“(b) The functions relating to the award of numbers to undocumented vessels vested by law in the collectors of customs are hereby transferred to the Commandant of the Coast Guard.

“SEC. 102. FUNCTIONS TRANSFERRED TO BUREAU OF CUSTOMS.—There are hereby transferred to the Commissioner of Customs those functions of the bureau, offices, and boards specified in the first sentence of section 104 of this plan, and of the Secretary of Commerce, which pertain to registry, enrollment, and licensing of vessels, including the issuance of commissions to yachts, the assignment of signal letters, and the preparation of all reports and publications in connection therewith; measurement of vessels, administration of tonnage duties, and collection of tolls; entry and clearance of vessels and aircraft, regulation of vessels in the coasting and fishing trades, and limitation of the use of foreign vessels in waters under the jurisdiction of the United States; recording of sales, conveyances, and mortgages of vessels; protection of steerage passengers; all other functions of such bureau, offices, and boards which were performed by the Bureau of Customs on behalf thereof immediately prior to the effective date of Executive Order No. 9083 of February 28, 1942 (7 F.R. 1609); and the power to remit and mitigate fines, penalties, and forfeitures incurred under the laws governing these functions.

“SEC. 103. POWERS OF THE SECRETARY OF THE TREASURY.—The functions transferred by sections 101 and 102 of this plan may be performed through such officers and employees of the United States Coast Guard and the Bureau of Customs, respectively, as may be designated by the Commandant of the Coast Guard and the Commissioner of Customs, respectively, and shall be performed subject to the direction and control of the Secretary of the Treasury except as otherwise required by law with respect to the United States Coast Guard whenever it operates as a part of the Navy.

“SEC. 104. ABOLITION OF AGENCIES.—The Bureau of Marine Inspection and Navigation, the office of the director thereof, the offices of supervising inspectors, principal traveling inspectors, local inspectors, assistant inspectors, shipping commissioners, deputy shipping commissioners, and the board of supervising inspectors, the boards of local inspectors, the marine casualty investigation board, and the marine boards are hereby abolished. The Secretary of the Treasury shall provide for winding up those affairs of the said abolished agencies which are not otherwise disposed of herein.”

This Reorganization Plan continued on a permanent basis the temporary transfer of functions made during World War II by Ex. Ord. No. 9083, §§1 to 4, eff. Feb. 28, 1942, 7 F.R. 1609, formerly set out under section 601 of Title 50, Appendix, War and National Defense.

By Coast Guard General Order 2-46, July 16, 1946, 11 F.R. 7775, and Treas. Dept. Reg. 51491, July 16, 1946, 11 F.R. 7766, the Commandant of the Coast Guard and The Commissioner of Customs each provided that all orders, rules, regulations, permits or other privileges made, issued or granted in respect of all functions transferred to him by Reorg. Plan No. 3 of 1946, §§101-104, and in effect at the time of such transfer should continue in effect to the same extent as if such transfer had not occurred.

On the basis of 33 C.F.R. ch. I, and 46 C.F.R. ch. I, the Commandant of the Coast Guard appears to have assigned the functions transferred to him as follows:

<i>Functions formerly performed by:</i>	<i>Now assigned to:</i>
Bureau of Marine Inspection and Navigation and its Director	Commandant of the Coast Guard
Board of Supervising Inspectors	Commandant of the Coast Guard
Supervising Inspector	Coast Guard District Commander
Board of Local Inspectors	Officer in Charge, Marine Inspection
Inspectors and Assistant Inspectors	Marine Inspectors (or “inspectors”)

For investigation of Marine casualties and suspension and revocation of licenses and certificates, formerly performed by the Marine Casualty Investigation Board and Marine Boards, see note set out under section 239 of this title.

Memoranda of the Chief Counsel of the Coast Guard, July 7, 1947, Chief Counsel of the Bureau of Customs, July 14, 1947, and Chief Counsel of the Treasury, July 21, 1947, concurred in the view that the duties of collectors of customs were not affected by Reorg. Plan No. 3 of 1946, with the exception of those duties specified in section 101(b) of the Plan.

CERTAIN FUNCTIONS FORMERLY PERFORMED BY BUREAU OF CUSTOMS

The following is a statement relating to the transfer of certain functions from the Commissioner of Customs to the Commandant of the Coast Guard, appearing in 32 F.R. 7408, 7409, May 18, 1967:

On April 28, 1967, a memorandum of agreement was signed by the Commandant of the Coast Guard and the Commissioner of Customs which provided that—

1. Treasury Department Order No. 167-81 transferred from the Commissioner of Customs to the Commandant, U.S. Coast Guard, the functions pertaining to the admeasurement of vessels, the documentation of vessels, the publication of merchant vessel registers, the registration of stack insignia, and shoreside port security. Because of the transfer of the Coast Guard from the Treasury Department to the Department of Transportation and because of continuing efforts to reorganize and modernize the shipping laws of the United States now assembled in title 46, U.S. Code, with a view toward eventual codification, it is recognized that the laws and provisions of law that relate to the transferred functions should be identified.

2. It is therefore agreed that—

ment of any charges for entering or clearing, dues, duty per ton, or tonnage taxes, but the Commissioner of Customs may, in his discretion, direct that such foreign yachts shall be required to obtain licenses to cruise, in a form prescribed by him, before they shall be allowed under the provisions of this section to cruise in waters of the United States. Such licenses shall be issued without cost to such yachts and shall prescribe such limitations as to length of time, direction, and place of cruising and action, and such other particulars as the Commissioner of Customs may deem proper.

CODIFICATION

This section was not amended or repealed by section 36 of the Payne-Aldrich Tariff Act of Aug. 5, 1909, ch. 6, 36 Stat. 111, relating to tonnage duties, but so much of it as related to yachts built outside the United States and owned by citizens of the United States was repealed by section 37 of that act, which was itself repealed by the Underwood Tariff Act of Oct. 13, 1913, ch. 16, § IV, S, 38 Stat. 201.

In text, the words “and subports” and “or subport” following “various ports” and “arrive at and depart from any port” respectively, were omitted.

By subdivision II of the President’s plan of reorganization of the Custom Service under the grant of authority contained in act Aug. 24, 1912, ch. 355, § 1, 37 Stat. 434, subports of entry not therein designated ports of entry were abolished and the use of the term “subport of entry” was discontinued.

AMENDMENTS

1948—Act June 26, 1948, removed the discrimination against yachts which do not belong to “regularly organized yacht clubs”.

TRANSFER OF FUNCTIONS

For transfer of functions, personnel, assets, and liabilities of the United States Customs Service of the Department of the Treasury, including functions of the Secretary of the Treasury relating thereto, to the Secretary of Homeland Security, and for treatment of related references, see sections 203(1), 551(d), 552(d), and 557 of Title 6, Domestic Security, and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, set out as a note under section 542 of Title 6.

Plan No. 26 of 1950, §§ 1, 2, eff. July 31, 1950, 15 F.R. 4935, 64 Stat. 1280, 1281, set out in the Appendix to Title 5, Government Organization and Employees. Commissioner of Customs, referred to in text, was an officer of Department of the Treasury. “Commissioner of Customs” substituted in text for “Secretary of Commerce” on authority of Reorg. Plan No. 3 of 1946, §§ 101–104, set out as a note preceding section 3 of this Appendix.

Upon incorporation into the Code, “Secretary of Commerce” substituted for “Secretary of Commerce and Labor” to conform to act Mar. 4, 1913.

DELEGATION OF FUNCTIONS

For delegation to Secretary of the Treasury of authority vested in President by this section, see Ex. Ord. No. 10289, eff. Sept. 17, 1951, 16 F.R. 9499, set out as a note under section 301 of Title 3, The President.

CODIFICATION

Provisions of this section are also classified to section 288 of Title 19, Customs Duties.

Provision of R.S. § 2793 respecting tonnage duties is classified to section 123 of this Appendix.

AMENDMENTS

1996—Pub. L. 104–324 substituted “registry endorsement, engaged in foreign trade on the Great Lakes or their tributary or connecting waters in trade with Canada,” for “coastwise, Great Lakes endorsement, departing from or arriving at a port in one district to or from a port in another district, and also touching at intermediate foreign ports,” and struck out “, as if from or to foreign ports” after “clearance fees”.

1993—Pub. L. 103–182 substituted “Documented vessels with a coastwise, Great Lakes endorsement,” for “Enrolled or licensed vessels engaged in the foreign and coasting trade on the northern, northeastern, and northwestern frontiers of the United States,” and a period for “; but such vessel shall, notwithstanding, be required to enter and clear; except that when such vessels are on such voyages on the Great Lakes and touch at foreign ports for the purpose of taking on bunker fuel only, they may be exempted from entering and clearing under such rules and regulations as the Secretary of Commerce may prescribe, notwithstanding any other provisions of law: *Provided*, That this exception shall not apply to such vessels if, while at such foreign port, they land or take on board any passengers, or any merchandise other than bunker fuel, receive orders, discharge any seamen by mutual consent, or engage any seamen to replace those discharged by mutual consent, or transact any other business save that of taking on bunker fuel.”

1941—Act Sept. 25, 1941, inserted exception and proviso at end of section.

A tonnage duty of 9 cents per ton, not to exceed in the aggregate 45 cents per ton in any one year, for fiscal years 1991 through 2002, and 2 cents per ton, not to exceed in the aggregate 10 cents per ton in any one year, for each fiscal year thereafter is imposed at each entry on all vessels which shall be entered in any port of the United States from any foreign port or place in North America, Central America, the West India Islands, the Bahama Islands, the Bermuda Islands, or the coast of South America bordering on the Caribbean Sea, or Newfoundland, and on all vessels (except vessels of the United States, recreational vessels, and barges, as those terms are defined in section 2101 of title 46) that depart a United States port or place and return to the same port or place without being entered in the United States from another port or place; and a duty of 27 cents per ton, not to exceed \$1.35 per ton per annum, for fiscal years 1991 through 2002, and 6 cents per ton, not to exceed 30 cents per ton per annum, for each fiscal year thereafter is imposed at each entry on all vessels which shall be entered in any port of the United States from any other foreign port. However, neither duty shall be imposed on vessels in distress or not engaged in trade.

Upon every vessel not of the United States, which shall be entered in one district from another district, having on board goods, wares, or merchandise taken in one district to be delivered in another district, duties shall be paid at the rate of 50 cents per ton: *Provided*, That no such duty shall be required where a vessel owned by citizens of the United States, but not a vessel of the United States, after entering an American port, shall, before leaving the same, be registered as a vessel of the United States. Any rights or privileges acquired by any foreign nation under the laws and treaties of the United States relative to the duty of tonnage on vessels shall not be impaired; and any vessel any officer of which shall not be a citizen of the United States shall pay a tax of 50 cents per ton.

(R.S. §4219; Feb. 27, 1877, ch. 69, §1, 19 Stat. 250; June 26, 1884, ch. 121, §14, 23 Stat. 57; Apr. 4, 1888, ch. 61, §1, 25 Stat. 80; Aug. 5, 1909, ch. 6, §36, 36

Stat. 111; Mar. 4, 1915, ch. 171, §1, 38 Stat. 1193; Pub. L. 101-508, title X, §10402(a), Nov. 5, 1990, 104 Stat. 1388-398; Pub. L. 103-66, title IX, §9001(a), (c)(1), Aug. 10, 1993, 107 Stat. 402; Pub. L. 105-33, title IX, §9201(a), Aug. 5, 1997, 111 Stat. 671.)

CODIFICATION

R.S. §4219 derived from acts July 20, 1790, ch. 30, §1, 1 Stat. 135; Apr. 27, 1816, ch. 107, §6, 3 Stat. 314; Jan. 14, 1817, ch. 3, §1, 3 Stat. 344; Mar. 1, 1817, ch. 31, §6, 3 Stat. 352; Mar. 3, 1817, ch. 50, 3 Stat. 369; May 31, 1830, ch. 219, §1, 4 Stat. 425; July 14, 1862, ch. 163, §15, 12 Stat. 558; June 28, 1864, ch. 170, 13 Stat. 201; Mar. 3, 1865, ch. 80, §4, 13 Stat. 493.

The first and third paragraphs of this section, with the exception of the proviso in the third paragraph, are from R.S. §4219.

A portion of that section omitted here provided that, in addition to the tonnage duty thereby imposed there should be paid a tax, at the rate of thirty cents per ton, on vessels entered at any custom house from any foreign port or place.

It was probably omitted as superseded and repealed by act June 26, 1884, as amended by acts June 19, 1886, ch. 421, §11, 24 Stat. 81; Apr. 4, 1888, and Aug. 5, 1909.

Another portion of the original text, concerning the impairment of rights and privileges of foreign nations under laws and treaties was probably omitted as sufficiently covered by the similar provision near the end of the section.

The second paragraph of this section is from act Aug. 5, 1909, §36. Portions of that paragraph omitted here, fixed the time of its taking effect, repealed R.S. §4232, act June 19, 1886, ch. 421, §§11 and 12, 24 Stat. 81, and so much of R.S. §4219 as conflicted therewith, and provided that it should not be construed to amend or repeal R.S. §2792, as amended, act May 28, 1908, ch. 212, §5, 35 Stat. 425, or R.S. §2793. That paragraph was expressly excepted from repeal by Underwood Tariff Act Oct. 13, 1913, ch. 16, §IV, S, 38 Stat. 201.

The proviso in the third paragraph of this section is based on act Mar. 4, 1915. Other provisions of that act are classified to section 128 of this Appendix, and sections 128 and 131 of Title 19, Customs Duties.

So much of act June 19, 1886, ch. 421, §11, 24 Stat. 81, as exempted any yacht built outside the United States, and owned, chartered or used by a citizen of the United States, from the payment of tonnage taxes, was repealed by act Feb. 5, 1897, ch. 167, §2, 29 Stat. 511. Act June 19, 1886, having been repealed as above stated section 2 of act Feb. 5, 1897, ch. 167, is no longer operative.

Section 12 of act June 19, 1886, which was repealed by the Payne-Aldrich Tariff Act of Aug. 5, 1909, §36, directed the President to cause the Governments of foreign countries, which, at any of their ports, imposed on American vessels a tonnage tax or light house dues, etc., to be informed of the provisions of section 11, and invited to co-operate with the Government of the United States in abolishing light house dues, etc.

R.S. §4223, provided that the tonnage duty imposed on all vessels engaged in foreign commerce should be levied but once within a year, and that when paid no further tonnage tax should be collected within one year from the date of such payment, not being applicable, however, to foreign vessels entered in the United States from any foreign port, to and with which vessels of the United States were not ordinarily permitted to enter and trade.

R.S. §4224, provided that vessels paying tonnage duties once a year should pay them at their first clearance from or entry at, according to priority, a custom house in the United States in each calendar year, but that it should not prevent customs officers from collecting such tonnage duty at the entry of vessels at their respective custom houses during the calendar year if the same had not previously been paid for such year.

Both these sections were repealed by act June 26, 1884, as amended by act June 19, 1886, ch. 421, §11, 24 Stat. 81.

Act June 19, 1878, ch. 318, 20 Stat. 171, amended R.S. §2931, by providing that it should not apply to cases of the payment of tonnage tax on vessels where the Secretary of the Treasury and the Attorney General were satisfied that the exaction of the tax was in contravention of treaty provisions. R.S. §2931, which provided for an appeal to the Secretary of the Treasury from the decision of the collector of customs as to the rate and amount of tonnage duties, etc., was repealed by act June 10, 1890, ch. 407, §29, 26 Stat. 141. Act June 19, 1878, further provided that the Secretary of the Treasury might draw his warrant for the refund of taxes so illegally exacted, as provided for by R.S. §3012½. R.S. §3012½, was also repealed by act June 10, 1890, §29. By the repeal of R.S. §§2931, 3012½, act June 19, 1878, ch. 318, became inoperative.

Act Feb. 10, 1900, ch. 15, §2, 31 Stat. 27, authorized the Secretary of the Treasury to refund tonnage taxes and light dues imposed on vessels owned by citizens of Cuba entering ports of the United States since Apr. 11, 1899, which had been in excess of the taxes prescribed by act June 19, 1886, ch. 421, §11, 24 Stat. 81. It was doubtless omitted from the code as executed.

R.S. §4232, repealed by the same section, provided that mail steamships employed in the mail-service between the United States and Brazil, should be exempt from all port charges and customs dues at the port of departure and arrival in the United States, if and so long as a similar immunity from port charges and custom-house charges was granted by the government of Brazil.

Section 37 of act Aug. 5, 1909, which provided for a tonnage tax on foreign built yachts, pleasure boats or vessels, not used or intended to be used for trade, owned, or chartered for more than six months by citizens of the United States, or, in lieu thereof, an ad valorem duty, and entitled such yachts, etc., upon payment thereof to all the privileges, subjected them to all the requirements prescribed by R.S. §§4214, 4215, 4217, 4218, and acts amendatory thereof, in the same manner as if they had been built in the United States, subjected such yachts, etc., to tonnage duty and light money only in the same manner as if they had been built in the United States, repealed so much of act May 28, 1908, ch. 212, §5, 35 Stat. 425, as related to yachts built outside the United States and owned by citizens of the United States, and provided that the section should not apply to foreign built vessels admitted to American registry, was repealed by the Underwood Tariff Act of Oct. 13, 1913, ch. 16, §IV, S, 38 Stat. 201.

Act June 5, 1920, ch. 250, §34, 41 Stat. 1007, directed the President to give notice to terminate provisions of treaties or conventions restricting the right of the United States to impose discriminating customs duties and tonnage dues. It was doubtless omitted as temporary and executed.

AMENDMENTS

1997—Second par. Pub. L. 105-33 substituted “for fiscal years 1991 through 2002,” for “for fiscal years 1991, 1992, 1993, 1994, 1995, 1996, 1997, 1998,” in two places.

1993—Second par. Pub. L. 103-66, §9001(c)(1), made technical correction to directory language of Pub. L. 101-508. See 1990 Amendment note below.

Pub. L. 103-66, §9001(a), substituted “1995, 1996, 1997, 1998,” for “and 1995,” in two places, “port or place; and a duty” for “port or place, and a duty”, and “port. However, neither duty shall be imposed on vessels in distress or not engaged in trade” for “port, not, however, to include vessels in distress or not engaged in trade”.

1990—Second par. Pub. L. 101-508, as amended by Pub. NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, by virtue of the authority vested in me by the above-quoted statutory provisions [this section] do hereby declare and proclaim that the foreign discriminating duties of tonnage and imposts within the United States are suspended and discontinued so far as respects the vessels of Korea and the produce, manufactures, or merchandise imported in said vessels into the United States from Korea or from any other foreign country; the suspension to take effect from October 1, 1952, and to continue so long as the reciprocal exemption of vessels belonging to citizens of the United States and their cargoes shall be continued, and no longer.

§ 142. Retaliatory suspension of commercial privileges to foreign vessels

Whenever any foreign country whose vessels have been placed on the same footing in the ports of the United States as American vessels (the coastwise trade excepted) shall deny to any vessels of the United States any of the commercial privileges accorded to national vessels in the harbors, ports, or waters of such foreign country, the President, on receiving satisfactory information of the continuance of such discriminations against any vessels of the United States, is authorized to issue his proclamation excluding, on and after such time as he may indicate, from the exercise of such commercial privileges in the ports of the United States as are denied to American vessels in the ports of such foreign country, all vessels of such foreign country of a similar character to the vessels of the United States thus discriminated against, and suspending such concessions previously granted to the vessels of such country; and on and after the date named in such proclamation for it to take effect, if the master, officer, or agent of any vessel of such foreign country excluded by said proclamation from the exercise of any commercial privileges shall do any act prohibited by said proclamation in the ports, harbors, or waters of the United States for or on account of such vessel, such vessel, and its rigging, tackle, furniture, and boats, and all the goods on board, shall be liable to seizure and to forfeiture to the United States; and any person opposing any officer of the United States in the enforcement of this section, or aiding and abetting any other person in such opposition, shall forfeit \$800, and shall be guilty of a misdemeanor, and, upon conviction, shall be liable to imprisonment for a term not exceeding two years.

§ 143. Retaliation on denial of rights to United States vessels in British North America

Whenever the President of the United States shall be satisfied that American fishing vessels or American fishermen, visiting or being in the waters or at any ports or places of the British dominions of North America, are or then lately have been denied or abridged in the enjoyment of any rights secured to them by treaty or law, or are or then lately have been unjustly vexed or

harassed in the enjoyment of such rights, or subjected to unreasonable restrictions, regulations, or requirements in respect of such rights; or otherwise unjustly vexed or harassed in said waters, ports, or places; or whenever the President of the United States shall be satisfied that any such fishing vessels or fishermen, having a permit under the laws of the United States to touch and trade at any port or ports, place or places, in the British dominions of North America, are or then lately have been denied the privilege of entering such port or ports, place or places in the same manner and under the same regulations as may exist therein applicable to trading vessels of the most favored nation, or shall be unjustly vexed or harassed, in respect thereof, or otherwise be unjustly vexed or harassed therein, or shall be prevented from purchasing such supplies as may there be lawfully sold to trading vessels of the most favored nation; or whenever the President of the United States shall be satisfied that any other vessels of the United States, their masters, or crews, so arriving at or being in such British waters or ports or places of the British dominions of North America, are or then lately have been denied any of the privileges therein accorded to the vessels, their masters, or crews, of the most favored nation, or unjustly vexed or harassed in respect of the same, or unjustly vexed or harassed therein by the authorities thereof, then, and in either or all of such cases, it shall be lawful, and it shall be the duty of the President of the United States, in his discretion, by proclamation to that effect, to deny vessels, their masters and crews, of the British dominions of North America, any entrance into the waters, ports, or places of or within the United States (with such exceptions in regard to vessels in distress, stress of weather, or needing supplies as to the President shall seem proper), whether such vessel shall have come directly from said dominions on such destined voyage or by way of some port or place in such destined voyage elsewhere; and also to deny entry into any port or place of the United States of fresh fish or salt fish or any other product of said dominions, or other goods coming from said dominions to the United States. The President may, in his discretion, apply such proclamation to any part or to all of the foregoing named subjects, and may revoke, qualify, limit, and renew such proclamation from time to time as he may deem necessary to the full and just execution of the purposes of this section. Every violation of any such proclamation, or any part thereof, is declared illegal, and all vessels and goods so coming or being within the waters, ports, or places of the United States contrary to such proclamation shall be forfeited to the United States; and such forfeiture shall be enforced and proceeded upon in the same manner and with the same effect as in the case of vessels or goods whose importation or coming to or being in the waters or ports of the United States contrary to law may be enforced and proceeded upon. In such case and during such suspension tolls shall be levied, collected, and paid as follows, to wit: Upon freight of whatever kind or description, not to exceed \$2 per ton; upon passengers, not to exceed \$5 each, as shall be from time to time determined by the President: *Provided*, That no tolls shall be charged or collected upon freight or passengers carried to and landed at Ogdensburg, or any port west of Ogdensburg, and south of a line drawn from the northern boundary of the State of New York through the Saint Lawrence River, the Great Lakes, and their connecting channels to the northern boundary of the State of Minnesota.

CODIFICATION

The provisions incorporated in this section, with portions of the original text omitted here, are classified to section 128 of Title 19, Customs Duties.

Section is a composite of acts Oct. 3, 1913, ch. 16, and Mar. 4, 1915, ch. 171, as amended. The words “nor to goods, wares, and merchandise imported in a vessel owned by citizens of the United States but not a vessel of the United States if such vessel after entering an American port shall, before leaving the same, be documented under chapter 121 of title 46” are based on the nonspecific amendment of act Oct. 3, 1913, by act Mar. 4, 1915, as amended.

Subsec. 1 of act Oct. 3, 1913, §IV, par. J, provided also for a discriminating duty on goods, wares and merchandise produced or manufactured in a foreign country not contiguous to the United States but coming into the United States from such contiguous country. That provision is classified to section 128 of Title 19.

R.S. §2502 imposed a discriminating duty upon merchandise imported in foreign vessels. It was superseded by subsequent similar provisions in successive tariff acts, the latest of which is classified to this section.

No owner of any vessel shall be liable to answer for or make good to any person any loss or damage, which may happen to any merchandise whatsoever, which shall be shipped, taken in, or put on board any such vessel, by reason or by means of any fire happening to or on board the vessel, unless such fire is caused by the design or neglect of such owner.

The liability of the owner of any vessel, whether American or foreign, for any embezzlement, loss, or destruction by any person of any property, goods, or merchandise shipped or put on board of such vessel, or for any loss, damage, or injury by collision, or for any act, matter, or thing, loss, damage, or forfeiture, done, occasioned, or incurred, without the privity or knowledge of such owner or owners, shall not, except in the cases provided for in subsection (b) of this section, exceed the amount or value of the interest of such owner in such vessel, and her freight then pending.

(b) Seagoing vessels; losses not covered in full

In the case of any seagoing vessel, if the amount of the owner's liability as limited under subsection (a) of this section is insufficient to pay all losses in full, and the portion of such amount applicable to the payment of losses in respect of loss of life or bodily injury is less than \$420 per ton of such vessel's tonnage, such portion shall be increased to an amount equal to \$420 per ton, to be available only for the payment of losses in respect of loss of life or bodily injury. If such portion so increased is insufficient to pay such losses in full, they shall be paid therefrom in proportion to their respective amounts.

(c) Tonnage of seagoing vessels

For the purposes of this section the tonnage of a seagoing steam or motor vessel shall be her gross tonnage without deduction on account of engine room, and the tonnage of a seagoing sailing vessel shall be her registered tonnage: *Provided*, That there shall not be included in such tonnage any space occupied by seamen or apprentices and appropriated to their use.

(e) Privity imputed to owner

In respect of loss of life or bodily injury the privity or knowledge of the master of a seagoing vessel or of the superintendent or managing agent of the owner thereof, at or prior to the commencement of each voyage, shall be deemed conclusively the privity or knowledge of the owner of such vessel.

(f) "Seagoing vessel" defined

As used in subsections (b), (c), (d), and (e) of this section and in section 183b of this Appendix, the term "seagoing vessel" shall not include pleasure yachts, tugs, towboats, towing vessels, tank vessels, fishing vessels or their tenders, self-propelled lighters, nondescript self-pro-

(a) Time periods

It shall be unlawful for the manager, agent, master, or owner of any sea-going vessel (other

(b) Claims not barred for failure to give notice

Failure to give such notice, where lawfully prescribed in such contract, shall not bar any such claim—

(1) If the owner or master of the vessel or his agent had knowledge of the injury, damage, or loss and the court determines that the owner has not been prejudiced by the failure to give such notice; nor

(2) If the court excuses such failure on the ground that for some satisfactory reason such notice could not be given; nor

(3) Unless objection to such failure is raised by the owner.

(c) Mental incompetents; minors; wrongful death actions

If a person who is entitled to recover on any such claim is mentally incompetent or a minor, or if the action is one for wrongful death, any lawful limitation of time prescribed in such contract shall not be applicable so long as no legal representative has been appointed for such incompetent, minor, or decedent's estate, but shall be applicable from the date of the appointment of such legal representative: *Provided, however*, That such appointment be made within three years after the date of such death or injury.

All such provisions or limitations contained in any such rule, regulation, contract, or agreement are declared to be against public policy and shall be null and void and of no effect.

(b)(1) Subsection (a) of this section shall not prohibit provisions or limitations in contracts, agreements, or ticket conditions of carriage with passengers which relieve a crewmember, manager, agent, master, owner, or operator of a

vessel from liability for infliction of emotional distress, mental suffering, or psychological injury so long as such provisions or limitations do not limit such liability if the emotional distress, mental suffering, or psychological injury was—

(A) the result of physical injury to the claimant caused by the negligence or fault of a crewmember or the manager, agent, master, owner, or operator;

(B) the result of the claimant having been at actual risk of physical injury, and such risk was caused by the negligence or fault of a crewmember or the manager, agent, master, owner, or operator; or

(C) intentionally inflicted by a crewmember or the manager, agent, master, owner, or operator.

Whenever any such embezzlement, loss, or destruction is suffered by several freighters or owners of goods, wares, merchandise, or any property whatever, on the same voyage, and the whole value of the vessel, and her freight for the voyage, is not sufficient to make compensation to each of them, they shall receive compensation from the owner of the vessel in proportion to their respective losses; and for that purpose the freighters and owners of the property, and the owner of the vessel, or any of them, may take the appropriate proceedings in any court, for the purpose of apportioning the sum for which the owner of the vessel may be liable among the parties entitled thereto.

It shall be unlawful for any vessel not wholly owned by a person who is a citizen of the United States within the meaning of the laws respecting the documentation of vessels and not having in force a certificate of documentation issued under section 12106 of title 46 to tow any vessel other than a vessel in distress, from any port or place in the United States, its Territories or possessions, embraced within the coastwise laws of the United States, to any other port or place within the same, either directly or by way of a foreign port or place, or to do any part of such towing, or to tow any such vessel, from point to point within the harbors of such places, or to tow any vessel transporting valueless material or any dredged material, regardless of whether it has commercial value, from a point or place in the United States or a point or place on the high seas within the Exclusive Economic Zone as defined in the Presidential Proclamation of March 10, 1983, to another point or place in the United States or a point or place on the high seas within that Exclusive Economic Zone. The owner and master of any vessel towing another vessel in violation of the provisions of this section shall each be liable to a fine of not less than \$250 nor more than \$1,000, which fines shall constitute liens upon the offending vessel enforceable through the district court of the United States for any district in which such vessel may be found, and clearance shall not be granted to such vessel until the fines have been

paid. The towing vessel shall also be further liable to a penalty of \$50 per ton on the measurement of every vessel towed in violation of this section, which sum may be recovered by way of libel or suit.

(b) "Person" defined

The term "person" as used in subsection (a) of this section, shall be held to include persons, firms, partnerships, associations, organizations, and corporations, doing business or existing under or by the authority of the laws of the United States, or of any State, Territory, district, or other subdivision thereof.

(c) Foreign railroad companies using ferries, tugboats, or towboats

Any foreign railroad company or corporation, whose road enters the United States by means of a ferry, tugboat, or towboat, may own such vessel and operate the same in connection with the water transportation of the passenger, freight, express, baggage, and mail cars used by such road, together with the passengers, freight, express matter, baggage, and mails transported in such cars, without being subject to any other or different restrictions than those imposed by law on any vessel of the United States entering ports of the United States from ports in the same foreign country: *Provided*, That except as authorized by section 883 of this Appendix, such ferry, tugboat, or towboat shall not, under penalty of forfeiture, be used in connection with the transportation of any merchandise shipped from any port or place in the United States, its Territories or possessions, embraced within the coastwise laws of the United States, to any other port or place within the same.

(d) Salvaging operations by foreign vessels

No foreign vessel shall, under penalty of forfeiture, engage in salvaging operations on the Atlantic or Pacific coast of the United States, in any portion of the Great Lakes or their connecting or tributary waters, including any portion of the Saint Lawrence River through which the international boundary line extends, or in territorial waters of the United States on the Gulf of Mexico, except when authorized by a treaty or in accordance with the provisions of section 725 of this Appendix: *Provided, however*, That if, on investigation, the Commissioner of Customs is satisfied that no suitable vessel wholly owned by a person who is a citizen of the United States and documented under the laws of the United States or numbered pursuant to the Act of June 7, 1918, as amended (46 U.S.C. 288), is available in any particular locality he may authorize the use of a foreign vessel or vessels in salvaging operations in that locality and no penalty shall be incurred for such authorized use.

(e) Operations permitted by treaty

Nothing in this section shall be held or construed to prohibit or restrict any assistance to vessels or salvage operations authorized by article II of the treaty between the United States and Great Britain "concerning reciprocal rights for United States and Canada in the conveyance of prisoners and wrecking and salvage" signed at Washington, May 18, 1908 (35 Stat. 2036), or by the treaty between the United States and Mex-

SHORT TITLE

Act Mar. 9, 1920, ch. 95, which enacted this chapter, is popularly known as the “Suits in Admiralty Act”.

§ 742. Libel in personam

In cases where if such vessel were privately owned or operated, or if such cargo were privately owned or possessed, or if a private person or property were involved, a proceeding in admiralty could be maintained, any appropriate nonjury proceeding in personam may be brought against the United States or against such corporation. Such suits shall be brought in the district court of the United States for the district in which the parties so suing, or any of them, reside or have their principal place of business in the United States, or in which the vessel or cargo charged with liability is found. In case the United States or such corporation shall file a libel in rem or in personam in any district, a cross libel in personam may be filed or a set-off claimed against the United States or such corporation with the same force and effect as if the libel had been filed by a private party. Upon application of either party the cause may, in the discretion of the court, be transferred to any other district court of the United States.

(Mar. 9, 1920, ch. 95, §2, 41 Stat. 525; Pub. L. 86-770, §3, Sept. 13, 1960, 74 Stat. 912; Pub. L. 104-324, title XI, §1105, Oct. 19, 1996, 110 Stat. 3967.)

REFERENCES IN TEXT

Such corporation, referred to in text, probably means a corporation mentioned in section 741 of this Appendix.

AMENDMENTS

1996—Pub. L. 104-324 struck out “The libelant shall forthwith serve a copy of his libel on the United States attorney for such district and mail a copy thereof by registered mail to the Attorney General of the United States, and shall file a sworn return of such service and mailing. Such service and mailing shall constitute valid service on the United States and such corporation.” after “liability is found.”

1960—Pub. L. 86-770 amended first sentence by substituting “owned or possessed” for “owned and possessed” and “, any appropriate nonjury proceeding” for “at the time of the commencement of the action herein provided for, a libel”, inserting “or if a private person or property were involved” and striking out “as the case may be, provided that such vessel is employed as a merchant vessel or is a tugboat operated by such corporation” after “such corporation”.

EFFECTIVE DATE OF 1960 AMENDMENT

Section 4 of Pub. L. 86-770 provided in part that: “The amendment made by section 3 [amending this section] shall apply to any case or proceeding brought after the date of enactment of this Act [Sept. 13, 1960].”

§ 743. Procedure in cases of libel in personam

Such suits shall proceed and shall be heard and determined according to the principles of law and to the rules of practice obtaining in like cases between private parties. A decree against the United States or such corporation may include costs of suit, and when the decree is for a money judgment, interest at the rate of 4 per centum per annum until satisfied, or at any higher rate which shall be stipulated in any contract upon which such decree shall be based. Interest shall run as ordered by the court. Decrees shall be subject to appeal and revision as now provided in other cases of admiralty and maritime jurisdiction. If the libelant so elects in his libel, the suit may proceed in accordance with the principles of libels in rem wherever it shall appear that had the vessel or cargo been privately owned and possessed a libel in rem might have been maintained. Election so to proceed shall not preclude the libelant in any proper case from seeking relief in personam in the same suit. Neither the United States nor such corporation shall be required to give any bond or admiralty stipulation on any proceeding brought hereunder.

“(b) Nothing in subsection (a) of this section shall be construed to repeal—

“(1) section 1115 of Title 46 [46 App. U.S.C. 1115], or any provision of law providing penalties for violations of said section;

“(2) the third sentence of section 844 of Title 46 [46 App. U.S.C. 844], as extended by section 845b of Title 46 [46 App. U.S.C. 845b], or any provision of law providing penalties for violations of section 844 of Title 46;

“(3) the provisions of the Shipping Act of 1916, as amended [section 801 et seq. of this Appendix], insofar as such Act provides for the regulation of persons included within the term ‘other person subject to this Act’, as defined in such Act;

“(4) sections 883 and 884 of Title 46 [46 App. U.S.C. 883, 884].

“(c) Nothing in subsection (a) of this section shall be construed to affect the provisions of section 814 of Title 46 [46 App. U.S.C. 814] so as to prevent any water carrier subject to the provisions of this chapter from entering into any agreement under the provisions of said section

with respect to transportation not subject to the provisions of this chapter in which such carrier may be engaged.

“(d) Nothing in this chapter shall be construed to affect any law of navigation, the admiralty jurisdiction of the courts of the United States, liabilities of vessels and their owners for loss or damage, or laws respecting seamen, or any other maritime law, regulation, or custom not in conflict with the provisions of this chapter.”

§ 866. Establishment and operation of steamship lines between ports of United States

Investigation and determination by Secretary—The Secretary of Transportation is authorized and directed to investigate and determine as promptly as possible after June 5, 1920, and from time to time thereafter what steamship lines should be established and put in operation from ports in the United States or any Territory, District, or possession thereof to such world and domestic markets as in his judgment are desirable for the promotion, development, expansion, and maintenance of the foreign and coastwise trade of the United States and an adequate postal service, and to determine the type, size, speed, and other requirements of the vessels to be em-

ployed upon such lines and the frequency and regularity of their sailings, with a view to furnishing adequate, regular, certain, and permanent service.

Sale or charter of vessels—The Secretary of Transportation is authorized to sell, and if a satisfactory sale cannot be made, to charter such of the vessels referred to in section 863 of this Appendix or otherwise acquired by the Secretary of Transportation, as will meet these requirements to responsible persons who are citizens of the United States who agree to establish and maintain such lines upon such terms of payment and other conditions as the Secretary of Transportation may deem just and necessary to secure and maintain the service desired; and if any such steamship line is deemed desirable and necessary, and if no such citizen can be secured to supply such service by the purchase or charter of vessels on terms satisfactory to the Secretary of Transportation, the Secretary of Transportation shall operate vessels on such line until the business is developed so that such vessels may be sold on satisfactory terms and the service maintained, or unless it shall appear within a reasonable time that such line cannot be made self-sustaining.

Preference in sales or charters—Preference in the sale or assignment of vessels for operation on such steamship lines shall be given to persons who are citizens of the United States who have the support, financial and otherwise, of the domestic communities primarily interested in such lines if the Secretary of Transportation is satisfied of the ability of such persons to maintain the service desired and proposed to be maintained, or to persons who are citizens of the United States who may then be maintaining a service from the port of the United States to or in the general direction of the world-market port to which the Secretary of Transportation has determined that such service should be established.

Lines established by shipping board; continued operation—Where steamship lines and regular service had been established and were being maintained by ships of the United States Shipping Board on June 5, 1920, such lines and service shall be maintained by the Secretary of Commerce until, in the opinion of the Secretary, the maintenance thereof is unbusinesslike and against the public interests.

