

# **CHARTBOOK: MEDICAID PHARMACY BENEFIT USE AND REIMBURSEMENT IN 2003**

## **INTRODUCTION AND OVERVIEW**

This chartbook, prepared for the Centers for Medicare & Medicaid Services (CMS) by Mathematica Policy Research, Inc., presents highlights and key comparisons from the Statistical Compendium on Medicaid pharmacy benefit use and reimbursement in 2003. The 54 exhibits in the chartbook are summarized below.

### **Beneficiary Characteristics and Illustrative Use and Reimbursement Measures**

- Exhibit 1: Distribution of Medicaid Study Population Beneficiary Characteristics
- Exhibit 2: Illustrative Measures for Study Population Pharmacy Benefit Use and Reimbursement

### **Study Population Characteristics**

- Exhibit 3: Distribution of Medicaid Study Population by Age Group, Nondual and Dual Eligible Beneficiaries
- Exhibit 4: Distribution of Medicaid Study Population by Disability Status, Nondual and Dual Eligible Beneficiaries
- Exhibit 5: Distribution of Medicaid Study Population by Race, Nondual and Dual Eligible Beneficiaries

### **Medicaid Pharmacy Reimbursement and Use, by Type of Beneficiary**

- Exhibit 6: Average Monthly Medicaid Pharmacy Reimbursement, by Age Group
- Exhibit 7: Distribution of Age Groups and Total Pharmacy Reimbursement
- Exhibit 8: Average Monthly Medicaid Pharmacy Reimbursement, by Basis of Eligibility and Dual Status
- Exhibit 9: Percentage of Beneficiaries with at Least One Prescription Drug Claim, by Dual Eligibility Status
- Exhibit 10: Average Annual Number of Prescription Drug Claims per Beneficiary, by Dual Eligibility Status
- Exhibit 11: Number of Prescriptions per Benefit Month, by Basis of Eligibility and Dual Eligibility Status
- Exhibit 12: Average Annual Prescription Drug Spending per Beneficiary, by Dual Eligibility Status
- Exhibit 13: Distribution of Dual Eligibility Status and Total Pharmacy Reimbursement

### **Medicaid Pharmacy Use and Reimbursement, Nondual Beneficiaries**

- Exhibit 14: Distribution of Beneficiaries and Total Pharmacy Reimbursement among Nondual Beneficiaries, by Basis of Eligibility
- Exhibit 15: Total Annual Medicaid Reimbursement for Top 10 Drug Groups among Nondual Beneficiaries
- Exhibit 16: Percentage of Pharmacy Reimbursement and Users for Top 10 Drug Groups among Nondual Beneficiaries
- Exhibit 17: Percentage of Pharmacy Reimbursement and Users for Top 7 Therapeutic Categories among Nondual Beneficiaries

- Exhibit 18: Average Monthly Medicaid Pharmacy Reimbursement among Nondual Beneficiaries, by State
- Exhibit 19: Generic Prescriptions as Percentage of All Prescriptions among Nondual Beneficiaries, by State

### **Medicaid Pharmacy Use and Reimbursement, Dual Eligible Beneficiaries**

- Exhibit 20: Distribution of Beneficiaries and Total Pharmacy Reimbursement among Dual Eligibles, by Basis of Eligibility
- Exhibit 21: Total Annual Medicaid Reimbursement for Top 10 Drug Groups among Dual Eligibles
- Exhibit 22: Percentage of Pharmacy Reimbursement and Users for Top 10 Drug Groups Among Dual Eligibles
- Exhibit 23: Percentage of Pharmacy Reimbursement and Users for Top 7 Therapeutic Categories among Dual Eligibles
- Exhibit 24: Distribution of Annual Pharmacy Reimbursement for Dual Eligibles, Under-Age-65 Disabled vs. Age 65 and Older
- Exhibit 25: Average Monthly Medicaid Pharmacy Reimbursement among Dual Eligibles, by Beneficiary Nursing Facility Residence
- Exhibit 26: Average Monthly Medicaid Pharmacy Reimbursement among Dual Eligibles, by State
- Exhibit 27: Generic Prescriptions as a Percentage of All Prescriptions among Dual Eligibles, by State
- Exhibit 28: Average Annual Pharmacy Reimbursement Amount per Beneficiary for Aged Dual Eligibles, by State
- Exhibit 29: Average Annual Pharmacy Reimbursement Amount per Beneficiary for Under-Age-65 Disabled Dual Eligible Beneficiaries, by State
- Exhibit 30: Average Annual Pharmacy Reimbursement Amount per Beneficiary for Dual Eligible All-Year Nursing Facility Residents, by State

### **Medicaid Pharmacy Use and Reimbursement, Drugs Excluded by Statute from Medicare Part D**

- Exhibit 31: Percentage of Medicaid Beneficiaries Using at Least One Drug Excluded from Medicare Part D
- Exhibit 32: Annual Medicaid Pharmacy Reimbursement for Drugs Excluded from Medicare Part D, Nondual and Dual Eligible Beneficiaries
- Exhibit 33: Annual Medicaid Pharmacy Reimbursement for Drugs Excluded from Medicare Part D for Nondual and Dual Eligible Beneficiaries as a Percentage of Total Annual Medicaid Reimbursement for Nondual and Dual Eligible Beneficiaries

