ADMINISTRATION FOR CHILDREN AND FAMILIES  
 Low Income Home Energy Assistance Program

For making payments under [title XXVI of the Omnibus Budget Reconciliation Act of 1981, \$2,000,000,000] *section 2602(b) of the Low Income Home Energy Assistance Act, \$1,782,000,000.*

[For making payments under title XXVI of the Omnibus Budget Reconciliation Act of 1981, \$183,000,000, to remain available until September 30, 2006: Provided, That these funds are for the unanticipated home energy assistance needs of one or more States, as authorized by section 2604(e) of such Act, and notwithstanding the designation requirement of section 2602(e) of such Act.]

*Department of Health and Human Services Appropriations Act, 2006*

**LANGUAGE ANALYSIS**

<b>Language Provision</b>	<b>Explanation</b>
“ ... [title XXVI of the Omnibus Budget Reconciliation Act of 1981, 2,000,000,000] <i>section 2602(b) of the Low Income Home Energy Assistance Act...</i> ”	The new language is added to update the authority for this program.
[For making payments under title XXVI of the Omnibus Budget Reconciliation Act of 1981, \$183,000,000 to remain available until September 30, 2006: Provided, That these funds are for the unanticipated home energy assistance needs of one or more States, as authorized by section 2604(e) of such Act, and notwithstanding the designation requirement of section 2602(e) of such Act.]	This language is deleted to reflect the fact that no funding is requested in FY 2007 for the LIHEAP Contingency Fund.

2001 – Appropriated in FY 00 for obligation in FY 01	1,100,000,000	1,100,000,000	1,100,000,000	1,100,000,000

<sup>1</sup> Because of extreme and life-threatening hot weather, \$150,000,000 was released during the summer of 1998 to: Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, and Texas. In addition, \$10,000,000 was released to Alaska to buy fuel oil for the coming winter for villages facing high heating costs that were difficult to meet due to the disastrously low salmon run.

<sup>2</sup> Advance Funding requested in FY 99 for FY 00.

<sup>3</sup> Due to excessively hot weather during late June and early July of 1999, \$100 million was released to 17 eastern states and the District of Columbia, including 15 Indian tribes. In August, an additional \$55 million was released to 9 additional states that had experienced extreme heat. In September, \$20,298,765 was released to North Carolina to assist with energy-related flood damage.

<sup>4</sup> In October 1999, \$5,000,000 was released to New Jersey to assist with energy-related damage due to Hurricane Floyd. In January 2000, \$45,000,000 was released to 11 States who depend heavily on heating oil and liquid petroleum, whose costs were higher than the previous year's. By the end of the fiscal year, \$744,350,000 had been released to offset the increasing costs of fuel.

Emergency Funding	[300,000,000]	[100,000,000]	[99,410,000]	[297,600,000]
Emergency Funds Disbursed	---	---	---	277,250,000 <sup>9</sup>

<sup>5</sup> The emergency supplemental for FY 2001 was available until expended. A balance of \$155,650,000 was carried over into FY 2001 and that amount, together with the \$300,000,000 in new budget authority for emergency contingencies, had been obligated by the end of December 2000 to offset continuing increases in fuel prices and an unusually cold November and December.

<sup>6</sup> \$100,000,000 was released in August, 2002 due to record breaking heat-wave over a sustained period of time. Since the \$300,000,000 from the FY 2001 emergency supplemental was not distributed, the funds were carried over to FY 2003.

<sup>7</sup> Of the \$300,000,000 in emergency supplemental from FY 2001, \$200,000,000 was released in January, 2003 due to higher than normal energy prices, especially home heating oil. The remaining \$100,000,000 was transferred into the regular FY 2003 LIHEAP block grant appropriation.

<sup>8</sup> \$99,410,000 was released in February, 2004 due to higher than normal energy prices and because of much colder weather in many states in January 2004.

<sup>9</sup> \$250,000,000 was released due to higher than normal energy prices. An additional \$27,250,000 was released in September 2005 to assist states hit hardest by Hurricane Katrina. \$20,350,000 remains available for release in FY 2006.

	<u>Budget Estimate to Congress</u>	<u>House Allowance</u>	<u>Senate Allowance</u>	<u>Appropriation</u>
2006 Block Grant	1,800,000,000	2,006,799,000	1,883,000,000	1,980,000,000

General Statement

Consistent with the Administration for Children and Families' strategic goal to build healthy, safe and supportive communities and tribes, the Low Income Home Energy Assistance Program (LIHEAP) provides assistance to low income households in meeting the costs of home energy heating and cooling their homes.

Approximately 24 percent of LIHEAP recipients are "working poor" households that do not receive any other public assistance through TANF, food stamps, SSI, or subsidized housing. Approximately 35 percent of LIHEAP recipients are elderly households. LIHEAP funds are not intended to meet the entire home energy costs of low-income households. Rather, LIHEAP funds are intended to supplement other available federal assistance as well as the households' own resources and State resources.

Legislation enacted in 1994 made it easier for states to use LIHEAP funds more effectively to target assistance to households with high energy burdens or need and authorized States to use a portion of their funds to assist households in reducing their need for home energy. Through a collaborative process to develop performance objectives and measures, states increasingly are targeting resources more effectively.

A leveraging incentive fund has been successful in encouraging States to develop increased non-federal energy assistance resources to be used in conjunction with LIHEAP funds. Beginning in FY 1996, a Residential Energy Assistance Challenge Grant program (REACH) became a component of the leveraging incentive fund. It assists a limited number of LIHEAP grantees in developing and operating programs to help LIHEAP-eligible households reduce their energy vulnerability.

The Energy Policy Act of 2005, (Public Law 109-58), reauthorized this program through FY 2007 at a funding level of \$5.1 billion. The law adds a new provision allowing LIHEAP recipients to purchase

renewable energy products, in addition to gas, coal, electricity and other heating and cooling energy sources.

Additionally, this budget assumes the enactment of S. 1932 (the Deficit Reduction Act of 2005) which provides \$250,000,000 to the LIHEAP block grant and \$750,000,000 to the LIHEAP Contingency Funds programs in FY 2007.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM

Authorizing Legislation – Section 2602(b) of the Low Income Home Energy Assistance Act.

	2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
Program Funds	\$1,884,799,000	\$1,980,000,000	\$1,782,000,000	-\$198,000,000
<i>Block Grant included in Reconciliation Bill</i>	--	--	250,000,000 <sup>1</sup>	+250,000,000
Total, Budget Authority	\$1,884,799,000	\$1,980,000,000	\$2,032,000,000	+\$52,000,000

2007 Authorization.....\$5,100,000,000.

**Statement of the Budget Request** – The 2007 budget request \$1,782,000,000 and assumes enactment of the Deficit Reduction Act of 2005, which includes an additional \$250,000,000, for a combined total of \$2,032,000,000 for the Low Income Home Energy Assistance Program. These funds will continue to provide home energy assistance to low-income households.

**Program Description** – The Low Income Home Energy Assistance Program (LIHEAP) provides home energy assistance to low-income households through payments to eligible households and to energy suppliers. Funds are provided through block grants to states, Indian tribes and tribal organizations, Puerto Rico and four other territories for their use in programs tailored to meet the unique requirements of their jurisdictions. This program assists eligible households in meeting the costs of home energy, defined by the statute to include sources of residential heating and cooling.

States may give priority to households with the highest home energy costs or need in relation to income. States are allowed flexibility in determining payment levels and types of payments, including unrestricted cash payments, payments to vendors on behalf of eligible households, or energy vouchers. Generally, states elect to provide benefits in the form of payments to vendors on behalf of recipient households. Up to ten percent of the funds payable to a state may be used to pay planning and administrative costs. A grantee may hold up to ten percent of the funds payable to it for obligation in the subsequent year.

Funding for the Low Income Home Energy Assistance Program during the last five years, exclusive of contingency funds, has been as follows:

2002 .....	\$1,700,000,000
2003 .....	\$1,788,300,000
2004 .....	\$1,789,380,000
2005 .....	\$1,884,799,000
2006 .....	\$1,980,000,000

**Performance Analysis** – The LIHEAP program received a PART rating of Results Not Demonstrated in FY 2003. The assessment found that: (1) while the net effect of LIHEAP assistance has been to move

<sup>1</sup> Assumes the enactment of S. 1932 (The Deficit Reduction Act of 2005) which provides \$250M for the LIHEAP Block Grant program.

low income heating burdens closer to that of all households, the program lacks performance data to support this suggestion, and (2) the program does not have a system of evaluating program management and correcting deficiencies. In response to these findings, ACF is studying the feasibility of using home energy morbidity and mortality as an outcome measure. ACF also has an efficiency measure that deals with the ratio of state LIHEAP administrative costs (numerator) to the number of households receiving LIHEAP assistance (denominator).

Performance Goal	Results	Context
Increase the targeting index of LIHEAP recipient households having at least one member 60 years or older.	The baseline is 79 for FY 2003. The target for FY 2004 was 82 and the target was not achieved (actual 78).	ACF implemented a federal LIHEAP outreach campaign beginning in FY 2004. This campaign involved the targeted distribution of ACF's LIHEAP brochure nationwide. ACF's target is to increase the index score to 94 by FY 2007. By then, the scope of ACF's LIHEAP outreach campaign will have been broadened to reach more LIHEAP eligible households with an elderly member.

Rationale for the Budget Request — The FY 2007 request for the LIHEAP program includes \$1,782,000,000 and assumes enactment of the Deficit Reduction Act of 2005, which includes an additional \$250,000,000, for a total of \$2,032,000,000, an increase of \$52,000,000 from the FY 2006 enacted level. This request will enable states to meet the increasing demands for LIHEAP assistance, ensure that low-income households are not without heating or cooling, and provide protection to our most vulnerable populations, the elderly, households with small children, and person with disabilities.

LOW INCOME HOME ENERGY ASSISTANCE CONTINGENCY FUND

Authorizing Legislation – Section 2602(e) of the Low Income Home Energy Assistance Act.

	2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
Contingency Fund	\$297,000,000	\$181,170,000	\$0	-\$181,170,000
<i>Contingency Fund included in Reconciliation Bill</i>	--	--	750,000,000 <sup>1</sup>	+750,000,000
Total, Budget Authority	\$297,000,000	\$181,170,000	\$0	+\$568,830,000

2007 Authorization.....\$600,000,000.

**Statement of the Budget Request** – The 2007 budget request assumes enactment of the Deficit Reduction Act of 2005, which includes \$750,000,000 for the Low Income Home Energy Assistance Contingency Fund. These funds will assist states in meeting unanticipated energy emergencies.

**Program Description** – This program is designed to provide additional funds to states that are adversely affected by extreme heat or cold, or other causes of energy-related emergencies.

Funding for the Low Income Home Energy Assistance Contingency Fund during the last five years has been as follows:

2002 Appropriated .....	\$300,000,000
2002 Funds available to be distributed .....	(\$600,000,000)
2002 Funds disbursed .....	(\$100,000,000)
2003 Appropriated .....	\$0
2003 Funds available to be distributed .....	(\$300,000,000)
2003 Funds disbursed .....	(\$200,000,000)
2004 Appropriated .....	\$99,410,000
2004 Funds disbursed .....	(\$99,410,000)
2005 Appropriated .....	\$297,600,000
2005 Funds disbursed .....	(\$277,250,000)
2006 Appropriated .....	\$181,170,000
2006 Funds disbursed .....	(\$100,000,000) <sup>2</sup>

**Performance Analysis** – No performance measures have been established for the Low Income Home Energy Assistance Contingency Fund. Performance measurement for the Contingency Fund is part of the broader LIHEAP performance area.

<sup>1</sup> Assumes the enactment of S. 1932 (The Deficit Reduction Act of 2005) which provides \$750M for the Contingency Funds program.

<sup>2</sup> \$100,000,000 was released on January 05, 2006 to states, tribes, and territories to help families in need pay their heating and energy bills. A balance of \$20,350,000 from FY 2005 was carried over into FY 2006 and that amount, together with the \$81,170,000 in new budget authority remains available for release in FY 2006.

**Rationale for the Budget Request** — The Deficit Reduction Act of 2005 includes \$750,000,000 for the LIHEAP Contingency Fund. This will enable states to meet unanticipated energy emergencies, such as severe winter weather, extreme summer heat, and increased costs of fuel oil, natural gas and propane, taking into account the extent to which the state is affected by the emergency and other factors that may be relevant.

<sup>1</sup> \$277M was released due to higher than normal energy prices. An additional \$27.3M was released in September 2005 to assist states hit hardest by Hurricane Katrina. \$20.4M remains available for release during FY 2006.

<sup>2</sup> Of the \$181M that was appropriated in FY 2006, \$100M was released on January 05, 2006 leaving a balance of \$81.2M in FY 06 contingency funds. In addition, a balance of \$20.4M was carried over from FY 2005 to FY 2006 and that amount, together with the \$81.2M balance remains available for release in FY 2006 (a total of \$101.5M remains available.)

<sup>3</sup> Does not reflect release of contingency funds since no decisions have been made at this time.

# Child Care and Development Block Grant

## Justification

Authorizing Legislation – Section 658B of the Child Care and Development Block Grant Act.