Additional lines established by Secretary; rates and charges—Whenever the Secretary of Transportation shall determine, as provided in this Act, that trade conditions warrant the establishment of a service or additional service under Government administration where a service is already being given by persons, citizens of the United States, the rates and charges for such Government service shall not be less than the cost thereof, including a proper interest and depreciation charge on the value of Government vessels and equipment employed therein.

§ 871. Repair and operation of vessels until sale

All vessels may be reconditioned and kept in suitable repair and until sold shall be managed and operated by the Secretary of Transportation or chartered or leased by him on such terms and conditions as the Secretary of Transportation shall deem wise for the promotion and maintenance of an efficient merchant marine, pursuant to the policy and purposes declared in section 861 of this Appendix and section 5 of this Act.¹

The term "reconditioned" as used in this section includes the substitution of the most modern, most efficient, and most economical types of internal-combustion engines as the main propulsive power of vessels. Should the Secretary of Transportation have any such engines built in the United States and installed, in private shipyards or navy yards of the United States, in one or more merchant vessels owned by the United States, and the cost to the Secretary of Transportation of such installation exceeds the

amount of funds otherwise available to him for that use, the Secretary of Transportation may transfer to his funds from which expenditures under this section may be paid, from his construction fund authorized by section 11¹ of the Merchant Marine Act, 1920, so much as in his judgment may be necessary to meet obligations under contracts for such installation; and the Treasurer of the United States shall, at the request of the Secretary of Transportation, make the transfer accordingly: *Provided*, That the total amount expended by the Secretary of Transportation for this purpose shall not in the aggregate exceed \$25,000,000. Any such vessel after June 5, 1920, so equipped by the Secretary of Transportation under the provisions of this section shall not be sold for a period of five years from the date the installation thereof is completed, unless it is sold for a price not less than the cost of the installation thereof and of any other work of reconditioning done at the same time plus an amount not less than \$10 for each dead-weight ton of the vessel as computed before such reconditioning thereof is commenced. The date of the completion of such installation and the amount of the dead-weight tonnage of the vessel shall be fixed by the Secretary of Transportation: *Provided further*, That in fixing the minimum price at which the vessel may thus be sold the Secretary of Transportation may deduct from the aggregate amount above prescribed 5 per centum thereof per annum from the date of the installation to the date of sale as depreciation: *And provided further*, That no part of such fund shall be expended upon the reconditioning of any vessel unless the Secretary of Transportation shall have first made a binding contract for a satisfactory sale of such vessel in accordance with the provisions of this Act, or for the charter or lease of such vessels for a period of not less than five years by a capable, solvent operator; or unless the Secretary of Transportation is prepared and intends to directly put such vessel in operation immediately upon completion. Such vessel, in any of the enumerated instances, shall be documented under the laws of the United States and shall remain documented under such laws for a period of not less than five years from the date of the completion of the installation, and during such period it shall be operated only on voyages which are not exclusively coastwise.

No merchandise, including merchandise owned by the United States Government, a State (as defined in section 2101 of the¹ title 46), or a subdivision of a State, shall be transported by water, or by land and water, on penalty of forfeiture of the merchandise (or a monetary amount up to the value thereof as determined by the Secretary of the Treasury, or the actual cost of the transportation, whichever is greater, to be recovered from any consignor, seller, owner, importer, consignee, agent, or other person or persons so transporting or causing said merchandise to be transported), between points in the United States, including Districts, Territories, and possessions thereof embraced within the coastwise laws, either directly or via a foreign port, or for any part of the transportation, in any other vessel than a vessel built in and documented under the laws of the United States and owned by persons who are citizens of the United States, or vessels to which the privilege of engaging in the coastwise trade is extended by section 808 of this Appendix or section 22² of this Act: *Provided*, That no vessel of more than 200 gross tons (as measured under chapter 143 of title 46) having at any time acquired the lawful right to engage in the coastwise trade, either by virtue of having been built in, or documented under the laws of the United States, and later sold foreign in whole or in part, or placed under

foreign registry, shall hereafter acquire the right to engage in the coastwise trade: *Provided further*, That no vessel which has acquired the lawful right to engage in the coastwise trade, by virtue of having been built in or documented under the laws of the United States, and which has later been rebuilt shall have the right thereafter to engage in the coastwise trade, unless the entire rebuilding, including the construction of any major components of the hull or superstructure of the vessel, is effected within the United States, its territories (not including trust territories), or its possessions: *Provided further*, That this section shall not apply to merchandise transported between points within the continental United States, including Alaska, over through routes heretofore or hereafter recognized by the Surface Transportation Board for which routes rate tariffs have been or shall hereafter be filed with the Board when such routes are in part over Canadian rail lines and their own or other connecting water facilities: *Provided further*, That this section shall not become effective upon the Yukon River until the Alaska Railroad shall be completed and the Secretary of Transportation shall find that proper facilities will be furnished for transportation by persons citizens of the United States for properly handling the traffic: *Provided further*, That this section shall not apply to the transportation of merchandise loaded on railroad cars or to motor vehicles with or without trailers, and with their passengers or contents when accompanied by the operator thereof, when such railroad cars or motor vehicles are transported in any railroad car ferry operated between fixed termini on the Great Lakes as a part of a rail route, if such car ferry is owned by a common carrier by water and operated as part of a rail route with the approval of the Surface Transportation Board, and if the stock of such common carrier by water, or its predecessor, was owned or controlled by a common carrier by rail prior to June 5, 1920, and if the stock of the common carrier owning such car ferry is, with the approval of the Board, now owned or controlled by any common carrier by rail and if such car ferry is built in and documented under the laws of the United States: *Provided further*, That upon such terms and conditions as the Secretary of the Treasury by regulation may prescribe, and, if the transporting vessel is of foreign registry, upon a finding by the Secretary of the Treasury, pursuant to information obtained and furnished by the Secretary of State, that the government of the nation of registry extends reciprocal privileges to vessels of the United States, this section shall not apply to the transportation by vessels of the United States not qualified to engage in the coastwise trade, or by vessels of foreign registry, of (a) empty cargo vans, empty lift vans, and empty shipping tanks, (b) equipment for use with cargo vans, lift vans, or shipping tanks, (c) empty barges specifically designed for carriage aboard a vessel and equipment, excluding propulsion equipment, for use with such barges, and (d) any empty instrument for international traffic exempted from application of the customs laws by the Secretary of the Treasury pursuant to the provisions of section 1322(a) of title 19, if the articles described in clauses (a) through (d)

are owned or leased by the owner or operator of the transporting vessel and are transported for his use in handling his cargo in foreign trade; and (e) stevedoring equipment and material, if such equipment and material is owned or leased by the owner or operator of the transporting vessel, or is owned or leased by the stevedoring company contracting for the lading or unlading of that vessel, and is transported without charge for use in the handling of cargo in foreign trade: *Provided further*, That upon such terms and conditions as the Secretary of the Treasury by regulation may prescribe, and, if the transporting vessel is of foreign registry, upon his finding, pursuant to information furnished by the Secretary of State, that the government of the nation of registry extends reciprocal privileges to vessels of the United States, the Secretary of the Treasury may suspend the application of this section to the transportation of merchandise between points in the United States (excluding transportation between the continental United States and noncontiguous states, districts, territories, and possessions embraced within the coastwise laws) which, while moving in the foreign trade of the United States, is transferred from a non-self-propelled barge certified by the owner or operator to be specifically designed for carriage aboard a vessel and regularly carried aboard a vessel in foreign trade to another such barge owned or leased by the same owner or operator, without regard to whether any such barge is under foreign registry or qualified to engage in the coastwise trade: *Provided further*, That until April 1, 1984, and notwithstanding any other provisions of this section, any vessel documented under the laws of the United States and owned by persons who are citizens of the United States may, when operated upon a voyage in foreign trade, transport merchandise in cargo vans, lift vans, and shipping-tanks between points embraced within the coastwise laws for transfer to or when transferred from another vessel or vessels, so documented and owned, of the same operator when the merchandise movement has either a foreign origin or a foreign destination; but this proviso (1) shall apply only to vessels which that same operator owned, chartered or contracted for the construction of prior to November 16, 1979, and (2) shall not apply to movements between points in the contiguous United States and points in Hawaii, Alaska, the Commonwealth of Puerto Rico and United States territories and possessions. For the purposes of this section, after December 31, 1983, or after such time as an appropriate vessel has been constructed and documented as a vessel of the United States, the transportation of hazardous waste, as defined in section 6903(5) of title 42, from a point in the United States for the purpose of the incineration at sea of that waste shall be deemed to be transportation by water of merchandise between points in the United States: *Provided, however*, That the provisions of this sentence shall not apply to this transportation when performed by a foreign-flag ocean incineration vessel, owned by or under construction on May 1, 1982, for a corporation wholly owned by a citizen of the United States; the term "citizen of the United States", as used in this proviso, means a cor-

poration as defined in section 802(a) and (b) of this Appendix. The incineration equipment on these vessels shall meet all current United States Coast Guard and Environmental Protection Agency standards. These vessels shall, in addition to any other inspections by the flag state, be inspected by the United States Coast Guard, including drydock inspections and internal examinations of tanks and void spaces, as would be required of a vessel of the United States. Satisfactory inspection shall be certified in writing by the Secretary of Transportation. Such inspections may occur concurrently with any inspections required by the flag state or subsequent to but no more than one year after the initial issuance or the next scheduled issuance of the Safety of Life at Sea Safety Construction Certificate. In making such inspections, the Coast Guard shall refer to the conditions established by the initial flag state certification as the basis for evaluating the current condition of the hull and superstructure. The Coast Guard shall allow the substitution of an equivalent fitting, material, appliance, apparatus, or equipment other than that required for vessels of the United States if the Coast Guard has been satisfied that fitting, material, appliance, apparatus, or equipment is at least as effective as that required for vessels of the United States³ *Provided further*, That for the purposes of this section, supplies aboard United States documented fish processing vessels, which are necessary and used for the processing or assembling of fishery products aboard such vessels, shall be considered ship's equipment and not merchandise: *Provided further*, That for purposes of this section, the term "merchandise" includes valueless material: *Provided further*, That this section applies to the transportation of valueless material or any dredged material regardless of whether it has commercial value, from a point or place in the United States or a point or place on the high seas within the Exclusive Economic Zone as defined in the Presidential Proclamation of March 10, 1983, to another point or place in the United States or a point or place on the high seas within that Exclusive Economic Zone: *Provided further*, That the transportation of any platform jacket in or on a non-coastwise qualified launch barge, that was built before December 31, 2000, and has a launch capacity of 12,000 long tons or more, between two points in the United States, at one of which there is an installation or other device within the meaning of section 1333(a) of title 43, shall not be deemed transportation subject to this section if the Secretary of Transportation makes a determination, in accordance with procedures established pursuant to this proviso that a suitable coastwise-qualified vessel is not available for use in the transportation and, if needed, launch or installation of a platform jacket and; that the Secretary of Transportation shall adopt procedures implementing this proviso that are reasonably designed to provide timely information so as to maximize the use of coastwise qualified-vessels, which procedures shall, among other things, establish that for purposes of this proviso, a coastwise-qualified vessel shall be

2002—Pub. L. 107-295 in proviso pertaining to transportation by launch barge, inserted before period at end "; and for the purposes of this proviso, the term 'platform jacket' includes any type of offshore drilling or production structure or components, including platform jackets, tension leg or SPAR platform superstructures (including the deck, drilling rig and support utilities, and supporting structure) hull (including vertical legs and connecting pontoons or vertical cylinder), tower and base sections of a platform jacket, jacket structures, and deck modules (known as 'topsides') of a hydrocarbon development and production platform".

1996—Pub. L. 104-324 in first proviso inserted "of more than 200 gross tons (as measured under chapter 143 of title 46)" after "no vessel", in third proviso substituted "Surface Transportation Board" for "Interstate Commerce Commission" and "the Board" for "said Commission", and in fifth proviso substituted "Surface Transportation Board" for "Interstate Commerce Commission" the first place appearing and "Board" for "Interstate Commerce Commission" the second place appearing.

Provisions of the first sentence of subsec. (e) that authorized the appointment and fixing of the salaries of a secretary, etc., "without regard to the civil-service laws or the Classification Act of 1923, as amended", and provisions that prohibited such employees from receiving an annual salary at a rate in excess of that provided under the Classification Act of 1923, as amended, were omitted as obsolete and superseded.

Such appointments are now subject to the civil service laws unless specifically excepted by such laws or by laws enacted subsequent to Executive Order 8743, Apr. 23, 1941, issued by the President pursuant to the act of Nov. 26, 1940, ch. 919, title I, §1, 54 Stat. 1211, which covered most excepted positions into the classified (competitive) civil service. The Order is set out as a note under section 3301 of Title 5, Government Organization and Employees.

As to the salaries of such personnel, sections 1202 and 1204 of the Classification Act of 1949, 63 Stat. 972, 973, repealed the Classification Act of 1923 and all other laws or parts of laws inconsistent with the 1949 Act. The Classification Act of 1949 was repealed by Pub. L. 89-554, Sept. 6, 1966, §8(a), 80 Stat. 632, and reenacted as chapter 51 and subchapter III of chapter 53 of Title 5. Section 5102 of Title 5 contains the applicability provisions of the 1949 Act, and section 5103 of Title 5 authorizes the Office of Personnel Management to determine the applicability to specific positions and employees.

In the last sentence of subsec. (e), "chapter 51 and subchapter III of chapter 53 of title 5" substituted for "the Classification Act of 1949, as amended" on authority of Pub. L. 89-554, §7(b), Sept. 6, 1966, 80 Stat. 631, the first section of which enacted Title 5.

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I transmit herewith Reorganization Plan No. 7 of 1961, prepared in accordance with the Reorganization Act of 1949, as amended, and providing for the reorganization of maritime functions.

The basic objective of the plan is to strengthen and revitalize the administration of our Federal programs concerned with the promotion and development of the U.S. merchant marine by concentrating responsibility in separate agencies for the performance of regulatory and promotional functions. The plan provides, therefore, for the creation of a separate Federal Maritime Commission, composed of five Commissioners, which would be charged with the regulatory functions of the present Federal Maritime Board. There would be transferred from the Federal Maritime Board to the Secretary of Commerce the award of subsidies and related promotional functions. The Secretary of Commerce would retain the functions transferred to him by Reorganization Plan No. 21 of 1950 which reorganized the U.S. Maritime Commission into a Federal Maritime Board and a Maritime Administration in the Department of Commerce. The plan retains the present Maritime Administration, provides for an Administrator as head thereof, retains a Deputy Maritime Administrator, and effects no change in the Office of the Under Secretary of Commerce for Transportation. The Federal Maritime Board is abolished.

Existing organizational arrangements have not proved to be satisfactory. The development and maintenance of a sound maritime industry require that the Federal Government carry out its dual responsibilities for regulation and promotion with equal vigor and effectiveness. Intermingling of regulatory and promotional functions has tended in this instance to dilute responsibility and has led to serious inadequacies, particularly in the administration of regulatory functions. Recent findings by committees of the Congress disclose serious violations of maritime laws and point to the urgent need for a reorganization to vest in completely separate agencies a responsibility for (1) regulatory functions and (2) promotional and operating functions.

The plan would provide the most appropriate organizational framework for each of the functions concerned. Regulation would be made the exclusive responsibility of a separate commission organized along the general lines of other regulatory agencies. On the other hand, nonregulatory functions, including the determination and award of subsidies and other promotional and operating activities, would be concentrated in the head of the Department of Commerce. The Secretary of Commerce is best qualified to coordinate these activities with other transportation and related economic programs.

The vesting of all subsidy functions in the Secretary of Commerce will make it possible for the Congress and the President to hold a single official responsible and accountable for the effective conduct of all aspects of this program, including the size and character of the

fleet under the U.S. flag, the need for Government assistance, and requirements for appropriations to support subsidy programs. Furthermore, the placing of these functions in the Secretary of Commerce will assure essential supervision and review of subsidy awards.

The taking effect of the reorganizations included in the accompanying reorganization plan will result in a modest increase in expenditures. The improved organizational alignments provided by the plan will, however, make possible a more effective and expeditious administration of the statutory objectives to foster and promote a U.S. merchant marine capable of meeting the Nation's needs in peace and war. Failure to meet these objectives would be far more costly than the anticipated increase in expenditures under the plan.

After investigation, I have found and hereby declare that each reorganization included in Reorganization Plan No. 7 of 1961 is necessary to accomplish one or more of the purposes set forth in section 2(a) of the Reorganization Act of 1949, as amended.

I have also found and hereby declare that it is necessary to include in the accompanying reorganization plan, by reason of reorganizations made thereby, provisions for the appointment and compensation of new officers specified in sections 102 and 201 of the plan. The rates of compensation fixed for these officers are, respectively, those which I have found to prevail in respect of comparable officers in the executive branch of the Government.

I recommend that the Congress allow the reorganization plan to become effective.

JOHN F. KENNEDY.

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I transmit herewith Reorganization Plan No. 21 of 1950, prepared in accordance with the provisions of the Reorganization Act of 1949. This plan effects a basic reorganization of the functions of the United States Maritime Commission along the lines recommended by the Commission on Organization of the Executive Branch of the Government.

Within the last 3 years three different bodies have studied the administration of the Maritime Commission. All have concluded that the operating deficiencies of the agency arise from inappropriate and unsound organization and that a fundamental reorganization is essential. The first of these bodies, the President's Advisory Committee on the Merchant Marine, in 1947, stated:

It appears to the Committee that the organization structure of the Maritime Commission as set up in the Merchant Marine Act of 1936 is wholly inadequate for the efficient conduct of the multitude of diverse activities for which the Maritime Commission is now responsible. The deficiencies of the statutory organization for administrative action

are regarded by the Committee to be the most serious obstacle standing in the way of the development of the Merchant Marine of this country. Similarly, the survey of the Maritime Commission in 1948 for the Senate Committee on Expenditures in the Executive Departments concluded that—

The fundamental weakness of the Maritime Commission, as it is now constituted, lies in its prescribed organization.

On the basis of investigations of the Maritime Commission by two of its task forces, the Commission on Organization of the Executive Branch stated:

It is an anomaly that a regulatory commission should also conduct the executive function of managing a huge business; that executive functions should be carried on by an agency that is not subject to Presidential directions; that executive functions should be carried on by a full-time board * * *.

While the recommendations of the various studies differ in some details, they agree on principles and on the main features of reorganization.

Basically, the administrative difficulties of the Maritime Commission have arisen, as all these studies agree, from the fact that the Commission is responsible for performing two fundamentally different types of functions which call for different types of organization. These two classes of functions are (a) regulatory and (b) operating and promotional. Under various acts the Commission regulates rates and services of water carriers; passes on agreements among carriers; and protects shippers against unfair and discriminatory practices. This type of activity requires the deliberation and independence of judgment which a board or commission is especially well designed to provide. But at the same time the Commission is charged with the conduct of a variety of large and costly promotional and business-type programs demanding the prompt and vigorous administration for which experience both in Government and in private enterprise has demonstrated that a single executive is essential.

The Maritime Commission has charge of the construction of merchant vessels for subsidized operators and for Government account. It owns and maintains the largest merchant fleet in the world, consisting of 2,200 vessels aggregating more than 22,000,000 dead-weight tons. It charters and sells ships and, in time of war or national emergency, requisitions and operates vessels for the Government. It grants construction and operating differential subsidies to private shipping companies to maintain an active privately operated American merchant marine. It makes loans and insures mortgages to assist carriers in acquiring new vessels, and it conducts programs for training officers and seamen for the merchant marine. For the present fiscal year the performance of these functions will involve the expenditure of approximately \$162,000,000 and the direction of an organization of 5,500 employees. In short, the administration of the Maritime Commission is a vast business undertaking. Moreover, the work of the Commission affects significantly the interests of both business and labor in the maintenance of a sound maritime industry.

Further than this, many of the activities of the Maritime Commission are closely related to other programs of the Government and have to be coordinated with them. In the construction of a subsidized ship the Commission must cooperate with the Coast Guard on those features of design, materials, and equipment which affect the safety of the vessel and with the Navy on those which especially affect the use of the ship for national defense. Furthermore, the whole program of subsidized ship construction needs to be adjusted to the plans and requirements for national defense. At the same time the Commission's programs for the development of the merchant marine must be coordinated with our foreign policy and with Federal programs with respect to other branches of transportation.

While an independent commission is an appropriate instrument for the performance of the regulatory func-

tions of the Maritime Commission, such an agency obviously is not the type required to provide strong and efficient administration of the large operating programs now entrusted to the Commission or to obtain the needed coordination with other activities of the executive branch. This fact is amply demonstrated by the administrative difficulties and the complicated problems of coordination encountered in the operation of the Commission since the war and by the necessity of transferring a large part of its functions to the War Shipping Administration, headed by a single executive, during the war.

Briefly, this reorganization plan provides for a small Federal Maritime Board and a Maritime Administration in the Department of Commerce to perform the functions of the Maritime Commission, and abolishes the existing Commission. It transfers to the Board the regulatory functions of the Commission and definitely guarantees the independence of the Board in the performance of these functions. In addition, it vests directly in the Board the determination and award of construction and operating differential subsidies. In the performance of its subsidy functions the Board will be subject to general policy guidance by the Secretary of Commerce. The Board, however, and it alone, will determine to whom subsidies shall be granted and will make and award the subsidy contracts. Its actions therein will be conclusive and will not be subject to modification by any other agency or officer of the Department of Commerce. The other functions of the Maritime Commission, including carrying out the subsidy agreements made by the Board and administering the various operating programs, are transferred to the Secretary of Commerce for administration through the Maritime Administration. Thus, the plan provides for each of the two types of functions now vested in the Maritime Commission the type of organization best suited to its performance. At the same time, the plan will facilitate coordination of maritime policies and programs with other related policies and programs.

The division of functions under this plan conforms directly to the recommendations of the Commission on Organization of the Executive Branch of the Government. While the award of subsidies is a promotional rather than a regulatory function and might logically be assigned to the Maritime Administration instead of the Board, its impact on the shipping industry and on individual carriers is such as to make desirable the deliberation and combined judgment of a board. Accordingly, I have adhered to the recommendation of the Commission on Organization that this function be vested in a multiple body rather than a single official. Likewise, in line with the recommendations of the Commission, the plan assigns the determination of the over-all route pattern to the Secretary of Commerce.

The Maritime Board will consist of three members appointed by the President with the consent of the Senate for overlapping terms of 4 years. Not more than two of the members can be of the same political party. The Board, therefore, will be a smaller and more wieldy body which can function with greater expedition and efficiency than the existing five-member Commission. The Chairman will be designated by the President from the members of the Board and will be, *ex officio*, the Maritime Administrator and as such the head of the Maritime Administration. The plan also provides for a Deputy Maritime Administrator appointed by the Secretary of Commerce under the classified civil service. After investigation I have found, and hereby declare, that by reason of the reorganizations made by this plan, it is necessary to include in the plan provisions for the appointment and compensation of the members of the Federal Maritime Board and for the appointment of the Deputy Maritime Administrator.

In making the Chairman of the Federal Maritime Board the Maritime Administrator, the plan adopts an arrangement substantially similar to that which prevailed during the war, when the same individual served as Chairman of the Maritime Commission and head of the War Shipping Administration. This arrangement

will have important advantages. It will facilitate cooperation between the Board and the Administration on matters of concern to both. Also, it will avoid dividing the personnel of the Maritime Commission, since the Chairman of the Board will supervise the personnel assisting it in the performance of its functions, as is now the case in the Maritime Commission, and in his capacity as Administrator he will have charge of the personnel carrying on the work of the Maritime Administration. The plan provides for the joint operation of the officers and employees under the Administrator and Chairman as a single body of personnel. The maintenance of a unified staff is essential for efficient and economical administration because many of the technical and professional personnel, such as ship designers and attorneys, now assist the Maritime Commission on problems of subsidy determination and also participate in the subsequent administration of subsidy agreements and in performing nonsubsidy functions.

The inclusion of the new Board in the Department of Commerce will permit the use of the administrative services of the Department. More important, it will eliminate the necessity of splitting the personnel of the Maritime Commission between the Department and an outside agency. In addition, it will relieve the President of having to handle relations with a separate maritime agency.

In establishing the Department of Commerce the Congress provided in the organic act of the Department that—

It shall be the province and duty of said Department to foster, promote, and develop the foreign and domestic commerce, * * * shipping, * * * and the transportation facilities of the United States.

Over the years, however, transportation functions have become widely scattered throughout the executive branch. As a result, intelligent planning and budgeting of Federal transportation activities and the necessary coordination of transportation programs have become extremely difficult or impossible. The transfer of the functions of the Maritime Commission to the Department of Commerce will constitute a major step in correcting this condition.

Without question the Department of Commerce is now the appropriate center for transportation programs. It contains the Civil Aeronautics Administration—the major operating and promotional agency of the Government in the field of air transportation—and the Weather Bureau, and the Coast and Geodetic Survey, which provide vital services to transportation. As a result of Reorganization Plan No. 7 of 1949, it now also includes the Bureau of Public Roads, the leading promotional agency dealing with land transportation. Also, it has the Inland Waterways Corporation in the field of water transportation. The transfer of the functions of the Maritime Commission will bring into the Department the principal water-transportation agency of the Government. These actions will go a long way toward the establishment of a sound and effective organization for the operating and promotional programs of the Government relating to transportation.

It is my purpose to look to the Secretary of Commerce for leadership with respect to transportation problems and for the development of over-all transportation policy within the executive branch. Because of the magnitude and importance of the transportation functions transferred to the Department of Commerce by this reorganization plan, I have found and hereby declare that it is necessary to strengthen the top administrative structure of the Department by providing for the appointment and compensation of a new Under Secretary of Commerce for Transportation. This will make available an officer of the highest rank to assist the Secretary in supervising the varied and complex transportation programs of the Department and providing central leadership in transportation matters. With the many responsibilities of the Secretary of Commerce in other areas, the creation of this office is essential to enable him properly to fulfill his obligations with respect to transportation.

After careful investigation I have found and I hereby declare that each of the reorganizations contained in this reorganization plan is necessary to accomplish one or more of the purposes set forth in section 2(a) of the Reorganization Act of 1949. The rates of compensation fixed by the provisions of the reorganization plan for the Under Secretary of Commerce for Transportation, the Chairman, and the other two members of the Federal Maritime Board are, respectively, those which I have found to prevail in respect of comparable officers in the executive branch of the Government.

In summary, the reorganizations provided by this plan will have the following principal advantages: They will provide an efficient organization headed by a single responsible official to administer the large operating and business-type programs of the Maritime Commission. At the same time, they will preserve the benefits of a bipartisan board for the performance of the regulatory functions of the Commission and the determination of subsidies. They will reduce the number of agencies reporting directly to the President and simplify the over-all management of the executive branch. In doing so, they will provide more adequate machinery for supervising the administration of the maritime programs and will facilitate their coordination with related policies and programs of the executive branch. Finally, they will accomplish a major advance in the development of an effective organization of Federal transportation programs in accord with the recommendations of the Commission on Organization of the Executive Branch of the Government. While it is impossible to estimate in advance the savings which will be brought about by this plan, the improvements in administrative efficiency resulting from it should produce substantial reductions in expenditures for the programs transferred by the plan.

REORGANIZATION PLAN NO. 6 OF 1949

Eff. Aug. 20, 1949, 14 F.R. 5228, 63 Stat. 1069

Prepared by the President and transmitted to the Senate and the House of Representatives in Congress assembled, June 20, 1949, pursuant to the provisions of the Reorganization Act of 1949, approved June 20, 1949 [see 5 U.S.C. 901 et seq.].

SECTION 1. ADMINISTRATION OF FUNCTIONS OF COMMISSION

The Chairman of the United States Maritime Commission shall be the chief executive and administrative officer of the United States Maritime Commission. SEC. 3. PERFORMANCE OF TRANSFERRED FUNCTIONS

The functions of the Chairman under the provisions of this reorganization plan shall be performed by him or, subject to his supervision and direction, by such officers and employees under his jurisdiction as he shall designate.

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I transmit herewith Reorganization Plan No. 6 of 1949, prepared in accordance with the Reorganization Act of 1949. This plan is designed to strengthen the administration of the United States Maritime Commission by making the Chairman and the chief executive and administrative officer of the Commission and vesting in him responsibility for the appointment of its personnel and the supervision and direction of their activities. After investigation, I have found and hereby declare that each reorganization included in this plan is necessary to accomplish one or more of the purposes set forth in section 2(a) of the Reorganization Act of 1949.

Unlike other major regulatory commissions, the Maritime Commission is responsible not only for the performance of important regulatory functions but also for the administration of large and complex operating and promotional programs. Whereas the budgets of most regulatory agencies amount to only a few million dollars annually, the expenditures of the Maritime Commission exceed \$130,000,000 a year. As a result of the war the Commission is the owner of a fleet of over 2,300 ships, aggregating more than 23,000,000 dead-weight tons.

While it is the policy of the Government, as set forth by the Merchant Marine Act of 1936 and the Merchant Ship Sales Act of 1946, to develop and maintain an adequate and effective merchant marine under private ownership, the Commission is still confronted with the necessity of carrying on substantial programs for the charter and sale of Government-owned vessels and with the continuing task of maintaining the reserve merchant fleet.

Apart from its functions with respect to the war-built fleet, the accomplishment of the Government's permanent objective with respect to the development of the American merchant marine inevitably involves the Commission to a wide variety of activities. Among these are the regulation of rates and competitive practices of water carriers, the determination of essential trade routes and services, the award of subsidies to offset differences between American and foreign costs, the design and construction of ships, the inspection of subsidized vessels, and the training of seamen.

In the last 2 years the operation of the Maritime Commission has been subjected to independent examination by three bodies—the President's Advisory Committee on the Merchant Marine, the Senate Committee on Expenditures in the Executive Departments, and the Commission on Organization of the Executive Branch of the Government. All of these studies have pointed to difficulties in the conduct of the Commission's business and the necessity of improved organization to strengthen the administration of the agencies. The remedies proposed have differed in some respects, but all the studies have emphasized the need of concentrating in a single official the management of a large part of the agency's work.

During the war such a concentration was temporarily accomplished by Executive order under the authority of the First War Powers Act. In effect, the Chairman of the Commission, as War Shipping Administrator, was made directly responsible for the administration of several major operating programs of the Commission. This arrangement proved its value under the stress of war. About a year after the end of the fighting, however, it was terminated and the organization reverted to the prewar pattern.

As a result of postwar experience, the Commission appointed a general manager in 1948. While this has

brought considerable improvement, it has not extricated the Commission from administration to the degree which is desirable.

After careful consideration of the problems involved in improving the operation of the Maritime Commission, I have concluded that the proper action at this time is to concentrate in the Chairman the responsibility for the internal administration of the agency. This is achieved by the proposed reorganization plan by transferring to the Chairman the appointment of the personnel of the agency, except for the immediate assistants of the Commissioners, and the supervision and direction of their work. This is substantially the arrangement recommended for regulatory commissions by the Commission on Organization of the Executive Branch of the Government.

Such a plan of organization has many advantages. It leaves in the Commission as a body the performance of regulatory functions, the determination of subsidies, and the determination of major policies. Thus, it utilizes the Commission for the type of work for which such a body is best adapted. At the same time the plan places under a single official the day-to-day direction of the work of the staff within the policies and determinations adopted by the Commission in the exercise of its functions. This will provide more businesslike administration and help to overcome the delays, backlogs, and operating difficulties which have hampered the agency. At the same time by freeing the members of the Commission of much detail, the plan will enable them to concentrate on major questions of policy and program and thereby will obtain earlier and better considered resolution of the basic problems of the agency.

Though the taking effect of this plan in itself may not result in substantial immediate economies, it is probable that the improved organizational arrangements will bring about, over a period of time, improved operations and substantially reduced expenditures. An itemization of these reductions, however, in advance if actual experience under the plan is not practicable.

I am convinced that this reorganization plan will contribute importantly to the more businesslike and efficient administration of the programs of the Maritime Commission.

THE WHITE HOUSE, June 20, 1949.

FEDERAL MARITIME BOARD AND MARITIME
ADMINISTRATION

The following is a statement, in part, of the Department of Commerce, relating to the organization and functions of the Federal Maritime Board, and the Maritime Administration, created by Reorg. Plan No. 21 of 1950, set out above, as such statement appeared in 16 F.R. 44 to 46, Jan. 3, 1951:

The statement of organization and functions of the Maritime Administration issued in 15 F.R. 4454-4457 is hereby revoked and the following substituted therefor:

1. *Establishment.* The Federal Maritime Board and the Maritime Administration were established in the Department of Commerce by Reorganization Plan No. 21 of 1950, effective May 24, 1950 [set out above]. In performance of their functions the Federal Maritime Board and the Maritime Administration are guided by the broad declaration of policy stated in Title I of the Merchant Marine Act, 1936 (49 Stat. 1985) [46 U.S.C. 1101], reaffirmed in section 2 of the Merchant Ship Sales Act, 1946 (60 Stat. 41) [50 App. U.S.C. 1735] * * *.

2. *Organization of the Federal Maritime Board.* The Federal Maritime Board is composed of three members appointed by the President by and with the advice and consent of the Senate. The President designates one of the members to serve as Chairman of the Federal Maritime Board. The Chairman serves as chief executive and administrative officer of the Federal Maritime Board. Any two members in office constitute a quorum for the transaction of the business of the Federal Maritime Board, and the affirmative votes of any two members are sufficient for the disposition of any matter which may come before the Federal Maritime Board.

The Federal Maritime Board has the following organizational components: (a) Office of the Chairman of the Federal Maritime Board; (b) Offices of the Members of the Federal Maritime Board; (c) Secretary's Office; (d) Regulation Office; and (e) Hearing Examiners' Office.

Insofar as he deems desirable, the Chairman of the Federal Maritime Board makes use of the officers and employees of the Maritime Administration to perform activities for the Federal Maritime Board.

3. *Functions of the Federal Maritime Board—(a) Regulatory functions.* Under Reorganization Plan No. 21 of 1950 the Federal Maritime Board is independent of the Secretary of Commerce in the performance of the following functions: (1) All functions under the provisions of sections 14 to 20, inclusive, and sections 22 to 33, inclusive, of the Shipping Act, 1916, as amended [former 46 U.S.C. 812-819, 821-832], including such functions with respect to the regulation and control of rates, services, practices, and agreements of common carriers by water and of other persons;

(2) All functions with respect to the regulation and control of rates, fares, charges, classifications, tariffs, regulations, and practices of common carriers by water under the provisions of the Intercoastal Shipping Act, 1933, as amended [former 46 U.S.C. 843-848];

(3) The functions with respect to the making of rules and regulations affecting shipping in the foreign trade to adjust or meet conditions unfavorable to such shipping, and with respect to the approval, suspension, modification, or annulment of rules or regulations of other Federal agencies affecting shipping in the foreign trade, under the provisions of section 19 of the Merchant Marine Act, 1920, as amended [46 U.S.C. 876], exclusive of subsection (1)(a) thereof;

(4) The functions with respect to investigating discriminatory rates, charges, classifications, and practices in the foreign trade, and with respect to recommending legislation to correct such discrimination, under the provisions of section 212(e) of the Merchant Marine Act, 1936 [46 U.S.C. 1122(e)]; and

(5) So much of the functions with respect to requiring the filing of reports, accounts, records, rates, charges, and memoranda, under the provisions of section 21 of the Shipping Act, 1916, as amended [former 46 U.S.C. 820], as relates to its functions under items (1) through (4), above.

(b) *Subsidy contracts.* Under Reorganization Plan No. 21 of 1950 the Federal Maritime Board is guided by the general policies of the Secretary of Commerce in performing the following functions: (1) The functions with respect to making, amending, and terminating construction (reconstruction or reconditioning) differential subsidy contracts, including contracts for the construction, reconstruction, or reconditioning of vessels and contracts for the sale of vessels to subsidy applicants or contracts to pay a differential subsidy and the cost of national defense features. In the exercise of this function the Federal Maritime Board investigates and determines the relative cost of construction of comparable vessels in the United States and foreign countries and the extent and character of aids and subsidies granted by foreign governments to their merchant marines;

(2) The functions with respect to making, amending, and terminating operating differential subsidy contracts and, subsequent to entering into an operating differential subsidy contract, making determinations with respect to employment and wage conditions, and taking action on readjustment of operating cost differentials and the sale, assignment, or transfer of the contract. In the exercise of this function the Federal Maritime Board investigates and determines the relative cost of operating vessels under the registry of the United States and under foreign registry, and the extent and character of aids and subsidies granted by foreign governments to their merchant marines;

(3) The functions with respect to investigating and reporting on relative construction and operating costs in the United States and foreign maritime countries,

and the relative advantages of operating under United States or foreign registry, and on marine insurance, navigation laws, and vessel mortgages as authorized under section 12 of the Shipping Act, 1916 [former 46 U.S.C. 811]; and

(4) The functions with respect to requiring the filing of reports, accounts, records, rates, charges, and memoranda as relates to its functions as set forth in items (1), (2), and (3), above.

(c) *Charters under the Merchant Ship Sales Act, 1946.* The Federal Maritime Board makes determinations, after public hearings, as to whether the bareboat charter of warbuilt dry cargo vessels owned by the United States is required in the public interest in any service then not adequately served and for which privately owned American-flag vessels are not available for charter by private operators on reasonable conditions and rates, and certifies its findings to the Secretary of Commerce together with any restrictions and conditions which it determines to be necessary or appropriate to protect the public interest in respect to such charters and to protect privately owned vessels against competition from Government vessels chartered by the Secretary of Commerce. All such charters are reviewed annually by the Federal Maritime Board for the purpose of making recommendations to the Secretary of Commerce as to whether conditions exist justifying the continuance of the charters. The functions of the Secretary of Commerce with respect to the chartering of vessels has been delegated to the Maritime Administrator.

(d) *War risk insurance.* Pursuant to Public Law 763, 81st Congress [46 U.S.C. 1281-1294], the Federal Maritime Board makes determinations of the fair and reasonable value of vessels insured under the provisions of Title XII of the Merchant Marine Act, 1936, as amended [46 U.S.C. 1281-1294]. The Secretary of Commerce may not settle an insurance claim with respect to a vessel in an amount in excess of the vessel's fair and reasonable value as determined by the Federal Maritime Board.

