List of Commissioners.....	i
Signature Page.....	ii

Volume I: Recommendations

A Call to Action	1
Introduction.....	2
The Consequences of Inaction	3
Future Surface Transportation Investment Requirements	5
A New Beginning.....	7
Recommendations to Reform Institutions and Programs.....	9
Overview	10
Speeding Project Delivery	11
Advancing the Federal Interest: 10 Programs	15
Interaction Among the Programs	32
Role of an Independent Commission.....	33
Relationship to Performance and Accountability.....	36
Transition to the New Programs	37
Recommendations for Paying the Bill.....	38
Immediate Options for Keeping the Highway Trust Fund Solvent.....	39
Surface Transportation Finance Through 2025: Increasing Federal Revenues	40
Surface Transportation Finance Through 2025: Remove the Barriers to Options for Increasing State and Local Revenues Over the Next 20 Years	44
Surface Transportation Finance Beyond 2025: Long-Term Federal and State Revenue Options	51
Conclusion.....	54
Supplemental Views of Commissioner Francis X. McArdle	55
Supplemental Views of Commissioner Matthew K. Rose	57
Minority Views of Secretary Mary Peters, Commission Chair; Commissioner Maria Cino; and Commissioner Rick Geddes	59

Volume II

Chapter 1: Why Was This Commission Created?	1-1
Congressional Mandate	1-1
How Did the Commission Satisfy This Mandate?.....	1-2
Why is Transportation Important?.....	1-3
Making Goods More Convenient and Accessible	1-4
Improving International Competitiveness	1-4
Developing Markets Within the United States.....	1-5
Enhancing Personal Mobility	1-6
Determining the Nation’s Energy Use.....	1-7
Impacting Health and Safety.....	1-8
<hr/>	
Chapter 2: What Are the Future Demands on the Surface Transportation System?.....	2-1
Current Use of the System.....	2-2
Critical Factors Influencing Future Passenger Travel Demand.....	2-3
Future Population Growth.....	2-4
Income Growth	2-5
Land Use	2-6
Demographic Considerations	2-8
Critical Factors Influencing Future Demand for Freight Movement	2-10
International Trade	2-11
Commodities and Freight Movement	2-13
Operational Efficiency Improvements.....	2-14
Changes in Business Practices	2-14
User Costs and Transportation Demand.....	2-15
Forecasts of Future Travel Demand.....	2-16

Table of Contents, continued

Chapter 3: How Does Our System Function Today?	3-1
The Elements of the Nation's Surface Transportation System	3-2
Highways.....	3-2
Public Transit.....	3-4
Intercity Passenger Rail	3-6
Freight Rail.....	3-7
Ports and Waterways.....	3-8
Challenges Facing the Nation's Infrastructure	3-10
Age and Deterioration	3-11
Crippling Levels of Congestion.....	3-13
Too Many Injuries and Deaths.....	3-15
Moving Beyond Oil and Protecting the Environment	3-18
Planning for 120 Million More Americans	3-21
<hr/>	
Chapter 4: What Are the Long-Term Capital Investment Needs of the System?	4-1
Observations	4-3
Highway and Bridge Findings	4-3
Implications of Sustaining Current Levels of Highway Investment	4-3
Investments to Maintain and Improve Highways.....	4-6
Investments in Subsets of the Highway System	4-8
Investments in Bridges.....	4-9
Transit Findings	4-10
Implications of Sustaining Current Levels of Transit Investment.....	4-10
Investments to Maintain and Improve Transit.....	4-11
Freight Rail Findings.....	4-13
Investments to Improve Freight Rail While Sustaining Current Market Share Through 2035.....	4-14
Investments to Improve Freight Rail While Accommodating a Rising Market Share Through 2035.....	4-16
Investments to Improve Freight Rail Through 2055.....	4-18

Table of Contents, continued

Passenger Rail Findings	4-19
Summary of Findings: All Modes	4-24

Chapter 5: What Revenue Sources Are Available for Financing Surface Transportation Improvements?	5-1
Current Surface Transportation Revenue Sources	5-1
Highways.....	5-1
Transit	5-8
Freight Rail.....	5-9
Passenger Rail	5-10
Ports and Waterways.....	5-11
Future Surface Transportation System Financing Issues	5-12
Keeping the Highway Trust Fund Solvent.....	5-12
Surface Transportation Finance Through 2025.....	5-13
Alternative Federal Transportation Revenue Sources	5-17
Alternative State and Local Revenue Sources.....	5-24
Evaluation of Alternative Transportation Revenue Sources	5-31
Long-Term Revenue Sources	5-31
Mileage-Based Fee	5-33
Development of Transition Strategy	5-36