	2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
Child Care and Development Block Grant	\$2,073,001,000	\$2,052,260,000	\$2,052,260,000	\$0
Research and Evaluation Fund	9,920,000	9,821,000	9,821,000	0
<b>Total, BA</b>	<b>\$2,082,921,000</b>	<b>\$2,062,081,000</b>	<b>\$2,062,081,000</b>	<b>\$0</b>

2007 Authorization.....\$2,100,000,000 (reauthorization level pending Congressional action).

## General Statement

The Child Care and Development Block Grant was created by the Omnibus Budget Reconciliation Act of 1990 (OBRA 1990) as a discretionary funded program. The Personal Responsibility and Work Opportunity Reconciliation Act (PRWORA) of 1996 (P.L. 104-193) made changes to this program by combining the child care entitlement programs (AFDC Child Care, Transitional Child Care and At-Risk Child Care) into the Child Care and Development Block Grant (CCDBG) Act of 1990, as amended. The entitlement portion consisted of mandatory and matching funds made available under section 418 of the Social Security Act, while the discretionary funding was authorized by the Child Care and Development Block Grant Act. The combined funding from these streams was designated the Child Care and Development Fund (CCDF).

The Child Care and Development Block Grant makes funds available for child care services and activities to improve the availability, accessibility, and affordability of child care. The program allows states maximum flexibility in developing child care programs and enables states to use resources most effectively to meet local needs. Child care subsidies funded through the Block Grant assist low-income families who are working or attending training/education. A minimum of four percent of funds are set aside for activities to provide comprehensive consumer education to parents and the public, activities that increase parental choice and activities designed to improve the quality and availability of child care (such as implementing state health and safety and licensing regulations and resource and referral services). Additional appropriation earmarks also designate funds for improving the quality and availability of care. Quality child care promotes literacy and prepares children to succeed in school.

Two percent of the Block Grant funds are reserved for Indian tribes, and one half of one percent is reserved for the territories. A quarter of a percent is reserved for technical assistance.

**Statement of the Budget Request** — The 2007 budget request of \$2,062,081,000 for the Child Care and Development Block Grant program will provide funding to assist states in meeting the critical child care

needs of families and will provide funding to allow the continuation of efforts to further document emerging trends in the child care field and encourage evidence-based practices.

**Program Description** — The Child Care and Development Block Grant provides grants to states, federally recognized tribes, and territories for the purposes of: providing low-income families with financial assistance for child care; improving the quality and availability of child care; and establishing or expanding and conducting early child development programs and before- and after-school programs. Federal funds enable states, tribes and territories to provide child care services through grants, contracts, and certificates to low-income families for a parent who is working or attending training or educational programs. This program is designed to help low-income families succeed at work and remain self-sufficient.

Funding for the Child Care and Development Block Grant for the last five years has been as follows:

Fiscal Year	Block Grant	Research and Evaluation Fund	Total
2002	\$2,089,970,000	\$9,972,000	\$2,099,942,000
2003	\$2,076,409,000	\$9,935,000	\$2,086,344,000
2004	\$2,077,504,000	\$9,806,000	\$2,087,310,000
2005	\$2,073,001,000	\$9,920,000	\$2,082,921,000
2006	\$2,052,260,000	\$9,821,000	\$2,062,081,000

These child care block grant funds will: (1) allow each state maximum flexibility in developing child care programs and policies that best suit the needs of children and parents within each state; (2) promote parental choice to empower working parents to make their own decisions on child care that best suits their family's needs; (3) encourage states to provide consumer education information to help parents make informed choices about child care; (4) assist states in providing child care to parents trying to achieve and maintain independence from public assistance and assist other low-income working parents to maintain quality child care services for their children; and (5) assist states in implementing the health, safety, licensing, and registration standards established in state regulations.

In accordance with ACF's goal of ensuring healthy, safe and affordable child care for America's working families, this program also will support research, demonstration, and evaluation activities designed to provide a sound basis for policy development, consumer education, and innovation toward improved child care services and systems for the 21<sup>st</sup> century. Prior-year funds have been used for a number of critical efforts, including:

- Rigorous evaluation of alternative state child care subsidy policies designed to identify effective strategies for improving outcomes for families and children.
- A multi-year, multi-site study of alternative approaches that show promise for improving the knowledge, skills, and performance of child care providers.
- Enhancement of states' capacity to collect administrative data and conduct policy-relevant research and analysis.
- Development of the Child Care and Early Education Research Connections archive to provide web-based access to reports, papers, briefs, data and other research-related information to child care researchers and policymakers.
- Promotion of research partnerships involving a variety of stakeholders to link research, policy and practice.

**Performance Analysis**— A PART review was conducted during the FY 2006 budget process and the Child Care program was rated Moderately Effective. This process resulted in the Child Care Bureau (CCB) modifying most of its long-term goals and short-term measures to improve their precision as indicators of performance.

The child care program has two long-term goals. The first goal is designed to promote employment and self-sufficiency by measuring how many children of low-income working families are being served through CCDF and whether there are increases in the proportion of centers and homes that serve CCDF families. ACF has established baselines for the measures under this goal, but does not yet have results available to compare to the baseline year.

The second long-term goal is designed to promote the quality of care and school-readiness of children ages 3 to 5 by measuring how many states have implemented state early learning guidelines in literacy, language, pre-reading and numeracy for children and the extent to which there are increases in the number of regulated/accredited child care centers and homes nationwide. ACF has established a baseline for the school readiness measure but does not yet have results available. For the second measure, ACF met its target in CY 2004 (see box below for more detail).

Performance Goal	Results	Context
<p>Increase by 10% the number of regulated child care centers and homes nationwide accredited by a recognized early childhood development professional organization.</p>	<p>The results for this measure indicate that the CY 2004 annual target was met. The number of accredited child care facilities has increased every year since 2001.</p>	<p>During CY 2004 several factors influenced the level of accredited programs:</p> <ul style="list-style-type: none"> <li>▪ A number of states used CCDF quality dollars to support accreditation efforts through grants and technical assistance.</li> <li>▪ A growing number of states established quality rating systems, often tied to accreditation, that inform parents and the public about the quality of particular early care and education settings. Many states also rewarded accredited programs with higher subsidy payment rates.</li> <li>▪ The National Association for the Education of Young Children (NAEYC) revised its accreditation system. The new system became fully operational in 2005. The effects on this measure could be substantial because NAEYC accredits a large proportion of child care facilities.</li> <li>▪ States indicated that increasing numbers of providers are now being accredited using state-recognized systems. The Child Care Bureau is exploring options for collecting this state-specific information.</li> </ul>

**Rationale for the Budget Request** — The 2007 request is the same as the FY 2006 enacted level. This request will continue ACF’s commitment to providing resources that allow families to become and remain self-sufficient and productive members of society. These funds also allow families to access quality child care, which promotes child development, literacy, and school readiness. This request will support continuing research, demonstration, and evaluation activities. Increasing our knowledge of what child care services and systems work best and disseminating that knowledge throughout the country are important steps in improving the quality of care provided to our children. Research and evaluation will provide information and data for policy makers to make decisions about how best to use resources and develop innovative child care strategies. In consultation with researchers, policy makers and practitioners, ACF developed a comprehensive research agenda to develop the capacity to support ongoing and future child care research while at the same time answering key questions for child care policy, planning, and program administration.

Children and Families Services Programs

For carrying out, except as otherwise provided, the Runaway and Homeless Youth Act, the Developmental Disabilities Assistance and Bill of Rights Act, the Head Start Act, the Child Abuse Prevention and Treatment Act, sections 310 and 316 of the Family Violence Prevention and Services Act, as amended, the Native American Programs Act of 1974, title II of Public Law 95-266 (adoption opportunities), the Adoption and Safe Families Act of 1997 (Public Law 105-89), sections 1201 and 1211 of the Children's Health Act of 2000, the Abandoned Infants Assistance Act of 1988, sections 261 and 291 of the Help America Vote Act of 2002, part B(1) of title IV and sections 413,[ 429A,] 1110, and 1115 of the Social Security Act,[ and sections 40155, 40211, and 40241 of Public Law 103-322; for making payments under the Community Services Block Grant Act,] sections 439(h)[, 473A,] and 477(i) of the Social Security Act, and title IV of Public Law 105-285, and for necessary administrative expenses to carry out said Acts and titles I, IV, V, X, XI, XIV, XVI, and XX of the Social Security Act,[ the Act of July 5, 1960 (24 U.S.C. ch. 9),] the Omnibus Budget Reconciliation Act of 1981, title IV of the Immigration and Nationality Act, section 501 of the Refugee Education Assistance Act of 1980,[ sections 40155, 40211, and 40241 of Public Law 103-322, and section 126] and titles IV and V of Public Law 100-485, [\$8,922,213,000]\$8,238,603,000, of which [\$18,000,000]\$29,654,000, to remain available until September 30, [2007]2008, shall be for grants to States for adoption incentive payments, as authorized by section 473A of[ title IV of] the Social Security Act[ (42 U.S.C. 670-679)] and may be made for adoptions completed before September 30, [2006]2007: *Provided*, That [\$6,843,114,000]\$6,785,771,000 shall be for making payments under the Head Start Act, of which \$1,388,800,000 shall become available October 1, [2006]2007, and remain available through September 30, [2007: *Provided further*, That \$701,590,000 shall be for making payments under the Community Services Block Grant Act: *Provided further*, That not less than \$7,367,000 shall be for section 680(3)(B) of the Community Services Block Grant Act:]2008: *Provided further*, That in addition to amounts provided herein, \$6,000,000 shall be available from amounts available under section 241 of the Public Health Service Act to carry out the

provisions of section 1110 of the Social Security Act: *Provided further*, That to the extent Community Services Block Grant funds are distributed as grant funds by a State to an eligible entity as provided under the Act, and have not been expended by such entity, they shall remain with such entity for carryover into the next fiscal year for expenditure by such entity consistent with program purposes: *Provided further*, That the Secretary shall establish procedures regarding the disposition of intangible property which permits grant funds, or intangible assets acquired with funds authorized under section 680 of the Community Services Block Grant Act, as amended, to become the sole property of such grantees after a period of not more than 12 years after the end of the grant for purposes and uses consistent with the original grant: *Provided further*, That funds appropriated for section 680(a)(2) of the Community Services Block Grant Act, as amended, shall be available for financing construction and rehabilitation and loans or investments in private business enterprises owned by community development corporations:] *Provided further*, That [\$65,000,000]\$100,000,000 is for a compassion capital fund to provide grants to charitable organizations to emulate model social service programs and to encourage research on the best practices of social service organizations: *Provided further*, That [\$15,879,000]\$15,720,000 shall be for activities authorized by the Help America Vote Act of 2002, of which [\$11,000,000]\$10,890,000 shall be for payments to States to promote access for voters with disabilities, and of which [\$4,879,000]\$4,830,000 shall be for payments to States for protection and advocacy systems for voters with disabilities: *Provided further*, That [\$110,000,000]\$136,665,000 shall be for making competitive grants to provide abstinence education (as defined by section 510(b)(2) of the Social Security Act) to adolescents, and for federal costs of administering the grant: *Provided further*, That grants under the immediately preceding proviso shall be made only to public and private entities which agree that, with respect to an adolescent to whom the entities provide abstinence education under such grant, the entities will not provide to that adolescent any other education regarding sexual conduct, except that, in the case of an entity expressly required by law to provide health information or services the adolescent shall not be precluded from seeking health information or services from the entity in a different setting than the setting in which abstinence education was provided: *Provided further*, That within amounts provided herein for abstinence education for

adolescents, up to \$10,000,000 may be available for a national abstinence education campaign: *Provided further*, That in addition to amounts provided herein for abstinence education for adolescents, \$4,500,000 shall be available from amounts available under section 241 of the Public Health Service Act to carry out evaluations (including longitudinal evaluations) of adolescent pregnancy prevention approaches:

*Provided further*, That \$2,000,000 shall be for improving the Public Assistance Reporting Information System, including grants to States to support data collection for a study of the system's effectiveness.

[Of the funds provided under this heading in Public Law 108-447 to carry out section 473A of title IV of the Social Security Act (42 U.S.C. 670-679), \$22,500,000 are rescinded.]

*Department of Health and Human Services Appropriations Act, 2006.*

[For an additional amount for “Children and Families Services Programs”, \$90,000,000, for Head Start to serve children displaced by hurricanes in the Gulf of Mexico in calendar year 2005, notwithstanding sections 640(a)(1) and 640(g)(1) of the Head Start Act, and to cover the costs of renovating those Head Start facilities which were affected by these hurricanes, to the extent reimbursements from FEMA and insurance companies do not fully cover such costs: *Provided*, That the amount provided under this heading is designated as an emergency requirement pursuant to section 402 of H. Con. Res. 95 (109<sup>th</sup> Congress), the concurrent resolution on the budget for fiscal year 2006.]