(e) In carrying out its functions under paragraphs (a), (b), (c) and (d), above, the Federal Maritime Board adopts rules and regulations; makes reports and recommendations to Congress; subpoenas witnesses; administers oaths; takes evidence; requires the production of books, papers and documents as necessary; issues opinions; promulgates orders; engages in enforcement and other legal proceedings; and performs all functions formerly performable by the Maritime Commission, which have been transferred to the Federal Maritime Board pursuant to Reorganization Plan No. 21 of 1950.

4. *Organization of the Maritime Administration—(a) Maritime Administrator.* The Chairman of the Federal Maritime Board is ex officio the Maritime Administrator. When serving as Maritime Administrator, he reports and is responsible to the Secretary of Commerce.

(b) *Deputy Maritime Administrator.* The Maritime Administrator is assisted in his duties by a Deputy Maritime Administrator, who is the Acting Maritime Administrator during the absence or disability of the Maritime Administrator and, unless the Secretary of Commerce designates another person, during a vacancy in the Office of Maritime Administrator. The Deputy Maritime Administrator is appointed by the Secretary of Commerce, after consultation with the Maritime Administrator. The Deputy Maritime Administrator at no time sits as a member of the Federal Maritime Board.

(c) *Organizational components.* The Maritime Administration has the following organizational components: (1) Office of the Maritime Administrator; (2) Staff Offices including the Office of the General Counsel, the Program Planning Office, the Budget Office, and the Personnel Office; (3) Division of Claims; (4) Office of Subsidy and Government Aid; (5) Office of Maritime Operations; (6) Office of Ship Construction; (7) Office of the Comptroller; and (8) Offices of the Coast Directors.

(d) *Use of officers and employees of the Federal Maritime Board.* Insofar as he deems desirable, the Maritime Administrator makes use of officers and employees of the

Federal Maritime Board under his supervision as Chairman to perform activities for the Maritime Administration.

(5) *Functions of the Maritime Administrator.* The Maritime Administrator is responsible for the performance of all functions transferred to the Secretary of Commerce under Reorganization Plan No. 21 of 1950, subject to the limitations set forth in Department Order No. 116, as amended, with power of redelegation, and for the performance of activities for the Federal Maritime Board as determined desirable by the Chairman of the Federal Maritime Board.

(a) The Office of the Maritime Administrator directs the activities of the Maritime Administration and includes personnel who render staff services to the Maritime Administrator.

APPOINTMENT OF PERSONNEL

The following is a legal opinion, in part, dated August 29, 1950, and prepared by the General Counsel of the Maritime Administration, with respect to the authority of the chairman of the Federal Maritime Board to make appointments of personnel under the Board and the extent of the authority of the Secretary of Commerce under Reorg. Plan No. 21 of 1950, set out above, as to such personnel:

Sec. 103 of Reorganization Plan 21 of 1950 [set out above] transferred to the Chairman of the Federal Maritime Board "all functions of the Chairman of the United States Maritime Commission (including his functions under the provisions of Reorganization Plan No. 6 of 1949 [set out above]) with respect to the functions transferred to the Board by the provisions of Sections 104 and 105" of Plan 21. Section 104 transferred to the Board the regulatory functions of the Maritime Commission and Section 105 transferred certain of the subsidy functions of the Commission, not including, however, the function of administering subsidy contracts.

Sec. 106 of Plan 21 provides for the status of the Board and of the Chairman and their relationship to the Secretary of Commerce. * * *

In order to fully understand the intent of Plan 21, it is necessary to examine the status of the appointing authority of the Chairman of the Maritime Commission immediately prior to the transfer of functions under Plan 21. As set forth above, Section 103 of Plan 21 makes specific reference to the authority of the Chairman of the Commission under Plan 6 of 1949 as being transferred to the Chairman of the Board.

Reorganization Plan 6 was transmitted by the President to Congress on June 20, 1949. Its purpose as stated in the message of transmittal [set out in Appendix to Title 5, Government Organization and Employees] was "to strengthen the administration of the United States Maritime Commission by making the Chairman the chief executive and administrative officer of the Commission and vesting in him responsibility for the appointment of its personnel and the supervision and direction of their activities." (Emphasis supplied.)

Section 2 of Plan 6 transferred from the Commission to the Chairman certain functions including the appointment of personnel (exclusive of "personnel employed regularly and full time" in the offices of other members) with the proviso that the Chairman would consult with other members before appointing the heads of major administration units. Section 1 of Plan 6 provided that in exercising certain functions the Chairman should be guided by policies of the Commission. This section significantly excepted from such requirement the authority transferred to the Chairman under Section 2 including the appointive authority. Thus the appointive authority (excluding only personnel in offices of Commission members) was exclusively and, except for the proviso relating to heads of major units, unconditionally vested in the Chairman of the Commission until Plan 21 took effect.

Plan 21 transferred all the functions of the Commission and of the Chairman of the Commission. As stated above, some of these functions went to the Federal Maritime Board (Secs. 104, 105). Others were transferred to the Chairman of the Board (Sec. 103). Functions not otherwise transferred went to the Secretary of Commerce (Sec. 204).

The functions transferred to the Board and to the Chairman relate to regulatory authority (to be exer-

cised independently) and subsidy functions (to be exercised subject to the guidance of general policies established by the Secretary of Commerce). As Section 103 transferring functions to the Chairman relating to these subjects makes specific reference to the authority of the Chairman of the Commission under Plan 6, which included the appointment of personnel, it appears evident that so much of the appointive power as relates to personnel performing these functions passed to the Chairman of the Board to be exercised by him independently as to personnel performing regulatory functions and subject to the injunction of Sec. 106 (to be guided by the policies of the Secretary of Commerce) as to personnel performing services in connection with the subsidy functions performed by the Board.

This conclusion is reinforced by reference to a decision of the Attorney General to the Secretary of Commerce, dated May 13, 1940, construing somewhat similar provisions in a reorganization plan transferring to the Department certain functions of the Civil Aeronautics Authority [Reorg. Plan No. IV of 1940, §7, eff. June 30, 1940, 5 F.R. 2421, 54 Stat. 1234, set out in the Appendix to Title 5, Government Organization and Employees] * * *. Despite the specific mention of the personnel functions the Attorney General held that the appointive authority was in the Board. This decision was based upon reasoning recognizing the practical fact that independence in the exercise of the functions of the Board could not be achieved if the control of personnel and finances of the Board were in the Secretary of Commerce.

I have reached the conclusion that the appointive authority as to personnel engaged in regulatory and certain of the subsidy functions is vested in the Chairman, notwithstanding certain facts which might tend to indicate a different result.

Chief among these is the statement contained in the President's message transmitting Plan 21, as follows:

"In making the Chairman of the Federal Maritime Board the Maritime Administrator, the plan adopts an arrangement substantially similar to that which prevailed during the war, when the same individual served as Chairman of the Maritime Commission and head of the War Shipping Administration. This arrangement will have important advantages. It will facilitate cooperation between the Board and the Administration on matters of concern to both. Also, it will avoid dividing the personnel of the Maritime Commission, since the Chairman of the Board will supervise the personnel assisting it in the performance of its functions, as is now the case in the Maritime Commission, and in his capacity as Administrator he will have charge of the personnel carrying on the work of the Maritime Administration. The plan provides for the joint operation of the officers and employees under the Administrator and Chairman as a single body of personnel. The maintenance of a unified staff is essential for efficient and economical administration because many of the technical and professional personnel, such as ship designers and attorneys, now assist the Maritime Commission on problems of subsidy determination and also participate in the subsequent administration of subsidy agreements and in performing nonsubsidy functions.

"The inclusion of the new Board in the Department of Commerce will permit the use of the administrative services of the Department. More important, it will eliminate the necessity of splitting the personnel of the Maritime Commission between the Department and an outside agency. * * *".

A literal reading of portions of this statement might be used as a basis for argument that a single appointive authority was intended. This meaning cannot be given the statement, however, in view of the specific language of the Plan as previously discussed. It is more likely that the President had in mind the fact that the Plan seems to contemplate a delegation of authority from the Secretary to the Chairman-Administrator by providing in Sec. 204 that "The Secretary of Commerce may from time to time make such provisions as he shall deem appropriate authorizing the performance by

the Maritime Administrator of any function transferred to such Secretary by the provisions of this reorganization plan." Sec. 302 provides that the Chairman-Administrator shall make joint use of personnel.

Another argument against the conclusion stated could be based upon the fact that Plan 21 makes specific reference in transferring functions to the Board of certain titles and portions of the Merchant Marine Act, 1936, as amended [this chapter], without making any reference to Sec. 201(e) of that Act [subsec. (e) of this section] which is the source of the appointive authority formerly vested in the Commission. This argument fails, however, when consideration is given to the fact that immediately prior to Plan 21 this authority was vested not in the Commission but in the Chairman of the Commission under Plan 6 and is included in the specific reference to Plan 6.

It is clear that both Plan 21 and the President's transmittal message contemplate the use of personnel to perform dual functions for the Board and for the Administrator. It is equally clear that the Plan itself does not contain provisions vesting in a *single appointive authority* the power to establish such a group of personnel. It is evident, therefore, that the President contemplated that this objective be achieved by the Chairman's voluntarily utilizing the services of employees appointed under the authority of the Secretary to perform services in connection with Board functions and, in his capacity as Administrator, utilizing the services of employees employed by him under the direct grant of authority in the Plan to perform duties assigned to him by the Secretary. Thus the Plan, although directing the joint use of personnel, intends that result to be accomplished through the use of the administrative discretion granted the Chairman-Administrator by Section 302 of the Plan to be exercised in the interest of economy and efficiency, and does not vest exclusive appointing authority either in the Secretary or the Chairman-Administrator.

After June 30, 1939, the Federal Maritime Commission and the Secretary of Transportation shall not incur any obligations for administrative expenses except pursuant to an annual appropriation specifically therefor or to authority to use appropriations or other funds otherwise available therefor.

§ 1120. Survey of existing merchant marine for creation of adequate American-owned fleet

It shall be the duty of the Secretary of Transportation to make a survey of the American merchant marine, as it now exists, to determine what additions and replacements are required to carry forward the national policy declared in section 1101 of this Appendix, and the Secretary of Transportation is directed to study, perfect, and adopt a long-range program for replacements and additions to the American merchant marine so that as soon as practicable the following objectives may be accomplished:

In planning the development of such a fleet the Secretary of Transportation is directed to cooperate closely with the Navy Department as to national-defense needs and the possible speedy adaptation of the merchant fleet to national-defense requirements.

Second, the ownership and the operation of such a merchant fleet by citizens of the United States insofar as may be practicable.

Third, the planning of vessels designed to afford the best and most complete protection for passengers and crew against fire and all marine perils.

Fourth, the creation and maintenance of efficient shipbuilding and repair capacity in the United States with adequate numbers of skilled personnel to provide an adequate mobilization base.

The advisability of enactment of suitable legislation authorizing the Secretary of Transportation in an economic or commercial emergency, to aid the farmers and cotton, coal, lumber, and cement producers in any section of the United States in the transportation and landing of their products in any foreign port, which products can be carried in dry-cargo vessels by reducing rates, by supplying additional tonnage to any American operator, or by operation of vessels directly by the Secretary of Transpor-

(j) New designs of vessels; intercoastal and inland water transportation

SUBCHAPTER V—CONSTRUCTION-
DIFFERENTIAL SUBSIDY

§ 1151. Subsidy authorized for vessels to be operated in foreign trade

(a) Application for subsidy for construction; conditions precedent to granting

Any proposed ship purchaser who is a citizen of the United States or any shipyard of the United States may make application to the Secretary of Transportation for a construction-differential subsidy to aid in the construction of a new vessel to be used in the foreign commerce of the United States. No such application shall be approved by the Secretary of Transportation unless he determines that (1) the plans and specifications call for a new vessel which will meet the requirements of the foreign commerce of the United States, will aid in the promotion and development of such commerce, and be suitable for use by the United States for national defense or military purposes in time of war or national emergency; (2) if the applicant is the proposed ship purchaser, the applicant possesses the ability, experience, financial resources, and other qualifications necessary for the operation and maintenance of the proposed new vessel, and (3) the granting of the aid applied for is reasonably calculated to carry out effectively the purposes and policy of this chapter. The contract of sale, and the mortgage given to secure the payment of the unpaid balance of the purchase price shall not restrict the lawful or proper use or operation of the vessel except to the extent expressly required by law. The Secretary of Transportation may give preferred consideration to applications that will tend to reduce construction-differential subsidies and that propose the construction of ships of higher transport capability and productivity.

(b) Submission of plans to Navy Department; certification of approval

The Secretary of Transportation shall submit the plans and specifications for the proposed vessel to the Navy Department for examination thereof and suggestions for such changes therein as may be deemed necessary or proper in order that such vessel shall be suitable for economical and speedy conversion into a naval or military auxiliary, or otherwise suitable for the use of the United States Government in time of war or national emergency. If the Secretary of the Navy approves such plans and specifications as submitted, or as modified, in accordance with the provisions of this subsection, he shall certify such approval to the Secretary of Transportation.

(c) Application for subsidy for reconstruction or reconditioning; conditions precedent to granting; contracts

Any citizen of the United States or any shipyard of the United States may make application to the Secretary of Transportation for a con-

struction-differential subsidy to aid in reconstructing or reconditioning any vessel that is to be used in the foreign commerce of the United States. If the Secretary of Transportation, in the exercise of his discretion, shall determine that the granting of the financial aid applied for is reasonably calculated to carry out effectively the purposes and policy of this chapter, the Secretary of Transportation may approve such application and enter into a contract or contracts with the applicant therefor providing for the payment by the United States of a construction-differential subsidy that is to be ascertained, determined, controlled, granted, and paid, subject to all the applicable conditions and limitations of this subchapter and under such further conditions and limitations as may be prescribed in the rules and regulations of the Secretary of Transportation has adopted as provided in section 1114(b) of this Appendix; but the financial aid authorized by this subsection shall be extended to reconstruction or reconditioning only in exceptional cases and after a thorough study and a formal determination by the Secretary of Transportation that the proposed reconstruction or reconditioning is consistent with the purposes and policy of this chapter.

COMMISSION ON AMERICAN SHIPBUILDING

Section 41 of Pub. L. 91-469 established a Commission on American Shipbuilding, provided for the appointment and compensation of an Executive Director of the commission and other personnel, empowered the com-

mission to study American shipbuilding with a view toward increased productivity and reduced costs, and to make a report to the President and Congress no later than three years after Oct. 21, 1970 of the commission's findings and recommendations, and provided that the commission was to terminate sixty days after filing its report.

§ 1152. Construction of vessels; bids; subsidies

(a) Approval of bids; contract with bidder; acceptance of negotiated price; shipyard records, availability; contract with applicant or qualified citizen for purchase of vessel

If the Secretary of the Navy certifies his approval under section 1151(b) of this Appendix, and the Secretary of Transportation approves the application, he may secure bids for the construction of the proposed vessel according to the approved plans and specifications. If the bid of the shipbuilder who is the lowest responsible bidder is determined by the Secretary of Transportation to be fair and reasonable, the Secretary of Transportation may approve such bid, and if such approved bid is accepted by the proposed ship purchaser, the Secretary of Transportation is authorized to enter into a contract with the successful bidder for the construction, outfitting, and equipment of the proposed vessel, and for the payment by the Secretary of Transportation to the shipbuilder, on terms to be agreed upon in the contract, of the contract price of the vessel, out of the construction fund hereinbefore referred to, or out of other available funds. Notwithstanding the provisions of the first sentence of section 1155 of this Appendix with respect to competitive bidding, the Secretary of Transportation is authorized to accept a price for the construction of the ship which has been negotiated between a shipyard and proposed ship purchaser if (1) the proposed ship purchaser and the shipyard submit backup cost details and evidence that the negotiated price is fair and reasonable; (2) the Secretary of Transportation finds that the negotiated price is fair and reasonable; and (3) the shipyard agrees that the Comptroller General of the United States or any of his duly authorized representatives shall, until the expiration of three years after final payment have access to and the right to examine any pertinent books, documents, papers, and records of the shipyard or any of its subcontractors related to the negotiation or performance of any contract or subcontract negotiated under this subsection and will include in its subcontracts a provision to that effect. Concurrently with entering into such contract with the shipbuilder, the Secretary of Transportation is authorized to enter into a contract for the sale of such vessel upon its completion, to the applicant if he is the proposed ship purchaser and if not to another citizen of the United States, if the Secretary of Transportation determines that such citizen possesses the ability, experience, financial resources, and other qualifications necessary for the operation and maintenance of the vessel at a price corresponding to the estimated cost, as determined by the Secretary of Transportation pursuant to the provisions of this chapter, of building such vessel in a foreign shipyard.

(b) Basis for fixing subsidy; cost of construction in foreign yards; annual recomputation and publication of foreign cost; limitation on construction differential; report on American shipbuilding industry

The amount of reduction in selling price which is herein termed "construction differential subsidy" shall equal, but not exceed, the excess of the bid of the shipbuilder constructing the proposed vessel (excluding the cost of any features incorporated in the vessel for national defense uses, which shall be paid by the Secretary in addition to the subsidy), over the fair and reasonable estimate of cost, as determined by the Secretary, of the construction of that type vessel if it were constructed under similar plans and specifications (excluding national defense features as above provided) in a foreign shipbuilding center which is deemed by the Secretary to furnish a fair and representative example for the determination of the estimated foreign cost of construction of vessels of the type proposed to be constructed. The Secretary of Transportation shall recompute such estimated foreign cost annually unless, in the opinion of the Secretary, there has been a significant change in shipbuilding market conditions. The Secretary shall publish notice of his intention to compute or recompute such estimated foreign cost and shall give interested persons, including but not limited to shipyards and shipowners and associations thereof, an opportunity to file written statements. The Secretary's consideration shall include, but not be limited to, all relevant matter so filed, and his determination shall include or be accompanied by a concise explanation of the basis of his determination. The construction differential approved and paid by the Secretary shall not exceed 50 per centum of the cost of constructing, reconstructing, or reconditioning the vessel (excluding the cost of national defense features). If the Secretary finds that the construction differential exceeds, in any case, the foregoing percentage of such cost, the Secretary may negotiate with any bidder (whether or not such person is the lowest bidder) and may contract with such bidder (notwithstanding the first sentence of section 1155 of this Appendix) for the construction, reconstruction, or reconditioning of the vessel involved in a domestic shipyard at a cost which will reduce the construction differential to such percentage or less. In the event that the Secretary has reason to believe that the bidding in any instance is collusive, he shall report all of the evidence on which he acted (1) to the Attorney General of the United States, and (2) to the President of the Senate and to the Speaker of the House of Representatives if the Congress shall be in session or if the Congress shall not be in session, then to the Secretary of the Senate and Clerk of the House, respectively.

(c) Terms of sale of vessel to purchaser

In such contract of sale between the purchaser and the Secretary of Transportation, the purchaser shall be required to make cash payments to the Secretary of Transportation of not less than 25 per centum of the price at which the vessel is sold to the purchaser. The cash payments shall be made at the time and in the same pro-

portion as provided for the payments on account of the construction cost in the contract between the shipbuilder and the Secretary of Transportation. The purchaser shall pay, not less frequently than annually, interest on those portions of the Secretary of Transportation's payments as made to the shipbuilder which are chargeable to the purchaser's portion of the price of the vessel (after deduction of the purchaser's cash payments) at a rate not less than (i) a rate determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans, adjusted to the nearest one-eighth of 1 per centum, plus (ii) an allowance adequate in the judgment of the Secretary of Transportation to cover administrative costs. The balance of such purchase price shall be paid by the purchaser, within twenty-five years after delivery of the vessel and in not to exceed twenty-five equal annual installments, the first of which shall be payable one year after the delivery of the vessel by the Secretary of Transportation to the purchaser. Interest at the rate per annum applicable to payments that are chargeable to the purchaser's portion of the price of the vessel shall be paid on all such installments of the purchase price remaining unpaid.

(d) Repealed. Pub. L. 87-877, § 2(a), Oct. 24, 1962, 76 Stat. 1200

(e) Construction in navy yards; sales to citizens; terms

If no bids are received for the construction, outfitting, or equipping of such vessel, or if it appears to the Secretary of Transportation that the bids received from privately owned shipyards of the United States are collusive, excessive, or unreasonable, and if a citizen of the United States agrees to purchase said vessel as provided in this section, then, to provide employment for citizens of the United States, the Secretary of Transportation may have such vessel constructed, outfitted, or equipped at not in excess of the actual cost thereof in a navy yard of the United States under such regulations as may be promulgated by the Secretary of the Navy and the Secretary of Transportation. In such event the Secretary of Transportation is authorized to pay for any such vessel so constructed from his construction fund. The Secretary of Transportation is authorized to sell any vessel so constructed, outfitted, or equipped in a navy yard to a citizen of the United States for the fair and reasonable value thereof, but at not less than the cost thereof less the equivalent to the construction differential subsidy determined as provided by subsection (b) of this section, such sale to be in accordance with all the provisions of this subchapter.

(f) Survey of shipbuilding capability; correction of inadequacies; reimbursement of certain vessel construction and delivery expenses

The Secretary of Transportation, with the advice of and in coordination with the Secretary of the Navy, shall at least once each year, as required for purposes of this chapter, survey the

existing privately owned shipyards capable of merchant ship construction, or review available data on such shipyards if deemed adequate, to determine whether their capabilities for merchant ship construction, including facilities and skilled personnel, provide an adequate mobilization base at strategic points for purposes of national defense and national emergency. The Secretary of Transportation, in connection with ship construction, reconstruction, reconditioning, or remodeling under this subchapter and subchapter VII of this chapter, upon a basis of a finding that the award of the proposed construction, reconstruction, reconditioning, or remodeling work will remedy an existing or impending inadequacy in such mobilization base as to the capabilities and capacities of a shipyard or shipyards at a strategic point, and after taking into consideration the benefits accruing from standardized construction, the conditions of unemployment, and the needs and reasonable requirements of all shipyards, may allocate such construction, reconstruction, reconditioning, or remodeling to such yard or yards in such manner as he may determine to be fair, just, and reasonable to all sections of the country, subject to the provisions of this subsection. In the allocation of construction work to such yards as herein provided, the Secretary of Transportation may, after first obtaining competitive bids for such work in compliance with the provisions of this chapter, negotiate with the bidders and with other shipbuilders concerning the terms and conditions of any contract for such work, and is authorized to enter into such contract at a price deemed by the Secretary of Transportation to be fair and reasonable. Any contract entered into by the Secretary of Transportation under the provisions of this subsection shall be subject to all of the terms and conditions of this chapter, excepting those pertaining to the awarding of contracts to the lowest bidder which are inconsistent with the provisions of this subsection. In the event that a contract is made providing for a price in excess of the lowest responsible bid which otherwise would be accepted, such excess shall be paid by the Secretary of Transportation as a part of the cost of national defense, and shall not be considered as a part of the construction-differential subsidy. In the event that a contract is made providing for a price lower than the lowest responsible bid which otherwise would be accepted, the construction-differential subsidy shall be computed on the contract price in lieu of such bid.

If, as a result of allocation under this subsection, the purchaser incurs expenses for inspection and supervision of the vessel during construction and for the delivery voyage of the vessel in excess of the estimated expenses for the same services that he would have incurred if the vessel had been constructed by the lowest responsible bidder the Secretary of Transportation (with respect to construction under this subchapter, except section 1159 of this Appendix) shall reimburse the purchaser for such excess, less one-half of any gross income the purchaser receives that is allocable to the delivery voyage minus one-half of the extra expenses incurred to produce such gross income, and such reimbursement shall not be considered part of the con-

struction-differential subsidy: *Provided*, That no interest shall be paid on any refund authorized under this chapter. If the vessel is constructed under section 1159 of this Appendix the Secretary of Transportation shall reduce the price of the vessel by such excess, less one-half of any gross income (minus one-half of the extra expenses incurred to produce such gross income) the purchaser receives that is allocable to the delivery voyage. In the case of a vessel that is not to receive operating-differential subsidy, the delivery voyage shall be deemed terminated at the port where the vessel begins loading. In the case of a vessel that is to receive operating-differential subsidy, the delivery voyage shall be deemed terminated when the vessel begins loading at a United States port in an essential service. In either case, however, the vessel owner shall not be compensated for excess vessel delivery costs in an amount greater than the expenses that would have been incurred in delivering the vessel from the shipyard at which it was built to the shipyard of the lowest responsible bidder. If as a result of such allocation, the expenses the purchaser incurs with respect to such services are less than the expenses he would have incurred for such services if the vessel had been constructed by the lowest responsible bidder, the purchaser shall pay to the Secretary of Transportation an amount equal to such reduction and, if the vessel was built with the aid of construction-differential subsidy, such payment shall not be considered a reduction of the construction-differential subsidy.

(g) Sale of vessels acquired by Secretary

Upon the application of any citizen of the United States to purchase any vessel acquired by the Secretary of Transportation under the provisions of section 1125 of this Appendix, the Secretary of Transportation is authorized to sell such vessel to the applicant for the fair and reasonable value thereof, but at not less than the cost thereof to the Secretary of Transportation less depreciation at the rate of 4 per centum per annum from the date of completion, excluding the cost of national-defense features added by the Secretary of Transportation, less the equivalent of any applicable construction-differential subsidy as provided by subsection (b) of this section, such sale to be in accordance with all the provisions of this subchapter. Such vessel shall thereupon be eligible for an operating-differential subsidy under subchapter VI of this chapter, notwithstanding the provisions of section 1171(a)(1), and section 1180(1) of this Appendix, or any other provision of law.

(h) Installation or removal of national defense features; title to such features

The Secretary of Transportation is authorized to construct, purchase, lease, acquire, store, maintain, sell, or otherwise dispose of national defense features intended for installation on vessels. The Secretary of Transportation is authorized to install or remove such national defense features on any vessel (1) which is in the National Defense Reserve Fleet as defined by section 1744(a) of the Appendix to title 50, (2) which is requisitioned, purchased, or chartered under section 1242 of this Appendix, (3) which serves as security for the guarantee of an obligation by

the Secretary of Transportation under subchapter XI of this chapter, or (4) which is the subject of an agreement between the owner of such vessel and the Secretary of Transportation to install or remove such national defense features. Title to such national defense features which the Secretary of Transportation determines are not to be permanently incorporated in a vessel shall not be affected by such installation or removal unless otherwise transferred in accordance with the provisions of this subchapter.

(i) Plans, specifications, and proposals for national defense features; certification of approval

The Secretary of Transportation shall submit the plans and specifications for such national defense features and the proposals for their acquisition, storage, utilization, or disposition to the Navy Department for examination thereof and suggestion for such changes therein as may be deemed necessary or proper in order that such features shall be suitable for the use of the United States Government in time of war or national emergency. If the Secretary of the Navy approves such plans, specifications, or proposals as submitted, or as modified in accordance with the provisions of this subsection, he shall certify such approval to the Secretary of Transportation.

CONSTRUCTION AND SALE OF SUPERLINER PASSENGER VESSELS

Pub. L. 85-521, July 15, 1958, 72 Stat. 359, provided: “That it is necessary, in order to carry out the merchant marine policy declared in the Merchant Marine Act, 1936, as amended [this chapter], to have (a) a superliner passenger vessel equivalent to the steamship United States, to replace the steamship America for operation on an essential trade route in the North Atlantic, and (b) a superliner passenger vessel with capacity of approximately one thousand four hundred passengers for operation on an essential trade route in the Pacific Ocean. Nothing herein shall preclude the operation of either of these vessels in other areas, subject to the approval of the Federal Maritime Board. There is hereby authorized to be appropriated to the Department of Commerce such sums as may be necessary, to remain available until expended, for the construction, outfitting, and equipping of such vessels.

“SEC. 2. Concurrently with entering into contracts with shipbuilders for the construction of said vessels, the Board is authorized to enter into contracts for the sale of the vessels, fully outfitted and equipped, upon their completion, (a) with respect to the superliner passenger vessel equivalent to the steamship United States, to the United States Lines Company, for the fixed price of \$47,000,000, and (b) with respect to the superliner passenger vessel for operation in the Pacific Ocean, to the American President Lines, Limited, for the fixed price of \$34,000,000, or 45 per centum of the domestic construction cost of the vessel fully outfitted and equipped (excluding national defense features and escalation) whichever is the greater. The sales prices stated herein shall include the cost of stabilizers, all outfit and equipment not covered by the shipbuilders’ bids, customary architects’ and interior decorators’ fees for design, inspection during construction, and all escalation provided for in the shipbuilders’ bids: *Provided, however*, That such prices shall be increased in an amount equal to 45 per centum of any net change in the cost of the vessels (other than national defense features) arising out of any changes in the bid specifications approved by the Federal Maritime Board or any changes in the usual outfitting and equipping of the vessels if such changes are requested by the purchasers and approved by the Federal Maritime Board after the enactment hereof. Terms and conditions of payment of the purchase price shall be as provided for in sections 502(c) and 503 of the Merchant Marine Act, 1936, as

amended [sections 1152(c) and 1153 of this Appendix]. In order that such construction of the superliner passenger vessel equivalent to the steamship United States may be accomplished promptly, the Federal Maritime Board, in its discretion, may have such a vessel constructed, without further bidding, under outstanding bids which have hitherto been made by United States shipbuilders on a similar vessel.

“SEC. 3. Except as otherwise provided in this Act, the construction and sale of the superliner passenger vessels authorized by this Act shall be in accordance with the provisions of the Merchant Marine Act, 1936, as amended [this chapter].

“SEC. 4. For the purposes of this Act the words ‘construction differential subsidy’ used in the Merchant Marine Act, 1936, as amended [this chapter], shall mean the difference between the sales price paid by the purchaser hereunder and the cost of the vessel (less national defense features) including the cost of stabilizers, all outfit and equipment not covered by the shipbuilders’ bids, customary architects’ and interior decorators’ fees for design, inspection during construction, and all escalation provided for in the shipbuilders’ bids.

“SEC. 5. Any contract for an operating differential subsidy on the operation of a vessel constructed and sold under this Act shall be subject to the provisions of title VI of the Merchant Marine Act, 1936, as amended [subchapter VI of this chapter]: *Provided, however*, That such contract shall provide that, if at the end of any recapture period, the net profits on the operation of such vessel for such recapture period, computed without regard to profits or losses on other vessels operated by the contractor, exceed 10 per centum per annum on a cumulative basis upon the contractor’s capital necessarily employed in the operation of such vessel, as determined by the Federal Maritime Board, the contractor shall account to the United States for an amount equal to 75 per centum of such excess profits.”

§ 1153. Documentation of completed vessel under laws of United States; delivery to purchaser; first mortgage to secure deferred payments

Upon completion of the construction of any vessel in respect to which a construction-differential subsidy is to be allowed under this subchapter and its delivery by the shipbuilder to the Secretary of Transportation, the vessel shall be documented under the laws of the United States, and concurrently therewith, or as soon thereafter as practicable, the vessel shall be delivered with a bill of sale to the purchaser with warranty against liens, pursuant to the contract of sale between the purchaser and the Secretary of Transportation. The vessel shall remain documented under the laws of the United States for not less than twenty-five years, or so long as there remains due the United States any principal or interest on account of the purchaser price, whichever is the longer period. At the time of delivery of the vessel the purchaser shall execute and deliver a first-preferred mortgage to the United States to secure payment of any sums due from the purchaser in respect to said vessel: *Provided*, That notwithstanding any other provisions of law, the payment of any sums due in respect to a passenger vessel purchased under section 1737(b)¹ of the Appendix to title 50, reconverted or restored for normal operation in commercial services, or in respect to a passenger vessel purchased under subchapter V of this chapter, which is delivered subsequent to March 8, 1946, and which (i) is of not less than ten thousand gross tons, (ii) has a designed

speed approved by the Secretary of Transportation but not less than eighteen knots, (iii) has accommodations for not less than two hundred passengers, and, (iv) is approved by the Secretary of Defense as being desirable for national defense purposes, may, with the approval of the Secretary of Transportation be secured only by a first-preferred mortgage on said vessel. With the approval of the Secretary of Transportation, such preferred mortgage may provide that the sole recourse against the purchaser of such a passenger vessel under such mortgage, and any of the notes secured thereby, shall be limited to repossession of the vessel by the United States and the assignment of insurance claims, if the purchaser shall have complied with all provisions of the mortgage other than those relating to the payment of principal and interest when due, and the obligation of the purchaser shall be satisfied and discharged by the surrender of the vessel, and all right, title, and interest therein to the United States. Such vessel upon surrender shall be (i) free and clear of all liens and encumbrances whatsoever, except the lien of the preferred mortgage, (ii) in class, and (iii) in as good order and condition, ordinary wear and tear excepted, as when acquired by the purchaser, except that any deficiencies with respect to freedom from encumbrances, condition, and class, may, to the extent covered by valid policies of insurance, be satisfied by the assignment to the United States of claims of the purchaser under such policies of insurance. The purchaser shall also comply with all the provisions of section 868 of this Appendix.

§ 1154. Purchase of vessel constructed in accordance with application for subsidy; bid or negotiated price basis for subsidy and payments for cost of national defense features; documentation

If a qualified purchaser under the terms of this subchapter desires to purchase a vessel to be constructed in accordance with an application for construction-differential subsidy under this subchapter, the Secretary of Transportation may, in lieu of contracting to pay the entire cost of the vessel under section 1152 of this Appendix, contract to pay only construction-differential subsidy and the cost of national defense features to the shipyard constructing such vessel. The construction-differential subsidy and payments for the cost of national defense features shall be based upon the lowest responsible domestic bid unless the vessel is constructed at a negotiated price as provided by section 1152(a) of this Appendix or under a contract negotiated by the Secretary of Transportation as provided in section 1152(b) of this Appendix in which event the construction-differential subsidy and payments for the cost of national defense features shall be based upon such negotiated price. No construction-differential subsidy, as provided in this section, shall be paid unless the said contract or contracts or other arrangements contain such provisions as are provided in this subchapter to protect the interests of the United States as the Secretary of Transportation deems necessary. Such vessel shall be documented under the laws of the United States as provided in section 1153 of this Appendix. The contract of sale, and the mortgage given to secure the payment of the unpaid balance of the purchase price, shall not restrict the lawful or proper use or operation of the vessel, except to the extent expressly required by law.

In all such construction the shipbuilder, subcontractors, materialmen, or suppliers shall use, so far as practicable, only articles, materials, and supplies of the growth, production, or manufacture of the United States as defined in paragraph K¹ of section 1401 of title 19; *Provided, however*, That with respect to other than major components of the hull, superstructure, and any material used in the construction thereof, (1) if the Secretary of Transportation determines that the requirements of this sentence will unreasonably delay completion of any vessel beyond its contract delivery date, and (2) if such determination includes or is accompanied by a concise explanation of the basis therefor, then the Secretary of Transportation may waive such requirements to the extent necessary to prevent such delay. No shipbuilder shall be deemed a responsible bidder unless he possesses the ability, experience, financial resources, equipment, and other qualifications necessary properly to perform the proposed contract. Each bid submitted to the Secretary of Transportation shall be accompanied by all detailed estimates upon which it is based. Every owner of a vessel for which a construction-differential subsidy has been paid shall agree that the vessel shall be operated exclusively in foreign trade, or on a round-the-world voyage, or on a round voyage from the west coast of the United States to a European port or ports which includes intercoastal ports of the United States, or a round voyage from the Atlantic coast of the United States to the Orient which includes intercoastal ports of the United States, or on a voyage in foreign trade on which the vessel may stop at the State of Hawaii, or an island possession or island territory of the United States, and that if the vessel is operated in the domestic trade on any of the above-enumerated services, he will pay annually to the Secretary of Transportation that proportion of one-twenty-fifth of the construction-differential subsidy paid for such vessel as the gross revenue derived from the domestic trade bears to the gross revenue derived from the entire voyages completed during the preceding year. The Secretary may consent in writing to the temporary transfer of such vessel to service other than the service covered by such agreement for periods not exceeding six months in any year, whenever the Secretary may determine that such transfer is necessary or appropriate to carry out the purposes of this chapter. Such consent shall be conditioned upon the agreement by the owner to pay to the Secretary, upon such terms and conditions as he may prescribe, an amount which bears the same proportion to the construction-differential subsidy paid by the Secretary as

such temporary period bears to the entire economic life of the vessel. No operating-differential subsidy shall be paid for the operation of such vessel for such temporary period.

§ 1158. Disposition of vessels transferred to Maritime Administration of Department of Transportation

(a) Authority to scrap or sell obsolete vessels

If the Secretary of Transportation shall determine that any vessel transferred to the Maritime Administration of the Department of Transportation by section 1112 of this Appendix, or hereafter acquired, is of insufficient value for commercial or military operation to warrant its further preservation, the Secretary of Transportation is authorized (1) to scrap said vessel, or (2) to sell such vessel for cash, after appraisal and due advertisement, and upon competitive sealed bids, either to citizens of the United States or to aliens: *Provided*, That the purchaser thereof shall enter into an undertaking with sureties approved by the Secretary of Transportation that such vessel shall not be operated in the foreign commerce of the United States at any time within the period of ten years after the date of the sale, in competition with any other vessel owned by a citizen or citizens of the United States and registered under the laws thereof.

