

DISSOLVED GAS ABATEMENT STUDY - PHASE II FINAL INDEX PAGE

This report is presented in a number of different pdf files. You can click on the file names below to view the different sections of the report. Once you are done viewing a section of the report, click on "Return to Index Page" to get back to this index file.

REPORT

DGAS Table of Contents

Executive Summary

Section 1 - Introduction

Section 2 - Background

**Section 3 - The TDG Processes of the Lower Snake River and
Columbia River Systems**

Section 4 - Site Characteristics

Section 5 - Gas Abatement Alternative Criteria

Section 6 - Operational TDG Management Alternatives

Section 7 - Category One Alternatives

Section 8 - Category Two Alternatives

Section 9 - Selection of Alternatives for System-Wide Evaluation

Section 10 - System Alternatives Evaluation

Section 11 - Summary and Conclusions

Section 12 - References

PLATES

**DISSOLVED GAS ABATEMENT STUDY - PHASE II FINAL
INDEX PAGE (continued)**

APPENDIXES

- Appendix A - Acronyms**
- Appendix B - Hydrology**
- Appendix C - Biological Research**
- Appendix D - Cost Estimates for Alternatives**
- Appendix E - Correspondence**
- Appendix F - Data Report of Total Dissolved Gas Field Data
Collection on the Snake and Columbia Rivers**
- Appendix G - Spillway Discharge Production of Total
Dissolved Gas Pressure**
- Appendix H - Evaluation Tools**
