioned tugboats of the Army, each of which is listed as of the date of the enactment of this Act as being surplus to the needs of the Army: the *Normandy* (LT-1971) and the *Salerno* (LT-1953).

(c) **TRANSFERS TO BE AT NO COST TO UNITED STATES.**—A transfer authorized by this section shall be made at no cost to the United States.

(d) **TERMS AND CONDITIONS.**—The Secretary may require such additional terms and conditions in connection with the transfers authorized by this section as the Secretary considers appropriate.

SEC. 1024. CONGRESSIONAL REVIEW PERIOD WITH RESPECT TO TRANSFER OF EX-U.S.S. HORNET (CV-12) AND EX-U.S.S. MIDWAY (CV-41).

(a) **REDUCTION IN CONGRESSIONAL REVIEW PERIOD.**—In applying section 7306 of title 10, United States Code, with respect to the transfer of a vessel specified in subsection (c), subsection (d)(1)(B) of that section shall be applied by substituting “30 days” for “60 days”.

(b) **WAIVER IF ONLY ONE QUALIFIED ENTITY APPLIES FOR TRANSFER OF VESSEL.**—If in the case of a vessel specified in subsection (c) only a single qualified entity, as determined by the Sec-

retary of the Navy, applies for transfer of the vessel, the Secretary may carry out the transfer of the vessel under section 7306 of title 10, United States Code, without regard to subsection (d)(1)(B) of that section. In such a case, the transfer may be made only after 10 days of continuous session of Congress (determined in the manner specified in section 7306(d)(2) of title 10, United States Code) have expired following the date on which the Secretary submits to Congress a certification that only a single qualified entity applied for transfer of the vessel.

(c) COVERED VESSELS.—This section applies to the following vessels (each of which is a decommissioned aircraft carrier):

- (1) Ex-U.S.S. HORNET (CV-12).
- (2) Ex-U.S.S. MIDWAY (CV-41).

SEC. 1025. TRANSFER OF NAVAL VESSELS TO CERTAIN FOREIGN COUNTRIES.

SEC. 1027. CONVERSION OF DEFENSE CAPABILITY PRESERVATION AUTHORITY TO NAVY SHIPBUILDING CAPABILITY PRESERVATION AUTHORITY.

(a) **IN GENERAL.**—(1) Chapter 633 of title 10, United States Code, is amended by adding at the end the following new section:

“§ 7315. Preservation of Navy shipbuilding capability

“(a) **SHIPBUILDING CAPABILITY PRESERVATION AGREEMENTS.**—The Secretary of the Navy may enter into an agreement, to be

known as a 'shipbuilding capability preservation agreement', with a shipbuilder under which the cost reimbursement rules described in subsection (b) shall be applied to the shipbuilder under a Navy contract for the construction of a ship. Such an agreement may be entered into in any case in which the Secretary determines that the application of such cost reimbursement rules would facilitate the achievement of the policy objectives set forth in section 2501(b) of this title.

"(b) **COST REIMBURSEMENT RULES.**—The cost reimbursement rules applicable under an agreement entered into under subsection (a) are as follows:

"(1) The Secretary of the Navy shall, in determining the reimbursement due a shipbuilder for its indirect costs of performing a contract for the construction of a ship for the Navy, allow the shipbuilder to allocate indirect costs to its private sector work only to the extent of the shipbuilder's allocable indirect private sector costs, subject to paragraph (3).

"(2) For purposes of paragraph (1), the allocable indirect private sector costs of a shipbuilder are those costs of the shipbuilder that are equal to the sum of the following:

"(A) The incremental indirect costs attributable to such work.

"(B) The amount by which the revenue attributable to such private sector work exceeds the sum of—

"(i) the direct costs attributable to such private sector work; and

"(ii) the incremental indirect costs attributable to such private sector work.

"(3) The total amount of allocable indirect private sector costs for a contract covered by the agreement may not exceed the amount of indirect costs that a shipbuilder would have allocated to its private sector work during the period covered by the agreement in accordance with the shipbuilder's established accounting practices.

"(c) **AUTHORITY TO MODIFY COST REIMBURSEMENT RULES.**—The cost reimbursement rules set forth in subsection (b) may be modified by the Secretary of the Navy for a particular agreement if the Secretary determines that modifications are appropriate to the particular situation to facilitate achievement of the policy set forth in section 2501(b) of this title.

"(d) **APPLICABILITY.**—(1) An agreement entered into with a shipbuilder under subsection (a) shall apply to each of the following Navy contracts with the shipbuilder:

"(A) A contract that is in effect on the date on which the agreement is entered into.

"(B) A contract that is awarded during the term of the agreement.

"(2) In a shipbuilding capability preservation agreement applicable to a shipbuilder, the Secretary may agree to apply the cost reimbursement rules set forth in subsection (b) to allocations of indirect costs to private sector work performed by the shipbuilder only with respect to costs that the shipbuilder incurred on or after the date of the enactment of the National Defense Authorization Act for Fiscal Year 1998 under a contract between the shipbuilder and a

private sector customer of the shipbuilder that became effective on or after January 26, 1996.”.

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

“7315. Preservation of Navy shipbuilding capability.”.

(b) **IMPLEMENTATION.**—Not later than 30 days after the date of the enactment of this Act, the Secretary of the Navy shall establish application procedures and procedures for expeditious consideration of shipbuilding capability preservation agreements as authorized by section 7315 of title 10, United States Code, as added by subsection (a).

(c) **REPORT.**—Not later than February 15, 1998, the Secretary of the Navy shall submit to Congress a report on applications for shipbuilding capability preservation agreements under section 7315 of title 10, United States Code, as added by subsection (a). The report shall specify the number of the applications received, the number of the applications approved, and a discussion of the reasons for disapproval of any application disapproved.

(d) **REPEAL OF SUPERSEDED PROVISION.**—Section 808 of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104-106; 110 Stat. 393; 10 U.S.C. 2501 note) is repealed.

Subtitle C—Counter-Drug Activities

SEC. 1031. USE OF NATIONAL GUARD FOR STATE DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES.

(a) **RELATIONSHIP TO TRAINING AND READINESS.**—Subsection (b) of section 112 of title 32, United States Code, is amended—

(1) by inserting “(1)” before “Under regulations”; and

(2) by adding at the end the following new paragraphs:

“(2) To ensure that the use of units and personnel of the National Guard of a State pursuant to a State drug interdiction and counter-drug activities plan is not detrimental to the training and readiness of such units and personnel, the requirements of section 2012(d) of title 10 shall apply in determining the drug interdiction and counter-drug activities that units and personnel of the National Guard of a State may perform.

“(3) Section 508 of this title, regarding the provision of assistance to certain specified youth and charitable organizations, shall apply in any case in which a unit or member of the National Guard of a State is proposed to be used pursuant to a State drug interdiction and counter-drug activities plan to provide to an organization specified in subsection (d) of such section any of the services described in subsection (b) of such section or services regarding counter-drug education.”.

(b) **ENGINEER-TYPE ACTIVITIES.**—Subsection (c) of such section is amended—

(1) by redesignating paragraphs (4) and (5) as paragraphs (5) and (6), respectively; and

(2) by inserting after paragraph (3) the following new paragraph:

“(4) certify that any engineer-type activities (as defined by the Secretary of Defense) under the plan will be performed only by units and members of the National Guard.”.

(c) ANNUAL REPORT.—Such section is further amended—

(1) by redesignating subsections (g) and (h) as subsections (h) and (i), respectively; and

(2) by inserting after subsection (f) the following new subsection:

“(g) ANNUAL REPORT.—The Secretary of Defense shall submit to Congress an annual report regarding assistance provided and activities carried out under this section during the preceding fiscal year. The report shall include the following:

“(1) The number of members of the National Guard excluded under subsection (e) from the computation of end strengths.

“(2) A description of the drug interdiction and counter-drug activities conducted under State drug interdiction and counter-drug activities plans referred to in subsection (c) with funds provided under this section.

“(3) An accounting of the amount of funds provided to each State.

“(4) A description of the effect on military training and readiness of using units and personnel of the National Guard to perform activities under the State drug interdiction and counter-drug activities plans.”.

(d) CONFORMING AMENDMENTS.—Subsection (e) of such section is amended—

(1) by striking out “(1)” before “Members”; and

(2) by striking out paragraph (2).

SEC. 1032. AUTHORITY TO PROVIDE ADDITIONAL SUPPORT FOR COUNTER-DRUG ACTIVITIES OF MEXICO.

(a) EXTENSION OF AUTHORITY; CONSULTATION OF SECRETARY OF STATE.—Subsection (a) of section 1031 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 110 Stat. 2637), is amended—

(1) by striking out “fiscal year 1997” and inserting in lieu thereof “fiscal years 1997 and 1998”; and

(2) by inserting after the first sentence the following new sentence: “In providing support to the Government of Mexico under this section, the Secretary of Defense shall consult with the Secretary of State.”.

(b) EXTENSION OF AVAILABILITY OF FUNDS.—Subsection (d) of such section is amended—

(1) by striking out “not more than” and inserting in lieu thereof “an amount not to exceed”; and

(2) by adding at the end the following new sentences: “Funds made available for fiscal year 1997 under this subsection and unobligated by September 30, 1997, may be obligated during fiscal year 1998. No funds are authorized to be appropriated for fiscal year 1998 for the provision of support under this section.”.

SEC. 1033. AUTHORITY TO PROVIDE ADDITIONAL SUPPORT FOR COUNTER-DRUG ACTIVITIES OF PERU AND COLOMBIA.

(a) *AUTHORITY TO PROVIDE SUPPORT.*—Subject to subsection (f), during fiscal years 1998 through 2002, the Secretary of Defense may provide either or both of the foreign governments named in subsection (b) with the support described in subsection (c) for the counter-drug activities of that government. In providing support to a government under this section, the Secretary of Defense shall consult with the Secretary of State. The support provided under the authority of this section shall be in addition to support provided to the governments under any other provision of law.

(b) *GOVERNMENTS ELIGIBLE TO RECEIVE SUPPORT.*—The foreign governments eligible to receive counter-drug support under this section are as follows:

- (1) The Government of Peru.
- (2) The Government of Colombia.

(c) *TYPES OF SUPPORT.*—The authority under subsection (a) is limited to the provision of the following types of support to a government named in subsection (b):

- (1) The types of support specified in paragraphs (1), (2), and (3) of section 1031(b) of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 110 Stat. 2637).
- (2) The transfer of riverine patrol boats.
- (3) The maintenance and repair of equipment of the government that is used for counter-drug activities.

(d) *APPLICABILITY OF OTHER SUPPORT AUTHORITIES.*—Except as otherwise provided in this section, the provisions of section 1004 of the National Defense Authorization Act for Fiscal Year 1991 (Public Law 101-510; 10 U.S.C. 374 note) shall apply to the provision of support under this section.

(e) *FISCAL YEAR 1998 FUNDING; LIMITATION ON OBLIGATIONS.*—

(1) Of the amount authorized to be appropriated under section 301(20) for drug interdiction and counter-drug activities, an amount not to exceed \$9,000,000 shall be available for the provision of support under this section.

(2) Amounts made available to carry out this section shall remain available until expended, except that the total amount obligated and expended under this section may not exceed \$20,000,000 during any of the fiscal years 1999 through 2002.

(f) *CONDITION ON PROVISION OF SUPPORT.*—(1) The Secretary of Defense may not obligate or expend funds during a fiscal year to provide support under this section to a government named in subsection (b) until the end of the 15-day period beginning on the date on which the Secretary submits to the congressional committees the written certification described in subsection (g) for that fiscal year.

(2) In the case of the first fiscal year in which support is to be provided under this section to a government named in subsection (b), the obligation or expenditure of funds under this section to provide support to that government shall also be subject to the condition that—

- (A) the Secretary submit to the congressional committees the riverine counter-drug plan described in subsection (h); and
- (B) a period of 60 days expires after the date on which the report is submitted.

(3) *In the case of subsequent fiscal years in which support is to be provided under this section to a government named in subsection (b), the obligation or expenditure of funds under this section to provide support to that government shall also be subject to the condition that the Secretary submit to the congressional committees any revision of the counter-drug plan described in subsection (h) applicable to that government.*

(4) *For purposes of this subsection, the term "congressional committees" means the following:*

(A) *The Committee on Armed Services and the Committee on Foreign Relations of the Senate.*

(B) *The Committee on National Security and the Committee on International Relations of the House of Representatives.*

(g) **REQUIRED CERTIFICATION.**—*The written certification required by subsection (f)(1) for a fiscal year is a certification of the following with respect to each government to receive support under this section:*

(1) *That the provision of the support to the government will not adversely affect the military preparedness of the United States Armed Forces.*

(2) *That the equipment and materiel provided as support will be used only by officials and employees of the government who have undergone background investigations by that government and have been approved by that government to perform counter-drug activities on the basis of the background investigations.*

(3) *That the government has certified to the Secretary of Defense that—*

(A) *the equipment and materiel provided as support will be used only by the officials and employees referred to in paragraph (2);*

(B) *none of the equipment or materiel will be transferred (by sale, gift, or otherwise) to any person or entity not authorized by the United States to receive the equipment or materiel; and*

(C) *the equipment and materiel will be used only for the purposes intended by the United States Government.*

(4) *That the government has implemented, to the satisfaction of the Secretary of Defense, a system that will provide an accounting and inventory of the equipment and materiel provided as support.*

(5) *That the departments, agencies, and instrumentalities of the government will grant United States Government personnel access to any of the equipment or materiel provided as support, or to any of the records relating to such equipment or materiel, under terms and conditions similar to the terms and conditions imposed with respect to such access under section 505(a)(3) of the Foreign Assistance Act of 1961 (22 U.S.C. 2314(a)(3)).*

(6) *That the government will provide security with respect to the equipment and materiel provided as support that is substantially the same degree of security that the United States Government would provide with respect to such equipment and materiel.*

(7) That the government will permit continuous observation and review by United States Government personnel of the use of the equipment and materiel provided as support under terms and conditions similar to the terms and conditions imposed with respect to such observation and review under section 505(a)(3) of the Foreign Assistance Act of 1961 (22 U.S.C. 2314(a)(3)).

(h) **RIVERINE COUNTER-DRUG PLAN.**—The Secretary of Defense, in consultation with the Secretary of State, shall prepare for fiscal year 1998 (and revise as necessary for subsequent fiscal years) a riverine counter-drug plan involving the governments named in subsection (b) to which support will be provided under this section. The plan for a fiscal year shall include the following with respect to each government to receive support under this section:

(1) A detailed security assessment, including a discussion of the threat posed by illicit drug traffickers in the foreign country.

(2) An evaluation of previous and ongoing riverine counter-drug operations by the government.

(3) An assessment of the monitoring of past and current assistance provided by the United States under this section to the government to ensure the appropriate use of such assistance.

(4) A description of the centralized management and coordination among Federal agencies involved in the development and implementation of the plan.

(5) A description of the roles and missions and coordination among agencies of the government involved in the development and implementation of the plan.

(6) A description of the resources to be contributed by the Department of Defense and the Department of State for the fiscal year or years covered by the plan and the manner in which such resources will be utilized under the plan.

(7) For the first fiscal year in which support is to be provided under this section, a schedule for establishing a riverine counter-drug program that can be sustained by the government within five years, and for subsequent fiscal years, a description of the progress made in establishing and carrying out the program.

(8) A reporting system to measure the effectiveness of the riverine counter-drug program.

(9) A detailed discussion of how the riverine counter-drug program supports the national drug control strategy of the United States.

SEC. 1034. ANNUAL REPORT ON DEVELOPMENT AND DEPLOYMENT OF NARCOTICS DETECTION TECHNOLOGIES.

(a) **REPORT REQUIREMENT.**—Not later than December 1st of each year, the Director of the Office of National Drug Control Policy shall submit to Congress and the President a report on the development and deployment of narcotics detection technologies by Federal agencies. Each such report shall be prepared in consultation with the Secretary of Defense, the Secretary of State, the Secretary of Transportation, and the Secretary of the Treasury.

(b) **MATTERS TO BE INCLUDED.**—Each report under subsection (a) shall include—

(1) a description of each project implemented by a Federal agency relating to the development or deployment of narcotics detection technology;

(2) the agency responsible for each project described in paragraph (1);

(3) the amount of funds obligated or expended to carry out each project described in paragraph (1) during the fiscal year in which the report is submitted or during any fiscal year preceding the fiscal year in which the report is submitted;

(4) the amount of funds estimated to be obligated or expended for each project described in paragraph (1) during any fiscal year after the fiscal year in which the report is submitted to Congress; and

(5) a detailed timeline for implementation of each project described in paragraph (1).

Subtitle D—Miscellaneous Report Requirements and Repeals

SEC. 1041. REPEAL OF MISCELLANEOUS REPORTING REQUIREMENTS.

(a) **REQUIREMENT FOR NOTICE OF CONVERSION OF CERTAIN HEATING SYSTEMS AT INSTALLATIONS IN EUROPE.**—Section 2690(b) of title 10, United States Code, is amended by striking out “unless the Secretary—” and all that follows and inserting in lieu thereof the following: “unless the Secretary determines that the conversion—

“(1) is required by the government of the country in which the facility is located; or

“(2) is cost-effective over the life cycle of the facility.”.

(b) **REPORT ON AVAILABILITY OF SUITABLE ALTERNATIVE HOUSING.**—Section 2823 of title 10, United States Code, is amended—

(1) by striking out subsection (b); and

(2) by redesignating subsections (c) and (d) as subsections (b) and (c), respectively.

(c) **REPORT ON STRETCHOUT OF MAJOR DEFENSE ACQUISITION PROGRAMS.**—Section 117 of the National Defense Authorization Act, Fiscal Year 1989 (Public Law 100-456; 102 Stat. 1933; 10 U.S.C. 2431 note), is repealed.

(d) **ELIMINATION OF REQUIREMENT FOR QUARTERLY REPORT CONCERNING TRAVEL FUNDING FOR CHEMICAL DEMILITARIZATION CITIZENS’ ADVISORY COMMISSIONERS.**—(1) Section 1412(g) of the National Defense Authorization Act for Fiscal Year 1986 (50 U.S.C. 1521(g)) is amended—

(A) by striking out paragraph (3);

(B) by striking out the last sentence of paragraph (4); and

(C) by redesignating paragraph (4) (as so amended) as paragraph (3).

(2) Section 153(b) of the National Defense Authorization Act for Fiscal Year 1996 (50 U.S.C. 1521 note) is amended—

(A) by striking out “QUARTERLY” in the heading; and

(B) by striking out paragraphs (4) and (5).

SEC. 1042. STUDY OF TRANSFER OF MODULAR AIRBORNE FIRE FIGHTING SYSTEM.

Not later than six months after the date of the enactment of this Act, the Secretary of Defense, in consultation with the Secretary of Agriculture, shall submit to Congress a report evaluating the feasibility of transferring jurisdiction over units of the Modular Airborne Fire Fighting System from the Department of Agriculture to the Department of Defense.

SEC. 1043. OVERSEAS INFRASTRUCTURE REQUIREMENTS.

(a) *FINDINGS.*—Congress makes the following findings:

(1) *United States military forces have been withdrawn from the Philippines.*

(2) *United States military forces are to be withdrawn from Panama by 2000.*

(3) *There continues to be local opposition to the continued presence of United States military forces in Okinawa.*

(4) *The Quadrennial Defense Review lists “the loss of U.S. access to critical facilities and lines of communication in key regions” as one of the so-called “wild card” scenarios covered in the review.*

(5) *The National Defense Panel states that “U.S. forces’ long-term access to forward bases, to include air bases, ports, and logistics facilities, cannot be assumed”.*

(b) *SENSE OF CONGRESS.*—It is the sense of Congress that—

(1) *the President should develop alternatives to the current arrangement for forward basing of the Armed Forces outside the United States, including alternatives to the existing infrastructure for forward basing of forces and alternatives to the existing international agreements that provide for basing of United States forces in foreign countries; and*

(2) *because the Pacific Rim continues to emerge as a region of significant economic and military importance to the United States, a continued presence of the Armed Forces in that region is vital to the capability of the United States to timely protect its interests in the region.*

(c) *REPORT REQUIRED.*—Not later than March 31, 1998, the Secretary of Defense shall submit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a report on the overseas infrastructure requirements of the Armed Forces.

(d) *CONTENT.*—The report shall contain the following:

(1) *The quantity and types of forces that the United States must station in each region of the world in order to support the current national military strategy of the United States.*

(2) *The quantity and types of forces that the United States will need to station in each region of the world in order to meet the expected or potential future threats to the national security interests of the United States.*

(3) *The requirements for access to, and use of, air space and ground maneuver areas in each such region for training for the quantity and types of forces identified for the region pursuant to paragraphs (1) and (2).*

(4) *A list of the international agreements, currently in force, that the United States has entered into with foreign countries*

regarding the basing of United States forces in those countries and the dates on which the agreements expire.

(5) A discussion of any anticipated political opposition or other opposition to the renewal of any of those international agreements.

(6) A discussion of future overseas basing requirements for United States forces, taking into account expected changes in national security strategy, national security environment, and weapons systems.

(7) The expected costs of maintaining the overseas infrastructure for foreign based forces of the United States, including the costs of constructing any new facilities that will be necessary overseas to meet emerging requirements relating to the national security interests of the United States.

(e) *FORM OF REPORT.*—The report may be submitted in a classified or unclassified form.

SEC. 1044. ADDITIONAL MATTERS FOR ANNUAL REPORT ON ACTIVITIES OF THE GENERAL ACCOUNTING OFFICE.

Section 719(b) of title 31, United States Code, is amended by adding at the end the following:

“(3) The report under subsection (a) shall also include a statement of the staff hours and estimated cost of work performed on audits, evaluations, investigations, and related work during each of the three fiscal years preceding the fiscal year in which the report is submitted, stated separately for each division of the General Accounting Office by category as follows:

“(A) A category for work requested by the chairman of a committee of Congress, the chairman of a subcommittee of such a committee, or any other Member of Congress.

“(B) A category for work required by law to be performed by the Comptroller General.

“(C) A category for work initiated by the Comptroller General in the performance of the Comptroller General’s general responsibilities.”.

SEC. 1045. EYE SAFETY AT SMALL ARMS FIRING RANGES.

(a) *ACTIONS REQUIRED.*—The Secretary of the Defense shall—

(1) conduct a study of eye safety at small arms firing ranges of the Armed Forces; and

(2) develop for the use of the Armed Forces a protocol for reporting eye injuries incurred in small arms firing activities at the ranges.

(b) *AGENCY TASKING.*—The Secretary may delegate authority to carry out the responsibilities set forth in subsection (a) to the United States Army Center for Health Promotion and Preventive Medicine or any other element of the Department of Defense that the Secretary considers well qualified to carry out those responsibilities.

(c) *CONTENT OF STUDY.*—The study under subsection (a)(1) shall include the following:

(1) An evaluation of the existing policies, procedures, and practices of the Armed Forces regarding medical surveillance of eye injuries resulting from weapons fire at the small arms ranges.

(2) *An examination of the existing policies, procedures, and practices of the Armed Forces regarding reporting on vision safety issues resulting from weapons fire at the small arms ranges.*

(3) *Determination of rates of eye injuries, and trends in eye injuries, resulting from weapons fire at the small arms ranges.*

(4) *An evaluation of the costs and benefits of a requirement for use of eye protection devices by all personnel firing small arms at the ranges.*

(d) *REPORT.—The Secretary shall submit a report on the activities required under this section to the Committees on Armed Services and on Veterans' Affairs of the Senate and the Committees on National Security and on Veterans' Affairs of the House of Representatives. The report shall include—*

(1) *the findings resulting from the study under paragraph (1) of subsection (a); and*

(2) *the protocol developed under paragraph (2) of such subsection.*

(e) *SCHEDULE.—(1) The Secretary shall ensure that the study is commenced not later than January 1, 1998, and is completed not later than six months after the date on which it is commenced.*

(2) *The Secretary shall submit the report required under subsection (d) not later than 30 days after the completion of the study.*

SEC. 1046. REPORTS ON DEPARTMENT OF DEFENSE PROCEDURES FOR INVESTIGATING MILITARY AVIATION ACCIDENTS AND FOR NOTIFYING AND ASSISTING FAMILIES OF VICTIMS.

(a) *REPORT ON AVIATION ACCIDENT INVESTIGATION PROCEDURES.—Not later than February 1, 1998, the Secretary of Defense shall submit to Congress a report on the advisability of establishing a process for investigating Department of Defense aviation accidents that combines accident investigation with safety investigation into a single, public investigation process, similar to the accident investigation process of the National Transportation Safety Board. The report shall include a discussion of the advantages and disadvantages of adopting such an investigation process.*

(b) *REPORT ON FAMILY ASSISTANCE.—Not later than April 2, 1998, the Secretary of Defense shall submit to Congress a report on assistance provided by the Department of Defense to families of casualties among military and civilian personnel of the department in the case of aviation accidents involving such personnel. The report shall include—*

(1) *a discussion of the adequacy and effectiveness of the family notification procedures of the Department of Defense, including the procedures of the military departments; and*

(2) *a description of the assistance provided to members of the families of such personnel.*

(c) *REPORT BY DEPARTMENT OF DEFENSE INSPECTOR GENERAL.—Not later than December 1, 1997, the Inspector General of the Department of Defense shall review the procedures of the Federal Aviation Administration and the National Transportation Safety Board for providing information and assistance to members of families of casualties of nonmilitary aviation accidents and shall submit to Congress a report on the review. The report shall include a discussion of the following:*

(1) *Designation of an experienced non-profit organization to provide assistance in meeting the needs of families of accident casualties.*

(2) *An assessment of the system and procedures for providing families with information on accidents and accident investigations.*

(3) *Protection of members of families from unwanted solicitations relating to the accident.*

(4) *A recommendation regarding whether the procedures reviewed (including the matters discussed under paragraphs (1), (2), and (3)) or similar procedures should be adopted by the Department of Defense for use by the Department in providing information and assistance to members of families of casualties of military aviation accidents and, if the recommendation is not to adopt such procedures, a detailed justification for the recommendation.*

(d) *UNCLASSIFIED FORM OF REPORTS.—The reports under this section shall be submitted in unclassified form.*

Subtitle E—Matters Relating to Terrorism

SEC. 1051. OVERSIGHT OF COUNTERTERRORISM AND ANTITERRORISM ACTIVITIES; REPORT.

(a) *OVERSIGHT OF COUNTERTERRORISM AND ANTITERRORISM ACTIVITIES.—Not later than 120 days after the date of the enactment of this Act, the Director of the Office of Management and Budget shall—*

(1) *establish a reporting system for executive agencies with respect to the budget and expenditure of funds by such agencies for the purpose of carrying out counterterrorism and antiterrorism programs and activities; and*

(2) *using such reporting system, collect information on—*

(A) *the budget and expenditure of funds by executive agencies during the current fiscal year for purposes of carrying out counterterrorism and antiterrorism programs and activities; and*

(B) *the specific programs and activities for which such funds were expended.*

(b) *REPORT.—Not later than March 1 of each year, the President shall submit to Congress a report in classified and unclassified form (using the information described in subsection (a)(2)) describing, for each executive agency and for the executive branch as a whole, the following:*

(1) *The amounts proposed to be expended for counterterrorism and antiterrorism programs and activities for the fiscal year beginning in the calendar year in which the report is submitted.*

(2) *The amounts proposed to be expended for counterterrorism and antiterrorism programs and activities for the fiscal year in which the report is submitted and the amounts that have already been expended for such programs and activities for that fiscal year.*

(3) *The specific counterterrorism and antiterrorism programs and activities being implemented, any priorities with re-*

spect to such programs and activities, and whether there has been any duplication of efforts in implementing such programs and activities.

SEC. 1052. PROVISION OF ADEQUATE TROOP PROTECTION EQUIPMENT FOR ARMED FORCES PERSONNEL ENGAGED IN PEACE OPERATIONS; REPORT ON ANTITERRORISM ACTIVITIES AND PROTECTION OF PERSONNEL.

(a) **PROTECTION OF PERSONNEL.**—The Secretary of Defense shall take appropriate actions to ensure that units of the Armed Forces engaged in a peace operation are provided adequate troop protection equipment for that operation.

(b) **SPECIFIC ACTIONS.**—In taking actions under subsection (a), the Secretary shall—

(1) identify the additional troop protection equipment, if any, required to equip a division (or the equivalent of a division) with adequate troop protection equipment for peace operations; and

(2) establish procedures to facilitate the exchange or transfer of troop protection equipment among units of the Armed Forces.

(c) **DESIGNATION OF RESPONSIBLE OFFICIAL.**—The Secretary of Defense shall designate an official within the Department of Defense to be responsible for—

(1) ensuring the appropriate allocation of troop protection equipment among the units of the Armed Forces engaged in peace operations; and

(2) monitoring the availability, status or condition, and location of such equipment.

(d) **TROOP PROTECTION EQUIPMENT DEFINED.**—In this section, the term “troop protection equipment” means the equipment required by units of the Armed Forces to defend against any hostile threat that is likely during a peace operation, including an attack by a hostile crowd, small arms fire, mines, and a terrorist bombing attack.

(e) **REPORT ON ANTITERRORISM ACTIVITIES OF THE DEPARTMENT OF DEFENSE AND PROTECTION OF PERSONNEL.**—Not later than 120 days after the date of the enactment of this Act, the Secretary of Defense shall submit to Congress a report, in classified and unclassified form, on antiterrorism activities of the Department of Defense and the actions taken by the Secretary under subsections (a), (b) and (c). The report shall include the following:

(1) A description of the programs designed to carry out antiterrorism activities of the Department of Defense, any deficiencies in those programs, and any actions taken by the Secretary to improve implementation of such programs.

(2) An assessment of the current policies and practices of the Department of Defense with respect to the protection of members of the Armed Forces overseas against terrorist attack, including any modifications to such policies or practices that are proposed or implemented as a result of the assessment.

(3) An assessment of the procedures of the Department of Defense for determining accountability, if any, in the command structure of the Armed Forces in instances in which a terrorist

attack results in the loss of life at an overseas military installation or facility.

(4) A detailed description of the roles of the Office of the Secretary of Defense, the Chairman of the Joint Chiefs of Staff, the Secretaries of the military departments, and the combatant commanders in providing guidance and support with respect to the protection of members of the Armed Forces deployed overseas against terrorist attack (both before and after the November, 1995 bombing in Riyadh, Saudi Arabia) and how these roles have changed since the June 25, 1996, terrorist bombing at Khobar Towers in Dhahran, Saudi Arabia.

(5) A description of the actions taken by the Secretary of Defense under subsections (a), (b), and (c) to provide adequate troop protection equipment for units of the Armed Forces engaged in a peace operation.

Subtitle F—Matters Relating to Defense Property

SEC. 1061. LEASE OF NONEXCESS PERSONAL PROPERTY OF MILITARY DEPARTMENTS.

(a) RECEIPT OF FAIR MARKET VALUE.—Subsection (b)(4) of section 2667 of title 10, United States Code, is amended by striking out “, in the case of the lease of real property,”.

(b) COMPETITIVE SELECTION.—Such section is further amended—

(1) by redesignating subsection (g) as subsection (h); and

(2) by inserting after subsection (f) the following new subsection:

“(g)(1) If a proposed lease under subsection (a) involves only personal property, the lease term exceeds one year, and the fair market value of the lease interest exceeds \$100,000, as determined by the Secretary concerned, the Secretary shall use competitive procedures to select the lessee.

“(2) Not later than 45 days before entering into a lease described in paragraph (1), the Secretary concerned shall submit to Congress written notice describing the terms of the proposed lease and the competitive procedures used to select the lessee.”.

(c) CLERICAL AMENDMENTS.—(1) The heading of such section is amended to read as follows:

“§2667. Leases: non-excess property of military departments”.

(2) The table of sections at the beginning of chapter 159 of title 10, United States Code, is amended by striking out the item relating to section 2667 and inserting in lieu thereof the following new item: “2667. Leases: non-excess property of military departments.”.

(d) CONFORMING AMENDMENT.—Section 2490a(f)(2) of title 10, United States Code, is amended by striking out “section 2667(g)” and inserting in lieu thereof “section 2667(h)”.

SEC. 1062. LEASE OF NONEXCESS PROPERTY OF DEFENSE AGENCIES.

(a) *LEASE AUTHORITY.*—Chapter 159 of title 10, United States Code, is amended by inserting after section 2667 the following new section:

“§2667a. Leases: non-excess property of Defense Agencies

“(a) *LEASE AUTHORITY.*—Whenever the Secretary of Defense considers it advantageous to the United States, the Secretary may lease to such lessee and upon such terms as the Secretary considers will promote the national defense or to be in the public interest, personal property that is—

“(1) under the control of a Defense Agency;

“(2) not for the time needed for public use; and

“(3) not excess property, as defined by section 3 of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 472).

“(b) *LIMITATION, TERMS, AND CONDITIONS.*—A lease under subsection (a)—

“(1) may not be for more than five years unless the Secretary of Defense determines that a lease for a longer period will promote the national defense or be in the public interest;

“(2) may give the lessee the first right to buy the property if the lease is revoked to allow the United States to sell the property under any other provision of law;

“(3) shall permit the Secretary to revoke the lease at any time, unless the Secretary determines that the omission of such a provision will promote the national defense or be in the public interest;

“(4) shall provide for the payment (in cash or in kind) by the lessee of consideration in an amount that is not less than the fair market value of the lease interest, as determined by the Secretary; and

“(5) may provide, notwithstanding any other provision of law, for the improvement, maintenance, protection, repair, restoration, or replacement by the lessee, of the property leased as the payment of part or all of the consideration for the lease.

“(c) *COMPETITIVE SELECTION.*—(1) If the term of a proposed lease under subsection (a) exceeds one year and the fair market value of the lease interest exceeds \$100,000, as determined by the Secretary of Defense, the Secretary shall use competitive procedures to select the lessee.

“(2) Not later than 45 days before entering into a lease described in paragraph (1), the Secretary shall submit to Congress a written notice describing the terms of the proposed lease and the competitive procedures used to select the lessee.

“(d) *DISPOSITION OF MONEY RENT.*—Money rentals received pursuant to a lease entered into by the Secretary of Defense under subsection (a) shall be deposited in a special account in the Treasury established for the Defense Agency whose property is subject to the lease. Amounts in a Defense Agency’s special account shall be available, to the extent provided in appropriations Acts, solely for the maintenance, repair, restoration, or replacement of the leased property.”

(b) *CLERICAL AMENDMENT.*—The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 2667 the following new item:

“2667a. Leases: non-excess property of Defense Agencies.”

SEC. 1063. DONATION OF EXCESS CHAPEL PROPERTY TO CHURCHES DAMAGED OR DESTROYED BY ARSON OR OTHER ACTS OF TERRORISM.

(a) *AUTHORITY TO DONATE.*—Chapter 153 of title 10, United States Code, is amended by adding at the end the following new section:

“§ 2580. Donation of excess chapel property

“(a) *AUTHORITY TO DONATE.*—The Secretary of a military department may donate personal property specified in subsection (b) to an organization described in section 501(c)(3) of the Internal Revenue Code of 1986 that is a religious organization in order to assist the organization in restoring or replacing property of the organization that has been damaged or destroyed as a result of an act of arson or terrorism, as determined pursuant to procedures prescribed by the Secretary of Defense.

“(b) *PROPERTY COVERED.*—(1) The property authorized to be donated under subsection (a) is furniture and other personal property that—

“(A) is in, or was formerly in, a chapel under the jurisdiction of the Secretary of a military department and closed or being closed; and

“(B) is determined by the Secretary to be excess to the requirements of the armed forces.

“(2) No real property may be donated under this section.

“(c) *DONEES NOT TO BE CHARGED.*—No charge may be imposed by the Secretary of a military department on a donee of property under this section in connection with the donation. However, the donee shall agree to defray any expense for shipping or other transportation of property donated under this section from the location of the property when donated to any other location.”

(b) *CLERICAL AMENDMENT.*—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

“2580. Donation of excess chapel property.”

SEC. 1064. AUTHORITY OF THE SECRETARY OF DEFENSE CONCERNING DISPOSAL OF ASSETS UNDER COOPERATIVE AGREEMENTS ON AIR DEFENSE IN CENTRAL EUROPE.

(a) *GENERAL AUTHORITIES.*—The Secretary of Defense, pursuant to an amendment or amendments to the European air defense agreements, may dispose of any defense articles owned by the United States and acquired to carry out such agreements by providing such articles to the Federal Republic of Germany. In carrying out such disposal, the Secretary—

(1) may provide without monetary charge to the Federal Republic of Germany articles specified in the agreements; and

(2) may accept from the Federal Republic of Germany (in exchange for the articles provided under paragraph (1)) articles, services, or any other consideration, as determined appropriate by the Secretary.

(b) **DEFINITION OF EUROPEAN AIR DEFENSE AGREEMENTS.**—For the purposes of this section, the term “European air defense agreements” means—

(1) the agreement entitled “Agreement between the Secretary of Defense of the United States of America and the Minister of Defense of the Federal Republic of Germany on Cooperative Measures for Enhancing Air Defense for Central Europe”, signed on December 6, 1983; and

(2) the agreement entitled “Agreement between the Secretary of Defense of the United States of America and the Minister of Defense of the Federal Republic of Germany in implementation of the 6 December 1983 Agreement on Cooperative Measures for Enhancing Air Defense for Central Europe”, signed on July 12, 1984.

SEC. 1065. SALE OF EXCESS, OBSOLETE, OR UNSERVICEABLE AMMUNITION AND AMMUNITION COMPONENTS.

(a) **AUTHORITY.**—(1) Chapter 443 of title 10, United States Code, is amended by adding at the end the following new section:

“§ 4687. Sale of excess, obsolete, or unserviceable ammunition and ammunition components

“(a) **AUTHORITY TO SELL OUTSIDE DOD.**—The Secretary of the Army may sell to an eligible purchaser described in subsection (c) ammunition or ammunition components that are excess, obsolete, or unserviceable and have not been demilitarized if—

“(1) the purchaser enters into an agreement, in advance, with the Secretary—

“(A) to demilitarize the ammunition or components; and

“(B) to reclaim, recycle, or reuse the component parts or materials; or

“(2) the Secretary, or an official of the Department of the Army designated by the Secretary, approves the use of the ammunition or components proposed by the purchaser as being consistent with the public interest.

“(b) **METHOD OF SALE.**—The Secretary shall use competitive procedures to sell ammunition and ammunition components under this section, except that the Secretary may use procedures other than competitive procedures in any case in which the Secretary determines that there is only one potential buyer of the items being offered for sale.

“(c) **ELIGIBLE PURCHASERS.**—To be eligible to purchase excess, obsolete, or unserviceable ammunition or ammunition components under this section, the purchaser shall be a licensed manufacturer (as defined in section 921(10) of title 18) that, as determined by the Secretary, has a capability to modify, reclaim, transport, and either store or sell the ammunition or ammunition components sought to be purchased.

“(d) **HOLD HARMLESS AGREEMENT.**—The Secretary shall require a purchaser of ammunition or ammunition components under this section to agree to hold harmless and indemnify the United States from any claim for damages for death, injury, or other loss resulting from a use of the ammunition or ammunition components, except in

a case of willful misconduct or gross negligence of a representative of the United States.

“(e) VERIFICATION OF DEMILITARIZATION.—The Secretary shall establish procedures for ensuring that a purchaser of ammunition or ammunition components under this section demilitarizes the ammunition or ammunition components in accordance with any agreement to do so under subsection (a)(1). The procedures shall include on-site verification of demilitarization activities.

“(f) CONSIDERATION.—The Secretary may accept ammunition, ammunition components, or ammunition demilitarization services as consideration for ammunition or ammunition components sold under this section. The fair market value of any such consideration shall be equal to or exceed the fair market value or, if higher, the sale price of the ammunition or ammunition components sold.

“(g) RELATIONSHIP TO ARMS EXPORT CONTROL ACT.—Nothing in this section shall be construed to affect the applicability of section 38 of the Arms Export Control Act (22 U.S.C. 2778) to sales of ammunition or ammunition components on the United States Munitions List.

“(h) DEFINITIONS.—In this section:

“(1) The term ‘excess, obsolete, or unserviceable’, with respect to ammunition or ammunition components, means that the ammunition or ammunition components are no longer necessary for war reserves or for support of training of the Army or production of ammunition or ammunition components.

“(2) The term ‘demilitarize’, with respect to ammunition or ammunition components—

“(A) means to destroy the military offensive or defensive advantages inherent in the ammunition or ammunition components; and

“(B) includes any mutilation, scrapping, melting, burning, or alteration that prevents the use of the ammunition or ammunition components for the military purposes for which the ammunition or ammunition components was designed or for a lethal purpose.”

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

“4687. Sale of excess, obsolete, or unserviceable ammunition and ammunition components.”

(b) REVIEW OF INITIAL SALES.—(1) For each of the first three fiscal years during which the Secretary of the Army sells ammunition or ammunition components under the authority of section 4687 of title 10, United States Code, as added by subsection (a), the Director of the Army Audit Agency shall conduct a review of sales under such section to ensure that—

(A) purchasers that enter into an agreement under subsection (a)(1) of such section to demilitarize the purchased ammunition or ammunition components fully comply with the agreement; and

(B) purchasers that are authorized under subsection (a)(2) of such section to use the purchased ammunition or ammunition components actually use the ammunition or ammunition components in the manner proposed.

(2) Not later than 180 days after the end of each fiscal year in which the review is conducted, the Secretary of the Army shall submit to Congress a report containing the results of the review for the fiscal year covered by the report.

SEC. 1066. TRANSFER OF B-17 AIRCRAFT TO MUSEUM.

(a) **AUTHORITY.**—The Secretary of the Air Force may convey, without consideration to the Planes of Fame Museum, Chino, California (in this section referred to as the “museum”), all right, title, and interest of the United States in and to the B-17 aircraft known as the “Picadilly Lilly”, an aircraft that has been in the possession of the museum since 1959. Such a conveyance shall be made by means of a conditional deed of gift.

(b) **CONDITION OF AIRCRAFT.**—The Secretary may not convey ownership of the aircraft under subsection (a) until the Secretary determines that the museum has altered the aircraft in such manner as the Secretary determines necessary to ensure that the aircraft does not have any capability for use as a platform for launching or releasing munitions or any other combat capability that it was designed to have. The Secretary is not required to repair or alter the condition of the aircraft before conveying ownership of the aircraft.

(c) **REVERTER UPON TRANSFER OF OWNERSHIP OR POSSESSION.**—The Secretary shall include in the instrument of conveyance of the aircraft—

(1) a condition that the museum not convey any ownership interest in, or transfer possession of, the aircraft to any other party without the prior approval of the Secretary of the Air Force; and

(2) a condition that if the Secretary of the Air Force determines at any time that the museum has conveyed an ownership interest in, or transferred possession of, the aircraft to any other party without the prior approval of the Secretary, all right, title, and interest in and to the aircraft, including any repair or alteration of the aircraft, shall revert to the United States, and the United States shall have the right of immediate possession of the aircraft.

(d) **CONVEYANCE AT NO COST TO THE UNITED STATES.**—The conveyance authorized by this section shall be made at no cost to the United States. Any costs associated with such conveyance, including costs of determining compliance with subsection (b), shall be borne by the museum.

(e) **ADDITIONAL TERMS AND CONDITIONS.**—The Secretary of the Air Force may require such additional terms and conditions in connection with the conveyance under this section as the Secretary considers appropriate to protect the interests of the United States.

(f) **CLARIFICATION OF LIABILITY.**—Notwithstanding any other provision of law, upon conveyance of ownership of the B-17 aircraft specified in subsection (a) to the museum, the United States shall not be liable for any death, injury, loss, or damage that results from any use of that aircraft by any person other than the United States.

SEC. 1067. REPORT ON DISPOSAL OF EXCESS AND SURPLUS MATERIALS.

(a) **REPORT REQUIRED.**—Not later than January 31, 1998, the Secretary of Defense shall submit to Congress a report on the ac-

tions that have been taken or are planned to be taken within the Department of Defense to address problems with the sale or other disposal of materials that are excess or surplus to the needs of the Department of Defense.

(b) **REQUIRED CONTENT.**— At a minimum, the report shall address the following issues:

(1) The effort to standardize the coding of military equipment for demilitarization at all stages of the process, from initial acquisition through disposal.

(2) The changes underway to improve the methods used for the demilitarization of military equipment.

(3) Recent efforts to improve the accuracy of coding performed by Government employees and contractor employees.

(4) Recent efforts to improve the enforcement of the penalties that are applicable to Government employees and contractor employees who fail to comply with rules or procedures applicable to the demilitarization of military equipment.

(5) The methods of oversight and enforcement used by the Department of Defense to review the demilitarization of military equipment by the purchasers of the equipment.

(6) The current and planned controls designed to prevent the inappropriate transfer of excess military equipment outside the United States.

(7) The current procedures used by the Department, including repurchase, to recover military equipment that is sold or otherwise disposed of without appropriate action having been taken to demilitarize the equipment or to provide for demilitarization of the equipment.

(8) The legislative changes, if any, that would be necessary to improve the recovery rate under the procedures identified under paragraph (7).

(c) **IDENTIFICATION OF FREQUENT ERRORS AND MISUSE.**—Based on fiscal year 1997 findings, the Secretary of Defense shall identify in the report—

(1) the 50 categories of military equipment that most frequently received an erroneous demilitarization code; and

(2) the categories of military equipment that are particularly vulnerable to improper use after disposal.

Subtitle G—Other Matters

SEC. 1071. AUTHORITY FOR SPECIAL AGENTS OF THE DEFENSE CRIMINAL INVESTIGATIVE SERVICE TO EXECUTE WARRANTS AND MAKE ARRESTS.

(a) **AUTHORITY.**—Chapter 81 of title 10, United States Code, is amended by inserting after section 1585 the following new section:

“§1585a. Special agents of the Defense Criminal Investigative Service: authority to execute warrants and make arrests

“(a) **AUTHORITY.**—The Secretary of Defense may authorize any DCIS special agent described in subsection (b)—

“(1) to execute and serve any warrant or other process issued under the authority of the United States; and

“(2) to make arrests without a warrant—

“(A) for any offense against the United States committed in the presence of that agent; and

“(B) for any felony cognizable under the laws of the United States if the agent has probable cause to believe that the person to be arrested has committed or is committing the felony.

“(b) **AGENTS TO HAVE AUTHORITY.**—Subsection (a) applies to any DCIS special agent whose duties include conducting, supervising, or coordinating investigations of criminal activity in programs and operations of the Department of Defense.

“(c) **GUIDELINES ON EXERCISE OF AUTHORITY.**—The authority provided under subsection (a) shall be exercised in accordance with guidelines prescribed by the Inspector General of the Department of Defense and approved by the Attorney General and any other applicable guidelines prescribed by the Secretary of Defense or the Attorney General.

“(d) **DCIS SPECIAL AGENT DEFINED.**—In this section, the term ‘DCIS special agent’ means an employee of the Department of Defense who is a special agent of the Defense Criminal Investigative Service (or any successor to that service).”

(b) **CLERICAL AMENDMENT.**—The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 1585 the following new item:

“1585a. Special agents of the Defense Criminal Investigative Service: authority to execute warrants and make arrests.”.

SEC. 1072. STUDY OF INVESTIGATIVE PRACTICES OF MILITARY CRIMINAL INVESTIGATIVE ORGANIZATIONS RELATING TO SEX CRIMES.

(a) **INDEPENDENT STUDY REQUIRED.**—(1) The Secretary of Defense shall provide for an independent study of the policies, procedures, and practices of the military criminal investigative organizations for the conduct of investigations of complaints of sex crimes and other criminal sexual misconduct arising in the Armed Forces.

(2) The Secretary shall provide for the study to be conducted by the National Academy of Public Administration. The amount of a contract for the study may not exceed \$2,000,000.

(3) The Secretary shall require that all components of the Department of Defense cooperate fully with the organization carrying out the study.

(b) **MATTERS TO BE INCLUDED IN STUDY.**—The Secretary shall require that the organization conducting the study under this section specifically consider each of the following matters:

(1) The need (if any) for greater organizational independence and autonomy for the military criminal investigative organizations than exists under current chain-of-command structures within the military departments.

(2) The authority of each of the military criminal investigative organizations to investigate allegations of sex crimes and other criminal sexual misconduct and the policies of those organizations for carrying out such investigations.

(3) The training (including training in skills and techniques related to the conduct of interviews) provided by each of those organizations to agents or prospective agents responsible

for conducting or providing support to investigations of alleged sex crimes and other criminal sexual misconduct, including—

(A) the extent to which that training is comparable to the training provided by the Federal Bureau of Investigation and other civilian law enforcement agencies; and

(B) the coordination of training and investigative policies related to alleged sex crimes and other criminal sexual misconduct of each of those organizations with the Federal Bureau of Investigation and other civilian Federal law enforcement agencies.

(4) The procedures and relevant professional standards of each military criminal investigative organization with regard to recruitment and hiring of agents, including an evaluation of the extent to which those procedures and standards provide for—

(A) sufficient screening of prospective agents based on background investigations; and

(B) obtaining sufficient information about the qualifications and relevant experience of prospective agents.

(5) The advantages and disadvantages of establishing, within each of the military criminal investigative organizations or within the Defense Criminal Investigative Service only, a special unit for the investigation of alleged sex crimes and other criminal sexual misconduct.

(6) The clarity of guidance for, and consistency of investigative tactics used by, each of the military criminal investigative organizations for the investigation of alleged sex crimes and other criminal sexual misconduct, together with a comparison with the guidance and tactics used by the Federal Bureau of Investigation and other civilian law enforcement agencies for such investigations.

(7) The number of allegations of agent misconduct in the investigation of sex crimes and other criminal sexual misconduct for each of those organizations, together with a comparison with the number of such allegations concerning agents of the Federal Bureau of Investigation and other civilian law enforcement agencies for such investigations.

(8) The procedures of each of the military criminal investigative organizations for administrative identification (known as “titling”) of persons suspected of committing sex crimes or other criminal sexual misconduct, together with a comparison with the comparable procedures of the Federal Bureau of Investigation and other civilian Federal law enforcement agencies for such investigations.

(9) The accuracy, timeliness, and completeness of reporting of sex crimes and other criminal sexual misconduct by each of the military criminal investigative organizations to the National Crime Information Center maintained by the Department of Justice.

(10) Any recommendation for legislation or administrative action to revise the organizational or operational arrangements of the military criminal investigative organizations or to alter recruitment, training, or operational procedures, as they pertain to the investigation of sex crimes and other criminal sexual misconduct.

(c) **REPORT.**—(1) *The Secretary of Defense shall require the organization conducting the study under this section to submit to the Secretary a report on the study not later than one year after the date of the enactment of this Act. The organization shall include in the report its findings and conclusions concerning each of the matters specified in subsection (b).*

(2) *The Secretary shall submit the report under paragraph (1), together with the Secretary's comments on the report, to Congress not later than 30 days after the date on which the report is submitted to the Secretary under paragraph (1).*

(d) **MILITARY CRIMINAL INVESTIGATIVE ORGANIZATION DEFINED.**—*For the purposes of this section, the term "military criminal investigative organization" means any of the following:*

(1) *The Army Criminal Investigation Command.*

(2) *The Naval Criminal Investigative Service.*

(3) *The Air Force Office of Special Investigations.*

(4) *The Defense Criminal Investigative Service.*

(e) **CRIMINAL SEXUAL MISCONDUCT DEFINED.**—*For the purposes of this section, the term "criminal sexual misconduct" means conduct by a member of the Armed Forces involving sexual abuse, sexual harassment, or other sexual misconduct that constitutes an offense under the Uniform Code of Military Justice.*

(i) COORDINATION WITH OTHER AMENDMENTS.—For purposes of applying amendments made by provisions of this Act other than provisions of this section, this section shall be treated as having been enacted immediately before the other provisions of this Act.

SEC. 1074. SUSTAINMENT AND OPERATION OF THE GLOBAL POSITIONING SYSTEM.

(a) FINDINGS.—Congress makes the following findings:

(1) The Global Positioning System (consisting of a constellation of satellites and associated facilities capable of providing users on earth with a highly precise statement of their location on earth) makes significant contributions to the attainment of the national security and foreign policy goals of the United States, the safety and efficiency of international transportation, and the economic growth, trade, and productivity of the United States.

(2) The infrastructure for the Global Positioning System (including both space and ground segments of the infrastructure) is vital to the effectiveness of United States and allied military forces and to the protection of the national security interests of the United States.

(3) In addition to having military uses, the Global Positioning System has essential civil, commercial, and scientific uses.

(4) As a result of the increasing demand of civil, commercial, and scientific users of the Global Positioning System—

(A) there has emerged in the United States a new commercial industry to provide Global Positioning System equipment and related services to the many and varied users of the system; and

(B) there have been rapid technical advancements in Global Positioning System equipment and services that have contributed significantly to reductions in the cost of the Global Positioning System and increases in the technical capabilities and availability of the system for military uses.

(5) *It is in the national interest of the United States for the United States—*

(A) *to support continuation of the multiple-use character of the Global Positioning System;*

(B) *to promote broader acceptance and use of the Global Positioning System and the technological standards that facilitate expanded use of the system for civil purposes;*

(C) *to coordinate with other countries to ensure (i) efficient management of the electromagnetic spectrum used by the Global Positioning System, and (ii) protection of that spectrum in order to prevent disruption of signals from the system and interference with that portion of the electromagnetic spectrum used by the system; and*

(D) *to encourage open access in all international markets to the Global Positioning System and supporting equipment, services, and techniques.*

(b) *INTERNATIONAL COOPERATION.—Congress urges the President to promote the security of the United States and its allies, the public safety, and commercial interests by taking the following steps:*

(1) *Undertaking a coordinated effort within the executive branch to seek to establish the Global Positioning System, and augmentations to the system, as a worldwide resource.*

(2) *Seeking to enter into international agreements to establish signal and service standards that protect the Global Positioning System from disruption and interference.*

(3) *Undertaking efforts to eliminate any barriers to, and other restrictions of foreign governments on, peaceful uses of the Global Positioning System.*

(4) *Requiring that any proposed international agreement involving nonmilitary use of the Global Positioning System or any augmentation to the system not be agreed to by the United States unless the proposed agreement has been reviewed by the Secretary of State, the Secretary of Defense, the Secretary of Transportation, and the Secretary of Commerce (acting as the Interagency Global Positioning System Executive Board established by Presidential Decision Directive NSTC-6, dated March 28, 1996).*

(c) *FISCAL YEAR 1998 PROHIBITION OF SUPPORT OF FOREIGN SYSTEM.—None of the funds authorized to be appropriated under this Act may be used to support the operation and maintenance or enhancement of a satellite navigation system operated by a foreign country.*

(d) *IN GENERAL.—(1) Part IV of subtitle A of title 10, United States Code, is amended by inserting after chapter 134 the following new chapter:*

**“CHAPTER 136—PROVISIONS RELATING TO
SPECIFIC PROGRAMS**

“Sec.
“2281. Global Positioning System.

“§ 2281. Global Positioning System

“(a) SUSTAINMENT AND OPERATION FOR MILITARY PURPOSES.—The Secretary of Defense shall provide for the sustainment of the capabilities of the Global Positioning System (hereinafter in this section referred to as the ‘GPS’), and the operation of basic GPS services, that are beneficial for the national security interests of the United States. In doing so, the Secretary shall—

“(1) develop appropriate measures for preventing hostile use of the GPS so as to make it unnecessary for the Secretary to use the selective availability feature of the system continuously while not hindering the use of the GPS by the United States and its allies for military purposes; and

“(2) ensure that United States armed forces have the capability to use the GPS effectively despite hostile attempts to prevent the use of the system by such forces.

“(b) SUSTAINMENT AND OPERATION FOR CIVILIAN PURPOSES.—The Secretary of Defense shall provide for the sustainment and operation of the GPS Standard Positioning Service for peaceful civil, commercial, and scientific uses on a continuous worldwide basis free of direct user fees. In doing so, the Secretary—

“(1) shall provide for the sustainment and operation of the GPS Standard Positioning Service in order to meet the performance requirements of the Federal Radionavigation Plan prepared jointly by the Secretary of Defense and the Secretary of Transportation pursuant to subsection (c);

“(2) shall coordinate with the Secretary of Transportation regarding the development and implementation by the Government of augmentations to the basic GPS that achieve or enhance uses of the system in support of transportation;

“(3) shall coordinate with the Secretary of Commerce, the United States Trade Representative, and other appropriate officials to facilitate the development of new and expanded civil and commercial uses for the GPS;

“(4) shall develop measures for preventing hostile use of the GPS in a particular area without hindering peaceful civil use of the system elsewhere; and

“(5) may not agree to any restriction on the Global Positioning System proposed by the head of a department or agency of the United States outside the Department of Defense in the exercise of that official’s regulatory authority that would adversely affect the military potential of the Global Positioning System.

“(c) FEDERAL RADIONAVIGATION PLAN.—The Secretary of Defense and the Secretary of Transportation shall jointly prepare the Federal Radionavigation Plan. The plan shall be revised and updated not less often than every two years. The plan shall be prepared in accordance with the requirements applicable to such plan as first prepared pursuant to section 507 of the International Maritime Satellite Telecommunications Act (47 U.S.C. 756). The plan, and any amendment to the plan, shall be published in the Federal Register.

“(d) BIENNIAL REPORT.—(1) Not later than 30 days after the end of each even-numbered fiscal year, the Secretary of Defense shall submit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives

a report on the Global Positioning System. The report shall include a discussion of the following matters:

“(A) The operational status of the system.

“(B) The capability of the system to satisfy effectively (i) the military requirements for the system that are current as of the date of the report, and (ii) the performance requirements of the Federal Radionavigation Plan.

“(C) The most recent determination by the President regarding continued use of the selective availability feature of the system and the expected date of any change or elimination of the use of that feature.

“(D) The status of cooperative activities undertaken by the United States with the governments of other countries concerning the capability of the system or any augmentation of the system to satisfy civil, commercial, scientific, and military requirements, including a discussion of the status and results of activities undertaken under any regional international agreement.

“(E) Any progress made toward establishing GPS as an international standard for consistency of navigational service.

“(F) Any progress made toward protecting GPS from disruption and interference.

“(G) The effects of use of the system on national security, regional security, and the economic competitiveness of United States industry, including the Global Positioning System equipment and service industry and user industries.

“(2) In preparing the parts of each such report required under subparagraphs (D), (E), (F), and (G) of paragraph (1), the Secretary of Defense shall consult with the Secretary of State, the Secretary of Commerce, and the Secretary of Transportation.

“(e) DEFINITIONS.—In this section:

“(1) The term ‘basic GPS services’ means the following components of the Global Positioning System that are operated and maintained by the Department of Defense:

“(A) The constellation of satellites.

“(B) The navigation payloads that produce the Global Positioning System signals.

“(C) The ground stations, data links, and associated command and control facilities.

“(2) The term ‘GPS Standard Positioning Service’ means the civil and commercial service provided by the basic Global Positioning System as defined in the 1996 Federal Radionavigation Plan (published jointly by the Secretary of Defense and the Secretary of Transportation in July 1997).”

(2) The tables of chapters at the beginning of subtitle A, and at the beginning of part IV of subtitle A, of such title are amended by inserting after the item relating to chapter 134 the following new item:

“136. Provisions Relating to Specific Programs 2281”.

SEC. 1075. PROTECTION OF SAFETY-RELATED INFORMATION VOLUNTARILY PROVIDED BY AIR CARRIERS.

(a) AUTHORITY TO PROTECT INFORMATION.—Section 2640 of title 10, United States Code, is amended—

(1) by redesignating subsections (h) and (i) as subsections (i) and (j), respectively; and

(2) by inserting after subsection (g) the following new subsection (h):

“(h) AUTHORITY TO PROTECT SAFETY-RELATED INFORMATION VOLUNTARILY PROVIDED BY AN AIR CARRIER.—(1) Subject to paragraph (2), the Secretary of Defense may (notwithstanding any other provision of law) withhold from public disclosure safety-related information that is provided to the Secretary voluntarily by an air carrier for the purposes of this section.

“(2) Information may be withheld under paragraph (1) from public disclosure only if the Secretary determines that—

“(A) the disclosure of the information would inhibit an air carrier from voluntarily providing, in the future, safety-related information for the purposes of this section or for other air safety purposes involving the Department of Defense or another Federal agency; and

“(B) the receipt of such information generally enhances the fulfillment of responsibilities under this section or other air safety responsibilities involving the Department of Defense or another Federal agency.

“(3) If the Secretary provides to the head of another agency safety-related information described in paragraph (1) with respect to which the Secretary has made a determination described in paragraph (2), the head of that agency shall (notwithstanding any other provision of law) withhold the information from public disclosure unless the disclosure is specifically authorized by the Secretary.”.

(b) APPLICABILITY.—Subsection (h) of section 2640 of title 10, United States Code, as added by subsection (a), shall apply with respect to requests for information made on or after the date of the enactment of this Act.

SEC. 1076. NATIONAL GUARD CHALLENGE PROGRAM TO CREATE OPPORTUNITIES FOR CIVILIAN YOUTH.

(a) PROGRAM AUTHORITY.—Chapter 5 of title 32, United States Code, is amended by adding at the end the following new section:

“§ 509. National Guard Challenge Program of opportunities for civilian youth

“(a) PROGRAM AUTHORITY AND PURPOSE.—The Secretary of Defense, acting through the Chief of the National Guard Bureau, may conduct a National Guard civilian youth opportunities program (to be known as the ‘National Guard Challenge Program’) to use the National Guard to provide military-based training, including supervised work experience in community service and conservation projects, to civilian youth who cease to attend secondary school before graduating so as to improve the life skills and employment potential of such youth.

“(b) CONDUCT OF THE PROGRAM.—The Secretary of Defense shall provide for the conduct of the National Guard Challenge Program in such States as the Secretary considers to be appropriate, except that Federal expenditures under the program may not exceed \$50,000,000 for any fiscal year.

“(c) PROGRAM AGREEMENTS.—(1) To carry out the National Guard Challenge Program in a State, the Secretary of Defense shall enter into an agreement with the Governor of the State or, in the case of the District of Columbia, with the commanding general of

the District of Columbia National Guard, under which the Governor or the commanding general will establish, organize, and administer the National Guard Challenge Program in the State.

“(2) The agreement may provide for the Secretary to provide funds to the State for civilian personnel costs attributable to the use of civilian employees of the National Guard in the conduct of the National Guard Challenge Program.

“(d) **MATCHING FUNDS REQUIRED.**—The amount of assistance provided under this section to a State program of the National Guard Challenge Program may not exceed—

“(1) for fiscal year 1998, 75 percent of the costs of operating the State program during that year;

“(2) for fiscal year 1999, 70 percent of the costs of operating the State program during that year;

“(3) for fiscal year 2000, 65 percent of the costs of operating the State program during that year; and

“(4) for fiscal year 2001 and each subsequent fiscal year, 60 percent of the costs of operating the State program during that year.

“(e) **PERSONS ELIGIBLE TO PARTICIPATE IN PROGRAM.**—A school dropout from secondary school shall be eligible to participate in the National Guard Challenge Program. The Secretary of Defense shall prescribe the standards and procedures for selecting participants from among school dropouts.

“(f) **AUTHORIZED BENEFITS FOR PARTICIPANTS.**—(1) To the extent provided in an agreement entered into in accordance with subsection (c) and subject to the approval of the Secretary of Defense, a person selected for training in the National Guard Challenge Program may receive the following benefits in connection with that training:

“(A) Allowances for travel expenses, personal expenses, and other expenses.

“(B) Quarters.

“(C) Subsistence.

“(D) Transportation.

“(E) Equipment.

“(F) Clothing.

“(G) Recreational services and supplies.

“(H) Other services.

“(I) Subject to paragraph (2), a temporary stipend upon the successful completion of the training, as characterized in accordance with procedures provided in the agreement.

“(2) In the case of a person selected for training in the National Guard Challenge Program who afterwards becomes a member of the Civilian Community Corps under subtitle E of title I of the National and Community Service Act of 1990 (42 U.S.C. 12611 et seq.), the person may not receive a temporary stipend under paragraph (1)(I) while the person is a member of that Corps. The person may receive the temporary stipend after completing service in the Corps unless the person elects to receive benefits provided under subsection (f) or (g) of section 158 of such Act (42 U.S.C. 12618).

“(g) **PROGRAM PERSONNEL.**—(1) Personnel of the National Guard of a State in which the National Guard Challenge Program is conducted may serve on full-time National Guard duty for the

purpose of providing command, administrative, training, or supporting services for the program. For the performance of those services, any such personnel may be ordered to duty under section 502(f) of this title for not longer than the period of the program.

“(2) A Governor participating in the National Guard Challenge Program and the commanding general of the District of Columbia National Guard (if the District of Columbia National Guard is participating in the program) may procure by contract the temporary full time services of such civilian personnel as may be necessary to augment National Guard personnel in carrying out the National Guard Challenge Program in that State.

“(3) Civilian employees of the National Guard performing services for the National Guard Challenge Program and contractor personnel performing such services may be required, when appropriate to achieve the purposes of the program, to be members of the National Guard and to wear the military uniform.

“(h) EQUIPMENT AND FACILITIES.—(1) Equipment and facilities of the National Guard, including military property of the United States issued to the National Guard, may be used in carrying out the National Guard Challenge Program.

“(2) Activities under the National Guard Challenge Program shall be considered noncombat activities of the National Guard for purposes of section 710 of this title.

“(i) STATUS OF PARTICIPANTS.—(1) A person receiving training under the National Guard Challenge Program shall be considered an employee of the United States for the purposes of the following provisions of law:

“(A) Subchapter I of chapter 81 of title 5 (relating to compensation of Federal employees for work injuries).

“(B) Section 1346(b) and chapter 171 of title 28 and any other provision of law relating to the liability of the United States for tortious conduct of employees of the United States.

“(2) In the application of the provisions of law referred to in paragraph (1)(A) to a person referred to in paragraph (1)—

“(A) the person shall not be considered to be in the performance of duty while the person is not at the assigned location of training or other activity or duty authorized in accordance with a program agreement referred to in subsection (c), except when the person is traveling to or from that location or is on pass from that training or other activity or duty;

“(B) the person’s monthly rate of pay shall be deemed to be the minimum rate of pay provided for grade GS–2 of the General Schedule under section 5332 of title 5; and

“(C) the entitlement of a person to receive compensation for a disability shall begin on the day following the date on which the person’s participation in the National Guard Challenge Program is terminated.

“(3) A person referred to in paragraph (1) may not be considered an employee of the United States for any purpose other than a purpose set forth in that paragraph.

“(j) SUPPLEMENTAL RESOURCES.—To carry out the National Guard Challenge Program in a State, the Governor of the State or, in the case of the District of Columbia, the commanding general of the District of Columbia National Guard may supplement funds

made available under the program out of other resources (including gifts) available to the Governor or the commanding general. The Governor or the commanding general may accept, use, and dispose of gifts or donations of money, other property, or services for the National Guard Challenge Program.

“(k) *REPORT.*—Within 90 days after the end of each fiscal year, the Secretary of Defense shall submit to Congress a report on the design, conduct, and effectiveness of the National Guard Challenge Program during the preceding fiscal year. In preparing the report, the Secretary shall coordinate with the Governor of each State in which the National Guard Challenge Program is carried out and, if the program is carried out in the District of Columbia, with the commanding general of the District of Columbia National Guard.

“(l) *DEFINITIONS.*—In this section:

“(1) The term ‘State’ includes the Commonwealth of Puerto Rico, the territories, and the District of Columbia.

“(2) The term ‘school dropout’ means an individual who is no longer attending any school and who has not received a secondary school diploma or a certificate from a program of equivalency for such a diploma.”.

(b) *CLERICAL AMENDMENT.*—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

“509. National Guard Challenge Program of opportunities for civilian youth.”.

SEC. 1077. DISQUALIFICATION FROM CERTAIN BURIAL-RELATED BENEFITS FOR PERSONS CONVICTED OF CAPITAL CRIMES.

(a) *IN GENERAL.*—(1) Chapter 49 of title 10, United States Code, is amended by adding at the end the following new section:

“§985. Persons convicted of capital crimes: denial of certain burial-related benefits

“(a) *PROHIBITION OF PERFORMANCE OF MILITARY HONORS.*—The Secretary of a military department and the Secretary of Transportation, with respect to the Coast Guard when it is not operating as a service in the Navy, may not provide military honors at the funeral or burial of a person who has been convicted of a capital offense under Federal or State law for which the person was sentenced to death or life imprisonment without parole.

“(b) *DISQUALIFICATION FROM BURIAL IN MILITARY CEMETERIES.*—A person convicted of a capital offense under Federal law is not entitled to or eligible for, and may not be provided, burial in—

“(1) Arlington National Cemetery;

“(2) the Soldiers’ and Airmen’s National Cemetery; or

“(3) any other cemetery administered by the Secretary of a military department or the Secretary of Defense.

“(c) *DEFINITIONS.*—In this section:

“(1) The term ‘capital offense’ means an offense for which the death penalty may be imposed.

“(2) The term ‘burial’ includes inurnment.

“(3) The term ‘State’ includes the District of Columbia and any commonwealth or territory of the United States.”.

(2) *The table of sections at the beginning of such chapter is amended by adding at the end the following new item:*

“985. Persons convicted of capital crimes: denial of certain burial-related benefits.”.

(b) **APPLICABILITY.**—Section 985 of title 10, United States Code, as added by subsection (a), applies with respect to persons dying after January 1, 1997.

SEC. 1078. RESTRICTIONS ON THE USE OF HUMAN SUBJECTS FOR TESTING OF CHEMICAL OR BIOLOGICAL AGENTS.

(a) **PROHIBITED ACTIVITIES.**—The Secretary of Defense may not conduct (directly or by contract)—

(1) any test or experiment involving the use of a chemical agent or biological agent on a civilian population; or

(2) any other testing of a chemical agent or biological agent on human subjects.

(b) **EXCEPTIONS.**—Subject to subsections (c), (d), and (e), the prohibition in subsection (a) does not apply to a test or experiment carried out for any of the following purposes:

(1) Any peaceful purpose that is related to a medical, therapeutic, pharmaceutical, agricultural, industrial, or research activity.

(2) Any purpose that is directly related to protection against toxic chemicals or biological weapons and agents.

(3) Any law enforcement purpose, including any purpose related to riot control.

(c) **INFORMED CONSENT REQUIRED.**—The Secretary of Defense may conduct a test or experiment described in subsection (b) only if informed consent to the testing was obtained from each human subject in advance of the testing on that subject.

(d) **PRIOR NOTICE TO CONGRESS.**—Not later than 30 days after the date of final approval within the Department of Defense of plans for any experiment or study to be conducted by the Department of Defense (whether directly or under contract) involving the use of human subjects for the testing of a chemical agent or a biological agent, the Secretary of Defense shall submit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a report setting forth a full accounting of those plans, and the experiment or study may then be conducted only after the end of the 30-day period beginning on the date such report is received by those committees.

(e) **BIOLOGICAL AGENT DEFINED.**—In this section, the term “biological agent” means any micro-organism (including bacteria, viruses, fungi, rickettsiac, or protozoa), pathogen, or infectious substance, and any naturally occurring, bioengineered, or synthesized component of any such micro-organism, pathogen, or infectious substance, whatever its origin or method of production, that is capable of causing—

(1) death, disease, or other biological malfunction in a human, an animal, a plant, or another living organism;

(2) deterioration of food, water, equipment, supplies, or materials of any kind; or

(3) deleterious alteration of the environment.

(f) **REPORT AND CERTIFICATION.**—Section 1703(b) of the National Defense Authorization Act for Fiscal Year 1994 (50 U.S.C.

1523(b)) is amended by adding at the end the following new paragraph:

“(9) A description of any program involving the testing of biological or chemical agents on human subjects that was carried out by the Department of Defense during the period covered by the report, together with—

“(A) a detailed justification for the testing;

“(B) a detailed explanation of the purposes of the testing;

“(C) a description of each chemical or biological agent tested; and

“(D) the Secretary’s certification that informed consent to the testing was obtained from each human subject in advance of the testing on that subject.”

(g) **REPEAL OF SUPERSEDED PROVISION OF LAW.**—Section 808 of the Department of Defense Appropriation Authorization Act, 1978 (50 U.S.C. 1520), is repealed.

SEC. 1079. TREATMENT OF MILITARY FLIGHT OPERATIONS.

No military flight operation (including a military training flight), or designation of airspace for such an operation, may be treated as a transportation program or project for purposes of section 303(c) of title 49, United States Code.

SEC. 1080. NATURALIZATION OF CERTAIN FOREIGN NATIONALS WHO SERVE HONORABLY IN THE ARMED FORCES DURING A PERIOD OF CONFLICT.

(a) **IN GENERAL.**—Section 329(a)(1) of the Immigration and Nationality Act (8 U.S.C. 1440(a)(1)) is amended—

(1) by inserting “, reenlistment, extension of enlistment,” after “at the time of enlistment”; and

(2) by inserting “or on board a public vessel owned or operated by the United States for noncommercial service,” after “United States, the Canal Zone, American Samoa, or Swains Island.”

(b) **EFFECTIVE DATE.**—The amendments made by subsection (a) shall apply with respect to enlistments, reenlistments, extensions of enlistment, and inductions of persons occurring on or after the date of the enactment of this Act.

SEC. 1081. APPLICABILITY OF CERTAIN PAY AUTHORITIES TO MEMBERS OF SPECIFIED INDEPENDENT STUDY ORGANIZATIONS.

(a) **APPLICABILITY OF CERTAIN PAY AUTHORITIES.**—(1) An individual who is a member of a commission or panel specified in subsection (b) and is an annuitant otherwise covered by section 8344 or 8468 of title 5, United States Code, by reason of membership on the commission or panel is not subject to the provisions of that section with respect to such membership.

(2) An individual who is a member of a commission or panel specified in subsection (b) and is a member or former member of a uniformed service is not subject to the provisions of subsections (b) and (c) of section 5532 of such title with respect to membership on the commission or panel.

(b) **SPECIFIED ENTITIES.**—Subsection (a) applies—

(1) effective as of September 23, 1996, to members of the National Defense Panel established by section 924 of the Na-

tional Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 110 Stat. 2626); and

(2) effective as of October 9, 1996, to members of the Commission on Servicemembers and Veterans Transition Assistance established by section 701 of the Veterans' Benefits Improvements Act of 1996 (Public Law 104-275; 110 Stat. 3346; 38 U.S.C. 545 note).

SEC. 1082. DISPLAY OF POW/MIA FLAG.

(a) **REQUIRED DISPLAY.**—The POW/MIA flag shall be displayed at the locations specified in subsection (c) on POW/MIA flag display days. Such display shall serve (1) as the symbol of the Nation's concern and commitment to achieving the fullest possible accounting of Americans who, having been prisoners of war or missing in action, still remain unaccounted for, and (2) as the symbol of the Nation's commitment to achieving the fullest possible accounting for Americans who in the future may become prisoners of war, missing in action, or otherwise unaccounted for as a result of hostile action.

(b) **DAYS FOR FLAG DISPLAY.**—(1) For purposes of this section, POW/MIA flag display days are the following:

(A) Armed Forces Day, the third Saturday in May.

(B) Memorial Day, the last Monday in May.

(C) Flag Day, June 14.

(D) Independence Day, July 4.

(E) National POW/MIA Recognition Day.

(F) Veterans Day, November 11.

(2) In addition to the days specified in paragraph (1), POW/MIA flag display days include—

(A) in the case of display at medical centers of the Department of Veterans Affairs (required by subsection (c)(7)), any day on which the flag of the United States is displayed; and

(B) in the case of display at United States Postal Service post offices (required by subsection (c)(8)), the last business day before a day specified in paragraph (1) that in any year is not itself a business day.

(c) **LOCATIONS FOR FLAG DISPLAY.**—The locations for the display of the POW/MIA flag under subsection (a) are the following:

(1) The Capitol.

(2) The White House.

(3) The Korean War Veterans Memorial and the Vietnam Veterans Memorial.

(4) Each national cemetery.

(5) The buildings containing the official office of—

(A) the Secretary of State;

(B) the Secretary of Defense;

(C) the Secretary of Veterans Affairs; and

(D) the Director of the Selective Service System.

(6) Each major military installation, as designated by the Secretary of Defense.

(7) Each medical center of the Department of Veterans Affairs.

(8) Each United States Postal Service post office.

(d) **COORDINATION WITH OTHER DISPLAY REQUIREMENT.**—Display of the POW flag at the Capitol pursuant to paragraph (1) of subsection (c) is in addition to the display of that flag in the Ro-

tunda of the Capitol pursuant to Senate Concurrent Resolution 5 of the 101st Congress, agreed to on February 22, 1989 (103 Stat. 2533).

(e) *DISPLAY TO BE IN A MANNER VISIBLE TO THE PUBLIC.*—Display of the POW/MIA flag pursuant to this section shall be in a manner designed to ensure visibility to the public.

(f) *LIMITATION.*—This section may not be construed or applied so as to require any employee to report to work solely for the purpose of providing for the display of the POW/MIA flag.

(g) *POW/MIA FLAG DEFINED.*—As used in this section, the term “POW/MIA flag” means the National League of Families POW/MIA flag recognized officially and designated by section 2 of Public Law 101–355 (36 U.S.C. 189).

(h) *REGULATIONS FOR IMPLEMENTATION.*—Not later than 180 days after the date of the enactment of this Act, the head of each department, agency, or other establishment responsible for a location specified in subsection (c) (other than the Capitol) shall prescribe such regulations as necessary to carry out this section.

(i) *PROCUREMENT AND DISTRIBUTION OF FLAGS.*—Not later than 30 days after the date of the enactment of this Act, the Administrator of General Services shall procure POW/MIA flags and distribute them as necessary to carry out this section.

(j) *REPEAL OF SUPERSEDED LAW.*—Section 1084 of Public Law 102–190 (36 U.S.C. 189 note) is repealed.

SEC. 1083. PROGRAM TO COMMEMORATE 50TH ANNIVERSARY OF THE KOREAN CONFLICT.

(a) *COMMEMORATIVE PROGRAM.*—The Secretary of Defense may conduct a program to commemorate the 50th anniversary of the Korean conflict. In conducting the commemorative program, the Secretary may coordinate, support, and facilitate other programs and activities of the Federal Government, State and local governments, and other persons in commemoration of the Korean conflict.

(b) *COMMEMORATIVE ACTIVITIES.*—The commemorative program may include activities and ceremonies—

(1) to provide the people of the United States with a clear understanding and appreciation of the lessons and history of the Korean conflict;

(2) to thank and honor veterans of the Korean conflict and their families;

(3) to pay tribute to the sacrifices and contributions made on the home front by the people of the United States during the Korean conflict;

(4) to highlight advances in technology, science, and medicine related to military research conducted during the Korean conflict;

(5) to recognize the contributions and sacrifices made by the allies of the United States in the Korean conflict; and

(6) to highlight the role of the Armed Forces of the United States, then and now, in maintaining world peace through strength.

(c) *NAMES AND SYMBOLS.*—The Secretary of Defense shall have the sole and exclusive right to use the names “The Department of Defense Korean Conflict Commemoration”, and such seal, emblems, and badges incorporating such name as the Secretary may lawfully

adopt. Nothing in this section may be construed to supersede rights that are established or vested before the date of the enactment of this Act.

(d) COMMEMORATIVE ACCOUNT.—(1) There is established in the Treasury an account to be known as the “Department of Defense Korean Conflict Commemoration Account”, which shall be administered by the Secretary of Defense. There shall be deposited into the account all proceeds derived from the Secretary’s use of the exclusive rights described in subsection (c). The Secretary may use funds in the account only for the purpose of conducting the commemorative program.

(2) Not later than 60 days after completion of all activities and ceremonies conducted as part of the commemorative program, the Secretary shall submit to Congress a report containing an accounting of all of the funds deposited into and expended from the account or otherwise expended under this section, and of any funds remaining in the account. Unobligated funds remaining in the account on that date shall be held in the account until transferred by law.

(e) ACCEPTANCE OF VOLUNTARY SERVICES.—(1) Notwithstanding section 1342 of title 31, United States Code, the Secretary of Defense may accept from any person voluntary services to be provided in furtherance of the commemorative program.

(2) A person providing voluntary services under this subsection shall be considered to be a Federal employee for purposes of chapter 81 of title 5, United States Code, relating to compensation for work-related injuries. The person shall also be considered a special governmental employee for purposes of standards of conduct and sections 202, 203, 205, 207, 208, and 209 of title 18, United States Code. A person who is not otherwise employed by the Federal Government shall not be considered to be a Federal employee for any other purpose by reason of the provision of voluntary services under this subsection.

(3) The Secretary may provide for reimbursement of incidental expenses incurred by a person providing voluntary services under this subsection. The Secretary shall determine which expenses are eligible for reimbursement under this paragraph.

(f) LIMITATION ON EXPENDITURES.—Total expenditures to carry out the commemorative program may not exceed \$100,000.

SEC. 1084. COMMENDATION OF MEMBERS OF THE ARMED FORCES AND GOVERNMENT CIVILIAN PERSONNEL WHO SERVED DURING THE COLD WAR; CERTIFICATE OF RECOGNITION.

(a) FINDINGS.—The Congress finds the following:

(1) During the period of the Cold War, from the end of World War II until the collapse of the Soviet Union in 1991, the United States and the Soviet Union engaged in a global military rivalry.

(2) This rivalry, potentially the most dangerous military confrontation in the history of mankind, has come to a close without a direct superpower military conflict.

(3) Military and civilian personnel of the Department of Defense, personnel in the intelligence community, members of the foreign service, and other officers and employees of the United States faithfully performed their duties during the Cold War.

(4) *Many such personnel performed their duties while isolated from family and friends and served overseas under frequently arduous conditions in order to protect the United States and achieve a lasting peace.*

(5) *The discipline and dedication of those personnel were fundamental to the prevention of a superpower military conflict.*

(b) **CONGRESSIONAL COMMENDATION.**—*The Congress hereby commends the members of the Armed Forces and civilian personnel of the Government who contributed to the historic victory in the Cold War and expresses its gratitude and appreciation for their service and sacrifices of.*

(c) **CERTIFICATES OF RECOGNITION.**—*The Secretary of Defense shall prepare a certificate recognizing the Cold War service of qualifying members of the Armed Forces and civilian personnel of the Department of Defense and other Government agencies contributing to national security, as determined by the Secretary, and shall provide the certificate to such members and civilian personnel upon request.*

SEC. 1085. SENSE OF CONGRESS ON GRANTING OF STATUTORY FEDERAL CHARTERS.

(a) **FINDINGS.**—*Congress finds that the practice of providing by statute Federal charters to certain nonprofit organizations—*

(1) *may be perceived as implying a Government imprimatur of approval of those organizations; and*

(2) *may mistakenly lead to public perception that the United States ensures the integrity and worthiness of those organizations.*

(b) **SENSE OF CONGRESS.**—*It is the sense of Congress—*

(1) *that because of the perceived implicit Government imprimatur of approval conveyed by enactment of a Federal charter for an organization, such a charter should be granted only in the rarest and most extraordinary cases; and*

(2) *that no statutory Federal charter should be enacted after the enactment of this Act unless the charter is approved by Congress upon favorable report by the committees of jurisdiction of the respective Houses.*

SEC. 1086. SENSE OF CONGRESS REGARDING MILITARY VOTING RIGHTS.

(a) **FINDINGS.**—*Congress finds that—*

(1) *members of the Armed Forces have a fundamental right to vote in Federal, State, and local elections; and*

(2) *an extended absence of a member of the Armed Forces from the place of the member's residency or domicile due to military or naval orders is not of itself grounds to consider the member's residency or domicile as lost or changed.*

(b) **SENSE OF CONGRESS.**—*It is the sense of Congress that the Secretary of Defense, in consultation with the Attorney General, should review how best to protect the right of members of the Armed Forces to vote in Federal, State, and local elections while taking into account the right of States to prescribe requirements for voter registration. Such a review should include an assessment of challenges to military voting rights and consideration of possible legislative remedies to ensure that, for purposes of voting in Federal, State, and local elections, a member of the Armed Forces who is absent from a State in compliance with military or naval orders is not,*

solely by reason of that absence, considered to have lost or changed residency or domicile.

SEC. 1087. DESIGNATION OF BOB HOPE AS AN HONORARY VETERAN OF THE ARMED FORCES OF THE UNITED STATES.

(a) *FINDINGS.*—Congress makes the following findings:

(1) *In its more than 200 years of existence as a nation, the United States has never conferred on any person the status of being an honorary veteran of the Armed Forces of the United States.*

(2) *Status as an honorary veteran of the Armed Forces of the United States is and should remain an extraordinary honor not lightly conferred nor frequently granted.*

(3) *The lifetime of accomplishments and service of Leslie Townes (Bob) Hope on behalf of members of the Armed Forces of the United States fully justifies the conferring of that status.*

(4) *Bob Hope attempted to enlist in the Armed Forces to serve his country during World War II but was informed that the greatest service he could provide his country was as a civilian entertainer for the troops.*

(5) *During World War II, the Korean Conflict, the Vietnam War, the Persian Gulf War, and the Cold War, Bob Hope travelled to visit and entertain millions of members of the Armed Forces in numerous countries, on ships at sea, and in combat zones ashore.*

(6) *Bob Hope has been awarded the Congressional Gold Medal, the Presidential Medal of Freedom, the Distinguished Service Medal of each of the branches of the Armed Forces and more than 100 other citations and awards from national veterans service organizations and civic and humanitarian organizations.*

(7) *Bob Hope has given unselfishly of himself for over half a century to be with American service members on foreign shores, working tirelessly to bring a spirit of humor and cheer to millions of service members during their loneliest moments, and has, thereby, extended to them for the American people a touch of home away from home.*

(b) *DESIGNATION OF BOB HOPE AS HONORARY VETERAN.*—Congress—

(1) *extends its gratitude, on behalf of the American people, to Leslie Townes (Bob) Hope, of the State of California, for his lifetime of accomplishments and service on behalf of members of the Armed Forces of the United States; and*

(2) *hereby confers upon him the status of being an honorary veteran of the Armed Forces of the United States.*

SEC. 1088. FIVE-YEAR EXTENSION OF AVIATION INSURANCE PROGRAM.

(a) *EXTENSION.*—Section 44310 of title 49, United States Code, is amended by striking out “September 30, 1997” and inserting in lieu thereof “September 30, 2002”.

(b) *EFFECTIVE DATE.*—This section shall take effect as of September 30, 1997.

(a) **REPEAL OF DEADLINE.**—Section 3329(b) of title 5, United States Code, is amended by striking out “not later than 6 months after the date of the application”.

(b) **TECHNICAL CORRECTION.**—Such section is further amended by striking out “a position described in subsection (c)” the second place it appears.

SEC. 1104. RATE OF PAY OF DEPARTMENT OF DEFENSE OVERSEAS TEACHERS UPON TRANSFER TO GENERAL SCHEDULE POSITION.

(a) **PREVENTION OF EXCESSIVE INCREASES.**—Section 5334(d) of title 5, United States Code, is amended by striking out “20 percent” and all that follows and inserting in lieu thereof “an amount determined under regulations which the Secretary of Defense shall prescribe for the determination of the yearly rate of pay of the position. The amount by which a rate of pay is increased under the regulations may not exceed the amount equal to 20 percent of that rate of pay.”

(b) **EFFECTIVE DATE AND SAVINGS PROVISION.**—(1) The amendment made by subsection (a) shall take effect 180 days after the date of the enactment of this Act.

(2) In the case of a person who is employed in a teaching position referred to in section 5334(d) of title 5, United States Code, on the day before the effective date under paragraph (1), the rate of pay of that person determined under that section (as in effect on that day) may not be reduced by reason of the amendment made by subsection (a) for so long as the person continues to serve in that position or another such position without a break in service of more than three days on or after that day.

SEC. 1105. GARNISHMENT AND INVOLUNTARY ALLOTMENT.

Section 5520a of title 5, United States Code, is amended—

(1) in subsection (j), by striking out paragraph (2) and inserting in lieu thereof the following new paragraph:

“(2) Such regulations shall provide that an agency’s administrative costs in executing a garnishment action may be added to the garnishment, and that the agency may retain costs recovered as offsetting collections.”;

(2) in subsection (k)—

- (A) by striking out paragraph (3); and
 - (B) by redesignating paragraph (4) as paragraph (3);
- and
- (3) by striking out subsection (l).

SEC. 1106. EXTENSION AND REVISION OF VOLUNTARY SEPARATION INCENTIVE PAY AUTHORITY.

(a) *REMITTANCE TO CSRS FUND.*—Section 5597 of title 5, United States Code, is amended by adding at the end the following new subsection:

“(h)(1)(A) In addition to any other payment that it is required to make under subchapter III of chapter 83 or chapter 84, the Department of Defense shall remit to the Office of Personnel Management an amount equal to 15 percent of the final basic pay of each covered employee.

“(B) If the employee is one with respect to whom a remittance would otherwise be required under section 4(a) of the Federal Workforce Restructuring Act of 1994 based on the separation involved, the remittance under this subsection shall be instead of the remittance otherwise required under such section 4(a).

“(2) Amounts remitted under paragraph (1) shall be deposited in the Treasury of the United States to the credit of the Civil Service Retirement and Disability Fund.

“(3) For the purposes of this subsection—

“(A) the term ‘covered employee’ means an employee who is subject to subchapter III of chapter 83 or chapter 84 and to whom a voluntary separation incentive has been paid under this section on the basis of a separation occurring on or after October 1, 1997; and

“(B) the term ‘final basic pay’ has the meaning given such term in section 4(a)(2) of the Federal Workforce Restructuring Act of 1994.”

(b) *EXTENSION OF AUTHORITY.*—(1) Subsection (e) of section 5597 of title 5, United States Code, is amended by striking out “September 30, 1999” and inserting in lieu thereof “September 30, 2001”.

(2) Section 4436(d)(2) of the Defense Conversion, Reinvestment, and Transition Assistance Act of 1992 (5 U.S.C. 8348 note) is amended by striking out “January 1, 2000” and inserting in lieu thereof “January 1, 2002”.

SEC. 1107. USE OF APPROVED FIRE-SAFE ACCOMMODATIONS BY GOVERNMENT EMPLOYEES ON OFFICIAL BUSINESS.

(a) *PERCENTAGE USE REQUIREMENT.*—Section 5707a of title 5, United States Code, is amended—

(1) by redesignating subsections (a) through (d) as subsections (b) through (e), respectively; and

(2) by inserting after the section heading the following new subsection:

“(a)(1) For the purpose of making payments under this chapter for lodging expenses incurred in a State, each agency shall ensure that not less than 90 percent of the commercial-lodging room nights for employees of that agency for a fiscal year are booked in approved places of public accommodation.

“(2) Each agency shall establish explicit procedures to satisfy the percentage requirement of paragraph (1).

“(3) An agency shall be considered to be in compliance with the percentage requirement of paragraph (1) until September 30, 2002, and after that date if travel arrangements of the agency, whether made for civilian employees, members of the uniformed services, or foreign service personnel, are made through travel management processes designed to book commercial lodging in approved places of public accommodation, whenever available.”.

(b) *DEFINITIONS.*—Such section is further amended by adding at the end the following new subsection:

“(f) For purposes of this section:

“(1) The term ‘agency’ does not include the government of the District of Columbia.

“(2) The term ‘approved places of public accommodation’ means hotels, motels, and other places of public accommodation that are listed by the Director of the Federal Emergency Management Agency as meeting the requirements of the fire prevention and control guidelines described in section 29 of the Federal Fire Prevention and Control Act of 1974 (15 U.S.C. 2225).

“(3) The term ‘State’ means any State, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, the Trust Territory of the Pacific Islands, the Virgin Islands, Guam, American Samoa, or any other territory or possession of the United States.”.

(c) *CONFORMING AMENDMENTS.*—Such section is further amended—

(1) in subsection (b), as redesignated by subsection (a)(1)—

(A) by striking out “places of public accommodation that meet the requirements of the fire prevention and control guidelines described in section 29 of the Federal Fire Prevention and Control Act of 1974” and inserting in lieu thereof “approved places of public accommodation”; and

(B) by striking out “as defined in section 4 of the Federal Fire Prevention and Control Act of 1974”;

(2) in subsection (c), as redesignated by subsection (a)(1), by striking out “does not meet the requirements of the fire prevention and control guidelines described in section 29 of the Federal Fire Prevention and Control Act of 1974” and inserting in lieu thereof “is not an approved place of public accommodation”; and

(3) in subsection (e), as redesignated by subsection (a)(1)—

(A) by striking out “encourage” and inserting in lieu thereof “facilitate the ability of”; and

(B) by striking out “places of public accommodation that meet the requirements of the fire prevention and control guidelines described in section 29 of the Federal Fire Prevention and Control Act of 1974” and inserting in lieu thereof “approved places of public accommodation”.

(d) *REPORT BY FEDERAL EMERGENCY MANAGEMENT AGENCY.*—Not later than six months after the date of the enactment of this Act, the Director of the Federal Emergency Management Agency shall submit to Congress a report describing the procedures to be used to ensure that all approved places of public accommodation (within the meaning of section 5707a(f)(2) of title 5, United States Code, as added by subsection (b)) appear on the national master list main-

tained by the Director under section 28(b) of the Federal Fire Prevention and Control Act of 1974 (15 U.S.C. 2224(b)) of all of the places of public accommodation affecting commerce located in each State that meet the requirements of the fire prevention and control guidelines described in section 29 of such Act (15 U.S.C. 2225).

(e) *REPORT ON IMPLEMENTATION.*—Not later than one year after the date of the enactment of this Act, the Administrator of General Services shall submit to Congress a report describing the measures that have been taken and will be taken by Federal agencies to comply with the requirement that not less than 90 percent of the commercial-lodging room nights for employees of each Federal agency for a fiscal year are booked in approved places of public accommodation, as specified in section 5707a(a) of title 5, United States Code, as added by subsection (a). Measures to satisfy such requirement may include the use of contract travel agents, automated booking systems, and data developed from travel payment systems. The Administrator shall prepare the report in consultation with the heads of the Federal agencies subject to such requirement.

SEC. 1108. NAVY HIGHER EDUCATION PILOT PROGRAM REGARDING ADMINISTRATION OF BUSINESS RELATIONSHIPS BETWEEN GOVERNMENT AND PRIVATE SECTOR.

(a) *PILOT PROJECT AUTHORIZED.*—During fiscal years 1998 through 2002, the Secretary of the Navy may establish and conduct a pilot program of graduate-level higher education regarding the administration of business relationships between the Government and the private sector.

(b) *PURPOSE.*—The purpose of the pilot program is to make available to employees of the Naval Undersea Warfare Center, employees of the Naval Sea Systems Command, and employees of the Acquisition Center for Excellence of the Navy (upon establishment of such Acquisition Center), a curriculum of graduate-level higher education leading to the award of a graduate degree designed to prepare participants effectively to meet the challenges of administering Government contracting and other business relationships between the United States and private sector businesses in the context of constantly changing or newly emerging industries, technologies, governmental organizations, policies, and procedures (including governmental organizations, policies, and procedures recommended in the National Performance Review).

(c) *PARTNERSHIP WITH INSTITUTION OF HIGHER EDUCATION.*—
(1) The Secretary of the Navy may enter into an agreement with an institution of higher education to assist the Naval Undersea Warfare Center with the development of the curriculum for the pilot program, to offer courses and provide instruction and materials to participants to the extent provided for in the agreement, to provide such other assistance in support of the program as may be provided for in the agreement, and to award a graduate degree under the program.

(2) To be eligible to enter into an agreement under paragraph (1), an institution of higher education must have an established program of graduate-level education that is relevant to the purpose of the pilot program.

(d) *CURRICULUM.*—The curriculum offered under the pilot program shall—

(1) be designed specifically to achieve the purpose of the pilot program; and

(2) include courses that are—

(A) typically offered under curricula leading to award of the degree of Masters of Business Administration by institutions of higher education; and

(B) necessary for meeting educational qualification requirements for certification as an acquisition program manager.

(e) *DISTANCE LEARNING OPTION.*—The Secretary of the Navy may include as part of the pilot program policies and procedures for offering distance learning instruction by means of telecommunications, correspondence, or other methods for off-site receipt of instruction.

(f) *REPORT.*—Not later than 90 days after the termination of the pilot program, the Secretary of the Navy shall submit to Congress a report containing—

(1) an assessment by the Secretary of the value of the program for meeting the purpose of the program and the desirability of permanently establishing a similar program for other employees of the Department of Defense; and

(2) such other information and recommendations regarding the program as the Secretary considers appropriate.

(g) *LIMITATION ON FUNDING SOURCE.*—Any funds required for the pilot program for a fiscal year shall be derived only from the appropriation “Operation and Maintenance, Navy” for that fiscal year.

SEC. 1109. AUTHORITY FOR MARINE CORPS UNIVERSITY TO EMPLOY CIVILIAN FACULTY MEMBERS.

(a) *EXPANDED AUTHORITY.*—Subsections (a) and (c) of section 7478 of title 10, United States Code, are amended by striking out “at the Marine Corps Command and Staff College” and inserting in lieu thereof “of the Marine Corps University”.

(b) *CLERICAL AMENDMENTS.*—(1) The heading of such section is amended to read as follows:

“§ 7478. Naval War College and Marine Corps University: civilian faculty members”.

(2) The item relating to such section in the table of sections at the beginning of chapter 643 of such title is amended to read as follows:

“7478. Naval War College and Marine Corps University: civilian faculty members.”.

Subtitle A—United States Armed Forces in Bosnia and Herzegovina**SEC. 1201. FINDINGS.**

The Congress finds the following:

(1) United States Armed Forces were deployed to the Republic of Bosnia and Herzegovina as part of the North Atlantic Treaty Organization (NATO) Implementation Force (IFOR) to implement the military aspects of the Dayton Peace Agreement.

(2) The military aspects of the Dayton Peace Agreement have been successfully implemented to date with the military forces of the warring factions successfully separated and a cessation in the hostilities that resulted in the deaths of hundreds of thousands of Bosnians.

(3) Implementation of the civil aspects of the Dayton Peace Agreement has lagged far behind the schedule for such implementation envisioned in the Agreement with the result that United States Armed Forces have undertaken a prolonged engagement in the Republic of Bosnia and Herzegovina.

(4) On December 13, 1995, the President stated in a letter to Congress, "NATO and U.S. military commanders believe, and I expect, that the military mission can be accomplished in about a year. Twelve months will allow IFOR time to complete the military tasks assigned in the Dayton agreement and to establish a secure environment, in which political and economic reconstruction efforts by the parties and international civilian agencies can take hold. Within one year, we expect that the military provisions of the Dayton agreement will have been carried out, implementation of the civilian aspects and economic reconstruction will have been firmly launched, free elections will

have been held under international supervision and a stable military balance will have been established.”

(5) Notwithstanding a number of assurances relating to the accomplishment of the military mission in the Republic of Bosnia and Herzegovina by December 1996, the President, on November 15, 1996, announced his decision to extend the presence of United States forces in the Republic of Bosnia and Herzegovina to participate in the NATO Stabilization Force (SFOR) until June 1998.

(6) Despite initial projections by the Department of Defense that the costs of United States operations in the Republic of Bosnia and Herzegovina would total \$1,500,000,000, the projected cost of United States operations in the Republic of Bosnia and Herzegovina through June 1998 is estimated to exceed \$7,000,000,000.

(7) The fiscal year 1998 estimate of the Department of Defense for operations in the Republic of Bosnia and Herzegovina assumes that the level of military forces participating in SFOR will be reduced soon after the start of the fiscal year.

(8) The President and the Secretary of Defense have stated that United States forces are to be withdrawn from the Republic of Bosnia and Herzegovina by the end of June 1998.

SEC. 1202. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) United States ground combat forces should not participate in a follow-on force in the Republic of Bosnia and Herzegovina after June 1998;

(2) the European Security and Defense Identity, which, as facilitated by the Combined Joint Task Forces concept, enables the Western European Union, with the consent of the North Atlantic Alliance, to assume political control and strategic direction of NATO assets made available for the Alliance, may be an ideal instrument for a follow-on force for the Republic of Bosnia and Herzegovina;

(3) a NATO-led force without the participation of United States ground combat forces in the Republic of Bosnia and Herzegovina may be suitable for a follow-on force for the Republic of Bosnia and Herzegovina if the European Security and Defense Identity is not sufficiently developed or is otherwise considered inappropriate for such a mission;

(4) the United States may decide to provide appropriate support to a Western European Union-led or NATO-led follow-on force, including command and control, intelligence, logistics, and, if necessary, a ready reserve force in the region;

(5) the President should inform our European NATO allies of this expression of the sense of Congress and should urge them strongly to undertake preparations for a Western European Union-led or NATO-led force as a follow-on force to the NATO-led SFOR if needed to maintain peace and stability in the Republic of Bosnia and Herzegovina; and

(6) the President should consult with the Congress with respect to any support to be provided to a Western European Union-led or NATO-led follow-on force in the Republic of Bosnia and Herzegovina after June 30, 1998.

SEC. 1203. WITHDRAWAL OF UNITED STATES GROUND FORCES FROM REPUBLIC OF BOSNIA AND HERZEGOVINA .

(a) *LIMITATION.*—No funds appropriated or otherwise made available for the Department of Defense for fiscal year 1998 or any subsequent fiscal year may be used for the deployment of any United States ground combat forces in the Republic of Bosnia and Herzegovina after June 30, 1998, unless the President, not later than May 15, 1998, and after consultation with the bipartisan leadership of the two Houses of Congress, transmits to Congress a certification—

(1) that the continued presence of United States ground combat forces, after June 30, 1998, in the Republic of Bosnia and Herzegovina is required in order to meet the national security interests of the United States; and

(2) that after June 30, 1998, it will remain United States policy that United States ground forces will not serve as, or be used as, civil police in the Republic of Bosnia and Herzegovina.

(b) *REPORT.*—The President shall submit with the certification under subsection (a) a report that includes the following:

(1) The reasons why that presence is in the national security interest of the United States.

(2) The number of United States military personnel to be deployed in and around the Republic of Bosnia and Herzegovina and other areas of the former Yugoslavia after that date.

(3) The expected duration of any such deployment.

(4) The mission and objectives of the United States Armed Forces to be deployed in and around the Republic of Bosnia and Herzegovina and other areas of the former Yugoslavia after June 30, 1998.

(5) The exit strategy of such forces.

(6) The incremental costs associated with any such deployment.

(7) The effect of such deployment on the morale, retention, and effectiveness of United States armed forces.

(8) A description of the forces from other nations involved in a follow-on mission, shown on a nation-by-nation basis.

(9) A description of the command and control arrangement established for United States forces involved in a follow-on mission.

(10) An assessment of the expected threats to United States forces involved in a follow-on mission.

(11) The plan for rotating units and personnel to and from the Republic of Bosnia and Herzegovina during a follow-on mission, including the level of participation by reserve component units and personnel.

(12) The mission statement and operational goals of the United States forces involved in a follow-on mission.

(c) *REQUEST FOR SUPPLEMENTAL APPROPRIATIONS.*—The President shall transmit to Congress with a certification under subsection (a) a supplemental appropriations request for the Department of Defense for such amounts as are necessary for the costs of any continued deployment beyond June 30, 1998.

(d) *CONSTRUCTION WITH PRESIDENT'S CONSTITUTIONAL AUTHORITY.*—Nothing in this section shall be deemed to restrict the authority of the President under the Constitution to protect the lives of United States citizens.

(e) *CONSTRUCTION WITH APPROPRIATIONS PROVISION.*—The provisions of this section are enacted, and shall be applied, as supplemental to (and not in lieu of) the provisions of section 8132 of the Department of Defense Appropriations Act, 1998 (Public Law 105-56).

SEC. 1204. SECRETARY OF DEFENSE REPORTS ON TASKS CARRIED OUT BY UNITED STATES FORCES.

(a) *REQUIREMENT FOR TWO REPORTS.*—The Secretary of Defense shall submit to the congressional defense committees—

(1) not later than December 15, 1997, a report identifying each activity being carried out, as of December 1, 1997, by covered United States forces in the Republic of Bosnia and Herzegovina; and

(2) not later than April 15, 1998, a report identifying each activity being carried out, as of April 1, 1998, by covered United States forces in the Republic of Bosnia and Herzegovina.

(b) *COVERED UNITED STATES FORCES.*—For purposes of this section, covered United States forces in the Republic of Bosnia and Herzegovina are United States ground forces in the Republic of Bosnia and Herzegovina that are assigned to the multinational peacekeeping force known as the Stabilization Force (SFOR) or any other multinational peacekeeping force that is the successor to the SFOR.

(c) *MATTERS TO BE INCLUDED.*—The Secretary shall include in each report under subsection (a), for each activity identified under that subsection, the following:

(1) The number of United States military personnel involved in the performance of that activity.

(2) Whether forces assigned to the SFOR (or successor multinational peacekeeping force) from other nations also participated in that activity.

(3) The justification for using military forces rather than civilian organizations to perform that activity.

(4) In the case of activities that (as determined by the Secretary) are considered to be supporting tasks, as that term is used in paragraph 3 of Article VI of Annex 1-A to the General Framework Agreement for Peace in Bosnia and Herzegovina, the justification for using military forces.

(5) The likelihood that each such activity will have to be carried out by United States military forces after June 30, 1998.

SEC. 1205. PRESIDENTIAL REPORT ON SITUATION IN REPUBLIC OF BOSNIA AND HERZEGOVINA.

(a) *REQUIREMENT.*—Not later than February 1, 1998, the President shall submit to Congress a report on the political and military conditions in the Republic of Bosnia and Herzegovina. The report shall be submitted in both classified and unclassified form.

(b) *MATTERS TO BE INCLUDED.*—The report under subsection (a) shall include a discussion of the following:

(1) *An assessment of the progress made in implementing the civil, economic, and political aspects of the Dayton Peace Agreement.*

(2) *An identification of the specific steps taken to transfer the United States portion of the peacekeeping mission in the Republic of Bosnia and Herzegovina to forces of the member-states of the Western European Union or to a NATO-led force without the participation of United States ground combat forces in the Republic of Bosnia and Herzegovina.*

(3) *A detailed discussion of the proposed role and involvement of the United States in supporting peacekeeping activities in the Republic of Bosnia and Herzegovina following the withdrawal of United States ground combat forces from the Republic of Bosnia and Herzegovina.*

(4) *A detailed explanation and timetable for carrying out the commitment to withdraw all United States ground forces from the Republic of Bosnia and Herzegovina by June 30, 1998, including the planned date of commencement and completion of the withdrawal.*

(5) *The military and political considerations that will affect the decision to carry out such a transition.*

(6) *Any plan to maintain or expand other Bosnia-related operations (such as the operations designated as Operation Deliberate Guard) if tensions in the Republic of Bosnia and Herzegovina remain sufficient to delay reductions of United States military forces participating in the Stabilization Force and the estimated cost associated with each such operation.*

SEC. 1206. DEFINITIONS.

As used in this subtitle:

(1) **DAYTON PEACE AGREEMENT.**—*The term “Dayton Peace Agreement” means the General Framework Agreement for Peace in Bosnia and Herzegovina, initialed by the parties in Dayton, Ohio, on November 21, 1995, and signed in Paris on December 14, 1995.*

(2) **IMPLEMENTATION FORCE.**—*The term “Implementation Force” means the NATO-led multinational military force in the Republic of Bosnia and Herzegovina (commonly referred to as “IFOR”), authorized under the Dayton Peace Agreement.*

(3) **STABILIZATION FORCE.**—*The term “Stabilization Force” means the NATO-led follow-on force to the Implementation Force in the Republic of Bosnia and Herzegovina and other countries in the region (commonly referred to as “SFOR”), authorized under United Nations Security Council Resolution 1088 (December 12, 1996).*

(4) **FOLLOW-ON MISSION.**—*The term “follow-on mission” means a mission involving the deployment of ground elements of the United States Armed Forces in the Republic of Bosnia and Herzegovina after June 30, 1998 (other than as described in section 1203(b)).*

(5) **NATO.**—*The term “NATO” means the North Atlantic Treaty Organization.*

Subtitle B—Export Controls on High Performance Computers

SEC. 1211. EXPORT APPROVALS FOR HIGH PERFORMANCE COMPUTERS.

(a) *PRIOR APPROVAL OF EXPORTS AND REEXPORTS.*—The President shall require that no digital computer with a composite theoretical performance level of more than 2,000 millions of theoretical operations per second (MTOPS) or with such other composite theoretical performance level as may be established subsequently by the President under subsection (d), may be exported or reexported without a license to a country specified in subsection (b) if the Secretary of Commerce, the Secretary of Defense, the Secretary of Energy, the Secretary of State, or the Director of the Arms Control and Disarmament Agency objects, in writing, to such export or reexport. Any person proposing to export or reexport such a digital computer shall so notify the Secretary of Commerce, who, within 24 hours after receiving the notification, shall transmit the notification to the Secretary of Defense, the Secretary of Energy, the Secretary of State, and the Director of the Arms Control and Disarmament Agency.

(b) *COVERED COUNTRIES.*—For purposes of subsection (a), the countries specified in this subsection are the countries listed as “Computer Tier 3” eligible countries in section 740.7(d) of title 15 of the Code of Federal Regulations, as in effect on June 10, 1997, subject to modification by the President under subsection (e).

(c) *TIME LIMIT.*—Written objections under subsection (a) to an export or reexport shall be raised within 10 days after the notification is received under subsection (a). If such a written objection to the export or reexport of a computer is raised, the computer may be exported or reexported only pursuant to a license issued by the Secretary of Commerce under the Export Administration Regulations of the Department of Commerce, without regard to the licensing exceptions otherwise authorized under section 740.7 of title 15 of the Code of Federal Regulations, as in effect on June 10, 1997. If no objection is raised within the 10-day period, the export or reexport is authorized.

(d) *ADJUSTMENT OF COMPOSITE THEORETICAL PERFORMANCE.*—The President, in consultation with the Secretary of Commerce, the Secretary of Defense, the Secretary of Energy, the Secretary of State, and the Director of the Arms Control and Disarmament Agency, may establish a new composite theoretical performance level for purposes of subsection (a). Such new level shall not take effect until 180 days after the President submits to the congressional committees designated in section 1215 a report setting forth the new composite theoretical performance level and the justification for such new level. Each report shall, at a minimum—

(1) address the extent to which high performance computers of a composite theoretical level between the level established in subsection (a) or such level as has been previously adjusted pursuant to this section and the new level, are available from other countries;

(2) address all potential uses of military significance to which high performance computers at the new level could be applied; and

(3) assess the impact of such uses on the national security interests of the United States.

(e) **ADJUSTMENT OF COVERED COUNTRIES.**—

(1) **IN GENERAL.**—The President, in consultation with the Secretary of Commerce, the Secretary of Defense, the Secretary of Energy, the Secretary of State, and the Director of the Arms Control and Disarmament Agency, may add a country to or remove a country from the list of covered countries in subsection (b), except that a country may be removed from the list only in accordance with paragraph (2).

(2) **DELETIONS FROM LIST OF COVERED COUNTRIES.**—The removal of a country from the list of covered countries under subsection (b) shall not take effect until 120 days after the President submits to the congressional committees designated in section 1215 a report setting forth the justification for the deletion.

(3) **EXCLUDED COUNTRIES.**—A country may not be removed from the list of covered countries under subsection (b) if—

(A) the country is a “nuclear-weapon state” (as defined by Article IX of the Treaty on the Non-Proliferation of Nuclear Weapons) and the country is not a member of the North Atlantic Treaty Organization; or

(B) the country is not a signatory of the Treaty on the Non-Proliferation of Nuclear Weapons and the country is listed on Annex 2 to the Comprehensive Nuclear Test-Ban Treaty.

(f) **CLASSIFICATION.**—Each report under subsections (d) and (e) shall be submitted in an unclassified form and may, if necessary, have a classified supplement.

SEC. 1212. REPORT ON EXPORTS OF HIGH PERFORMANCE COMPUTERS.

(a) **REPORT.**—Not later than 60 days after the date of the enactment of this Act, the President shall provide to the congressional committees specified in section 1215 a report identifying all exports of digital computers with a composite theoretical performance of more than 2,000 millions of theoretical operations per second (MTOPS) to all countries since January 25, 1996. For each export, the report shall identify—

(1) whether an export license was applied for and whether one was granted;

(2) the date of the transfer of the computer;

(3) the United States manufacturer and exporter of the computer;

(4) the MTOPS level of the computer; and

(5) the recipient country and end user.

(b) **ADDITIONAL INFORMATION ON EXPORTS TO CERTAIN COUNTRIES.**—In the case of exports to countries specified in subsection (c), the report under subsection (a) shall identify the intended end use for the exported computer and the assessment by the executive branch of whether the end user is a military end user or an end user involved in activities relating to nuclear, chemical, or biologi-

cal weapons or missile technology. Information provided under this subsection may be submitted in classified form if necessary.

(c) **COVERED COUNTRIES.**—For purposes of subsection (b), the countries specified in this subsection are—

(1) the countries listed as “Computer Tier 3” eligible countries in section 740.7(d) of title 15 of the Code of Federal Regulations, as in effect on June 10, 1997; and

(2) the countries listed in section 740.7(e) of title 15 of the Code of Federal Regulations, as in effect on June 10, 1997.

SEC. 1213. POST-SHIPMENT VERIFICATION OF EXPORT OF HIGH PERFORMANCE COMPUTERS.

(a) **REQUIRED POST-SHIPMENT VERIFICATION.**—The Secretary of Commerce shall conduct post-shipment verification of each digital computer with a composite theoretical performance of more than 2,000 millions of theoretical operations per second (MTOPS) that is exported from the United States, on or after the date of the enactment of this Act, to a country specified in subsection (b).

(b) **COVERED COUNTRIES.**—For purposes of subsection (a), the countries specified in this subsection are the countries listed as “Computer Tier 3” eligible countries in section 740.7 of title 15 of the Code of Federal Regulations, as in effect on June 10, 1997, subject to modification by the President under section 1211(e).

(c) **ANNUAL REPORT.**—The Secretary of Commerce shall submit to the congressional committees specified in section 1215 an annual report on the results of post-shipment verifications conducted under this section during the preceding year. Each such report shall include a list of all such items exported from the United States to such countries during the previous year and, with respect to each such export, the following:

(1) The destination country.