*Emergency Supplemental Appropriations Act to Address Hurricanes in the Gulf of Mexico and Pandemic Influenza, 2006.*

## LANGUAGE ANALYSIS

Language Provision	Explanation
“...[ 429A,] ...”	This section can be deleted because it is included in the previously referenced part B(1) of title IV of the Social Security Act (SSA).
“...[ and sections 40155, 40211, and 40241 of Public Law 103-322; for making payments under the Community Services Block Grant Act,]...”	This language can be deleted because section 40155 is included in the previously referenced Runaway and Homeless Youth Act and sections 40211 and 40241 are included in the previously referenced Family Violence Prevention and Services Act. This language can be deleted because no funding is being requested for the Community Services Programs in FY 2007.
“...[, 473A,]...”	This section can be deleted because it is included in the previously referenced Adoption and Safe Families Act of 1997.
“...[ the Act of July 5, 1960 (24 U.S.C. ch. 9),]...”	This language, which provides the authorization for the Repatriation Program, can be deleted since authority for the program is contained in title XI (section 1113) of the Social Security Act, which is previously cited.
“...[ sections 40155, 40211, and 40241 of Public Law 103-322, and section 126]...”	This language can be deleted because section 40155 is included in the previously referenced Runaway and Homeless Youth Act and sections 40211 and 40241 are included in the previously referenced Family Violence Prevention and Services Act.
“...[ title IV of]...”	This language can be deleted because a reference simply to section 473A is sufficient.
“...[ (42 U.S.C. 670-679)]...”	This section can be deleted because the reference to the underlying Social Security Act is sufficient.

“...[ *Provided further*, That \$701,590,000 shall be for making payments under the Community Services Block Grant Act: *Provided further*, That not less than \$7,367,000...680(3)(B) of the Community Services Block Grant Act]...”

This language can be deleted because no funding is being requested for the Community Services Programs in FY 2007.

“...[ *Provided further*, That to the extent Community Services Block Grant funds ...or investments in private business enterprises owned by community development corporations:]...”

This language can be deleted because no funding is being requested for the Community Services Programs in FY 2007.

“[Of the funds provided...\$22,500,000 are rescinded.]”

This language can be deleted because the rescission language relates to FY 2006.

Children and Families Services Program

SIGNIFICANT ITEMS IN HOUSE, SENATE AND CONFERENCE  
APPROPRIATIONS COMMITTEE REPORTS

FY 2006 House and Senate Appropriations Committees Report Language

Item

**[Head Start migrant and seasonal programs]** – The Committee is aware that in May of 2005, the Secretary made \$35,000,000 in additional fiscal year 2005 funds available to Migrant and Seasonal Head Start programs and that these funds, which will be awarded on competitive basis, will allow for at least 4,000 additional children to access Migrant and Seasonal Head Start. The Committee acknowledges that these expansion funds will increase access to this important program, however additional funding may be necessary to adequately serve this population. The Committee requests that the Secretary submit a report on the Head Start Bureau's ongoing plans to ensure that Migrant and Seasonal Head Start programs are able to serve a larger percentage of the children eligible for services. The Committee continues to point to the 2001 study published by the U.S. Department of Health and Human Services that documented that only 19 percent of eligible children were able to access Migrant and Seasonal Head Start. (H. Rpt. 109-143, p. 129)

Item

**[Head Start migrant and seasonal programs]** – The Committee is aware that in May 2005, the Secretary made \$35,000,000 in additional fiscal year 2005 funds available to Migrant and Seasonal Head Start programs and that these funds, which will be awarded on competitive basis, will allow for at least 4,000 additional children to access Migrant and Seasonal Head Start. The Committee acknowledges that these expansion funds will increase access to this important program, however additional funding may be necessary to adequately serve this population. The Committee requests that the Secretary submit a report on the Bureau's ongoing plans to ensure that Migrant and Seasonal Head Start programs are able to serve a larger percentage of the children eligible for services. The Committee continues to point to the 2001 study published by the U.S. Department of Health and Human Services which documented that only 19 percent of eligible children were able to access Migrant and Seasonal Head Start. (S. Rpt. 109-103, p. 202)

Action taken or to be taken

In fiscal year 2005, ACF announced the availability of up to \$35 million in Head Start funding to serve as many as 4,000 additional children of migrant farm workers. Eighteen applications were received in response to this announcement. These applications were reviewed by a three person panel composed of individuals knowledgeable about migrant Head Start.

ACF will be sending a team to visit those applicants with the best rated proposals to discuss with these applicants their funding proposal and in 2006 grant awards will be issued, thereby, allowing these programs to serve additional migrant children and families.

Item

**[Services for pregnant and parenting youth]** – It is the Committee's continued expectation that current transitional living program grantees will continue to provide transitional living program grantees will continue to provide transitional living opportunities and supports to pregnant and parenting homeless youth, as is their current practice. To further ensure that pregnant and parenting homeless youth are able to access transitional living opportunities and supports in their communities, the Committee encourages the Secretary, acting through the network of federally-funded runaway and homeless youth training and

technical assistance providers, to offer guidance to grantees and others on the programmatic modifications required to address the unique needs of pregnant and parenting youth and on the various sources of funding available for residential services to this population. (H. Rpt. 109-143, p. 131)

Item

**[Services for pregnant and parenting youth]** – It is the Committee’s expectation that current and future TLP grantees will continue to provide transitional living opportunities and support to pregnant and parenting homeless youth, as is their current practice. To further ensure that pregnant and parenting homeless youth are able to access transitional living opportunities and support in their communities, the Committee encourages the Secretary, acting through the network of federally-funded runaway and homeless youth training and technical assistance providers, to offer guidance to grantees and others on the programmatic modifications required to address the unique needs of pregnant and parenting youth and on the various sources of funding available for residential services to this population. (S. Rpt. 109-103, p. 203)

Action taken or to be taken

ACF awarded cooperative agreement grants to ten runaway and homeless youth training and technical assistance providers for the purpose of providing intensive, skill-based training and technical assistance to newly funded and inexperienced RHY grantees. One of the core services established in each agreement is the provision of training and technical assistance to Transitional Living Program (TLP) grantees on the programmatic modifications required to address the unique needs of pregnant and parenting youth and the programs that serve them.

ACF in collaboration with the training and technical assistance provider for the Southeast hosted a national pregnant and parenting teen services meeting for those Transitional Living Programs serving pregnant and/or parenting teens in 2005. ACF will continue to expand this effort by hosting conferences, forums and the provision of one-on-one training and technical assistance during 2006.

FY 2006 House Appropriations Committee Report Language (H. Rpt 109-143)

Item

**[Head Start family literacy services]** – The Committee notes that the current Head Start Act includes the provision of training and technical assistance in the area of family literacy services--a provision that is retained in the House version of Head Start reauthorization legislation. Pending the final resolution of the Head Start reauthorization process, the Committee encourages the Secretary to ensure the continuity of the important services that are being provided through the Head Start Family Literacy Project. (p. 130)

Action taken or to be taken

In FY 2005 Head Start entered into a five-year cooperative agreement with the California Institute on Human Services at Sonoma State University in California. Head Start will support this agreement with \$3 million a year. With these funds the Institute will provide family literacy training and technical assistance to Head Start and Early Head Start programs nationwide so that they may provide high quality family literacy services of sufficient intensity and duration to ensure positive child and family outcomes.

Item

**[Abstinence education program]** – The Committee encourages ACF to seek appropriate partnerships with the Corporation for National and Community Services to utilize its corps of volunteers to support and strengthen the community-based abstinence education program. The Corporation’s programs include volunteer and mentoring personnel that could be accessed to further bolster the goals of abstinence-only education. (p. 138)

### Action taken or to be taken

ACF invited senior officials from the Corporation for National and Community Service (CNCS) to present at a Community-Based Abstinence Education (CBAE) training and technical assistance conference in February 2006. In addition, we anticipate additional opportunities to collaborate with CNCS through conferences, training and on-going communication throughout the year. It is ACF's desire that through this collaboration, significant numbers of CBAE grantees will be able to utilize CNCS volunteers to strengthen program performance.

### Item

***[Use of the five percent set-aside for abstinence-only programs]*** – The Committee is concerned that the funding for training and technical assistance is not being used effectively to help communities develop abstinence-only programs and to support existing community-based programs. The Administration for Children and Families (ACF) should fully utilize the set-aside to ensure that programs around the country are using appropriate and approved curricula that are evidence-based and comply with the appropriate federal legislation. To that end, the Committee directs ACF to issue a report to the House and Senate Committees on Appropriations by no later than 90 days of enactment of this Act on the use of the five percent set-aside since the transfer of the program from the Health Resources and Services Administration and the intended use of the fiscal year 2006 funds. Also include in this report the funds from the National Abstinence Education Campaign that are being used for training and technical assistance. (p. 138)

### Action taken or to be taken

Following is information on ACF use of the technical assistance and capacity-building set-aside in fiscal year 2005 and planned use in fiscal year 2006.

#### Fiscal Year 2005 - \$3.1 million

The Departments of Labor, Health and Human Services, and Education, and Related Appropriations Bill, 2005 provided that up to five percent of the appropriated funds for abstinence community based grants, "...be used to provide technical assistance and capacity-building support to grantees." The delegation of authority for ACF to administer the Community-Based Abstinence Education program was signed on May 31, 2005. To comply with the language in the appropriation bill, ACF implemented a Training and Technical Assistance Allocation and Management Plan, consisting of the following three tasks:

#### Task #1. Contract with National Capacity Building Organization (\$2.3 million)

Many abstinence education providers are small and relatively young organizations that may not have the organizational capacity and sophistication to successfully manage large federal grants. Therefore, ACF awarded a contract to train grantees to implement sound business practices; help grantees ensure their curricula reflects current medical and scientific research, ensuring that programs comply with Congressional standards; train grantee staff evaluate their programs effectively; and help grantees communicate clearly to constituent groups. Additionally, a portion of this contract will support a national grantee conference.

#### Task #2 – Centers for Groups at High Risk for Out-of-wedlock Pregnancies (\$500,000)

Different populations require unique outreach to effectively deliver abstinence education services within their respective communities. Title 5 of the Social Security Act recognized this need when it defined abstinence education as focused "...on those groups which are most likely to bear children out-of-wedlock." For this reason, ACF has completed the statement of work for a contract to study successful approaches for delivering abstinence-until-marriage education services to groups that are at high risk for out-of-wedlock pregnancies. The contract will study culturally appropriate abstinence-until-marriage

messages, resources and training for African-American, Hispanic/Latino-American and Native American populations, and disseminate these results to grantees. This contractor will work with grantees to broaden their programs to effectively serve underserved populations.

#### Task #3 – Abstinence-Until-Marriage Grantee Evaluation Conference (\$300,000)

This conference provided a forum for abstinence-until-marriage program grantees to share the results of program evaluations and identify needed elements for successful evaluation (and for program success). The conference educated grantees about evaluation, assisted grantees in conducting high-quality evaluations, and facilitated manuscript submissions to peer-reviewed journals for those with high-quality evaluations.

#### Fiscal Year 2006 - \$5.5 million

The Department of Health and Human Services Appropriations Act, 2006 included a five percent training and technical assistance set-aside and asked that HHS fully utilize the set-aside “to ensure that programs around the country are using appropriate and approved curricula that are evidence-based and comply with the appropriate federal legislation.” In response, ACF devised a Training and Technical Assistance Allocation and Management Plan consisting of five tasks (the first four of which build on the fiscal year 2005 plan):

#### Task #1. Continuation and Modification of Contract with National Capacity Building Organization (\$3.7 million)

The contract is for one year, with two option years. Modify this contract awarded in fiscal year 2005 to accommodate a number of additional tasks including design and management of a government website devoted to abstinence-until-marriage education issues, development of a routine communications function with grantees, distribution to local communities of the media spots generated by the National Education Campaign, logistics and meeting planning, developmental support for unsuccessful applicants, and monitoring grantees through site visits and meetings with grantees.

#### Task #2 – Centers for Groups at High Risk for Out-of-wedlock Pregnancies (\$500,000)

Contract with a research firm to study grantees, identify best practices in dealing with high risk populations, and disseminate the best practices to the entire field of federally funded abstinence education grantees.

#### Task #3 – Abstinence Until Marriage Grantee Evaluation Conference (\$400,000)

#### Task #4 – Training, Travel and Communications for Federal Staff to Monitor CBAE Grantees (\$300,000)

#### Task #5– Surveys of Abstinence Education Curricula and Comprehensive Sex Education Curricula (\$600,000)

Abstinence education grantees are faced with a myriad of choices among competing curricula. As a guide to help grantees make informed choices, we would have conducted, through a competitive contract, a curricula review of all abstinence curricula currently available. Federal staff will then utilize the information to help deliver technical assistance to grantees who need clarification to comply with the laws governing the program. We would also have a review of comprehensive sex education curricula conducted, competed under a separate contract, to better inform abstinence grantees under the

Community-Based Abstinence Education program of what is included in a comprehensive sex education curricula and why these curricula are different than what is funded under this program.

Funds from National Education Campaign Used for Training and Technical Assistance

None of the funds targeted to the National Education Campaign is set-aside for training and technical assistance. However, in a general sense, all of the funds devoted to the abstinence National Education Campaign are being used to assist CBAE grantees. These funds will provide high-level media support for the education services that abstinence grantees are delivering on a regional and local level. In fiscal year 2006, we anticipate utilizing \$150,000 of the technical assistance funds to distribute some of the work products generated by the campaign to CBAE grantees and \$50,000-\$100,000 to have the National Education Campaign contractors present their findings at a training and technical assistance conferences.

FY 2006 Senate Appropriations Committee Report Language (S. Rpt 109-103)

Item

**[Construction]** – The Committee understands the serious need for additional and expanded Head Start facilities among Native American populations and in rural areas. The Committee believes that the Department could help serve these needy communities by providing minor construction funding, as authorized, in remote Native American communities. (p. 201)

Action taken or to be taken

HHS will work with its Native American Head Start grantees to identify those communities which have facilities that are in need of minor repair. In FY 2005, Head Start made available approximately \$450,000 to Native American grantees for facility renovation. In FY 2006, we will again assess grantee needs and allocate appropriate resources.