### **Medicaid Pharmacy Use and Reimbursement, 1999, 2001, 2002, and 2003**

#### ***Overview***

- Exhibit 34: Total Pharmacy Reimbursement, 1999, 2000, 2001, and 2003
- Exhibit 35: Pharmacy Reimbursement as a Percentage of Costs on All Services, 1999, 2001, 2002, and 2003
- Exhibit 36: Average Annual Prescription Drug Reimbursement per Medicaid Beneficiary, Nondual Beneficiaries and Dual Eligibles 1999, 2001, 2002, and 2003
- Exhibit 37: Average Monthly Pharmacy Reimbursement per Beneficiary, Nondual Beneficiaries and Dual Eligibles 1999, 2001, 2002, and 2003
- Exhibit 38: Percentage of Beneficiaries with at Least One Prescription Filled, Nondual Beneficiaries and Dual Eligibles 1999, 2001, 2002, and 2003
- Exhibit 39: Average Annual Number of Prescription Claims per Medicaid Beneficiary, Nondual Beneficiaries and Dual Eligibles 1999, 2001, 2002, and 2003

Exhibit 40: Brand Name and Generic Drugs as a Percentage of All Claims, 1999, 2001, 2002, and 2003

***By Basis of Eligibility***

Exhibit 41: Number of Medicaid Beneficiaries by Basis of Eligibility, 1999, 2001, 2002, and 2003

Exhibit 42: Average Monthly Medicaid Pharmacy Reimbursement by Basis of Eligibility, 1999, 2001, 2002, and 2003

***Nondual Beneficiaries***

Exhibit 43: Number of Nondual Medicaid Beneficiaries by Basis of Eligibility, 1999, 2001, 2002, and 2003

Exhibit 44: Average Annual Number of Prescription Claims by Basis of Eligibility, Nondual Beneficiaries, 1999, 2001, 2002, and 2003

Exhibit 45: Average Annual Prescription Reimbursement by Basis of Eligibility, Nondual Beneficiaries, 1999, 2001, 2002, and 2003

Exhibit 46: Average Monthly Prescription Reimbursement by Basis of Eligibility, Nondual Beneficiaries, 1999, 2001, 2002, and 2003

***Dual Eligible Beneficiaries***

Exhibit 47: Number of Dual Medicaid Beneficiaries by Basis of Eligibility, 1999, 2001, 2002, and 2003

Exhibit 48: Average Annual Number of Prescription Claims by Basis of Eligibility, Dual Eligible Beneficiaries, 1999, 2001, 2002, and 2003

Exhibit 49: Average Annual Prescription Reimbursement by Basis of Eligibility, Dual Eligible Beneficiaries, 1999, 2001, 2002, and 2003

Exhibit 50: Average Monthly Prescription Reimbursement by Basis of Eligibility, Dual Eligible Beneficiaries, 1999, 2001, 2002, and 2003

Exhibit 51: Average Annual Drug Reimbursement Among Dual Eligible Beneficiaries by Age Group and Disability Status, 1999, 2001, 2002, and 2003

Exhibit 52: Percentage of Dual Eligible Beneficiaries with Annual Drug Costs in Specified Ranges, 1999, 2001, 2002, and 2003

Exhibit 53: Number of Dual Eligible Full-Year Nursing Facility Residents and Under-Age-65 Disabled Dual Eligible Beneficiaries Compared to All Duals, 1999, 2001, 2002, and 2003

Exhibit 54: Average Monthly Medicaid Pharmacy Reimbursement for Dual Eligible Full-Year Nursing Facility Residents and Under-Age-65 Disabled Dual Eligible Beneficiaries Compared to All Duals, 1999, 2001, 2002, and 2003

**BENEFICIARY CHARACTERISTICS AND ILLUSTRATIVE USE  
AND REIMBURSEMENT MEASURES**

**EXHIBIT 1**

**DISTRIBUTION OF MEDICAID STUDY POPULATION  
BENEFICIARY CHARACTERISTICS, 2003**

Beneficiary Characteristics	Percent of Beneficiaries

Source: Medicaid Analytic Extract (MAX), 2003. This table is based on information contained in Tables 2, ND.2, D.2, ND.8, and D.8 in the Statistical Compendium Volume, United States (hereafter “the Compendium”).

<sup>a</sup>Medicaid beneficiaries featured in this chartbook include those who had fee-for-service (FFS) Medicaid pharmacy benefit coverage for at least one month during calendar year 2003. Beneficiaries who were in capitated managed care arrangements for the entire year are excluded. For more details on how we determined the study population, see Table 1 of the Compendium.

EXHIBIT 1 (continued)

---

<sup>b</sup>Dual eligibles are beneficiaries who had Medicare as well as Medicaid FFS pharmacy benefit coverage for at least one month during their Medicaid enrollment in 2003. Nondual beneficiaries include beneficiaries who were never dually eligible or were dually eligible but never had Medicaid FFS pharmacy benefit coverage. Refer to Table 1 in the Compendium for more information about how we determined dual eligibility status.

<sup>c</sup>This group includes beneficiaries who resided in nursing facilities throughout their Medicaid enrollment in 2003. Refer to Table 1 in the Compendium for more information about how we determined all-year nursing facility residency.

<sup>d</sup>Medicaid basis of eligibility is classified as: aged, disabled, adults, and children. The disabled group includes beneficiaries of any age who were determined to be eligible because of disability or blindness. The children's group includes children receiving foster care and adoptive services.

<sup>e</sup>The percentage represents all ages below 65.