(2) The date of export.

(3) The intended end use and intended end user.

(4) The results of the post-shipment verification.

(d) **EXPLANATION WHEN VERIFICATION NOT CONDUCTED.**—If a post-shipment verification has not been conducted in accordance with subsection (a) with respect to any such export during the period covered by a report, the Secretary shall include in the report for that period a detailed explanation of the reasons why such a post-shipment verification was not conducted.

SEC. 1214. GAO STUDY ON CERTAIN COMPUTERS; END USER INFORMATION ASSISTANCE.

(a) **IN GENERAL.**—The Comptroller General of the United States shall submit to the congressional committees specified in section 1215 a study of the national security risks relating to the sale of computers with a composite theoretical performance of between 2,000 and 7,000 millions of theoretical operations per second (MTOPS) to end users in countries specified in subsection (c). The study shall also analyze any foreign availability of computers described in the preceding sentence and the impact of such sales on United States exporters.

(b) **END USER INFORMATION ASSISTANCE TO EXPORTERS.**—The Secretary of Commerce shall establish a procedure by which exporters may seek information on questionable end users in countries

specified in subsection (c) who are seeking to obtain computers described in subsection (a).

(c) *COVERED COUNTRIES.*—For purposes of subsections (a) and (b), the countries specified in this subsection are the countries listed as “Computer Tier 3” eligible countries in section 740.7(d) of title 15 of the Code of Federal Regulations, as in effect on June 10, 1997.

SEC. 1215. CONGRESSIONAL COMMITTEES.

For purposes of sections 1211(d), 1212(a), 1213(c), and 1214(a) the congressional committees specified in those sections are the following:

- (1) *The Committee on Banking, Housing, and Urban Affairs and the Committee on Armed Services of the Senate.*
- (2) *The Committee on International Relations and the Committee on National Security of the House of Representatives.*

Subtitle C—Other Matters

SEC. 1221. DEFENSE BURDENSARING.

(a) *EFFORTS TO INCREASE ALLIED BURDENSARING.*—The President shall seek to have each nation that has cooperative military relations with the United States (including security agreements, basing arrangements, or mutual participation in multinational military organizations or operations) take one or more of the following actions:

(1) *For any nation in which United States military personnel are assigned to permanent duty ashore, increase its financial contributions to the payment of the nonpersonnel costs incurred by the United States Government for stationing United States military personnel in that nation, with a goal of achieving by September 30, 2000, 75 percent of such costs. An increase in financial contributions by any nation under this paragraph may include the elimination of taxes, fees, or other charges levied on United States military personnel, equipment, or facilities stationed in that nation.*

(2) *Increase its annual budgetary outlays for national defense as a percentage of its gross domestic product by 10 percent or at least to a level commensurate that of the United States by September 30, 1998.*

(3) *Increase its annual budgetary outlays for foreign assistance (to promote democratization, economic stabilization, transparency arrangements, defense economic conversion, respect for the rule of law, and internationally recognized human rights) by 10 percent or at least to a level commensurate to that of the United States by September 30, 1998.*

(4) *Increase the amount of military assets (including personnel, equipment, logistics, support and other resources) that it contributes, or would be prepared to contribute, to multinational military activities worldwide.*

(b) *AUTHORITIES TO ENCOURAGE ACTIONS BY UNITED STATES ALLIES.*—In seeking the actions described in subsection (a) with respect to any nation, or in response to a failure by any nation to undertake one or more of such actions, the President may take any of the following measures to the extent otherwise authorized by law:

(1) Reduce the end strength level of members of the Armed Forces assigned to permanent duty ashore in that nation.

(2) Impose on that nation fees or other charges similar to those that such nation imposes on United States forces stationed in that nation.

(3) Reduce (through rescission, impoundment, or other appropriate procedures as authorized by law) the amount the United States contributes to the NATO Civil Budget, Military Budget, or Security Investment Program.

(4) Suspend, modify, or terminate any bilateral security agreement the United States has with that nation, consistent with the terms of such agreement.

(5) Reduce (through rescission, impoundment or other appropriate procedures as authorized by law) any United States bilateral assistance appropriated for that nation.

(6) Take any other action the President determines to be appropriate as authorized by law.

(c) REPORT ON PROGRESS IN INCREASING ALLIED BURDENSARING.—Not later than March 1, 1998, the Secretary of Defense shall submit to Congress a report on—

(1) steps taken by other nations to complete the actions described in subsection (a);

(2) all measures taken by the President, including those authorized in subsection (b), to achieve the actions described in subsection (a);

(3) the difference between the amount allocated by other nations for each of the actions described in subsection (a) during the period beginning on March 1, 1996, and ending on February 28, 1997, and during the period beginning on March 1, 1997, and ending on February 28, 1998; and

(4) the budgetary savings to the United States that are expected to accrue as a result of the steps described under paragraph (1).

(d) REPORT ON NATIONAL SECURITY BASES FOR FORWARD DEPLOYMENT AND BURDENSARING RELATIONSHIPS.—(1) In order to ensure the best allocation of budgetary resources, the President shall undertake a review of the status of elements of the United States Armed Forces that are permanently stationed outside the United States. The review shall include an assessment of the following:

(A) The alliance requirements that are to be found in agreements between the United States and other countries.

(B) The national security interests that support permanently stationing elements of the United States Armed Forces outside the United States.

(C) The stationing costs associated with the forward deployment of elements of the United States Armed Forces.

(D) The alternatives available to forward deployment (such as material prepositioning, enhanced airlift and sealift, or joint training operations) to meet such alliance requirements or national security interests, with such alternatives identified and described in detail.

(E) The costs and force structure configurations associated with such alternatives to forward deployment.

(F) *The financial contributions that allies of the United States make to common defense efforts (to promote democratization, economic stabilization, transparency arrangements, defense economic conversion, respect for the rule of law, and internationally recognized human rights).*

(G) *The contributions that allies of the United States make to meeting the stationing costs associated with the forward deployment of elements of the United States Armed Forces.*

(H) *The annual expenditures of the United States and its allies on national defense, and the relative percentages of each nation's gross domestic product constituted by those expenditures.*

(2) *The President shall submit to Congress a report on the review under paragraph (1). The report shall be submitted not later than March 1, 1998, in classified and unclassified form.*

SEC. 1222. TEMPORARY USE OF GENERAL PURPOSE VEHICLES AND NONLETHAL MILITARY EQUIPMENT UNDER ACQUISITION AND CROSS SERVICING AGREEMENTS.

Section 2350(1) of title 10, United States Code, is amended by striking out "other items" in the second sentence and all that follows through "United States Munitions List" and inserting in lieu thereof "other nonlethal items of military equipment which are not designated as significant military equipment on the United States Munitions List promulgated".

SEC. 1223. SENSE OF CONGRESS AND REPORTS REGARDING FINANCIAL COSTS OF ENLARGEMENT OF THE NORTH ATLANTIC TREATY ORGANIZATION.

(a) *FINDINGS.—Congress finds the following:*

(1) *In a report to Congress in February 1997 on the rationale, benefits, costs, and implications of North Atlantic Treaty Organization enlargement the Secretary of Defense estimated that the financial cost to the United States of such enlargement will be modest, totaling between \$2,000,000,000 and \$2,600,000,000 for the period from 1997 through 2009.*

(2) *A study by the RAND Corporation published in 1996 calculated that the total financial cost to the United States of such enlargement will be between \$5,000,000,000 and \$6,000,000,000 over the same period.*

(3) *A March 1996 report by the Congressional Budget Office on the financial costs of enlarging the North Atlantic Treaty Organization alliance estimated the United States share of alliance enlargement costs to be between \$4,800,000,000 and \$18,900,000,000 through 2010, depending upon political developments in Europe.*

(4) *An August 1997 report by the General Accounting Office reviewing the financial cost estimates of the Secretary of Defense concluded that North Atlantic Treaty Organization enlargement could entail additional costs beyond those included in the Secretary's estimate and questioned the validity of the Secretary's estimate due to the lack of supporting cost documentation and the inclusion of cost elements not related to NATO enlargement.*

(5) *The North Atlantic Alliance is scheduled to complete its analysis of the military requirements for the integration of Po-*

land, the Czech Republic, and Hungary into the Alliance in December 1997.

(6) *The North Atlantic Alliance is also scheduled to complete in December 1997 its financial cost estimate of the military requirements related to the integration of those nations.*

(b) *SENSE OF CONGRESS.—It is the sense of Congress that the analysis of the North Atlantic Alliance of the military requirements relating to NATO enlargement and of the financial costs to the Alliance of NATO enlargement will be one of the major factors in the consideration by the Senate of the ratification of instruments to approve the admission of new member nations to the Alliance and by Congress for the authorization and appropriation of the funding for the costs associated with such enlargement.*

(c) *REPORT ASSESSING NATO COST ANALYSIS.—Not later than March 31, 1998, the Secretary of Defense shall submit to Congress a report providing—*

(1) *an assessment of the analysis by the North Atlantic Alliance of the military requirements related to NATO enlargement and of the estimate of the financial costs to the NATO Alliance for the integration of Poland, the Czech Republic, and Hungary into the Alliance;*

(2) *a description of the analytical means used to determine such requirements and costs; and*

(3) *a general assessment of the additional military requirements and costs that would result from a significantly increased threat.*

(b) *REPORT ON DEPARTMENT OF DEFENSE COSTS.—(1) The Secretary of Defense shall submit to Congress, in conjunction with the submission of the President's budget for fiscal year 1999, a report on Department of Defense costs for NATO enlargement. The report shall include a detailed estimate of such costs for fiscal year 1998 that identifies all appropriations, by budget activity, for the military departments and other elements of the Department of Defense to support NATO enlargement.*

(2) *The Secretary of Defense shall include in the budget justification materials submitted to Congress by the Secretary in support of the budget of Department of Defense for fiscal year 1999 complete and detailed descriptions and estimates of the amounts provided in that budget for the costs of NATO enlargement.*

SEC. 1224. SENSE OF CONGRESS REGARDING ENLARGEMENT OF THE NORTH ATLANTIC TREATY ORGANIZATION.

(a) *FINDINGS.—Congress makes the following findings:*

(1) *The North Atlantic Treaty Organization (NATO) met on July 8 and 9, 1997, in Madrid, Spain, and issued invitations to the Czech Republic, Hungary, and Poland to begin accession talks to join NATO.*

(2) *Congress has expressed its support for the process of NATO enlargement by approving the NATO Enlargement Facilitation Act of 1996 (title VI of the matter enacted in section 101(c) of division A of Public Law 104-208; 22 U.S.C. 1928 note).*

(3) *The United States has supported the position that the process of enlarging NATO will continue after the first round of invitations in July 1997.*

(4) *Romania and Slovenia are to be commended for their progress toward political and economic reform and appear to be striving to meet the guidelines for prospective membership in NATO.*

(5) *In furthering the purpose and objective of NATO in promoting stability and well-being in the North Atlantic area, NATO should invite Romania and Slovenia to accession negotiations to become NATO members as expeditiously as possible upon the satisfaction of all relevant membership criteria and consistent with NATO security objectives.*

(b) *SENSE OF CONGRESS.—It is the sense of Congress that North Atlantic Treaty Organization should be commended—*

(1) *for having committed to review the process of enlarging the Organization in 1999; and*

(2) *for singling out the positive developments toward democracy and rule of law in Romania and Slovenia.*

SEC. 1225. SENSE OF CONGRESS RELATING TO LEVEL OF UNITED STATES MILITARY PERSONNEL IN THE EAST ASIA AND PACIFIC REGION.

(a) *FINDINGS.—Congress finds the following:*

(1) *The stability of the Asia-Pacific region is a matter of vital national interest affecting the well-being of all Americans.*

(2) *The nations of the Pacific Rim collectively represent the United States largest trading partner and are expected to account for almost one-third of the world's economic activity by the start of the next century.*

(3) *The increased reliance by the United States on trade and Middle East oil sources has reinforced United States security interests in the Southeast Asia shipping lanes through the South China Sea and the key straits of Malacca, Sunda, Lombok, and Makassar.*

(4) *The South China Sea is an important area for United States Navy ships passing from the Pacific to the Indian Ocean and the Persian Gulf.*

(5) *Maintaining freedom of navigation in the South China Sea is an important interest of the United States.*

(6) *The threats of proliferation of weapons of mass destruction, the emerging nationalism amidst long-standing ethnic and national rivalries, and the unresolved territorial disputes combine to create a political landscape of potential instability and conflict in this region that could jeopardize the interests of the United States and the safety of United States nationals.*

(7) *A critical component of the East Asia strategy of the United States is maintaining forward deployed forces in Asia to ensure broad regional stability, to help to deter aggression, to lessen the pressure for arms races, and to contribute to the political and economic advances of the region from which the United States benefits.*

(8) *The forward presence of the United States in Northeast Asia enables the United States to respond to regional contingencies, to protect sea lines of communication, to sustain influence, and to support operations as distant as operations in the Persian Gulf.*

(9) *The military forces of the United States serve to prevent the political or economic control of the Asia-Pacific region by a rival, hostile power or coalition of such powers, thus preventing any such group from obtaining control over the vast resources, enormous wealth, and advanced technology of the region.*

(10) *Allies of the United States in the region can base their defense planning on a reliable American security commitment, a reduction of which could stimulate an arms buildup in the region.*

(11) *The Joint Announcement of the United States-Japan Security Consultative Committee of December 1996, acknowledged that “the forward presence of U.S. forces continues to be an essential element for pursuing our common security objectives”.*

(12) *The United States and Japan signed the United States-Japan Security Declaration in April 1996, in which the United States reaffirmed its commitment to maintain this level of 100,000 United States military personnel in the region.*

(13) *The United States military presence is recognized by the nations of the region as serving stability and enabling United States engagement.*

(14) *The nations of East Asia and the Pacific consider the commitment of the forces of the United States to be so vital to their future that they scrutinize actions of the United States for any sign of weakened commitment to the security of the region.*

(15) *The reduction of forward-based military forces could negatively affect the ability of the United States to contribute to the maintenance of peace and stability of the Asia and Pacific region.*

(16) *Recognizing that while the United States must consider the overall capabilities of its forces in its decisions to deploy troops, nevertheless any reduction in the number of forward-based troops may reduce the perception of American capability and commitment in the region that cannot be completely offset by modernization of the remaining forces.*

(17) *During time of crisis, deployment of forces to East Asia, even though such forces were previously removed from the area, might be deemed to be an act of provocation that could be used as a pretext by a hostile power for armed aggression within the region, and the existence of that possibility might hinder such a deployment.*

(18) *Proposals to reduce the forward presence of the United States in the East Asia region or subordinate security interests to United States domestic budgetary concerns can erode the perception of the commitment of the United States to its alliances and interests in the region.*

(b) *SENSE OF CONGRESS.—It is the sense of Congress that the United States should maintain at least approximately 100,000 United States military personnel in the East Asia and Pacific region until such time as there is a peaceful and permanent resolution to the major security and political conflicts in the region.*

SEC. 1226. REPORT ON FUTURE MILITARY CAPABILITIES AND STRATEGY OF THE PEOPLE'S REPUBLIC OF CHINA.

(a) *REPORT.*—The Secretary of Defense shall prepare a report, in both classified and unclassified form, on the pattern of military modernization of the People's Republic of China. The report shall address the probable course of military-technological development in the People's Liberation Army and the development of Chinese security strategy and military strategy, and of military organizations and operational concepts, through 2015.

(b) *MATTERS TO BE INCLUDED.*—The report shall include analyses and forecasts of the following:

(1) The goals of Chinese security strategy and military strategy.

(2) Trends in Chinese strategy regarding the political goals of the People's Republic of China in the Asia-Pacific region and its political and military presence in other regions of the world, including Central Asia, Southwest Asia, Europe, and Latin America.

(3) Developments in Chinese military doctrine, focusing on (but not limited to) efforts to exploit an emerging Revolution in Military Affairs or to conduct preemptive strikes.

(4) Efforts by the People's Republic of China to enhance its capabilities in the area of nuclear weapons development.

(5) Efforts by the People's Republic of China to develop long-range air-to-air or air defense missiles that would provide the capability to target special support aircraft such as Airborne Warning and Control System (AWACS) aircraft, Joint Surveillance and Target Attack Radar System (JSTARS) aircraft, or other command and control, intelligence, airborne early warning, or electronic warfare aircraft.

(6) Efforts by the People's Republic of China to develop a capability to conduct "information warfare" at the strategic, operational, and tactical levels of war.

(7) Development by the People's Republic of China of capabilities in the area of electronic warfare.

(8) Efforts by the People's Republic of China to develop a capability to establish control of space or to deny access and use of military and commercial space systems in times of crisis or war, including programs to place weapons in space or to develop earth-based weapons capable of attacking space-based systems.

(9) Trends that would lead the People's Republic of China toward the development of advanced intelligence, surveillance, and reconnaissance capabilities, including gaining access to commercial or third-party systems with military significance.

(10) Efforts by the People's Republic of China to develop highly accurate and stealthy ballistic and cruise missiles, including sea-launched cruise missiles, particularly in numbers sufficient to conduct attacks capable of overwhelming projected defense capabilities in the Asia-Pacific region.

(11) Development by the People's Republic of China of command and control networks, particularly those capable of battle management of long-range precision strikes.

(12) *Efforts by the People's Republic of China in the area of telecommunications, including common channel signaling and synchronous digital hierarchy technologies.*

(13) *Development by People's Republic of China of advanced aerospace technologies with military applications (including gas turbine "hot section" technologies).*

(14) *Programs of the People's Republic of China involving unmanned aerial vehicles, particularly those with extended ranges or loitering times or potential strike capabilities.*

(15) *Exploitation by the People's Republic of China for military purposes of the Global Positioning System or other similar systems (including commercial land surveillance satellites), with such analysis and forecasts focusing particularly on indications of an attempt to increase the accuracy of weapons or situational awareness of operating forces.*

(16) *Development by the People's Republic of China of capabilities for denial of sea control, including such systems as advanced sea mines, improved submarine capabilities, or land-based sea-denial systems.*

(17) *Efforts by the People's Republic of China to develop its anti-submarine warfare capabilities.*

(18) *Continued development by the People's Republic of China of follow-on forces, particularly forces capable of rapid air or amphibious assault.*

(19) *Efforts by the People's Republic of China to enhance its capabilities in such additional areas of strategic concern as the Secretary identifies.*

(c) **ANALYSIS OF IMPLICATIONS OF SALES OF PRODUCTS AND TECHNOLOGIES TO ENTITIES IN CHINA.**—*The report under subsection (a) shall include, with respect to each area for analyses and forecasts specified in subsection (b)—*

(1) *an assessment of the military effects of sales of United States and foreign products and technologies to entities in the People's Republic of China; and*

(2) *the potential threat of developments related to such effects to United States strategic interests.*

(d) **SUBMISSION OF REPORT.**—*The report shall be submitted to Congress not later than March 15, 1998.*

SEC. 1227. SENSE OF CONGRESS ON NEED FOR RUSSIAN OPENNESS ON THE YAMANTAU MOUNTAIN PROJECT.

(a) **FINDINGS.**—*Congress finds as follows:*

(1) *The United States and Russia have been working since the end of the Cold War to achieve a strategic relationship based on cooperation and openness between the two nations.*

(2) *This effort to establish a new strategic relationship between the two nations has resulted in the conclusion or agreement in principle on a number of far-reaching agreements, including START I, II, and III, a revision in the Conventional Forces in Europe Treaty, and a series of other agreements (such as the Comprehensive Test Ban Treaty and the Chemical Weapons Convention), designed to further reduce bilateral threats and limit the proliferation of weapons of mass destruction.*

(3) *These far-reaching agreements were based on the understanding between the United States and Russia that there*

would be a good faith effort on both sides to comply with the letter and spirit of the agreements.

(4) Reports indicate that Russia has been pursuing construction of a massive underground facility of unknown purpose at Yamantau Mountain and the city of Mezhgorye (formerly the settlements of Beloretsk-15 and Beloretsk-16) that is designed to survive a nuclear war and appears to exceed reasonable defense requirements.

(5) The Yamantau Mountain project does not appear to be consistent with the lowering of strategic threats, openness, and cooperation that is the basis of the post-Cold War strategic partnership between the United States and Russia.

(6) The United States has allowed senior Russian military and government officials to have access to key strategic facilities of the United States by providing tours of the North American Air Defense (NORAD) command at Cheyenne Mountain and the United States Strategic Command (STRATCOM) headquarters in Omaha, Nebraska, among other sites, and by providing extensive briefings on the operations of those facilities.

(b) *SENSE OF CONGRESS.*—It is the sense of Congress that the Russian government—

(1) should provide to the United States Government a written explanation with sufficient detail (including drawings and diagrams) of the purpose and operational concept of the completed and planned facilities at Yamantau Mountain to support a high confidence judgment by the United States that the design of the Yamantau facility is consistent with official Russian government explanations; and

(2) should allow a United States delegation, to include officials of the executive branch and Members of Congress, to have access to the Yamantau Mountain project and buildings and facilities surrounding the project.

SEC. 1228. ASSESSMENT OF THE CUBAN THREAT TO UNITED STATES NATIONAL SECURITY.

(a) *FINDINGS.*—Congress makes the following findings:

(1) Cuba has maintained a hostile policy in its relations with the United States for over 35 years.

(2) The United States, as a sovereign nation, must be able to respond to any Cuban provocation and defend the people and territory of the United States against any attack.

(3) In 1994, the Government of Cuba callously encouraged a massive exodus of Cubans, by boat and raft, toward the United States during which countless numbers of those Cubans lost their lives on the high seas.

(4) The humanitarian response of the United States to rescue, shelter, and provide emergency care to those Cubans, together with the actions taken to absorb some 30,000 of those Cubans into the United States, required significant efforts and the expenditure of hundreds of millions of dollars for the costs incurred by the United States and State and local governments in connection with those efforts.

(5) On February 24, 1996, Cuban MiG aircraft attacked and destroyed, in international airspace, two unarmed civilian

aircraft flying from the United States, and the four persons in those unarmed civilian aircraft were killed.

(6) *Since that attack, the Cuban government has issued no apology for the attack, nor has it indicated any intention to conform its conduct to international law that is applicable to civilian aircraft operating in international airspace.*

(b) **REVIEW AND ASSESSMENT.**—*The Secretary of Defense shall carry out a comprehensive review and assessment of—*

(1) *Cuban military capabilities; and*
 (2) *the threats to the national security of the United States that may be posed by Cuba, including—*

(A) *such unconventional threats as (i) encouragement of massive and dangerous migration, and (ii) attacks on citizens and residents of the United States while they are engaged in peaceful protest in international waters or airspace;*

(B) *the potential for development and delivery of chemical or biological weapons; and*

(C) *the potential for internal strife in Cuba that could involve citizens or residents of the United States or the Armed Forces of the United States.*

(c) **REPORT.**—*Not later than March 31, 1998, the Secretary of Defense shall submit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a report on the review and assessment. The report shall include the following:*

(1) *The Secretary's assessment of the capabilities and threats referred to in subsection (b), including each of the threats described in paragraph (2) of that subsection.*

(2) *A discussion of the results of the review and assessment, including an assessment of the contingency plans developed by the Secretary to counter any threat posed by Cuba to the United States.*

(d) **CONSULTATION ON REVIEW AND ASSESSMENT.**—*In performing the review and assessment and in preparing the report, the Secretary of Defense shall consult with the Chairman of the Joint Chiefs of Staff, the commander of the United States Southern Command, and the heads of other appropriate departments and agencies of the United States.*

SEC. 1229. REPORT ON HELSINKI JOINT STATEMENT.

(a) **REQUIREMENT.**—*Not later than March 31, 1998, the President shall submit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a report on the Helsinki Joint Statement on future reductions in nuclear forces. The report shall address the United States approach (including verification implications) to implementing the Helsinki Joint Statement, in particular, as that Statement relates to the following:*

(1) *Lower aggregate levels of strategic nuclear warheads.*

(2) *Measures relating to the transparency of strategic nuclear warhead inventories and the destruction of strategic nuclear warheads.*

(3) *Deactivation of strategic nuclear delivery vehicles.*

(4) Measures relating to nuclear long-range sea-launched cruise missiles and tactical nuclear systems.

(5) Issues related to transparency in nuclear materials.

(b) *DEFINITION.*—For purposes of this section, the term “Helsinki Joint Statement” means the agreements between the President of the United States and the President of the Russian Federation as contained in the Joint Statement on Parameters on Future Reductions in Nuclear Forces issued at Helsinki in March 1997.

SEC. 1230. COMMENDATION OF MEXICO ON FREE AND FAIR ELECTIONS.

(a) *FINDINGS.*—Congress makes the following findings:

(1) On July 6, 1997, elections were conducted in Mexico in order to fill 500 seats in the Chamber of Deputies, 32 seats in the 128 seat Senate, the office of the Mayor of Mexico City, and local elections in a number of Mexican States.

(2) For the first time, the federal elections were organized by the Federal Electoral Institute, an autonomous and independent organization established under the Mexican Constitution.

(3) More than 52,000,000 Mexican citizens registered to vote.

(4) Eight political parties registered to participate in the those elections, including the Institutional Revolutionary Party (PRI), the National Action Party (PAN), and the Democratic Revolutionary Party (PRD).

(5) Since 1993, Mexican citizens have had the exclusive right to participate as observers in activities related to the preparation and the conduct of elections.

(6) Since 1994, Mexican law has permitted international observers to be a part of the election process.

(7) With 84 percent of the ballots counted, PRI candidates received 38 percent of the vote for seats in the Chamber of Deputies, while PRD and PAN candidates received 52 percent of the combined vote.

(8) PRD candidate Cuauhtemoc Cardenas Solorzano has become the first elected Mayor of Mexico City, a post previously appointed by the President.

(9) PAN members will now serve as governors in seven of Mexico’s 31 States.

(b) *SENSE OF CONGRESS.*—It is the sense of Congress that—

(1) the recent elections in Mexico were conducted in a free, fair, and impartial manner;

(2) the will of the Mexican people, as expressed through the ballot box, has been respected by President Ernesto Zedillo and officials throughout his administration; and

(3) President Zedillo, the Mexican Government, the Federal Electoral Institute of Mexico, the political parties and candidates, and most importantly the citizens of Mexico should all be congratulated for their support and participation in these very historic elections.

SEC. 1231. SENSE OF CONGRESS REGARDING CAMBODIA.

(a) *FINDINGS.*—Congress makes the following findings:

(1) *During the 1970s and 1980s, Cambodia was wracked by political conflict, war, and violence, including genocide perpetrated by the Khmer Rouge from 1975 to 1979.*

(2) *The 1991 Paris Agreements on a Comprehensive Political Settlement of the Cambodia Conflict set the stage for a process of political accommodation and national reconciliation among Cambodia's warring parties.*

(3) *The international community engaged in a massive effort involving more than \$2,000,000,000 to ensure peace, democracy, and prosperity in Cambodia following the Paris Accords.*

(4) *The Cambodian people clearly demonstrated their support for democracy when 90 percent of eligible Cambodian voters participated in United Nations-sponsored elections in 1993.*

(5) *Since the 1993 elections, Cambodia has made economic progress, as shown by the recent decision of the Association of Southeast Asian Nations (ASEAN) to extend membership in the Association to Cambodia.*

(6) *Tensions within the ruling Cambodian coalition have erupted into violence.*

(7) *In March 1997, 19 Cambodians were killed and more than 100 were wounded in a grenade attack on political demonstrators supportive of the Funcinpec and the Khmer Nation Party.*

(8) *During June 1997, fighting erupted in Phnom Penh between forces loyal to First Prime Minister Prince Ranariddh and Second Prime Minister Hun Sen.*

(9) *On July 5, 1997, Second Prime Minister Hun Sen deposed the First Prime Minister in a violent coup d'état.*

(10) *Forces loyal to Hun Sen have executed former Interior Minister Ho Sok and approximately 40 other political opponents loyal to Prince Ranariddh.*

(11) *Democracy and stability in Cambodia are threatened by the continued use of violence and other extralegal means to resolve political tensions.*

(12) *In response to the July 1997 coup in Cambodia referred to in paragraph (9)—*

(A) *the President has suspended all direct assistance to the Cambodian Government; and*

(B) *the Association of Southeast Asian Nations (ASEAN) has decided to delay indefinitely admission of Cambodia to membership in the Association.*

(b) *SENSE OF CONGRESS.—It is the sense of Congress that—*

(1) *the parties in Cambodia should immediately cease the use of violence;*

(2) *the United States should take all necessary steps to ensure the safety of United States citizens in Cambodia;*

(3) *the United States should call an emergency meeting of the United Nations Security Council to consider all options to restore peace and democratic governance in Cambodia;*

(4) *the United States and the Association of Southeast Asian Nations should work together to take immediate steps to restore democracy and the rule of law in Cambodia;*

(5) *United States assistance to the Government of Cambodia should remain suspended until violence ends, the demo-*

cratically elected Government is restored to power, and the necessary steps have been taken to ensure that the elections scheduled for 1998 take place; and

(6) the United States should take all necessary steps to encourage other donor nations to suspend assistance as part of a multilateral effort.

SEC. 1232. CONGRATULATING GOVERNOR CHRISTOPHER PATTEN OF HONG KONG.

(a) FINDINGS.—Congress makes the following findings:

(1) His Excellency Christopher F. Patten, the former Governor of Hong Kong, was the twenty-eighth and last British Governor of the dependent territory of Hong Kong before that territory reverted back to the People's Republic of China on July 1, 1997.

(2) Christopher Patten was a superb administrator and an inspiration to the people whom he governed.

(3) During Christopher Patten's five years as Governor of Hong Kong, the economy flourished under his stewardship, growing by more than 30 percent in real terms.

(4) Christopher Patten presided over a capable and honest civil service.

(5) During the tenure of Christopher Patten as Governor of Hong Kong, common crime declined and the political climate was positive and stable.

(6) The legacy of Christopher Patten to Hong Kong is the expansion of democracy in Hong Kong's legislative council and a tireless devotion to the rights, freedoms, and welfare of the people of Hong Kong.

(7) Christopher Patten fulfilled the commitment of the British Government to "put in place a solidly based democratic administration" in Hong Kong before July 1, 1997.

(b) SENSE OF CONGRESS.—It is the sense of the Congress that Christopher F. Patten, the last British Governor of the dependent territory of Hong Kong—

(1) served his country with great honor and distinction in that capacity; and

(2) deserves special thanks and recognition from the United States for his tireless efforts to develop and nurture democracy in Hong Kong.

TITLE XIII—ARMS CONTROL AND RELATED MATTERS

Sec. 1301. Presidential report concerning detargeting of Russian strategic missiles.

Sec. 1302. Limitation on retirement or dismantlement of strategic nuclear delivery systems.

Sec. 1303. Assistance for facilities subject to inspection under the Chemical Weapons Convention.

Sec. 1304. Transfers of authorizations for high-priority counterproliferation programs.

Sec. 1305. Advice to the President and Congress regarding the safety, security, and reliability of United States nuclear weapons stockpile.

Sec. 1306. Reconstitution of commission to assess the ballistic missile threat to the United States.

Sec. 1307. *Sense of Congress regarding the relationship between United States obligations under the Chemical Weapons Convention and environmental laws.*

Sec. 1308. *Extension of counterproliferation authorities for support of United Nations Special Commission on Iraq.*

Sec. 1309. *Annual report on moratorium on use by Armed Forces of antipersonnel landmines.*

SEC. 1301. PRESIDENTIAL REPORT CONCERNING DETARGETING OF RUSSIAN STRATEGIC MISSILES.

(a) *REQUIRED REPORT.*—Not later than January 1, 1998, the President shall submit to Congress a report concerning detargeting of Russian strategic missiles. The report shall address each of the following:

(1) *Whether a Russian ICBM that was formerly, but is no longer, targeted at a site in the United States would be automatically retargeted at a site in the United States in the event of the accidental launch of the missile.*

(2) *Whether missile detargeting would prevent or significantly reduce the possibility of an unauthorized missile launch carried out by the Russian General Staff and prevent or significantly reduce the consequences to the United States of such a launch.*

(3) *Whether missile detargeting would pose a significant obstacle to an unauthorized launch carried out by an operational level below the Russian General Staff if missile operators at such an operational level acquired missile launch codes or had the technical expertise to override missile launch codes.*

(4) *The plausibility of an accidental launch of a Russian ICBM, compared to the possibility of a deliberate missile launch, authorized or unauthorized, resulting from Russian miscalculation, overreaction, or aggression.*

(5) *The national security benefits derived from detargeting United States and Russian ICBMs.*

(6) *The relative consequences to the United States of an unauthorized or accidental launch of a Russian ICBM that has been detargeted and one that has not been detargeted.*

(b) *DEFINITIONS.*—For purposes of subsection (a):

(1) *The term “Russian ICBM” means an intercontinental ballistic missile of the Russian Federation.*

(2) *The term “accidental launch” means a missile launch resulting from mechanical failure.*

SEC. 1302. LIMITATION ON RETIREMENT OR DISMANTLEMENT OF STRATEGIC NUCLEAR DELIVERY SYSTEMS.

(a) *FUNDING LIMITATION.*—Funds available to the Department of Defense may not be obligated or expended during fiscal year 1998 for retiring or dismantling, or for preparing to retire or dismantle, any of the following strategic nuclear delivery systems below the specified levels:

(1) *71 B-52H bomber aircraft.*

(2) *18 Trident ballistic missile submarines.*

(3) *500 Minuteman III intercontinental ballistic missiles.*

(4) *50 Peacekeeper intercontinental ballistic missiles.*

(b) *WAIVER AUTHORITY.*—If the START II Treaty enters into force during fiscal year 1998, the Secretary of Defense may waive the application of the limitation under subsection (a) to the extent

that the Secretary determines necessary in order to implement the treaty.

(c) *FUNDING LIMITATION ON EARLY DEACTIVATION.*—(1) If the limitation under subsection (a) ceases to apply by reason of a waiver under subsection (b), funds available to the Department of Defense may nevertheless not be obligated or expended during fiscal year 1998 to implement any agreement or understanding to undertake substantial early deactivation of a strategic nuclear delivery system specified in subsection (a) until 30 days after the date on which the President submits to Congress a report concerning such actions.

(2) For purposes of this subsection and subsection (d), a substantial early deactivation is an action during fiscal year 1998 to deactivate a substantial number of strategic nuclear delivery systems specified in subsection (a) by—

(A) removing nuclear warheads from those systems; or

(B) taking other steps to remove those systems from combat status.

(3) A report under this subsection shall include the following:

(A) The text of any understanding or agreement between the United States and the Russian Federation concerning substantial early deactivation of strategic nuclear delivery systems under the START II Treaty.

(B) The plan of the Department of Defense for implementing the agreement.

(C) An assessment of the Secretary of Defense of the adequacy of the provisions contained in the agreement for monitoring and verifying compliance of Russia with the terms of the agreement and, based upon that assessment, the determination of the President specifically as to whether the procedures for monitoring and verification of compliance by Russia with the terms of the agreement are adequate or inadequate.

(D) A determination by the President as to whether the deactivations to occur under the agreement will be carried out in a symmetrical, reciprocal, or equivalent manner and whether the agreement will require early deactivations of strategic forces by the United States to be carried out substantially more rapidly than deactivations of strategic forces by Russia.

(E) An assessment by the President of the effect of the proposed early deactivation on the stability of the strategic balance and relative strategic nuclear capabilities of the United States and the Russian Federation at various stages during deactivation and upon completion, including a determination by the President specifically as to whether the proposed early deactivations will adversely affect strategic stability.

(d) *FURTHER LIMITATION ON STRATEGIC FORCE REDUCTIONS.*—

(1) Amounts available to the Department of Defense for fiscal year 1998 to implement an agreement that results in a substantial early deactivation during fiscal year 1998 of strategic forces may not be obligated for that purpose if in the report under subsection (c)(3) the President determines any of the following:

(A) That procedures for monitoring and verification of compliance by Russia with the terms of the agreement are inadequate.

(B) That the agreement will require early deactivations of strategic forces by the United States to be carried out substantially more rapidly than deactivations of strategic forces by Russia.

(C) That the proposed early deactivations will adversely affect strategic stability.

(2) The limitation in paragraph (1), if effective by reason of a determination by the President described in paragraph (1)(B), shall cease to apply 30 days after the date on which the President notifies Congress that the early deactivations under the agreement are in the national interest of the United States.

(e) CONTINGENCY PLAN FOR SUSTAINMENT OF SYSTEMS.—(1) Not later than February 15, 1998, the Secretary of Defense shall submit to Congress a plan for the sustainment beyond October 1, 1999, of United States strategic nuclear delivery systems and alternative Strategic Arms Reduction Treaty force structures in the event that a strategic arms reduction agreement subsequent to the Strategic Arms Reduction Treaty does not enter into force before 2004.

(2) The plan shall include a discussion of the following matters:

(A) The actions that are necessary to sustain the United States strategic nuclear delivery systems, distinguishing between the actions that are planned for and funded in the future-years defense program and the actions that are not planned for and funded in the future-years defense program.

(B) The funding necessary to implement the plan, indicating the extent to which the necessary funding is provided for in the future-years defense program and the extent to which the necessary funding is not provided for in the future-years defense program.

(f) START TREATIES DEFINED.—In this section:

(1) The term “Strategic Arms Reduction Treaty” means the Treaty Between the United States of America and the United Soviet Socialist Republics on the Reduction and Limitation of Strategic Offensive Arms (START), signed at Moscow on July 31, 1991, including related annexes on agreed statements and definitions, protocols, and memorandum of understanding.

(2) The term “START II Treaty” means the Treaty Between the United States of America and the Russian Federation on Further Reduction and Limitation of Strategic Offensive Arms, signed at Moscow on January 3, 1993, including the following protocols and memorandum of understanding, all such documents being integral parts of and collectively referred to as the “START II Treaty” (contained in Treaty Document 103–1):

(A) The Protocol on Procedures Governing Elimination of Heavy ICBMs and on Procedures Governing Conversion of Silo Launchers of Heavy ICBMs Relating to the Treaty Between the United States of America and the Russian Federation on Further Reduction and Limitation of Strategic Offensive Arms (also known as the “Elimination and Conversion Protocol”).

(B) The Protocol on Exhibitions and Inspections of Heavy Bombers Relating to the Treaty Between the United States and the Russian Federation on Further Reduction

and Limitation of Strategic Offensive Arms (also known as the “Exhibitions and Inspections Protocol”).

(C) *The Memorandum of Understanding on Warhead Attribution and Heavy Bomber Data Relating to the Treaty Between the United States of America and the Russian Federation on Further Reduction and Limitation of Strategic Offensive Arms (also known as the “Memorandum on Attribution”).*

SEC. 1303. ASSISTANCE FOR FACILITIES SUBJECT TO INSPECTION UNDER THE CHEMICAL WEAPONS CONVENTION.

(a) **ASSISTANCE AUTHORIZED.**—Upon the request of the owner or operator of a facility that is subject to a routine inspection or a challenge inspection under the Chemical Weapons Convention, the Secretary of Defense may provide technical assistance to that owner or operator related to compliance of that facility with the Convention. Any such assistance shall be provided through the On-Site Inspection Agency of the Department of Defense.

(b) **REIMBURSEMENT REQUIREMENT.**—The Secretary may provide assistance under subsection (a) only to the extent that the Secretary determines that the Department of Defense will be reimbursed for costs incurred in providing the assistance. The United States National Authority may provide such reimbursement from amounts available to it. Any such reimbursement shall be credited to amounts available for the On-Site Inspection Agency.

(c) **DEFINITIONS.**—In this section:

(1) The terms “Chemical Weapons Convention” and “Convention” mean the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction, ratified by the United States on April 25, 1997, and entered into force on April 29, 1997.

(2) The term “facility that is subject to a routine inspection” means a declared facility, as defined in paragraph 15 of part X of the Annex on Implementation and Verification of the Convention.

(3) The term “challenge inspection” means an inspection conducted under Article IX of the Convention.

(4) The term “United States National Authority” means the United States National Authority established or designated pursuant to Article VII, paragraph 4, of the Convention.

SEC. 1304. TRANSFERS OF AUTHORIZATIONS FOR HIGH-PRIORITY COUNTERPROLIFERATION PROGRAMS.

(a) **AUTHORITY.**—(1) Subject to paragraph (2), the Secretary of Defense may transfer amounts of authorizations made available to the Department of Defense in this division for fiscal year 1998 to any counterproliferation program, project, or activity described in subsection (b).

(2) A transfer of authorizations may be made under this section only upon determination by the Secretary of Defense that such action is necessary in the national interest.

(3) Amounts of authorizations so transferred shall be merged with and be available for the same purposes as the authorization to which transferred.

(b) **PROGRAMS TO WHICH TRANSFERS MAY BE MADE.**—The authority under subsection (a) applies to any counterproliferation pro-

gram, project, or activity of the Department of Defense identified as an area for progress in the most recent annual report of the Counterproliferation Program Review Committee established by section 1605 of the National Defense Authorization Act for Fiscal Year 1994 (22 U.S.C. 2751 note).

(c) *LIMITATION ON TOTAL AMOUNT.*—The total amount of authorizations transferred under the authority of this section may not exceed \$50,000,000.

(d) *OTHER LIMITATIONS AND REQUIREMENTS.*—The provisions of subsection (b), (c), and (d) of section 1001 shall apply to a transfer under this section in the same manner as they apply to a transfer under subsection (a) of that section.

(e) *CONSTRUCTION WITH GENERAL TRANSFER AUTHORITY.*—The authority provided by this section is in addition to the transfer authority provided in section 1001.

SEC. 1305. ADVICE TO THE PRESIDENT AND CONGRESS REGARDING THE SAFETY, SECURITY, AND RELIABILITY OF UNITED STATES NUCLEAR WEAPONS STOCKPILE.

(a) *FINDINGS.*—Congress makes the following findings:

(1) Nuclear weapons are the most destructive weapons on earth. The United States and its allies continue to rely on nuclear weapons to deter potential adversaries from using weapons of mass destruction. The safety and reliability of the nuclear weapons stockpile are essential to ensure its credibility as a deterrent.

(2) On September 24, 1996, President Clinton signed the Comprehensive Test Ban Treaty.

(3) Effective as of September 30, 1996, the United States is prohibited by section 507 of the Energy and Water Development Appropriations Act, 1993 (Public Law 102-377; 42 U.S.C. 2121 note) from conducting underground nuclear tests “unless a foreign state conducts a nuclear test after this date, at which time the prohibition on United States nuclear testing is lifted”.

(4) Section 1436(b) of the National Defense Authorization Act, Fiscal Year 1989 (Public Law 100-456; 42 U.S.C. 2121 note) requires the Secretary of Energy to “establish and support a program to assure that the United States is in a position to maintain the reliability, safety, and continued deterrent effect of its stockpile of existing nuclear weapons designs in the event that a low-threshold or comprehensive test ban on nuclear explosive testing is negotiated and ratified.”

(5) Section 3138(d) of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103-160; 42 U.S.C. 2121 note) required the President to submit an annual report to Congress which sets forth “any concerns with respect to the safety, security, effectiveness, or reliability of existing United States nuclear weapons raised by the Stockpile Stewardship Program of the Department of Energy”.

(6) President Clinton declared in July 1993 that “to assure that our nuclear deterrent remains unquestioned under a test ban, we will explore other means of maintaining our confidence in the safety, reliability, and the performance of our weapons”. This decision was incorporated in a Presidential Directive.

(7) Section 3138 of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103-160; 42 U.S.C. 2121 note) also requires that the Secretary of Energy establish a "stewardship program to ensure the preservation of the core intellectual and technical competencies of the United States in nuclear weapons".

(8) The plan of the Department of Energy to maintain the safety and reliability of the United States nuclear weapons stockpile is known as the Stockpile Stewardship and Management Program. The ability of the United States to maintain and certify the safety, security, effectiveness, and reliability of the nuclear weapons stockpile without testing will require utilization of new and sophisticated computational capabilities and diagnostic technologies, methods, and procedures. Current diagnostic technologies and laboratory testing techniques are insufficient to certify the safety and reliability of the United States nuclear weapons stockpile into the future. Whereas in the past laboratory and diagnostic tools were used in conjunction with nuclear testing, in the future they will provide, under the Department of Energy's stockpile stewardship plan, the sole basis for assessing past test data and for making judgments on phenomena observed in connection with the aging of the stockpile.

(9) Section 3159 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 42 U.S.C. 7274o) requires that the directors of the nuclear weapons laboratories and the nuclear weapons production plants submit a report to the Assistant Secretary of Energy for Defense Programs if they identify a problem that has significant bearing on confidence in the safety or reliability of a nuclear weapon or nuclear weapon type, that the Assistant Secretary must transmit that report, along with any comments, to the congressional defense committees and to the Secretary of Energy and the Secretary of Defense, and that the Joint Nuclear Weapons Council advise Congress regarding its analysis of any such problems.

(10) On August 11, 1995, President Clinton directed "the establishment of a new annual reporting and certification requirement [to] ensure that our nuclear weapons remain safe and reliable under a comprehensive test ban".

(11) On the same day, the President noted that the Secretary of Defense and the Secretary of Energy have the responsibility, after being "advised by the Nuclear Weapons Council, the Directors of DOE's nuclear weapons laboratories, and the Commander of United States Strategic Command", to provide the President with the information regarding the certification referred to in paragraph (10).

(12) The Joint Nuclear Weapons Council established by section 179 of title 10, United States Code, is responsible for providing advice to the Secretary of Energy and Secretary of Defense regarding nuclear weapons issues, including "considering safety, security, and control issues for existing weapons". The Council plays a critical role in advising Congress in matters relating to nuclear weapons.

(13) It is essential that the President receive well-informed, objective, and honest opinions, including dissenting views, from

his advisers and technical experts regarding the safety, security, effectiveness, and reliability of the nuclear weapons stockpile.

(b) POLICY.—

(1) IN GENERAL.—It is the policy of the United States—

(A) to maintain a safe, secure, effective, and reliable nuclear weapons stockpile; and

(B) as long as other nations control or actively seek to acquire nuclear weapons, to retain a credible nuclear deterrent.

(2) NUCLEAR WEAPONS STOCKPILE.—It is in the security interest of the United States to sustain the United States nuclear weapons stockpile through a program of stockpile stewardship, carried out at the nuclear weapons laboratories and nuclear weapons production plants.

(3) SENSE OF CONGRESS.—It is the sense of Congress that—

(A) the United States should retain a triad of strategic nuclear forces sufficient to deter any future hostile foreign leadership with access to strategic nuclear forces from acting against the vital interests of the United States;

(B) the United States should continue to maintain nuclear forces of sufficient size and capability to implement an effective and robust deterrent strategy; and

(C) the advice of the persons required to provide the President and Congress with assurances of the safety, security, effectiveness, and reliability of the nuclear weapons force should be scientifically based, without regard for politics, and of the highest quality and integrity.

(c) ADDITION OF PRESIDENT TO RECIPIENTS OF REPORTS BY HEADS OF LABORATORIES AND PLANTS.—Section 3159(b) of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201; 42 U.S.C. 7274o) is amended—

(1) by striking out “committees and” and inserting in lieu thereof “committees,”; and

(2) by inserting before the period at the end the following: “, and to the President”.

(d) TEN-DAY TIME LIMIT FOR TRANSMITTAL OF REPORT.—Section 3159(b) of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201; 42 U.S.C. 7274o) is amended by striking out “As soon as practicable” and inserting in lieu thereof “Not later than 10 days”.

(e) ADVICE AND OPINIONS REGARDING NUCLEAR WEAPONS STOCKPILE.—In addition to a director of a nuclear weapons laboratory or a nuclear weapons production plant (under section 3159 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201; 42 U.S.C. 7274o)), any member of the Joint Nuclear Weapons Council or the commander of the United States Strategic Command may also submit to the President, the Secretary of Defense, the Secretary of Energy, or the congressional defense committees advice or opinion regarding the safety, security, effectiveness, and reliability of the nuclear weapons stockpile.

(f) EXPRESSION OF INDIVIDUAL VIEWS.—A representative of the President may not take any action against, or otherwise constrain, a director of a nuclear weapons laboratory or a nuclear weapons production plant, a member of the Joint Nuclear Weapons Council,

or the Commander of United States Strategic Command for presenting individual views to the President, the National Security Council, or Congress regarding the safety, security, effectiveness, and reliability of the nuclear weapons stockpile.

(g) **DEFINITIONS.**—In this section:

(1) The term “representative of the President” means the following:

(A) Any official of the Department of Defense or the Department of Energy who is appointed by the President and confirmed by the Senate.

(B) Any member of the National Security Council.

(C) Any member of the Joint Chiefs of Staff.

(D) Any official of the Office of Management and Budget.

(2) The term “nuclear weapons laboratory” means any of the following:

(A) Lawrence Livermore National Laboratory, California.

(B) Los Alamos National Laboratory, New Mexico.

(C) Sandia National Laboratories.

(3) The term “nuclear weapons production plant” means any of the following:

(A) The Pantex Plant, Texas.

(B) The Savannah River Site, South Carolina.

(C) The Kansas City Plant, Missouri.

(D) The Y-12 Plant, Oak Ridge, Tennessee.

SEC. 1306. RECONSTITUTION OF COMMISSION TO ASSESS THE BALLISTIC MISSILE THREAT TO THE UNITED STATES.

(a) **INITIAL ORGANIZATION REQUIREMENTS.**—Section 1321(g) of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 110 Stat. 2712) is amended—

(1) in paragraph (1), by striking out “not later than 45 days after the date of the enactment of this Act” and inserting in lieu thereof “not later than 30 days after the date of the enactment of the National Defense Authorization Act for Fiscal Year 1998”; and

(2) in paragraph (2)—

(A) by striking out “30 days” and inserting in lieu thereof “60 days”; and

(B) by striking out “, but not earlier than October 15, 1996”.

(b) **FUNDING.**—Section 1328 of such Act (110 Stat. 2714) is amended by inserting “and fiscal year 1998” after “for fiscal year 1997”.

SEC. 1307. SENSE OF CONGRESS REGARDING THE RELATIONSHIP BETWEEN UNITED STATES OBLIGATIONS UNDER THE CHEMICAL WEAPONS CONVENTION AND ENVIRONMENTAL LAWS.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The Chemical Weapons Convention requires the destruction of the United States stockpile of lethal chemical agents and munitions by April 29, 2007 (not later than 10 years after the Convention’s entry into force).

(2) *The President has substantial authority under existing law to ensure that—*

(A) *the technologies necessary to destroy the stockpile are developed;*

(B) *the facilities necessary to destroy the stockpile are constructed; and*

(C) *Federal, State, and local environmental laws and regulations do not impair the ability of the United States to comply with its obligations under the Convention.*

(3) *The Comptroller General has concluded (in GAO Report NSIAD 97018 of February 1997) that—*

(A) *obtaining the necessary Federal and State permits that are required under Federal environmental laws and regulations for building and operating the chemical agents and munitions destruction facilities is among the most unpredictable factors in the chemical demilitarization program; and*

(B) *program cost and schedule are largely driven by the degree to which States and local communities are in agreement with proposed disposal methods and whether those methods meet environmental concerns.*

(b) *SENSE OF CONGRESS.—It is the sense of Congress that the President—*

(1) *should use the authority of the President under existing law to ensure that the United States is able to construct and operate the facilities necessary to destroy the United States stockpile of lethal chemical agents and munitions within the time allowed by the Chemical Weapons Convention; and*

(2) *while carrying out the obligations of the United States under the Convention, should encourage negotiations between appropriate Federal officials and officials of the State and local governments concerned to attempt to meet their concerns regarding compliance with Federal and State environmental laws and regulations and other concerns about the actions being taken to carry out those obligations.*

(c) *CHEMICAL WEAPONS CONVENTION DEFINED.—For the purposes of this section, the terms “Chemical Weapons Convention” and “Convention” mean the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction, ratified by the United States on April 25, 1997, and entered into force on April 29, 1997.*

SEC. 1308. EXTENSION OF COUNTERPROLIFERATION AUTHORITIES FOR SUPPORT OF UNITED NATIONS SPECIAL COMMISSION ON IRAQ.

Section 1505 of the Weapons of Mass Destruction Control Act of 1992 (title XV of Public Law 102-484; 22 U.S.C. 5859a) is amended—

(1) *in subsection (d)(3), by striking out “or” after “fiscal year 1996,” and by inserting “, or \$15,000,000 for fiscal year 1998” before the period at the end; and*

(2) *in subsection (f), by striking out “1997” and inserting in lieu thereof “1998”.*

SEC. 1309. ANNUAL REPORT ON MORATORIUM ON USE BY ARMED FORCES OF ANTIPERSONNEL LANDMINES.

(a) *FINDINGS.*—Congress makes the following findings:

(1) *The United States has stated its support for a ban on antipersonnel landmines that is global in scope and verifiable.*

(2) *On May 16, 1996, the President announced that the United States, as a matter of policy, would eliminate its stockpile of non-self-destructing antipersonnel landmines, except those used for training purposes and in Korea, and that the United States would reserve the right to use self-destructing antipersonnel landmines in the event of conflict.*

(3) *On May 16, 1996, the President also announced that the United States would lead an effort to negotiate an international treaty permanently banning the use of all antipersonnel landmines.*

(4) *The United States is currently participating at the United Nations Conference on Disarmament in negotiations aimed at achieving a global ban on the use of antipersonnel landmines.*

(5) *On August 18, 1997, the administration agreed to participate in international negotiations sponsored by Canada (the so-called “Ottawa process”) designed to achieve a treaty that would outlaw the production, use, and sale of antipersonnel landmines.*

(6) *On September 17, 1997, the President announced that the United States would not sign the antipersonnel landmine treaty concluded in Oslo, Norway, by participants in the Ottawa process because the treaty would not provide a geographic exception to allow the United States to stockpile and use antipersonnel landmines in Korea or an exemption that would preserve the ability of the United States to use mixed antitank mine systems which could be used to deter an armored assault against United States forces.*

(7) *The President also announced a change in United States policy whereby the United States—*

(A) would no longer deploy antipersonnel landmines, including self-destructing antipersonnel landmines, by 2003, except in Korea;

(B) would seek to field alternatives by that date, or by 2006 in the case of Korea;

(C) would undertake a new initiative in the United Nations Conference on Disarmament to establish a global ban on the transfer of antipersonnel landmines; and

(D) would increase its current humanitarian demining activities around the world.

(8) *The President’s decision would allow the continued use by United States forces of self-destructing antipersonnel landmines that are used as part of a mixed antitank mine system.*

(9) *Under existing law (as provided in section 580 of Public Law 104–107; 110 Stat 751), on February 12, 1999, the United States will implement a one-year moratorium on the use of antipersonnel landmines by United States forces except along internationally recognized national borders or in demilitarized zones within a perimeter marked area that is monitored by military*

personnel and protected by adequate means to ensure the exclusion of civilians.

(b) *SENSE OF CONGRESS.*—*It is the sense of Congress that—*

(1) *the United States should not implement a moratorium on the use of antipersonnel landmines by United States Armed Forces in a manner that would endanger United States personnel or undermine the military effectiveness of United States Armed Forces in executing their missions; and*

(2) *the United States should pursue the development of alternatives to self-destructing antipersonnel landmines.*

(c) *ANNUAL REPORT.*—*Not later than December 31 each year, the Secretary of Defense shall submit to the congressional defense committees a report concerning antipersonnel landmines. Each such report shall include the Secretary's description of the following:*

(1) *The military utility of the continued deployment and use by the United States of antipersonnel landmines.*

(2) *The effect of a moratorium on the production, stockpiling, and use of antipersonnel landmines on the ability of United States forces to deter and defend against attack on land by hostile forces, including on the Korean peninsula.*

(3) *Progress in developing and fielding systems that are effective substitutes for antipersonnel landmines, including an identification and description of the types of systems that are being developed and fielded, the costs associated with those systems, and the estimated timetable for developing and fielding those systems.*

(4) *The effect of a moratorium on the use of antipersonnel landmines on the military effectiveness of current antitank mine systems.*

(5) *The number and type of pure antipersonnel landmines that remain in the United States inventory and that are subject to elimination under the President's September 17, 1997, declaration on United States antipersonnel landmine policy.*

(6) *The number and type of mixed antitank mine systems that are in the United States inventory, the locations where they are deployed, and their effect on the deterrence and warfighting ability of United States Armed Forces.*

(7) *The effect of the elimination of pure antipersonnel landmines on the warfighting effectiveness of the United States Armed Forces.*

(8) *The costs already incurred and anticipated of eliminating antipersonnel landmines from the United States inventory in accordance with the policy enunciated by the President on September 17, 1997.*

(9) *The benefits that would result to United States military and civilian personnel from an international treaty banning the production, use, transfer, and stockpiling of antipersonnel landmines.*

TITLE XIV—COOPERATIVE THREAT REDUCTION WITH STATES OF FORMER SOVIET UNION

- Sec. 1401. *Specification of Cooperative Threat Reduction programs and funds.*
 Sec. 1402. *Funding allocations.*
 Sec. 1403. *Prohibition on use of funds for specified purposes.*
 Sec. 1404. *Limitation on use of funds for projects related to START II Treaty until submission of certification.*
 Sec. 1405. *Limitation on use of funds for chemical weapons destruction facility.*
 Sec. 1406. *Limitation on use of funds for destruction of chemical weapons.*
 Sec. 1407. *Limitation on use of funds for storage facility for Russian fissile material.*
 Sec. 1408. *Limitation on use of funds for weapons storage security.*
 Sec. 1409. *Report on issues regarding payment of taxes, duties, and other assessments on assistance provided to Russia under Cooperative Threat Reduction programs.*
 Sec. 1410. *Availability of funds.*

SEC. 1401. SPECIFICATION OF COOPERATIVE THREAT REDUCTION PROGRAMS AND FUNDS.

(a) *SPECIFICATION OF CTR PROGRAMS.*—For purposes of section 301 and other provisions of this Act, Cooperative Threat Reduction programs are the programs specified in section 1501(b) of the National Defense Authorization Act for fiscal year 1997 (Public Law 104–201; 110 Stat. 2731; 50 U.S.C. 2362 note).

(b) *FISCAL YEAR 1998 COOPERATIVE THREAT REDUCTION FUNDS DEFINED.*—As used in this title, the term “fiscal year 1998 Cooperative Threat Reduction funds” means the funds appropriated pursuant to the authorization of appropriations in section 301 for Cooperative Threat Reduction programs.

SEC. 1402. FUNDING ALLOCATIONS.

(a) *IN GENERAL.*—Of the fiscal year 1998 Cooperative Threat Reduction funds, not more than the following amounts may be obligated for the purposes specified:

- (1) For strategic offensive arms elimination in Russia, \$77,900,000.
- (2) For strategic nuclear arms elimination in Ukraine, \$76,700,000.
- (3) For fissile material containers in Russia, \$7,000,000.
- (4) For planning and design of a chemical weapons destruction facility in Russia, \$35,400,000.
- (5) For dismantlement of biological and chemical weapons facilities in the former Soviet Union, \$20,000,000.
- (6) For planning, design, and construction of a storage facility for Russian fissile material, \$57,700,000.
- (7) For weapons storage security in Russia, \$36,000,000.
- (8) For development of a cooperative program with the Government of Russia to eliminate the production of weapons grade plutonium at Russian reactors, \$41,000,000.
- (9) For activities designated as Defense and Military-to-Military Contacts in Russia, Ukraine, and Kazakhstan, \$8,000,000.
- (10) For military-to-military programs of the United States that focus on countering the threat of proliferation of weapons of mass destruction and that include the security forces of the

independent states of the former Soviet Union other than Russia, Ukraine, Belarus, and Kazakstan, \$2,000,000.

(11) For activities designated as Other Assessments/Administrative Support \$20,500,000.

(b) LIMITED AUTHORITY TO VARY INDIVIDUAL AMOUNTS.—(1) If the Secretary of Defense determines that it is necessary to do so in the national interest, the Secretary may, subject to paragraphs (2) and (3), obligate amounts for the purposes stated in any of the paragraphs of subsection (a) in excess of the amount specified for those purposes in that paragraph. However, the total amount obligated for the purposes stated in the paragraphs in subsection (a) may not by reason of the use of the authority provided in the preceding sentence exceed the sum of the amounts specified in those paragraphs.

(2) An obligation for the purposes stated in any of the paragraphs in subsection (a) in excess of the amount specified in that paragraph may be made using the authority provided in paragraph (1) only after—

(A) the Secretary submits to Congress notification of the intent to do so together with a complete discussion of the justification for doing so; and

(B) 15 days have elapsed following the date of the notification.

(3) The Secretary may not, under the authority provided in paragraph (1), obligate amounts appropriated for the purposes stated in any of paragraphs (3) through (11) of subsection (a) in excess of 115 percent of the amount stated in those paragraphs.

(c) LIMITED WAIVER OF 115 PERCENT CAP ON OBLIGATION IN EXCESS OF AMOUNTS AUTHORIZED FOR FISCAL YEARS 1996 AND 1997.—(1) The limitation in subsection (b)(1) of section 1202 of the National Defense Authorization Act For Fiscal Year 1996 (Public Law 104–106; 110 Stat. 469), that provides that the authority provided in that sentence to obligate amounts specified for Cooperative Threat Reduction purposes in excess of the amount specified for each such purpose in subsection (a) of that section may not exceed 115 percent of the amounts specified, shall not apply with respect to subsection (a)(1) of such section for purposes of strategic offensive weapons elimination in Russia or the Ukraine.

(2) The limitation in subsection (b)(1) of section 1502 of the National Defense Authorization Act For Fiscal Year 1997 (Public Law 104–201; 110 Stat. 2732), that provides that the authority provided in that sentence to obligate amounts specified for Cooperative Threat Reduction purposes in excess of the amount specified for each such purpose in subsection (a) of that section may not exceed 115 percent of the amounts specified, shall not apply with respect to subsections (a)(2) and (a)(3) of such section.

SEC. 1403. PROHIBITION ON USE OF FUNDS FOR SPECIFIED PURPOSES.

(a) IN GENERAL.—No fiscal year 1998 Cooperative Threat Reduction funds, and no funds appropriated for Cooperative Threat Reduction programs for any prior fiscal year and remaining available for obligation, may be obligated or expended for any of the following purposes:

(1) Conducting with Russia any peacekeeping exercise or other peacekeeping-related activity.

(2) *Provision of housing.*

(3) *Provision of assistance to promote environmental restoration.*

(4) *Provision of assistance to promote job retraining.*

(b) **LIMITATION WITH RESPECT TO DEFENSE CONVERSION ASSISTANCE.**—None of the funds appropriated pursuant to this Act may be obligated or expended for the provision of assistance to Russia or any other state of the former Soviet Union to promote defense conversion.

SEC. 1404. LIMITATION ON USE OF FUNDS FOR PROJECTS RELATED TO START II TREATY UNTIL SUBMISSION OF CERTIFICATION.

No fiscal year 1998 Cooperative Threat Reduction funds may be obligated or expended for strategic offensive arms elimination projects in Russia related to the START II Treaty (as defined in section 1302(f)) until 30 days after the date on which the Secretary of Defense submits to Congress a certification in writing that—

(1) implementation of the projects would benefit the national security interest of the United States; and

(2) Russia has agreed in an implementing agreement to share the cost for the projects.

SEC. 1405. LIMITATION ON USE OF FUNDS FOR CHEMICAL WEAPONS DESTRUCTION FACILITY.

(a) **LIMITATION ON USE OF FUNDS UNTIL SUBMISSION OF NOTIFICATIONS TO CONGRESS.**—No fiscal year 1998 Cooperative Threat Reduction funds may be obligated or expended for planning and design of a chemical weapons destruction facility until 15 days after the date that is the later of the following:

(1) The date on which the Secretary of Defense submits to Congress notification of an agreement between the United States and Russia with respect to such chemical weapons destruction facility that includes—

(A) an agreement providing for a limitation on the financial contribution by the United States for the facility;

(B) an agreement that the United States will not pay the costs for infrastructure determined by Russia to be necessary to support the facility; and

(C) an agreement on the location of the facility.

(2) The date on which the Secretary of Defense submits to Congress notification that the Government of Russia has formally approved a plan—

(A) that allows for the destruction of chemical weapons in Russia; and

(B) that commits Russia to pay a portion of the cost for the facility.

(b) **PROHIBITION ON USE OF FUNDS FOR FACILITY CONSTRUCTION.**—No fiscal year 1998 Cooperative Threat Reduction funds authorized to be obligated in section 1402(a)(4) for planning and design of a chemical weapons destruction facility in Russia may be used for construction of such facility.

SEC. 1406. LIMITATION ON USE OF FUNDS FOR DESTRUCTION OF CHEMICAL WEAPONS.

(a) **LIMITATION.**—No funds authorized to be appropriated under this or any other Act for fiscal year 1998 for Cooperative Threat Re-

duction programs may be obligated or expended for chemical weapons destruction activities (including activities for the planning, design, or construction of a chemical weapons destruction facility or for the dismantlement of an existing chemical weapons production facility) until the President submits to Congress a written certification under subsection (b).

(b) **PRESIDENTIAL CERTIFICATION.**—A certification under this subsection is either of the following certifications by the President:

(1) A certification that—

(A) Russia is making reasonable progress toward the implementation of the *Bilateral Destruction Agreement*;

(B) the United States and Russia have made substantial progress toward the resolution, to the satisfaction of the United States, of outstanding compliance issues under the *Wyoming Memorandum of Understanding and the Bilateral Destruction Agreement*; and

(C) Russia has fully and accurately declared all information regarding its unitary and binary chemical weapons, chemical weapons facilities, and other facilities associated with chemical weapons.

(2) A certification that the national security interests of the United States could be undermined by a United States policy not to carry out chemical weapons destruction activities under the *Cooperative Threat Reduction* programs for which funds are authorized to be appropriated under this or any other Act for fiscal year 1998.

(c) **DEFINITIONS.**—For the purposes of this section:

(1) The term “*Bilateral Destruction Agreement*” means the *Agreement Between the United States of America and the Union of Soviet Socialist Republics on Destruction and Nonproduction of Chemical Weapons and on Measures to Facilitate the Multilateral Convention on Banning Chemical Weapons*, signed on June 1, 1990.

(2) The term “*Wyoming Memorandum of Understanding*” means the *Memorandum of Understanding Between the Government of the United States of America and the Government of the Union of Soviet Socialist Republics Regarding a Bilateral Verification Experiment and Data Exchange Related to Prohibition on Chemical Weapons*, signed at Jackson Hole, Wyoming, on September 23, 1989.

SEC. 1407. LIMITATION ON USE OF FUNDS FOR STORAGE FACILITY FOR RUSSIAN FISSILE MATERIAL.

No fiscal year 1998 *Cooperative Threat Reduction* funds may be obligated or expended for planning, design, or construction of a storage facility for Russian fissile material until 15 days after the date that is the later of the following:

(1) The date on which the Secretary of Defense submits to Congress notification that an implementing agreement between the United States and Russia has been entered into that specifies the total cost to the United States for the facility.

(2) The date on which the Secretary submits to Congress notification that an agreement has been entered into between the United States and Russia incorporating the principle of transparency with respect to the use of the facility.

SEC. 1408. LIMITATION ON USE OF FUNDS FOR WEAPONS STORAGE SECURITY.

No fiscal year 1998 Cooperative Threat Reduction funds intended for weapons storage security activities in Russia may be obligated or expended until—

(1) the Secretary of Defense submits to Congress a report on the status of negotiations between the United States and Russia on audits and examinations with respect to weapons storage security; and

(2) 15 days have elapsed following the date that the report is submitted.

SEC. 1409. REPORT ON ISSUES REGARDING PAYMENT OF TAXES, DUTIES, AND OTHER ASSESSMENTS ON ASSISTANCE PROVIDED TO RUSSIA UNDER COOPERATIVE THREAT REDUCTION PROGRAMS.

Not later than 90 days after the date of the enactment of this Act, the Secretary of Defense shall submit to Congress a report on issues regarding payment of taxes, duties, and other assessments on assistance provided to Russia under Cooperative Threat Reduction programs. The report shall include the following:

(1) A description of any disputes between the United States and Russia with respect to payment by the United States of taxes, duties and other assessments on assistance provided to Russia under a Cooperative Threat Reduction program, including a description of the nature of each dispute, the amount of payment disputed, whether the dispute was resolved, and if the dispute was resolved, the means by which the dispute was resolved.

(2) A description of the actions taken by the Secretary to prevent disputes in the future between the United States and Russia with respect to payment by the United States of taxes, duties, and other assessments on assistance provided to Russia under a Cooperative Threat Reduction program.

(3) A description of any agreement between the United States and Russia with respect to payment by the United States of taxes, duties, or other assessments on assistance provided to Russia under a Cooperative Threat Reduction program.

(4) Any proposals of the Secretary for actions that should be taken to prevent disputes between the United States and Russia with respect to payment by the United States of taxes, duties, or other assessments on assistance provided to Russia under a Cooperative Threat Reduction program.

SEC. 1410. AVAILABILITY OF FUNDS.

Funds appropriated pursuant to the authorization of appropriations in section 301 for Cooperative Threat Reduction programs shall be available for obligation for three fiscal years.

 Sec. 1516. *Definition of State.*

SEC. 1501. RECOGNITION AND GRANT OF FEDERAL CHARTER.

The Air Force Sergeants Association, a nonprofit corporation organized under the laws of the District of Columbia, is recognized as such and granted a Federal charter.

SEC. 1502. POWERS.

The Air Force Sergeants Association (in this title referred to as the "association") shall have only those powers granted to it through its bylaws and articles of incorporation filed in the District of Columbia and subject to the laws of the District of Columbia.

SEC. 1503. PURPOSES.

The purposes of the association are those provided in its bylaws and articles of incorporation and shall include the following:

(1) To help maintain a highly dedicated and professional corps of enlisted personnel within the United States Air Force, including the United States Air Force Reserve, and the Air National Guard.

(2) To support fair and equitable legislation and Department of the Air Force policies and to influence by lawful means departmental plans, programs, policies, and legislative proposals that affect enlisted personnel of the Regular Air Force, the Air Force Reserve, and the Air National Guard, its retirees, and other veterans of enlisted service in the Air Force.

(3) To actively publicize the roles of enlisted personnel in the United States Air Force.

(4) To participate in civil and military activities, youth programs, and fundraising campaigns that benefit the United States Air Force.

(5) To provide for the mutual welfare of members of the association and their families.

(6) To assist in recruiting for the United States Air Force.

(7) To assemble together for social activities.

(8) To maintain an adequate Air Force for our beloved country.

(9) To foster among the members of the association a devotion to fellow airmen.

(10) To serve the United States and the United States Air Force loyally, and to do all else necessary to uphold and defend the Constitution of the United States.

SEC. 1504. SERVICE OF PROCESS.

With respect to service of process, the association shall comply with the laws of the District of Columbia and those States in which it carries on its activities in furtherance of its corporate purposes.

SEC. 1505. MEMBERSHIP.

Except as provided in section 1508(g), eligibility for membership in the association and the rights and privileges of members shall be as provided in the bylaws and articles of incorporation of the association.

SEC. 1506. BOARD OF DIRECTORS.

Except as provided in section 1508(g), the composition of the board of directors of the association and the responsibilities of the board shall be as provided in the bylaws and articles of incorporation of the association and in conformity with the laws of the District of Columbia.

SEC. 1507. OFFICERS.

Except as provided in section 1508(g), the positions of officers of the association and the election of members to such positions shall be as provided in the bylaws and articles of incorporation of the association and in conformity with the laws of the District of Columbia.

SEC. 1508. RESTRICTIONS.

(a) INCOME AND COMPENSATION.—No part of the income or assets of the association may inure to the benefit of any member, officer, or director of the association or be distributed to any such individual during the life of this charter. Nothing in this subsection may be construed to prevent the payment of reasonable compensation to the officers and employees of the association or reimbursement for actual and necessary expenses in amounts approved by the board of directors.

(b) LOANS.—The association may not make any loan to any member, officer, director, or employee of the association.

(c) ISSUANCE OF STOCK AND PAYMENT OF DIVIDENDS.—The association may not issue any shares of stock or declare or pay any dividends.

(d) DISCLAIMER OF CONGRESSIONAL OR FEDERAL APPROVAL.—The association may not claim the approval of the Congress or the authorization of the Federal Government for any of its activities by virtue of this title.

(e) CORPORATE STATUS.—The association shall maintain its status as a corporation organized and incorporated under the laws of the District of Columbia.

(f) CORPORATE FUNCTION.—The association shall function as an educational, patriotic, civic, historical, and research organization under the laws of the District of Columbia.

(g) NONDISCRIMINATION.—In establishing the conditions of membership in the association and in determining the requirements for serving on the board of directors or as an officer of the association, the association may not discriminate on the basis of race, color, religion, sex, handicap, age, or national origin.

SEC. 1509. LIABILITY.

The association shall be liable for the acts of its officers, directors, employees, and agents whenever such individuals act within the scope of their authority.

SEC. 1510. MAINTENANCE AND INSPECTION OF BOOKS AND RECORDS.

(a) **BOOKS AND RECORDS OF ACCOUNT.**—*The association shall keep correct and complete books and records of account and minutes of any proceeding of the association involving any of its members, the board of directors, or any committee having authority under the board of directors.*

SEC. 2812. PERMANENT AUTHORITY REGARDING CONVEYANCE OF UTILITY SYSTEMS.

(a) *IN GENERAL.*—Chapter 159 of title 10, United States Code, is amended by inserting after section 2687 the following new section:

“§2688. Utility systems: conveyance authority

“(a) CONVEYANCE AUTHORITY.—The Secretary of a military department may convey a utility system, or part of a utility system, under the jurisdiction of the Secretary to a municipal, private, regional, district, or cooperative utility company or other entity. The conveyance may consist of all right, title, and interest of the United States in the utility system or such lesser estate as the Secretary considers appropriate to serve the interests of the United States.

“(b) SELECTION OF CONVEYEE.—If more than one utility or entity referred to in subsection (a) notifies the Secretary concerned of an interest in a conveyance under such subsection, the Secretary shall carry out the conveyance through the use of competitive procedures.

“(c) CONSIDERATION.—(1) The Secretary concerned shall require as consideration for a conveyance under subsection (a) an amount equal to the fair market value (as determined by the Secretary) of the right, title, or interest of the United States conveyed. The consideration may take the form of—

“(A) a lump sum payment; or

“(B) a reduction in charges for utility services provided by the utility or entity concerned to the military installation at which the utility system is located.

“(2) If the utility services proposed to be provided as consideration under paragraph (1) are subject to regulation by a Federal or State agency, any reduction in the rate charged for the utility services shall be subject to establishment or approval by that agency.

“(d) TREATMENT OF PAYMENTS.—(1) A lump sum payment received under subsection (c) shall be credited, at the election of the Secretary concerned—

“(A) to an appropriation of the military department concerned available for the procurement of the same utility services as are provided by the utility system conveyed under this section;

“(B) to an appropriation of the military department available for carrying out energy savings projects or water conservation projects; or

“(C) to an appropriation of the military department available for improvements to other utility systems.

“(2) Amounts so credited shall be merged with funds in the appropriation to which credited and shall be available for the same purposes, and subject to the same conditions and limitations, as the appropriation with which merged.

“(e) NOTICE-AND-WAIT REQUIREMENT.—The Secretary concerned may not make a conveyance under subsection (a) until—

“(1) the Secretary submits to the Committee on Armed Services and the Committee on Appropriations of the Senate and the Committee on National Security and the Committee on Appropriations of the House of Representatives an economic analysis (based upon accepted life-cycle costing procedures approved by the Secretary of Defense) demonstrating that—

“(A) the long-term economic benefit of the conveyance to the United States exceeds the long-term economic cost of the conveyance to the United States; and

“(B) the conveyance will reduce the long-term costs of the United States for utility services provided by the utility system concerned; and

“(2) a period of 21 days has elapsed after the date on which the economic analysis is received by the committees.

“(f) ADDITIONAL TERMS AND CONDITIONS.—The Secretary concerned may require such additional terms and conditions in connection with a conveyance under subsection (a) as the Secretary considers appropriate to protect the interests of the United States.

“(g) UTILITY SYSTEM DEFINED.—(1) In this section, the term ‘utility system’ means any of the following:

“(A) A system for the generation and supply of electric power.

“(B) A system for the treatment or supply of water.

“(C) A system for the collection or treatment of wastewater.

“(D) A system for the generation or supply of steam, hot water, and chilled water.

“(E) A system for the supply of natural gas.

“(F) A system for the transmission of telecommunications.

“(2) The term ‘utility system’ includes the following:

“(A) Equipment, fixtures, structures, and other improvements utilized in connection with a system referred to in paragraph (1).

“(B) Easements and rights-of-ways associated with a system referred to in that paragraph.

“(h) LIMITATION.—This section shall not apply to projects constructed or operated by the Army Corps of Engineers under its civil works authorities.”.

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 2687 the following new item:

“2688. Utility systems: conveyance authority.”.

SEC. 2813. ADMINISTRATIVE EXPENSES FOR CERTAIN REAL PROPERTY TRANSACTIONS.

(a) ACCEPTANCE AUTHORIZED.—Chapter 159 of title 10, United States Code, is amended by adding at the end the following new section:

“§ 2695. Acceptance of funds to cover administrative expenses relating to certain real property transactions

“(a) *AUTHORITY TO ACCEPT.*—In connection with a real property transaction referred to in subsection (b) with a non-Federal person or entity, the Secretary of a military department may accept amounts provided by the person or entity to cover administrative expenses incurred by the Secretary in entering into the transaction.

“(b) *COVERED TRANSACTIONS.*—Subsection (a) applies to the following transactions:

- “(1) The exchange of real property.
- “(2) The grant of an easement over, in, or upon real property of the United States.
- “(3) The lease or license of real property of the United States.

“(c) *USE OF AMOUNTS COLLECTED.*—Amounts collected under subsection (a) for administrative expenses shall be credited to the appropriation, fund, or account from which the expenses were paid. Amounts so credited shall be merged with funds in such appropriation, fund, or account and shall be available for the same purposes and subject to the same limitations as the funds with which merged.”

(b) *CLERICAL AMENDMENT.*—The table of sections at the beginning of chapter 159 of such title is amended by adding at the end the following new item:

“2695. Acceptance of funds to cover administrative expenses relating to certain real property transactions.”

SEC. 2814. SCREENING OF REAL PROPERTY TO BE CONVEYED BY DEPARTMENT OF DEFENSE.

(a) *REQUIREMENT.*—(1) Chapter 159 of title 10, United States Code, is amended by inserting after section 2695, as added by section 2813, the following new section:

“§ 2696. Screening of real property for further Federal use before conveyance

“(a) *SCREENING REQUIREMENT.*—The Secretary concerned may not convey real property that is authorized or required to be conveyed, whether for or without consideration, by any provision of law unless the Administrator of General Services has screened the property for further Federal use in accordance with the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 471 et seq.).

“(b) *TIME FOR SCREENING.*—(1) Before the end of the 30-day period beginning on the date of the enactment of a provision of law authorizing or requiring the conveyance of a parcel of real property by the Secretary concerned, the Administrator of General Services shall complete the screening required by paragraph (1) with regard to the real property and notify the Secretary concerned of the results of the screening. The notice shall include—

- “(A) the name of the Federal agency requesting transfer of the property;
- “(B) the proposed use to be made of the property by the Federal agency; and
- “(C) the fair market value of the property, including any improvements thereon, as estimated by the Administrator.

“(2) *If the Administrator fails to complete the screening and notify the Secretary concerned within such period, the Secretary concerned shall proceed with the conveyance of the real property as provided in the provision of law authorizing or requiring the conveyance.*

“(c) *NOTICE OF FURTHER FEDERAL USE.—If the Administrator of General Services notifies the Secretary concerned under subsection (b) that further Federal use of a parcel of real property authorized or required to be conveyed by any provision of law is requested by a Federal agency, the Secretary concerned shall submit a copy of the notice to Congress.*

“(d) *CONGRESSIONAL DISAPPROVAL.—If the Secretary concerned submits a notice under subsection (c) with regard to a parcel of real property, the Secretary concerned may not proceed with the conveyance of the real property as provided in the provision of law authorizing or requiring the conveyance if Congress enacts a law rescinding the conveyance authority or requirement before the end of the 180-day period beginning on the date on which the Secretary concerned submits the notice.*

“(e) *EXCEPTED CONVEYANCE AUTHORITIES.—The screening requirements of this section shall not apply to real property authorized or required to be conveyed under any of the following provisions of law:*

“(1) *Section 2687 of this title.*

“(2) *Title II of the Defense Authorization Amendments and Base Closure and Realignment Act (Public Law 100-526; 10 U.S.C. 2687 note).*

“(3) *The Defense Base Closure and Realignment Act of 1990 (part A of title XXIX of Public Law 101-510; 10 U.S.C. 2687 note).*

“(4) *Any provision of law authorizing the closure or realignment of a military installation that is enacted after the date of enactment of the National Defense Authorization Act for Fiscal Year 1998.*

“(5) *Title II of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 481 et seq.).*

“(6) *Any specific provision of law authorizing or requiring the transfer of administrative jurisdiction over a parcel of real property between Federal agencies.”.*

(2) *The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 2695, as added by section 2813, the following new item:*

“2696. *Screening of real property for further Federal use before conveyance.”.*

(b) *APPLICABILITY.—Section 2696 of title 10, United States Code, as added by subsection (a) of this section, shall apply with respect to any real property authorized or required to be conveyed under a provision of law covered by such section that is enacted after December 31, 1997.*

SEC. 2815. DISPOSITION OF PROCEEDS OF SALE OF AIR FORCE PLANT NO. 78, BRIGHAM CITY, UTAH.

Notwithstanding section 204(h)(2)(A) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 485(h)(2)(A)), the entire amount deposited by the Administrator of General Serv-

ices in the special account in the Treasury (established under section 204(h)(2) of such Act) as a result of the sale of Air Force Plant No. 78, Brigham City, Utah, shall be available, to the extent provided in appropriations Acts, to the Secretary of the Air Force for facility maintenance, facility repair, and environmental restoration at other industrial plants of the Air Force.

SEC. 2821. CONSIDERATION OF MILITARY INSTALLATIONS AS SITES FOR NEW FEDERAL FACILITIES.

(a) *1988 LAW.*—Section 204(b)(5) of the Defense Authorization Amendments and Base Closure and Realignment Act (Public Law 100–526; 10 U.S.C. 2687 note) is amended—

(1) in subparagraph (A), by striking out “subparagraph (B)” and inserting in lieu thereof “subparagraphs (B) and (C)”; and

(2) by adding at the end the following new subparagraph:
“(C)(i) Before acquiring non-Federal real property as the location for a new or replacement Federal facility of any type, the head of the Federal agency acquiring the property shall consult with the Secretary regarding the feasibility and cost advantages of using Federal property or facilities at a military installation closed or realigned or to be closed or realigned under this title as the location for the new or replacement facility. In considering the availability and suitability of a specific military installation, the Secretary and the head of the Federal agency involved shall obtain the concurrence of the redevelopment authority with respect to the installation and comply with the redevelopment plan for the installation.

“(ii) Not later than 30 days after acquiring non-Federal real property as the location for a new or replacement Federal facility, the head of the Federal agency acquiring the property shall submit to Congress a report containing the results of the consultation under clause (i) and the reasons why military installations referred to in such clause that are located within the area to be served by the new or replacement Federal facility or within a 200-mile radius of the new or replacement facility, whichever area is greater, were consid-

ered to be unsuitable or unavailable for the site of the new or replacement facility.

“(iii) This subparagraph shall apply during the period beginning on the date of the enactment of the National Defense Authorization Act for Fiscal Year 1998 and ending on July 31, 2001.”.

(b) 1990 LAW.—Section 2905(b)(5) of the Defense Base Closure and Realignment Act of 1990 (Public Law 101-510; 10 U.S.C. 2687 note) is amended—

(1) in subparagraph (A), by striking out “subparagraph (B)” and inserting in lieu thereof “subparagraphs (B) and (C)”; and

(2) by adding at the end the following new subparagraph:
 “(C)(i) Before acquiring non-Federal real property as the location for a new or replacement Federal facility of any type, the head of the Federal agency acquiring the property shall consult with the Secretary regarding the feasibility and cost advantages of using Federal property or facilities at a military installation closed or realigned or to be closed or realigned under this part as the location for the new or replacement facility. In considering the availability and suitability of a specific military installation, the Secretary and the head of the Federal agency involved shall obtain the concurrence of the redevelopment authority with respect to the installation and comply with the redevelopment plan for the installation.

“(ii) Not later than 30 days after acquiring non-Federal real property as the location for a new or replacement Federal facility, the head of the Federal agency acquiring the property shall submit to Congress a report containing the results of the consultation under clause (i) and the reasons why military installations referred to in such clause that are located within the area to be served by the new or replacement Federal facility or within a 200-mile radius of the new or replacement facility, whichever area is greater, were considered to be unsuitable or unavailable for the site of the new or replacement facility.

“(iii) This subparagraph shall apply during the period beginning on the date of the enactment of the National Defense Authorization Act for Fiscal Year 1998 and ending on July 31, 2001.”.

SEC. 2822. ADJUSTMENT AND DIVERSIFICATION ASSISTANCE TO ENHANCE PERFORMANCE OF MILITARY FAMILY SUPPORT SERVICES BY PRIVATE SECTOR SOURCES.

Section 2391(b)(5) of title 10, United States Code, is amended by adding at the end the following new subparagraph:

“(C) The Secretary of Defense may also make grants, conclude cooperative agreements, and supplement other Federal funds in order to assist a State or local government in enhancing the capabilities of the government to support efforts of the Department of Defense to privatize, contract for, or diversify the performance of military family support services in cases in which the capability of the Department to provide such services is adversely affected by an action described in paragraph (1).”.

SEC. 2823. SECURITY, FIRE PROTECTION, AND OTHER SERVICES AT PROPERTY FORMERLY ASSOCIATED WITH RED RIVER ARMY DEPOT, TEXAS.

(a) AUTHORITY TO ENTER INTO AGREEMENT.—(1) The Secretary of the Army may enter into an agreement with the local redevel-

ment authority for Red River Army Depot, Texas, under which agreement the Secretary provides security services, fire protection services, or hazardous material response services for the authority with respect to the property at the depot that is under the jurisdiction of the authority as a result of the realignment of the depot under the base closure laws.

(2) The Secretary may not enter into the agreement unless the Secretary determines that the provision of services under the agreement is in the best interests of the United States.

(b) REIMBURSEMENT.—The agreement under subsection (a) shall provide for reimbursing the Secretary for the services provided by the Secretary under the agreement.

(c) TREATMENT OF REIMBURSEMENT.—Any amounts received by the Secretary under subsection (b) as reimbursement for services provided under the agreement entered into under subsection (a) shall be credited to the appropriations providing funds for the services. Amounts so credited shall be merged with the appropriations to which credited and shall be available for the purposes, and subject to the conditions and limitations, for which such appropriations are available.

SEC. 2824. REPORT ON CLOSURE AND REALIGNMENT OF MILITARY INSTALLATIONS.

(a) REPORT.—(1) The Secretary of Defense shall prepare and submit to the congressional defense committees a report on the costs and savings attributable to the rounds of base closures and realignments conducted under the base closure laws and on the need, if any, for additional rounds of base closures and realignments.

(2) For purposes of this section, the term “base closure laws” means—

(A) Title II of the Defense Authorization Amendments and Base Closure and Realignment Act (Public Law 100–526; 10 U.S.C. 2687 note); and

(B) the Defense Base Closure and Realignment Act of 1990 (part A of title XXIX of Public Law 101–510; 10 U.S.C. 2687 note).

(b) ELEMENTS.—The report under subsection (a) shall include the following:

(1) A statement, using data consistent with budget data, of the actual costs and savings (to the extent available for prior fiscal years) and the estimated costs and savings (in the case of future fiscal years) attributable to the closure and realignment of military installations as a result of the base closure laws.

(2) A comparison, set forth by base closure round, of the actual costs and savings stated under paragraph (1) to the estimates of costs and savings submitted to the Defense Base Closure and Realignment Commission as part of the base closure process.

(3) A comparison, set forth by base closure round, of the actual costs and savings stated under paragraph (1) to the annual estimates of costs and savings previously submitted to Congress.

(4) *A list of each military installation at which there is authorized to be employed 300 or more civilian personnel, set forth by Armed Force.*

(5) *An estimate of current excess capacity at military installations, set forth—*

(A) *as a percentage of the total capacity of the military installations of the Armed Forces with respect to all military installations of the Armed Forces;*

(B) *as a percentage of the total capacity of the military installations of each Armed Force with respect to the military installations of such Armed Force; and*

(C) *as a percentage of the total capacity of a type of military installations with respect to military installations of such type.*

(6) *An assessment of the effect of the previous base closure rounds on military capabilities and the ability of the Armed Forces to fulfill the National Military Strategy.*

(7) *A description of the types of military installations that would be recommended for closure or realignment in the event of one or more additional base closure rounds, set forth by Armed Force.*

(8) *The criteria to be used by the Secretary in evaluating military installations for closure or realignment in such event.*

(9) *The methodologies to be used by the Secretary in identifying military installations for closure or realignment in such event.*

(10) *An estimate of the costs and savings that the Secretary believes will be achieved as a result of the closure or realignment of military installations in such event, set forth by Armed Force and by year.*

(11) *An assessment of whether the costs and estimated savings from one or more future rounds of base closures and realignments, currently unauthorized, are already contained in the current Future Years Defense Plan, and, if not, whether the Secretary will recommend modifications in future defense spending in order to accommodate such costs and savings.*

(c) *METHOD OF PRESENTING INFORMATION.—The statement and comparison required by paragraphs (1) and (2) of subsection (b) shall be set forth by Armed Force, type of facility, and fiscal year, and include the following:*

(1) *Operation and maintenance costs, including costs associated with expanded operations and support, maintenance of property, administrative support, and allowances for housing at military installations to which functions are transferred as a result of the closure or realignment of other installations.*

(2) *Military construction costs, including costs associated with rehabilitating, expanding, and constructing facilities to receive personnel and equipment that are transferred to military installations as a result of the closure or realignment of other installations.*

(3) *Environmental cleanup costs, including costs associated with assessments and restoration.*

(4) *Economic assistance costs, including—*

(A) expenditures on Department of Defense demonstration projects relating to economic assistance;

(B) expenditures by the Office of Economic Adjustment; and

(C) to the extent available, expenditures by the Economic Development Administration, the Federal Aviation Administration, and the Department of Labor relating to economic assistance.

(5) To the extent information is available, unemployment compensation costs, early retirement benefits (including benefits paid under section 5597 of title 5, United States Code), and worker retraining expenses under the Priority Placement Program, the Job Training Partnership Act, and any other Federally-funded job training program.

(6) Costs associated with military health care.

(7) Savings attributable to changes in military force structure.

(8) Savings due to lower support costs with respect to military installations that are closed or realigned.

(d) **DEADLINE.**—The Secretary shall submit the report under subsection (a) not later than the date on which the President submits to Congress the budget for fiscal year 2000 under section 1105(a) of title 31, United States Code.

(e) **REVIEW.**—The Congressional Budget Office and the Comptroller General shall conduct a review of the report prepared under subsection (a).

(f) **PROHIBITION ON USE OF FUNDS.**—Except as necessary to prepare the report required subsection (a), no funds authorized to be appropriated or otherwise made available to the Department of Defense by this Act or any other Act may be used for the purposes of planning for, or collecting data in anticipation of, an authorization providing for procedures under which the closure and realignment of military installations may be accomplished, until the later of—

(1) the date on which the Secretary submits the report required by subsection (a); and

(2) the date on which the Congressional Budget Office and the Comptroller General complete a review of the report under subsection (e).

(g) **SENSE OF CONGRESS.**—It is the sense of the Congress that—

(1) the Secretary should develop a system having the capacity to quantify the actual costs and savings attributable to the closure and realignment of military installations pursuant to the base closure process; and

(2) the Secretary should develop the system in expedient fashion, so that the system may be used to quantify costs and savings attributable to the 1995 base closure round.

SEC. 2825. SENSE OF SENATE REGARDING UTILIZATION OF SAVINGS DERIVED FROM BASE CLOSURE PROCESS.

(a) **FINDINGS.**—The Senate makes the following findings:

(1) Since 1988, the Department of Defense has conducted four rounds of closures and realignments of military installations in the United States, resulting in the closure of 97 installations.

(2) *The cost of carrying out the closure or realignment of installations covered by such rounds is estimated by the Secretary of Defense to be \$23,000,000,000.*

(3) *The savings expected as a result of the closure or realignment of such installations are estimated by the Secretary to be \$10,300,000,000 through fiscal year 1996 and \$36,600,000,000 through 2001.*

(4) *In addition to such savings, the Secretary has estimated recurring savings as a result of the closure or realignment of such installations of approximately \$5,600,000,000 annually.*

(5) *The fiscal year 1997 budget request for the Department assumed a savings of between \$2,000,000,000 and \$3,000,000,000 as a result of the closure or realignment of such installations, which savings were to be dedicated to the modernization of the Armed Forces. The savings assumed in the budget request were not realized.*

(6) *The fiscal year 1998 budget request for the Department assumes a savings of \$5,000,000,000 as a result of the closure or realignment of such installations, which savings are to be dedicated to the modernization of the Armed Forces.*

(b) SENSE OF SENATE ON USE OF SAVINGS RESULTING FROM BASE CLOSURE PROCESS.—It is the sense of the Senate that the savings identified in the report under section 2824 should be made available to the Department of Defense solely for purposes of the modernization of new weapon systems (including research, development, test, and evaluation relating to such modernization) and should be used by the Department solely for such purposes.

SEC. 2826. PROHIBITION AGAINST CERTAIN CONVEYANCES OF PROPERTY AT NAVAL STATION, LONG BEACH, CALIFORNIA.

(a) PROHIBITION AGAINST DIRECT CONVEYANCE.—In disposing of real property in connection with the closure of Naval Station, Long Beach, California, under the Defense Base Closure and Realignment Act of 1990 (part A of title XXIX of Public Law 101-510; 10 U.S.C. 2687 note), the Secretary of the Navy may not convey any portion of the property (by sale, lease, or other method) to the China Ocean Shipping Company or any legal successor or subsidiary of that Company (in this section referred to as “COSCO”).

(b) PROHIBITION AGAINST INDIRECT CONVEYANCE.—The Secretary of the Navy shall impose as a condition on each conveyance of real property located at Naval Station, Long Beach, California, the requirement that the property may not be subsequently conveyed (by sale, lease, or other method) to COSCO.

(c) REVERSIONARY INTEREST.—If the Secretary of the Navy determines at any time that real property located at Naval Station, Long Beach, California, and conveyed under the Defense Base Closure and Realignment Act of 1990 has been conveyed to COSCO in violation of subsection (b) or is otherwise being used by COSCO in violation of such subsection, all right, title, and interest in and to the property shall revert to the United States, and the United States shall have immediate right of entry thereon.

(d) NATIONAL SECURITY REPORT AND DETERMINATION.—Not later than 30 days after the date of the enactment of this Act, the Secretary of Defense and the Director of the Federal Bureau of Investigation shall separately submit to the President and the congress-

sional defense committees a report regarding the potential national security implications of conveying property described in subsection (a) to COSCO. Each report shall specifically identify any increased risk of espionage, arms smuggling, or other illegal activities that could result from a conveyance to COSCO and recommend appropriate action to address any such risk.

(e) **WAIVER AUTHORITY.**—(1) The President may waive the prohibitions contained in this section with respect to a conveyance of property described in subsection (a) to COSCO if the President determines that—

(A) appropriate action has been taken to address any increased national security risk identified in the reports required by subsection (d); and

(B) the conveyance would not adversely affect national security or significantly increase the counter-intelligence burden on the intelligence community.

(2) Any waiver under paragraph (1) shall take effect 30 days after the date on which the President notifies the Speaker of the House of Representatives and the President of the Senate of the President's determination to use the waiver authority provided under this subsection.

Subtitle D—Land Conveyances

PART I—ARMY CONVEYANCES

SEC. 2831. LAND CONVEYANCE, ARMY RESERVE CENTER, GREENSBORO, ALABAMA.

(a) **CONVEYANCE AUTHORIZED.**—The Secretary of the Army may convey, without consideration, to Hale County, Alabama, all right, title, and interest of the United States in and to a parcel of real property consisting of approximately 5.17 acres and located at the Army Reserve Center, Greensboro, Alabama, that was conveyed by Hale County, Alabama, to the United States by warranty deed dated September 12, 1988.

(b) **DESCRIPTION OF PROPERTY.**—The exact acreage and legal description of the property to be conveyed under subsection (a) shall be as described in the deed referred to in that subsection.

(c) **ADDITIONAL TERMS AND CONDITIONS.**—The Secretary may require such additional terms and conditions in connection with the conveyance under subsection (a) as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2832. LAND CONVEYANCE, JAMES T. COKER ARMY RESERVE CENTER, DURANT, OKLAHOMA.

(a) **CONVEYANCE AUTHORIZED.**—The Secretary of the Army may convey, without consideration, to Big Five Community Services, Incorporated, a nonprofit organization operating in Durant, Oklahoma, all right, title, and interest of the United States in and to a parcel of real property located at 1500 North First Street in Durant, Oklahoma, and containing the James T. Coker Army Reserve Center, if the Secretary determines that the Reserve Center is excess to the needs of the Armed Forces.

(b) *CONDITION OF CONVEYANCE.*—The conveyance authorized under subsection (a) shall be subject to the condition that Big Five Community Services, Incorporated, retain the conveyed property for educational purposes.

(c) *REVERSION.*—If the Secretary determines at any time that the real property conveyed under subsection (a) is not being used for the purpose specified in subsection (b), all right, title, and interest in and to the real property, including any improvements thereon, shall revert to the United States, and the United States shall have the right of immediate entry thereon.

(d) *DESCRIPTION OF PROPERTY.*—The exact acreage and legal description of the real property to be conveyed under subsection (a) shall be determined by a survey satisfactory to the Secretary. The cost of the survey shall be borne by Big Five Community Services, Incorporated.

(e) *ADDITIONAL TERMS AND CONDITIONS.*—The Secretary may require such additional terms and conditions in connection with the conveyance under subsection (a) as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2833. LAND CONVEYANCE, GIBSON ARMY RESERVE CENTER, CHICAGO, ILLINOIS.

(a) *CONVEYANCE AUTHORIZED.*—The Secretary of the Army may convey, without consideration, to the Lawndale Business and Local Development Corporation (in this section referred to as the “Corporation”), a nonprofit organization organized in the State of Illinois, all right, title, and interest of the United States in and to a parcel of real property, including improvements thereon, that is located at 4454 West Cermak Road in Chicago, Illinois, and contains the Gibson Army Reserve Center.

(b) *CONDITION OF CONVEYANCE.*—The conveyance under subsection (a) shall be subject to the condition that the Corporation—

(1) use the conveyed property, directly or through an agreement with a public or private entity, for economic redevelopment purposes; or

(2) convey the property to an appropriate public or private entity for use for such purposes.

(c) *REVERSION.*—If the Secretary determines at any time that the real property conveyed under subsection (a) is not being used for economic redevelopment purposes, as required by subsection (b), all right, title, and interest in and to the property, including any improvements thereon, shall revert to the United States, and the United States shall have the right of immediate entry onto the property.

(d) *DESCRIPTION OF PROPERTY.*—The exact acreage and legal description of the real property to be conveyed under subsection (a) shall be determined by a survey satisfactory to the Secretary. The cost of the survey shall be borne by the Corporation.

(e) *ADDITIONAL TERMS AND CONDITIONS.*—The Secretary may require such additional terms and conditions in connection with the conveyance under subsection (a) as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2834. LAND CONVEYANCE, FORT A. P. HILL, VIRGINIA.

(a) *CONVEYANCE AUTHORIZED.*—The Secretary of the Army may convey to Caroline County, Virginia (in this section referred to as

the "County"), all right, title, and interest of the United States in and to a parcel of unimproved real property consisting of approximately 10 acres located at Fort A. P. Hill, Virginia. The purpose of the conveyance is to permit the County to establish a solid waste transfer and recycling facility on the property.

(b) *CONSIDERATION.*—As consideration for the conveyance under subsection (a), the County shall permit the Army, at no cost to the Army, to dispose of not less than 1,800 tons of solid waste annually at the facility established on the conveyed property. The obligation of the County to accept solid waste under this subsection shall not commence until after the solid waste transfer and recycling facility on the conveyed property becomes operational, and the establishment of a solid waste collection and transfer site on the .36-acre parcel described in subsection (d)(2) shall not be construed to impose the obligation.

(c) *DISCLAIMER.*—The United States shall not be responsible for the provision or cost of utilities or any other improvements necessary to carry out the conveyance under subsection (a) or to establish or operate the solid waste transfer and recycling facility intended for the property.

(d) *REVERSION.*—(1) Except as provided in paragraph (2), if the Secretary determines that a solid waste transfer and recycling facility is not operational, before December 31, 1999, on the real property conveyed under subsection (a), all right, title, and interest in and to such real property, including any improvements thereon, shall revert to the United States, and the United States shall have the right of immediate entry thereon.

(2) Paragraph (1) shall not apply with respect to a parcel of approximately .36 acres of the approximately 10-acre parcel to be conveyed under subsection (a), which is included in the larger conveyance to permit the County to establish a solid waste collection and transfer site for residential waste.

(e) *ADDITIONAL TERMS AND CONDITIONS.*—The Secretary may require such additional terms and conditions in connection with the conveyance under subsection (a) as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2835. LAND CONVEYANCES, FORT DIX, NEW JERSEY.

(a) *CONVEYANCES AUTHORIZED.*—(1) The Secretary of the Army may convey, without consideration, to the Borough of Wrightstown, New Jersey (in this section referred to as the "Borough"), all right, title, and interest of the United States in and to a parcel of real property (including improvements thereon) consisting of approximately 39.69 acres located at Fort Dix, New Jersey, for the purpose of permitting the Borough to develop the parcel for economic purposes.

(2) The Secretary may convey, without consideration, to the New Hanover Board of Education (in this section referred to as the "Board"), all right, title, and interest of the United States in and to an additional parcel of real property (including improvements thereon) at Fort Dix consisting of approximately five acres for the purpose of permitting the Board to develop the parcel for educational purposes.

(b) *CONDITIONS OF CONVEYANCE.*—(1) The conveyance under subsection (a)(1) shall be subject to the condition that the Borough—

(A) use the conveyed property, directly or through an agreement with a public or private entity, for economic development purposes; or

(B) convey the property to an appropriate public or private entity for use for such purposes.

(2) The conveyance under subsection (a)(2) shall be subject to the condition that Board develop and use the conveyed property for educational purposes.

(c) REVERSION.—(1) If the Secretary determines at any time that the real property conveyed under subsection (a)(1) is not being used for economic development purposes, as required by subsection (b)(1), all right, title, and interest in and to the property conveyed under subsection (a)(1), including any improvements thereon, shall revert to the United States, and the United States shall have the right of immediate entry thereon.

(2) If the Secretary determines at any time that the real property conveyed under subsection (a)(2) is not being used for educational purposes, as required by subsection (b)(2), all right, title, and interest in and to the property conveyed under subsection (a)(2), including any improvements thereon, shall revert to the United States, and the United States shall have the right of immediate entry thereon.

(d) DESCRIPTION OF PROPERTY.—The exact acreage and legal description of the real property to be conveyed under subsection (a) shall be determined by surveys satisfactory to the Secretary. The cost of the survey in connection with the conveyance under subsection (a)(1) shall be borne by the Borough, and the cost of the survey in connection with the conveyance under subsection (a)(2) shall be borne by the Board.

(e) ADDITIONAL TERMS AND CONDITIONS.—The Secretary may require such additional terms and conditions in connection with the conveyances under subsection (a) as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2836. LAND CONVEYANCES, FORT BRAGG, NORTH CAROLINA.

(a) CONVEYANCES AUTHORIZED.—(1) The Secretary of the Army may convey, without consideration, to the Town of Spring Lake, North Carolina (in this section referred to as the “Town”), all right, title, and interest of the United States in and to a parcel of unimproved real property consisting of approximately 50 acres located at Fort Bragg, North Carolina.

(2) The Secretary may convey, without consideration, to Harnett County, North Carolina (in this section referred to as the “County”), all right, title, and interest of the United States in and to a parcel of real property (including improvements thereon), known as Tract No. 404-2, consisting of approximately 157 acres located at Fort Bragg.

(3) The Secretary may convey, at fair market value, to the County all right, title, and interest of the United States in and to a parcel of real property (including improvements thereon), known as Tract No. 404-1, consisting of approximately 137 acres located at Fort Bragg.

(b) CONDITIONS OF CONVEYANCE.—(1) The conveyance under subsection (a)(1) shall be subject to the condition that the Town use

the conveyed property for access to a waste treatment facility and for economic development purposes.

(2) The conveyance under subsection (a)(2) shall be subject to the condition that County develop and use the conveyed property for educational purposes.

(c) REVERSION.—(1) If the Secretary determines at any time that the real property conveyed under subsection (a)(1) is not being used in accordance with subsection (b)(1), all right, title, and interest in and to the property conveyed under subsection (a)(1), including any improvements thereon, shall revert to the United States, and the United States shall have the right of immediate entry thereon.

(2) If the Secretary determines at any time that the real property conveyed under subsection (a)(2) is not being used in accordance with subsection (b)(2), all right, title, and interest in and to the property conveyed under subsection (a)(2), including any improvements thereon, shall revert to the United States, and the United States shall have the right of immediate entry thereon.

(d) DESCRIPTION OF PROPERTY.—The exact acreage and legal description of the real property to be conveyed under subsection (a) shall be determined by surveys satisfactory to the Secretary. The cost of the survey in connection with the conveyance under subsection (a)(1) shall be borne by the Town, and the cost of the survey in connection with the conveyances under paragraphs (2) and (3) of subsection (a) shall be borne by the County.

(e) ADDITIONAL TERMS AND CONDITIONS.—The Secretary may require such additional terms and conditions in connection with the conveyances under subsection (a) as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2837. LAND CONVEYANCE, HAWTHORNE ARMY AMMUNITION DEPOT, MINERAL COUNTY, NEVADA.

(a) CONVEYANCE AUTHORIZED.—The Secretary of the Army may convey, without consideration, to Mineral County, Nevada (in this section referred to as the “County”), all right, title, and interest of the United States in and to a parcel of excess real property, including improvements thereon, consisting of approximately 33.1 acres located at Hawthorne Army Ammunition Depot, Mineral County, Nevada, and commonly referred to as the Schweer Drive Housing Area, for the purpose of permitting the County to develop the parcel for economic purposes.

(b) CONDITIONS OF CONVEYANCE.—The conveyance authorized by subsection (a) shall be subject to the following conditions:

(1) That the County accept the conveyed property subject to such easements and rights of way in favor of the United States as the Secretary considers appropriate.

(2) That the County, if the County sells any portion of the property conveyed under subsection (a) before the end of the 10-year period beginning on the date of enactment of this Act, pay to the United States an amount equal to the lesser of—

(A) the amount of sale of the property sold; or

(B) the fair market value of the property sold as determined without taking into account any improvements to such property by the County.

(c) DESCRIPTION OF PROPERTY.—The exact acreage and legal description of the real property to be conveyed under subsection (a),

and of any easement or right of way granted under subsection (b)(1), shall be determined by a survey satisfactory to the Secretary. The cost of the survey shall be borne by the County.

(d) **ADDITIONAL TERMS AND CONDITIONS.**—The Secretary may require such additional terms and conditions in connection with the conveyance under subsection (a), and any easement or right of way granted under subsection (b)(1), as the Secretary considers appropriate to protect the interests of the United States.

SEC. 2838. EXPANSION OF LAND CONVEYANCE AUTHORITY, INDIANA ARMY AMMUNITION PLANT, CHARLESTOWN, INDIANA.

SEC. 2852. LAND CONVEYANCE, NAVAL WEAPONS INDUSTRIAL RESERVE PLANT NO. 464, OYSTER BAY, NEW YORK.

(a) *CONVEYANCE AUTHORIZED.*—(1) The Secretary of the Navy may convey, without consideration, to the County of Nassau, New York (in this section referred to as the "County"), all right, title, and interest of the United States in and to parcels of real property consisting of approximately 110 acres and comprising the Naval Weapons Industrial Reserve Plant No. 464, Oyster Bay, New York.

(2)(A) *As part of the conveyance authorized in paragraph (1), the Secretary may convey to the County such improvements, equipment, fixtures, and other personal property (including special tooling equipment and special test equipment) located on the parcels as the Secretary determines to be not required by the Navy for other purposes.*

(B) *The Secretary may permit the County to review and inspect the improvements, equipment, fixtures, and other personal property located on the parcels for purposes of the conveyance authorized by this paragraph.*

(b) **CONDITION OF CONVEYANCE.**—*The conveyance of the parcels authorized in subsection (a) shall be subject to the condition that the County—*

(1) use the parcels, directly or through an agreement with a public or private entity, for economic redevelopment purposes or such other public purposes as the County determines appropriate; or

(2) convey the parcels to an appropriate public or private entity for use for such purposes.

(c) **REVERSION.**—*If, during the five-year period beginning on the date the Secretary makes the conveyance authorized under subsection (a), the Secretary determines that the conveyed real property is not being used for a purpose specified in subsection (b), all right, title, and interest in and to the property, including any improvements thereon, shall revert to the United States, and the United States shall have the right of immediate entry onto the property.*

(d) **INTERIM LEASE.**—(1) *Until such time as the real property described in subsection (a) is conveyed by deed, the Secretary may lease the property, together with improvements thereon, to the County.*

(2) As consideration for the lease under this subsection, the County shall provide such security services and fire protection services for the property covered by the lease, and carry out such maintenance work with respect to the property, as the Secretary shall specify in the lease.

(e) **DESCRIPTION OF PROPERTY.**—*The exact acreage and legal description of the real property to be conveyed under subsection (a) shall be determined by a survey satisfactory to the Secretary. The cost of the survey shall be borne by the County.*

(f) **ADDITIONAL TERMS AND CONDITIONS.**—*The Secretary may require such additional terms and conditions in connection with the conveyance under subsection (a), and the lease, if any, under subsection (d), as the Secretary considers appropriate to protect the interests of the United States.*

SEC. 2901. SHORT TITLE.

This title may be cited as the “Sikes Act Improvement Act of 1997”.

SEC. 2902. DEFINITION OF SIKES ACT FOR PURPOSES OF AMENDMENTS.

In this title, the term “Sikes Act” means the Act entitled “An Act to promote effectual planning, development, maintenance, and coordination of wildlife, fish, and game conservation and rehabilitation in military reservations”, approved September 15, 1960 (16 U.S.C. 670a et seq.), commonly referred to as the “Sikes Act”.

SEC. 2903. CODIFICATION OF SHORT TITLE OF ACT.

The Sikes Act (16 U.S.C. 670a et seq.) is amended by inserting before title I the following new section:

“SECTION 1. SHORT TITLE.

“This Act may be cited as the ‘Sikes Act’.”.

SEC. 2904. PREPARATION OF INTEGRATED NATURAL RESOURCES MANAGEMENT PLANS.

(a) IN GENERAL.—Section 101 of the Sikes Act (16 U.S.C. 670a(a)) is amended by striking out subsection (a) and inserting in lieu thereof the following new subsection:

“(a) AUTHORITY OF SECRETARY OF DEFENSE.—

“(1) PROGRAM.—

“(A) IN GENERAL.—The Secretary of Defense shall carry out a program to provide for the conservation and rehabilitation of natural resources on military installations.

“(B) INTEGRATED NATURAL RESOURCES MANAGEMENT PLAN.—To facilitate the program, the Secretary of each military department shall prepare and implement an integrated natural resources management plan for each military installation in the United States under the jurisdiction of the Secretary, unless the Secretary determines that the

absence of significant natural resources on a particular installation makes preparation of such a plan inappropriate.

“(2) *COOPERATIVE PREPARATION.*—The Secretary of a military department shall prepare each integrated natural resources management plan for which the Secretary is responsible in cooperation with the Secretary of the Interior, acting through the Director of the United States Fish and Wildlife Service, and the head of each appropriate State fish and wildlife agency for the State in which the military installation concerned is located. Consistent with paragraph (4), the resulting plan for the military installation shall reflect the mutual agreement of the parties concerning conservation, protection, and management of fish and wildlife resources.

“(3) *PURPOSES OF PROGRAM.*—Consistent with the use of military installations to ensure the preparedness of the Armed Forces, the Secretaries of the military departments shall carry out the program required by this subsection to provide for—

“(A) the conservation and rehabilitation of natural resources on military installations;

“(B) the sustainable multipurpose use of the resources, which shall include hunting, fishing, trapping, and non-consumptive uses; and

“(C) subject to safety requirements and military security, public access to military installations to facilitate the use.

“(4) *EFFECT ON OTHER LAW.*—Nothing in this title—

“(A)(i) affects any provision of a Federal law governing the conservation or protection of fish and wildlife resources; or

“(ii) enlarges or diminishes the responsibility and authority of any State for the protection and management of fish and resident wildlife; or

“(B) except as specifically provided in the other provisions of this section and in section 102, authorizes the Secretary of a military department to require a Federal license or permit to hunt, fish, or trap on a military installation.”.

(b) *CONFORMING AMENDMENTS.*—Title I of the Sikes Act is amended—

(1) in section 101(b)(4) (16 U.S.C. 670a(b)(4)), by striking out “cooperative plan” each place it appears and inserting in lieu thereof “integrated natural resources management plan”;

(2) in section 101(c) (16 U.S.C. 670a(c)), in the matter preceding paragraph (1), by striking out “a cooperative plan” and inserting in lieu thereof “an integrated natural resources management plan”;

(3) in section 101(d) (16 U.S.C. 670a(d)), in the matter preceding paragraph (1), by striking out “cooperative plans” and inserting in lieu thereof “integrated natural resources management plans”;

(4) in section 101(e) (16 U.S.C. 670a(e)), by striking out “Cooperative plans” and inserting in lieu thereof “Integrated natural resources management plans”;

(5) in section 102 (16 U.S.C. 670b), by striking out “a cooperative plan” and inserting in lieu thereof “an integrated natural resources management plan”;

(6) in section 103 (16 U.S.C. 670c), by striking out “a cooperative plan” and inserting in lieu thereof “an integrated natural resources management plan”;

(7) in section 106(a) (16 U.S.C. 670f(a)), by striking out “cooperative plans” and inserting in lieu thereof “integrated natural resources management plans”; and

(8) in section 106(c) (16 U.S.C. 670f(c)), by striking out “cooperative plans” and inserting in lieu thereof “integrated natural resources management plans”.