Item

**[Head Start teacher qualifications]** – The Committee strongly supports the effort to strengthen the qualifications of Head Start teachers. While the Committee is pleased that the percentage of teachers with an associate, baccalaureate, or advanced degree in early childhood education, or a degree in a related field with experience in teaching preschool children has reached 65 percent, the Committee encourages Head Start to continue to work toward the goal of 100 percent. The Committee expects the Department to focus staff development efforts on increasing the educational level of Head Start teachers in order to meet this goal. (p. 201)

Action taken or to be taken

HHS is pleased to report that more than 69% of Head Start teachers now have an associate, baccalaureate, or advanced degree in early childhood education and that 37% have at least a Bachelor’s degree. The Department will continue its efforts in this area.

Item

**[Head Start transportation]** – The Head Start Bureau shall continue to provide the Committee with the number and cost of buses purchased, by region with Head Start in the annual congressional budget justification. (p. 202)

Action taken or to be taken

During the 2004-2005 program year, Head Start programs purchased 473 buses at an estimated cost of \$21,285,000. Specific data on the number and cost of buses purchased by ACF region is provided below:

04-05 Program Year	# Buses	
Region I	11	\$495,000
Region II	31	\$1,395,000

Region III	36	\$1,620,000
Region IV	104	\$4,680,000
Region V	86	\$3,870,000
Region VI	74	\$3,330,000
Region VII	20	\$900,000
Region VIII	7	\$315,000
Region IX	49	\$2,205,000
Region X	14	\$630,000
Indians	23	\$1,035,000
Migrants	18	\$810,000
TOTAL	473	\$21,285,000

**[Social work training research and support]** – Given research on failings in the Child and Family Services Reviews [CFSTRs] and the States’ continuing challenges in recruiting and retaining qualified child welfare personnel, particularly those who hold a degree in social work, the Committee encourages ACF to continue to provide grants to schools of social work and traineeships to social work students being trained in the specialty of child welfare. The Committee also encourages ACF to provide funding for research into how specially trained social work personnel affect outcomes for children and families. (p. 205)

Action taken or to be taken

The Administration for Children and Families (ACF) has set in motion grant activities to explore the effectiveness of child welfare training programs for improving both child welfare practice and child welfare client outcomes. This strategy includes a national evaluation of training initiatives involving youth transitioning out of foster care through the independent living program and 47 child welfare training grants.

In addition, ACF is seeking to develop and maintain a strong university–public agency partnership with the goal of identifying and developing the appropriate staff competencies for working effectively in the field of child welfare. Eight projects involving training models to recruit and retain a strong workforce in child welfare currently are being implemented. Emphasis is placed on demonstrating a comprehensive and effective framework for developing, recruiting and retaining public child welfare staff. This includes activities designed to increase the percentage of professionally educated staff; strengthen supervisory and managerial capacity; develop organizational commitment through improved communication, employee decision making and input; develop turnover prevention strategies and evidenced-based practice related to recruitment and retention of a diverse workforce; and, strengthen relationships between public child welfare and schools of social work.

Finally, ACF sponsored a national Child Welfare Workforce Development and Workplace Enhancement Institute: Knowledge Development and Application in October, 2005 highlighting such workforce issues as leadership, organizational development, evidence-based and research-supported practices in recruiting and retaining staff, and the role of training in an overall workforce environment. Individuals from 40 states participated, with approximately 50 percent of participants from institutions of higher learning (primarily from schools of social work) and the remaining 50 percent from child welfare provider agencies and national child welfare organizations.

## Children and Families Services Programs

### Justification

	2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
Budget Authority	\$8,996,251,000	\$8,844,079,000	\$8,238,603,000	-\$605,476,000
FTE	1,330	1,327	1,319	-8

### General Statement

The FY 2007 request for Children and Families Services Programs is \$8,238,603,000, a net decrease of \$605,476,000 from the 2006 enacted level. This budget would support 1,319 FTE in FY 2007, a decrease of 8 from the 2006 enacted level.

Highlights of the FY 2007 request for Children and Families Services Programs include:

- Community-Based Abstinence Education (+\$27.8 million) – This increase would fund 50 more grants than in FY 2006.
- Compassion Capital Fund (+\$35.7 million) – This increase will support 16 more intermediary organizations serving grassroots faith-based and community organizations nationwide under the Demonstration program and 10 more youth gang grants to continue support of the First Lady’s Helping America’s Youth Initiative than in FY 2006.

HEAD START

Authorizing Legislation – Section 639 of the Head Start Act.

	2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
Current Funding	\$5,454,314,000	\$5,399,771,000	\$5,396,971,000	-\$2,800,000
Advance from Prior Year	1,388,800,000	1,386,000,000	1,388,800,000	+2,800,000
Advance Funding Enacted/Requested	[1,400,000,000]	[1,388,800,000]	[1,388,800,000]	
Total, BA	\$6,843,114,000	\$6,785,771,000	\$6,785,771,000	\$0
<i>Hurricane Relief Funding</i>		<i>\$90,000,000<sup>1</sup></i>		

2007 Authorization... Such sums as may be appropriated (legislation to reauthorize the program is pending Congressional action).

**Statement of the Budget Request** – The FY 2007 budget request for the Head Start program of \$6,785,771,000 will provide sufficient funds to ensure the provision of comprehensive, high quality Head Start services to approximately 917,000 disadvantaged children and families.

**Program Description** – The Head Start program provides grants to local public and private non-profit and for-profit agencies to provide comprehensive child development services to economically disadvantaged children and families, with a special focus on helping preschoolers develop the early reading and math skills they need to be successful in school. In FY 1995, the Early Head Start program was established to serve children from birth to three years of age in recognition of the mounting evidence that the earliest years matter a great deal to children's growth and development.

Head Start programs promote school readiness by enhancing the social and cognitive development of children through the provision of educational, health, nutritional, social and other services to enrolled children and families. They engage parents in their children's learning and help them in making progress toward their educational, literacy and employment goals. Significant emphasis is placed on the involvement of parents in the administration of local Head Start programs.

Head Start grantees must, unless a waiver is granted, contribute 20 percent of the total cost of the program from non-federal funds. No more than 15 percent of total costs may be for program administration. Each Head Start program must make at least ten percent of its enrollment opportunities available to children with disabilities.

Funding for the Head Start program during the last five years has been as follows:

	<u>Current</u>	<u>Advance</u>	<u>Total</u>
2002 .....	\$5,136,570,000	\$1,400,000,000	\$6,536,570,000
2003.....	\$5,267,533,000	\$1,400,000,000	\$6,667,533,000

<sup>1</sup> Represents one-time emergency funding provided in the Department of Defense, Emergency Supplemental Appropriations to Address Hurricanes in the Gulf of Mexico, and Pandemic Influenza Act, 2006 to serve children displaced by these hurricanes and to cover the costs of renovating damaged Head Start facilities.

2004 .....	\$5,383,108,000	\$1,391,740,000	\$6,774,848,000
2005.....	\$5,454,314,000	\$1,388,800,000	\$6,843,114,000
2006.....	\$5,399,471,000	\$1,386,000,000	\$6,785,771,000
2006.....	\$90,000,000 <sup>2</sup>	\$0	\$90,000,000

**Performance Analysis** — A PART review was conducted as part of the FY 2004 budget process, and the program was rated Results Not Demonstrated. This process resulted in the program creating a new assessment tool, proposing legislation to better integrate services, and developing a long-term performance measure to assess the progress of grantees.

Head Start has a total of eleven performance measures that assess children’s achievements in literacy, numeracy, social skills, and health, as well as the program’s achievements in classroom quality. Seven of these measures have targets; of the remaining four measures, one – using data from the National Reporting System – is still in the developmental stage, and targets for another measure related to underenrollment will be established for the first time this year. Data for FY 2005 are not yet available on the remaining two measures.

Performance Goal	Results	Context
Increase the percentage of teachers with AA, BA or advanced degrees in Early Childhood Education.	The program exceeded the 65 percent FY 2005 target. As of FY 2005, 69 percent of teachers have one of these degrees.	This performance goal reflects the requirements included in the 1998 reauthorization of the Head Start program that, by September 30, 2003, at least half of all Head Start teachers have at least an AA degree in Early Childhood Education.

**Rationale for the Budget Request** — The FY 2007 request of \$6,785,771,000 is the same as the FY 2006 enacted level and will allow local programs to serve approximately 917,000 low-income children and families. This request assumes enactment of the Administration’s reauthorization proposal for the Head Start program currently under consideration by Congress, including the change to the current statutory set-aside for training and technical assistance (T&TA) to afford the Secretary more discretionary authority to allocate these resources each year in a manner that would maximize benefits to children and families.

Head Start will maintain its strong commitment to providing comprehensive child development services to economically disadvantaged children and families, with a special focus on helping children develop the early reading and math skills they need to be successful in school. As part of this commitment, we will continue to fund the two comprehensive evaluation efforts designed to measure Head Start’s overall effectiveness—the Family and Children Experiences Survey (FACES) and the National Impact Study.

As another part of this commitment, ACF will continue efforts begun in FY 2006 to improve our stewardship responsibilities. We will continue efforts to strengthen our monitoring system to make it more accurate, objective and consistent across regions. We are, as well, improving our management information systems, including development of an integrated data base which will contain all the data available to ACF on each Head Start grantee. This integrated system will allow us to take a much more holistic look at a grantee’s performance.

<sup>2</sup> Represents one-time emergency funding provided in the Department of Defense, Emergency Supplemental Appropriations to Address Hurricanes in the Gulf of Mexico, and Pandemic Influenza Act, 2006 to serve children displaced by these hurricanes and to cover the costs of renovating damaged Head Start facilities.

Further, Head Start will continue the National Reporting System (NRS) in which all four and five year old children will be assessed at the beginning and end of the program year in order to determine some of the skills with which they enter Head Start, their levels of achievement when they leave Head Start and the progress they make during the Head Start year. Children will be assessed in such areas as language comprehension, vocabulary, phonemic and numeracy awareness, letter recognition and, for children whose native language is other than English, progress toward acquisition of the English language.

## RUNAWAY AND HOMELESS YOUTH PROGRAM

Authorizing Legislation – Section 388(a)(1) of the Runaway and Homeless Youth Act.

	2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
Basic Centers	\$48,786,000	\$48,298,000	\$48,298,000	\$0
Transitional Living (including Maternity Group Homes)	39,938,000	39,539,000	39,539,000	0
Total, BA	\$88,724,000	\$87,837,000	\$87,837,000	\$0

2007 Authorization... Such sums as may be appropriated.

**Statement of the Budget Request** – The FY 2007 budget request for the Runaway and Homeless Youth Program of \$87,837,000 will provide continued funding for Basic Centers and Transitional Living services to youth who find themselves homeless.

**Program Description** – The Runaway and Homeless Youth Program provides grants to public and private organizations to establish and operate runaway and homeless youth shelters and Transitional Living Programs including maternity group homes. Grants are used to develop or strengthen community-based shelters that are not a part of the law enforcement, juvenile justice, child welfare and mental health systems.

Under Part A, the **Basic Center Program** funds grants to community-based public and private agencies for the provision of outreach, crisis intervention, temporary shelter, counseling, family unification and aftercare services to runaway and homeless youth and their families. Basic Centers can provide 15 days of shelter for up to 20 youth with an exception in those jurisdictions that require a higher limit in order to be licensed as a Basic Center program. Funds available for the Basic Center Program are allotted among the states using a formula based on the population of youth less than 18 years of age as a proportion of the national population.

Under Part B, the **Transitional Living Program** funds grants to public and private organizations to support projects that provide not more than 20 youth with stable, safe longer-term residential services for 540 days to homeless youth ages 16-21. An additional 180 days is allowed if the youth has not reached age 18. These services include counseling in basic life skills, interpersonal skill building, educational advancement, job attainment skills, and physical and mental health care. These services are designed to help youth that are homeless develop the skills necessary to make a successful transition to self-sufficient living. These community-based, adult-supervised group homes provide safe, stable, nurturing environments for youth who cannot live safely with their own families.

In addition, under the Transitional Living Program, a **Maternity Group Homes** component provides women who are vulnerable to abuse, neglect and poverty targeted community-based, adult-supervised group homes for them and their children. Maternity Group Home programs provide a range of coordinated services such as child care, education, job training, health and nutrition, counseling and advice on parenting and life skills to young mothers to assist them in moving forward with their lives.

Funding also is provided for the national toll-free runaway and homeless youth crisis hotline that responds to approximately 120,000 calls a year. Of these calls, 44 percent come from youth, 36 percent

come from parents and the remaining 20 percent are general information and client-related calls.

Funding for the Runaway and Homeless Youth program during the last five years has been as follows:

2002 .....	\$88,023,000
2003 .....	\$89,978,000
2004 .....	\$89,431,000
2005 .....	\$88,724,000
2006 .....	\$87,837,000

**Performance Analysis** — A PART review was conducted as part of the FY 2005 budget process and the program was rated Results Not Demonstrated. This process resulted in the program modifying some of its long-term goals and short-term measures to improve their precision as indicators of performance.