Chapter 6: Are Program and Institutional Reforms Instrumental to Achieving Our National Vision?	6-1
What Are the Barriers to Quality Transportation Facilities and Effective System Operation?	6-1
Lack of National Program Focus.....	6-2
Ineffective Investment Decisions.....	6-4
Streamlining Project Development Processes.....	6-8
What Reforms Could Address Problems in the Project Development Processes?.....	6-13

Table of Contents, continued

Program Redesign and a National Commission.....	6-14
Interaction Among the Programs	6-28
Role of an Independent Commission.....	6-29
Relationship to Performance and Accountability.....	6-31
Transition to the New Programs	6-32

List of Exhibits

Exhibit 2-1.	Passenger miles by mode	2-2
Exhibit 2-2.	Freight movement by different modes	2-2
Exhibit 2-3.	Projected population growth by state, 2000–2030	2-5
Exhibit 2-4.	Emerging megaregions in the U.S.	2-7
Exhibit 2-5.	Impact of population density on per capita VMT	2-7
Exhibit 2-6.	Population age distribution and travel behavior in the U.S.	2-9
Exhibit 2-7.	Immigrant travel behavior mode use by years in the U.S.	2-10
Exhibit 2-8.	U.S. exports and imports as a share of GDP.....	2-11
Exhibit 2-9.	Projected growth in container imports to the U.S. merchandise trade by export region, 2000–2015.....	2-12
Exhibit 2-10.	Projected growth in container shipments to U.S. ports, 2004–2020.....	2-13
Exhibit 2-11.	Gasoline prices in the U.S., 1978–2030	2-15
<hr/>		
Exhibit 3-1.	Average daily traffic volumes on the Interstate Highway System	3-4
Exhibit 3-2.	Cities with rail transit systems in 2007	3-5
Exhibit 3-3.	Existing intercity passenger rail network.....	3-7
Exhibit 3-4.	The U.S. freight rail network.....	3-8
Exhibit 3-5.	Train traffic on the U.S. freight rail network.....	3-9
Exhibit 3-6.	The inland waterway system in the United States	3-11
Exhibit 3-7.	Congested urban areas.....	3-14
Exhibit 3-8.	Levels of service on the U.S. freight rail network in 2006.....	3-15
Exhibit 3-9.	Highway fatality rates in the United States, 1975–2006	3-16
Exhibit 3-10.	Fatalities and injuries in motor vehicle crashes in the United States, 1988–2006.....	3-17
Exhibit 3-11.	Annual petroleum production, imports, and consumption in the United States, 1949–2006	3-19
Exhibit 3-12.	U.S. carbon emissions from fossil energy consumption by end-use sector in 2005...	3-19
Exhibit 3-13.	Energy intensity for different passenger transportation modes	3-20
Exhibit 3-14.	Energy intensity for freight transportation modes.....	3-21
Exhibit 3-15.	Nonattainment areas for air quality in the United States: 8-hour ozone standard and PM2.5 standard.....	3-22

Exhibit 3-11.	Annual petroleum production, imports, and consumption in the United States, 1949–2006	3-19
Exhibit 3-12.	U.S. carbon emissions from fossil energy consumption by end-use sector in 2005...	3-19
Exhibit 3-13.	Energy intensity for different passenger transportation modes	3-20
Exhibit 3-14.	Energy intensity for freight transportation modes.....	3-21
Exhibit 3-15.	Nonattainment areas for air quality in the United States: 8-hour ozone standard and PM2.5 standard.....	3-22