(c) *REQUIRED ELEMENTS OF PLANS.*—Section 101(b) of the Sikes Act (16 U.S.C. 670a(b)) is amended—

(1) by striking out “(b) Each cooperative” and all that follows through the end of paragraph (1) and inserting in lieu thereof the following:

“(b) *REQUIRED ELEMENTS OF PLANS.*—Consistent with the use of military installations to ensure the preparedness of the Armed Forces, each integrated natural resources management plan prepared under subsection (a)—

“(1) shall, to the extent appropriate and applicable, provide for—

“(A) fish and wildlife management, land management, forest management, and fish- and wildlife-oriented recreation;

“(B) fish and wildlife habitat enhancement or modifications;

“(C) wetland protection, enhancement, and restoration, where necessary for support of fish, wildlife, or plants;

“(D) integration of, and consistency among, the various activities conducted under the plan;

“(E) establishment of specific natural resource management goals and objectives and time frames for proposed action;

“(F) sustainable use by the public of natural resources to the extent that the use is not inconsistent with the needs of fish and wildlife resources;

“(G) public access to the military installation that is necessary or appropriate for the use described in subparagraph (F), subject to requirements necessary to ensure safety and military security;

“(H) enforcement of applicable natural resource laws (including regulations);

“(I) no net loss in the capability of military installation lands to support the military mission of the installation; and

“(J) such other activities as the Secretary of the military department determines appropriate;”;

(2) in paragraph (2), by adding “and” at the end;

(3) by striking out paragraph (3);

(4) by redesignating paragraph (4) as paragraph (3); and

(5) in paragraph (3)(A) (as so redesignated), by striking out “collect the fees therefor,” and inserting in lieu thereof “collect, spend, administer, and account for fees for the permits,”.

SEC. 2905. REVIEW FOR PREPARATION OF INTEGRATED NATURAL RESOURCES MANAGEMENT PLANS.

(a) **DEFINITIONS.**—In this section, the terms “military installation” and “United States” have the meanings provided in section 100 of the Sikes Act (as added by section 2911).

(b) **REVIEW OF MILITARY INSTALLATIONS.**—

(1) **REVIEW.**—Not later than 270 days after the date of enactment of this Act, the Secretary of each military department shall—

(A) review each military installation in the United States that is under the jurisdiction of that Secretary to determine the military installations for which the preparation of an integrated natural resources management plan under section 101 of the Sikes Act (as amended by this title) is appropriate; and

(B) submit to the Secretary of Defense a report on the determinations.

(2) **REPORT TO CONGRESS.**—Not later than one year after the date of enactment of this Act, the Secretary of Defense shall submit to Congress a report on the reviews conducted under paragraph (1). The report shall include—

(A) a list of the military installations reviewed under paragraph (1) for which the Secretary of the appropriate military department determines that the preparation of an integrated natural resources management plan is not appropriate; and

(B) for each of the military installations listed under subparagraph (A), an explanation of each reason such a plan is not appropriate.

(c) **DEADLINE FOR INTEGRATED NATURAL RESOURCES MANAGEMENT PLANS.**—Not later than three years after the date of the submission of the report required under subsection (b)(2), the Secretary of each military department shall, for each military installation with respect to which the Secretary has not determined under subsection (b)(2)(A) that preparation of an integrated natural resources management plan is not appropriate—

(1) prepare and begin implementing such a plan in accordance with section 101(a) of the Sikes Act (as amended by this title); or

(2) in the case of a military installation for which there is in effect a cooperative plan under section 101(a) of the Sikes Act on the day before the date of enactment of this Act, complete negotiations with the Secretary of the Interior and the heads of the appropriate State agencies regarding changes to the plan that are necessary for the plan to constitute an integrated natural resources management plan that complies with that section, as amended by this title.

(d) **PUBLIC COMMENT.**—The Secretary of each military department shall provide an opportunity for the submission of public comments on—

- (1) *integrated natural resources management plans proposed under subsection (c)(1); and*
 (2) *changes to cooperative plans proposed under subsection (c)(2).*

SEC. 2906. TRANSFER OF WILDLIFE CONSERVATION FEES FROM CLOSED MILITARY INSTALLATIONS.

Section 101(b)(3)(B) of the Sikes Act (16 U.S.C. 670a(b)) (as redesignated by section 2904(c)(4)) is amended by inserting before the period at the end the following: “, unless the military installation is subsequently closed, in which case the fees may be transferred to another military installation to be used for the same purposes”.

SEC. 2907. ANNUAL REVIEWS AND REPORTS.

Section 101 of the Sikes Act (16 U.S.C. 670a) is amended by adding at the end the following new subsection:

“(f) REVIEWS AND REPORTS.—

“(1) SECRETARY OF DEFENSE.—Not later than March 1 of each year, the Secretary of Defense shall review the extent to which integrated natural resources management plans were prepared or were in effect and implemented in accordance with this title in the preceding year, and submit a report on the findings of the review to the committees. Each report shall include—

“(A) the number of integrated natural resources management plans in effect in the year covered by the report, including the date on which each plan was issued in final form or most recently revised;

“(B) the amounts expended on conservation activities conducted pursuant to the plans in the year covered by the report; and

“(C) an assessment of the extent to which the plans comply with this title.

“(2) SECRETARY OF THE INTERIOR.—Not later than March 1 of each year and in consultation with the heads of State fish and wildlife agencies, the Secretary of the Interior shall submit a report to the committees on the amounts expended by the Department of the Interior and the State fish and wildlife agencies in the year covered by the report on conservation activities conducted pursuant to integrated natural resources management plans.

“(3) DEFINITION OF COMMITTEES.—In this subsection, the term ‘committees’ means—

“(A) the Committee on Resources and the Committee on National Security of the House of Representatives; and

“(B) the Committee on Armed Services and the Committee on Environment and Public Works of the Senate.”.

SEC. 2908 COOPERATIVE AGREEMENTS.

Section 103a of the Sikes Act (16 U.S.C. 670c-1) is amended—

(1) in subsection (a), by striking out “Secretary of Defense” and inserting in lieu thereof “Secretary of a military department”;

(2) by striking out subsection (b) and inserting in lieu thereof the following new subsection:

“(b) **MULTIYEAR AGREEMENTS.**—Funds appropriated to the Department of Defense for a fiscal year may be obligated to cover the cost of goods and services provided under a cooperative agreement entered into under subsection (a) or through an agency agreement under section 1535 of title 31, United States Code, during any 18-month period beginning in that fiscal year, without regard to whether the agreement crosses fiscal years.”.

SEC. 2909. FEDERAL ENFORCEMENT.

Title I of the Sikes Act is amended—

(1) by redesignating section 106 (16 U.S.C. 670f) as section 108; and

(2) by inserting after section 105 (16 U.S.C. 670e) the following new section:

“SEC. 106. FEDERAL ENFORCEMENT OF OTHER LAWS.

“All Federal laws relating to the management of natural resources on Federal land may be enforced by the Secretary of Defense with respect to violations of the laws that occur on military installations within the United States.”.

SEC. 2910. NATURAL RESOURCES MANAGEMENT SERVICES.

Title I of the Sikes Act is amended by inserting after section 106 (as added by section 2909) the following new section:

“SEC. 107. NATURAL RESOURCES MANAGEMENT SERVICES.

“To the extent practicable using available resources, the Secretary of each military department shall ensure that sufficient numbers of professionally trained natural resources management personnel and natural resources law enforcement personnel are available and assigned responsibility to perform tasks necessary to carry out this title, including the preparation and implementation of integrated natural resources management plans.”.

SEC. 2911. DEFINITIONS.

Title I of the Sikes Act is amended by inserting before section 101 (16 U.S.C. 670a) the following new section:

“SEC. 100. DEFINITIONS.

“In this title:

“(1) **MILITARY INSTALLATION.**—The term ‘military installation’—

“(A) means any land or interest in land owned by the United States and administered by the Secretary of Defense or the Secretary of a military department, except land under the jurisdiction of the Assistant Secretary of the Army having responsibility for civil works;

“(B) includes all public lands withdrawn from all forms of appropriation under public land laws and reserved for use by the Secretary of Defense or the Secretary of a military department; and

“(C) does not include any land described in subparagraph (A) or (B) that is subject to an approved recommendation for closure under the Defense Base Closure and Realignment Act of 1990 (part A of title XXIX of Public Law 101-510; 10 U.S.C. 2687 note).

“(2) **STATE FISH AND WILDLIFE AGENCY.**—The term ‘State fish and wildlife agency’ means the one or more agencies of

State government that are responsible under State law for managing fish or wildlife resources.

“(3) UNITED STATES.—The term ‘United States’ means the States, the District of Columbia, and the territories and possessions of the United States.”.

SEC. 2912. REPEAL OF SUPERSEDED PROVISION.

Section 2 of the Act of October 27, 1986 (Public Law 99-561; 16 U.S.C. 670a-1), is repealed.

SEC. 2913. TECHNICAL AMENDMENTS.

Title I of the Sikes Act, as amended by this title, is amended—

(1) in the heading for the title, by striking out “MILITARY RESERVATIONS” and inserting in lieu thereof “MILITARY INSTALLATIONS”;

(2) in section 101(b)(3) (16 U.S.C. 670a(b)(3)), as redesignated by section 2904(c)(4)—

(A) in subparagraph (A), by striking out “the reservation” and inserting in lieu thereof “the installation”; and

(B) in subparagraph (B), by striking out “the military reservation” and inserting in lieu thereof “the military installation”;

(3) in section 101(c) (16 U.S.C. 670a(c))—

(A) in paragraph (1), by striking out “a military reservation” and inserting in lieu thereof “a military installation”; and

(B) in paragraph (2), by striking out “the reservation” and inserting in lieu thereof “the installation”;

(4) in section 101(e) (16 U.S.C. 670a(e)), by striking “the Federal Grant and Cooperative Agreement Act of 1977 (41 U.S.C. 501 et seq.)” and inserting “chapter 63 of title 31, United States Code”;

(5) in section 102 (16 U.S.C. 670b), by striking out “military reservations” and inserting in lieu thereof “military installations”; and

(6) in section 103 (16 U.S.C. 670c)—

(A) by striking out “military reservations” and inserting in lieu thereof “military installations”; and

(B) by striking out “such reservations” and inserting in lieu thereof “the installations”.

SEC. 2914. AUTHORIZATIONS OF APPROPRIATIONS.

(a) CONSERVATION PROGRAMS ON MILITARY INSTALLATIONS.—Subsections (b) and (c) of section 108 of the Sikes Act (as redesignated by section 2909(1)) are each amended by striking out “1983” and all that follows through “1993,” and inserting in lieu thereof “1998 through 2003.”.

(b) CONSERVATION PROGRAMS ON PUBLIC LANDS.—Section 209 of the Sikes Act (16 U.S.C. 670o) is amended—

(1) in subsection (a), by striking out “the sum of \$10,000,000” and all that follows through “to enable the Secretary of the Interior” and inserting in lieu thereof “\$4,000,000 for each of fiscal years 1998 through 2003, to enable the Secretary of the Interior”; and

(2) in subsection (b), by striking out “the sum of \$12,000,000” and all that follows through “to enable the Sec-

retary of Agriculture” and inserting in lieu thereof “\$5,000,000 for each of fiscal years 1998 through 2003, to enable the Secretary of Agriculture”.

TITLE XXXI—DEPARTMENT OF ENERGY NATIONAL SECURITY PROGRAMS

Subtitle A—National Security Programs Authorizations

- Sec. 3101. Weapons activities.*
- Sec. 3102. Environmental restoration and waste management.*
- Sec. 3103. Other defense activities.*
- Sec. 3104. Defense nuclear waste disposal.*

Subtitle B—Recurring General Provisions

- Sec. 3121. Reprogramming.*
- Sec. 3122. Limits on general plant projects.*
- Sec. 3123. Limits on construction projects.*
- Sec. 3124. Fund transfer authority.*
- Sec. 3125. Authority for conceptual and construction design.*
- Sec. 3126. Authority for emergency planning, design, and construction activities.*
- Sec. 3127. Funds available for all national security programs of the Department of Energy.*
- Sec. 3128. Availability of funds.*
- Sec. 3129. Transfers of defense environmental management funds.*

Subtitle C—Program Authorizations, Restrictions, and Limitations

- Sec. 3131. Memorandum of understanding for use of national laboratories for ballistic missile defense programs.*
- Sec. 3132. Defense environmental management privatization projects.*
- Sec. 3133. International cooperative stockpile stewardship.*
- Sec. 3134. Modernization of enduring nuclear weapons complex.*
- Sec. 3135. Tritium production.*
- Sec. 3136. Processing, treatment, and disposition of spent nuclear fuel rods and other legacy nuclear materials at the Savannah River Site.*
- Sec. 3137. Limitations on use of funds for laboratory directed research and development purposes.*
- Sec. 3138. Pilot program relating to use of proceeds of disposal or utilization of certain Department of Energy assets.*
- Sec. 3139. Modification and extension of authority relating to appointment of certain scientific, engineering, and technical personnel.*
- Sec. 3140. Limitation on use of funds for subcritical nuclear weapons tests.*
- Sec. 3141. Limitation on use of certain funds until future use plans are submitted.*

Subtitle D—Other Matters

- Sec. 3151. Plan for stewardship, management, and certification of warheads in the nuclear weapons stockpile.*
- Sec. 3152. Repeal of obsolete reporting requirements.*
- Sec. 3153. Study and funding relating to implementation of workforce restructuring plans.*
- Sec. 3154. Report and plan for external oversight of national laboratories.*
- Sec. 3155. University-based research collaboration program.*
- Sec. 3156. Stockpile stewardship program.*
- Sec. 3157. Reports on advanced supercomputer sales to certain foreign nations.*
- Sec. 3158. Transfers of real property at certain Department of Energy facilities.*
- Sec. 3159. Requirement to delegate certain authorities to site manager of Hanford Reservation.*
- Sec. 3160. Submittal of biennial waste management reports.*

- Sec. 3161. *Department of Energy Security Management Board.*
 Sec. 3162. *Submittal of annual report on status of security functions at nuclear weapons facilities.*
 Sec. 3163. *Modification of authority on Commission on Maintaining United States Nuclear Weapons Expertise.*
 Sec. 3164. *Land transfer, Bandelier National Monument.*
 Sec. 3165. *Final settlement of Department of Energy community assistance obligations with respect to Los Alamos National Laboratory, New Mexico.*
 Sec. 3166. *Sense of Congress regarding the Y-12 Plant in Oak Ridge, Tennessee.*
 Sec. 3167. *Support for public education in the vicinity of Los Alamos National Laboratory, New Mexico.*
 Sec. 3168. *Improvements to Greenville Road, Livermore, California.*
 Sec. 3169. *Report on alternative system for availability of funds.*
 Sec. 3170. *Report on remediation under the Formerly Utilized Sites Remedial Action Program.*

Subtitle A—National Security Programs Authorizations

SEC. 3101. WEAPONS ACTIVITIES.

(a) *STOCKPILE STEWARDSHIP.*—Funds are hereby authorized to be appropriated to the Department of Energy for fiscal year 1998 for stockpile stewardship in carrying out weapons activities necessary for national security programs in the amount of \$1,867,150,000, to be allocated as follows:

(1) *For core stockpile stewardship, \$1,387,100,000, to be allocated as follows:*

(A) *For operation and maintenance, \$1,288,290,000.*

(B) *For plant projects (including maintenance, restoration, planning, construction, acquisition, modification of facilities, and the continuation of projects authorized in prior years, and land acquisition related thereto), \$98,810,000, to be allocated as follows:*

Project 97-D-102, dual-axis radiographic hydrotest facility, Los Alamos National Laboratory, Los Alamos, New Mexico, \$46,300,000.

Project 96-D-102, stockpile stewardship facilities revitalization, Phase VI, various locations, \$19,810,000.

Project 96-D-103, ATLAS, Los Alamos National Laboratory, Los Alamos, New Mexico, \$13,400,000.

Project 96-D-105, contained firing facility addition, Lawrence Livermore National Laboratory, Livermore, California, \$19,300,000.

(2) *For inertial fusion, \$414,800,000, to be allocated as follows:*

(A) *For operation and maintenance, \$217,000,000.*

(B) *For the following plant project (including maintenance, restoration, planning, construction, acquisition, and modification of facilities, and land acquisition related thereto), \$197,800,000, to be allocated as follows:*

Project 96-D-111, national ignition facility, location to be determined, \$197,800,000.

(3) *For technology transfer and education, \$65,250,000, to be allocated as follows:*

(A) *For technology transfer, \$56,250,000.*

(B) For education, \$9,000,000.

(b) *STOCKPILE MANAGEMENT.*—Funds are hereby authorized to be appropriated to the Department of Energy for fiscal year 1998 for stockpile management in carrying out weapons activities necessary for national security programs in the amount of \$2,052,150,000, to be allocated as follows:

(1) For operation and maintenance, \$1,891,265,000.

(2) For plant projects (including maintenance, restoration, planning, construction, acquisition, modification of facilities, and the continuation of projects authorized in prior years, and land acquisition related thereto), \$160,885,000, to be allocated as follows:

Project 98-D-123, stockpile management restructuring initiative, tritium factory modernization and consolidation, Savannah River Site, Aiken, South Carolina, \$11,000,000.

Project 98-D-124, stockpile management restructuring initiative, Y-12 Plant consolidation, Oak Ridge, Tennessee, \$6,450,000.

Project 98-D-125, tritium extraction facility, Savannah River Site, Aiken, South Carolina, \$9,650,000.

Project 98-D-126, accelerator production of tritium, various locations, \$67,865,000.

Project 97-D-122, nuclear materials storage facility renovation, Los Alamos National Laboratory, Los Alamos, New Mexico, \$9,200,000.

Project 97-D-124, steam plant wastewater treatment facility upgrade, Y-12 Plant, Oak Ridge, Tennessee, \$1,900,000.

Project 96-D-122, sewage treatment quality upgrade (STQU), Pantex Plant, Amarillo, Texas, \$6,900,000.

Project 96-D-123, retrofit heating, ventilation, and air conditioning and chillers for ozone protection, Y-12 Plant, Oak Ridge, Tennessee, \$2,700,000.

Project 95-D-102, chemistry and metallurgy research (CMR) upgrades project, Los Alamos National Laboratory, Los Alamos, New Mexico, \$5,000,000.

Project 95-D-122, sanitary sewer upgrade, Y-12 Plant, Oak Ridge, Tennessee, \$12,600,000.

Project 94-D-124, hydrogen fluoride supply system, Y-12 Plant, Oak Ridge, Tennessee, \$1,400,000.

Project 94-D-125, upgrade life safety, Kansas City Plant, Kansas City, Missouri, \$2,000,000.

Project 93-D-122, life safety upgrades, Y-12 Plant, Oak Ridge, Tennessee, \$2,100,000.

Project 92-D-126, replace emergency notification system, various locations, \$3,200,000.

Project 88-D-122, facilities capability assurance program, various locations, \$18,920,000.

(c) *PROGRAM DIRECTION.*—Funds are hereby authorized to be appropriated to the Department of Energy for fiscal year 1998 for program direction in carrying out weapons activities necessary for national security programs in the amount of \$250,000,000.

(d) *ADJUSTMENT.*—The total amount authorized to be appropriated pursuant to this section is the sum of the amounts author-

ized to be appropriated in subsections (a) through (c) reduced by \$22,608,000.

SEC. 3102. ENVIRONMENTAL RESTORATION AND WASTE MANAGEMENT.

(a) *ENVIRONMENTAL RESTORATION.*—Funds are hereby authorized to be appropriated to the Department of Energy for fiscal year 1998 for environmental restoration in carrying out environmental restoration and waste management activities necessary for national security programs in the amount of \$1,010,973,000, of which \$388,000,000 shall be allocated to the uranium enrichment decontamination and decommissioning fund.

(b) *DEFENSE ENVIRONMENTAL MANAGEMENT CLOSURE PROJECTS.*—Funds are hereby authorized to be appropriated to the Department of Energy for fiscal year 1998 for closure projects in carrying out environmental restoration and waste management activities necessary for national security programs in the amount of \$875,000,000, to be allocated as follows:

Project 98-CLR-1, Rocky Flats Closure Site, Denver, Colorado, \$648,400,000.

Project 98-CLR-2, Fernald Environmental Management Project, Fernald, Ohio, \$226,600,000.

(c) *WASTE MANAGEMENT.*—Funds are hereby authorized to be appropriated to the Department of Energy for fiscal year 1998 for waste management in carrying out environmental restoration and waste management activities necessary for national security programs in the amount of \$1,571,644,000, to be allocated as follows:

(1) For operation and maintenance, \$1,490,876,000.

(2) For plant projects (including maintenance, restoration, planning, construction, acquisition, modification of facilities, and the continuation of projects authorized in prior years, and land acquisition related thereto), \$80,768,000, to be allocated as follows:

Project 98-D-401, H-tank farm storm water systems upgrade, Savannah River Site, Aiken, South Carolina, \$1,000,000.

Project 97-D-402, tank farm restoration and safe operations, Richland, Washington, \$13,961,000.

Project 96-D-408, waste management upgrades, various locations, \$8,200,000.

Project 95-D-402, install permanent electrical service, Waste Isolation Pilot Plant, Carlsbad, New Mexico, \$176,000.

Project 95-D-405, industrial landfill V and construction/demolition landfill VII, Y-12 Plant, Oak Ridge, Tennessee, \$3,800,000.

Project 95-D-407, 219-S secondary containment upgrade, Richland, Washington, \$2,500,000.

Project 94-D-404, Melton Valley storage tank capacity increase, Oak Ridge National Laboratory, Oak Ridge, Tennessee, \$1,219,000.

Project 94-D-407, initial tank retrieval systems, Richland, Washington, \$15,100,000.

Project 93-D-187, high-level waste removal from filled waste tanks, Savannah River Site, Aiken, South Carolina, \$17,520,000.

Project 92-D-172, hazardous waste treatment and processing facility, Pantex Plant, Amarillo, Texas, \$5,000,000.

Project 89-D-174, replacement high-level waste evaporator, Savannah River Site, Aiken, South Carolina, \$1,042,000.

Project 86-D-103, decontamination and waste treatment facility, Lawrence Livermore National Laboratory, Livermore, California, \$11,250,000.

(d) TECHNOLOGY DEVELOPMENT.—Funds are hereby authorized to be appropriated to the Department of Energy for fiscal year 1998 for technology development in carrying out environmental restoration and waste management activities necessary for national security programs in the amount of \$220,000,000.

(e) NUCLEAR MATERIALS AND FACILITIES STABILIZATION.—Funds are hereby authorized to be appropriated to the Department of Energy for fiscal year 1998 for nuclear materials and facilities stabilization in carrying out environmental restoration and waste management activities necessary for national security programs in the amount of \$1,256,821,000, to be allocated as follows:

(1) For operation and maintenance, \$1,176,114,000.

(2) For plant projects (including maintenance, restoration, planning, construction, acquisition, modification of facilities, and the continuation of projects authorized in prior years, and land acquisition related thereto), \$80,707,000, to be allocated as follows:

Project 98-D-453, plutonium stabilization and handling system for plutonium finishing plant, Richland, Washington, \$8,136,000.

Project 98-D-700, road rehabilitation, Idaho National Engineering Laboratory, Idaho, \$500,000.

Project 97-D-450, actinide packaging and storage facility, Savannah River Site, Aiken, South Carolina, \$18,000,000.

Project 97-D-451, B-Plant safety class ventilation upgrades, Richland, Washington, \$2,000,000.

Project 97-D-470, environmental monitoring laboratory/health physics site support facility, Savannah River Site, Aiken, South Carolina, \$5,600,000.

Project 96-D-406, spent nuclear fuels canister storage and stabilization facility, Richland, Washington, \$16,744,000.

Project 96-D-461, electrical distribution upgrade, Idaho National Engineering Laboratory, Idaho, \$2,927,000.

Project 96-D-464, electrical and utility systems upgrade, Idaho Chemical Processing Plant, Idaho National Engineering Laboratory, Idaho, \$14,985,000.

Project 96-D-471, chlorofluorocarbon heating, ventilation, and air conditioning and chiller retrofit, Savannah River Site, Aiken, South Carolina, \$8,500,000.

Project 95-D-155, upgrade site road infrastructure, Savannah River Site, South Carolina, \$2,713,000.

Project 95-D-456, security facilities consolidation, Idaho Chemical Processing Plant, Idaho National Engineering Laboratory, Idaho, \$602,000.

(f) *PROGRAM DIRECTION.—Funds are hereby authorized to be appropriated to the Department of Energy for fiscal year 1998 for program direction in carrying out environmental restoration and waste management activities necessary for national security programs in the amount of \$345,751,000.*

(g) *POLICY AND MANAGEMENT.—Funds are hereby authorized to be appropriated to the Department of Energy for fiscal year 1998 for policy and management in carrying out environmental restoration and waste management activities necessary for national security programs in the amount of \$20,000,000.*

(h) *ENVIRONMENTAL SCIENCE PROGRAM.—Funds are hereby authorized to be appropriated to the Department of Energy for fiscal year 1998 for the environmental science program in carrying out environmental restoration and waste management activities necessary for national security programs in the amount of \$55,000,000.*

(i) *DEFENSE ENVIRONMENTAL MANAGEMENT PRIVATIZATION.—Funds are hereby authorized to be appropriated to the Department of Energy for fiscal year 1998 for environmental management privatization projects in carrying out environmental restoration and waste management activities necessary for national security programs in the amount of \$224,700,000, to be allocated as follows:*

Project 98-PVT-1, contact handled transuranic waste transportation, Carlsbad, New Mexico, \$21,000,000.

Project 98-PVT-2, spent nuclear fuel dry storage, Idaho Falls, Idaho, \$27,000,000.

Project 98-PVT-3, waste pits remedial action, Fernald, Ohio, \$25,000,000.

Project 98-PVT-4, spent nuclear fuel transfer and storage, Savannah River, South Carolina, \$25,000,000.

Project 98-PVT-5, waste disposal, Oak Ridge, Tennessee, \$5,000,000.

Project 98-PVT-6, Ohio silo 3 waste treatment, Fernald, Ohio, \$6,700,000.

Project 97-PVT-1, tank waste remediation system phase 1, Hanford, Washington, \$115,000,000.

(j) *ADJUSTMENT.—The total amount authorized to be appropriated pursuant to this section for subsections (a) through (h) is the sum of the amounts authorized to be appropriated in those subsections reduced by \$50,000,000.*

SEC. 3103. OTHER DEFENSE ACTIVITIES.

(a) *IN GENERAL.—Funds are hereby authorized to be appropriated to the Department of Energy for fiscal year 1998 for other defense activities in carrying out programs necessary for national security in the amount of \$1,642,310,000, to be allocated as follows:*

(1) *For verification and control technology, \$478,200,000, to be allocated as follows:*

(A) *For nonproliferation and verification research and development, \$210,000,000.*

(B) *For arms control, \$234,600,000.*

- (C) For intelligence, \$33,600,000.
- (2) For nuclear safeguards and security, \$47,200,000.
- (3) For security investigations, \$25,000,000.
- (4) For emergency management, \$20,000,000.
- (5) For program direction, \$78,900,000.
- (6) For worker and community transition assistance, \$61,159,000, to be allocated as follows:
- (A) For worker and community transition, \$57,659,000.
- (B) For program direction, \$3,500,000.
- (7) For fissile materials control and disposition, \$103,451,000, to be allocated as follows:
- (A) For operation and maintenance, \$99,451,000.
- (B) For program direction, \$4,000,000.
- (8) For environment, safety, and health, defense, \$94,000,000, to be allocated as follows:
- (A) For the Office of Environment, Safety, and Health (Defense), \$74,000,000.
- (B) For program direction, \$20,000,000.
- (9) For the Office of Hearings and Appeals, \$1,900,000.
- (10) For nuclear energy, \$47,000,000, to be allocated as follows:
- (A) For nuclear technology research and development (electrometallurgical), \$12,000,000.
- (B) For international nuclear safety (Soviet-designed reactors), \$35,000,000.
- (11) For naval reactors development, \$670,500,000, to be allocated as follows:
- (A) For operation and maintenance, \$635,920,000.
- (B) For program direction, \$20,080,000.
- (C) For plant projects (including maintenance, restoration, planning, construction, acquisition, modification of facilities, and the continuation of projects authorized in prior years, and land acquisition related thereto), \$14,500,000, to be allocated as follows:
- Project 98-D-200, site laboratory/facility upgrade, various locations, \$5,700,000.
- Project 97-D-201, advanced test reactor secondary coolant refurbishment, Idaho National Engineering Laboratory, Idaho, \$4,600,000.
- Project 95-D-200, laboratory systems and hot cell upgrades, various locations, \$1,100,000.
- Project 90-N-102, expended core facility dry cell project, Naval Reactors Facility, Idaho, \$3,100,000.
- (12) For independent assessment of Department of Energy projects, \$15,000,000.

(b) **ADJUSTMENT.**—The total amount authorized to be appropriated pursuant to this section is the sum of the amounts authorized to be appropriated in paragraphs (1) through (12) of subsection (a) reduced by \$6,047,000.

SEC. 3104. DEFENSE NUCLEAR WASTE DISPOSAL.

Funds are hereby authorized to be appropriated to the Department of Energy for fiscal year 1998 for payment to the Nuclear Waste Fund established in section 302(c) of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10222(c)) in the amount of \$190,000,000.

Subtitle B—Recurring General Provisions

SEC. 3121. REPROGRAMMING.

(a) *IN GENERAL.*—Until the Secretary of Energy submits to the congressional defense committees the report referred to in subsection (b) and a period of 30 days has elapsed after the date on which such committees receive the report, the Secretary may not use amounts appropriated pursuant to this title for any program—

(1) in amounts that exceed, in a fiscal year—

(A) 110 percent of the amount authorized for that program by this title; or

(B) \$1,000,000 more than the amount authorized for that program by this title; or

(2) which has not been presented to, or requested of, Congress.

(b) *REPORT.*—(1) The report referred to in subsection (a) is a report containing a full and complete statement of the action proposed to be taken and the facts and circumstances relied upon in support of such proposed action.

(2) In the computation of the 30-day period under subsection (a), there shall be excluded any day on which either House of Congress is not in session because of an adjournment of more than 3 days to a day certain.

(c) *LIMITATIONS.*—(1) In no event may the total amount of funds obligated pursuant to this title exceed the total amount authorized to be appropriated by this title.

(2) Funds appropriated pursuant to this title may not be used for an item for which Congress has specifically denied funds.

SEC. 3122. LIMITS ON GENERAL PLANT PROJECTS.

(a) *IN GENERAL.*—The Secretary of Energy may carry out any construction project under the general plant projects authorized by this title if the total estimated cost of the construction project does not exceed \$5,000,000.

(b) *REPORT TO CONGRESS.*—If, at any time during the construction of any general plant project authorized by this title, the estimated cost of the project is revised because of unforeseen cost variations and the revised cost of the project exceeds \$5,000,000, the Secretary shall immediately furnish a complete report to the congressional defense committees explaining the reasons for the cost variation.

SEC. 3123. LIMITS ON CONSTRUCTION PROJECTS.

(a) *IN GENERAL.*—(1) Except as provided in paragraph (2), construction on a construction project may not be started or additional obligations incurred in connection with the project above the total estimated cost, whenever the current estimated cost of the construction project, which is authorized by section 3101, 3102, or 3103, or which is in support of national security programs of the Department of Energy and was authorized by any previous Act, exceeds by more than 25 percent the higher of—

(A) the amount authorized for the project; or

(B) the amount of the total estimated cost for the project as shown in the most recent budget justification data submitted to Congress.

(2) An action described in paragraph (1) may be taken if—

(A) the Secretary of Energy has submitted to the congressional defense committees a report on the actions and the circumstances making such action necessary; and

(B) a period of 30 days has elapsed after the date on which the report is received by the committees.

(3) In the computation of the 30-day period under paragraph (2), there shall be excluded any day on which either House of Congress is not in session because of an adjournment of more than 3 days to a day certain.

(b) *EXCEPTION.*—Subsection (a) shall not apply to any construction project which has a current estimated cost of less than \$5,000,000.

SEC. 3124. FUND TRANSFER AUTHORITY.

(a) *TRANSFER TO OTHER FEDERAL AGENCIES.*—The Secretary of Energy may transfer funds authorized to be appropriated to the Department of Energy pursuant to this title to other Federal agencies for the performance of work for which the funds were authorized. Funds so transferred may be merged with and be available for the same purposes and for the same period as the authorizations of the Federal agency to which the amounts are transferred.

(b) *TRANSFER WITHIN DEPARTMENT OF ENERGY.*—(1) Subject to paragraph (2), the Secretary of Energy may transfer funds authorized to be appropriated to the Department of Energy pursuant to this title between any such authorizations. Amounts of authorizations so transferred may be merged with and be available for the same purposes and for the same period as the authorization to which the amounts are transferred.

(2) Not more than five percent of any such authorization may be transferred between authorizations under paragraph (1). No such authorization may be increased or decreased by more than five percent by a transfer under such paragraph.

(c) *LIMITATION.*—The authority provided by this section to transfer authorizations—

(1) may only be used to provide funds for items relating to activities necessary for national security programs that have a higher priority than the items from which the funds are transferred; and

(2) may not be used to provide funds for an item for which Congress has specifically denied funds.

(d) *NOTICE TO CONGRESS.*—The Secretary of Energy shall promptly notify the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives of any transfer of funds to or from authorizations under this title.

SEC. 3125. AUTHORITY FOR CONCEPTUAL AND CONSTRUCTION DESIGN.

(a) *REQUIREMENT FOR CONCEPTUAL DESIGN.*—(1) Subject to paragraph (2) and except as provided in paragraph (3), before submitting to Congress a request for funds for a construction project that is in support of a national security program of the Department of Energy, the Secretary of Energy shall complete a conceptual design for that project.

(2) If the estimated cost of completing a conceptual design for a construction project exceeds \$3,000,000, the Secretary shall submit to Congress a request for funds for the conceptual design before submitting a request for funds for the construction project.

(3) The requirement in paragraph (1) does not apply to a request for funds—

(A) for a construction project the total estimated cost of which is less than \$5,000,000; or

(B) for emergency planning, design, and construction activities under section 3126.

(b) **AUTHORITY FOR CONSTRUCTION DESIGN.**—(1) Within the amounts authorized by this title, the Secretary of Energy may carry out construction design (including architectural and engineering services) in connection with any proposed construction project if the total estimated cost for such design does not exceed \$600,000.

(2) If the total estimated cost for construction design in connection with any construction project exceeds \$600,000, funds for such design must be specifically authorized by law.

SEC. 3126. AUTHORITY FOR EMERGENCY PLANNING, DESIGN, AND CONSTRUCTION ACTIVITIES.

(a) **AUTHORITY.**—The Secretary of Energy may use any funds available to the Department of Energy pursuant to an authorization in this title, including those funds authorized to be appropriated for advance planning and construction design under sections 3101, 3102, and 3103, to perform planning, design, and construction activities for any Department of Energy national security program construction project that, as determined by the Secretary, must proceed expeditiously in order to protect public health and safety, to meet the needs of national defense, or to protect property.

(b) **LIMITATION.**—The Secretary may not exercise the authority under subsection (a) in the case of any construction project until the Secretary has submitted to the congressional defense committees a report on the activities that the Secretary intends to carry out under this section and the circumstances making such activities necessary.

(c) **SPECIFIC AUTHORITY.**—The requirement of section 3125(b)(2) does not apply to emergency planning, design, and construction activities conducted under this section.

SEC. 3127. FUNDS AVAILABLE FOR ALL NATIONAL SECURITY PROGRAMS OF THE DEPARTMENT OF ENERGY.

Subject to the provisions of appropriations Acts and section 3121, amounts appropriated pursuant to this title for management and support activities and for general plant projects are available for use, when necessary, in connection with all national security programs of the Department of Energy.

SEC. 3128. AVAILABILITY OF FUNDS.

(a) **IN GENERAL.**—Except as provided in subsection (b), when so specified in an appropriations Act, amounts appropriated for operation and maintenance or for plant projects may remain available until expended.

(b) **EXCEPTION FOR PROGRAM DIRECTION FUNDS.**—Amounts appropriated for program direction pursuant to an authorization of appropriations in subtitle A shall remain available to be expended only until the end of fiscal year 2000.

SEC. 3129. TRANSFERS OF DEFENSE ENVIRONMENTAL MANAGEMENT FUNDS.

(a) **TRANSFER AUTHORITY FOR DEFENSE ENVIRONMENTAL MANAGEMENT FUNDS.**—*The Secretary of Energy shall provide the manager of each field office of the Department of Energy with the authority to transfer defense environmental management funds from a program or project under the jurisdiction of the office to another such program or project.*

(b) **LIMITATIONS.**—(1) *Only one transfer may be made to or from any program or project under subsection (a) in a fiscal year.*

(2) *The amount transferred to or from a program or project under subsection (a) may not exceed \$5,000,000 in a fiscal year.*

(3) *A transfer may not be carried out by a manager of a field office under subsection (a) unless the manager determines that the transfer is necessary to address a risk to health, safety, or the environment or to assure the most efficient use of defense environmental management funds at the field office.*

(4) *Funds transferred pursuant to subsection (a) may not be used for an item for which Congress has specifically denied funds or for a new program or project that has not been authorized by Congress.*

(c) **EXEMPTION FROM REPROGRAMMING REQUIREMENTS.**—*The requirements of section 3121 shall not apply to transfers of funds pursuant to subsection (a).*

(d) **NOTIFICATION.**—*The Secretary, acting through the Assistant Secretary of Energy for Environmental Management, shall notify Congress of any transfer of funds pursuant to subsection (a) not later than 30 days after such transfer occurs.*

(e) **DEFINITIONS.**—*In this section:*

(1) *The term “program or project” means, with respect to a field office of the Department of Energy, any of the following:*

(A) *A project listed in subsection (c) or (e) of section 3102 being carried out by the office.*

(B) *A program referred to in subsection (a), (c), (d), or (e) of section 3102 being carried out by the office.*

(C) *A project or program not described in subparagraph (A) or (B) that is for environmental restoration or waste management activities necessary for national security programs of the Department, that is being carried out by the office, and for which defense environmental management funds have been authorized and appropriated before the date of enactment of this Act.*

(2) *The term “defense environmental management funds” means funds appropriated to the Department of Energy pursuant to an authorization for carrying out environmental restoration and waste management activities necessary for national security programs.*

(f) **DURATION OF AUTHORITY.**—*The managers of the field offices of the Department may exercise the authority provided under subsection (a) during the period beginning on October 1, 1997, and ending on September 30, 1998.*

Subtitle C—Program Authorizations, Restrictions, and Limitations

SEC. 3131. MEMORANDUM OF UNDERSTANDING FOR USE OF NATIONAL LABORATORIES FOR BALLISTIC MISSILE DEFENSE PROGRAMS.

(a) *MEMORANDUM OF UNDERSTANDING.*—The Secretary of Energy and the Secretary of Defense shall enter into a memorandum of understanding for the purpose of improving and facilitating the use by the Secretary of Defense of the expertise of the national laboratories for the ballistic missile defense programs of the Department of Defense.

(b) *ASSISTANCE.*—The memorandum of understanding shall provide that the Secretary of Defense shall request such assistance with respect to the ballistic missile defense programs of the Department of Defense as the Secretary of Defense and the Secretary of Energy determine can be provided through the technical skills and experience of the national laboratories, using such financial arrangements as the Secretaries determine are appropriate.

(c) *ACTIVITIES.*—The memorandum of understanding shall provide that the national laboratories shall carry out those activities necessary to respond to requests for assistance from the Secretary of Defense referred to in subsection (b). Such activities may include the identification of technical modifications and test techniques, the analysis of physics problems, the consolidation of range and test activities, and the analysis and simulation of theater missile defense deployment problems.

(d) *NATIONAL LABORATORIES.*—For purposes of this section, the national laboratories are—

- (1) the Lawrence Livermore National Laboratory, Livermore, California;
- (2) the Los Alamos National Laboratory, Los Alamos, New Mexico; and
- (3) the Sandia National Laboratories, Albuquerque, New Mexico.

SEC. 3132. DEFENSE ENVIRONMENTAL MANAGEMENT PRIVATIZATION PROJECTS.

(a) *AUTHORITY TO ENTER INTO CONTRACTS.*—The Secretary of Energy may, using funds authorized to be appropriated by section 3102(i) for a project referred to in that section, enter into a contract that—

- (1) is awarded on a competitive basis;
- (2) requires the contractor to construct or acquire any equipment or facilities required to carry out the contract;
- (3) requires the contractor to bear any of the costs of the construction, acquisition, and operation of such equipment or facilities that arise before the commencement of the provision of goods or services under the contract; and
- (4) provides for payment to the contractor under the contract only upon the meeting of performance specifications in the contract.

(b) *NOTICE AND WAIT.*—(1) The Secretary may not enter into a contract under subsection (a), exercise an authorization to proceed

with such a contract or extend any contract period for such a contract by more than one year until 30 days after the date on which the Secretary submits to the congressional defense committees a report with respect to the contract.

(2) Except as provided in paragraph (3), a report under paragraph (1) with respect to a contract shall set forth—

(A) the anticipated costs and fees of the Department under the contract, including the anticipated maximum amount of such costs and fees;

(B) any performance specifications in the contract;

(C) the anticipated dates of commencement and completion of the provision of goods or services under the contract;

(D) the allocation between the Department and the contractor of any financial, regulatory, or environmental obligations under the contract;

(E) any activities planned or anticipated to be required with respect to the project after completion of the contract;

(F) the site services or other support to be provided the contractor by the Department under the contract;

(G) the goods or services to be provided by the Department or contractor under the contract, including any additional obligations to be borne by the Department or contractor with respect to such goods or services;

(H) if the contract provides for financing of the project by an entity or entities other than the United States, a detailed comparison of the costs of financing the project through such entity or entities with the costs of financing the project by the United States;

(I) the schedule for the contract;

(J) the costs the Department would otherwise have incurred in obtaining the goods or services covered by the contract if the Department had not proposed to obtain the goods or services under this section;

(K) an estimate and justification of the cost savings, if any, to be realized through the contract, including the assumptions underlying the estimate;

(L) the effect of the contract on any ancillary schedules applicable to the facility concerned, including milestones in site compliance agreements; and

(M) the plans for maintaining financial and programmatic accountability for activities under the contract.

(3) In the case of a contract under subsection (a) at the Hanford Reservation, the report under paragraph (1) shall set forth—

(A) the matters specified in paragraph (2); and

(B) if the contract contemplates two pilot vitrification plants—

(i) an analysis of the basis for the selection of each of the plants in lieu of a single pilot vitrification plant; and

(ii) a detailed comparison of the costs to the United States of two pilot plants with the costs to the United States of a single pilot plant.

(c) COST VARIATIONS.—(1)(A) The Secretary may not enter into a contract for a project referred to in subparagraph (B), or obligate funds attributable to the capital portion of the cost of such a con-

tract, whenever the current estimated cost of the project exceeds the amount of the estimated cost of the project as shown in the most recent budget justification data submitted to Congress.

(B) Subparagraph (A) applies to the following:

(i) A project authorized by section 3102(i).

(ii) A project authorized by section 3103 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 110 Stat. 2824) for which a contract has not been entered into as of the date of enactment of this Act.

(2) The Secretary may not obligate funds attributable to the capital portion of the cost of a contract entered into before such date for a project authorized by such section 3103 whenever the current estimated cost of the project equals or exceeds 110 percent of the amount of the estimated cost of the project as shown in the most recent budget justification data submitted to Congress.

(d) **USE OF FUNDS FOR TERMINATION OF CONTRACT.**—Not later than 15 days before the Secretary obligates funds available for a project authorized by section 3102(i) to terminate the contract for the project under subsection (a), the Secretary shall notify the congressional defense committees of the Secretary's intent to obligate the funds for that purpose.

(e) **ANNUAL REPORT ON CONTRACTS.**—(1) Not later than February 28 of each year, the Secretary shall submit to the congressional defense committees a report on the activities, if any, carried out under each contract referred to in paragraph (2) during the preceding year. The report shall include an update with respect to each such contract of the matters specified under subsection (b)(1) as of the date of the report.

(2) A contract referred to in paragraph (1) is the following:

(A) A contract under subsection (a) for a project referred to in that subsection.

(B) A contract under section 3103 of the National Defense Authorization Act for Fiscal Year 1997.

(f) **ASSESSMENT OF CONTRACTING WITHOUT SUFFICIENT APPROPRIATIONS.**—Not later than 90 days after the date of enactment of this Act, the Secretary shall submit to the congressional defense committees a report assessing whether, and under what circumstances, the Secretary could enter into contracts for defense environmental management privatization projects in the absence of sufficient appropriations to meet obligations under such contracts without thereby violating the provisions of section 1341 of title 31, United States Code.

SEC. 3133. INTERNATIONAL COOPERATIVE STOCKPILE STEWARDSHIP.

(a) **FUNDING PROHIBITION.**—No funds authorized to be appropriated or otherwise available to the Department of Energy for fiscal year 1998 may be obligated or expended to conduct any activities associated with international cooperative stockpile stewardship.

(b) **EXCEPTIONS.**—Subsection (a) does not apply to the following:

(1) Activities conducted between the United States and the United Kingdom.

(2) Activities conducted between the United States and France.

(3) *Activities carried out under title III of this Act relating to cooperative threat reduction with states of the former Soviet Union.*

SEC. 3134. MODERNIZATION OF ENDURING NUCLEAR WEAPONS COMPLEX.

(a) *FUNDING.*—Subject to subsection (b), of the funds authorized to be appropriated to the Department of Energy pursuant to section 3101, \$85,000,000 shall be available for carrying out the program described in section 3137(a) of the National Defense Authorization Act for Fiscal Year 1996 (42 U.S.C. 2121 note).

(b) *LIMITATION ON AVAILABILITY.*—None of the funds available under subsection (a) for carrying out the program referred to in that subsection may be obligated or expended until 30 days after the date of the receipt by Congress of the report required under subsection (c).

(c) *REPORT ON ALLOCATION OF FUNDS.*—Not later than 30 days after the date of enactment of this Act, the Secretary of Energy shall submit to the congressional defense committees a report setting forth the proposed allocation among specific Department of Energy sites of the funds available under subsection (a) for the program referred to in that subsection.

SEC. 3135. TRITIUM PRODUCTION.

(a) *TRITIUM PRODUCTION DECISION.*—(1) Not later than December 31, 1998, the Secretary of Energy shall make a final decision on the technologies to be utilized, and the schedule to be adopted, for tritium production in order to meet the requirements in the Nuclear Weapons Stockpile Memorandum relating to tritium production, including the tritium production date of 2005 specified in the Nuclear Weapons Stockpile Memorandum.

(2) In making the final decision, the Secretary shall take into account the following:

(A) *The requirements for tritium production specified in the Nuclear Weapons Stockpile Memorandum, including, in particular, the requirements for the so-called “upload hedge” component of the nuclear weapons stockpile.*

(B) *The activities of the Department of Energy relating to the evaluation and demonstration of technologies under the accelerator program and the commercial light water reactor program.*

(C) *The potential liabilities and benefits of each potential technology for tritium production, including—*

(i) *regulatory and other barriers that might prevent the production of tritium using the technology by the production date referred to in paragraph (1);*

(ii) *potential difficulties, if any, in licensing the technology;*

(iii) *the variability, if any, in tritium production rates using the technology; and*

(iv) *any other benefits (including scientific or research benefits or the generation of revenue) associated with the technology.*

(b) *REPORTS ON DECISION.*—(1) Upon making a final decision under paragraph (1) of subsection (a), the Secretary shall submit to

the congressional defense committees a report on the final decision. The report shall include an assessment of how the selected technology addresses the items taken into account under paragraph (2) of that subsection.

(2) If the Secretary determines that it is not possible to make the final decision by the date specified in paragraph (1) of subsection (a), the Secretary shall submit to the congressional defense committees on that date a report that explains in detail why the final decision cannot be made by that date.

(c) **LIMITATION ON AVAILABILITY OF FUNDS.**—The Secretary may not obligate or expend any funds authorized to be appropriated or otherwise made available for the Department of Energy by this Act for the purpose of evaluating or utilizing any technology for the production of tritium other than a commercial light water reactor or an accelerator until the later of—

(1) January 31, 1999; or

(2) the date that is 30 days after the date on which the Secretary makes a final decision under subsection (a).

SEC. 3136. PROCESSING, TREATMENT, AND DISPOSITION OF SPENT NUCLEAR FUEL RODS AND OTHER LEGACY NUCLEAR MATERIALS AT THE SAVANNAH RIVER SITE.

(a) **FUNDING.**—Of the funds authorized to be appropriated pursuant to section 3102(e), not more than \$47,000,000 shall be available for the implementation of a program to accelerate the receipt, processing (including the H-canyon restart operations), reprocessing, separation, reduction, deactivation, stabilization, isolation, and interim storage of high level nuclear waste associated with Department of Energy spent fuel rods, foreign spent fuel rods, and other nuclear materials that are located at the Savannah River Site.

(b) **REQUIREMENT FOR CONTINUING OPERATIONS AT SAVANNAH RIVER SITE.**—The Secretary of Energy shall continue operations and maintain a high state of readiness at the F-canyon and H-canyon facilities at the Savannah River Site and shall provide technical staff necessary to operate and maintain such facilities at that state of readiness.

SEC. 3137. LIMITATIONS ON USE OF FUNDS FOR LABORATORY DIRECTED RESEARCH AND DEVELOPMENT PURPOSES.

(a) **GENERAL LIMITATIONS.**—(1) No funds authorized to be appropriated or otherwise made available to the Department of Energy in any fiscal year after fiscal year 1997 for weapons activities may be obligated or expended for activities under the Department of Energy Laboratory Directed Research and Development Program, or under any Department of Energy technology transfer program or cooperative research and development agreement, unless such activities support the national security mission of the Department of Energy.

(2) No funds authorized to be appropriated or otherwise made available to the Department of Energy in any fiscal year after fiscal year 1997 for environmental restoration, waste management, or nuclear materials and facilities stabilization may be obligated or expended for activities under the Department of Energy Laboratory Directed Research and Development Program, or under any Department of Energy technology transfer program or cooperative research and development agreement, unless such activities support the envi-

ronmental restoration mission, waste management mission, or materials stabilization mission, as the case may be, of the Department of Energy.

(b) LIMITATION IN FISCAL YEAR 1998 PENDING SUBMITTAL OF ANNUAL REPORT.—Not more than 30 percent of the funds authorized to be appropriated or otherwise made available to the Department of Energy in fiscal year 1998 for laboratory directed research and development may be obligated or expended for such research and development until the Secretary of Energy submits to the congressional defense committees the report required by section 3136(b) of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 110 Stat. 2831; 42 U.S.C. 7257b) in 1998.

(c) SUBMITTAL DATE FOR ANNUAL REPORT ON LABORATORY DIRECTED RESEARCH AND DEVELOPMENT PROGRAM.—Paragraph (1) of section 3136(b) of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 110 Stat. 2831; 42 U.S.C. 7257b) is amended by striking out “The Secretary of Energy shall annually submit” and inserting in lieu thereof “Not later than February 1 each year, the Secretary of Energy shall submit”.

(d) ASSESSMENT OF FUNDING LEVEL FOR LABORATORY DIRECTED RESEARCH AND DEVELOPMENT.—The Secretary shall include in the report submitted under such section 3136(b)(1) in 1998 an assessment of the funding required to carry out laboratory directed research and development, including a recommendation for the percentage of the funds provided to Government-owned, contractor-operated laboratories for national security activities that should be made available for such research and development under section 3132(c) of the National Defense Authorization Act for Fiscal Year 1991 (42 U.S.C. 7257a(c)).

(e) DEFINITION.—In this section, the term “laboratory directed research and development” has the meaning given that term in section 3132(d) of the National Defense Authorization Act for Fiscal Year 1991 (42 U.S.C. 7257a(d)).

SEC. 3138. PILOT PROGRAM RELATING TO USE OF PROCEEDS OF DISPOSAL OR UTILIZATION OF CERTAIN DEPARTMENT OF ENERGY ASSETS.

(a) PURPOSE.—The purpose of this section is to encourage the Secretary of Energy to dispose of or otherwise utilize certain assets of the Department of Energy by making available to the Secretary the proceeds of such disposal or utilization for purposes of defraying the costs of such disposal or utilization.

(b) USE OF PROCEEDS TO DEFRAY COSTS.—(1) Notwithstanding section 3302 of title 31, United States Code, the Secretary may retain from the proceeds of the sale, lease, or disposal of an asset under subsection (c) an amount equal to the cost of the sale, lease, or disposal of the asset. The Secretary shall utilize amounts retained under this paragraph to defray the cost of the sale, lease, or disposal.

(2) For purposes of paragraph (1), the cost of a sale, lease, or disposal shall include—

- (A) the cost of administering the sale, lease, or disposal;*
- (B) the cost of recovering or preparing the asset concerned for the sale, lease, or disposal; and*

(C) any other cost associated with the sale, lease, or disposal.

(c) COVERED TRANSACTIONS.—Subsection (b) applies to the following transactions:

(1) The sale of heavy water at the Savannah River Site, South Carolina, that is under the jurisdiction of the Defense Environmental Management Program.

(2) The sale of precious metals that are under the jurisdiction of the Defense Environmental Management Program.

(3) The lease of buildings and other facilities located at the Hanford Reservation, Washington, that are under the jurisdiction of the Defense Environmental Management Program.

(4) The lease of buildings and other facilities located at the Savannah River Site that are under the jurisdiction of the Defense Environmental Management Program.

(5) The disposal of equipment and other personal property located at the Rocky Flats Defense Environmental Technology Site, Colorado, that is under the jurisdiction of the Defense Environmental Management Program.

(6) The disposal of materials at the National Electronics Recycling Center, Oak Ridge, Tennessee, that are under the jurisdiction of the Defense Environmental Management Program.

(d) APPLICABILITY OF DISPOSAL AUTHORITY.—Nothing in this section shall be construed to limit the application of sections 202 and 203(j) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 483 and 484(j)) to the disposal of equipment and other personal property covered by this section.

(e) REPORT.—Not later than January 31, 1999, the Secretary shall submit to the congressional defense committees a report on amounts retained by the Secretary under subsection (b) during fiscal year 1998.

SEC. 3139. MODIFICATION AND EXTENSION OF AUTHORITY RELATING TO APPOINTMENT OF CERTAIN SCIENTIFIC, ENGINEERING, AND TECHNICAL PERSONNEL.

(a) REPEAL OF REQUIREMENT FOR EPA STUDY.—Section 3161 of the National Defense Authorization Act for Fiscal Year 1995 (Public Law 103-337; 108 Stat. 3095; 42 U.S.C. 7231 note) is amended—

(1) by striking out subsection (c); and

(2) by redesignating subsection (d) as subsection (c).

(b) EXTENSION OF AUTHORITY.—Paragraph (1) of subsection (c) of such section, as so redesignated, is amended by striking out “September 30, 1997” and inserting in lieu thereof “September 30, 1999”.

SEC. 3140. LIMITATION ON USE OF FUNDS FOR SUBCRITICAL NUCLEAR WEAPONS TESTS.

(a) LIMITATION.—The Secretary of Energy may not conduct any subcritical nuclear weapons tests using funds appropriated or otherwise available to the Secretary for fiscal year 1998 until the Secretary submits to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a detailed report on the use of the funds available to the Secretary for fiscal years 1996 and 1997 to conduct such tests.

(b) EXCEPTION.—Subsection (a) shall not apply to the use of funds covered by that subsection for subcritical nuclear weapons tests if the Secretary—

- (1) determines that the use of such funds for such tests is urgently required to meet national security interests; and
- (2) notifies Congress of that determination before using such funds for such tests.

SEC. 3141. LIMITATION ON USE OF CERTAIN FUNDS UNTIL FUTURE USE PLANS ARE SUBMITTED.

(a) *LIMITATION.*—(1) Subject to paragraph (2), the Secretary of Energy may not use more than 80 percent of the funds available to the Secretary pursuant to the authorization of appropriations in section 3102(g) until the Secretary submits the plans described in subsection (b).

(2) The limitation in paragraph (1) shall cease to be in effect if the Secretary submits, by March 15, 1998, the report described in subsection (c).

(b) *PLANS.*—The plans referred to in subsection (a)(1) are the draft future use plan and the final future use plan required under section 3153(f) of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 110 Stat. 2840; 42 U.S.C. 7274k note).

(c) *REPORT.*—If the Secretary is unable to submit all of the plans described in subsection (b) by the deadlines set forth in such section 3153(f), the Secretary shall submit to Congress a report containing, for each plan that will not be submitted by the applicable deadline—

- (1) the status of the plan;
- (2) the reasons why the plan cannot be submitted by the applicable deadline; and
- (3) the date by which the plan will be submitted.

Subtitle D—Other Matters

SEC. 3151. PLAN FOR STEWARDSHIP, MANAGEMENT, AND CERTIFICATION OF WARHEADS IN THE NUCLEAR WEAPONS STOCKPILE.

(a) *PLAN REQUIREMENT.*—The Secretary of Energy shall develop and annually update a plan for maintaining the nuclear weapons stockpile. The plan shall cover, at a minimum, stockpile stewardship, stockpile management, and program direction and shall be consistent with the programmatic and technical requirements of the most recent annual Nuclear Weapons Stockpile Memorandum.

(b) *PLAN ELEMENTS.*—The plan and each update of the plan shall set forth the following:

- (1) The number of warheads (including active and inactive warheads) for each warhead type in the nuclear weapons stockpile.
- (2) The current age of each warhead type, and any plans for stockpile lifetime extensions and modifications or replacement of each warhead type.
- (3) The process by which the Secretary of Energy is assessing the lifetime, and requirements for lifetime extension or replacement, of the nuclear and nonnuclear components of the warheads (including active and inactive warheads) in the nuclear weapons stockpile.

(4) *The process used in recertifying the safety, security, and reliability of each warhead type in the nuclear weapons stockpile.*

(5) *Any concerns which would affect the ability of the Secretary of Energy to recertify the safety, security, or reliability of warheads in the nuclear weapons stockpile (including active and inactive warheads).*

(c) **ANNUAL SUBMISSION OF PLAN TO CONGRESS.**—*The Secretary of Energy shall submit to Congress the plan developed under subsection (a) not later than March 15, 1998, and shall submit an updated version of the plan not later than March 15 of each year thereafter. The plan shall be submitted in both classified and unclassified form.*

SEC. 3152. REPEAL OF OBSOLETE REPORTING REQUIREMENTS.

(a) **ANNUAL REPORT ON ACTIVITIES OF THE ATOMIC ENERGY COMMISSION.**—(1) *Section 251 of the Atomic Energy Act of 1954 (42 U.S.C. 2016) is repealed.*

(2) *The table of sections at the beginning of that Act is amended by striking out the item relating to section 251.*

(b) **ANNUAL REPORT ON WEAPONS ACTIVITIES BUDGETS.**—*Section 3156 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 110 Stat. 2841; 42 U.S.C. 7271c) is repealed.*

(c) **ANNUAL UPDATE OF MASTER PLAN FOR NUCLEAR WEAPONS STOCKPILE.**—*Section 3153 of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104-106; 110 Stat. 624; 42 U.S.C. 2121 note) is repealed.*

(d) **ANNUAL REPORT ON WEAPONS ACTIVITIES BUDGETS.**—*Section 3159 of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104-106; 110 Stat. 626; 42 U.S.C. 7271b note) is repealed.*

(e) **ANNUAL REPORT ON STOCKPILE STEWARDSHIP PROGRAM.**—*Section 3138 of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103-160; 107 Stat. 1946; 42 U.S.C. 2121 note) is amended—*

(1) *by striking out subsections (d) and (e);*

(2) *by redesignating subsections (f), (g), and (h) as subsections (d), (e), and (f), respectively; and*

(3) *in subsection (e), as so redesignated, by striking out “and the 60-day period referred to in subsection (e)(2)(A)(ii)”.*

(i) ANNUAL REPORT ON NUCLEAR TEST BAN READINESS PROGRAM.—Section 1436 of the National Defense Authorization Act, Fiscal Year 1989 (Public Law 100-456; 102 Stat. 2075; 42 U.S.C. 2121 note) is amended by striking out subsection (e).

SEC. 3153. STUDY AND FUNDING RELATING TO IMPLEMENTATION OF WORKFORCE RESTRUCTURING PLANS.

(a) STUDY REQUIREMENT.—The Secretary of Energy shall conduct a study on the effects of workforce restructuring plans for defense nuclear facilities developed pursuant to section 3161 of the National Defense Authorization Act for Fiscal Year 1993 (42 U.S.C. 7274h).

(b) MATTERS COVERED BY STUDY.— The study shall cover the four-year period preceding the date of the enactment of this Act and shall include the following:

(1) An analysis of the number of jobs created by any employee retraining, education, and reemployment assistance and any community impact assistance provided in each workforce restructuring plan developed pursuant to section 3161 of the National Defense Authorization Act for Fiscal Year 1993.

(2) An analysis of other benefits provided pursuant to such plans, including any assistance provided to community reuse organizations.

(3) A description of the funds expended, and the funds obligated but not expended, pursuant to such plans as of the date of the report.

(4) A description of the criteria used since October 23, 1992, in providing assistance pursuant to such plans.

(5) A comparison of any similar benefits provided—

(A) pursuant to such a plan to employees whose employment at the defense nuclear facility covered by the plan is terminated; and

(B) to employees whose employment at a facility where more than 50 percent of the revenues are derived from contracts with the Department of Defense has been terminated as a result of cancellation, termination, or completion of contracts with the Department of Defense and the employees whose employment is terminated constitute more than 15 percent of the employees at that facility.

(c) CONDUCT OF STUDY.—(1) The study shall be conducted through a contract with an independent private auditing firm.

(2) The Secretary of Energy may not enter into any contract for the conduct of the study until the Secretary submits a notification of the proposed contract award to the congressional defense committees.

(3) The Secretary of Energy and the Secretary of Defense shall each ensure that any firm conducting the study is provided access to all documents in the possession of the Department of Energy or the Department of Defense, as the case may be, that are relevant to the study, including documents in the possession of the Inspector General of the Department of Energy or the Inspector General of the Department of Defense.

(d) *REPORT ON STUDY.*—The Secretary of Energy shall submit a report to Congress on the results of the study not later than March 31, 1998.

(e) *LIMITATION ON USE OF FUNDS FOR LOCAL IMPACT ASSISTANCE.*—(1) None of the funds authorized to be appropriated to the Department of Energy pursuant to section 3103(6) may be used for local impact assistance pursuant to a plan under section 3161(c)(6) of the National Defense Authorization Act for Fiscal Year 1993 (42 U.S.C. 7274h(c)(6)) until—

(A) with respect to assistance referred to in section 3161(c)(6)(A) of such Act, the Secretary of Energy coordinates with, provides a copy of the plan to, and obtains the approval of the Secretary of Labor; and

(B) with respect to assistance referred to in section 3161(c)(6)(C) of such Act, the Secretary of Energy coordinates with, provides a copy of the plan to, and obtains the approval of the Secretary of Commerce.

(2) For purposes of paragraph (1), if the Secretary of Labor or the Secretary of Commerce does not disapprove a plan within 60 days after receiving a copy of the plan, the plan is deemed to be approved.

(f) *SEMIANNUAL REPORT TO CONGRESS OF LOCAL IMPACT ASSISTANCE.*—The Secretary of Energy shall submit to Congress every six months a report setting forth a description of, and the amount or value of, all local impact assistance provided during the preceding six months under section 3161(c)(6) of the National Defense Authorization Act of 1993 (42 U.S.C. 7274h(c)(6)).

(g) *EFFECT ON USEC PRIVATIZATION ACT.*—Nothing in this section shall be construed as diminishing or affecting the obligations of the Secretary of Energy under section 3110(a)(5) of the USEC Privatization Act (Public Law 104–134; 110 Stat. 1321–341; 42 U.S.C. 2297h–8(a)(5)).

(h) *DEFINITION.*—In this section, the term “defense nuclear facility” has the meaning provided the term “Department of Energy defense nuclear facility” in section 3163 of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102–484; 42 U.S.C. 7274j).

SEC. 3154. REPORT AND PLAN FOR EXTERNAL OVERSIGHT OF NATIONAL LABORATORIES.

(a) *REPORT.*—Not later than July 1, 1999, the Secretary of Energy shall submit to Congress a report on the external oversight of the national laboratories.

(b) *MATTERS COVERED.*—The report shall contain the following:

(1) A description of the external oversight practices at the national laboratories and an analysis of the effectiveness of such practices, including the effect of such practices on the productivity of the laboratories and the research conducted by the laboratories.

(2) Recommendations regarding the continuation, consolidation, or discontinuation of the external oversight practices described in paragraph (1), and the rationale for the recommendations.

(3) Recommendations for any new external oversight practices that should be implemented, and the rationale for the recommendations.

(4) A plan for carrying out the recommendations.

(c) NATIONAL LABORATORIES COVERED.—For purposes of this section, the national laboratories are—

(1) the Lawrence Livermore National Laboratory, Livermore, California;

(2) the Los Alamos National Laboratory, Los Alamos, New Mexico; and

(3) the Sandia National Laboratories, Albuquerque, New Mexico.

SEC. 3155. UNIVERSITY-BASED RESEARCH COLLABORATION PROGRAM.

(a) FINDINGS.—Congress makes the following findings:

(1) The maintenance of scientific and engineering competence in the United States is vital to long-term national security and the defense and national security missions of the Department of Energy.

(2) Engaging the universities and colleges of the Nation in research on long-range problems of vital national security interest will be critical to solving the technology challenges faced within the defense and national security programs of the Department of Energy in the next century.

(3) Enhancing collaboration among the national laboratories, universities and colleges, and industry will contribute significantly to the performance of these Department of Energy missions.

(b) PROGRAM.—The Secretary of Energy shall establish a university program at a location that can develop the most effective collaboration among national laboratories, universities and colleges, and industry in support of scientific and engineering advancement in key Department of Energy defense and national security program areas.

(c) FUNDING.—Of the funds authorized to be appropriated in this title to the Department of Energy for fiscal year 1998, the Secretary shall make \$5,000,000 available for the establishment and operation of the program under subsection (b).

SEC. 3156. STOCKPILE STEWARDSHIP PROGRAM.

(a) FINDINGS.—Congress makes the following findings:

(1) Eliminating the threat posed by nuclear weapons to the United States is an important national security goal.

(2) As long as nuclear threats remain, the nuclear deterrent of the United States must be effective and reliable.

(3) A safe, secure, effective, and reliable United States nuclear stockpile is central to the current nuclear deterrence strategy of the United States.

(4) The Secretary of Energy has undertaken a stockpile stewardship and management program to ensure the safety, security, effectiveness, and reliability of the nuclear weapons stockpile of the United States, consistent with all United States treaty requirements and the requirements of the nuclear deterrence strategy of the United States.

(5) *It is the policy of the current administration that new nuclear warhead designs are not required to effectively implement the nuclear deterrence strategy of the United States.*

(b) *POLICY.—It is the policy of the United States that—*

(1) *activities of the stockpile stewardship program shall be directed toward ensuring that the United States possesses a safe, secure, effective, and reliable nuclear stockpile, consistent with the national security requirements of the United States; and*

(2) *stockpile stewardship activities of the United States shall be conducted in conformity with the terms of the Treaty on the Non-Proliferation of Nuclear Weapons and the Comprehensive Test Ban Treaty signed by the President on September 24, 1996, when and if that treaty enters into force.*

SEC. 3157. REPORTS ON ADVANCED SUPERCOMPUTER SALES TO CERTAIN FOREIGN NATIONS.

(a) *REPORTS.—The Secretary of Energy shall require that any company that is a participant in the Accelerated Strategic Computing Initiative (ASCI) program of the Department of Energy report to the Secretary and to the Secretary of Defense each sale by that company to a country designated as a Tier III country of a computer capable of operating at a speed in excess of 2,000 millions theoretical operations per second (MTOPS). The report shall include a description of the following with respect to each such sale:*

(1) *The anticipated end-use of the computer sold.*

(2) *The software included with the computer.*

(3) *Any arrangement under the terms of the sale regarding—*

(A) *upgrading the computer;*

(B) *servicing the computer; or*

(C) *furnishing spare parts for the computer.*

(b) *COVERED COUNTRIES.—For purposes of this section, the countries designated as Tier III countries are the countries listed as “computer tier 3” eligible countries in part 740.7 of title 15 of the Code of Federal Regulations, as in effect on June 10, 1997 (or any successor list).*

(c) *QUARTERLY SUBMISSION OF REPORTS.—The Secretary of Energy shall require that reports under subsection (a) be submitted quarterly.*

(d) *ANNUAL REPORT.—The Secretary of Energy shall submit to Congress an annual report containing all information received under subsection (a) during the preceding year. The first annual report shall be submitted not later than July 1, 1998.*

SEC. 3158. TRANSFERS OF REAL PROPERTY AT CERTAIN DEPARTMENT OF ENERGY FACILITIES.

(a) *TRANSFER REGULATIONS.—(1) The Secretary of Energy shall prescribe regulations for the transfer by sale or lease of real property at Department of Energy defense nuclear facilities for the purpose of permitting the economic development of the property.*

(2) *The Secretary of Energy may not transfer real property under the regulations prescribed under paragraph (1) until—*

(A) *the Secretary submits a notification of the proposed transfer to the congressional defense committees; and*

(B) a period of 30 days has elapsed following the date on which the notification is submitted.

(b) INDEMNIFICATION.—(1) Except as provided in paragraph (3) and subject to subsection (c), in the sale or lease of real property pursuant to the regulations prescribed under subsection (a), the Secretary of Energy may hold harmless and indemnify a person or entity described in paragraph (2) against any claim for injury to person or property that results from the release or threatened release of a hazardous substance or pollutant or contaminant as a result of Department of Energy activities at the defense nuclear facility on which the real property is located. Before entering into any agreement for such a sale or lease, the Secretary shall notify the person or entity that the Secretary has authority to provide indemnification to the person or entity under this subsection. The Secretary shall include in any agreement for such a sale or lease a provision stating whether indemnification is or is not provided.

(2) Paragraph (1) applies to the following persons and entities:

(A) Any State that acquires ownership or control of real property of a defense nuclear facility.

(B) Any political subdivision of a State that acquires such ownership or control.

(C) Any other person or entity that acquires such ownership or control.

(3) To the extent the persons and entities described in paragraph (2) contributed to any such release or threatened release, paragraph (1) shall not apply.

(c) CONDITIONS.—(1) No indemnification on a claim for injury may be provided under this section unless the person or entity making a request for the indemnification—

(A) notifies the Secretary of Energy in writing within two years after such claim accrues;

(B) furnishes to the Secretary copies of pertinent papers received by the person or entity;

(C) furnishes evidence or proof of the claim;

(D) provides, upon request by the Secretary, access to the records and personnel of the person or entity for purposes of defending or settling the claim; and

(E) begins action within six months after the date of mailing, by certified or registered mail, of notice of final denial of the claim by the Secretary.

(2) For purposes of paragraph (1)(A), the date on which a claim accrues is the date on which the person asserting the claim knew (or reasonably should have known) that the injury to person or property referred to in subsection (b)(1) was caused or contributed to by the release or threatened release of a hazardous substance, pollutant, or contaminant as a result of Department of Energy activities at the defense nuclear facility on which the real property is located.

(d) AUTHORITY OF SECRETARY OF ENERGY.—(1) In any case in which the Secretary of Energy determines that the Secretary may be required to indemnify a person or entity under this section for any claim for injury to person or property referred to in subsection (b)(1), the Secretary may settle or defend the claim on behalf of that person or entity.

(2) In any case described in paragraph (1), if the person or entity that the Secretary may be required to indemnify does not allow the Secretary to settle or defend the claim, the person or entity may not be indemnified with respect to that claim under this section.

(e) *RELATIONSHIP TO OTHER LAW.*—Nothing in this section shall be construed as affecting or modifying in any way section 120(h) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9620(h)).

(f) *DEFINITIONS.*—In this section:

(1) The term “defense nuclear facility” has the meaning provided by the term “Department of Energy defense nuclear facility” in section 318 of the Atomic Energy Act of 1954 (42 U.S.C. 2286g).

(2) The terms “hazardous substance”, “release”, and “pollutant or contaminant” have the meanings provided by section 101 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601).

SEC. 3159. REQUIREMENT TO DELEGATE CERTAIN AUTHORITIES TO SITE MANAGER OF HANFORD RESERVATION.

Section 3173(b) of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 110 Stat. 2848; 42 U.S.C. 7274k) is amended—

(1) in paragraph (1)—

(A) by striking out “In addition” and inserting in lieu thereof “Except as provided in paragraph (5), in addition”; and

(B) by striking out “Act,” and inserting in lieu thereof “subtitle,”; and

(2) by adding at the end the following new paragraph:

“(5) In the case of the Hanford Reservation, Richland, Washington, the Secretary shall delegate to the Site Manager the authority described in paragraph (1) for fiscal year 1998. The Secretary may withdraw the delegated authority if the Secretary—

“(A) determines that the Site Manager of the Hanford Reservation has misused or misapplied that authority; and

“(B) the Secretary submits to Congress a notification of the Secretary’s intent to withdraw the authority.”.

SEC. 3160. SUBMITTAL OF BIENNIAL WASTE MANAGEMENT REPORTS.

Section 3153(b)(2)(B) of the National Defense Authorization Act for Fiscal Year 1994 (42 U.S.C. 7274k(b)(2)(B)) is amended by striking out “odd-numbered year after 1995” and inserting in lieu thereof “odd-numbered year after 1997”.

SEC. 3161. DEPARTMENT OF ENERGY SECURITY MANAGEMENT BOARD.

(a) *ESTABLISHMENT.*—(1) The Secretary of Energy shall establish a board to be known as the “Department of Energy Security Management Board” (in this section referred to as the “Board”).

(2) The Board shall advise the Secretary on policy matters, operational concerns, strategic planning, personnel, budget, procurement, and development of priorities relating to the security functions of the Department of Energy.

(b) *MEMBERS.*—The Board shall be comprised of—

(1) the Secretary of Energy, who shall serve as chairman;

(2) *the Director of the Office of Nonproliferation and National Security of the Department of Energy;*

(3) *the Assistant Secretary of Energy for Environmental Management;*

(4) *the Assistant Secretary of Energy for Defense Programs;*

(5) *the Assistant Secretary of Energy for Environment, Safety, and Health;*

(6) *the Associate Deputy Secretary of Energy for Field Management;*

(7) *three individuals selected by the Secretary of Defense and appointed by the Secretary of Energy;*

(8) *an individual selected by the Director of the Federal Bureau of Investigation and appointed by the Secretary of Energy; and*

(9) *an individual selected by the Director of Central Intelligence and appointed by the Secretary of Energy.*

(c) **APPOINTMENTS.**—(1) *The Secretary of Defense, the Director of the Federal Bureau of Investigation, and the Director of Central Intelligence shall consult with the Secretary of Energy in selecting individuals for appointment under paragraphs (7), (8), and (9), respectively, of subsection (b).*

(2) *The Secretary of Energy may not appoint as a member of the Board under paragraph (7), (8), or (9) of subsection (b) an officer or employee of the Department of Energy, an employee of a contractor or subcontractor of the Department, or an individual under contract with the Department.*

(3) *The Secretary of Energy shall appoint members of the Board under paragraphs (7), (8), and (9) of subsection (b) not later than January 15, 1998.*

(d) **VACANCIES.**—*Any vacancy in the Board shall be filled in the same manner as the original appointment.*

(e) **PERSONNEL MATTERS.**—(1)(A) *Each member of the Board who is not an officer or employee of the Federal Government shall be compensated at a rate equal to the daily equivalent of the annual rate of basic pay prescribed for level V of the Executive Schedule under section 5316 of title 5, United States Code, for each day (including travel time) during which such member is engaged in the performance of the duties of the Board.*

(B) *All members of the Board who are officers or employees of the United States shall serve without compensation in addition to that received for their services as officers or employees of the United States.*

(2) *The members of the Board shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for employees of agencies under subchapter I of chapter 57 of title 5, United States Code, while away from their homes or regular places of business in the performance of services for the Board.*

(f) **APPLICABILITY OF FACA.**—*The provisions of the Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the activities of the Board under this section.*

(g) **TERMINATION.**—*The Board shall terminate on October 31, 2000.*

(h) **SECURITY FUNCTIONS DEFINED.**—*In this section, the term “security functions” means all Department of Energy activities relat-*

ed to the safeguarding and security of nuclear weapons and materials, protection of classified and unclassified controlled nuclear information, and physical and personnel security.

SEC. 3162. SUBMITTAL OF ANNUAL REPORT ON STATUS OF SECURITY FUNCTIONS AT NUCLEAR WEAPONS FACILITIES.

(a) *IN GENERAL.*—Not later than September 1 each year, the Secretary of Energy shall submit to the congressional defense committees the report entitled “Annual Report to the President on the Status of Safeguards and Security of Domestic Nuclear Weapons Facilities”, or any successor report to such report.

(b) *REQUIREMENT RELATING TO REPORTS THROUGH FISCAL YEAR 2000.*—The Secretary shall include with each report submitted under subsection (a) in fiscal years 1998 through 2000 any comments on such report by the members of the Department of Energy Security Management Board established under section 3161 that such members consider appropriate.

SEC. 3163. MODIFICATION OF AUTHORITY ON COMMISSION ON MAINTAINING UNITED STATES NUCLEAR WEAPONS EXPERTISE.

(a) *COMMENCEMENT OF ACTIVITIES.*—Subsection (b)(1) of section 3162 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201; 110 Stat. 2844; 42 U.S.C. 2121 note) is amended, effective January 1, 1998—

(1) in subparagraph (C), by adding at the end the following new sentence: “The chairman may be designated once five members of the Commission have been appointed under subparagraph (A).”; and

(2) by adding at the end the following:
“(E) The Commission may commence its activities under this section upon the designation of the chairman of the Commission under subparagraph (C).”

(b) *DEADLINE FOR REPORT.*—Subsection (d) of that section is amended by striking out “March 15, 1998,” and inserting in lieu thereof “March 15, 1999.”

SEC. 3164. LAND TRANSFER, BANDELIER NATIONAL MONUMENT.

(a) *TRANSFER OF ADMINISTRATIVE JURISDICTION.*—The Secretary of Energy shall transfer to the Secretary of the Interior administrative jurisdiction over a parcel of real property consisting of approximately 4.47 acres as depicted on the map entitled “Boundary Map, Bandelier National Monument”, No. 315/80,051, dated March 1995.

(b) *BOUNDARY MODIFICATION.*—The boundary of the Bandelier National Monument established by Proclamation No. 1322 (16 U.S.C. 431 note) is modified to include the real property transferred under subsection (a).

(c) *PUBLIC AVAILABILITY OF MAP.*—The map described in subsection (a) shall be on file and available for public inspection in the Lands Office at the Southwest System Support Office of the National Park Service, Santa Fe, New Mexico, and in the office of the Superintendent of Bandelier National Monument.

(d) *ADMINISTRATION.*—The real property and interests in real property transferred under subsection (a) shall be—

(1) administered as part of Bandelier National Monument;
and

(2) subject to all laws applicable to the Bandelier National Monument and all laws generally applicable to units of the National Park System.

SEC. 3165. FINAL SETTLEMENT OF DEPARTMENT OF ENERGY COMMUNITY ASSISTANCE OBLIGATIONS WITH RESPECT TO LOS ALAMOS NATIONAL LABORATORY, NEW MEXICO.

(a) *IN GENERAL.*—The Secretary of Energy shall—

(1) convey, without consideration, to the Incorporated County of Los Alamos, New Mexico (in this section referred to as the “County”), or to the designee of the County, fee title to the parcels of land that are allocated for conveyance to the County in the agreement under subsection (e); and

(2) transfer to the Secretary of the Interior, in trust for the Pueblo of San Ildefonso (in this section referred to as the “Pueblo”), administrative jurisdiction over the parcels that are allocated for transfer to the Secretary of the Interior in such agreement.

(b) *PRELIMINARY IDENTIFICATION OF PARCELS OF LAND FOR CONVEYANCE OR TRANSFER.*—(1) Not later than 90 days after the date of enactment of this Act, the Secretary of Energy shall submit to the congressional defense committees a report identifying the parcels of land under the jurisdiction of the Secretary at the Los Alamos National Laboratory that are suitable for conveyance or transfer under this section.

(2) A parcel is suitable for conveyance or transfer for purposes of paragraph (1) if the parcel—

(A) is not required to meet the national security mission of the Department of Energy or will not be required for that purpose before the end of the 10-year period beginning on the date of enactment of this Act;

(B) is likely to be conveyable or transferable, as the case may be, under this section not later than the end of such period; and

(C) is suitable for use for a purpose specified in subsection (h).

(c) *REVIEW OF TITLE.*—(1) Not later than one year after the date of enactment of this Act, the Secretary shall submit to the congressional defense committees a report setting forth the results of a title search on each parcel of land identified as suitable for conveyance or transfer under subsection (b), including an analysis of any claims against or other impairments to the fee title to each such parcel.

(2) In the period beginning on the date of the completion of the title search with respect to a parcel under paragraph (1) and ending on the date of the submittal of the report under that paragraph, the Secretary shall take appropriate actions to resolve the claims against or other impairments, if any, to fee title that are identified with respect to the parcel in the title search.

(d) *ENVIRONMENTAL RESTORATION.*—(1) Not later than 21 months after the date of enactment of this Act, the Secretary shall—

(A) identify the environmental restoration or remediation, if any, that is required with respect to each parcel of land identified under subsection (b) to which the United States has fee title;

(B) carry out any review of the environmental impact of the conveyance or transfer of each such parcel that is required under the provisions of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); and

(C) submit to Congress a report setting forth the results of the activities under subparagraphs (A) and (B).

(2) If the Secretary determines under paragraph (1) that a parcel described in paragraph (1)(A) requires environmental restoration or remediation, the Secretary shall, to the maximum extent practicable, complete the environmental restoration or remediation of the parcel not later than 10 years after the date of enactment of this Act.

(e) AGREEMENT FOR ALLOCATION OF PARCELS.—As soon as practicable after completing the review of titles to parcels of land under subsection (c), the Secretary of the Interior, on behalf of the Pueblo and for the County, shall submit to the Secretary of Energy an agreement between the Secretary of the Interior and the County that allocates between the Secretary of the Interior and the County the parcels to which the United States has fee title.

(f) PLAN FOR CONVEYANCE AND TRANSFER.—(1) Not later than 90 days after the date of the submittal to the Secretary of Energy of the agreement under subsection (e), the Secretary shall submit to the congressional defense committees a plan for conveying or transferring parcels of land under this section in accordance with the allocation specified in the agreement.

(2) The plan under paragraph (1) shall provide for the completion of the conveyance or transfer of parcels under this section not later than 9 months after the date of the submittal of the plan under that paragraph.

(g) CONVEYANCE OR TRANSFER.—(1) Subject to paragraphs (2) and (3), the Secretary shall convey or transfer parcels of land in accordance with the allocation specified in the agreement submitted to the Secretary under subsection (e).

(2) In the case of a parcel allocated under the agreement that is not available for conveyance or transfer in accordance with the requirement in subsection (f)(2) by reason of its requirement to meet the national security mission of the Department, the Secretary shall convey or transfer the parcel, as the case may be, when the parcel is no longer required for that purpose.

(3)(A) In the case of a parcel allocated under the agreement that is not available for conveyance or transfer in accordance with such requirement by reason of requirements for environmental restoration or remediation, the Secretary shall convey or transfer the parcel, as the case may be, upon the completion of the environmental restoration or remediation that is required with respect to the parcel.

(B) If the Secretary determines that environmental restoration or remediation cannot reasonably be expected to be completed with respect to a parcel by the end of the 10-year period beginning on the date of enactment of this Act, the Secretary shall not convey or transfer the parcel under this section.

(h) USE OF CONVEYED OR TRANSFERRED LAND.—The parcels of land conveyed or transferred under this section shall be used for historic, cultural, or environmental preservation purposes, economic diversification purposes, or community self-sufficiency purposes.

(i) **TREATMENT OF CONVEYANCES AND TRANSFERS.**—(1) *The purpose of the conveyances and transfers under this section is to fulfill the obligations of the United States with respect to Los Alamos National Laboratory, New Mexico, under sections 91 and 94 of the Atomic Energy Community Act of 1955 (42 U.S.C. 2391, 2394).*

(2) *Upon the completion of the conveyance or transfer of the parcels of land available for conveyance or transfer under this section, the Secretary shall make no further payments with respect to Los Alamos National Laboratory under section 91 or section 94 of the Atomic Energy Community Act of 1955.*

SEC. 3166. SENSE OF CONGRESS REGARDING THE Y-12 PLANT IN OAK RIDGE, TENNESSEE.

It is the sense of Congress that the Y-12 Plant in Oak Ridge, Tennessee, should be used as a national prototype center and that other executive agencies should utilize this center, where appropriate, to maximize their efficiency and cost effectiveness.

SEC. 3167. SUPPORT FOR PUBLIC EDUCATION IN THE VICINITY OF LOS ALAMOS NATIONAL LABORATORY, NEW MEXICO.

(a) **AVAILABILITY OF FUNDS.**—*Of the funds authorized to be appropriated or otherwise made available to the Department of Energy by this title, \$5,000,000 shall be available for payment by the Secretary of Energy to a nonprofit or not-for-profit educational foundation chartered to enhance educational activities in the public schools in the vicinity of Los Alamos National Laboratory, New Mexico (in this section referred to as the “Foundation”).*

(b) **USE OF FUNDS.**—(1) *The Foundation shall utilize funds provided under subsection (a) the basis of, or as a contribution to, an endowment fund for the Foundation.*

(2) *The Foundation shall use the income generated from investments in the endowment fund that are attributable to the payment made under subsection (a) to fund programs to support the educational needs of children in public schools in the vicinity of Los Alamos National Laboratory.*

(c) **REPORT.**—*Not later than March 1, 1998, the Secretary shall submit to the congressional defense committees a report setting forth the following:*

(1) *The amount of, and a schedule for, payments to the Foundation by the Secretary that are in addition to the payment provided under subsection (a).*

(2) *A plan to ensure that the Secretary makes no other payments to support the educational activities referred to in subsection (b)(2) after September 30, 2002.*

SEC. 3168. IMPROVEMENTS TO GREENVILLE ROAD, LIVERMORE, CALIFORNIA.

From amounts authorized to be appropriated or otherwise made available to the Department of Energy by this title, funds shall be available for improvements to Greenville Road, Livermore, California, as follows:

(1) *\$3,500,000 in fiscal year 1998.*

(2) *\$3,300,000 in fiscal year 1999.*

SEC. 3169. REPORT ON ALTERNATIVE SYSTEM FOR AVAILABILITY OF FUNDS.

(a) *REPORT.*—Not later than October 1, 1998, the Secretary of Energy shall submit to Congress a report assessing how the Department of Energy could carry out a transition from a no-year funding system to a limited-period funding system.

(b) *MATTERS COVERED.*—The report shall cover the following matters:

(1) A conceptual proposal on how the no-year funding system could be phased out.

(2) An estimate of the cost of making the transition to a limited-period funding system.

(3) A description of the programmatic effects that could occur if the no-year funding system is eliminated.

(4) A delineation of activities for which the no-year funding system should be retained.

(c) *DEFINITIONS.*—In this section:

(1) The term “no-year funding system” means a funding system in which funds are available to the Department of Energy until expended.

(2) The term “limited-period funding system” means a funding system in which funds are available to the Department of Energy for a limited period of time.

SEC. 3170. REPORT ON REMEDIATION UNDER THE FORMERLY UTILIZED SITES REMEDIAL ACTION PROGRAM.

Not later than March 1, 1998, the Secretary of Energy shall submit to Congress a report containing information responding to the following questions regarding the Formerly Utilized Sites Remedial Action Program:

(1) How many Formerly Utilized Sites remain to be remediated, what portions of these remaining sites have completed remediation (including any offsite contamination), what portions of the sites remain to be remediated (including any offsite contamination), what types of contaminants are present at each site, and what are the projected timeframes for completing remediation at each site?

(2) What is the cost of the remaining response actions necessary to address actual or threatened releases of hazardous substances at each Formerly Utilized Site, including any contamination that is present beyond the perimeter of the facilities?

(3) For each site, how much will it cost to remediate the radioactive contamination, and how much will it cost to remediate the non-radioactive contamination?

(4) How many sites potentially involve private parties that could be held responsible for remediation costs, including remediation costs related to offsite contamination?

(5) What type of agreements under the Formerly Utilized Sites Remedial Action Program have been entered into with private parties to resolve the level of liability for remediation costs at these facilities, and to what extent have these agreements been tied to a distinction between radioactive and non-radioactive contamination present at these sites?

(6) What efforts have been undertaken by the Department to ensure that the settlement agreements entered into with pri-

vate parties to resolve liability for remediation costs at these facilities have been consistent on a program wide basis?

TITLE XXXII—DEFENSE NUCLEAR FACILITIES SAFETY BOARD

Sec. 3201. Authorization.

Sec. 3202. Report on external regulation of defense nuclear facilities.

SEC. 3201. AUTHORIZATION.

There are authorized to be appropriated for fiscal year 1998, \$17,500,000 for the operation of the Defense Nuclear Facilities Safety Board under chapter 21 of the Atomic Energy Act of 1954 (42 U.S.C. 2286 et seq.).

SEC. 3202. REPORT ON EXTERNAL REGULATION OF DEFENSE NUCLEAR FACILITIES.

(a) **REPORTING REQUIREMENT.**—The Defense Nuclear Facilities Safety Board (in this section referred to as the “Board”) shall prepare a report and make recommendations on its role in the Department of Energy’s decision to establish external regulation of defense nuclear facilities. The report shall include the following:

(1) An assessment of the value of and the need for the Board to continue to perform the functions specified under chapter 21 of the Atomic Energy Act of 1954 (42 U.S.C. 2286 et seq.).

(2) An assessment of the relationship between the functions of the Board and a proposal by the Department of Energy to place Department of Energy defense nuclear facilities under the jurisdiction of external regulatory agencies.

(3) An assessment of the functions of the Board and whether there is a need to modify or amend such functions.

(4) An assessment of the relative advantages and disadvantages to the Department and the public of continuing the functions of the Board with respect to Department of Energy defense nuclear facilities and replacing the activities of the Board with external regulation of such facilities.

(5) A list of all existing or planned Department of Energy defense nuclear facilities that are similar to facilities under the regulatory jurisdiction of the Nuclear Regulatory Commission.

(6) A list of all Department of Energy defense nuclear facilities that are in compliance with all applicable Department of Energy orders, regulations, and requirements relating to the design, construction, operation, and decommissioning of defense nuclear facilities.

(7) A list of all Department of Energy defense nuclear facilities that have implemented, pursuant to an implementation plan, recommendations made by the Board and accepted by the Secretary of Energy.

(8) A list of Department of Energy defense nuclear facilities that have a function related to Department weapons activities.

(9)(A) A list of each existing defense nuclear facility that the Board determines—

(i) should continue to stay within the jurisdiction of the Board for a period of time or indefinitely; and

(ii) should come under the jurisdiction of an outside regulatory authority.

(B) An explanation of the determinations made under subparagraph (A).

(10) For any existing facilities that should, in the opinion of the Board, come under the jurisdiction of an outside regulatory authority, the date when this move would occur and the period of time necessary for the transition.

(11) A list of any proposed Department of Energy defense nuclear facilities that should come under the Board's jurisdiction.

(12) An assessment of regulatory and other issues associated with the design, construction, operation, and decommissioning of facilities that are not owned by the Department of Energy but which would provide services to the Department of Energy.

(13) An assessment of the role of the Board, if any, in privatization projects undertaken by the Department.

(14) An assessment of the role of the Board, if any, in any tritium production facilities.

(15) An assessment of the comparative advantages and disadvantages to the Department of Energy in the event some or all Department of Energy defense nuclear facilities were no longer included in the functions of the Board and were regulated by the Nuclear Regulatory Commission.

(16) A comparison of the cost, as identified by the Nuclear Regulatory Commission, that would be incurred at a gaseous diffusion plant to comply with regulations issued by the Nuclear Regulatory Commission, with the cost that would be incurred by a gaseous diffusion plant if such a plant was considered to be a Department of Energy defense nuclear facility as defined by chapter 21 of the Atomic Energy Act of 1954 (42 U.S.C. 2286 et seq.).

(b) **COMMENTS ON REPORT.**—Before submission of the report to Congress under subsection (c), the Board shall transmit the report to the Secretary of Energy and the Nuclear Regulatory Commission. The Secretary and the Commission shall provide their comments on the report to both the Board and to Congress.

(c) **SUBMISSION TO CONGRESS.**—Not later than six months after the date of the enactment of this Act, the Board shall provide to Congress an interim report on the status of the implementation of this section. Not later than one year after the date of the enactment of this Act, and not earlier than 30 days after receipt of comments from the Secretary of Energy and the Nuclear Regulatory Commission under subsection (b), the Board shall submit to Congress the report required under subsection (a).

(d) **DEFINITION.**—In this section, the term “Department of Energy defense nuclear facility” has the meaning provided by section 318 of the Atomic Energy Act of 1954 (42 U.S.C. 2286g).

TITLE XXXIII—NATIONAL DEFENSE STOCKPILE

- Sec. 3301. Definitions.*
Sec. 3302. Authorized uses of stockpile funds.
Sec. 3303. Disposal of beryllium copper master alloy in National Defense Stockpile.
Sec. 3304. Disposal of titanium sponge in National Defense Stockpile.
Sec. 3305. Disposal of cobalt in National Defense Stockpile.
Sec. 3306. Required procedures for disposal of strategic and critical materials.
Sec. 3307. Return of surplus platinum from the Department of the Treasury.

SEC. 3301. DEFINITIONS.

In this title:

(1) The term “National Defense Stockpile” means the stockpile provided for in section 4 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98c).

(2) The term “National Defense Stockpile Transaction Fund” means the fund in the Treasury of the United States established under section 9(a) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98h(a)).

(3) The term “Market Impact Committee” means the Market Impact Committee established under section 10(c) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98h-1(c)).

SEC. 3302. AUTHORIZED USES OF STOCKPILE FUNDS.

(a) **OBLIGATION OF STOCKPILE FUNDS.**—During fiscal year 1998, the National Defense Stockpile Manager may obligate up to \$73,000,000 of the funds in the National Defense Stockpile Transaction Fund for the authorized uses of such funds under section 9(b)(2) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98h(b)(2)).

(b) **ADDITIONAL OBLIGATIONS.**—The National Defense Stockpile Manager may obligate amounts in excess of the amount specified in subsection (a) if the National Defense Stockpile Manager notifies Congress that extraordinary or emergency conditions necessitate the additional obligations. The National Defense Stockpile Manager may make the additional obligations described in the notification after the end of the 45-day period beginning on the date Congress receives the notification.

(c) **LIMITATIONS.**—The authorities provided by this section shall be subject to such limitations as may be provided in appropriations Acts.

SEC. 3303. DISPOSAL OF BERYLLIUM COPPER MASTER ALLOY IN NATIONAL DEFENSE STOCKPILE.

(a) **DISPOSAL AUTHORIZATION.**—Pursuant to section 5(b) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98d(b)), the National Defense Stockpile Manager may dispose of all beryllium copper master alloy from the National Defense Stockpile as part of continued efforts to modernize the Stockpile.

(b) **PRECONDITION FOR DISPOSAL.**—Before beginning the disposal of beryllium copper master alloy under subsection (a), the National Defense Stockpile Manager shall certify to Congress that the disposal of beryllium copper master alloy will not adversely affect

the capability of the National Defense Stockpile to supply the strategic and critical material needs of the United States.

(c) *CONSULTATION WITH MARKET IMPACT COMMITTEE.*—In disposing of beryllium copper master alloy under subsection (a), the National Defense Stockpile Manager shall consult with the Market Impact Committee to ensure that the disposal of beryllium copper master alloy does not disrupt the domestic beryllium industry.

(d) *EXTENDED SALES CONTRACTS.*—The National Defense Stockpile Manager shall provide for the use of long-term sales contracts for the disposal of beryllium copper master alloy under subsection (a) so that the domestic beryllium industry can re-absorb this material into the market in a gradual and nondisruptive manner. However, no such contract shall provide for the disposal of beryllium copper master alloy over a period longer than eight years, beginning on the date of the commencement of the first contract under this section.

(e) *RELATIONSHIP TO OTHER DISPOSAL AUTHORITY.*—The disposal authority provided in subsection (a) is new disposal authority and is in addition to, and shall not affect, any other disposal authority provided by law regarding materials in the National Defense Stockpile.

(f) *BERYLLIUM COPPER MASTER ALLOY DEFINED.*—For purposes of this section, the term “beryllium copper master alloy” means an alloy of nominally four percent beryllium in copper.

SEC. 3304. DISPOSAL OF TITANIUM SPONGE IN NATIONAL DEFENSE STOCKPILE.

(a) *DISPOSAL REQUIRED.*—Subject to subsection (b), the National Defense Stockpile Manager shall dispose of 34,800 short tons of titanium sponge contained in the National Defense Stockpile provided for in section 4 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98c) and excess to stockpile requirements.

(b) *CONSULTATION WITH MARKET IMPACT COMMITTEE.*—In disposing of titanium sponge under subsection (a), the National Defense Stockpile Manager shall consult with the Market Impact Committee to ensure that the disposal of titanium sponge does not disrupt the domestic titanium industry.

(c) *RELATIONSHIP TO OTHER DISPOSAL AUTHORITY.*—The disposal authority provided in subsection (a) is new disposal authority and is in addition to, and shall not affect, any other disposal authority provided by law regarding materials in the National Defense Stockpile.

SEC. 3305. DISPOSAL OF COBALT IN NATIONAL DEFENSE STOCKPILE.

(a) *DISPOSAL REQUIRED.*—Subject to subsections (b) and (c), the President shall dispose of cobalt contained in the National Defense Stockpile so as to result in receipts to the United States in amounts equal to—

- (1) \$20,000,000 during fiscal year 2003;
- (2) \$30,000,000 during fiscal year 2004;
- (3) \$34,000,000 during fiscal year 2005;
- (4) \$34,000,000 during fiscal year 2006; and
- (5) \$34,000,000 during fiscal year 2007.

(b) *LIMITATION ON DISPOSAL QUANTITY.*—The total quantity of cobalt authorized for disposal by the President under subsection (a) may not exceed 14,058,014 pounds.

(c) *MINIMIZATION OF DISRUPTION AND LOSS.*—The President may not dispose of cobalt under subsection (a) to the extent that the disposal will result in—

(1) undue disruption of the usual markets of producers, processors, and consumers of cobalt; or

(2) avoidable loss to the United States.

(d) *TREATMENT OF RECEIPTS.*—Notwithstanding section 9 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98h), funds received as result of the disposal of cobalt under subsection (a) shall be deposited into the general fund of the Treasury.

(e) *RELATIONSHIP TO OTHER DISPOSAL AUTHORITY.*—The disposal authority provided in subsection (a) is new disposal authority and is in addition to, and shall not affect, any other disposal authority provided by law regarding materials in the National Defense Stockpile.

SEC. 3306. REQUIRED PROCEDURES FOR DISPOSAL OF STRATEGIC AND CRITICAL MATERIALS.

Section 6(b) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98e(b)) is amended in the first sentence by striking out “materials from the stockpile shall be made by formal advertising or competitive negotiation procedures.” and inserting in lieu thereof “strategic and critical materials from the stockpile shall be made in accordance with the next sentence.”.

SEC. 3307. RETURN OF SURPLUS PLATINUM FROM THE DEPARTMENT OF THE TREASURY.

(a) *RETURN OF PLATINUM TO STOCKPILE.*—Subject to subsection (b), the Secretary of the Treasury, upon the request of the Secretary of Defense, shall return to the Secretary of Defense for sale or other disposition platinum of the National Defense Stockpile that has been loaned to the Department of the Treasury by the Secretary of Defense, acting as the stockpile manager. The quantity requested and required to be returned shall be any quantity that the Secretary of Defense determines appropriate for sale or other disposition.

(b) *ALTERNATIVE TRANSFER OF FUNDS.*—The Secretary of the Treasury, with the concurrence of the Secretary of Defense, may transfer to the Secretary of Defense funds in a total amount that is equal to the fair market value of any platinum requested under subsection (a) and not returned. A transfer of funds under this subsection shall be a substitute for a return of platinum under subsection (a). Upon a transfer of funds as a substitute for a return of platinum, the platinum shall cease to be part of the National Defense Stockpile. A transfer of funds under this subsection shall be charged to any appropriation for the Department of the Treasury and shall be credited to the National Defense Stockpile Transaction Fund.

(c) *RESPONSIBILITY FOR COSTS.*—The return of platinum under subsection (a) by the Secretary of the Treasury shall be made without the expenditure of any funds available to the Department of Defense. The Secretary of the Treasury shall be responsible for all costs incurred in connection with the return, such as transportation, storage, testing, refining, or casting costs.

TITLE XXXIV—NAVAL PETROLEUM RESERVES

Sec. 3401. Authorization of appropriations.

Sec. 3402. Price requirement on sale of certain petroleum during fiscal year 1998.

Sec. 3403. Repeal of requirement to assign Navy officers to Office of Naval Petroleum and Oil Shale Reserves.

Sec. 3404. Transfer of jurisdiction, Naval Oil Shale Reserves Numbered 1 and 3.

SEC. 3401. AUTHORIZATION OF APPROPRIATIONS.

There is hereby authorized to be appropriated to the Secretary of Energy \$117,000,000 for fiscal year 1998 for the purpose of carrying out activities under chapter 641 of title 10, United States Code, relating to the naval petroleum reserves (as defined in section 7420(2) of such title). Funds appropriated pursuant to such authorization shall remain available until expended.

SEC. 3402. PRICE REQUIREMENT ON SALE OF CERTAIN PETROLEUM DURING FISCAL YEAR 1998.

Notwithstanding section 7430(b)(2) of title 10, United States Code, during fiscal year 1998, any sale of any part of the United States share of petroleum produced from Naval Petroleum Reserves Numbered 1, 2, and 3 shall be made at a price not less than 90 percent of the current sales price, as estimated by the Secretary of Energy, of comparable petroleum in the same area.

SEC. 3403. REPEAL OF REQUIREMENT TO ASSIGN NAVY OFFICERS TO OFFICE OF NAVAL PETROLEUM AND OIL SHALE RESERVES.

Section 2 of Public Law 96-137 (42 U.S.C. 7156a) is repealed.

SEC. 3404. TRANSFER OF JURISDICTION, NAVAL OIL SHALE RESERVES NUMBERED 1 AND 3.

(a) TRANSFER REQUIRED.—Chapter 641 of title 10, United States Code, is amended by adding at the end the following new section:

“§ 7439. Certain oil shale reserves: transfer of jurisdiction and petroleum exploration, development, and production

“(a) TRANSFER REQUIRED.—(1) Upon the enactment of this section, the Secretary of Energy shall transfer to the Secretary of the Interior administrative jurisdiction over all public domain lands included within Oil Shale Reserve Numbered 1 and those public domain lands included within the undeveloped tracts of Oil Shale Reserve Numbered 3.

“(2) Not later than one year after the date of the enactment of this section, the Secretary of Energy shall transfer to the Secretary of the Interior administrative jurisdiction over those public domain lands included within the developed tract of Oil Shale Reserve Numbered 3, which consists of approximately 6,000 acres and 24 natural gas wells, together with pipelines and associated facilities.

“(3) Notwithstanding the transfer of jurisdiction, the Secretary of Energy shall continue to be responsible for all environmental restoration, waste management, and environmental compliance activities that are required under Federal and State laws with respect to conditions existing on the lands at the time of the transfer.

“(4) Upon the transfer to the Secretary of the Interior of jurisdiction over public domain lands under this subsection, the other provisions of this chapter shall cease to apply with respect to the transferred lands.

“(b) *AUTHORITY TO LEASE.*—(1) Beginning on the date of the enactment of this section, or as soon thereafter as practicable, the Secretary of the Interior shall enter into leases with one or more private entities for the purpose of exploration for, and development and production of, petroleum (other than in the form of oil shale) located on or in public domain lands in Oil Shale Reserves Numbered 1 and 3 (including the developed tract of Oil Shale Reserve Numbered 3). Any such lease shall be made in accordance with the requirements of the Mineral Leasing Act (30 U.S.C. 181 et seq.) regarding the lease of oil and gas lands and shall be subject to valid existing rights.

“(2) Notwithstanding the delayed transfer of the developed tract of Oil Shale Reserve Numbered 3 under subsection (a)(2), the Secretary of the Interior shall enter into a lease under paragraph (1) with respect to the developed tract before the end of the one-year period beginning on the date of the enactment of this section.

“(c) *MANAGEMENT.*—The Secretary of the Interior, acting through the Director of the Bureau of Land Management, shall manage the lands transferred under subsection (a) in accordance with the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.) and other laws applicable to the public lands.

“(d) *TRANSFER OF EXISTING EQUIPMENT.*—The lease of lands by the Secretary of the Interior under this section may include the transfer, at fair market value, of any well, gathering line, or related equipment owned by the United States on the lands transferred under subsection (a) and suitable for use in the exploration, development, or production of petroleum on the lands.

“(e) *COST MINIMIZATION.*—The cost of any environmental assessment required pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) in connection with a proposed lease under this section shall be paid out of unobligated amounts available for administrative expenses of the Bureau of Land Management.

“(f) *TREATMENT OF RECEIPTS.*—(1) Notwithstanding section 35 of the Mineral Leasing Act (30 U.S.C. 191), all moneys received during the period specified in paragraph (2) from a lease under this section (including moneys in the form of sales, bonuses, royalties (including interest charges collected under the Federal Oil and Gas Royalty Management Act of 1982 (30 U.S.C. 1701 et seq.)), and rentals) shall be covered into the Treasury of the United States and shall not be subject to distribution to the States pursuant to subsection (a) of such section 35. Subject to a specific authorization and appropriation for this purpose, such moneys may be used for reimbursement of environmental restoration, waste management, and environmental compliance costs incurred by the United States with respect to the lands transferred under subsection (a).

“(2) The period referred to in this subsection is the period beginning on the date of the enactment of this section and ending on the date on which the Secretary of Energy and the Secretary of the Interior jointly certify to Congress that the sum of the moneys deposited

in the Treasury under paragraph (1) is equal to the total of the following:

“(A) The cost of all environmental restoration, waste management, and environmental compliance activities incurred by the United States with respect to the lands transferred under subsection (a).

“(B) The cost to the United States to originally install wells, gathering lines, and related equipment on the transferred lands and any other cost incurred by the United States with respect to the lands.”.

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

“7439. Certain oil shale reserves: transfer of jurisdiction and petroleum exploration, development, and production.”.

Subtitle A—Authorization of Expenditures From Revolving Fund

SEC. 3501. SHORT TITLE.

This subtitle may be cited as the “Panama Canal Commission Authorization Act for Fiscal Year 1998”.

SEC. 3502. AUTHORIZATION OF EXPENDITURES.

(a) *IN GENERAL.*—Subject to subsection (b), the Panama Canal Commission is authorized to use amounts in the Panama Canal Revolving Fund to make such expenditures within the limits of funds and borrowing authority available to it in accordance with law, and to make such contracts and commitments, as may be necessary under the Panama Canal Act of 1979 (22 U.S.C. 3601 et seq.) for the operation, maintenance, improvement, and administration of the Panama Canal for fiscal year 1998.

(b) *LIMITATIONS.*—For fiscal year 1998, the Panama Canal Commission may expend from funds in the Panama Canal Revolving Fund not more than \$85,000 for official reception and representation expenses, of which—

(1) not more than \$23,000 may be used for official reception and representation expenses of the Supervisory Board of the Commission;

(2) not more than \$12,000 may be used for official reception and representation expenses of the Secretary of the Commission; and

(3) not more than \$50,000 may be used for official reception and representation expenses of the Administrator of the Commission.

SEC. 3503. PURCHASE OF VEHICLES.

Notwithstanding any other provision of law, the funds available to the Commission shall be available for the purchase and transportation to the Republic of Panama of passenger motor vehicles, the purchase price of which shall not exceed \$22,000 per vehicle.

SEC. 3504. EXPENDITURES ONLY IN ACCORDANCE WITH TREATIES.

Expenditures authorized under this subtitle may be made only in accordance with the Panama Canal Treaties of 1977 and any law of the United States implementing those treaties.

Subtitle B—Facilitation of Panama Canal Transition

SEC. 3511. SHORT TITLE; REFERENCES.

(a) *SHORT TITLE.*—This subtitle may be cited as the “Panama Canal Transition Facilitation Act of 1997”.

(b) *REFERENCES.*—Except as otherwise expressly provided, whenever in this subtitle an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Panama Canal Act of 1979 (22 U.S.C. 3601 et seq.).

SEC. 3512. DEFINITIONS RELATING TO CANAL TRANSITION.

Section 3 (22 U.S.C. 3602) is amended by adding at the end the following new subsection:

“(d) For purposes of this Act:

“(1) The term ‘Canal Transfer Date’ means December 31, 1999, such date being the date specified in the Panama Canal Treaty of 1977 for the transfer of the Panama Canal from the United States of America to the Republic of Panama.

“(2) The term ‘Panama Canal Authority’ means the entity created by the Republic of Panama to succeed the Panama Canal Commission as of the Canal Transfer Date.”.

PART I—TRANSITION MATTERS RELATING TO COMMISSION OFFICERS AND EMPLOYEES

SEC. 3521. AUTHORITY FOR THE ADMINISTRATOR OF THE COMMISSION TO ACCEPT APPOINTMENT AS THE ADMINISTRATOR OF THE PANAMA CANAL AUTHORITY.

(a) AUTHORITY FOR DUAL ROLE.—Section 1103 (22 U.S.C. 3613) is amended by adding at the end the following new subsection:

“(c) The Congress consents, for purposes of the 8th clause of article I, section 9 of the Constitution of the United States, to the acceptance by the individual serving as Administrator of the Commission of appointment by the Republic of Panama to the position of Administrator of the Panama Canal Authority. Such consent is effective only if that individual, while serving in both such positions, serves as Administrator of the Panama Canal Authority without compensation, except for payments by the Republic of Panama of travel and entertainment expenses, including per diem payments.”.

(b) WAIVER OF ETHICS AND REPORTING REQUIREMENTS.—Such section is further amended by adding at the end the following new subsection:

“(d) If before the Canal Transfer Date the Republic of Panama appoints as the Administrator of the Panama Canal Authority the individual serving as the Administrator of the Commission and if that individual accepts the appointment—

“(1) during any period during which that individual serves as both Administrator of the Commission and the Administrator of the Panama Canal Authority—

“(A) the Foreign Agents Registration Act of 1938, as amended (22 U.S.C. 611 et seq.), shall not apply to that individual with respect to service as the Administrator of the Panama Canal Authority;

“(B) that individual, with respect to participation in any particular matter as the Administrator of the Panama Canal Commission, is not subject to section 208(a) of title 18, United States Code, insofar as that section would otherwise apply to that matter only because the matter will have a direct and predictable effect on the financial interest of the Panama Canal Authority;

“(C) that individual is not subject to sections 203 and 205 of title 18, United States Code, with respect to official

acts performed as an agent or attorney for or otherwise representing the Panama Canal Authority; and

“(D) that individual is not subject to sections 501(a) and 502(a)(4) of the Ethics in Government Act of 1978 (5 U.S.C. App.), with respect to compensation received for, and service in, the position of Administrator of the Panama Canal Authority; and

“(2) effective upon termination of the individual’s appointment as Administrator of the Panama Canal Commission at noon on the Canal Transfer Date, that individual is not subject to section 207 of title 18, United States Code, with respect to acts done in carrying out official duties as Administrator of the Panama Canal Authority.”.

SEC. 3522. POST-CANAL TRANSFER PERSONNEL AUTHORITIES.

(a) WAIVER OF CERTAIN POST-EMPLOYMENT RESTRICTIONS FOR COMMISSION PERSONNEL BECOMING EMPLOYEES OF THE PANAMA CANAL AUTHORITY.—Section 1112 (22 U.S.C. 3622) is amended by adding at the end the following new subsection:

“(e)(1) Section 207 of title 18, United States Code, does not apply to a covered individual with respect to acts done in carrying out official duties as an officer or employee of the Panama Canal Authority.

“(2) For purposes of paragraph (1), a covered individual is an officer or employee of the Panama Canal Authority who was an officer or employee of the Commission (other than the Administrator) and whose employment with the Commission terminated at noon on the Canal Transfer Date.

“(3) This subsection is effective as of the Canal Transfer Date.”.

(b) CONSENT OF CONGRESS FOR ACCEPTANCE BY RESERVE AND RETIRED MEMBERS OF THE UNIFORMED SERVICES OF EMPLOYMENT BY PANAMA CANAL AUTHORITY.—Such section is further amended by adding after subsection (e), as added by subsection (a), the following new subsection:

“(f)(1) The Congress consents to the following persons accepting civil employment (and compensation for that employment) with the Panama Canal Authority for which the consent of the Congress is required by the last paragraph of section 9 of article I of the Constitution of the United States, relating to acceptance of emoluments, offices, or titles from a foreign government:

“(A) Retired members of the uniformed services.

“(B) Members of a reserve component of the armed forces.

“(C) Members of the Commissioned Reserve Corps of the Public Health Service.

“(2) The consent of the Congress under paragraph (1) is effective without regard to subsection (b) of section 908 of title 37, United States Code (relating to approval required for employment of Reserve and retired members by foreign governments).”.