**EXHIBIT 2**

**ILLUSTRATIVE MEASURES OF STUDY POPULATION PHARMACY BENEFIT USE  
AND REIMBURSEMENT, 2003<sup>a</sup>**

Measures of Pharmacy Benefit Use and Reimbursement	Among All Medicaid Beneficiaries <sup>b</sup>	Among Nondual Beneficiaries <sup>b</sup>	Among Dual Eligibles <sup>b</sup>	Among Beneficiaries Who Resided in Nursing Facilities All Year <sup>b</sup>
Total Medicaid Pharmacy Reimbursement (in \$ million)	\$33,513	\$15,620	\$17,893	\$3,048
Average Annual Pharmacy Reimbursement per Beneficiary <sup>c</sup>	\$822	\$459	\$2,659	\$3,338
Average Pharmacy Reimbursement per Benefit Month <sup>d</sup>	\$100	\$59	\$252	\$327
Average Annual Number of Prescriptions per Beneficiary	13.1	7.3	42.3	64.2
Average Number of Prescriptions per Benefit Month	1.6	0.9	4.0	6.3

Source: Medicaid Analytic Extract (MAX), 2003. This table is based on information contained in Tables 3, 4, 6, ND.3, ND.4, ND.6, ND.8, ND.9, D.3, D.4, D.6, D.8, D.9, and N.1a in the Compendium.

<sup>a</sup>The Medicaid pharmacy reimbursement amount is the amount Medicaid reimbursed pharmacies, including dispensing fees minus beneficiary copayment. Reimbursement amounts are gross amounts prior to the receipt of rebates from drug manufacturers to states.

<sup>b</sup>See footnotes to Exhibit 1 for how these groups were defined. Annual or monthly measures reflect use and reimbursement among beneficiaries in FFS settings, and may thus be higher or lower than if use and reimbursement in capitated managed care settings were included.

<sup>c</sup>Annual per-beneficiary use and reimbursement include all use and reimbursement during the year for the number of months of Medicaid FFS pharmacy benefit coverage. Thus, some beneficiaries may have had only one month of coverage, while others were covered for twelve months. Medicaid beneficiaries in the study population had, on average, 7.8 months of coverage. The comparable number was 7.3 months among nondual beneficiaries and 10.2 months among dual eligible beneficiaries, and 10.0 months among beneficiaries who resided in nursing facilities throughout their Medicaid enrollment in 2003.