Performance Goal	Results	Context
Increase the proportion of youth living in safe and appropriate settings after exiting ACF-funded RHY services.	<p>In FY 2005 the Transitional Living Program (TLP residential services) improved from 77.7 percent safe exits to 81.8 percent. The much larger Basic Center Program (BCP emergency shelters) remained basically stable, with a slight drop of 0.4 percent from the FY 2004 level.</p> <p>For the combined programs, 89.3 percent of youth were living in safe/appropriate settings after exiting RHY services. The target was 92 percent.</p>	<p>While the FY 2005 target was not met, the RHY program improved results for TLP by applying recent caseload analysis findings. This involved focusing more grantee attention on youths' completions of their programs, effective exit care, discharge planning, and aftercare, as well as targeted in-service activities and treatment.</p> <p>Further, the TLP efficiency measure exceeded its target, i.e., the completion (graduation) rate increased 4 full percentage points and the "expulsion" rate declined by 2.6 percent, also as a result of ACF's focus on discharge planning, etc. Similar BCP research was completed in FY 2005 and ACF expects that the application of insights derived from that research will cause a similar improvement.</p>

**Rationale for the Budget Request** — The FY 2007 budget request for the Runaway and Homeless Youth Program is \$87,837,000, the same funding level as the FY 2006 enacted amount. In FY 2007, this funding request will support 328 Basic Center Programs and 193 Transitional Living Programs, including maternity group homes that provide transitional living opportunities to pregnant and parenting homeless youth.

In addition, in order to reach more vulnerable youth, ACF will begin using vouchers to provide maternity group home services. We estimate that \$4 million will be available to support approximately 100 vouchers to pregnant and parenting homeless youth. A grant will be competitively awarded to a national organization for the purpose of issuing vouchers. The organization also would be responsible for recruiting and accrediting Maternity Group Home programs nationwide and coordinating with existing grantees to identify those teens seeking these types of specialized services.

EDUCATION AND PREVENTION GRANTS TO REDUCE SEXUAL ABUSE OF RUNAWAY, HOMELESS AND STREET YOUTH

Authorizing Legislation – Section 388(a)(4) of the Runaway and Homeless Youth Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$15,178,000	\$15,027,000	\$15,027,000	\$0

2007 Authorization....Such sums as may be appropriated.

**Statement of the Budget Request** – The FY 2007 budget request for the Education and Prevention Grants to Reduce Sexual Abuse of Runaway, Homeless and Street Youth program of \$15,127,000 will provide funding to assist private, non-profit agencies in meeting the critical needs of the runaway, homeless and street youth population.

**Program Description** – The Runaway and Homeless Youth Act (RHYA) provides grants to private, non-profit agencies for street-based outreach and education, including treatment, counseling, provision of information, and referral for runaway, homeless and street youth who have been subjected to or are at risk of being subjected to sexual abuse and exploitation. This program is a lifeline for helping youth leave the streets.

Given the transient and sometimes anonymous characteristics of such youth, who often avoid contact with service providers until trust has been established, a data collection tool continue to capture the number of contacts, as well as the tangible assistance provided in the form of food, hygiene packages, and information or referrals given to street youth, many of whom eventually enter RHY shelters for more services. These services will be coordinated with existing services for runaway and homeless youth, namely emergency shelter and transitional living program efforts. The coordination of these resources and programs will increase the capacity to provide outreach to street youth through service organizations.

Funding for the program during the last five years has been as follows:

2002 .....	\$14,999,000
2003 .....	\$15,399,000
2004 .....	\$15,302,000
2005 .....	\$15,178,000
2006 .....	\$15,027,000

**Performance Analysis** – Performance measurement for this program is part of a broader Runaway and Homeless Youth Program performance area. Overall performance information is under Youth Programs in the Detail of Performance Analysis section.

**Rationale for the Budget Request** – The FY 2007 request of \$15,027,000 is the same funding level as the FY 2006 enacted amount. These funds would continue assisting 140 grantees in designing programs that build relationships between grantee staff and street youth for street-based outreach and education.

COMMUNITY-BASED ABSTINENCE EDUCATION (Discretionary funds)

Authorizing Legislation – Section 1110 of the Social Security Act (using the definitions contained in Section 510(b)(2) of the Act).

	2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
Budget Authority	\$99,198,000	\$108,900,000	\$136,665,000	+\$27,765,000
PHS Evaluation Funds	4,500,000	4,500,000	4,500,000	0
Total Program Level	\$103,698,000	\$113,400,000	\$141,165,000	+\$27,765,000

2007 Authorization...Such sums as may be appropriated.

**Statement of the Budget Request** – The FY 2007 budget request for the Community-Based Abstinence Education program of \$141,165,000 will provide funding to assist public and private entities in providing abstinence-until-marriage education to the adolescent population; promote abstinence-until-marriage awareness through a national abstinence education campaign; and provide for a comprehensive evaluation of program activities.

**Program Description** – Community-Based Abstinence Education project grants provide support to public and private entities for the development and implementation of abstinence-until-marriage education programs that conform with the standards contained in Section 510(b)(2) of the Social Security Act for adolescents, ages 12 through 18, in communities nationwide.

The community-based programs are unique in that their entire focus is to educate the adolescent population and create an environment within communities that supports adolescents in making decisions to postpone sexual activity until marriage. There is no match requirement for these grants. In their grant applications, projects must clearly focus on the definition of “abstinence education” in Section 510 of the Social Security Act and agree not to provide a participating adolescent with any other education regarding sexual conduct in the same setting. Priority funding is given to entities that demonstrate a strong record for abstinence-until-marriage education among adolescents.

In addition to the community-based project grants, the funding will provide for comprehensive evaluations (including longitudinal evaluations) of abstinence education programs. Further, Congress directed that up to \$10 million be used to support a national abstinence education campaign. This initiative focuses on establishing a national campaign that equips parents of teens with resources to educate, mentor, and support their children in making the best health choice to abstain from sex, drugs, tobacco and alcohol through effective communication. ACF is partnering with the Office of Public Health and Science (OPHS), Office of Population Affairs (OPA), in developing and implementing this education campaign.

Funding for the Community-Based Abstinence Education program in previous years has been as follows:

2002 .....	\$ 39,985,000
2003 .....	\$ 54,643,000
2004 .....	\$ 74,549,000
2005 .....	\$103,698,000
2006 .....	\$113,400,000

**Performance Analysis** — The long-term goal of this program is to decrease the proportion of students in grades 9-12 who have ever had sexual intercourse to 44.5 percent by 2009 as measured by the Youth Risk Behavior Surveillance System (YRBSS). YRBSS includes a national school-based survey that is conducted every two years and provides data representative of U.S. high school students. Progress toward the 2009 goal will be measured at the 2005 and 2007 intervals of the survey. Progress toward the long-term goal also will be measured by monitoring the rate of births to unmarried teen girls (i.e., births per 1,000 women, ages 15-19) as measured by the National Vital Statistics System (NVSS). NVSS is a federal compilation of data obtained from the registration of vital events, including all birth certificates, in the United States. Statistics are provided annually. Given that abstinence education aims at preventing out-of-wedlock pregnancies, the birth rate among unwed teenagers is a relevant outcome measure. This program has not been subject to the PART process.

Performance Goal	Results	Context
Decrease the proportion of students in grades 9-12 who have ever had sexual intercourse.	There has been a statistically significant decline in sexual activity among American youth from 1995 to 2003. ACF has established a baseline of 46.7 percent for CY 2003; achievement of the 45.5 percent target for CY 2005 will be assessed when data become available in June 2007. The long-term goal of this program is to decrease the proportion of students in grades 9-12 who have ever had sexual intercourse to 44.5 percent by CY 2009.	Reducing the proportion of youth aged 15-19 who engage in sexual intercourse outside of marriage will help reduce a plethora of negative outcomes for children, communities and adults.
Decrease the rate of births to unmarried teenage girls (i.e. births per 1,000 women) ages 15-19.	There has been a statistically significant decline in teen birth rates from 43.8 births per 1,000 unmarried teen mothers in 1995 to 35.4 births in 2002, which is the baseline. In CY 2004, the rate of births per 1,000 unmarried teens dropped to 34.6; ACF's target was the same rate (34.6).	Reducing the rate of birth to unmarried teenage girls aged 15-19 will help reduce a plethora of negative outcomes for children, communities and adults.

**Rationale for the Budget Request** — The 2007 budget request of \$141,165,000 is an increase of \$27,765,000 from the 2006 enacted level and would fund approximately 202 grants (50 more grants than in 2006), \$10 million for the national abstinence education campaign, and \$4.5 million for evaluations of abstinence-until-marriage programs.

Since abstinence from sexual activity is the only certain way to avoid out-of-wedlock pregnancy, sexually transmitted diseases, and other associated health problems, the program will continue the important work of supporting abstinence-until-marriage education programs through various service delivery methods. Some of the proven service delivery methods that successful programs use include club-based and

classroom based methods delivered in a variety of settings including public schools, community centers, hospitals and university settings.

In addition, the Office of the Assistant Secretary for Planning and Evaluation (ASPE) will continue to conduct a rigorous evaluation of the effectiveness of abstinence education programs. Preliminary findings show that students in abstinence education programs were more supportive of abstinence and less supportive of teen sex than students not in programs. The program will use these findings to ensure that programs around the country are delivering services that are evidence-based and result in a significant number of participants in the program succeeding in the abstinence-until-marriage goal.

Further, the September 2005 NVSS report suggests declines in the birth rates of unmarried teen girls may reflect the many public and private efforts that have focused teenagers' attention on the importance of pregnancy prevention through abstinence-until-marriage and responsible behavior. Similarly, the YRBSS has shown significant declines in the proportion of students in grades 9-12 who have ever had sexual intercourse.

ABSTINENCE EDUCATION PROGRAM (Pre-appropriated mandatory funds)

Authorizing Legislation – Section 510 of the Social Security Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$50,000,000	\$50,000,000	\$50,000,000	\$0

2007 Authorization...\$50,000,000 (assumes authorization through December 31, 2006, by enactment of the Deficit Reduction Act of 2005. Legislation will be proposed to reauthorize the program through 2010).

**Statement of the Budget Request** — The FY 2007 budget request for the Abstinence Education Program of \$50,000,000 will provide funding to assist states in providing abstinence education to those groups most likely to bear children out of wedlock.

**Program Description** — Section 510 of the Social Security Act authorized and appropriated each year \$50,000,000 “...to enable the states to provide abstinence education, and at the option of the states, where appropriate, mentoring, counseling, and adult supervision to promote abstinence from sexual activity, with a focus on those groups which are most likely to bear children out-of-wedlock.” This formula grant program to states is allocated using a pro-rata method based on the ratio of the number of low-income children in each state to the total of all low-income children in all states. States are required to match every four dollars they receive of federal abstinence education funds with three non-federal dollars. For example, if a total of \$84 dollars were spent, then \$48 dollars would be federal dollars and \$36 dollars would be state dollars. The non-federal match must be used solely for the activities enumerated under Section 510 and may be state dollars, local government dollars, and/or private dollars such as foundation or in-kind support.

Funding for the Abstinence Education Program during the last five years has been as follows:

2002 .....	\$50,000,000
2003 .....	\$50,000,000
2004 .....	\$50,000,000
2005 .....	\$50,000,000
2006 .....	\$50,000,000

**Performance Analysis** — Performance measurement for this program is part of a broader Community-Based Abstinence Education program performance area. Overall performance information is under Community-Based Abstinence Education program in the Detail of Performance Analysis section.

**Rationale for the Budget Request** — The \$50 million budget request for FY 2007, the same as the FY 2006 enacted level, will support the continued operation of these state programs. The Administration will seek legislation to reauthorized the program.

MENTORING CHILDREN OF PRISONERS

Authorizing Legislation – Section 439(h) of the Social Security Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$49,598,000	\$49,493,000	\$40,000,000	-\$9,493,000

2007 Authorization....\$50,000,000 (as proposed in reauthorization).

**Statement of the Budget Request** – The FY 2007 budget request of \$40,000,000 for the Mentoring Children of Prisoners program will continue providing mentoring relationships for children of arrested and/or incarcerated parents.

**Program Description** – The Mentoring Children of Prisoners program provides competitive grants to state and local governments; Indian tribes and consortia; and faith and community-based organizations to create and maintain one-to-one mentoring relationships between children, ages 4 through 18, of parents who are incarcerated with caring, supportive adult mentors. Applicants can apply for grants up to \$5 million which will represent up to 75 percent of the program cost in the first two fiscal years of funding. In the final year of funding, grantees are required to become gradually more self-sufficient with at least 50 percent of funding provided through public-private partnerships.

Funding for the Mentoring Children of Prisoners program during the last four years has been as follows:

2003 .....	\$ 9,935,000
2004 .....	\$49,701,000
2005 .....	\$49,598,000
2006 .....	\$49,493,000

**Performance Analysis** – This program was evaluated under the PART process as part of the FY 2007 budget and has received a rating of Results Not Demonstrated.

Performance Goal	Results	Context
Increase the number of children of prisoners in one-to-one matches with caring adults who have been trained and screened by the MCP program and its local and national partners.	In the baseline year, FY 2004, 2,099 children were matched with mentors. The FY 2005 target of matches for 33,000 children was missed: the actual number of children placed in matches in FY 2005 was 14,000.	The FY 2005 target was derived from a budget planning assumption of \$1,500 per match; however, this assumption did not take into account start-up costs or the organizational development needs of small or “repurposed” organizations. Starting in FY 2006, site visits are scheduled for current grantees, in order to provide technical assistance as needed. ACF expects that this, along with growing success from experienced grantees, will increase program performance.