SEC. 3523. ENHANCED AUTHORITY OF COMMISSION TO ESTABLISH COMPENSATION OF COMMISSION OFFICERS AND EMPLOYEES.

(a) REPEAL OF LIMITATIONS ON COMMISSION AUTHORITY.—The following provisions are repealed:

(1) Section 1215 (22 U.S.C. 3655), relating to basic pay.

(2) Section 1219 (22 U.S.C. 3659), relating to salary protection upon conversion of pay rate.

(3) Section 1225 (22 U.S.C. 3665), relating to minimum level of pay and minimum annual increases.

(b) SAVINGS PROVISION.—Section 1202 (22 U.S.C. 3642) is amended by adding at the end the following new subsection:

“(c) In the case of an individual who is an officer or employee of the Commission on the day before the date of the enactment of the Panama Canal Transition Facilitation Act of 1997 and who has not had a break in service with the Commission since that date, the rate of basic pay for that officer or employee on or after that date may not be less than the rate in effect for that officer or employee on the day before that date of enactment except—

“(1) as provided in a collective bargaining agreement;

“(2) as a result of an adverse action against the officer or employee; or

“(3) pursuant to a voluntary demotion.”.

(c) CROSS-REFERENCE AMENDMENTS.—(1) Section 1216 (22 U.S.C. 3656) is amended by striking out “1215” and inserting in lieu thereof “1202”.

(2) Section 1218 (22 U.S.C. 3658) is amended by striking out “1215” and “1217” and inserting in lieu thereof “1202” and “1217(a)”, respectively.

(d) NONAPPLICABILITY TO AGENCIES IN PANAMA OTHER THAN PANAMA CANAL COMMISSION.—Section 1212(b)(3) (22 U.S.C. 3652(b)(3)) is amended by striking out “or the Panama Canal Act Amendments of 1996” and inserting in lieu thereof “, the Panama Canal Act Amendments of 1996 (subtitle B of title XXXV of Public Law 104–201; 110 Stat. 2860), or the Panama Canal Transition Facilitation Act of 1997”.

SEC. 3524. TRAVEL, TRANSPORTATION, AND SUBSISTENCE EXPENSES FOR COMMISSION PERSONNEL NO LONGER SUBJECT TO FEDERAL TRAVEL REGULATION.

(a) REPEAL OF APPLICABILITY OF TITLE 5 PROVISIONS.—(1) Section 1210 (22 U.S.C. 3650) is amended by striking out subsections (a), (b), and (c).

(2) Section 1224 (22 U.S.C. 3664) is amended—

(A) by striking out paragraph (10); and

(B) by redesignating paragraphs (11) through (20) as paragraphs (10) through (19), respectively.

(b) CONFORMING AMENDMENTS.—(1) Section 1210 is further amended—

(A) by redesignating subsection (d)(1) as subsection (a) and in that subsection striking out “paragraph (2)” and inserting in lieu thereof “subsection (b)”; and

(B) by redesignating subsection (d)(2) as subsection (b) and in that subsection—

(i) striking out “Notwithstanding paragraph (1), an” and inserting in lieu thereof “An”; and

(ii) striking out “referred to in paragraph (1)” and inserting in lieu thereof “who is a citizen of the Republic of Panama”.

(2) The heading of such section is amended to read as follows:

“AIR TRANSPORTATION”.

(c) *EFFECTIVE DATE.*—The amendments made by this section shall take effect on January 1, 1999.

SEC. 3525. ENHANCED RECRUITMENT AND RETENTION AUTHORITIES.

(a) *RECRUITMENT, RELOCATION, AND RETENTION BONUSES.*—Section 1217 (22 U.S.C. 3657) is amended—

- (1) by redesignating subsection (c) as subsection (e);
- (2) in subsection (e) (as so redesignated), by striking out “for the same or similar work performed in the United States by individuals employed by the Government of the United States” and inserting in lieu thereof “of the individual to whom the compensation is paid”; and

(3) by inserting after subsection (b) the following new subsections:

“(c)(1) The Commission may pay a recruitment bonus to an individual who is newly appointed to a position with the Commission, or a relocation bonus to an employee of the Commission who must relocate to accept a position, if the Commission determines that the Commission would be likely, in the absence of such a bonus, to have difficulty in filling the position.

“(2) A recruitment or relocation bonus may be paid to an employee under this subsection only if the employee enters into an agreement with the Commission to complete a period of employment established in the agreement. If the employee voluntarily fails to complete such period of employment or is separated from service in such employment as a result of an adverse action before the completion of such period, the employee shall repay the entire amount of the bonus.

“(3) A recruitment or relocation bonus under this subsection may be paid as a lump sum. A bonus under this subsection may not be considered to be part of the basic pay of an employee.

“(d)(1) The Commission may pay a retention bonus to an employee of the Commission if the Commission determines that—

“(A) the employee has unusually high or unique qualifications and those qualifications make it essential for the Commission to retain the employee for a period specified by the Commission ending not later than the Canal Transfer Date, or the Commission otherwise has a special need for the services of the employee making it essential for the Commission to retain the employee for a period specified by the Commission ending not later than the Canal Transfer Date; and

“(B) the employee would be likely to leave employment with the Commission before the end of that period if the retention bonus is not paid.

“(2) A retention bonus under this subsection—

“(A) shall be in a fixed amount;

“(B) shall be paid on a pro rata basis (over the period specified by the Commission as essential for the retention of the employee), with such payments to be made at the same time and in the same manner as basic pay; and

“(C) may not be considered to be part of the basic pay of an employee.

“(3) A decision by the Commission to exercise or to not exercise the authority to pay a bonus under this subsection shall not be subject to review under any statutory procedure or any agency or negotiated grievance procedure except under any of the laws referred to in section 2302(d) of title 5, United States Code.”.

(b) *EDUCATIONAL SERVICES*.—Section 1321(e)(2) (22 U.S.C. 3731(e)(2)) is amended by striking out “and persons” and inserting in lieu thereof “, to other Commission employees when determined by the Commission to be necessary for their recruitment or retention, and to other persons”.

SEC. 3526. TRANSITION SEPARATION INCENTIVE PAYMENTS.

Chapter 2 of title I (22 U.S.C. 3641 et seq.) is amended by adding at the end of subchapter III the following new section:

“TRANSITION SEPARATION INCENTIVE PAYMENTS

“SEC. 1233. (a) In applying to the Commission and employees of the Commission the provisions of section 663 of the Treasury, Postal Service, and General Government Appropriations Act, 1997 (as contained in section 101(f) of division A of Public Law 104–208; 110 Stat. 3009–383), relating to voluntary separation incentives for employees of certain Federal agencies (in this section referred to as ‘section 663’)—

“(1) the term ‘employee’ shall mean an employee of the Commission who has served in the Republic of Panama in a position with the Commission for a continuous period of at least three years immediately before the employee’s separation under an appointment without time limitation and who is covered under the Civil Service Retirement System or the Federal Employees’ Retirement System under subchapter III of chapter 83 or chapter 84, respectively, of title 5, United States Code, other than—

“(A) an employee described in any of subparagraphs (A) through (F) of subsection (a)(2) of section 663; or

“(B) an employee of the Commission who, during the 24-month period preceding the date of separation, has received a recruitment or relocation bonus under section 1217(c) of this Act or who, within the 12-month period preceding the date of separation, received a retention bonus under section 1217(d) of this Act;

“(2) the strategic plan under subsection (b) of section 663 shall include (in lieu of the matter specified in subsection (b)(2) of that section)—

“(A) the positions to be affected, identified by occupational category and grade level;

“(B) the number and amounts of separation incentive payments to be offered; and

“(C) a description of how such incentive payments will facilitate the successful transfer of the Panama Canal to the Republic of Panama;

“(3) a separation incentive payment under section 663 may be paid to a Commission employee only to the extent necessary to facilitate the successful transfer of the Panama Canal by the

United States of America to the Republic of Panama as required by the Panama Canal Treaty of 1977;

“(4) such a payment—

“(A) may be in an amount determined by the Commission not to exceed \$25,000; and

“(B) may be made (notwithstanding the limitation specified in subsection (c)(2)(D) of section 663) in the case of an eligible employee who voluntarily separates (whether by retirement or resignation) during the 90-day period beginning on the date of the enactment of this section or during the period beginning on October 1, 1998, and ending on December 31, 1998;

“(5) in the case of not more than 15 employees who (as determined by the Commission) are unwilling to work for the Panama Canal Authority after the Canal Transfer Date and who occupy critical positions for which (as determined by the Commission) at least two years of experience is necessary to ensure that seasoned managers are in place on and after the Canal Transfer Date, such a payment (notwithstanding paragraph (4))—

“(A) may be in an amount determined by the Commission not to exceed 50 percent of the basic pay of the employee; and

“(B) may be made (notwithstanding the limitation specified in subsection (c)(2)(D) of section 663) in the case of such an employee who voluntarily separates (whether by retirement or resignation) during the 90-day period beginning on the date of the enactment of this section; and

“(6) the provisions of subsection (f) of section 663 shall not apply.

“(b) A decision by the Commission to exercise or to not exercise the authority to pay a transition separation incentive under this section shall not be subject to review under any statutory procedure or any agency or negotiated grievance procedure except under any of the laws referred to in section 2302(d) of title 5, United States Code.”.

SEC. 3527. LABOR-MANAGEMENT RELATIONS.

Section 1271 (22 U.S.C. 3701) is amended by adding at the end the following new subsection:

“(c)(1) This subsection applies to any matter that becomes the subject of collective bargaining between the Commission and the exclusive representative for any bargaining unit of employees of the Commission during the period beginning on the date of the enactment of this subsection and ending on the Canal Transfer Date.

“(2)(A) The resolution of impasses resulting from collective bargaining between the Commission and any such exclusive representative during that period shall be conducted in accordance with such procedures as may be mutually agreed upon between the Commission and the exclusive representative (without regard to any otherwise applicable provisions of chapter 71 of title 5, United States Code). Such mutually agreed upon procedures shall become effective upon transmittal by the Chairman of the Supervisory Board of the Commission to the Congress of notice of the agreement to use those procedures and a description of those procedures.

“(B) The Federal Services Impasses Panel shall not have jurisdiction to resolve any impasse between the Commission and any such exclusive representative in negotiations over a procedure for resolving impasses.

“(3) If the Commission and such an exclusive representative do not reach an agreement concerning a procedure for resolving impasses with respect to a bargaining unit and transmit notice of the agreement under paragraph (2) on or before July 1, 1998, the following shall be the procedure by which collective bargaining impasses between the Commission and the exclusive representative for that bargaining unit shall be resolved:

“(A) If bargaining efforts do not result in an agreement, either party may timely request the Federal Mediation and Conciliation Service to assist in achieving an agreement.

“(B) If an agreement is not reached within 45 days after the date on which either party requests the assistance of the Federal Mediation and Conciliation Service in writing (or within such shorter period as may be mutually agreed upon by the parties), the parties shall be considered to be at an impasse and the Federal Mediation and Conciliation Service shall immediately notify the Federal Services Impasses Panel of the Federal Labor Relations Authority, which shall decide the impasse.

“(C) If the Federal Services Impasses Panel fails to issue a decision within 90 days after the date on which notice under subparagraph (B) is received by the Panel (or within such shorter period as may be mutually agreed upon by the parties), the efforts of the Panel shall be terminated.

“(D) In such a case, the Chairman of the Panel (or another member in the absence of the Chairman) shall immediately determine the matter by a drawing (conducted in such manner as the Chairman (or, in the absence of the Chairman, such other member) determines appropriate) between the last offer of the Commission and the last offer of the exclusive representative, with the offer chosen through such drawing becoming the binding resolution of the matter.

“(4) In the case of a notice of agreement described in paragraph (2)(A) that is transmitted to the Congress as described in the second sentence of that paragraph after July 1, 1998, the impasse resolution procedures covered by that notice shall apply to any impasse between the Commission and the other party to the agreement that is unresolved on the date on which that notice is transmitted to the Congress.”.

SEC. 3528. AVAILABILITY OF PANAMA CANAL REVOLVING FUND FOR SEVERANCE PAY FOR CERTAIN EMPLOYEES SEPARATED BY PANAMA CANAL AUTHORITY AFTER CANAL TRANSFER DATE.

(a) AVAILABILITY OF REVOLVING FUND.—Section 1302(a) (22 U.S.C. 3712(a)) is amended by adding at the end the following new paragraph:

“(10) Payment to the Panama Canal Authority, not later than the Canal Transfer Date, of such amount as is computed by the Commission to be the future amount of severance pay to be paid by the Panama Canal Authority to employees whose employment with the Authority is terminated, to the extent that

such severance pay is attributable to periods of service performed with the Commission before the Canal Transfer Date (and assuming for purposes of such computation that the Panama Canal Authority, in paying severance pay to terminated employees, will provide for crediting of periods of service with the Commission)."

(b) *STYLISTIC AMENDMENTS.*—Such section is further amended—

(1) *by striking out "for—" in the matter preceding paragraph (1) and inserting in lieu thereof "for the following purposes:";*

(2) *by capitalizing the initial letter of the first word in each of paragraphs (1) through (9);*

(3) *by striking out the semicolon at the end of each of paragraphs (1) through (7) and inserting in lieu thereof a period; and*

(4) *by striking out "; and" at the end of paragraph (8) and inserting in lieu thereof a period.*

PART II—TRANSITION MATTERS RELATING TO OPERATION AND ADMINISTRATION OF CANAL

SEC. 3541. ESTABLISHMENT OF PROCUREMENT SYSTEM AND BOARD OF CONTRACT APPEALS.

Title III of the Panama Canal Act of 1979 (22 U.S.C. 3601 et seq.) is amended by inserting after the title heading the following new chapter:

"CHAPTER 1—PROCUREMENT

"PROCUREMENT SYSTEM

"SEC. 3101. (a) PANAMA CANAL ACQUISITION REGULATION.—(1) The Commission shall establish by regulation a comprehensive procurement system. The regulation shall be known as the 'Panama Canal Acquisition Regulation' (in this section referred to as the 'Regulation') and shall provide for the procurement of goods and services by the Commission in a manner that—

"(A) applies the fundamental operating principles and procedures in the Federal Acquisition Regulation;

"(B) uses efficient commercial standards of practice; and

"(C) is suitable for adoption and uninterrupted use by the Republic of Panama after the Canal Transfer Date.

"(2) The Regulation shall contain provisions regarding the establishment of the Panama Canal Board of Contract Appeals described in section 3102.

"(b) SUPPLEMENT TO REGULATION.—The Commission shall develop a Supplement to the Regulation (in this section referred to as the 'Supplement') that identifies both the provisions of Federal law applicable to procurement of goods and services by the Commission and the provisions of Federal law waived by the Commission under subsection (c).

"(c) WAIVER AUTHORITY.—(1) Subject to paragraph (2), the Commission shall determine which provisions of Federal law should

not apply to procurement by the Commission and may waive those laws for purposes of the Regulation and Supplement.

“(2) For purposes of paragraph (1), the Commission may not waive—

“(A) section 27 of the Office of Federal Procurement Policy Act (41 U.S.C. 423);

“(B) the Contract Disputes Act of 1978 (41 U.S.C. 601 et seq.), other than section 10(a) of such Act (41 U.S.C. 609(a)); or

“(C) civil rights, environmental, or labor laws.

“(d) CONSULTATION WITH ADMINISTRATOR FOR FEDERAL PROCUREMENT POLICY.—In establishing the Regulation and developing the Supplement, the Commission shall consult with the Administrator for Federal Procurement Policy.

“(e) EFFECTIVE DATE.—The Regulation and the Supplement shall take effect on the date of publication in the Federal Register, or January 1, 1999, whichever is earlier.

“PANAMA CANAL BOARD OF CONTRACT APPEALS

“SEC. 3102. (a) ESTABLISHMENT.—(1) The Secretary of Defense, in consultation with the Commission, shall establish a board of contract appeals, to be known as the Panama Canal Board of Contract Appeals, in accordance with section 8 of the Contract Disputes Act of 1978 (41 U.S.C. 607). Except as otherwise provided by this section, the Panama Canal Board of Contract Appeals (in this section referred to as the ‘Board’) shall be subject to the Contract Disputes Act of 1978 (41 U.S.C. 601 et seq.) in the same manner as any other agency board of contract appeals established under that Act.

“(2) The Board shall consist of three members. At least one member of the Board shall be licensed to practice law in the Republic of Panama. Individuals appointed to the Board shall take an oath of office, the form of which shall be prescribed by the Secretary of Defense.

“(b) EXCLUSIVE JURISDICTION TO DECIDE APPEALS.—Notwithstanding section 10(a)(1) of the Contract Disputes Act of 1978 (41 U.S.C. 609(a)(1)) or any other provision of law, the Board shall have exclusive jurisdiction to decide an appeal from a decision of a contracting officer under section 8(d) of such Act (41 U.S.C. 607(d)).

“(c) EXCLUSIVE JURISDICTION TO DECIDE PROTESTS.—The Board shall decide protests submitted to it under this subsection by interested parties in accordance with subchapter V of title 31, United States Code. Notwithstanding section 3556 of that title, section 1491(b) of title 28, United States Code, and any other provision of law, the Board shall have exclusive jurisdiction to decide such protests. For purposes of this subsection—

“(1) except as provided in paragraph (2), each reference to the Comptroller General in sections 3551 through 3555 of title 31, United States Code, is deemed to be a reference to the Board;

“(2) the reference to the Comptroller General in section 3553(d)(3)(C)(ii) of such title is deemed to be a reference to both the Board and the Comptroller General;

“(3) the report required by paragraph (1) of section 3554(e) of such title shall be submitted to the Comptroller General as well as the committees listed in such paragraph;

“(4) the report required by paragraph (2) of such section shall be submitted to the Comptroller General as well as Congress; and

“(5) section 3556 of such title shall not apply to the Board, but nothing in this subsection shall affect the right of an interested party to file a protest with the appropriate contracting officer.

“(d) PROCEDURES.—The Board shall prescribe such procedures as may be necessary for the expeditious decision of appeals and protests under subsections (b) and (c).

“(e) COMMENCEMENT.—The Board shall begin to function as soon as it has been established and has prescribed procedures under subsection (d), but not later than January 1, 1999.

“(f) TRANSITION.—The Board shall have jurisdiction under subsection (b) and (c) over any appeals and protests filed on or after the date on which the Board begins to function. Any appeals and protests filed before such date shall remain before the forum in which they were filed.

“(g) OTHER FUNCTIONS.—The Board may perform functions similar to those described in this section for such other matters or activities of the Commission as the Commission may determine and in accordance with regulations prescribed by the Commission.”.

SEC. 3542. TRANSACTIONS WITH THE PANAMA CANAL AUTHORITY.

Section 1342 (22 U.S.C. 3752) is amended—

“(1) a contractor or other person that commits to make available a vessel or vessel capacity under the Emergency Preparedness Program or another primary sealift readiness program approved by the Secretary of Defense may, during the activation of that vessel or capacity under that program, operate or employ in foreign commerce a foreign-flag vessel or foreign-flag vessel capacity as a temporary replacement for the activated vessel or capacity; and”.

SEC. 3605. AUTHORITY TO CONVEY NATIONAL DEFENSE RESERVE FLEET VESSEL.

(a) **AUTHORITY TO CONVEY.**—The Secretary of Transportation may convey all right, title, and interest of the United States Government in and to the vessel *GOLDEN BEAR* (United States official number 239932) to the Artship Foundation, located in Oakland, California (in this section referred to as the “recipient”), for use as a multi-cultural center for the arts.

(b) **TERMS OF CONVEYANCE.**—

(1) **DELIVERY OF VESSEL.**—In carrying out subsection (a), the Secretary shall deliver the vessel—

(A) at the place where the vessel is located on the date of conveyance;

(B) in its condition on that date; and

(C) at no cost to the United States Government.

(2) *REQUIRED CONDITIONS.*—The Secretary may not convey a vessel under this section unless—

(A) the recipient agrees to hold the Government harmless for any claims arising from exposure to hazardous material, including asbestos and polychlorinated biphenyls, after conveyance of the vessel, except for claims arising before the date of the conveyance or from use of the vessel by the Government after that date; and

(B) the recipient has available, for use to restore the vessel, in the form of cash, liquid assets, or a written loan commitment, financial resources of at least \$100,000.

(3) *ADDITIONAL TERMS.*—The Secretary may require such additional terms in connection with the conveyance authorized by this section as the Secretary considers appropriate.

(c) *OTHER UNNEEDED EQUIPMENT.*—The Secretary may convey to the recipient of the vessel conveyed under this section any unneeded equipment from other vessels in the National Defense Reserve Fleet, for use to restore the vessel conveyed under this section to museum quality.

SEC. 3606. DETERMINATION OF GROSS TONNAGE FOR PURPOSES OF TANK VESSEL DOUBLE HULL REQUIREMENTS.

Section 3703a of title 46, United States Code, is amended by adding at the end the following:

“(e)(1) For the purposes of this section and except as otherwise provided in paragraphs (2) and (3) of this subsection, the gross tonnage of a vessel shall be the gross tonnage that would have been recognized by the Secretary on July 1, 1997, as the tonnage measured under section 14502 of this title, or as an alternate tonnage measured under section 14302 of this title as prescribed by the Secretary under section 14104 of this title.

“(2)(A) The Secretary may waive the application of paragraph (1) to a tank vessel if—

“(i) the owner of the tank vessel applies to the Secretary for the waiver before January 1, 1998;

“(ii) the Secretary determines that—

“(I) the owner of the tank vessel has entered into a binding agreement to alter the tank vessel in a shipyard in the United States to reduce the gross tonnage of the tank vessel by converting a portion of the cargo tanks of the tank vessel into protectively located segregated ballast tanks; and

“(II) that conversion will result in a significant reduction in the risk of a discharge of oil;

“(iii) at least 60 days before the date of the issuance of the waiver, the Secretary—

“(I) publishes notice that the Secretary has received the application and made the determinations required by clause (ii), including a description of the agreement entered into pursuant to clause (ii)(I); and

“(II) provides an opportunity for submission of comments regarding the application; and

“(iv) the alterations referred to in clause (ii)(I) are completed before the later of—

“(I) the date by which the first special survey of the tank vessel is required to be completed after the date of the enactment of the National Defense Authorization Act for Fiscal Year 1998; or

“(II) July 1, 1999.

“(B) A waiver under subparagraph (A) shall not be effective after the expiration of the 3-year period beginning on the first date on which the tank vessel would have been prohibited by subsection (c) from operating if the alterations referred to in subparagraph (A)(ii)(I) were not made.

“(3) This subsection does not apply to a tank vessel that, before July 1, 1997, had undergone, or was the subject of a contract for, alterations that reduce the gross tonnage of the tank vessel, as shown by reliable evidence acceptable to the Secretary.”.

And the Senate agree to the same.

That the Senate recede from its amendment to the title of the bill.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 1119) to authorize appropriations for fiscal year 1998 for defense activities of the Department of Defense, for military construction, and for defense programs of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate amendment struck out all of the House bill after the enacting clause and inserted a substitute text.

The House recedes from its disagreement to the amendment of the Senate with an amendment which is a substitute for the House bill and the Senate amendment. The differences between the House bill, the Senate amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

SUMMARY STATEMENT OF CONFERENCE ACTION

The conferees recommend authorizations for the Department of Defense for procurement, research and development, test and evaluation, operation and maintenance, working capital funds, military construction and family housing, weapons programs of the Department of Energy, and the civil defense that have budget authority implications of \$268.2 billion.

SUMMARY TABLE OF AUTHORIZATIONS

The defense authorization act provides authorizations for appropriations but does not generally provide budget authority. Budget authority is provided in appropriations acts.

In order to relate the conference recommendations to the Budget Resolution, matter in addition to the dollar authorizations contained in this bill must be taken into account. A number of programs in the defense function are authorized permanently or, in certain instances, authorized in other annual legislation. In addition, this authorization bill would establish personnel levels and include a number of legislative provisions affecting military compensation.

The following table summarizes authorizations included in the bill for fiscal year 1998 and, in addition, summarizes the implica-

tions of the conference action for the budget totals for national defense (budget function 050).

TOTAL MISSILE PROCUREMENT, ARMY										

Avenger

The budget request included no funds for procurement of Avenger missile systems.

The House bill would authorize an increase of \$13.3 million for Avenger slew-to-cue modifications.

The Senate amendment would authorize an increase of \$15.0 million to the budget request: \$13.0 million for Avenger slew-to-cue modifications; and \$2.0 million for Avenger table top trainers for the Army National Guard.

The conferees agree to authorize \$7.4 million for Avenger slew-to-cue modifications.

Hellfire

The budget request included \$279.7 million for procurement of Hellfire missile systems.

The House bill would support the budget request.

The Senate amendment would reduce the budget request by \$10.7 million.

The conferees agree to reduce the Hellfire missile program by \$30.7 million.

Multiple launch rocket system rocket

The budget request included \$2.9 million for procurement of Multiple Launch Rocket System (MLRS) rockets.

The House bill would authorize the budget request.

The Senate amendment would authorize an increase of \$12.0 million for procurement of extended range MLRS rockets.

The House recedes.

Multiple launch rocket system launcher

The budget request included \$102.6 million to support procurement of Multiple Launch Rocket System (MLRS) launchers.

The House bill would authorize the budget request.

The Senate amendment would authorize an increase of \$25.1 million for MLRS launchers necessary to accelerate Army plans to convert MLRS force structure to a new 2 × 9 configuration.

The conferees agree to authorize \$115.7 million for this program. This total includes \$25.1 million for additional launchers and a transfer of \$12.0 million to MLRS extended range rockets.

Brilliant anti-armor submunition

The budget request included \$85.2 million for procurement of Brilliant Anti-Armor Submunition (BAT) submunitions.

The House bill and Senate amendment would authorize the budget request.

The conferees are concerned about the Army's procurement of basic BAT munitions prior to production and fielding of the objective preplanned product improvement (P3I) BAT system. While the conferees understand that the Army plans to use the basic BAT as a bridge to the P3I system for development and fielding of the Block II Army Tactical Missile System, it is clear that the basic BAT system is solely an interim solution and cannot meet the entire range of system requirements. The conferees agree to eliminate funding for the basic BAT munition. The conferees, in support of

an alternative to procuring basic BAT munitions, agree to authorize a transfer of \$35.0 million to PE 64768A in order to accelerate development and production of the P3I BAT.

Overview

The budget request for fiscal year 1998 contained an authorization of \$1,065.7 million for Weapons and Tracked Combat Vehicles Procurement, Army in the Department of Defense. The House bill would authorize \$1,519.5 million. The Senate amendment would authorize \$1,179.1 million. The conferees recommended an authorization of \$1,297.6 million. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Bradley base sustainment

The budget request included \$125.6 million to upgrade Bradley Fighting Vehicles (BFV).

The House bill would authorize the budget request but would also authorize \$120.0 million for A0 to A2 Operation Desert Storm (ODS) upgrades for the Army National Guard (ARNG) in the BFV funding line.

The Senate amendment would authorize an increase of \$62.4 million to maintain low-rate production rates for A3 upgrades necessary prior to full scale production in 1999.

The conferees agree to authorize an increase of \$95.0 million for BFV ODS upgrades for the ARNG.

Field artillery ammunition support vehicle

The budget request included no funds for Field Artillery Ammunition Support Vehicles (FAASV).

The House bill would authorize an increase of \$81.1 million to procure 72 FAASV systems.

The Senate amendment would authorize the budget request.

The conferees agree to authorize \$40.0 million for the FAASV systems necessary to support Army National Guard artillery modernization.

M109A6 paladin howitzer

The budget request included \$18.7 million for Paladin howitzer artillery system support.

The House bill would authorize an increase of \$111.0 million to procure 72 Paladin howitzer systems.

The Senate amendment would authorize the budget request.

The Senate recedes with an amendment that would authorize an increase of \$56.0 million for no less than 36 Paladin systems.

The conferees agree to authorize \$74.7 million for the M109A6 Paladin in support of Army National Guard artillery modernization.

Improved recovery vehicle

The budget request included \$28.6 million for Improved Recovery Vehicle (IRV) program support.

The House bill would authorize an increase of \$27.8 million to procure an additional 12 vehicles.

The Senate amendment would authorize the budget request.

The conferees agree to authorize \$32.6 million for IRV system requirements.

Overview

The budget request for fiscal year 1998 contained an authorization of \$336.8 million for Ammunition Procurement, Navy and Marine Corps in the Department of Defense. The House bill would authorize \$470.4 million. The Senate amendment would authorize \$369.8 million. The conferees recommended an authorization of \$364.7 million. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

AN/WSN-7 inertial navigation system

The budget request included \$31.6 million for navigation equipment, including \$12.3 million for the procurement of nine AN/WSN-7 ring laser gyros (RLGs).

The House bill and the Senate amendment would authorize an increase of \$18.0 million for procurement and installation of 18 additional WSN-7 RLGs.

The conferees agree to authorize an increase of \$10.5 million for procurement and installation of additional WSN-7 RLGs.

Self-contained breathing apparatus

The budget request included \$14.1 million for fire fighting equipment, but did not include funding for procurement of oxygen breathing apparatuses used for shipboard firefighting.

The House bill would authorize an increase of \$23.0 million to begin outfitting the fleet with self-contained breathing apparatuses (SCBAs), a non-developmental, commercial off-the-shelf more user-friendly and efficient shipboard firefighting system to replace the antiquated oxygen-breathing apparatus (OBA).

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$5.0 million for procurement of SCBAs.

Pollution control equipment

The budget request included \$156.8 million for pollution control equipment.

The House bill would authorize a decrease of \$6.3 million because an equivalent amount of excess fiscal year 1997 funds is available to meet fiscal year 1998 program requirements.

The Senate amendment would authorize a decrease of \$8.8 million due to reduced requirements resulting from ship deactivations.

The conferees agree to authorize \$135.8 million, a decrease of \$21.0 million, for pollution control equipment.

AN/BPS-16 submarine navigation radar

The budget request included no funds for the procurement of AN/BPS-16 or AN/BPS-15H submarine navigation radar.

The House bill would authorize \$9.0 million for the AN/BPS-16 submarine navigation radar to initiate the backfit of the radar on the Trident submarine fleet.

The Senate amendment would authorize \$9.0 million for the procurement of additional AN/BPS-15H radar sets for installation into Trident class submarines and for use as training and refit facility assets.

The conferees agree to authorize \$9.0 million for AN/BPS-15H radar navigation sets.

Cooperative engagement capability

The budget request included no funds for procurement of cooperative engagement capability (CEC) equipment.

The House bill would authorize \$114.8 million to restore the Navy's CEC fielding plan by procuring and installing CEC shipsets for two aircraft carrier battle groups.

The Senate amendment would authorize \$74.8 million to procure and install CEC battle group equipment.

The conferees agree to authorize an increase of \$75.0 million for procurement and installation of CEC battle group equipment.

Information Technology-21

The budget request included no funds for Information Technology-21 (IT-21).

The Senate amendment would authorize an increase of \$157.2 million for IT-21. Of this amount \$147.9 would be for procurement and installation of IT-21 related equipment and \$9.3 million would be for related operations and maintenance funding. These funds would provide an initial impetus to the IT-21 initiative and assist the Navy to achieve its goal of a fully outfitted fleet by the year 2000.

The House bill would authorize the budget request.

The conferees agree to authorize a total IT-21 procurement increase of \$58.0 million as follows:

- (1) JMCIS Afloat \$6.0 million;
- (2) Naval Tactical Command Support System \$31.0 million;
- (3) Ship Communications Automation \$4.0 million;
- (4) SATCOM Ship Terminals (Space) \$2.0 million;
- (5) Naval Shore Communications \$12.0 million; and
- (6) Information Systems Security Program \$3.0 million

Sonobuoy procurement

The budget request included \$54.8 million for the procurement of AN/SSQ-36, AN/SSQ-53E, and AN/SSQ-62E sonobuoys and Signal, Underwater Sound (SUS) Systems. The budget request included no funds for the AN/SSQ-57 or the AN/SSQ-110 sonobuoys.

The House bill would authorize an increase of \$45.8 million to be distributed as follows: \$1.5 million for AN/SSQ-36; \$23.7 million for AN/SSQ-53; \$4.5 million for AN/SSQ-57 retrofits; \$8.6 million for SSQ-62; \$5.0 million for AN/SSQ-110 shallow-water upgrades; and \$2.5 million for Signal, Underwater Sound (SUS).

The Senate amendment would authorize increases of \$19.0 million for AN/SSQ-53E and \$7.0 million for AN/SSQ-62E sonobuoys.

The conferees agree to authorize the following increases to the budget request: \$0.3 million for AN/SSQ-36; \$19.0 million for AN/SSQ-53; \$7.0 million for SSQ-62; and \$0.5 million for AN/SSQ-57.

Mobile remote emitter simulator

The budget request included \$4.9 million for weapons range support, but did not include any funding to procure Mobile Remote Emitter Simulator (MRES) system.

The House bill would authorize an increase of \$9.5 million to procure two MRES systems for the Atlantic test range component of the Naval Air Warfare Center.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$6.0 million for MRES.

NATO sea sparrow missile system low light level television

The budget request included no funds for the NATO Sea Sparrow missile system low light level television (LLTV) charged coupled device (CCD) ordnance alternation (ORDALT).

The House bill would authorize the budget request.

The Senate amendment would authorize an increase of \$8.0 million above the budget request for the procurement of additional CCD ORDALT kits.

The conferees agree to an increase of \$6.0 million for the procurement of additional CCD ORDALT kits.

AEGIS support equipment

The budget request included \$26.8 million for AEGIS support equipment.

The House bill would authorize an increase of \$8.0 million to backfit the computer-aided submode training lesson authorizing system (CLASS) on AEGIS cruisers and destroyers and to expand CLASS to other systems such as cooperative engagement capability, joint maritime command information system, and global command and control system.

The Senate amendment would authorize the budget request.

The conferees agree to authorize a \$21.1 million for AEGIS support equipment.

Overview

The budget request for fiscal year 1998 contained an authorization of \$374.3 million for Marine Corps Procurement, Navy in the Department of Defense. The House bill would authorize \$442.8 million. The Senate amendment would authorize \$554.8 million. The conferees recommended an authorization of \$460.1 million. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Light tactical wheeled vehicle replacement

The budget request included \$0.7 million to support the Marine Corps High Mobility Multipurpose Wheeled Vehicle (HMMWV) program.

The House bill would authorize the budget request.

The Senate amendment would authorize an increase of \$55.0 million to accelerate a planned replacement program for a deteriorating HMMWV fleet.

The conferees agree to authorize an increase of \$30.0 million.

Chemical/biological incident response force equipment

The budget request included \$1.1 million for field medical equipment and no funding for chemical/biological incident response force (CBIRF) equipment.

The House bill would authorize the budget request.

The Senate amendment would authorize an increase of \$15.0 million for procurement of CBIRF equipment.

The conferees agree to authorize an increase of \$10.0 million for CBIRF requirements for a total of \$11.1 million for Marine Corps field medical equipment procurement.

MK-19 grenade launcher

The budget request included no funds for the MK-19 grenade launcher.

The House bill would authorize the budget request.

The Senate amendment would authorize an increase of \$13.0 million to maintain production of the MK-19 grenade launchers.

The conferees agree to authorize a total of \$8.0 million for the MK-19 grenade launcher.

Overview

The budget request for fiscal year 1998 contained an authorization of \$890.9 million for Ammunition Procurement, Army in the Department of Defense. The House bill would authorize \$1,093.8 million. The Senate amendment would authorize \$1,043.2 million. The conferees recommended an authorization of \$1,011.2 million. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Semitrailers

The budget request included funds for a variety of semitrailer requirements.

The conferees note program delays for several semitrailer procurements. In consideration of these delays, the conferees agree to funding reductions of \$7.4 million for 22.5 ton semitrailer/container transporters; \$4.6 million for 5,000 gallon tank semitrailers; and \$7.4 million for 7,500 gallon bulkhaul semitrailers. In addition, the conferees agree to authorize \$2.0 million for 22.5 ton semitrailer/container transporters; \$3.0 million for 5,000 gallon tank semitrailers; and \$3.0 million for 7,500 gallon bulkhaul semitrailers.

High mobility multi-purpose wheeled vehicle

The budget request included \$66.2 million for High Mobility Multi-Purpose Wheeled Vehicle (HMMWV) production.

The House bill would authorize an increase of \$38.7 million for 360 up-armored HMMWVs.

The Senate amendment would authorize an increase of \$75.0 million to maintain minimum production levels of HMMWVs.

The conferees agree to authorize an increase of \$65.0 million for HMMWV production.

Family of heavy tactical vehicles

The budget request included \$9.1 million for Family of Heavy Tactical Vehicles (FHTV) production support.

The House bill would authorize an increase of \$45.0 million to procure 96 Heavy Equipment Transporters (HETS) for the Army National Guard.

The Senate amendment would authorize an increase of \$128.0 million to maintain minimum production levels of FHTVs. This funding would include \$50.0 million for the Palletized Load System (PLS); \$45.0 million for HETS; and \$33.0 million for Heavy Expanded Mobility Tactical Truck (HEMTT) wreckers.

The conferees agree to authorize an increase of \$105.0 million for FHTV. Of this amount, \$45.0 million is for HETS and the remaining \$60.0 million is for HEMTT wreckers and PLS.

Truck, tractor, line haul, M915/M916

The budget request included \$36.1 million to procure M915/916 line haul tractors.

The House bill would reduce the request by \$18.0 million to achieve a more moderate rate of production.

The Senate amendment would authorize the budget request.

The conferees understand that there has been a delay in the 7,500 gallon bulkhaul semitrailer program, which is the type of trailer towed by the M915/916 line haul tractor series. Accordingly the conferees believe that revised Army requirements can be met at lower average procurement rates than previously planned and therefore agree to eliminate funding for these tractors in fiscal year 1998. Further, the Secretary of the Army is directed to review requirements for this equipment and restructure the program to achieve an annual procurement rate consistent with revised requirements beginning in fiscal year 1999.

Defense satellite communications system

The budget request included \$87.6 million for defense satellite communications system requirements.

The House bill and Senate amendment would authorize the budget request.

The conferees note the budget request included funding for acceleration of the production of a universal modem system. The conferees understand that required testing for this system will not be complete until late 1999. Therefore, the conferees agree to reduce program funding by \$2.0 million.

Satellite terminals

The budget request included \$7.3 million for satellite communication terminals.

The House bill and Senate amendment would authorize the budget request.

The conferees note the savings achieved from a joint Army/Air Force procurement in 1997. The conferees believe that these savings should be used to offset funding requirements for fiscal year 1998. Therefore, the conferees agree to reduce program funding by \$1.2 million.

NAVSTAR global positioning system

The budget request included \$6.8 million for NAVSTAR Global Positioning System (GPS) equipment.

The House bill and Senate amendment would authorize the budget request.

The conferees have been informed that both price and quantities budgeted for NAVSTAR GPS equipment were reduced in 1997. Additionally, the conferees understand that program management reductions have also yielded savings. The conferees believe these savings should be used to offset funding requirements for fiscal year 1998. Therefore, the conferees agree to reduce funding for this program by \$1.2 million.

Army data distribution system

The budget request included \$57.2 million to procure data distribution systems, including \$7.0 million for joint tactical information distribution system (JTIDS) terminals.

The House bill would authorize an increase of \$37.4 million to procure an additional 1,092 enhanced position location reporting system (EPLRS) radios.

The Senate amendment would authorize an increase of \$37.3 million for 1,092 EPLRS radios.

The conferees agree to authorize an increase of \$30.4 million for EPLRS radios and transfer \$20.1 million for JTIDS terminals to ballistic missile defense procurement.

The conferees agree to authorize \$67.5 million for critical data distribution systems.

Area common user system modernization program

The budget request included \$82.4 million for Area Common User System (ACUS) modernization.

The House bill would authorize an increase of \$10.0 million to procure tactical communications technologies for evaluation by Force XXI experimental forces.

The Senate amendment would authorize an increase of \$33.0 million to support ongoing modifications to the ACUS and support migration to the Army's Warfighter Information Network.

The conferees agree to authorize an increase of \$23.0 million for ACUS.

Information system security program

The budget request included \$10.2 million to procure information system security devices.

The House bill would support the budget request.

The Senate amendment would authorize an increase of \$5.5 million to support minimum production requirements for 400 Airterm KY-100 devices.

The conferees agree to authorize an increase of \$3.5 million for Airterm KY-100 devices.

Ground based common sensors

The budget request included \$26.8 million for ground based common sensors.

The House bill and Senate amendment would authorize the budget request.

The conferees agree to eliminate funding in fiscal year 1998 based on the Army decision to reschedule the initial operational test and evaluation for this program.

Shortstop

The budget request included no funds for the Shortstop electronic protection system (SEPS).

The House bill would authorize an increase of \$9.0 million to procure 42 additional SEPS needed in Korea.

The Senate amendment would authorize the budget request.

The conferees agree to authorize \$6.0 million for SEPS devices needed by U.S. forces in Korea.

Night vision

The budget request included \$85.3 million for night vision systems.

The House bill would authorize an increase of \$30.8 million that would be used to procure additional systems: \$17.0 million for AN/PVS-7 night vision goggle systems; \$5.4 million for ANVIS 25mm image intensifiers; and \$8.4 million for night vision driver viewers for the M113A3.

The Senate amendment would authorize an increase of \$36.0 million that would be used to procure additional night vision systems: \$8.0 million for AN/PEQ-2 aiming light systems; \$17.0 million for AN/PVS-7 night vision goggle systems; \$10.0 million for AN/PAS-13 thermal weapon sight systems; and \$1.0 million for 2,900 borelights.

The conferees agree to authorize an increase of \$26.4 million for night vision equipment: \$11.0 million for AN/PVS-7 systems; \$5.5 million for AN/PEQ-2 aiming light systems; \$6.9 million for

AN/PAS-13 thermal weapon sights; \$2.0 million for light weight video systems; and \$1.0 million for borelights.

LOGTECH

The budget request included \$3.4 million for LOGTECH systems.

The House bill would authorize an increase of \$11.7 million to procure additional radio frequency (RF) tagging systems.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$10.0 million for additional RF tagging equipment.

Maneuver control system

The budget request included \$15.7 million for the maneuver control system (MCS).

The House bill and Senate amendment would authorize the budget request.

The conferees note a history of significant problems with the Army's efforts to develop the software requirements for this program and corresponding delays in scheduled operational testing. The conferees also note that this system failed two of four development testing activities. Until MCS meets all the established system requirements and the Army validates corrective actions through requisite testing, the conferees agree to eliminate further funding for this program.

Automated data processing equipment

The budget request included \$125.1 million for Automated Data Processing Equipment (ADPE).

The House bill would authorize an increase of \$13.0 million to procure additional Sustaining Base Information Services (SBIS) hardware.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$7.0 million of SBIS hardware.

Railway car, flat, 100 ton

The budget request included \$17.8 million for procurement of 100 ton railway cars.

The House bill and Senate amendment would authorize the budget request.

The conferees agree to eliminate fiscal year 1998 funding for procurement of railway cars. The conferees note that the Army was able to take advantage of an unanticipated opportunity to procure 86% of its rail car requirement in calendar year 1997.

Training devices, nonsystem

The budget request included \$49.7 million for nonsystem training devices.

The House bill would authorize an additional \$4.0 million for four fire training systems.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$4.0 million for four fire fighter training systems.

Close combat tactical trainers

The budget request included \$92.9 million for simulation network close combat tactical trainers (CCTT).

The House bill would authorize a decrease of \$11.5 million due to the delay in initial operation test and evaluation for the close combat tactical training systems.

The Senate amendment would authorize a decrease of \$10.0 million for procurement of training system components and would authorize a transfer of an additional \$11.5 million to PE 64780A to resolve software problems.

The conferees agree to authorize a decrease of \$38.4 million in procurement funding for the program. Included in this reduction is the transfer of \$10.5 million to PE 64780A.

Overview

The budget request for fiscal year 1998 contained an authorization of \$6,086.0 million for Aircraft Procurement, Navy in the Department of Defense. The House bill would authorize \$6,173.0 million. The Senate amendment would authorize \$6,482.3 million. The conferees recommended an authorization of \$6,437.3 million. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

AV-8H Harrier remanufacture

The budget request included \$300.1 million to procure 11 AV-8B remanufactured aircraft for the Marine Corps. The fiscal year 1997 plan for AV-8B remanufacture in fiscal year 1998 called for a procurement of 12 aircraft in fiscal year 1998. However, the budget request for fiscal year 1998 included 11 aircraft, a further indication of the Department of Defense's inability to execute its own previously stated procurement program.

The House bill would authorize an increase of \$33.0 million for an additional aircraft.

The Senate amendment would authorize an increase of \$89.6 million, including \$24.6 million for an additional aircraft remanufacture and \$65.0 million for training simulators.

The conferees agree to authorize an increase of \$6.2 million for an additional AV-8B remanufacture. The conferees understand that an additional remanufacture can be funded with this increase through program savings.

T-45TS Goshawk

The budget request included \$269.8 million for 12 T-45 trainer aircraft and \$6.2 million for advance procurement of 12 T-45C aircraft in fiscal year 1999.

The House bill would authorize an increase of \$100.0 million for the procurement of six additional aircraft.

The Senate amendment would authorize an increase of \$102.0 million for the same purpose.

The conferees note with concern the recent grounding of the T-2 trainers because of flight control malfunctions. The T-2s are being replaced by the T-45. Accordingly, the conferees agree to authorize \$315.2 million, an increase of \$45.4 million to accelerate fielding of the T-45 by increasing the fiscal year 1998 acquisition from 12 to 15 aircraft.

EA-6 Series

The budget request included \$86.8 million for EA-6B modifications.

The House bill would authorize an increase of \$68.0 million, including \$50.0 million for 10 wing center sections (WCS) and \$18.0 million to continue the turbine engine blade containment system (TEBS).

The Senate amendment would authorize an increase of \$25.0 million to incorporate a low risk, affordable upgrade to the EA-6B in conjunction with modifications already underway to counter the new family of threats.

The conferees agree to authorize an increase of \$25.0 million to replace the WCS of 5 additional EA-6Bs. The increase of \$25.0 million for WCS is partially offset by a \$10.0 million reduction for late obligations, resulting in a net increase of \$15.0 million for EA-6B modifications. The conferees urge the Secretary of the Navy to provide funds to complete the WCS modifications in the fiscal year 1999 budget request.

P-3C anti-surface warfare improvement program

The budget request included \$164.9 million for P-3 series modifications, \$74.7 million of which is for the procurement of four anti-surface warfare improvements program (AIP) kits, and \$41.3 million of which is for 11 sustained readiness program (SRP) kits.

The House bill would authorize an increase of \$56.6 million for an additional eight AIP kits and an increase of \$35.1 million to procure 17 additional shipsets of SRP kits. In addition, the House would authorize an increase of \$11.0 million for light weight environmentally sealed parachute assemblies (LESPA) and an increase of \$1.4 million for oil debris detection systems (ODDS).

The Senate amendment would authorize an increase of \$17.3 million for the procurement of two P-3C AIP kits and direct the Secretary of the Navy to formally evaluate the advisability of renegotiating the P-3C AIP contract to eliminate the cost penalties that are being incurred as a consequence of current Navy budgeting practices.

The conferees agree to authorize the following increases to the budget request: \$25.0 million for sustained readiness program (SRP) kits, \$17.3 million for anti-surface warfare improvement program (AIP) kits, and \$8.0 million for light weight environmentally sealed parachute assemblies.

Power plant changes

The budget request included \$14.0 million for power plant changes.

The House bill would authorize an increase of \$1.6 million to incorporate the oil debris detection system (ODDS) on the P-3, E-2 and C-2 fleets, with \$1.4 million for the P-3 and \$100,000 for the E-2 and C-2 fleets. The House bill would apportion the increase each for ODDS in individual aircraft modification accounts. The ODDS is an on-board detection system that alerts air crews to the presence of metal chips in engines and propeller gear boxes, allowing flights to be terminated prior to catastrophic failure of critical components.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$1.6 million in the power plant changes budget line item for the incorporation of ODDS in P-3, E-2, and C-2 fleets.

Common Avionics Changes

The budget request included \$131.6 million for common avionics changes, but did not contain any funding to procure AN/AWW-13 guided weapon control monitor sets. The AN/AWW-13 provides the data link capability for F/A-18 series aircraft to employ the precision-guided Walleye and the Stand-off Land Attack Missiles.

The Senate amendment would authorize the budget request.

The House bill would authorize an additional \$9.0 million to continue AN/AWW-13 production. The House bill would also provide an additional \$4.0 million in PE 64215N for integration of the ground proximity warning system (GPWS) into the Navy/Marine Corps helicopters fleets.

The conferees agree to authorize \$130.4 million, which includes an additional \$6.0 million to continue AN/AWW-13 production and \$4.0 million for GPWS integration. These increases are offset by a \$10.0 million reduction for late obligations and a \$1.2 million reduction for systems engineering growth in other programs funded in this budget line.

Overview

The budget request for fiscal year 1998 contained an authorization of \$1,136.3 million for Weapons Procurement, Navy in the Department of Defense. The House bill would authorize \$1,214.7 million. The Senate amendment would authorize \$1,200.4 million. The conferees recommended an authorization of \$1,089.4 million. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Tactical Tomahawk

The Department of the Navy and the Department of Defense advised the conferees of a proposal by the current prime Tomahawk contractor to upgrade the capability and reduce the production unit cost of the Tomahawk cruise missile. The upgraded missile, a variant of the current Tomahawk (known as "Tactical Tomahawk" or the "Tomahawk Block IV+"), would include several enhancements to improve the tactical responsiveness of the missile. The Navy and the contractor would attempt to reduce Tomahawk missile unit cost by exploiting commercial manufacturing practices for the missile. Overall, the Navy is projecting that the Department could achieve life cycle cost savings for the Tactical Tomahawk of approximately \$400.0 million, compared to similar costs for the currently planned Tomahawk Block IV missile system. The conferees also understand that the initial operational capability (IOC), fiscal year 2002, for the improved Tomahawk would be approximately two years later than the IOC for Tomahawk Block IV, fiscal year 2000.

Under the Navy's proposal, the Department would use approximately \$25.0 million in additional fiscal year 1998 research and development and other procurement funding to begin the effort. The conferees understand that the Department wants to implement such a program as early as possible in fiscal year 1998. In fact, the Navy had asked the conferees for the authority to divert these funds from the Weapons Procurement, Navy account by terminating the last year of the multi-year contract for procurement of the Tomahawk Block III missile.

In general, the conferees support the concept of a program to upgrade the capabilities of the Tomahawk missile and to reduce the missile's unit cost. However, there are acquisition strategy and funding issues that must be addressed before the conferees would agree to such a proposal. Such questions include whether: (1) this program should be a sole source award to the current prime contractor; (2) the Navy and whichever prime contractor may be selected for such a program should evaluate subsystem alternatives such as engines on a "least cost" or "best value" basis; and (3) buying the last increment of missiles on the current contract is less important than beginning a new program earlier.

If the Secretary of Defense decides that starting the program in fiscal year 1998 is critical, the Secretary of Defense may submit a reprogramming request to transfer fiscal year 1998 funds that would be necessary to implement an alternative approach for the Tomahawk program. The conferees expect that such a request would include more detailed supporting rationale upon which the recommendation is based and would address the acquisition strategy and funding issues involved.

Joint Standoff Weapon

The budget request included \$58.7 million for 113 Joint Standoff Weapon (JSOW) missiles for the Navy. No funds were requested to procure JSOW missiles for the Air Force until fiscal year 1999.

The House bill would authorize an increase of \$10.0 million for the Navy to procure 37 additional missiles and an increase of \$29.0 million for the Air Force to initiate procurement of 100 missiles.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$5.0 million for the Navy to procure a total of up to 150 JSOW, and an increase of \$19.0 million for the Air Force to initiate acquisition of up to 100 JSOW.

Penguin missile program

The budget request included no funds for procurement of Penguin missiles.

The House bill would approve the request.

The Senate amendment would authorize an increase of \$15.0 million for procurement of additional missiles to satisfy outstanding inventory objectives and sustain procurement of the Penguin missile during fiscal year 1998 to reduce costs by achieving labor learning and production stability.

The conferees agree to authorize an increase of \$7.5 million for procurement of Penguin missiles.

Hellfire II missiles

The budget request included no funds for Hellfire missiles for the Navy or Marine Corps.

The House bill would authorize \$37.5 million for 700 Hellfire II missiles to address a shortfall in Navy and Marine Corps inventory requirements.

The Senate amendment would authorize the budget request.

The conferees agree to authorize \$20.0 million for procurement of Hellfire II missiles for the Navy and Marine Corps.

Close-in weapon system surface mode upgrade

The budget request included \$10.0 million for procurement of close-in weapon system (CIWS), but did not include any funding to procure surface mode upgrade kits for this system.

The House bill would authorize an increase of \$20.0 million to procure CIWS upgrade kits for both surface combatants and other ships equipped with this system.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$15.0 million for procurement of CIWS surface-mode upgrade kits.

Pioneer logistic support

The budget request included \$4.0 million for support of Pioneer unmanned aerial vehicle (UAV).

The Senate amendment would authorize an increase of \$3.0 million to continue common automatic recovery system (CARS) logistic support in the Procurement, Defense-Wide account.

The House bill would authorize the budget request.

The conferees agree to authorize an increase of \$3.0 million for logistic support in the Weapons Procurement, Navy Pioneer budget line item.

Overview

The budget request for fiscal year 1998 contained an authorization of \$5,817.8 million for Aircraft Procurement, Air Force in the Department of Defense. The House bill would authorize \$6,770.9

million. The Senate amendment would authorize \$6,048.9 million. The conferees recommended an authorization of \$6,425.7 million. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

F-15E

The budget request included \$159.0 million to continue the procurement of F-15E strike aircraft.

The House bill would authorize the budget request.

The Senate amendment would authorize an increase of \$100.8 million for procurement of an additional three F-15E aircraft.

The conferees agree to authorize an increase of \$67.3 million to procure an additional two F-15E aircraft.

C-130J

The budget request included \$49.9 million for the procurement of one C-130J aircraft.

The House bill would authorize an increase of \$522.6 million for an additional nine aircraft.

The Senate amendment would authorize an increase of \$371.1 million for five additional aircraft and associated logistic support.

The conferees agree to authorize a total of \$527.5 million for eight additional C-130J aircraft and support as shown below:

Predator Unmanned Aerial Vehicle

The budget request included \$116.5 million for 15 Predator unmanned aerial vehicles (UAV).

The House bill would authorize an increase of \$30.0 million for the procurement of attrition UAV and spares.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$25.0 million.

F-15 modifications

The budget request included \$169.6 million for F-15 modifications.

The House bill would authorize the budget request.

The Senate amendment would authorize an increase of \$95.4 million, including \$72.6 million to restore a reduction in F-15 modifications made by the Air Force in its budget request, and \$22.8 million to accelerate by one year the incorporation of the PW-220E engine program.

The conferees agree to authorize \$181.4 million: an increase of \$11.8 million, for F-15 modifications; a decrease of \$5.0 million for terminated upgrades; an increase of \$12.8 million for the PW-220E

engine program; and an increase of \$4.0 million for data link acceleration.

F-16 modifications

The budget request included \$216.2 million for F-16 modifications.

The House bill would authorize an increase of \$20.0 million for a digital terrain system (DTS).

The Senate amendment would authorize an increase of \$8.6 million to procure non-developmental item (NDI) systems that incorporate in one pod the targeting and navigation functions of the low-altitude navigation and targeting infrared for night (LANTIRN) pods.

The conferees agree to authorize \$209.2 million for F-16 modifications, a decrease of \$7.0 million from the budget request. The \$7.0 million reduction is the result of a reduction of \$13.0 million for global positioning system (GPS), a reduction of \$6.0 million for late obligations, offset by an increase of \$12.0 million for DTS.

Passenger safety and global air traffic management

Although the budget request included funds to modify some Air Force aircraft to comply with global air traffic management (GATM) requirements, there was no specific request for either GATM or passenger safety modifications for Air Force aircraft.

The House bill would authorize an increase of \$67.7 million for GATM, but no increase for passenger safety modifications.

The Senate amendment would authorize the budget request. The Senate report (S. Rept. 105-29) included specific direction to the Secretary of Defense to encourage the use of commercial off-the-shelf (COTS) technology and non-developmental item (NDI) solutions to GATM requirements.

The conferees agree to authorize an increase of \$17.5 million for the modification of Air Force aircraft to comply with GATM requirements, and \$32.5 million for passenger safety modifications, to include initiation of navigation safety phase II modifications, the traffic collision avoidance system (TCAS), and the ground proximity warning system (GPWS), as directed by the Secretary of Defense. The conferees expect the Air Force to include in the fiscal year 1999 budget request and the Future Years Defense Program (FYDP) sufficient funding to complete these required upgrades.

Defense Airborne Reconnaissance Program

Procurement for the Defense Airborne Reconnaissance Program (DARP) is contained in a number of procurement lines, distributed among the individual services and the defense-wide procurement account. The budget request included:

- (1) \$67.1 million in Aircraft Procurement, Air Force (APAF) line 60;
- (2) \$141.5 million in APAF, line 73;
- (3) \$12.8 million in Other Procurement, Air Force (OPAF), line 111; and
- (4) \$97.5 million in Procurement, Defense-wide (PDW), line 7.

The conferees agree to authorize increases in DARP procurement as shown below:

Theater airborne warning system

The budget request included no funds for the Theater Airborne Warning System (TAWs) program, which is designed to equip the existing fleet of Rivet Joint aircraft with a medium-wave infrared sensor for ballistic missile detection.

The House bill and Senate amendment would authorize an increase of \$20.0 million for the TAWs program.

The conferees agree to authorize an increase of \$5.6 million for the demonstration phase of the TAWs program. If this phase of the program proves to be successful, the conferees would be supportive of moving into the procurement phase in order to equip the Rivet Joint fleet with this capability.

Overview

The budget request for fiscal year 1998 contained an authorization of \$404.0 million for Ammunition Procurement, Air Force in the Department of Defense. The House bill would authorize \$437.0 million. The Senate amendment would authorize \$420.8 million. The conferees recommended an authorization of \$398.5 million. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

TOTAL MISSILE PROCUREMENT, AIR FORCE												

AGM-130 powered GBU-15

The budget request included \$1.5 million for AGM-130 management, administration, and contractor support.

The House bill would authorize an increase of \$41.0 million for the procurement of 100 AGM-130 missiles.

The Senate amendment would authorize the budget request.

The conferees agree to authorize \$25.0 million, an increase of \$23.5 million for AGM-130.

AGM-65 Maverick

The budget request included no funds for AGM-65 modifications.

The House bill would authorize \$11.0 million for AGM-65 modifications.

The Senate amendment would authorize the budget request.

The conferees understand that early-generation models of the AGM-65 require upgrading to further extend their longevity. The conferees are aware that the gap between the completion of testing and the beginning of production could significantly increase the cost of the upgrade, as well as unacceptably delay its fielding. Therefore, the conferees agree to authorize an increase of \$8.0 million to eliminate any gap with low-rate production and to ensure a smooth transition to full-rate production, which the conferees assume will occur in fiscal year 1999.

Overview

The budget request for fiscal year 1998 contained an authorization of \$6,561.3 million for Other Procurement, Air Force in the Department of Defense. The House bill would authorize \$6,574.1 million. The Senate amendment would authorize \$6,798.5 million. The conferees recommended an authorization of \$6,543.6 million. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Theater deployable communications

The budget request included \$17.0 million for the procurement of tactical communications and electronics equipment.

The House bill would authorize an increase of \$25.0 million for theater deployable communications equipment as part of its National Guard and Reserve Equipment package.

The Senate amendment would authorize an increase of \$38.0 million for theater deployable communications equipment.

The conferees agree to authorize an increase of \$18.0 million for procurement of theater deployable communications equipment.

Overview

The budget request for fiscal year 1998 contained an authorization of \$1,695.1 million for Defense-wide Procurement in the Department of Defense. The House bill would authorize \$1,837.0 million. The Senate amendment would authorize \$1,749.3 million. The conferees recommended an authorization of \$2,057.2 million. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Automated document conversion system

The budget request included no funds for the automated document conversion system (ADCS).

The House bill would authorize \$30.0 million for ADCS.

The Senate amendment would authorize the budget request.

The conferees agree to authorize \$20.0 million for ADCS.

Advanced SEAL delivery system

The budget request included \$43.2 million for the special operations Advanced SEAL Delivery System program.

The House bill and Senate amendment would authorize the budget request.

The conferees agree to a total authorization of \$8.9 million and the transfer of \$34.3 million to PE 116404BB, as discussed in Title II of this conference agreement.

Night firing scopes

The budget request included \$10.3 million for special operations small arms procurement.

The House bill would authorize the budget request.

The Senate amendment would authorize an increase of \$2.4 million for night vision scopes for the M4 carbine.

The conferees agree to authorize an increase of \$1.0 million for night vision scopes.

Overview

The budget request for fiscal year 1998 contained no authorization for National Guard and Reserve Procurement in the Department of Defense. The House bill would authorize \$700.4 million. The Senate amendment would authorize \$653.0 million. The conferees recommended an authorization of \$643.0 million. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Overview

The conferees recognize the increasingly critical role that reserve component forces play in worldwide deployments and are concerned about current and prior year levels of funding for reserve component modernization. It is essential that both active and reserve component leadership work together to identify total force modernization requirements and ensure that these requirements are funded. The conferees strongly encourage the Department of Defense to work closely with each of the military departments to ensure the modernization of the reserve components.

The budget request included \$968.5 million, as shown in the table below, for National Guard and Reserve equipment.

National Guard and Reserve Equipment and Aircraft

	<i>Millions</i>
Procurement of WTCV, Army	\$22.1
Procurement of Ammunition, Army	143.8
Other Procurement, Army	382.9
Aircraft Procurement, Navy	35.1
Procurement of Ammunition (Navy & Marine Corps)	6.0
Other Procurement, Navy	3.9

National Guard and Reserve Equipment and Aircraft—Continued

	<i>Millions</i>
Procurement, Marine Corps	17.9
Aircraft Procurement, Air Force	238.2
Procurement of Ammunition, Air Force	29.5
Other Procurement, Air Force	89.2
Department of Defense total	968.5

The conferees agree to authorize funding increases for reserve component programs as follows:

	<i>Millions</i>
UH-60 Blackhawk	\$89.0
M109A6 Paladin	56.0
Field Artillery Ammunition Support Vehicles	40.0
Heavy Equipment Transporter vehicles	45.0
Bradley Fighting Vehicle upgrades	95.0
Theater Deployable Communications	18.0
Airborne Mine Counter-Measure equipment	7.5
KC-135 re-engining	52.0
F-16 Improved Avionics Intermediate Shop	16.0
C-130 aircraft	433.4
Total increase	851.9

Additionally, the conferees agree to authorize an increase of \$365.0 million to the budget request for National Guard and Reserve miscellaneous equipment:

	<i>Millions</i>
Army Reserve	
Miscellaneous	\$75.0
Navy Reserve	
Miscellaneous	80.0
Marine Corps Reserve	
Miscellaneous	65.0
Air Force Reserve	
Miscellaneous	50.0
Army National Guard	
Miscellaneous	70.0
Air National Guard	
Miscellaneous	25.0
Total Miscellaneous equipment	365.0

The conferees direct that the miscellaneous funding be allocated exclusively by reserve component chiefs and that reserve component chiefs give priority consideration to the following items: medium truck extended service programs; carrier modifications; CH-47 helicopters; multiple launch rocket systems; Avenger air defense systems (including table top trainers); training simulator devices; night vision equipment; mobile backscatter truck inspection system; heavy expanded mobility tactical truck (HEMTT) wrecker; HEMTT fuel tanker conversion kit; all terrain crane (20 ton); Atlas 10K variable reach forklift; barge derrick; reverse osmosis water purification unit, 3 thousand gallons per hour; 5KW generator set; MK-19 grenade machine gun; F/A-18 modifications; C-9 replacement aircraft; SH-60B Seahawk helicopter; mobile inshore underwater van upgrades; logistics vehicle system (LVS); MK 48 front power unit; LVS rear body units; F/A-18+ modifications; CH-53E helicopters; F-16 situational awareness data link; F-16 laser designator/targeting pods; A-10 situational awareness data link; A-10 electronic warfare management system; F-16 upgraded data trans-

fer unit; HH-60 helicopter self protection system; F-16 electronic warfare management system; ALQ-131 multiplexer bus interface; C-130 integrated electronic warfare suite; enhanced flightline security systems; combat arms training equipment; C-5 simulator; vibration management enhancement program; 5 ton truck; maneuver control system; CH-47D full authority digital engine control; small arms engagement skills trainers; CH-47D fuel cells; M917 dump trucks; B-1 enhancements; F-16/A-10 digital transfer cartridge; and F-16 C/D onboard oxygen generating system.

Funding allocated by reserve component chiefs for miscellaneous equipment must meet the following criteria:

(1) there is a requirement for the equipment that has been validated by the Joint Requirements Oversight Council;

(2) that such equipment is included for reserve component modernization in the future-years defense program;

(3) that such equipment is consistent with the use of reserve component forces called for in Department warplans; and

(4) the funds can be obligated during the fiscal year for which funds have been authorized and appropriated.

Overall, the conferees agree to authorize a total of \$2.2 billion for National Guard and Reserve equipment and aircraft.

Overview

The budget request for fiscal year 1998 contained an authorization of \$620.7 million for Chemical Agent and Munitions Destruction, Army in the Department of Defense. The House bill would authorize \$610.7 million. The Senate amendment would authorize \$614.7 million. The conferees recommended an authorization of \$600.7 million. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

LEGISLATIVE PROVISIONS ADOPTED

Subtitle A—Authorization of Appropriations

Chemical agents and munitions destruction program (sec. 107)

The budget request included \$620.7 million for the defense chemical agents and munitions destruction program, to include: \$472.2 million for operation and maintenance; \$82.2 million for procurement; and \$66.3 million for research and development. Additionally, the budget request included \$131.6 million for military construction.

The House bill contained a provision (sec. 107) that would authorize \$610.7 million for the chemical agents and munitions destruction program.

The Senate amendment contained a provision (sec. 107) that would authorize \$614.7 million for the chemical agents and munitions destruction program, including an increase of \$4.0 million for research and development to expedite and accelerate the development and fielding of critical advanced sensors that are part of the Army's mobile munitions assessment system.

The Senate recedes with an amendment.

The conferees agree to a provision (sec. 107) that would authorize \$600.7 million for the defense chemical agents and munitions destruction program, to include: \$72.2 million for procurement; \$462.2 million for operation and maintenance; and \$66.3 million for research and development. Of the amount authorized for research and development, \$4.0 million shall be available to expedite and accelerate the development and fielding of critical advanced sensors that are part of the Army's mobile munitions assessment system.

Conduct of the chemical agents and munitions destruction program

Section 152 of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104-106), directed the Secretary of Defense to conduct an assessment of the chemical stockpile disposal program and to consider measures that could be taken to reduce program costs, while continuing to ensure the maximum protection of the public, the workers, and the environment. Section 152 also required the Secretary to report the results of the assessment to the Congress with the submission of the fiscal year 1998 defense budget request. Consideration of the use of alternative demilitarization technologies (other than incineration) was to be specifically addressed.

The conferees support the Department of Defense (DOD) position and the National Research Council recommendation that the Army proceed with the current baseline incineration program until the evaluation of alternative chemical munitions destruction technologies is concluded. The conferees note the progress made in chemical demilitarization operations at Johnston Atoll and Tooele, Utah, the approval of environmental permits, and the award of the chemical demilitarization facility construction contract at Umatilla, Oregon, and the status of the environmental permitting process for the chemical demilitarization sites at Anniston, Alabama, and Pine Bluff Arsenal, Arkansas.

The conferees support the Department's decision to continue efforts to develop chemical neutralization technologies for destruction of the chemical agents at the bulk-only chemical storage sites. The conferees urge the appropriate and expeditious pursuit of any necessary National Environmental Policy Act (NEPA) analysis of the research and development efforts to support pilot testing of these alternative technologies for use at Aberdeen Proving Ground, Maryland, and Newport Chemical Depot, Indiana.

The conferees also agree with plans by the Department to assess the feasibility of alternative technologies for destruction of lethal chemical agents associated with assembled chemical munitions and would support the demonstration of those alternatives deemed feasible for potential use at the chemical demilitarization sites at Pueblo, Colorado, and Lexington-Blue Grass Army Depot, Kentucky. As required by Section 142 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201), the conferees expect the Secretary of Defense to submit a report to the Congress by December 31, 1997, that identifies the status of the assessment, the technologies that appear to be feasible, the plans for further assessment and demonstration of these technologies, and the potential impact on the cost and schedule for completion of destruction operations at Pueblo and Lexington-Blue Grass.

The conferees understand that a major aspect of the chemical non-stockpile materiel project is the development of a system for disposal of the chemical agent identification kits, which have been classified as chemical weapons/agents for the purpose of the chemical disposal program, rather than hazardous waste. The conferees direct the Secretary of Defense to conduct an assessment of its policy, which includes chemical agent identification kits in the chemical agent demilitarization program, the current plans for disposal, and the potential changes in policy and disposal alternatives that could result in significant reductions in the cost of the non-stockpile program with no reduction in overall program safety. The assessment shall be conducted in coordination with the National Research Council. The results of the assessment and the Secretary's decision should be provided to the congressional defense committees by March 31, 1998.

Chemical stockpile emergency preparedness program (CSEPP)

The conferees note the actions taken by the DOD and the Army to improve management of the chemical weapons demilitarization program and to make the program more responsive to community concerns. The conferees believe that the Army and the DOD must continue to emphasize the involvement of the communities with chemical stockpile storage sites that are part of the program's decision-making process. The conferees also note progress in improving emergency preparedness planning and preparations by both states and local communities near the chemical stockpile storage sites, but believe that continued effort is required.

Section 1076(a) of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201) directed the Secretary of the Army to submit a report to the Congress that would assess the successful implementation of site specific integrated product and process teams (IPT) as a management tool for the chemical stock-

pile emergency preparedness program (CSEPP). On July 9, 1997, the Secretary of Defense advised the Congress that the Army and the Federal Emergency Management Agency (FEMA) had reached an agreement on the implementation and establishment of the site-specific IPTs, and advised the Congress of changes in the management of the CSEPP. The conferees understand that under the terms of the agreement between the Army and FEMA, the State and local community governments would be given the flexibility they need to implement the emergency preparedness program. Under the agreement, funding for, and the conduct of on-post emergency preparedness and technical support for on-post and off-post emergency preparedness will remain the responsibility of the Army. FEMA will assume responsibility and accountability for working with State and local governments to enhance the required off-site emergency preparedness capabilities within established resources. The conferees are aware that the Director of FEMA intends to empower the FEMA regional offices with the primary responsibility and accountability for working with the State and local communities, and to restructure FEMA headquarters operations to create a more efficient and cost-effective management structure.

The conferees understand that the Army and FEMA believe that legislative authority is necessary to codify the agreement between the Army and FEMA. The conferees note that FEMA already possesses considerable authority for off-site emergency preparedness under existing law and that the fiscal year 1998 budget contained no formal proposal to establish a separate defense-related activities program account for FEMA. The conferees direct the Secretary of Defense to submit any proposed legislative changes and the budget for the CSEPP in the fiscal year 1999 DOD budget request. The congressional defense committees will review any proposed legislation and the budget request for CSEPP during consideration of the fiscal year 1999 budget request, as well as progress made in emergency preparedness, the implementation of the site-specific IPT, and the working relationships among Federal, State, and local authorities involved in the CSEPP.

Subtitle B—Army Programs

Army helicopter modernization plan (sec. 111)

The Senate amendment contained a provision (sec. 111) that would require the Army to provide a plan to the Congress that would address current and future helicopter modernization requirements and proposed funding. Specifically, the provision would require the Army to report on the following:

- (1) A detailed assessment of the Army's present and future helicopter inventory, including number of aircraft, age of aircraft, availability of spare parts, flight hour costs, roles and functions assigned to the fleet as a whole and to its individual types of aircraft, and the mix of active component and reserve component aircraft in the fleet;
- (2) Estimates and analysis of requirements and funding proposed for procurement of new aircraft;

(3) An analysis of requirements and funding proposed for extended service plans or service life extension plans for fleet aircraft;

(4) A plan for retiring aircraft no longer required or capable of performing assigned functions, including a discussion of opportunities to eliminate older aircraft models and to focus future funding on current or future generation aircraft;

(5) The implications of the plan for the defense industrial base;

The provision would require the Secretary of the Army to certify that the plan would be funded in the Future Years Defense Program submitted to Congress in Fiscal Year 1998 and would limit the obligation of funds to no more than 25 percent of the amounts authorized to be appropriated for helicopter modifications or upgrades until 30 days after the aircraft modernization plan is provided to the congressional defense committees.

The House bill contained no similar provision.

The House recedes with an amendment that would limit the obligation of funds to 80 percent of funds authorized for helicopter modifications and would require the Secretary of the Army to design the plan so that it could be funded within the funding levels expected to be available for Army aircraft programs in the next Future Years Defense Program.

Multiyear procurement authority for specified Army programs (sec. 112)

The Senate amendment contained a provision (sec. 112) that would authorize the Secretary of the Army to enter into a multiyear procurement contract, beginning with fiscal year 1998, for the procurement of the AH-64D fire control radar system. The Senate amendment contained an additional provision (sec. 113) that would authorize the Secretary of the Army to enter into a multiyear procurement contract, beginning with fiscal year 1998, for the procurement of trucks associated with the family of medium tactical wheeled vehicles.

The House bill contained no similar provisions.

The House recedes.

M113 vehicle modifications (sec. 113)

The conferees agree to a legislative provision (sec. 113) that would make available \$35.2 million only for procurement and installation of A3 upgrade kits for the M113 vehicle.

Subtitle C—Navy Programs

New Attack Submarine program (sec. 121)

The budget request included \$284.8 million for advance procurement of components for future nuclear attack submarines, and proposed a change in the acquisition strategy contained in the National Defense Authorization Act for Fiscal Year 1997 that directed competition between two submarine shipbuilders. The proposed change in strategy includes a contractor teaming agreement to build the first four new attack submarines.

The House bill authorized the budget request and contained no provision on submarine teaming.

The Senate amendment contained a provision (sec. 121) that would authorize the Secretary of the Navy to enter into a contract or contracts for the construction of four nuclear attack submarines under the terms of a teaming arrangement between Electric Boat and Newport News Shipbuilding.

The House recesses.

CVN-77 Nuclear Aircraft Carrier program (sec. 122)

The budget request included no funding for CVN-77.

The House bill would authorize the budget request.

The Senate amendment contained a provision (sec. 122) that would:

(1) authorize \$345.0 million for procurement and construction of components for the CVN-77 aircraft carrier and authorize the Secretary of the Navy to enter into a contract or contracts with the carrier shipbuilder for such purposes;

(2) authorize \$35.0 million for research, development, test, and evaluation of technologies that have potential for use in the CVN-77; and

(3) direct the Secretary to structure the procurement of the CVN-77 so that the carrier is acquired for an amount not to exceed \$4.6 billion, with allowances for adjustments to this amount due to:

(a) outfitting and post delivery costs,

(b) inflation occurring after or compliance with changes in Federal, state, or local laws enacted after September 30, 1997,

(c) increases or decreases in costs attributable to new technology built into CVN-77 as compared to the technology built into the baseline design of the CVN-76, and

(d) increases or decreases in costs resulting from changes the Secretary proposes in the funding plan of the so-called Smart Buy proposal on which the projected savings are based.

The House recesses with an amendment which would:

(1) authorize the Secretary of the Navy to procure the CVN-77 subject to the availability of appropriations for that purpose;

(2) authorize \$50.0 million for advance procurement and advance construction of components for the CVN-77 and authorize the Secretary of the Navy to enter into a contract or contracts for such purposes;

(3) permit the Secretary of Defense to transfer up to \$295.0 million to the CVN-77 program and allow this transfer to be made in addition to the transfer authority limit provided for elsewhere in the National Defense Authorization Act for Fiscal Year 1998;

(4) direct the Secretary of the Navy to obligate and expend the funds available for advance procurement and advance construction of carrier components for the CVN-77 in fiscal year 1998 in a manner that is designed to result in cost savings

that will meet a cost limitation of \$4.6 billion for the procurement of that vessel;

(5) direct the Secretary of Defense to make plans to attain the cost savings in the funding plan presented to Congress by the ship builder in March 1997; and

(6) direct the Secretary of the Navy to structure and manage the CVN-77 procurement program so that the \$4.6 billion cost limitation is not exceeded, except for adjustments to this amount resulting from:

(a) outfitting and post delivery costs,

(b) inflation occurring after or compliance with changes in Federal, state, or local laws enacted after September 30, 1997,

(c) increases or decreases in costs attributable to new technology built into CVN-77 as compared to the technology built into the baseline design of the CVN-76, and

(d) increases or decreases in costs resulting from changes the Secretary proposes in the funding plan on which the projected savings are based.

The conferees support construction of the CVN-77 and believe that initiating advance procurement for it in fiscal year 1998, rather than in fiscal year 2000 as currently projected in the Future Years Defense Program (FYDP), has the potential to produce considerable savings if additional funds are provided in fiscal years 1998 through 2001. Therefore, the conferees strongly encourage the Secretary of Defense to make available up to \$295.0 million in fiscal year 1998 and to include in the FYDP accompanying the fiscal year 1999 budget request the funding necessary to achieve the savings required to remain within the \$4.6 billion cost limitation.

Exclusion from cost limitation for Seawolf submarine program (sec. 123)

The Senate amendment contained a provision (sec. 123) that would reaffirm the existing cost cap for *Seawolf* submarines but would make it clear that certain costs associated with now canceled *Seawolf* submarines should not be taken into account.

The House bill contained no similar provision.

The House recedes with an amendment that would exclude from the cost limitation for the *Seawolf* submarine program \$272.4 million initial class design costs that were previously allocated to other canceled ships in the class. The amendment would also require the Inspector General of the Department of Defense to determine whether:

(1) the request of the Secretary of the Navy for exclusion of \$745.4 million of the costs associated with canceled submarines is justified; and

(2) any further exclusions from or increases to the cost cap will be required.

The Inspector General shall report the findings to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives not later than March 30, 1998.

Subtitle D—Air Force Programs

Authorization for B-2 bomber program (sec. 131)

The budget request included \$174.1 million for modification of aircraft on order or already in the inventory to the Block 30 configuration.

The House bill would authorize an increase of \$331.2 million for long lead funding for an additional nine aircraft above the 21 already authorized.

The Senate amendment would authorize the budget request and included a provision (sec. 131) that would prohibit the use of any funds to procure any additional B-2 bomber aircraft or to maintain any part of bomber industrial base solely for the purpose of preserving the option to procure additional B-2 bomber aircraft in the future.

The Senate recesses with an amendment.

The conferees agree to authorize \$331.2 million to be used either for long lead activities related to the procurement of additional B-2 aircraft, or for modification and repair of the existing fleet of B-2 bomber aircraft, depending on the President's determination of the requirement for additional B-2 aircraft.

The provision would also direct the Secretary of Defense to ensure that all appropriate actions are taken to preserve the options of the President until submission of the report required by section 8131 of the Department of Defense Appropriations Act for fiscal year 1998.

ALR radar warning receivers (sec. 132)

The Senate amendment contained a provision (sec. 132) that would require a study of the comparative effectiveness of upgrading the ALR-69 radar warning receiver and further acquisition of the ALR-56M radar warning receiver.

The House bill contained no similar provision.

The House recesses.

Analysis of requirements for replacement of engines on military aircraft derived from Boeing 707 aircraft (sec. 133)

The Senate amendment contained a provision (sec. 142) that would require a study of re-engining priorities, options, and benefits for military aircraft derived from Boeing 707 type aircraft.

The House bill contained no similar provision.

The House recesses with an amendment that would clarify the requirements for the study.

Subtitle E—Other Matters

Pilot program on sales of manufactured articles and services of certain army industrial facilities without regard to availability from domestic sources (sec. 141)

The Senate amendment contained a provision (sec. 143) that would authorize Army industrial facilities to sell articles or services to an entity that will incorporate those articles or services into a weapon system to be procured by the Department of Defense or

will use those articles or services to manufacture weapon systems that will be ultimately procured by the Department of Defense.

The House bill contained no similar provision.

The House recesses with an amendment that would authorize a two-year pilot program for not more than three facilities and require a review by the Inspector General of the Department of Defense.

NATO Joint Surveillance/Target Attack Radar System (sec. 142)

The Senate amendment contained a provision (sec. 144) that would allow the Secretary of Defense to initiate contracts for Phase I of a NATO Alliance Ground Surveillance (NATO AGS) capability based on the Joint Surveillance/Target Attack Radar System (JSTARS) following the conclusion of a cooperative project agreement for a NATO AGS. The Senate amendment would also authorize the transfer of funds from U.S. JSTARS to the NATO AGS program, and would allow for the modification of two Air Force JSTARS aircraft into a NATO configuration.

The House bill contained no similar provision.

The House recesses.

LEGISLATIVE PROVISIONS NOT ADOPTED

Limitation on obligation of funds for the Seawolf submarine program

The House bill contained a provision (sec. 121) that would prohibit the obligation of more than 50 percent of the fiscal year 1998 funds authorized and appropriated for the Seawolf submarine until the Secretary of the Navy certifies that not less than 50 percent of the New Attack Submarine technology insertion opportunities for the first four submarines were included in the Future Years Defense Program accompanying the fiscal year 1999 budget request.

The Senate amendment contained no similar provision.

Having received written assurance from the Secretary that the fiscal year 1999 budget request will comply with the provision in the House bill, the House recesses.

Reduction in authorization of appropriations

The Senate amendment contained a provision (sec. 110) that would reduce funds available to the Department of Defense for Advisory and Assistance Services by \$30.0 million.

The House bill contained no similar provision.

The Senate recesses.

Airborne self-protection jammer

The Senate amendment contained a provision (sec. 124) that would place a limitation on the resumption of serial production of the Airborne Self-Protection Jammer, pending a certification by the Secretary of Defense.

The House bill contained no similar provision.

The Senate recesses.

Prohibition on use of funds for acquisition or alteration of private drydocks

The Senate amendment contained a provision (sec. 141) that would prevent the use of DOD funds for the expansion of private drydocks.

The House bill contained no similar provision.

The Senate recedes.

TITLE II—RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

Overview

The budget request for fiscal year 1998 contained an authorization of \$35,934.5 million for Research and Development in the Department of Defense. The House bill would authorize \$37,273.7 million. the Senate amendment would authorize \$36,957.0 million. The conferees recommended an authorization of \$36,537.0 million. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

FUNDING EXPLANATIONS

University and industry research centers

The budget request included \$45.5 million in PE 61104A for university and industry research centers.

The House bill would authorize an increase of \$1.9 million in PE 61104A for electromechanics and hypervelocity physics.

The Senate amendment would authorize an increase of \$2.3 million in PE 61104A for the Army federated laboratory advanced telecommunications and information distribution research program (ATIRP).

The conferees agree to authorize an increase of \$1.0 million for electromechanics and hypervelocity physics. The conferees also agree to authorize \$2.3 million of the remaining funds for the establishment of the ATIRP.

Combat vehicle and automotive advanced technology

The budget request included \$33.1 million for Combat Vehicle and Automotive Advanced Technology (PE 62601A).

The House bill authorized an increase of \$11.0 million for a variety of innovative research projects.

The Senate amendment would authorize an increase of \$4.0 million for the National Automotive Center to fund cooperative contracts using matching funds (PE 62601A).

The conferees agree to authorize \$40.612 million in PE 62601A, an increase of \$7.5 million: \$4.0 million for continued funding of cooperative and dual-use contracts to integrate commercial automotive technology into Army vehicles; \$1.0 million for completion of the High Output Diesel Engine (HODE) project; and \$2.5 million for new alternative vehicle propulsion efforts with industry and academia, including, but not limited to, innovation or improvements related to diesel, internal combustion, fuel cell, and electric propulsion technologies.

The conferees commend the National Automotive Center for its efforts to improve the automotive technology available in Army ground vehicle systems while reducing the operating and support costs, particularly through the use of affordable commercial technology, competitive procedures, and matching funds from industry.

Plastic cased ammunition

The budget request included \$18.2 million in PE 63004A for weapons and munitions advanced technology.

The House bill would authorize an increase of \$8.0 million in PE 63004A: \$5.0 million for electro-rheological fluids recoil for future artillery systems; and \$3.0 million for plastic cased ammunition.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$3.0 million for plastic cased ammunition research in PE 62624A. The conferees also agree to authorize a reduction of \$1.1 million, without prejudice, in PE 62624A.

Electronics and electronic devices

The budget request included \$20.2 million in PE 62705A for research and development in electronics and electronic devices.

The House bill would authorize an increase of \$5.0 million for field battery recharging capability (thermophotovoltaic) research and \$3.0 million for battery manufacturing technology.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase: \$1.5 million for field battery recharging capability (thermophotovoltaic) research; and \$1.5 million for manufacturing technology research associated with AA zinc batteries for military applications.

Bioremediation, education, science, and technology program

The budget request included \$17.5 million for environmental quality technology within PE 62720A. The budget request included no funds in that program element for the bioremediation, education, science, and technology program (BEST), which supports multidisciplinary research and education in bioremediation science.

The House bill would authorize an additional \$4.0 million in PE 62720A for the BEST program.

The Senate amendment would authorize the budget request.

The Senate recesses.

The conferees expect that the use of additional funds for BEST will provide a direct benefit to the Department of Defense efforts in the area of bioremediation.

Plasma energy pyrolysis system

The budget request included \$17.5 million for environmental technology in PE 62720A. No funding was specifically identified for the Plasma Energy Pyrolysis System (PEPS) technology.

The House bill and Senate amendment would authorize \$8.7 million for PEPS technology.

The conferees agree to an increase of \$6.0 million in PE 62720A for the ongoing joint effort between the U.S. Army Environmental Center/Environmental Technology Division and the Tennessee Valley Authority/Muscle Shoals Environmental Research Center to develop, demonstrate, and validate the PEPS technology.

The purpose of PEPS is to develop plasma technology as a method of producing heat for the breakdown of waste materials. The Muscle Shoals Environmental Research Center provides a level of technical expertise that stems from forty years of experience in working with electric arc furnaces, a thermal process similar to PEPS. For that reason, the participation of the Muscle Shoals Environmental Research Center is a necessary element of PEPS. However, the conferees direct that no more than 15 percent of the PEPS funds be made available for the participation of the Muscle Shoals Environmental Research Center.

The goals of the PEPS program are to evaluate the capability of plasma technology for the destruction of hazardous components, verify slag suitability for regular landfill disposal, identify potential hazards associated with the process emissions, and develop qualified cost estimates for the future use of the process on large scale operations. The conferees direct the Secretary of the Army to report

to the congressional defense committees on the progress made in meeting these goals with fiscal year 1998 funds.

Radford Environmental Development and Management Program

The budget request included \$17.5 million for environmental quality technology within PE 62720A. No funding was specifically identified to support the development of an integrated environmental and pollution prevention management and control system through the Radford Environmental Development and Management Program (REDMAP).

The House bill would direct the Secretary of the Army to ensure adequate support for the REDMAP initiative within funds authorized for environmental quality technology.

The Senate amendment would authorize an increase of \$5.0 million in PE 62720A to support REDMAP.

The conferees agree to authorize an increase of \$5.0 million in PE 62720A for REDMAP. The conferees note that some of the basic research necessary for REDMAP has already been accomplished through the Facility Environmental Management and Monitoring System (FEMMS) at Tobyhanna Army Depot, Pennsylvania. The conferees expect that REDMAP will use relevant information developed through FEMMS.

Military engineering technology

The budget request included \$36.4 million in PE 62784A for military engineering technology.

The Senate amendment would authorize an increase of \$5.0 million in PE 62784A: \$1.0 million to enhance research in combat support, combat engineering, and base facility construction, operations, and maintenance at locations subject to cold weather; and \$4.0 million for energy efficient military applications.

The House bill would authorize the budget request.

The conferees agree to an increase of \$1.0 million in PE 62784A for cold weather research. The conferees also agree to an increase of \$4.0 million in PE 65856A for fuel cell military applications as mentioned elsewhere in the report.

Medical advanced technology

The budget request included \$10.6 million in PE 63002A for medical advanced technology.

The House bill would authorize an increase of \$5.8 million in PE 63002A: \$3.5 million for virtual reality emergency medical telemedicine (VREMT); and \$2.3 million for telemedicine technology.

The Senate amendment would authorize an increase of \$4.6 million in PE 63002A: \$1.0 million for intravenous membrane oxygenator; and \$3.6 million for Meals Ready-to-Eat nutrition research.

The conferees agree to authorize an increase of \$2.5 million for VREMT. The conferees also agree to authorize an increase of \$3.5 million for nutrition research in PE 62787A.

Combat vehicle and automotive advanced technology

The budget request included \$32.7 million to develop combat vehicle and automotive technologies.

The House bill would authorize an increase of \$3.0 million to support development of advanced composite materiel and electric drive technology.

The Senate amendment would authorize an increase of \$9.0 million to further explore aluminum metal matrix technologies.

The conferees agree to authorize a total of \$38.7 million in PE 63005A. Of this amount, \$2.0 million is for advanced composite materiel development and \$6.5 million is for aluminum metal matrix technologies.

Information systems technology, superiority, and security

The budget request included \$544.4 million for information systems and information technology research, development, test, and evaluation. Of that amount, \$306.0 million was for information security research, development, test, and evaluation.

The House bill would authorize the following increases to the budget request:

(1) \$2.0 million in PE 63006A for tactical internet command and control protection;

(2) \$6.7 million in PE 65604A for information operations/warfare survivability analysis of command, control, communications, and computers/information electronic warfare systems;

(3) \$1.6 million in PE 33150A for development and application of information protection measures for the Army's component of the global command and control systems for the U.S. European Command; and

(4) \$2.7 million in PE 33140F for the Air Force information protection program.

The House report (H. Rept. 105-132) would also direct the Secretary of Defense to provide to the congressional defense committees, with the submission of the fiscal year 1999 budget request, an assessment of the progress in the Department's information systems security program that addresses the current status of the program, specific actions being taken on the recommendations of the 1996 Defense Science Board Task Force on Information Warfare-Defense, and additional actions that should be taken to assure the increased security and integrity of the Defense information infrastructure. The House report would also require the Secretary to address measures necessary to assure the integrity of those elements of the National Information Infrastructure on which the Defense Information Infrastructure depends, and to identify any additional resources and legislative authority which might be required.

The Senate amendment would authorize the budget request.

The House recedes from its recommendation for additional funding. The conferees, however, share the views expressed in the House report regarding the need to treat information technology as a vital strategic resource, and the need to address the potential vulnerabilities of the information infrastructure. The conferees direct the Secretary of Defense to submit to the congressional defense committees the assessment of the Department's information systems security program as discussed in the House report.

Missile and rocket advanced technology

The budget request included \$117.1 million to develop missile technologies.

The House bill would authorize a decrease of \$57.7 million for the enhanced fiber-optic guided missile (EFOG–M) program.

The Senate amendment would authorize the budget request.

The conferees agree to authorize \$31.4 million to continue development of EFOG–M technologies and complete the advanced concept technology demonstration (ACTD) planned for fiscal year 1998. The conferees further direct that funds provided for the ACTD be used exclusively for that activity and not for procurement of additional missiles beyond those required for the evaluation. The conferees also agree to authorize an additional \$3.0 million for the future missile technology insertion program for a total authorization of \$93.8 million for PE 63313A.

Landmine warfare and barrier advanced technology

The budget request included \$19.3 million to develop landmine detection technologies.

The House bill would authorize an additional \$5.0 million for countermine technologies.

The Senate amendment would authorize an additional \$6.6 million to support development and testing of vehicular mounted mine detector technologies.

The conferees agree to authorize \$27.0 million in PE 63606A, an increase of \$2.7 million for the vehicular mounted mine detection system and an additional \$5.0 million for countermine technology development.

Joint service small arms program

The budget request included \$4.8 million to conduct joint development of future small arms requirements.

The House bill would authorize an increase of \$7.0 million to support development of the objective individual combat weapon (OICW) and advanced light anti-armor weapon system (ALAWS) technology.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$4.5 million in PE 63607A. Of this amount, \$3.0 million is for OICW and \$1.5 million is for ALAWS technology.

Armament enhancement initiative

The budget request included \$40.3 million to develop future generation main battle tank armaments.

The House bill would authorize an additional \$20.0 million for accelerated development of the tank extended range munition-kinetic energy (TERM–KE).

The Senate amendment would authorize the budget request.

The conferees agree to authorize a total of \$38.3 million for the Armament Enhancement Initiative (PE 63639A). The conferees note an Army decision to terminate the Smart Target Activated Fire and Forget (STAFF) munition and pursue further development of the Tank Extended Range Munition-Kinetic Energy (TERM–KE).

The conferees, therefore, agree to authorize a decrease of \$17.0 million for STAFF and an increase of \$15.0 million for TERM-KE.

Aviation-advanced development

The budget request included \$7.1 million to develop aviation technologies.

The House bill would authorize an additional \$5.0 million for development of retinal display technologies.

The Senate amendment would authorize the budget request.

The conferees agree to authorize \$12.1 million in PE 63801A.

All source analysis system

The budget request included \$24.0 million to continue development of the All Source Analysis System (ASAS).

The House bill would authorize an increase of \$3.5 million for software upgrades.

The Senate amendment would authorize an increase of \$3.2 million to expand advanced fusion technology efforts.

The House recedes.

Light tactical wheeled vehicles

The budget request included \$9.9 million to develop light tactical wheeled vehicle technologies.

The House bill and Senate amendment would authorize the budget request.

The conferees agree to authorize a decrease of \$9.9 million in PE 64642A and direct the Army to report on future light tactical wheeled vehicle requirements. The conferees note the Army has failed to provide a clear and definitized plan that addresses future light tactical vehicle requirements and are unsure about the future direction of Army wheeled vehicle programs.

Engineer mobility equipment development program

The budget request included \$56.2 million to support improvements to engineer mobility equipment (PE 64649A).

The House bill and Senate amendment would authorize the budget request.

The conferees agree to a total authorization of \$52.2 million in PE 64649A, a decrease of \$4.0 million. The conferees note that the engineer mobility equipment development program has suffered from late obligation and system management problems.

Automatic test equipment

The budget request included \$2.6 million to develop automatic test equipment technologies.

The House bill would authorize an increase of \$2.3 million for Integrated Family of Test Equipment (IFTE) technology development.

The Senate amendment authorized the budget request.

The Senate recedes.

Tactical exploitation of national capabilities

The budget request included \$107.2 million for the various Tactical Exploitation of National Capabilities (TENCAP) and relat-

ed research and development projects within the military services' Tactical Intelligence and Related Activities aggregation and the Joint Military Intelligence Program.

The House bill would authorize a decrease in these individual accounts by approximately 10 percent.

The Senate amendment would authorize the budget request.

The House recesses.

The conferees agree that the tactical "operationalization" of space has become relatively commonplace within military doctrine, planning, and execution, and that specialized TENCAP projects to inform, educate, and provide improved space-related capabilities should be reviewed for possible reduction or reorientation. While the conferees fully support the TENCAP program, they believe there may be a need to begin to reduce and phase out the specialized projects to exploit space and national capabilities. Such exploitation should be the focus of new programs from the outset of their development.

Therefore, the conferees direct the Secretary of Defense to submit a report to the congressional defense and intelligence committees by March 15, 1998, describing the Secretary's assessment of the continuing utility of the TENCAP program, and recommendations for evolving or phasing out the existing TENCAP program.

Combined arms tactical trainer

The budget request included \$2.8 million to develop combined arms tactical trainer (CATT) technologies.

The House bill would authorize the budget request.

The Senate amendment would authorize the transfer of \$11.5 million from procurement to PE 64780A to resolve software problems associated with these trainers.

The conferees agree to authorize \$13.3 million in PE 64780A.

Landmine warfare/barrier-engineering development

The budget request included \$22.6 million to develop minefield detection technologies.

The House bill and the Senate amendment would authorize the budget request.

The conferees agree to authorize a decrease of \$13.9 million in PE 64808A for development work associated with the airborne standoff minefield detection system (ASTAMIDS) as technical difficulties with this technology have been identified and the system is not ready to enter engineering and manufacturing development (EMD).

Sense and destroy armament missile-engineering development

The budget request included \$22.4 million to continue development of the sense and destroy armament missile (SADARM).

The House bill and Senate amendment would authorize the budget request.

The conferees agree to authorize a decrease of \$10.9 million for the SADARM program. The conferees note the program has suffered from technical difficulties associated with development of the baseline munition. The conferees support the SADARM program but believe the baseline system testing scheduled for calendar year

1998 should be completed prior to funding preplanned product improvement work.

Fuel cells

The budget request included no funding for fuel cell technology.

The House bill would authorize an increase of \$1.8 million in PE 63712N to establish a cooperative research and development effort for a cost-shared demonstration of proton exchange membrane fuel cell technology and an increase of \$3.5 million in PE 63513N to continue the program for design of a full scale ships service molten carbonate fuel cell power plant and demonstration of a 500 kilowatt molten carbonate fuel cell.

The Senate amendment would authorize an increase of \$1.75 million in PE 63712N to establish a cooperative research and development effort between the Naval Surface Warfare Center (NSWC) in Crane, Indiana and private industry. The Senate amendment also provided for an increase of \$4.0 million in PE 62784A for additional technology development of energy efficient military applications between the U.S. Army Corps of Engineers, Construction Engineering Research Laboratories and private industry. In each instance, the Senate amendment directed participants from the private sector to contribute an amount of funding that is equivalent to the Federal funding level.

The conferees agree to authorize an increase of \$1.75 million in PE 63712N, as discussed in the House report (H. Rept. 105-132) and the Senate report (S. Rept. 105-29), an increase of \$3.5 million in PE 63513N for continuation of molten carbonate fuel cell development, as discussed in the House report, and an increase of \$4.0 million in PE 65856A for additional technology development of energy efficient military applications, as discussed in the Senate report.

The conferees note that over the course of several budget cycles there have been numerous funding adds for development and utilization of fuel cell technology. The conferees believe that there is an absence of a clearly defined strategy and implementation program for the development and application of advanced fuel cell technology and other energy efficient applications for the Department of Defense (DOD). The conferees direct the Secretary of Defense to develop a strategy to address a broader spectrum of interests and applications of fuel cell technology within the military departments. The conferees expect that the strategy will include private sector contribution in an amount that is, at a minimum, equal to the Federal funding level for the continuation and development of fuel cell technology.

The conferees are also aware that the Department of Energy (DOE) has been involved in the development and application of advanced fuel cell technology. The conferees direct the Secretary of Defense to work with the Secretary of Energy in the development of a common strategy to avoid duplication of effort between the two departments.

The conferees direct the Secretary of Defense to report to the congressional defense committees by March 31, 1998 on the overall science and technology strategy for the development and applica-

tion of advanced fuel cell technology and other energy efficient applications by the defense agencies and military departments. Moreover, the report should explain the common strategy developed by the Secretaries of Defense and Energy in this area.

Combat vehicle improvement program

The budget request included \$136.5 million to develop combat vehicle improvements to existing systems.

The House bill would authorize an increase of \$20.1 million for combat vehicle improvement purposes.

The Senate amendment would authorize an increase of \$20.0 million for combat vehicle improvement purposes.

The conferees agree to authorize an increase of \$22.5 million in PE 23735A for a total of \$159.0 million. Of this amount, \$12.0 million is for development of field emission display units for armored vehicles; \$4.0 million is for development of AN/VVR-1 Laser Warning Receivers; and \$6.5 million is for the M1 system enhancement program (SEP).

Aircraft modification / product improvement program

The budget request included \$2.6 million to support improvements to existing aircraft systems.

The House bill would authorize an increase of \$20.0 million for the improved cargo helicopter (ICH) program.

The Senate amendment would authorize an increase of \$30.0 million for ICH.

The conferees agree to authorize an increase of \$20.0 million for ICH in PE 23744 for a total of \$22.6 million.

Digitization

The budget request included \$157.0 million to support Army digitization efforts.

The House bill would authorize the budget request.

The Senate amendment would authorize an increase of \$11.0 million for outstanding digitization requirements.

The conferees note concerns expressed by defense appropriations subcommittees regarding the funding of certain Army digitization activities in the Digitization program element (PE 23758A) of the Army Research and Development budget request.

The conferees agree to reallocate \$100.0 million from the Army request for digitization funding as follows:

Research, Development, Test and Evaluation, Army

	<i>In millions</i>
Digitization:	
Appique	\$2.6
Tactical Internet	6.0
Other:	
Force XXI Initiatives	38.9
Striker	3.9
Mortar Fire Control	10.0
Radio Frequency Technology	1.7
Light Weight Laser Designator	2.8
Combat Synthetic Training Assessment Range	5.4
Airborne Command & Control System	11.0
Missile Procurement, Army:	
Avenger Slew-to-Cue	7.4

Research, Development, Test and Evaluation, Army—Continued

	<i>In millions</i>
Other Procurement, Army:	
Gun Laying Positioning System	6.0
PLS Enhanced	3.0
Radio Frequency Technology	1.2

The conferees encourage the Army to further develop a clear and comprehensive digitization program that depicts requirements, funding, and timelines associated with the ultimate goal of fielding a digitized Corps early in the next century and to consult with the congressional defense committees concerning that program. The conferees expect that this effort will be fully funded in future budget submissions and that congressional defense committees will be notified of proposed acquisitions and activities. The conferees agree to authorize \$65.6 million for digitization in PE 23758A.

Missile/air defense product improvement program

The budget request included \$17.4 million to support improvements to existing air defense systems.

The House bill would authorize an increase of \$16.7 million, \$10.0 million for Patriot PAC-3 development and \$6.7 million for the Stinger Block II development effort.

The Senate amendment would authorize an increase of \$10.0 million for Patriot anti-cruise missile (PACM) development.

The conferees agree to authorize \$31.4 million, an increase of \$14.0 million in PE 23801A, \$10.0 million for the completion of the PACM development effort and \$4.0 million for the Stinger Block II program.

Healthcare information protection demonstration

The budget request included \$9.6 million in PE 33140A for the Army's information systems security program.

The House bill would authorize an increase of \$2.5 million to initiate a demonstration program for military healthcare information protection that would be consistent with national healthcare and information initiatives, and would direct the Secretary of the Army to report to the congressional defense committees on related matters.

The Senate amendment would authorize the budget request.

The Senate recesses.

End item industrial preparedness activities

The budget request included \$44.3 in PE 78045A for the Army's manufacturing technology program.

The House bill would authorize an increase of \$15.0 million for munitions manufacturing technology.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$15.0 million in PE 78045A to accelerate key munitions manufacturing technologies in composites, electronics, energetics, power supplies, and metal parts, as recommended in the House report (H. Rept. 105-132). The conferees intend this funding to be used to reduce the cost of future munitions and to enable both government- and contractor-owned munitions production facilities to produce research

quantities and production quantities of munitions concurrently; to adopt design changes and product improvements more rapidly; and to make short production runs more feasible and less costly.

Overview

The budget request for fiscal year 1998 contained an authorization of \$7,611.0 million for Navy, Research and Development in the Department of Defense. The House bill would authorize \$7,947.0 million. The Senate amendment would authorize \$7,813.0 million. The conferees recommended an authorization of \$7,774.9 million. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Defense research sciences

The budget request included \$366.3 million in PE 61153N for Navy defense research sciences.

The House bill would authorize an increase of \$10.0 million to continue the program of basic research in molecular design materials science that was initiated in 1994.

The Senate amendment would authorize the budget request.

The conferees agree to an increase of \$8.0 million in PE 61153N. Further, the conferees agree with the direction contained in the House report (H. Rept. 105–132) with regard to the molecular design materials science program. The Secretary of the Navy shall conduct an assessment of the goals, objectives, and progress in the program, future directions and funding requirements, and report the results of the assessment to the congressional defense committees by March 15, 1998.

Marine mammal research program

The budget request included \$366.3 million in PE 61153N for Navy Defense Research Sciences, including \$137.1 million to support basic research in ocean sciences.

The House bill would authorize an increase of \$500,000 to continue the Navy's cooperative marine mammal research program.

The Senate amendment would authorize the budget request.

The House recedes.

The conferees direct the Secretary of the Navy to submit to the congressional defense committees, by March 1, 1998, a report on the research being conducted in the marine mammal research program, the technological implications of this research to Navy sonar requirements, and future plans for the program.

Power electronic building blocks

The budget request included \$46.9 million in PE 62121N for applied research in surface ship technology.

The House bill and the Senate amendment would authorize an increase of \$6.0 million for power electronic building block (PEBB) technology.

The conferees agree to an increase of \$6.0 million in PE 62121N for the acceleration of the PEBB program to provide electric power system options for future shipboard designs that include electric drive and for meeting reduced manning goals through automation of ship systems. The conferees urge the use of virtual prototyping for simulation and evaluation of advanced concept electrical systems in this effort.

Power node control centers

The budget request included \$46.8 million in PE 62121N for applied research in surface ship and submarine, hull, mechanical, and electronic technology, logistics technology, and environmental protection for all Navy platforms and shore facilities.

The House bill would authorize an increase of \$1.5 million in PE 62121N to continue the development of power node control centers for advanced integrated electrical distribution system fault detection, switching, reconfiguration, and control of shipboard electrical systems.

The Senate amendment would authorize the budget request.
The Senate recesses.

Second source for carbon fibers

The budget request included \$76.7 million in PE 62234N for materials, electronics, and computer technologies.

The House bill and the Senate amendment would authorize an increase of \$2.0 million in PE 62234N to complete the qualification of new processes for aviation platforms and the development of a second source for carbon fibers.

The conferees agree to authorize an increase of \$2.0 million in PE 62334N to continue and complete the program initiated in fiscal year 1997 to address new materials processes such as resin transfer molding and to establish second source qualification procedures for advanced composites used in naval aircraft and prepreg systems.

Titanium processing technology

The budget request included \$76.7 million in PE 62234N for materials, electronics, and computer technologies.

The House bill would authorize the budget request.

The Senate amendment would authorize an increase of \$2.0 million in PE 62234N to support the development of the plasma quench process for use in the production of ultra-fine titanium powder and in the injection molding process.

The House recesses.

The conferees direct that all applicable competitive procedures be used in the award of contracts or other agreements under this program, and that cost sharing requirements for non-federal participants be utilized where appropriate.

Arctic climate observations

The budget request included \$48.2 million in PE 62435N for applied research in oceanographic and atmospheric technologies. The request included no funds for continuation of the ocean climate research program.

The House bill would authorize an increase of \$3.0 million in PE 62435N to support the second year of the arctic oceanographic observation program, a four-year, cooperative program for the utilization of underwater acoustic techniques to determine ocean climate and acoustic characteristics in a large ocean basin.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$2.0 million to continue the program for investigation of the use of long-range underwater sound transmissions to detect and monitor changes in the ocean, as described in the House report (H. Rept. 105-132).

National Oceanographic Partnership Program

The budget request included \$48.2 million in PE 62435N for applied research in oceanographic and atmospheric technology.

The House bill and Senate amendment would authorize an increase of \$16.0 million in PE 62435N for the National Oceanographic Partnership Program (NOPP).

The conferees agree to an increase of \$12.0 million in PE 62435N to maintain the momentum of the program until additional funds for support of the program can be included in the budget requests of other participating agencies and departments.

The conferees further direct the Secretary of Defense to coordinate with the Secretaries of Commerce, Energy, and Interior, the Director of the National Science Foundation, the Administrators of the National Aeronautics and Space Administration and the Environmental Protection Agency on funding levels required in future budget requests for continuation of the NOPP. The conferees direct the Secretary of Defense to provide a report to the congressional defense committees by February 28, 1998 on the funding for the program identified in the fiscal year 1998 budget requests of participating agencies and the Department of Defense.

Antisubmarine warfare technology

The budget request included \$35.7 million in PE 62633N for undersea warfare weaponry technology.

The House bill would authorize an increase of \$4.0 million in PE 63747N to mature the development of hydrodynamics and propulsion technologies for the 6.25" torpedo vehicle and expand guidance and control technologies.

The Senate amendment would authorize an increase of \$4.0 million in PE 62633N to accelerate technology leading to the development of a quick reaction antisubmarine/anti-torpedo weapon needed for close-range engagements and for the protection of surface ships and submarines from torpedo attack.

The conferees agree to authorize an increase of \$3.0 million in PE 62633N for antisubmarine warfare technologies applicable to quick reaction antisubmarine systems, as recommended in the House report (H. Rept. 105-132) and the Senate report (S. Rept. 105-29). The additional funding should be used to mature hydrodynamics, propulsion, and guidance and control technologies for the 6.25" torpedo vehicle to accelerate its development and introduction into the fleet.

Composite helicopter hangar

The budget request included no funds for composite helicopter hangars.

The House bill authorized the budget request.

The Senate amendment would authorize an increase of \$10.0 million above the budget request in PE 63508N to begin a developmental effort to design and fabricate the outer shell of a DDG-51 helicopter hangar structure using composite materials.

The conferees agree to authorize an increase of \$10.0 million in PE 63508N for development of a composite helicopter hangar development and a general reduction of \$5.0 million to PE 63508N.

Project "M"

The budget request included \$39.7 million in PE 63508N for technologies for submarine and surface ship handling, machinery, and engineering systems.

The House bill authorized an increase of \$5.0 million to continue the Navy's program for transition, development and dem-

onstration of advanced quieting technology developed under the Defense Advanced Research Project Agency Project "M".

The Senate amendment authorized the budget request.

The conferees agree to authorize a \$5.0 million increase for Project "M".

Marine Corps advanced technology demonstration

The budget request included \$34.2 million to support the Marine Corps advanced technology demonstration (ATD).

The House bill would authorize an increase of \$19.8 million to support the Commandant's Warfighting Laboratory. The House bill would also provide \$5.0 million for a low-cost, close-range unmanned aerial vehicle (UAV) project.

The Senate amendment would authorize an increase of \$15.0 million for the Commandant's Warfighting Laboratory.

The conferees agree to authorize an increase of \$19.5 million in PE 63640M. Of this amount, \$17.5 million is for the Commandant's Warfighting Laboratory and \$2.0 million is for the common automatic recovery system for a total of \$53.7 million in this program element.

Freeze-dried blood research project

The budget request included \$18.3 million in PE 63706N for medical development programs.

The House bill and Senate amendment would authorize an increase of \$2.5 million for the freeze-dried blood research project.

The conferees agree to authorize an increase of \$1.5 million in PE 63706N to continue research on freeze-dried blood processes to develop a safe and reliable supply of blood for combat casualties. The conferees recognize the commercial potential of this technology and urge the Navy to pursue dual-use application and cost-sharing in this program to the maximum extent practicable.

Littoral antisubmarine warfare technology demonstration

The budget request included \$54.8 million in PE 63747N for advanced development of undersea warfare advanced technology, including \$30.9 million for shallow water surveillance advanced technology.

The House bill would authorize an increase of \$5.0 million in PE 63747N for continued development, demonstration, and evaluation of the technology for a mobile, high power broadband acoustic surveillance source that is based upon the adaptation of commercial-off-the-shelf (COTS) air-gun technology that was developed originally for the oil exploration industry.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$3.0 million for the continuation of the COTS air-gun technology demonstration and evaluation program and understand that this will lead to a decision by the Navy on whether to proceed with the development of COTS air-gun technology as an acoustic surveillance source.

Beach and surf zone obstacle clearance

The budget request included \$41.6 million in PE 63782N for advanced development and demonstration of technology for shallow water mine counter-measures.

The House bill would authorize an increase of \$750,000 to complete the additional testing required for determination of the GPU-5 gunpod's capability to breach beach and surf zone obstacles safely, quickly, and decisively when mounted on an air-cushion landing craft.

The Senate amendment would authorize the budget request.

The Senate recesses.

High frequency surface wave radar

The budget request included \$87.2 million in PE 63792N for the advanced technology transition program.

The House bill and Senate amendment would authorize an increase of \$4.0 million for high frequency surface wave radar (HFSWR) advanced technology demonstration.

The conferees agree to an increase of \$4.0 million in PE 63792N to complete the HFSWR demonstration.

Visualization architecture and technology

The budget request included \$7.8 million for advanced technology in aviation survivability (PE 63216N) and \$33.2 million for major test and evaluation investments (PE 64759N).

The House bill would authorize an increase of \$3.0 million in PE 64759N for visualization architecture and technology that would focus on development of data display technologies, enhanced situational awareness, and other capabilities required to enhance the ability of developmental and operational testers to assess complex, dynamic air combat testing and operations.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$3.0 million in PE 63216N for visualization architecture and technology. The conferees direct that all applicable competitive procedures be used in the award of contracts or other agreements under this program, and that cost-sharing requirements for non-federal participants be utilized, where appropriate.

Antisubmarine warfare systems development

The budget request included \$22.9 million in PE 63254N for development of antisubmarine warfare systems.

The House bill would authorize an increase of \$3.8 million to complete demonstration/validation of sonobuoy geo-positioning system integration and transducer enhancements for improving the shallow water antisubmarine warfare effectiveness of the air deployed low frequency projector.

The Senate amendment would authorize the budget request.

The conferees agree to authorize a \$2.0 million increase in PE 63254N for improving the shallow water antisubmarine warfare effectiveness of the air deployed low frequency projector.

CV(X) carrier system development

The budget request included \$98.6 million in PE 63512N for future aircraft carrier research and development.

The House bill would authorize a decrease of \$88.4 million for CV(X) carrier system development. The House report (H. Rept. 105-132) expressed the belief that it would be neither fiscally nor technically prudent to increase advanced carrier systems research and development for the CV(X) to the degree sought by the Navy. The report also expressed the belief that increased emphasis should be placed on the research and development program for the CVN-77 to provide a transition to the CV(X).

The Senate amendment would authorize the budget request.

The conferees agree to authorize \$20.6 million in PE 63512N, a reduction of \$78.0 million for future aircraft carrier research and development.

The conferees encourage the Chief of Naval Operations to define the operational requirement for the CV(X) aircraft carrier program and develop a road map for the CV(X) research, development, test and evaluation program to ensure the capabilities of the CV(X) meet that requirement.

