		Total Applicants reporting addresses in an MSA		1,291,779	729

- Ranking = based on the number of FEMA individual assistance (IA) applicants living in a U.S. Census Bureau Metropolitan Statistical Area (MSA).
- One month change is based on the difference between applicant data from 5/31/07 and 4/27/07
- The United States Office of Management and Budget (OMB) defines a metropolitan statistical area as a core geographic area containing a substantial population nucleus, together with adjacent communities having a high degree of economic and social integration with that core. Each metropolitan statistical area must have at least one urbanized area of 50,000 or more inhabitants.
- CBSA = U.S. Census code for Metropolitan Statistical Area
- * State = the first state in a multi-state Metropolitan Statistical Area
- Data provided by FEMA Recovery Division from registration intake reports showing last known mailing address of IA applicants, as reported by the applicant. The figures are based on the best available data.
- There may be more than one spelling for any county, city or state abbreviation entered; incorrect spellings will not be included in this report.
- This report will not list applicants whose damaged state is different then the declared state.
- The report will include all other Non-registrants, i.e. undesignated counties, damages out of incident period, invalid incident damage type, and applied after registration deadline.
- This report will include applicants with more than one registration (duplicates).