List of Exhibits, continued

Exhibit 4-1.	Projected average and total highway delay, base case—assuming current funding	4-4
Exhibit 4-2.	Projected ride quality, base case—assuming current funding	4-4
Exhibit 4-3.	Estimated impacts of alternative highway capital investment levels.....	4-6
Exhibit 4-4.	Projected average delay per 1000 VMT on urban principal arterials	4-7
Exhibit 4-5.	Projected percent of VMT on pavements with acceptable ride quality.....	4-8
Exhibit 4-6.	Average annual highway capital investment (billions of dollars).....	4-9
Exhibit 4-7.	Transit ridership, base case—assuming current funding.....	4-10
Exhibit 4-8.	Projected transit market share, base case—assuming current funding	4-10
Exhibit 4-9.	Estimated impacts of alternative transit capital investment levels.....	4-12
Exhibit 4-10.	Alternative projections of future transit passenger trips.....	4-13
Exhibit 4-11.	Alternative projections of future transit market share	4-13
Exhibit 4-12.	Freight rail level of service grades.....	4-14
Exhibit 4-13.	Projected 2035 train volumes compared to current train capacity.....	4-15
Exhibit 4-14.	Projected 2035 train volumes compared to potential 2035 train capacity, assuming expansion to system	4-16
Exhibit 4-15.	Impact of market share on annual freight rail investment requirements.....	4-17
Exhibit 4-16.	Freight rail capital investment requirements	4-18
Exhibit 4-17.	Estimated intercity passenger rail costs and travel.....	4-21
Exhibit 4-18.	Projected future passenger rail market share	4-21
Exhibit 4-19.	PRWG proposed 2015 intercity passenger rail network.....	4-22
Exhibit 4-20.	PRWG proposed 2030 intercity passenger rail network.....	4-23
Exhibit 4-21.	PRWG proposed 2050 intercity passenger rail network.....	4-24
Exhibit 4-22.	Summary of range of “high” average annual capital investment levels analyzed for all modes	4-26
Exhibit 4-23.	Capital improvement type distribution for \$220 billion of average annual investments through 2035.....	4-27

Exhibit 5-1.	Highway revenue by level of government	5-2
Exhibit 5-2.	2005 revenues used for highways (by collecting agencies) in millions and percent	5-2
Exhibit 5-3.	Taxes supporting the Highway Trust Fund	5-3

List of Exhibits, continued

Exhibit 4-1.	Projected average and total highway delay, base case—assuming current funding	4-4
Exhibit 4-2.	Projected ride quality, base case—assuming current funding	4-4
Exhibit 4-3.	Estimated impacts of alternative highway capital investment levels.....	4-6
Exhibit 4-4.	Projected average delay per 1000 VMT on urban principal arterials	4-7

Exhibit 4-13.	Projected 2035 train volumes compared to current train capacity.....	4-15
Exhibit 4-14.	Projected 2035 train volumes compared to potential 2035 train capacity, assuming expansion to system	4-16
Exhibit 4-15.	Impact of market share on annual freight rail investment requirements.....	4-17
Exhibit 4-16.	Freight rail capital investment requirements	4-18
Exhibit 4-17.	Estimated intercity passenger rail costs and travel.....	4-21
Exhibit 4-18.	Projected future passenger rail market share	4-21
Exhibit 4-19.	PRWG proposed 2015 intercity passenger rail network.....	4-22
Exhibit 4-20.	PRWG proposed 2030 intercity passenger rail network.....	4-23
Exhibit 4-21.	PRWG proposed 2050 intercity passenger rail network.....	4-24
Exhibit 4-22.	Summary of range of “high” average annual capital investment levels analyzed for all modes	4-26
Exhibit 4-23.	Capital improvement type distribution for \$220 billion of average annual investments through 2035.....	4-27

Exhibit 5-1.	Highway revenue by level of government	5-2
Exhibit 5-2.	2005 revenues used for highways (by collecting agencies) in millions and percent	5-2
Exhibit 5-3.	Taxes supporting the Highway Trust Fund	5-3

