Digital Content Forum

A Day in Your Life with FDsys

April 4, 2006

Session Overview

Facilitators:

- **Ric Davis**, Director, Library Services and Content Management
- **Michael Wash**, Chief Technical Officer

FDsys and the ILS

- Descriptive metadata is being managed using GPO's Integrated Library System (ILS).
- The ILS is a key element of FDsys.

GPO's System Overview

The Panel

- **Moira Shea**, Director of Program Communications
- **Gil Baldwin**, Associate Director, PMO
- **Lisa LaPlant**, Senior Program Planner, PMO
- **Selene Dalecky**, Associate Director, PMO
- **Kirk Knoll**, Associate Director, PMO

FDLP Engagement: Activities to Date

2005 FDLP Survey:

- Survey responses showed overwhelming support for GPO's concepts
- Three most requested features
 - Access to authentic and official Government publications
 - Migration of digital media to prevent technology obsolescence
 - Access to digitized publications with full-text search capability

FDLP Engagement: Activities to Date

2005 FDLP Survey:

- Respondents also expressed interest in multiple levels of search, access to version information for a publication, and the ability to pull bibliographic records from GPO.

FDLP Engagement: Future Plans

Updates:

- Regular updates in Administrative Notes

Surveys:

- Concerns – Hot Topics
- Evaluation – How are we doing?

Focus Groups:

- Collect actionable data

Web Conferencing:

- Better plan and coordinate future meetings

Scenario Introduction

- The scenarios represent FDsys as complete
- Integration of applications and services
- Still gathering user requirements
- Focus on What
- Not ~~HOW~~

Content Scenarios

Primary End User Interactions:

- Search and download documents, publications, and bibliographic records.
- View version information and verify authenticity.
- Select from available delivery options.
- Purchase tangible publications.
- Access related publications and resources.
- Receive personalized information.

Content Scenario 1

- A Federal Depository Librarian downloads the “Detailed Budget Estimates for the Legislative Branch” section of the FY07 Budget and prints a copy via a desktop printer in their library.

Content Scenario 2

- A Reference Librarian helps a patron find a tangible copy of the publication *A Healthier You* and other Federal Government resources related to nutrition.

Content Scenario 3

- A Law Librarian provides an electronic copy of the April 4, 2006, issue of the *Federal Register* to a legal researcher. The legal researcher verifies the authenticity and integrity of the publication. The legal researcher also verifies the chain of custody information.

Content Scenario 4

- An Acquisitions Librarian needs to replace her library's tangible copy of *Background Notes: Afghanistan* from September 2003. She also wants to make sure that patrons have access to current Government information about Afghanistan.

Content Scenario 5

- A Technical Processing Librarian downloads full MARC records for all publications in the Congressional Serial Set for the 105th Congress.

Content Scenario 6

- A Technical Processing Librarian schedules the digital deposit of volume 86 (2006) of the *Survey of Current Business* along with cataloging records.

Transactional Scenarios

Primary End User Interactions:

- Manage administrative account.
- Access publication status information and receive notifications about specific publications.
- Access user support and training.
- Collaborate with other information experts.

Transactional Scenario 1

- A Depository Librarian manages their administrative account.

Transactional Scenario 2

- A Depository Librarian accesses publication status information and receives notifications about specific publications.

Transactional Scenario 3

- A Depository Librarian accesses user support and training.

Transactional Scenario 4

- A Depository Librarian collaborates with other information experts and shares knowledge with users.