Advanced submarine systems development

The budget request included \$59.1 million in PE 63561N for innovative research and development in submarine technologies and their subsequent evaluation, demonstration, and validation for submarine platforms, in order to increase the submarine technology base and provide subsystem design options that are not currently feasible.

The House bill would authorize an increase of \$103.0 million for development (in parallel with development of the New Attack Submarine (NAS)) of a large-scale vehicle (LSV) demonstrator that would not be limited by form (hull or appendages) or by a single hull design, and would also direct the Secretary of the Navy to issue a competitive solicitation for the demonstrator to the shipyards not currently involved in the design or future construction of the NAS. The House bill would further direct the transfer to the submarine large scale demonstrator of funds in the Future Years Defense Program accompanying the fiscal year 1998 budget for the Arsenal Ship demonstrator.

The Senate amendment would authorize an increase of \$15.0 million to accelerate the development of what are now considered far-term technologies, such as an advanced propulsor, rim driven motors, and advanced hull forms.

The conferees agree to authorize an increase of \$54.9 million. The Secretary of the Navy is authorized to pursue a third demonstrator that is not limited by form or single hull design and issue a competitive solicitation to all responsible sources for such a demonstrator. To avoid costly oversights and conflicts between the LSV builder and the technology providers, the Secretary of the Navy should ensure that the NAS shipbuilders are participants, as appropriate, in the process of including new technologies into the LSV.

The Secretary of the Navy should provide the congressional defense committees not later than the time at which the fiscal year

1999 defense budget request is submitted a report detailing the Navy's plans for LSV development.

Cruiser conversion program design

The budget request included \$38.6 million for ship preliminary design and feasibility studies in PE 63564N.

The House bill would authorize the budget request.

The Senate amendment would authorize a \$25.0 million increase in PE 64567N to initiate planning for mid-life conversion of Aegis cruisers and reduce schedule risk on development of DD-21.

The conferees agree to authorize a \$15.0 million increase in PE 63564N to initiate the cruiser conversion program. The conferees direct the Secretary of the Navy to provide a report on the cruiser conversion plan to the congressional defense committees with the submission of the fiscal year 1999 defense budget request.

Intercooled recuperated gas turbine engine

The budget request included \$49.7 million in PE 63573N for the Navy's advanced surface machinery program, including \$32.3 million to continue development of the intercooled recuperated (ICR) gas turbine engine.

The House bill would authorize the budget request. The House report (H. Rept. 105-132) would direct the Secretary of the Navy to report an assessment of the progress in the ICR engine program.

The Senate amendment would also authorize the budget request. The Senate report (S. Rept. 105-29) would direct the Secretary of the Navy to prepare and submit a plan that makes provisions for at-sea testing, completion of development, and introduction of the ICR engine into the fleet.

The conferees agree to authorize a reduction to the budget request for the ICR program of \$2.0 million, without prejudice. The conferees direct the Secretary of the Navy to conduct an assessment of the progress in the ICR engine program and plans for its continuation. The assessment shall address the technical progress in the program, future plans for engine testing and qualification (including plans for testing at land-based test sites and at-sea), options for completion of development and introduction of the ICR engine into the fleet if testing proves successful, the status of agreements with the United Kingdom and participating countries regarding the conduct of, and funding for, continuation of the program, and budget estimates of the costs necessary to complete the program. The results of the assessment shall be reported to the congressional defense committees with the submission of the fiscal year 1999 defense budget request.

Automatic target recognition/optical correlation

The budget request included \$34.2 million in PE 63609N for Navy conventional munitions development, \$26.2 million in PE 63601F for Air Force conventional weapons technology, and \$4.8 million in PE 63232D for automatic target recognition.

The House bill would authorize an increase of \$8.0 million in PE 63609N for development and demonstration of a miniature optical correlator for automatic target recognition and improved aimpoint selection for the Standard Missile, and an increase of \$3.5

million in PE 63601F for the development and demonstration of a miniature optical correlator for automatic target recognition and aimpoint selection for the AGM-130 missile.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$4.2 million in PE 63609N and an increase of \$1.5 million in PE 63601F for the development and demonstration of optical correlation technology, as described in the House report (H. Rept. 105-132). The increase in PE 63601F is offset by a reduction of \$3.0 million for next generation air-to-air threats.

Marine Corps assault vehicles

The budget request included \$60.1 million to support the development of the advanced amphibious assault vehicle (AAAV).

The House bill would authorize an increase of \$10.0 million to meet additional development requirements.

The Senate amendment would authorize an increase of \$10.1 million for the AAAV.

The conferees agree to authorize an increase of \$8.0 million for a total of \$68.1 million in PE 63611M.

Marine Corps ground combat/support systems

The budget request included \$36.5 million to support development of Marine Corps ground combat systems.

The House bill would authorize an increase of \$3.6 million to support development requirements for the lightweight 155mm howitzer.

The Senate amendment would authorize the budget request.

The Senate recesses.

Cooperative engagement capability

The budget request included \$139.2 million in PE 63658N for the cooperative engagement capability (CEC).

The House bill would authorize a total increase of \$50.0 million in PE 63658N for the CEC program: \$15.0 million to continue the accelerated development of the low cost common equipment set; \$5.0 million to support transfer of the CEC design and development agent to industry; \$20.0 million to accelerate integration of the CEC into Navy E-2C and P-3 aircraft; \$5.0 million to initiate development of an integrated capability between CEC and the ship self defense program (SSDS); and \$5.0 million to accelerate joint service integration and demonstration of CEC with the Army's Patriot and the Marine Corps' Hawk air defense missile systems.

The Senate amendment would authorize an increase of \$9.5 million in PE 63658N to:

(1) \$5.0 million to continue the transition of design responsibility from its developer to the CEC procurement contractor; and

(2) \$4.5 million to continue integration of CEC into the Marine Corps Hawk missile system.

The Senate amendment would also authorize \$5.0 million in PE 64212N to initiate development of a Ku-band data link kit for the SH-60B helicopter to avoid CEC interference.

The conferees agree to authorize an increase of \$33.0 million in PE 63658N as follows:

- (1) \$15.0 million for low cost common equipment sets;
- (2) \$10.0 million for P-3 and E-2C integration;
- (3) \$5.0 million for CEC-SSDS integration; and
- (4) \$3.0 million for CEC-Hawk missile system integration.

The conferees agree not to authorize an increase in PE 64212N for the SH-60B Ku-band data link.

Composite engineered materials

The budget request included \$1.7 million in PE 63725N for advanced development of materials, electronics and computer technologies.

The House bill would authorize an increase of \$3.0 million to complete the shore facilities materials program in cost-shared research on carbon fiber-reinforced, recycled thermoplastic engineered lumber.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$3.0 million to complete the shore facilities materials program in cost-shared research on carbon fiber-reinforced, recycled thermoplastic engineered lumber.

Land attack systems technology

The budget request included \$37.8 million in PE 63795N for development, demonstration, and validation of land attack systems technology for naval ship-to-shore fire support.

The House bill would authorize the following increases:

- (1) \$15.1 million to complete the development and commence the integration of a fire control system to support the initial operational capability of the advanced 5"/62 caliber gun and the extended range guided munition;
- (2) \$10.0 million for flight test demonstration and risk reduction for the land attack Standard missile;
- (3) \$20.0 million for program definition and risk reduction activities to permit the Navy tactical missile system (NTACMS) to begin accelerated engineering and manufacturing development in fiscal year 1999; and
- (4) \$5.0 million to continue the micro-electromechanical systems (MEMS) technology guidance and control risk reduction program.

The Senate amendment would authorize the following increases:

- (1) \$15.1 million for the continued development of the naval surface fire support warfare control system (NWCS);
- (2) \$5.0 million to pursue a flight demonstration program for the land attack Standard missile; and
- (3) \$20.0 million for developing NTACMS.

The conferees agree to authorize the following increases to PE 63795N:

- (1) \$8.0 million to complete the extended range guided munition development and commence the integration of a fire control system;
- (2) \$3.0 million to pursue a flight demonstration program for the land attack Standard missile;
- (3) \$10.0 million for developing NTACMS; and

(4) \$2.0 million for MEMS.

The conferees are concerned that the Navy is pushing systems to flight test to meet surface fire support requirements without an initial analysis of whether the systems are capable of meeting Naval surface fire support requirements. In addition, a number of mature systems, sub-systems and components appear to be capable of fulfilling surface fire support requirements without further development. However, without the basic analysis which would allow the Navy to narrow the field of candidates intelligently, too many systems are moving toward fulfilling the same requirement and too many opportunities to take advantage of developed systems are being missed. To correct these deficiencies, the conferees strongly encourage the Navy to conduct the basic analysis necessary to move forward with a focused effort to meet the surface fire support requirement. To accomplish this, the conferees suggest the Navy evaluate the concept of a virtual land attack warfare development center that would electronically link existing expertise while avoiding expensive travel costs. The Navy should consider using funding from prime systems for meeting the surface fire support analytical requirement, including Standard missile, Navy tactical missile system, and Tomahawk. The conferees believe the Navy needs to conduct this analysis to eliminate redundancy and take advantage of mature technologies to make progress in meeting naval surface fire support requirements.

Nonlethal weapons and technologies of mass protection program

The budget request included \$16.8 million for the nonlethal weapons (NLW) and technologies program.

The House bill would authorize the budget request.

The Senate amendment would authorize an increase of \$3.3 million to address underfunding by the Department of Defense in support of nonlethal weapons technologies research and development program.

The Senate recesses.

The Senate report (S. Rpt. 105-29) expressed the view that the Department of Defense should continue to focus its efforts on developing weapons and technologies to assist U.S. military forces, who are increasingly involved in non-traditional military situations, with the necessary tools and flexibility to manage, shape, deter, or contain future conflicts across the operational spectrum. The conferees note the recent decision by the Department of Defense to ship nonlethal weapons and technologies to U.S. ground forces participating in the North Atlantic Treaty Organization (NATO) Stabilization Force (SFOR) during the recent violent confrontations between American forces and Bosnian Serb demonstrators.

The conferees commend the military services for their efforts in the NLW area and encourage the Department of Defense (DOD) to increase its investments in the research, development, and procurement of nonlethal weapons and technologies, as well as associated doctrinal and training initiatives. Further, the conferees expect the DOD to provide the funds necessary to fulfill the requirements for nonlethal weapons and technologies identified by the military services, rather than requiring the military services to fund NLW programs out of their existing budgets.

CH-60 helicopter development

The budget request included \$31.8 million for CH-60 helicopter advance procurement.

The House bill and Senate amendment would authorize the budget request.

The conferees agree to authorize a transfer of \$31.8 million from Aircraft Procurement, Navy to PE 64212N to enable the Navy to conduct non-recurring engineering efforts, including drawings for engineering development.

Parametric airborne dipping sonar

The budget request included no funds for the parametric airborne dipping sonar (PADS).

The Senate amendment would authorize an increase of \$10.0 million in PE 64212N for the continued development of PADS.

The House bill authorized the budget request.

The conferees agree to authorize an increase of \$5.0 million increase for PADS in PE 64212N.

P-3 maritime patrol aircraft modernization program

The budget request included \$3.2 million in PE 64221N to continue engineering and manufacturing development of upgrades to the P-3C aircraft system to enhance surface and surface tracking, classification, and attack capabilities.

The House bill would authorize an increase of \$12.0 million to continue and accelerate the integration of anti-surface warfare improvement program (AIP) sensors to reduce operator workload, modernize the operator-machine interface to take advantage of new displays and controls, provide additional sensor integration/enhancements, improve/automate tactical planning aids, and provide for multi-sensor data correlation and fusion.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$10.0 million in PE 64221N for the P-3C maritime patrol aircraft modernization program as recommended in the House report (H. Rept. 105-132).

The conferees note the continuing disparity between the operational requirements of the unified commanders-in-chief (CINCs) and the Navy's plans for modernization of the P-3C fleet. The conferees direct the Secretary of the Navy to provide an assessment of the implications of this disparity to the congressional defense committees with the submission of the fiscal year 1999 defense budget request.

H-1 upgrades

The budget request included \$80.7 million to support H-1 upgrades.

The House bill and Senate amendment would authorize a transfer of \$5.6 million from the H-1 program in Navy procurement to support efforts to provide for a common cockpit in PE 64245N.

The conferees agree to authorize the transfer of \$5.6 million from the H-1 upgrade program to PE 64245N for a total of \$86.3 million in that program element. The conferees agree to authorize a total of \$12.9 million for H-1 modifications.

Advanced ranging source

The budget request included \$16.9 million in PE 64261N for engineering and manufacturing development of acoustic search sensors.

The House bill would authorize an increase of \$4.0 million to accelerate the development of alternative shallow water-capable sound sources in the advanced extended echo ranging (AEER) program and ensure that unique acoustic technology is available for the advanced ranging source (ARS) and air deployed low frequency project (ADLFP) comparative program testing.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$2.0 million for the purposes identified in the House report (H. Rept. 105-132).

High Power Discriminator

The budget request included no funds in PE 64307N to begin development of a High Power Discriminator (HPD).

The House bill would authorize the budget request.

The Senate amendment would authorize an increase of \$35.0 million for the HPD Program.

The conferees agree to authorize an increase of \$25.0 million for the HPD Program in PE 64307N.

The conferees support the concept of using existing X-Band radar technology in support of the Navy's theater ballistic missile defense effort. The proposed HPD would consist of a solid state X-Band radar for long-range acquisition and discrimination for theater ballistic missile defense and cruise missile defense. This concept would leverage the significant investment already made in the Army's ground-based radar.

Maritime fire support demonstrator/arsenal ship

The budget request included \$102.9 million in PE 64310N for the Navy and \$47.2 million in PE 63763E for the Defense Advanced Research Projects Agency (DARPA) to continue development of the arsenal ship demonstrator. The budget request also included \$55.0 million in PE 64567N for the Navy's next generation surface combatant, SC-21.

The House bill would authorize no funding for the arsenal ship program. It would direct the Under Secretary of Defense (Acquisition and Technology) and the Secretary of the Navy to review the acquisition strategy for the SC-21 program and determine whether or not a prototyping strategy is appropriate for the new surface combatant.

The Senate amendment would authorize an increase of \$25.0 million in PE 64310N to ensure that sufficiently robust funding is available early in Phase III, the construction phase for the arsenal ship (now redesignated the maritime fire support demonstrator (MFSD)), for schedule risk reduction and to promote the introduction of new technologies into the demonstrator.

The conferees agree to authorize \$35.0 million in PE 64310N and no funding in PE 63673E to continue the MFSD program, a total reduction of \$105.2 million. The reduction reflects the concerns stated in the fiscal year 1997 and the fiscal year 1998 reports by the congressional defense committees and in the statement of

managers which accompanied the conference report on H.R. 3230 (H. Rept. 104-724).

As noted in the House report (H. Rept. 105-132), the Navy's original concept for the arsenal ship was for the development and demonstration of a "proof-of-principle strike warfare ship" that would establish a new paradigm for the development and construction of Navy ships. A stealthy, highly survivable, heavily armed, and minimum manpower fire support ship, the arsenal ship demonstrator would be the prototype of a force of up to six such ships, each armed with as many as 500 vertical launch cells.

The Senate report (S. Rept. 105-29) noted that the Navy's concept for execution of the land attack mission has evolved from delivery of massive firepower from a limited number of single-mission hulls to delivery of fires by a closely interconnected, distributed network of multi-mission surface combatants. This evolution is reflected in the preferred option identified in the SC-21 cost and operational effectiveness analysis: a multi-mission destroyer optimized for land attack, the DD-21. The Navy has stated that the MFSD lies on the critical path to successful development of a DD-21 design in time to begin lead ship construction in fiscal year 2004. The Navy believes that all the technologies identified in the arsenal ship concept development phase will be relevant to the DD-21, and that the MFSD will also serve as a test-bed for emerging technologies following completion of the initial demonstration with the fleet in 2001. The conferees are deeply concerned that, although the stated purpose of the original arsenal ship demonstrator program changed significantly with the Navy's announcement of the new MFSD strategy in April 1997, the DARPA and the Navy continue to pursue the MFSD program without any apparent near-term change in the original program direction and without addressing the issues that have been previously raised by the congressional defense committees. The conferees understand that the program now under contract continues to focus on the development and demonstration of the arsenal ship concept, not on the maritime fire support demonstrator and its relationship to DD-21.

The conferees note the views expressed in the House report that the differences in ship size and mission capability between the Arsenal Ship and DD-21, as conceived, could yield two separate development programs and that the overlapping schedules for the demonstrator and the DD-21 program do not provide sufficient opportunity for the experience gained from the demonstrator to provide maximum benefit to design and construction of the DD-21.

The conferees believe that, if the MFSD program is to be relevant, the program must focus on the development and demonstration of new processes and procedures for the development and construction of Navy ships, and on the development and demonstration of technologies that might be used in the DD-21 or in other future Navy ship construction programs. The demonstrator program must be structured to achieve these ends and the development and demonstration of the technologies to be evaluated on the demonstrator must be explicitly defined, programmed, and funded. The conferees do not believe that the MFSD, as a demonstrator and test bed, should be funded in a program element for engineering and manufacturing development.

Therefore, the conferees direct the Secretary of Defense to prepare and submit to the congressional defense committees a plan for the development, demonstration, and evaluation of the MFSD and for development, demonstration, and evaluation of the various technologies that will be demonstrated and evaluated on the demonstrator. The technologies should include those being considered for incorporation in the detailed design of the DD-21, for subsequent technology insertion into the DD-21 program, or for use in other future naval ship construction programs. The plan shall include the management structure, program plan, schedule, and funding required for development of the MFSD and for development, demonstration and evaluation of each of the technologies under consideration. The conferees further direct that of the funds authorized to be appropriated for the MFSD program in fiscal year 1998, not more than 50 percent may be obligated until the plan is provided to the Congress.

The conferees also direct that any program to convert the MFSD to an operational surface combatant will require completion of a Milestone II/IV review and decision by the Secretary of Defense that formally addresses the same issues regarding the requirement and program for the MFSD that have been previously raised by the congressional defense committees with regard to the arsenal ship.

Multi-purpose processor

The budget request included \$42.3 million in PE 64503N for SSN-688 and TRIDENT modernization, including \$33.5 million for submarine sonar improvement. However, the budget request included no funds for the multi-purpose processor (MPP).

The House bill would authorize an increase of \$15.0 million for advanced development and rapid introduction of the MPP into the U.S. submarine fleet.

The Senate amendment would authorize an increase of \$25.0 million above the budget request in PE 64503N to be used as an SBIR follow-on for advanced development of MPP transportable software technology, technology insertion, advanced processor software builds, and for providing MPP units and training throughout the fleet and the Navy research and development community.

The conferees agree to authorize an increase of \$15.0 million for the SBIR follow-on for advanced development of MPP transportable software technology, technology insertion, advanced processor software builds, and for providing MPP units and training.

Advanced submarine tactical electronic combat system

The budget request included \$311.1 million in PE 64558N to continue engineering and manufacturing development for the New Attack Submarine (NASN), including \$95.8 million for NASN combat system development.

The House bill would authorize an increase of \$17.0 million in PE 64558N to restore the deferred elements of the advanced submarine tactical electronic combat system (ASTECS) and the integrated electronic support measures mast (IEM), ASTECS/IEM program.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$8.0 million in PE 64558N to restore the deferred elements of the ASTECS/IEM program.

CVN-77 research and development

The budget request included \$17.9 million in PE 64567N for aircraft carrier contract design for the CVN-77.

The House bill would authorize an increase of \$17.0 million to accelerate the evaluation of maturing advanced technologies for potential incorporation into the design of the CVN-77.

The Senate amendment would authorize an increase of \$17.0 million in PE 63564N.

The conferees agree to authorize an increase of \$17.0 million in PE 64567N to be used only for CVN-77 research, development, test and evaluation to accelerate the evaluation of maturing advanced technologies for potential incorporation into the design of CVN-77.

Ship self-defense system

The budget request included \$132.3 million in PE 64755N for the Navy's ship self defense program including \$8.2 million for continued development of the NULKA active countermeasures decoy.

The House bill would authorize an increase of \$8.6 million to activate the integrated ship self-defense test site at Wallops Island, and would direct the Secretary of the Navy to provide \$6.0 million from available funds to refurbish and install an AN/SPS-48E air search radar at the test site. The House bill would direct the Secretary of the Navy to reassess the requirement for close-in defense of Navy surface ships and report the results of the assessment and the plan for meeting the requirement to the congressional defense committees by February 28, 1998. Fiscal year 1998 funds would not be authorized to be obligated for the rolling airframe missile (RAM) upgrade program until 30 days after the congressional defense committees receive the Secretary's report.

The Senate amendment would authorize an increase of \$34.0 million in PE 64755N, including:

- (1) \$19.0 to pursue the system integration needed to integrate the cooperative engagement capability (CEC), the advanced combat direction system (ACDS), and the ship self-defense system (SSDS) local area networks to create a single tactical picture and a central integrated combat direction system;
- (2) \$2.0 million for continued development of the NULKA decoy; and
- (3) \$13.0 million for accelerating the infrared search and track program (IRST).

The conferees agree to authorize the following ship self-defense increases to PE 64755N:

- (1) \$10.0 million to pursue the system integration needed to integrate the cooperative engagement capability (CEC), the advanced combat direction system (ACDS), and the ship self-defense system (SSDS) local area networks to create a single tactical picture and a central integrated combat direction for a quick reaction combat capability (QRCC);

- (2) \$4.0 million to activate the integrated ship self-defense test site at Wallops Island;
- (3) \$2.0 million for continued NULKA development; and
- (4) \$4.0 million to accelerate the IRST program.

The conferees direct the Secretary of the Navy to assess the requirement for close-in defense of Navy surface ships as discussed in the House report (H. Rept. 105-132), and to report the results of that assessment and the plans for meeting the requirement to the congressional defense committees by February 28, 1998.

Safety and survivability enhancements

The budget request included \$263.9 million in PE 65864N for test and evaluation support.

The House bill would authorize an increase of \$2.0 million to continue the program for procurement, test, and alveolation of commercial off-the-shelf non-development items (COTS NDI) that have high potential for contributing to safety of flight, fire fighting, damage control, emergency preparedness ashore, survival at sea, and chemical/biological warfare defense. The additional funds would permit the program to assess COTS NDI that are new to the industrial marketplace.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$1.0 million in PE 65864N for Navy safety and survivability enhancements.

E-2 eight-blade composite propeller system

The budget request included \$64.9 million in PE 24152N for development of pre-planned product improvements in E-2C aircraft and weapon system capabilities, involving \$39.4 million for E-2C mission system improvements.

The House bill would authorize an increase of \$10.0 million to initiate a 24 month program for development and demonstration of an eight-blade composite propeller system for the E-2C.

The Senate amendment would authorize the budget request.

The conferees agree to authorize the budget request. The conferees understand that the Navy has advertised for bids and plans to award a contract to develop a new eight-blade composite propeller for the E-2C and C-2A aircraft to address existing system limitations and reduce maintenance and operations costs. The conferees direct the Secretary of the Navy to ensure that the solicitation and contract award process for the award of such a contract complies with Federal Acquisition Regulations.

Battle force tactical trainer

The budget request included \$59.0 million in PE 24571N for consolidated training systems development, including \$2.9 million for continued development of the battle force tactical training (BFTT) system.

The House bill would authorize an increase of \$5.0 million for the integration of ship and battle force electronic surveillance systems into the BFTT system.

The Senate amendment would authorize the budget request.

The Senate recesses.

Joint tactical combat training system

The budget request included \$59.0 million in PE 24571N for consolidated training systems development, including \$33.6 million for continued development of the joint tactical combat training system (JTCTS). The JTCTS is a Navy-led, joint Air Force/Navy program for the development of fixed, transportable, and mobile range instrumentation for shore-based tactical air crew training and for deployable, at-sea naval expeditionary force training.

The House bill would authorize a reduction of \$27.5 million to the budget request for JTCTS and would direct the Secretary of the Navy, in coordination with the Secretary of the Air Force, to conduct an assessment of the JTCTS requirement and development program and report the results of the assessment to the congressional defense committees by December 31, 1997.

The Senate amendment would authorize the budget request.

The conferees agree to authorize the budget request for the JTCTS program. The conferees understand that JTCTS is an Acquisition Category and an Office of the Secretary of Defense (OSD) special interest program, and that a thorough assessment and baseline review of the program was successfully completed in May 1997 by the Secretary of the Navy, the Secretary of the Air Force, a senior OSD review team and the Defense Test and Training Steering Group. The conferees further understand that the Navy Fleet commanders in chief have endorsed the JTCTS as their number two training range priority. The conferees also understand that the design of JTCTS provides a neck-down strategy for replacement of existing legacy training and test range instrumentation that will result in considerable savings when the planned transition to JTCTS begins in fiscal year 2000. The conferees strongly support the development and fielding of common training and test range instrumentation systems for the Air Force and the Navy and encourage the Secretary of Defense to ensure the maintenance of the schedule for development of JTCTS. The results of the program assessment directed in the House Report (H. Rept. 105-132) and any revisions to the program baseline, funding requirements, and schedule should be forwarded to the congressional defense committees by January 31, 1998.

Marine Corps communications systems

The budget request included \$38.3 million to support development of Marine Corps communications systems.

The House bill would authorize an increase of \$9.9 million to support development of Marine Corps communication system requirements. Of this amount, \$2.0 million was for the tactical handheld radio; \$1.5 million was for tactical remote sensors; \$0.7 million was for Marine common hardware suite (MCHS); \$1.0 million was for the tactical electronic reconnaissance processor and intelligence systems; \$5.0 million was for close-range unmanned aerial vehicle (UAV) data links; and a \$0.3 million decrement was for the TENCAP program.

The Senate amendment would authorize an increase of \$0.7 million for MCHS.

The conferees agree to authorize an increase of \$7.0 million for a total of \$45.3 million in PE 26313M. Of this amount, \$2.0 million

is for the tactical hand-held radios and \$5.0 million is for the close-range UAV data link.

Marine Corps ground combat/supporting arms systems

The budget request included \$12.6 million for Marine Corps ground combat system development initiatives.

The House bill would authorize an increase of \$5.0 million in PE 26623M. Of this amount, \$4.3 million would be used to integrate and test the AN/VVR-1 laser warning receiver on the M1A1 Abrams tank and \$0.7 million would be used to support the development of Marine Corps clothing requirements.

The Senate amendment would support the budget request.

The conferees agree to authorize an increase of \$2.1 million in PE 26623M for the integration and testing of the AN/VVR-1 laser warning receiver on the Marine Corps M1A1 tank.

Manufacturing technology programs

The budget request included no funds for the Navy's manufacturing technology (MANTECH) program.

The House bill would authorize funding for the MANTECH program through section 211 of Title II, as noted elsewhere.

The Senate amendment would authorize an increase of \$50.0 million in PE 78011N in order to address funding shortfalls in the MANTECH program for fiscal year 1998. The Senate amendment also required the Secretary of the Navy to provide a report to the congressional defense committees on his plan to strengthen and stabilize funding for the Navy MANTECH program.

The conferees agree to an increase of \$55.0 million in PE 78011N for the MANTECH program. The conferees are once again disappointed in the Navy's budget request for the manufacturing technology (MANTECH) program. The program has traditionally focused on making weapon systems and equipment more affordable through the application of advanced manufacturing methods to weapon systems production. In this time of severe budget constraints, the conferees expect the Navy to make every effort to pursue programs directed at lowering the long-term cost of weapon systems.

Overview

The budget request for fiscal year 1998 contained an authorization of \$14,451.4 million for Air Force, Research and Development in the Department of Defense. The House bill would authorize \$14,659.7 million. The Senate amendment would authorize \$14,302.3 million. The conferees recommended an authorization of \$14,338.9 million. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

Integrated High Payoff Rocket Propulsion Technology

The budget request included \$48.1 million for rocket propulsion technology in the Integrated High Payoff Rocket Propulsion Technology (IHRPT) initiative programs.

The House bill would authorize \$57.6 million for IHRPT programs, an increase of: \$6.0 million to PE 62601F; \$1.5 million to PE 63302F; \$1.0 million to PE 62111N; and \$1.0 million to PE 63217N.

The Senate amendment would authorize the budget request.

The conferees agree to authorize \$55.4 million for IHRPT initiative programs, an increase of: \$4.8 million to PE 62601F; \$1.5 million to PE 63302F; and \$1.0 million to PE 63217N.

Military Spaceplane

The budget request included no funds for the Military Spaceplane technology program.

The House bill would authorize an increase of \$15.0 million in PE 63302F for the Military Spaceplane program.

The Senate amendment would authorize an increase of \$10.0 million in PE 63401F for the Military Spaceplane program.

The conferees agree to authorize an increase of \$10.0 million for the Military Spaceplane program in PE 63401F.

Although the National Space Launch Policy assigns to NASA the lead for reusable launch vehicle development, the Department of Defense has been participating in such activities for many years. The Air Force has developed a military spaceplane program to complement NASA's efforts while focusing on specific military requirements and applications, a responsibility that does not reside with NASA. The Commander-in-Chief of U.S. Space Command is in the process of identifying military requirements for such a program and the Air Force has established a program office and a new program element to manage this activity. The Air Force is also working to include funding in the Future Years Defense Program for this effort. The conferees do not view these actions as duplicative of NASA's work on reusable launch vehicles.

The conferees believe that the Department of Defense should begin to define a military spaceplane concept that meets legitimate military requirements in the future while exploiting technological progress made in NASA's reusable launch vehicle program. The conferees direct the Secretary of Defense to provide a report describing the status of this effort to the congressional defense committees by February 15, 1998.

Solar thermionics orbital transfer vehicle

The budget request included no funds for the solar thermionics orbital transfer vehicle program.

The House bill would authorize an increase of \$20.0 million in PE 63401F for the solar thermionics orbital transfer vehicle program.

The Senate amendment would authorize an increase of \$10.0 million for this program.

The conferees agree to authorize an increase of \$7.5 million in PE 63401F for the solar thermionics orbital transfer vehicle.

The conferees have supported thermionics technology development for space applications. The solar powered orbital transfer vehicle has been identified by the Air Force as a Third Millennium initiative. This program combines thermionic technology for electricity production and thermal propulsion which can be used to move spacecraft to higher or new orbits.

Joint air-to-surface standoff missile/standoff land attack missile-expanded response

The budget request included \$9.6 million in PE 64312N and \$203.3 million in PE 27325F for development of the Air Force/Navy Joint Air to Surface Standoff Missile (JASSM) program and \$28.9 million in PE 64603N to continue development of the Navy's Standoff Land Attack Missile-Enhanced Response (SLAM-ER) program. The request also included \$21.7 million for procurement of 22 SLAM-ER missiles for the Navy.

The House bill and the Senate amendment would authorize the budget request for JASSM and for SLAM-ER.

The conferees direct the Secretary of Defense to include SLAM-ER plus and the two alternative systems that are funded in the JASSM program in the Analysis of Alternatives for JASSM.

Accordingly, the conferees agree to authorize \$5.5 million in PE 64321N and \$170.0 million in PE 27325F to continue the JASSM program, \$28.9 million in PE 64603N to continue the development of SLAM-ER, and \$21.7 million for SLAM-ER procurement.

The conferees note that the lack of agreement between the Navy and the Air Force on the conduct of the JASSM program calls for clear guidance from the Secretary of Defense. The Secretary has four obvious alternatives to examine that could have entirely different effects on future budgets.

(1) Develop JASSM to meet the operational needs of the Navy and the Air Force, with SLAM-ER not procured beyond an interim capability.

(2) Continue the JASSM program as a joint program for both the Navy and Air Force, while the Navy continues a separate development of SLAM-ER as currently planned.

(3) Develop separate programs for the Navy and the Air Force, with SLAM-ER as the Navy choice, and JASSM as the Air Force selection.

(4) Develop SLAM-ER as the single program for both the Air Force and the Navy.

The conferees direct the Secretary of Defense to review the SLAM-ER and JASSM programs and alternatives outlined above and to report to the congressional defense committees within 60 days of the enactment of this Act.

Major test and evaluation investment

The budget request included \$47.3 million in PE 64759F for major test and evaluation investment.

The House bill would authorize an increase of \$14.8 million for range improvement program/modernize range C41 capabilities.

The Senate amendment would authorize a decrease of \$6.0 million for infrastructure reduction.

The conferees agree to authorize an increase of \$10.0 million for the range modernization described in the House report (H. Report 105–132). The conferees also agree to a general reduction of \$3.0 million in PE 64759F.

Smart monitoring system

The budget request included \$5.9 million for pollution prevention in PE 65854F.

House bill would authorize an additional \$5.0 million in PE 65854F to expand Air Force demonstration efforts related to the smart monitoring system, a real-time monitoring technology for soil and groundwater contamination.

The Senate amendment would authorize the budget request. The conferees agree to authorize an increase of \$4.0 million in PE 65854F for the smart monitoring system.

Rocket Systems Launch Program

The budget request included \$8.0 million in PE 65860F for the Rocket Systems Launch Program (RSLP).

The House bill would authorize an increase of \$25.0 million for RSLP to support the launch of an Atmospheric Intercept Technology (AIT) demonstration payload.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$20.0 million for RSLP in support of the AIT program. The conferees direct the Ballistic Missile Defense Organization and the Air Force to develop a coordinated implementation plan for executing the RSLP and AIT budgets in order to maximize the benefit to the AIT program.

Cruise missile defense

The budget request included no funds to begin transitioning sensor technology from the Defense Advanced Research Projects Agency (DARPA) to the Air Force for insertion into the Airborne Warning and Control System (AWACS) or the Joint Surveillance Target Attack Radar System (JSTARS) for cruise missile defense.

The House bill would authorize the budget request.

The Senate amendment would authorize increases of \$10.0 million to PE 27417F to begin the necessary upgrades to AWACS, and \$10.0 million to PE 27581F to begin necessary upgrades to JSTARS.

The conferees agree to authorize an increase of \$3.0 million in PE 27581F to begin necessary upgrades to JSTARS for cruise missile defense.

Given the growing threat posed by cruise missiles, the conferees continue to support development of a comprehensive cruise missile defense architecture, integrated into DOD's overall air and theater missile defense efforts. Because counter cruise missile technologies have matured at DARPA, and because DARPA funding to support key sensor technologies ends in fiscal year 1998, the conferees strongly urge the Air Force to begin to integrate these technologies into operational platforms, specifically into the AWACS and JSTARS platforms. The conferees expect the Air Force to assume these two important initiatives. To support these efforts, the conferees encourage the Air Force to prepare expeditiously the report on cruise missile defense directed in the statement of managers accompanying the conference report on H.R. 2266 (H. Rept. 105-265). The conferees understand that the Air Force's report could conclude that the Air Force should apply additional funds to cruise missile defense upgrades to the AWACS or JSTARS programs during fiscal year 1998 beyond those approved in this Act. If that is the conclusion of the report, the conferees would be willing to entertain a request to reallocate funds within the AWACS or JSTARS programs, or to reprogram funds from other activities.

Overview

The budget request for fiscal year 1998 contained an authorization of \$9,069.7 million for Defense-Wide, Research and Development in the Department of Defense. The House bill would authorize \$9,611.0 million. The Senate amendment would authorize \$9,796.8 million. The conferees recommended an authorization of \$9,546.1 million. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

University research initiatives

The budget request included \$237.7 million in PE 61103D for university research initiatives including \$10.0 million for the Defense Experimental Program to Stimulate Competitive Research (DEPSCoR).

The House bill would authorize a decrease of \$13.0 million in PE 61103D: an increase of \$10.0 million for (DEPSCoR); and a decrease of \$23.0 million.

The Senate amendment would authorize \$20.0 million for DEPSCoR within the amount of the budget request.

The conferees agree to authorize an increase of \$10.0 million in PE 61103D for DEPSCoR in addition to the \$10.0 million in the amount of the budget request. The conferees also agree to a reduction, without prejudice, of \$20.0 million in PE 61103D.

Next generation internet

The budget request included \$40.0 million in PE 62110E for the Defense Advanced Research Projects Agency (DARPA) component of the Next Generation Internet (NGI) program.

The House bill would authorize an increase of \$15.0 million in PE 62110E for specific connectivity, functionality, services, and software among the applications communities and regional consortia to maximize the value of the services deployed under the NGI. The House bill would also direct the use of competitive procedures in the award of contracts, grants, or other transactions under the program and would encourage the use of cost-sharing where feasible.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$2.0 million in PE 62110E for the purposes discussed in the House report (H. Rept. 105-132). The conferees endorse the NGI program and support the concept of involving the applications communities, including federal agencies, state and local governments, academia, and the private sector, to incorporate networking technologies developed under the program to achieve capabilities beyond those of the current Internet infrastructure. The conferees also support the formation of cooperative agreements within the regional consortia established under the program to leverage the knowledge, skills, and methods of the individual members from government, industry, and academia. The conferees encourage DARPA to consider supporting, under the NGI program, industry and university consortia investigating and demonstrating ultra-high speed, optical time-division-multiplexed technologies for networks and interchanges.

Chemical and biological defense program

The budget request included \$530.9 million for the chemical and biological defense program (\$320.9 million for research, development, test and evaluation activities and \$210.0 million for procurement) and \$61.0 million for the Defense Advanced Research Projects Agency (DARPA) biological defense program.

The House bill would authorize an increase of \$16.6 million for the chemical/biological defense program in the following activities: a \$10.8 million increase in PE 62384BP to continue the SAFE-GUARD proof-of-concept multi-spectral sensor program; a \$1.5 mil-

lion increase in PE 63384BP for vaccine advanced development; a \$858,000 increase in PE 64384BP for vaccine development and a \$5.0 million increase in PE 63884BP to support on-going development efforts in detectors, decontamination equipment, and protective equipment for the Chemical-Biological Quick Reaction Force (CBQRF) and its components.

The Senate amendment would authorize an increase of \$6.5 million for the chemical-biological defense research and development program for the following activities: \$2.0 million for the development of a joint service prototype hybrid integrated sensor array for chemical and biological point detection; \$4.5 million to meet unfunded requirements for biological detectors for the Chemical-Biological Incident Response Force (CBIRF); would make \$1.5 million available from funds requested for PE 62383E for a study on the use of antibodies as medical defenses against biological agents; and would reduce the budget request for PE 62383E by \$6.5 million. Additionally, the amendment would recommend that \$16.1 million of fiscal year 1997 funds, identified by the Department of Defense as excess to the program because of the inability to execute the assembly of biological integrated defense systems (BIDS) until the end of fiscal year 1999, be used instead for unfunded research, development and procurement efforts in the chemical-biological defense program, counterproliferation and including counterterrorist efforts to protect against the use of weapons of mass destruction.

The conferees agree to authorize an increase of \$12.4 million to meet shortfalls in the chemical and biological defense program for research and development of detection capabilities, to include the following: \$10.5 million in PE 62384BP, of which \$3.0 million shall be available for the SAFEGUARD program; and a \$2.0 million increase in PE 61384BP to increase efforts in research and development of chemical/biological detection capabilities. The conferees also agree to a \$6.5 million reduction in PE 62383E.

To close gaps and funding shortfalls in medical defenses against biological agents, the conferees direct that \$1.5 million in PE 63384BP and \$858,000 in PE 64384BP be made available for vaccine development efforts, and that \$1.5 million in PE 62383E be made available to study the use of therapeutic human antibodies as medical defenses against biological agents. Additionally, the conferees direct the Secretary of Defense to submit the report required by the Senate report on the National Defense Authorization Act for Fiscal Year 1997 (S. Rept. 104-267) on the utility and possible benefits of this technology, by March 31, 1998.

The conferees have reviewed the Department of Defense March 1997 annual report to Congress on the nuclear, biological, and chemical defense program. The conferees understand that the Department has responded to all recommendations in the General Accounting Office's report NSIAD-96-102 "Chemical and Biological Defense: Emphasis Remains Insufficient to Resolve Continuing Problems." In addressing the recommendations of the GAO, the conferees believe that the Department is now better prepared to address the shortcomings that still exist in the U.S. armed forces' chemical-biological defense posture.

However, funding constraints in the Department's budget request could delay modernization and affect the training and readiness of the force. The conferees understand that the Joint Senior Leaders Course and the Toxic Agent Leader Training Course have been dropped from the Army Chemical School's training course list because of funding constraints. The conferees also understand that the Department lacks a mechanism to provide adequate information on the current status of chemical-biological defense training, equipment, and readiness. The conferees strongly recommend the incorporation of an assessment of chemical-biological defense training and readiness into the unit readiness reporting system and direct the Department of Defense to report to the congressional defense committees on steps that will be taken, in lieu of reinstating the training courses, to ensure that chemical-biological defense specialists maintain their expertise, and how units and senior leaders in the armed forces will maintain their proficiency in chemical-biological matters.

The Secretary of Defense recommended in the Quadrennial Defense Review that the Department increase funding by approximately \$1.0 billion over the program plan on counterproliferation, particularly for protective measures against chemical weapons. In response to that recommendation, the conferees expect that increased funding provided in fiscal year 1998 for chemical and biological defenses will be utilized in accordance with requirements identified as shortfalls by the Joint Staff and the Counterproliferation Program Review Committee (CPRC). Additionally, the conferees expect the fiscal year 1999 budget request, and subsequent budget requests, to reflect the recommendations contained in the QDR for increased funding levels for the chemical-biological defense program.

Despite congressional direction contained in the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103-160) that management and oversight of the chemical and biological warfare defense program and the chemical and biological medical defense be conducted by a single executive agent and program manager, the conferees understand from the Counterproliferation Program Review Committee's May 1997 "Report on Activities and Program for Countering Proliferation and NBC Terrorism" that "* * * beginning in FY98, [the Defense Advanced Research Projects Agency (DARPA) biological warfare defense program] will no longer be incorporated into the CBD [chemical-biological defense] Program management and oversight structure." The conferees direct the Secretary of Defense to ensure that the DARPA biological warfare defense program is coordinated and integrated under the program management and oversight of the Department's chemical-biological defense program.

The conferees understand that the Department's policies on anthrax vaccination of U.S. armed forces and support for other than U.S. armed forces are awaiting final approval, and that these decisions will affect total funding, vaccine production, and storage requirements. The conferees also note the impending award of a prime systems contract to develop new biological defense vaccines, pursue vaccine licensing, and produce stockpile vaccines to meet the Department's requirements.

The conferees understand that the Department of Defense is currently dependent upon a single source of supply for permeable chemical protective garment materials used in the joint service chemical protective suit and related chemical protective garments, and believe that the Department of Defense should consider taking those actions necessary to qualify additional sources of supply for these materials. The conferees direct the Secretary of the Army, as executive agent for the chemical-biological defense program, to report to the congressional defense committees on any plans to qualify additional sources for these materials.

The conferees direct the Secretary of Defense to address the above issues as specific areas of interest in the next annual report to Congress on the NBC defense program.

Tactical technology

The budget request included \$157.3 million in PE 62702E for tactical technology programs.

The House bill would authorize a decrease of \$43.9 million in PE 62702E.

The Senate amendment would authorize an increase of \$3.0 million to provide for lethality demonstration and the definition of a tactical configuration of the small low-cost interceptor device (SLID).

The conferees agree to authorize a decrease of \$16.0 million in PE 62702E: a general decrease of \$10.0 million; a decrease of \$3.0 million for the compact laser program; and a decrease of \$3.0 million for chemically specific detection. The conferees also agree to authorize \$3.0 million of funds available in PE 62702E for facial recognition technology.

The conferees urge the Defense Advanced Research Projects Agency to fund the SLID program in a manner to provide for the greatest likelihood of a rapid, successful transition to the Army.

Integrated command and control

The budget request included \$37.0 million in PE 62708E for integrated command and control technology.

The House bill would authorize an increase of \$23.0 million for flat panel display initiative/high definition systems.

The Senate amendment would authorize an increase of \$18.0 million for flat panel display technology.

The conferees agree to authorize an increase of \$12.0 million in PE 62708E for flat panel display technology. The conferees recommend that the program place increased emphasis on the demonstration of flat panel displays for various applications by the military services in order to facilitate the transition of the program to the services for military applications.

Materials and electronics technology

The budget request included \$192.1 million in PE 62712E for materials and electronics technology.

The House bill would authorize an increase of \$7.5 million in PE 62712E for 3-D microelectronics.

The Senate amendment would authorize an increase of \$15.5 million in PE 62712E: \$1.0 million for hard carbon coatings; \$7.5

million for seamless high off-chip connectivity (SHOCC); and \$7.0 million for mixed mode electronics multitechnology insertion (MIME).

The conferees agree to authorize the following increases in PE 62712E: \$5.0 million for 3-D microelectronics; \$1.0 million for hard carbon coatings; \$6.0 million for SHOCC; \$7.0 for MIME; \$6.0 million to continue the program for applied research in extreme ultraviolet lithography and fabrication of nanoelectronic structures as recommended in the House report (H. Rept. 105-132); \$4.0 million to accelerate the development of life support trauma and transport (LSTAT) and the joint service program for the test of the LSTAT that is being led by the Army as recommended in the House report (H. Rept. 105-132), and \$3.0 million for the development of technologies for cryogenic electronics and high temperature superconductivity as recommended by the House report (H. Rept. 105-132).

With regard to the LSTAT program, the conferees agree with the requirement in the House report (H. Rept. 105-132), which directs the Secretary of the Army to submit a report on the plan for completing the joint service test program and plans for fielding the LSTAT and other advanced battlefield life support and evacuation systems to the congressional defense committees with the submission of the defense budget request for fiscal year 1999.

Explosives demilitarization technology

The budget request included \$12.2 million for the explosives demilitarization program (PE 63104D).

The House bill would authorize an increase of \$3.0 million to maintain the level of funding necessary to permit the acceleration of promising technologies and the evaluation of additional alternative technologies in the explosives demilitarization program (PE 63104D) established in the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104-106).

The Senate amendment included a provision (sec. 235) that would direct the Secretary of Defense to conduct an explosive munitions demilitarization demonstration program, and using competitive procedures, conduct a demonstration using an existing, commercially available blast chamber technology as an alternative to open burning, open pit detonation of munitions; require the Secretary of Defense to submit to Congress, along with the fiscal year 2000 budget, a report on the results of the demonstration program and assessment of the relative benefits of the blast chamber technology with regard to levels of emissions and noise, and a cost benefit analysis of this technology. The provision would increase the budget request for the explosives demilitarization technology program by \$6.0 million for the demonstration program and reduce by \$6.0 million the budget request for the Army account for special equipment for user testing.

The Senate recedes.

The conferees agree to authorize an increase of \$4.0 million for the munitions standardization, effectiveness and safety program (PE 65805A) which shall be used for the explosives demilitarization technology program (PE 63104D) to maintain the level of funding necessary to permit the acceleration of promising technologies and to evaluate alternative technologies. The conferees understand that

commercial technology that utilizes blast chamber technology is available as a potential alternative technology to demilitarize old conventional ammunition. The successful demonstration of this technology could reduce the Army's reliance on open burning and open detonation.

The conferees direct that, from the authorized funds available to the program in fiscal year 1998, the Secretary of Defense shall conduct a demonstration program utilizing commercially available blast chamber technology and provide a report to the congressional defense committees no later than March 1, 1999 on the results of the demonstration program. The program shall be conducted using competitive procedures. The report shall include an assessment of the relative benefits of utilizing a blast chamber technology and the open burning, open pit detonation process with regard to the levels of emissions and noise that results from the use of these processes and a cost benefit analysis of this technology.

Counterterror technical support program

The budget request included \$34.8 million for the counterterror technical support program.

The House bill would authorize \$41.8 million, a \$7.0 million increase for safety devices and facial recognition technology.

The Senate amendment would authorize a \$20.0 million increase for research and development activities on structural response and mitigation, counterterrorist explosive research, demonstration of non-intrusive inspection technologies and facial recognition technology.

The conferees agree to authorize an increase of \$3.0 million for the counterterror technical support program for efforts to develop innovative technologies to protect U.S. forces and infrastructure against acts of terrorism. The conferees note that \$3.0 million is available for the facial recognition technology program within the defense tactical technology program (PE 62702E).

Collaborative efforts with allies who have demonstrated capabilities to counter terrorist acts, such as Israel and the United Kingdom, should remain a high priority for the United States. The tragic deaths of U.S. forces in Saudi Arabia as a result of terrorist attacks on structures where U.S. armed forces lived and worked highlight the urgent need for the Department of Defense (DOD) to examine options to retrofit existing structures and to develop design guidelines for new and existing structures. The conferees support recent collaborative efforts between the United States, Israel, and the United Kingdom, to strengthen existing structures against terrorist and ballistic missile attacks.

The budget request included \$13.0 million in the physical security equipment program (PE 63228D) to test and evaluate commercial equipment for force protection. The conferees believe that fiscal year 1998 funds in this program should be used to evaluate commercially available technology that may provide the DOD with options to retrofit existing structures, which would provide increased protection to U.S. forces against terrorist attacks.

While Congress has supported the funding for a Pulsed Fast Neutron Analysis (PFNA) technology program in prior years, the conferees are concerned about the Department's continued failure

to request funds for this activity. Based on issues raised by a recent General Accounting Office report on the PFNA system technology, the conferees agree with the recommendations in the House report (H. Rept. 105-32) that direct the Secretary of Defense and the Secretary of Treasury to conduct an assessment of the operational requirements for a PFNA cargo inspection system, and report to the Congress on the results of that assessment and the other issues raised by the House by December 31, 1997. Should there be a joint recommendation to continue the program, the conferees direct the Department to notify the congressional defense committees of its intention to use fiscal year 1998 funds in this program for that purpose.

Domestic emergency response to threats of terrorist use of weapons of mass destruction

The budget request included \$170.2 million for key Department of Defense programs to counter paramilitary and terrorist threats involving weapons of mass destruction. This total included \$49.5 million to improve emergency response preparedness and coordination with state and local agencies through First Responder training, interagency exercises and technical assistance.

The House bill would authorize increases of \$2.0 million in the counterterror technical support program (PE 63122D), \$5.0 million in the chemical/biological defense program (PE 63884BP), and a total of \$12.0 million in the counterproliferation support program (PE 65160D) for improvements in emergency response force equipment and training for response to potential terrorist use of weapons of mass destruction.

The Senate amendment would authorize the budget request. The amendment would also make available, from the verification and control technology activity of the Department of Energy budget for other defense activities, \$3.0 million for training and related activities to prepare Federal, State, and local First Responders to work effectively as part of the domestic emergency response program.

The House recesses.

The National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201) directed the President to take immediate action to enhance the capability of the Federal government to prevent and respond to terrorist incidents involving weapons of mass destruction, and to provide enhanced support to improve the capabilities of state and local emergency response agencies to prevent and respond to such incidents at both the national and local levels. The President's assessment and those actions taken at the interagency level and within the Department of Defense are detailed in the President's January 1997 report to the Congress and in the Department of Defense May 1997 report to Congress, "Domestic Preparedness Program in the Defense against Weapons of Mass Destruction."

The conferees note the actions taken to date to enhance emergency domestic preparedness and response to terrorist nuclear, biological, or chemical attacks under the Department's counterproliferation support program and the chemical-biological defense program. The conferees support the Department's budget

request to continue these efforts in domestic emergency response preparedness through First Responder training and assistance to metropolitan area authorities, improvement of the Department's rapid chemical and biological response capabilities, and the conduct of preparedness exercises in coordination with Federal, state, and local agencies.

Public Law 104-201 requires the Secretary of Defense to establish and maintain at least one chemical-biological domestic terrorism rapid response team. The conferees direct the Secretary of the Army, as executive agent for the domestic emergency response program, to ensure that the plans, programs, and budget of the Chemical-Biological Quick Reaction Force (CBQRF) and its components are reviewed to ensure full coordination and integration of participating DOD assets. The conferees also direct the Assistant to the Secretary of Defense (Nuclear, Chemical, and Biological Defense Program) to ensure that all research, development, and acquisition efforts in support of the CBQRF and its components are fully integrated and coordinated within the Department's chemical and biological defense program.

The conferees note that an interagency training strategy is being developed that would initially focus training under the domestic emergency response preparedness program on professional emergency response organizations in the 27 cities and metropolitan areas identified by the Federal Bureau of Investigation as being at particularly high risk, and would complete First Responder training for 126 major metropolitan areas and cities within three years. The training program and priorities must be coordinated with State emergency management directors. The conferees agree with the overall need to establish training priorities, but recommend that emphasis also needs to be placed on training the local volunteer emergency First Response organizations that make up the majority of the nation's emergency response forces. The conferees also believe that in addition to the "train the trainer" approach being used in the existing program, an exportable training package should be developed that is oriented toward the training of volunteer emergency First Responders.

The conferees endorse the use of training exercises to test and improve consequence management response capabilities, but believe that the exercise site requirements should be based on the training and exercise needs of the agencies to be exercised, site capabilities, frequency of use, and proximity to participating agencies. The conferees encourage the development of an overall coordinated training exercise strategy similar to that developed for training by the Senior Interagency Group.

Responding to domestic emergencies has been identified in the report of the Quadrennial Defense Review (QDR) as an appropriate mission for the National Guard. Consistent with the President's January 1997 report to the Congress and the May 1997 Department of Defense report on "Domestic Preparedness Program in the Defense against Weapons of Mass Destruction," the conferees direct the Secretary of Defense to report to the congressional defense committees on the status of any plans for assigning the National Guard a role in countering chemical and biological terrorism in the United States. The report should define any such missions of the

National Guard and how that role complements other Federal, State, and local authorities with similar responsibilities; the cost for developing the capability for National Guard personnel to train State and local First Responders; the cost for chemical and biological technology and equipment; and the need to develop appropriate response plans, while avoiding unnecessary duplication.

The conferees direct the Secretary of Defense, in coordination with the Director of the Federal Emergency Management Agency and the Director of the Federal Bureau of Investigation, to provide an annual assessment of progress in the domestic emergency response preparedness program. The report should be submitted to the congressional defense committees beginning with the fiscal year 1999 budget request and extending through fiscal year 2001.

Counterproliferation support program

The budget request included \$65.3 million for the counterproliferation support program (PE 63160D).

The House bill would authorize an increase of \$3.0 million to continue the counterproliferation mission analysis and planning system (CAPS).

The Senate amendment would authorize an increase of \$20.0 million to the budget request for the following activities: \$3.0 million for the high frequency active auroral research program (HAARP), \$1.0 million for development of a portable trace element detection system; \$6.0 million to continue the SAFEGUARD proof-of-concept multi-spectral sensor program; and \$10.0 million to continue the CAPS program. In addition, the amendment would recommend a \$7.0 million increase to the budget request for U.S. Special Operations Command (USSOCOM) operations and maintenance for equipment to detect, and destroy underground facilities, and for training activities to destroy, render safe, transport or recover weapons of mass destruction from deep underground structures.

The conferees agree to authorize an increase of \$10.0 million to the budget request for the counterproliferation support program (PE 63160D) to continue CAPS (\$7.0 million) and HAARP (\$3.0 million). The conferees also agree to a \$7.0 million increase to the budget request for USSOCOM operations and maintenance for WMD equipment and training.

The conferees agree to a separate provision, described elsewhere in this report, that would allow the Secretary of Defense to reprogram up to \$50.0 million from amounts authorized for fiscal year 1998 for unfunded shortfalls in key counterproliferation capabilities or other areas where more counterproliferation progress can be achieved with additional funding.

In addition to the reprogramming notifications required by law, the conferees direct the Secretary of Defense to notify the congressional defense committees 30 days in advance of its intent to obligate or expend fiscal year 1998 funds not authorized by this Act for counterproliferation activities. The notification shall include the purpose for which the funds are to be utilized, and a certification that the activity addresses a shortfall in existing and programmed capabilities to counter the proliferation of weapons of mass destruction (WMD) or their means of delivery, as identified by the Com-

manders in Chief (CINCs) and the Counterproliferation Program Review Committee (CPRC).

Ballistic Missile Defense Organization funding

The budget request included approximately \$2.6 billion for the Ballistic Missile Defense Organization (BMDO) for research, development, test, and evaluation (RDT&E). The budget request also included \$386.4 million in procurement funds formerly managed by BMDO that were transferred to the military services. As addressed elsewhere in this report, the conferees have agreed to include a legislative provision requiring that these procurement funds be transferred back to BMDO. In addition, the conferees have agreed to specifically authorize these procurement funds in their original BMDO program elements. Consistent with these changes, the following direction addresses these fiscal year 1998 procurement funds as part of the budget request for BMDO. Funding direction regarding BMDO military construction is located elsewhere in this report. Specific programmatic and funding guidance is provided below.

BMDO FUNDING ALLOCATION

¹ Following submission of the budget request, the Department of Defense submitted a revised fiscal year 1998 budget request for THAAD of \$353.4 million for Dem/Val and no funds for EMD.

² Transfer to Cooperative BMD.

LOW COST LAUNCH TECHNOLOGY

The budget request included no funds to support low cost launch technologies, such as pressure fed engine technology.

The House bill would authorize an increase of \$15.0 million in PE 63302F for development of the Scorpius low cost launch concept.

The Senate amendment would authorize an increase of \$10.0 million in PE 63173C for low cost launch technology development, including the Scorpius concept.

The conferees agree to authorize an increase of \$5.0 million in PE 63173C and an increase of \$5.0 million in PE 63401F for low cost launch technology, including the Scorpius and Excalibur concepts.

THEATER HIGH ALTITUDE AREA DEFENSE SYSTEM

The budget request included \$556.1 million for the Theater High Altitude Area Defense (THAAD) program, of which \$294.6 million was included in PE 63861C and \$261.5 million was included in PE 64861C. The Department of Defense, after an analysis of the THAAD program by the Quadrennial Defense Review, submitted an amended budget request of \$353.4 million in PE 63861C and no funding in PE 64861C.

The House bill would authorize the original budget request in PE 63861C and \$306.5 million in PE 64861C.

The Senate amendment would authorize \$353.4 million in PE 63861C and no funds for THAAD in PE 64861C.

The conferees agree to authorize \$406.1 million in PE 63861C for THAAD and no funds in PE 64861C.

The conferees express their continued strong support for THAAD and believe that fielding THAAD as expeditiously as possible is a matter of highest priority.

The conferees understand that the funding added for THAAD demonstration and validation will be used for extensive risk reduction activities to put the program on sounder technical and programmatic footing when it enters engineering and manufacturing development (EMD) in fiscal year 1999.

The conferees also support DOD efforts to contain program cost growth that could result from schedule delays and technical complications. The conferees expect the Secretary of Defense to review the full range of cost control options applicable to the EMD phase of the program, including, but not limited to, options involving competition and leader-follower. The conferees direct the Secretary of Defense to submit a report on the results of this review to the congressional defense committees by March 15, 1998.

The conferees continue to note their concern over long delays in the THAAD program. In the wake of the Gulf War, Congress directed the deployment of effective theater missile defenses at the earliest possible date. The THAAD program was initiated in calendar year 1992 and deployment originally planned for the mid-1990s. Yet BMDO now supports a 14-year development program, with a first unit equipped (FUE) in calendar year 2006, arguing that a 12-year development program entails excessive programmatic and schedule risks.

The conferees understand that the most recent THAAD schedule supported by BMDO includes a number of opportunities to accelerate the program, depending on the technical progress. The conferees continue to believe that rapid deployment is critical to meet well understood warfighter requirements, and that every reasonable effort should be made to achieve an FUE in calendar year 2004. The conferees direct the Secretary of Defense to take all appropriate budgetary and programmatic steps for fiscal year 1998 to ensure that the program can be accelerated if opportunities arise to do so.

The conferees are also concerned that a delay in the program will adversely affect THAAD EMD and procurement funding in the FYDP. The conferees direct the Secretary of Defense to submit a

FYDP that fully funds a THAAD program oriented toward the earliest possible deployment, consistent with moderate program risk.

NAVY UPPER TIER (THEATER WIDE)

The budget request included \$194.9 million in PE 63868C for the Navy Upper Tier theater missile defense system.

The House bill would authorize an increase of \$150.0 million for the Navy Upper Tier program.

The Senate amendment would authorize an increase of \$80.0 million for the Navy Upper Tier program.

The Senate recesses.

The conferees are concerned that the Department of Defense still has not thoroughly assessed the feasibility of accelerating the currently planned Navy Upper Tier deployment date of fiscal year 2008. Noting numerous administration statements attaching high priority to TMD programs, the conferees direct the Secretary of Defense to report to the congressional defense committees no later than February 15, 1998, on the cost and technical feasibility of options for a more robust Navy Upper Tier flight test program, the earliest technically feasible deployment date, and costs associated with such a deployment date.

NATIONAL MISSILE DEFENSE

The budget request included \$504.1 million in PE 63871C for the National Missile Defense (NMD) program. Following the budget submission, and pursuant to the Quadrennial Defense Review, the Secretary of Defense requested that the NMD budget request be increased by \$474.0 million for fiscal year 1998.

The House bill and Senate amendment would authorize an increase of \$474.0 million for the NMD program.

The conferees agree to authorize an increase of \$474.0 million for the NMD program.

The conferees have expressed concern for some time that the NMD program has been underfunded. The Department of Defense has acknowledged this funding shortfall and recommended an increase of \$474.0 million in fiscal year 1998, and approximately \$2.3 billion over the years of the Future Years Defense Program (FYDP). The conferees note that this does not include any funding for the actual deployment of an NMD system.

Although the conferees are pleased that the Secretary of Defense has sought to rectify NMD funding shortfalls, they are disappointed that it has taken so long. Even with significant congressional increases over the last two years, the NMD program remains high risk, largely due to the administration's failure to adequately fund robust testing activities. Unfortunately, the addition of \$474.0 million in fiscal year 1998 will do little in the near-term to compensate for this problem. The conferees are concerned by the lack of detail accompanying the Secretary of Defense's request to increase the NMD program budget by \$2.3 billion over the FYDP. In addition, the conferees are not satisfied with the degree of information provided to date on how past NMD funding increases have been spent. Therefore, the conferees direct the Secretary of Defense to submit a report to the congressional defense committees by February 15, 1998, providing a detailed accounting of how NMD funds

have been spent since the beginning of fiscal year 1996 and a detailed plan for the allocation of NMD funding in the FYDP. In addition, the Secretary shall provide a detailed description of the cost estimating and cost control mechanisms in place within DOD for the NMD program, and an assessment of whether they are adequate.

The conferees believe that BMDO should continue to understand issues associated with sea-based NMD options. The conferees are aware of analysis that shows that a version of the Navy Upper Tier TMD system could be employed in an NMD role. Therefore, the conferees direct the Director of BMDO to submit a report to the congressional defense committees by February 15, 1998, describing whether and how the Navy Upper Tier program could be upgraded in the future to provide a limited NMD capability. The report should address the technical issues associated with a sea-based NMD option as well as costs associated with such a concept. The report should also address whether and, if so, how a sea-based NMD system could be integrated into and supplement a ground-based NMD system, whether and, if so, how a sea-based system would provide needed additional capabilities in support of the requirements for the existing NMD program, and whether such a system would comply with the ABM Treaty.

COOPERATIVE BALLISTIC MISSILE DEFENSE PROGRAM

The budget request included \$38.7 million for the Arrow Continuation Experiments/Arrow Deployability (ACES/ADP) program (PE 63872C), \$12.9 million for the Unmanned Aerial Vehicle Boost Phase Intercept (UAV BPI) program (PE 63870C), and \$16.5 million for the Tactical High Energy Laser (THEL) program (PE 63308A), all of which are U.S.-Israeli cooperative missile defense programs. The budget request included no funding for the Russian American Observation Satellite (RAMOS) program and the Active Plasma Experiment (APEX) program, both of which are cooperative Russian-American programs.

The House bill would authorize \$123.1 million in a new BMDO program element (63XXXX) for cooperative international BMD programs, including \$48.7 million for the Arrow program, an increase of \$10.0 million; the budget request for the UAV BPI program; \$38.2 million for THEL, of which \$15.0 million was a funding increase and another \$6.7 million was to be funded by BMDO administrative accounts; and \$30.0 million for RAMOS and APEX.

The Senate amendment would authorize \$53.7 million for Arrow in PE 63872C, an increase of \$15.0 million; \$17.9 million for UAV BPI in PE 63870C, an increase of \$5.0 million; \$51.5 million for THEL in PE 63308A, an increase of \$35.0 million; and no funding for RAMOS or APEX.

The conferees agree to authorize \$50.7 million for Arrow in PE 63872C, an increase of \$10.0 million; \$16.4 million for UAV BPI in PE 63870C, an increase of \$3.5 million; \$51.0 million for THEL in PE 63308A, an increase of \$34.5 million; \$13.0 million for RAMOS in PE 63173C; and \$8.0 million for APEX in PE 63173C.

The House recedes on its initiative to create a new cooperative BMD PE for fiscal year 1998. A legislative provision to create a new cooperative BMD program element for fiscal year 1999 is de-

scribed elsewhere in this report. The conferees expect that these programs and other appropriate programs will be managed through this new cooperative BMD program element.

SPACE-BASED LASER

The budget request included \$28.9 million in PE 63173C for the Space Based Laser (SBL) program.

The House bill would authorize the budget request for the SBL program.

The Senate amendment would authorize an increase of \$118.0 million for the SBL program.

The conferees agree to authorize an increase of \$98.0 million for the SBL program, for a total of \$126.9 million in fiscal year 1998.

The conferees strongly endorse the recommendation of BMDO's SBL Independent Review Team (IRT) to proceed on a low risk path leading to the launch of an ABM Treaty compliant Readiness Demonstrator (RD) in fiscal year 2005. In a letter of August 15, 1997 to the Senate Majority Leader, the Secretary of Defense confirmed that SBL technology "has reached a level of maturity enabling us to focus on integration issues that could lead to a future space demonstration of a sub-scale vehicle." The conferees believe that such an SBL-RD can be developed and launched without violating the ABM Treaty. Proceeding with an SBL-RD will not commit the United States to development or deployment of an operational SBL system, but will preserve this option for future consideration.

The conferees support the management structure that has been established for the SBL program, with the Air Force acting as the executive agent for BMDO, but believe that the Air Force must program a share of the funding needed to develop and launch the SBL-RD. The conferees understand that the Air Force leadership is committed to such a cost-sharing arrangement and look forward to this commitment being reflected in the fiscal year 1999 budget request and in future Air Force Program Objective Memorandum (POM) submissions. The conferees also understand that the Secretary of Defense is considering options for increasing funding for the SBL program in the BMDO budget. The conferees recognize that full funding of the SBL-RD program will allow a much more efficient and lower risk program. Therefore, the conferees strongly urge the Secretary of Defense to explore all possible means of including the full SBL-IRT recommended funding profile for a fiscal year 2005 launch in the combined BMDO and Air Force Future Years Defense Program (FYDP), starting with the fiscal year 1999 budget request.

The conferees direct that all funds authorized to be appropriated for the SBL program in fiscal year 1998 be managed with the principal objective of developing an SBL-RD capable of being launched in fiscal year 2005. The conferees further direct that all funds authorized to be appropriated in fiscal year 1998 for the SBL program be directly executed by the Commander of the Air Force Space and Missile Systems Center (SMC).

The conferees recognize that the Commander of SMC may recommend that some limited amount of critical and potentially high payoff SBL technology research and development be continued even

if it does not directly support the SBL–RD. However, due to the overarching priority of launching the SBL–RD in fiscal year 2005, the conferees direct that obligation of SBL funds for such activities be limited, and only occur following consultation with the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives.

The conferees direct the Commander of SMC to establish promptly an SBL–RD baseline, to include a set of technical objectives and requirements, a contracting strategy, a system design, a program schedule, and a funding profile that would support a launch in fiscal year 2005. The conferees understand that the SBL–IRT focused primarily on a single SBL–RD design. However, the conferees support the steps taken by the Commander of SMC to rapidly assess technical and contractual options that may allow a treaty compliant SBL–RD to be developed and launched more rapidly and affordably. To ensure that the focus of the program remains on a fiscal year 2005 launch, the conferees expect to be consulted prior to the adoption of any excursions from the SBL–IRT recommended baseline.

The conferees note that the SBL–IRT concluded that a new integrated test facility is an essential and relatively long-lead element of the SBL–RD effort. Therefore, the conferees direct the Commander of SMC to proceed expeditiously in fiscal year 1998 with the selection of a site for such a facility. The Commander of SMC shall include the requirements, costs, and schedule for this facility in the SBL–RD baseline, as well as an assessment of the cost effectiveness of continuing to operate other SBL test facilities such as the one at Capistrano, California.

The conferees direct the Secretary of Defense to submit a report on the status of the SBL–RD baseline, and related issues, to the congressional defense committees by March 1, 1998.

Strategic environmental research and development program

The budget request included \$54.9 million in PE 63716D for the Strategic Environmental Research and Development Program (SERDP).

The House bill would authorize an increase of \$3.0 million in PE 63716D to pursue projects that focus on the elimination of toxic materials and solvents from explosives and other energetic materials.

The Senate amendment would authorize the budget request.

The conferees agree to authorize an increase of \$3.0 million in PE 63716D for the purpose of developing environmentally benign energetic materials.

Advanced electronics technologies

The budget request included \$277.0 million in PE 63739E for advanced technology development of a variety of electronics technologies.

The House bill would authorize an increase of \$6.0 million for research in extreme ultraviolet (EUV) lithography and fabrication of nanoelectronic structures and an increase of \$15.0 million for the transition of the x-ray lithography program from the Defense Advanced Research Projects Agency (DARPA) to the Navy.

The Senate amendment would authorize an increase of \$23.0 million to continue the proximity x-ray lithography program and an increase of \$2.0 million to complete the point-source x-ray lithography program in fiscal year 1998. The Senate amendment would also decrease by \$3.0 million the amount of funding authorized in project MT-06.

The conferees agree to authorize an increase of \$18.0 million for the proximity x-ray lithography program and an increase of \$2.0 million to complete the point-source x-ray program in fiscal year 1998. The conferees also agree to decrease by \$4.0 million the amount authorized for project MT-06.

The conferees agree to authorize an increase of \$6.0 million in PE 62712E for EUV lithography as discussed elsewhere in the Statement of Managers for the National Defense Authorization Act for Fiscal Year 1998.

The conferees endorse the views expressed in the House report (H. Rept. 105-132) regarding the need to ensure a smooth transition of the proximity x-ray lithography program from DARPA to the Navy and the private sector. The conferees direct, therefore, that Naval Air Systems Command be appointed executive agent for the program and that all funds expended for research and development of proximity x-ray, and related technologies, be coordinated through and meet the program priorities of the Naval Air Systems Command and the Naval Research Laboratory. The conferees urge the Navy to coordinate research in cross-cutting technologies between the proximity x-ray program, and related technologies, and the DARPA sub-tenth micron advanced lithography program. The conferees endorse the Senate report requirement (S. Rept. 105-29) that the Navy prepare and submit a plan to expeditiously complete the transition of the program to industry with fieldable technology. The plan must be submitted to the congressional defense committees no later than 180 days after the date of enactment of this Act.

Electronic commerce resource centers

The budget request included \$14.9 million in PE 63753S for electronic commerce resource centers (ECRC).

The House bill would authorize the budget request.

The Senate amendment would authorize an increase of \$3.0 million in PE 63753S for the establishment of a new ECRC.

The conferees agree to authorize an increase of \$6.0 million in PE 63753S: \$3.0 million for the establishment of a new center, as discussed in the Senate report (S. Rept. 105-29); and \$3.0 million for the establishment of an additional center. The conferees direct that all applicable competitive and merit-based procedures be used in the award of contracts, grants, or other agreements under this program, and that cost-sharing requirements for non-federal participants be utilized where appropriate.

Land warfare technologies

The budget request included \$82.58 million in PE 63764E for land warfare technologies advanced technology development.

The House bill would authorize an increase of \$6.6 million in PE 63764E for the active structural control program and \$14.0 mil-

lion for the DP-2 vectored thrust program. The House bill would also authorize a \$9.0 million reduction in PE 63764E.

The Senate amendment would authorize an increase of \$4.4 million for the active structural control program.

The conferees agree to authorize an increase of \$5.4 million for the active structural control program. The conferees also agree to a decrease of \$5.0 million in PE 63764E for the small unit operations program.

The conferees are aware of recent progress in the activities related to the DP-2 vectored thrust program. The Office of Naval Research has recently sponsored the vectored thrust program and prior year funds were transferred from the Defense Advanced Research Projects Agency for this purpose. The conferees encourage the Navy to reprogram additional funds to support this program should initial testing prove successful.

Defense Reconnaissance Support Activities

The budget request included \$49.4 million in PE 35159I for Defense Reconnaissance Support Activities.

The House bill would direct the Department of Defense to discontinue, not later than October 1, 1999, the Defense Space Reconnaissance Program (DSRP) and close the Defense Space Program Office (DSPO).

The Senate amendment contained no such direction and would authorize the budget request.

The House recedes.

The conferees agree that there appears to be an overly bureaucratic management of space reconnaissance support to military operations. The DSPO was established in 1981 to provide management support and oversight of programs which improve satellite reconnaissance support to the operational military commander. DSPO was established as an overt liaison between the then unacknowledged National Reconnaissance Office (NRO) and the military services. After public acknowledgment of the NRO, the Director of the NRO: (1) established direct support to military operations as a core function of the Office; and (2) created the NRO position of Deputy Director, Military Support to manage this function and the DSPO organization.

The conferees believe the Department needs to review the need for continuing the DSPO in light of the NRO's public acknowledgment and its stated military support mission. Further, the conferees believe that the position of Deputy Under Secretary of Defense for Space provides the additional civilian oversight necessary to ensure the effective application of space support to the military services.

Therefore, the conferees believe the Secretary of Defense should determine whether there is a need to retain the DSPO management organization and the DSRP program it manages. The conferees note that such a determination could benefit from the advice of the Task Force on Defense Reform. The conferees direct the Secretary to report to the congressional defense and intelligence committees on the results of his determination by March 1, 1998.

Special operations tactical systems development

The budget request included \$73.1 million to support special operations tactical systems development (PE 116404BB).

The House bill would authorize the budget request.

The Senate amendment would authorize an increase of \$2.7 million to support special operations tactical systems.

The conferees agree to authorize the transfer of \$36.4 million from special operations shipbuilding procurement to the advanced SEAL delivery system (ASDS) to address funding shortfalls. The conferees are concerned about the significant problems associated with development and management over the life of the ASDS program. The conferees have been notified of the program shortfalls and corrective actions implemented by the Navy to bring this program back on track. The conferees agree to support the Navy request to use available procurement funds to support proposed corrective actions and expect the Navy to improve its oversight of this important program. The conferees are aware that a realignment of funds will be made in the fiscal year 1999 budget request to complete ASDS-1. The conferees direct that, prior to February 15, 1998, the Secretary of the Navy report to the congressional defense committees on the total projected costs of the ASDS, the estimated date of construction completion, and adjusted plans for sea trials and initial operating capability. In addition, the report shall include the Future Years Defense Program funding for the ASDS program.

The conferees agree to authorize a total of \$109.5 million in PE 116404BB.

Special operations intelligence systems development

The budget request included \$4.9 million to support special operations intelligence systems development.

The House bill would authorize an increase of \$3.0 million to support the mission familiarization virtual reality project and an additional increase of \$5.0 million for the special operations forces intelligence vehicle.

The Senate amendment would authorize an increase of \$4.0 million to develop the joint threat warning system.

The conferees agree to authorize an increase of \$6.0 million for special operations system development. Of this amount, \$3.0 million is for the special operations forces intelligence vehicle and \$3.0 million is for the joint threat warning system.

ITEMS OF SPECIAL INTEREST

Army research institute

The conferees note the continuing needs of the Army for analyses related to personnel recruitment and training as well as issues related to gender and racial integration. The conferees note the studies in these areas carried out by the Army Research Institute and urge the Army to consider its requirements for further research before taking action to reduce further the activities of the Institute.

Aviation advanced technology

The budget request included \$31.3 million for aviation advanced technology in PE 63003A. The conferees encourage the Army, with the funds available, to consider exploring the potential operational value and key technical issues related to an integrated manned and unmanned aerial vehicle scout team.

BOL expendable dispenser system

The conferees are aware of the important survivability enhancement that the BOL expendable dispenser system provides our operational F-14 aircraft, and the potential capability that the system may provide for other aircraft.

The Congress provided approximately \$18.0 million in fiscal year 1997 for final testing and qualification of the BOL on the F/A-18C/D aircraft. The conferees understand that progress in testing and qualification has been slow, despite the Navy's expressed desire to accelerate the program for the F/A-18C/D. The conferees direct the Secretary of the Navy to report to Congress with the submission of the fiscal year 1999 budget on the results of the Navy's assessment and intentions regarding qualification and potential fielding the BOL system on the F/A-18C/D aircraft.

Department of Defense science and technology program

Today, U.S. military forces have the capabilities to deploy anywhere in the world, sustain forward presence indefinitely, and win decisively on any battlefield. Those capabilities are a direct result of investments in research and technology sustained over the last 50 years. Such investments have played a crucial role in the development of advanced technologies and in the education and training of scientific personnel required to support the technological advances necessary for maintaining military superiority.

The conferees note with concern the continuing reduction in the funding in real terms for science and technology programs in the Department of Defense, especially in the programs of the services. Because military forces will be smaller in the future, effective application of technology will be even more critical for battlefield superiority. Investments in defense science and technology programs should be strengthened in recognition of this reality. The conferees urge the Department to include a robust level of funding for science and technology programs in the request for fiscal year 1998.

High temperature superconductor power applications

The conferees understand that the Navy is pursuing large-scale applications of high temperature superconductors (HTS) for electric drive ship propulsion and other applications. The conferees also note that the Submarine Technology Assessment Panel, commissioned by the Assistant Secretary of the Navy (Research, Development and Acquisition), recommended in its final report that the Navy focus research and development efforts to ensure the maturity of the superconducting technology and the incorporation of electric drive into a submarine design as soon as feasible. In light of the initiation of the Navy development and production of the New Attack submarine, SC-21 and CV(X), and the progress real-

ized by the commercial sector in the development and application of this technology and its potential benefits, the conferees encourage the Navy to consider this technology for widespread use in propulsion and auxiliary equipment. The conferees direct the Secretary of the Navy to submit a report to the congressional defense committees, no later than March 1, 1998, that describes the results of the tests conducted on the prototype HTS motor.

Improving collaboration between the Department of Defense and the Department of Energy laboratories

The conferees endorse the direction given on pages 425 and 426 of the Senate report (S. Rept. 105-29) regarding the establishment of a pilot program proposal for direct collaboration between the Department of Defense and the Department of Energy laboratories and sites. However, in order to provide for a more focused program, the conferees direct that the Under Secretary of Defense for Acquisition and Technology need only work in consultation with the Assistant Secretary of Energy for Defense Programs in preparing the pilot proposal.

Interferometric synthetic aperture radar

Forward deployed U.S. armed forces have a need for up-to-date and highly accurate maps that provide three-dimensional location of targets, including altitude, latitude, and longitude, and for reconstruction of terrain in a three-dimensional setting for planning combat missions. The conferees understand that an airborne interferometric synthetic aperture radar (IFSAR) has the potential to provide imagery of one foot resolution and digital terrain elevation data (DTED) at DTED level 4.

The conferees understand that the Army and the Defense Advanced Research Projects Agency recently demonstrated an airborne IFSAR during operations in support of U.S. ground forces in Bosnia. The test system is relatively small and for test purposes was flown on a business jet, which proved satisfactory in Bosnia. To operate in a major regional contingency, however, U.S. armed forces would require a larger, more capable system, flying at higher altitudes.

The conferees direct the Secretary of Defense and the Intelligence community to study the costs, feasibility, and potential capability gains of placing an IFSAR on a U-2 or high altitude endurance unmanned aerial vehicle, and to report the results of this analysis to the congressional defense committees with the submission of the fiscal year 1998 budget request.

Naval biodynamics laboratory data bank

For nearly thirty years, the NBDL focused on the intensive test, study, and analysis of the human body's response to the trauma of crashes, and developed a national data bank of collective human crash response information based on approximately 3,500 crash tests using live human subjects. In 1996, the NBDL ceased operations as a result of previous decisions to close the laboratory, but was not able to consolidate and safely store its research information in a consistent, useful data bank format. The conferees believe that the effort spent in amassing the unique human response

data by the NBDL should not be lost. Accordingly, the conferees direct the Secretary of the Navy to develop a plan that establishes a national crash survival data bank that will safeguard the integrity of the data gathered by the NBDL and to submit a report on the plan and the funding required to establish the data bank with the fiscal year 1999 Department of Defense budget request.

Strategic systems industrial capabilities

The Department of Defense has consistently highlighted the need to maintain certain industrial base skills and technologies unique to strategic programs. The conferees support the efforts that the Department and the services have made to ensure that these technologies and skills are maintained for future uses. The conferees support Air Force efforts with respect to specialized materials, such as 2-2-3 carbon/carbon, that may be needed for future space and other applications. The conferees urge the Secretary to review the Future Years Defense Program to ensure that Strategic Systems specialized industrial base issues are adequately funded.

Telemedicine

The conferees have a continuing interest in telemedicine and in the promise that the application of telemedicine technology holds for improvements in the health care of service members on the battlefield, at sea, and in military and civilian health care facilities. The conferees are aware that the General Accounting Office (GAO) in its February 1997 report "Telemedicine: Federal Strategy is Needed to Guide Investments" concluded that telemedicine has the potential to revolutionize the way health care is delivered and that recent increased interest in telemedicine technology has resulted in widespread applications throughout the United States. However, the GAO also concluded that no overarching, government-wide strategy exists to ensure that the most is gained from federal telemedicine efforts. The conferees believe that because the Department of Defense (DOD) is one of the major federal investors in telemedicine and manages one of the nation's largest health care systems, it would be in a good position to help forge an overall telemedicine strategy. A first step in this direction would be the development of a department-wide telemedicine strategy.

The conferees strongly recommend that the Secretary of Defense develop and submit to the congressional defense committees by March 31, 1998, an overarching telemedicine research and development and operation strategy. The strategy should clearly define the scope of telemedicine in the Department, establish DOD-wide goals and objectives, and identify actions and appropriate milestones for achieving them; prioritize and target near- and long-term investments, especially for goals related to combat casualty care and operations other than war; and clarify the roles of DOD oversight organizations. The conferees also recommend that the Secretary coordinate with the Joint Working Group on Telemedicine in the development of national goals and objectives for telemedicine.

LEGISLATIVE PROVISIONS ADOPTED

Subtitle A—Authorization of Appropriations

Dual-use technology program (sec. 203)

The House bill contained a provision (sec. 203) that would direct the Department of Defense to fund the dual-use science and technology program in fiscal year 1998 as a percentage of the science and technology program of each of the services.

The Senate amendment contained a provision (sec. 216) that would establish a set of goals with increasing levels of funding for new starts in the applied research accounts of the military services to be devoted to dual-use projects in each of fiscal years 1998, 1999, and 2000. Under the provision, the dual-use projects entered into by the military services would have to require a minimum cost-share of 50 percent from non-federal participants in order to count toward meeting the specified goal. The provision would also assign oversight responsibility for implementation of dual-use technologies to an official who would report directly to the Under Secretary of Defense for Acquisition and Technology.

The House recedes with an amendment that would increase the goals set in the Senate provision and impose the percentages to the entire applied research accounts of the military services rather than new starts within those accounts for each of fiscal years 1998, 1999, 2000, and 2001. The provision would also place restrictions on the proportion of in-kind contribution in the non-federal cost-share for dual-use projects that would be applied toward meeting the goals. Finally the provision would specifically authorize \$50.0 million for the Commercial Operations and Support Initiative (COSSI) and \$75.0 million for the dual-use science and technology projects in fiscal year 1998. The conferees direct that the funds authorized for the COSSI program in fiscal year 1998 be used only to complete projects under existing agreements and that no new solicitation under the COSSI program be initiated until fiscal year 1999.

The conferees direct the Secretary of Defense to submit to the congressional defense committees, at the time of the budget request for each of the fiscal years for which a goal applies under the provision, a report on the plans for the program for the fiscal year of the request. The report should provide sufficient detail with respect to funding allocations, priorities, and technology development goals for both the science and technology program and the COSSI program to allow Congress to make an informed decision on the request.

Subtitle B—Program Requirements, Restrictions, and Limitations

Manufacturing technology program (sec. 211)

The House bill contained a provision (sec. 211) that would amend section 2525 of title 10, United States Code, through fiscal year 2000, to establish a funding requirement for the manufacturing technology (MANTECH) program of 0.25 percent of the amount available for demonstration and validation, engineering and manufacturing development, operational system development, and pro-

curement programs of the Army, the Navy, the Air Force, and Defense Agencies, or the amount authorized by law for manufacturing technology projects of the military departments and defense agencies, whichever amount is greater. The provision would also require an annual report to Congress through fiscal year 2000.

The Senate amendment contained a provision (sec. 231) that would amend section 2525(c)(2) of title 10, United States Code, to clarify the rationale for the requirement that the Department seek the participation of manufacturers of manufacturing equipment in the projects under the MANTECH program.

The House recedes with an amendment that would include the requirement for the Secretary of Defense to prepare a five year plan for the MANTECH program that establishes manufacturing technology goals, milestones, and priorities, the investment strategy for the program, annual program objectives, and annual funding for the program by defense agencies and the military departments.

The conferees strongly endorse the Department of Defense manufacturing technology program. The program provides "seed funding" for the development of moderate to high risk material, process, and equipment technology to enable production of advanced, high quality weapons systems with shorter lead times and reduced acquisition costs. The conferees also endorse the need to stabilize the funding level for the MANTECH program and eliminate the uncertainty in annual funding that has reduced the program's effectiveness and efficiency. The conferees believe that the program's objectives, investment strategy, and funding level must be closely tied to the manufacturing technology and process requirements of the various Defense acquisition programs. To achieve this goal and to maintain the Department of Defense MANTECH program at the funding level needed to assure the availability of advanced manufacturing technology and processes, the conferees recommend that the Secretary establish a funding target for the program of at least 0.25 percent of the amount programmed by each of the military departments and defense agencies for their demonstration and validation, engineering and manufacturing development, operational system development, and procurement programs.

Report on operational field assessments program (sec. 212)

The House bill contained a provision (sec. 220) that would require the Secretary of Defense to submit to the Congress no later than March 30, 1998 a report on the operational field assessments program, including a description of future plans for the program and funding requirements for planned activities under the program.

The Senate amendment contained no similar provision, but authorized an increase of \$8.0 million in PE 65118D for operational field assessments in fiscal year 1998.

The Senate recedes with an amendment that would require the Secretary of Defense to report to the Congress on the manner in which the operational field assessment program plan will ensure responsiveness to the mission needs of the commanders of the unified combatant commands. The conferees agree to authorize an in-

crease of \$4.0 million in PE 65118D to support operational field assessments in fiscal year 1998.

Joint Strike Fighter Program (sec. 213)

The Senate amendment contained a provision (sec. 211) that would require the Secretary of Defense to submit a report to the congressional defense committees on the options for the sequence in which the variants of the Joint Strike Fighter (JSF) are to be produced and fielded.

The House bill contained no similar provision.

The House recedes with an amendment that would include a requirement for certification that the JSF program contains sufficient funding to carry out an alternate engine program that includes flight qualification of an alternate engine.

Kinetic energy tactical anti-satellite technology program (sec. 214)

The Senate amendment contained a provision (sec. 218) that would authorize \$80.0 million in PE 63892D to continue the Kinetic Energy Tactical Anti-Satellite (KE-ASAT) program in fiscal year 1998. The provision would also prohibit the obligation of funds in PE 65104D, relating to technical studies and analyses, until the funds appropriated for the KE-ASAT program for fiscal year 1998 have been released to the KE-ASAT program manager.

The House bill contained no similar provision.

The House recedes with an amendment that would authorize \$37.5 million for the KE-ASAT program for fiscal year 1998.

The conferees understand that the administration maintains that there is no military requirement for the KE-ASAT program and that the Department of Defense does not support it. However, there appears to be some confusion regarding the Department's support for some degree of KE-ASAT technology development. The Department of Defense's recent Space Control Architecture study appears to endorse continued development of KE-ASAT technology, and the National Space Policy appears to call for the development of active counter-satellite capabilities.

In light of these factors, the conferees direct the Secretary of Defense to submit a report to the congressional defense committees by February 15, 1998, to include the following: (1) a determination as to whether the National Space Policy and DOD Space Policy establish requirements for the development of active counter-satellite capabilities; (2) a summary of the DOD Space Control Architecture study, including any updates to the study, and the study's findings and recommendations regarding the KE-ASAT program; and (3) a determination by the Secretary as to whether the Department of Defense should develop active counter-satellite capabilities and, if so, whether the Secretary intends to sustain some level of KE-ASAT technology development. The report shall be submitted in an unclassified form and, if necessary, in a classified form.

The conferees note that fiscal year 1997 funds remain available for the KE-ASAT program. The conferees continue to support the development of KE-ASAT technology.

Micro-satellite technology development program (sec. 215)

The Senate amendment contained a provision (sec. 219) that would authorize \$50.0 million in PE 63401F for the Clementine 2 program. The provision would also prohibit the obligation of more than \$35.0 million of funds authorized in PE 64480F for the Global Positioning System Block IIF satellite system until the Secretary of Defense certifies to Congress that the Secretary has made available for obligation funds appropriated for fiscal year 1998 for the Clementine 2 Micro-Satellite program.

The House bill contained no similar provision.

The House recedes with an amendment that would require: (1) that the Clementine 2 program be restructured into a micro-satellite technology development program that supports a range of space mission areas; and (2) the Secretary of Defense to provide a report on the restructured micro-satellite program to the congressional defense committees.

The conferees note that the Air Force and U.S. Space Command have supported micro-satellite development activities and that the Air Force has established and provided a limited amount of funding for such a program in the Future Years Defense Program. The conferees continue to support innovative technology demonstrations designed to test key technologies in space and urge the Secretary of Defense to ensure that the restructured micro-satellite technology program continues such efforts. The conferees note that the Air Force, in conjunction with the office of the Deputy Undersecretary of Defense for Space, has developed a range of options for such a program. The conferees believe that funds appropriated for the Clementine 2 program in prior years should be used to support the restructured micro-satellite program.

High altitude endurance unmanned vehicle program (sec. 216)

The Senate amendment contained a provision (sec. 213) that would impose a cost cap on the High Altitude Endurance Unmanned Aerial Vehicle (HAE UAV) program at the levels requested in the fiscal year 1998 budget request.

The House bill contained no similar provision.

The House recedes with an amendment that would clarify the reporting requirement of the provisions and the certification requirements for the program.

F-22 aircraft program (sec. 217)

The Senate amendment contained a provision (sec. 212) that would impose cost caps on both the total cost of engineering and manufacturing development (EMD) and the total cost of production of the F-22. Additionally, the Senate amendment would require an annual report by the Comptroller General that would assess the progress of EMD and its prospect of completion under the cost cap. The annual report would be required until EMD is complete. Finally, the Senate amendment would limit the obligation of funds authorized to be appropriated each fiscal year to 90 percent until the Comptroller General's annual report is submitted.

The House bill contained no similar provision.

The House recedes with an amendment that would allow adjustments to the cost caps for economic inflation and compliance with laws enacted after September 30, 1997.

Subtitle C—Ballistic Missile Defense Programs

National Missile Defense Program (sec. 231)

The Senate amendment contained a provision (sec. 225) that would require the Secretary of Defense to structure the National Missile Defense (NMD) program to support an integrated NMD system test in fiscal year 1999. The provision would also require the Secretary of Defense to prepare a plan for the development and deployment of an NMD system that could achieve initial operational capability in fiscal year 2003. Finally, the provision would authorize \$978.1 million for NMD in fiscal year 1998.

The House bill contained no similar provision.

The House recedes.

Budgetary treatment of amounts for procurement for ballistic missile defense programs (sec. 232)

The House bill contained a provision (sec. 231) that would require future budget requests for procurement of the National Missile Defense program and for core theater missile defense programs to be within the accounts of the Ballistic Missile Defense Organization (BMDO) rather than in the accounts of the military services.

The Senate amendment contained a provision (sec. 226) that would direct the Secretary of Defense to transfer ballistic missile defense program procurement funds previously managed by the Ballistic Missile Defense Organization from military service accounts back to their original BMDO procurement accounts.

The Senate recedes with an amendment that combines the House and the Senate provisions.

Cooperative Ballistic Missile Defense program (sec. 233)

The House bill contained a provision (sec. 232) that would establish a Cooperative Ballistic Missile Defense Program within the Ballistic Missile Defense Organization (BMDO), to support on-going and future technical and analytical cooperative efforts between the United States and other nations that contribute to U.S. missile defense capabilities.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would provide the Secretary of Defense discretion to exclude certain ballistic missile defense acquisition programs from the cooperative ballistic missile defense program element. The conferees understand that BMDO has developed plans for the creation of a dedicated cooperative ballistic missile defense program element and look forward to this new program element in the fiscal year 1999 budget request.

Annual report on the threat posed to the United States by weapons of mass destruction, ballistic missiles, and cruise missiles (sec. 234)

The House bill contained a provision (sec. 234) that would direct the Secretary of Defense, in consultation with the Director of

Central Intelligence, to prepare and submit to Congress by January 30 of each year, a report on threats posed to the United States and its allies by cruise missiles, ballistic missiles, and weapons of mass destruction, and the proliferation of such technologies.

The Senate amendment contained no similar provision.
The Senate recesses.

Director of Ballistic Missile Defense Organization (sec. 235)

The House bill contained a provision (sec. 235) that would require that the Director of the Ballistic Missile Defense Organization (BMDO) carry the grade of lieutenant general or general or, in the case of an officer of the Navy, vice admiral or admiral. It would also require that the Director of BMDO report directly to the Secretary of Defense.

The Senate amendment contained no similar provision.

The Senate recesses with an amendment that would permit the appointment of a civilian official of equivalent grade as Director of BMDO and eliminate the requirement that the Director report directly to the Secretary of Defense.

The conferees direct the Secretary of Defense to ensure that the director of BMDO is accorded full access to the Secretary and all other senior Department of Defense officials on matters pertaining to the management of ballistic missile defense programs for which the director has responsibility.

Repeal of required deployment dates for core theater missile defense programs (sec. 236)

The House bill contained a provision (sec. 233) that would amend section 234(a) of the Ballistic Missile Defense Act of 1995 by eliminating deployment dates for certain core theater missile defense (TMD) programs and modifying the deployment date for the Theater High Altitude Area Defense (THAAD) program. The provision also made technical and conforming changes to section 234(a).

The Senate amendment contained no similar provision.

The Senate recesses with an amendment that would eliminate all deployment dates for core TMD programs from section 234(a) of the Ballistic Missile Defense Act of 1995.

The conferees continue to support the earliest possible deployment of effective theater missile defenses, consistent with acceptable program risk, as a matter of high national priority. The conferees believe that the mandated deployment dates made clear the high priority attached by Congress to all four core theater missile defense programs. These dates and congressional funding increases have propelled the Navy Area Theater Ballistic Missile Defense program into engineering and manufacturing development and the Patriot Advanced Capability-3 (PAC-3) program into procurement. Congressionally mandated deployment dates were also motivated by the Department of Defense's failure to commit firmly to a deployment schedule for the Navy Theater Wide and THAAD programs that would result in deployment of these vital capabilities at the earliest opportunity consistent with acceptable technical and program risk.

Henceforth, the conferees anticipate that a statement of congressional intent concerning the management of the core TMD pro-

grams will be issued annually. The conferees believe that the flexibility of annual statements will allow for rigorous and effective congressional oversight.

Subtitle D—Other Matters

Restructuring of National Oceanographic Partnership Program organization (sec. 241)

In signing the National Defense Authorization Act for Fiscal Year 1997, the President issued a statement that the statute's method for the appointment of certain members of the National Ocean Leadership Council would violate the Appointments Clause of the Constitution. Although the statement provided that the Council should not exercise significant governmental authority, the administration allowed the Council to be convened with the 12 members whose appointment did not raise any constitutional issue, pending the enactment of corrective legislation.

The House bill contained a provision (sec. 214) that would amend section 7902 of title 10, United States Code, to provide that the President, or his designee, shall appoint members of the National Ocean Research Council who are not already government officers, to represent the views of the ocean industries, state governments, and academia, and such other views as the President considers appropriate.

The Senate amendment contained a provision (sec 234) that would amend section 7902(b) to revise the membership of the Council by removing those members whose appointment would raise constitutional questions. The National Ocean Leadership Council would remain as currently established by the administration, with members representing the 12 Federal agencies with significant oceanographic interest. The provision also recommended that the membership of the Council's Ocean Research Advisory Panel be expanded to include representatives from the National Academy of Sciences, the National Academy of Engineering, and the Institute of Medicine, as well as government, academia, and the oceans industry.

The House recedes with an amendment that would clarify the role of the Ocean Research Advisory Panel with regard to membership and responsibilities.

Maintenance and repair of real property at Air Force installations (sec. 242)

The House bill contained a provision (sec. 215) that would amend chapter 949 of title 10, United States Code, by adding a new provision to permit the use of both research, development, test, and evaluation funds and operations and maintenance funds for maintenance and repair of real property at Air Force installations.

The Senate amendment contained no similar provision.
The Senate recedes.

Expansion of eligibility for the defense experimental program to stimulate competitive research (sec. 243)

The House bill contained a provision (sec. 216) that would amend section 257 of the National Defense Authorization Act for Fiscal Year 1995 (Public Law 103-337) to ensure the eligibility of the Commonwealth of Puerto Rico and other U.S. territories to participate in the Defense Experimental Program to Stimulate Competitive Research.

The Senate amendment contained a similar provision (sec. 233).

The House recedes.

Bioassay testing of veterans exposed to ionizing radiation during military service (sec. 244)

The House bill contained a provision (sec. 217) that would authorize \$300,000 for the Nuclear Test Personnel Program conducted by the Defense Special Weapons Agency.

The Senate amendment contained a similar provision (sec. 220) that would authorize \$300,000 for the Nuclear Test Personnel Program conducted by the Defense Special Weapons Agency for the third phase of bioassay testing of radiation-exposed veterans who participated in radiation-risk activities, and would direct the collection of samples by the appropriate department of agency appropriate agency, and the transfer under appropriate chain of custody to the Brookhaven National Laboratory.

The House recedes with an amendment that would authorize \$300,000 for the Nuclear Test Personnel Program from funds authorized for the Defense Special Weapons Agency to conduct the third phase of bioassay testing of veterans exposed to ionizing radiation during their military service.

The conferees agree that neither the Brookhaven National Laboratory, nor the Defense Special Weapons Agency (DSWA), have the capability to collect the samples from the veterans who participated in the United States atmospheric nuclear testing program or the occupation of Hiroshima and Nagasaki, Japan. Therefore, the conferees direct the appropriate department or agency, with access to the veterans who participated in these activities, to collect the required bioassay samples and transfer them to Brookhaven National Laboratory under the appropriate chain of custody.

Sense of Congress regarding Comanche program (sec. 245)

The House bill contained a provision (sec. 218) that would express support for Comanche program technology transfer and acquisition efforts.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would express the sense of Congress that the Department of Defense should evaluate potential technology transfer and acquisition initiatives within the Army Comanche program that have the potential to increase the efficiency of the program or reduce risk. If the Department identifies an initiative with merit, the conferees expect that funding will be identified for the initiative in the future years defense program.

LEGISLATIVE PROVISIONS NOT ADOPTED

Strategic environmental research and development program

The House bill contained a provision (sec. 212) that would direct the Secretary of Defense to submit a report on the Strategic Environmental Research and Development Program (SERDP) by February 28, 1998. In relation to each SERDP project, the report would specify the following: (1) defense-unique and mission-relevant aspects; and (2) certify that it does not duplicate other environmental research, development, and demonstration efforts of other government entities or organizations.

The Senate amendment contained no similar provision.

The House recedes.

The conferees have been advised by the Department of Defense that technologies funded through SERDP are carefully screened to identify projects that may duplicate efforts within the Department. The conferees direct the Department of Defense to ensure that every effort is made to avoid redundant research and development efforts in the area of environmental technology.

Tactical unmanned aerial vehicles

The House bill contained a provision (sec. 213) that would prohibit the obligation of funds for the Outrider Advanced Concept Technology Demonstration (ACTD) program.

The Senate amendment contained no similar provision.

The House recedes.

The conferees are disappointed with the progress of the Outrider ACTD program to date. The conferees believe that the program has suffered irreparably from unstable and ambiguous joint requirements and note that the program appears to be on a path to failure with respect to its operational capabilities. In the future, the conferees will look less favorably on ACTD programs that are not limited demonstrations of mature technologies, but rather thinly veiled attempts to evade the regular order of the acquisition process.

Accordingly, the conferees agree to authorize \$45.0 million for completion of the Outrider ACTD development and user activities, but not procurement of operational Outrider systems. Moreover, the conferees agree to authorize these Outrider ACTD activities in PE 63003A, Advanced Aviation Technology program.

Land attack standard missile

The House bill contained a provision (sec. 219) that would authorize an increase of \$10.0 million increase in PE 63795N for flight test demonstration and risk reduction activities for the Land Attack Standard Missile. In addition, the provision would decrease PE 63217N (Air Systems and Weapons Advance Technology) by \$5.0 million and PE 63508N (Ship Hull Mechanical and Electrical Technology) by \$5.0 million.

The Senate amendment contained no similar provision.

The House recedes. The conferees agree to authorize an increase of \$3.0 million in PE 63795N for the Land Attack Standard Missile as discussed elsewhere in this report.

Tactical High Energy Laser program

The House bill contained a provision (sec. 236) that would transfer the Tactical High Energy Laser (THEL) program from the Department of the Army to the Ballistic Missile Defense Organization, and authorize \$38.2 million for THEL in fiscal year 1998.

The Senate amendment contained no similar provision.

The House recesses. Fiscal year 1998 funding for THEL is addressed elsewhere in this report.

Advanced anti-radiation guided missile program

The Senate amendment contained a provision (sec. 214) that would authorize the Secretary of the Navy to use up to \$25.0 million of the amount authorized for fiscal year 1997 for the advanced anti-radiation guided missile (AARGM) program to fund fiscal year 1998 research development, test, and evaluation programs of the Navy that have a higher priority.

The House bill contained no similar provision, but would authorize an increase of \$35.0 million in PE 25601N to continue the AARGM program.

The Senate recesses.

The conferees share the concerns expressed in the House report (H. Rept. 105-132) that the high degree of concurrency in the schedule for development and demonstration of the AARGM results in increased risk to the program and that a more sequential development program may be warranted. Accordingly, the conferees reiterate the guidance in the House report (H. Rept. 105-132) that the Secretary of the Navy conduct an independent assessment of the program plan, development and demonstration schedule, program execution, technical performance, and program risk. The Secretary shall report the results of the assessment to the congressional defense committees by March 31, 1998. The report should also include the Secretary's recommendations regarding the objectives of the program, revisions to the program schedule, and the funding required to complete the program.

Federally funded research and development centers

The Senate amendment contained a provision (sec. 215) that would prohibit the Department of Defense (DOD) from funding more than 6,206 staff years of technical effort for federally funded research and development centers (FFRDC's) out of the funds authorized to be appropriated for the DOD for fiscal year 1998.

The House bill contained no similar provision.

The Senate recesses.

Department of Defense/Veterans' Administration cooperative research program

The Senate amendment contained a provision (sec. 221) that would authorize \$15.0 million for the Department of Defense/Veterans Administration (DOD/VA) cooperative research program from the funds authorized to be appropriated for research, development, test, and evaluation for defense agencies in fiscal year 1998.

The House bill contained no similar provision.

The Senate recesses.

The conferees agree to authorize \$15.0 million in PE 63738D for the Cooperative DOD/VA Medical Research Program of which \$4.5 million is authorized for the Persian Gulf illness clinical trials program discussed on page 161 of the House report (H. Rept. 105-132). The conferees direct that all applicable competitive, merit-based procedures be used in the award of contracts, grants or other agreements under the Cooperative DOD/VA Medical Research Program. The conferees further direct the Secretary of Defense to ensure that any Department of Defense funds authorized for fiscal year 1998 program be expended for research on the medical problems of men and women associated with military service.

Multitechnology integration in mixed-mode electronics

The Senate amendment contained a provision (sec. 222) that would authorize an increase of \$7.0 million for multitechnology integration in mixed-mode electronics (MIME) research. The Senate provision would reduce by an equal amount the funds authorized to be appropriated for procurement for the reserve components of the armed services and made available for special equipment for user testing.

The House bill contained no similar provision.

The Senate recesses.

The conferees agree to authorize an increase of \$7.0 million in PE 62712E for applied research in MIME technology, as discussed elsewhere in this report.

Facial recognition technology program

The Senate amendment contained a provision (sec. 223) that would authorize an increase of \$5.0 million for a facial recognition technology program.

The House bill contained no similar provision, but would authorize \$5.0 million for a facial recognition technology program in the counterterror technical support program (PE 63122D).

The Senate recesses. The conferees agree to authorize \$3.0 million for a facial recognition technology program in the defense tactical technology program (PE 62702E).

Explosives demilitarization technology

The Senate amendment included a provision (sec. 235) that would direct the Secretary of Defense to conduct an explosive munitions demilitarization demonstration program, and using competitive procedures, conduct a demonstration using an existing, commercially available blast chamber technology as an alternative to open burning, open pit detonation of munitions; require the Secretary of Defense to submit to Congress, along with the fiscal year 2000 budget, a report on the results of the demonstration program and assessment of the relative benefits of the blast chamber technology with regard to levels of emissions and noise, and a cost benefit analysis of this technology. The provision would increase the budget request for the explosives demilitarization technology program by \$6.0 million for the demonstration program and reduce by \$6.0 million the budget request for the Army account for special equipment for user testing.

The House bill contained no similar provision.

The Senate recesses.

The conferees agreed to authorize an increase of \$4.0 million for the munitions standardization, effectiveness and safety program (PE 65805A) from which a demonstration program utilizing commercially available blast chamber technology may be conducted, and is described elsewhere in this title.

TITLE III—OPERATION AND MAINTENANCE

Overview

The budget request for fiscal year 1998 contained an authorization of \$93,195.7 million for Operation and Maintenance in the Department of Defense and \$2,163.4 for Working Capital Fund Accounts in fiscal year 1998. The House bill would authorize \$92,616.2 million for Operation and Maintenance and \$2,153.6 for Working Capital Fund Accounts. The Senate amendment would authorize \$93,292.9 million for Operation and Maintenance and \$1,488.1 for Working Capital Fund Accounts. The conferees recommended an authorization of \$93,794.2 million for Operation and Maintenance and \$2,031.9 for Working Capital Fund Accounts for fiscal year 1998. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

ITEMS OF SPECIAL INTEREST

Arms control implementation

The budget request included \$315.1 million for arms control implementation programs in the military services and the Department of Defense. This request is based on anticipated dates of implementation of the various arms control treaties.

The House bill would authorize a decrease of \$25.5 million, which would result in an \$11.2 million reduction to the On Site Inspection Agency (OSIA) operations and maintenance account and a \$14.3 million reduction to the Defense Special Weapons Agency (DSWA) verification demonstration technology program (PE 63711H). These reductions were due to slippage in the entry into force of the Open Skies Treaty, the Strategic Arms Reduction Treaty II, the Comprehensive Test Ban Treaty (CTBT), and non-implementation of the Bilateral Destruction Agreement (BDA).

The Senate amendment would authorize a decrease of \$20.0 million, which would result in a \$10.0 million reduction to the OSIA operations and maintenance account and a \$10.0 million reduction to the DSWA verification demonstration technology program.

The conferees agree to authorize a decrease of \$25.5 million to the budget request for arms control implementation for fiscal year 1998, as follows: \$11.2 million for the OSIA operations and maintenance account; and \$14.3 million for the DSWA verification technology demonstration program (PE 63711H).

The conferees direct the Department of Defense to provide the congressional defense committees with a program plan for the nuclear control technology research program (PE 63711H) in support of the CTBT, and include the estimated costs. The Department should also include in the report its assessment of recommendations by the National Research Council on research deemed to be necessary to meet nuclear test monitoring goals, and how the nuclear arms control technology activity meets congressionally mandated objectives. The conferees are willing to provide adequate funding for programs that would enable the United States to independently monitor and detect nuclear test activities worldwide and fulfill its obligations under a comprehensive test ban, if and when that treaty enters into force, and do not wish the funding reduction to nuclear control technology activities (PE 63711H) to be misconstrued.

National Defense Sealift Fund (NDSF)

The budget request included \$812.9 million in the National Defense Sealift Fund (NDSF) for sealift acquisition. Of this amount, \$581.3 million would be for the procurement of two large medium speed roll-on/roll-off (LMSR) strategic sealift ships, \$131.5 million for resolution of cost growth that has occurred on LMSRs authorized in prior years, \$70.0 million for advance procurement of components for an LMSR that is planned for authorization in fiscal year 1999, and \$30.1 million for completion of ships authorized in prior years.

The House bill would authorize a decrease of \$9.8 million.

The Senate amendment would authorize a decrease of \$651.3 million for procurement and for advance procurement of LMSRs. The Senate amendment would also authorize a decrease of \$25.0 million because of contract savings in previously authorized and appropriated NDSF programs. In addition, the Senate amendment would authorize an increase of \$1.0 million to provide support for a Department of Defense study of future requirements and specifications for maritime prepositioning force recapitalization.

The conferees agree to authorize \$581.3 million for procurement of two LMSRs, \$70.0 for advance procurement, and \$30.1 million for completion of prior year ships. The conferees further agree to a decrease of \$131.5 million which includes a decrease of \$131.0 million for prior year cost growth, which the conferees believe can be deferred until fiscal year 1999; and a decrease of \$0.5 million as a result of fiscal year 1997 contract savings.

National imagery and mapping agency

The budget request included \$680.3 million in Operations and Maintenance, Defensewide, for the Joint Military Intelligence Program portion of the National Imagery and Mapping Agency (NIMA).

The House bill would authorize the following: (1) a reduction of \$30.0 million for production and customer support on the grounds that migration to the Digital Processing System should have resulted in significant reductions in operations and maintenance costs; (2) a reduction of \$10.0 million for mission support in anticipation of significant cost reductions as a result of various mission and organization consolidations; (3) a reduction of \$15.0 million to accelerate the downsizing of NIMA's personnel consistent with the Digital Processing System phase-out; and (4) a reduction of \$23.2 million for continued research and development efforts for an interferometric synthetic aperture radar (IFSAR) mission on board the Space Shuttle to collect Digital Terrain Elevation Data (DTED) level 2 information for mapping because of a belief that other, more cost-effective, commercial alternatives to the IFSAR mission exist.

The Senate amendment would authorize the budget request.

The conferees agree to authorize the following reductions, as reflected in the Classified and Intelligence line within Operations and Maintenance, Defensewide: \$35.0 million in production; \$11.0 million in mission support; \$15.0 million in management and customer support; and \$3.2 million for the Shuttle IFSAR mission, with the remaining funding to be used to fund commercial alternatives to the shuttle DTED mapping mission if the NIMA Director determines that such alternatives are cost- and mission-effective, or to continue preparation for the shuttle mission. The conferees also agree to authorize the budget request for NIMA civilian personnel. The conferees direct the Director of NIMA to submit the personnel plan specified in the House report (H. Rept. 105-132).

Travel re-engineering

The House report (H. Rept. 105-132), which raised concerns over the compliance by the Department of Defense with section 356 of the National Defense Authorization Act for Fiscal Year 1996,

would direct the Secretary of Defense to comply with the reporting requirement in that section, and would prohibit the Department from processing a Request for Proposal. The conferees are aware that the Secretary of Defense has now complied with the reporting requirement, and note that the Request for Proposal has been released.

The House report also expressed concern about the impact of any new system on small and medium-sized travel agencies and the possible restriction of fair competition in the travel industry. The challenge facing the Department is to automate a largely unautomated and expensive travel system. The conferees expect the Secretary of Defense to ensure that this effort to automate the system will be interoperable with existing commercial systems to ensure that small and medium-sized travel agencies continue to have an equal opportunity to compete to provide actual travel services, and will incorporate the best business practices of the commercial travel industry. According to the schedule provided by the Department of Defense, system testing in Region 6 will occur during the second quarter of fiscal year 1998.

The conferees direct the Secretary of Defense to report to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives, not later than May 1, 1998, the lessons learned as a result of establishing the Defense Travel System in Region 6. This report shall include, at a minimum: industry response to the Request for Proposal; the performance measures that were used to evaluate the system testing; the cost of the Region 6 program, including infrastructure development, software development, hardware acquisition, and administration; the quantitative and qualitative benefits of the program; the plan for integrating the Defense Travel System in other regions; any differences between the Region 6 contract and those anticipated for subsequent expansion to other regions; and the evaluation plan for full implementation.

LEGISLATIVE PROVISIONS ADOPTED

Subtitle A—Authorization of Appropriations

Fisher House trust funds (sec. 304)

The House bill contained a provision (sec. 1006) that would provide permanent authorization for the expenditure of funds from the Fisher House trust fund.

The Senate amendment contained a provision (sec. 305) that would authorize \$150,000 to be appropriated from the Fisher House Trust Fund, Department of the Army, and \$150,000 to be appropriated from the Fisher House Trust Fund, Department of the Navy. No funds were authorized to be appropriated from the Fisher House Trust Fund, Department of the Air Force.

The House recedes with an amendment that would increase the amount authorized to be appropriated from the Army Fisher House Trust Fund to \$250,000.

Refurbishment of M1A1 tanks (sec. 306)

The House bill contained a provision (sec. 306) that would authorize \$35.0 million for the refurbishment of M1A1 tanks at the Anniston Army Depot under the Department of the Army's Abrams Integrated Management XXI (AIM XXI) program if the Secretary of Defense determines that the program is cost effective.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would not require this work to be performed at the Anniston Army Depot.

Operation of prepositioned fleet, National Training Center, Fort Irwin, California (sec. 307)

The House bill contained a provision (sec. 313) that would provide funding associated with the operation of the preposition fleet of equipment used by Army units during training rotations at the National Training Center (NTC).

The Senate amendment contained no similar provision.

The Senate recedes.

