U.S. Army Corps of Engineers to close Airport Beach Park at Waco Lake

FORT WORTH, Texas – The U.S. Army Corps of Engineers at Waco Lake will be closing Airport Beach Park and Flat Rock Boat Ramp until further notice.

The closure is necessary due to reduced winter visitation, declining lake levels which have rendered the boat ramp and beach areas unusable and a potential safety hazard.

Twin Bridges Park beaches and group shelter remain open, and accessible Corps boat ramps at Waco Lake currently include Koehne Park, Midway Park, Reynolds Creek Park, Lacy Point Access Area, and Speegleville Park. Of these, only Speegleville Park has an operating courtesy dock until lake levels rise.

Questions or comments concerning the closure may be addressed to the Waco Lake Project Office at 254-756-5359.