**Rationale for the Budget Request** – The FY 2007 budget proposes to decrease the Mentoring Children of Prisoners program funding level by \$9,493,000 from the FY 2006 enacted funding. As currently

structured, the program received a low PART score and has had limited success in establishing mentoring relationships.

In order to address program performance issues as part of the President's reauthorization proposal, we are requesting authority to allow vouchers to be used to provide services to children of prisoners. These vouchers would be coordinated through a national mentoring support agency that would recruit and accredit mentoring programs nationwide. Each voucher would have a services value of \$1,000 and would be offered to families of children identified by inmates through prison support and outreach efforts. Families would be able to choose to enroll their child in any accredited mentoring program within their community. Further, the distribution of vouchers through the prison system would offer a more efficient way of identifying children in need of mentoring services and increasing the population that we serve.

In addition, the program will continue funding a long-term evaluation which began in FY 2005 with a research design developed for evaluating several key aspects of the program. As a follow-up to this evaluation, Training and Technical Assistance providers will conduct site visits with current grantees and during these visits research will include assessments of processes and settings; measurements of how individual children assess the relationships created in the program; and the identification of factors that contribute to or impede success in forming matches that are enduring, quality mentoring relationships for children of prisoners. Other information collected will provide knowledge about organizational factors that improve the efficiency and effectiveness of grantees' ability to form matches. The final draft report, which is expected by FY 2009, will highlight those recommendations that have been successfully incorporated into technical assistance strategies.

#	1	1	1
\$	\$131,000	\$119,000	\$120,000

<sup>1</sup> Includes funding for information technology support, printing, grants/panel review costs, and staff and associated overhead costs.

<sup>2</sup> In FY 2007, there are fewer grants because \$5 million of the grant funding is redirected to one grantee that will issue vouchers to be used for providing mentoring services.

CAPTA STATE GRANTS

Authorizing Legislation – Section 112(a)(1) of the Child Abuse Prevention and Treatment Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$27,280,000	\$27,007,000	\$27,007,000	\$0

2007 Authorization....Such sums as may be appropriated.

**Statement of the Budget Request** – The 2007 budget request provides \$27,007,000 to enable states to provide children and families with prevention services.

**Program Description** – The CAPTA State Grant program provides grants to states to improve child protective service systems. Grants are based on a flat rate of \$50,000 per state with additional funds distributed in proportion to the state’s population of children under the age of 18. This program assists states in improving: intake, assessment, screening and investigation of child abuse and neglect reports; risk and safety assessment protocols; training for child protective services workers and mandated reporters; programs and procedures for the identification, prevention and treatment of child abuse and neglect; and services to disabled infants with life-threatening conditions and their families. In addition, under this program, states perform a range of prevention activities including addressing the needs of infants born with prenatal drug exposure, referring children not at risk of imminent harm to community services, implementing criminal record checks for prospective foster and adoptive parents and other adults in their homes, training child protective services workers, protecting the legal rights of families and alleged perpetrators, and supporting Citizen Review Panels.

Funding for the CAPTA State Grant program during the last five years has been as follows:

2002 .....	\$22,013,000
2003 .....	\$21,870,000
2004.....	\$21,883,000
2005.....	\$27,280,000
2006.....	\$27,007,000

**Performance Analysis** – A PART review was conducted as part of the FY 2006 budget process, and the program was rated Results Not Demonstrated. This process resulted in the CAPTA State Grants program implementing a newly-developed performance measure for child protective services to respond more quickly to reported cases of child abuse and neglect.

Performance Goal	Results	Context
Reduce repeat maltreatment rates to 7 percent by 2004.	FY 2003 and FY 2004 rates were 8 percent, a decrease from the FY 2002 rate of 9 percent. ACF missed the target of 7 percent.	Progress is being made with many states that are undergoing Child and Family Services Reviews, with many states meeting the CFSR standard on repeat maltreatment. All states not meeting this standard have put into place a Program Improvement Plan (PIP) which includes specific activities aimed at reducing maltreatment recurrence. To date, 27 states have completed their PIP implementation period. ACF has evaluated findings from 11 of these states and

		no penalties have been assessed. ACF expects that progress made by states in response to PIPs will result in decreased maltreatment rates.
--	--	--

**Rationale for the Budget Request** – The 2007 request for the CAPTA State Grant program is \$27,007,000, the same as the FY 2006 enacted level. Child abuse and neglect continues to be a significant problem in the United States. One of the most important tools we have to use in eliminating the tragedy of child abuse and neglect is prevention.

CHILD ABUSE DISCRETIONARY ACTIVITIES

Authorizing Legislation – Section 112(a)(2) of the Child Abuse Prevention and Treatment Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$31,640,000	\$25,780,000	\$25,780,000	\$0

2007 Authorization....Such sums as may be appropriated.

**Statement of the Budget Request** – The 2007 budget request provides \$25,780,000 to support activities designed to assist and enhance national, state and local efforts to prevent, identify and treat child abuse and neglect.

**Program Description** – The Child Abuse Discretionary Activities account funds a number of research and demonstration grants and contracts. The program funds research on the causes, prevention, identification and treatment of child abuse and neglect; investigative, administrative and judicial procedures; and the national incidence study of child abuse and neglect. The program also funds projects to: compile, publish and disseminate training materials; provide technical assistance; and demonstrate and evaluate improved methods and procedures to prevent and treat child abuse and neglect. In addition, the program funds a resource center on issues relating to child maltreatment and the National Clearinghouse on Child Abuse and Neglect Information. The Clearinghouse gathers and disseminates information on promising programs of prevention and treatment and on the incidence of child abuse and neglect.

Research and demonstration grants are awarded competitively to public and private agencies, including state and local government agencies, universities, voluntary and faith-based organizations. Contracts may be awarded to public, nonprofit or proprietary organizations. Projects supported by grants and contracts awarded under this program may run up to five years, depending upon the availability of funds.

Funding for the Child Abuse Discretionary Activities during the last five years has been as follows:

2002 .....	\$26,081,000
2003 .....	\$33,845,000
2004.....	\$34,386,000
2005.....	\$31,640,000
2006.....	\$25,780,000

**Performance Analysis** – This program has not been subject to the PART process. Performance measurement for the Child Abuse Discretionary Activities program is part of a broader Child Welfare performance program area. Overall performance information for Child Welfare is included in the Detail of Performance Analysis section.

**Rationale for the Budget Request** – The 2007 request for Child Abuse Discretionary Activities is \$25,780,000, the same as the FY 2006 enacted level. Funds will support over 50 grants for research and to assist and enhance national, state and local efforts to prevent, identify and treat child abuse and neglect.

COMMUNITY-BASED CHILD ABUSE PREVENTION

Authorizing Legislation – Section 210 of the Child Abuse Prevention and Treatment Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$42,858,000	\$42,430,000	\$42,430,000	\$0

2007 Authorization....Such sums as may be appropriated.

**Statement of the Budget Request** – The 2007 budget request provides \$42,430,000 to maintain funding for community based child abuse and neglect prevention activities.

**Program Description** – The Community-Based Child Abuse Prevention (CBCAP) grants are provided to a lead state agency to disburse funds for community child abuse and neglect prevention activities. Funds are used to develop, operate, expand and enhance community-based efforts to strengthen and support families to prevent child abuse and neglect; foster the development of a continuum of preventive services through state and community-based public and private partnerships; and finance public information activities focusing on the healthy and positive development of families and child abuse and neglect prevention activities. Voluntary home visiting programs are a core local service as are programs that focus on prevention services to families that include children or parents with disabilities.

Seventy percent of a state's grant amount is calculated on the basis of the number of children under 18 in the state, with a minimum award of \$175,000 per state. The remaining part of the grant award is allotted among the states based on the amount leveraged by the state from private, state, or other non-federal sources and directed through the state lead agency in the preceding fiscal year for community-based child abuse prevention services.

Funding for the Community-Based Child Abuse Prevention program during the last five years has been as follows:

2002 .....	\$33,412,000
2003 .....	\$33,199,000
2004 .....	\$33,205,000
2005 .....	\$42,858,000
2006 .....	\$42,430,000

**Performance Analysis** – A PART review was conducted as part of the FY 2006 budget process, and the program was rated Results Not Demonstrated. The PART evaluation found that while the program was managed effectively, the program did not have outcome-oriented performance or efficiency measures. As a result of these findings, ACF has developed an outcome and efficiency measure, and will work to develop an additional annual and a long-term performance measure for this program.

Performance Goal	Results	Context
Decrease the rate of first-time maltreatment victims per 1,000 children by .2 annually from the baseline established	FY 2004 rate was 7.12, a decrease from the FY 2001 rate of 7.67. The FY 2004 target of 6.92 was missed.	ACF has set an ambitious level of targeted improvement to reflect the Bush Administration’s commitment to prevent child abuse and neglect. As this is the first year of monitoring progress on this outcome, ACF is still working with the grantees to meet the

in FY 2003 (6.97).		targets. To date, ACF has developed a logic model for the program, made recommendations for common outcomes and data collection across the various program activities, and is promoting more rigorous evaluations of prevention programs so that we may better determine the impact of CBCAP. ACF expects that progress made by States in response to these efforts will result in decreased victimization rates over the long term.
--------------------	--	--

**Rationale for the Budget Request** – The 2007 request for the Community-Based Child Abuse Prevention program is \$42,430,000, the same as the FY 2006 enacted level. This funding level will maintain child abuse and neglect prevention activities, including the strong prevention aspects of the responsible fatherhood and healthy marriage initiatives and expanded use of community and faith-based organizations.

CHILD WELFARE SERVICES

Authorizing Legislation – Section 420 of the Social Security Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$289,650,000	\$286,754,000	\$286,754,000	\$0

2007 Authorization....\$325,000,000.

**Statement of the Budget Request** – The 2007 budget request provides \$286,754,000 to maintain support for grants for child welfare services with the goal of keeping families together.

**Program Description** – The Child Welfare Services program helps state public welfare agencies improve their child welfare services with the goal of keeping families together. State services include: preventive intervention so that, if possible, children will not have to be removed from their homes; services to develop alternative placements like foster care or adoption if children cannot remain at home; and, reunification services so that children can return home, if appropriate. Services are available to children and their families without regard to income.

Funds are distributed to states in the form of grants. Each state receives a base amount of \$70,000. Additional funds are distributed in proportion to the state's population of children under age 21 multiplied by the complement of the state's average per capita income. The state match requirement is 25 percent. Eligible Indian tribes must meet plan requirements specified in regulation.

This program (title IV-B) is linked to the title IV-E Foster Care and Adoption Assistance Programs. In 1993, Congress amended the Social Security Act and created the Family Preservation and Support Services Program (renamed Promoting Safe and Stable Families in 1997) as subpart 2 of the title IV-B Program and linked it to this program (now subpart 1 of Title IV-B) and to the title IV-E programs. The same state agency must administer, or supervise the administration of all the programs. The broad goal of all the programs is to strengthen the families of at risk children. Taken together, these programs provide a continuum of services to help children and their families.

Funding for the Child Welfare Services program during the last five years has been as follows:

2002 .....	\$291,986,000
2003 .....	\$290,088,000
2004 .....	\$289,320,000
2005 .....	\$289,650,000
2006 .....	\$286,754,000

**Performance Analysis** – This program has not been subject to the PART process. Performance measurement for the Child Welfare Services program is part of a broader Child Welfare performance program area. Overall performance information for Child Welfare is included in the Detail of Performance Analysis section.

**Rationale for the Budget Request** – The 2007 request is the same as the FY 2006 enacted level. This request will continue to support grants to help improve state child welfare services with the goal of keeping families together when appropriate.

CHILD WELFARE TRAINING

Authorizing Legislation – Section 426 of the Social Security Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$7,409,000	\$7,335,000	\$7,335,000	\$0

2007 Authorization....Such sums as may be appropriated.

**Statement of the Budget Request** – The 2007 budget request provides \$7,335,000 to continue to support grants to maintain training resources and opportunities in the field of child welfare.

**Program Description** – The Child Welfare Training program provides discretionary grants to public and private non-profit institutions of higher education to develop and improve education and training programs and resources for child welfare service providers. Applications for funding are selected through a competitive review process. These grants upgrade the skills and qualifications of child welfare workers through their participation in programs focused specifically on child welfare service activities. Child Welfare Training grants also provide support to students seeking undergraduate and advanced degrees in social work.

Funding for the Child Welfare Training program during the last five years has been as follows:

2002 .....	\$7,487,000
2003 .....	\$7,449,000
2004 .....	\$7,411,000
2005 .....	\$7,409,000
2006 .....	\$7,335,000

**Performance Analysis** – This program has not been subject to the PART process. Performance measurement for the child welfare Training program is part of a broader Child Welfare performance program area. Overall performance information for child welfare is included in the Detail of Performance Analysis exhibit.

**Rationale for the Budget Request** – The 2007 request is the same as the FY 2006 enacted level. This request will continue to support training for child welfare professionals and students and will support grants to maintain training resources and opportunities in the field of child welfare.