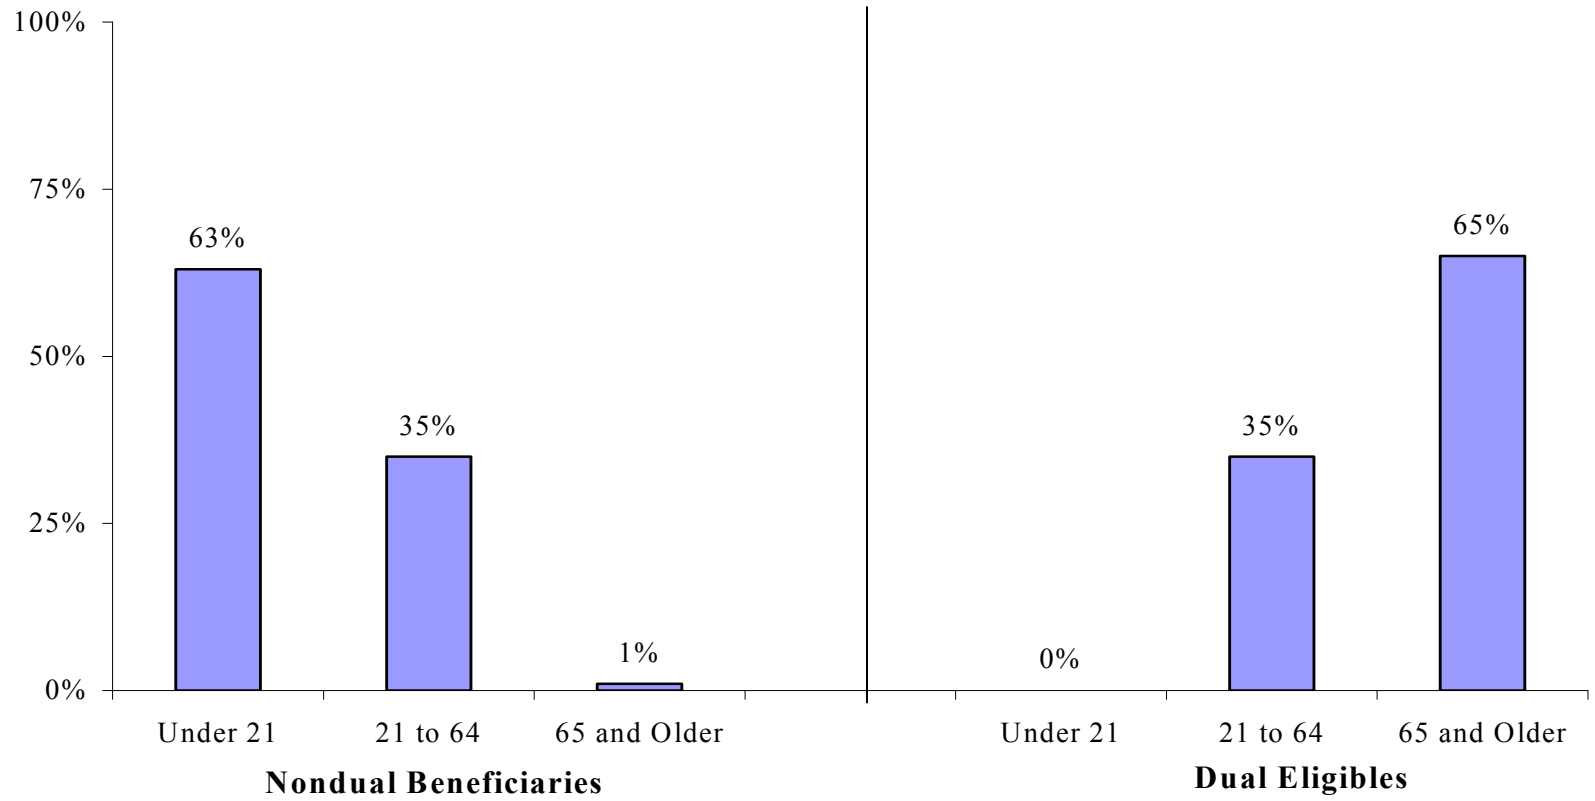

<sup>d</sup>Monthly use and reimbursement amounts were calculated by dividing total use and reimbursement among all beneficiaries in the study population by the total number of benefit months of those beneficiaries. Benefit months are months during which beneficiaries had FFS pharmacy benefit coverage.

## **STUDY POPULATION CHARACTERISTICS**

**EXHIBIT 3**

**DISTRIBUTION OF MEDICAID STUDY POPULATION BY AGE GROUP,  
NONDUAL AND DUAL ELIGIBLE BENEFICIARIES, 2003<sup>a</sup>**

Source: Medicaid Analytic Extract (MAX), 2003. This graph is based on the information contained in Tables ND.2 and D.2 of the Compendium.

<sup>a</sup>Dual eligibles are beneficiaries who had Medicare as well as Medicaid FFS pharmacy benefits during any month of Medicaid enrollment in 2003. Nondual beneficiaries include beneficiaries who were never dually eligible or were dually eligible but never had Medicaid FFS pharmacy benefits. Refer to Table 1 in the Compendium for more information about how we determined dual eligibility status.

**EXHIBIT 4**

**DISTRIBUTION OF MEDICAID STUDY POPULATION BY DISABILITY STATUS,  
NONDUAL AND DUAL ELIGIBLE BENEFICIARIES, 2003<sup>a,b</sup>**

10

Source: Medicaid Analytic Extract (MAX), 2003. This graph is based on the information contained in Tables ND.2 and D.2 of the Compendium.

<sup>a</sup>Dual eligibles are beneficiaries who had Medicare as well as Medicaid FFS pharmacy benefits during any month of Medicaid enrollment in 2003. Nondual beneficiaries include beneficiaries who were never dually eligible or were dually eligible but never had Medicaid FFS pharmacy benefits. Refer to Table 1 in the Compendium for more information about how we determined dual eligibility status.

<sup>b</sup>The disabled eligibility group includes beneficiaries of any age who were determined to be eligible for Medicaid because of disability or blindness.

**EXHIBIT 5**

**DISTRIBUTION OF MEDICAID STUDY POPULATION BY RACE,  
NONDUAL AND DUAL ELIGIBLE BENEFICIARIES, 2003<sup>a</sup>**

11

Source: Medicaid Analytic Extract (MAX), 2003. This graph is based on the information contained in Tables ND.2 and D.2 of the Compendium.

<sup>a</sup>Dual eligibles are beneficiaries who had Medicare as well as Medicaid FFS pharmacy benefits during any month of Medicaid enrollment in 2003. Nondual beneficiaries include beneficiaries who were never dually eligible or were dually eligible but never had Medicaid FFS pharmacy benefits. Refer to Table 1 in the Compendium for more information about how we determined dual eligibility status.

**MEDICAID PHARMACY REIMBURSEMENT AND USE,  
BY TYPE OF BENEFICIARY**

**EXHIBIT 6**

**AVERAGE MONTHLY MEDICAID PHARMACY REIMBURSEMENT,  
BY AGE GROUP, 2003<sup>a,b</sup>**

13

Source: Medicaid Analytic Extract (MAX), 2003. This graph is based on the information contained in Table 4 of the Compendium.

<sup>a</sup>The Medicaid pharmacy reimbursement amount is the amount Medicaid reimbursed pharmacies, including dispensing fees minus beneficiary copayment. Reimbursement amounts are gross amounts prior to the receipt of rebates from drug manufacturers to states.

<sup>b</sup>Monthly reimbursement amounts were calculated by dividing the total reimbursement among all beneficiaries in the study population by the total number of benefit months of those beneficiaries. Benefit months are months during which beneficiaries had FFS pharmacy benefit coverage.

**EXHIBIT 7**

**DISTRIBUTION OF AGE GROUPS AND TOTAL PHARMACY REIMBURSEMENT, 2003<sup>a</sup>**

Source: Medicaid Analytic Extract (MAX), 2003. This graph is based on the information contained in Tables 2, 3, and 6 of the Compendium.

<sup>a</sup>The Medicaid pharmacy reimbursement amount is the amount Medicaid reimbursed pharmacies, including dispensing fees minus beneficiary copayment. Reimbursement amounts are gross amounts prior to the receipt of rebates from drug manufacturers to states.

## EXHIBIT 8

### AVERAGE MONTHLY MEDICAID PHARMACY REIMBURSEMENT, BY BASIS OF ELIGIBILITY AND DUAL STATUS, 2003<sup>a,b,c,d</sup>

Source: Medicaid Analytic Extract (MAX), 2003. This graph is based on the information contained in Tables 4, ND.4, and D.4 of the Compendium.

