

FY2009 Forecast for the Baltimore District Corps of Engineers

The Baltimore District Corps of Engineers presents the following forecast for fiscal year 2009. This is for informational purposes and is a snapshot of our planned acquisitions for this year at the time of publication. These requirements may or may not be executed and are contingent upon funding, real estate, and other factors that affect the requirements.

Advertising and award dates provided are approximate only and all acquisitions will be advertised via Federal Business Opportunities (www.fedbizopps.gov).

This list does not include work that will be executed under existing contracts. For subcontracting opportunities via these contracts, please see our “Existing IDIQ” list on our website (<http://www.nab.usace.army.mil/contracts/idtc.pdf>).

All acquisition strategies noted are subject to change based on market research and as the requirements are further definitized. If an acquisition is listed as “SBSA” it means the requirement will be set aside for small business, but the small business category has not been determined at the time of publication.