ADOPTION OPPORTUNITIES

Authorizing Legislation – Section 205 of the Child Abuse Prevention and Treatment and Adoption Reform Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$27,116,000	\$26,848,000	\$26,848,000	\$0

2007 Authorization....Such sums as may be appropriated.

**Statement of the Budget Request** – The 2007 budget request provides \$26,848,000 to continue to support grants to facilitate the adoption process and provide technical assistance to enable states to increase the number of children adopted, especially children with special needs.

**Program Description** – The Adoption Opportunities program funds grants and contracts to public and private organizations to facilitate the elimination of barriers to adoption and to provide permanent, loving home environments for children who would benefit from adoption, particularly children with special needs. Preliminary estimates from federal fiscal year 2004 indicate that there are approximately 118,000 children in the public foster care system that cannot return safely to their own homes and parents. About 65,000 of these children are legally free and immediately available for adoption. Such children are typically school-aged, in sibling groups, have experienced neglect or abuse, or have a physical, mental, or emotional disability.

Major activities are: (1) developing and implementing a national adoption and foster care data gathering and analysis system; (2) developing and implementing a national adoption information exchange system; (3) developing and implementing an adoption training and technical assistance program; (4) increasing the placements in adoptive families of minority children who are in foster care and have the goal of adoption with a special emphasis on recruitment of minority families; (5) increasing post-adoption legal services for families who have adopted children with special needs; (6) studying the nature, scope, and effects of placement of children in kinship care arrangements, pre-adoptive, or adoptive homes; (7) studying the efficacy of states contracting with public or private non-profit agencies (including community-based and other organizations); and (8) promoting programs to increase the number of older children adopted from foster care.

Demonstration grants are awarded through a competitive process to public and private agencies including state and local governments, universities, private non-profit, and for-profit agencies. These demonstration grants test new models of service delivery to address and eliminate barriers to adoption, including inter-jurisdictional adoptions, and help find permanent families for children who would benefit by adoption, particularly children with special needs.

Funding for the Adoption Opportunities program during the last five years has been as follows:

2002 .....	\$27,335,000
2003 .....	\$27,227,000
2004 .....	\$27,103,000
2005 .....	\$27,116,000
2006 .....	\$26,848,000

**Performance Analysis** – A PART review was conducted as part of the FY 2007 budget process, and the Adoption Opportunities program has received a rating of Adequate. Performance measurement for the Adoption Opportunities program is part of a broader child welfare performance program area. Discussion of the performance measure related to this program can be found in the section on the Adoption Incentives program. Overall performance information for child welfare is included in the Detail of Performance Analysis exhibit.

**Rationale for the Budget Request** – The 2007 request is the same as the FY 2006 enacted level. This request will continue to provide loving parents and safe and stable homes for the maximum number of children available for adoption, and will support approximately 53 grants to facilitate the adoption process and provide technical assistance to enable states to increase the number of children adopted, especially children with special needs.

ABANDONED INFANTS ASSISTANCE PROGRAM

Authorizing Legislation – Section 302 of the Child Abuse Prevention and Treatment and Adoption Reform Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$11,955,000	\$11,835,000	\$11,835,000	\$0

2007 Authorization....Such sums as may be appropriated.

**Statement of the Budget Request** – The 2007 budget request provides \$11,835,000 to continue to support service demonstration grants for activities authorized under this program.

**Program Description** – The Abandoned Infants Assistance program provides grants to public and private community and faith-based entities for development, implementation and operation of projects that: (1) prevent abandonment of infants and young children exposed to HIV/AIDS and drugs, including the provision of services to family members with any condition that increases the probability of abandonment of an infant or young child; (2) identify and address the needs of abandoned infants, especially those born with AIDS, exposed to drugs, and infants and young children who have a life-threatening illness or other special medical need; (3) assist these children to reside with their natural families, if possible, or in foster care; (4) recruit, train and retain foster families for abandoned infants and young children; (5) carry out residential care programs for abandoned children and children with AIDS who are unable to reside with their families or to be placed in foster care; (6) establish programs of respite care for families and foster families; (7) recruit and train health and social services personnel to work with families, foster families and residential care staff; and (8) prevent the abandonment of infants and young children by providing needed resources through model programs. This program also funds technical assistance, including training, with respect to the planning, development and operation of the projects.

Funding for the Abandoned Infants Assistance program during the last five years has been as follows:

2002 .....	\$12,194,000
2003 .....	\$12,126,000
2004 .....	\$12,052,000
2005 .....	\$11,955,000
2006 .....	\$11,835,000

**Performance Analysis** – Performance measurement for the Abandoned Infants Assistance program is part of a broader child welfare performance program area. Performance information for child welfare is included in the Detail of Performance Analysis section of this submission.

**Rationale for the Budget Request** – The 2007 request is the same as the FY 2006 enacted level. These funds will support service demonstration grants to prevent the abandonment of infants and young children with AIDS, drug-exposed infants and young children, and infants and young children who have a life-threatening illness or other special medical need and to reunify and strengthen families impacted by substance abuse by providing supportive services to family caregivers and to children and adolescents in a recreational or camp setting.

INDEPENDENT LIVING EDUCATION AND TRAINING VOUCHERS

Authorizing Legislation – Section 477(i) of the Social Security Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$46,623,000	\$46,157,000	\$46,157,000	\$0

2007 Authorization....\$60,000,000.

**Statement of the Budget Request** – The 2007 budget request provides \$46,157,000 to continue to provide older foster care youth with an additional resource to prepare for independent living.

**Program Description** – The Independent Living Education and Training Voucher program provides vouchers of up to \$5,000 per year for expenses related to post secondary educational assistance such as tuition, books, fees, supplies and vocational training to foster care children from 16 to 21 years of age. Participants who turn 21 while working toward the completion of a degree or training program may remain eligible for the voucher program until they are 23 years of age. Funding for these vouchers is distributed to the states based on the state’s proportion of children in foster care compared to the national total of all children in foster care. In order not to serve as a disincentive to the adoption of older children, the vouchers also are available to individuals adopted from foster care after reaching age 16.

Preliminary information from a small group of states (over 1,700 youth) shows that those states are providing vouchers primarily to youth 18 and over for vocational institutions and colleges for the study of a wide range of topics. Data from this initial small group of states indicates that while many of the students are receiving vouchers for between \$4,000 and the maximum level of \$5,000, there also is a significant group of students receiving small vouchers for less than \$1,000.

Appropriations for Independent Living Education and Training Vouchers have been:

2003 .....	\$41,727,000
2004 .....	\$44,734,000
2005 .....	\$46,623,000
2006 .....	\$46,157,000

**Performance Analysis** – This program has not been subject to the PART process. This program does not yet have identified measures. ACF is working to implement the National Youth in Transition Database (NYTD) which will provide data and support for developing and tracking measures for this program.

**Rationale for the Budget Request** – The 2007 budget request of \$46,157,000 is the same as the FY 2006 enacted level. These funds will allow for the continuation of approximately 9,100 vouchers, increasing the prospect that these youth will be able to secure work and become contributing members of society.

ADOPTION INCENTIVES

Authorizing Legislation – Section 473A(h) of the Social Security Act

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$9,028,000 <sup>1</sup>	\$17,820,000	\$29,654,000	+\$11,834,000

2007 Authorization....\$43,000,000.

**Statement of the Budget Request** – The 2007 budget request provides \$29,654,000 to reward states that increase adoptions from the public child welfare system.

**Program Description** – The Adoption Incentive Program was created as part of the Adoption and Safe Families Act of 1997. The original program authorized the payment of adoption incentive funds to states that were successful in increasing the number of children adopted from the public foster care system. The amount of the payments to states was based on increases in the number of children adopted from the foster care system in a year, relative to a baseline number and the number of children adopted with special needs, relative to a baseline number, once a state exceeded its baseline for the total number of adoptions.

The Adoption Incentive Program has been successful in contributing to the substantial increase in adoptions since the mid-1990s. However, some groups of children needing a permanent home remain less likely to be adopted. Analysis of data from the Adoption and Foster Care Analysis and Reporting System (AFCARS) shows that once a child waiting for adoption reaches eight or nine years old, the probability that the child will continue to wait in foster care exceeds the probability that the child will be adopted. Furthermore, older children now constitute almost half of the pool of children waiting for adoptive families, but constitute less than a third of the children adopted.

Therefore, the program was amended during reauthorization in 2003 to target incentives specifically to older children. Under this revised framework, ACF awards incentives using three baselines: one for the total number of children adopted; one for children with special needs under age nine; and one for children age nine and older. Once a state has reached the baseline for the total number of adoptions for the year, it will receive a \$4,000 bonus for each child over the baseline. Once a state has reached the baseline for the number of adoptions for children age nine and older for that year, that state will receive a \$4,000 bonus for each child over the baseline. Once the state reaches the baseline for either of the two aforementioned populations and reaches its baseline for the number of adoptions for special needs children under the age of nine for that year, it will receive a \$2,000 bonus for each child over the baseline. Awarding the incentive funds in this way maintains the incentive for achieving increased adoptions for older children for all states, regardless of how high the baseline for the total number of adoptions is for any fiscal year.

Funding for the Adoption Incentives program has been as follows:

2002 .....	\$43,000,000
2003 .....	\$42,721,000 <sup>2</sup>
2004 .....	\$7,456,000 <sup>3</sup>

<sup>1</sup> The amount reflects a transfer of 1% to the Refugee and Entrant Assistance program, as well as a rescission of \$22.5 million enacted in the FY 2006 appropriation.

<sup>2</sup> Of this amount, \$27.8 million was carried forward into FY 2004 and was available to pay incentives in FY 2004.

<sup>3</sup> All of these funds were carried forward into FY 2005 and were available to pay incentives in FY 2005.

2005 .....	\$9,028,000 <sup>4</sup>
2006 .....	\$17,820,000

**Performance Analysis** – A PART review was conducted as part of the FY 2007 budget process, and the program received a rating of Adequate. The original measure for this program was the total number of adoptions; however, the adoption measure was changed from absolute numbers to a rate. The new adoption rate measure takes into account the critical factor of the number of children in foster care which can have a significant impact on the number of children for whom adoption is the appropriate permanency plan. This program has an additional measure of decreasing the gap between the percentage of children nine and older waiting to be adopted and those actually adopted by 15 percentage points between FY 2006 and FY 2012.

Performance Goal	Results	Context
Increase the rate of adoptions.	The FY 2004 target of 9.65 percent was exceeded with an actual adoption rate of 9.8 percent.	ACF has replaced a prior measure of total adoptions with a new outcome measure of an adoption rate calculated from the annual number of adoptions divided by the number of children in foster care at the end of the prior year. Developed through the PART process, the new adoption rate measure takes into account the critical factor of the number of children in foster care who are “available” for adoption.

**Rationale for the Budget Request** – The 2007 budget request is \$29,654,000, an increase of \$11,834,000 from the FY 2006 enacted level. These funds should be sufficient to cover the estimated incentives earned by states in FY 2006. The most recent data from the Adoption and Foster Care Reporting and Analysis System (AFCARS) indicates that the number of bonus earning adoptions in the states is rising. In recent years, there have been excess funds in this program as states reacted to the new incentive structure and we gained better information on the impact of these new incentives on adoptions. We believe our FY 2006 and 2007 estimates now more accurately indicate states’ earning potential under the new incentive structure.

---

<sup>4 1</sup> The amount reflects a transfer of 1% to the Refugee and Entrant Assistance program, as well as a rescission of \$22.5 million enacted in the FY 2006 appropriation.

<sup>1</sup> Approximately \$7.5 million of funds appropriated in FY 2004 which carried forward were used to pay incentives in FY 2005.

<sup>2</sup> Approximately \$2 million appropriated in FY 2005 was carried forward and are available to pay incentives in FY 2006.

CHILDREN’S HEALTH ACT – INFANT ADOPTION AWARENESS (PART A) AND SPECIAL NEEDS ADOPTION AWARENESS PROGRAM (PART B)

Authorizing Legislation – Section 330(F) and (G) of the Public Health Service Act

	2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
Infant Adoption Awareness	\$9,826,000	\$9,728,000	\$9,728,000	\$0
Special Needs Adoption Awareness	\$2,976,000	\$2,946,000	\$2,946,000	\$0
Total, B.A.	\$12,802,000	\$12,674,000	\$12,674,000	\$0

2007 Authorization....Such sums as may be appropriated (legislation to reauthorize this program is pending Congressional action).

**Statement of the Budget Request** – The 2007 budget request provides \$9,728,000 to maintain funding for training of staff for advising young pregnant women of adoption as an option, and the development of best practice guidelines in adoption counseling, and \$2,946,000 to maintain grants for publicizing the adoption of special needs children.

**Program Description**

The Infant Adoption Awareness program awards grants to support adoption organizations in the training of designated staff in eligible public and private, non-profit health centers which provide health services to pregnant women to inform them about adoption and make referrals on request to adoption agencies on an equal basis with all other courses of action. The program also supports development of best practice guidelines on adoption counseling to be used by the grantees and an evaluation of the extent to which the training is effective.

The Special Needs Adoption program provides for grants to be made to non-profit, private entities for the planning, development and carrying out of a national campaign informing the public about the adoption of children with special needs. This campaign can include public service announcements on television, radio or billboards.