<sup>a</sup>The Medicaid pharmacy reimbursement amount is the amount Medicaid reimbursed pharmacies, including dispensing fees minus beneficiary copayment. Reimbursement amounts are gross amounts prior to the receipt of rebates from drug manufacturers to states.

<sup>b</sup>Monthly reimbursement amounts were calculated by dividing the total reimbursement among all beneficiaries in the study population by the total number of benefit months of those beneficiaries. Benefit months are months during which beneficiaries had FFS pharmacy benefit coverage.

<sup>c</sup>Medicaid basis of eligibility is classified as: aged, disabled, adults, and children. The disabled group includes beneficiaries of any age who were determined to be eligible because of disability or blindness, and thus includes a large number of dual eligibles. The children's group includes children receiving foster care and adoptive services. The total includes some beneficiaries with unknown basis of eligibility and some whose age categories are not consistent with basis of eligibility.

<sup>d</sup>Dual eligibles are beneficiaries who had Medicare as well as Medicaid FFS pharmacy benefits during any month of Medicaid enrollment in 2003. Nondual beneficiaries include beneficiaries who were never dually eligible or were dually eligible but never had Medicaid FFS pharmacy benefits. Refer to Table 1 in the Compendium for more information about how we determined dual eligibility status.

**EXHIBIT 9**

**PERCENTAGE OF BENEFICIARIES WITH AT LEAST ONE PRESCRIPTION DRUG CLAIM,  
BY DUAL ELIGIBILITY STATUS, 2003<sup>a</sup>**

Source: Medicaid Analytic Extract (MAX), 2003. This graph is based on the information contained in Tables ND.3 and D.3 of the Compendium.

<sup>a</sup>Dual eligibles are beneficiaries who had Medicare as well as Medicaid FFS pharmacy benefits during any month of Medicaid enrollment in 2003. Nondual beneficiaries include beneficiaries who were never dually eligible or were dually eligible but never had Medicaid FFS pharmacy benefits. Refer to Table 1 in the Compendium for more information about how we determined dual eligibility status.

**EXHIBIT 10**

**AVERAGE ANNUAL NUMBER OF PRESCRIPTION DRUG CLAIMS PER BENEFICIARY,  
BY DUAL ELIGIBILITY STATUS, 2003<sup>a,b</sup>**

Source: Medicaid Analytic Extract (MAX), 2003. This graph is based on the information contained in Tables ND.3 and D.3 of the Compendium.

<sup>a</sup>Dual eligibles are beneficiaries who had Medicare as well as Medicaid FFS pharmacy benefits during any month of Medicaid enrollment in 2003. Nondual beneficiaries include beneficiaries who were never dually eligible or were dually eligible but never had Medicaid FFS pharmacy benefits. Refer to Table 1 in the Compendium for more information about how we determined dual eligibility status.

<sup>b</sup>Nondual beneficiaries, on average, had fewer months of Medicaid eligibility in 2003 than dual eligible beneficiaries: 7.3 months for nonduals and 10.2 months for duals.

EXHIBIT 11

NUMBER OF PRESCRIPTIONS PER BENEFIT MONTH, BY BASIS OF ELIGIBILITY  
AND DUAL ELIGIBILITY STATUS, 2003<sup>a,b</sup>

Source: Medicaid Analytic Extract (MAX), 2003. This graph is based on the information contained in Tables ND.4 and D.4 of the Compendium.

<sup>a</sup>Medicaid basis of eligibility is classified as: aged, disabled, adults, and children. The disabled group includes beneficiaries of any age who were determined to be eligible because of disability or blindness, and thus includes a large number of dual eligibles. The children's group includes children receiving foster care and adoptive services. The total includes some beneficiaries with unknown basis of eligibility and some whose age categories are not consistent with basis of eligibility.

<sup>b</sup>Dual eligibles are beneficiaries who had Medicare as well as Medicaid FFS pharmacy benefits during any month of Medicaid enrollment in 2003. Nondual beneficiaries include beneficiaries who were never dually eligible or were dually eligible but never had Medicaid FFS pharmacy benefits. Refer to Table 1 in the Compendium for more information about how we determined dual eligibility status.

**EXHIBIT 12**

**AVERAGE ANNUAL PRESCRIPTION DRUG SPENDING PER BENEFICIARY,  
BY DUAL ELIGIBILITY STATUS, 2003<sup>a,b</sup>**

Source: Medicaid Analytic Extract (MAX), 2003. This graph is based on the information contained in Tables ND.3 and D.3 of the Compendium.

<sup>a</sup>Dual eligibles are beneficiaries who had Medicare as well as Medicaid FFS pharmacy benefits during any month of Medicaid enrollment in 2003. Nondual beneficiaries include beneficiaries who were never dually eligible or were dually eligible but never had Medicaid FFS pharmacy benefits. Refer to Table 1 in the Compendium for more information about how we determined dual eligibility status.

<sup>b</sup>Nonduals, on average, had fewer months of Medicaid eligibility in 2003 than dual eligible beneficiaries: 7.3 months for nonduals and 10.2 months for duals.

**EXHIBIT 13**

**DISTRIBUTION OF DUAL ELIGIBILITY STATUS AND TOTAL PHARMACY REIMBURSEMENT, 2003<sup>a,b</sup>**

20

Source: Medicaid Analytic Extract (MAX), 2003. This graph is based on the information contained in Tables 2, ND.2, D.2, 6, ND.6, and D.6 of the Compendium.

