SEC. 206. INFORMATION SHARING.
(a) DEFINITIONS.—In this section:
(1) Advisory Board.—The term "Advisory
Board" means the Advisory Board on Information
Sharing established under subsection (i).

1	(2) EXECUTIVE COUNCIL.—The term "Execu-
2	tive Council" means the Executive Council on Infor-
3	mation Sharing established under subsection (h).
4	(3) Homeland security information.—The
5	term "homeland security information" means all in-
6	formation, whether collected, produced, or distrib-
7	uted by intelligence, law enforcement, military,
8	homeland security, or other activities relating to—
9	(A) the existence, organization, capabili-
10	ties, plans, intentions, vulnerabilities, means of
11	finance or material support, or activities of for-
12	eign or international terrorist groups or individ-
13	uals, or of domestic groups or individuals in-
14	volved in transnational terrorism;
15	(B) threats posed by such groups or indi-
16	viduals to the United States, United States per-
17	sons, or United States interests, or to those of
18	other nations;
19	(C) communications of or by such groups
20	or individuals; or
21	(D) groups or individuals reasonably be-
22	lieved to be assisting or associated with such
23	groups or individuals.

(4) NETWORK.—The term "Network" means
 the Information Sharing Network described under
 subsection (c).

4 (b) FINDINGS.—Consistent with the report of the Na5 tional Commission on Terrorist Attacks upon the United
6 States, Congress makes the following findings:

7 (1) The effective use of information, from all
8 available sources, is essential to the fight against
9 terror and the protection of our homeland. The big10 gest impediment to all-source analysis, and to a
11 greater likelihood of "connecting the dots", is resist12 ance to sharing information.

(2) The United States Government has access
to a vast amount of information, including not only
traditional intelligence but also other government
databases, such as those containing customs or immigration information. However, the United States
Government has a weak system for processing and
using the information it has.

(3) In the period preceding September 11,
20 (3) In the period preceding September 11,
21 2001, there were instances of potentially helpful in22 formation that was available but that no person
23 knew to ask for; information that was distributed
24 only in compartmented channels, and information
25 that was requested but could not be shared.

(4) Current security requirements nurture over classification and excessive compartmentalization of
 information among agencies. Each agency's incentive
 structure opposes sharing, with risks, including
 criminal, civil, and administrative sanctions, but few
 rewards for sharing information.

7 (5) The current system, in which each intel-8 ligence agency has its own security practices, re-9 quires a demonstrated "need to know" before shar-10 ing. This approach assumes that it is possible to 11 know, in advance, who will need to use the informa-12 tion. An outgrowth of the cold war, such a system 13 implicitly assumes that the risk of inadvertent dis-14 closure outweighs the benefits of wider sharing. Such assumptions are no longer appropriate. Al-15 16 though counterintelligence concerns are still real, the 17 costs of not sharing information are also substantial. 18 The current "need-to-know" culture of information 19 protection needs to be replaced with a "need-to-20 share" culture of integration.

(6) A new approach to the sharing of intelligence and homeland security information is urgently needed. An important conceptual model for a
new "trusted information network" is the Systemwide Homeland Analysis and Resource Exchange

(SHARE) Network proposed by a task force of lead ing professionals assembled by the Markle Founda tion and described in reports issued in October 2002
 and December 2003.

5 (7) No single agency can create a meaningful
6 information sharing system on its own. Alone, each
7 agency can only modernize stovepipes, not replace
8 them. Presidential leadership is required to bring
9 about governmentwide change.

10 (c) INFORMATION SHARING NETWORK.—

11 (1) ESTABLISHMENT.—The President shall es-12 tablish a trusted information network and secure in-13 formation sharing environment to promote sharing 14 of intelligence and homeland security information in 15 a manner consistent with national security and the 16 protection of privacy and civil liberties, and based on 17 clearly defined and consistently applied policies and 18 procedures, and valid investigative, analytical or 19 operational requirements.

20 (2) ATTRIBUTES.—The Network shall promote
21 coordination, communication and collaboration of
22 people and information among all relevant Federal
23 departments and agencies, State, tribal, and local
24 authorities, and relevant private sector entities, in25 cluding owners and operators of critical infrastruc-

1	ture, by using policy guidelines and technologies that
2	support—
3	(A) a decentralized, distributed, and co-
4	ordinated environment that connects existing
5	systems where appropriate and allows users to
6	share information among agencies, between lev-
7	els of government, and, as appropriate, with the
8	private sector;
9	(B) the sharing of information in a form
10	and manner that facilitates its use in analysis,
11	investigations and operations;
12	(C) building upon existing systems capa-
13	bilities currently in use across the Government;
14	(D) utilizing industry best practices, in-
15	cluding minimizing the centralization of data
16	and seeking to use common tools and capabili-
17	ties whenever possible;
18	(E) employing an information access man-
19	agement approach that controls access to data
20	rather than to just networks;
21	(F) facilitating the sharing of information
22	at and across all levels of security by using pol-
23	icy guidelines and technologies that support
24	writing information that can be broadly shared;