The conferees are concerned with the Department of the Army's decision to change the way unit rotations to the NTC are funded. Currently, the Army provides funding to the National Training Center from a central account to defray the costs associated with units' use of pre-positioned equipment at the NTC. Under a new Army proposal, starting in fiscal year 1998, units scheduled to go to the NTC would have to pay for the use of the pre-positioned equipment out of the funds provided for home station training. The conferees believe that this would have a detrimental impact upon unit readiness as home station training, and thus total training, was reduced.

Refurbishment and installation of air search radar (sec. 308)

The House bill contained a provision (sec. 305) that would authorize \$6.0 million for the refurbishment and installation of the AN/SPS-48E air search radar for the Ship Self-Defense Systems at the Integrated Ship Defense Systems Engineering Center, Walllops Island, Virginia.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would make the provision permissive.

Contracted training flight services (sec. 309)

The Senate amendment contained a provision (sec. 371) that would authorize \$12.0 million for contracted training flight services.

The House bill contained no similar provision.

The House recedes.

Procurement technical assistance programs (sec. 310)

The House bill contained a provision (sec. 307) that would authorize \$15.0 million for a consolidated Procurement Technical Assistance Center (PTAC) and the Electronic Commerce Resource Center (ECRC) programs.

The Senate amendment contained a provision (sec. 821) that would authorize \$12.0 million for the PTAC program.

The House recesses.

Operation of Fort Chaffee, Arkansas (sec. 311)

The Senate amendment contained a provision (sec. 306) that would authorize \$6.854 million for the operation of Fort Chaffee, Arkansas.

The House bill contained no similar provision.

The House recesses.

Subtitle B—Military Readiness Issues

Monthly reports on allocation of funds within operation and maintenance budget subactivities (sec. 321)

The House bill contained a provision (sec. 312) that would require the Secretary of Defense to notify and receive approval from the congressional defense committees prior to the reallocation of operation and maintenance funds above a certain threshold.

The Senate amendment contained no similar provision.

The Senate recesses with an amendment that would require the Department of Defense to provide a monthly report to Congress outlining the reallocation of funds within the operation and maintenance accounts and the effect of this reallocation on the ability of the Department to perform the functions for which the funds were originally appropriated.

Expansion of scope of quarterly readiness reports (sec. 322)

The House bill contained a provision (sec. 311) that would expand the Quarterly Readiness Report required by section 361 of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104–106) to include data and analysis on additional readiness indicators, which would provide a more comprehensive readiness assessment.

The Senate amendment contained no similar provision.

The Senate recesses with an amendment that would include additional factors to be included in these reports such as personnel skills and pre-positioned equipment.

Semiannual reports on transfers from high-priority readiness appropriations (sec. 323)

The House bill contained a provision (sec. 315) that would extend through November 1, 2000, the requirement for the Secretary of Defense to report semi-annually on transfers from high-priority readiness accounts, in compliance with section 362 of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104–106). This provision would also expand the number of readiness accounts to be considered in the report.

The Senate amendment contained no similar provision.

The Senate recesses with an amendment that would make it a semiannual report.

Annual report on aircraft inventory (sec. 324)

The Senate amendment contained a provision (sec. 1037) that would require the Undersecretary of Defense (Comptroller) to submit with the budget request an annual report to the Congress on

the aircraft in the inventory of the Department of Defense. The provision would also require the modification of budget data exhibits to display total numbers of aircraft where numbers of primary aircraft or primary authorized aircraft are displayed in exhibits.

The House bill contained no similar provision.
The House recesses.

Administrative actions adversely affecting military training or other readiness activities (sec. 325)

The Senate amendment contained a provision (sec. 363) that would require the Secretary of Defense to provide the President, the Committee on Armed Services of the Senate, the National Security Committee of the House of Representatives, and the head of any relevant Federal agency with written notification of any Federal administrative action that has or would have a significant adverse effect on the military readiness of any of the armed forces or a critical component of the armed forces, such as a Marine battalion preparing for deployment as part of a Marine Expeditionary Unit, or Special Operations Forces dedicated to a specific mission. Notification would be provided as soon as the Secretary becomes aware of an adverse administrative action or proposed administrative action. The notification would delay the implementation of the action for a period of 30 days unless the Secretary determines that the compliance with the proposed action is in the best interest of the American public, or the President directs the Secretary to comply based on a determination that the implementation of the action is more important than the effects on military readiness.

The House bill contained no similar provision.
The House recesses.

Common measurement of operations and personnel tempo (sec. 326)

The Senate amendment contained a provision (sec. 1032) that would require the Chairman of the Joint Chiefs of Staff to develop, to the maximum extent practicable, a common measurement of operations tempo (OPTEMPO) and personnel tempo (PERSTEMPO).

The House bill contained no similar provision.
The House recesses.

Inclusion of Air Force depot maintenance as operation and maintenance budget activity group (sec. 327)

The House bill contained a provision (sec. 373) that would require the Secretary of the Air Force, beginning in fiscal year 1999, to identify funding for depot maintenance in a discreet subactivity group.

The Senate amendment contained no similar provision.
The Senate recesses with a technical amendment.

Prohibition of implementation of tiered readiness system (sec. 328)

The House bill contained a provision (sec. 314) that would prohibit the implementation of any tiered readiness system which would change military service-specific methods of determining priorities for allocating funding, personnel, equipment, equipment maintenance, and training resources to military units, and the associated level of readiness of those units that result from those pri-

orities, from the system that existed on October 1, 1996, until the Secretary of Defense provides Congress with a report recommending a new tiered readiness system along with legislative proposals and these proposals are enacted by the Congress.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would prohibit the implementation of a new tiered or cyclical readiness system based on the results of the reviews as required by section 329 and section 330 of this Act, or any other review. The amendment would clarify that the prohibition does not preclude the Secretary of Defense from taking necessary action to maintain the combat preparedness of the active and reserve components of the United States Armed Forces.

The conferees note that this provision does not block the ability of the Department of Defense to routinely adjust the manner in which it manages force readiness, particularly as it pertains to maintaining necessary combat capabilities. Rather, the provision precludes the adoption of a new tiered or cyclical readiness system, as outlined in section 329 and section 330 of this Act, pending subsequent congressional review and concurrence given the significant policy issues associated with such proposals. Accordingly, the provision allows for the Secretary of Defense, following the completion of the reviews required by sections 329 and 330 of this Act, or any other review the Secretary may deem appropriate, to submit, for Congressional consideration, a request for relief from this prohibition.

Report on military readiness requirements of the Armed Forces (sec. 329)

The Senate amendment contained a provision (sec. 1034) that would direct the Department to further explore the potential for tiered readiness. This provision would require the Chairman and the service chiefs, together with the Commander in Chief of the Special Operations Command and the commanders of the other unified commands, to prepare a second report that would examine the extent to which the readiness of the armed forces could be tiered. Rather than looking at a generic major regional conflict, this report would require an examination of the tiered readiness concept within the force structure advocated by the Quadrennial Defense Review, including the armed forces required to deter or defeat a strategic attack upon the United States. The report would include a rotational examination of the tiering of the armed forces that would focus on the brigade and battalion levels of the Army and Marine Corps Divisions, the squadron levels of the Air Force, Navy and Marine Corps Wings, and the Navy Fleets.

The House bill contained no similar provision.

The House recedes.

Assessment of cyclical readiness posture of the Armed Forces (sec. 330)

The Senate amendment contained a provision (sec. 1035) that would require the Secretary of Defense to report on the impact of moving to a cyclical readiness approach for major warfighting units. Under this approach, a high state of readiness alternates

from one unit to another, as is already done with the blue and gold crews on ballistic missile submarines. The report should identify the savings and risks associated with cyclical readiness.

The House bill contained no similar provision.

The House recesses.

Report on military exercises conducted under certain training exercise programs (sec. 331)

The House bill contained a provision (sec. 316) that would require the Secretary of Defense to report by January 15, 1998, on both past and planned joint training exercises sponsored by the Chairman, Joint Chiefs of Staff (CJCS) Exercise Program and the Partnership for Peace (PFP) program. The report would include the type, description, duration, objectives, the percentage of service-unique training accomplished, and an assessment of the training value of each CJCS and PFP exercise.

The Senate amendment contained no similar provision.

The Senate recesses with an amendment that would include exercises funded through the Cooperative Threat Reduction Program. The conference agreement would also require the report to include an assessment of the value provided through enhanced military to military relationships between the participating nations, and the extent to which the training exercises enhanced the readiness capabilities of all forces involved in the exercise.

Report on overseas deployment (sec. 332)

The Senate amendment contained a provision (sec. 1033) that would require the Department of Defense to report on the number of personnel deployed overseas as of June 30, 1996 and June 30, 1997. The report would distinguish between personnel who are forward deployed as their permanent duty station and those deployed overseas for temporary duty, such as service-specific exercises, joint exercises, exercises with allies, and deployments for contingency operations.

The House bill contained no similar provision.

The House recesses.

Subtitle C—Environmental Provisions

Revision of membership terms for Strategic Environmental Research and Development Program Scientific Advisory Board (sec. 341)

The House bill contained a provision (sec. 341) that would amend section 2904(b)(4) of title 10, United States Code, to provide that appointments to the Strategic Environmental Research and Development Program (SERDP) Scientific Advisory Board be for not less than two years and not more than four years. The Department of Defense recommended this provision to give the SERDP director the flexibility to fill unexpected vacancies on the Board.

The Senate amendment contained a similar provision.

The Senate recesses.

Amendment to authority to enter into agreements with other agencies in support of environmental technology certification (sec. 342)

The House bill contained a provision (sec. 342) that would expand the authority of the Secretary of Defense under section 327 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201). Section 327 authorizes the Secretary to initiate a program to provide for cooperative agreements with state and local governmental agencies in support of multi-state and regional certification of environmental cleanup technologies. The House provision would specifically authorize the Secretary to enter into agreements with Indian tribes and would broaden the range of technologies subject to evaluation for certification.

The Senate amendment contained a provision (sec. 335) that would require the Department to prepare guidelines for cost-sharing related to the cooperative agreements authorized under section 327.

The Senate recedes with an amendment that would expand the scope of the program as proposed in the House bill, but require the Department of Defense to prepare guidelines and meet expanded reporting requirements. The new authority would become effective 30 days after the date of submission of the guidelines required by the provision.

Modifications of authority to store and dispose of non-defense toxic and hazardous materials (sec. 343)

The House bill contained a provision (sec. 344) that would amend section 2692 of title 10, United States Code, to clarify exemptions from the prohibition against Department of Defense (DOD) storage or disposal of toxic or hazardous material that is not owned by the Department. The administration recommended this provision to ensure that the Department has appropriate authority to control munitions stored or disposed of in connection with the following DOD activities: (1) storage of explosive and hazardous materials in conjunction with space launch programs; (2) storage of member personal property, such as guns, ammunition, and related material, when such storage is in the interest of public safety; (3) storage of allied/foreign munitions during joint testing, exercises or coalition warfare; (4) storage of explosives and hazardous materials in support of other U.S. Government agencies, to include State and local law enforcement agencies; (5) storage of contractor owned explosive materials when performing a service for the benefit of the U.S. Government; and (6) storage of commercial explosives on DOD installations participating in full or partial privatization.

The Senate amendment contained a similar provision (sec. 331).

The Senate recedes with a clarifying amendment.

Annual report on payments and activities in response to fines and penalties assessed under environmental laws (sec. 344)

The Senate amendment contained a provision (sec. 332) that would require an annual report of fines and penalties assessed against the Department of Defense (DOD) under Federal, State, or local environmental laws.

The House bill contained no similar provision.
The House recedes with a clarifying amendment.

Annual report on environmental activities of the Department of Defense overseas (sec. 345)

The Senate amendment contained a provision (sec. 333) that would require the Department of Defense (DOD) to report annually on overseas environmental restoration, compliance, and other international environmental activities.

The House bill contained no similar provision.
The House recedes with a technical amendment.

The conferees hold a strong interest in ensuring appropriate oversight of funds used in support of the Department's overseas environmental policy.

Review of existing environmental consequences of the presence of the United States Armed Forces in Bermuda (sec. 346)

The Senate amendment contained a provision (sec. 1091) that would require the Secretary of Defense, not later than 120 days after the date of enactment of this Act, to submit a report to the congressional defense committees that describes the remaining environmental effects of the presence of the United States Armed Forces in Bermuda.

The House bill contained no similar provision.
The House recedes.

Sense of Congress on deployment of United States Armed Forces abroad for environmental preservation activities (sec. 347)

The House bill contained a provision (sec. 1062) that would express the sense of Congress that the United States Armed Forces should not be deployed outside the United States to provide assistance to another nation in connection with environmental preservation activities within that nation.

The Senate amendment contained no similar provision.
The Senate recedes with a clarifying amendment.

Recovery and sharing of costs of environmental restoration at Department of Defense sites (sec. 348)

In relation to Department of Defense cost-sharing policies and practices at cleanup sites, the Senate amendment contained a provision (sec. 337) that would direct the Secretary of Defense to: (1) provide guidance to the military departments and the Defense Logistics Agency (DLA) that resolves current inconsistencies in recovering cleanup costs from potentially responsible third parties; (2) require the military departments and DLA to aggressively pursue future cost reimbursement and recovery actions; (3) require the military departments and the DLA to identify contractors or other private third parties involved in contamination at Department of Defense (DOD) sites; (4) require the military departments and DLA to obtain all relevant data regarding contractors or other responsible parties identified contributing to site contamination, regardless of wrongdoing; (5) require the military departments and DLA to gather and maintain the most timely and accurate cost data available from the departments' and other agencies' records; (6) re-

quire the military departments and DLA to provide consistent estimates, including all cleanup costs for DOD environmental reports to Congress, regardless of the source of funds; and (7) require the military departments to offset environmental restoration budget requirements with amounts recovered from liable third parties or contractors.

The House bill contained no similar provision.

The House recesses with a clarifying amendment.

The conferees note that there have been a series of General Accounting Office (GAO) reports on DOD environmental cleanup which indicate that the Department has incurred a significant amount of cleanup expenses in instances in which a third party may have contributed to the contamination of government property. The GAO has reported that the DOD lacks uniform guidance regarding the policies and practices for recovery of such costs. The conferees have concluded that inconsistent policies have contributed to a lack of focus and minimal cost-recovery or cost-sharing at third party sites, particularly at government-owned/contractor-operated facilities.

Partnerships for investment in innovative environmental technologies (sec. 349)

The House bill contained a provision (sec. 346) that would support the administration's proposal to authorize the Secretary of Defense to enter into partnerships with private sector entities in order to demonstrate and validate innovative environmental technologies. All partnership relationships would be contingent upon a determination that there is a clear potential for the technology to be of significant value to Department of Defense environmental activities. The authority would be subject to expiration three years after the enactment of this Act and the Secretary of Defense would have to provide annual reports to Congress on the use of this authority.

The Senate amendment contained no similar provision.

The Senate recesses with an amendment that would: (1) require the use of competitive procedures for the selection of any private sector participants in a partnership; (2) require that parties other than the Department of Defense provide at least 50 percent of the funding in any partnership (not including in-kind contributions or pre-existing investments); (3) permit partnerships only in the case of technologies that the Secretary determines would not be developed without the commitment of Department of Defense funds and are likely to be of significant value to the Department at a substantial number of clean-up sites; and (4) require the Secretary to develop appropriate regulations to ensure that all Department of Defense funds committed to a partnership are expended to develop the technologies authorized in the partnership agreement.

In addition, the amendment would require the Secretary of Defense, before entering into any partnership, to evaluate: (1) the potential for the technology to be used by the Department for environmental remediation; (2) the technical feasibility and maturity of the technology being considered; (3) the adequacy of financial and management plans; (4) a cost and benefit analysis of the proposed

technologies; (5) the potential for transfer or commercialization of the technology; and (6) the proposed cost-sharing arrangement.

Procurement of recycled copier paper (sec. 350)

The Senate amendment contained a provision (sec. 340) that would codify and extend the Executive Order 12873 requirements for Federal agencies to increase the use of recycled-content paper products, as specifically applied to the Department of Defense (DOD). The provision would specifically require the Department to use recycled-content copier paper, as follows: 20 percent, January 1, 1998; 30 percent, January 1, 1999; and 50 percent, January 1, 2004, but if DOD is unable to meet the 2004 deadline the Secretary of Defense must certify that fact to Congress one year prior, which would vitiate the deadline. The Department would not be required to meet any of these deadlines if the cost differential between recycled-content paper and virgin paper exceeds seven percent.

The House bill contained no similar provision.

The House recedes with an amendment that would replace the seven percent cost differential with a requirement that the relevant departmental secretary make a finding that there is a “significant” price difference between recycled-content and virgin copier paper.

Pilot program for the sale of air pollution emission reduction incentives (sec. 351)

The Senate amendment contained a provision (sec. 338) that would support the administration’s proposal to give the military departments the authority to sell emission reduction credits, also known as incentives. The provision directs the Secretary of Defense to promulgate regulations that would provide for the retention of the proceeds at the facility that developed the credits for sale. The provision would also allow for use of proceeds from the sale of emission reduction credits to pay for fees and other charges associated with identifying, quantifying, or valuing the credits. Subsequent to the development of credits, less than \$500,000 may be retained Defense-wide.

The House bill contained no similar provision.

The House recedes with a technical amendment.

The conferees view the retention and use of proceeds at the facility level as a key element of this provision. In addition, the costs associated with identifying, quantifying, or valuing a facility’s emission reduction credits should not be subject to the \$500,000 cap on proceeds retention. Finally, the conferees expect that this new authority would be utilized at active facilities within the Department of Defense.

Subtitle D—Depot-Level Activities

The House bill contained six provisions (secs. 331–336) that would govern the activities of the Department of Defense (DOD) in relation to the maintenance and repair of military equipment. The Senate amendment contained two similar provisions, and seven additional provisions not contained in the House bill.

The conference agreement includes thirteen provisions concerning depot maintenance policy. The conferees believe these provisions will provide the Department with additional flexibility to uti-

lize the most efficient source of maintenance and repair services that are consistent with the national security requirements of the United States.

Definition of depot-level maintenance and repair (sec. 355)

The House bill contained a provision (sec. 333(a)) that would establish a statutory definition of depot-level maintenance and repair, based on the definition contained in current DOD regulations. This provision would require the inclusion of all depot-level maintenance and repair, including maintenance performed under other names such as interim contractor support (ICS) and contractor logistics support (CLS), for purposes of calculating the amount of depot maintenance performed by public and private sector activities, as required by section 2466 of title 10, United States Code, and other applicable sections.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would codify a definition of depot maintenance that is similar to the definition contained in the House bill, except that it would not include the procurement of a major weapon system modification or upgrade designed to improve program performance, the nuclear refueling of an aircraft carrier, or the procurement of parts for a safety modification.

Core logistics capabilities of Department of Defense (sec. 356)

The House bill contained a provision (sec. 334) that would amend section 2464 of title 10, United States Code, to make it clear that it is essential for national defense that the Department of Defense (DOD) maintain a core logistics capability that is government-owned and government-operated. The provision would require the Secretary of Defense to identify those logistics activities necessary to maintain a core logistics capability that would include the capability, facilities, and equipment to maintain and repair those weapons systems necessary to meet the requirements of the National Military Strategy.

The provision would require that, within four years of initial operational capability, DOD develop the capability to repair new weapons systems purchased by the Department that are identified as requiring a core logistics capability at government-owned and government-operated facilities.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary of Defense to identify those logistics capabilities that are necessary to maintain and repair the weapon systems and other military equipment that are required to enable the armed forces to fulfill the strategic and contingency plans prepared by the Chairman of the Joint Chiefs of Staff. The provision would require the performance of core logistics workloads necessary to maintain this capability within public depot activities.

The provision does not require that maintenance for all weapon systems necessary for the execution of DOD strategic and contingency plans be performed at public facilities. Rather, it requires that the capability to perform maintenance and repair on these systems be retained in the public depot activities and that these ac-

tivities be assigned sufficient workload to ensure that they are operated as cost efficiently as possible while preserving sufficient surge capacity to support the strategic and contingency plans of the U.S. Armed Forces. The conferees recognize that an efficient operation that preserves this surge capability does not require more than a single work shift at the depots during peacetime.

The conference agreement creates specific exemptions from the core capability requirements, including an exemption for commercial systems purchased by DOD where these purchases do not constitute a majority of the sales of that item. The provision would also make conforming changes to existing sections of law.

Increase in percentage of depot-level maintenance and repair that may be contracted for performance by non-government personnel (sec. 357)

The Senate amendment contained a provision (sec. 311) that would allow the Department of Defense to utilize private entities to perform greater amounts of depot maintenance on military equipment. The provision would allow each of the military departments to spend up to 50 percent of their depot maintenance funds on contracts for maintenance at locations other than public depots. The remaining fifty percent of funding would have to be expended for maintenance at public depot activities; whether performed by government or non-governmental personnel. This authority would become effective on October 1, 1998.

The House bill had no similar provision.

The House recedes with an amendment that would allow the military departments to increase from 40 percent to 50 percent the share of depot level maintenance performed by the private sector. These percentages would continue to be calculated based on whether the maintenance is performed by public or private sector personnel.

Annual report on depot-level maintenance and repair (sec. 358)

The Senate amendment contained a provision (sec. 314) that would require the Secretary of Defense to provide an annual report to the Congress detailing the percentage of depot maintenance funds used during the preceding fiscal year for performance of depot-level maintenance and repair workloads at public and private facilities. The provision would also require that the Comptroller General of the United States provide the Congress with his views on whether the Department of Defense has complied with the requirements of section 2466 of title 10, United States Code.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Requirement for use of competitive procedures in contracting for performance of depot-level maintenance and repair workloads formerly performed at closed or realigned military installations (sec. 359)

The House bill contained a provision (sec. 333(b)) that would restrict the Secretary of Defense, or the secretary of a military department, from entering into a contract for the performance of depot-level maintenance and repair at any facility that was ap-

proved in 1995 for closure under the Defense Base Closure and Realignment Act (BRAC), unless the following requirements are met:

(1) The secretary concerned would certify to the Congress that all of the other maintenance and repair facilities of that department are at 80 percent capacity, as defined by the BRAC Commission in 1995;

(2) The secretary concerned would certify to the Congress that the total cost of the proposed contract would be less than if the depot-level maintenance or repair were accomplished in facilities owned and operated by the Department of Defense;

(3) All of the data used to determine the total costs would be available for examination; and

(4) None of the depot-level maintenance and repair work proposed under the contract was considered to be a core logistics capability of the military department concerned prior to July 1, 1995.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would replace the restrictions on privatizing-in-place the workloads at the closing public depot activities with a requirement to conduct fair and open competitions for these workloads. The requirement would only apply to those workloads that are proposed to be competed for outsourcing after enactment of the National Defense Authorization Act for Fiscal Year 1998. The requirement does not apply to those workloads that may not be outsourced because they are necessary to retain a core depot maintenance capability in public depot activities, workloads that were outsourced before the enactment of the National Defense Authorization Act for Fiscal Year 1998, or workloads that would be consolidated within another public depot activity.

The provision outlines a number of requirements that the Department of Defense must satisfy in the conduct of these competitions. The conferees understand that these are only a few of the issues that the Department will have to address in the solicitation for, and consideration of, bids.

(1) The source selection process must permit both public and private offerors to submit bids.

(2) The source selection process must take into account the fair market value of any land, plant, or equipment at a closed or realigned military installation that is proposed to be used by the private offeror in the performance of the workload.

(3) The source selection process must take into account the total direct and indirect costs that will be incurred by the Department of Defense and the total direct and indirect savings that will be derived by the Department of Defense. Such savings would include any overhead savings (e.g., reduced administrative costs, more efficient utilization of facilities) that would result from the consolidation of workloads to the remaining public depot activities.

(4) The cost standards used to determine the depreciation of facilities and equipment shall provide, to the maximum extent practicable, identical treatment for all public and private offerors. The conferees expect that this will include, at a minimum, identical depreciation periods for plant and equipment at public and private facilities.

(5) Any offeror, whether public or private, must be permitted to team with any other public or private entity to perform the workload at any location or locations of their choosing. The provision specifically states that no offeror may be given any preferential consideration for, or in any way be limited to, performing the workload at the closed or realigned facility or at any other specific location. The conferees expect full and open competitions for these workloads and expect that private sector bidders would submit proposals to perform these workloads at locations other than the closed or realigned installations. The Department would be expected to consider real differences among bidders in cost or capability to perform the work based on factors that would include the proposed location or locations of the workloads. The consideration of such differences does not constitute "preferential treatment."

(6) The provision would authorize the bundling of unrelated workloads into one contract only if the Secretary of Defense determines in writing that individual workloads cannot be performed separately by qualified bidders as logically and economically as the combined workloads can be performed by a single entity. The conferees are concerned that the bundling of these workloads could disadvantage bidders that are fully qualified to perform one or more of the individual workloads but cannot adequately perform all of the workloads combined. This would allow more offerors to participate in the competition and might yield increased savings to the taxpayer.

(7) Before a request for proposal for these workloads can be issued, the Secretary of Defense must provide the Congress with a detailed directive or plan describing the procedures DOD would use to conduct these competitions. The conferees expect that the Secretary's report will explain any differences between the evaluation criteria or other procedures that will be used for these upcoming competitions and those that were used in the recent competition for the C-5 aircraft maintenance workload. The report should also describe any special requirements or criteria for these competitions, whether required by this provision or by the Department of Defense, that the Department does not anticipate applying to future public-private competitions that do not involve closed or realigned facilities.

The provision would also require that the Comptroller General review the solicitations and competitions conducted pursuant to this authority and determine if the Department has complied with the requirements of this provision. The conferees note that section 716 of title 13, United States Code, gives the Comptroller General access to the information necessary to make his determination. This section requires each agency to provide the Comptroller General with all necessary information. The Comptroller General is required to maintain the same level of confidentiality for a record made available under this section, as is required of the head of the releasing agency. On the basis of this section, agencies have historically provided the General Accounting Office with information on the conduct of a procurement, regardless of whether a contract has yet been awarded. The conferees expect the Air Force to provide similar access in the case of public-private competitions covered by this section.

The conferees are concerned that access to information was not provided to the Comptroller General during the recent competition for the C-5 workload. The refusal on the part of the Source Selection Authority and General Counsel of the Air Force to provide such information is inexplicable given the authority in title 13 cited above. The conferees note that the legislation restricting access to source selection material specifically states that “[N]othing in this section shall be construed to authorize the withholding of any information from the Congress, any committee or subcommittee thereof, a Federal agency, any board of contract appeals of a Federal agency, the Comptroller General, or an Inspector General of a Federal agency” (41 U.S.C. 423).

The new provision would also provide a mechanism for the public depots (or any other offeror) to appeal directly to the Secretary of Defense, or his designee, if they believe the competition was conducted unfairly. The Secretary could not designate the source selection authority or an official within the same military department to perform this responsibility. The conferees expect that the procedures established by the Secretary will clarify that the Secretary need not consider on the merits any protest that has already been decided on the merits by the General Accounting Office.

Finally, the provision would require the Secretary to report to the Congress on the proposed allocation of workloads currently performed at Kelly and McClellan Air Force Bases. Although the report must include a capacity utilization analysis based on the maximum potential capacity certified for the 1995 Base Realignment and Closure Commission, the conferees note that nothing precludes the Secretary from including additional analysis that would utilize any alternative baseline believed to be appropriate.

Clarification of prohibition on management of depot employees by constraints on personnel levels (sec. 360)

The Senate amendment contained a provision (sec. 313) that would prohibit the management of personnel who are involved in depot maintenance on the basis of any constraint or limitation in terms of man years, end strength, full-time equivalent positions, or maximum number of employees.

The House bill contained no similar provision.

The House recedes.

The conferees believe personnel assigned to perform depot maintenance should be managed by the amount of workload required to be performed and the amount of funds provided for its performance.

Centers of industrial and technical excellence (sec. 361)

The House bill contained a provision (sec. 335) that would direct the Secretary of Defense to establish Centers of Industrial and Technical Excellence at existing Department of Defense (DOD) maintenance and repair depots to encourage the reengineering of industrial processes, the adoption of best business practices, and to enable public-private partnerships for the performance of depot-level maintenance and repair.

The Senate amendment contained a similar provision (sec. 312).

The House recedes with an amendment that would apply the provisions of section 2667(d) of title 10, United States Code, and allow lease proceeds and other receipts from these partnerships to be credited to the account that incurred the costs. That credit would permit the centers to be reimbursed for expenses related to these partnerships. The conferees direct the Secretary of Defense to annually report to the congressional defense committees on the revenues received pursuant to this authority.

Extension of authority for aviation depots and naval shipyards to engage in defense related production and services (sec. 362)

The House bill contained a provision (sec. 331) that would extend through fiscal year 1999 the authority provided by section 1425 of the National Defense Authorization Act for Fiscal Year 1991 (Public Law 101—510) for naval shipyards and aviation depots of all the military departments to bid on defense-related production and services.

The Senate amendment contained a similar provision (sec. 318) that would extend this authority through fiscal year 1998.

The Senate recedes.

Repeal of conditional repeal of certain depot-level maintenance and repair laws and a related reporting requirement (sec. 363)

The Senate amendment contained a provision (sec. 317) that would repeal section 311 of the National Defense Authorization Act for Fiscal Year 1996, which would have repealed sections 2466 and 2469 of title 10, United States Code, contingent upon the submission of a new policy by Department of Defense (DOD) to replace those statutes. Section 311 would be irrelevant because the DOD failed to submit an acceptable plan.

The House bill contained no similar provision.

The House recedes.

Personnel reductions, Army depots participating in Army Workload and Performance System (sec. 364)

The House bill contained a provision (sec. 336) that would prohibit any reduction in force of any civilian employees at the five Army maintenance depots participating in the demonstration and testing of the Army Workload and Performance System (AWPS), until the Secretary of the Army certifies to the Congress that the AWPS is fully operational and the manpower audits being performed by the General Accounting Office, the Army Audit Agency, and the Army Inspector General have been completed.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment that would prohibit the initiation of any reduction in force of any civilian employees at the five Army maintenance depots participating in the demonstration and testing of AWPS, until a report is provided by the Secretary of the Army certifies to the Congress that the AWPS is fully operational. This prohibition does not apply to any reductions in force necessary to implement the BRAC 1995 decisions at Letterkenny and Red River Army Depots. The conferees believe

that because this personnel system is used to determine the number of employees that are necessary to perform the work at the depots, it should be operational before a determination is made regarding additional reductions in force. The conferees do not view this provision as a precedent for prohibiting reductions in force at Department of Defense installations.

Report on allocation of core logistics activities among Department of Defense facilities and private sector facilities (sec. 365)

The Senate amendment contained a provision (sec. 315) that would require the Department of Defense to evaluate and report to the Congress on an alternative set of criteria for distinguishing core from non-core maintenance.

The House bill contained no similar provision.

The House recesses.

Review of use of temporary duty assignments for ship repair and maintenance (sec. 366)

The Senate amendment contained a provision (sec. 316) that would require the General Accounting Office to review the Navy's policies for using Temporary Duty shipyard workers to perform ship maintenance work at home ports.

The House bill contained no similar provision.

The House recesses.

Sense of Congress regarding realignment of performance of ground communication-electronic workload (sec. 367)

The Senate amendment contained a provision (sec. 319) that would express the Sense of the Congress that the transfer of the ground communication-electronic workload to Tobyhanna Army Depot, Pennsylvania, should be carried out in adherence to the schedule prescribed for that transfer by the Defense Depot Maintenance Council on March 13, 1997.

The House bill contained no similar provision.

The House recesses.

Subtitle E—Commissaries and Nonappropriated Fund

Reorganization of laws regarding commissaries and exchanges and other morale, welfare, and recreation activities (sec. 371)

The House bill contained a provision (sec. 361) that would reorganize chapter 147 of title 10, United States Code, so that the chapter deals exclusively with provisions of law relating to commissaries, exchanges, and other morale, welfare and recreation activities.

The Senate amendment contained no similar provision.

The Senate recesses.

Merchandise and pricing requirements for commissary stores (sec. 372)

The House bill contained a provision (sec. 362) that would amend section 2486 of title 10, United States Code, to restrict the categories of merchandise that may be sold in commissaries; require that no change in the current commissary surcharge could

occur without a prior authorization in law; and provide that the Secretary of Defense may not make any change in pricing policies without advance notice to Congress and a waiting period of 90 legislative days.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require that any proposed change to the authorized product list be submitted annually and would establish, in law, that the amount of the surcharge would be five percent of the sale price of merchandise sold.

Limitation on noncompetitive procurement of brand-name commercial items for resale in commissary stores (sec. 373)

The House bill contained a provision (sec. 363) that would amend section 2486(e) of title 10, United States Code, to make more rigorous the standard for determining brand name commercial items that may be sold by commissaries.

The Senate amendment contained no similar provision.

The Senate recedes.

Treatment of revenues derived from commissary store activities (sec. 374)

The House bill contained a provision (sec. 366) that would provide that amounts received by the Defense Commissary Agency (DECA) from certain sources be deposited in the surcharge account.

The Senate amendment contained a similar provision (sec. 351).

The House recedes with an amendment that would not permit earnings from the sale of tobacco products to be deposited in the surcharge account.

Maintenance, repair, and renovation of Armed Forces Recreation Center, Europe (sec. 375)

The conferees agree to a provision that would clarify the authority of the Secretary of Defense to use appropriated funds to maintain, repair, and renovate real property at the Armed Forces Recreation Center, Europe.

Plan for use of public and private partnerships to benefit morale, welfare and recreation activities (sec. 376)

The House bill contained a provision (sec. 365) that would permit the Secretary of Defense to authorize nonappropriated fund instrumentalities to enter into leases, licensing agreements, concession agreements, and other contracts with private persons and state or local governments involving real and personal property under the control of such nonappropriated fund instrumentalities in order to facilitate the provision of facilities, goods, or services to authorized patrons.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary of Defense to develop a comprehensive plan defining the purpose and goals, and describing how the Department would implement and administer leases, licensing agreements, concession agreements, and other contracts with private persons and state or

local governments involving real and personal property under the control of such nonappropriated fund instrumentalities in order to facilitate the provision of facilities, goods, or services to authorized patrons, and submit the plan to the Congress.

INSTRUMENTALITIES

Subtitle F—Other Matters

Assistance to local educational agencies that benefit dependents of members of the armed forces and Department of Defense civilian employees (sec. 381)

The House bill contained a provision (sec. 371) that would authorize \$35.0 million for educational assistance to local education agencies where the standard for the minimum level of education within the state could not be maintained because of the large number of military connected students or the effects of base realignments and closures.

The Senate amendment contained no similar provision.

The Senate recesses.

Center for Excellence in Disaster Management and Humanitarian Assistance (sec. 382)

The Senate amendment contained a provision (sec. 362) that would authorize the Secretary of Defense to operate a Center for Excellence in Disaster Management and Humanitarian Assistance at Tripler Army Medical Center to address the military's role in a wide range of disaster initiatives throughout Southeast Asia and the Pacific Basin region.

The House bill contained no similar provision.

The House recesses with an amendment that would not require the location of this center to be at the Tripler Army Medical Center.

Applicability of Federal printing requirements to Defense Automated Printing Service (sec. 383)

The House bill contained a provision (sec. 377) that would clarify that the Defense Automated Printing Service (DAPS) shall comply with chapter 5 of title 44, United States Code, regarding printing services.

The Senate amendment contained no similar provision.

The Senate recesses with a technical amendment.

Study and notification requirements for conversion of commercial and industrial type functions to contractor performance (sec. 384)

The House bill contained a provision (sec. 1412) that would amend current law dealing with congressional notification of any decision to study a commercial function of the Department of Defense for possible outsourcing to the private sector, and any decision to ultimately outsource such a function.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would amend current law to expand congressional notifications and to include a timetable for conversion to contractor performance.

Collection and retention of cost information data on contracted out services and functions (sec. 385)

The House bill contained a provision (sec. 1413) that would require the Secretary of Defense to collect and permanently retain, cost information data regarding performance of the service or function by private contractor employees.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would limit the time that the data would have to be retained to ten years.

Financial assistance to support additional duties assigned to Army National Guard (sec. 386)

The Senate amendment contained a provision (sec. 364) that would authorize the Secretary of the Army to contribute funds to the Army National Guard in order to pay for the costs of those services carried out by the Guard in the performance of maintenance and other responsibilities of the Secretary.

The House bill contained no similar provision.

The House recedes.

Competitive procurement of printing and duplication services (sec. 387)

The House bill contained a provision (sec. 1404) that would extend the authority under the fiscal year 1996 act that would require the Secretary of Defense to procure 70 percent of the non-classified printing services from the commercial sector. The provision would also prohibit the Defense Automation and Printing Service from imposing a surcharge on printing and duplication services when those services are procured outside the Department of Defense.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

Continuation and expansion of demonstration program to identify overpayments made to vendors (sec. 388)

The House bill contained a provision (sec. 376) that would reauthorize, through fiscal year 1998, section 354 of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104-106), which provides for a demonstration program to identify overpayments made to vendors. The authority provided by this specific provision is restricted to the identification of any overpayments and does not extend to the collection of debts. Authority for the procurement of debt collection services is already provided by section 3718 of title 31, United States Code.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the General Accounting Office to review the program and report to Congress any significant findings such as the amount of funds that were recovered, together with any problems that occurred during the collection of these funds.

Standard forms regarding performance work statement and request for proposal for conversion of services and functions at military installations (sec. 389)

The House bill contained a provision (sec. 1411) that would require the Secretary of Defense to develop standard performance work statements and standard requests for proposal to be used when considering outsourcing of commercial functions. The use of such forms would provide relief from certain cumbersome procedures and requirements of OMB circular A-76.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would allow the Secretary to develop certain forms to meet the requirements of A-76. The conferees encourage the Secretary, when developing such forms, to give priority to services and functions that have already been converted by 50 percent.

Base operations support for military installations on Guam (sec. 390)

The House bill contained a provision (sec. 378) that would prohibit the use of nonimmigrant aliens, as defined in section 101(a)(15)(H)(ii) of title 8, United States Code, for any base operations support contract to be performed on Guam.

The Senate amendment contained no similar provision.

The Senate recedes.

Warranty claims recovery pilot program (sec. 391)

The Senate amendment contained a provision (sec. 367) that would authorize a pilot program to recover any refunds owed the Air Force for maintenance work performed in public depots on aircraft engines while under warranty. Receipts under this program would be returned to the appropriations account from which the maintenance work was funded.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Comptroller General to review this program and report the results to the Congress.

Program to investigate fraud, waste, and abuse within Department of Defense (sec. 392)

The House bill contained a provision (sec. 372) that would authorize the continuation of Operation Mongoose through fiscal year 2003. The section would establish the Under Secretary of Defense (Comptroller) as the executive agent for this program and would require a report on the activities of the operation.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that permanently provides for a program in the Department of Defense that coordinates the identification and prevention of fraudulent financial actions within Department of Defense (DOD). The conferees support the acceleration of transportation and vendor pay review and believe in expanding the program to use information from other government agencies to detect fraud within DOD. By mining financial information, the Department of Defense would be able to expand its cur-

rent fraud detection efforts to improve the integrity of its financial management systems while reducing waste, fraud, and abuse.

In addition, the conferees direct the Secretary of Defense to provide a report to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives by December 31, 1997, on the activities reviewed by Operation Mongoose, the savings or costs avoidance identified by activity, the number of cases referred for investigation, and the number of cases investigated by the investigating agency.

Multitechnology automated reader card demonstration program (sec. 393)

The Senate bill contained a provision (sec. 369) that would require the Secretary of the Navy to carry out a two year demonstration program during 1998 and 1999 to expand the use of multitechnology automated reader cards throughout the Navy and Marine Corps. This demonstration would include the use of "smartship" technology.

The House bill included no similar provision.

The House recedes.

Plan for reduction in overhead costs of inventory control points (sec. 394)

The House bill contained a provision (sec. 1421) that would require the Secretary of Defense to develop and implement a plan to reduce the overhead costs of the supply management activities of the Defense Logistics Agency and the military services to eight percent of the annual net sales.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the development of a plan on how the Department will reduce its overhead costs of the Inventory Control Points (ICPs) to eight percent by October 1, 2000.

Schedule for implementation of best inventory management practices at Defense Logistic Agency (sec. 395)

The Senate amendment contained a provision (sec. 366) that would direct the Director of the Defense Logistics Agency to develop and submit to Congress a schedule for the implementation of the best inventory management practices found in the commercial sector that are consistent with military requirements.

The House bill contained no similar provision.

The House recedes with an amendment that would expand the list of items to include pharmaceutical, automotive, and other supplies.

The conferees are concerned with recent reports of the excess inventory maintained by the Department of Defense. The retention of this inventory requires the expenditure of resources for storage and administration. The conferees note the recent General Accounting Office report outlining the significant quantities of excess inventory prepositioned in Europe and direct the Department to take those actions necessary to reduce the items for which there is no identified need and where disposal would result in long-term savings to the Federal Government.

LEGISLATIVE PROVISIONS NOT ADOPTED

Quarterly reports on execution of operation and maintenance appropriations

The House bill contained a provision (sec. 317) that would require the Secretary of Defense to report quarterly on the execution of the operation and maintenance budget.

The Senate amendment contained no similar provision.

The House recesses.

Exclusion of certain large maintenance and repair projects from percentage limitation on contracting for depot-level maintenance

The House bill contained a provision (sec. 332) that would exclude from the restrictions contained in section 2466 of title 10, United States Code, an aircraft carrier or a submarine repair or overhaul project that represents five percent or more of the total amount made available to the Department of the Navy for depot-level maintenance and repair.

The Senate amendment contained no similar provision.

The House recesses.

The conferees agree that the exception to the definition of depot maintenance for the refueling of nuclear aircraft carriers contained within section 355 of the Act together with the additional flexibility provided by the change from 60/40 to 50/50, should provide the same flexibility the House bill intended to provide.

Authorization to pay negotiated settlement for environmental cleanup at former department of defense sites in Canada

The House bill contained a provision (sec. 343) that would authorize the Secretary of Defense to pay the Government of Canada up to \$100.0 million through annual payments over a ten year period for the environmental cleanup of four sites formerly operated by the U.S. Armed Forces in Canada: 21 Distant Early Warning (DEW) Line sites; Goose Bay Airfield; Haines-Fairbanks Pipeline sites; and the U.S. Naval Station, Argentia. The authorization request was based on a bilateral agreement between the United States and Canada. The agreement provided for the payment of the \$100.0 million into the Foreign Military Sales (FMS) Trust Fund Account so that the Canadian Government could draw against this account to purchase unspecified military equipment from an undetermined manufacturing source.

The Senate amendment contained no similar provision.

The House recesses.

The conferees decline to provide the requested authorization and direct the Department to focus on funding and conducting environmental cleanup at sites where there is an existing legal obligation.

Revision of report requirement of Navy program to monitor ecological effects of organotin

The House bill contained a provision (sec. 345) that would extend the date and expand the scope of a reporting requirement

originally established in section 333 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201).

The Senate amendment contained no similar provision.

The House recedes.

The conferees intend to monitor the progress made by the Environmental Protection Agency (EPA) and the Navy in implementation of criteria established by EPA for control of organotin. If the permitting process is not consistent with the EPA criteria, the conferees are prepared to revisit this issue in relation to the Department's fiscal year 1999 budget request.

Pilot program to test an alternative technology for eliminating solid and liquid waste emissions during ship operations

The House bill contained a provision (sec. 347) that would authorize the Secretary of the Navy to establish a pilot program to demonstrate plasma arc technology for treating shipboard solid and liquid waste. The technology would consist of a compact, stationary, high alumina refractory hearth, plasma arc melter system for incineration of waste.

The Senate amendment contained no similar provision.

The House recedes.

The conferees note that the Navy is currently investigating the applications of plasma arc technology for the destruction of shipboard solid waste. That work is taking place in an approved research and development program. As a part of that program, the Navy tested the feasibility of using a high alumina refractory hearth for shipboard applications and determined that the hearth structure was unacceptable because the variable shipboard waste streams produce a molten slag that dissolves high alumina hearth walls. However, that was only one aspect of the plasma arc technology research and development efforts. Therefore, the conferees encourage the Navy to continue its current effort to develop the plasma arc thermal destruction technology.

Transfer of jurisdiction over exchange, commissary, and morale, welfare and recreation activities to Under Secretary of Defense Comptroller

The House bill contained a provision (sec. 364) that would amend section 135 of title 10, United States Code, to transfer administrative responsibility within the Department of Defense for the areas of exchange, commissary, and nonappropriated fund instrumentalities regarding morale, welfare and recreation activities from the Under Secretary of Defense for Personnel and Readiness to the Under Secretary of Defense (Comptroller).

The Senate amendment contained no similar provision.

The House recedes.

Authorized use of appropriated funds for relocation of Navy Exchange Service Command

The House bill contained a provision (sec. 367) that would provide that the Navy Exchange Service Command (NEXCOM) shall not be required to reimburse the United States for appropriated funds allotted to NEXCOM during fiscal years 1994, 1995, and 1996 for costs incurred in connection with the relocation of

NEXCOM headquarters to Virginia Beach, Virginia and for the lease of headquarters space.

The Senate amendment contained no similar provision.

The House recedes.

Prohibition on use of Special Operations Command budget for base operation support

The House bill contained a provision (sec. 375) that would amend section 167(f) of title 10, United States Code, to prohibit the use of funds provided for the Special Operations Command for base operations support expenses incurred at military installations.

The Senate amendment contained no similar provision.

The House recedes.

The conferees note that Congress established the Special Operations Command, including a separate major force budget program (MFP-11), to correct serious deficiencies in special operations capabilities and to ensure special operations combat readiness. The conferees believe that the regular practice of using MFP-11 funds for base operations support would be in conflict with the original intent for these funds. However, the conferees recognize the need to provide the Commander-in-Chief of the Special Operations Command with the flexibility to use these funds in this manner should the necessity arise. Therefore, the conference agreement does not contain this provision. However, the conferees intend to monitor this issue closely to ensure that MFP-11 funds are used in a manner consistent with the intentions of Congress and agree to revisit the issue should the need arise.

Availability of funds for separation pay for defense acquisition personnel

The House bill contained a provision (sec. 1303) that would authorize \$100.0 million in operations and maintenance funding for payment of separation pay to the Department of Defense civilian acquisition personnel.

The Senate amendment contained no similar provision.

The House recedes.

Competitive procurement of finance and accounting services

The House bill contained a provision (sec. 1401) that would require the Secretary of Defense to competitively procure finance and accounting services currently provided by the Defense Finance and Accounting Service from among government and private sector sources.

Senate amendment contained no similar provision.

The House recedes.

Competitive procurement of services to dispose of surplus defense property

The House bill contained a provision (sec. 1402) that would require the Secretary of Defense to make available for competition those functions of the Defense Reutilization and Marketing Service that are associated with the disposal of surplus Department of Defense property.

The Senate amendment contained no similar provision.

The House recesses.

Competitive procurement of functions performed by Defense Information Systems Agency

The House bill contained a provision (sec. 1403) that would require the Secretary of Defense to competitively procure commercial and industrial type functions performed by the Defense Information Systems Agency.

The Senate amendment contained no similar provision.

The House recesses.

Competitive procurement of commercial and industrial type functions by defense agencies

The House bill contained a provision (sec. 1406) that would require the Secretary of Defense to competitively procure commercial and industrial type functions performed by defense agencies.

The Senate amendment contained no similar provision.

The House recesses.

Consolidation of procurement technical assistance centers and electronic commerce resource centers

The House bill contained a provision (sec. 1422) that would require consolidation of the Procurement Technical Assistance Center (PTAC) and the Electronic Commerce Resource Center (ECRC) programs in fiscal year 1998. The provision would also require the use of competitive procedures in granting awards under the consolidated program.

The Senate amendment contained no similar provision.

The House recesses.

Risk assessments under the defense environmental restoration program

The Senate amendment contained a provision (sec. 336) that would direct the Secretary of Defense to define the elements of a relative risk site evaluation methodology, to develop uniform guidance for site assessment and ranking, and to ensure consistent application of the guidance. The Department's relative risk site evaluation involves three site categories for justifying requirements and allocating funds: high; medium; and low. According to the Department, the high relative risk sites are given a greater funding priority than the medium and low relative risk sites.

The House bill contained no similar provision.

The Senate recesses.

Tagging system for identification of hydrocarbon fuels used by the Department of Defense

The Senate amendment contained a provision (sec. 339) that would authorize the Department of Defense to conduct a pilot program to determine if hydrocarbon fuels used by the Department can be tagged in order to deter theft and facilitate the determination of the source of surface and underground pollution in locations having separate fuel storage facilities from the Department and civilian companies.

The House bill contained no similar provision.

The Senate recesses.

Report on options for the disposal of chemical weapons and agents

The Senate amendment contained a provision (sec. 341) that would require the Secretary of Defense to submit a report to Congress on the options available to the Department of Defense for the disposal of chemical weapons and agents without building additional chemical weapons disposal facilities in the continental United States.

The House bill contained no similar provision.

The Senate recesses.

The conferees note that the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104–106) directed the Secretary of Defense to conduct an assessment of the chemical stockpile disposal program and to consider measures that could be taken to reduce program costs. Further discussion on the results of the assessment are addressed elsewhere in the statement of managers.

Integration of military exchange services

The Senate amendment contained a provision (sec. 352) that would require the secretaries of the military departments to integrate the three military exchange systems by September 30, 2000.

The House bill contained no similar provision.

The Senate recesses.

The conferees endorse the concept of exchange integration. The conferees recognize that the Department of Defense is currently conducting a due diligence study to determine which functions could be integrated to yield savings and efficiencies while preserving high levels of customer service. The conferees direct the Secretary of Defense, upon completion of the due diligence study and if the study so recommends, to develop a plan for integrating the functions identified in the report. The plan must include a timeline for accomplishing each of the integration functions. The plan shall be submitted to the Congress not later than 120 days after the due diligence study is completed.

TITLE IV—MILITARY PERSONNEL AUTHORIZATIONS

LEGISLATIVE PROVISIONS ADOPTED

Subtitle A—Active Forces

End strengths for active forces (sec. 401)

The House bill contained a provision (sec. 401) that would authorize end strengths for the active forces, as indicated in the table below:

Service	Fiscal year 1998—	
	Request	Recommendation
Army	495,000	495,000
Navy	390,802	395,000
Marine Corps	174,000	174,000
Air Force	371,577	381,000

Service	Fiscal year 1998—	
	Request	Recommendation
Total	1,431,379	1,445,000

The Senate amendment contained a provision (sec. 401) that would authorize active duty end strengths for fiscal year 1998, as shown below:

	Fiscal year—		
	1997 authorization	1998 request	1998 recommendation
Army:			
Total	495,000	495,000	485,000
Officers	80,300	80,300
Navy:			
Total	407,318	390,802	390,802
Officers	56,265	55,695
Marine Corps:			
Total	174,000	174,000	174,000
Officers	17,978	17,978
Air Force:			
Total	381,000	371,577	371,577
Officers	74,458	72,732

The House recedes with an amendment that would authorize active duty end strengths for fiscal year 1998 as shown below:

	Fiscal year—		
	1997 authorization	1998 request	1998 authorization
Army	495,000	495,000	495,000
Navy	407,318	390,802	390,802
Marine Corps	174,000	174,000	174,000
Air Force	381,100	371,577	371,577
Total	1,457,418	1,431,379	1,431,379

Permanent end strength levels to support two major regional contingencies (sec. 402)

The Senate amendment contained a provision (sec. 402) that would repeal section 691 of title 10, United States Code, as amended by section 402 of the National Defense Authorization Act for Fiscal Year 1997.

The House bill contained a similar provision.

The House recedes with an amendment that would amend section 691 of title 10, United States Code to make the end strength floors consistent with the active duty end strengths authorized in section 401 of the conference agreement. Additionally, the amendment would provide the Army one and one-half percent flexibility below the floor while retaining one percent flexibility for the Navy, Marine Corps and the Air Force.

The conferees are concerned about the strains being placed on military personnel and their families. There is an apparent incongruence between the number and frequency of deployments, the extraordinary pace of operations, and the continued pressure through the budget process to reduce military personnel levels. The con-

ferrees intend to continue to examine closely and challenge, as appropriate, any recommendations of the Department of Defense, the Quadrennial Defense Review, or the National Defense Panel to further reduce military personnel. The conferees will be especially vigilant for reductions in military personnel levels that appear to be driven purely by budget pressures, and not supported by the fielding modern systems that require fewer personnel or changes in the requirements of the national military strategy.

The conferees note that section 691 of title 10, United States Code, as amended by the conference report, requires the Secretary of Defense to fully fund and maintain the end strength floors in future budgets.

Subtitle B—Reserve Forces

End strengths for Selected Reserve (sec. 411)

The House bill contained a provision (sec. 411) that would authorize end strengths for the Selected Reserve as indicated in the table below:

	Fiscal year 1997 authorized	Fiscal year 1998—	
		Request	Recommendation
ARNG	366,758	366,516	366,516
USAR	215,179	208,000	208,000
USNR	96,304	94,294	94,294
USMCR	42,000	42,000	42,000
ANG	109,178	107,377	107,377
USAFR	73,311	73,431	73,431
Coast Guard	8,000	8,000	8,000
Total	910,730	899,618	899,618

The Senate amendment contained a provision (sec. 411) that would authorize Selected Reserve end strengths for fiscal year 1998 as shown below:

	Fiscal year—		
	1997 authorization	1998 request	1998 recommendation
The Army National Guard of the United States	366,758	366,516	361,516
The Army Reserve	215,179	208,000	208,000
The Naval Reserve	96,304	94,294	94,294
The Marine Corps Reserve	42,000	42,000	42,000
The Air National Guard of the United States	109,178	107,377	108,002
The Air Force Reserve	73,311	73,431	73,542
The Coast Guard Reserve	8,000	8,000	8,000

The House recedes with an amendment that would authorize Selected Reserve end strengths for fiscal year 1998 as shown below:

	Fiscal year—		
	1997 authorization	1998 request	1998 recommendation
The Army National Guard of the United States	366,758	366,516	361,516
The Army Reserve	215,179	208,000	208,000

	Fiscal year—		
	1997 au- thoriza- tion	1998 re- quest	1998 rec- ommenda- tion
The Naval Reserve	96,304	94,294	94,294
The Marine Corps Reserve	42,000	42,000	42,000
The Air National Guard of the United States	109,178	107,377	108,002
The Air Force Reserve	73,311	73,431	73,447
The Coast Guard Reserve	8,000	8,000	8,000

The conferees recommend an Army National Guard end strength below the 1998 request as a result of the Off-Site Review the Army announced on June 5, 1997, in which the active Army, the Army Reserve, and the Army National Guard agreed on personnel reductions recommended by the Quadrennial Defense Review. The conferees recommend increased end strengths for the Air National Guard and the Air Force Reserve to accommodate retention of the PAA C-130 aircraft at current levels. The conferees also recommend an adjustment to the Air Force Reserve end strength consistent with the recommendation that would prohibit the Secretary of the Air Force from replacing civilian base security personnel with active guard and reserve personnel. The conferees adjusted the recommended authorization of appropriations to reflect these recommendations.

End strengths for Reserves on active duty in support of the Reserves (sec. 412)

The House bill contained a provision (sec. 412) that would authorize the end strengths of the reserves on active duty in support of the reserves as indicated in the table below. These end strengths are included within the total end strengths authorized for the Selected Reserve.

	Fiscal year—		
	1997 au- thoriza- tion	1998 re- quest	1998 rec- ommenda- tion
ARNG	22,798	22,310	22,310
USAR	11,729	11,500	11,500
USNR	16,603	16,136	16,136
USMCR	2,559	2,559	2,559
ANG	10,403	10,616	10,616
USAFR	655	963	748
Total	64,747	64,084	63,869

The Senate amendment contained a provision (sec. 412) that would authorize full-time support end strengths for fiscal year 1998 as shown below:

	Fiscal year—		
	1997 au- thoriza- tion	1998 re- quest	1998 rec- ommenda- tion
The Army National Guard of the United States	22,798	22,310	22,310
The Army Reserve	11,729	11,500	11,500
The Naval Reserve	16,603	16,136	16,136
The Marine Corps Reserve	2,559	2,559	2,559
The Air National Guard of the United States	10,403	10,616	10,671

	Fiscal year—		
	1997 au- thoriza- tion	1998 re- quest	1998 rec- ommenda- tion
The Air Force Reserve	655	963	963

The House recedes with an amendment that would authorize full-time support end strengths for fiscal year 1998 as shown below:

	Fiscal year—		
	1997 au- thoriza- tion	1998 re- quest	1998 rec- ommenda- tion
The Army National Guard of the United States	22,798	22,310	22,310
The Army Reserve	11,729	11,500	11,500
The Naval Reserve	16,603	16,136	16,136
The Marine Corps Reserve	2,559	2,559	2,559
The Air National Guard of the United States	10,403	10,616	10,671
The Air Force Reserve	655	963	867
Total	64,747	53,468	53,372

The recommended change to the end strength for reserves on active duty in support of the Air Force Reserve results from an increase to support the retention of C-130 PAA aircraft at the current levels, a reduction from the budget request consistent with the recommendation that would prohibit the Secretary of the Air Force from replacing civilian base security personnel with active guard and reserve personnel, and an increase to accommodate the creation of deployable force protection teams in the Air Force Reserve. The conferees adjusted the recommended authorization of appropriations to reflect these changes.

Additionally, the conferees are concerned about a range of issues related to management, utilization, and assignment of persons participating in the active guard and reserve programs. The committees of jurisdiction intend to examine these matters during the second session of the 105th Congress.

End strengths for military technicians (dual status) (sec. 413)

The House bill contained a provision (sec. 413) that would authorize military technician end strength as indicated by the fiscal year 1998 recommendation below and would require future defense budget requests to include a legislative provision specifically detailing the end strength of the dual status military technicians to be authorized.

Service	Fiscal year—		
	1997 pro- gram	1998 re- quest	1998 rec- ommenda- tion
ARNG	23,125	22,991	23,125
USAR	5,503	5,205	5,503
ANG	22,853	22,574	22,853
USAFR	9,802	9,622	9,802
Total	61,283	60,392	61,283

The Senate amendment contained a provision that increased above the budget request the authorized levels of military technicians in the Air National Guard and in the Air Force Reserve to support revised C-130 aircraft levels (sec. 413).

The Senate recedes.

Subtitle C—Authorization of Appropriations

Authorization of appropriations for military personnel (sec. 421)

The House bill contained a provision (sec. 421) that would authorize \$69,539,862,000 to be appropriated for military personnel, an increase of \$66,100,000 to the budget request.

The Senate amendment contained a provision (sec. 421) that would authorize \$69,244,962,000 to be appropriated to the Department of Defense for military personnel.

The House recedes with an amendment that would authorize \$69,470,505,000 to be appropriated for military personnel.

The conferees recommended the following modifications to the budget request for military personnel:

Fiscal year 1998 Military Personnel Budget Items

[In millions of dollars]

Increases:	
Fed. Civilian Military Leave	85.0
C-130 Force Structure (AFR & ANG)	5.4

LEGISLATIVE PROVISIONS NOT ADOPTED

Increase in number of members in certain grades authorized to serve on active duty in support of the reserves

The House bill contained a provision (sec. 414) that would authorize increases in the grades of reserve members authorized to serve on active duty or on full-time national guard duty for the administration of the reserves or the national guard.

The Senate amendment contained no similar provision.

The House recedes.

TITLE V—MILITARY PERSONNEL POLICY
ITEMS OF SPECIAL INTEREST

Personal finance training

The conferees are concerned about reports of personal financial difficulties being experienced by military personnel, especially lower ranking personnel. The conferees commend the Department of Defense and the services for their on-going efforts to assist and educate young service members and their families in ways and means of successfully managing their personal finances. The conferees urge the Secretary of Defense and the Secretaries of the Military Departments to review the adequacy of their training programs with regard to personal finance training to ensure a continuum of training that would provide all service members with the basic skills required to manage their personal finances. These courses should include checkbook management, credit card management, and debt management.

Sequester of Department of Defense funds as a result of a prohibition against military recruiting on campuses of Connecticut State colleges and universities

The conferees are aware that the Connecticut State Legislature and the State Supreme Court have taken steps to prohibit military recruiting on the campuses of state funded colleges and universities. As a result of this prohibition, and in accordance with section 558 of the National Defense Authorization Act for Fiscal Year 1995, the Department of Defense suspended payment of contract and grant funding to these colleges and universities.

The conferees note that the Connecticut State Legislature is not scheduled to meet until February 1998. The Governor has pledged that he will ensure the passage of legislation that would remedy the matter concerning access of military recruiters to Connecticut state institutions of higher education.

In order to provide the State of Connecticut with the opportunity to repeal its prohibition, the conferees direct the Secretary of Defense not to use funds that would have been used for contracts or grants to higher education institutions in Connecticut as sources in a reprogramming request nor to submit such funds as part of a rescission offer until March 29, 1998. If the State of Connecticut has not repealed the prohibition as of March 29, 1998, the Secretary of Defense may use the funds in a reprogramming or rescission activity.

Notwithstanding this sequestering of funds, the conferees insist that military recruiters be afforded access to institutions of higher education or face the consequence of loss of federal funds.

LEGISLATIVE PROVISIONS ADOPTED

Subtitle A—Officer Personnel Policy

Limitation on number of general and flag officers who may serve in positions outside their own service (sec. 501)

The House bill contained a provision (sec. 501) that would limit the number of general and flag officers serving in external assign-

ments to no more than 24.5 percent of the total number of such officers authorized by Congress.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would establish the number of general and flag officers serving in external assignments to no more than 26.5 percent of the total number of such officers authorized by Congress, and would increase the length of time a general or flag officer may serve in a Joint Task Force without counting against the limit imposed by this provision.

The conferees agree that the limit is computed in the aggregate and not by individual service, and that the designation of "dual-hatted" positions as external or internal service billets shall be in accordance with service policies and regulations.

Exclusion of certain retired officers from limitation on period of recall to active duty (sec. 502)

The House bill contained a provision (sec. 502) that would exclude retired military chaplains, health care professionals, and officers serving on the American Battle Monuments Commission from being subject to the statutory limits on the period of time that recalled retirees may serve on active duty.

The Senate amendment contained a similar provision (sec. 504).

The Senate recedes with a clarifying amendment.

Clarification of officers eligible for consideration by promotion boards (sec. 503)

The House bill contained a provision (sec. 503) that would clarify that officers serving on active duty and in the reserve components may be excluded from consideration from promotion to the next higher grade if they are on a promotion board report, even if that report had not yet been approved by the President.

The Senate amendment contained a similar provision.

The House recedes with a clarifying amendment.

Authority to defer mandatory retirement for age of officers serving as chaplains (sec. 504)

The House bill contained a provision (sec. 504) that would repeal the prohibition on Navy chaplains on the retired list from serving as the Chief or Deputy Chief of Chaplains in the Navy. This provision would also increase the mandatory retirement age for the Chief or Deputy Chief of Chaplains in the Navy from 62 to 68 years of age. In addition, the provision would permit service secretaries to defer the retirement of officers serving as chaplains until age 68 if the chaplains served in direct support of units and installations.

The Senate amendment contained a similar provision.

The Senate recedes with an amendment that would permit service secretaries to defer the retirement of chaplains until age 68 as long as the secretary considers the deferment in the best interest of the service.

Increase in number of officers allowed to be frocked to grades of colonel and Navy captain (sec. 505)

The Senate amendment contained a provision (sec. 502) that would increase the number of officers who may wear the grade and insignia of an O-6 (colonels in the Army, Air Force, and Marine Corps and captains in the Navy).

The House bill contained no similar provision.

The House recesses with a clarifying amendment.

Increased years of commissioned service for mandatory retirement of regular generals and admirals in grades above major general and rear admiral (sec. 506)

The Senate amendment contained a provision (sec. 505) that would increase the mandatory retirement point for three-star generals and admirals to 38 years of commissioned service and for four-star generals and admirals to 40 years of commissioned service.

The House bill contained no similar provision.

The House recesses.

The conferees do not intend that all three- and four-star officers be allowed to serve to the increased mandatory retirement points. The mandatory retirement points were increased to permit certain general and flag officers to serve long enough to develop and implement the long-term plans and policies required of certain senior positions without jeopardizing their chances of serving in positions of increased responsibility before reaching mandatory retirement. The conferees recognize that the improper implementation of this provision could have serious effects on the promotion flow points to other grades. The services retain all of their general and flag officer management tools which enable them to manage the career of those officers who become the most senior leaders within the military services without negatively affecting the career opportunities for junior officers.

Uniform policy for requirement of exemplary conduct by commanding officers and others in authority (sec. 507)

The Senate amendment contained a provision (sec. 554) that would establish, in statute, exemplary standards for commanding officers and others in positions of authority and responsibility.

The House bill contained no similar provision.

The House recesses with a clarifying amendment.

Report on the command selection process for District Engineers of the Army Corps of Engineers (sec. 508)

The Senate amendment contained a provision (sec. 1079) that would require the Secretary of Defense to report to the Congress concerning the selection and assignment policies and procedures pertaining to District Engineers of the Army Corps of Engineers.

The House bill contained no similar provision.

The House recesses with an amendment that would require the Secretary of the Army to provide the report to the Congress.

Subtitle B—Reserve Component Matters

Individual Ready Reserve activation authority (sec. 511)

The House bill contained a provision (sec. 511) that would authorize the President, under the Presidential Selective Reserve Call-up authority, to recall up to 30,000 members of a new category of the Individual Ready Reserve that would consist of those personnel, in the military skills designated by the Secretary of Defense, who had volunteered for this category prior to leaving active duty.

The Senate amendment contained no similar provision.

The Senate recesses.

Termination of Mobilization Income Insurance Program (sec. 512)

The House bill contained a provision (sec. 512) that would terminate the Ready Reserve Mobilization Income Insurance Program effective upon enactment of the National Defense Authorization Act for Fiscal Year 1998.

The Senate amendment contained a similar provision (sec. 511).

The Senate recesses.

Correction of inequities in medical and dental care and death and disability benefits for reserve members who incur or aggravate an illness in the line of duty (sec. 513)

The House bill contained a provision (sec. 513) that would authorize medical and dental care for the family member of a reservist who incurs or aggravates an injury or illness in the line of duty while serving on active duty for a period of 30 days or less and whose orders are subsequently modified to extend the period of active duty.

The Senate amendment contained a similar provision (sec. 661).

The Senate recesses with a clarifying amendment.

Authority to permit non-unit assigned officers to be considered by vacancy promotion board to general officer grades (sec. 514)

The House bill contained a provision (sec. 515) that would authorize the Secretary of the Army to permit officers not assigned to units of the Selected Reserve to compete for promotion to brigadier general and major general within the same promotion board process as officers who are assigned to units.

The Senate amendment contained no similar provision.

The Senate recesses.

Prohibition on use of Air Force Reserve AGR personnel for Air Force base security functions (sec. 515)

The House bill contained a provision (sec. 517) that would prohibit the Secretary of the Air Force from using members of the Air Force Reserve who are on active duty in support of the reserves (known as active guard and reserve or AGR personnel) to perform force protection, base security, or security police functions at an Air Force facility in the United States until six months after the Secretary submits a report to the Congress on the use of AGR personnel in these functions.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would prohibit replacing security related military technician or civilian positions at the Air Force Reserve bases with AGR personnel during fiscal year 1998.

The conferees view the Air Force proposal to provide base security at four Air Force Reserve bases in the United States as an attempt to eliminate civilian technician positions. Use of the AGRs for this security mission would replace 72 Air Reserve technicians and 136 Department of Defense civilians now providing base security at these bases. For these reasons, the conferees would prohibit the Secretary of the Air Force from utilizing AGRs for base security at United States bases during fiscal year 1998. In another provision in the conference report, the conferees direct the Secretary of Defense to submit a report to the Congress on the feasibility and advisability of converting all active guard and reserve positions to military technicians. Until this study is complete, any conversion of military technician positions to active guard and reserve would be premature.

Involuntary separation of reserve officers in an inactive status (sec. 516)

The Senate amendment contained a provision (sec. 512) that would permit the President to discharge or retire a reserve commissioned officer in an inactive status who cannot or will not retire.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

The conferees expect that the service secretaries exercise prudence and discretion when they use this authority. The decision to involuntarily discharge or retire any officer is one that must be reached only after careful deliberation. The conferees do not intend that this authority be used indiscriminately or to limit the career potential of individual officers without compelling justification.

Federal status of service by National Guard members as honor guards at funerals of veterans (sec. 517)

The Senate amendment contained a provision (sec. 514) that would permit National Guard members who serve on funeral details for veterans of the armed forces to receive credit as a period of drill or training otherwise required.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

The conferees expect that participation of National Guard personnel in a funeral detail or honor guard will be strictly voluntary and that this authority will not be used as a basis for justifying force structure, end strength, or appropriations.

Subtitle C—Military Technicians

Authority to retain on the reserve active-status list until age 60 military technicians in the grade of brigadier general (sec. 521)

The House bill contained a provision (sec. 521) that would restore the authority that existed prior to the enactment of the Reserve Officer Personnel Management Act (ROPMA) that permitted

the Secretaries of the Army and Air Force to retain brigadier general military technicians on the active-status list up to age 60.

The Senate amendment contained a similar provision (sec. 513).

The Senate recesses.

Military technicians (dual status) (sec. 522)

The House bill contained a provision (sec. 522) that would define a military technician (dual status) as a federal civilian employee who is hired in accord with titles 5 or 32, United States Code, and who, as a condition of federal civilian employment, must maintain military membership in the Selected Reserve, and who also must be assigned to a position as a technician in the administration and training of the Selected Reserve, or to a position in the maintenance and repair of supplies or equipment issued to the Selected Reserve or armed forces and require that, unless exempted by law, all military technicians hired on or after December 1, 1995, (the date of enactment of Public Law 104-61) would be required to maintain military membership in the Selected Reserve unit by which they are employed as a military technician, or in a unit they are employed as a military technician to support.

The Senate amendment contained no similar provision.

The Senate recesses.

Non-dual status military technicians (sec. 523)

The House bill contained a provision (sec. 523) that would cap the numbers of non-dual status technicians permitted in each of the reserve components in fiscal year 1998, and require the service secretaries in future years to reduce the number of non-dual status technicians by at least 10 percent per year.

The Senate amendment contained no similar provision.

The Senate recesses with an amendment that would authorize the number of non-dual status technicians in each component, and require the Secretary of Defense to report to the Congress, not later than 90 days after enactment, the actual number of non-dual status technicians in each component, and to submit to Congress, not later than 180 days after enactment, a plan to ensure that by the end of fiscal year 2007, and thereafter, all military technician positions are only occupied by military technicians (dual status).

Report on feasibility and desirability of conversion of AGR personnel to military technicians (dual status) (sec. 524)

The House bill contained a provision (sec. 524) that would require the Secretary of Defense to report to the Congress on the feasibility and desirability of converting active guard and reserve personnel to dual status military technicians.

The Senate amendment contained no similar provision.

The Senate recesses.

Subtitle D—Measures To Improve Recruit Quality and Reduce Recruit Attrition

Reform of military recruiting systems (sec. 531)

The House bill contained a provision (sec. 531) that would require the Secretary of Defense to undertake a series of department-wide reforms to improve the efficiency and effectiveness of military recruiting.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would include the use of pre-enlistment waivers among those codes and systems to be revised and updated.

Improvements in medical prescreening of applicants for military service (sec. 532)

The House bill contained a provision (sec. 532) that would direct the Secretary of Defense to undertake a number of reforms, to include:

(1) Requiring each applicant for military service to provide the name of the applicant's medical insurer, the names of past medical providers, and a release to obtain the applicant's medical records;

(2) Revising the questions asked of applicants to tie the questions more directly to conditions that most frequently result in medical separations;

(3) Assigning to a contractor or agency other than the Military Entrance Processing Command (MEPCOM) the responsibility for evaluating medical conditions of recruits that are missed during MEPCOM's accession processing; and

(4) Requiring all applicants for military service be tested for use of illegal drugs at the MEPCOM station.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

Improvements in physical fitness of recruits (sec. 533)

The House bill contained a provision (sec. 533) that would direct the Secretary of Defense to undertake a range of measures to improve the level of physical fitness of new recruits prior to the start of basic training, including the use of incentives, monetary and otherwise, for new recruits in the delayed entry program to voluntarily participate in supervised conditioning activities.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

The conferees expect that any activities developed to improve the physical fitness of recruits will be organized, formally scheduled, and supervised by personnel who have been appropriately trained to conduct physical readiness training. The conferees do not intend that recruits will be afforded unescorted, unsupervised access to military fitness facilities.

Subtitle E—Military Education and Training

Part I—Officer Education Programs

Requirement for candidates for admission to United States Naval Academy to take oath of allegiance (sec. 541)

The House bill contained a provision (sec. 543) that would codify what now is implemented by policy—that persons seeking admission to the United States Naval Academy take and subscribe to an oath of allegiance to the United States as a requirement for admission. This provision would make the requirement for an oath consistent in law for all three service academies.

The Senate amendment contained no similar provision.

The Senate recedes.

Service academy foreign exchange program (sec. 542)

The House bill contained a provision (sec. 546) that would authorize the Air Force Academy to enter into agreements with foreign governments in order to carry out a military academy foreign exchange program.

The Senate amendment contained a provision (sec. 521) that would authorize exchange programs at each of the service academies.

The Senate recedes with an amendment that would authorize exchange programs at all three service academies and would establish cost and enrollment limits.

Reimbursement of expenses incurred for instruction at service academies of persons from foreign countries (sec. 543)

The House bill contained a provision (sec. 544) that would constrain the Secretary of Defense's waiver authority for the cost of attendance for international students entering the service academies after the date of enactment to no more than 25 percent of the per-person cost of attendance by an international student, but would permit the Secretary, in exceptional cases, to waive more than 25 per cent of the cost for up to five international students at each of the service academies, and would recommend a reduction in fiscal year 1998 of \$4.2 million in Defense-wide Operations and Maintenance accounts and a \$1.0 million reduction in the amounts authorized for military personnel in the Army, Navy and Air Force.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would establish the amount of the cost of attendance for international students at the service academies permitted to be waived at 35 percent, but would permit the Secretary to waive more than 35 per cent of the cost for up to five international students at each of the service academies, would make the restrictions effective for students entering the academies after May 1998, and would restore the reductions to the military personnel and operations and maintenance accounts.

Continuation of support to senior military colleges (sec. 544)

The House bill contained a provision (sec. 567) that would require that the Secretary of Defense continue support to the senior

military colleges (Texas A&M University, Norwich University, The Virginia Military Institute, The Citadel, Virginia Polytechnic Institute and State University, and North Georgia College and State University) in three principal ways: 1) retention of the long-standing commitment by the Army to provide active duty service for all graduates of the colleges who desire it and who are recommended for it by their respective professors of military science; 2) participation by the active duty personnel assigned to the Reserve Officers' Training Corps (ROTC) detachments at each college in the leadership, academic and military development of the corps of cadets, beyond ROTC programs; and 3) continued operation of the ROTC program at each of the colleges.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would ensure active duty service for graduates of the senior military colleges who request such service, who are medically and physically qualified, and are recommended by the professor of military science. Additionally, the amendment would ensure continued operation of the ROTC program at each of the senior military colleges.

Report on making United States nationals eligible for participation in Senior Reserve Officers' Training Corps (sec. 545)

The House bill contained a provision (sec. 572) that would require the Secretary of Defense to report to the Congress on the utility of permitting United States nationals to participate in the Senior Reserve Officers' Training Corps.

The Senate amendment contained no similar provision.

The Senate recedes.

Coordination of establishment and maintenance of Junior Reserve Officers' Training Corps units to maximize enrollment and enhance efficiency (sec. 546)

The Senate amendment contained a provision (sec. 525) that would require the Secretary of Defense to coordinate the establishment and maintenance of Junior Reserve Officers' Training Corps in order to maximize enrollment and to take into consideration openings of new schools and consolidation of schools.

The House bill contained no similar provision.

The House recedes with an amendment that would change the requirement from the Secretary of Defense to the secretaries of the military departments and delete the requirement that the Secretary of Defense seek additional funding from the local educational agencies.

Part II—Other Education Matters

United States Naval Postgraduate School (sec. 551)

The House bill contained a provision (sec. 545) that would amend the current authority governing admittance of civilians at the Naval Postgraduate School, and create new authority to admit enlisted personnel to the school. Thus, the section would authorize the Secretary of the Navy to admit civilians on a space-available basis, with reimbursement being required either on an in-kind

basis or on a cost-reimbursable basis, and would also authorize enlisted members to attend courses on a space-available basis.

The Senate amendment contained no similar provision.

The Senate recesses with an amendment that would permit enlisted personnel to attend courses on a space-available basis.

Community College of the Air Force (sec. 552)

The House bill contained a provision (sec. 573) that would permit enlisted members of the Army, Navy, or Marine Corps who are assigned as instructors in Air Force technical schools and enlisted students in Air Force training programs to participate in and receive associate degrees through the Community College of the Air Force.

The Senate amendment contained a provision (sec. 522) that would permit enlisted members of the Army, Navy, or Marine Corps who are assigned as instructors in Air Force technical schools to participate in and receive associate degrees through the Community College of the Air Force.

The House recesses with a clarifying amendment.

Preservation of entitlement to educational assistance of members of the Selected Reserve serving on active duty in support of a contingency operation (sec. 553)

The Senate amendment contained a provision (sec. 523) that would ensure that members of the Selected Reserve who are ordered to active duty in support of a contingency operation, and required to discontinue a course of study under the GI Bill benefit, would not have those months charged against their GI Bill entitlement.

The House bill contained no similar provision.

The House recesses.

Part III—Training of Army Drill Sergeants

Reform of Army drill sergeant selection and training process (sec. 556)

The House bill contained a provision (sec. 542) that would require the Secretary of the Army to institute a number of reforms in the processes by which drill sergeants are selected and trained.

The Senate amendment contained no similar provision.

The Senate recesses.

Training in human relations matters for Army drill sergeant trainees (sec. 557)

The House bill contained a provision (sec. 547) that would require the Secretary of the Army to expand the human relations instruction now provided to drill sergeant trainees to at least two days of instruction.

The Senate amendment contained no similar provision.

The Senate recesses with a clarifying amendment.

Subtitle F—Commission on Military Training and Gender-Related Issues

Commission on Military Training and Gender-Related Issues (secs. 561–566)

The House bill contained a provision (sec. 541) that would require the establishment of a panel to review the basic training programs of the Army, Navy, Air Force, and Marine Corps, and to make recommendations for improvements to these programs.

The Senate amendment contained a provision (sec. 552) that would establish an 11-member commission to study issues related to gender integration in the military services.

The House recedes with an amendment that would integrate the scope of the independent panel into that of the commission, and reduce the membership of the commission to 10, five of which would be appointed by the chairman and ranking member of the Committee on Armed Services of the Senate and the remaining five appointed by the chairman and ranking member of the National Security Committee of the House of Representatives.

The House bill contained a provision (sec. 548) that would require each of the secretaries of military departments to submit a report to the Committee on Armed Services of the Senate and the National Security Committee of the House of Representatives, within 180 days after the date of enactment, on gender-segregated basic training.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would incorporate the information required by the report into the provision that would establish a commission for review of gender integration in the military departments.

Subtitle G—Military Decorations and Awards

Purple Heart to be awarded only to members of the Armed Forces (sec. 571)

The House bill contained a provision (sec. 552) that would limit eligibility for the award of the Purple Heart to members of the armed forces.

The Senate amendment contained no similar provision.

The Senate recedes.

Eligibility for Armed Forces Expeditionary Medal for participation in Operation Joint Endeavor or Operation Joint Guard (sec. 572)

The House bill contained a provision (sec. 553) that would require the Secretary of Defense to designate participation by service members in Operation Joint Endeavor or Operation Joint Guard in the Republic of Bosnia and Herzegovina as meeting the requirements for award of the Armed Forces Expeditionary Medal.

The Senate amendment contained no similar provision.

The Senate recedes.

Clarification of eligibility of members of Ready Reserve for award of service medal for heroism (sec. 574)

The Senate amendment contained a provision (sec. 531) that would authorize members of the Ready Reserve to be awarded the service medal for heroism on the same basis as active duty service members.

The House bill contained no similar provision.

The House recesses.

One-year extension of period for receipt of recommendations for decorations and awards for certain military intelligence personnel (sec. 575)

The Senate amendment contained a provision (sec. 533) that would extend, by one year, the time in which military intelligence personnel could apply for consideration of an award for service in the Cold War era.

The House bill contained no similar provision.

The House recesses with a clarifying amendment.

Eligibility of certain World War II military organizations for award of unit decorations (sec. 576)

The Senate amendment contained a provision (sec. 534) that would authorize the service secretaries to award a unit decoration to any unit or other organization of the armed forces of the United States that supported the planning or execution of combat operations during World War II.

The House bill contained no similar provision.

The House recesses with a clarifying amendment.

Retroactivity of Medal of Honor special pension (sec. 577)

The Senate amendment contained a provision (sec. 535) that would authorize retroactive payment of the special pension to which recipients of the Medal of Honor are entitled to those African-American World War II soldiers who were awarded the Medal of Honor as a result of legislation in the National Defense Authorization Act for Fiscal Year 1996.

The House bill contained no similar provision.

The House recesses.

Subtitle H—Military Justice Matters

Amendments to the Uniform Code of Military Justice (secs. 581 and 582)

The House bill contained two provisions (secs. 569 and 570) that would amend the Uniform Code of Military Justice. Section 569 would authorize a general court-martial to adjudge a sentence of confinement for life without eligibility for parole. Section 570 would limit to the President or the Secretary concerned, without delegation, the authority to grant parole to an offender serving a life sentence on appeal from a denial of parole.

The Senate amendment contained no similar provision.

The Senate recesses.

Subtitle I—Other Matters

Sexual harassment investigations and reports (sec. 591)

The Senate amendment contained a provision (sec. 553) that would establish rigorous reporting requirements and time lines for completing investigations into allegations of sexual harassment within the armed services.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Sense of the Senate regarding study of matters relating to gender equity in the Armed Forces (sec. 592)

The Senate amendment contained a provision (sec. 551) that would express the sense of the Congress that the Comptroller General of the United States should conduct a study on any inequality, or perception of inequality, in the treatment of men and women in the armed forces and report to Congress within one year of enactment of the National Defense Authorization Act for Fiscal Year 1998.

The House bill contained no similar provision.

The House recedes with an amendment that would express the sense of the Senate that the Comptroller General of the United States should conduct a study on any inequality, or perception of inequality, in the treatment of men and women in the armed forces and report to the Senate within one year of enactment of the National Defense Authorization Act for Fiscal Year 1998.

Authority for personnel to participate in management of certain non-Federal entities (sec. 593)

The House bill contained a provision (sec. 563) that would authorize service secretaries to approve on a case-by-case basis the limited service of military and civilian personnel as directors, trustees, or officers of a military welfare society, such as Army Emergency Relief, or other designated entities.

The Senate amendment contained a similar provision (sec. 555).

The Senate recedes with an amendment that would require that the approved non-Federal agencies be limited to not-for-profit agencies and would not permit participation as part of the service member's official duties.

The conferees support the participation of military and civilian personnel in the military welfare agencies and other non-Federal, not-for-profit entities without compensation and at no cost to the Federal Government.

Treatment of participation of members in Department of Defense civil military programs (sec. 594)

The House bill contained a provision (sec. 566) that would prohibit the secretary of a military department from requiring or requesting a service member to submit, for consideration by a selection board, evidence of the service member's support and service to non-Department of Defense organizations. In addition, the section would prohibit promotion and selection boards from using involve-

ment in civil-military and community support programs as a special evaluation criteria.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would permit consideration by promotion boards of voluntarily submitted information. The conferees recognize that there are currently precise policies governing communication with and information available to selection boards.

Comptroller General study of Department of Defense civil military programs (sec. 595)

The House bill contained a provision (sec. 565) that would require the Comptroller General to conduct a study to evaluate the civil military programs of the military services.

The Senate amendment contained no similar provision.

The Senate recedes.

Establishment of public affairs specialty in the Army (sec. 596)

The House bill contained a provision (sec. 571) that would establish public affairs as a special branch of the Army.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would establish a public affairs speciality within the Army.

Grade of defense attaché in France (sec. 597)

The Senate amendment contained a provision (sec. 557) that would require the Secretary of Defense and Chairman of the Joint Chiefs of Staff to ensure that the defense attaché in France is an officer who holds or is promotable to the grade of brigadier general or, in the case of the Navy, rear admiral (lower half).

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Report on crew requirements of WC-130J aircraft (sec. 598)

The House bill contained a provision (sec. 564) that would preclude navigator and other manpower requirements of units engaged in eyewall penetration of tropical cyclones from being reduced below the requirements established as of October 1, 1997 until the end of a six-month period after the Secretary of the Air Force reports to the Congress on the manpower requirements for WC-130J aircraft.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would eliminate the prohibition on reducing personnel levels in WC-130J units, and would add a requirement that the Secretary of the Air Force submit a plan to the Congress for assisting personnel in these units transition to other units or job specialities.

Improvement of missing persons authorities applicable to Department of Defense (sec. 599)

The House bill contained a provision (sec. 568) that would restore provisions pertaining to U.S. prisoners of war, those missing in action, and unaccounted for persons, enacted in the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104-106)

and subsequently repealed by the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201). Specifically, the section would expand the scope of current law by:

(1) Making it applicable to Department of Defense civilians and contractors accompanying armed forces in the field;

(2) Establish a 48-hour suspense for the commander's initial report of a missing person's status;

(3) Require the theater component commander's involvement in the initial assessment of a missing person's status;

(4) Require the status of persons who were last known alive to be reviewed every 3 years for 30 years following initial report;

(5) Re-establish criminal penalties for the knowing and willful withholding of information from a missing person's file;

(6) Restore the requirement that a status review board (when making determinations of death) must provide a description of the location of body, if recovered, and, if the body is not identifiable, a certification by "a practitioner of an appropriate forensic science that the body recovered is that of the missing person;" and

(7) Restore the ability of certain persons to request status reviews of a limited number of Korean War cases.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would expand current law:

(1) Making it applicable to certain Department of Defense civilians and contractors in direct support of or accompanying armed forces in the field;

(2) Require that an advisory copy of a missing person report be provided to the theater component commander;

(3) Require that if a body is recovered, and is not identifiable by visual means, a certification by a forensic pathologist that the body recovered is that of the missing person is required before the status may be changed;

(4) For pre-enactment cases, define "new information" as information found or received by the primary next of kin, member of the immediate family or a previously designated person or information that is identified in records of the United States that is relevant to the case of one or more unaccounted for persons, and require that such information be credible before a new file is created;

(5) Require that the identity of the counsel for the missing person be made known to the primary next of kin or the previously designated person, and permit the primary next of kin or the previously designated person to provide information to the counsel of the missing person in connection with the initial review board;

(6) Require that an extract of any debriefing report be placed in the file of every missing person mentioned in the report; require that an extract of such debriefing reports be made available to family members of missing persons, or if the reports are withheld, notify the family that such information exists; and

(7) Require that, if as allowed by law, classified information is withheld from the file of a missing person, the notice of that withholding be made reasonably available to the families of the missing person.

LEGISLATIVE PROVISIONS NOT ADOPTED

Time-in-grade requirements for reserve commissioned officers retired during the drawdown period

The House bill contained a provision (sec. 514) that would authorize the secretaries of the military departments to reduce the required time in grade for a reserve officer to retire in the highest grade held from three to not less than two years.

The Senate amendment contained no similar provision.

The House recesses.

Grade requirement for officers eligible to serve on involuntary separation boards

The House bill contained a provision (sec. 516) that would reduce the grade required for officer separation board members in the reserve components from 0–6 and above to 0–5 and above.

The Senate amendment contained no similar provision.

The House recesses.

Study of new decorations for injury or death in line of duty

The House bill contained a provision (sec. 551) that would require the Secretary of Defense, in cooperation with the secretaries of the military departments and the Secretary of the Treasury with regard to the Coast Guard, to determine the appropriate name, policy, award criteria, and design for two new decorations.

The Senate amendment contained no similar provision.

The House recesses.

Suspension of temporary early retirement authority

The House bill contained a provision (sec. 561) that would suspend the authorization for the early retirement program during fiscal year 1998.

The Senate amendment contained no similar provision.

The House recesses.

Recognizing the savings that can be achieved by using this authority early in the year, the conferees reduced the amount authorized to be appropriated to the Air Force for this program by \$49.0 million.

Treatment of educational accomplishments of National Guard ChallengeNGe program participants

The House bill contained a provision (sec. 562) that would deem a general education diploma certificate achieved as a result of the individual's participation in a National Guard ChallengeNGe program the same as a high school diploma for the purpose of determining the eligibility of the person for enlistment in the armed forces.

The Senate amendment contained no similar provision

The House recesses.

Repeal of certain staffing and safety requirements for the Army Ranger Training Brigade

The Senate amendment contained a provision (sec. 524) that would repeal section 4303 of title 10, United States Code, which specified minimum manning levels for the Ranger Training Brigade and required the establishment of training safety cells.

The House bill contained no similar provision.

The Senate recedes.

TITLE VI—COMPENSATION AND OTHER PERSONNEL BENEFITS

LEGISLATIVE PROVISIONS ADOPTED

Subtitle A—Pay and Allowances

Increase in basic pay for fiscal year 1998 (sec. 601)

The House bill contained a provision (sec. 601) that would provide a 2.8 percent military pay raise as proposed in the President's budget request.

The Senate amendment contained a provision (sec. 601) that would waive section 1009 of title 37, United States Code, and increase the rates of basic pay for members of the uniformed services by 2.8 percent effective January 1, 1998.

The Senate recedes with a clarifying amendment.

Reform of basic allowance for subsistence (sec. 602)

The House bill contained a provision (sec. 603) that would re-engineer the basic allowance for subsistence (BAS) by providing the Secretary of Defense greater flexibility to continue to pay BAS when rations in kind are available; index the annual growth in the subsistence allowance to increases in the cost of the moderate food plan of the U.S. Department of Agriculture; and repeal the current process of increasing the basic allowance for subsistence at the same rate as the military pay raise.

The Senate amendment contained three provisions (sec. 611–613) that would reform the BAS for all members of the uniformed services by linking the BAS for officers and enlisted members to the Department of Agriculture food plan indexes; provide a transition period during which annual increases in the current enlisted allowance would be limited to one percent until such time as the transition period allowance equals the new Department of Agriculture based allowance; and provide a new, partial subsistence allowance for junior enlisted personnel who are not currently eligible for any subsistence allowance.

The House recedes with an amendment that would merge the provisions into one.

Consolidation of basic allowance for quarters, variable housing allowance, and overseas housing allowances (sec. 603)

The House bill contained a provision (sec. 604) that would consolidate the basic allowance for quarters and the variable housing allowance; would authorize \$35.0 million to reduce out-of-pocket housing costs for individuals receiving Basic Allowance for Quarters; would index the annual growth in housing allowances to in-

creases in the national average monthly cost of housing; repeal the current process of increasing the basic allowance for quarters at the same rate as the military pay raise; incorporate the authorities for overseas station housing allowance and family separation housing allowance; and would protect service members from reductions in the rate of overseas station allowance not attributable to fluctuations in foreign currency rates, so long as the member's housing costs have not been reduced.

The Senate amendment contained six provisions (sec. 616, 617, 619–622) that would adopt a single, price-based housing allowance based on a national index of housing costs and authorize a housing allowance that would vary with pay grade and dependency status and would be based on local private sector housing costs.

The Senate recedes with an amendment that would merge the provisions into one, except that the conferees did not agree to authorize \$35.0 million to reduce out-of-pocket housing costs.

Revision of authority to adjust compensation necessitated by reform of subsistence and housing allowances (sec. 604)

The Senate amendment contained a provision (sec. 626) that would revise the authority to adjust compensation of uniformed services personnel when federal civilian pay is adjusted.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

The conferees direct the Secretary of Defense to study the need for and cost effectiveness of establishing a locality pay system for military personnel that is comparable to the system in place for federal civilian employees, and to report the results of the study to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives, not later than March 31, 1998.

Protection of total compensation of members while performing certain duty (sec. 605)

The House bill contained a provision (sec. 602) that would repeal the legislative link between military and federal civilian pay raises and would require military pay raises to be independently calculated using the Employment Cost Index and would ensure that total pay and allowances of a service member will not be reduced when assigned to field conditions at home station or temporary duty away from home station.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would ensure that the total pay and allowances of a service member will not be reduced when the service member is assigned to field duty at home station or to temporary duty away from home station and would strike the remainder of the provision.

Subtitle B—Bonuses and Special and Incentive Pays

One-year extension of certain bonuses and special pay authorities for reserve forces (sec. 611)

The House bill contained a provision (sec. 611) that would extend the authority for the selected reserve reenlistment bonus, the

selected reserve enlistment bonus, the selected reserve affiliation bonus, the ready reserve enlistment and reenlistment bonus, and the prior service enlistment bonus until September 30, 1999.

The Senate amendment contained a provision (sec. 631) that would extend the authority to pay the special pay for critically short wartime health specialists in the Selected Reserve, the Selected Reserve reenlistment bonuses, the Selected Reserve enlistment bonuses, the special pay for enlisted members assigned to certain high priority units in the Selected Reserve, the Selected Reserve affiliation bonus, the Ready Reserve enlistment and reenlistment bonus, the repayment of loans for certain health professionals who serve in the Selected Reserve, and the prior service enlistment bonus until September 30, 1999.

The House recedes with a clarifying amendment.

One-year extension of certain bonuses and special pay authorities for nurse officer candidates, registered nurses, and nurse anesthetists (sec. 612)

The House bill contained a provision (sec. 612) that would extend the authority for the nurse officer candidate accession program, the accession bonus for registered nurses, and the incentive special pay for nurse anesthetists until September 30, 1999.

The Senate amendment contained a provision (sec. 632) that would extend the authority to pay certain bonuses and special pays for nurse officer candidates, registered nurses, and nurse anesthetists until September 30, 1999.

The Senate recedes.

One-year extension of authorities relating to payment of other bonuses and special pays (sec. 613)

The House bill contained a provision (sec. 613) that would extend the authority for the aviation officer retention bonus, special pay for health care professionals who serve in the selected reserve in critically short wartime specialties, reenlistment bonus for active members, enlistment bonuses for critical skills, special pay for enlisted members of the selected reserve assigned to certain high priority units, special pay for nuclear qualified officers extending the period of active service, and nuclear career accession bonus to September 30, 1999. The provision would also extend the authority for repayment of educational loans for certain health professionals who serve in the selected reserve and the nuclear career annual incentive bonus until October 1, 1999.

The Senate amendment contained a provision (sec. 633) that would extend the authority to pay the aviation officer retention bonus, the reenlistment bonus for active members, the enlistment bonuses for critical skills, the special pay for nuclear qualified officers extending the period of active service, the nuclear career accession bonus, and the nuclear career annual incentive bonus until September 30, 1999.

The Senate recedes with a clarifying amendment.

Increase in minimum monthly rate of hazardous duty incentive pay for certain members (sec. 614)

The House bill contained a provision (sec. 614) that would increase the amount paid to service members engaged in certain hazardous duties to \$150 a month; would increase the minimum amount paid to service members engaged in non-aviator aircrew duties and air weapons controller aircrew duties to \$150 a month; and would increase the amount paid to service members engaged in free fall parachute jumping to \$225 a month.

The Senate amendment contained no similar provision.

The Senate recesses.

To provide for the increases, the conferees recommend an increase of \$22.1 million in the military personnel accounts.

Increase in aviation career incentive pay (sec. 615)

The Senate amendment contained a provision (sec. 634) that would increase the aviation career incentive pay for aviators with more than 14 years of service. The recommended provision would be effective October 1, 1998.

The House bill contained no similar provision.

The House recesses with an amendment that would change the effective date to January 1, 1999.

Modification of aviation officer retention bonus (sec. 616)

The Senate amendment contained a provision (sec. 635) that increase the maximum amount of the aviation officer continuation pay from \$12,000 to \$25,000.

The House bill contained no similar provision.

The House recesses with an amendment that would change the required years of commitment to receive a bonus.

Availability of multiyear retention bonus for dental officers (sec. 617)

The House bill contained a provision (sec. 615) that would amend section 301d of title 37, United States Code, to give the Secretary of Defense discretionary authority to provide multi-year contracts to dental officers, particularly critical specialists. These contracts would obligate dentists for up to four years and would enhance retention and management of the dental corps. The provision would require that dentists with a specialty in oral and maxillofacial surgery with at least eight years of service be automatically eligible for these contracts.

The Senate amendment contained a provision (sec. 636) that would authorize multiyear retention bonuses for dental officers similar to those authorized for medical officers.

The Senate recesses.

Increase in variable and additional special pays for certain dental officers (sec. 618)

The House bill contained a provision (sec. 616) that would amend section 302b(a) of title 37, United States Code, to increase special pay for dental officers with eight or more years of service.

The Senate amendment contained a provision (sec. 637) that would increase the amount of the special pay for dental officers of

the armed forces and modify the number of years of service required to qualify for certain levels of the special pay.

The Senate recesses.

Availability of special pay for duty at designated hardship duty locations (sec. 619)

The House bill contained a provision (sec. 617) that would authorize a hardship duty pay for service members serving in locations that present quality of life hardships up to a maximum of \$300 per month.

The Senate amendment contained no similar provision.

The Senate recesses with a clarifying amendment.

Definition of sea duty for purposes of career sea pay (sec. 620)

The House bill contained a provision (sec. 651) that would authorize duty on a ship-based staff to be designated as sea duty for the purpose of qualifying for career sea pay.

The Senate amendment contained no similar provision.

The Senate recesses.

Modification of Selected Reserve reenlistment bonus (sec. 621)

The House bill contained a provision (sec. 618) that would restructure the payment options available to the secretaries of the military departments for the Selected Reserve reenlistment bonus, and would extend the period of eligibility for the bonus from members with less than 10 years total military service to members with less than 14 years service.

The Senate amendment contained a provision (sec. 638) that would provide service secretaries discretionary authority to determine the annual payment amounts for reserve reenlistment bonuses. The initial payment would be limited to not more than one-half of the total bonus. The recommended provision would also permit a member to receive a bonus when electing a three-year term of reenlistment twice in lieu of a single six-year term.

The House recesses with a clarifying amendment.

Modification of Selected Reserve enlistment bonus for former enlisted members (sec. 622)

The House bill contained a provision (sec. 619) that would restructure the payment options available to the secretaries of the military departments for the Selected Reserve enlistment bonus for former enlisted members, and would extend the period of eligibility for the bonus from members with less than 10 years total military service to those with less than 14 years service.

The Senate amendment contained a provision (sec. 639) that would modify the Selected Reserve prior service enlistment bonus to permit a member to receive a bonus for a three-year term of enlistment and a subsequent three-year reenlistment in lieu of a single six-year enlistment option.

The Senate recesses with a clarifying amendment.

Expansion of reserve affiliation bonus to include Coast Guard Reserve (sec. 623)

The House bill contained a provision (sec. 623) that would extend the authority to pay a bonus for separating active duty personnel who agree to serve in a reserve unit to the Coast Guard Reserve.

The Senate amendment contained a similar provision.
The House recedes with a clarifying amendment.

Increase in special pay and bonuses for nuclear-qualified officers (sec. 624)

The Senate amendment contained a provision (sec. 640) that would increase the maximum authorized rate for three nuclear special pays and bonuses for nuclear qualified officers of the Navy.

The House bill contained no similar provision.
The House recedes with a clarifying amendment.

Provision of bonuses in lieu of special pay for enlisted members extending tours of duty at designated locations overseas (sec. 625)

The House bill contained a provision (sec. 620) that would authorize the payment of a bonus, as an alternative to a monthly special pay, to enlisted members who extend their tours of duty overseas.

The Senate amendment contained a provision (sec. 641) that would authorize the service secretaries to pay a lump sum payment of up to \$2,000 per year to qualified enlisted members who extend their duty at designated overseas locations. The recommended provision:

(1) authorizes the service secretaries to fix the rate of payment as of the date of the extension agreement is accepted by the service;

(2) establishes the government's ability to recover payments for which service agreements are not completed; and

(3) removes the entitlement to such payment for those members who elect to receive government-funded rest and recuperative absences or transportation.

The House recedes with a clarifying amendment.

Increase in amount of family separation allowance (sec. 626)

The House bill contained a provision (sec. 621) that would increase the amount of family separation allowance paid to service members to \$100 a month.

The Senate amendment contained no similar provision.
The Senate recedes.

To provide for the increase, the conferees agree to authorize an increase of \$25.0 million in the military personnel accounts.

Deadline for payment of Ready Reserve muster duty allowance (sec. 627)

The House bill contained a provision (sec. 622) that would authorize the payment of the muster duty allowance not later than 30 days after the service member performs the duty.

The Senate amendment contained a provision (sec. 627) that would repeal the requirement that members of the Ready Reserve

be paid for muster duty on or before the date on which they perform the duty, and would require that the allowance be paid on or before, but not later than 30 days following the date on which the duty is performed.

The Senate recedes with a clarifying amendment.

Subtitle C—Travel and Transportation Allowances

Travel and transportation allowances for dependents before approval of member's court-martial sentence (sec. 631)

The House bill contained a provision (sec. 631) that would remove the restrictions on authorizing travel and transportation allowances to a dependent of a service member who receives certain court-martial sentences.

The Senate amendment contained a provision (sec. 662) that would permit the service secretaries to move family members when a crime has been committed by the military sponsor.

The Senate recedes with a clarifying amendment.

Dislocation allowance (sec. 632)

The House bill contained a provision (sec. 632) that would establish grade-based rates for dislocation allowances and would index the annual growth of dislocation allowances to increases in the national average monthly cost of housing.

The Senate amendment contained a provision (sec. 618) that would establish the amount of the dislocation allowance for a service member to be equal to 160 percent of the national average cost of housing determined for members of the same grade and dependency status and for those service members entitled to a second dislocation allowance, the second allowance would be equal to 130 percent of the national average cost of housing determined for members of the same grade and dependency status.

The Senate recedes with an amendment that would merge the provisions into one.

Subtitle D—Retired Pay, Survivor Benefits, and Related Matters

One-year opportunity to discontinue participation in Survivor Benefit Plan (sec. 641)

The Senate amendment contained a provision (sec. 651) that would permit a participant in the Survivor Benefit Plan to elect to discontinue participation at any time during a one-year period beginning on the second year anniversary of the date on which the member retired.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Time in which change in survivor benefit coverage from former spouse to spouse may be made (sec. 642)

The House bill contained a provision (sec. 641) that would remove the requirement that service members may change the beneficiary for the Survivor Benefit Plan from a former spouse to a spouse within one year of the date of remarriage.

The Senate amendment contained a provision (sec. 652) that would permit a military retiree to change the beneficiary of his or her Survivor Benefit Plan from a former spouse to a current spouse at any time after the retiree remarries.

The House recesses with a clarifying amendment.

Review of Federal former spouse protection laws (sec. 643)

The Senate amendment contained a provision (sec. 1039) that would require the Secretary of Defense to conduct a comprehensive review of the Uniformed Services Former Spouse Protection Act. The review would include other laws affecting federal civil service retirement and current civil practices regarding division of retirement pay or pensions in order to assess whether the Uniformed Services Former Spouse Protection Act should be amended. The recommended provision requires the report to be provided to Congress by September 30, 1999.

The House bill contained no similar provision.

The House recesses with an amendment that would clarify the areas to be considered during the review of the Uniformed Services Former Spouse Protection Act.

Annuities for certain military surviving spouses (sec. 644)

The Senate amendment contained a provision (sec. 654) that would authorize an annuity of \$165 a month for surviving spouses of former active duty service members who died before March 21, 1974, and were retired from active duty. The recommended provision would also apply to surviving spouses of service members retired from the reserves between September 21, 1972 and October 1, 1978. These surviving spouses, known as "Forgotten Widows," are the survivors of retired military personnel who died before any survivor benefit program was enacted.

The House bill contained no similar provision.

The House recesses.

Administration of benefits for so-called minimum income widows (sec. 645)

The conferees agree to include a provision that would clarify the authority of the Secretary of Veterans Affairs to consolidate certain annuities currently paid by the Secretary of Defense to the widows of military retirees into a single payment.

Subtitle E—Other Matters

Loan repayment program for commissioned officers in certain health professions (sec. 651)

The House bill contained a provision (sec. 652) that would amend chapter 109 of title 10, United States Code, to establish an education loan repayment program for specific health professions.

The Senate amendment contained no similar provision.

The Senate recesses with a clarifying amendment.

Conformance of NOAA commissioned officers separation pay to separation pay for members of other uniformed services (sec. 652)

The House bill contained a provision (sec. 653) that would remove the limitations on the amount of separation pay that may be paid to commissioned officers of the National Oceanic and Atmospheric Administration (NOAA) and would exclude that portion of separation pay withheld for income taxes from the amount that must be repaid before becoming eligible for disability payments from the Department of Veterans Affairs. This section would conform the separation pay authority for NOAA commissioned officers with the separation pay authority for members of the armed services.

The Senate amendment contained no similar provision.
The Senate recedes with a clarifying amendment.

Eligibility of Public Health Service officers and NOAA commissioned corps officers for reimbursement of adoption expenses (sec. 653)

The House bill contained a provision (sec. 654) that would authorize officers of the Commissioned Corps of the Public Health Service to receive reimbursement for adoption expenses in the same manner as members of the armed forces.

The Senate amendment contained a provision (sec. 663) that would extend the authorization for reimbursement of adoption expenses in effect for the armed forces to the Public Health Service and the National Oceanic and Atmospheric Administration.

The House recedes with a clarifying amendment.

Payment of back quarters and subsistence allowances to World War II veterans who served as guerrilla fighters in the Philippines (sec. 654)

The House bill contained a provision (sec. 655) that would authorize the payment of quarters and subsistence allowances to qualified individuals who served as guerilla fighters during the period from January 1942 through February 1945.

The Senate amendment contained no similar provision.
The Senate recedes.

Subsistence of members of the Armed Forces above the poverty level (sec. 655)

The House bill contained a provision (sec. 657) that would direct the Secretary of Defense to conduct a study of members of the armed forces and their dependents who subsist at, near, or below the poverty line.

The Senate amendment contained a similar provision (sec. 664).

The House recedes with a clarifying amendment.

The conferees do not intend that implementation of this provision would cause current recipients of supplemental food benefits within the United States to be removed from the program. The conferees encourage the committees of jurisdiction to examine the need for a supplemental food program for members of the armed services and eligible civilians living overseas and provide the funding needed to operate the overseas program while sustaining the program

within the United States. The conferees note that the Secretary of Defense may use Department of Defense funds to conduct this program until funding is received from the Secretary of Agriculture.

LEGISLATIVE PROVISIONS NOT ADOPTED

Space available travel for members of Selected Reserve

The House bill contained a provision (sec. 656) that would provide authority for members of the Selected Reserve and their accompanying dependents to receive transportation on Department of Defense aircraft on a space available basis under the same terms and conditions that apply to active duty members of the armed forces and their dependents.

The Senate amendment contained no similar provision.

The House recesses.

Implementation of Department of Defense Supplemental Food Program for military personnel outside the United States

The House bill contained a provision (sec. 658) that would authorize the Secretary of Defense to use operations and maintenance funding to operate the program until funding is received from the Secretary of Agriculture.

The Senate amendment contained a similar provision within section 664.

The House recesses.

Paid-up coverage under Survivor Benefit Plan

The Senate amendment contained a provision (sec. 653) that would terminate Survivor Benefit Plan payments following 30 years of payments and attaining the age of 70.

The House bill contained no similar provision.

The Senate recesses.

TITLE VII—HEALTH CARE PROVISIONS

LEGISLATIVE PROVISIONS ADOPTED

Subtitle A—Health Care Services

Expansion of retiree dental insurance plan to include surviving spouse and child dependents of certain deceased members (sec. 701)

The House bill contained a provision (sec. 701) that would amend section 1076c(b)(4) of title 10, United States Code, to allow the survivors of members who died while on active duty to participate in the retiree dental insurance plan.

The Senate amendment contained no similar provision.

The Senate recesses.

Provision of prosthetic devices to covered beneficiaries (sec. 702)

The House bill contained a provision (sec. 702) that would amend section 1077(a) of title 10, United States Code, to allow for prosthetic devices to be provided to CHAMPUS beneficiaries for significant conditions, as determined by the Secretary of Defense.

The Senate amendment contained a similar provision (sec. 707).

The Senate recesses.

Study concerning the provision of comparative information (sec. 703)

The Senate amendment contained a provision (sec. 711) that would require the Secretary of Defense to conduct a study concerning the provision of information to TRICARE beneficiaries and report the results to the Congress.

The House bill contained no similar provision.

The House recesses with a clarifying amendment.

Subtitle B—TRICARE Program

Addition of definition of TRICARE program to title 10 (sec. 711)

The House bill contained a provision (sec. 711) that would amend section 1072 of title 10, United States Code, to include a definition of the TRICARE Program.

The Senate amendment contained no similar provision.

The Senate recesses.

Plan for expansion of managed care option of TRICARE program (sec. 712)

The House bill contained a provision (sec. 712) that would require the Secretary of Defense to prepare a plan for expanding the managed care option of TRICARE—TRICARE Prime—into areas located outside the catchment areas of military treatment facilities where the Department determines it is cost effective to do so.

The Senate amendment contained no similar provision.

The Senate recesses with a clarifying amendment.

Subtitle C—Uniformed Services Treatment Facilities

Implementation of designated provider agreements for Uniformed Services Treatment Facilities (sec. 721)

The House bill contained a provision (sec. 721) that would amend section 722(c) of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201) to clarify the implementation date of the designated provider program of the Uniformed Services Treatment Facilities (USTFs), and allow the USTFs to begin delivery of health care services as a designated provider within six months of signing the new designated provider agreement with the Department of Defense, or upon implementation of TRICARE in the USTFs region, whichever date is later.

The Senate amendment contained a provision (sec. 731) that would clarify the implementation date of the designated provider program of the Uniformed Services Treatment Facilities (USTFs); allow the USTFs to begin delivery of health care services as a designated provider within six months of signing the new designated provider agreement with the Department of Defense, or upon implementation of TRICARE in the USTFs region, whichever date is later; require the Secretary of Defense to submit to binding arbitration; impose limits on contracting out primary care services and

permit flexibility on the date on which the uniform benefit must be implemented.

The Senate recesses.

Continued acquisition of reduced-cost drugs (sec. 722)

The House bill contained a provision (sec. 723) that would allow the Uniform Services Treatment Facilities to continue to purchase pharmaceuticals under the preferred pricing levels applicable to government agency purchases.

The Senate amendment contained a similar provision (sec. 733).

The House recesses.

Limitation on total payments (sec. 723)

The House bill contained a provision (sec. 722) that would clarify the limitation on total program payments established in section 726(b) of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201).

The Senate amendment contained a similar provision (sec. 732).

The House recesses.

Subtitle D—Other Changes to Existing Laws Regarding Health Care Management

Improvements in health care coverage and access for members assigned to certain duty locations far from sources of care (sec. 731)

The Senate amendment contained a provision (sec. 701) that would make active duty service members assigned to certain remote duty locations eligible for health care under the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS), and would direct the secretaries of the military departments to waive the annual fees, deductibles, and copayments associated with CHAMPUS.

The House bill contained no similar amendment.

The House recesses with an amendment that would retain the Senate provision and would direct the Secretary of Defense to improve the supplemental care program consistent with the TRICARE program in order to provide care to active duty personnel who are assigned to duty locations more than 50 miles from a military treatment facility.

Waiver or reduction of copayments under overseas dental program (sec. 732)

The House bill contained a provision (sec. 731) that would amend section 1076a(h) of title 10, United States Code, to waive the dental copayment requirements for family members of active-duty members stationed overseas when they receive host-nation dental care under the Overseas Dental Program.

The Senate amendment contained no similar provision.

The Senate recesses.

Premium collection requirements for medical and dental insurance programs; extension of deadline for implementation of dental insurance program for military retirees (sec. 733)

The House bill contained a provision (sec. 732) that would amend section 1076b(b) and 1076c(c) of title 10, United States Code, to change the premium collection method prescribed for the Selected Reserve Dental Program and the Retiree Dental Program.

The Senate amendment contained a similar provision (sec. 705).

The Senate recedes with an amendment that would modify the date on which the retiree dental plan must be effective.

The conferees continue to insist that the Secretary of Defense provide comprehensive dental insurance programs for the Selected Reserve and for retirees and their families at the lowest possible cost.

The conferees expect the Secretary of Defense to use the allotment or payroll deduction process to the maximum extent possible for dental insurance premium collection. The conferees urge the Secretary to review the feasibility of including electronic funds transfer as an alternative means of premium collection. The conferees expect the Secretary to forward a legislative proposal if it is determined that electronic funds transfer is a viable alternative and that legislation is required to facilitate that method of premium collection.

The conferees urge the Secretary of Defense to develop a regional premium similar to the common practices of the commercial insurance industry to ensure that those who live in low-cost areas do not subsidize those in higher cost areas. The conferees note that it is common commercial practice to limit the availability of certain benefits for some period of time after the beneficiary enrolls in the program, or to require a minimum enrollment period. The conferees urge the Secretary of Defense to consider including these commercial practices in the retiree dental plan.

Dental insurance plan coverage for retirees of the Public Health Service and NOAA (sec. 734)

The Senate amendment contained a provision (sec. 706) that would extend eligibility for the retiree dental plan of the Department of Defense to retirees of the Public Health Service and the National Oceanic and Atmospheric Administration.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Consistency between CHAMPUS and Medicare in payment rates for services (sec. 735)

The House bill contained a provision (sec. 733) that would amend section 1079(h) of title 10, United States Code, to provide for greater consistency between CHAMPUS reimbursement rates for health care services and Medicare reimbursement rates.

The Senate amendment contained no similar provision.

The Senate recedes.

Use of personal services contracts for provision of health care services and legal protection for providers (sec. 736)

The House bill contained a provision (sec. 734) that would clarify that personal services contract employees providing health care services, including fee-basis physicians, are covered by the same malpractice litigation rules as other Department of Defense health care providers and would enable the Secretary of Defense the authority to provide for reasonable attorney's fees in any litigation in which government attorneys do not provide representation.