<sup>a</sup>The Medicaid pharmacy reimbursement amount is the amount Medicaid reimbursed pharmacies, including dispensing fees minus beneficiary copayment. Reimbursement amounts are gross amounts prior to the receipt of rebates from drug manufacturers to states.

<sup>b</sup>Dual eligibles are beneficiaries who had Medicare as well as Medicaid FFS pharmacy benefits during any month of Medicaid enrollment in 2003. Nondual beneficiaries include beneficiaries who were never dually eligible or were dually eligible but never had Medicaid FFS pharmacy benefits. Refer to Table 1 in the Compendium for more information about how we determined dual eligibility status.

**MEDICAID PHARMACY USE AND REIMBURSEMENT,  
NONDUAL BENEFICIARIES**

**EXHIBIT 14**

**DISTRIBUTION OF BENEFICIARIES AND TOTAL PHARMACY REIMBURSEMENT AMONG NONDUAL BENEFICIARIES, BY BASIS OF ELIGIBILITY, 2003<sup>a,b,c</sup>**

Source: Medicaid Analytic Extract (MAX), 2003. This graph is based on the information contained in Tables ND.2, ND.3, and ND.6 of the Compendium.

<sup>a</sup>The Medicaid pharmacy reimbursement amount is the amount Medicaid reimbursed pharmacies, including dispensing fees minus beneficiary copayment. Reimbursement amounts are gross amounts prior to the receipt of rebates from drug manufacturers to states.

<sup>b</sup>Medicaid basis of eligibility is classified as: aged, disabled, adults, and children. The disabled group includes beneficiaries of any age who were determined to be eligible because of disability or blindness, and thus includes a large number of dual eligibles. The children's group includes children receiving foster care and adoptive services. The total includes some beneficiaries with unknown basis of eligibility and some whose age categories are not consistent with basis of eligibility.

<sup>c</sup>Dual eligibles are beneficiaries who had Medicare as well as Medicaid FFS pharmacy benefits during any month of Medicaid enrollment in 2003. Nondual beneficiaries include beneficiaries who were never dually eligible or were dually eligible but never had Medicaid FFS pharmacy benefits. Refer to Table 1 in the Compendium for more information about how we determined dual eligibility status.

**EXHIBIT 15**

**TOTAL ANNUAL MEDICAID REIMBURSEMENT FOR TOP 10 DRUG GROUPS AMONG NONDUAL BENEFICIARIES, 2003<sup>a,b,c,d</sup>**

*The top 10 drug groups (out of over 90 drug groups) accounted for 55 percent of total Medicaid FFS pharmacy reimbursement for nondual beneficiaries in 2003.*

Source: Medicaid Analytic Extract (MAX), 2003. This graph is based on the information contained in Table ND.7 of the Compendium.

<sup>a</sup>The Medicaid pharmacy reimbursement amount is the amount Medicaid reimbursed pharmacies, including dispensing fees minus beneficiary copayment. Reimbursement amounts are gross amounts prior to the receipt of rebates from drug manufacturers to states.

<sup>b</sup>Annual per-beneficiary reimbursement includes all reimbursement during the year for the number of months of Medicaid FFS pharmacy benefit coverage. Thus, some beneficiaries may have had only one month of coverage, while others were covered for twelve months. At the national level, nondual eligible Medicaid beneficiaries in the study population had, on average, 7.5 months of coverage.

<sup>c</sup>The top 10 drug groups were determined based on total Medicaid reimbursement in 2003. For information about these drug groups, see Wolters Kluwer Health, [<http://www.medispain.com/products/index.aspx?id=1>] (November 8, 2006).

<sup>d</sup>Dual eligibles are beneficiaries who had Medicare as well as Medicaid FFS pharmacy benefits during any month of Medicaid enrollment in 2003. Nondual beneficiaries include beneficiaries who were never dually eligible or were dually eligible but never had Medicaid FFS pharmacy benefits. Refer to Table 1 in the Compendium for more information about how we determined dual eligibility status.

**EXHIBIT 16**

**PERCENTAGE OF PHARMACY REIMBURSEMENT AND USERS FOR TOP 10 DRUG GROUPS  
AMONG NONDUAL BENEFICIARIES, 2003<sup>a,b,c,d</sup>**

Source: Medicaid Analytic Extract (MAX), 2003. This graph is based on the information contained in Table ND.7 of the Compendium.

<sup>a</sup>The Medicaid pharmacy reimbursement amount is the amount Medicaid reimbursed pharmacies, including dispensing fees minus beneficiary copayment. Reimbursement amounts are gross amounts prior to the receipt of rebates from drug manufacturers to states.

<sup>b</sup>A user is a beneficiary who had at least one prescription filled in a given therapeutic category during 2003. A beneficiary who used drugs from two or more categories was counted as a user for each category. Therefore, the sum of users across categories may exceed the total number of individual users. For information about these drug groups, see Wolters Kluwer Health, [<http://www.medispn.com/products/index.aspx?id=1>] (November 8, 2006).

<sup>c</sup>The top 10 drugs groups were determined based on total Medicaid reimbursement in the state for 2003. For information about these drug groups, see Wolters Kluwer Health, [<http://www.medispn.com/products/index.aspx?id=1>] (November 8, 2006).

<sup>d</sup>Dual eligibles are beneficiaries who had Medicare as well as Medicaid FFS pharmacy benefits during any month of Medicaid enrollment in 2003. Nondual beneficiaries include beneficiaries who were never dually eligible or were dually eligible but never had Medicaid FFS pharmacy benefits. Refer to Table 1 in the Compendium for more information about how we determined dual eligibility status.