List of Exhibits, continued

Exhibit 5-4.	Change in Highway Trust Fund revenues in constant 1993 dollars.....	5-4
Exhibit 5-5.	Federal gasoline tax rates	5-5
Exhibit 5-6.	Federal, State, and local highway revenue, 1980–2005	5-5
Exhibit 5-7.	Motor fuel excise tax rates, January 1, 2007	5-6
Exhibit 5-8.	2005 revenues used for transit (by collecting agencies) in millions and percent	5-8
Exhibit 5-9.	Federal, State, and local agency transit revenue, 1993–2005.....	5-9
Exhibit 5-10.	Distribution of transit revenues, 1993–2005	5-9
Exhibit 5-11.	Amtrak revenue sources.....	5-10
Exhibit 5-12.	Revenues to finance U.S. port improvements, 2001–2005 (thousands of dollars)....	5-11
Exhibit 5-13.	Projections of Highway and Transit Account balances through 2012.....	5-12
Exhibit 5-14.	Projections of Highway Trust Fund revenue, 2007–2020	5-14
Exhibit 5-15.	Projections of highway and transit revenues, 2007–2017	5-15
Exhibit 5-16.	Capital investment and income for Class I Railroads, 1981–2006.....	5-17
Exhibit 5-17.	Revenue generating estimates for different funding mechanisms	5-20
Exhibit 5-18.	States with toll facilities	5-26
Exhibit 5-19.	States having PPP enabling legislation.....	5-29
Exhibit 5-20.	Evaluation of potential transportation revenue sources against generally accepted evaluation criteria.....	5-38
Exhibit 5-21.	Advantages and disadvantages of alternative revenue sources	5-39
<hr/>		
Exhibit 6-1.	Highway and transit programs in SAFETEA-LU	6-2
Exhibit 6-2.	Evolving history of highway earmark projects.....	6-5
Exhibit 6-3.	Environmental impact statement processing time.....	6-8
Exhibit 6-4.	Time to complete the New Starts process	6-9
Exhibit 6-5.	Highway and street construction costs, 1997–2007.....	6-9
Exhibit 6-6.	Impacts of project delays on construction costs	6-10
Exhibit 6-7.	Typical transportation project development process	6-11
Exhibit 6-8.	Refocusing the Federal Program structure	6-14
Exhibit 6-9.	Metropolitan areas over 1 million in population share of U.S. totals for selected characteristics	6-18
Exhibit 6-10.	Process Overview: Implementation of a new strategic direction for transportation.....	6-29
<hr/>		

List of Abbreviations

AAR	Association of American Railroads
AASHTO	American Association of State Highway and Transportation Officials
APTA	American Public Transportation Association
BCA	Benefit-Cost Analysis
BPI	Bid Price Index
BRAC	Base Realignment and Closure Commission
CEQ	Council on Environmental Quality
CPI-U	Consumer Price Index for All Urban Consumers
EIS	Environmental Impact Statement
FAF	Freight Analysis Framework
FEU	Forty-Foot Equivalent Unit
FHWA	Federal Highway Administration
FLHP	Federal Lands Highway Program
FRA	Federal Railroad Administration
FTA	Federal Transit Administration
GAO	Government Accountability Office
GDP	Gross Domestic Product
GPS	Global Positioning System
GSM	Global System for Mobile Communications
HERS	Highway Economic Requirements System
HOT	High-Occupancy Toll
HTF	Highway Trust Fund
HVUT	Heavy Vehicle Use Tax
ISTEA	Intermodal Surface Transportation Efficiency Act
ITS	Intelligent Transportation System
IWTF	Inland Waterways Trust Fund
JIT	Just-in-Time

List of Abbreviations, continued

LOS	Level of Service
MPO	Metropolitan Planning Organization
NAFTA	North American Free Trade Agreement
NASTRAC	National Surface Transportation Commission
NBIAS	National Bridge Investment Analysis System
NCHRP	National Cooperative Highway Research Program
NEPA	National Environmental Policy Act
NHS	National Highway System
O&M	Operating and Maintenance
PAB	Private Activity Bond Program
PFC	Passenger Facility Charge
PMT	Passenger Mile of Travel
PNRS	Project of National and Regional Significance
PPP	Public-Private Partnership
PRC	Postal Regulatory Commission
PRWG	Passenger Rail Working Group
PUC	Public Utility Commission
RD&T	Research, Development, and Technology
RMA	Regional Mobility Authority
RRIF	Railroad Rehabilitation and Improvement Financing Program
SAFETEA-LU	Safe, Accountable, Flexible, Efficient Transportation Equity Act—A Legacy for Users
SCAG	Southern California Association of Governments
SOV	Single Occupant Vehicle
STAA	Surface Transportation Assistance Act
STTF	Surface Transportation Trust Fund
STURAA	Surface Transportation and Uniform Relocation Assistance Act
TEA-21	Transportation Equity Act for the 21st Century

List of Abbreviations, continued

TERM	Transit Economic Requirements Model
TEU	Twenty-Foot Equivalent Unit
TIFIA	Transportation Infrastructure Finance and Innovation Act
TRB	Transportation Research Board
USDOT	U.S. Department of Transportation
VII	Vehicle Infrastructure Integration
VMT	Vehicle Mile of Travel