(b) Authority to convey vessels

(1) In general

Notwithstanding section 1160(j) of this Appendix, the Secretary of Transportation may convey the right, title, and interest of the United States Government in any vessel of the National Defense Reserve Fleet that has been identified by the Secretary as an obsolete vessel of insufficient value to warrant its further preservation, if—

(D) the recipient agrees to hold the Government harmless for any claims arising from exposure to asbestos, polychlorinated biphenyls, lead paint, or other hazardous substances after conveyance of the vessel, except for claims arising from use of the vessel by the Government;

(E) the recipient has a conveyance plan and a business plan that describes the intended use of the vessel, each of which have been submitted to and approved by the Secretary;

(F) the recipient has provided proof, as determined by the Secretary, of resources sufficient to accomplish the transfer, necessary repairs and modifications, and initiation of the intended use of the vessel; and

(G) the recipient agrees that when the recipient no longer requires the vessel for use

as described in the business plan required under subparagraph (E)—

(i) the recipient will, at the discretion of the Secretary, reconvey the vessel to the Government in good condition except for ordinary wear and tear; or

(ii) if the Board of Trustees of the recipient has decided to dissolve the recipient according to the laws of the State in which the recipient is incorporated, then—

(I) the recipient shall distribute the vessel, as an asset of the recipient, to a person that has been determined exempt from taxation under the provisions of section 501(c)(3) of title 26, or to the Federal Government or a State or local government for a public purpose; and

If conveyance is made under this subsection the vessel shall be delivered to the recipient at a time and place to be determined by the Secretary. The vessel shall be conveyed in an "as is" condition.

(5) Limitations

If at any time prior to delivery of the vessel to the recipient, the Secretary determines that a different disposition of a vessel would better serve the interests of the Government, the Secretary shall pursue the more favorable disposition of the obsolete vessel and shall not be liable for any damages that may result from an intended recipient's reliance upon a proposed transfer.

(6) Reversion

The Secretary shall include in any conveyance under this subsection terms under which all right, title, and interest conveyed by the Secretary shall revert to the United States if the Secretary determines the vessel has been used other than as described in the business plan required under paragraph (1)(E).

Any citizen of the United States may make application to the Secretary of Transportation for aid in the construction of a new vessel to be operated in the foreign or domestic trade (excepting vessels engaged solely in the transportation of property on inland rivers and canals exclusively). If such application is approved by the Secretary of Transportation, the vessel may be constructed under the terms and conditions of this subchapter, but no construction-differential subsidy shall be allowed. The Secretary of Transportation shall pay for the cost of national-defense features incorporated in such vessel. In case the vessel is designed to be of not less than three thousand five hundred gross tons and to be capable of sustained speed of not less than ten knots, or in the case of a passenger vessel operating solely on the inland rivers and waterways which is designed to be of not less than one thousand gross tons and to be capable of sustained speed of not less than eight knots, or in the case of a ferry operating solely in point-to-point transportation which is designed to be of not less than seventy-five gross tons and to be capable of a sustained speed of not less than eight knots, in the case of an oceangoing tug of more than two thousand five hundred horsepower or oceangoing barge of more than two thousand five hundred gross tons, or in the case of a vessel of more than two thousand five hundred horsepower designed to be capable of sustained speed of not less than forty knots, the purchaser shall be required to pay the Secretary of Transportation not less than 12½ per centum of the cost of such vessel, and in the case of any other vessel the purchaser shall be required to pay the Secretary of Transportation not less than 25 per centum of the cost of such vessel (excluding from such cost, in either case, the cost of national defense features); and the balance of such purchase price shall be paid by the purchaser within twenty-five years in not to exceed twenty-five equal annual installments, with interest at a rate not less than (i) a rate determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans, adjusted to the nearest one-eighth of 1 per centum, plus (ii) an allowance adequate in the judgment of the Secretary of Transportation to cover administrative costs, the balance of such purchase price being secured by a preferred mortgage on the vessel sold and otherwise secured as the Secretary of Transportation may determine: *Provided*, That, notwithstanding any other provisions of law, the balance of the pur-

AMENDMENTS

1981—Pub. L. 97-31 substituted "Secretary of Transportation" for "Secretary of Commerce" wherever appearing.

1978—Pub. L. 95-505 substituted "ten knots" for "fourteen knots".

1977—Pub. L. 95-173 inserted ", or in the case of a ferry operating solely in point-to-point transportation which is designed to be of not less than seventy-five gross tons and to be capable of a sustained speed of not less than eight knots" after "less than eight knots".

1972—Pub. L. 92-374 inserted "or in the case of a vessel of more than two thousand five hundred horsepower designed to be capable of sustained speed of not less than forty knots" in sentence dealing with percentage of cost payable by purchaser, after "barge of more than two thousand five hundred gross tons".

L. 91-469 substituted "Secretary of Commerce" for "Commission" in seven places, "purchaser" for "applicant" in first three places, and provision for a rate of interest not less than a rate determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans, adjusted to the nearest one-eighth of 1 per centum plus an administrative cost allowance for prior rate of 3½ per centum per annum.

1967—Pub. L. 90-214 included provision for oceangoing tugs of more than two thousand five hundred horsepower or oceangoing barges of more than two thousand five hundred gross tons.

1962—Pub. L. 87-877 struck out second proviso which, in the case of a vessel to be constructed under this section, gave a preference to an applicant who had his principal place of business on the Pacific coast of the United States, but not including one in business on or before Aug. 1, 1935, who subsequently changed his principal place of business to the Pacific coast, if such vessel was to be operated from such coast, the amount of the lowest responsible shipyard bid did not exceed by more than six per centum, a bid by such a shipyard on the Atlantic coast, and a port on the Pacific coast was designated and continued as the home port of the vessel, which set a lower rate of interest on deferred payments that would otherwise be applicable with respect to periods of construction of such vessel and its operation exclusively in coastwise, intercoastal, and other

domestic trade, and which enumerated four conditions under which such lower interest rate would not apply.

1960—Pub. L. 86-518 substituted “twenty-five” for “twenty” in two places.

1952—Act July 17, 1952, provided that as to vessels delivered after Mar. 8, 1946, the balance of the payments shall be secured by a first preferred mortgage and that the purchaser’s obligation to pay will be discharged by surrender of the vessel and all rights to the Government.

1938—Act June 23, 1938, substituted “foreign or domestic trade” for “domestic trade”, and inserted provisions requiring the Commission to pay for the cost of national-defense features.

§ 1160. Acquisition of obsolete vessels

(a) Definitions

When used in this section—

(1) The term “obsolete vessel” means a vessel or vessels, each of which (A) is of not less than one thousand three hundred and fifty gross tons, (B) in the judgment of the Secretary of Transportation, should, by reason of age, obsolescence, or otherwise, be replaced in the public interest and (C) has been owned by a citizen or citizens of the United States for at least three years immediately prior to the date of acquisition hereunder.

(2) The term “new vessel” means a vessel or vessels, each of which (A) is constructed under the provisions of this chapter, and is acquired within two years from the date of completion of such vessel, or is purchased under section 1204 of this Appendix, as amended, by the person turning in an obsolete vessel under this section, or (B) is hereafter constructed in a domestic shipyard on private account and not under the provisions of this chapter, and documented under the laws of the United States.

(b) Promotion of construction of new vessels; allowance on obsolete vessels

In order to promote the construction of new, safe, and efficient vessels to carry the domestic

and foreign waterborne commerce of the United States, the Secretary of Transportation is authorized, subject to the provisions of this section, to acquire any obsolete vessel in exchange for an allowance of credit. The obsolete vessel shall be acquired by the Secretary of Transportation, if the owner so requests, either at the time the owner contracts for the construction or purchase of a new vessel or within five days of the actual date of delivery of the new vessel to the owner. The amount of the allowance shall be determined at the time of the acquisition of the obsolete vessel by the Secretary of Transportation. In the event the obsolete vessel is acquired by the Secretary of Transportation at the time the owner contracts for the construction or purchase of the new vessel, the allowance shall not be paid to the owner of the obsolete vessel, but shall be applied upon the purchase price of a new vessel. In the case of a new vessel constructed under the provisions of this chapter, such allowance may, under such terms and conditions as the Secretary of Transportation may prescribe, be applied upon the cash payments required under this chapter. In case the new vessel is not constructed under the provisions of this chapter, the allowance shall, upon acquisition of the obsolete vessel by the Secretary of Transportation, be paid, for the account of the owner, to the shipbuilder constructing such new vessel. In the event that title to the obsolete vessel is acquired by the Secretary of Transportation at the time of delivery of the new vessel, the allowance shall be deposited in the owner’s capital construction fund. This subsection shall apply to obsolete vessels exchanged for new vessels hereafter contracted to be built, or eligible for such exchange but not exchanged in connection with a contract for new vessels executed prior to October 1, 1960.

(c) Utility value of new vessel; gross tonnage

The utility value of the new vessel for operation in the domestic or foreign commerce of the United States shall not be substantially less than that of the obsolete vessel. The gross tonnage of the obsolete vessel may exceed the gross tonnage of the new vessel in a ratio not in excess of three to one, if the Secretary of Transportation finds that the new vessel, although of lesser tonnage, will provide utility value equivalent to or greater than that of the obsolete vessel.

(d) Amount of allowance on obsolete vessel; determination of amount

The allowance for an obsolete vessel shall be the fair and reasonable value of such vessel as determined by the Secretary of Transportation. In making such determination the Secretary of Transportation shall consider: (1) the scrap value of the obsolete vessel both in American and foreign markets, (2) the depreciated value based on a twenty or twenty-five year life, whichever is applicable to the obsolete vessel, and (3) the market value thereof for operation in the world trade or in the foreign or domestic trade of the United States. In the event the obsolete vessel is acquired by the Secretary of Transportation at the time the owner contracts for the construction of the new vessel, and the owner uses such vessel during the period of con-

struction of the new vessel, the allowance shall be reduced by an amount representing the fair value of such use. The rate for the use of the obsolete vessel shall be fixed by the Secretary of Transportation for the entire period of such use at the time of execution of the contract for the construction of the new vessel.

(e) Recognition of gain for income tax purposes; basis for gain or loss

No gain shall be recognized to the owner for the purpose of Federal income taxes in the case of a transfer of an obsolete vessel to the Secretary of Transportation under the provisions of this section. The basis for gain or loss upon a sale or exchange and for depreciation under the applicable Federal income-tax laws of a new vessel acquired as contemplated in this section shall be the same as the basis of the obsolete vessel or vessels exchanged for credit upon the acquisition of such new vessel, increased in the amount of the cost of such vessel (other than the cost represented by such obsolete vessel or vessels) and decreased in the amount of loss recognized upon such transfer.

(f) Report to Congress

The Secretary of Transportation shall include in his annual report to Congress a detailed statement of all transactions consummated under the provisions of the preceding subsections during the period covered by such report.

(g) Use of vessels 25 years old or more

An obsolete vessel acquired by the Secretary of Transportation under this section which is or becomes twenty-five years old or more, and vessels presently in the Secretary's laid-up fleet which are or become twenty-five years old or more, shall in no case be used for commercial operation, except that any such obsolete vessel, or any such vessel in the laid-up fleet may be used during any period in which vessels may be requisitioned under section 1242 of this Appendix, as amended, and except as otherwise provided in this chapter for the employment of the Secretary's vessels in steamship lines on trade routes exclusively serving the foreign trade of the United States.

(h) Repealed. Pub. L. 101-225, title III, § 307(7), Dec. 12, 1989, 103 Stat. 1925

(i) Exchange of vessels; valuation; scrapping of traded out vessels

The Secretary of Transportation is authorized to acquire suitable documented vessels, as defined in section 2101 of title 46, with funds in the Vessel Operations Revolving Fund derived from the sale of obsolete vessels in the National Defense Reserve Fleet. For purposes of this subsection, the acquired and obsolete vessels shall be valued at their scrap value in domestic or foreign markets as of the date of the acquisition for or sale from the National Defense Reserve Fleet; except that, in a transaction subject to this section, the value assigned to those vessels will be determined on the same basis, with consideration given to the fair value of the cost of positioning the traded-out vessel to the place of scrapping. All costs incident to the lay-up of the vessel acquired under this subsection may be

paid from balances in the Fund. Notwithstanding the provisions of sections 808 and 835 of this Appendix, vessels sold from the National Defense Reserve Fleet under this subsection may be scrapped in approved foreign markets.

(j) Placement in national defense reserve fleet of acquired vessels

Any vessel heretofore or hereafter acquired under this section, or otherwise acquired by the Maritime Administration of the Department of Transportation under any other authority shall be placed in the national defense reserve fleet established under authority of section 11 of the Merchant Ship Sales Act of 1946 [50 App. U.S.C. 1744] and shall not be traded out or sold from such reserve fleet, except as provided for in subsections (g) and (i) of this section. This limitation shall not affect the rights of the Secretary of Transportation to dispose of a vessel as provided in other sections of this subchapter or in subchapters VII or XI of this chapter.

AMENDMENTS

1990—Subsec. (i). Pub. L. 101-595 amended subsec. (i) generally. Prior to amendment, subsec. (i) read as follows: "The Secretary of Transportation is authorized to acquire mariner class vessels constructed under subchapter VII of this chapter and Public Law 911, Eighty-first Congress, and other suitable vessels, constructed in the United States, which have never been under foreign documentation, in exchange for obsolete vessels in the National Defense Reserve Fleet. For purposes of this subsection, the trade-in and trade-out vessels shall be valued at the higher of their scrap value in domestic or foreign markets as of the date of the exchange: *Provided*, That in any exchange transactions, the value assigned to the traded-in and traded-out vessels will be determined on the same basis. The value of the traded-out vessels shall be as nearly as possible equal to the value of the traded-in vessel plus the fair value of the cost of towing the traded-out vessel to the place of scrapping. To the extent the value of the traded-out vessel exceeds the value of the traded-in vessel plus the fair value of the cost of towing, the owner of the traded-in vessel shall pay the excess to the Secretary of Transportation in cash at the time of exchange. This excess shall be deposited into the Vessel Operations Revolving Fund and all costs incident to the lay-up of the vessels acquired under this chapter may be paid from balances in the Fund. No payments shall be made by the Secretary of Transportation to the owner of any traded-in vessel in connection with any exchange under

this subsection. Notwithstanding the provisions of sections 808 and 835 of this Appendix, vessels traded out under this subsection may be scrapped in approved foreign markets. The provision of this subsection (i) as it read prior to the 1975 amendment shall govern all transactions made thereunder prior to that amendment."

§ 1161. Reserve funds for construction or acquisition of vessels; taxation

(a) “New vessel” defined

When used in this section the term “new vessel” means any vessel (1) documented or agreed with the Secretary of Transportation to be documented under the laws of the United States; (2) constructed in the United States after December 31, 1939, or the construction of which has been financed under subchapters V or VII of this chapter, or the construction of which has been aided by a mortgage insured under subchapter XI of this chapter; and (3) either (A) of such type, size, and speed as the Secretary of Transportation shall determine to be suitable for use on the high seas or Great Lakes in carrying out the purposes of this chapter, but not of less than two thousand gross tons or of less speed than twelve knots, unless the Secretary of Transportation shall determine and certify in each case that a vessel of a specified lesser tonnage or speed is desirable for use by the United States in case of war or national emergency, or (B) constructed to replace a vessel or vessels requisitioned or purchased by the United States.

(b) Establishment of construction reserve funds

For the purposes of promoting the construction, reconstruction, reconditioning, or acquisition of vessels, or for other purposes authorized in this section, necessary to carrying out the policy set forth in section 1101 of this Appendix, any citizen of the United States who is operating a vessel or vessels in the foreign or domestic commerce of the United States or in the fisheries or owns in whole or in part a vessel or ves-

sels being so operated, or who, at the time of purchase or requisition of the vessel by the Government, was operating a vessel or vessels so engaged or owned in whole or in part a vessel or vessels being so operated or had acquired or was having constructed a vessel or vessels for the purpose of operation in such commerce or in the fisheries, may establish a construction reserve fund, for the construction, reconstruction, reconditioning, or acquisition of new vessels, or for other purposes authorized in this section, to be composed of deposits of proceeds from sales of vessels, indemnities on account of losses of vessels, earnings from the operation of vessels documented under the laws of the United States and from services incident thereto, and receipts, in the form of interest or otherwise, with respect to amounts previously deposited. Such construction reserve fund shall be established, maintained, expended, and used in accordance with the provisions of this section and rules or regulations to be prescribed jointly by the Secretary of Transportation and the Secretary of the Treasury.

(c) Recognition of gain for taxation where proceeds of sale or indemnity for loss deposited in fund

In the case of the sale or actual or constructive total loss of a vessel, if the taxpayer deposits an amount equal to the net proceeds of the sale or to the net indemnity with respect to the loss in a construction reserve fund established under subsection (b) of this section, then—

(1) if the taxpayer so elects in his income-tax return for the taxable year in which the gain was realized, or

(2) in case a vessel is purchased or requisitioned by the United States, or is lost, in any taxable year beginning after December 31, 1939, and the taxpayer receives payment for the vessel so purchased or requisitioned, or receives from the United States indemnity on account of such loss, subsequent to the end of such taxable year, if the taxpayer so elects prior to the expiration of sixty days after the receipt of the payment or indemnity, and in accordance with a form of election to be prescribed by the Commissioner of Internal Revenue with the approval of the Secretary of the Treasury,

no gain shall be recognized to the taxpayer in respect of such sale or indemnification in the computation of net income for the purposes of Federal income or excess-profits taxes. If an election is made under subdivision (2) of this subsection and if computation or recomputation in accordance with this subsection is otherwise allowable but is prevented, on the date of making such election or within six months thereafter, by any statute of limitation, such computation or recomputation nevertheless shall be made notwithstanding such statute if a claim therefor is filed within six months after the date of making such election.

For the purposes of this subsection no amount shall be considered as deposited in a construction reserve fund unless it is deposited within sixty days after it is received by the taxpayer.

As used in this subsection the term "net proceeds" and the term "net indemnity" mean the

sum of (1) the adjusted basis of the vessel and (2) the amount of gain which would be recognized to the taxpayer without regard to this subsection.

(d) Basis for determining gain or loss and for depreciation of new vessels

The basis for determining gain or loss and for depreciation, for the purposes of Federal income or excess profits taxes, of any new vessel constructed, reconstructed, reconditioned, or acquired by the taxpayer, or with respect to which purchase-money indebtedness is liquidated as provided in subsection (g) of this section, in whole or in part out of the construction reserve fund shall be reduced by that portion of the deposits in the fund expended in the construction, reconstruction, reconditioning, acquisition, or liquidation of purchase-money indebtedness of the new vessel which represents gain not recognized for tax purposes under subsection (c) of this section.

(e) Order, proportions, etc., of deposits and withdrawals

For the purposes of this section, (1) if the net proceeds of a sale or the net indemnity in respect of a loss are deposited in more than one deposit, the amount consisting of the gain shall be considered as first deposited; (2) amounts expended, obligated, or otherwise withdrawn shall be applied against the amounts deposited in the fund in the order of deposit; and (3) if any deposit consists in part of gain not recognized under subsection (c) of this section, any expenditure, obligation, or withdrawal applied against such deposit shall be considered to consist of gain in the proportion that the part of the deposit consisting of gain bears to the total amount of the deposit.

(f) Amounts in fund as accumulation of earnings or profits

With respect to any taxable year, amounts on deposit on the last day of such year in a construction reserve fund in accordance with this section and with respect to which all the requirements of subsection (g) of this section have been satisfied, to the extent that such requirements are applicable as of the last day of said taxable year, shall not constitute an accumulation of earnings or profits within the meaning of section 102 of the Internal Revenue Code.

(g) Benefits of section conditioned upon manner and time of expenditure of deposits

The provisions of subsections (c) and (f) of this section shall apply to any deposit in the construction reserve fund only to the extent that such deposit is expended or obligated for expenditure, in accordance with rules and regulations to be prescribed jointly by the Secretary of Transportation and the Secretary of the Treasury—

(1) under a contract for the construction or acquisition of a new vessel or vessels (or in the discretion of the Secretary of Transportation, for a part interest therein), or, with the approval of the Secretary of Transportation, for the reconstruction or reconditioning of a new vessel or vessels, entered into within (i) two years from the date of deposit or the date of

any extension thereof which may be granted by the Secretary of Transportation pursuant to the provisions of subsection (h) of this section, in the case of deposits made prior to the date on which these amendatory provisions become effective, or (ii) three years from the date of such deposit in the case of a deposit made after such effective date, only if under such rules and regulations—

(A) within such period not less than 12½ per centum of the construction or contract price of the vessel or vessels is paid or irrevocably committed on account thereof and the plans and specifications therefor are approved by the Secretary of Transportation to the extent by him deemed necessary; and

(B) in case of a vessel or vessels not constructed under the provisions of this subchapter or not purchased from the Secretary of Transportation, (i) said construction is completed, within six months from the date of the construction contract, to the extent of not less than 5 per centum thereof (or in case the contract covers more than one vessel, the construction of the first vessel so contracted for is so completed to the extent of not less than 5 per centum) as estimated by the Secretary of Transportation and certified by him to the Secretary of the Treasury, and (ii) all construction under such contract is completed with reasonable dispatch thereafter;

(2) for the liquidation of existing or subsequently incurred purchase-money indebtedness to persons other than a parent company of, or a company affiliated or associated with, the mortgagor on a new vessel or vessels within (i) two years from the date of deposit or the date of any extension thereof which may be granted by the Secretary of Transportation pursuant to the provisions of subsection (h) of this section, in the case of deposits made prior to the date on which these amendatory provisions become effective, or (ii) three years from the date of such deposit in the case of a deposit made after such effective date.

(h) Authorizations of extensions of time

The Secretary of Transportation is authorized under rules and regulations to be prescribed jointly by the Secretary of the Treasury and the Secretary of Transportation to grant extensions of the period within which the deposits shall be expended or obligated or within which construction shall have progressed to the extent of 5 per centum of completion as provided herein, but such extension shall not be for an aggregate additional period in excess of two years with respect to the expenditure or obligation of such deposits or more than one year with respect to the progress of such construction: *Provided*, That until January 1, 1965, in addition to the extensions hereinbefore permitted, further extensions may be granted ending not later than December 31, 1965.

(i) Taxation of deposits upon failure of conditions

Any such deposited gain or portion thereof which is not so expended or obligated within the period provided, or which is otherwise with-

drawn before the expiration of such period, or with respect to which the construction has not progressed to the extent of 5 per centum of completion within the period provided, or with respect to which the Secretary of Transportation finds and certifies to the Secretary of the Treasury that, for causes within the control of the taxpayer, the entire construction is not completed with reasonable dispatch, if otherwise taxable income under the law applicable to the taxable year in which such gain was realized, shall be included in the gross income for such taxable year, except for the purpose of the declared value excess-profits tax and the capital stock tax. If any such deposited gain or portion thereof with respect to a deposit made in any taxable year ending on or before June 30, 1945 is so included in gross income for such taxable year, there shall (in addition to any other deficiency) be assessed, collected, and paid in the same manner as if it were a deficiency, an amount equal to 1.1 per centum of the amount of gain so included, such amount being in lieu of any adjustment with respect to the declared value excess-profits tax for such taxable year.

(j) Assessment and collection of deficiency tax

Notwithstanding any other provision of law, any deficiency in tax for any taxable year resulting from the inclusion of any amount in gross income as provided by subsection (i) of this section, and the amount to be treated as a deficiency under such subsection in lieu of any adjustment with respect to the declared value excess-profits tax, may be assessed or a proceeding in court for the collection thereof may be begun without assessment, at any time: *Provided, however*, That interest on any such deficiency or amount to be treated as a deficiency shall not begin until the date the deposited gain or portion thereof in question is required under subsection (i) of this section to be included in gross income.

(k) Taxable years governed by section

This section shall be applicable to a taxpayer only in respect of sales or indemnifications for losses occurring within a taxable year beginning after December 31, 1939, and only in respect of earnings derived during a taxable year beginning after December 31, 1939.

(l) Vessels deemed constructed or acquired by taxpayers owning stock in corporations constructing or acquiring vessels

For the purposes of this section a vessel shall be considered as constructed or acquired by the taxpayer if constructed or acquired by a corporation at a time when the taxpayer owns at least 95 per centum of the total number of shares of each class of stock of the corporation.

(m) Definitions

The terms used in this section shall have the same meaning as in chapter 1 of the Internal Revenue Code.

(n) "Contract for the construction" and "construction contract" defined

The terms "contract for the construction" and "construction contract", as used in this section, shall include, in the case of a taxpayer who constructs a new vessel in a shipyard owned by such

taxpayer, an agreement between such taxpayer and the Secretary of Transportation with respect to such construction and containing provisions deemed necessary or advisable by the Secretary of Transportation to carry out the purposes and policy of this section.

(o) "Reconstruction and reconditioning" defined

The terms "reconstruction and reconditioning", as used in this section, shall include the reconstruction, reconditioning, or modernization of a vessel for exclusive use on the Great Lakes, including the Saint Lawrence River and Gulf, if the Secretary of Transportation determines that the objectives of this chapter will be promoted by such reconstruction, reconditioning, or modernization, and, notwithstanding any other provisions of law, such vessel shall be deemed to be a "new vessel" within the meaning of this section for such reconstruction, reconditioning, or modernization.

SUBCHAPTER VI—VESSEL OPERATING ASSISTANCE PROGRAMS

PART A—OPERATING-DIFFERENTIAL SUBSIDY PROGRAM

§ 1171. Subsidy authorized for operation of vessels in foreign trade or in off-season cruises

(a) Application for subsidy; conditions precedent to granting

The Secretary of Transportation is authorized and directed to consider the application of any citizen of the United States for financial aid in the operation of a vessel or vessels, which are to

be used in an essential service in the foreign commerce of the United States or in such service and in cruises authorized under section 1183 of this Appendix. In this subchapter VI the term “essential service” means the operation of a vessel on a service, route, or line described in section 1121(a) of this Appendix or in bulk cargo carrying service described in section 1121(b) of this Appendix. No such application shall be approved by the Secretary of Transportation unless he determines that (1) the operation of such vessel or vessels in an essential service is required to meet foreign-flag competition and to promote the foreign commerce of the United States except to the extent such vessels are to be operated on cruises authorized under section 1183 of this Appendix, and that such vessel or vessels were built in the United States, or have been documented under the laws of the United States not later than February 1, 1928, or actually ordered and under construction for the account of citizens of the United States prior to such date; (2) the applicant owns, or leases or can and will build or purchase, or lease, a vessel or vessels of the size, type, speed, and number, and with the proper equipment required to enable him to operate in an essential service, in such manner as may be necessary to meet competitive conditions, and to promote foreign commerce; (3) the applicant possesses the ability, experience, financial resources, and other qualifications necessary to enable him to conduct the proposed operations of the vessel or vessels as to meet competitive conditions and promote foreign commerce; (4) the granting of the aid applied for is necessary to place the proposed operations of the vessel or vessels on a parity with those of foreign competitors, and is reasonably calculated to carry out effectively the purposes and policy of this chapter. To the extent the application covers cruises, as authorized under section 1183 of this Appendix, the Secretary of Transportation may make the portion of this last determination relating to parity on the basis that any foreign flag cruise from the United States competes with any American flag cruise from the United States.

(b) Statements as to financial interests to accompany application; penalty for false statements

Every application for an operating-differential subsidy under the provisions of this subchapter shall be accompanied by statements disclosing the names of all persons having any pecuniary interest, direct or indirect, in such application, or in the ownership or use of the vessel or vessels, routes, or lines covered thereby, and the nature and extent of any such interest, together with such financial and other statements as may be required by the Secretary of Transportation. All such statements shall be under oath or affirmation and in such form as the Secretary of Transportation shall prescribe. Any person who, in an application for financial aid under this subchapter or in any statement required to be filed therewith, willfully makes any untrue statement of a material fact, shall be guilty of a misdemeanor.

(June 29, 1936, ch. 858, title VI, § 601, 49 Stat. 2001; Pub. L. 87-45, § 2, May 27, 1961, 75 Stat. 90; Pub.

Subsec. (b). Pub. L. 97-31 substituted “Secretary of Transportation” for “Commission” in two places. For prior transfers of functions of the Commission, meaning the United States Maritime Commission, see Transfer of Functions note below.

Pub. L. 91-469 inserted definition of “essential service”, and substituted “an essential service” for “such service, route, or line” in cl. (1) and “in an essential service” for “and maintain the service, route, or line” in cl. (2); substituted “Secretary of Commerce” for “Commission” in two places; and substituted “he” for “it” in third sentence preceding “determines that”, respectively.

1961—Subsec. (a). Pub. L. 87-45 required the Federal Maritime Board to consider applications for financial aid in the operation of vessels in cruises under section 1183 of this Appendix, and permitted the Board, to the extent the application covers such cruises, to make the portion of the determination relating to parity on the basis that any foreign flag cruise from the United States competes with any American flag cruise from the United States.

TRANSFER OF FUNCTIONS

For transfer of functions of United States Maritime Commission, see Reorg. Plan No. 6 of 1949, Reorg. Plan No. 21 of 1950, and Reorg. Plan No. 7 of 1961, set out under section 1111 of this Appendix.

§ 1172. Determination of necessity of subsidy to meet competition

Except with respect to cruises authorized under section 1183 of this Appendix, no contract for an operating-differential subsidy shall be made by the Secretary of Transportation for the operation of a vessel or vessels to meet foreign competition, except direct foreign-flag competition, until and unless the Secretary of Transportation, after a full and complete investigation and hearing, shall determine that an operating-differential subsidy is necessary to meet competition of foreign-flag ships.

AMENDMENTS

1981—Pub. L. 97-31 substituted “Secretary of Transportation” for “Secretary of Commerce” wherever appearing.

1970—Pub. L. 91-469 substituted “Secretary of Commerce” for “Commission” in two places.

1961—Pub. L. 87-45 excepted cruises authorized under section 1183 of this Appendix.

1938—Act June 23, 1938, substituted “operating-differential subsidy” for “operating subsidy”.

§ 1173. Contracts for payment of subsidy

(a) Authorization of contracts

If the Secretary of Transportation approves the application, he may enter into a contract

with the applicant for the payment of an operating-differential subsidy determined in accordance with the provisions of subsection (b) of this section, for the operation of such vessel or vessels in an essential service and in cruises authorized under section 1183 of this Appendix for a period not exceeding twenty years, and subject to such reasonable terms and conditions, consistent with this chapter, as the Secretary of Transportation shall require to effectuate the purposes and policy of this chapter, including a performance bond with approved sureties, if such bond is required by the Secretary of Transportation.

(b) Amount of subsidy

Such contract shall provide, except as the parties should agree upon a lesser amount, that the amount of the operating-differential subsidy for the operation of vessels in an essential service shall equal the excess of the subsidizable wage costs of the United States officers and crews, the fair and reasonable cost of insurance, subsistence of officers and crews on passenger vessels, as defined in section 1183 of this Appendix, maintenance, and repairs not compensated by insurance, incurred in the operation under United States registry of the vessel or vessels covered by the contract, over the estimated fair and reasonable cost of the same items of expense (after deducting therefrom any estimated increase in such items necessitated by features incorporated pursuant to the provisions of section 1151(b) of this Appendix) if such vessel or vessels were operated under the registry of a foreign country whose vessels are substantial competitors of the vessel or vessels covered by the contract: *Provided, however*, That the Secretary of Transportation may, with respect to any vessel in an essential bulk cargo carrying service as described in section 1121(b) of this Appendix, pay, in lieu of the operating-differential subsidy provided by this subsection (b), such sums as he shall determine to be necessary to make the cost of operating such vessel competitive with the cost of operating similar vessels under the registry of a foreign country. For any period during which a vessel cruises as authorized by section 1183 of this Appendix, operating-differential subsidy shall be computed as though the vessel were operating on the essential service to which the vessel is assigned: *Provided, however*, That if the cruise vessel calls at a port or ports outside of its assigned service, but which is served with passenger vessels (as defined in section 1183 of this Appendix) by another subsidized operator at an operating-differential subsidy rate for wages lower than the cruise vessel has on its assigned essential service, the operating-differential subsidy rates for each of the subsidizable items for each day (a fraction of a day to count as a day) that the vessel stops at such port shall be at the respective rates applicable to the subsidized operator regularly serving the area.

(c) “Collective bargaining costs”, “base period costs”, “base period”, and “subsidizable wage costs of United States officers and crews” defined; determination of collective bargaining costs and establishment of new base periods; wage change index

(1) When used in this section—

(A) The term “collective bargaining costs” means the annual cost, calculated on the basis of the per diem rate of expense as of any date, of all items of expense required of the applicant through collective bargaining or other agreement, covering the employ of United States officers and crew of a vessel, including payments required by law to assure old-age pensions, unemployment benefits, or similar benefits and taxes or other governmental assessments on crew payrolls, but excluding subsistence of officers and crews on vessels other than passenger vessels as defined in section 1183 of this Appendix and costs relating to:

(i) the officers or members of the crew that the Secretary of Transportation has found, prior to the award of a contract for the construction or reconstruction of a vessel, to be unnecessary for the efficient and economical operation of such vessel: *Provided*, That the Secretary of Transportation shall afford representatives of the collective-bargaining unit or units responsible for the manning of the vessel an opportunity to comment on such finding prior to the effective date of such finding: *And provided further*, That in determining whether officers or members of the crew are necessary for the efficient and economical operation of such vessel, the Secretary of Transportation shall give due consideration to, but shall not be bound by, wage and manning scales and working conditions required by a bona fide collective-bargaining agreement, or

(ii) those officers or members of the crew that the Secretary of Transportation has found, prior to ninety days following October 21, 1970, to be unnecessary for the efficient and economical operation of the vessel.

(B) The term “base period costs” means for the base period beginning July 1, 1970, and ending June 30, 1971, the collective-bargaining costs as of January 1, 1971, less all other items of cost that have been disallowed by the Secretary of Transportation prior to ninety days following October 21, 1970, and not already excluded from collective-bargaining costs under subparagraph (A)(i) or (A)(ii) of this subsection. In any subsequent base period the term “base period costs” means the average of the subsidizable wage cost of United States officers and crews for the preceding annual period ending June 30 (calculated without regard to the limitation of the last sentence of paragraph (D) of this subdivision but increased or decreased by the increase or decrease in the index described in subdivision (3) of this subsection from January 1 of such annual period to January 1 of the base period), and the collective-bargaining costs as of January 1 of the base period: *Provided*, That in no event shall the base period cost be such that the difference between the base period cost and the collective-bargaining costs as of January 1 of any base period subsequent to the first base period exceeds five-fourths of 1 per centum of the collective-bargaining costs as of such January 1 multiplied by the number of years that have elapsed since the most recent base period.

(C) The term “base period” means any annual period beginning July 1, and ending June 30 with respect to which a base period cost is established.

(D) The term “subsidizable wage costs of United States officers and crews” in any period other than a base period means the most recent base period costs increased or decreased by the increase or decrease from January 1 of such base period to January 1 of such period in the index described in subdivision (3) hereof, and with respect to a base period means the base period cost. The subsidizable wage costs of United States officers and crews in any period other than a base period shall not be less than 90 per centum of the collective-bargaining costs as of January 1 of such period nor greater than 110 per centum of such collective-bargaining costs.

(2) The Secretary of Transportation shall determine the collective-bargaining costs on ships in subsidized operation as of January 1, 1971, and as of each January 1 thereafter, and shall as of intervals of not less than two years nor more than four years, establish a new base period cost, except that the Secretary shall not establish a new base period unless he announces his intention to do so prior to the December 31 that would be included in the new base period.

(3) The Bureau of Labor Statistics shall compile the index referred to in subdivision (1). Such index shall consist of the average annual change in wages and benefits placed into effect for employees covered by collective-bargaining agreements with equal weight to be given to changes affecting employees in the transportation industry (excluding the offshore maritime industry) and to changes affecting employees in private nonagricultural industries other than transportation. Such index shall be based on the materials regularly used by the Bureau of Labor Statistics in compiling its regularly published statistical series on wage and benefit changes arrived at through collective bargaining. Such materials shall remain confidential and not be subject to disclosure.

(d) Foreign wage computation; foreign manning

Each foreign wage cost computation shall be made after an opportunity is given to the contractor to submit in writing and in timely fashion all relevant data within his possession. In making the computation, the Secretary shall consider all relevant matter so presented and all foreign wage cost data collected at his request or on his behalf. Such foreign cost data shall be made available to an interested contractor, unless the Secretary shall find that disclosure of the data will prevent him from obtaining such data in the future. In determining foreign manning for purposes of this section, the foreign manning determined for any ship type with respect to any base period shall not be redetermined until the beginning of a new base period.

(e) Monthly payment of wage subsidy; procedures for calculation and payment of subsidy on certain expenses

The wage subsidy shall be payable monthly for the voyages completed during the month, upon the contractor's certification that the subsidized vessels were in authorized service during the month. The Secretary of Transportation shall prescribe procedures for the calculation and payment of subsidy on items of expense which are included in “collective-bargaining costs” but are not included in the daily rate because they are unpredictably timed.

(f) Monthly percentage payment of other than wage subsidy; security for refund of overpayments; payment of remainder after audit of voyage accounts

Ninety percent of the amount of the insurance and maintenance and repair and subsistence of officers and crews subsidy shall be payable monthly for the voyages completed during the month on the basis of the subsidy estimated to have accrued with respect to such voyages. Any such payment shall be made only after there has been furnished to the Secretary of Transportation such security as he deems to be reasonable and necessary to assure refund of any overpayment. The contractor and the Secretary of Transportation shall audit the voyage accounts as soon as practicable after such payment. The remaining 10 percent of such subsidy shall be payable after such audit.

At the request of the other party to such operating-differential subsidy contract, the Secretary of Commerce shall amend such contract so as to be in accordance with all of the amendments made by this Act. No amendment made by this Act shall be incorporated in such contract unless all such amendments are incorporated in such contract, except that if the other party elects to continue under the “old fund” as provided in section 607 as amended by section 21 of this Act [section 1177 of this Appendix], such amendment need not be incorporated in such contract. Until such contract is amended or if such contract is not amended, it shall be administered in accordance with the provisions of the Merchant Marine Act, 1936 [this chapter] as they existed immediately prior to enactment of this Act. Nothing in section 16 of this Act amending section 603 of the Merchant Marine Act, 1936 [subsec. (b) of this section] or in the contracts made thereunder, shall be deemed to affect or to change existing law or contracts with respect to the proceedings now pending before the Secretary of Commerce relating to the payment of subsidy in respect of cargoes covered by section 901(b)(1) of the Merchant Marine Act, 1936 [section 1241(b)(1) of this Appendix], section 616(a) of Title 15, United States Code, or section 2631 of Title 10, United States Code.