**EXHIBIT 17**

**PERCENTAGE OF PHARMACY REIMBURSEMENT AND USERS FOR TOP 7 THERAPEUTIC CATEGORIES AMONG NONDUAL BENEFICIARIES, 2003<sup>a,b,c,d</sup>**

*The top 7 therapeutic categories (out of 18 therapeutic categories) accounted for 76 percent of total Medicaid FFS pharmacy reimbursement for nondual beneficiaries in 2003*

Source: Medicaid Analytic Extract (MAX), 2003. This graph is based on the information contained in Table ND.6 of the Compendium.

<sup>a</sup>The Medicaid pharmacy reimbursement amount is the amount Medicaid reimbursed pharmacies, including dispensing fees minus beneficiary copayment. Reimbursement amounts are gross amounts prior to the receipt of rebates from drug manufacturers to states.

<sup>b</sup>A user is a beneficiary who had at least one prescription filled in a given therapeutic category during 2003. A beneficiary who used drugs from two or more categories was counted as a user for each category. Therefore, the sum of users across categories may exceed the total number of individual users. For information about these therapeutic categories, see Wolters Kluwer Health, [<http://www.medispain.com/products/index.aspx?id=1>] (November 8, 2006).

<sup>c</sup>Top 7 categories were determined based on total Medicaid reimbursement in 2003. For information about these therapeutic categories, see Wolters Kluwer Health, [<http://www.medispain.com/products/index.aspx?id=1>] (November 8, 2006).

<sup>d</sup>Dual eligibles are beneficiaries who had Medicare as well as Medicaid FFS pharmacy benefits during any month of Medicaid enrollment in 2003. Nondual beneficiaries include beneficiaries who were never dually eligible or were dually eligible but never had Medicaid FFS pharmacy benefits. Refer to Table 1 in the Compendium for more information about how we determined dual eligibility status.

t (MAX), 2003. This graph is based on the information contained in Table N.2 of the Compendium for the nation. The Compendium was prepared for 49 states (excluding Arizona) and the District of Columbia. FFS pharmacy reimbursement information is not available for Arizona due to a very high share of beneficiary enrollment in prepaid managed care plans.

<sup>a</sup>The Medicaid pharmacy reimbursement amount is the amount Medicaid reimbursed pharmacies, including dispensing fees minus beneficiary copayment. Reimbursement amounts are gross amounts prior to the receipt of rebates from drug manufacturers to states.

<sup>b</sup>Monthly reimbursement amounts were calculated by dividing the total reimbursement among all beneficiaries in the study population by the total number of benefit months of those beneficiaries. Benefit months are months during which beneficiaries had FFS pharmacy benefit coverage.

<sup>c</sup>Dual eligibles are beneficiaries who had Medicare as well as Medicaid FFS pharmacy benefits during any month of Medicaid enrollment in 2003. Nondual beneficiaries include beneficiaries who were never dually eligible or were dually eligible but never had Medicaid FFS pharmacy benefits. Refer to Table 1 in the Compendium for more information about how we determined dual eligibility status.

**GENERIC PRESCRIPTIONS AS PERCENTAGE OF ALL PRESCRIPTIONS**  
**AMONG NONDUAL BENEFICIARIES, BY STATE, 2003<sup>a,b</sup>**

Source: Medicaid Analytic Extract (MAX), 2003. This graph is based on the information contained in Table N.2 of the Compendium for the nation. The Compendium was prepared for 49 states (excluding Arizona) and the District of Columbia. FFS pharmacy reimbursement information is not available for Arizona due to a very high share of beneficiary enrollment in prepaid managed care plans.

<sup>a</sup>Brand-name drugs, sometimes called “innovator single-source drugs,” are drugs whose patents have not yet expired. Off-patent brand-name drugs, sometimes called “innovator multiple-source drugs,” are brand-name drugs whose patents have expired. Generic drugs, sometimes called “non-innovator multiple-source drugs,” are off-patent drugs manufactured and sold by companies other than the original patent holder. For information about this classification method, see Wolters Kluwer Health, [<http://www.medispac.com/products/index.aspx?id=1>] (November 8, 2006).

<sup>b</sup>Dual eligibles are beneficiaries who had Medicare as well as Medicaid FFS pharmacy benefits during any month of Medicaid enrollment in 2003. Nondual beneficiaries include beneficiaries who were never dually eligible or were dually eligible but never had Medicaid FFS pharmacy benefits. Refer to Table 1 in the Compendium for more information about how we determined dual eligibility status.

**MEDICAID PHARMACY USE AND REIMBURSEMENT,  
DUAL ELIGIBLE BENEFICIARIES**

**EXHIBIT 20**

**DISTRIBUTION OF BENEFICIARIES AND TOTAL PHARMACY REIMBURSEMENT AMONG DUAL ELIGIBLES, BY BASIS OF ELIGIBILITY, 2003<sup>a,b,c,d</sup>**

Source: Medicaid Analytic Extract (MAX), 2003. This graph is based on the information contained in Tables D.2, D.3, and D.6 of the Compendium.

<sup>a</sup>Children and adults comprise less than 1 percent each of dual eligible beneficiaries both in percentage of beneficiaries and in percentage of pharmacy reimbursement.