1	(G) providing directory services for locat-
2	ing people and information;
3	(H) incorporating protections for individ-
4	uals' privacy and civil liberties;
5	(I) incorporating strong mechanisms for
6	information security and privacy and civil lib-
7	erties guideline enforcement in order to enhance
8	accountability and facilitate oversight,
9	including—
10	(i) multifactor authentication and ac-
11	cess control;
12	(ii) strong encryption and data protec-
13	tion;
14	(iii) immutable audit capabilities;
15	(iv) automated policy enforcement;
16	(v) perpetual, automated screening for
17	abuses of network and intrusions; and
18	(vi) uniform classification and han-
19	dling procedures;
20	(J) compliance with requirements of appli-
21	cable law and guidance with regard to the plan-
22	ning, design, acquisition, operation, and man-
23	agement of information systems; and

1	(K) permitting continuous system up-
2	grades to benefit from advances in technology
3	while preserving the integrity of stored data.
1	(d) INTERPLACE ACTIONS Not later than 00 days

4 (d) IMMEDIATE ACTIONS.—Not later than 90 days
5 after the date of the enactment of this Act, the Director
6 of the Office of Management and Budget, in consultation
7 with the Executive Council, shall—

8 (1) submit to the President and to Congress a 9 description of the technological, legal, and policy 10 issues presented by the creation of the Network de-11 scribed in subsection (c), and the way in which these 12 issues will be addressed;

(2) establish electronic directory services to assist in locating in the Federal Government intelligence and homeland security information and people with relevant knowledge about intelligence and
homeland security information; and

18 (3) conduct a review of relevant current Federal
19 agency capabilities, including—

20 (A) a baseline inventory of current Federal
21 systems that contain intelligence or homeland
22 security information;

23 (B) the money currently spent to maintain24 those systems; and

1	(C) identification of other information that
2	should be included in the Network.
3	(e) Guidelines and Requirements.—As soon as
4	possible, but in no event later than 180 days after the
5	date of the enactment of this Act, the President shall—
6	(1) in consultation with the Executive
7	Council—
8	(A) issue guidelines for acquiring, access-
9	ing, sharing, and using information, including
10	guidelines to ensure that information is pro-
11	vided in its most shareable form, such as by
12	separating out data from the sources and meth-
13	ods by which that data are obtained; and
14	(B) on classification policy and handling
15	procedures across Federal agencies, including
16	commonly accepted processing and access con-
17	trols;
18	(2) in consultation with the Privacy and Civil
19	Liberties Oversight Board established under section
20	211, issue guidelines that—
21	(A) protect privacy and civil liberties in the
22	development and use of the Network; and
23	(B) shall be made public, unless, and only
24	to the extent that, nondisclosure is clearly nec-
25	essary to protect national security; and

1	(3) require the heads of Federal departments
2	and agencies to promote a culture of information
3	sharing by—

4 (A) reducing disincentives to information
5 sharing, including overclassification of informa6 tion and unnecessary requirements for origi7 nator approval; and

8 (B) providing affirmative incentives for in-9 formation sharing, such as the incorporation of 10 information sharing performance measures into 11 agency and managerial evaluations, and em-12 ployee awards for promoting innovative infor-13 mation sharing practices.

14 (f) ENTERPRISE ARCHITECTURE AND IMPLEMENTA-15 TION PLAN.—Not later than 270 days after the date of 16 the enactment of this Act, the Director of Management 17 and Budget shall submit to the President and to Congress 18 an enterprise architecture and implementation plan for the 19 Network. The enterprise architecture and implementation plan shall be prepared by the Director of Management and 20 21 Budget, in consultation with the Executive Council, and 22 shall include—

(1) a description of the parameters of the proposed Network, including functions, capabilities, and
resources;

1	(2) a delineation of the roles of the Federal de-
2	partments and agencies that will participate in the
3	development of the Network, including identification
4	of any agency that will build the infrastructure need-
5	ed to operate and manage the Network (as distinct
6	from the individual agency components that are to
7	be part of the Network), with the delineation of roles
8	to be consistent with—
9	(A) the authority of the National Intel-
10	ligence Director under this Act to set standards
11	for information sharing and information tech-
12	nology throughout the intelligence community;
13	and
14	(B) the authority of the Secretary of
15	Homeland Security and the role of the Depart-
16	ment of Homeland Security in coordinating
17	with State, tribal, and local officials and the
18	private sector;
19	(3) a description of the technological require-
20	ments to appropriately link and enhance existing
21	networks and a description of the system design that
22	will meet these requirements;
23	(4) an enterprise architecture that—
24	(A) is consistent with applicable laws and
25	guidance with regard to planning, design, acqui-

1	sition, operation, and management of informa-
2	tion systems;
3	(B) will be used to guide and define the
4	development and implementation of the Net-
5	work; and