“(b) If any operating-differential subsidy contract in existence on the date of enactment of this Act [Oct. 21, 1970] is amended by including all of the amendments made by this Act or all of the amendments made by this Act other than those made by section 21 [amending section 1177 of this Appendix], the operator may elect to terminate his recapture period as of the date of such contract amendment and have his recapture computed on the basis of the shortened period, or he may elect to continue his recapture period until the end of its ten-year term and continue his recapture obligations as provided by the Merchant Marine Act, 1936, prior to the enactment of this Act [see Short Title of 1970 Amendment note set out under section 1245 of this Appendix] until the end of such ten-year period. The amendments in either event shall provide that, with respect to seafaring personnel, in determining the rights and obligations of the contractor under such contract, the limitation of section 805(c) of the Merchant Marine Act, 1936 [section 1223(c) of this Appendix], as it existed immediately before the enactment of this Act [Oct. 21, 1970] shall not apply.”

§ 1174. Additional subsidy; when authorized

If in the case of any particular foreign-trade route the Secretary of Transportation shall find after consultation with the Secretary of State,

that the subsidy provided for in this subchapter is in any respect inadequate to offset the effect of governmental aid paid to foreign competitors, he may grant such additional subsidy as he determines to be necessary for that purpose.

For transfer of functions of United States Maritime Commission, see Reorg. Plan No. 6 of 1949, Reorg. Plan No. 21 of 1950, and Reorg. Plan No. 7 of 1961, set out under section 1111 of this Appendix.

§ 1175. Vessels excluded from subsidy

(a) Vessels engaged in coastwise or intercoastal trade; vessels on inland waterways

No operating-differential subsidy shall be paid for the operation of any vessel on a voyage on which it engages in coastwise or intercoastal trade: *Provided, however,* That such subsidy may be paid on a round-the-world voyage or a round voyage from the west coast of the United States to a European port or ports or a round voyage from the Atlantic coast to the Orient which includes intercoastal ports of the United States or a voyage in foreign trade on which the vessel may stop at the State of Hawaii, or an island possession or island territory of the United States, and if the subsidized vessel earns any gross revenue on the carriage of mail, passengers, or cargo by reason of such coastal or intercoastal trade the subsidy payment for the entire voyage shall be reduced by an amount which bears the same ratio to the subsidy otherwise payable as such gross revenue bears to the gross revenue derived from the entire voyage. No vessel operating on the inland waterways of the United States shall be considered for the purposes of this chapter to be operating in foreign trade.

(b) Vessels more than 25 years old

(c) Vessels to be operated in an essential service served by citizens of United States

No contract shall be made under this subchapter with respect to a vessel to be operated

in an essential service served by citizens of the United States which would be in addition to the existing service, or services, unless the Secretary of Transportation shall determine after proper hearing of all parties that the service already provided by vessels of United States registry is inadequate, and that in the accomplishment of the purposes and policy of this chapter additional vessels should be operated thereon; and no contract shall be made with respect to a vessel operated or to be operated in an essential service served by two or more citizens of the United States with vessels of United States registry, if the Secretary of Transportation shall determine the effect of such a contract would be to give undue advantage or be unduly prejudicial, as between citizens of the United States, in the operation of vessels in such essential service unless following public hearing, due notice of which shall be given to each operator serving such essential service, the Secretary of Transportation shall find that it is necessary to enter into such contract in order to provide adequate service by vessels of United States registry. The Secretary of Transportation in determining for the purposes of this section whether services are competitive, shall take into consideration the type, size, and speed of the vessels employed, whether passenger or cargo, or combination passenger and cargo, vessels, the ports or ranges between which they run, the character of cargo carried, and such other facts as he may deem proper.

If any such readjustment cannot be reached by mutual agreement, the Secretary of Transportation, on his own motion or on the application of the contractor, shall, after a proper hearing, determine the facts and make such readjustment in the amount of such future payments as he may determine to be fair and reasonable and in the public interest. The testimony in every such proceeding shall be reduced to writing and filed in the office of the Secretary of Transportation. § 1177. Capital construction fund

(a) Agreement rules; persons eligible; replacement, additional, or reconstructed vessels for prescribed trade and fishery operations; amount of deposits, annual limitation; conditions and requirements for deposits and withdrawals

Any citizen of the United States owning or leasing one or more eligible vessels (as defined in subsection (k)(1) of this section) may enter into an agreement with the Secretary under, and as provided in, this section to establish a capital construction fund (hereinafter in this section referred to as the "fund") with respect to any or all of such vessels. Any agreement entered into under this section shall be for the purpose of providing replacement vessels, additional vessels, or reconstructed vessels, built in the United States and documented under the laws of the United States for operation in the United States foreign, Great Lakes, or non-contiguous domestic trade or in the fisheries of the United States and shall provide for the de-

posit in the fund of the amounts agreed upon as necessary or appropriate to provide for qualified withdrawals under subsection (f) of this section. The deposits in the fund, and all withdrawals from the fund, whether qualified or non-qualified, shall be subject to such conditions and requirements as the Secretary may by regulations prescribe or are set forth in such agreement; except that the Secretary may not require any person to deposit in the fund for any taxable year more than 50 percent of that portion of such person's taxable income for such year (computed in the manner provided in subsection (b)(1)(A) of this section) which is attributable to the operation of the agreement vessels.

(b) Ceiling on deposits; lessees; "agreement vessel" defined

(1) The amount deposited under subsection (a) of this section in the fund for any taxable year shall not exceed the sum of:

(A) that portion of the taxable income of the owner or lessee for such year (computed as provided in chapter 1 of the Internal Revenue Code of 1986 [26 U.S.C. 1 et seq.] but without regard to the carryback of any net operating loss or net capital loss and without regard to this section) which is attributable to the operation of the agreement vessels in the foreign or domestic commerce of the United States or in the fisheries of the United States,

(B) the amount allowable as a deduction under section 167 of the Internal Revenue Code of 1986 [26 U.S.C. 167] for such year with respect to the agreement vessels,

(C) if the transaction is not taken into account for purposes of subparagraph (A), the net proceeds (as defined in joint regulations) from (i) the sale or other disposition of any agreement vessel, or (ii) insurance or indemnity attributable to any agreement vessel, and

(D) the receipts from the investment or reinvestment of amounts held in such fund.

(2) In the case of a lessee, the maximum amount which may be deposited with respect to an agreement vessel by reason of paragraph (1)(B) for any period shall be reduced by any amount which, under an agreement entered into under this section, the owner is required or permitted to deposit for such period with respect to such vessel by reason of paragraph (1)(B).

(3) For purposes of paragraph (1), the term "agreement vessel" includes barges and containers which are part of the complement of such vessel and which are provided for in the agreement.

(c) Investment requirements; depositories; fiduciary requirements; interest-bearing securities; stock: percentage for domestic issues, listing and registration, prudent acquisitions, value and percentage equilibrium, and treatment of preferred issues

Amounts in any fund established under this section shall be kept in the depository or depositories specified in the agreement and shall be subject to such trustee and other fiduciary requirements as may be specified by the Secretary. They may be invested only in interest-bearing securities approved by the Secretary;

except that, if the Secretary consents thereto, an agreed percentage (not in excess of 60 per cent) of the assets of the fund may be invested in the stock of domestic corporations. Such stock must be currently fully listed and registered on an exchange registered with the Securities and Exchange Commission as a national securities exchange, and must be stock which would be acquired by prudent men of discretion and intelligence in such matters who are seeking a reasonable income and the preservation of their capital. If at any time the fair market value of the stock in the fund is more than the agreed percentage of the assets in the fund, any subsequent investment of amounts deposited in the fund, and any subsequent withdrawal from the fund, shall be made in such a way as to tend to restore the fund to a situation in which the fair market value of the stock does not exceed such agreed percentage. For purposes of this subsection, if the common stock of a corporation meets the requirements of this subsection and if the preferred stock of such corporation would meet such requirements but for the fact that it cannot be listed and registered as required because it is nonvoting stock, such preferred stock shall be treated as meeting the requirements of this subsection.

(d) Nontaxability of deposits; eligible deposits

(1) For purposes of the Internal Revenue Code of 1986—

(A) taxable income (determined without regard to this section and section 7518 of such Code [26 U.S.C. 7518]) for the taxable year shall be reduced by an amount equal to the amount deposited for the taxable year out of amounts referred to in subsection (b)(1)(A) of this section,

(B) gain from a transaction referred to in subsection (b)(1)(C) of this section, shall not be taken into account if an amount equal to the net proceeds (as defined in joint regulations) from such transaction is deposited in the fund,

(C) the earnings (including gains and losses) from the investment and reinvestment of amounts held in the fund shall not be taken into account,

(D) the earnings and profits of any corporation (within the meaning of section 316 of such Code [26 U.S.C. 316]) shall be determined without regard to this section and section 7518 of such Code [26 U.S.C. 7518], and

(E) in applying the tax imposed by section 531 of such Code [26 U.S.C. 531] (relating to the accumulated earnings tax), amounts while held in the fund shall not be taken into account.

(2) Paragraph (1) shall apply with respect to any amount only if such amount is deposited in the fund pursuant to the agreement and not later than the time provided in joint regulations.

(e) Accounts within fund: capital account, capital gain account, and ordinary income account; limitation on capital losses

For purposes of this section—

(1) Within the fund established pursuant to this section three accounts shall be maintained:

(A) the capital account,

(B) the capital gain account, and
(C) the ordinary income account.

(2) The capital account shall consist of—

(A) amounts referred to in subsection (b)(1)(B) of this section,

(B) amounts referred to in subsection (b)(1)(C) of this section other than that portion thereof which represents gain not taken into account by reason of subsection (d)(1)(B) of this section,

(C) the percentage applicable under section 243(a)(1) of the Internal Revenue Code of 1986 [26 U.S.C. 243(a)(1)] of any dividend received by the fund with respect to which the person maintaining the fund would (but for subsection (d)(1)(C) of this section) be allowed a deduction under section 243 of the Internal Revenue Code of 1986 [26 U.S.C. 243], and

(D) interest income exempt from taxation under section 103 of such Code [26 U.S.C. 103].

(3) The capital gain account shall consist of—

(A) amounts representing capital gains on assets held for more than 6 months and referred to in subsection (b)(1)(C) or (b)(1)(D) of this section reduced by

(B) amounts representing capital losses on assets held in the fund for more than 6 months.

(4) The ordinary income account shall consist of—

(A) amounts referred to in subsection (b)(1)(A) of this section,

(B)(i) amounts representing capital gains on assets held for 6 months or less and referred to in subsection (b)(1)(C) or (b)(1)(D) of this section, reduced by—

(ii) amounts representing capital losses on assets held in the fund for 6 months or less,

(C) interest (not including any tax-exempt interest referred to in paragraph (2)(D)) and other ordinary income (not including any dividend referred to in subparagraph (E)) received on assets held in the fund,

(D) ordinary income from a transaction described in subsection (b)(1)(C) of this section, and

(E) the portion of any dividend referred to in paragraph (2)(C) not taken into account under such paragraph.

(5) Except on termination of a fund, capital losses referred to in paragraph (3)(B) or in paragraph (4)(B)(ii) shall be allowed only as an offset to gains referred to in paragraph (3)(A) or (4)(B)(i), respectively.

(f) Purposes of qualified withdrawals; non-qualified withdrawal treatment for non-fulfillment of substantial obligations

(1) A qualified withdrawal from the fund is one made in accordance with the terms of the agreement but only if it is for:

(A) the acquisition, construction, or reconstruction of a qualified vessel,

(B) the acquisition, construction, or reconstruction of barges and containers which are part of the complement of a qualified vessel, or

(C) the payment of the principal on indebtedness incurred in connection with the acquisition, construction or reconstruction of a

qualified vessel or a barge or container which is part of the complement of a qualified vessel.

Except to the extent provided in regulations prescribed by the Secretary, subparagraph (B), and so much of subparagraph (C) as relates only to barges and containers, shall apply only with respect to barges and containers constructed in the United States.

(2) Under joint regulations, if the Secretary determines that any substantial obligation under any agreement is not being fulfilled, he may, after notice and opportunity for hearing to the person maintaining the fund, treat the entire fund or any portion thereof as an amount withdrawn from the fund in a nonqualified withdrawal.

(g) Tax treatment of qualified withdrawals; basis: reduction

(1) Any qualified withdrawal from a fund shall be treated—

(A) first as made out of the capital account,
(B) second as made out of the capital gain account, and

(C) third as made out of the ordinary income account.

(2) If any portion of a qualified withdrawal for a vessel, barge, or container is made out of the ordinary income account, the basis of such vessel, barge, or container shall be reduced by an amount equal to such portion.

(3) If any portion of a qualified withdrawal for a vessel, barge, or container is made out of the capital gain account, the basis of such vessel, barge, or container shall be reduced by an amount equal to such portion.

(4) If any portion of a qualified withdrawal to pay the principal on any indebtedness is made out of the ordinary income account or the capital gain account, then an amount equal to the aggregate reduction which would be required by paragraphs (2) and (3) if this were a qualified withdrawal for a purpose described in such paragraphs shall be applied, in the order provided in joint regulations, to reduce the basis of vessels, barges, and containers owned by the person maintaining the fund. Any amount of a withdrawal remaining after the application of the preceding sentence shall be treated as a nonqualified withdrawal.

(5) If any property the basis of which was reduced under paragraph (2), (3), or (4) is disposed of, any gain realized on such disposition, to the extent it does not exceed the aggregate reduction in the basis of such property under such paragraphs, shall be treated as an amount referred to in subsection (h)(3)(A) of this section which was withdrawn on the date of such disposition. Subject to such conditions and requirements as may be provided in joint regulations, the preceding sentence shall not apply to a disposition where there is a redeposit in an amount determined under joint regulations which will, insofar as practicable, restore the fund to the position it was in before the withdrawal.

(h) Tax treatment of nonqualified withdrawals; FIFO and LIFO bases; interest rate; amounts not withdrawn after 25 years; highest marginal rate of tax

(1) Except as provided in subsection (i) of this section, any withdrawal from a fund which is

not a qualified withdrawal shall be treated as a nonqualified withdrawal.

(2) Any nonqualified withdrawal from a fund shall be treated—

(A) first as made out of the ordinary income account,

(B) second as made out of the capital gain account, and

(C) third as made out of the capital account.

For purposes of this section, items withdrawn from any account shall be treated as withdrawn on a first-in-first-out basis; except that (i) any nonqualified withdrawal for research, development, and design expenses incident to new and advanced ship design, machinery and equipment, and (ii) any amount treated as a nonqualified withdrawal under the second sentence of subsection (g)(4) of this section, shall be treated as withdrawn on a last-in-first-out basis.

(3) For purposes of the Internal Revenue Code of 1986—

(A) any amount referred to in paragraph (2)(A) shall be included in income as an item of ordinary income for the taxable year in which the withdrawal is made,

(B) any amount referred to in paragraph (2)(B) shall be included in income for the taxable year in which the withdrawal is made as an item of gain realized during such year from the disposition of an asset held for more than 6 months, and

(C) for the period on or before the last date prescribed for payment of tax for the taxable year in which this withdrawal is made—

§ 1177a. Deposits in special reserve fund; excusal; tax treatment

On and after June 13, 1957, to the extent that the operating-differential subsidy accrual (computed on the basis of parity) is represented on the operator's books by a contingent accounts receivable item against the United States as a partial or complete offset to the recapture accrual, the operator (1) shall be excused from making deposits in the special reserve fund, and (2) as to the amount of such earnings the deposit of which is so excused shall be entitled to the same tax treatment as though it had been deposited in said special reserve fund. To the extent that any amount paid to the operator by the United States reduces the balance in the operator's contingent receivable account against the United States, such amount shall forthwith be deposited in the special reserve fund of the operator.

§ 1181. Transfer of vessels to foreign registry on default of United States**(a) Application; hearing; grant or denial**

The contractor, upon compliance with the provisions of this section, may transfer to foreign registry the vessels covered by any operating-differential subsidy contract held by him, in the event that the United States defaults upon such contract or cancels it without just cause. Any contractor desiring to transfer any such vessel to foreign registry upon such default or cancellation shall file an application in writing with the Secretary of Transportation setting forth its contentions with respect to the lack of just cause or lawful grounds for such default or cancellation. The Secretary of Transportation shall afford the contractor an opportunity for a hearing within twenty days after such contractor files written application therefor, and after the testimony, if any, in such hearing has been reduced to writing and filed with the Secretary of Transportation, he shall, within a reasonable time, grant or deny the application by order.

(b) Appeal from denial of application

If any such application is denied, the contractor may obtain a review of the order of denial in the United States Court of Appeals for the District of Columbia, by filing in such court, within twenty days after the entry of such order, a

written petition praying that the order of the Secretary of Transportation be set aside. A copy of such petition shall be forthwith transmitted by the clerk of the court to the Secretary of Transportation or any officer designated by him for that purpose, and thereupon the Secretary of Transportation shall file in the court the record upon which the order complained of was entered, as provided in section 2112 of title 28. No transfer of vessels to foreign registry under this section shall become effective until any indebtedness to the Government or to any citizen of the United States, secured by such vessels, has been paid or discharged, and until after the expiration of ninety days from the date of final determination of the application or the appeal, if any. § 1183. Off-season cruises by passenger vessels

(a) "Passenger vessel" defined

In this section, "passenger vessel" means a vessel which (1) is of not less than ten thousand gross tons, and (2) has accommodations for not less than one hundred passengers.

(b) Authorization for payment of subsidy

If the Secretary of Transportation finds that the operation of any passenger vessel with respect to which a contract for the payment of an operating-differential subsidy has been entered into under section 1173 of this Appendix effective before January 2, 1960, is not required for all of each year, in order to furnish adequate service on the service, route, or line covered by such contract, he may amend such contract to agree to pay an operating-differential subsidy for operation of the vessel (1) on such service, route, or line for some part or no part of each year, and (2) on cruises for all or part of each year if such specific cruise is approved by the Secretary of Transportation under subsection (e) of this section: *Provided, however*, That no such vessel may cruise for more than seven months of each year to ports which are regularly served by another United States-flag passenger vessel pursuant to an operating-differential subsidy contract.

(c) Authorization for payment of subsidy to passenger vessels providing domestic service

The Secretary of Transportation may authorize passenger vessels under operating-differential subsidy contracts to provide domestic service between specified ports while the vessels are

on voyages in an essential service in the foreign commerce of the United States without reduction of operating-differential subsidy and the partial payback of construction-differential subsidy for operating in the domestic trades, if he finds that such domestic service will not result in a substantial deviation from the service, route, or line for which operating-differential subsidy is paid and will not adversely affect service on such service, route, or line.

(d) Conditions for cruises or domestic service while on voyages in an essential service in foreign commerce

When a vessel is being operated on cruises or has been authorized under this section to provide domestic passenger services while on voyages in an essential service in foreign commerce of the United States—

(1) except as provided in subdivision (4) of this subsection, it shall carry no mail unless required by law, or cargo except passengers' luggage, except between those ports between which it may carry mail and cargo on its regular service assigned by contract;

(2) it may not carry one-way passengers between those ports served by another United States carrier on its regular service assigned by contract, without the consent of such carrier, except between those ports between which it may carry one-way passengers on its own regular service assigned by contract;

(3) it shall stop at other domestic ports only for the same time and the same purpose as is permitted with respect to a foreign-flag vessel which is carrying passengers who embarked at a domestic port, except that a cruise may end at a different port or coast from that where it began and may embark or disembark passengers at other domestic ports, either when not involving transportation in the domestic offshore trade in competition with a United States-flag passenger vessel offering berth service therein, or, if involving such transportation, with the consent of such carrier: *Provided, however*, That nothing herein shall be construed to repeal or modify section 1223(a) of this Appendix.

(4) Any other provisions of this chapter or of the Shipping Act, 1916 [46 App. U.S.C. 801 et seq.], to the contrary notwithstanding, with the approval of the Secretary of Transportation, it may carry cargo and mail between ports to the extent such carriage is not in direct competition with a carrier offering United States-flag berth service between those ports, or, if such carriage is in direct competition with one or more carriers offering United States-flag berth service between such ports, with the consent of the next scheduled United States-flag carrier, which consent shall not be unreasonably withheld in the judgment of the Maritime Administrator.

Section 1175(c) of this Appendix shall not apply to cruises authorized under this section. Notwithstanding the applicable provisions of sections 1175(a) and 1156 of this Appendix requiring the reduction of operating differential subsidy and the partial payback of construction differential subsidy for operating in the domestic trades, such reduction of operating subsidy and

partial payback of construction subsidy under sections 1175(a) and 1156, respectively, of this Appendix, shall not apply to cruises or domestic services authorized under this section.

(e) Application for approval of cruise; notice to other American flag operators

Upon the application of any operator for approval of a specific cruise, the Secretary of Transportation, after notice to all other American flag operators who may be affected and after affording all such operators an opportunity to submit written data, views or arguments, with or without opportunity to present the same orally in any manner, and after consideration of all relevant matter presented, shall approve the proposed cruise, if he determines that the proposed cruise will not substantially adversely affect an existing operator's service performed with passenger vessels of United States registry. Such approval shall not be given more than two years in advance of the beginning of the cruise. (June 29, 1936, ch. 858, title VI, §613, as added Pub. L. 87-45, §1, May 27, 1961, 75 Stat. 89; amended Pub. L. 90-358, §§1, 2, June 22, 1968, 82 Stat. 248; Pub. L. 91-250, May 14, 1970, 84 Stat. 215; Pub. L. 92-323, June 30, 1972, 86 Stat. 389; Pub. § 1204. Construction and chartering of vessels for unsuccessful routes; purchase of vessel by charterer; purchase price; operation of vessel in foreign trade

If the Secretary of Transportation shall find that any trade route (determined by the Secretary of Transportation to be an essential trade route as provided in section 1121 of this Appendix) cannot be successfully developed and maintained and the Secretary of Transportation’s replacement program cannot be achieved under private operation of such trade route by a citizen of the United States with vessels registered under the laws thereof, without further Government aid in addition to the financial aids authorized under subchapters V and VI of this chapter, the Secretary of Transportation is authorized to have constructed, in private shipyards or in navy yards, the vessel or vessels of the types deemed necessary for such trade route, and to demise such new vessel or vessels, or bare-boat charter to the American-flag operator established on such trade route, without advertisement or competition, upon an annual charter hire of not less than 4 per centum of the price (herein referred to as the “foreign cost”) at which such vessel or vessels would be sold if constructed under subchapter V of this chapter plus an amount equal to (i) the sum of a percentage of the depreciated foreign cost computed annually upon the basis of a twenty-five year life of the vessel determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the term of the charter, adjusted to the nearest one-eighth of 1 per centum, plus (ii) an allowance adequate in the judgment of the Secretary of Transportation to cover administrative costs. Such charter may contain an option to the charterer to purchase such vessel or vessels from the Secretary of Transportation within five years after delivery thereof under the charter, upon the same terms and conditions as are provided in subchapter V of this chapter for the purchase of new vessels from the Secretary of Transportation, except that (a) the purchase price shall be the foreign cost less depreciation to the date of purchase based upon a twenty-five year life; (b) the required cash pay-

ment payable at the time of such purchase shall be 25 per centum of the purchase price as so determined; (c) the charter may provide that all or any part of the charter hire paid in excess of the minimum charter hire provided for in this section may be credited against the cash payment payable at the time of such purchase; (d) the balance of the purchase price shall be paid within the years remaining of the twenty-five years after the date of delivery of the vessel under the charter and in approximately equal annual installments, except that the first of said installments, which shall be payable upon the next ensuing anniversary date of such delivery under the charter, shall be a proportionate part of the annual installment, interest to be payable upon the unpaid balances from the date of purchase, at a rate not less than (i) a rate determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans, adjusted to the nearest one-eighth of 1 per centum, plus (ii) an allowance adequate in the judgment of the Secretary of Transportation to cover administrative costs.

Such charter shall provide for operation of the vessel exclusively in foreign trade, or on a round-the-world voyage, or on a round voyage from the west coast of the United States to a European port or ports which includes intercoastal ports of the United States, or a round voyage from the Atlantic coast of the United States to the Orient which includes intercoastal ports of the United States, or on a voyage in foreign trade on which the vessel may stop at the State of Hawaii, or an island possession or island Territory of the United States, and if the vessel is operated in the domestic trade on any of the above-enumerated services the charterer will pay annually to the Secretary of Transportation that proportion of one-twenty-fifth of the difference between the domestic and foreign cost of such vessel as the gross revenue derived from the domestic trade bears to the gross revenue derived from the entire voyages completed during the preceding year.

of 1 per centum plus an administrative cost allowance for prior provision for 3½ per centum of depreciated foreign cost computed annually upon the basis of a twenty-five year life of vessel; and provision for interest upon unpaid balances of purchase price payable in annual installments from date of purchase, at a rate not less than a rate determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans, adjusted to the nearest one-eighth of 1 per centum plus an administrative cost allowance for prior interest upon unpaid balances of 3½ per centum per annum from date of purchase.

SUBCHAPTER IX—MISCELLANEOUS
PROVISIONS

§ 1241. Transportation in American vessels of Government personnel and certain cargoes

(a) Requirement that officers and employees travel on American ships

Any officer or employee of the United States traveling on official business overseas or to or from any of the possessions of the United States shall travel and transport his personal effects on ships registered under the laws of the United States where such ships are available unless the necessity of his mission requires the use of a ship under a foreign flag. The Administrator of General Services shall prescribe regulations under which agencies shall not pay for or reimburse officers or employees for travel or shipping expenses incurred on a foreign ship in the absence of satisfactory proof of the necessity therefor.

(b) Cargoes procured, furnished or financed by United States; waiver in emergencies; exceptions; definition

(1) Whenever the United States shall procure, contract for, or otherwise obtain for its own account, or shall furnish to or for the account of any foreign nation without provision for reimbursement, any equipment, materials, or commodities, within or without the United States, or shall advance funds or credits or guarantee the convertibility of foreign currencies in connection with the furnishing of such equipment, materials, or commodities, the appropriate agency or agencies shall take such steps as may be necessary and practicable to assure that at least 50 per centum of the gross tonnage of such equipment, materials or commodities (computed separately for dry bulk carriers, dry cargo liners, and tankers), which may be transported on ocean vessels shall be transported on privately owned United States-flag commercial vessels, to the extent such vessels are available at fair and reasonable rates for United States-flag commercial vessels, in such manner as will insure a fair and reasonable participation of United States-flag commercial vessels in such cargoes by geographic areas: *Provided*, That the provisions of this subsection may be waived whenever the Congress by concurrent resolution or otherwise, or the President of the United States or the Secretary of Defense declares that an emergency exists justifying a temporary waiver of the provisions of this paragraph and so notifies the appropriate agency or agencies: *And provided further*, That the provisions of this subsection shall not apply to cargoes carried in the vessels of the Panama Canal Company. Nothing herein shall repeal or otherwise modify the provisions of section 1241-1 of this Appendix. For purposes of this section, the term "privately owned United States-flag commercial vessels" shall not be deemed to include any vessel which, subsequent to September 21, 1961, shall have been either (a) built outside the United States, (b) rebuilt outside the United States, or (c) documented under any foreign registry, until such vessel shall have

been documented under the laws of the United States for a period of three years: *Provided, however*, That the provisions of this amendment shall not apply where, (1) prior to September 21, 1961, the owner of a vessel, or contractor for the purchase of a vessel, originally constructed in the United States and rebuilt abroad or contracted to be rebuilt abroad, has notified the Maritime Administration in writing of its intent to document such vessel under United States registry, and such vessel is so documented on its first arrival at a United States port not later than one year subsequent to September 21, 1961, or (2) where prior to September 21, 1961, the owner of a vessel under United States registry has made a contract for the rebuilding abroad of such vessel and has notified the Maritime Administration of such contract, and such rebuilding is completed and such vessel is thereafter documented under United States registry on its first arrival at a United States port not later than one year subsequent to September 21, 1961.

(2) Every department or agency having responsibility under this subsection shall administer its programs with respect to this subsection under regulations issued by the Secretary of Transportation. The Secretary of Transportation shall review such administration and shall annually report to the Congress with respect thereto.

(c) Motor vehicle owned by Government personnel

Notwithstanding any other provision of law, privately owned American shipping services may be utilized for the transportation of motor vehicles owned by Government personnel whenever transportation of such vehicles at Government expense is otherwise authorized by law.

§ 1241d. Findings and declarations with respect to export transportation of agricultural commodities

(a) The Congress finds and declares—

(1) that a productive and healthy agricultural industry and a strong and active United States maritime industry are vitally important to the economic well-being and national security objectives of our Nation;

(2) that both industries must compete in international markets increasingly dominated by foreign trade barriers and the subsidization practices of foreign governments; and

(3) that increased agricultural exports and the utilization of United States merchant vessels contribute positively to the United States balance of trade and generate employment opportunities in the United States.

(b) It is therefore declared to be the purpose and policy of the Congress in sections 1241d to 1241p of this Appendix—

(1) to enable the Department of Agriculture to plan its export programs effectively, by clarifying the ocean transportation requirements applicable to such programs;

(2) to take immediate and positive steps to promote the growth of the cargo carrying capacity of the United States merchant marine;

(3) to expand international trade in United States agricultural commodities and products and to develop, maintain, and expand markets for United States agricultural exports;

(4) to improve the efficiency of administration of both the commodity purchasing and selling and the ocean transportation activities associated with export programs sponsored by the Department of Agriculture;

(5) to stimulate and promote both the agricultural and maritime industries of the United States and encourage cooperative efforts by both industries to address their common problems; and

(6) to provide in this chapter for the appropriate disposition of these findings and purposes.

such materials, goods, equipment, or services are of a value at least equivalent to the value of the agricultural commodities or products exchanged or bartered therefor (determined on the basis of prevailing world market prices at the time of the exchange or barter), but nothing in this subsection shall be construed to exempt from the cargo preference provisions referred to in section 1241f of this Appendix any requirement otherwise applicable to the materials, goods, equipment, or services imported under any such transaction.

(June 29, 1936, ch. 858, title IX, § 901a, as added Pub. L. 99-198, title XI, § 1142, Dec. 23, 1985, 99 Stat. 1490.)

(1) In addition to the requirement for United States-flag carriage of a percentage of gross tonnage imposed by section 1241(b)(1) of this Appendix, 25 percent of the gross tonnage of agricultural commodities or the products thereof specified in subsection (b) of this section shall be transported on United States-flag commercial vessels.

(2) In order to achieve an orderly and efficient implementation of the requirement of paragraph (1)—

(A) an additional quantity equal to 10 percent of the gross tonnage referred to in paragraph (1) shall be transported in United States-flag vessels in calendar year 1986;

(B) an additional quantity equal to 20 percent of the gross tonnage shall be transported in such vessels in calendar year 1987; and

(C) an additional quantity equal to 25 percent of the gross tonnage shall be transported in such vessels in calendar year 1988 and in each calendar year thereafter.

(b) Covered export activity

This section shall apply to any export activity of the Commodity Credit Corporation or the Secretary of Agriculture—

(1) carried out under the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1691 et seq.);

(2) carried out under section 416 of the Agricultural Act of 1949 (7 U.S.C. 1431);

(3) carried out under the Bill Emerson Humanitarian Trust Act [7 U.S.C. 1736f-1];

(4) under which agricultural commodities or the products thereof are—

(A) donated through foreign governments or agencies, private or public, including intergovernmental organizations; or

(B) sold for foreign currencies or for dollars on credit terms of more than ten years;

(5) under which agricultural commodities or the products thereof are made available for emergency food relief at less than prevailing world market prices;

(6) under which a cash grant is made directly or through an intermediary to a foreign purchaser for the purpose of enabling the pur-

chaser to obtain United States agricultural commodities or the products thereof in an amount greater than the difference between the prevailing world market price and the United States market price, free along side vessel at United States port; or

(7) under which agricultural commodities owned or controlled by or under loan from the Commodity Credit Corporation are exchanged or bartered for materials, goods, equipment, or services produced in foreign countries, other than export activities described in section 1241e(5) of this Appendix.

(c) Terms and conditions

(1) The requirement for United States-flag transportation imposed by subsection (a) of this section shall be subject to the same terms and conditions as provided in section 1241(b) of this Appendix.

(2) In order to provide for effective and equitable administration of the cargo preference laws the calendar year for the purpose of compliance with minimum percentage requirements shall be for 12 month periods commencing April 1, 1986, the 18-month period beginning April 1, 2002, and the 12-month period beginning October 1, 2003, and each year thereafter.

(3)(A) Subject to subparagraph (B), in administering sections 1241(b) and 1241f of this Appendix, and, subject to subparagraph (B) of this paragraph, consistent with those sections, the Commodity Credit Corporation shall take such steps as may be necessary and practicable without detriment to any port range to allocate, on the principle of lowest landed cost without regard to the country of documentation of the vessel, 25 percent of the bagged, processed, or fortified commodities furnished pursuant to title II of the Agricultural Trade Development and Assistance Act of 1954 [7 U.S.C. 1721 et seq.].

(B) In carrying out this paragraph, there shall first be calculated the allocation of 100 percent of the quantity to be procured on an overall lowest landed cost basis without regard to the country of documentation of the vessel and there shall be allocated to the Great Lakes port range any cargoes for which it has the lowest landed cost under that calculation. The requirements for United States-flag transportation under section 1241(b) of this Appendix and this section shall not apply to commodities allocated under subparagraph (A) to the Great Lakes port range, and commodities allocated under subparagraph (A) to that port range may not be reallocated or diverted to another port range to meet those requirements to the extent that the total tonnage of commodities to which subparagraph (A) applies that is furnished and transported from the Great Lakes port range is less than 25 percent of the total annual tonnage of such commodities furnished.

(C) In awarding any contract for the transportation by vessel of commodities from the Great Lakes port range pursuant to an export activity referred to in subsection (b) of this section, each agency or instrumentality—

(i) shall consider expressions of freight interest for any vessel from a vessel operator who meets reasonable requirements for financial and operational integrity; and

(ii) may not deny award of the contract to a person based on the type of vessel on which the transportation would be provided (including on the basis that the transportation would not be provided on a liner vessel (as that term is used in the Shipping Act of 1984 [46 App. U.S.C. 1701 et seq.], as in effect on November 14, 1995)), if the person otherwise satisfies reasonable requirements for financial and operational integrity.

(4) Any determination of nonavailability of United States-flag vessels resulting from the application of this subsection shall not reduce the gross tonnage of commodities required by sections 1241(b) and 1241f of this Appendix to be transported on United States-flag vessels.

(d) “Export activity” defined

As used in subsection (b) of this section, the term “export activity” does not include inspection or weighing activities, other activities carried out for health or safety purposes, or technical assistance provided in the handling of commercial transactions.

(e) Prevailing world market price

(1) The prevailing world market price as to agricultural commodities or the products thereof shall be determined under sections 1241e through 1241h of this Appendix in accordance with procedures established by the Secretary of Agriculture. The Secretary shall prescribe such procedures by regulation, with notice and opportunity for public comment, pursuant to section 553 of title 5.

(2) In the event that a determination of the prevailing world market price of any other type of materials, goods, equipment, or service is required in order to determine whether a barter or exchange transaction is subject to subsection (b)(6) or (b)(7) of this section, such determination shall be made by the Secretary of Agriculture in consultation with the heads of other appropriate Federal agencies.

(c) Contents of reports

The Commission shall include in its reports submitted pursuant to subsection (b) of this section recommendations concerning the feasibility and desirability of achieving the following goals with respect to the ocean transportation of agricultural commodities subject to the cargo preference laws referred to in section 1241f of this Appendix:

(C) charters for consecutive voyages and contracts of affreightment; and

§ 1242. Requisition or purchase of vessels in time of emergency**(a) Compensation; restoration; consequential damages**

Whenever the President shall proclaim that the security of the national defense makes it advisable or during any national emergency declared by proclamation of the President, it shall be lawful for the Secretary of Transportation to requisition or purchase any vessel or other watercraft owned by citizens of the United States, a documented vessel, or a vessel under construction within the United States, or for any period during such emergency, to requisition or charter the use of any such property. The termination of any emergency so declared shall be announced by a further proclamation by the President. When any such property or the use thereof is so requisitioned, the owner thereof shall be paid just compensation for the property taken or for the use of such property, but in no case shall the value of the property taken or used be deemed enhanced by the causes necessitating the taking or use. If any property is taken and used under authority of this section, but the ownership thereof is not required by the United States, such property shall be restored to the owner in a condition at least as good as when taken, less ordinary wear and tear, or the owner shall be paid an amount for reconditioning sufficient to place the property in such condition. The owner shall not be paid for any consequential damages arising from a taking or use of property under authority of this section.

(b) Determination of value of vessel

When any vessel is taken or used under authority of this section, upon which vessel a construction-differential subsidy has been allowed and paid, the value of the vessel at the time of its taking shall be determined as provided in section 1212 of this Appendix, and in determining the value of any vessel taken or used, on which a construction-differential subsidy has not been paid, the value of any national defense features previously paid for by the United States shall be excluded.

(c) Charter of vessels; compensation; reimbursement for loss or damage

If any property is taken and used under authority of this section, but the ownership thereof is not required by the United States, the Secretary of Transportation, at the time of the taking or as soon thereafter as the exigencies of the situation may permit, shall transmit to the person entitled to the possession of such property a charter setting forth the terms which, in the Secretary’s judgment, should govern the relationships between the United States and such person and a statement of the rate of hire which, in the Secretary’s judgment, will be just compensation for the use of such property and for the services required under the terms of such charter. If such person does not execute and deliver such charter and accept such rate of hire, the Secretary of Transportation shall pay to such person as a tentative advance only, on account of such just compensation a sum equal to 75 per centum of such rate of hire as the same may from time to time be due under the terms

of the charter so tendered, and such person shall be entitled to sue the United States in a court having jurisdiction of such claims to recover such amounts as would be equal to just compensation for the use of the property and for the services required in connection with such use: *Provided, however*, That in the event of an election by such person to reject the rate of hire fixed by the Secretary of Transportation and to sue in the courts, the excess of any amounts advanced on account of just compensation over the amount of the court judgment will be required to be refunded. In the event of loss or damage to such property, due to operation of a risk assumed by the United States under the terms of a charter prescribed in this subsection, but no valuation of such vessel or other property or mode of compensation has been agreed to, the United States shall pay just compensation for such loss or damage, to the extent the person entitled thereto is not reimbursed therefor through policies of insurance against such loss or damage.

