U.S. Army Corps of Engineers, New York District releases new phone numbers

The U.S. Army Corps of Engineers, New York District, is installing a new telephone system designed to save taxpayer dollars and enhance customer service.

Old telephone numbers, using the 212 area code and 264 exchange, will remain active until March 31.

New telephone numbers for the District's main offices appear on the web site

<http://www.nan.usace.army.mil>.

These individual office listings will also appear in the next published telephone directory.

The new telephone number for the Public Affairs office is 917.790.8007.

The new telephone number for the Executive Office is 917.790.8001.

District telecommunications officials estimate the cost savings of the new digital system at more than \$150,000 annually over the old analog system.