The Senate amendment contained no similar provision.

The Senate recesses with an amendment that would sunset the provision after one year, would require the Secretary of Defense to report to the Congress on alternative methods to provide medical screening to the Military Entrance and Processing stations, including use of the TRICARE Managed Support contracts and outsourcing, and would extend the authority to the Secretary of Transportation for the Coast Guard.

Portability of State licenses for Department of Defense health care professionals (sec. 737)

The House bill contained a provision (sec. 735) that would amend section 1094 of title 10, United States Code, to authorize members of the armed forces licensed to practice medicine and other health professions to practice such professions in any state, the District of Columbia, or a territory or possession of the United States while performing authorized duties for the Department of Defense.

The Senate amendment contained no similar provision.

The Senate recesses.

Standard form and requirements regarding claims for payment for services (sec. 738)

The House bill contained a provision (sec. 736) that would amend section 1106 of title 10, United States Code, to eliminate the requirement for non-participating providers who provide services to Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) beneficiaries to submit claims for payment for services on behalf of the beneficiary.

The Senate amendment contained no similar provision.

The Senate recesses with a clarifying amendment.

The conferees believe that this provision will improve access to health care by reducing the administrative burden on health care providers which should make providing care under the CHAMPUS system more attractive to these providers. Increasing the number of CHAMPUS providers, especially in rural and under served areas, should enhance the health care options for Department of Defense health care beneficiaries. Beneficiaries who elect to receive care from a non-participating health care provider may have to file a claim for reimbursement from the CHAMPUS system. The conferees note that eliminating the requirement for non-participating providers to submit claims for payment for services on behalf of the beneficiary does not apply to health care providers who participate in the TRICARE network.

Chiropractic health care demonstration program (sec. 739)

The Senate amendment contained a provision (sec. 709) that would increase the number of sites and extend the length of the chiropractic health care demonstration authorized by the National Defense Authorization Act for Fiscal Year 1995.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Subtitle E—Other Matters

Continued admission of civilians as students in physician assistant training program of Army Medical Department (sec. 741)

The House bill contained a provision (sec. 741) that would amend chapter 407 of title 10, United States Code, to provide permanent authority for a demonstration program established by the National Defense Authorization Act for Fiscal Year 1995 (Public Law 103-337) to allow students from civilian accredited institutions of higher education to attend physician assistant training at the Academy of Health Sciences at Fort Sam Houston, Texas, in return for the provision of certain academic services from the respective civilian institutions.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

Payment for emergency health care overseas for military and civilian personnel of the On-Site Inspection Agency (sec. 742)

The House bill contained a provision (sec. 742) that would amend chapter 152 of title 10, United States Code, to authorize the Secretary of Defense to pay for emergency health care services obtained by a military member, civilian employee, or contractor employee of the On-Site Inspection Agency while on permanent or temporary duty in a former Soviet Union or former Warsaw Pact state.

The Senate amendment contained a provision (sec. 702) that would provide authority for the Secretary of Defense to pay for emergency health care costs of military and civilian personnel assigned to the On-Site Inspection Agency, while participating in arms control inspections overseas, from funds available to the On-Site Inspection Agency (OSIA).

The House recedes with a clarifying amendment.

Authority for agreement for use of medical resource facility, Alamogordo, New Mexico (sec. 743)

The Senate amendment contained a provision (sec. 710) that would permit the Secretary of the Air Force to enter into an agreement, the contents of which are specified in the provision, with Gerald Champion Hospital in Alamogordo, New Mexico in which the hospital would provide health care services at a discount, provided that the facility is constructed in part with funds provided by the Secretary of the Air Force.

The House bill contained no similar amendment.

The House recedes with an amendment that would retain the essence of the Senate provision but would require that the funds be provided from Air Force Operations and Maintenance funds;

would include additional information in the agreement; and would require the Secretary of Defense to review the proposed agreement and provide comments to the Congress before the agreement could be signed.

Disclosures of cautionary information on prescription medications (sec. 744)

The Senate amendment contained a provision (sec. 703) that would require that each prescription dispensed through the Military Health Care System, including the TRICARE and CHAMPUS programs, be accompanied by information containing cautions about use, possible side effects, and potential negative interaction with food or beverages.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Competitive procurement of certain ophthalmic services (sec. 745)

The House bill contained a provision (sec. 1405) that would require the Secretary of Defense to competitively procure, from the private sector, all ophthalmic services unless it is more cost effective or is necessary to meet readiness requirements to perform these services within the armed services.

The Senate amendment contained no similar provision.

The Senate recedes.

Comptroller General study of adequacy and effect of maximum allowable charges for physicians under CHAMPUS (sec. 746)

The House bill contained a provision (sec. 743) that would require the Comptroller General of the United States to study the adequacy of the CHAMPUS reimbursement rates, and the effect of these rates on the participation of physicians in the CHAMPUS program.

The Senate amendment contained no similar provision.

The Senate recedes.

Comptroller General study of Department of Defense pharmacy programs (sec. 747)

The House bill contained a provision (sec. 744) that would require the Comptroller General of the United States to evaluate the pharmacy programs of the Department of Defense. The required study would examine the merits and feasibility of establishing a uniform formulary for military treatment facility pharmacies and civilian contractor pharmacies.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require that the study include a review of the merits and feasibility of using private sector cost control mechanisms and the existence of any barriers to the use of such mechanisms.

Comptroller General study of Navy graduate medical education program (sec. 748)

The House bill contained a provision (sec. 745) that would require the Comptroller General of the United States to evaluate recommendations made by the Medical Education Policy Council of

the Navy Bureau of Medicine and Surgery to restructure the Navy's graduate medical education program.

The Senate amendment contained no similar provision.

The Senate recesses.

Study of expansion of pharmaceuticals by mail program to include additional Medicare-eligible covered beneficiaries (sec. 749)

The House bill contained a provision (sec. 746) that would require the Secretary of Defense to provide a report to Congress, within six months of enactment of this Act, on the feasibility, advisability and cost of extending the current mail-order pharmacy program for Medicare-eligible beneficiaries in areas affected by base closures to all Medicare-eligible beneficiaries who do not reside near a military medical treatment facility.

The Senate amendment contained no similar provision.

The Senate recesses.

Comptroller General study of requirement for military medical facilities in the National Capital Region (sec. 750)

The House bill contained a provision (sec. 747) that would require the Comptroller General to conduct a study to evaluate the requirement for Army, Navy, and Air Force medical facilities in the National Capital Region.

The Senate amendment contained no similar amendment.

The Senate recesses.

Report on policies and programs to promote healthy lifestyles for members of the Armed Forces and their dependents (sec. 751)

The Senate amendment contained a provision (sec. 1042) that would require the Secretary of Defense to report to the Congress on the effectiveness of the policies and programs intended to promote healthy lifestyles among members of the armed forces and their families.

The House bill contained no similar provision.

The House recesses with a clarifying amendment.

Sense of Congress regarding quality health care for retirees (sec. 752)

The Senate amendment contained a provision (sec. 708) that would express the sense of the Congress that the United States has a moral obligation to provide quality health care to military retirees and their families.

The House bill contained no similar provision.

The House recesses with a clarifying amendment.

Subtitle F—Persian Gulf Illness

Plan for health care services for Persian Gulf veterans (sec. 762)

The House bill contained a provision (sec. 752) that would require the Secretary of Defense and the Secretary of Veterans Affairs to prepare a joint plan to provide appropriate health care to Persian Gulf veterans who suffer from a Gulf War illness.

The Senate amendment contained a similar amendment (sec. 752).

The Senate recedes with a clarifying amendment.

Comptroller General study of revised disability criteria for physical evaluation boards (sec. 763)

The House bill contained a provision (sec. 753) that would require the Comptroller General to conduct a study evaluating the revisions made by the Secretary of Defense to the criteria used by Physical Evaluation Boards to set disability ratings for members of the armed forces who are no longer medically qualified for continuation on active duty.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

Medical care for certain reserves who served in Southwest Asia during the Persian Gulf War (sec. 764)

The Senate amendment contained a provision (sec. 704) that would entitle a member of a reserve component who is a Persian Gulf War veteran, registers a symptom or illness in the Persian Gulf War Veterans Health Surveillance System of the Department of Defense, and is not otherwise entitled to medical and dental care from the Military Health Care System to medical and dental care to the same extent and under the same conditions as a member on active duty.

The House bill contained no similar provision.

The House recedes with an amendment that would entitle a member of a reserve component who is a Persian Gulf War veteran, registers a symptom or illness in the Persian Gulf War Veterans Health Surveillance System of the Department of Defense, and is not otherwise entitled to medical and dental care from the Military Health Care System or the Veterans Affairs medical system to medical care to the same extent and under the same conditions as a member on active duty.

Improved medical tracking system for members deployed overseas in contingency or combat operations (sec. 765)

The House bill contained a provision (sec. 754) that would require the Secretary of Defense to establish a system to assess the medical condition of members of the armed forces who are deployed outside the United States as part of a contingency operation.

The Senate amendment contained a similar provision (sec. 753).

The Senate recedes with a clarifying amendment.

Notice of use of investigational new drugs or drugs unapproved for their applied use (sec. 766)

The House bill contained a provision (sec. 757) that would require the Secretary of Defense to notify a member of the armed forces before the member is administered an investigational new drug or a drug unapproved for its applied use.

The Senate amendment contained a similar provision (sec. 756).

The Senate recedes with a clarifying amendment.

Sense of Congress regarding the deployment of specialized units for detecting and monitoring chemical, biological, and similar hazards in a theater of operations (sec. 768)

The House bill contained a provision (sec. 756) that would require the Secretary of Defense to submit a plan to the Congress regarding the deployment of a specialized unit of the armed forces with the capability and expertise to detect and monitor the presence of chemical, biological, and similar hazards.

The Senate amendment contained a similar provision (sec. 755).

The House recedes with an amendment that would express the Sense of Congress that the Secretary of Defense, in conjunction with the Chairman of the Joint Chiefs of Staff, should take such actions as are necessary to ensure that units of the armed forces deployed in a theater of operations for a contingency operation include specialized units with the capability to detect and monitor the presence of chemical, biological, and similar hazards.

Sense of Congress concerning Gulf War illness (sec. 771)

The House bill contained a provision (sec. 760) that would express the sense of the Congress that all promising technology and treatments related to Gulf War illness should be fully explored and tested to facilitate treatment for members of the armed forces who are stricken with Persian Gulf illness.

The Senate amendment contained no similar provision.

The Senate recedes.

LEGISLATIVE PROVISIONS NOT ADOPTED

Medical personnel conscience clause

The House bill contained a provision (sec. 737) that would require the Secretary of Defense to establish a uniform policy with regard to a conscience clause for abortion and family planning services. Under this policy, medical personnel who, for moral, ethical, or religious reasons, object to performing an abortion or to providing family planning services would not be required to perform such procedures unless their refusal to do so poses life-threatening risks to the patient.

The Senate amendment contained no similar provision.

The House recedes.

The conferees believe that the service policies with regard to conscience clauses should be uniform. The conferees note that the Army has proposed a policy change that would make their policy consistent with that of the other services. Once the change is promulgated, the Secretary of the Army is directed to provide a copy of the regulation to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives.

TITLE VIII—ACQUISITION POLICY, ACQUISITION MANAGEMENT, AND
RELATED MATTERS

ITEMS OF SPECIAL INTEREST

Cost accounting standards board

The conferees believe that much progress has been made over the past several years to bring needed reform and streamlining to the federal acquisition process. However, the conferees note that concerns have been raised that the cost accounting standards governing the allocation of direct and indirect costs on government contracts, as promulgated by the Cost Accounting Standards Board (CAS), are an impediment to acquisition streamlining.

The conferees endorse the House report (H. Rept. 105–132), which requires the General Accounting Office (GAO) to conduct a study that would analyze and assess the mission of the CAS Board. The conferees believe that such a study, in which all views are represented, would help the Congress to determine the best way to balance the interest of taxpayers and the need for greater acquisition streamlining.

LEGISLATIVE PROVISIONS ADOPTED

Subtitle A—Amendments to General Contracting Authorities,
Procedures, and Limitations

*Expansion of authority to enter into contracts crossing fiscal years
to all severable service contracts not exceeding a year (sec. 801)*

The House bill contained a provision (sec. 802) that would broaden the current limited authority of the Department of Defense to expend appropriated funds for severable service contracts that cross fiscal years.

The Senate amendment contained a similar provision (sec. 803).

The House recedes with an amendment clarifying that the current authority of the Coast Guard to expend funds for such contracts is intended to be unaffected by the provision.

The conferees direct that the Secretary of Defense review the Department's operations under this provision and no later than 30 days after the end of both fiscal years 1998 and 1999 submit reports to the congressional defense committees containing the following information for each fiscal year:

- (1) the total amount and sources of funds obligated under the provision;
 - (2) the types of services procured under the provision;
 - (3) when the services were ordered and when provided;
- and
- (4) the reasons in each case why the authority under the section was required to be used.

A copy of each report shall be provided simultaneously to the Comptroller General.

No later than 180 days after receipt of the report of the Department of Defense for fiscal year 1999, the Comptroller General shall submit a report to the congressional defense committees addressing:

(1) any abuses of the provision, such as efforts to circumvent year-end spending limitations; and

(2) recommendations for legislative or administrative changes to the authority under the section that the Comptroller General may believe to be appropriate.

Vesting of title in the United States under contracts paid under progress payment arrangements or similar arrangements (sec. 802)

The House bill contained a provision (sec. 803) that would establish in statute the title vesting provisions currently used by the Department of Defense in contractual agreements involving certain forms of contract financing.

The Senate amendment contained a similar provision (sec. 812).

The House recedes.

Restriction on undefinitized contract actions (sec. 803)

The House bill contained a provision (sec. 804) that would add disaster relief, humanitarian, and peacekeeping operations to the types of operations for which the head of an agency may waive limitations on the use of undefinitized contracts.

The Senate amendment contained a similar provision (sec. 802).

The House recedes.

Limitation and report on payment of restructuring costs under defense contracts (sec. 804)

The House bill contained a provision (sec. 805) that would codify in title 10, United States Code, the policy restrictions in section 8115 of the Omnibus Appropriations Act for Fiscal Year 1997 (Public Law 104–208) relating to the allowability of restructuring costs under defense contracts. The House provision would also consolidate the requirements of section 818 of the National Defense Authorization Act for Fiscal Year 1995 (Public 103–337) into a codified provision.

The Senate amendment contained a provision (sec. 841) that would extend for two years the reporting requirements under section 818 and would require a report from the General Accounting Office on the effects of defense business combinations on competition and on contract weapon system prices.

The House recedes with an amendment combining the two provisions.

Multiyear procurement contracts (sec. 806)

The House bill contained a provision (sec. 807) that would provide that no future multiyear procurement contract may be entered into by the Secretary of Defense unless such contract is specifically authorized by law in an act other than an appropriations act. The House provision would also codify various requirements that the Secretary of Defense must meet in order to enter into or to terminate a multiyear procurement contract.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would limit the requirement that future multiyear procurement contracts be authorized in law to contracts in amounts over \$500.0 million.

Audit of procurement of military clothing and clothing-related items by military installations in the United States (sec. 807)

The House bill contained a provision (sec. 810) that would require the Department of Defense Inspector General to carry out a random audit of procurements of goods by the military installations in fiscal years 1996 and 1997 to determine the extent to which such installations procured goods made in countries other than the United States.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would limit the audit to a determination of the extent to which military installations procured military clothing and clothing-related items in procurements above \$2,500 in violation of the Buy American Act.

Limitation on allowability of compensation for certain contractor personnel (sec. 808)

The Senate amendment contained a provision (sec. 804) that, for the purpose of determining the allowability of costs under section 2324 of title 10, United States Code, and section 306 of the Federal Property and Administrative Services Act of 1949, would:

(1) limit the reimbursement of senior executive salaries to the median of salary of senior executives in all public corporations with annual sales in excess of \$50.0 million, regardless of the size of the company;

(2) define executive compensation to include the total amount of wages, salary, bonuses, and deferred compensation that is recorded in the contractor's cost accounting records for the year; and

(3) apply the limitations applicable to the five most highly-paid executives of a contractor, or any division of a contractor.

The House bill contained no similar provision.

The House recedes with an amendment that would provide that the limitation applies to costs incurred after January 1, 1998. In addition to making other clarifying changes, the amendment would also provide that no other limitation on the reimbursement of senior executive salaries covered under this section shall apply after that date.

Elimination of certification requirement for grants (sec. 809)

The Senate amendment contained a provision (sec. 807) that would eliminate the drug-free workplace certification requirements in relation to federal grants in a similar manner provided for federal contracts in section 4301(a)(3) of the National Defense Authorization Act for Fiscal Year 1996.

The House bill contained no similar provision.

The House recedes.

The conferees strongly support the continued requirement that persons accept and enforce the drug-free workplace laws as a condition for the award of a contract or grant with a federal agency.

Repeal of limitation on adjustment of shipbuilding contracts (sec. 810)

The Senate amendment contained a provision (sec. 808) that would repeal section 2405 of title 10, United States Code, and apply the current six-year limitation for the submission of claims in the Contract Disputes Act as the sole limitation on shipbuilding claims.

The House bill contained no similar provision.

The House recedes.

Item-by-item and country-by-country waivers of domestic source limitations (sec. 811)

The House bill contained a provision (sec. 801) that would require the Secretary of Defense to apply the waiver authority with respect to section 2534 of title 10, United States Code only on a case-by-case basis on specific procurements.

The Senate amendment contained a provision (sec. 809) that would provide the Secretary of Defense with blanket waiver authority for the domestic source restrictions in section 2534.

The Senate recedes with an amendment that would provide the Secretary with the authority to grant waivers to the restrictions in section 2534 for a particular item and a particular foreign country. Each such waiver would be effective for up to one year, as determined by the Secretary. The provision would require the Secretary, 15 days before the effective date of a waiver, to notify the congressional defense committees and to publish in the *Federal Register* a notice of the determination to exercise the waiver.

Subtitle B—Acquisition Assistance Programs

One-year extension of pilot mentor-protégé program (sec. 821)

The Senate amendment contained a provision (sec. 822) that would extend the period in which mentor firms may incur costs for furnishing developmental assistance under the Department of Defense mentor-protégé program until September 30, 2000. The provision would also extend the period during which new agreements under the program may be entered into until September 30, 1999.

The House bill contained no similar provision.

The House recedes with an amendment that would require the General Accounting Office to review the implementation of the mentor-protégé program and report on the extent to which the program is achieving the purposes established under this section.

The conferees intend to use the results of this report in reassessing the long-term viability of the mentor-protégé program during the next legislative cycle.

Test program for negotiation of comprehensive subcontracting plans (sec. 822)

The Senate amendment contained a provision (sec. 823) that would extend from September 30, 1998 to September 30, 2000 the expiration date for the current test program for negotiating comprehensive subcontracting plans with Department of Defense (DOD) contractors. The provision would also address participating contractors acting as subcontractors under a DOD prime contract

by allowing them to include their major subcontracts within their subcontracting plans.

The House bill contained no similar provision.

The House recesses.

The conferees believe that the DOD should expand the program in a manner that would encourage prime contractors to enter the program on a plant or facility basis.

Subtitle C—Administrative Provisions

Retention of expired funds during the pendency of contract litigation (sec. 831)

The Senate amendment contained a provision (sec. 831) that would permit federal agencies to retain amounts collected pursuant to the Contract Disputes Act of 1978 to satisfy a settlement reached between parties or a judgment rendered in favor of a contractor through the Federal Courts or the Armed Services Board of Contract Appeals. The provision would also require the Comptroller of the Department of Defense to provide an annual report to Congress on the amounts available for obligation under the authority of this provision.

The House bill contained no similar provision.

The House recesses with an amendment that would limit the authority under the provision to the military services and defense agencies, as well as make other clarifying changes.

Protection of certain information from disclosure (sec. 832)

The Senate amendment contained a provision (sec. 832) that would amend section 2371 of title 10, United States Code, to clarify that certain information submitted by outside parties in transactions governed by the authority under that section is protected from disclosure under section 552 of title 5, United States Code.

The House bill contained no similar provision.

The House recesses.

Unit cost reports (sec. 833)

The Senate amendment contained a provision (sec. 834) that would eliminate duplicative reporting requirements on unit costs of major defense acquisition programs.

The House bill contained no similar provision.

The House recesses.

Plan for providing contracting information to general public and small business (sec. 834)

The Senate amendment contained a provision (sec. 835) that would require the Under Secretary of Defense (Acquisition and Technology) to designate an official in his office to serve as a central point of contact for persons seeking information about how and where to respond to contract solicitations, procedures for being included on approved suppliers lists, and other contracting information.

The House bill contained no similar provision.

The House recesses with an amendment that would require the Secretary of Defense to develop a plan for improving the respon-

siveness of the Department of Defense to persons from the general public and small businesses seeking information on contracting and technology development opportunities with the Department of Defense. Such plan is to include an assessment of the designation of a single point of contact within the Office of the Secretary of Defense for that purpose.

Two-year extension of crediting of certain purchases toward meeting subcontracting goals (sec. 835)

The conferees agree to include a provision that would extend for an additional two years the authority to credit purchases from qualified nonprofit agencies for the blind or other severely handicapped toward meeting subcontracting goals of defense contractors.

Subtitle D—Other Matters

Repeal of certain acquisition requirements and reports (sec. 841)

The House bill contained a provision (sec. 821) that would repeal a number of miscellaneous acquisition reporting requirements.

The Senate amendment contained similar repeals (secs. 801 and 833).

The Senate recedes with an amendment that would combine certain elements from both provisions.

Use of major range and test facility installations by commercial entities (sec. 842)

The House bill contained a provision (sec. 822) that would amend section 2681 of title 10, United States Code, to delay for two years the expiration of existing authority allowing the Department of Defense test and evaluation facilities to make excess capacity available to the commercial sector.

The Senate amendment contained a similar provision (sec. 232) that would delay the expiration of the authority in section 2681 for three years.

The House recedes with an amendment that would delay the expiration of the authority for four years.

Requirement to develop and maintain list of firms not eligible for defense contracts (sec. 843)

The House bill contained a provision (sec. 823) that would amend section 2327 of title 10, United States Code, to require the Secretary of Defense to develop and maintain a list of all firms and subsidiaries of firms that, for the preceding five years, have been prohibited from entering into contracts with the Department of Defense because of substantial ownership by a foreign government supporting acts of international terrorism. The House provision would also prohibit defense contractors from providing any equipment, parts, or services to the Department of Defense from such listed firms.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would allow individuals to request the Secretary of Defense to have firms included on the list. The provision would also exclude listed firms from receiving subcontracts under contracts with the Department of De-

fense in a manner similar to firms that are suspended or debarred under subpart 9.4 of the Federal Acquisition Regulation.

Sense of Congress regarding allowability of costs of employee stock ownership plans (sec. 844)

The House bill contained a provision (sec. 824) that would prohibit the Secretary of Defense from making a determination of the allowability of costs of employee stock ownership plans (ESOP), in accordance with a rule that had been proposed and withdrawn in prior years.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would express the sense of Congress that the Defense Contract Audit Agency (DCAA) should not disallow interest costs associated with ESOPs incurred before January 1, 1994. It also states that the Department of Defense should not disallow costs related to ESOP debt, control premiums, or marketability discounts associated with the valuation of ESOP stock of closely held companies that were incurred before January 1, 1995.

The conferees have been informed that retroactive application of changes to DCAA policy on these issues could have severe economic consequences for ESOP defense contractors. Therefore, the conferees have included a provision that would address retroactivity. The provision is not intended to pass judgment on the changes. The conferees do not intend that the provision supercede any agreement that a contractor may have entered into with the Department of Defense that provides for a different treatment of ESOP costs.

The conferees understand that a number of other federal agencies may have an interest in the accounting rules applicable to ESOP costs. The conferees direct the Secretary to consult with the Office of Management and Budget, the General Accounting Office, and accounting experts in such other federal agencies to determine whether a consistent, government-wide approach to the relevant accounting and policy issues can be developed. Any interagency process addressing these issues should provide for public comment.

Expansion of personnel eligible to participate in demonstration project relating to acquisition workforce (sec. 845)

The House bill contained a provision (sec. 825) that would expand the personnel eligible to participate in the workforce demonstration project authorized in section 4308 of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104-106).

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would limit to 95,000 the total number of persons who may participate in the demonstration project.

Time for submission of annual report relating to Buy American Act (sec. 846)

The House bill contained a provision (sec. 826) that would reduce the time for the Department of Defense to prepare and submit the annual report relating to the Buy American Act required under

section 827 of the National Defense Authorization Act for Fiscal Year 1997 from 120 to 60 days after the end of each fiscal year.

The Senate amendment contained no similar provision.

The Senate recesses with an amendment that would require a report 90 days after the end of each fiscal year.

Repeal of requirement for contractor guarantees on major weapon systems (sec. 847)

The House bill contained a provision (sec. 1503) that would repeal section 2403 of title 10, United States Code, requiring the Secretary of Defense to obtain contractor guarantees on major weapon systems contracts.

The Senate amendment contained a provision (sec. 811) that would modify the requirements in section 2403 to provide flexibility to the Secretary of Defense and the secretaries of the military services to decide the appropriate use of such contractor guarantees.

The Senate recesses.

The conferees direct the Secretary of Defense to issue regulations to ensure that program managers actively and thoroughly examine the value and utility of contractor guarantees on major systems and pursue such guarantees where appropriate and cost effective.

Requirements relating to micro-purchases (sec. 848)

The House bill contained a provision (sec. 1504) that would require the use of micro-purchase methods for contracts below the micro-purchase threshold unless a member of the Senior Executive Service or a general or flag officer makes a written determination that such procedures should not apply for specified reasons.

The Senate amendment contained no similar provision.

The Senate recesses with an amendment that would require the Secretary of Defense to ensure that 60 percent of all eligible purchases of goods or services for an amount less than the micro-purchase threshold will be made through streamlined micro-purchase procedures by October 1, 1998 and that 90 percent of such purchases be made through streamlined procedures by October 1, 2000. The provision would require the Secretary of Defense to define "eligible purchases" for the purposes of this requirement and to exclude those categories of purchases determined not to be appropriate or practicable for streamlined micro-purchase procedures. The provision would also require the Secretary of Defense to provide a plan implementing the requirements under this section by March 1, 1998, and to annually report through March 1, 2001 on procurement actions by the Department of Defense for amounts less than the micro-purchase threshold.

Promotion rate for officers in an acquisition corps (sec. 849)

The Senate amendment contained a provision (sec. 843) that would require the Under Secretary of Defense for Acquisition and Technology to report annually through October 1, 2000 on the extent to which each military service is complying with promotion opportunity requirement in section 1731(b) of title 10, United States Code.

The House bill contained no similar provision.

The House recesses.

Use of electronic commerce in federal procurement (sec. 850)

The Senate amendment contained a provision (sec. 844) that would allow federal agencies greater flexibility in implementing uniformly the electronic commerce capability requirements in the Federal Acquisition Streamlining Act of 1994.

The House bill contained no similar provision.

The House recesses with an amendment that would require the heads of agencies to give due consideration to the use or partial use of existing electronic commerce systems, such as the Federal Acquisition Computer Network (FACNET), before developing new systems using this authority. The amendment would also require the Administrator for Federal Procurement Policy to submit annual reports to the Congress detailing progress made in implementing this section.

Conformance of policy on performance based management of civilian acquisition programs with policy established for defense acquisition programs (sec. 851)

The Senate amendment contained a provision (sec. 845) that would conform the policy on performance based management of civilian acquisition programs with the similar policy applicable to defense acquisition programs under the Federal Acquisition Streamlining Act of 1994 (Public Law 103-355).

The House bill contained no similar provision.

The House recesses.

Modification of process requirements for the solutions-based contracting pilot program (sec. 852)

The Senate amendment contained a provision (sec. 846) that would amend the solutions-based contracting pilot program established in section 5312 of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104-106).

The House bill contained no similar provision.

The House recesses.

Guidance and standards for defense acquisition workforce training requirements (sec. 853)

The Senate amendment contained a provision (sec. 847) that would extend for an additional two years the authority of the Department of Defense to use alternative fulfillment standards for purposes of the training requirements in the Defense Acquisition Workforce Improvement Act (title XII of Public Law 101-510).

The House bill contained no similar provision.

The House recesses with an amendment that would direct the Secretary of Defense to develop appropriate guidance and standards to ensure that the Department will continue to contract out the training of acquisition personnel in appropriate cases while maintaining necessary control over the content and quality of such training.

Study and report to Congress assessing dependence on foreign sources for resistors and capacitors (sec. 854)

The House bill contained a provision (sec. 1061) that would require the Secretary of Defense to conduct a study of the capacitor and resistor industries in the United States to determine the importance of the industry to national security and the impact on the industry of the removal of tariffs under the Information Technology Agreement.

The Senate amendment contained a similar provision (sec. 1048).

The House recedes with an amendment.

The conferees believe that, in preparing the study, the Secretary of Defense should consider industries involved with the development and manufacture of the full spectrum of capacitors and resistors, including fixed resistors, wirewound resistors, film resistors, solid tantalum capacitors, multi-layer ceramic capacitors, wet tantalum capacitors, disc ceramic capacitors, aluminum electrolytic capacitors, film capacitors, and oil-filled capacitors.

Department of Defense and Federal Prison Industries joint study (sec. 855)

The Senate amendment contained a provision (sec. 848) that would require the Department of Defense (DOD) and Federal Prison Industries (FPI) to jointly conduct a study of the existing procedures that govern procurement transactions between DOD and FPI, and to make recommendations to improve the efficiency and reduce the cost of such transactions.

The House bill contained no similar provision.

The House recedes with a technical amendment.

LEGISLATIVE PROVISIONS NOT ADOPTED

Domestic source limitation amendments

The House bill contained a provision (sec. 808) that would amend section 2534 of title 10, United States Code, to add shipboard work stations to the list of naval vessel components required to be procured from domestic sources. The provision would also make permanent the expired requirement to procure certain valves and machine tools from domestic sources.

The Senate amendment contained no similar provision.

The House recedes.

Repeal of expiration of domestic source limitation for certain naval vessel propellers

The House bill contained a provision (sec. 809) that would amend section 2534 of title 10, United States Code, to make the existing limitation on the procurement of naval vessel propellers permanent.

The Senate amendment contained no similar provision.

The House recedes.

Availability of simplified procedures to commercial item procurements

The House bill contained a provision (sec. 1505) that would revise the authority in section 2304 of title 10, United States Code, and in section 303 of title 41, United States Code, to test simplified procedures for commercial item procurements. The provision would allow such test procedures to be used in cases where a contracting officer reasonably expects that offers will include other than commercial items.

The Senate amendment contained no similar provision.

The House recedes.

Price preference for small and disadvantaged businesses

The Senate amendment contained a provision (sec. 824) that would condition the use of the 10 percent price preference in section 2323 of title 10, United States Code, on the failure of the Department of Defense to meet in the prior fiscal year the five percent goal specified in section 2323.

The House bill contained no similar provision.

The Senate recedes.

The Senate conferees intend to review the need for continuing the price preference authority during hearings next year and may include in a future defense bill a provision similar to that contained in the Senate amendment.

TITLE IX—DEPARTMENT OF DEFENSE ORGANIZATION AND
MANAGEMENT

LEGISLATIVE PROVISIONS ADOPTED

Subtitle A—Department of Defense Positions and Organizations
and Other General Matters

*Assistants to the Chairman of the Joint Chiefs of Staff for National
Guard Matters and for Reserve Matters (sec. 901)*

The Senate amendment contained a provision (sec. 905) that would establish the position of Senior Representative of the National Guard Bureau in the grade of general and would add this position as a member of the Joint Chiefs of Staff.

The House bill contained no similar provision.

The House recedes with an amendment that would establish two positions on the Joint Staff. There would be an Assistant to the Chairman of the Joint Chiefs of Staff for National Guard Matters and an Assistant to the Chairman of the Joint Chiefs of Staff for Reserve Matters. These positions would be established in the grade of major general, or in the case of the Navy, rear admiral. The provision would establish the term of office as two years and incumbents may be reappointed for one additional term. In time of war, the term limit would be suspended.

The provision would establish a procedure for appointing the Assistant to the Chairman of the Joint Chiefs of Staff for National Guard Matters in which the Governors would recommend National Guard officers to fill the position. The conferees appreciate the necessity for the Governors to participate in the selection process for

this important position. The procedure for appointing the Assistant to the Chairman of the Joint Chiefs of Staff for Reserve Matters requires the secretaries of the military departments to recommend officers from their respective reserve force. As in the case of the National Guard, the conferees believe that the participation of the secretaries of the military departments is an essential element of the selection process for the Assistant to the Chairman of the Joint Chiefs of Staff for Reserve Matters.

The conferees recognize that there currently is a Reserve Mobilization Assistant position, filled by a National Guard major general, assigned to the Office of the Director of the Joint Staff. The conferees established the two new positions in lieu of the current position to ensure that the Chairman and the Joint Staff have the benefit of the best advice with regard to all the reserve forces, in particular as it pertains to their unique capabilities and requirements.

The conferees urge the Chairman of the Joint Chiefs of Staff to ensure that these assistants have access to the Joint Staff and that they are included in discussions pertaining to resource matters, employment of National Guard or reserve forces, and war plans. The conferees expect that the Secretary of Defense and the Chairman of the Joint Chiefs will ensure that these assistants are able to participate, at the appropriate level, in the Defense Resources Board.

The provision would also require that the Secretary of Defense, in consultation with the Chairman, develop appropriate guidance to ensure that the level of reserve component officer representation on the Joint Staff is commensurate to the significant and important role assigned to reserve components in the total force. The conferees are convinced that reserve component officers are an excellent resource of expertise and experience that would add a valuable perspective to the increasingly complex mission of the Joint Staff.

The conferees note that the requirements of this provision are intended to be implemented within the clearly established principles of the Goldwater-Nichols Department of Defense Reorganization Act of 1986 (Public Law 99-433), which vests the Chairman with unequivocal control over the selection and management of all officers assigned to the Joint Staff. While the conferees find it appropriate to establish these two positions to ensure that advice on reserve component matters provided to the Chairman is of the highest quality and value, in no way are these positions intended to operate independently from or in conflict with the direction of the Chairman.

The common purpose of protecting U.S. national security interests must remain the paramount concern for all components of the total force. The mission must not be undermined by continued feuding over resources, bureaucratic standing, and attempts to enhance political equities. The conferees are dismayed and frustrated with the animosity and mistrust that exists between the Army and the National Guard. The conferees expect the Secretary of Defense, the Secretary of the Army, and the Chief of Staff of the Army to work with the Chief of the National Guard Bureau and The Adjutants General to resolve the divisive sentiments and suspicion that exists on both sides. The Secretary of Defense must ensure that the

Secretary of the Army does not treat the National Guard in a cavalier manner, ignoring valid requirements and intentionally under-resourcing the National Guard, with the assumption that Congress will make up the shortfalls. The National Guard must work within the existing systems and processes to ensure that National Guard units are able to complement the active force and are ready to meet the wartime or contingency requirements they may be deployed to meet.

Use of CINC Initiative Fund for force protection (sec. 902)

The Senate amendment contained a provision (sec. 903) that would provide the commanders-in-chief (CINCs) with the authority to utilize funding from the CINC Initiative Fund to provide for any force protection requirements that emerge in their respective areas of operation.

The House bill contained no similar provision.

The House recesses.

Revision to required frequency for provision of policy guidance for contingency plans (sec. 903)

The House bill contained a provision (sec. 906) that would amend section 113(g)(2) of title 10, United States Code, to permit policy guidance for contingency plans to be given every two years or more frequently, as needed, rather than annually.

The Senate amendment contained no similar provision.

The Senate recesses.

Annual justification for Department of Defense advisory committees (sec. 904)

The House bill contained a provision (sec. 1508) that would terminate existing advisory committees, would prohibit any future advisory committee, board, or commission, unless established in law, and would require the Secretary of Defense to submit an annual report justifying any advisory committee the Secretary proposes to support in the next fiscal year.

The Senate amendment contained no similar provision.

The Senate recesses with an amendment that would require the Secretary of Defense to submit an annual report justifying any advisory committee the Secretary proposes to support in the next fiscal year.

Defense Airborne Reconnaissance Office (sec. 905)

The House bill contained a provision (sec. 907) that would terminate the Defense Airborne Reconnaissance Office (DARO) and transfer its oversight responsibilities to the Defense Intelligence Agency (DIA).

The Senate amendment contained no similar provision.

The Senate recesses with an amendment that would transfer the airborne reconnaissance systems acquisition and program management responsibilities from the DARO and the unmanned aerial vehicle joint program office (UAV JPO) back to the military services and retains Office of the Secretary of Defense (OSD)-level oversight responsibilities for airborne reconnaissance architecture determination and systems interface requirements within the DARO.

The conferees direct the Secretary of Defense to ensure that the Task Force on Defense Reform makes specific recommendations for the distribution of authority to carry out legitimate management oversight responsibilities for airborne reconnaissance programs within the OSD and the UAV JPO. The conferees do not intend to make any changes within the cruise missile activities of the UAV JPO. The conferees understand that a principal focus of the Task Force is ensuring that program management-like responsibilities within OSD are shifted to the Service or Defense Agencies. The conferees expect that the Task Force recommendations will address this specific issue, as well as the appropriate organizational relationships for overseeing airborne reconnaissance programs within OSD.

The conferees agree with the concerns that led to the House provision. The congressional defense committees have repeatedly stated concerns with respect to both manned and unmanned airborne reconnaissance, yet there has been little improvement noted. The conferees note the Hicks & Associates report, which recommends that the OSD should focus “exclusively on top leadership and management tasks, assigning program management and execution tasks and lower priority tasks elsewhere in DOD.” This report goes on to say that “OSD is a staff and advisory component . . .” that should divest itself of hands-on management. The conferees agree.

The conferees believe there is a very different environment with respect to joint operations and developments in the Pentagon today than existed when the Congress first directed creation of the DARO in 1993. The changes include: strengthened oversight by the Joint Requirements Oversight Council (JROC); the Chairman of the JROC (or the Director for Force Structure, Resources, and Assessment) participation as a member of the Defense Acquisition Board, and the Defense Airborne Reconnaissance Steering Committee to monitor joint reconnaissance issues. The conferees believe this senior oversight can provide sufficient direction, control, and monitoring of service efforts to ensure joint interoperability of reconnaissance systems.

The conferees also believe that there should be a coordinating management function within OSD specifically charged with oversight of service airborne reconnaissance systems and their development. Whatever the final repository of the airborne reconnaissance management oversight function within the OSD organization, the conferees intend that the responsibilities of the position be limited to coordinating budget developments, ensuring adherence to standards and interoperability requirements, and avoiding unnecessary duplication of effort. The conferees believe that:

- (1) a streamlined DARO can provide the proper OSD management oversight, coupled with the necessary JROC requirements direction, while devolving the authorities and responsibilities for equipping the military forces to the services; and
- (2) legitimate management oversight does not include either controlling execution year obligation of operations and maintenance funding, or acting as the acquisition agent for airborne reconnaissance systems.

The conferees direct the Secretary of Defense to provide the Congress with a plan to implement the directed reorganization and transfers of authority, based on the Task Force report, no later than March 1, 1998. The conferees direct the Secretary to complete implementation of the plan not later than September 30, 1998.

Termination of Armed Services Patent Advisory Board (sec. 906)

The House bill contained a provision (sec. 1506) that would terminate the Armed Services Patent Advisory Board and transfer the functions of the board to the Defense Technology Security Administration.

The Senate amendment contained no similar provision.

The Senate recedes.

The conferees direct the Department of Defense to provide adequate staff resources to the Defense Technology Security Agency to support the functions of the agency including those transferred from the Armed Services Patent Advisory Board under this provision.

Coordination of Department of Defense criminal investigations and audits (sec. 907)

The House bill contained a provision (sec. 1507) that would create two new statutory boards in the Department of Defense: a Board on Criminal Investigations, consisting of the Assistant Secretary of Defense for Command, Control, Communications, and Intelligence and the heads of the three military criminal investigative organizations; and a Board on Audits, consisting of the Under Secretary of Defense (Comptroller), the Auditors General of the military departments, and the Director of the Defense Contract Audit Agency. The Department of Defense Inspector General would be a nonvoting member of both boards. These boards would be charged with providing for cooperation among the military departments' criminal investigative and audit organizations to avoid duplication of effort and maximize resources.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the heads of the military departments' criminal investigative and auditing organizations to take such actions as may be practicable to conserve limited resources by sharing personnel, expertise, infrastructure, training, equipment, software, and other resources. These officials are to meet on a regular basis to determine the manner and extent to which such resources will be shared. The Secretary of Defense shall submit, by December 31, 1997, a plan to maximize the resources available to these organizations.

This provision is not intended to affect the responsibility of the Under Secretary of Defense (Comptroller); the Assistant Secretary of Defense for Command, Control, Communications, and Intelligence; or the secretaries of the military departments for determining resource allocation and related policies for audit and investigative organizations in the Department of Defense. In addition, it is not intended to affect the existing authority of the Inspector General of the Department of Defense regarding the coordination of audit and investigative functions within the Department of Defense.

Subtitle B—Department of Defense Personnel Management

Reduction in personnel assigned to management headquarters and headquarters support activities (sec. 911)

The House bill contained a provision (sec. 1301) that would require the Secretary of Defense to reduce the number of personnel assigned to management headquarters and headquarters support activities by 25 percent over four years.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require a 25 percent reduction in the number of personnel assigned to management headquarters and headquarters support activities over five years, would direct a five percent reduction in the number of personnel assigned to management headquarters and headquarters support activities during fiscal year 1998, would direct a five percent reduction in the number of personnel assigned to management headquarters and headquarters support activities within the United States Transportation Command during fiscal year 1998, and would direct the Secretary of Defense to require the Task Force on Defense Reform to include an examination of the missions, functions, and responsibilities of various headquarters activities and management headquarters support activities and to submit a report on the results of the examination by the Task Force on Defense Reform to the Congress not later than March 1, 1998.

The conferees intend that the reductions in the United States Transportation Command made during fiscal year 1998 count towards the aggregate Department-wide reduction of five percent.

Additional reduction in defense acquisition workforce (sec. 912)

The House bill contained a provision (sec. 1302) that would mandate a reduction in the size of the defense acquisition workforce by 124,000 individuals by October 1, 2001. The provision would require a phased implementation of the reduction and include a requirement to reduce the size of the workforce by 40,000 individuals in fiscal year 1998.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require a reduction of 25,000 in the number of defense acquisition personnel positions in fiscal year 1998. The provision would provide authority for the Secretary of Defense to waive up to 15,000 of that number based on a determination that a greater reduction would be inconsistent with cost-effective management of the defense acquisition system to obtain best value equipment and would adversely affect military readiness. The provision would also require a report on the reduction in the number of acquisition positions in the Department of Defense since 1989 and a definition of the defense acquisition workforce that can be uniformly applied throughout the Department of Defense. With regard to the definition, the conferees are encouraged by the foundational analysis of the issue recently completed for the Department of Defense by an outside contractor.

The provision would also require a review of acquisition organizations and functions by both the Secretary of Defense and the Task Force on Defense Reform. The conferees expect that these reviews will be conducted in a thorough manner and that the reports

by the Secretary of Defense on these reviews will be submitted to Congress in a timely fashion.

Subtitle C—Department of Defense Schools and Centers

Professional military education schools (sec. 921)

The House bill contained a provision (sec. 902) that would modify the definition of the National Defense University by adding the Information Resources Management College, and would also clarify the authority of the Secretary of Defense to hire professors, lecturers, and instructors for the Information Resources Management College.

The Senate amendment contained a provision (sec. 902) that would designate the Information Resources Management College as a component of the National Defense University. The recommended provision would also make a technical change to the name of the Institute for National Strategic Study to read the Institute for National Strategic Studies, and would include the Marine Corps University among professional military education schools.

The House recedes with an amendment that would meld the two provisions into one.

Center for Hemispheric Defense Studies (sec. 922)

The Senate amendment contained a provision (sec. 906) that would include the Center for Hemispheric Defense Studies as a component of the National Defense University.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Correction to reference to George C. Marshall European Center for Security Studies (sec. 923)

The Senate amendment contained a provision (sec. 1106) that would permit employees of the George C. Marshall European Center for Security Studies to qualify for naturalization by waiving the permanent residency requirements.

The House bill contained no similar provision.

The House recedes with an amendment that would provide employees of the George C. Marshall European Center for Security Studies the same status as was provided for employees of the United States Army Russian Institute, the former name of the George C. Marshall Center. The amendment would not waive the permanent residency requirements.

Subtitle D—Department of Defense Intelligence-Related Matters

Transfer of certain military department programs from TIARA budget aggregation (sec. 931)

The Senate amendment contained a provision (sec. 904) that would transfer specified programs from the Tactical Intelligence and Related Activities (TIARA) aggregation to other accounts of the military services.

The House bill contained no similar provision.

The House recedes with an amendment that would: (1) retain the directed TIARA program transfers as specified in the original

Senate provision; (2) require an assessment by the Secretary of Defense as to the adequacy and currency of current criteria for judging which programs belong in the TIARA aggregation; and (3) provide the Secretary with discretion to defer any directed transfer based on the outcome of his assessment.

Report on coordination of access of commanders and deployed units to intelligence collected and analyzed by the intelligence community (sec. 932)

The Senate amendment contained a provision (sec. 1061) that would require the Secretary of Defense to report to the Congress regarding the specific steps taken or that are being taken to ensure adequate coordination of operational intelligence support for combatant commanders and deployed units.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Protection of imagery, imagery intelligence, and geospatial information and data (sec. 933)

The Senate amendment contained a provision (sec. 1062) that would amend sections 455 and 467 of title 10, United States Code, to clarify the authority of the Secretary of Defense to permit selective releases of geospatial information representing little military value while protecting the most sensitive information.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

POW/MIA intelligence analysis (sec. 934)

The Senate amendment contained a provision (sec. 1067) that would direct the Director of Central Intelligence, in consultation with the Secretary of Defense, to provide intelligence analytical support on matter concerning missing persons to all departments and agencies of the Federal Government involved in such matters.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

LEGISLATIVE PROVISIONS NOT ADOPTED

Limitation on operation and support funds for the Office of the Secretary of Defense

The House bill contained a provision (sec. 901) that would reduce the funding associated with the operation and support activities of the Office of the Secretary of Defense (OSD) by twenty percent, and would restrict the obligation of ten percent of funding authorized in fiscal year 1998 until the Department conforms to the requirements of section 901 of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104-106) and section 904 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201).

The Senate amendment contained no similar provision.

The House recedes.

The conferees remain concerned with the Department's non-compliance with section 901 of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104-106) that requires a re-

port on specific plans for improving organizational efficiency and effectiveness of the Office of the Secretary (OSD). In addition, the conferees note that OSD failed to implement personnel reductions at a rate sufficient to achieve the statutory requirement by October 1, 1997, as specified in section 903 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201).

Center for the Study of Chinese Military Affairs

The House bill contained a provision (sec. 904) that would require the Department of Defense to establish a Center for the Study of Chinese Military Affairs.

The Senate amendment contained no similar provision.
The House recesses.

White House Communications Agency

The House bill contained a provision (sec. 905) that would limit funding for the White House Communications Agency (WHCA) to \$55.0 million, an amount slightly below fiscal year 1997 levels.

The Senate amendment contained no similar provision.
The House recesses.

The conferees believe that Department of Defense funds for WHCA should only be spent on telecommunication support for the President, and the Department should be reimbursed for non-telecommunication support services.

The WHCA is staffed with approximately eight civilians and 908 military personnel. Of those 908 military positions, 103 are for the provision of non-telecommunications support services. The conferees believe that there is little justification to provide non-telecommunications support services to the President with military personnel assigned to WHCA. In an era when the administration is calling for further reductions in military end-strength, the conferees believe that the military billets dedicated to non-telecommunications support for WHCA could be better used elsewhere within the Department of Defense to perform missions that are truly in support of national defense. The conferees believe that non-telecommunications support services provided by WHCA can, and should, be provided by civilian personnel.

Furthermore, the conferees note that the WHCA budget incorrectly included the WHCA procurement items in the Operation and Maintenance (O&M) budget request. Therefore, the conferees agree to transfer the \$7.2 million for WHCA procurement from the O&M account to the procurement account.

Personnel reductions in the United States Transportation Command

The House bill contained a provision (sec. 1304) that would mandate a 1,000 person reduction in the United States Transportation Command during fiscal year 1998.

The Senate amendment contained no similar provision.
The House recesses.

The conferees note that another section of the conference agreement directs a reduction in the number of personnel assigned to management headquarters and headquarters support activities within the United States Transportation Command of five percent during fiscal year 1998.

Commission on Defense Organization and Streamlining

The House bill contained a series of provisions (sec. 1601–1609) that would establish a Commission on Defense Organization and Streamlining. The purpose of the commission would be to examine the missions, functions, and responsibilities of the Office of the Secretary of Defense, the management headquarters and headquarters support activities of the military departments and defense agencies, and the various acquisition organizations of the Department of Defense; to propose alternative organizational structures; and to identify areas of duplication and recommend options to eliminate the duplications.

The Senate amendment contained no similar provision.

The House recesses.

The conferees note that other provisions of the conference agreement direct the Secretary of Defense to require a Task Force on Defense Reform to examine the missions, functions, and responsibilities of the Department's acquisition organizations and its various headquarters activities and management headquarters support activities; and to submit reports on the results of the examinations by the Task Force to the Congress in early 1998.

Principal duty of Assistant Secretary of Defense for Special Operations and Low Intensity Conflict

The Senate amendment contained a provision (sec. 901) that would revise the original legislation concerning the principal duty of the Assistant Secretary of Defense for Special Operations and Low Intensity Conflict to put the emphasis on the Assistant Secretary's supervision of the budgetary, development, and acquisition activities of the Commander in Chief of the Special Operations Command.

The House bill contained no similar provision.

The Senate recesses.

The conferees are aware that the Secretary of Defense has established a Task Force on Defense Reform that is, inter alia, focusing on the reform of the Office of the Secretary of Defense (OSD). In another section, the conference agreement would require the Secretary of Defense to submit the Task Force's report with the comments and recommendations of the Secretary of Defense to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives. The conferees believe that any changes to the duties of senior OSD officials should take into account the recommendations contained in that report.

TITLE X—GENERAL PROVISIONS

ITEMS OF SPECIAL INTEREST

Global Positioning System alternate master control station

The Global Positioning System (GPS) has become or soon will be fully integrated into most facets of U.S. military planning and operational capabilities. GPS has also been integrated significantly into civil and commercial navigation planning. As such, the conferees recognize the expanding importance of GPS as a national

asset, one that is critical to U.S. national security and economic interests. The conferees are aware of potential command and control vulnerabilities associated with the GPS master control station at Falcon Air Force Base, Colorado. The conferees understand that GPS is the only critical national satellite system that does not have an adequate, separate, and secure backup control station. The conferees believe that the Department of Defense and the Air Force should pursue, as an urgent priority, a secure backup GPS system operations facility that is geographically separate from the existing facility.

Therefore, the conferees direct the Secretary of the Air Force to proceed in fiscal year 1998 with the development of an alternate master control station at a location outside the Colorado Springs area. The conferees expect this new alternate master control station to be operational by fiscal year 2001. The conferees further direct the Secretary of the Air Force to submit a report to the congressional defense committees on this issue not later than February 15, 1998.

LEGISLATIVE PROVISIONS ADOPTED

Subtitle A—Financial Matters

Transfer authority (sec. 1001)

The House bill contained a provision (sec. 1001) that would permit the transfer of \$2.0 billion of amounts made available in Division A of the bill for any fiscal year to any other authorization made available in Division A upon determination by the Secretary of Defense that such a transfer would be in the national interest.

The Senate amendment contained a similar provision (sec. 1001) that would authorize the budget request level of \$2.5 billion in transfer authority.

The Senate recedes.

Incorporation of classified annex (sec. 1002)

The House bill contained a provision (sec. 1002) that would incorporate the classified annex prepared by the Committee on National Security into this act.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment providing that the classified annex prepared by the committee of conference is incorporated into this act.

Authority for obligation of unauthorized fiscal year 1997 defense appropriations (sec. 1003)

The House bill contained a provision (sec. 1003) that would authorize fiscal year 1997 programs that received appropriations but no authorization.

Senate amendment contained a similar provision (sec. 1002).

The Senate recedes.

Authorization of prior emergency supplemental appropriations for fiscal year 1997 (sec. 1004)

The House bill contained a provision (sec. 1004) that would extend authorization to those items appropriated by the fiscal year 1997 emergency supplemental appropriations legislation.

The Senate amendment contained a similar provision (sec. 1003).

The House recesses.

Increase in fiscal year 1996 transfer authority (sec. 1005)

The House bill contained a provision (sec. 1005) that would provide an increase in authorization transfer authority provided by section 1001 of the National Defense Authorization Act for Fiscal Year 1996.

The Senate amendment contained a similar provision (sec. 1004).

House recesses with a technical amendment.

Revision of authority for Fisher House trust funds (sec. 1006)

The Senate amendment contained a provision (sec. 1006) that would amend section 914 of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104-106) to require the Secretary of the Air Force to deposit an appropriate amount of funds to establish the corpus of the Fisher House Trust Fund, Department of the Air Force.

The House bill contained no similar provision.

The House recesses.

Flexibility in financing closure of certain outstanding contracts for which a small final payment is due (sec. 1007)

The House bill contained a provision (sec. 1007) that would permit the Secretary of Defense to establish an account to transfer funds into for the purpose of making small final payments on certain outstanding contracts for which funds appropriated for that purpose have expired.

The Senate amendment contained no similar provision.

The Senate recesses with a technical amendment that clarifies that the total amount of all transfers into the account may not exceed \$1.0 million without additional congressional authority.

Biennial financial management improvement plan (sec. 1008)

The Senate amendment contained a provision (sec. 1005) that would require a strategic financial management plan within the Department of Defense to determine goals for improving and re-engineering the finance and accounting functions.

The House bill contained no similar provision.

The House recesses with an amendment that would clarify the intent of the report.

Estimates and requests for procurement and military construction for the reserve components (sec. 1009)

The House bill contained a provision (sec. 122) that would require the Secretary of Defense to submit an annual report to Congress that describes the measures taken within the Department of

Defense to ensure that the reserve components are appropriately funded and lists the major weapons and items of equipment provided for these components. The section would also require the Secretary of Defense to display in all future years defense program updates the amounts programmed for the procurement of equipment for the reserve components.

The Senate amendment contained a provision (sec. 1008) that would require the Department of Defense to specify estimated expenditures and proposed appropriations for reserve component modernization at the same level of detail as the active forces in the annexes provided with the Future Years Defense Program (FYDP).

The House recedes.

Sense of Congress regarding funding for reserve component modernization not requested in the President's budget (sec. 1010)

The Senate amendment contained a provision (sec. 1059) that would require the Congress, to the extent practicable, to consider authorization of appropriation for reserve component modernization activities not included in the budget request if certain criteria are met:

(1) There is a Joint Requirements Oversight Council validated requirement for the equipment;

(2) The equipment is included for reserve component modernization in the modernization plan of the military department concerned and is incorporated into the future years defense program;

(3) The equipment is consistent with the use of reserve component forces; and

(4) The funds can be obligated in the fiscal year.

The provision also calls for Congress to obtain the views of the Chairman, Joint Chiefs of Staff on whether equipment not included in the budget request is appropriate for the employment of reserve component forces in Department of Defense warfighting plans.

The House bill contained no similar provision.

The House recedes.

Management of working-capital funds (sec. 1011)

The Senate amendment contained a provision (sec. 370) that would modify section 2208 of title 10, United States Code, the authority under which the working capital funds are now being managed, to make contract authority available for obtaining capital assets. The Senate amendment also contained a provision (Sec. 361) that would limit the use of advance billing and establish procedures to notify the congressional defense committees within 30 days of advance billings being posted to the working capital funds.

The House bill contained no similar provisions.

The House recedes with an amendment that would continue to restrict the Department of the Navy and establish procedures for the Department of Defense to notify the congressional defense committees in a timely manner when advance billing occurs. The conferees are concerned that excessive advance billing has continued, despite congressional guidance and initiatives to limit the practice. Advance billing has become a normal operating practice rather than an unusual exception. In the case of Navy Working Capital

Funds, advance billing is continually used without any plans for significant reductions. Failure to properly budget for these activities and allowing these activities to operate by deficit spending each year is not consistent with good business practices and puts the future force readiness at risk.

The conferees further agree that the removal of activities from the working capital funds, use of direct appropriations to fund these activities, or allowing working capital activities to change rates in the year of execution are not viable solutions to problems in the working capital funds. Proper budgeting and the use of full costing policies allow for the proper financial management of working capital fund activities.

Authority of Secretary of Defense to settle claims relating to pay, allowances, and other benefits (sec. 1012)

The Senate amendment contained a provision (sec. 1060) that would provide the Secretary of Defense authority, upon request of a secretary of a military department, to waive the time limits in the case of a claim for pay and allowances up to a maximum of \$25,000. The recommended provision that would modify and clarify the authority granted by section 607 of the National Defense Authorization Act for Fiscal Year 1997 to ensure that the Department of Defense has adequate authority to address these claims.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Payment of claims by members for loss of personal property due to flooding in Red River Basin (sec. 1013)

The Senate amendment contained a provision (sec. 1081) that would authorize the secretary of a military department to pay claims for loss and damage to personal property suffered as a direct result of the flooding in the Red River Basin during April and May 1997.

The House bill contained no similar provision.

The House recedes with an amendment that would add a requirement that the Secretary of Defense report to the Congress on the Department's policy regarding the payment of claims for loss or damage to personal property as a result of a natural disaster by members of the armed forces who are not assigned to quarters of the United States.

Advances for payment of public services (sec. 1014)

The House bill contained a provision (sec. 1509) that would allow the Department of Defense to pay utility expenses on a budget billing basis.

The Senate amendment contained no similar provision.

The Senate recedes.

United States Man and the Biosphere Program limitation (sec. 1015)

The House bill contained a provision (sec. 1008) that would prohibit the use of funds appropriated for fiscal year 1998 to support the United States Man and the Biosphere Program or any related project.

The Senate amendment contained no similar provision.
The Senate recesses with a technical amendment.

Subtitle B—Naval Vessels and Shipyards

Procedures for sale of vessels stricken from the Naval Vessel Register (sec. 1021)

The Senate amendment contained a provision (sec. 1012) that would authorize the sale of vessels stricken from the Naval Vessel Register using negotiation as an alternative to the sealed-bid process. This authority would allow such issues as environmental concerns to be addressed more effectively in the process of the sale.

The House bill contained no similar provision.
The House recesses.

Authority to enter into a long-term charter for a vessel in support of the Surveillance Towed-Array Sensor (SURTASS) program (sec. 1022)

The House bill contained a provision (sec. 1022) that would authorize the Secretary of the Navy to enter into a contract in accordance with section 2401 of title 10, United States Code, for the charter of the vessel RV CORY CHOUEST through fiscal year 2003 in support of the SURTASS program.

The Senate amendment contained a provision (sec. 1011) that would authorize the Navy to enter into a long-term lease for a vessel to support the surveillance towed array sensor and low frequency active programs through fiscal year 2004.

The Senate recesses.

Transfer of two specified obsolete tugboats of the Army (sec. 1023)

The House bill contained a provision (sec. 1023) that would allow the Secretary of the Army to transfer two obsolete tugboats to the Brownsville Navigation District, Brownsville, Texas.

The Senate amendment contained no similar provision.
The Senate recesses.

Congressional review period with respect to transfer of the ex-U.S.S. Midway (CV-41) and ex-U.S.S. Hornet (CV-12) (sec. 1024)

The House bill contained a provision (sec. 1025) that would allow for a 30 calendar day congressional review period with respect to the transfer of the decommissioned aircraft carrier ex-U.S.S. *Midway* (CV-41).

The Senate amendment contained no similar provision.

The Senate recesses with an amendment that would substitute 30 days for 60 days of continuous session of Congress when applying section 7603 of title 10 to ex-U.S.S. *Midway* (CV-41) and ex-U.S.S. *Hornet* (CV-12). If only one qualified entity applies for transfer of ex-U.S.S. *Midway* (CV-41) or ex-U.S.S. *Hornet* (CV-12), the amendment would also allow the Secretary of the Navy to transfer the vessel after 10 days of continuous session of Congress

Transfers of naval vessels to certain foreign countries (sec. 1025)

The Senate amendment contained a provision (sec. 1013) that would transfer on a sale basis one *Hunley* class submarine tender,

one *Kaiser* class oiler, seven *Knox* class frigates, two *Oliver Hazard Perry* class guided missile frigates, and three *Newport* class tank landing ships to various countries.

The House bill contained no similar provision.

The House recesses.

Reports relating to export of vessels that may contain polychlorinated biphenyls (sec. 1026)

The House bill contained a provision (sec. 1021) that would amend three sections of the United States Code in order to permit the sale of obsolete vessels that contain polychlorinated biphenyl compounds: section 7305 of title 10, to eliminate Toxic Substances Control Act restrictions on export of vessels for disposal; section 7306a of title 10, to provide that a sinking of a military vessel does not qualify as a prohibited export or disposal under Toxic Substances Control Act; and section 1160 of title 46 App., to resume the practice of selling ships in approved foreign markets under the Merchant Marine Act of 1936.

The Toxic Substances Control Act (TSCA) (15 U.S.C. 1605(e)) prohibits the manufacture, processing, use, or distribution in commerce of polychlorinated biphenyls (PCBs) that are not "totally enclosed." The term "totally enclosed" means any manner that ensures "insignificant" human health and environmental exposures to PCBs, as determined by the Environmental Protection Agency (EPA). TSCA directed the EPA to promulgate rules for the disposal of PCBs. In vessels identified for sale, scrap, transfer, or sinking, the Navy has discovered minute quantities of PCBs that the Navy has concluded are bound and non-leachable. The existing EPA regulations make it difficult for the Navy and the Maritime Administration to dispose of these vessels.

The Senate amendment contained no similar provision.

The Senate recesses with an amendment that would require the Secretary of the Navy, the Administrator of the Maritime Administration, and the Administrator of the EPA to report to Congress on the implementation of an agreement that has been reached between the Navy and the EPA on PCB vessel disposal issues. The conferees understand that this agreement is in effect and is not contingent upon a new rule to be published later this year, which will incorporate the agreement between the Navy and EPA. The amendment would also make technical modifications to the provisions of the National Maritime Heritage Act of 1994 (16 U.S.C. 5405) that address the scrapping and sale of obsolete vessels.

The conferees understand that the purpose of section 9 of the Shipping Act of 1916 (46 U.S.C. App. 808) is to enable the Maritime Administration to manage the fleet of privately-owned United States-flag commercial vessels capable of meeting national security needs and not to enforce the environmental laws. The conferees expect that any agreement between the Maritime Administration and the EPA concerning the export of such vessels for scrapping outside the United States will respect the role of the Maritime Administration by not requiring it to play any greater role in the enforcement of the environmental laws than it currently plays. The conferees acknowledge that it may be appropriate for the Maritime Adminis-

tration to inform the EPA of export applications received pursuant to section 9(c) of the Shipping Act of 1916 (46 U.S.C. App. 808(3)).

The provisions concerning the Maritime Administration, the disposal of National Defense Reserve Fleet vessels, and the National Maritime Heritage Act (16 U.S.C. 5404) were resolved through consultations among the House and Senate conferees, the Committees on Commerce, Science, and Transportation of the Senate, and the Committees on Commerce, Transportation and Infrastructure, and Resources of the House of Representatives.

Conversion of defense capability preservation authority to Navy shipbuilding capability preservation authority (sec. 1027)

The Senate amendment contained a provision (sec. 806) that would amend section 808 of the National Defense Authorization Act for Fiscal Year 1996 to restrict its application to shipbuilding and to vest the Secretary of the Navy with the authority to enter into modified capability preservation agreements. The provision would also limit applicability of the agreements to costs incurred after the date of enactment of this Act for commercial contracts that became effective on or after January 26, 1996.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Subtitle C—Counter-Drug Activities

The budget request for drug interdiction and other counter-drug activities of the Department of Defense totals \$808.6 million. That amount includes the \$652.6 million in the drug interdiction account and \$156.0 million in the operating budgets of the military services for authorized counter-drug operations. These amounts compare with the \$957.4 million authorized for these activities during fiscal year 1997; \$796.5 million for the drug interdiction account and \$160.9 million in the services' operating budgets. The reduction of \$148.8 million equates to a real decline of 17.5 percent after accounting for inflation. The conferees recommend an additional \$14.3 million for the counter-drug activities of the Department of Defense.

Drug Interdiction & Counter-drug Activities Operations and Maintenance

(In thousands of dollars; may not add due to rounding)

Fiscal Year 1998 Drug and Counterdrug Request	\$808,588

Detection and Monitoring	238,149
Disruption of Drug Mafia Organizations	54,306
Law Enforcement Agency	249,864
Demand Reduction	83,238
Increases:	
Riverine Interdiction Initiative	\$4,200
Gulf States Counterdrug Initiative	4,100
Multi-Jurisdictional Task Force	1,000
Southwest Border Fence Project	5,000
Recommendation	\$822,888

Ongoing initiatives

In fiscal year 1997, the Congress authorized additional funding for three counter-drug initiatives: the Mexico-Southwest Border Initiative; the Caribbean and South American Initiative; and the

Domestic Counter-Narcotics Initiative. These initiatives were intended to provide enhanced capabilities to stem the flow of drugs into the United States and disrupt narcotics operations within our own borders.

Although, the conferees are pleased with the initial progress that has been made with these initiatives, the conferees are concerned about the early difficulties in fulfilling some of the goals of the Mexico-Southwest Border Initiative. Due to the delay caused by these difficulties, the administration has requested an extension of the authority to provide assistance to the Government of Mexico. That authority was originally provided for a single year with the understanding that future support would be provided from funds available to the Department of State pursuant to the Foreign Assistance Act of 1961. Unfortunately, the administration failed to provide the necessary funds within the fiscal year 1998 budget request of the Department of State. If it is the intent of the administration to turn such international counter-drug activities of the United States over to the Department of Defense for execution, the conferees believe that this intent should be demonstrated within the budget request by shifting funds from the State Department's counternarcotics budget to that of the Department of Defense. However, because the conferees understand the value of this particular assistance and the need to explore all available options to stem the flow of drugs across the Southwest border, the conferees agree to a provision (sec. 1032), that would extend for *one* year the authority to provide additional support for counter-drug activities of the government of Mexico. The total amount of support provided pursuant to this authority would be limited to \$8.0 million for the two year period from fiscal year 1997 to 1998. In providing this support, the Secretary of Defense would be required to consult with the Secretary of State.

The conferees continue to support the Gulf States Counter-drug Initiative (GSCI) and are pleased to note that the budget request included \$3.4 million for this program. However, the conferees are concerned that this funding level does not adequately cover the costs for required software maintenance, training, and network support. Therefore, the conferees agree to authorize an increase of \$4.1 million to fund these activities.

The conferees agree to authorize an additional \$1.0 million for the Multi-Jurisdictional Task Force and an additional \$5.0 million for border fence construction.

Riverine interdiction initiative

The conferees agree to authorize an increase of \$4.2 million to the Department's counterdrug program for riverine operations and include a provision (sec. 1033), that would grant a five year authorization to the Secretary of Defense, in consultation with the Secretary of State, to assist the Peruvian and Colombian governments with the acquisition of the requisite equipment to actively engage riverine counter-drug activities. The amount of support that could be provided pursuant to this authority would be limited to \$9.0 million in fiscal year 1998 and \$20.0 million during any of the fiscal years 1999 through 2002. Funds would be restricted from initial obligation until 60 days after the Secretary of Defense, in consulta-

tion with the Secretary of State, submits a detailed riverine counter-drug plan to congressional defense committees. The Secretary would also be required to submit any revisions to this plan before obligating any funds for this initiative in the subsequent years.

The conferees direct the Department of Defense, in coordination with other federal agencies involved in counter-narcotic activities, to develop an integrated regional plan to establish a riverine program that can be sustained by the source nations at the end of the five-year period. The Department would be required to provide the details of this plan to the Committees on Armed Services and Foreign Relations of the Senate and the Committees on National Security and International Relations of the House of Representatives before any assistance is provided pursuant to this authority. This plan would provide details as to how the riverine program fits into the overall national drug strategy.

Use of National Guard for State drug interdiction and counterdrug activities (sec. 1031)

The House bill contained a provision (sec. 1031) that would amend section 112 of title 32, United States Code, to prohibit the use of counter-drug funding for National Guard Civil-Military Activities.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would ensure that National Guard participation in counter-drug activities is directly related to military training and readiness in accordance with section 2012(d) of title 10, United States Code, and could support youth and charitable organizations designated as eligible to receive such support by section 508 of title 32, United States Code. In addition, the provision would direct the Secretary of Defense to submit an annual report to congressional defense committees regarding the assistance provided, and activities conducted, under State drug interdiction and counter-drug activities plan.

Authority to provide additional support for counter-drug activities of the Government of Mexico (sec. 1032)

The Senate amendment contained a provision (sec. 1021) that would extend for one year the authority to provide additional support for counterdrug activities of the Government of Mexico.

The House bill contained no similar provision.

The House recedes with an amendment that would extend for one year the authority to provide additional support for counter-drug activities of the Government of Mexico. The total amount of support provided pursuant to this authority would be limited to \$8.0 million for the two year period from fiscal year 1997 to 1998. In providing this support, the Secretary of Defense would be required to consult with the Secretary of State.

Authority to provide additional support for counter-drug activities of Peru and Colombia (sec. 1033)

The Senate amendment contained a provision (sec. 1022) which would grant a five year authorization to the Secretary of Defense to assist the Peruvian and Colombian governments with the acqui-

sition of the requisite equipment to actively engage in the Riverine Operations.

The House bill contained no similar provision.

The House recedes with an amendment that would grant a five year authorization to the Secretary of Defense, in consultation with the Secretary of State, to assist the Peruvian and Colombian governments with the acquisition of the requisite equipment to actively engage riverine counter-drug activities. The amount of support that could be provided pursuant to this authority would be limited to \$9.0 million in fiscal year 1998 and \$20.0 million during any of the fiscal years 1999 through 2002.

Annual report on development and deployment of narcotics detection technology (sec. 1034)

The House bill contained a provision (sec. 1033) that would require the Director of the Office of National Drug Control Policy to submit a report to the Congress and the President regarding the development and deployment of narcotics detection technologies by federal agencies.

The Senate amendment contained no similar provision.

The Senate recedes.

Subtitle D—Miscellaneous Report Requirements and Repeals

Repeal of miscellaneous reporting requirements (sec. 1041)

The House bill contained a provision (sec. 1041) that would repeal certain obsolete reporting requirements imposed upon the Department of Defense.

The Senate amendment contained a similar provision (sec. 1031).

The House recedes with an amendment.

Study of transfer of modular airborne fire fighting system (sec. 1042)

The House bill contained a provision (sec. 1063) that would require the Secretary of Defense to consult with the Secretary of Agriculture and submit a report that would evaluate the feasibility of transferring jurisdiction over units of modular firefighting equipment from the Department of Agriculture to the Department of Defense.

The Senate amendment contained no similar provision.

The Senate recedes.

Overseas infrastructure requirements (sec. 1043)

The Senate amendment contained a provision (sec. 1036) that would require the Secretary of Defense to provide a report to the Committee on Armed Services of the Senate and the National Security Committee of the House of Representatives outlining the current and future forward-basing requirements of the Department of Defense along with the international agreements necessary to provide these facilities.

The House bill contained no similar provision.

The House recedes.

Additional matters for annual report on activities of the General Accounting Office (sec. 1044)

The Senate amendment contained a provision (sec. 1040) that would require the General Accounting Office to include within its annual report to Congress the amount of work performed at the request of members of Congress, the amount of work performed to fulfill a specific legislative requirement, and the amount of work initiated by the Comptroller General in performance of his general responsibilities.

The House bill contained no similar provision.

The House recedes.

Eye safety at small arms firing ranges (sec. 1045)

The Senate amendment contained a provision (sec. 1041) that would require the Secretary of Defense to conduct a study of eye safety at small arms firing ranges, and report to the Congress on the development of a protocol for reporting eye injuries incurred during small arms firing activities.

The House bill contained no similar provision.

The House recedes with an amendment that would change the date on which the study is to begin.

Reports on Department of Defense procedures for investigating military aviation accidents and for notifying and assisting families of victims (sec. 1046)

The Senate amendment contained a provision (sec. 1044) that would require the Secretary of Defense to provide a series of reports to the Congress related to investigations of military aviation accidents; assistance provided to families of casualties; and a review of the Federal Aviation Administration and the National Transportation Safety Board procedures for providing information and assistance to families of casualties of non-military aviation accidents.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

The conferees believe that military families deserve the best possible care, attention, and information, especially at a time of tragic personal loss. Breakdowns in the implementation of the established family notification procedures that are applicable in case of armed forces and Department of Defense civilian personnel casualties can cause significant distress and mistrust. The conferees believe that Department of Defense representatives involved in casualty notifications should have the training and experience to provide meaningful information about any investigations. The notification personnel should have access to persons qualified to provide effective grief counseling. Procedures for civilian family notification that have been adopted by the Federal Aviation Administration and National Transportation Safety Board might serve as a useful model for improvements to Department of Defense procedures.

The requirement for the report on aviation accident investigation procedures is not intended to create the perception that the current procedures are inadequate. Rather the requirement is an opportunity to assess proposals to combine the two investigations into a single, public investigation process in order to clarify pos-

sible misconceptions or misunderstandings related to the current Department of Defense procedures. The conferees recognize that, although the Department of Defense provides much needed logistical support, including transportation and care of remains, survivor counseling, and other benefits for tragedies like the crash of the C-130 aircraft on November 22, 1996, this support may be insufficient to meet the immediate emotional and personal needs of affected family members. It is important that the flow of information to surviving family members be accurate and timely, and, to the extent possible, be provided to family members in advance of media reports. Therefore, the conferees believe the Department of Defense should give a high priority, to the extent practicable, to providing family members with all relevant information about an accident as soon as it becomes available, consistent with the national security interests of the United States, and to allowing the family members full access to any public hearings or public meetings about the accident.

Subtitle E—Matters Relating to Terrorism

Oversight of counterterrorism and antiterrorism programs and activities of the United States (sec. 1051)

The House bill contained a provision (sec. 1064) that would direct the Office of Management and Budget to establish a reporting system and collect information from executive agencies on their counterterrorism and antiterrorism programs, activities, budgets, and expenditures; to provide a report on executive branch activities and programs from 1995 through 1997 and submit the information to Congress. The provision would also require an annual report to Congress on this information.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would modify the requirement to report to Congress on executive branch activities and programs from 1995 through 1997, and require an annual report on prospective U.S. government counterterrorism and antiterrorism activities, programs, budgets, and expenditures.

Report on policies and practices relating to the protection of members of the armed forces abroad from terrorist attack (sec. 1052)

The House bill contained a provision (sec. 1043) that would require the Secretary of Defense to report on antiterrorism activities and programs of the Department of Defense, to include a description of the various programs, deficiencies in the programs, and actions taken by the Secretary to improve implementation of those programs.

The Senate amendment contained two provisions regarding the policies and practices of the Department of Defense (DOD) in protecting members of the armed forces against terrorist attack; one provision (sec. 1043) that would require the Secretary of Defense to submit a report to Congress that would assess the policies and practices of the Department to protect U.S. Armed Forces from terrorist attack and assess the procedures for determining accountability in the chain of command in the event a terrorist incident results in loss of life at a U.S. military facility abroad; another pro-

vision (sec. 1053) that would direct the Secretary of Defense to take appropriate actions to ensure that units of the U.S. Armed Forces engaged in peace operations have adequate troop protection equipment for such operations.

The conferees agree to a single provision that would direct the Secretary of Defense to take appropriate actions to ensure that U.S. Armed Forces engaged in peace operations have the necessary equipment to adequately protect themselves; would direct the Secretary to designate a DOD official with responsibility for oversight of troop protection equipment; would require the Secretary of Defense to submit a report to Congress on antiterrorism programs and actions conducted by DOD, and the roles of the chain of command in providing force protection guidance and support to U.S. Armed Forces deployed overseas before and after the two terrorist bombings against U.S. Armed Forces in Saudi Arabia in 1995 and 1996.

Subtitle F—Matters Relating to Defense Property

Lease of nonexcess personal property of the military departments (sec. 1061)

The House bill contained a provision (sec. 1058) that would require the military departments to compete any lease in excess of one year for personal property valued over \$100,000 and notify the Congress 45 days prior to entering into such a lease.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

Lease of nonexcess property of defense agencies (sec. 1062)

The Senate amendment contained a provision (sec. 842) that would extend to the directors of defense agencies authority currently granted to the service secretaries to lease nonexcess property under certain circumstances.

The House bill contained no similar provision.

The House recedes with an amendment that would incorporate portions in the Senate provision regarding fair market value and competition requirements for such lease agreements.

Donation of excess chapel property to churches damaged or destroyed by arson or other acts of terrorism (sec. 1063)

The Senate amendment contained a provision (sec. 1078) that would allow the Department of Defense to donate excess Army chapel property to churches that were destroyed or damaged by an act of arson or terrorism.

The House bill contained no similar provision.

The House recedes with an amendment that would expand the authority to apply to all excess chapel property within the Department of Defense.

Authority of the Secretary of Defense concerning disposal of assets under cooperative agreements on air defense in Central Europe (sec. 1064)

The Senate amendment contained a provision (sec. 1089) that would provide authority for the Secretary of Defense, pursuant to

amendments to the European air defense agreements agreed to on December 6, 1983 and July 12, 1984, to provide defense articles owned and acquired by the United States to the Federal Republic of Germany.

The House bill contained no similar provision.

The House recesses.

The conferees note that pursuant to amendments to the European Air Defense Agreements agreed to on December 6, 1983 and July 12, 1984, the Patriot-Roland Cooperative Agreement (section 1007, Public Law 98-525, and section 132, Public Law 99-83) enabled the United States and the Federal Republic of Germany to enhance central European air defenses by utilizing Patriot batteries and the Roland short range air defense systems, which are owned by the United States but operated by the Federal Republic of Germany.

Since January 1996, negotiations between the United States and the Federal Republic of Germany have been underway to modify and extend the current agreement. The Department of Defense (DOD) has informed the conferees that the current proposal would allow the transfer of ownership for 12 Patriot batteries and 27 Roland short range air defense systems to the Federal Republic of Germany in exchange for equitable compensation. The DOD has further informed the conferees that modifying the current agreements to provide for this transfer of ownership would be an equitable solution with regard to the assets involved in the original agreement, and would enable continued cooperation in the air defense mission area. The conferees understand that legislation is necessary to accomplish these transfers as the original agreements do not provide the required transfer authority and this particular transfer would fall outside of the coverage of the more traditional authorities contained in the Arms Export Control Act, 22 U.S.C. 2751.

The conferees direct the Secretary of Defense to provide a report to Congress on the status of the negotiations on the Patriot-Roland Follow-On Implementing Agreement (FOIA). The conferees further direct that prior to the transfer of title for any Patriot or Roland systems, the Secretary of Defense shall provide the congressional defense committees with a report on the financial and non-financial benefits to the United States of the transfer of the equipment, the mission value of the FOIA compensation components, the terms of the equipment transfer (including the use of mission value as compensation), the ability of the United States to meet its NATO obligations, and any potential obstacles to the performance of FOIA missions.

Sale of excess, obsolete, or unserviceable ammunition and ammunition components (sec. 1065)

The Senate amendment contained a provision (sec. 365) that would authorize the Secretary of the Army to competitively sell excess, obsolete, or unserviceable ammunition and ammunition components to licensed manufacturers that have the capability to modify, reclaim, transport, and either store or sell ammunition or ammunition components. The ammunition or ammunition components purchased under this authority would be required to be demili-

tarized or used in such a way as the Secretary of the Army determines is consistent with the public interest.

The House bill contained no similar provision.

The House recesses with an amendment that would require all receipts to be deposited into the Federal Treasury and would require an Army Audit Agency report during the first three years on the effect of this authorization.

Transfer of B-17 aircraft to museum (sec. 1066)

The Senate amendment contained a provision (sec. 1070) that would authorize the Secretary of the Air Force to transfer the B-17 aircraft known as Picadilly Lilly to the Planes of Fame Museum in Chino, California. The provision would require that the plane be demilitarized and that the cost of the demilitarization be paid by the museum.

The House bill contained no similar provision.

The House recesses with a clarifying amendment.

The conferees note that the particular circumstances surrounding this case, including the museum's possession of a bill of sale transferring this plane from the Federal Government to the museum, are unique and that this provision does not establish any precedent regarding the transfer of aircraft.

Report on disposal of excess and surplus materials (sec. 1067)

The Senate amendment contained a provision (sec. 1038) that would require the Secretary of Defense to submit a report to the Congress outlining the actions required to ensure that the Department better manages the Defense Reutilization and Marketing System so as to eliminate, or at least minimize, the problems.

The House bill contained no similar provision.

The House recesses with a clarifying amendment that would incorporate the reporting requirements contained in the House report language regarding this issue.

Subtitle G—Other Matters

Authority for special agents of the Defense Criminal Investigative Service to execute warrants and make arrests (sec. 1071)

The House bill contained a provision (sec. 1051) that would grant the Secretary of Defense authority to authorize special agents of the Defense Criminal Investigative Service (DCIS) to execute and serve warrants and other process issued under the authority of the United States, and to authorize them to make warrantless arrests in certain situations. The authority of a special agent under this provision could only be exercised in accordance with guidelines prescribed by the Attorney General.

The Senate amendment contained a similar provision (sec. 1065).

The Senate recesses with a clarifying amendment.

Since the authority granted by this provision is to be exercised in accordance with guidelines prescribed by the Inspector General of the Department of Defense and approved by the Attorney General, proposed guidelines should be submitted by the Inspector General to the Attorney General as expeditiously as possible.

Study of investigative practices of military criminal investigative organizations relating to sex crimes (sec. 1072)

The House bill contained a provision (sec. 1052) that would require the Secretary of Defense to commission from the National Academy of Public Administration an independent study of the policies, procedures, and practices of the military criminal investigative organizations in investigating sex crimes and other criminal sexual misconduct in the armed forces.

The Senate amendment contained no similar provision.

The Senate recesses.

Technical and clerical amendments (sec. 1073)

The House bill contained a provision (sec. 1053) that would make various technical and clerical amendments to existing law.

The Senate amendment contained a provision (sec. 556) that would make a technical correction to a cross-reference in section 14317(d) of title 10, United States Code.

The conferees agree to a provision that would incorporate portions of these technical amendments.

Sustainment and operation of the Global Positioning System (sec. 1074)

The Senate amendment contained a provision (sec. 1064) that would endorse and enact into law the presidential policy on the sustainment and operation of the Global Positioning System (GPS) issued in March 1996.

The House bill contained no similar provision.

The House recesses with an amendment that would provide that the Interagency GPS Executive Board, established pursuant to the presidential GPS policy, be the forum for interagency review of any proposed international agreement on the civil use of GPS. The amendment would also direct the Secretary of Defense not to accept any restriction on the GPS system proposed by the head of any other department or agency in the exercise of that official's regulatory authority that would adversely affect the military potential of GPS.

Protection of safety-related information voluntarily provided by air carriers (sec. 1075)

The House bill contained a provision (sec. 1056) that would protect from disclosure certain air safety information voluntarily submitted to the Department of Defense by an air carrier providing charter air transportation to the Department.

The Senate amendment contained a similar provision (sec. 1063).

The Senate recesses with an amendment.

National Guard ChalleNGe Program to create opportunities for civilian youth (sec. 1076)

The House bill contained a provision (sec. 1057) that would provide the Secretary of Defense, acting through the Chief of the National Guard Bureau, authority to conduct a program known as the National Guard ChalleNGe Program and would authorize the Department of Defense to provide up to \$50.0 million in funding to

support the program. The section would also limit the Department of Defense share of the costs of operating a program in each state to 75 percent in fiscal year 1998—with that share decreasing by 5 percent each year, to 60 percent in fiscal year 2001. Finally, the section would increase by \$30.0 million the \$20.0 million included in the budget request. To pay for the increase, the committee would reallocate to the ChalleNGe program the \$15.0 million that it had intended to add to the Army National Guard military personnel accounts for initial entry and military skill training. In addition, the committee recommends a reduction in the amounts requested in the President's budget for Army and Air National Guard operations and maintenance funding by \$7.5 million each.

The Senate amendment contained a provision (sec. 1052) that would extend the authorization for the National Guard Civilian Youth Opportunities Pilot Program until September 30, 1998. The provision would limit the number of programs to 15, would limit the amount which may be obligated in support of the program during fiscal year 1998 to \$20.0 million, and would require non-Federal funding to match the Federal Government contribution to the program in each state.

The Senate recesses.

Disqualification from certain burial-related benefits for persons convicted of capital crimes (sec. 1077)

The House bill contained a provision (sec. 1060) that would prohibit the Secretary of Defense from providing military honors at the funeral of a person who has been convicted of a crime under state or federal law for which death is a possible punishment and for which the person was sentenced to death or life imprisonment without parole.

The Senate amendment contained a provision (sec. 1076) that would disqualify persons convicted of a capital offense under Federal law from burial in cemeteries administered by the Secretary of Defense and the Secretary of Veterans Affairs and would prohibit such a person from receiving other burial benefits prescribed by federal law.

The House recesses with an amendment that would incorporate the House provision and would prohibit a person convicted of a capital offense from being buried in any cemetery administered by the Secretary of Defense, as well as Arlington National Cemetery.

Restrictions on the use of human subjects for testing of chemical or biological agents (sec. 1078)

The Senate amendment contained a provision (sec. 1086) that would prohibit the United States government from using human subjects for chemical or biological tests or experiments. The provision would not apply to research, tests, or experiments related to medical, therapeutic, pharmaceutical, agricultural, and industrial activities, or research, tests, or experiments directly related to protection against toxic chemicals, or to protection against chemical or biological agents, U.S. military purposes not related to the use of chemical weapons, and law enforcement activities, including domestic riot control and the imposition of capital punishment. The provision would also require the Department of Defense to report

to Congress annually on the conduct of chemical and biological tests involving human subjects, with a certification by the Secretary of Defense that informed consent was obtained from each subject, prior to testing, and would repeal section 808 of the Department of Defense Appropriation Authorization Act for Fiscal Year 1978 (50 U.S.C. 1520).

The House bill contained no similar provision.

The House recedes with an amendment that would prohibit the Secretary of Defense, either directly or by contract, from conducting tests or experiments using chemical or biological agents on human subjects and would require the Secretary of Defense to report to Congress thirty days prior to date that the Department of Defense intends to conduct a chemical or biological test or experiment involving human subjects.

Treatment of military flight operations (sec. 1079)

The Senate amendment contained a provision (sec. 1072) that would modify section 303(c) of title 49, United States Code, the Department of Transportation Act of 1966. Section 303(c) currently requires the Department of Transportation to review transportation programs or projects that use parks, refuges, or historic sites and to determine that no alternative to the public land use is available and that harm to the public land is minimized. The Senate provision specifies that a military airspace proposal for national security-related activities is not a "transportation program or project" to which section 303(c) applies.

The House bill contained no similar provision.

The House recedes.

Naturalization of certain foreign nationals who serve honorably in the Armed Forces during a period of conflict (sec. 1080)

The Senate amendment contained a provision (sec. 1073) that would modify the Immigration and Naturalization Act, title 8, United States Code, to permit foreign national service members who reenlist on board U.S. public vessels to qualify for naturalization without regard to the location of the vessel. The effective date of the provision would be retroactive to cover those foreign nationals who reenlisted on board U.S. vessels since January 1, 1990.

The House bill contained no similar provision.

The House recedes with an amendment that would remove a portion of the Senate provision waiving certain provisions of the Immigration Act of 1990 pertaining to processing applications for naturalization.

Applicability of certain pay authorities to members of specified independent study organizations (sec. 1081)

The Senate amendment contained a provision (sec. 1069) that would exempt retired federal employees and retired military personnel who have been appointed as members of the Commission on Servicemembers and Veterans Transition Assistance from limitations pertaining to receiving federal pay while concurrently receiving a federal retirement annuity.

The House bill contained no similar provision.

The House recedes with an amendment that would exempt retired Federal employees and retired military personnel who have been appointed as members of the National Defense Panel as well as those appointed to the Commission on Servicemembers and Veterans Transition Assistance.

Display of POW/MIA flag (sec. 1082)

The House bill contained a provision (sec. 1054) that would expand the dates on which the POW/MIA flag must be flown, as well as the locations where it must be flown on the prescribed dates. In addition, the section would repeal existing law that terminates the requirement to display the POW/MIA flag upon the President's determination that the fullest possible accounting has been made of all members of the armed forces and civilian employees of the United States who have been identified as prisoner of war or missing in action in Southeast Asia.

The Senate amendment contained a similar provision (sec. 1077).

The Senate recedes with a clarifying amendment.

Program to commemorate 50th anniversary of the Korean conflict (sec. 1083)

The House bill contained a provision (sec. 374) that would authorize the Secretary of Defense, to begin to plan, coordinate, and execute a program to commemorate the 50th anniversary of the Marshall Plan and the Korean Conflict.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would authorize the Department of Defense to expend up to \$100,000 for the planning, coordination, and execution of a program to commemorate the 50th anniversary of the Korean conflict.

Commendation of members of the Armed Forces and Government civilian personnel who served during the cold war; certificate of recognition (sec. 1084)

The House bill contained a provision (sec. 1059) that would recognize the service and sacrifices of military and civilian personnel who served during the Cold War era.

The Senate amendment contained a provision (sec. 536) that would authorize the secretaries of the military departments to award a medal to military personnel who served honorably during the Cold War era.

The Senate recedes with an amendment that would require the Secretary of Defense to develop a certificate recognizing service during the Cold War era and to make the certificate available upon request by qualified personnel.

Sense of Congress on granting of statutory Federal charters (sec. 1085)

The conferees agree to include a provision that would express the sense of Congress that no statutory federal charter should be enacted unless the charter is approved by the Congress upon a favorable report by the committees of jurisdiction of the respective houses.

Sense of Congress regarding military voting rights (sec. 1086)

The Senate amendment contained three provisions (sec. 541–543) that would establish a short title of “Military Voting Rights Act of 1997”, amend the Soldiers’ and Sailors’ Civil Relief Act of 1940 to preclude a military member from losing a claim to State residency for the purpose of voting in federal and state elections because of absence due to military orders, and amend the Uniformed and Overseas Citizens Absentee Voting Act to require each State to permit absent military voters to use absentee registration procedures and to vote by absentee ballot in elections for state and local offices, in addition to federal offices as provided in current law.

The House bill contained no similar provision.

The House recedes with an amendment that would substitute the sense of Congress that would affirm the absolute right of military members to vote in federal, state, and local elections; state that a military member’s extended absence from a place of residency or domicile due to military orders would not be grounds for loss or change of residency or domicile; and call for legislation to confirm the voting rights of military personnel following a review of the need for legislation and the impact of such legislation on the right of states to set voter registration requirements.

The conferees are concerned that, in the absence of legislation that would guarantee military voting rights in state and local elections, such rights are subject to challenge. Accordingly, the conferees direct that the Secretary of Defense, in consultation with the Attorney General, study the issue, determine the need for legislation, assess the consequences of such legislation for the right of states to set voter registration requirements, and recommend a course of action for the Congress, to include proposed legislation, if appropriate. The conferees direct that a report on the matters outlined above be submitted to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives not later than March 1, 1998. The conferees anticipate that both Committees will hold hearings to consider the need for such legislation in the coming year.

Designation of Bob Hope as an honorary veteran of the Armed Forces of the United States (sec. 1087)

The Senate amendment contained a provision (sec. 1074) that would designate Mr. Bob Hope as an honorary veteran of the Armed Forces of the United States.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

The conferees recognize that Bob Hope has contributed many years of service to enhancing the morale and welfare of members of the Armed Forces of the United States. He has traveled to virtually every post, camp, and station where military personnel are assigned overseas, including those in war zones, bringing entertainment, laughter, cheer, and a touch of home, sometimes at great personal risk.

Thanks for the memories, Bob.

Five-year extension of aviation insurance program (sec. 1088)

The Senate amendment contained a provision (sec. 1071) that would extend through September 30, 2002 the aviation insurance program authorized in section 44310 of title 49, United States Code.

The House bill contained no similar provision.

The House recesses.

LEGISLATIVE PROVISIONS NOT ADOPTED

Naming of a DDG-51 class destroyer the U.S.S. Thomas F. Connolly

The House bill contained a provision (sec. 1024) that would express the sense of Congress that the Secretary of the Navy should name one of the ships of the DDG-51 class of destroyers the U.S.S. Thomas F. Connolly in honor of Vice Admiral Connolly.

The Senate amendment contained no similar provision.

The House recesses.

Assignment of Department of Defense personnel to assist immigration and naturalization service and custom service

The House bill contained a provision (sec. 1032) that would authorize the Secretary of Defense to assign up to 10,000 U.S. military personnel to assist the Immigration and Naturalization Service and the U.S. Customs Service in their border enforcement duties at the request of the Attorney General or the Secretary of the Treasury.

The Senate amendment contained no similar provision.

The House recesses.

Repeal of annual report requirement relating to training of special operations forces with friendly foreign forces

The House bill contained a provision (sec. 1042) that would amend section 2011 of title 10, United States Code, to repeal the requirement that the Department of Defense prepare an annual report relating to training of U.S. Special Operations Forces with the forces of friendly foreign governments.

The Senate bill contained no similar provision.

The House recesses.

Armament retooling and manufacturing support initiative

The House bill contained a provision (sec. 1065) that would expand the purpose of the Armament Retooling and Manufacturing Support Initiative to allow for the use of ammunition manufacturing facilities by other entities for the purpose of modernization, development, and restoration of the facilities. The authority would also allow the government to enter into 99 year leases with private entities that want to operate on these facilities.

The Senate amendment contained no similar provision.

The House recesses.

Long-term charter contracts for acquisition of auxiliary vessels for the Department of Defense

The House bill contained a provision (sec. 1501) that would authorize the Secretary of the Navy to enter into long-term lease agreements for the procurement of combat logistics force (CLF) ships.

The Senate amendment contained no similar provision.
The House recesses.

Availability of certain fiscal year 1991 funds for payment of contract claim

The Senate amendment contained a provision (sec. 1007) that would authorize the Secretary of the Army to reimburse the Treasury judgment fund out of a certain fiscal year 1991 appropriation for any judgment against the United States that might be rendered in the case *Appeal of McDonnell Douglas Company*, Number 48029, presently before the Armed Services Board of Contract Appeals.

The House bill contained no similar provision.
The Senate recesses.

Psychotherapist-patient privilege in the Military Rules of Evidence

The Senate amendment contained a provision (sec. 1051) that would require the Secretary of Defense to submit to the President, for consideration for promulgation under article 36 of the Uniform Code of Military Justice (10 U.S.C. 836), a recommended amendment to the Military Rules of Evidence that would recognize a testimonial privilege regarding disclosure by a psychotherapist of confidential communications with a patient. The privilege was to be applicable to patients who are not subject to the Uniform Code of Military Justice and, upon a determination by the Secretary of Defense, to individuals subject to the Code.

The House bill contained no similar provision.
The Senate recesses.

The conferees note that the Department of Defense has already made significant progress toward drafting a recommended amendment to the Military Rules of Evidence incorporating the above-described privilege. The conferees urge the Department of Defense to submit the proposed amendment to the President at the earliest opportunity.

Acceptance and use of landing fees for use of overseas military airfields by civil aircraft

The Senate amendment contained a provision (sec. 1055) that would authorize a military service to accept and retain fees for the use of foreign-based military airfields by civil aircraft.

The House bill contained no similar provision.
The Senate recesses.

Protection of employees from retaliation for certain disclosures of classified information

The Senate amendment contained a provision (sec. 1068) that would amend the Whistleblower Protection Act to protect certain government employees from reprisal for disclosing classified infor-

mation to certain members or employees of Congress in the course of providing evidence of violations of law or other wrongdoing.

The House bill contained no similar provision.

The Senate recesses.

The conferees note that existing law prohibits reprisals against covered employees for disclosing information—whether classified or not—to the Congress, if that information relates to violations of law or regulation, gross mismanagement or waste, abuses of authority, or dangers to public health or safety. The conferees direct the Secretary of Defense to report to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives not later than March 1, 1998, on the following:

(1) the mechanisms presently in law or regulation under which federal or contractor employees may report violations of law, fraud, waste, or abuse to the Congress or within the executive branch where classified information is involved;

(2) the steps the Department of Defense has taken to ensure that such employees are aware of those mechanisms; and

(3) the protections in effect in law or regulation to ensure that the employees who use these mechanisms are protected against reprisal.

Criminal prohibition on the distribution of certain information relating to explosives, destructive devices, and weapons of mass destruction

The Senate amendment contained a provision (sec. 1075) that would amend section 842 of title 18, United States Code, to make it a crime for a person to teach, demonstrate the making of explosives, destructive devices or weapons of mass destruction, or to distribute information on the manufacture or use of explosives, destructive devices, and weapons of mass destruction.

The House bill contained no similar provision.

The Senate recesses.

Restrictions on quantities of alcoholic beverages available for personnel overseas through Department of Defense sources

The Senate amendment contained a provision (sec. 1090) that would require the Secretary of Defense to prescribe regulations relative to the quantity of alcoholic beverages that are available to service members assigned overseas through the Department of Defense, including alcoholic beverages available through nonappropriated fund instrumentalities. The regulations would be required to be consistent with the goal of preventing the blackmarket sale of American alcoholic beverages at overseas locations.

The House bill contained no similar provision.

The Senate recesses.

The conferees remain concerned about the problem of the blackmarket resale of American products overseas, particularly alcoholic beverages in countries such as Korea. However, the conferees understand that the Department of the Army has taken administrative steps to reduce the opportunities for black marketing of alcoholic beverages in Korea and other overseas locations. Therefore, the conferees direct the Secretary of Defense to submit to the Committee on Armed Services of the Senate and the Committee on

National Security of the House of Representatives a report that would describe the rules that govern the quantities of alcoholic beverages available to service members overseas and the administrative actions taken by each of the military departments to control the illegal resale of alcoholic beverages at overseas military installations. The report shall identify circumstances that contribute to the problem of blackmarket resale of products sold in exchanges in South Korea, and shall include an assessment of the extent to which South Korean trade restrictions on beer and other products are a contributing factor. The report should be submitted no later than March 31, 1998.

TITLE XI—DEPARTMENT OF DEFENSE CIVILIAN PERSONNEL

LEGISLATIVE PROVISIONS ADOPTED

Use of prohibited constraints to manage Department of Defense personnel (sec. 1101)

The Senate amendment contained a provision (sec. 1101) that would require the secretaries of the military departments and heads of defense agencies to certify directly to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives that the civilian workforce under their jurisdiction is not and has not during the preceding six months been the subject of any constraint or limitation in terms of man years, full-time equivalent positions, or maximum number of employees.

The House bill contained no similar provision.

The House recedes with an amendment that would change the reporting requirement to an annual report.

Veterans' preference status for certain veterans who served on active duty during the Persian Gulf War (sec. 1102)

The House bill contained a provision (sec. 323) that would permit veterans preference to be awarded to military personnel who served on active duty during the Persian Gulf War.

The Senate amendment contained no similar provision.

The Senate recedes.

Repeal of deadline for placement consideration of involuntarily separated military reserve technicians (sec. 1103)

The Senate amendment contained a provision (sec. 1104) that would eliminate the time limitation within which involuntarily separated military reserve technicians would be given priority placement consideration.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Rate of pay of Department of Defense overseas teachers upon transfer to General Schedule position (sec. 1104)

The House bill contained a provision (sec. 321) that would provide the Secretary of Defense authority to adjust a Department of Defense Dependents Schools educator's salary up to 20 percent when that person is moved from a position under the Teaching Po-

sition (TP) pay system to a position under the General Schedule (GS) pay system.

The Senate amendment contained a provision (sec. 1105) that would authorize the Secretary of Defense to prescribe regulations to control the amount of salary increase awarded to certain overseas professional educators who transfer from positions compensated under the "Teaching Pay" system to positions compensated under the "General Schedule" pay system.

The House recedes with an amendment that would clarify the Senate provision.

Garnishment and involuntary allotment (sec. 1105)

The Senate amendment contained a provision (sec. 1107) that would restore the requirement that the cost of garnishment or involuntary allotments be borne by the federal employee.

The House bill contained no similar provision.

The House recedes.

Extension and revision of voluntary separation incentive pay authority (sec. 1106)

The Senate amendment contained a provision (sec. 1103) that would extend the authority for the Voluntary Separation Incentive Pay Program for the Department of Defense until September 30, 2001.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Use of approved fire-safe accommodations by Government employees on official business (sec. 1107)

The House bill contained a provision (sec. 322) that would require that each government agency ensure that not less than 90 percent of the commercial-lodging room nights for employees of that agency be booked at approved accommodations and would require that each government agency establish explicit procedures to meet this requirement.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would retain the 90 percent standard; require the Federal Emergency Management Agency to prepare an accurate fire-safe hotel list; and require the General Services Administration to submit a one-time report on implementation of the requirements.

Navy higher education pilot program regarding administration of business relationships between Government and private sector (sec. 1108)

The Senate amendment contained a provision (sec. 1108) that would establish a pilot program of higher education at the Naval Undersea Warfare Center and would authorize \$2.5 million to be appropriated to fund the program.

The House bill contained no similar amendment.

The House recedes with an amendment that would provide the Secretary of the Navy the authority to establish and fund a pilot program of higher education available to employees of the Naval Undersea Warfare Center, employees of the Naval Sea Systems

Command, and employees of the Acquisition Center for Excellence of the Navy.

Authority for Marine Corps University to employ civilian faculty members (sec. 1109)

The House bill contained a provision (sec. 903) that would authorize the Secretary of the Navy to employ civilian professors at any of the seven colleges within the Marine Corps University whose principal course of instruction is 10-months or more long.

The Senate amendment contained a similar provision (sec. 1102).

The Senate recedes with a clarifying amendment.

TITLE XII—MATTERS RELATING TO OTHER NATIONS

LEGISLATIVE PROVISIONS ADOPTED

Subtitle A—United States Armed Forces in Bosnia and Herzegovina

Limitation on the use of funds for the deployment of U.S. forces in Bosnia beyond June 30, 1998 (secs. 1201–1206)

The House bill contained provisions (secs. 1201, 1210–1212) on Bosnia that would require the Secretary of Defense to submit a report to Congress identifying the non-military tasks performed by U.S. armed forces participating in the NATO Stabilization Force (SFOR) in Bosnia; would direct the President to report on the political and military conditions in Bosnia and the costs associated with the continued presence of U.S. armed forces in Bosnia, and would limit the expenditure of a portion of the fiscal year 1998 defense funds authorized and appropriated for operations in Bosnia until such time as the report is submitted to Congress. In addition, a provision in the House bill would limit the use of fiscal year 1998 defense funds for the deployment of U.S. armed forces in Bosnia after June 30, 1998.

The Senate amendment contained a provision (sec. 1083) that would express the sense of the Senate that U.S. ground combat forces should be withdrawn from Bosnia by June 30, 1998 and should not participate in a follow-on force; that a Western European Union-led, or a NATO-led, force without U.S. ground combat forces are suitable for a follow-on force after June 30; that, if necessary, the United States may appropriately provide support, including command and control, intelligence, logistics and, if required, a ready reserve force in the region; and that the President should inform European allies of the views expressed by the Congress, strongly urging them to take appropriate steps to prepare a follow-on force to maintain peace in Bosnia, and consult with Congress on any support provided by the United States to a WEU-led or NATO-led follow-on force after June 30, 1998.

The conferees agree to a series of provisions that would express findings of the Congress regarding the deployment of U.S. armed forces in Bosnia and express the sense of Congress that a WEU-led or NATO-led force without participation of U.S. ground combat forces may be suitable for a follow-on force to the SFOR, and that the United States may decide to provide appropriate support to

such a follow-on force. Another provision would limit the use of fiscal year 1998 funds authorized for the Department of Defense after June 30, 1998 for the deployment of U.S. ground combat forces in Bosnia, unless the President certifies to the Congress that the continued presence of U.S. ground combat forces is in the national security interests, and that it will remain the policy of the United States that U.S. ground forces will not be used as civil police in Bosnia. Concurrent with this certification, the President would be required to submit a report on the rationale for a continued U.S. armed forces presence, the number of U.S. military personnel to be deployed in and around Bosnia, the expected duration of the deployment, the mission and objectives of the U.S. armed forces deployed in and around Bosnia after June 30, 1998, the exit strategy and incremental costs associated with the deployment of the U.S. military in and around Bosnia after June 30, 1998, and other issues associated with extending the presence of the U.S. military forces in and around Bosnia. In addition, the conferees agree to a provision that would require the President to submit concurrently with the certification and report, a supplemental appropriations request for such amounts as are necessary to continue the deployment of U.S. military forces in and around Bosnia after June 30, 1998.

Another provision (sec. 1204) would require the Secretary of Defense to submit two reports to Congress regarding activities and tasks carried out by U.S. forces assigned to the Stabilization Force (SFOR), or any successor force to SFOR.

Lastly, the conferees agree to a provision (sec. 1205) that would require the President to submit a report to Congress by February 1, 1998 on the political and military conditions in Bosnia, that would include, but not be limited to, an assessment of progress made in implementing the Dayton Peace Agreement, other matters related to a follow-on force to SFOR, the possible involvement of U.S. military forces supporting peacekeeping activities in Bosnia following the withdrawal of U.S. ground combat forces from Bosnia, and a detailed explanation and timetable for withdrawing U.S. ground combat forces from Bosnia by June 30, 1998.

Subtitle B—Export Controls on High Performance Computers

Export controls on high performance computers (secs. 1211–1215)

The House bill contained provisions (secs. 1231–1234) that would express concerns about recent reports that United States-origin supercomputers were obtained by countries of proliferation concern for possible use in weapons-related activities and that these countries have refused to allow the United States to conduct post-shipment verification of the supercomputers to ensure that they are not being used for military purposes. The provision would prohibit the export, or re-export, of supercomputers with a composite theoretical performance of more than 2,000 millions of theoretical operations per second (MTOPS) to any Tier III country without the prior written approval of the Secretary of Commerce, the Secretary of Defense, the Secretary of Energy, the Secretary of State, and the Director of the Arms Control and Disarmament Agency. It would also require the President to report to Congress on all super-

computers with a computational capability of over 2,000 MTOPS that have been exported to all countries since January 1996. Finally, it would require post-shipment verification of U.S. origin supercomputers that exceed 2,000 MTOPS that have been exported to Tier III countries and require a report on the results of post-shipment verification.

The Senate amendment contained a provision (sec. 1080) that would require the General Accounting Office (GAO) to conduct a study on the national security risks of selling supercomputers with a computational capability of 2,000–7,000 MTOPS to end-users in Tier III countries and to conduct an assessment of foreign availability of supercomputers in the 2,000–7,000 MTOPS range. The provision would require the Secretary of Commerce to publish a list of military and nuclear end-users and establish procedures by which U.S. exporters may seek information on questionable end-users.

The conferees agree to a series of provisions. One provision (sec. 1211) would require that no computer with a composite theoretical performance of more than 2,000 MTOPS, or such other composite theoretical performance level established by the President, may be exported or re-exported to covered countries without a license if the sale without a license is objected to in writing by the Secretary of Commerce, the Secretary of Defense, the Secretary of Energy, the Secretary of State, or the Director of the Arms Control and Disarmament Agency. Such objection would have to be made within ten days of receiving the notice of proposed export, or re-export. The provision would allow the President, after consultation with the same department and agency heads, to change the threshold of the composite theoretical performance levels that would require the aforementioned ten day review before being exported without license to covered countries. However, the provision would delay implementation of such a threshold adjustment for 180 days after receipt by Congress of a report that justifies the change of the threshold. In addition, the provision would allow the President to add or delete countries from the list of covered countries, after consultation with the same department and agency heads, but would delay implementation of deletions from the list for 120 days after receipt by Congress of a report that justifies the deletion, and would preclude the deletion of certain countries of proliferation concern from this list. Another provision (sec. 1212) would require a report to Congress on the sales of high performance computers to Tier III countries since January 1996. The conferees also agree to a provision (sec. 1213) that would require post-shipment verification of high performance computers sold to covered countries and an annual report on the results of post-shipment verification. Lastly, the conferees direct the GAO to study the national security risks of exporting high performance computers to Tier III countries and to provide an analysis of the foreign availability of high performance computers (sec. 1214).

Subtitle C—Other Matters

Temporary use of general purpose vehicles and nonlethal military equipment under acquisition and cross servicing agreements (sec. 1222)

The House bill contained a provision (sec. 1204) that would amend section 2350(1) of title 10, United States Code, to clarify the conditions under which the Department of Defense may enter into acquisition and cross servicing agreements, and define certain provisions of the United States Munitions List to apply under those conditions in order to permit the Department of Defense to use general purpose vehicles and nonlethal military equipment in contingency military operations.

The Senate amendment contained no similar provision.

The conferees direct the Secretary of Defense to provide a report to the congressional defense committees by May 1, 1998 on the Department's use of this authority to enter acquisition and cross servicing agreements that would permit the temporary use of general purpose vehicles and nonlethal military equipment in contingency military operations.

Sense of Congress and reports regarding financial costs of enlargement of the North Atlantic Treaty Organization (sec. 1223)

The House bill contained a provision (sec. 1207) that would limit the amount spent by the United States on enlarging the membership of the North Atlantic Treaty Organization (NATO) to ten percent of the cost of expansion, or a total of \$2.0 billion, whichever is less, for fiscal years 1998 through 2010.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would include findings on the differing assessments of the costs of enlarging NATO in reports submitted to Congress by the Department of Defense, the Congressional Budget Office and the RAND Corporation, and the General Accounting Office; would express the sense of Congress that the costs associated with enlarging the Alliance will be major factors during Senate consideration of the instruments of ratification, and the congressional authorization and appropriation of funds. The provision would require the Secretary of Defense to provide to Congress by March 31, 1998, an assessment of the NATO analysis of the military requirements and the estimated financial costs to the Alliance of integrating Poland, the Czech Republic, and Hungary into NATO. In addition, the provision would require the Secretary of Defense to submit with the fiscal year 1999 budget a report on the costs of NATO enlargement reflected in the Department of Defense budget and with appropriate detail in the budget justification materials submitted to Congress.

Sense of Congress regarding expansion of the North Atlantic Treaty Organization (sec. 1224)

The Senate amendment contained a provision (sec. 1087) that would express the sense of the Senate commending the North Atlantic Treaty Organization (NATO) for its commitment to review the prospect of further enlarging the Alliance in 1999, and for its

recognition of progress made by Romania and Slovenia in meeting the guidelines for prospective membership in NATO.

The House bill contained no similar provision.

The House recesses with a technical and clarifying amendment.

Sense of the Congress relating to level of United States military personnel in the East Asia and Pacific region (sec. 1225)

The House bill contained a provision (sec. 1208) that would express the sense of Congress that the United States should maintain at least approximately 100,000 U.S. military personnel in the East Asia-Pacific region to ensure stability in that critical area.

The Senate amendment contained no similar provision.

The Senate recesses with a clarifying amendment.

Report on future military capabilities and strategy of the People's Republic of China (sec. 1226)

The House bill contained a provision (sec. 1203) that would require the Department of Defense to prepare an assessment of the future military capabilities and strategy of the People's Republic of China.

The Senate amendment contained no similar provision.

The Senate recesses with a clarifying amendment.

Sense of Congress on need for Russian openness on the Yamantau Mountain Project (sec. 1227)

The House bill contained a provision (sec. 1209) that would express the sense of Congress for the need for more openness on the part of the Russian government on the purpose of a massive underground facility at Yamantau Mountain.

The Senate amendment did not contain a similar provision.

The Senate recesses with a clarifying amendment.

The United States and Russia have been working to establish a new strategic relationship based on cooperation and openness, which has resulted in the conclusion of several far-reaching arms control agreements designed to further reduce bilateral threats and to limit the proliferation of weapons of mass destruction. Despite good faith efforts on both sides to comply with the letter and spirit of these agreements, the conferees are concerned about reports that a massive underground facility is currently under construction at Yamantau Mountain. In seeking answers to questions about the purpose of the project at Yamantau Mountain, it appears that the Russian Federation has deliberately misled the United States about the purpose of this facility on a number of occasions. The facility appears to be designed to survive a nuclear war and appears to exceed reasonable defense requirements.

The Russian Federation has offered numerous stories about the construction activities at Yamantau Mountain and the city of Mezhgorye and the purpose of such activities. In 1991 and 1992, the commandant of Beloretsk-15 and Beloretsk-16, People's Deputy Leonid A. Tskirkunov told two stories about these activities. First, he said they were building a mining and ore-processing complex. Later, he changed that explanation to one of constructing an underground food and clothing warehouse. In 1992, a former communist official in the region, M.Z. Shakiorov, alleged that the Rus-

sian Federation was building a shelter for its national leadership, in case of war.

In 1996, sources from the Russian newspaper *Segodnya* claimed that the facility was associated with a nuclear retaliatory command and control system for strategic missiles known as "Dead Hand." This claim was denied by General Igor Sergeyev, the Commander-in-Chief of the Strategic Rocket Forces. In that same year, a Deputy of the State Assembly, R. Zhukov, claimed the facility at Yamantau Mountain belonged to the "atomic scientists."

The United States has learned that Russia's 1997 budget lists the Yamantau Mountain project as a Ministry of Defense installation on a closed territory. However, First Deputy of Defense Andre Kokoshin denied Ministry of Defense involvement with the activity.

The conferees are concerned that the Russian Federation should be more forthcoming in providing the United States with more information on the Yamantau Mountain Project. The sense of Congress expressed the need for the Federation to provide the United States with a detailed explanation of the purpose of the Yamantau Mountain Project, and that the Russian Government allow the United States Delegations to visit the facility, and facilities in the southern and northern settlements located near Yamantau.