(d) Determination of amount of compensation

In all cases, the just compensation authorized by this section shall be determined and paid by the Secretary of Transportation as soon as practicable, but if the amount of just compensation determined by the Secretary is unsatisfactory to the person entitled thereto; such person shall be paid, as a tentative advance only, 75 per centum of the amount so determined and shall be entitled to sue the United States to recover such amount as would equal just compensation therefor, in the manner provided for by sections 1346 and 1491 of title 28: *Provided, however*, That in that event of an election to reject the amount determined by the Secretary of Transportation and to sue in the courts, the excess of any amounts advanced on account of just compensation over the amount of the court judgment will be required to be refunded.

The existence of any valid claim by way of mortgage or maritime claim or attachment lien upon such vessel shall not prevent the taking thereof pursuant to this section: *Provided, however*, That in the event any such claim exists the Secretary of Transportation may in his discretion deposit such portion of the compensation hereunder, or advances on account thereof, as may equal but not exceed the amount of such claims in respect of the vessel, with the Treasurer of the United States, and the fund so deposited shall be available for the payment of such compensation, and shall be subject to be applied to the payment of the amount of any valid claim by way of mortgage or maritime lien or attachment lien upon such vessel, or of any stipulation therefor in a court of the United States, or of any State, subsisting at the time of such requisition or taking of title or possession; the holder of any such claim may commence prior to June 30, 1943, or within six months after the first such deposit with the Treasurer and publication of notice thereof in the Federal Register, whichever date is later, and maintain in the United States district court from whose custody such vessel has been or may be taken or in whose territorial jurisdiction the vessel was lying at the time of requisitioning or taking of

title or possession, a suit in admiralty according to the principles of libels in rem against the fund, which shall proceed and be heard and determined according to the principles of law and to the rules of practice obtaining in like cases between private parties, and any decree in said suit shall be paid out of the first and all subsequent deposits of compensation; and such suit shall be commenced in the manner provided by section 742 of this Appendix and service of process shall be made in the manner therein provided by service upon the United States attorney and by mailing by registered mail to the Attorney General and the Secretary of Transportation and due notice shall under order of the court be given to all interested persons, and any decree shall be subject to appeal and revision as now provided in other cases of admiralty and maritime jurisdiction.

(e) Use of vessels by Secretary; transfer to other departments or agencies; reimbursement of Secretary

The Secretary of Transportation is authorized to repair, recondition, reconstruct, and operate, or charter for operation, any property acquired under authority of this section. The Secretary of Transportation is further authorized to transfer the possession or control of any such property to any department or agency of the Government of the United States upon such terms and conditions as may be approved by the President. In case of any such transfer the department or agency to which the transfer is made shall promptly reimburse the Secretary of Transportation for the Department of Transportation's expenditures on account of just compensation, purchase price, repairs, reconditioning, reconstruction, or charter hire for the property transferred. Such reimbursements shall be deposited in the construction fund established by section 1116 of this Appendix.

§ 1242a. Maintenance of and adjustment of obligations with respect to essential vessels affected by Neutrality Act

(a) “Essential vessel” defined

When used in this section the term “essential vessel” means any vessel (1) which is (A) security for any mortgage indebtedness to the United States or (B) constructed under this

chapter, or required by the terms of a contract under this chapter to be operated on a certain essential foreign trade route, and (2) which it is necessary in the interests of commerce and national defense to maintain in condition for prompt use.

(b) Adjustment of obligations and arrangements for maintenance of essential vessels

For the purposes of preserving in the national interest the full availability and usefulness of essential vessels, which, under the provisions of the Neutrality Act of 1939 [22 U.S.C. 441 et seq.] (or any proclamation issued thereunder), or compatibly with the national interest, cannot be operated in the service, route, or line to which such vessels are assigned pursuant to this chapter, or in which they would otherwise be operated, the Secretary of Transportation is authorized to make adjustments of obligations in respect to such vessels and to make arrangements for the maintenance of such vessels, subject to the provisions of this section and to such rules and regulations as the Secretary of Transportation shall prescribe as necessary or appropriate for carrying out the purposes and provisions of this section. If the Secretary of Transportation, upon written application in respect of any essential vessel, determines after such examination, investigation, and proceedings as he deems desirable, that (1) the operation of such vessel in the service, route, or line to which such vessel is assigned pursuant to this chapter, or in which it would otherwise be operated, is either (A) not lawful under the Neutrality Act of 1939 (or any proclamation issued thereunder), or (B) not compatible with the maintenance of availability of such vessel for purposes of national defense and commerce, (2) it is not feasible under existing law to employ such vessel in any other service or operation in either the foreign or domestic trades (except temporary or emergency operation under subsection (c)(5) hereof), and (3) the applicant, by reason of the restrictions of the Neutrality Act of 1939, or the withdrawal of vessels for national-defense purposes under clause (1) hereof, is not earning or will not earn a fair and reasonable return on the capital necessarily employed in its business, the Secretary of Transportation may make adjustments and arrangements with the applicant as provided in subsection (c) of this section, which shall continue in effect only during the circumstances above described.

(c) Provisions included within adjustments and arrangements

Such adjustments and arrangements shall include suspension of the requirement to operate such vessel in foreign trade under the applicable operating-differential or construction-differential subsidy contract or mortgage or other agreement, and of the right to operating-differential subsidy in respect of such vessel, and may include any one or more of the following provisions, in whole or in part, as, and to the extent that, the Secretary of Transportation may deem to be necessary or appropriate to carry out the purposes of this chapter, or the purposes and provisions of this section:

(1) Lay-up of the vessel by the owner or, at the option of the Secretary of Transportation,

in the custody of the Secretary of Transportation, with payment or reimbursement by the Secretary of Transportation of necessary and proper expenses thereof (including reasonable overhead and insurance), or in lieu of such payment or reimbursement, a fixed periodic allowance therefor;

(2) Postponement, for a period not in excess of the period or periods of lay-up, of the maturity date of each installment on account of the principal of obligations to the United States in respect of the vessel (whether or not such maturity date shall fall within such period or periods), or rearrangement of such maturities;

(3) Postponement or cancellation of interest accruing on such obligations during such period or periods of lay-up;

(4) Extension for a period not in excess of the period or periods of lay-up, of the twenty-year life limitation in respect of the vessel, and of the period or periods of other limitations and provisions of this chapter, insofar as they are based upon a twenty-year life;

(5) Provisions for such temporary or emergency employment of the vessel in lieu of lay-up as may be practicable, with such arrangements for management of the vessel, payment of expenses, and application of the proceeds of such employment, as the Secretary of Transportation may approve, the period or periods of such operation being included as part of the period or periods of lay-up;

(6) The payment to the Secretary of Transportation, upon termination of the arrangements with the applicant hereunder, out of the applicant's net profits, earned while such arrangements were in effect, in excess of 10 per centum per annum on the capital necessarily employed in the applicant's business, in reimbursement, to the extent that the Secretary of Transportation shall deem it necessary to carry out the purposes of this section, on account of obligations postponed or canceled and expenses incurred or paid by the Secretary of Transportation under this subsection. For the purposes of this paragraph capital of the applicant represented by vessels of the applicant laid up or operated under this section shall not be excluded from capital necessarily employed in the applicant's business. The Secretary of Transportation may require that the vessels so laid up or operated be security for reimbursement hereunder.

(d) Readjustment or modification of adjustments and arrangements

The adjustments and arrangements made under subsection (c) of this section in respect of any vessel shall be subject to such readjustment or modification from time to time as may be deemed necessary by the Secretary of Transportation to carry out the purposes and provisions of this section.

(e) Expenses incurred in adjustments and arrangements

Moneys in the construction fund of the Secretary of Transportation shall be available for expenses of the Secretary of Transportation incurred in adjustments or arrangements made under this section.

§ 1273. Authorization of Secretary or Administrator to guarantee obligations

(a) Principal and interest

The Secretary or Administrator is authorized to guarantee, and to enter into commitments to guarantee, the payment of the interest on, and the unpaid balance of the principal of, any obligation which is eligible to be guaranteed under this subchapter. A guarantee, or commitment to guarantee, made by the Secretary or Administrator under this subchapter shall cover 100 percent of the amount of the principal and interest of the obligation.

(b) Security interest

No obligation shall be guaranteed under this subchapter unless the obligor conveys or agrees to convey to the Secretary or Administrator such security interest, which may include a mortgage or mortgages on a vessel or vessels, as the Secretary or Administrator may reasonably require to protect the interest of the United States.

(c) Amount of guarantee; percentage limitation; determination of actual cost of vessel

The Secretary or Administrator shall not guarantee the principal of obligations in an amount in excess of 75 per centum, or 87½ per centum, whichever is applicable under section 1274¹ of this Appendix, of the amount, as determined by the Secretary or Administrator which determination shall be conclusive, paid by or for the account of the obligor for the construction, reconstruction, or reconditioning of a vessel or vessels with respect to which a security interest has been conveyed to the Secretary or Administrator, unless the obligor creates an escrow fund as authorized by section 1279a of this Appendix, in which case the Secretary or Administrator may guarantee 75 per centum or 87½ per centum, whichever is applicable under section 1274 of this Appendix, of the actual cost of such vessel or vessels.

(d) Pledge of United States

The full faith and credit of the United States is pledged to the payment of all guarantees made under this subchapter with respect to both principal and interest, including interest, as

¹ See References in Text note below.

may be provided for in the guarantee, accruing between the date of default under a guaranteed obligation and the payment in full of the guarantee.

(e) Proof of obligations

Any guarantee, or commitment to guarantee, made by the Secretary or Administrator under this subchapter shall be conclusive evidence of the eligibility of the obligations for such guarantee, and the validity of any guarantee, or commitment to guarantee, so made shall be incontestable. Notwithstanding an assumption of an obligation by the Secretary or Administrator under section 1275(a) or (b) of this Appendix, the validity of the guarantee of an obligation made by the Secretary or Administrator under this subchapter is unaffected and the guarantee remains in full force and effect.

(f) Limitation on outstanding amount

The aggregate unpaid principal amount of the obligations guaranteed under this section and outstanding at any one time shall not exceed \$12,000,000,000, of which (1) \$850,000,000 shall be limited to obligations pertaining to guarantees of obligations for fishing vessels and fishery facilities made under this subchapter, and (2) \$3,000,000,000 shall be limited to obligations pertaining to guarantees of obligations for eligible export vessels. No additional limitations may be imposed on new commitments to guarantee loans for any fiscal year, except in such amounts as established in advance in annual authorization Acts. No vessel eligible for guarantees under this subchapter shall be denied eligibility because of its type.

(g) Restrictions on commitments to guarantee obligations on eligible export vessels

(1) The Secretary or Administrator may not issue a commitment to guarantee obligations for an eligible export vessel unless, after considering—

(A) the status of pending applications for commitments to guarantee obligations for vessels documented under the laws of the United States and operating or to be operated in the domestic or foreign commerce of the United States,

(B) the economic soundness of the applications referred to in subparagraph (A), and

(C) the amount of guarantee authority available,

the Secretary or Administrator determines, in the sole discretion of the Secretary or Administrator, that the issuance of a commitment to guarantee obligations for an eligible export vessel will not result in the denial of an economically sound application to issue a commitment to guarantee obligations for vessels documented under the laws of the United States operating in the domestic or foreign commerce of the United States.

(2) The Secretary or Administrator may not issue commitments to guarantee obligations for eligible export vessels under this section after the later of—

(A) the 5th anniversary of the date on which the Secretary or Administrator publishes final regulations setting forth the application procedures for the issuance of commitments to

guarantee obligations for eligible export vessels,

(B) the last day of any 5-year period in which funding and guarantee authority for obligations for eligible export vessels have been continuously available, or

(C) the last date on which those commitments may be issued under any treaty or convention entered into after November 30, 1993, that prohibits guarantee of those obligations.

(h) Risk categories

(1) The Secretary or Administrator shall—

(A) establish in accordance with this subsection, and update annually, a system of risk categories for obligations guaranteed under this subchapter, that categorizes the relative risk of guarantees made under this subchapter with respect to the risk factors set forth in paragraph (3);

(B) annually determine for each of the risk categories a subsidy rate equivalent to the cost of obligations in the category, expressed as a percentage of the amount guaranteed under this subchapter for obligations in the category; and

(C) ensure that each risk category is comprised of loans that are relatively homogeneous in cost and share characteristics predictive of defaults and other costs, given the facts known at the time of obligation or commitment, using a risk category system that is based on historical analysis of program data and statistical evidence concerning the likely costs of defaults or other costs that expected to be associated with the loans in the category.

(2)(A) Before making a guarantee under this section for an obligation, and annually for projects subject to a guarantee, the Secretary or Administrator shall apply the risk factors set forth in paragraph (3) to place the obligation in a risk category established under paragraph (1)(A).

(B) The Secretary or Administrator shall consider the aggregate amount available to the Secretary or Administrator for making guarantees under this subchapter to be reduced by the amount determined by multiplying—

(i) the amount guaranteed under this subchapter for an obligation, by

(ii) the subsidy rate for the category in which the obligation is placed under subparagraph (A) of this paragraph.

(C) The estimated cost to the Government of a guarantee made by the Secretary or Administrator under this subchapter for an obligation is deemed to be the amount determined under subparagraph (B) for the obligation.

(D) The Secretary or Administrator may not guarantee obligations under this subchapter after the aggregate amount available to the Secretary or Administrator under appropriations Acts for the cost of loan guarantees is required by subparagraph (B) to be considered reduced to zero.

(3) The risk factors referred to in paragraphs (1) and (2) are the following:

(A) If applicable, the country risk for each eligible export vessel financed or to be financed by an obligation.

(B) The period for which an obligation is guaranteed or to be guaranteed.

(C) The amount of an obligation, which is guaranteed or to be guaranteed, in relation to the total cost of the project financed or to be financed by the obligation.

(D) The financial condition of an obligor or applicant for a guarantee.

(E) If applicable, any guarantee related to the project, other than the guarantee under this subchapter for which the risk factor is applied.

(F) If applicable, the projected employment of each vessel or equipment to be financed with an obligation.

(G) If applicable, the projected market that will be served by each vessel or equipment to be financed with an obligation.

(H) The collateral provided for a guarantee for an obligation.

(I) The management and operating experience of an obligor or applicant for a guarantee.

(J) Whether a guarantee under this subchapter is or will be in effect during the construction period of the project.

(K) A risk factor for concentration risk reflecting the risk presented by an unduly large percentage of loans outstanding by any 1 borrower or group of affiliated borrowers.

(4) In this subsection, the term “cost” has the meaning given that term in section 661a of title 2.

(i) Priority for national defense tank vessels

In guaranteeing and entering commitments to guarantee under this section, the Administrator shall give priority to guarantees and commitments for vessels that are otherwise eligible for a guarantee under this section and that are constructed with assistance under subtitle D of the Maritime Security Act of 2003.

(j) Priority for other vessels suitable for service as a naval auxiliary

In guaranteeing and entering commitments to guarantee under this section, the Administrator shall, after applying subsection (i) of this section, give priority to a guarantee or commitment for a vessel that is otherwise eligible for a guarantee under this section and that the Secretary of Defense determines—

(1) is suitable for service as a naval auxiliary in time of war or national emergency; and

(2) meets a shortfall in sealift capacity or capability.

The Secretary of Defense shall determine whether a vessel satisfies paragraphs (1) and (2) by not later than 30 days after receipt of a request from the Administrator for such a determination.

[2 U.S.C. 661 et seq.] in advance of the Secretary's issuance of a guarantee or a commitment to guarantee under this section shall be provided by the State in which the shipyard is located, and other involved States, or by a State-chartered agency, and deposited by the Secretary in the financing account established under the Federal Credit Reform Act of 1990 (2 U.S.C. 661a et seq.) for loan guarantees issued by the Secretary under title XI of the Merchant Marine Act of 1936 (46 App. U.S.C. 1271 et seq.). No federally appropriated funds shall be available for this purpose. The funds deposited into that financing account shall be held and applied by the Secretary in accordance with the provisions of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a et seq.), except that, unless the Secretary shall have earlier paid an obligee or been required to pay an obligee pursuant to the terms of a loan guarantee, the funds deposited in that financing account shall be returned, upon the expiration of the Secretary's loan guarantee, to the State, States, or State-chartered agency which originally provided the funds to the Secretary.

“(3) Notwithstanding the provisions of any other law or regulation, the cost (as that term is defined by the Federal Credit Reform Act of 1990 (2 U.S.C. 661a et seq.)) of a guarantee or commitment to guarantee issued under this section—

“(A) may only be determined with reference to the merits of the specific closed shipyard reactivation project which is the subject of that guarantee or commitment to guarantee, without reference to any other project, type of project, or averaged risk; and

“(B) may not be used in determining the cost of any other project, type of project, or averaged risk applicable to guarantees or commitments to guarantee issued under title XI of the Merchant Marine Act, 1936 (46 App. U.S.C. 1271 et seq.).

“(e) SUNSET.—No commitment to guarantee obligations under this section shall be issued by the Secretary after one year after the date of enactment of this section [Oct. 19, 1996].

“(f) DEFINITION.—As used in this section, the term ‘Secretary’ means the Secretary of Transportation.”

Similar provisions were contained in the following prior appropriation Act:

§ 1274. Eligibility for guarantee

(a) Purpose of obligations

Pursuant to the authority granted under section 1273(a) of this Appendix, the Secretary or Administrator, upon such terms as he shall prescribe, may guarantee or make a commitment to guarantee, payment of the principal of and interest on an obligation which aids in—

(1) financing, including reimbursement of an obligor for expenditures previously made for, construction, reconstruction, or reconditioning of a vessel (including an eligible export vessel), which is designed principally for research, or for commercial use (A) in the coastwise or intercoastal trade; (B) on the Great Lakes, or on bays, sounds, rivers, harbors, or inland lakes of the United States; (C) in foreign trade as defined in section 1244 of this Appendix for purposes of subchapter V of this chapter; or (D) as an ocean thermal energy conversion facility or plantship; (E) with respect to floating drydocks in the construction, reconstruction, reconditioning, or repair of vessels; or (F) with respect to an eligible export vessel, in world-wide trade;¹ *Provided, however,* That no guarantee shall be entered into pursuant to this paragraph (a)(1) later than one year after delivery, or redelivery in the case of reconstruction or reconditioning of any such vessel unless the proceeds of the obli-

gation are used to finance the construction, reconstruction, or reconditioning of a vessel or vessels, or facilities or equipment pertaining to marine operations;

(2) financing, including reimbursement of an obligor for expenditures previously made for, construction, reconstruction, reconditioning, or purchase of a vessel or vessels owned by citizens or nationals of the United States or citizens of the Northern Mariana Islands which are designed principally for research, or for commercial use in the fishing trade or industry;

(3) financing the purchase, reconstruction, or reconditioning of vessels or fishery facilities for which obligations were guaranteed under this subchapter that, under the provisions of section 1275 of this Appendix:

(A) are vessels or fishery facilities for which obligations were accelerated and paid;

(B) were acquired by the Fund; or

(C) were sold at foreclosure instituted by the Secretary or Administrator;

(4) financing, in whole or in part, the repayment to the United States of any amount of construction-differential subsidy paid with respect to a vessel pursuant to subchapter V of this chapter;

(5) refinancing existing obligations issued for one of the purposes specified in (1), (2), (3), or (4) whether or not guaranteed under this subchapter, including, but not limited to, short-term obligations incurred for the purpose of obtaining temporary funds with the view to refinancing from time to time;

(6) financing or refinancing, including, but not limited to, the reimbursement of obligors for expenditures previously made for, the construction, reconstruction, reconditioning, or purchase of fishery facilities; or

(7) financing or refinancing, including, but not limited to, the reimbursement of obligors for expenditures previously made, for the purchase of individual fishing quotas in accordance with section 1853(d)(4) of title 16.

Any obligation guaranteed under paragraphs (6) and (7) shall be treated, for purposes of this subchapter in the same manner and to the same extent as an obligation guaranteed under this subchapter which aids in the construction, reconstruction, reconditioning, or purchase of a vessel; except with respect to provisions of this subchapter that by their nature can only be applied to vessels.

(b) Contents of obligations

Obligations guaranteed under this subchapter—

(1) shall have an obligor approved by the Secretary or Administrator as responsible and possessing the ability, experience, financial resources, and other qualifications necessary to the adequate operation and maintenance of the vessel or vessels which serve as security for the guarantee of the Secretary or Administrator;

(2) subject to the provisions of subsection (c)(1) of this section and subsection (i) of this section, shall be in an aggregate principal amount which does not exceed 75 per centum

¹ So in original. The semicolon probably should be a colon.

of the actual cost or depreciated actual cost, as determined by the Secretary or Administrator, of the vessel which is used as security for the guarantee of the Secretary or Administrator: *Provided, however*, That in the case of a vessel, the size and speed of which are approved by the Secretary or Administrator; and which is or would have been eligible for mortgage aid for construction under section 1159 of this Appendix (or would have been eligible for mortgage aid under section 1159 of this Appendix except that the vessel was built with the aid of construction-differential subsidy and said subsidy has been repaid) and in respect of which the minimum downpayment by the mortgagor required by that section would be or would have been 12½ per centum of the cost of such vessel, such obligations may be in an amount which does not exceed 87½ per centum of such actual cost or depreciated actual cost: *Provided, further*, That the obligations which relate to a barge which is constructed without the aid of construction-differential subsidy, or, if so subsidized, on which said subsidy has been repaid, may be in an aggregate principal amount which does not exceed 87½ per centum of the actual cost or depreciated actual cost thereof: *Provided further*, That in the case of a fishing vessel or fishery facility, the obligation shall be in an aggregate principal amount not to exceed 80 percent of the actual cost or depreciated actual cost of the fishing vessel or fishery facility, except that no debt may be placed under this proviso through the Federal Financing Bank: *Provided further*, That in the case of an ocean thermal energy conversion facility or plantship which is constructed without the aid of construction-differential subsidy, such obligations may be in an aggregate principal amount which does not exceed 87½ percent of the actual cost or depreciated actual cost of the facility or plantship: *Provided further*, That in the case of an eligible export vessel, such obligations may be in an aggregate principal amount which does not exceed 87½ of the actual cost or depreciated actual cost of the eligible export vessel;

(3) shall have maturity dates satisfactory to the Secretary or Administrator but, subject to the provisions of paragraph (2) of subsection (c) of this section, not to exceed twenty-five years from the date of the delivery of the vessel which serves as security for the guarantee of the Secretary or Administrator or, if the vessel has been reconstructed or reconditioned, not to exceed the later of (i) twenty-five years from the date of delivery of the vessel and (ii) the remaining years of the useful life of the vessel as determined by the Secretary or Administrator;

(4) shall provide for payments by the obligor satisfactory to the Secretary or Administrator;

(5) shall bear interest (exclusive of charges for the guarantee and service charges, if any) at rates not to exceed such per centum per annum on the unpaid principal as the Secretary or Administrator determines to be reasonable, taking into account the range of interest rates prevailing in the private market for similar loans and the risks assumed by the Secretary or Administrator;

(6) shall provide, or a related agreement shall provide, that if the vessel used as security for the guarantee of the Secretary or Administrator is a delivered vessel, the vessel shall be in class A-1, American Bureau of Shipping, or shall meet such other standards as may be acceptable to the Secretary or Administrator, with all required certificates, including but not limited to, marine inspection certificates of the United States Coast Guard or, in the case of an eligible export vessel, of the appropriate national flag authorities under a treaty, convention, or other international agreement to which the United States is a party, with all outstanding requirements and recommendations necessary for retention of class accomplished, unless the Secretary or Administrator permits a deferment of such repairs, and shall be tight, staunch, strong, and well and sufficiently tackled, appareled, furnished, and equipped, and in every respect seaworthy and in good running condition and repair, and in all respects fit for service; and

(7) may provide, or a related agreement may provide, if the vessel used as security for the guarantee of the Administrator is a passenger vessel having the tonnage, speed, passenger accommodations and other characteristics set forth in subchapter V of this chapter, and if the Administrator approves, that the sole recourse against the obligor by the United States for any payments under the guarantee shall be limited to repossession of the vessel and the assignment of insurance claims and that the liability of the obligor for any payments of principal and interest under the guarantee shall be satisfied and discharged by the surrender of the vessel and all right, title, and interest therein to the United States: *Provided*, That the vessel upon surrender shall be (i) free and clear of all liens and encumbrances whatsoever except the security interest conveyed to the Administrator under this subchapter, (ii) in class, and (iii) in as good order and condition, ordinary wear and tear excepted, as when acquired by the obligor, except that any deficiencies with respect to freedom from encumbrances, condition and class may, to the extent covered by valid policies of insurance, be satisfied by the assignment to the Administrator of claims of the obligor under such policies.

The Secretary may not establish, as a condition of eligibility for guarantee under this subchapter, a minimum principal amount for an obligation covering the reconstruction or reconditioning of a fishing vessel or fishery facility. For purposes of this subchapter, the reconstruction or reconditioning of a fishing vessel or fishery facility does not include the routine minor repair of maintenance of the vessel or facility.

(c) Security

(1) The security for the guarantee of an obligation by the Secretary or Administrator under this subchapter may relate to more than one vessel and may consist of any combination of types of security. The aggregate principal amount of obligations which have more than one vessel as security for the guarantee of the

Secretary or Administrator under this subchapter may equal, but not exceed, the sum of the principal amount of obligations permissible with respect to each vessel.

(2) If the security for the guarantee of an obligation by the Secretary or Administrator under this subchapter relates to more than one vessel, such obligation may have the latest maturity date permissible under subsection (b) of this section with respect to any of such vessels: *Provided*, That the Secretary or Administrator may require such payments of principal, prior to maturity, with respect to all related obligations as he deems necessary in order to maintain adequate security for his guarantee.

(d) Restrictions

(1)(A) No commitment to guarantee, or guarantee of, an obligation shall be made by the Administrator unless the Administrator finds that the property or project with respect to which the obligation will be executed will be economically sound. In making that determination, the Administrator shall consider—

- (i) the need in the particular segment of the maritime industry for new or additional capacity, including any impact on existing equipment for which a guarantee under this subchapter is in effect;
- (ii) the market potential for the employment of the vessel over the life of the guarantee;
- (iii) projected revenues and expenses associated with employment of the vessel;
- (iv) any charters, contracts of affreightment, transportation agreements, or similar agreements or undertakings relevant to the employment of the vessel;
- (v) other relevant criteria; and
- (vi) for inland waterways, the need for technical improvements, including but not limited to increased fuel efficiency, or improved safety.

(B) No commitment to guarantee, or guarantee of, an obligation shall be made by the Secretary of Commerce unless the Secretary finds, at or prior to the time such commitment is made or guarantee becomes effective, that the property or project with respect to which the obligation will be executed will be, in the Secretary's opinion, economically sound and in the case of fishing vessels, that the purpose of the financing or refinancing is consistent with the wise use of the fisheries resources and with the development, advancement, management, conservation, and protection of the fisheries resources, or with the need for technical improvements including but not limited to increased fuel efficiency or improved safety.

(2) No commitment to guarantee, or guarantee of an obligation may be made by the Secretary under this subchapter for the purchase of a used fishing vessel or used fishery facility unless—

- (A) the vessel or facility will be reconstructed or reconditioned in the United States and will contribute to the development of the United States fishing industry; or
- (B) the vessel or facility will be used in the harvesting of fish from, or for a purpose described in section 1271(k) of this Appendix with respect to, an underutilized fishery.

(3) No commitment to guarantee, or guarantee of an obligation may be made by the Administrator or Administrator² under this subchapter for the construction, reconstruction, or reconditioning of an eligible export vessel unless—

(A) the Administrator or Administrator² finds that the construction, reconstruction, or reconditioning of that vessel will aid in the transition of United States shipyards to commercial activities or will preserve shipbuilding assets that would be essential in time of war or national emergency, and

(B) the owner of the vessel agrees with the Administrator that the vessel shall not be transferred to any country designated by the Secretary of Defense as a country whose interests are hostile to the interests of the United States.

(4) The Secretary shall promulgate regulations concerning circumstances under which waivers of or exceptions to otherwise applicable regulatory requirements concerning financial condition can be made. The regulations shall require that—

- (A) the economic soundness requirements set forth in paragraph (1)(A) of this subsection are met after the waiver of the financial condition requirement; and
- (B) if deemed necessary by the Secretary or Administrator, the waiver shall provide for the imposition of other requirements on the obligor designed to compensate for any significant increase in risk associated with the obligor's failure to meet regulatory requirements applicable to financial condition.

(e) Guarantee fees

(1) Except as otherwise provided in this subsection, the Secretary or Administrator shall prescribe regulations to assess in accordance with this subsection a fee for the guarantee of an obligation under this subchapter.

(2)(A) The amount of a fee under this subsection for a guarantee is equal to the sum determined by adding the amounts determined under subparagraph (B) for the years in which the guarantee is in effect.

(B) The amount referred to in subparagraph (A) for a year is the present value (determined by applying the discount rate determined under subparagraph (F)) of the amount determined by multiplying—

- (i) the estimated average unpaid principal amount of the obligation that will be outstanding during the year (determined in accordance with subparagraph (E)), by
- (ii) the fee rate established under subparagraph (C) for the obligation for each year.

(C) The fee rate referred to in subparagraph (B)(ii) for an obligation shall be—

- (i) in the case of an obligation for a delivered vessel or equipment, not less than one-half of 1 percent and not more than 1 percent, determined by the Secretary or Administrator for the obligation under the formula established under subparagraph (D); or
- (ii) in the case of an obligation for a vessel to be constructed, reconstructed, or recondi-

² So in original. See 2006 Amendment notes.

tioned, or of equipment to be delivered, not less than one-quarter of 1 percent and not more than one-half of 1 percent, determined by the Secretary or Administrator for the obligation under the formula established under subparagraph (D).

(D) The Secretary or Administrator shall establish a formula for determining the fee rate for an obligation for purposes of subparagraph (C), that—

(i) is a sliding scale based on the creditworthiness of the obligor;

(ii) takes into account the security provided for a guarantee under this subchapter for the obligation; and

(iii) uses—

(I) in the case of the most creditworthy obligors, the lowest rate authorized under subparagraph (C)(i) or (ii), as applicable; and

(II) in the case of the least creditworthy obligors, the highest rate authorized under subparagraph (C)(i) or (ii), as applicable.

(E) For purposes of subparagraph (B)(i), the estimated average unpaid principal amount does not include the average amount (except interest) on deposit in a year in the escrow fund under section 1279a of this Appendix.

(F) For purposes of determining present value under subparagraph (B) for an obligation, the Secretary or Administrator shall apply a discount rate determined by the Secretary of the Treasury taking into consideration current market yields on outstanding obligations of the United States having periods to maturity comparable to the period to maturity for the obligation with respect to which the determination of present value is made.

(3) A fee under this subsection shall be assessed and collected not later than the date on which amounts are first paid under an obligation with respect to which the fee is assessed.

(4) A fee paid under this subsection is not refundable. However, an obligor shall receive credit for the amount paid for the remaining term of the guaranteed obligation if the obligation is refinanced and guaranteed under this subchapter after such refinancing.

(5) A fee paid under subsection (e) of this section shall be included in the amount of the actual cost of the obligation guaranteed under this subchapter and is eligible to be financed under this subchapter.

(f) Investigation of applications

(1) The Secretary or Administrator shall charge and collect from the obligor such amounts as he may deem reasonable for the investigation of applications for a guarantee, for the appraisal of properties offered as security for a guarantee, for the issuance of commitments, for services in connection with the escrow fund authorized by section 1279a of this Appendix and for the inspection of such properties during construction, reconstruction, or reconditioning: *Provided*, That such charges shall not aggregate more than one-half of 1 per centum of the original principal amount of the obligations to be guaranteed.

(2) The Secretary or Administrator may make a determination that aspects of an application

under this subchapter require independent analysis to be conducted by third party experts due to risk factors associated with markets, technology, or financial structures. Any independent analysis conducted pursuant to this provision shall be performed by a party chosen by the Secretary or Administrator.

(3) Notwithstanding any other provision of this subchapter, the Secretary or Administrator may make a determination that an application under this subchapter requires additional equity because of increased risk factors associated with markets, technology, or financial structures.

(4) The Secretary or Administrator may charge and collect fees to cover the costs of independent analysis under paragraph (2). Notwithstanding section 3302 of title 31, any fee collected under this paragraph shall—

(A) be credit as an offsetting collection to the account that finances the administration of the loan guarantee program;

(B) shall³ be available for expenditure only to pay the costs of activities and services for which the fee is imposed; and

(C) shall³ remain available until expended.

(5) A third party independent analysis conducted under paragraph (2) shall be performed by a private sector expert in assessing such risk factors who is selected by the Administrator.

(g) Disposition of moneys

All moneys received by the Secretary or Administrator under the provisions of sections 1271 to 1276 and 1279⁴ of this Appendix shall be deposited in the Fund.

(h) Additional requirements

Obligations guaranteed under this subchapter and agreements relating thereto shall contain such other provisions with respect to the protection of the security interests of the United States (including acceleration, assumption, and subrogation provisions and the issuance of notes by the obligor to the Secretary or Administrator), liens and releases of liens, payments of taxes, and such other matters as the Secretary or Administrator may, in his discretion, prescribe.

(i) Limitation on authority to establish uniform percentage limitations

The Secretary or Administrator may not, with respect to—

(1) the general 75 percent or less limitation in subsection (b)(2) of this section;

(2) the 87½ percent or less limitation in the 1st, 2nd, 4th, or 5th proviso to subsection (b)(2) of this section or section 1279e(b) of this Appendix; or

(3) the 80 percent or less limitation in the 3rd proviso to such subsection;

establish by rule, regulation, or procedure any percentage within any such limitation that is, or is intended to be, applied uniformly to all guarantees or commitments to guarantee made under this section that are subject to the limitation.

(j) Guarantees for eligible export vessels

(1) Upon receiving an application for a loan guarantee for an eligible export vessel, the Ad-

administrator shall promptly provide to the Secretary of Defense notice of the receipt of the application. During the 30-day period beginning on the date on which the Secretary of Defense receives such notice, the Secretary of Defense may disapprove the loan guarantee based on the assessment of the Administrator of the potential use of the vessel in a manner that may cause harm to United States national security interests. The Secretary of Defense may not disapprove a loan guarantee under this section solely on the basis of the type of vessel to be constructed with the loan guarantee. The authority of the Administrator to disapprove a loan guarantee under this section may not be delegated to any official other than a civilian officer of the Department of Defense appointed by the President, by and with the advice and consent of the Senate.

(2) The Administrator may not make a loan guarantee disapproved by the Secretary of Defense under paragraph (1).

(k) Monitoring

The Secretary or Administrator shall monitor the financial conditions and operations of the obligor on a regular basis during the term of the guarantee. The Secretary or Administrator shall document the results of the monitoring on an annual or quarterly basis depending upon the condition of the obligor. If the Secretary or Administrator determines that the financial condition of the obligor warrants additional protections to the Secretary or Administrator, then the Secretary or Administrator shall take appropriate action under subsection (m) of this section. If the Secretary or Administrator determines that the financial condition of the obligor jeopardizes its continued ability to perform its responsibilities in connection with the guarantee of obligations by the Secretary or Administrator, the Secretary or Administrator shall make an immediate determination whether default should take place and whether further measures described in subsection (m) of this section should be taken to protect the interests of the Secretary or Administrator while insuring that program objectives are met.

(l) Review of applications

No commitment to guarantee, or guarantee of, an obligation shall be made by the Secretary or Administrator unless the Secretary or Administrator certifies that a full and fair consideration of all the regulatory requirements, including economic soundness and financial requirements applicable to obligors and related parties, and a thorough assessment of the technical, economic, and financial aspects of the loan application has been made.

(m) Agreement with obligor

The Secretary or Administrator shall include provisions in loan agreements with obligors that provide additional authority to the Secretary or Administrator to take action to limit potential losses in connection with defaulted loans or loans that are in jeopardy due to the deteriorating financial condition of obligors. If the Secretary or Administrator has waived a requirement under subsection (d) of this section, the loan agreement shall include requirements for

additional payments, collateral, or equity contributions to meet such waived requirement upon the occurrence of verifiable conditions indicating that the obligor's financial condition enables the obligor to meet the waived requirement.

(n) Decision period

(1) In general

The Administrator shall approve or deny an application for a loan guarantee under this subchapter within 270 days after the date on which the signed application is received by the Administrator or Administrator.²

(2) Extension

Upon request by an applicant, the Administrator or Administrator² may extend the 270-day period in paragraph (1) to a date not later than 2 years after the date on which the signed application for the loan guarantee was received by the Administrator or Administrator.²

Notwithstanding the provisions of this subchapter, except as provided in subsection (d) of this section, the Secretary or Administrator, upon the terms the Secretary or Administrator may prescribe, may guarantee or make a commitment to guarantee, payment of the principal of and interest on an obligation which aids in financing and refinancing, including reimbursement to an obligor for expenditures previously

made, of a contract for construction or reconstruction of a vessel or vessels which are designed and to be employed for commercial use in the coastwise or intercoastal trade or in foreign trade as defined in section 1244 of this Appendix if—

(1) the construction or reconstruction by an applicant is made necessary to replace vessels the continued operation of which is denied by virtue of the imposition of a statutorily mandated change in standards for the operation of vessels, and where, as a matter of law, the applicant would otherwise be denied the right to continue operating vessels in the trades in which the applicant operated prior to the taking effect of the statutory or regulatory change;

(2) the applicant is presently engaged in transporting cargoes in vessels of the type and class that will be constructed or reconstructed under this section, and agrees to employ vessels constructed or reconstructed under this section as replacements only for vessels made obsolete by changes in operating standards imposed by statute;

(3) the capacity of the vessels to be constructed or reconstructed under this subchapter will not increase the cargo carrying capacity of the vessels being replaced;

(4) the Secretary or Administrator has not made a determination that the market demand for the vessel over its useful life will diminish so as to make the granting of the guarantee fiducially imprudent; and

(5) the Secretary or Administrator has considered the provisions of section 1274(d)(1)(A)(iii), (iv), and (v) of this Appendix.