<sup>b</sup>The Medicaid pharmacy reimbursement amount is the amount Medicaid reimbursed pharmacies, including dispensing fees minus beneficiary copayment. Reimbursement amounts are gross amounts prior to the receipt of rebates from drug manufacturers to states.

<sup>c</sup>Medicaid basis of eligibility is classified as: aged, disabled, adults, and children. The disabled group includes beneficiaries of any age who were determined to be eligible because of disability or blindness, and thus includes a large number of dual eligibles. The children's group includes children receiving foster care and adoptive services. The total includes some beneficiaries with unknown basis of eligibility and some whose age categories are not consistent with basis of eligibility.

<sup>d</sup>Dual eligibles are beneficiaries who had Medicare as well as Medicaid FFS pharmacy benefits during any month of Medicaid enrollment in 2003. Refer to Table 1 in the Compendium for more information about how we determined dual eligibility status.

**EXHIBIT 21**

**TOTAL ANNUAL MEDICAID REIMBURSEMENT FOR TOP 10 DRUG GROUPS AMONG DUAL ELIGIBLES, 2003<sup>a,b,c,d</sup>**

*The top 10 drug groups (out of over 90 drug groups) accounted for 61 percent of total Medicaid FFS pharmacy reimbursement for dual eligibles in 2003.*

Source: Medicaid Analytic Extract (MAX), 2003. This graph is based on the information contained in Table D.7 of the Compendium.

<sup>a</sup>The Medicaid pharmacy reimbursement amount is the amount Medicaid reimbursed pharmacies, including dispensing fees minus beneficiary copayment. Reimbursement amounts are gross amounts prior to the receipt of rebates from drug manufacturers to states.

<sup>b</sup>Annual per-beneficiary reimbursement includes all reimbursement during the year for the number of months of Medicaid FFS pharmacy benefit coverage. Thus, some beneficiaries may have had only one month of coverage, while others were covered for twelve months. At the national level, nondual eligible Medicaid beneficiaries in the study population had, on average, 10.2 months of coverage.

<sup>c</sup>The top 10 drug groups were determined based on total Medicaid reimbursement in 2003. For information about these drug groups, see Wolters Kluwer Health, [<http://www.medispn.com/products/index.aspx?id=1>] (November 8, 2006).

<sup>d</sup>Dual eligibles are beneficiaries who had Medicare as well as Medicaid FFS pharmacy benefits during any month of Medicaid enrollment in 2003. Refer to Table 1 in the Compendium for more information about how we determined dual eligibility status.

**EXHIBIT 22**

**PERCENTAGE OF PHARMACY REIMBURSEMENT AND USERS FOR TOP 10 DRUG GROUPS AMONG DUAL ELIGIBLES, 2003<sup>a,b,c,d</sup>**

Source: Medicaid Analytic Extract (MAX), 2003. This graph is based on the information contained in Table D.7 of the Compendium.

<sup>a</sup>The Medicaid pharmacy reimbursement amount is the amount Medicaid reimbursed pharmacies, including dispensing fees minus beneficiary copayment. Reimbursement amounts are gross amounts prior to the receipt of rebates from drug manufacturers to states.

<sup>b</sup>A user is a beneficiary who had at least one prescription filled in a given therapeutic category during 2003. A beneficiary who used drugs from two or more categories was counted as a user for each category. Therefore, the sum of users across categories may exceed the total number of individual users. For information about these drug groups, see Wolters Kluwer Health, [<http://www.medispain.com/products/index.aspx?id=1>] (November 8, 2006).

<sup>c</sup>The top 10 drugs groups were determined based on total Medicaid reimbursement in the state for 2003. For information about these drug groups, see Wolters Kluwer Health, [<http://www.medispain.com/products/index.aspx?id=1>] (November 8, 2006).

<sup>d</sup>Dual eligibles are beneficiaries who had Medicare as well as Medicaid FFS pharmacy benefits during any month of Medicaid enrollment in 2003. Refer to Table 1 in the Compendium for more information about how we determined dual eligibility status.

EXHIBIT 46

AVERAGE MONTHLY PRESCRIPTION REIMBURSEMENT BY BASIS OF ELIGIBILITY, NONDUAL BENEFICIARIES, 1999, 2001, 2002, AND 2003<sup>a,b,c,d</sup>

Source: Medicaid Analytic Extract (MAX), 2003. This graph is based on the information contained in Table ND4 of the 1999, 2001, 2002, and 2003 Compendiums.

<sup>a</sup>Medicaid basis of eligibility is classified as: aged, disabled, adults, and children. The disabled group includes beneficiaries of any age who were determined to be eligible because of disability or blindness, and thus includes a large number of dual eligibles. The children's group includes children receiving foster care and adoptive services. The total includes some beneficiaries with unknown basis of eligibility and some whose age categories are not consistent with basis of eligibility.

<sup>b</sup>Nondual beneficiaries include beneficiaries who were never dually eligible or were dually eligible but never had Medicaid FFS pharmacy benefits. Refer to Table 1 in the Compendium for more information about how we determined dual eligibility status.

<sup>c</sup>The Medicaid pharmacy reimbursement amount is the amount Medicaid reimbursed pharmacies, including dispensing fees minus beneficiary copayment. Reimbursement amounts are gross amounts prior to the receipt of rebates from drug manufacturers to states.

<sup>d</sup>Monthly reimbursement amounts were calculated by dividing the total reimbursement among all beneficiaries in the study population by the total number of benefit months of those beneficiaries. Benefit months are months during which beneficiaries had FFS pharmacy benefit coverage.