Assessment of the Cuban threat to United States national security (sec. 1228)

The Senate amendment contained a provision (sec. 1046) that would require the Department of Defense to submit a report on an assessment of the threat posed by Cuba to U.S. national security.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Report on Helsinki Joint Statement (sec. 1229)

The Senate amendment contained a provision (sec. 1045) that would require the President to submit a report to Congress on the agreement reached by the United States and the Russian Federation on future reductions in nuclear forces and the United States approach to implementing the Helsinki Joint Statement, to include verification implications.

The House bill contained no similar provision.

The House recedes.

Commendation of Mexico on free and fair elections (sec. 1230)

The Senate amendment contained a provision (sec. 3601) that would express a sense of Congress that Mexico is to be commended for its holding of free and fair elections on July 6, 1997.

The House bill contained no similar provision.

The House recedes.

Sense of Congress regarding Cambodia (sec. 1231)

The Senate amendment contained a provision (sec. 3602) that would express a sense of Congress that the conditions that existed in Cambodia prior to the actions of Hun Sen, who ousted his democratically-elected co-Prime Minister Prince Ranariddh, should be

restored, and that assistance by the United States and other donor nations to Cambodia should be suspended until that time.

The House bill contained no similar provision.

The House recesses with a clarifying amendment.

Congratulating Governor Christopher Patten of Hong Kong (sec. 1232)

The Senate amendment contained a provision (sec. 3603) that would express a sense of Congress that Christopher Patten, British governor of Hong Kong until the time the British colony was turned over to the People's Republic of China, is to be commended for his leadership of Hong Kong under British rule.

The House bill contained no similar provision.

The House recesses.

TITLE XIII—ARMS CONTROL AND RELATED MATTERS

LEGISLATIVE PROVISIONS ADOPTED

Presidential report concerning detargeting of Russian strategic missiles (sec. 1301)

The House bill contained a provision (sec. 1206) that would require the President to certify to Congress by January 1, 1998 whether the United States is able to verify by technical means that Russian intercontinental ballistic missiles (ICBMs) are not targeted at the United States; the length of time it would take for a detargeted Russian ICBM to be retargeted against a site in the United States; and whether a detargeted Russian ICBM would be automatically retargeted against a site in the United States in the event of an accidental launch.

The Senate amendment contained no similar provision.

The conferees note that the Secretary of Defense was directed in the House report on H.R. 3230 (H. Rept. 104-563), the National Defense Authorization Act for Fiscal Year 1997, to provide a report on the verifiability and military significance of the Moscow Declaration of January 14, 1994. On May 16, 1997, the Secretary submitted a report to Congress which stated that the United States could not independently verify that Russian intercontinental ballistic missiles were no longer targeted at the United States and that detargeted Russian ICBMs could be quickly retargeted within minutes. With regard to detargeted U.S. ICBMs, the report stated that these missiles could be retargeted in a short time.

The conferees believe that efforts between the United States and the Russian Federation to lower the threat of a massive nuclear exchange are laudable goals and encourage measures that would make a substantive contribution toward enhancing strategic stability. The conferees agree that it is important to have a full understanding of what particular agreements mean relative to achieving those goals. The conferees support a careful analysis of the advantages and limitations of the missile detargeting agreement. Therefore, the conferees agree to a provision that would require the President to submit a report to Congress that addresses issues regarding the detargeting of Russian strategic missiles.

Limitation on retirement or dismantlement of strategic nuclear delivery systems (sec. 1302)

The Senate amendment contained a provision (sec. 1054) that would preclude the reduction of certain strategic delivery systems unless the START II Treaty enters into force and the President waives this prohibition. The provision would also prohibit substantial early deactivation of strategic nuclear delivery systems, such as warhead removal, unless the Secretary of Defense meets certain requirements, as specified in the provision. Finally, the provision would require the Secretary of Defense to prepare a plan for the contingency sustainment of a START I force beyond 1998, should START II not enter into force by 2004.

The House bill contained no similar provision.

The House recedes with an amendment that would prohibit the obligation of funds available to the Department of Defense during fiscal year 1998 to implement an agreement that results in substantial early deactivations of U.S. strategic forces until the President makes certain determinations.

Assistance for facilities subject to inspection under the Chemical Weapons Convention (sec. 1303)

The Senate amendment contained a provision (sec. 1057) that would allow the Department of Defense (DOD), through the On-Site Inspection Agency (OSIA), to provide technical assistance to companies that are subject to routine or challenge inspection under the terms of the Chemical Weapons Convention (CWC), provided that OSIA is reimbursed for such assistance by the U.S. National Authority established under the CWC.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

The conferees note that the CWC imposes new obligations on private U.S. companies that may lead them to seek assistance from DOD in preparing their facilities for inspections to be carried out under the Convention's terms. The conferees recognize that the On-Site Inspection Agency possesses the technical experience to assist companies in this process. However, this is not part of OSIA's mission and the DOD would incur significant costs in providing such assistance. To this end, the conferees agree that DOD may not provide any CWC-related assistance to private companies unless the Secretary of Defense determines that the Department will be reimbursed for the costs incurred in providing such assistance.

The conferees note that the CWC implementing legislation passed by the Senate contains a similar provision. The conferees expect DOD to adhere to the additional requirements that govern the process by which the Department is to be reimbursed.

Transfers of authorizations for high-priority counterproliferation programs (sec. 1304)

The Senate amendment contained a provision (sec. 217) that would authorize the Secretary of Defense to transfer up to \$50.0 million from funds authorized in fiscal year 1998 for the Department of Defense to conduct counterproliferation programs, projects, and activities that are identified as a high priority by the Counterproliferation Review Committee.

The House bill contained no similar provision.
The House recedes with a technical amendment.

Advice to the President and Congress regarding the safety, security, and reliability of United States nuclear weapons stockpile (sec. 1305)

The Senate amendment contained a provision (sec. 1084) that would extend to the directors of Department of Energy nuclear weapons laboratories, the Commander in Chief of the U.S. Strategic Command, and any member of the Joint Nuclear Weapons Council protection against adverse action by employees of the Federal Government in cases where those individuals gave advice or opinions to the President or Congress relating to a safety, security, or reliability issue with the nuclear weapons stockpile.

The House bill contained no similar provision.

The House recedes with an amendment that would modify section 3159(b) of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201) to require that reports on problems with the nuclear weapons stockpile prepared by the directors of the nuclear weapons laboratories be submitted to the President, in addition to Congress, and to extend protection to the Department of Energy nuclear weapons production plant managers. Section 3159(b) would be modified to require the Department of Energy Assistant Secretary for Defense Programs to forward any such reports in their entirety, with any comments the Assistant Secretary deems appropriate, within ten days.

The conferees note that the Congress has frequently expressed its view that the stewards of the nuclear weapons stockpile must freely give their best advice on the safety and reliability of the stockpile. The conferees note that earlier legislation has provided for reports on such advice.

Reconstitution of Commission to Assess the Ballistic Missile Threat to the United States (sec. 1306)

The conferees agree to include a provision that would extend by one year the time for the Commission to Assess the Ballistic Missile Threat to the United States, established pursuant to Subtitle B of Title XIII of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201), to complete its original charter.

Sense of Congress regarding the relationship between environmental laws and United States obligations under the Chemical Weapons Convention (sec. 1307)

The Senate amendment contained a provision (sec. 1058) that would express the sense of the Senate that the President should use the authority available under existing law to ensure that the United States is able to construct and operate the facilities necessary to destroy the United States stockpile of lethal chemical agents and munitions within the time allowed by the Chemical Weapons Convention (CWC) and that the President should encourage negotiations between appropriate Federal Government officials and officials of the State and local governments concerned to at-

tempt to meet their concerns about the actions being taken to carry out the obligations of the United States under the convention.

The House bill contained no similar provision.

The House recedes with an amendment that would modify the provision to express the sense of Congress regarding obligations of the United States under the CWC and would add findings from a February 1997 General Accounting Office study regarding matters that affect the schedule and costs of the chemical demilitarization program.

Extension of counterproliferation authorities for support of United Nations Special Commission on Iraq (sec. 1308)

The House bill contained a provision (sec. 1202) that would extend the authority through fiscal year 1998 for the Department of Defense (DOD) to continue to provide support to the United Nations Special Commission on Iraq (UNSCOM).

The Senate amendment contained a similar provision (sec. 1056).

The Senate recedes with a technical amendment.

The conferees support the extension of this authority given ongoing concerns over Iraq's continued possession of weapons of mass destruction and missile delivery systems. However, the conferees are concerned that the DOD role in providing assistance has transitioned from a short-term requirement to a semi-permanent element of the effort to contain Iraq.

Pursuant to United Nations Security Council Resolutions 986 and 1111, which took effect December 10, 1996 and June 8, 1997, respectively, Iraq is authorized to sell limited quantities of oil with most of the proceeds going to pay for humanitarian needs and to support UNSCOM activities. In addition, UNSCOM activities are also funded by frozen Iraqi assets and from direct and indirect contributions from other nations. The conferees would note that the Department of Defense is the primary source of U.S. government funding for the UNSCOM mission, providing specialized equipment and services otherwise unavailable to UNSCOM.

The conferees believe that continued vigilance is warranted to ensure that Iraq does not acquire or maintain proscribed military capabilities. However, the conferees do not believe that the costs of providing specialized support to UNSCOM should be permanently borne by the Department of Defense. To this end, the conferees support efforts by the Department to seek reimbursement for expenses incurred in providing support to UNSCOM and encourage the administration to negotiate formal agreements to this effect.

Annual report on moratorium on use by Armed Forces of anti-personnel landmines (sec. 1309)

The House bill contained a provision (sec. 1055) that would require the Secretary of Defense, after consultation with the Chairman of the Joint Chiefs of Staff, to certify to Congress prior to the implementation of any moratorium by law on the use of anti-personnel landmines (APL) by U.S. Armed Forces, that any such moratorium would not adversely affect the ability of U.S. Armed Forces to defend themselves, until such time as effective substitutes exist to replace antipersonnel landmines.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would contain findings describing the actions and decisions by the President relating to U.S. policy regarding antipersonnel landmines and the status of current law; express the sense of Congress regarding implementation of a landmine moratorium and support for development of alternatives to antipersonnel landmines. The provision would also require the Secretary of Defense to submit an annual report describing the military utility of the continued U.S. deployment of antipersonnel landmines, progress in developing and fielding systems that are effective substitutes for antipersonnel landmines, their costs and an estimated timetable for developing and fielding those systems, the number and type of pure antipersonnel and mixed anti-tank mine systems, the cost and effect of the elimination of the former and the impact of their elimination on the deterrence and warfighting ability of U.S. forces, and the benefits to U.S. military and civilian personnel of an international treaty banning the production, use, transfer and stockpiling of antipersonnel landmines.

The conferees endorse the President's September 17, 1997 pledge to increase U.S. support for worldwide demining efforts.

Further, the conferees believe that international support, and increased funding, for practical efforts such as clearing landmines and providing medical assistance and rehabilitation to the wounded, could be highly effective in reducing the landmine casualty count and reclaiming land for its intended use.

TITLE XIV—COOPERATIVE THREAT REDUCTION WITH STATES OF FORMER SOVIET UNION

LEGISLATIVE PROVISIONS ADOPTED

Cooperative threat reduction (CTR) program (secs. 1401–1410)

The budget request included \$382.2 million for the Cooperative Threat Reduction (CTR) program.

The House bill contained provisions (secs. 1101–1111) that would: authorize \$284.7 million for the Cooperative Threat Reduction (CTR) program, a \$97.5 million reduction to the budget request; specify CTR programs; allocate fiscal year 1998 funding for the various CTR programs and activities; prohibit the use of CTR funds for specific purposes; prohibit the obligation of CTR funds until various reports, notifications, and certifications are submitted to the Congress; make prior year unobligated CTR balances available for three fiscal years; and make fiscal year 1998 CTR funds available for three fiscal years. The House bill would also add funds for the Department of Energy (DOE) budget to carry out nuclear reactor core conversion activities in Russia under the auspices of the CTR program.

The Senate amendment contained provisions (secs. 1009 and 1085) that would authorize the budget request of \$382.2 million; would make funds authorized in fiscal year 1997 for international border security activities available for three years; and would provide the Secretary of Defense authority to exceed the sublimits established in fiscal years 1996 and 1997 for CTR activities. The pro-

visions would also limit the obligation or expenditure of certain fiscal year 1998 funds until receipt of either a certification by the President regarding Russian progress in solving outstanding compliance issues under bilateral chemical weapons agreements, or a presidential certification that U.S. national security interests would be undermined if CTR chemical weapons destruction activities were not carried out.

The conferees agree to a series of provisions that would authorize \$382.2 million for the CTR program, establish sublimits for CTR activities and would provide the Secretary of Defense with authority to exceed the established sublimits in fiscal years 1996, 1997, and 1998 for strategic elimination activities in Russia and Ukraine. The obligation of fiscal year 1998 CTR funds is contingent upon the submission of various reports, notifications, and certifications to the Congress. The use of the word "agreements" in these provisions does not preclude the possibility that the conditions set forth can be met by the implementing agreements routinely entered into between the Department of Defense (DOD) and the CTR partner for specific projects.

The conferees reiterate their traditional support for CTR assistance in the elimination of strategic nuclear weapons systems in Russia and Ukraine. However, given the economic and financial conditions in Russia, the conferees are concerned about Russia's willingness to contribute its share of the costs of eliminating its strategic offensive arms and its declared stockpile of chemical weapons. As noted in recent U.S. resolutions of ratification of arms control agreements, the U.S. believes that Russia must contribute its share of the costs of complying with its arms control commitments.

The conferees note that the Department of Defense is seeking congressional approval of fiscal year 1998 funds for certain projects where fiscal year 1997 funds have not yet been fully obligated because of the lack of the necessary implementing agreements. As a general management principle, the conferees believe that fiscal year 1998 funds should not be obligated for those projects until the fiscal year 1997 CTR funds have been obligated.

The conferees are also concerned about recent reports that Russia has applied taxes, duties, overhead charges, and other arbitrary assessments on U.S. assistance. The conferees agree to a provision that would require the Secretary of Defense to report to the Congress on the impact of these charges on the CTR program, and what can be done to reduce or eliminate such charges.

Finally, the conferees maintain their belief that the proliferation of weapons of mass destruction, delivery systems, components, materials, and related technologies, represents a growing threat to the United States and to U.S. interests. In this regard, the conferees note that section 1424 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201) authorized \$15.0 million of CTR funds for international border security. This program would provide assistance to customs officials and border guard officials in the independent states of the former Soviet Union, such as Azerbaijan, Armenia, Georgia, the Baltic states, and other countries in Eastern Europe. The conferees understand that funds authorized for this activity have not been obligated or ex-

pending. The conferees note the continued congressional support for this activity and direct the Department to take appropriate actions to establish this activity and to obligate the funds available as soon as possible. These activities provide an early line of defense by improving the detection and interdiction of such weapons, materials, and technologies before they cross international borders.

TITLE XV—FEDERAL CHARTER FOR THE AIR FORCE SERGEANTS

LEGISLATIVE PROVISIONS ADOPTED

Federal Charter for the Air Force Sergeants Association (secs. 1501–1516)

The Senate amendment contained a series of provisions (sec. 1201–1216) that would grant a federal charter for the Air Force Sergeants Association.

The House bill contained no similar provision.

The House recedes.

The leadership of the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives recognize the current moratorium on granting of federal charters and agree that, in the future, amendments to the National Defense Authorization Bill that would grant a federal charter should not be included in a conference agreement unless favorably recommended by the committees of jurisdiction.

DIVISION B—MILITARY CONSTRUCTION AUTHORIZATIONS

OVERVIEW

The budget request for fiscal year 1998 included \$8,383,248,000 for military construction and family housing.

The House bill would authorize \$9,123,748,000 for military construction and family housing.

The Senate amendment would provide \$9,077,061,000 for this purpose.

The conferees recommend authorization of appropriations of \$9,173,748,000 for military construction and family housing, including general reductions and termination of prior year projects.

TITLE XXI—ARMY

FISCAL YEAR 1998

Overview

The House bill would authorize \$2,055,364,000 for Army military construction and family housing programs for fiscal year 1998.

The Senate amendment would authorize \$1,951,478,000 for this purpose.

The conferees recommend authorization of appropriations of \$2,010,466,000 for Army military construction and family housing for fiscal year 1998.

The conferees agree to a general reduction of \$36,600,000 in the authorization of appropriations for the Army military construction account. The general reduction is to be offset by savings from adjustments to foreign currency exchange rates for military construction projects and the support of military family housing outside the United States. The general reduction shall not cancel any military construction authorized by of this Act.

ITEMS OF SPECIAL INTEREST

Planning and design, Army

The Senate report on S. 924 (S. Rept. 105–29) directed that, of the amount authorized for appropriations for Army planning and design, not more than \$1,000,000 may be directed toward the design of the gymnasium at the United States Military Academy, New York.

The conferees direct that from the funds authorized for appropriations for planning and design, the Secretary of the Army may use funds as necessary to initiate planning and design activities for the renovation of the gymnasium at the United States Military

Academy, New York and authorize \$3,100,000 for planning and design activities for the construction of the National Ground Intelligence Center, Charlottesville, Virginia.

Improvements of military family housing, Army

The conferees recommend that, within authorized amounts for improvements of military family housing and facilities, the Secretary of the Army execute the following projects: \$9,600,000 for Whole Neighborhood Revitalization (52 units) at Fort Richardson, Alaska; \$8,300,000 for Whole Neighborhood Revitalization (32 units) at Fort Wainwright, Alaska; \$7,000,000 for Whole Neighborhood Revitalization (106 units) at Fort Riley, Kansas; \$6,000,000 for Whole Neighborhood Revitalization, Phase IV (60 units) at Fort Campbell, Kentucky; \$5,400,000 for Whole Neighborhood Revitalization (56 units) at the United States Military Academy, New York; and \$5,000,000 for Whole Neighborhood Revitalization (48 units) at Fort Belvoir, Virginia.

LEGISLATIVE PROVISIONS ADOPTED

Correction in authorized uses of funds, Fort Irwin, California (sec. 2105)

The Senate amendment contained a provision (sec. 2105) that would authorize the Secretary of the Army to construct a heliport at Fort Irwin, California, using funds authorized and appropriated in fiscal years 1995 and 1996 for construction of the National Training Center Airfield, Fort Irwin, California. The provision would make available \$20.0 million for the construction of the heliport.

The House bill contained a similar provision (sec. 2105).
The House recedes with a technical amendment.

TITLE XXII—NAVY

Overview

The House bill would authorize \$2,053,025,000 for Navy military construction and family housing programs for fiscal year 1998.

The Senate amendment would authorize \$1,898,924,000 for this purpose.

The conferees recommend authorization of appropriations of \$2,027,339,000 for Navy military construction and family housing for fiscal year 1998.

The conferees agree to a general reduction of \$17,163,000 in the authorization of appropriations for the Navy military construction account. \$8,463,000 of the reduction is to be offset by savings from favorable bids, reduction in overhead costs, and cancellation of projects due to force structure changes. \$8,700,000 of the reduction is to be offset by savings from adjustments to foreign currency exchange rates for military construction projects and the support of military family housing outside the United States. The general reduction shall not cancel any military construction authorized by title XXII of this Act.

ITEMS OF SPECIAL INTEREST

Improvements of military family housing, Navy

The conferees recommend that, within authorized amounts for improvements to military family housing and facilities, the Secretary of the Navy execute the following projects: \$4,193,000 for Whole House Revitalization (120 units) at Naval Air Warfare Center China Lake, California; \$7,700,000 for Whole House Revitalization (64 units) at Public Works Center Great Lakes, Illinois; \$9,000,000 for Whole House Revitalization (90 units) at Naval Air Warfare Center Patuxent River, Maryland; \$2,863,000 for Whole House Revitalization (37 units) at Camp Lejeune, North Carolina; and \$6,000,000 for Whole House Revitalization (83 units) at Marine Corps Air Station Cherry Point, North Carolina.

LEGISLATIVE PROVISIONS ADOPTED

Authorization of military construction project at Naval Station, Pascagoula, Mississippi, for which funds have been appropriated (sec. 2205)

The House bill contained a provision (sec. 2205) that would authorize \$4,900,000 to extend the west quaywall at Naval Station, Pascagoula, Mississippi, for which funds were previously appropriated pursuant to the Military Construction Appropriations Act for Fiscal Year 1997 (Public Law 104-196).

The Senate amendment contained a similar provision (sec. 2205).

The Senate recedes with a technical amendment.

Increase in authorization for military construction projects at Naval Station Roosevelt Roads, Puerto Rico (sec. 2206)

The Senate amendment contained a provision (sec. 2206) that would amend section 2201(b) of the Military Construction Act for Fiscal Year 1997 (Division B of Public Law 104-201) to increase the authorization for the construction of a barracks at Naval Station Roosevelt Roads, Puerto Rico from \$23.6 million to \$24.1 million. The section would also make certain conforming changes.

The House bill contained no similar provision.

The House recedes with a technical amendment.

TITLE XXIII—AIR FORCE

FISCAL YEAR 1998

Overview

The House bill would authorize \$1,810,120,000 for Air Force military construction and family housing programs for fiscal year 1998.

The Senate amendment would authorize \$1,793,949,000 for this purpose.

The conferees recommend authorization of appropriations of \$1,791,640,000 for Air Force military construction and family housing for fiscal year 1998.

The conferees agree to a general reduction of \$36,158,000 in the authorization of appropriations for the Air Force military con-

struction account. \$23,858,000 of the reduction is to be offset by savings from favorable bids, reduction in overhead costs, and cancellation of projects due to force structure changes. \$12,300,000 of the reduction is to be offset by savings from adjustments to foreign currency exchange rates for military construction projects and the support of military family housing outside the United States. The general reduction shall not cancel any military construction authorized by title XXIII of this Act.

ITEMS OF SPECIAL INTEREST

Improvements of military family housing, Air Force

The conferees recommend that, within authorized amounts for improvements of military family housing and facilities, the Secretary of the Air Force execute the following projects: \$5,000,000 for family housing improvements (72 units) at Cannon Air Force Base, New Mexico; \$4,600,000 for family housing improvements (60 units) at Tinker Air Force Base, Oklahoma; \$7,000,000 for family housing improvements (78 units) at Charleston Air Force Base, South Carolina; and \$5,000,000 for family housing improvements (50 units) at Shaw Air Force Base, South Carolina.

LEGISLATIVE PROVISIONS ADOPTED

Authorization of military construction project at McConnell Air Force Base, Kansas, for which funds have been appropriated (sec. 2305)

The House bill contained a provision (sec. 2305) that would authorize \$6,700,000 for a consolidated education center at McConnell Air Force Base, Kansas, for which funds were previously appropriated pursuant to the Military Construction Appropriations Act, 1997 (Public Law 104–196).

The Senate amendment contained a similar provision (sec. 2305).

The House recedes with a technical amendment.

TITLE XXIV—DEFENSE AGENCIES

FISCAL YEAR 1998

Overview

The House bill would authorize \$650,907,000 for Defense Agencies military construction and family housing programs for fiscal year 1998.

The Senate amendment would authorize \$717,677,000 for this purpose.

The conferees recommend authorization of appropriations of \$684,016,000 for Defense Agencies military construction and family housing for fiscal year 1998. The conferees agree to a general reduction of \$1,200,000 in the authorization of appropriations for the Defense Agencies military construction account. The general reduction is to be offset by savings from adjustments to foreign currency exchange rates for military construction projects and the support of military family housing outside the United States. The general re-

duction shall not cancel any military constructions authorized by title XXIV of this Act.

LEGISLATIVE PROVISIONS ADOPTED

Clarification of authority relating to fiscal year 1997 project at Naval Station, Pearl Harbor, Hawaii (sec. 2406)

The Senate amendment contained a provision (sec. 2406) that would amend the table in section 2401(a) of the Military Construction Authorization Act for Fiscal Year 1997 (Division B of Public Law 104–201), to change the location of the Special Operations Command military construction project from Ford Island, Pearl Harbor, Hawaii, to Naval Station, Pearl City Peninsula, Pearl Harbor, Hawaii.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Correction in authorized uses of funds, McClellan Air Force Base, California (sec. 2407)

The Senate amendment contained a provision (sec. 2407) that would authorize the Secretary of Defense to use funds appropriated and authorized in fiscal year 1995 for life saving improvements at McClellan Air Force Base Hospital. The funds would be authorized for use in the following manner: (1) \$3.7 million for the construction of an addition to the Aeromedical Clinic, Anderson Air Force Base, Guam; and (2) \$6.5 million for the construction of an occupational health clinic, Tinker Air Force Base, Oklahoma.

The House bill contained a similar provision (sec. 2406).

The House recedes with a technical amendment.

Modification of authority to carry out fiscal year 1995 projects (sec. 2408)

The Senate amendment contained a provision (sec. 2408) that would amend section 2401 of the Military Construction Authorization Act for Fiscal Year 1995, as amended. The provision would authorize an increase of funding for the construction of the Chemical Demilitarization Facilities at Pine Bluff Arsenal, Arkansas, from \$115.0 million to \$134.0 million, and at Umatilla Army Depot, from \$186.0 million to \$187.0 million, due to cost increases resulting from a delay in receiving the appropriate permits.

The House bill contained a similar provision (sec. 2407).

The House recedes with a technical amendment.

TITLE XXV—NORTH ATLANTIC TREATY ORGANIZATION SECURITY
INVESTMENT PROGRAM

FISCAL YEAR 1998

Overview

The House bill would authorize \$166,300,000 for the U.S. contribution to the NATO Security Investment Program for fiscal year 1998.

The Senate amendment would authorize \$152,600,000 for this purpose.

The conferees agree to authorize \$152,600,000 for the United States contribution to the NATO Security Investment Program.

TITLE XXVI—GUARD AND RESERVE FORCES FACILITIES

FISCAL YEAR 1998

Overview

The House bill would authorize \$327,208,000 for military construction and land acquisition for fiscal year 1998 for the Guard and Reserve components.

The Senate amendment would authorize \$507,279,000 for this purpose.

The conferees recommend authorization of appropriations of \$448,033,000 for military construction and land acquisition for fiscal year 1998. This authorization would be distributed as follows:

Army National Guard	\$113,750,000
Army Reserve	66,267,000
Naval/Marine Corps Reserve	47,329,000
Air National Guard	190,444,000
Air Force Reserve	30,243,000

The conferees agree to a general reduction of \$7,900,000 in the authorization of appropriations for the Air Force Reserve military construction account. The general reduction is to be offset by savings from favorable bids, reduction in overhead costs, and cancellation of projects due to force structure changes. The general reduction shall not cancel any military constructions authorized by title XXVI of this Act.

ITEMS OF SPECIAL INTEREST

Reserve construction project, Oakdale, Pennsylvania

The conference agreement provides \$6.0 million for phase I construction of a reserve center with an organizational maintenance shop and area maintenance support center at Oakdale, Pennsylvania to support the Army Reserve. The conferees urge the Secretary of the Army to make every effort to include the appropriate level of funding for the remaining phases of construction in the fiscal year 1999 budget request.

LEGISLATIVE PROVISIONS ADOPTED

Authorization of military construction projects for which funds have been appropriated (sec. 2602)

The House bill contained a provision (sec. 2602) that would authorize \$5,900,000 for the Army National Guard for additions and alterations to an aviation support facility at Hilo, Hawaii, and \$4,800,000 for the Naval Reserve for a bachelor enlisted quarters at Naval Air Station, New Orleans, Louisiana, for which funds were previously appropriated pursuant to the Military Construction Appropriations Act, 1997 (Public Law 104-196).

The Senate amendment contained a similar provision (sec. 2602).

The Senate recesses.

Army Reserve construction project, Camp Williams, Utah (sec. 2603)

The House bill contained a provision (sec. 2603) that would authorize the Secretary of the Army to accept financial or in-kind contributions from the State of Utah for land acquisition, site preparation, and relocation, in connection with the construction of a reserve center and organization maintenance shop in Salt Lake City, Utah.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary and the State to enter into an agreement under which the State would provide financial or in-kind contributions for land acquisition, site preparation, relocation, and other costs in connection with the construction of a reserve center and organization maintenance shop at Camp Williams, Utah.

TITLE XXVII—EXPIRATION AND EXTENSION OF AUTHORIZATIONS

LEGISLATIVE PROVISIONS ADOPTED

Extension of authorizations of certain fiscal year 1995 projects (sec. 2702)

The House bill contained a provision (sec. 2702) that would provide for selected extension of certain fiscal year 1994 military construction authorizations until October 1, 1998, or the date of the enactment of the Act authorizing funds for military construction for fiscal year 1999, whichever is later.

The Senate amendment contained a similar provision (sec. 2702).

The House recedes with a technical amendment.

Extension of authorizations of certain fiscal year 1994 projects (sec. 2703)

The Senate amendment contained a provision (sec. 2703) that would provide for selected extension of certain fiscal year 1994 military construction authorizations until October 1, 1998, or the date of the enactment of the Act authorizing funds for military construction for fiscal year 1998, whichever is later.

The House bill contained a similar provision (sec. 2703).

The House recedes with a technical amendment.

Extension of authorizations of certain fiscal year 1993 projects (sec. 2704)

The House bill contained a provision (sec. 2704) that would provide for selected extension of certain fiscal year 1993 military construction authorizations until October 1, 1998, or the date of the enactment of the Act authorizing funds for military construction for fiscal year 1999, whichever is later.

The Senate amendment contained a similar provision (sec. 2704).

The Senate recedes.

Extension of availability of funds for construction of relocatable over-the-horizon radar, Naval Station Roosevelt Roads, Puerto Rico (sec. 2706)

The House bill contained a provision (sec. 2706) that would provide for an extension of authority to construct a relocatable over-the-horizon radar at Naval Station Roosevelt Roads, Puerto Rico authorized by the Defense Appropriations Act, 1995 (Public Law 103-335) until October 1, 1998, or the date of the enactment of the Act authorizing funds for military construction for fiscal year 1999, whichever is later.

The Senate amendment contained a similar provision (sec. 2409).

The Senate recesses with a technical amendment.

TITLE XXVIII—GENERAL PROVISIONS

LEGISLATIVE PROVISIONS ADOPTED

Subtitle A—Military Construction Program and Military Family Housing Changes

Use of mobility enhancement funds for unspecified minor construction (sec. 2801)

The House bill contained a provision (sec. 2801) that would authorize the use of funds made available for mobility enhancement for unspecified minor construction. Under the provision, mobility enhancement funds could not be used for unspecified minor construction if the cost of the construction project would exceed \$1,500,000.

The Senate amendment contained no similar provision.

The Senate recesses.

Limitation on the use of operation and maintenance funds for facility repair projects (sec. 2802)

The House bill contained a provision (sec. 2802) that would clarify the definition of repair of facilities using operations and maintenance funds.

The Senate amendment contained no similar provision.

The Senate recesses.

Leasing of military family housing, United States Southern Command, Miami, Florida (sec. 2803)

The House bill contained a provision (sec. 2803) that would amend section 2828 of title 10, United States Code, to authorize the Secretary of the Army to lease not more than eight housing units in the vicinity of Miami, Florida, for key and essential personnel of United States Southern Command, as determined by the Secretary, for which the annual rental of such units would exceed the expenditure limitations established by law. This section would establish certain new expenditure limitations related to such housing units.

The Senate amendment contained no similar provision.

The Senate recesses.

Use of financial incentives provided as part of energy savings and water conservation activities (sec. 2804)

The Senate amendment contained a provision (sec. 2804) that would amend section 2865 of title 10, United States Code, to authorize the Secretary of Defense to credit financial incentives received from gas or electric utilities to an appropriation designated by the Secretary. The impact of this authority would be reflected in the Secretary's annual energy report. The provision would also include a conforming amendment.

The House bill contained a similar provision (sec. 2804).

The House recedes with a technical amendment.

Congressional notification requirements regarding use of Department of Defense housing funds for investments in nongovernmental entities (sec. 2805)

The House bill contained a provision (sec. 2805) that would provide for a 30-day notice-and-wait requirement on requests to use funds appropriated or otherwise made available under the authority of subchapter IV of chapter 169 of title 10, United States Code, as a cash contribution by the Department of Defense toward the investment cost in any project entered into under those authorities.

The Senate amendment contained no similar provision.

The Senate recedes.

Subtitle B—Real Property and Facilities Administration

Increase in ceiling for minor land acquisition projects (sec. 2811)

The House bill contained a provision (sec. 2811) that would increase the maximum limit for minor land acquisitions from \$200,000 to \$500,000.

The Senate amendment contained a similar provision (sec. 2801).

The Senate recedes.

Permanent authority regarding conveyance of utility systems (sec. 2812)

The House bill contained a provision (sec. 1423) that would authorize the secretary of a military department to convey, with or without consideration, a utility system, or part of a utility system, to a municipal, private, regional, district, or cooperative utility company or other entity. Such utility systems could include electrical generation and supply systems, water supply and treatment systems, waste water collection and treatment system, steam, hot or chilled water generation and supply systems, natural gas supply systems, and sanitary landfills or lands to be used for sanitary fills. The provision would require the secretary concerned to submit a 21-day notice-and-wait announcement, to include a report containing an economic analysis of the proposed conveyance, to Congress prior to entering into any agreement to convey a utility.

The Senate amendment contained a provision (sec. 2802) that would authorize the service secretaries to convey all or part of government utility systems located on military installations to commercial or public utilities. The utilities that may be conveyed in-

clude, but are not limited to: electrical generation and supply; water treatment; water supply; wastewater collection and treatment; steam, hot, chilled water generation and supply, and natural gas supply. The conveyance would be for fair market value, either as a lump-sum payment or as a reduction in utility charges, consistent with applicable Federal and State laws or regulations, for a period sufficient to amortize the monetary value of the utility system, including any conveyed real property. Any lump sum payment received would be credited to an appropriation available for the purchase of like utility services or to an appropriation for the construction of energy and water conservation projects or improvements to other utility systems at the installation. The provision would waive the cost comparison study between civilian and government workers required by chapter 146 of title 10, United States Code. The secretaries would not be authorized to enter an agreement to convey until 21 days after the service secretaries submit an economic analysis to the congressional defense committees.

The House recedes with an amendment that would strike the waiver of a cost comparison study between civilian and government workers required by chapter 146 of title 10, United States Code. The amendment would add the authority to convey a system for the transmission of telecommunications and would require that if the payment for the utility is in the form of reduced utility rates, that these rates be consistent with Federal and state regulations. The amendment would also make certain technical corrections.

Administrative expenses for certain real property transactions (sec. 2813)

The House bill contained a provision (sec. 2812) that would authorize the secretary of a military department to accept reimbursement from non-federal entities for the cost of certain real estate services and transactions, including real estate exchanges, grants, and licenses, done at the request of, and for the benefit of, those entities.

The Senate amendment contained a similar provision (sec. 2803).

The Senate recedes with an amendment that would delete the conveyances of real property as a transaction covered by this authority.

Screening of real property to be conveyed by the Department of Defense (sec. 2814)

The Senate amendment contained a provision (sec. 2805) that would require the Administrator of the General Services Administration (GSA) to screen for federal interest any real property whose conveyance is authorized by the Congress. The Administrator would be required to complete a screen of the property within 30 days of enactment. If the Administrator establishes a federal interest, the property would be conveyed pursuant to the Federal Property and Administrative Services Act of 1949. If it is determined that there is no other federal interest and the property is surplus to the United States Government, the Secretary of the appropriate military department would be authorized to transfer the real property to the designated recipient.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Administrator to screen the property authorized for conveyance for federal interest. Upon notification by the Administrator of the interest of a Federal agency in the property, the Secretary concerned would be required to notify the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives. The notification shall include the name of the agency, the proposed use of the property, and the estimated fair market value of the property and improvements. The Secretary shall take no further action for 180 days. If, after that period, the Congress has not rescinded the conveyance, the Secretary may convey the property as specified in the legislation. This requirement would apply to any conveyances of real property enacted in any legislation after December 31, 1997.

Disposition of proceeds from sale of Air Force Plant 78, Brigham City, Utah (sec. 2815)

The Senate amendment contained a provision (sec. 2831) that would authorize the Secretary of the Air Force to use the funds deposited by the Administrator of General Services in the account established under section 204(h)(2)(A) of the Federal Property and Administrative Services Act of 1949 from the sale of Air Force Plant 78, Brigham City, Utah, for maintenance and repair of facilities, or environmental restoration, at other industrial plants of the Air Force.

The House bill contained a similar provision (sec. 2813).
The House recedes with a technical amendment.

Fire protection and hazardous materials protection at Fort Meade, Maryland (sec. 2816)

The Senate amendment contained a provision (sec. 1047) that would require the Secretary of the Army to submit a plan to the congressional defense committees outlining requirements for fire protection services and hazardous materials protection services at Fort Meade, Maryland. The report would also outline a schedule for the implementation of the plan and a detailed list of the funding options available.

The House bill contained no similar provision.
The House recedes.

Subtitle C—Defense Base Closure and Realignment

Consideration of military installations as sites for new Federal facilities (sec. 2821)

The House bill contained a provision (sec. 2821) that would require the head of a federal agency to consult with the Secretary of Defense on the availability of federal property or facilities at military installations to be closed or realigned prior to acquiring non-federal real property.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the head of the federal agency to consult with and obtain the concurrence of the redevelopment authority regarding the availability and

suitability of a former military installation as the location for a new or replacement federal facility. This requirement would expire on July 31, 2001.

Adjustment and diversification assistance to enhance performance of military family support services by private sector sources (sec. 2822)

The Senate amendment contained a provision (sec. 368) that would amend section 2391(b)(5) of title 10, United States Code, to authorize the Secretary of Defense, through the Office of Economic Development, to make grants, conclude cooperative agreements, and supplement other federal funds to assist state or local governments in supporting the efforts of the Department of Defense in privatizing family support activities. These support services would include, but would not be limited to, privatization and outsourcing of military family housing, family housing referrals, child development centers, and library services.

The House bill contained no similar provision.

The House recesses.

Security, fire protection, and other services at property formerly associated with Red River Army Depot, Texas (sec. 2823)

The Senate amendment contained a provision (sec. 1088) that would authorize the Secretary of the Army to enter into an agreement to provide the local redevelopment authority at Red River Army Depot, fire, security, and hazardous material response services on a reimbursable basis.

The House bill contained no similar provision.

The House recesses.

Report on closure and realignment of military installations (sec. 2824)

The Senate amendment contained a provision (sec. 2832) that would require the Secretary of Defense to submit to the congressional defense committees a report on the costs and savings attributable to the four base closure rounds conducted under the base closure laws and on the need, if any, for additional base closure rounds. The report would have to be submitted not later than the fiscal year 2000 budget. The Congressional Budget Office and the Comptroller General would be required to conduct a review of the report. The provision would express a sense of Congress urging the Secretary to develop a system to quantify costs and savings attributable to the closure and realignment of military installations under the base closure process.

The House bill contained no similar provision.

The House recesses with an amendment that would include an assessment of the effect of previous base closure rounds on the military capabilities and the ability of the Armed Forces to fulfill the National Military Strategy. The amendment would also make certain technical corrections.

Sense of Senate regarding utilization of savings derived from base closure process (sec. 2825)

The Senate amendment contained a provision (sec. 2833) that would make it the sense of the Senate that the savings identified from base closure be made available to the Department of Defense solely for the purpose of modernization of weapons systems.

The House bill contained no similar provision.

The House recedes with a technical amendment.

Prohibition against conveyance of property at Long Beach Naval Station to China Ocean Shipping Company (sec. 2826)

The House bill contained a provision (sec. 2822) that would prohibit the Secretary of Defense from conveying, by sale, lease, or other method, any portion of real property to be disposed under the Defense Base Closure and Realignment Act of 1990 (part A of title XXIX of Public Law 101–510) to a state-owned shipping company. The section would also preclude the Secretary, as a condition on each conveyance of real property, from subsequently conveying the property to a state-owned shipping company. The section would provide for a reversionary interest of the United States in such property in the event of a conveyance to, or use by, a state-owned shipping company.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would specify that the Secretary of Navy may not convey property at the former Naval Station, Long Beach, California under the Defense Base Closure and Realignment Act of 1990 (part A of title XXIX of Public Law 101–510) to the China Ocean Shipping Company (COSCO) or any successor of the company. The section would also preclude the Secretary, as a condition on each conveyance of real property, from subsequently conveying that property to that company. The section would provide for a reversionary interest of the United States in such property in the event of a conveyance to, or use by, COSCO. The provision would require the Secretary of Defense and the Director of the Federal Bureau of Investigations to separately prepare a report on the potential national security implications of transferring the property to COSCO. It would also include the authority for the President to waive the restriction if it is determined that the transfer would not adversely impact national security or significantly increase the counter intelligence burden on the United States intelligence community. The waiver would be effective 30 days after the President notifies the Speaker of the House and the President of the Senate.

Subtitle D—Land Conveyances

Part I—Army Conveyances

Land conveyance, Army Reserve Center, Greensboro, Alabama (sec. 2831)

The Senate amendment contained a provision (sec. 2820) that would authorize the Secretary of the Army to convey, without consideration, to Hale County, Alabama approximately 5.17 acres located at the Army Reserve Center, Greensboro, Alabama. The prop-

erty was conveyed to the United States by warranty deed dated September 12, 1988, for the purpose of constructing a reserve center which is no longer required.

The House bill amendment contained no similar provision.

The House recesses.

Land Conveyance, James T. Coker Army Reserve Center, Durant, Oklahoma (sec. 2832)

The House bill contained a provision (sec. 2831) that would authorize the Secretary of the Army to convey, without consideration, a parcel of real property with improvements in Durant, Oklahoma to Big Five Community Services, Incorporated. The property is to be used for educational purposes. The cost of any surveys necessary for the conveyance shall be borne by Big Five Community Services, Incorporated.

The Senate amendment contained no similar provision.

The Senate recesses.

Land conveyance, Gibson Army Reserve Center, Chicago, Illinois (sec. 2833)

The House bill contained a provision (sec. 2838) that would authorize the Secretary of the Army to convey, without consideration, a parcel of real property with improvements in Chicago, Illinois, to the Lawndale Business and Local Development Corporation. The cost of any surveys necessary for the conveyance shall be borne by the Lawndale Business and Local Development.

The Senate amendment contained no similar provision.

The Senate recesses with an amendment that would make the conveyance subject to the condition that the corporation use the property conveyed for economic development purposes.

Land conveyance, Fort A.P. Hill, Virginia (sec. 2834)

The House bill contained a provision (sec. 2832) that would authorize the Secretary of the Army to convey, without consideration, a parcel of unimproved real property at Fort A.P. Hill, Virginia, to Caroline County, Virginia. The property is to be used for a waste transfer station. The costs of any surveys necessary for the conveyance shall be borne by the County.

The Senate amendment contained no similar provision.

The Senate recesses with a clarifying amendment that would specify that the County shall permit the Army, at no cost, to dispose of not less than 1,800 tons of solid waste annually at the facility established on the conveyed property.

Land conveyances, Fort Dix, New Jersey (sec. 2835)

The House bill contained a provision (sec. 2839) that would authorize the Secretary of the Army to convey, without consideration, a parcel of real property with improvements at Fort Dix, New Jersey, to the Borough of Wrightstown, New Jersey and a parcel with improvements to the Board of Education of New Hanover, New Jersey. The property is to be used for educational and economic purposes. The cost of any surveys necessary for the conveyance shall be borne by the Borough.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would include a reversionary clause in the event the Secretary determines that the conveyed property is not being utilized in accordance with the conditions and purposes of the conveyance.

Land conveyances, Fort Bragg, North Carolina (sec. 2836)

The House bill contained a provision (sec. 2837) that would authorize the Secretary of the Army to convey, without consideration, a parcel of unimproved real property at Fort Bragg, North Carolina, to the Town of Spring Lake, North Carolina. The property is to be used for improved access to a waste treatment facility and to permit economic development. The cost of any surveys necessary for the conveyance shall be borne by the Town.

The Senate amendment contained a provision (sec. 2823) that would authorize the conveyance, without consideration, of 157 acres of land at Fort Bragg, North Carolina to Harnett County, North Carolina for educational and economic development purposes. The provision would also authorize the conveyance, at fair market value, of a parcel of land in the amount of 137 acres at Fort Bragg, North Carolina to Harnett County. The provisions would explicitly transfer any environmental liability from the United States government to the county.

The conference agreement includes both provisions. The Senate recedes with an amendment that would require the real property conveyed to the Town of Spring Lake be subject to the reversionary clause contained in the Senate provision. The House recedes with an amendment that would strike the transfer of liability from the United States government to the county. The conferees understand that this transfer is not required.

Land conveyance, Hawthorne Army Ammunition Depot, Mineral County, Nevada (sec. 2837)

The Senate amendment contained a provision (sec. 2813) that would authorize the Secretary of the Army to convey, without reimbursement, to Mineral County, Nevada, approximately 33.1 acres of real property and improvements that constitute the Schweer Drive Housing Area. The conveyance would be contingent upon the County's acceptance of the property subject to such easements or rights of way as the Secretary considers appropriate. The provision would also require the County to reimburse the United States in the event the property is sold within 10 years. The reimbursement would be equal to the lesser of the amount of the sale of the property sold, or the fair market value of the property sold, excluding the value of any improvements made by the County.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

Expansion of land conveyance authority, Indiana Army Ammunition Plant, Charlestown, Indiana (sec. 2838)

The House bill contained a provision (sec. 2833) that would amend section 2858 of the Military Construction Authorization Act for Fiscal Year 1996 (division B of Public Law 104-106) to provide for the additional conveyance of 500 acres of real property to the State of Indiana.

The Senate amendment contained no similar provision.
The Senate recesses.

Modification of land conveyance, Lompoc, California (sec. 2839)

The House bill contained a provision (sec. 2834) that would modify the purpose of the conveyance authorized by section 834(b)(1) of the Military Construction Authorization Act, 1985 (Public Law 98-407). The modification would permit the real property to be conveyed by the Secretary of the Army to the City of Lompoc, California, to be used for educational or recreational purposes.

The Senate amendment contained no similar provision.
The Senate recesses.

Modification of land conveyance, Rocky Mountain Arsenal, Colorado (sec. 2840)

The House bill contained a provision (sec. 2835) that would permit the Administrator of General Services to enter into a negotiated sale of 815 acres of real property at Rocky Mountain Arsenal, Colorado, to Commerce City, Colorado.

The Senate amendment contained a provision (sec. 2819) that would authorize the conveyance of the 815 acres at fair market value, as determined jointly by the Administrator and Commerce City.

The House recesses with a clarifying amendment.

Correction of land conveyance authority, Army Reserve Center, Anderson, South Carolina (sec. 2841)

The House bill contained a provision (sec. 2836) that would correct the name of the conveyee in the conveyance authorized by section 2824 of the Military Construction Authorization Act for Fiscal Year 1997 (division B of Public Law 104-201). The correction would permit the conveyance to be made by the Secretary of the Army to the Board of Education, Anderson County, South Carolina.

The Senate amendment contained a similar provision (sec. 2812).

The House recesses with a technical amendment.

Part II—Navy Conveyances

Land conveyance, Topsham Annex, Naval Air Station, Brunswick, Maine (sec. 2851)

The Senate amendment contained a provision (sec. 2815) that would authorize the Secretary of the Navy to convey, without consideration, to the Maine School Administrative District No. 75, Topsham, Maine, a parcel of real property, consisting of approximately 40 acres located at the Topsham Annex, Naval Air Station, Brunswick, Maine. The provision would require the district to use the conveyed property for educational purposes. It would further provide for an interim lease of the property until the property is conveyed. As compensation for the lease, the district would provide security and maintenance.

The House bill contained no similar provision.
The House recesses with a clarifying amendment.

Land conveyance, Naval Weapons Industrial Reserve Plant No. 464, Oyster Bay, New York (sec. 2852)

The Senate amendment contained a provision (sec. 2816) that would authorize the Secretary of the Navy to convey, without consideration, to the County of Nassau, New York, all right, title, and interest of the United States in and to a parcel of real property consisting of approximately 110 acres and improvements comprising the Naval Weapons, Industrial Reserve Plant No. 464, Oyster Bay, New York. The purpose of the conveyance would be for economic development and would include equipment, fixtures, and other personal property located on the parcel as the Secretary determines not to be required by the Navy. The provision would authorize the Navy to enter into an interim lease with the County. The County would provide security services, fire protection, and maintenance work, as specified by the Secretary. The provision would specify that, if the Secretary determines within a 5-year period after the conveyance that the property is not used in accordance with the condition of the conveyance, the property would revert to the United States.

The House amendment contained no similar provision.

The House recedes with a clarifying amendment.

Correction of lease authority, Naval Air Station, Meridian, Mississippi (sec. 2853)

The House bill contained a provision (sec. 2851) that would change the name of the conveyee in the conveyance authorized by section 2837 of the Military Construction Authorization Act for Fiscal Year 1997 (division B of Public Law 104-201). The correction would permit the conveyance to be made by the Secretary of the Navy to the County of Lauderdale, Mississippi.

The Senate amendment contained no similar provision.

The Senate recedes.

Part III—Air Force Conveyances

Land transfer, Eglin Air Force Base, Florida (sec. 2861)

The House bill contained a provision (sec. 2861) that would authorize the Secretary of Transportation to transfer, without reimbursement, to the administrative jurisdiction of the Secretary of the Air Force a parcel of real property with improvements at Cape San Blas, Gulf County, Florida, previously withdrawn for use as the location of a lighthouse. The Secretary of the Air Force would incorporate the property as part of Eglin Air Force Base, Florida.

The Senate amendment contained no similar provision.

The Senate recedes.

Land conveyance, March Air Force Base, California (sec. 2862)

The House bill contained a provision (sec. 2863) that would authorize the Secretary of the Air Force to convey a parcel of real property at March Air Force Base, California, to Air Force Village West, Incorporated, of Riverside, California. As consideration for the parcel to be conveyed, the Corporation shall pay to the United States an amount equal to the fair market value of the real property, as determined by the Secretary. The section would also make

technical modifications to section 835 of the Military Construction Authorization Act, 1985 (Public Law 98–407).

The Senate amendment contained no similar provision.

The Senate recesses with a technical amendment.

Land conveyance, Hancock Field, Syracuse, New York (sec. 2864)

The Senate amendment contained a provision (sec. 2821) that would authorize the conveyance, without consideration, of approximately 15 acres of excess real property located at Hancock Field, Syracuse, New York. The provision would include a reversionary clause in the event the property is not used for economic redevelopment.

The House bill contained no similar provision.

The House recesses with a technical amendment.

Land conveyance, Havre Air Force Station, Montana, and Havre Training Site, Montana (sec. 2865)

The Senate amendment contained a provision (sec. 2822) that would authorize the Secretary of the Air Force to convey, without consideration, two parcels of real property in the amount of 94 acres comprising the former Havre Air Force Station and the former Havre Training Site, Montana. The purpose of the conveyance would be for housing and economic development.

The House bill contained no similar provision.

The House recesses.

Land conveyance, Charleston Family Housing Complex, Bangor, Maine (sec. 2866)

The Senate amendment contained a provision (sec. 2817) that would authorize the Secretary of the Air Force to convey, without consideration, to the City of Bangor, Maine, a parcel of real property consisting of approximately 19 acres and improvements located in Bangor, Maine and known as the Charleston Family Housing Complex. The purpose of the conveyance would be for economic development. The provision would require the city to reimburse the United States in the event the property is sold within 10 years. The reimbursement would be equal to the lesser of the amount of the sale of the property sold, or, the fair market value of the property sold excluding the value of any improvements made by the city.

The House bill contained no similar provision.

The House recesses.

Study of land exchange options, Shaw Air Force Base, South Carolina (sec. 2867)

The House bill contained a provision (sec. 2862) that would amend section 2874 of the Military Construction Authorization Act for Fiscal Year 1996 (division B of Public Law 104–106) to require the Secretary of the Air Force to conduct a study to identify real property suitable for exchange to affect the land exchange at Shaw Air Force Base, South Carolina, authorized pursuant to that law.

The Senate amendment contained no similar provision.

The Senate recesses.

Subtitle E—Other Matters

Repeal of requirement to operate Naval Academy Dairy Farm (sec. 2871)

The House bill contained a provision (sec. 2881) that would repeal section 810 of the Military Construction Authorization Act of 1968 (Public Law 90–110), which prohibits the Department of the Navy from taking any action to close, dispose, or phase out the operation of the Naval Academy Dairy Farm.

The Senate amendment contained a similar provision (sec. 1066).

The Senate recedes with a clarifying amendment.

Long-term lease of property, Naples, Italy (sec. 2872)

The House bill contained a provision (sec. 2882) that would permit the Secretary of the Navy to enter into a long-term lease, not to exceed twenty years, for structures and real property relating to a regional hospital complex in Naples, Italy, that the Secretary determines to be necessary for purposes of the Naples Improvements Initiative.

The Senate amendment contained a similar provision (sec. 2814).

The Senate recedes.

Designation of military family housing at Lackland Air Force Base, Texas, in honor of Frank Tejeda, a former Member of the House of Representatives (sec. 2873)

The House bill contained a provision (sec. 2883) that would authorize the Secretary of the Air Force to designate military family housing developments to be constructed at Lackland Air Force Base, Texas, in honor of the late Frank Tejeda, a Representative in Congress from the State of Texas.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

Fiber-optics based telecommunications linkage of military installations (sec. 2874)

The House bill contained a provision (sec. 1502) that would require the Department of Defense to install a fiber-optics based telecommunications network to link the military installations in a metropolitan area.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would provide sufficient time for the competition of such a contract and would allow the Department to tailor the network to its requirements. The conferees note that the Secretary could build on and expand ongoing Department of the Navy initiatives to meet these requirements. The conferees also encourage the Secretary to have a signed contract to implement this provision by December 1, 1998.

LEGISLATIVE PROVISIONS NOT ADOPTED

Modification of authority for disposal of certain real property, Fort Belvoir, Virginia

The Senate amendment contained a provision (sec. 2811) that would repeal section 2821 of the Military Construction Act for Fiscal Years 1990 and 1991, as amended by section 2854 of the Military Construction Authorization Act for Fiscal Year 1996. These provisions would have authorized the conveyance of the parcel of real property, including improvements thereon, at Fort Belvoir, Virginia, consisting of approximately 820 acres known as the Engineer Proving Ground.

The House bill contained no similar provision.

The Senate recesses.

The conferees direct the Secretary of the Army to provide to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a report on the status of the conveyance and redevelopment of the Engineer Proving Ground. The report shall be coordinated with the appropriate officials in Fairfax County and shall be submitted six months after enactment of this Act and annually thereafter until the redevelopment is completed.

TITLE XXIX—SIKES ACT IMPROVEMENT

Sikes Act Improvement (secs. 2901–2914)

The House bill contained several provisions (secs. 2901–2914) that would amend and reauthorize the Sikes Act, which was last amended in 1986, and had an authorization that expired in 1993. In its current form, the Sikes Act authorizes the Secretary of Defense to enter into cooperative plans with the Secretary of Interior and the appropriate State fish and wildlife agencies. The House provisions would require the secretary of each military department to develop a more comprehensive integrated natural resources plan for each military installation. Each plan must be consistent with the use of military lands to ensure military preparedness, and cannot result in any net loss in the capability to support the military mission.

The Senate amendment (secs. 381–392) and the House bill (secs. 2901–2914) contained similar provisions. However, the Senate amendment (sec. 383) would require the completion of integrated natural resources management plans three years after the date of the initial report to Congress, rather than the two years provided for in the House bill (sec. 2905). There is also a difference between the House bill (sec. 2911) and the Senate amendment (sec. 386) reference to the funds underlying cooperative agreements. The House bill provides for the use of “funds appropriated” and the Senate amendment provides for the use of “funds made available” for the cost of goods and services covered under cooperative agreements.

The House recesses with an amendment that would require the completion of integrated natural resources management plans three years following the submission of the initial report to Congress. The provision would specify that goods and services provided

under a cooperative agreement would be paid for with “funds appropriated.” The provision would also include minor legislative drafting modifications.

The conferees note that the reauthorization of the Sikes Act would directly affect the nearly 25 million acres managed by the Department of Defense. The conferees agree that reauthorization of the Sikes Act is not intended to expand the management authority of the U.S. Fish and Wildlife Service or the State fish and wildlife agencies in relation to military lands. Moreover, it is expected that integrated natural resources management plans shall be prepared to facilitate installation commanders’ conservation and rehabilitation efforts that support the use of military lands for readiness and training of the armed forces.

The conferees note that the military departments will have completed approximately 60 percent of the required integrated natural resources management plans by October 1, 1997. The conferees understand that most of these plans have been prepared consistent with the criteria established under this provision. In addition, the conferees note the significant investment made by the military departments in the completion of current integrated natural resources management plans. The conferees intend that the plans that meet the criteria established under this provision should not be subject to renegotiation and reaccomplishment.

Finally, the conferees understand that approximately \$5.0 million is programmed for the preparation of integrated natural resources management plans on an annual basis. The conferees have been assured by the Department of Defense that the reauthorization of the Sikes Act will not result in increased funds for the plans. Based on the Department’s assurances as to the programmed funding level, the conferees expect that each of the military departments will have sufficient funds in fiscal year 1998 and subsequent fiscal years to complete plans by the statutory deadline.

DIVISION C—DEPARTMENT OF ENERGY NATIONAL SECURITY AUTHORIZATIONS AND OTHER AUTHORIZATIONS

TITLE XXXI—DEPARTMENT OF ENERGY NATIONAL SECURITY PROGRAMS

Overview

The budget request for fiscal year 1998 contained an authorization of \$13,597.6 million for the Defense Nuclear Activities. The House bill would authorize \$10,951.9 million. The Senate amendment would authorize \$11,204.4 million. The conferees recommended an authorization of \$11,502.8 million. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

LEGISLATIVE PROVISIONS ADOPTED

Subtitle A—National Security Programs Authorizations

Weapons activities (sec. 3101)

The House bill contained a provision (sec. 3101) that would authorize \$4.0 billion for the Department of Energy (DOE) weapons activities.

The Senate amendment contained a similar provision (sec. 3101) that would authorize \$4.0 billion for DOE weapons activities.

The Senate recedes with an amendment that would authorize \$4.1 billion for this account for the following activities: \$1.9 billion for stockpile stewardship; \$2.0 billion for stockpile management; and \$250.0 million for program direction. The authorization includes a general reduction of \$22.6 million. The conferees recommend a reduction of \$53.5 million to the budget request for program direction. The conferees note that recent independent assessments from the Institute for Defense Analysis and the General Accounting Office have identified a number of recommendations regarding how best to streamline the management structure within the Office of Defense Programs. The conferees believe that implementing such recommendations would reduce management costs and increase the effectiveness of the Department's weapons programs.

The budget request included \$15.7 million for the incremental component of the construction upgrades at the Chemistry and Metallurgy Research Facility at Los Alamos National Laboratory. Because of cost overruns and pending the outcome of the Department's ongoing review into this project, the conferees recommend \$5.0 million for this activity. The conferees adopt this position, without prejudice.

The conferees recommend \$217.0 million, the amount requested, for the inertial confinement fusion operating program. Within the total amount authorized for this activity, the conferees recommend that \$26.1 million be made available for the University of Rochester's Laboratory for Laser Energetics, an increase of \$2.5 million.

The conferees recommend an additional \$10.0 million for a surety program to improve waste minimization efforts related to the Department's stockpile management program and an additional \$8.0 million to continue tritium facility upgrades initiated in fiscal year 1997 at the Savannah River Site.

The conferees recommend \$65.3 million for technology transfer and education. Of this amount, the conferees recommend that \$10.0 million be made available for the American Textiles Partnership program.

Environmental restoration and waste management (sec. 3102)

The House bill contained a provision (sec. 3102) that would authorize \$5.3 billion for Department of Energy (DOE) environmental restoration and waste management activities.

The Senate amendment contained a similar provision (sec. 3102) that would authorize \$5.1 billion for DOE environmental restoration and waste management activities. The Senate amendment

authorized \$274.7 million for Defense Environmental Management Privatization projects in a separate provision.

The Senate recedes with an amendment that would authorize \$5.5 billion for Environmental Management activities, including: \$1.0 billion for environmental restoration; \$1.6 billion for waste management; \$220.0 million for technology development; \$1.3 billion for nuclear material and facility stabilization; \$20.0 million for policy and management; \$55.0 million for the Environmental Management science program; \$875.0 million for closure projects; \$345.8 million for program direction; and \$224.7 million for defense Environmental Management privatization. The authorization includes a general reduction of \$50.0 million.

The conferees recommend an additional \$10.0 million for environmental restoration. Of this increase, the conferees recommend an additional \$5.0 million to accelerate closure of the Hanford 100 Area in Richland, Washington.

The conferees recommend an additional \$35.3 million for waste management. Of the funds available for waste management, the conferees recommend an additional \$12.0 million for the Savannah River site to increase production at the Defense Waste Processing Facility (DWPF) and \$8.2 million to support high-level waste research and development work at the Idaho National Engineering and Environmental Laboratory. The conferees direct the Department to make available an additional \$25.0 million to allow the consolidated incineration facility to operate at full capacity, as originally intended, to assure that the DWPF operates at its designed capacity, and that the site has sufficient funds to accelerate the disposal of transuranic waste.

The conferees urge the Department to assess the cost savings that may be available if it is able to develop a successful spent fuel or high level waste storage cask system using high density concrete. Of the waste management funds authorized in section 3102 of this title, no more than \$3.0 million may be made available for this demonstration project.

The conferees recommend an increase of \$58.0 million to nuclear material and facility stabilization to be allocated as follows: \$47.0 million for nuclear material stabilization operations at the F- and H-canyon facilities and \$11.0 million for the National Spent Fuel Program.

The conferees recommend \$220.0 million for technology development, a \$37.9 million reduction. This reduction reflects the Department's proposed reduction to the Technology Deployment Initiative and greater cost-sharing with technology user organizations within the Department. The conferees are supportive of the Office of Science and Technology's efforts to move technologies from the late stages of research and development into use. The conferees believe that Environmental Management line organizations should place a greater emphasis on innovative technical approaches when executing records of decision, meeting tri-party agreement milestones, or selecting clean up and waste management approaches. The Department has a poor record in deploying DOE-developed cleanup and waste management technologies. The conferees believe that senior management attention will be required if the Department is to benefit from those technologies that have already been

developed by the Department, but have not been applied at DOE facilities.

The conferees recommend \$55.0 million for the Environmental Management science program, an increase of \$5.0 million.

The conferees recommend \$20.0 million for the Office of Policy, a \$3.1 million reduction.

The conferees recommend \$345.8 million for program direction, a \$42.5 million reduction.

The conferees recommend \$875.0 million for the project closure account, an increase of \$860.0 million. The increase to this account has been derived from the following sources: a transfer of \$743.6 million from environmental restoration, a transfer of \$45.2 million from the operations and maintenance account within the stockpile management program, and an additional \$71.2 million. The conferees recommend allocating closure project account funds as follows: \$648.4 million for the Rocky Flats Environmental Technology Site and \$226.6 million for the Fernald Environmental Management Project. The conferees strongly support the efforts of the adjacent communities to close these two sites within the next ten years.

The transfer of \$45.2 million from stockpile management represents the costs associated with the provision of security at the Rocky Flats Site and the Fernald Site. The conferees are aware that this transfer of funds will also require the Office of Environmental Management to accept custodial responsibility of weapons grade special nuclear material, which constitutes a change in current practice.

Other defense activities (sec. 3103)

The budget request included \$1.606 billion for Other Defense Activities of the Department of Energy (DOE) for fiscal year 1998.

The House bill contained a provision (sec. 3103) that would authorize \$1.5 billion for Other Defense Activities, a reduction of \$93.4 million to the budget request.

The Senate amendment contained a provision (sec. 3103) that would authorize \$1.6 billion for Other Defense Activities, an increase of \$28.0 million to the budget request.

The conferees agree to a provision that would authorize \$1.636 billion for Other Defense Activities.

Verification and control technology

The conferees agree to authorize \$478.2 million for verification and control technology.

The conferees are concerned by recent reports that a substantial portion of the aid intended for Russian scientists under the Initiatives for Proliferation Prevention (IPP) program is being siphoned off by duties, regional taxes, overhead charges and other assessments by Russian entities. The conferees direct the Secretary of Energy to report to the Congress by March 31, 1998 on the impact of these charges on the program and to provide detailed recommendations on how these problems can be corrected.

To close gaps identified in DOE's nuclear smuggling program, the conferees agree to provide \$16.0 million for nuclear smuggling activities, a \$3.0 million increase, from funds available in verification and control technology, to enhance further and accelerate the

Department's nuclear forensic analytical capability. The conferees have been supportive of efforts by the Department of Defense (DOD) and DOE to respond to any domestic terrorist use of weapons of mass destruction. From the funds authorized for verification and control technology, \$2.0 million is available for training and related activities to prepare federal, state, and local first responders to work effectively as part of the domestic emergency response program. The conferees understand that nuclear training curriculum for local first responders has been prepared by the DOE defense programs, and that this program is coordinated with the DOD, the agency responsible for preparing the chemical and biological training and exercise programs. In order to maximize the number of participants in the exercises, and to take advantage of cost savings, the conferees recommend that DOE continue to coordinate the activities of its exercises with the executive agent and program manager for the DOD domestic emergency preparedness program in order to integrate mixed scenarios of chemical, biological and nuclear incidents in the exercises.

The Secretary of Energy was directed in the statement of managers accompanying the conference report for the National Defense Authorization Act for Fiscal Year 1997 (Public Law 102-201) to provide an annual evaluation to the Congress of the expected powers and expected limits that define the extent to which science and technology can aid the nonproliferation effort. The conferees direct the Secretary to submit the first annual report on February 1, 1998. The conferees continue to believe that advances in science and technology will improve the ability to detect the presence, transportation, and use of weapons of mass destruction. The ability of such advanced technologies to be developed and used may, however, be impeded or otherwise affected by regional powers and interests. The evaluation to be conducted should include an analysis of regional and local situations, requirements, and power structures that can either aid or deter deployment of new technology for nonproliferation efforts.

International nuclear safety

The conferees agree to provide \$47.0 million for nuclear energy, including \$35.0 million for international nuclear safety activities.

The conferees were recently notified that the DOE fiscal year 1999 funding for these activities will not be included in DOE national security programs. The conferees appreciate the administration's intent to comply with congressional guidance and to seek funding for these activities from sources other than the defense accounts.

Naval reactors

The conferees recommend an increase of \$44.5 million to the budget request for naval reactors to expedite decommissioning and decontamination activities at surplus training facilities.

The conferees consider the naval reactors program to be a critical defense activity. The conferees are concerned that the DOE has demonstrated a pattern of consistently underestimating funding requirements for this program in budget requests. The conferees

strongly encourage the Department to request adequate funding for this program in future fiscal year budget requests to allow this program to accomplish the stated objectives in an efficient manner.

Declassification productivity initiative

The conferees continue to support the Declassification Productivity Initiative. The conferees are concerned that the Department of Energy lacks both the appropriate technical personnel and integrating components required to carry out successfully this program. Recognizing the complexities surrounding the development of a computer-aided system to improve the efficiency and security of the declassification process, the conferees are concerned that the limited funds provided to this program are being allocated among numerous laboratories, universities, and industry without clear technical direction or coordination by the Department. The conferees direct the Director of the Office of Declassification to begin to develop a management and integration strategy to coordinate and streamline the various initiatives carried out within the Declassification Productivity Initiative. In addition, the conferees strongly discourage any shifting of funds from the Declassification Productivity Initiative to other declassification activities.

Environment, safety and health

The conferees recommend \$94.0 million for environment, safety and health (ES&H) activities, an increase of \$40.0 million to the budget request. Of the amount authorized, the conferees recommend \$20.0 million for ES&H program direction. The conferees believe that costs associated with implementing and conducting oversight of the ES&H program should be reflected in the same programmatic activity.

Independent cost assessment

The conferees recommend \$15.0 million to be used by the Department of Energy to provide for external reviews of the Department's individual construction and privatization projects. The conferees direct the Secretary of Energy to provide the congressional defense committees with all reports generated in the process of conducting this assessment, and to consult with the committees regarding all aspects of this review, including contractor selection.

Subtitle B—Recurring General Provisions

Limits on general plant projects (sec. 3122)

The House bill contained a provision (sec. 3122) that would authorize the Secretary of Energy to carry out any construction project authorized under general plant projects if the total estimated cost would not exceed \$2.0 million. The provision would require the Secretary to submit a report to Congress if the cost of the project is revised to exceed \$2.0 million. The report would fully explain the reasons for the cost variation.

The Senate amendment contained a similar provision (sec. 3122) that would authorize a construction project as a general plant project if the current estimated cost for that project would exceed \$5.0 million. If the Secretary of Energy determines that the

estimated cost of any project will exceed \$5.0 million, the congressional defense committees must be notified of the reasons for the cost variation.

The House recesses.

The conferees note that the report required by section 3122 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104–201) to support increasing the threshold for general plant projects was submitted late. The conferees urge the Department to submit reports on or before the required due dates in the future.

Fund transfer authority (sec. 3124)

The House bill contained a provision (sec. 3124) that would permit funds authorized by the bill to be transferred to other agencies of the government for performance of work for which the funds were authorized and appropriated. The provision would permit the merger of such funds with the authorizations of the agency to which they are transferred. This provision would also limit, to no more than five percent, the amount of such funds that may be transferred between authorization accounts in the Department of Energy that were authorized pursuant to this act.

The Senate amendment contained a similar provision (sec. 3124).

The Senate recesses with a clarifying amendment.

Authority for conceptual and construction design (sec. 3125)

The House bill contained a provision (sec. 3125) that would limit the Secretary of Energy's authority to request construction funding until the Secretary certifies that a conceptual design has been completed, except in the case of emergencies. This limitation would apply to construction projects with a total estimated cost in excess of \$2.0 million. If the estimated cost of the design exceeds \$3.0 million, the provision would require the Secretary to request funds for the design before requesting funds for the construction project. The provision would also require the Secretary to submit to Congress a report on each conceptual design completed under this paragraph.

The Senate amendment contained a similar provision (sec. 3125) that would apply to construction projects with a total estimated cost in excess of \$5.0 million.

The Senate recesses with an amendment that would limit the Secretary's authority to request construction funding for projects with an estimated cost in excess of \$5.0 million until the Secretary has certified a conceptual design has been completed, except in emergencies.

Availability of funds (sec. 3128)

The Senate amendment contained a provision (sec. 3128) that would authorize amounts appropriated for operating expenses or for plant and capital equipment to remain available until expended.

The House bill contained no similar provision.

The House recesses with an amendment that would direct that funds authorized to be appropriated for program direction activities

in fiscal year 1998 would be available to be expended until the end of fiscal year 2000.

Transfers of defense environmental management funds (sec. 3129)

The House bill contained a provision (sec. 3128) that would provide the manager of each field office of the Department of Energy (DOE) with the limited authority to transfer fiscal year 1998 defense environmental management funds from one program or project under the jurisdiction of the office to another such program or project, once in the fiscal year.

The Senate amendment contained a similar provision (sec. 3137) that would extend and make permanent the limited authority to transfer defense environmental management funds originally authorized in section 3139 of the National Defense Authorization Act for Fiscal Year 1997.

The Senate recedes with a clarifying amendment.

Subtitle C—Program Authorizations, Restrictions, and Limitations

Memorandum of understanding for use of national laboratories for Ballistic Missile Defenses programs (sec. 3131)

The House bill contained a provision (sec. 3131) that would establish a program within the Department of Energy weapons laboratories for the purpose of assisting the Department of Defense in the testing and development of a ballistic missile defense program.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would direct the Secretary of Energy and the Secretary of Defense to enter into a memorandum of understanding as to how the Department of Energy national laboratories could be utilized more fully to support the ballistic missile defense program.

Defense environmental management privatization projects (sec. 3132)

The Senate amendment contained a provision (sec. 3131) that would establish criteria for the initiation of Department of Energy Defense Environmental Management Privatization contracts.

The provision would prohibit the Department from incurring any contractual obligations for a privatization contract until 30 days after the date on which the Department submits to the congressional defense committees a report on that privatization project that describes the Department's anticipated contractual commitments for such project, the cost of the proposed project versus the baseline cost, any assumptions underlying cost savings estimates, and a discussion of the Department's plans to maintain financial and programmatic accountability under such contracts.

The provision would direct the Department to report on the Secretary's ability to enter into privatization contracts in the absence of sufficient appropriations to meet obligations under such contracts.

The House bill contained a provision (sec. 3145) that would place similar restrictions on the tank waste remediation system project.

The House recedes with an amendment that would provide the Secretary discretionary authority to use a privatization contract to carry out a project for which funds are authorized pursuant to section 3102 of this Act. The provision would also require the Department of Energy to provide a detailed justification and analysis of the comparative costs to the United States of constructing two nuclear waste vitrification plants under the tank waste remediation system project, should the Secretary of Energy choose to do so.

The conferees direct the Secretary of Energy to examine and report to the congressional defense committees on the Department's authority to create an escrow account to offset any reasonably foreseeable costs to the government that may arise if any privatization contracts are canceled or terminated for the convenience of the government. The report should also recommend any legislation needed to eliminate any potential conflicts arising from the anti-deficiency provisions found in section 3191 of title 31, United States Code.

International cooperative stockpile stewardship programs (sec. 3133)

The Senate amendment contained a provision (sec. 3132) that would prohibit the Department of Energy (DOE) from pursuing cooperative stockpile stewardship and management activities with certain nations.

The House bill contained no similar provision.

The House recedes.

The conferees remain concerned that initiation of an ongoing international cooperative stockpile stewardship and management program could have unintended detrimental effects on U.S. national security interests. This provision would extend for one year the prohibition established by section 3138 of the National Defense Authorization Act for Fiscal Year 1997. The intent of this provision is to prohibit establishment of a permanent program of international cooperative stockpile stewardship, with an exception for activities that might be undertaken with the United Kingdom and France. The provision would not apply to activities carried out by DOE under cooperative threat reduction programs with nations of the former Soviet Union, or to the Department of Energy materials protection, control, and accounting or the initiatives for proliferation prevention programs. The prohibition would apply to all other DOE activities, including but not limited to laboratory directed research and development funds.

The conferees do not intend this prohibition to prevent the President's ability to respond to developments which might threaten the national security of the United States. The conferees believe that the President has sufficient flexibility to address such specific incidents should they arise and the provision would not prohibit such action.

Modernization of enduring nuclear weapons complex (sec. 3134)

The House bill contained a provision (sec. 3101) that would provide an increase of \$85.0 million for the Department of Energy's (DOE) stockpile management program to be used for weapons production plants infrastructure upgrades and the Stockpile Life Extension, Enhanced Surveillance, and Advanced Development Programs carried out at DOE production plants.

The Senate amendment contained a provision (sec. 3133) that would provide an additional \$15.0 million to support modernization efforts being carried out at the Department of Energy's four nuclear weapons production plants (Pantex, Kansas City, Y-12, and Savannah River). The provision would require the Department to submit, not later than 30 days after enactment of this provision, a report describing the Department's plans to allocate the funds authorized by this section and the relevance of each allocation to implementing the decisions in the Final Programmatic Environmental Impact Statement for Stockpile Stewardship and Management. The funds authorized for this activity could not be obligated until 30 days after the congressional defense committees receive the Department's proposed allocation report as required by this provision.

The House recedes with an amendment that would increase funding for the stockpile management account to provide an additional \$85.0 million for these activities.

The conferees direct that the funds be allocated as follows: \$25.0 million for the Pantex Plant for basic infrastructure needs including roof repair, electric power service upgrades, steam and condensate piping upgrades, fire enunciation systems, and Enhanced Surveillance Program activities; \$25.0 million for the Kansas City Plant for basic infrastructure needs including roof repair, installation of advanced manufacturing equipment, and Advanced Manufacturing Program activities; and \$35.0 million for the Y-12 plant for basic infrastructure needs, W-87 work load requirements, Advanced Manufacturing Program activities, and Stockpile Life Extension Program activities. Of the amounts made available by this provision, not more than five percent shall be allocated collectively to management overhead, program direction, and technical budgetary, accounting, and other analytical support to the DOE. The remainder shall be expended by the four production plants exclusively for the programs described.

The conferees concur with the Department's goal to implement advanced manufacturing technology at DOE plants and laboratories to improve production efficiencies and maintain core competencies within the DOE nuclear weapons production complex. The conferees understand that such modernization upgrades will require coordination among the four production plants and the three design laboratories.

The conferees remain concerned with the Department's plans to maintain the capability and capacity to refurbish and, when necessary, remanufacture nuclear weapons components in the Nation's nuclear weapons stockpile. The committee is concerned that the Department may be overly relying on new, "science-based" stockpile stewardship and management approaches at the risk of losing manufacturing capabilities and expertise.

The conferees are deeply troubled that the Department has failed to meet fully the intent of section 3137 of the National Defense Authorization Act for Fiscal Year 1996 and section 3132 of the National Defense Authorization Act for Fiscal Year 1997 calling for modernization of the four nuclear weapons production plants.

The conferees believe that the Department did not fully meet the requirements or intent of these sections and related guidance

provided in conference reports accompanying these Acts and the 1996 and 1997 Energy and Water Development Appropriations Acts. The conferees note that the General Accounting Office has identified certain Nuclear Weapons Stockpile Memorandum requirements that may not be met by the Department due to insufficient resources being allocated to the four traditional production plants. The conferees believe that the manufacturing facilities must be modernized as directed in the National Defense Authorization Act for Fiscal Year 1996 and the National Defense Authorization Act for Fiscal Year 1997, or these problems will continue.

Tritium production (sec. 3135)

The Senate amendment contained a provision (sec. 3134) that would make available \$262.0 million for the Department of Energy (DOE) tritium production program. The provision would require DOE to select a tritium production technology not later than June 30, 1998. The provision would also prohibit the Department from obligating funds appropriated or otherwise made available pursuant to this Act for exploration of any tritium production technology option, other than those being examined under the Department's "dual track" approach, until July 30, 1998, or 30 days after such time that the Department selects a preferred technology option, whichever comes later. The provision would also require the Secretary of Energy to submit a report describing for each technology option any regulatory barriers, licensing difficulties, potential for production rate variability, scientific benefits, revenue generation and other ancillary benefits.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Department of Energy to select a tritium production technology not later than December 31, 1998.

The conferees continue to believe that the Department can move faster to select a preferred technology option and acquire a permanent new tritium production source capable of meeting the requirements of the Nuclear Weapons Stockpile Memorandum, which identifies a new tritium production date in the year 2005 in the case a reactor option is selected and 2007 if an accelerator option is selected. While the conferees recognize that future tritium requirements could change if the United States enters into treaties that reduce the numbers of strategic and tactical nuclear weapons, the production capacity that the United States will need to maintain at START I and START II levels will remain essentially constant.

Processing, treatment, and disposition of spent nuclear fuel rods and other legacy nuclear materials at the Savannah River Site (sec. 3136)

The Senate amendment contained a provision (sec. 3135) that would make available an additional \$47.0 million above the budget request for the F-canyon and H-canyon facilities to accelerate the stabilization of legacy materials at the Savannah River Site. The provision would further require that the Secretary of Energy maintain a high state of readiness of the F-canyon and H-canyon facilities.

The House bill contained no similar provision.

The House recesses.

The conferees note that the House bill recommended \$41.0 million for similar activities.

Limitations on use of funds for laboratory directed research and development purposes (sec. 3137)

The Senate amendment contained a provision (sec. 3136) that would modify section 3136 of the National Defense Authorization Act for Fiscal Year 1997 by requiring the annual report on uses of Laboratory Directed Research and Development (LDRD) funds be provided to the congressional defense committees not later than February 1 of each year. The provision would also prohibit the Department of Energy (DOE) from obligating more than 30 percent of the funds appropriated or otherwise made available to the DOE in fiscal year 1998 for LDRD programs until the Department submits the annual report for fiscal year 1997.

The provision would limit the use of funds appropriated or otherwise made available to the DOE under section 3101 of this Act to LDRD and technology transfer activities that support the weapons activities of the Department. The provision would similarly limit use of funds appropriated or otherwise made available to the DOE under section 3102 of this Act to those activities that support the environmental restoration, waste management, or materials stabilization activities of the Department.

The provision would require the Department to include in the fiscal year 1998 annual report an assessment of the funding required to carry out an effective LDRD program, including any recommendations for the percentage of funds that should be provided to the National Laboratories for LDRD activities by the Federal Government.

The House bill contained no similar provision.

The House recesses.

The conferees recognize that programs such as LDRD are essential to maintaining the core competencies of the National Laboratories. The conferees will assess the Department's recommendations regarding the appropriate percentage of funds to be provided to this program in conjunction with any existing or future restrictions that might be considered for this program.

Pilot program relating to use of proceeds of disposal or utilization of certain Department of Energy assets (sec. 3138)

The Senate amendment contained a provision (sec. 3140) that would permit the Secretary of Energy to establish a pilot program to promote the sale of certain real and personal property surplus to the needs of the Federal government and allow the Department of Energy (DOE) to retain in the DOE defense Environmental Restoration and Waste Management accounts 50 percent of the net proceeds from such sales. The retained funds would be available for use, subject to appropriation acts, in the Environmental Restoration and Waste Management programs. The provision would authorize the Department to initiate six asset disposition pilots and would permit the Department to deduct costs associated with pre-

paring the asset for sale prior to calculating the net proceeds from the sale.

The House bill contained no similar provision.

The House recedes with an amendment that would make clear that all net proceeds from sales under the pilot program would not be retained by the Department of Energy, but instead would be returned to the Treasury as miscellaneous receipts.

Modification and extension of authority relating to appointment of certain scientific, engineering, and technical personnel (sec. 3139)

The House bill contained a provision (sec. 3144) that would extend through fiscal year 1999 the authority of the Secretary of Energy to appoint certain scientific, engineering, and technical personnel to positions within the Department without regard to the provisions governing the appointments in the competitive service, and General Schedule classification schedules and pay rates contained in title 5, United States Code.

The Senate amendment contained a similar provision (sec. 3152) that would also repeal the requirement for the Administrator of the Environmental Protection Agency to submit a report to Congress on the effects of this hiring authority on the cleanup carried out at sites listed on the National Priorities List (also known as "Superfund" sites).

The House recedes.

Limitation on use of funds for subcritical nuclear weapons tests (sec. 3140)

The House bill contained a provision (sec. 3146) that would require the submission of a detailed report on the manner in which funds available to the Secretary of Energy for fiscal years 1996 and 1997 to conduct subcritical experiments were used. The provision would prohibit the Secretary from using any funds authorized in fiscal year 1998 to conduct subcritical experiments until 30 days after receipt of such report.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would allow the Secretary to conduct subcritical experiments prior to submittal of the report, if the Secretary determines that it is in the national security interests of the United States to do so. While the conferees strongly support these tests, they are concerned that over \$100.0 million has apparently been spent with only two tests completed.

Limitation on use of certain funds until future use plans are submitted (sec. 3141)

The House bill contained a provision (sec. 3147) that would limit the ability of the Secretary of Energy to spend funds authorized for the Office of Policy and Management within the defense environmental management program until the draft future use plans and the final future use plans required under section 3153(f) of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201) are submitted.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would allow the Secretary to identify an alternative date for individual site plans if the Secretary finds that a site cannot meet the current due date of March 15, 1998 for submittal of its final future use plan.

Subtitle D—Other Matters

Plan for stewardship, management, and certification of warheads in the nuclear weapons stockpile (sec. 3151)

The House bill contained a provision (sec. 3141) that would require the Secretary of Energy to report annually on the Department of Energy (DOE) plan for the Stockpile Stewardship and Management Program. The report would describe the status and condition of the U.S. nuclear weapons stockpile, based on the requirements set forth in the Nuclear Weapons Stockpile Memorandum. This report would be submitted in both a classified and unclassified form and would be provided in lieu of a number of other reporting requirements which have been superseded and would be repealed by this section.

The Senate amendment contained a similar provision (sec. 3153).

The Senate recedes with an amendment that would consolidate the repeal of obsolete reporting requirements in a separate section in Title XXXI of this Act.

Repeal of obsolete reporting requirements (sec. 3152)

The House bill contained a provision (sec. 3142) that would repeal a number of obsolete reporting requirements.

The Senate amendment contained a similar provision (sec. 3155).

The House recedes.

Study and funding relating to implementation of workforce restructuring plans (sec. 3153)

The House bill contained a provision (sec. 3143) that would modify and repeal selected provisions of section 3161 of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102-484). The provision would eliminate the authority of the Department of Energy (DOE) to make assistance grants without approval by the Secretary of Commerce and the Secretary of Labor, as appropriate; reduce from 120 days, to 90 days the applicable notice periods provided to employees to be separated; allow DOE to fund the program from available unobligated balances; and require a study by an outside auditor to assess the costs and benefits provided by this program since its inception.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would change the date of the required report from January 1, 1998 to March 31, 1998; restore the direction in current law for a 120-day waiting period prior to implementation of a separation plan; modify the requirement for the Secretaries of Commerce and Labor to approve grants; and eliminate the use of uncosted balances to offset the fiscal year 1998 budget for worker transition activities.

The conferees note that the direction found in section 3161 of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102-484) to give contract employees at DOE sites a 120-day waiting period prior to separations of large numbers of employees is a target only. The conferees further note current law mandates only a 60-day waiting period prior to large separations. The conferees encourage the Secretary of Energy and the Secretary of Defense to identify and seek to make available to the auditing firm conducting the study any relevant documents in the possession of other federal agencies. In encouraging access to all relevant documents, the conferees do not anticipate any document that could interfere with or jeopardize any ongoing investigation of the DOE Office of Inspector General or other federal agencies would be made available.

Plan for external oversight of national laboratories (sec. 3154)

The House bill contained a provision (sec. 3148) that would require the Secretary of Energy to develop a plan for the external oversight of the national laboratories. The plan would provide for the establishment of an external oversight committee comprised of representatives of industry and academia for the purpose of making recommendations to the Secretary of Energy and to the congressional defense committees on the productivity of the laboratories and on the excellence, relevance, and appropriateness of the research conducted at the laboratories. The plan also would provide for the establishment of a competitive peer review process for funding basic research at the laboratories.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary to prepare a report on existing and potential new external oversight practices at the national laboratories. The report would be due not later than July 1, 1999, and would include any recommendations from the Secretary and a plan to implement such recommendations.

University-based research collaboration program (sec. 3155)

The House bill contained a provision (sec. 3149) that would require the Secretary of Energy to establish a university-based research center to coordinate the collaboration among national laboratories, universities and industry in support of scientific and engineering advancement in key Department of Energy defense program areas.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary to establish a university-based collaborative program to coordinate national laboratory, university, and industry cooperation in support of scientific and engineering advancement in key Department of Energy defense program areas.

Stockpile stewardship program (sec. 3156)

The House bill contained a provision (sec. 3150) that would provide that, as a matter of U.S. policy, the Department of Energy stockpile stewardship program shall be conducted in conformity with the Non-Proliferation Treaty and the Comprehensive Test Ban

Treaty, if and when that treaty enters into force. The provision would also state that it is the policy of the United States to conduct a stockpile stewardship and management program to ensure the safety, security, effectiveness, and reliability of the U.S. nuclear weapons stockpile, consistent with U.S. national security requirements.

The Senate amendment contained no similar provision.

The Senate recesses with a clarifying amendment.

Reports on advanced supercomputer sales to certain foreign nations
(sec. 3157)

The House bill contained a provision (sec. 3151) that would require companies that participate in the Department of Energy Accelerated Strategic Computing Initiative (ACSI) program to report to the Secretary of Energy and the Secretary of Defense, on a quarterly basis, the sale of each computer that exceeds an operating speed of 2,000 million theoretical operations per seconds (MTOPs) in which a Tier III country is the purchaser. The provision would require the Secretary of Energy to provide an annual report to Congress on the sales of computers in excess of 2,000 MTOPs by companies participating in the ACSI program the preceding year.

The Senate amendment contained no similar provision.

The Senate recesses.

Transfers of real property at certain Department of Energy facilities
(sec. 3158)

The House bill contained a provision (sec. 3152) that would direct the Secretary of Energy to issue guidelines for the sale or lease of real or personal property at Department of Energy (DOE) defense nuclear facilities. The provision would also provide the Secretary discretionary authority to grant indemnification for damage to real or personal property from certain activities by DOE on the land to be transferred.

The Senate contained no similar provision.

The Senate recesses with an amendment that would direct the Secretary to issue regulations governing the sale or transfer of land at DOE defense nuclear facilities that is excess to DOE needs. The regulations should address when it is appropriate for the Department to transfer or lease real property below fair market value or at fair market value. The DOE should look for guidance from the regulations issued by the Department of Defense governing transfers at closing military bases.

Such leases and transfers would take place to enhance economic redevelopment and reuse activities in the local communities surrounding DOE defense facilities. As the DOE downsizes and closes facilities, many of the local communities in the vicinity of a DOE facility will need assistance to transition away from a local economy focused largely on DOE activities, to one based on private sector or other, non-DOE, federal activities.

The amendment would also provide discretionary authority to the Secretary to indemnify transferees of real property at DOE defense nuclear facilities. This provision would establish procedures that are similar to authorities provided to the Secretary of Defense at closing military bases by section 330 of the National Defense Au-

thorization Act for Fiscal Year 1993. The conferees urge the Secretary to exercise the discretionary authority provided under this title only when it is deemed essential for the purposes of facilitating local reuse or redevelopment.

Requirement to delegate certain authorities to site manager of Hanford Reservation (sec. 3159)

The House bill contained a provision (sec. 3153) that would modify section 3173(b) of the National Defense Authorization Act for Fiscal Year 1997 by making delegation of authority to the manager of the Hanford Reservation in Richland, Washington, described in that section, mandatory rather than discretionary.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would limit the mandatory transfer of authority to a period of one year.

Submittal of biennial waste management reports (sec. 3160)

The Senate amendment contained a provision (sec. 3154) that would amend section 3153 of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 104-360) by changing the future date for the next biennial Baseline Environmental Management Report to 1999, rather than 1997.

The House bill contained no similar provision.

The House recedes.

Board on security functions of Department of Energy (sec. 3161)

The Senate amendment contained a provision (sec. 3156) that would establish a commission to review the sufficiency of Department of Energy (DOE) nuclear weapons and materials safeguards and security programs. This commission would review threat determinations and assumptions, relevant DOE orders, and other requirements governing safeguards and security of nuclear weapons, weapons components, nuclear materials, and sensitive nuclear weapons information at DOE facilities. The commission would report its findings and any recommendations to the Secretary of Energy and congressional defense committees not later than February 15, 1998.

The House bill contained no similar provision.

The House recedes with an amendment that would create a permanent Department of Energy Safeguards and Security Oversight Board to review and assess the DOE safeguards and security program. The Board would be comprised of the DOE Secretary, Assistant Secretary for Defense Programs, Assistant Secretary of Environment, Safety and Health, Director of Non-proliferation and National Security, Director of Field Management, and five additional members, who are not employees of the Department of Energy or its contractors, to be appointed as follows: three by the Secretary of Defense, one by the Director of Central Intelligence, and one by the Director of the Federal Bureau of Investigation.

Submittal of annual report on status of security functions at nuclear weapons facilities (sec. 3162)

The Senate amendment contained a provision (sec. 3156) that would establish a commission to review the sufficiency of Depart-

ment of Energy nuclear weapons and materials safeguards and security programs. The provision would require the commission to report annually to the Congress on its activities and findings.

The House bill contained no similar provision.

The conferees agree to include a new provision that would direct the Secretary of Energy to submit to the congressional defense committees the annual report to the President on the Status of Safeguards and Security of Domestic Nuclear Weapons Facilities. For fiscal years 1998 through 2000, the Secretary would include with the annual report any comments from individual members of the Department of Energy Safeguards and Security Oversight Board.

Modification of authority on commission on maintaining United States nuclear weapons expertise (sec. 3163)

The Senate amendment contained a provision (sec. 3157) that would extend by one year the due date for the report to be prepared by the Commission on Maintaining United States Nuclear Weapons Expertise. The provision would amend section 3162 of the National Defense Authorization Act for Fiscal Year 1997, which established the Commission. The provision would permit the Senate Majority Leader to designate a chairman of the Commission, after consultation with the Speaker of the House of Representatives, upon appointment of the fifth member of the Commission. The provision would allow the Commission to begin its work when a chairman is appointed. The provision would also extend the due date for the Commission's report from March 15, 1998 to March 15, 1999.

The House bill contained no similar provision.

The House recesses with an amendment that would permit the Majority Leader of the Senate to appoint a chairman after January 1, 1998.

Land transfer, Bandelier National Monument (sec. 3164)

The Senate amendment contained a provision (sec. 3158) that would direct the Secretary of Energy to transfer ownership of approximately 4.5 acres of land at the Department of Energy's Los Alamos National Laboratory site in Los Alamos County, New Mexico, to the Department of the Interior.

The House bill contained no similar provision.

The House recesses.

The Department of the Interior constructed and manages sewage lagoons on this parcel of land. The transfer would allow the Department of the Interior to manage the lagoons in a more efficient manner.

Final settlement of Department of Energy community assistance obligations with respect to Los Alamos National Laboratory, New Mexico (sec. 3165)

The Senate amendment contained a provision (sec. 3160) that would require the Department of Energy (DOE) to identify and transfer to the County of Los Alamos and the Secretary of the Interior, in trust for the Pueblo San Ildefonso, those lands that are part of the Los Alamos National Laboratory that are surplus to the needs of the Federal government. The provision establishes time

deadlines for DOE to identify and report to Congress on the recommended parcels of land to be transferred, to conduct title searches on the parcels, to complete environmental impact assessments, and to transfer title or administrative control of the land. The provision would prohibit the Department from making any further assistance payments under sections 91 and 94 of the Atomic Energy Community Act of 1955 to county or city governments in the vicinity of the Los Alamos National Laboratory.

The House bill contained no similar provision.

The House recesses with clarifying amendments.

Sense of Congress regarding the Y-12 Plant in Oak Ridge, Tennessee (sec. 3166)

The Senate amendment contained a provision (sec. 3161) that would designate the Department of Energy Y-12 plant in Oak Ridge, Tennessee as the National Prototype Center.

The House bill contained no similar provision.

The House recesses with an amendment that would express a sense of Congress that the Y-12 plant should serve as a national prototype center.

Support for public education in the vicinity of Los Alamos National Laboratory, New Mexico (sec. 3167)

The Senate amendment contained a provision (sec. 3162) that would authorize the Department of Energy (DOE) to make a \$5.0 million payment to a not-for-profit education foundation in the area around the Los Alamos National Laboratory to enrich educational activities of the local school system. DOE contributions to this foundation would be used to establish a fund, the corpus of which would remain in trust and the annual revenue used to support the local school system.

The House bill contained no similar provision.

The House recesses with an amendment that would require the DOE to report on how such payments would be terminated not later than September 2002 and how such payments will satisfy the Department's full obligation to provide education assistance to the local school system.

The conferees expect that the Secretary of Energy will make no more than five total annual payments to this fund for a total contribution of \$25.0 million. The conferees further expect that upon completion of the final payment, all such DOE assistance to the local school system will have been provided.

Improvements to Greenville Road, Livermore, California (sec. 3168)

The Senate amendment contained a provision (sec. 3163) that would authorize the Department of Energy to pay \$3.5 million and \$3.8 million in fiscal years 1998 and 1999, respectively, for improvements to Greenville Road, a road which abuts the Lawrence Livermore National Laboratory in Livermore, California.

The House bill contained no similar provision.

The House recesses with an amendment that would decrease the payment authorized to be made in fiscal year 1999 from \$3.8 million to \$3.3 million, consistent with the Department's request.

The conferees agree with the Department's proposal to collect these funds from indirect charges at the two laboratories located at the Livermore Site, Lawrence Livermore National Laboratory and Sandia National Laboratory-Livermore. These payments will constitute the final contribution from the Department of Energy to this project.

Report on alternative system for availability of funds (sec. 3169)

The Senate amendment contained a provision (sec. 3128) that would authorize amounts appropriated for operating expenses or for plant and capital equipment to remain available until expended.

The House bill contained no similar provision.

The conferees agree to include a new provision that would direct the Secretary of Energy to submit to the congressional defense committees a report setting forth a proposal to bring the Department of Energy (DOE) more closely into line with other federal agencies. In preparing the report, the Secretary is instructed to look carefully at all of the DOE national security program funds and determine the length of time, by account, the funds should be available for obligation. The conferees expect the plan would be incorporated into the President's budget request for fiscal year 2000.

Report on remediation under the Formerly Utilized Sites Remedial Action Program (sec. 3170)

The Senate amendment contained a provision (sec. 3138) that would require the Secretary of Energy to prepare a report on the progress, costs, and liability issues associated with remediation activities carried out pursuant to the Formerly Utilized Sites Remedial Action Program. The report would be due not later than March 1, 1998.

The House bill contained no similar provision.

The House recedes.

LEGISLATIVE PROVISIONS NOT ADOPTED

Report on proposed contract for Hanford tank waste vitrification project

The House bill contained a provision (sec. 3145) that would require prior notice to the congressional defense committees before entering into a contract for the Hanford tank waste vitrification project. The provision would also require the submission of a detailed report describing the activities to be carried out under the contract, the contractual and financial aspects of the contract, and an analysis of the cost to the United States of the proposed contract over the life of the project.

The Senate amendment contained no similar provision.

The House recedes.

The conferees agree to include the substance of this provision in another section in Title XXXI of this Act dealing with defense environmental management privatization projects.

Defense environmental management privatization

The Senate amendment contained a provision (sec. 3104) that would authorize \$274.0 million for the Defense Environmental Management Privatization program.

The House bill contained no similar provision.

The Senate recedes.

The conferees agree to authorize funding for these projects in section 3102 of this Act.

Tritium production in commercial facilities

The Senate amendment contained a provision (sec. 3139) that would amend section 91 of the Atomic Energy Act (AEA) to authorize the Secretary of Energy to produce tritium for defense-related purposes in a commercial nuclear power reactor.

The House bill contained no similar provision.

The Senate recedes.

Tritium gas, an isotope of hydrogen, is an essential ingredient in all modern nuclear weapons. Tritium has a radioactive half life of 12.3 years, and decays at a rate of five percent per year. As a result, the tritium in weapons in the U.S. nuclear weapons stockpile must be replaced periodically. Based on current projections of the size of the U.S. nuclear weapons stockpile, recycling tritium from weapons eliminated from the stockpile cannot fulfill this requirement.

In December 1995, the Department of Energy announced its dual-track strategy for new tritium production. Utilizing the dual-track strategy since that time, the Department has been pursuing the two most promising tritium production technologies: (1) the purchase of an operating or partially complete commercial light-water reactor, or lease of a completed reactor, or the purchase of irradiation services from the owner or operator of such a reactor; and (2) the design, construction, and testing of critical components of a proton accelerator system for the production of tritium. The dual-track strategy will enable the Department to select a primary option for tritium production by December 1998, consistent with current Department of Defense and nuclear weapons stockpile requirements, policy, and life-cycle cost budgetary considerations. The option not selected would serve as a backup capability in the event of technical or other difficulties.

Over the last 19 months, DOE has gained increased confidence in the abilities of both options to produce an assured supply of tritium.

The accelerator program has made significant advances through the use of superconducting and other design concepts to reduce the cost and technical risks that have been identified in conjunction with the accelerator. The commercial light water reactor program has also made significant progress in designing and producing tritium target rods. In the fall of 1997, DOE will place these tritium target rods in a commercial reactor in an effort to demonstrate the safety and reliability of tritium production in a light water reactor.

Each track has additional uncertainties that must be addressed and answered to enable the Department to make its primary tritium production decision by December 1998.

The conferees agreed to withdraw the proposed amendment to the AEA in order to allow a full and robust debate on the policy and legal implications of producing tritium for nuclear weapons in a commercial nuclear facility. While questions exist as to whether or not current law prohibits production of tritium in a commercial facility, and because concerns have been raised regarding the effect that a decision to produce tritium in this manner would have on U.S. non-proliferation strategy, the conferees believe the policy, legal, and regulatory issues that have been raised must be addressed in a comprehensive manner prior to passage of any amendments to facilitate such a choice.

The commercial reactor track contains many sub-options for tritium production. As a practical matter, each of the different reactor sub-options has different legal and policy issues associated with it. The conferees believe that it would be helpful to the effort to secure necessary legislative changes if DOE could identify the preferred commercial reactor sub-option in advance of the final tritium production technology decision, preferably by March 1, 1998.

The conferees believe that it is essential for DOE to identify and assess any policy issues associated with the various reactor sub-options in conjunction with other federal agencies including the Nuclear Regulatory Commission, the Department of Defense, and the Department of State arms control offices. The conferees direct the Secretary of Energy to utilize a senior level, interagency process to review and assess the issues associated with the commercial reactor option. This assessment should be completed before DOE identifies a preferred reactor sub-option.

The conferees request the DOE propose to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives, by March 15, 1998, any legislation necessary to resolve the issues associated with either of the dual-track production technologies. This would allow the legislation to be in place in advance of the DOE's final decision in December 1998. The conferees expect the Secretary of Energy to include full funding to continue to evaluate each tritium production technology in the dual-track strategy. The conferees will continue to work closely with DOE to gain the knowledge necessary to address and resolve issues associated with the dual-track tritium production technologies in order to allow the Department to select the tritium production option that best meets U.S. policy, national security and budgetary requirements.

Administration of certain Department of Energy activities

The Senate amendment contained a provision (sec. 3151) that would amend sections 501 and 624 of the Department of Energy Organization Act and repeal section 17 of the Federal Energy Act. This provision would bring the Department of Energy (DOE) under the full scope of the Federal Advisory Committee Act and would bring DOE under the full scope of the Administrative Procedure Act when issuing regulations dealing with public property, loans, grants, or contracts.

The House bill contained no similar provision.

The Senate recedes.

The conferees note that this provision was enacted into law by “The Department of Energy Standardization Act of 1997” (Public Law 105–28).

Participation of the national security activities in Hispanic Outreach Initiative of the Department of Energy

The Senate amendment contained a provision (sec. 3159) that would direct the Secretary of Energy to ensure the adequate participation of the Department of Energy (DOE) national security activities in the National Hispanic Outreach Initiative.

The House bill contained no similar provision.

The Senate recesses.

The Secretary of Energy has established, for each DOE program element, participation goals to utilize Hispanic and other predominately or historically minority institutions, in carrying out DOE missions. The defense programs have not participated in a meaningful way in the Hispanic portions of the initiative.

The initiative was announced by the DOE with much fanfare and yet, particularly in northern New Mexico, there has been little indication that DOE is working to fulfill its promises to utilize more fully Hispanic institutions in carrying out defense program missions. The conferees encourage the Secretary of Energy to seek uniform participation in this initiative.

TITLE XXXII—DEFENSE NUCLEAR FACILITIES SAFETY BOARD

Overview

The budget request for fiscal year 1998 contained an authorization of \$17.5 million for the Defense Nuclear Facilities Safety Board. The House bill would authorize \$17.5 million. The Senate amendment would authorize \$17.5 million. The conferees recommended an authorization of \$17.5 million. Unless noted explicitly in the statement of managers, all changes are made without prejudice.

LEGISLATIVE PROVISIONS ADOPTED

Report on external regulation of defense nuclear facilities (sec. 3202)

The House bill contained a provision (sec. 3202) that would require the Defense Nuclear Facilities Safety Board (DNFSB) to develop a plan, in consultation with the Secretary of Energy and the Nuclear Regulatory Commission (NRC), for the transfer of DNFSB’s functions to the NRC.

The Senate amendment contained no similar provision.

The Senate recesses with an amendment that would require the Board to submit a report recommending which facilities should be retained under the jurisdiction of the Board and which facilities should be transferred to an external regulatory agency; require the Board to assess regulatory requirements and jurisdictional issues surrounding the defense environmental management privatization initiative and the proposed commercial light water reactor option for tritium production; remove the repeal of section 210 of the Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1981 (42 U.S.C. 7272); and require the Board to submit an interim report within 6 months of the

date of enactment of this section and a final report within 12 months.

TITLE XXXIII—NATIONAL DEFENSE STOCKPILE

LEGISLATIVE PROVISIONS ADOPTED

Definitions (sec. 3301)

The Senate amendment contained a provision (sec. 3301) defining the National Defense Stockpile and National Defense Stockpile Transaction Fund as those which are established under the Strategic and Critical Materials Stock Piling Act.

The House bill contained no similar provision.

The House recesses.

Authorized uses of stockpile funds (sec. 3302)

The House bill contained a provision (sec. 3301) that would authorize \$73.0 million from the National Defense Stockpile Transaction Fund for the operation and maintenance of the National Defense Stockpile for fiscal year 1998. This provision would also permit the use of additional funds for extraordinary or emergency conditions after a notification to Congress.

The Senate amendment contained a provision (sec. 3302) that would authorize the Stockpile Manager to obligate \$60.0 million from the National Defense Stockpile Transfer Fund during fiscal year 1998 for the authorized uses of funds under section 9(b)(2) of the Strategic and Critical Materials Stockpiling Act.

The Senate recesses.

Disposal of beryllium copper master alloy in National Defense Stockpile (sec. 3303)

The House bill contained a provision (sec. 3302) that would authorize the Department of Defense to dispose of all beryllium copper master alloy from the National Defense Stockpile, contingent upon certification by the National Defense Stockpile Manager that any disposal of this material will not adversely affect the strategic and critical material needs of the United States.

The Senate amendment contained no similar provision.

The Senate recesses.

Disposal of titanium sponge in the National Defense Stockpile (sec. 3304)

The House bill contained a provision (sec. 3303) that would authorize the Department of Defense to dispose of 34,800 short tons of titanium sponge in the National Defense Stockpile.

The Senate amendment contained a provision (sec. 3303) that would authorize the disposal of several materials from the National Defense Stockpile including titanium sponge.

The Senate recesses.

Disposal of cobalt in National Defense Stockpile (sec. 3305)

The Senate amendment contained a provision (sec. 3303) that would authorize the Department of Defense to dispose of 20 materials from the National Defense Stockpile and would establish spe-

cific revenue targets that the Secretary of Defense must meet in the disposal of these materials.

The House bill contained no similar provision.

The House recedes with an amendment that would authorize the disposal of up to 14,058,014 pounds of cobalt, beginning in fiscal year 2003, and would require specific revenue targets for this disposal each year until fiscal year 2007 in order to offset direct spending provisions elsewhere in this Act.

Required procedures for disposal of strategic and critical materials
(sec. 3306)

The House bill contained a provision (sec. 3306) that would amend section 6(b) of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98e(b)) to clarify the procedures used by the Department of Defense for the sale of materials from the National Defense Stockpile.

The Senate amendment contained no similar provision.

The Senate recedes.

Return of surplus platinum from the Department of the Treasury
(sec. 3307)

The House bill contained a provision (sec. 3304) that would establish conditions for the transfer of platinum contained in the National Defense Stockpile to the United States Treasury for minting of platinum coins.

The Senate amendment contained a provision (sec. 3304) that would require any platinum contained within the National Defense Stockpile and loaned by the Department of Defense to the Department of Treasury to be made available to the Department of Defense upon request of the Secretary of Defense.

The House recedes with an amendment that would preclude the expenditure of any funds available to the Department of Defense for the transfer of any platinum to the Treasury.

LEGISLATIVE PROVISIONS NOT ADOPTED

Restrictions on disposal of certain manganese ferro

The House bill contained a provision (sec. 3305) that would repeal section 3304 of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104-106), which placed restrictions on the disposal of Manganese Ferro from the National Defense Stockpile.

The Senate amendment contained no similar provision.

The House recedes.

TITLE XXXIV—NAVAL PETROLEUM RESERVES

LEGISLATIVE PROVISIONS ADOPTED

Price requirement on sale of certain petroleum during fiscal year 1998
(sec. 3402)

The House bill contained a provision (sec. 3402) that would require the Secretary of Energy to sell petroleum produced for the Naval Petroleum Reserves at not less than 90 percent of established prices.

The Senate amendment contained no similar provision.
The Senate recesses.

Repeal of requirement to assign Navy officers to Office of Naval Petroleum and Oil Shale Reserves (sec. 3403)

The House bill contained a provision (sec. 3403) that would repeal section 2 of Public Law 96-137, which requires the Secretary of the Navy to assign naval officers to the office of Naval Petroleum and Oil Shale Reserves.

The Senate amendment contained a similar provision (sec. 3403).

The House recesses.

Transfer of jurisdiction, Naval Oil Shale Reserves numbered 1 and 3 (sec. 3404)

The House bill contained a provision (sec. 3404) that would transfer the jurisdiction of the Naval Oil Shale Reserves Numbered one and three to the Department of the Interior and for lease pursuant to the provisions of the Mineral Leasing Act, which would provide for the sharing of the revenues between the State of Colorado and the Federal Treasury.

The Senate amendment contained a similar provision (sec. 3402) that would authorize the lease of these reserves through the Department of Energy, which would allow 100 percent of the proceeds to be returned to the Federal Treasury.

The Senate recesses with an amendment that would require that the Federal Treasury be reimbursed for all costs incurred by the Federal Government related to these reserves, including costs associated with capital improvements and environmental cleanup, prior to the sharing of any revenues with the State of Colorado.

TITLE XXXV—PANAMA CANAL COMMISSION

Panama Canal Commission (secs. 3501-3550)

The House bill contained provisions (secs. 3501-3504) that would authorize the expenditure of funds by the Panama Canal Commission to cover its operating, maintenance, administrative, and capital improvement expenses, and to purchase vehicles built in the United States. The House bill also contained provisions (secs. 3511-3550) that would give the Commission certain authorities to facilitate the transition of the Canal to Panamanian control in December 1999.

The Senate amendment contained identical provisions (secs. 3501, 3502, 3504-3512, 3523, 3524, 3526, and 3528-3550) and similar provisions (3503, 3521, 3522, 3525, and 3527).

The conferees agree to include a series of provisions that would authorize the operations of the Panama Canal Commission. The provision in the House bill relating to the purchase of vehicles (sec. 3503) required that the vehicles purchased be built in the United States, while the provision in the Senate amendment (sec. 3503) had no such requirement. The provisions in the House bill and Senate amendment relating to the administrator of the Panama Canal Authority (sec. 3521 in both), post-transfer personnel authorities (sec. 3522 in both), recruitment and retention authorities (sec. 3525

in both) and labor-management relations (sec. 3527 in both) differed only technically.

The House recedes with respect to the provision relating to the purchase of vehicles (sec. 3503). The conferees note, however, that the Commission has in the past purchased only vehicles built in the United States and encourage the continuation of that practice.

The House recedes with respect to the provision relating to the administrator of the Panama Canal Authority (sec. 3521), and recedes with technical amendments with respect to the provisions relating to post-transfer personnel authorities (sec. 3522) and labor-management relations (sec. 3527). The Senate recedes with a technical amendment with respect to the provision relating to enhanced recruitment and retention authorities (sec. 3525).

TITLE XXXVI—MARITIME ADMINISTRATION

Title XXXVI of the House bill contained a number of provisions that would provide authorization for the Maritime Administration and related matters. The conferees resolved these matters through extensive consultations between the House and Senate conferees and the Senate Committee on Commerce, Science, and Transportation, which would normally exercise jurisdiction within the Senate on these matters.

LEGISLATIVE PROVISIONS ADOPTED

Authorization of appropriations for fiscal year 1998 (sec. 3601)

The House bill contained a provision (sec. 3601) that would authorize \$109.0 million for fiscal year 1998, as requested in the President's budget, for the United States Maritime Administration.

The Senate amendment contained no similar provision.
The Senate recedes.

Repeal of obsolete annual report requirement concerning relative cost of shipbuilding in the various coastal districts of the United States (sec. 3602)

The House bill contained a provision (sec. 3602) that would repeal the obsolete requirement for an annual report on the relative cost of shipbuilding in the various coastal districts contained in section 213 of the Merchant Marine Act, 1936, as amended (46 U.S.C. App. 1123).

The Senate amendment contained no similar provision.
The Senate recedes.

Provisions relating to maritime security fleet program (sec. 3603)

The House bill contained a provision (sec. 3603) that would amend section 656(b) of the Merchant Marine Act, 1936, as amended (46 U.S.C. App. 1187e(b)) to make clear that it does not restrict the operation or entry of U.S. flag self-propelled tankers in the domestic trades. This provision would also amend section 652(c) of the Merchant Marine Act, 1936, to eliminate the 3-year delay in eligibility to carry certain preference cargoes of vessels that are reflagged as U.S. flag vessels in order to participate in the Maritime Security Fleet Program.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would amend section 652(c) of the Act to exempt a vessel from the restrictions concerning the building, rebuilding, or documentation of a vessel in a foreign country referred to in section 901(b) of the Act, 1936 (46 U.S.C. App. 1187a(c)) for any day the operator of the vessel is receiving payments under an operating agreement under the subtitle.

Authority to utilize replacement vessels and capacity (sec. 3604)

The House bill contained a provision (sec. 3604) that would amend section 653(d) of the Merchant Marine Act, 1936, as amended (46 U.S.C. App. 1187b(d)(1)), to authorize a U.S. flag operator to utilize a foreign flag replacement vessel for a U.S. flag vessel that is activated by the Secretary of Defense under the terms of an Emergency Preparedness Agreement or other primary sealift readiness program approved by the Secretary of Defense.

The Senate amendment contained no similar provision.

The Senate recedes.

Authority to convey National Defense Reserve Fleet vessel (sec. 3605)

The House bill contained a provision (sec. 3605) that would authorize the Secretary of Transportation to convey a surplus National Defense Reserve Fleet vessel to the Artship Foundation, a non-profit organization located in Oakland, California.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would add two required conditions to the terms of conveyance.

Determination of gross tonnage for purposes of tank vessel double hull requirements (sec. 3606)

The House bill contained a provision (sec. 3606) that would stop an industry practice of reducing the gross tonnage of single-hull tank vessels in order to delay the phase-out date of the vessels under the Oil Pollution Act of 1990.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would clarify the circumstances under which the House provision would apply.