(b) Limitations on length and amount of guaranteed obligations; useful life of vessel

For the purposes of this section—

(1) the maximum term for obligations guaranteed under this program may not exceed 25 years;

(2) obligations guaranteed may not exceed 87½ percent of the actual cost or depreciated actual cost to the applicant for the construction or reconstruction of the vessel; and

(3) reconstruction cost obligations may not be guaranteed unless the vessel after reconstruction will have a useful life of at least 15 years.

The Secretary or Administrator may not by rule, regulation, or procedure establish any percentage within the 87½ percent or less limitation in paragraph (2) that is, or is intended to be, applied uniformly to all guarantees or commitments to guarantee made under this section.

(c) Security against default; fees; Vessel Replacement Guarantee Fund

(1) The Secretary or Administrator shall by rule require that the applicant provide adequate security against default. The Secretary or Administrator may, in addition to any fees assessed under section 1274(e) of this Appendix, establish a Vessel Replacement Guarantee Fund into which shall be paid by obligors under this section—

(A) annual fees which may be an additional amount on the loan guarantee fee in section

1274(e) of this Appendix not to exceed an additional 1 percent; or

(B) fees based on the amount of the obligation versus the percentage of the obligor's fleet being replaced by vessels constructed or reconstructed under this section.

(2) The Vessel Replacement Guarantee Fund shall be a subaccount in the Federal Ship Financing Fund, and shall—

(A) be the depository for all moneys received by the Secretary or Administrator under sections 1271 through 1276 and 1279¹ of this Appendix with respect to guarantee or commitments to guarantee made under this section;

(B) not include investigation fees payable under section 1274(f) of this Appendix which shall be paid to the Federal Ship Financing Fund; and

(C) be the depository, whenever there shall be outstanding any notes or obligations issued by the Secretary or Administrator under section 1275(d) of this Appendix with respect to the Vessel Replacement Guarantee Fund, for all moneys received by the Secretary or Administrator under sections 1271 through 1276 and 1279¹ of this Appendix from applicants under this section.

(d) Additional requirements

The program created by this section shall, in addition to the requirements of this section, be subject to the provisions of sections 1271 through 1273; 1274(b)(1), (4), (5), (6); 1274(e); 1274(f); 1274(h); and 1275, 1276, and 1279¹ of this Appendix; except that the Federal Ship Financing Fund is not liable for any guarantees or commitments to guarantee issued under this section.

In the event of a default, which has continued for thirty days, in any payment by the obligor of principal or interest due under an obligation guaranteed under this subchapter, the obligee or his agent shall have the right to demand (unless the Secretary or Administrator shall, upon such terms as may be provided in the obligation or related agreements, prior to that demand, have assumed the obligor's rights and duties under the obligation and agreements and shall have made any payments in default), at or before the expiration of such period as may be specified in the guarantee or related agreements, but not later than ninety days from the date of such default, payment by the Secretary or Administrator of the unpaid principal amount of said obligation and of the unpaid interest thereon to the date of payment. (b) Notice of default

In the event of a default under a mortgage, loan agreement, or other security agreement between the obligor and the Secretary or Administrator, the Secretary or Administrator may upon such terms as may be provided in the obligation or related agreement, either:

Such notes or other obligations shall bear interest at a rate determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States of comparable maturities during the month preceding the issuance of such notes or other obligations. The Secretary of the Treasury is authorized and directed to purchase any notes and other obligations to be issued hereunder and for such purpose he is authorized to use as a public debt transaction the proceeds from the sale of any securities issued under chapter 31 of title 31, and the purposes for which securities may be issued under such chapter, are extended to include any purchases of such notes and obligations. - (3) ensures adequate competition and fair and consistent treatment of offerors; and

§ 1279a. Escrow fund

(a) Creation

If the proceeds of an obligation guaranteed under this subchapter are to be used to finance the construction, reconstruction, or reconditioning of a vessel or vessels which will serve as security for the guarantee of the Secretary or Administrator, the Secretary or Administrator is authorized to accept and hold, in escrow under an escrow agreement with the obligor, a portion of the proceeds of all obligations guaranteed under this subchapter whose proceeds are to be so used which is equal to: (i) the excess of the principal amount of all obligations whose proceeds are to be so used over 75 per centum, or 87½ per centum, whichever is applicable under section 1274¹ of this Appendix, of the amount paid by or for the account of the obligor for the

construction, reconstruction, or reconditioning of the vessel or vessels; (ii) with such interest thereon, if any, as the Secretary or Administrator may require: *Provided*, That in the event the security for the guarantee of an obligation by the Secretary or Administrator relates both to a vessel or vessels to be constructed, reconstructed or reconditioned and to a delivered vessel or vessels, the principal amount of such obligation shall be prorated for purposes of this subsection (a) under regulations prescribed by the Secretary or Administrator.

(b) Disbursement prior to termination of escrow agreement

The Secretary or Administrator shall, as specified in the escrow agreement, disburse the escrow fund to pay amounts the obligor is obligated to pay as interest on such obligations or for the construction, reconstruction, or reconditioning of the vessel or vessels used as security for the guarantee of the Secretary or Administrator under this subchapter, to redeem such obligations in connection with a refinancing under paragraph (4)¹ of section 1274(a) of this Appendix or to pay to the obligor at such times as may be provided for in the escrow agreement any excess interest deposits, except that if payments become due under the guarantee prior to the termination of the escrow agreement, all amounts in the escrow fund at the time such payments become due (including realized income which has not yet been paid to the obligor) shall be paid into the Fund and (i), be credited against any amounts due or to become due to the Secretary or Administrator from the obligor with respect to the guaranteed obligations and (ii) to the extent not so required, be paid to the obligor.

(c) Disbursement upon termination of escrow agreement

If payments under the guarantee have not become due prior to the termination of the escrow agreement, any balance of the escrow fund at the time of such termination shall be disbursed to prepay the excess of the principal of all obligations whose proceeds are to be used to finance the construction, reconstruction, or reconditioning of the vessel or vessels which serve or will serve as security for such guarantee over 75 per centum or 87½ per centum, whichever is applicable under section 1274¹ of this Appendix, of the actual cost of such vessel or vessels to the extent paid, and to pay interest on such prepaid amount of principal, and the remainder of such balance of the escrow fund shall be paid to the obligor.

(d) Investment of fund

The Secretary or Administrator may invest and reinvest all or any part of the escrow fund in obligations of the United States with such maturities that the escrow fund will be available as required for purposes of the escrow agreement.

(e) Payment of income

Any income realized on the escrow fund shall, upon receipt, be paid to the obligor.

(f) Terms of escrow agreement

The escrow agreement shall contain such other terms as the Secretary or Administrator

may consider necessary to protect fully the interests of the United States.

(g) Payments required before disbursement

(1) In general

No disbursement shall be made under subsection (b) of this section to any person until the total amount paid by or for the account of the obligor from sources other than the proceeds of the obligation equals at least 25 percent or 12½ percent, whichever is applicable under section 1274 of this Appendix, of the aggregate actual cost of the vessel, as previously approved by the Secretary or Administrator. If the aggregate actual cost of the vessel has increased since the Secretary's or Administrator's initial approval or if it increases after the first disbursement is permitted under this subsection, then no further disbursements shall be made under subsection (b) of this section until the total amount paid by or for the account of the obligor from sources other than the proceeds of the obligation equals at least 25 percent or 12½ percent, as applicable, of the increase, as determined by the Secretary or Administrator, in the aggregate actual cost of the vessel. Nothing in this paragraph shall require the Secretary or Administrator to consent to finance any increase in actual cost unless the Secretary or Administrator determines that such an increase in the obligation meets all the terms and conditions of this subchapter or other applicable law.

(2) Documented proof of progress requirement

The Secretary or Administrator shall, by regulation, establish a transparent, independent, and risk-based process for verifying and documenting the progress of projects under construction before disbursing guaranteed loan funds. At a minimum, the process shall require documented proof of progress in connection with the construction, reconstruction, or reconditioning of a vessel or vessels before disbursements are made from the escrow fund. The Secretary or Administrator may require that the obligor provide a certificate from an independent party certifying that the requisite progress in construction, reconstruction, or reconditioning has taken place.

The Federal Ship Financing Fund shall not be liable for any guarantees or commitments to guarantee issued pursuant to this section. For the war-risk insurance revolving fund, authorized by this subchapter, the Secretary of Transportation is authorized to transfer to said fund, at such times as it may become necessary in order to place into effect the insurance coverage authorized by this subchapter, and in such amounts as he may determine, not to exceed a total of \$10,000,000 from the "Vessel Operations Revolving Fund".

CODIFICATION

Section was not enacted as part of the Merchant Marine Act, 1936, which comprises this chapter.

AMENDMENTS

1981—Pub. L. 97-31 substituted "Secretary of Transportation" for "Secretary of Commerce".

§ 1289. Administrative provisions

(a) Issuance of policies, rules, and regulations; settlement of claims; valuation; rejection and review of valuation

(1) The Secretary, in the administration of this subchapter, may issue such policies, rules, and regulations as he deems proper and may adjust and pay losses, compromise and settle claims, whether in favor of or against the United States and pay the amount of any judgment rendered against the United States in any suit, or the amount of any settlement agreed upon, in respect of any claim under insurance authorized by this subchapter.

(2) In respect of hull insurance, the valuation in the policy for actual or constructive total loss of the vessel insured shall be a stated valuation (exclusive of National Defense features paid for by the Government) determined by the

Secretary which shall not exceed the amount that would be payable if the vessel had been requisitioned for title under section 1242(a) of this Appendix at the time of the attachment of the insurance under said policy: *Provided*, That the insured shall have the right within sixty days after the attachment of the insurance under said policy, or within sixty days after determination of such valuation by the Secretary, whichever is later, to reject such valuation, and shall pay, at the rate provided for in said policy, premiums upon such asserted valuation as the insured shall specify at the time of rejection, but such asserted valuation shall not operate to the prejudice of the Government in any subsequent action on the policy. In the event of the actual or constructive total loss of the vessel, if the insured has not rejected such valuation the amount of any claim therefor which is adjusted, compromised, settled, adjudged, or paid shall not exceed such stated amount, but if the insured has so rejected such valuation, the insured shall be paid as a tentative advance only, 75 per centum of such valuation so determined by the Secretary and shall be entitled to sue the United States in a court having jurisdiction of such claims to recover such valuation as would be equal to the just compensation which such court determines would have been payable if the vessel had been requisitioned for title under section 1242(a) of this Appendix at the time of the attachment of the insurance under said policy: *Provided*, That in the event of an election by the insured to reject the stated valuation fixed by the Secretary and to sue in the courts, the amount of the judgment will be payable without regard to the limitations contained in section 1242-1¹ of this Appendix, although the excess of any amounts advanced on account of just compensation over the amount of the court judgment will be required to be refunded. In the event of such court determination, premiums under the policy shall be adjusted on the basis of the valuation as finally determined and of the rate provided for in said policy.

(b) Forms and policies; rates; fees

The Secretary may prescribe and change forms and policies, and fix, adjust, and change the amounts insured and rates of premium provided for in this subchapter. The Secretary may charge and collect an annual fee in an amount calculated to cover the expenses of processing applications for insurance, the employment of underwriting agents, and the appointment of experts.

(c) Commercial practice controlling; limitation on fees

The Secretary, in administering this subchapter, may exercise his powers, perform his duties and functions, and make his expenditures, in accordance with commercial practice in the marine insurance business. Except as authorized in subsection (d) of this section, no insurance broker or other person acting in a similar intermediary capacity shall be paid any fee or other consideration by the Secretary by virtue of his participation in arranging any insurance wherein the Secretary directly insures any of the risk thereof.

¹ See References in Text note below.

(d) Underwriting agents

The Secretary may, and whenever he finds it practical to do so shall, employ domestic companies or groups of domestic companies authorized to do a marine insurance business in any State of the United States, to act as his underwriting agent. The Secretary may allow such companies or groups of companies fair and reasonable compensation for servicing insurance written by such companies or groups of companies as underwriting agent for the Secretary. The services of such underwriting agents may be utilized in the adjustment of claims under insurance provided by this subchapter, but no claim shall be paid unless and until it has been approved by the Secretary. Such compensation may include an allowance for expenses reasonably incurred by such agent, but such allowance shall not include any payment by such agent on account of solicitation for or stimulation of insurance business.

(e) Employment of marine insurance experts

The Secretary without regard to the laws, rules, or regulations relating to the employment of employees of the United States may appoint and prescribe the duties of such number of experts in marine insurance as he deems necessary under this subchapter.

(f) Utilization of services of other Government agencies

The Secretary with the consent of any executive department, independent establishment, or other agency of the Government, including any field service thereof, may avail himself of the use of information, services, facilities, officers, and employees thereof in carrying out the provisions of this subchapter.

§ 1292. Actions on claims for losses; jurisdiction of courts; limitation of actions

Upon disagreement as to a loss insured under this subchapter, suit may be maintained against the United States in admiralty in the district in which the claimant or his agent resides, and this remedy shall be exclusive of any other action by reason of the same subject matter against any agent or employee of the United States employed or retained under this subchapter. If the claimant has no residence in the United States, suit may be brought in the district court of the District of Columbia or in such other district court in which the Attorney General of the United States agrees to accept service. Such suits shall be heard and determined under the provisions of the Act of March 9, 1920, as amended (known as the Suits in Admiralty Act) [46

App. U.S.C. 741 et seq.]. All persons having or claiming or who might have an interest in such insurance, may be made parties either initially or upon the motion of either party. In any case where the Secretary acknowledges the indebtedness of the United States on account of such insurance, and there is a dispute as to the persons entitled to receive payment, the United States may bring an action in the nature of a bill of interpleader against such parties, in the District Court for the District of Columbia, or in the district court of the district in which any such person resides. In such actions any party, if not a resident of or found within the district, may be brought in by order of court served in such reasonable manner as the court directs. If the court is satisfied that persons unknown might assert a claim on account of such insurance, it may direct service upon such persons unknown by publication in the Federal Register. Judgment in any such suit shall discharge the United States from further liability to any parties to such action, and to all persons when service by publication upon persons unknown is directed by the court. The period within which suits may be commenced contained in said Suits in Admiralty Act shall, if claim be filed therefor within such period, be suspended from such time of filing until the claim shall have been administratively denied by the Secretary and for sixty days thereafter: *Provided, however,* That such claim shall be deemed to have been administratively denied if not acted upon within six months after the time of filing, unless the Secretary for good cause shown shall have otherwise agreed with the claimant.

The study shall include data on the cost effectiveness to the United States Government; the cost impact on the affected State governments; the safety of any vessels involved; the safety of the students; the operational and scheduling impact upon the several entities involved; liability exposure; and the impact on national security sealift. The Secretary

The Secretary shall not take any vessel, currently in service as a State academy training vessel, out of service for the purpose of implementing any alternative program, including ship sharing, until or unless the vessel is incapable of being maintained in good repair as required under section 1304(c)(1)(A) of the Merchant Marine Act, 1936 [46 App. U.S.C. 1295c(c)(1)(A)]. The Secretary shall not implement any program requiring that any State academy share its training vessel with another State academy without having first received the express consent of Congress to do so."

§ 1300. Bills of lading subject to chapter

Every bill of lading or similar document of title which is evidence of a contract for the carriage of goods by sea to or from ports of the United States, in foreign trade, shall have effect subject to the provisions of this chapter.

(Apr. 16, 1936, ch. 229, § 1, 49 Stat. 1207.)

§ 1301. Definitions

When used in this chapter—

(a) The term “carrier” includes the owner or the charterer who enters into a contract of carriage with a shipper.

(b) The term “contract of carriage” applies only to contracts of carriage covered by a bill of lading or any similar document of title, insofar as such document relates to the carriage of goods by sea, including any bill of lading or any similar document as aforesaid issued under or pursuant to a charter party from the moment at which such bill of lading or similar document of title regulates the relations between a carrier and a holder of the same.

(c) The term “goods” includes goods, wares, merchandise, and articles of every kind whatsoever, except live animals and cargo which by the contract of carriage is stated as being carried on deck and is so carried.

(d) The term “ship” means any vessel used for the carriage of goods by sea.

(e) The term “carriage of goods” covers the period from the time when the goods are loaded on to the time when they are discharged from the ship.

(Apr. 16, 1936, ch. 229, title I, § 1, 49 Stat. 1208.)

§ 1302. Duties and rights of carrier

Subject to the provisions of section 1306 of this Appendix, under every contract of carriage of goods by sea, the carrier in relation to the loading, handling, stowage, carriage, custody, care, and discharge of such goods, shall be subject to the responsibilities and liabilities and entitled to the rights and immunities set forth in sections 1303 and 1304 of this Appendix.

(Apr. 16, 1936, ch. 229, title I, § 2, 49 Stat. 1208.)

§ 1303. Responsibilities and liabilities of carrier and ship**(1) Seaworthiness**

The carrier shall be bound, before and at the beginning of the voyage, to exercise due diligence to—

(a) Make the ship seaworthy;

(b) Properly man, equip, and supply the ship;

(c) Make the holds, refrigerating and cooling chambers, and all other parts of the ship in which goods are carried, fit and safe for their reception, carriage, and preservation.

(2) Cargo

The carrier shall properly and carefully load, handle, stow, carry, keep, care for, and discharge the goods carried.

(3) Contents of bill

After receiving the goods into his charge the carrier, or the master or agent of the carrier, shall, on demand of the shipper, issue to the shipper a bill of lading showing among other things—

(a) The leading marks necessary for identification of the goods as the same are furnished in writing by the shipper before the loading of such goods starts, provided such marks are stamped or otherwise shown clearly upon the goods if uncovered, or on the cases or coverings in which such goods are contained, in such a manner as should ordinarily remain legible until the end of the voyage.

(b) Either the number of packages or pieces, or the quantity or weight, as the case may be, as furnished in writing by the shipper.

(c) The apparent order and condition of the goods: *Provided*, That no carrier, master, or agent of the carrier, shall be bound to state or show in the bill of lading any marks, number, quantity, or weight which he has reasonable ground for suspecting not accurately to represent the goods actually received, or which he has had no reasonable means of checking.

(4) Bill as prima facie evidence

Such a bill of lading shall be prima facie evidence of the receipt by the carrier of the goods as therein described in accordance with paragraphs (3)(a), (b), and (c), of this section: *Provided*, That nothing in this chapter shall be construed as repealing or limiting the application of any part of chapter 801 of title 49.

(5) Guaranty of statements

The shipper shall be deemed to have guaranteed to the carrier the accuracy at the time of shipment of the marks, number, quantity, and weight, as furnished by him; and the shipper shall indemnify the carrier against all loss, damages, and expenses arising or resulting from inaccuracies in such particulars. The right of the carrier to such indemnity shall in no way limit his responsibility and liability under the contract of carriage to any person other than the shipper.

(6) Notice of loss or damage; limitation of actions

Unless notice of loss or damage and the general nature of such loss or damage be given in writing to the carrier or his agent at the port of discharge before or at the time of the removal of the goods into the custody of the person entitled to delivery thereof under the contract of carriage, such removal shall be prima facie evidence of the delivery by the carrier of the goods as described in the bill of lading. If the loss or damage is not apparent, the notice must be given within three days of the delivery.

Said notice of loss or damage may be endorsed upon the receipt for the goods given by the person taking delivery thereof.

The notice in writing need not be given if the state of the goods has at the time of their receipt been the subject of joint survey or inspection.

In any event the carrier and the ship shall be discharged from all liability in respect of loss or damage unless suit is brought within one year after delivery of the goods or the date when the goods should have been delivered: *Provided*, That if a notice of loss or damage, either apparent or concealed, is not given as provided for in this section, that fact shall not affect or prejudice the right of the shipper to bring suit within one year after the delivery of the goods or the date when the goods should have been delivered.

In the case of any actual or apprehended loss or damage the carrier and the receiver shall give all reasonable facilities to each other for inspecting and tallying the goods.

(7) "Shipped" bill of lading

After the goods are loaded the bill of lading to be issued by the carrier, master, or agent of the carrier to the shipper shall, if the shipper so demands, be a "shipped" bill of lading: *Provided*, That if the shipper shall have previously taken

up any document of title to such goods, he shall surrender the same as against the issue of the "shipped" bill of lading, but at the option of the carrier such document of title may be noted at the port of shipment by the carrier, master, or agent with the name or names of the ship or ships upon which the goods have been shipped and the date or dates of shipment, and when so noted the same shall for the purpose of this section be deemed to constitute a "shipped" bill of lading.

(8) Limitation of liability for negligence

Any clause, covenant, or agreement in a contract of carriage relieving the carrier or the ship from liability for loss or damage to or in connection with the goods, arising from negligence, fault, or failure in the duties and obligations provided in this section, or lessening such liability otherwise than as provided in this chapter, shall be null and void and of no effect. A benefit of insurance in favor of the carrier, or similar clause, shall be deemed to be a clause relieving the carrier from liability.

(Apr. 16, 1936, ch. 229, title I, § 3, 49 Stat. 1208.)

CODIFICATION

In par. (4), "chapter 801 of title 49" substituted for "the Act of August 29, 1916, commonly known as the 'Pomerene Bills of Lading Act' [49 App. U.S.C. 81 et seq.]" on authority of Pub. L. 103-272, §6(b), July 5, 1994, 108 Stat. 1378, the first section of which enacted subtitles II, III, and V to X of Title 49, Transportation.

§ 1304. Rights and immunities of carrier and ship

(1) Unseaworthiness

Neither the carrier nor the ship shall be liable for loss or damage arising or resulting from unseaworthiness unless caused by want of due diligence on the part of the carrier to make the ship seaworthy, and to secure that the ship is properly manned, equipped, and supplied, and to make the holds, refrigerating and cool chambers, and all other parts of the ship in which goods are carried fit and safe for their reception, carriage, and preservation in accordance with the provisions of paragraph (1) of section 1303 of this Appendix. Whenever loss or damage has resulted from unseaworthiness, the burden of proving the exercise of due diligence shall be on the carrier or other persons claiming exemption under this section.

(2) Uncontrollable causes of loss

Neither the carrier nor the ship shall be responsible for loss or damage arising or resulting from—

(a) Act, neglect, or default of the master, mariner, pilot, or the servants of the carrier in the navigation or in the management of the ship;

(b) Fire, unless caused by the actual fault or privity of the carrier;

(c) Perils, dangers, and accidents of the sea or other navigable waters;

(d) Act of God;

(e) Act of war;

(f) Act of public enemies;

(g) Arrest or restraint of princes, rulers, or people, or seizure under legal process;

(h) Quarantine restrictions;

(i) Act or omission of the shipper or owner of the goods, his agent or representative;

(j) Strikes or lockouts or stoppage or restraint of labor from whatever cause, whether partial or general: *Provided*, That nothing herein contained shall be construed to relieve a carrier from responsibility for the carrier's own acts;

(k) Riots and civil commotions;

(l) Saving or attempting to save life or property at sea;

(m) Wastage in bulk or weight or any other loss or damage arising from inherent defect, quality, or vice of the goods;

(n) Insufficiency of packing;

(o) Insufficiency or inadequacy of marks;

(p) Latent defects not discoverable by due diligence; and

(q) Any other cause arising without the actual fault and privity of the carrier and without the fault or neglect of the agents or servants of the carrier, but the burden of proof shall be on the person claiming the benefit of this exception to show that neither the actual fault or privity of the carrier nor the fault or neglect of the agents or servants of the carrier contributed to the loss or damage.

(3) Freedom from negligence

The shipper shall not be responsible for loss or damage sustained by the carrier or the ship arising or resulting from any cause without the act, fault, or neglect of the shipper, his agents, or his servants.

(4) Deviations

Any deviation in saving or attempting to save life or property at sea, or any reasonable deviation shall not be deemed to be an infringement or breach of this chapter or of the contract of carriage, and the carrier shall not be liable for any loss or damage resulting therefrom: *Provided, however*, That if the deviation is for the purpose of loading or unloading cargo or passengers it shall, prima facie, be regarded as unreasonable.

(5) Amount of liability; valuation of cargo

Neither the carrier nor the ship shall in any event be or become liable for any loss or damage to or in connection with the transportation of goods in an amount exceeding \$500 per package lawful money of the United States, or in case of goods not shipped in packages, per customary freight unit, or the equivalent of that sum in other currency, unless the nature and value of such goods have been declared by the shipper before shipment and inserted in the bill of lading. This declaration, if embodied in the bill of lading, shall be prima facie evidence, but shall not be conclusive on the carrier.

By agreement between the carrier, master, or agent of the carrier, and the shipper another maximum amount than that mentioned in this paragraph may be fixed: *Provided*, That such maximum shall not be less than the figure above named. In no event shall the carrier be liable for more than the amount of damage actually sustained.

Neither the carrier nor the ship shall be responsible in any event for loss or damage to or in connection with the transportation of the goods if the nature or value thereof has been knowingly and fraudulently misstated by the shipper in the bill of lading.

(6) Inflammable, explosive, or dangerous cargo

Goods of an inflammable, explosive, or dangerous nature to the shipment whereof the carrier, master or agent of the carrier, has not consented with knowledge of their nature and character, may at any time before discharge be landed at any place or destroyed or rendered innocuous by the carrier without compensation, and the shipper of such goods shall be liable for all damages and expenses directly or indirectly arising out of or resulting from such shipment. If any such goods shipped with such knowledge and consent shall become a danger to the ship or cargo, they may in like manner be landed at any place, or destroyed or rendered innocuous by the carrier without liability on the part of the carrier except to general average, if any.

(Apr. 16, 1936, ch. 229, title I, § 4, 49 Stat. 1210.)

§ 1305. Surrender of rights; increase of liabilities; charter parties; general average

A carrier shall be at liberty to surrender in whole or in part all or any of his rights and immunities or to increase any of his responsibilities and liabilities under this chapter, provided such surrender or increase shall be embodied in the bill of lading issued to the shipper.

The provisions of this chapter shall not be applicable to charter parties; but if bills of lading are issued in the case of a ship under a charter party, they shall comply with the terms of this chapter. Nothing in this chapter shall be held to prevent the insertion in a bill of lading of any lawful provision regarding general average.

(Apr. 16, 1936, ch. 229, title I, § 5, 49 Stat. 1211.)

§ 1306. Special agreement as to particular goods

Notwithstanding the provisions of sections 1303 to 1305 of this Appendix, a carrier, master or agent of the carrier, and a shipper shall, in regard to any particular goods be at liberty to enter into any agreement in any terms as to the responsibility and liability of the carrier for such goods, and as to the rights and immunities of the carrier in respect of such goods, or his obligation as to seaworthiness (so far as the stipulation regarding seaworthiness is not contrary to public policy), or the care or diligence of his servants or agents in regard to the loading, handling, stowage, carriage, custody, care, and discharge of the goods carried by sea: *Provided*, That in this case no bill of lading has been or shall be issued and that the terms agreed shall be embodied in a receipt which shall be a non-negotiable document and shall be marked as such.

Any agreement so entered into shall have full legal effect: *Provided*, That this section shall not apply to ordinary commercial shipments made in the ordinary course of trade but only to other shipments where the character or condition of the property to be carried or the circumstances, terms, and conditions under which the carriage is to be performed are such as reasonably to justify a special agreement.

(Apr. 16, 1936, ch. 229, title I, § 6, 49 Stat. 1211.)

§ 1307. Agreement as to liability prior to loading or after discharge

Nothing contained in this chapter shall prevent a carrier or a shipper from entering into any agreement, stipulation, condition, reservation, or exemption as to the responsibility and liability of the carrier or the ship for the loss or damage to or in connection with the custody and care and handling of goods prior to the loading on and subsequent to the discharge from the ship on which the goods are carried by sea.

(Apr. 16, 1936, ch. 229, title I, § 7, 49 Stat. 1212.)

§ 1308. Rights and liabilities under other provisions

§ 1503. Duties of Secretary of Transportation

(a) Enforcement

On and after the date the instrument of ratification is deposited by the United States in accordance with the provisions of article VII of the Convention, the Secretary shall enforce and carry out the provisions of the Convention, and, unless an earlier date is specifically provided, the provisions of this chapter, in the United States.

(b) Regulations

The Secretary shall, as soon as practicable after December 13, 1977, promulgate, and from time to time, amend, those regulations he deems necessary for such enforcement. Such regulations, among other things, shall—

(1) establish procedures for the testing, inspection, and initial approval of existing and new containers and of designs for new containers, including procedures relating to the affixing, invalidating, and removal of safety approval plates for containers;

(2) establish procedures to be followed by owners of containers relating to the periodic examination of containers, as provided in the Convention; and

(3) provide a method for developing, collecting, and disseminating data concerning container safety and the international transport of containers.

(c) Affixation of approval plate; delegation of authority; fees

At any time after December 13, 1977, the Secretary may—

(1) authorize the affixation of a safety approval plate to any container which, after examination, is found not to have a safety approval plate attached to it and which the owner has established meets the standards of the Convention;

(2) delegate and withdraw the delegation of authority to initially approve existing and new containers and designs for new containers, and to authorize the affixing of safety approval plates; and

(3) establish a schedule of fees to be charged and collected for services performed by the Secretary, or under authority delegated by the Secretary, relating to the testing, inspection, and initial approval of containers and container designs.

(d) Method of delegating authority

Those delegations made under subsection (c)(2) of this section may be made to any person, including any public or private agency or non-

(3) the review that will be carried out by the Secretary to determine that any recipient of delegated functions is performing properly the functions so delegated.

No recipient of authority delegated under such subsection may assess or collect, or attempt to assess or collect, any penalty for violation of any provision of this chapter, the Convention, or any order of the Secretary issued under this chapter, or issue or attempt to issue any detention or other order. Any records required to be kept by regulations promulgated by the Secretary under this subsection shall be available to the Secretary, for inspection, upon request. (A) examine, or require to be examined, new containers, and existing containers which are subject to this chapter, in international transport, and test, inspect, and approve designs for new containers and new containers being manufactured;

(B) issue a detention order removing or excluding a container from service until the owner of the container establishes to the Secretary's satisfaction that the container meets the standards of the Convention, if the container is subject to this chapter and does not have a valid safety approval plate attached to it, or if there is significant evidence that such a container bearing a safety approval plate is in a condition which creates an obvious risk to safety; and

(C) take whatever other appropriate action he deems necessary, including issuance of any necessary orders, to remove the container involved from service, or restrict its use, in those instances where he finds that a container is not in compliance with the provisions of this chapter or the Convention but does not present an obvious risk to safety.

The Secretary may permit the movement to another location of a container which he finds to be unsafe or which does not have a valid safety approval plate affixed to it, under whatever restriction he considers necessary and consistent with the intent of the Convention, for repair or other appropriate disposition.

(2) Beginning on January 1, 1985, the Secretary may examine or require to be examined any existing container in international transport.

(b) Costs of examinations

The owner of the container involved in any action taken by the Secretary under this section with respect to an examination of a container, shall pay for or reimburse the Secretary for expenses arising from such actions, except for the costs of routine examinations of containers or safety approval plates. In addition, the owner of containers submitted to the procedure established by the Secretary for testing, inspection, and initial approval, and the manufacturers who submit designs of containers to the procedures established by the Secretary for testing, inspection, and initial approval shall pay for or reimburse the Secretary for the expenses arising from such testing, inspection or approval. Funds received by the Secretary in reimbursement shall be credited to the appropriations bearing the cost thereof.

(c) Presumption of safe condition

A container bearing a safety approval plate authorized by a country which is a party to the Convention shall be presumed to be in a safe condition unless there is significant evidence that the container creates an obvious risk to safety.

(d) Notification of detention or other order; duration of order

Whenever the Secretary issues a detention or other order under this section, he shall promptly notify, in writing, either the owner of the container subject to such order, his agent, or, when the identity of such owner is not apparent from the container of¹ shipping documents, the custodian. The notification shall reasonably identify the container involved, give the location of the container, and reasonably describe the condition or situation which gave rise to the order. An order issued by the Secretary under this section shall remain in effect until the container is declared by the Secretary, or under regulations promulgated by the Secretary, to be in compliance with the standards of the Convention, or until it is permanently removed from service, whichever first occurs.

(e) Notification to foreign country of defect at time of approval

No penalty shall be assessed until after the person charged has been given notice and an opportunity for a hearing. In assessing, remitting, mitigating, or compromising a penalty the Secretary shall consider the gravity of the violation, the hazards involved, and the record of the person charged with respect to violations of this chapter or of the Convention. (2) to provide an efficient and economic transportation system in the ocean commerce of the United States that is, insofar as possible, in harmony with, and responsive to, international shipping practices;

(3) to encourage the development of an economically sound and efficient United States-flag liner fleet capable of meeting national security needs; and

(4) to promote the growth and development of United States exports through competitive and efficient ocean transportation and by placing a greater reliance on the marketplace.

EFFECTIVE DATE OF 1998 AMENDMENT

Amendment by Pub. L. 105-258 effective May 1, 1999, see section 2 of Pub. L. 105-258, set out as a note under section 1701 of this Appendix.

§ 1704. Agreements**(a) Filing requirements**

A true copy of every agreement entered into with respect to an activity described in section

1703(a) or (b) of this Appendix shall be filed with the Commission, except agreements related to transportation to be performed within or between foreign countries and agreements among common carriers to establish, operate, or maintain a marine terminal in the United States. In the case of an oral agreement, a complete memorandum specifying in detail the substance of the agreement shall be filed. The Commission may by regulation prescribe the form and manner in which an agreement shall be filed and the additional information and documents necessary to evaluate the agreement.

(b) Conference agreements

Each conference agreement must—

- (1) state its purpose;
- (2) provide reasonable and equal terms and conditions for admission and readmission to conference membership for any ocean common carrier willing to serve the particular trade or route;
- (3) permit any member to withdraw from conference membership upon reasonable notice without penalty;
- (4) at the request of any member, require an independent neutral body to police fully the obligations of the conference and its members;
- (5) prohibit the conference from engaging in conduct prohibited by section 1709(c)(1) or (3) of this Appendix;
- (6) provide for a consultation process designed to promote—
 - (A) commercial resolution of disputes, and
 - (B) cooperation with shippers in preventing and eliminating malpractices;
- (7) establish procedures for promptly and fairly considering shippers’ requests and complaints; and
- (8) provide that any member of the conference may take independent action on any rate or service item upon not more than 5 calendar days’ notice to the conference and that, except for exempt commodities not published in the conference tariff, the conference will include the new rate or service item in its tariff for use by that member, effective no later than 5 calendar days after receipt of the notice, and by any other member that notifies the conference that it elects to adopt the independent rate or service item on or after its effective date, in lieu of the existing conference tariff provision for that rate or service item;

(c) Ocean common carrier agreements

An ocean common carrier agreement may not—

- (1) prohibit or restrict a member or members of the agreement from engaging in negotiations for service contracts with 1 or more shippers;
- (2) require a member or members of the agreement to disclose a negotiation on a service contract, or the terms and conditions of a service contract, other than those terms or conditions required to be published under section 1707(c)(3) of this Appendix; or
- (3) adopt mandatory rules or requirements affecting the right of an agreement member or agreement members to negotiate and enter into service contracts.

An agreement may provide authority to adopt voluntary guidelines relating to the terms and procedures of an agreement member's or agreement members' service contracts if the guidelines explicitly state the right of members of the agreement not to follow the guidelines. These guidelines shall be confidentially submitted to the Commission.

(d) Interconference agreements

Each agreement between carriers not members of the same conference must provide the right of independent action for each carrier. Each agreement between conferences must provide the right of independent action for each conference.

(e) Assessment agreements

Assessment agreements shall be filed with the Commission and become effective on filing. The Commission shall thereafter, upon complaint filed within 2 years of the date of the agreement, disapprove, cancel, or modify any such agreement, or charge or assessment pursuant thereto, that it finds, after notice and hearing, to be unjustly discriminatory or unfair as between carriers, shippers, or ports. The Commission shall issue its final decision in any such proceeding within 1 year of the date of filing of the complaint. To the extent that an assessment or charge is found in the proceeding to be unjustly discriminatory or unfair as between carriers, shippers, or ports, the Commission shall remedy the unjust discrimination or unfairness for the period of time between the filing of the complaint and the final decision by means of assessment adjustments. These adjustments shall be implemented by prospective credits or debits to future assessments or charges, except in the case of a complainant who has ceased activities subject to the assessment or charge, in which case reparation may be awarded. Except for this subsection and section 1706(a) of this Appendix, this chapter does not apply to assessment agreements.

(f) Maritime labor agreements

This chapter does not apply to maritime labor agreements. This subsection does not exempt from this chapter any rates, charges, regulations, or practices of a common carrier that are required to be set forth in a tariff or are essential terms of a service contract, whether or not those rates, charges, regulations, or practices arise out of, or are otherwise related to, a maritime labor agreement.

(g) Vessel sharing agreements

An ocean common carrier that is the owner, operator, or bareboat, time, or slot charterer of a United States-flag liner vessel documented pursuant to sections¹ 12102(a) or (d) of title 46 is authorized to agree with an ocean common carrier that is not the owner, operator or bareboat charterer for at least 1 year of United States-flag liner vessels which are eligible to be included in the Maritime Security Fleet Program and are enrolled in an Emergency Preparedness Program pursuant to subtitle B of title VI of the Merchant Marine Act, 1936 (46 U.S.C. App. 1187 et seq.), to which it charters or subcharters the

United States-flag vessel or space on the United States-flag vessel that such charterer or subcharterer may not use or make available space on the vessel for the carriage of cargo reserved by law for United States-flag vessels.

App. 808 and 839)."

§ 1705. Action on agreements**(a) Notice**

Within 7 days after an agreement is filed, the Commission shall transmit a notice of its filing to the Federal Register for publication.

(b) Review standard

The Commission shall reject any agreement filed under section 1704(a) of this Appendix that, after preliminary review, it finds does not meet the requirements of section 1704 of this Appendix. The Commission shall notify in writing the person filing the agreement of the reason for rejection of the agreement.

(c) Review and effective date

Unless rejected by the Commission under subsection (b) of this section, agreements, other than assessment agreements, shall become effective—

(1) on the 45th day after filing, or on the 30th day after notice of the filing is published in the Federal Register, whichever day is later; or

(2) if additional information or documentary material is requested under subsection (d) of this section, on the 45th day after the Commission receives—

(A) all the additional information and documentary material requested; or

(B) if the request is not fully complied with, the information and documentary material submitted and a statement of the reasons for noncompliance with the request. The period specified in paragraph (2) may be extended only by the United States District Court for the District of Columbia upon an application of the Commission under subsection (i) of this section.

(d) Additional information

Before the expiration of the period specified in subsection (c)(1) of this section, the Commission may request from the person filing the agreement any additional information and documentary material it deems necessary to make the determinations required by this section.

(e) Request for expedited approval

(f) Term of agreements

The Commission may not limit the effectiveness of an agreement to a fixed term.

(g) Substantially anticompetitive agreements

If, at any time after the filing or effective date of an agreement, the Commission determines that the agreement is likely, by a reduction in competition, to produce an unreasonable reduction in transportation service or an unreasonable increase in transportation cost, it may, after notice to the person filing the agreement, seek appropriate injunctive relief under subsection (h) of this section.

(h) Injunctive relief

The Commission may, upon making the determination specified in subsection (g) of this section, bring suit in the United States District Court for the District of Columbia to enjoin operation of the agreement. The court may issue a temporary restraining order or preliminary injunction and, upon a showing that the agreement is likely, by a reduction in competition, to produce an unreasonable reduction in transportation service or an unreasonable increase in transportation cost, may enter a permanent injunction. In a suit under this subsection, the burden of proof is on the Commission. The court may not allow a third party to intervene with respect to a claim under this subsection.

(i) Compliance with informational needs

If a person filing an agreement, or an officer, director, partner, agent, or employee thereof, fails substantially to comply with a request for the submission of additional information or documentary material within the period specified in subsection (c) of this section, the United States District Court for the District of Columbia, at the request of the Commission—

(3) may grant such other equitable relief as the court in its discretion determines necessary or appropriate.

(j) Nondisclosure of submitted material

Except for an agreement filed under section 1704 of this Appendix, information and documentary material filed with the Commission under section 1704 of this Appendix or this section is exempt from disclosure under section 552 of title 5 and may not be made public except as may be relevant to an administrative or judicial action or proceeding. This section does not prevent disclosure to either body of Congress or to a duly authorized committee or subcommittee of Congress.

(k) Representation

Upon notice to the Attorney General, the Commission may represent itself in district court proceedings under subsections (h) and (i) of this section and section 1710(h) of this Appendix. With the approval of the Attorney General, the Commission may represent itself in proceedings in the United States Courts of Appeal under subsections (h) and (i) of this section and section 1710(h) of this Appendix.

(b) Exceptions

This chapter does not extend antitrust immunity—

(1) to any agreement with or among air carriers, rail carriers, motor carriers, or common carriers by water not subject to this chapter with respect to transportation within the United States;

(2) to any discussion or agreement among common carriers that are subject to this chapter regarding the inland divisions (as opposed to the inland portions) of through rates within the United States;

(3) to any agreement among common carriers subject to this chapter to establish, operate, or maintain a marine terminal in the United States; or

(4) to any loyalty contract.

§ 1707. Tariffs

(a) In general

(1) Except with regard to bulk cargo, forest products, recycled metal scrap, new assembled motor vehicles, waste paper, and paper waste, each common carrier and conference shall keep open to public inspection in an automated tariff system, tariffs showing all its rates, charges, classifications, rules, and practices between all points or ports on its own route and on any through transportation route that has been established. However, common carriers shall not be required to state separately or otherwise reveal in tariffs the inland divisions of a through rate. Tariffs shall—

(A) state the places between which cargo will be carried;

(B) list each classification of cargo in use;

(C) state the level of ocean transportation intermediary, as defined in section 1702(17)(A) of this Appendix, compensation, if any, by a carrier or conference;

(D) state separately each terminal or other charge, privilege, or facility under the control of the carrier or conference and any rules or regulations that in any way change, affect, or determine any part or the aggregate of the rates or charges;

(E) include sample copies of any bill of lading, contract of affreightment, or other document evidencing the transportation agreement; and

(2) Tariffs shall be made available electronically to any person, without time, quantity, or

¹ See References in Text note below.

² So in original. Probably should be “agreement.”

other limitation, through appropriate access from remote locations, and a reasonable charge may be assessed for such access. No charge may be assessed a Federal agency for such access.

(b) Time-volume rates

Rates shown in tariffs filed under subsection (a) of this section may vary with the volume of cargo offered over a specified period of time.

(c) Service contracts

(1) In general

An individual ocean common carrier or an agreement between or among ocean common carriers may enter into a service contract with one or more shippers subject to the requirements of this chapter. The exclusive remedy for a breach of a contract entered into under this subsection shall be an action in an appropriate court, unless the parties otherwise agree. In no case may the contract dispute resolution forum be controlled by or in any way affiliated with a controlled carrier as defined in section 1702(8) of this Appendix, or by the government which owns or controls the carrier.

(2) Filing requirements

Except for service contracts dealing with bulk cargo, forest products, recycled metal scrap, new assembled motor vehicles, waste paper, or paper waste, each contract entered into under this subsection by an individual ocean common carrier or an agreement shall be filed confidentially with the Commission. Each service contract shall include the following essential terms—

- (A) the origin and destination port ranges;
- (B) the origin and destination geographic areas in the case of through intermodal movements;
- (C) the commodity or commodities involved;
- (D) the minimum volume or portion;
- (E) the line-haul rate;
- (F) the duration;
- (G) service commitments; and
- (H) the liquidated damages for non-performance, if any.

(3) Publication of certain terms

When a service contract is filed confidentially with the Commission, a concise statement of the essential terms described in paragraphs 2(A),¹ (C), (D), and (F) shall be published and made available to the general public in tariff format.

(4) Disclosure of certain terms

(A) An ocean common carrier, which is a party to or is subject to the provisions of a collective bargaining agreement with a labor organization, shall, in response to a written request by such labor organization, state whether it is responsible for the following work at dock areas and within port areas in the United States with respect to cargo transportation under a service contract described in paragraph (1) of this subsection—

- (i) the movement of the shipper's cargo on a dock area or within the port area or to or

from railroad cars on a dock area or within the port area;

(ii) the assignment of intraport carriage of the shipper's cargo between areas on a dock or within the port area;

(iii) the assignment of the carriage of the shipper's cargo between a container yard on a dock area or within the port area and a rail yard adjacent to such container yard; and

(iv) the assignment of container freight station work and container maintenance and repair work performed at a dock area or within the port area.

(B) The common carrier shall provide the information described in subparagraph (A) of this paragraph to the requesting labor organization within a reasonable period of time.

(C) This paragraph requires the disclosure of information by an ocean common carrier only if there exists an applicable and otherwise lawful collective bargaining agreement which pertains to that carrier. No disclosure made by an ocean common carrier shall be deemed to be an admission or agreement that any work is covered by a collective bargaining agreement. Any dispute regarding whether any work is covered by a collective bargaining agreement and the responsibility of the ocean common carrier under such agreement shall be resolved solely in accordance with the dispute resolution procedures contained in the collective bargaining agreement and the National Labor Relations Act [29 U.S.C. 151 et seq.], and without reference to this paragraph.

(D) Nothing in this paragraph shall have any effect on the lawfulness or unlawfulness under this chapter, the National Labor Relations Act [29 U.S.C. 151 et seq.], the Taft-Hartley Act [29 U.S.C. 141 et seq.], the Federal Trade Commission Act [15 U.S.C. 41 et seq.], the antitrust laws, or any other Federal or State law, or any revisions or amendments thereto, of any collective bargaining agreement or element thereof, including any element that constitutes an essential term of a service contract under this subsection.

(E) For purposes of this paragraph the terms "dock area" and "within the port area" shall have the same meaning and scope as in the applicable collective bargaining agreement between the requesting labor organization and the carrier.

(d) Tariff rates

No new or initial rate or change in an existing rate that results in an increased cost to the shipper may become effective earlier than 30 calendar days after publication. The Commission, for good cause, may allow such a new or initial rate or change to become effective in less than 30 calendar days. A change in an existing rate that results in a decreased cost to the shipper may become effective upon publication.

(e) Refunds

The Commission may, upon application of a carrier or shipper, permit a common carrier or conference to refund a portion of freight charges collected from a shipper or to waive the collection of a portion of the charges from a shipper if—

¹ So in original. Probably should be "(2)(A)".

(1) there is an error in a,² in failing to publish a new tariff, or an error in quoting a tariff, and the refund will not result in discrimination among shippers, ports, or carriers;

(2) the common carrier or conference has, prior to filing an application for authority to make a refund for an error in a tariff or a failure to publish a tariff, published a new tariff that sets forth the rate on which the refund or waiver would be based; and

(3) the application for refund or waiver is filed with the Commission within 180 days from the date of shipment.

(f) Marine terminal operator schedules

A marine terminal operator may make available to the public, subject to section 1709(d) of this Appendix, a schedule of rates, regulations, and practices, including limitations of liability for cargo loss or damage, pertaining to receiving, delivering, handling, or storing property at its marine terminal. Any such schedule made available to the public shall be enforceable by an appropriate court as an implied contract without proof of actual knowledge of its provisions.

(g) Regulations

The Commission shall by regulation prescribe the requirements for the accessibility and accuracy of automated tariff systems established under this section. The Commission may, after periodic review, prohibit the use of any automated tariff system that fails to meet the requirements established under this section. The Commission may not require a common carrier to provide a remote terminal for access under subsection (a)(2) of this section. The Commission shall by regulation prescribe the form and manner in which marine terminal operator schedules authorized by this section shall be published.

EFFECTIVE DATE OF 1998 AMENDMENT

Amendment by Pub. L. 105-258 effective May 1, 1999, see section 2 of Pub. L. 105-258, set out as a note under section 1701 of this Appendix.

§ 1708. Controlled carriers

(a) Controlled carrier rates

No controlled carrier subject to this section may maintain rates or charges in its tariffs or service contracts, or charge or assess rates, that are below a level that is just and reasonable, nor may any such carrier establish¹ maintain, or enforce unjust or unreasonable classifications, rules, or regulations in those tariffs or service contracts. An unjust or unreasonable classification, rule, or regulation means one that results or is likely to result in the carriage or handling of cargo at rates or charges that are below a just and reasonable level. The Commission may, at any time after notice and hearing, prohibit the publication or use of any rates, charges, classifications, rules, or regulations that the controlled carrier has failed to demonstrate to be just and reasonable. In a proceeding under this subsection, the burden of proof is on the controlled carrier to demonstrate that its rates, charges, classifications, rules, or regulations are just and reasonable. Rates, charges, classifications, rules, or regulations that have been suspended or prohibited by the Commission are void and their use is unlawful.

(b) Rate standards

For the purpose of this section, in determining whether rates, charges, classifications, rules, or regulations by a controlled carrier are just and reasonable, the Commission shall take into account whether the rates or charges which have been published or assessed or which would result from the pertinent classifications, rules, or regulations are below a level which is fully compensatory to the controlled carrier based upon that carrier's actual costs or upon its constructive costs. For purposes of the preceding sentence, the term “constructive costs” means the costs of another carrier, other than a controlled carrier, operating similar vessels and equipment in the same or a similar trade. The Commission may also take into account other appropriate factors, including but not limited to, whether—

(1) the rates, charges, classifications, rules, or regulations are the same as or similar to those published or assessed or assessed² by other carriers in the same trade;

(2) the rates, charges, classifications, rules, or regulations are required to assure movement of particular cargo in the trade; or

(3) the rates, charges, classifications, rules, or regulations are required to maintain acceptable continuity, level, or quality of common carrier service to or from affected ports.

¹ So in original. Probably should be followed by a comma.

² So in original.

(c) Effective date of rates

Notwithstanding section 1707(d) of this Appendix and except for service contracts, the rates, charges, classifications, rules, or regulations of controlled carriers may not, without special permission of the Commission, become effective sooner than the 30th day after the date of publication. Each controlled carrier shall, upon the request of the Commission, file, within 20 days of request (with respect to its existing or proposed rates, charges, classifications, rules, or regulations), a statement of justification that sufficiently details the controlled carrier's need and purpose for such rates, charges, classifications, rules, or regulations upon which the Commission may reasonably base its determination of the lawfulness thereof.

(d) Prohibition of rates

Within 120 days after the receipt of information requested by the Commission under this section, the Commission shall determine whether the rates, charges, classifications, rules, or regulations of a controlled carrier may be unjust and unreasonable. Whenever the Commission is of the opinion that the rates, charges, classifications, rules, or regulations published or assessed by a controlled carrier may be unjust and unreasonable, the Commission shall issue an order to the controlled carrier to show cause why those rates, charges, classifications, rules, or regulations should not be prohibited. Pending a determination as to their lawfulness in such a proceeding, the Commission may suspend the rates, charges, classifications, rules, or regulations at any time before their effective date. In the case of rates, charges, classifications, rules, or regulations that have already become effective, the Commission may, upon the issuance of an order to show cause, suspend those rates, charges, classifications, rules, or regulations on not less than 30 days' notice to the controlled carrier. No period of suspension under this subsection may be greater than 180 days. Whenever the Commission has suspended any rates, charges, classifications, rules, or regulations under this subsection, the affected controlled carrier may publish new rates, charges, classifications, rules, or regulations to take effect immediately during the suspension period in lieu of the suspended rates, charges, classifications, rules, or regulations—except that the Commission may reject the new rates, charges, classifications, rules, or regulations if it is of the opinion that they are unjust and unreasonable.

(e) Presidential review

Concurrently with the publication thereof, the Commission shall transmit to the President each order of suspension or final order of prohibition of rates, charges, classifications, rules, or regulations of a controlled carrier subject to this section. Within 10 days after the receipt or the effective date of the Commission order, the President may request the Commission in writing to stay the effect of the Commission's order if the President finds that the stay is required for reasons of national defense or foreign policy, which reasons shall be specified in the report. Notwithstanding any other law, the Commission shall immediately grant the request by the issu-

ance of an order in which the President's request shall be described. During any such stay, the President shall, whenever practicable, attempt to resolve the matter in controversy by negotiation with representatives of the applicable foreign governments.

(f) Exceptions

This section does not apply to—

(1) a controlled carrier of a state whose vessels are entitled by a treaty of the United States to receive national or most-favored-nation treatment; or

(2) a trade served exclusively by controlled carriers.

(Pub. L. 98-237, § 9, Mar. 20, 1984, 98 Stat. 76; Pub. L. 102-100, § 5, Aug. 17, 1991, 105 Stat. 492; Pub. L. 105-258, title I, § 108, Oct. 14, 1998, 112 Stat. 1908.)

§ 1710. Complaints, investigations, reports, and reparations

(a) Filing of complaints

Any person may file with the Commission a sworn complaint alleging a violation of this chapter, other than section 1705(g) of this Appendix, and may seek reparation for any injury caused to the complainant by that violation.

(b) Satisfaction or investigation of complaints

The Commission shall furnish a copy of a complaint filed pursuant to subsection (a) of this section to the person named therein who shall, within a reasonable time specified by the Commission, satisfy the complaint or answer it in writing. If the complaint is not satisfied, the Commission shall investigate it in an appropriate manner and make an appropriate order.

(c) Commission investigations

The Commission, upon complaint or upon its own motion, may investigate any conduct or agreement that it believes may be in violation of this chapter. Except in the case of an injunction granted under subsection (h) of this section, each agreement under investigation under this section remains in effect until the Commission issues an order under this subsection. The Commission may by order disapprove, cancel, or modify any agreement filed under section 1704(a) of this Appendix that operates in violation of this chapter. With respect to agreements inconsistent with section 1705(g) of this Appendix, the Commission’s sole remedy is under section 1705(h) of this Appendix.

(d) Conduct of investigation

Within 10 days after the initiation of a proceeding under this section, the Commission

shall set a date on or before which its final decision will be issued. This date may be extended for good cause by order of the Commission.

(e) Undue delays

If, within the time period specified in subsection (d) of this section, the Commission determines that it is unable to issue a final decision because of undue delays caused by a party to the proceedings, the Commission may impose sanctions, including entering a decision adverse to the delaying party.

(f) Reports

The Commission shall make a written report of every investigation made under this chapter in which a hearing was held stating its conclusions, decisions, findings of fact, and order. A copy of this report shall be furnished to all parties. The Commission shall publish each report for public information, and the published report shall be competent evidence in all courts of the United States.

(g) Reparations

For any complaint filed within 3 years after the cause of action accrued, the Commission shall, upon petition of the complainant and after notice and hearing, direct payment of reparations to the complainant for actual injury (which, for purposes of this subsection, also includes the loss of interest at commercial rates compounded from the date of injury) caused by a violation of this chapter plus reasonable attorney’s fees. Upon a showing that the injury was caused by activity that is prohibited by section 1709(b)(3) or (6) of this Appendix or section 1709(c)(1) or (3) of this Appendix, or that violates section 1709(a)(2) or (3) of this Appendix, the Commission may direct the payment of additional amounts; but the total recovery of a complainant may not exceed twice the amount of the actual injury. In the case of injury caused by an activity that is prohibited by section 1709(b)(4)(A) or (B) of this Appendix, the amount of the injury shall be the difference between the rate paid by the injured shipper and the most favorable rate paid by another shipper.

(h) Injunction

(1) In connection with any investigation conducted under this section, the Commission may bring suit in a district court of the United States to enjoin conduct in violation of this chapter. Upon a showing that standards for granting injunctive relief by courts of equity are met and after notice to the defendant, the court may grant a temporary restraining order or preliminary injunction for a period not to exceed 10 days after the Commission has issued an order disposing of the issues under investigation. Any such suit shall be brought in a district in which the defendant resides or transacts business.

(2) After filing a complaint with the Commission under subsection (a) of this section, the complainant may file suit in a district court of the United States to enjoin conduct in violation of this chapter. Upon a showing that standards for granting injunctive relief by courts of equity are met and after notice to the defendant, the court may grant a temporary restraining order or preliminary injunction for a period not to ex-

ceed 10 days after the Commission has issued an order disposing of the complaint. Any such suit shall be brought in the district in which the defendant has been sued by the Commission under paragraph (1); or, if no suit has been filed, in a district in which the defendant resides or transacts business. A defendant that prevails in a suit under this paragraph shall be allowed reasonable attorney's fees to be assessed and collected as part of the costs of the suit.

(2) “foreign carrier” means an ocean common carrier a majority of whose vessels are documented under the laws of a country other than the United States;

(3) “maritime services” means port-to-port carriage of cargo by the vessels operated by ocean common carriers;

(6) “United States oceanborne trade” means the carriage of cargo between the United States and a foreign country, whether direct or indirect, by an ocean common carrier.

(b) Authority to conduct investigations

The Federal Maritime Commission shall investigate whether any laws, rules, regulations, policies, or practices of foreign governments, or any practices of foreign carriers or other persons providing maritime or maritime-related services in a foreign country result in the existence of conditions that—

(1) adversely affect the operations of United States carriers in United States oceanborne trade; and

(2) do not exist for foreign carriers of that country in the United States under the laws of the United States or as a result of acts of United States carriers or other persons providing maritime or maritime-related services in the United States.

(c) Investigations

(1) Investigations under subsection (b) of this section may be initiated by the Commission on its own motion or on the petition of any person, including any common carrier, shipper, shippers’ association, ocean transportation intermediary, or marine terminal operator, or any branch, department, agency, or other component of the Government of the United States.

(2) The Commission shall complete any such investigation and render a decision within 120 days after it is initiated, except that the Commission may extend such 120-day period for an additional 90 days if the Commission is unable to obtain sufficient information to determine whether a condition specified in subsection (b) of this section exists. Any notice providing such an extension shall clearly state the reasons for such extension.

(d) Information requests

(1) In order to further the purposes of subsection (b) of this section, the Commission may, by order, require any person (including any common carrier, shipper, shippers’ association, ocean transportation intermediary, or marine terminal operator, or any officer, receiver, trustee, lessee, agent or employee thereof) to file with the Commission any periodic or special report, answers to questions, documentary material, or other information which the Commission considers necessary or appropriate. The Commission may require that the response to any such order shall be made under oath. Such response shall be furnished in the form and within the time prescribed by the Commission.

(2) In an investigation under subsection (b) of this section, the Commission may issue subpoenas to compel the attendance and testimony of witnesses and the production of records or other evidence.

(3) Notwithstanding any other provision of law, the Commission may, in its discretion, determine that any information submitted to it in response to a request under this subsection, or otherwise, shall not be disclosed to the public.

(e) Action against foreign carriers

(1) Whenever, after notice and opportunity for comment or hearing, the Commission determines that the conditions specified in subsection (b) of this section exist, the Commission shall take such action as it considers necessary and appropriate against any foreign carrier that is a contributing cause to, or whose government is a contributing cause to, such conditions, in order to offset such conditions. Such action may include—

(A) limitations on sailings to and from United States ports or on the amount or type of cargo carried;

(f) Actions upon request of Commission

Whenever the conditions specified in subsection (b) of this section are found by the Commission to exist, upon the request of the Commission—

(1) the collector of customs at any port or place of destination in the United States shall refuse the clearance required by section 91 of this Appendix to any vessel of a foreign carrier that is identified by the Commission under subsection (e) of this section; and

(2) the Secretary of the department in which the Coast Guard is operating shall deny entry, for purposes of oceanborne trade, of any vessel of a foreign carrier that is identified by the Commission under subsection (e) of this section to any port or place in the United States or the navigable waters of the United States, or shall detain any such vessel at the port or place in the United States from which it is about to depart for any other port or place in the United States.

(g) Report

The Commission shall include in its annual report to Congress—

(1) a list of the twenty foreign countries which generated the largest volume of oceanborne liner cargo for the most recent calendar year in bilateral trade with the United States;

(a) In general

In investigations and adjudicatory proceedings under this chapter—

(Pub. L. 98-237, §12, Mar. 20, 1984, 98 Stat. 81.)

§ 1712. Penalties

(a) Assessment of penalty

Whoever violates a provision of this chapter, a regulation issued thereunder, or a Commission order is liable to the United States for a civil penalty. The amount of the civil penalty, unless otherwise provided in this chapter, may not exceed \$5,000 for each violation unless the violation was willfully and knowingly committed, in which case the amount of the civil penalty may not exceed \$25,000 for each violation. Each day of a continuing violation constitutes a separate offense. The amount of any penalty imposed upon a common carrier under this subsection shall constitute a lien upon the vessels operated by that common carrier and any such vessel may be libeled therefore in the district court of the United States for the district in which it may be found.

(b) Additional penalties

(1) For a violation of section 1709(b)(1), (2), or (7) of this Appendix, the Commission may suspend any or all tariffs of the common carrier, or that common carrier's right to use any or all tariffs of conferences of which it is a member, for a period not to exceed 12 months.

(2) For failure to supply information ordered to be produced or compelled by subpoena under section 1711 of this Appendix, the Commission may, after notice and an opportunity for hearing, suspend any or all tariffs of a common carrier, or that common carrier's right to use any or all tariffs of conferences of which it is a member.

(3) A common carrier that accepts or handles cargo for carriage under a tariff that has been suspended or after its right to utilize that tariff has been suspended is subject to a civil penalty of not more than \$50,000 for each shipment.

(4) If the Commission finds, after notice and an opportunity for a hearing, that a common carrier has failed to supply information ordered to be produced or compelled by subpoena under section 1711 of this Appendix, the Commission may request that the Secretary of the Treasury refuse or revoke any clearance required for a vessel operated by that common carrier. Upon request by the Commission, the Secretary of the Treasury shall, with respect to the vessel concerned, refuse or revoke any clearance required by section 91 of this Appendix.

(5) If, in defense of its failure to comply with a subpoena or discovery order, a common carrier alleges that documents or information located in a foreign country cannot be produced because of the laws of that country, the Commission shall immediately notify the Secretary of State of the failure to comply and of the allegation relating to foreign laws. Upon receiving the notifi-

cation, the Secretary of State shall promptly consult with the government of the nation within which the documents or information are alleged to be located for the purpose of assisting the Commission in obtaining the documents or information sought.

(6) If, after notice and hearing, the Commission finds that the action of a common carrier, acting alone or in concert with any person, or a foreign government has unduly impaired access of a vessel documented under the laws of the United States to ocean trade between foreign ports, the Commission shall take action that it finds appropriate, including the imposition of any of the penalties authorized under paragraphs (1), (2), (3), and (4) of this subsection.

(7) Before an order under this subsection becomes effective, it shall be immediately submitted to the President who may, within 10 days after receiving it, disapprove the order if the President finds that disapproval is required for reasons of the national defense or the foreign policy of the United States.

(c) Assessment procedures

Until a matter is referred to the Attorney General, the Commission may, after notice and an opportunity for hearing, assess each civil penalty provided for in this chapter. In determining the amount of the penalty, the Commission shall take into account the nature, circumstances, extent, and gravity of the violation committed and, with respect to the violator, the degree of culpability, history of prior offenses, ability to pay, and such other matters as justice may require. The Commission may compromise, modify, or remit, with or without conditions, any civil penalty.

(d) Review of civil penalty

A person against whom a civil penalty is assessed under this section may obtain review thereof under chapter 158 of title 28.

(e) Failure to pay assessment

If a person fails to pay an assessment of a civil penalty after it has become final or after the appropriate court has entered final judgment in favor of the Commission, the Attorney General at the request of the Commission may seek to recover the amount assessed in an appropriate district court of the United States. In such an action, the court shall enforce the Commission's order unless it finds that the order was not regularly made or duly issued.

(f) Limitations

(1) No penalty may be imposed on any person for conspiracy to violate section 1709(a)(1), (b)(1), or (b)(2) of this Appendix, or to defraud the Commission by concealment of such a violation. Neither the Commission nor any court shall order any person to pay the difference between the amount billed and agreed upon in writing with a common carrier or its agent and the amount set forth in any tariff or service contract by that common carrier for the transportation service provided.

(2) Each proceeding to assess a civil penalty under this section shall be commenced within 5 years from the date the violation occurred.

(Pub. L. 98-237, §13, Mar. 20, 1984, 98 Stat. 82; Pub. L. 105-258, title I, §112, Oct. 14, 1998, 112 Stat. 1911.)

L. 105-258, § 112(a), inserted at end “The amount of any penalty imposed upon a common carrier under this subsection shall constitute a lien upon the vessels operated by that common carrier and any such vessel may be libeled therefore in the district court of the United States for the district in which it may be found.”

Subsec. (b)(1). Pub. L. 105-258, § 112(b)(1), substituted “section 1709(b)(1), (2), or (7)” for “section 1709(b)(1), (2), (3), (4), or (8)”.

§ 1713. Commission orders**(a) In general**

Orders of the Commission relating to a violation of this chapter or a regulation issued thereunder shall be made, upon sworn complaint or on its own motion, only after opportunity for hearing. Each order of the Commission shall continue in force for the period of time specified in the order or until suspended, modified, or set aside by the Commission or a court of competent jurisdiction.

(b) Reversal or suspension of orders

The Commission may reverse, suspend, or modify any order made by it, and upon application of any party to a proceeding may grant a rehearing of the same or any matter determined therein. No rehearing may, except by special order of the Commission, operate as a stay of that order.

(c) Enforcement of nonreparation orders

In case of violation of an order of the Commission, or for failure to comply with a Commission subpoena, the Attorney General, at the request of the Commission, or any party injured by the violation, may seek enforcement by a United States district court having jurisdiction over the parties. If, after hearing, the court determines that the order was properly made and duly issued, it shall enforce the order by an appropriate injunction or other process, mandatory or otherwise.

(d) Enforcement of reparation orders

(1) In case of violation of an order of the Commission for the payment of reparation, the per-

son to whom the award was made may seek enforcement of the order in a United States district court having jurisdiction of the parties.

(2) In a United States district court the findings and order of the Commission shall be prima facie evidence of the facts therein stated, and the petitioner shall not be liable for costs, nor for the costs of any subsequent stage of the proceedings, unless they accrue upon his appeal. A petitioner in a United States district court who prevails shall be allowed reasonable attorney's fees to be assessed and collected as part of the costs of the suit.

(3) All parties in whose favor the Commission has made an award of reparation by a single order may be joined as plaintiffs, and all other parties in the order may be joined as defendants, in a single suit in a district in which any one plaintiff could maintain a suit against any one defendant. Service of process against a defendant not found in that district may be made in a district in which is located any office of, or point of call on a regular route operated by, that defendant. Judgment may be entered in favor of any plaintiff against the defendant liable to that plaintiff.

(e) Statute of limitations

An action seeking enforcement of a Commission order must be filed within 3 years after the date of the violation of the order.

(Pub. L. 98-237, § 14, Mar. 20, 1984, 98 Stat. 83.)

§ 1714. Reports

The Commission may require any common carrier, or any officer, receiver, trustee, lessee, agent, or employee thereof, to file with it any periodical or special report or any account, record, rate, or charge, or memorandum of any facts and transactions appertaining to the business of that common carrier. The report, account, record, rate, charge, or memorandum shall be made under oath whenever the Commission so requires, and shall be furnished in the form and within the time prescribed by the Commission. Subsec. (a). Pub. INTERDICTION PROCEDURES FOR VESSELS OF FOREIGN REGISTRY

Section 2015 of Pub. L. 99-570, as amended by Pub. L. 100-690, title IV, §4802(a)(1), Nov. 18, 1988, 102 Stat. 4294, provided for interdiction procedures for vessels of foreign registry, prior to repeal by Pub. L. 103-447, title I, §103(c), Nov. 2, 1994, 108 Stat. 4694.

§ 1903. Manufacture, distribution, or possession with intent to manufacture or distribute controlled substances on board vessels

(a) Vessels of United States or vessels subject to jurisdiction of United States

It is unlawful for any person on board a vessel of the United States, or on board a vessel subject to the jurisdiction of the United States, or who is a citizen of the United States or a resident alien of the United States on board any vessel, to knowingly or intentionally manufacture or distribute, or to possess with intent to manufacture or distribute, a controlled substance.

(b) “Vessel of the United States” defined

For purposes of this section, a “vessel of the United States” means—

(1) a vessel documented under chapter 121 of title 46 or a vessel numbered as provided in chapter 123 of that title;

(2) a vessel owned in whole or part by—

(A) the United States or a territory, commonwealth, or possession of the United States;

(B) a State or political subdivision thereof;

(C) a citizen or national of the United States; or

(D) a corporation created under the laws of the United States or any State, the District of Columbia, or any territory, commonwealth, or possession of the United States;

unless the vessel has been granted the nationality of a foreign nation in accordance with article 5 of the 1958 Convention on the High Seas and a claim of nationality or registry for the vessel is made by the master or individual in charge at the time of the enforcement action by an officer or employee of the United States authorized to enforce applicable provisions of United States law; and

(3) a vessel that was once documented under the laws of the United States and, in violation of the laws of the United States, was either sold to a person not a citizen of the United States or placed under foreign registry or a foreign flag, whether or not the vessel has been granted the nationality of a foreign nation.

(c) “Vessel subject to the jurisdiction of the United States” and “vessel without nationality” defined; claim of nationality or registry

(1) For purposes of this section, a “vessel subject to the jurisdiction of the United States” includes—

(A) a vessel without nationality;

(B) a vessel assimilated to a vessel without nationality, in accordance with paragraph (2) of article 6 of the 1958 Convention on the High Seas;

(C) a vessel registered in a foreign nation where the flag nation has consented or waived objection to the enforcement of United States law by the United States;

(D) a vessel located within the customs waters of the United States;

(E) a vessel located in the territorial waters of another nation, where the nation consents to the enforcement of United States law by the United States; and

(F) a vessel located in the contiguous zone of the United States, as defined in Presidential Proclamation 7219 of September 2, 1999, and (i) is entering the United States, (ii) has departed the United States, or (iii) is a hovering vessel as defined in section 1401 of title 19.

Consent or waiver of objection by a foreign nation to the enforcement of United States law by the United States under subparagraph (C) or (E) of this paragraph may be obtained by radio, telephone, or similar oral or electronic means, and is conclusively proved by certification of the Secretary of State or the Secretary’s designee.

(2) For purposes of this section, a “vessel without nationality” includes—

(A) a vessel aboard which the master or person in charge makes a claim of registry, which claim is denied by the flag nation whose registry is claimed;

(B) any vessel aboard which the master or person in charge fails, upon request of an officer of the United States empowered to enforce applicable provisions of United States law, to make a claim of nationality or registry for that vessel; and

(C) a vessel aboard which the master or person in charge makes a claim of registry and the claimed nation of registry does not affirmatively and unequivocally assert that the vessel is of its nationality.

A claim of registry under subparagraph (A) or (C) may be verified or denied by radio, telephone, or similar oral or electronic means. The denial of such claim of registry by the claimed flag nation is conclusively proved by certification of the Secretary of State or the Secretary’s designee.

(3) For purposes of this section, a claim of nationality or registry only includes:

(A) possession on board the vessel and production of documents evidencing the vessel’s nationality in accordance with article 5 of the 1958 Convention on the High Seas;

(B) flying its flag nation’s ensign or flag; or

(C) a verbal claim of nationality or registry by the master or person in charge of the vessel.

(d) Claim of failure to comply with international law; standing; jurisdiction of court

Any person charged with a violation of this section shall not have standing to raise the claim of failure to comply with international law as a basis for a defense. A claim of failure to comply with international law in the enforcement of this chapter may be invoked solely by a foreign nation, and a failure to comply with international law shall not divest a court of jurisdiction or otherwise constitute a defense to any proceeding under this chapter.

(e) Exception; burden of proof

This section does not apply to a common or contract carrier or an employee thereof, who possesses or distributes a controlled substance in the lawful and usual course of the carrier’s business or to a public vessel of the United States, or any person on board such a vessel who possesses or distributes a controlled substance in the lawful course of such person’s duties, if

the controlled substance is a part of the cargo entered in the vessel's manifest and is intended to be lawfully imported into the country of destination for scientific, medical, or other legitimate purposes. It shall not be necessary for the United States to negate the exception set forth in this subsection in any complaint, information, indictment, or other pleading or in any trial or other proceeding. The burden of going forward with the evidence with respect to this exception is upon the person claiming its benefit.

(f) Jurisdiction and venue

Any person who violates this section shall be tried in the United States district court at the point of entry where that person enters the United States, or in the United States District Court of the District of Columbia. Jurisdiction of the United States with respect to vessels subject to this chapter is not an element of any offense. All jurisdictional issues arising under this chapter are preliminary questions of law to be determined solely by the trial judge.

(g) Penalties

(1) Any person who commits an offense defined in this section shall be punished in accordance with the penalties set forth in section 1010 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 960).

(2) Notwithstanding paragraph (1) of this subsection, any person convicted of an offense under this chapter shall be punished in accordance with the penalties set forth in section 1012 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 962) if such offense is a second or subsequent offense as defined in section 1012(b) of that Act.

(h) Extension beyond territorial jurisdiction of United States

This section is intended to reach acts of possession, manufacture, or distribution committed outside the territorial jurisdiction of the United States.

(i) Definitions of drug abuse terms

The definitions in the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 802) apply to terms used in this chapter.

(j) Attempt or conspiracy to commit offense

Any person who attempts or conspires to commit any offense defined in this chapter shall be subject to the same penalties as those prescribed for the offense, the commission of which was the object of the attempt or conspiracy.

§ 1904. Seizure or forfeiture of property

(a) Any property described in section 881(a) of title 21 that is used or intended for use to commit, or to facilitate the commission of, an offense under this chapter shall be subject to seizure and forfeiture in the same manner as similar property seized or forfeited under section 881 of title 21.

(b) Practices commonly recognized as smuggling tactics may provide prima facie evidence of intent to use a vessel to commit, or to facilitate the commission of, an offense under this chapter, and may support seizure and forfeiture of the vessel, even in the absence of controlled substances aboard the vessel. The following indicia, among others, may be considered, in the totality of the circumstances, to be prima facie evidence that a vessel is intended to be used to commit, or to facilitate the commission of an offense under this chapter:

(1) The construction or adaptation of the vessel in a manner that facilitates smuggling, including—

(A) the configuration of the vessel to ride low in the water or present a low hull profile to avoid being detected visually or by radar;

(B) the presence of any compartment or equipment which is built or fitted out for smuggling, not including items such as a safe or lock-box reasonably used for the storage of personal valuables;

(C) the presence of an auxiliary tank not installed in accordance with applicable law or installed in such a manner as to enhance the vessel's smuggling capability;

(D) the presence of engines that are excessively over-powered in relation to the design and size of the vessel;

(E) the presence of materials used to reduce or alter the heat or radar signature of the vessel and avoid detection;

(F) the presence of a camouflaging paint scheme, or of materials used to camouflage the vessel, to avoid detection; or

(G) the display of false vessel registration numbers, false indicia of vessel nationality, false vessel name, or false vessel homeport.

(2) The presence or absence of equipment, personnel, or cargo inconsistent with the type or declared purpose of the vessel.

(3) The presence of excessive fuel, lube oil, food, water, or spare parts, inconsistent with legitimate vessel operation, inconsistent with the construction or equipment of the vessel, or inconsistent with the character of the vessel's stated purpose.

(4) The operation of the vessel without lights during times lights are required to be displayed under applicable law or regulation and in a manner of navigation consistent with smuggling tactics used to avoid detection by law enforcement authorities.

(5) The failure of the vessel to stop or respond or heave to when hailed by government authority, especially where the vessel conducts evasive maneuvering when hailed.

(6) The declaration to government authority of apparently false information about the vessel, crew, or voyage or the failure to identify the vessel by name or country of registration when requested to do so by government authority.

(7) The presence of controlled substance residue on the vessel, on an item aboard the vessel, or on a person aboard the vessel, of a quantity or other nature which reasonably indicates manufacturing or distribution activity.

(8) The use of petroleum products or other substances on the vessel to foil the detection of controlled substance residue.

(9) The presence of a controlled substance in the water in the vicinity of the vessel, where given the currents, weather conditions, and course and speed of the vessel, the quantity or other nature is such that it reasonably indicates manufacturing or distribution activity.