Funding for the Children’s Health Act programs has been as follows:

Fiscal Year	Infant Adoption Awareness	Special Needs Adoption Awareness	Total
2002	\$9,906,000	\$3,000,000	\$12,906,000
2003	\$9,842,000	\$2,980,000	\$12,822,000
2004	\$9,814,000	\$2,971,000	\$12,785,000
2005	\$9,826,000	\$2,976,000	\$12,802,000
2006	\$9,728,000	\$2,946,000	\$12,674,000

**Performance Analysis** – Performance measurement for the Children’s Health Act programs is part of a broader child welfare performance program area. Performance information for child welfare is included in the Detail of Performance Analysis exhibit.

**Rationale for the Budget Request** – The 2007 request is the same as the FY 2006 enacted level. This request will ensure that staff is sufficiently trained to inform pregnant women about adoption as one of their options, as well as refer women upon request to adoption agencies, and provide critical publicity about the need for adoption of children with special needs so that permanent, loving home environments can be found for these vulnerable children and to support families who are willing to provide homes for children with special needs.

STATE COUNCILS ON DEVELOPMENTAL DISABILITIES

Authorizing Legislation – Section 129(a) of the Developmental Disabilities Assistance and Bill of Rights Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$72,496,000	\$71,771,000	\$71,771,000	\$0

2007 Authorization....Such sums as may be appropriated.

**Statement of the Budget Request** – The 2007 request of \$71,771,000 for the State Councils on Developmental Disabilities program will provide funding to improve state services and supports for people with developmental disabilities and their families.

**Program Description** – The State Councils on Developmental Disabilities program assists each state in promoting the development of a comprehensive, statewide, consumer and family-centered system that provides a coordinated array of culturally-competent services and other assistance for individuals with developmental disabilities.

In order to qualify for funds, states must submit a plan and establish a State Council on Developmental Disabilities to advocate for services and activities for all people with developmental disabilities. There are 55 councils. Up to forty percent of the council's membership includes representatives of major state agencies, non-governmental agencies and other concerned groups. Not less than sixty percent of the membership must include persons with developmental disabilities, their parents or guardians. Councils engage in a range of activities including, but not limited to, program and policy analysis, demonstration of new approaches, training, outreach, community support, interagency collaboration and coordination, public education, and prevention.

Funding for State Councils on Developmental Disabilities is allotted among the states on the basis of population, and the extent of need for services for persons with developmental disabilities, weighted by the relative per capita income for each state. The grants are made to designated state agencies or councils to support the councils in implementing the approved state plan. The aggregate federal share of projects under such grants may not exceed seventy-five percent except in the case of projects in poverty areas, where the federal share may not exceed ninety percent. In the case of projects conducted by council members or staff to implement state plan priority activities the federal share may be up to one hundred percent of the aggregate necessary cost of such activities.

Funding for the State Councils on Developmental Disabilities Program during the last five years has been as follows:

2002 .....	\$69,800,000
2003.....	\$71,134,000
2004.....	\$73,081,000
2005 .....	\$72,496,000
2006 .....	\$71,771,000

**Performance Analysis** — A PART review was conducted as part of the FY 2005 budget process, and the Developmental Disabilities program was rated Adequate. The State Councils on Developmental Disabilities performance goals will assess the community-based efforts to promote availability of services and supports necessary to individuals with developmental disabilities living in the community.

Performance Goal	Results	Context
<p>By the end of FY 2007, increase the percentage of individuals who are independent, self-sufficient, and integrated into the community to 14 percent.</p>	<p>In FY 2004, 12.06% of individuals with developmental disabilities were independent, self-sufficient, and integrated into the community. The FY 2004 target was 13.20%.</p>	<p>The Developmental Disabilities program was assessed by OMB under the Program Assessment Rating Tool (PART), which resulted in this long-term outcome goal. Although the FY 2004 target was missed, the Administration on Developmental Disabilities is working with its partners to improve performance. A three-pronged strategy was developed to achieve future targets:</p> <ol style="list-style-type: none"> <li>1. develop new guidance on how to report numbers and technical assistance on how to capture and report long-term impacts;</li> <li>2. fund an independent evaluation in which the first phase will be to develop a paradigm for capturing numerically long-term impacts; and</li> <li>3. amend the Developmental Disabilities and Bill of Rights Act to require Councils to make a five-year commitment to priorities it selects in two or three areas of emphasis.</li> </ol>

**Rationale for the Budget Request** — The FY 2007 request is the same as the FY 2006 enacted level. This request will continue to support advocacy, systems change and capacity building activities that improve state services and supports for people with developmental disabilities and their families.

DEVELOPMENTAL DISABILITIES (PROTECTION AND ADVOCACY)

Authorizing Legislation – Section 145 of the Developmental Disabilities Assistance and Bill of Rights Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$38,109,000	\$38,718,000	\$38,718,000	\$0

2007 Authorization...Such sums as may be appropriated.

**Statement of the Budget Request** – The 2007 request of \$38,718,000 for the Protection and Advocacy program will provide continued funding for advocacy services and information and referral services to individuals with disabilities.

**Program Description** – The Developmental Disabilities Protection and Advocacy Program provides grants to establish and maintain a protection and advocacy system in each state to protect the legal and human rights of all persons with developmental disabilities. There are 57 state protection and advocacy systems. Protection and advocacy funding is allotted among the states based on a formula that takes into account the population, the extent of need for services for persons with developmental disabilities, and the financial need of each state. The protection and advocacy system must have the authority under this program to pursue legal, administrative, and other appropriate remedies or approaches, including the authority to investigate incidents of abuse and neglect and to access client records. The protection and advocacy system must be independent of any agency that provides such services.

Funding for the Protection and Advocacy program during the last five years has been as follows:

2002 .....	\$35,000,000
2003.....	\$36,263,000
2004.....	\$38,416,000
2005 .....	\$38,109,000
2006 .....	\$38,718,000

**Performance Analysis** – A PART review was conducted as part of the FY 2005 budget process, and the Developmental Disabilities program was rated Adequate. The Protection and Advocacy program performance goal will address efforts to pursue the safety of individuals with developmental disabilities living in the community.

Performance Goal	Results	Context
Percentage of individuals who have their complaint of abuse, neglect, discrimination, or other human or civil rights corrected compared to the total assisted.	By the end of FY 2007, the target will increase to 93 %. The FY 2004 target of 88% was achieved (actual was 88.7%).	The Developmental Disabilities program was assessed by OMB under the Program Assessment Rating Tool (PART), which resulted in this long-term outcome goal.

**Rationale for the Budget Request** – The FY 2007 request is the same as the FY 2006 enacted level. This request will continue to provide advocacy services to individuals with developmental disabilities,

provide for the pursuit of class-action advocacy as required, and the provision of information and referral services.

DEVELOPMENTAL DISABILITIES (PROJECTS OF NATIONAL SIGNIFICANCE)

Authorizing Legislation — Section 163 of the Developmental Disabilities Assistance and Bill of Rights Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$11,542,000	\$11,414,000	\$11,414,000	\$0

2007 Authorization....Such sums as may be appropriated.

**Statement of the Budget Request** — The 2007 request of \$11,414,000 for Projects of National Significance will provide funding for family support activities and to evaluate the effectiveness of all ADD activities.

**Program Description** — Projects of National Significance is a discretionary program for grants, contracts, or cooperative agreements to public or private nonprofit entities that create opportunities for individuals with developmental disabilities to contribute to, and participate in, all facets of community life. These projects also support the development of national and state policies, including federal interagency initiatives.

The projects focus on the most pressing issues affecting people with developmental disabilities and their families. They allow for local implementation of practical solutions and provide results and information for possible national replication. The Projects of National Significance budget supports technical assistance, research regarding emerging disability issues, and conferences and special meetings. In FY 2006, 43 grants will be awarded in the following areas: evaluation of the programs funded under the Developmental Disabilities Act, youth activities, and family support. Youth projects provide a funding opportunity to design and demonstrate information, resource, and training centers for youth and emerging leaders with developmental disabilities. Funding has been directed to the Family Support 360 Initiative, which provides funds to states for the design and pilot of one-stop family support centers. The One-Stop must serve at least 50 unserved and/or underserved families with a member who has a developmental disability for each year for the five years of the grant. These projects enhance the lives of individuals with developmental disabilities through the promotion of activities and models designed to enhance their ability to live, work and play in their communities.

Funding for the Projects of National Significance program during the last five years has been as follows:

2002 .....	\$11,642,000
2003.....	\$12,403,000
2004.....	\$11,562,000
2005 .....	\$11,542,000
2006 .....	\$11,414,000

**Performance Analysis** — A PART review was conducted as part of the FY 2005 budget process, and the Developmental Disabilities Program was rated Adequate. The Projects of National Significance program does not have a performance goal. Performance measurement for this program is part of the broader Developmental Disabilities performance area.

**Rationale for the Budget Request** — The FY 2007 request is the same as the FY 2006 enacted level. This request will continue to provide grants for family support activities as well as funds to evaluate the effectiveness of all ADD programs.

UNIVERSITY CENTERS FOR EXCELLENCE IN DEVELOPMENTAL DISABILITIES

Authorizing Legislation — Section 156 of the Developmental Disabilities Assistance and Bill of Rights Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$31,549,000	\$33,212,000	\$33,212,000	\$0

2007 Authorization... Such sums as may be appropriated.

**Statement of the Budget Request** — The 2007 request of \$33,212,000 for the University Centers for Excellence (UCEDDs) program will provide continued operational and administrative support to establish a national network of UCEDDs.

**Program Description** — University Centers for Excellence in Developmental Disabilities (UCEDDs) are interdisciplinary education, research and public service units of a university system or are public or not-for-profit entities associated with universities. Grants to establish these UCEDDs were initially made on a competitive basis. In FY 2005, there were 64 UCEDDs in the national network. Awards are made for a five-year time period. These UCEDDs provide for interdisciplinary training, community services, research, and technical assistance and information/dissemination activities

Grant funds are distributed in accordance with the Act in the following order of funding priorities: (a) continuation of existing UCEDDs in an amount up to \$500,000 (The level of funding under the FY 2006 budget for each existing UCEDD will be \$500,000); (b) grants for national training initiatives on critical and emerging needs for individuals with developmental disabilities and their families (In FY 2006, one grant will be awarded for \$82,500); and (c) grants to additional UCEDDs or additional grants to UCEDDs for states or populations that are unserved or under served by UCEDDs due to such factors as population, a high concentration of rural or urban areas, or a high concentration of unserved or under served populations. (In FY 2006, up to three grants will be awarded for new UCEDDs in the amount of \$245,000 each.)

Funding for the UCEDDs program during the last five years has been as follows:

2002 .....	\$24,000,000
2003.....	\$24,962,000
2004.....	\$26,803,000
2005 .....	\$31,549,000
2006 .....	\$33,212,000

**Performance Analysis** — A PART review was conducted as part of the FY 2005 budget process, and the Developmental Disabilities Program was rated Adequate. A performance goal for the University Centers for Excellence in Developmental Disabilities is currently being developed.

**Rationale for the Budget Request** — The 2007 request is the same as the FY 2006 enacted level. This request will continue to provide operational and administrative support to maintain a national network of UCEDDs and build upon current activities.

VOTING ACCESS FOR INDIVIDUALS WITH DISABILITIES

Authorizing Legislation – Sections 264 and 292 of the Help America Vote Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$14,879,000	\$15,720,000	\$15,720,000	\$0

2007 Authorization....Such sums (the Help America Vote Act reauthorization is pending in Congress).

**Statement of the Budget Request** – The 2007 request of \$15,720,000 will provide funding to make payments available to eligible states and territories for carrying out the Voting Access for Individuals with Disabilities grant program.

**Program Description** – The Voting Access for Individuals with Disabilities grant program was authorized by the Help America Vote Act (HAVA), P.L. 107-252. HAVA contains three grant programs administered by HHS that will enable a grantee to establish, expand, and improve access to and participation in the election process by individuals with the full range of disabilities. Two of these are formula grants, one to states and territories to improve accessibility in the voting process, the other to state Protection and Advocacy Systems (P&As) to assist individuals with disabilities in the voting process. Of the funds for P&As, seven percent was set aside for the third grant program, a discretionary program for the provision of training and technical assistance to assist P&As. Any applicant who meets the eligibility requirements for either formula grant program must receive a payment.

Funding for the Voting Access for Individuals with Disabilities program has been as follows:

2003 .....	\$15,000,000
2004 .....	\$14,912,000
2005 .....	\$14,879,000
2006 .....	\$15,720,000

**Performance Analysis** – This program has not been subject to the PART process. No performance measures have been established for the Voting Access for Individuals with Disabilities grant program.

**Rationale for the Budget Request** – The FY 2007 request is the same as the FY 2006 enacted level. These funds would assist 114 grantees in: (1) making polling places, including the path of travel, entrances, exits, and voting areas of each polling facility accessible to individuals with disabilities, including the blind and visually impaired, in a manner that provides the same opportunity for access and participation (including privacy and independence) as for other voters; and (2) providing individuals with disabilities and the other individuals described in (1) with information about the accessibility of polling places, including outreach programs to inform the individuals about the availability of accessible polling places and training election officials, poll workers, and election volunteers on how best to promote the access and participation of individuals with disabilities in elections for federal office.

NATIVE AMERICAN PROGRAMS

Authorizing Legislation – Section 816 of the Native American Programs Act of 1974.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$44,786,000	\$44,332,000	\$44,332,000	\$0

2007 Authorization...Such sums as may be appropriated (legislation to reauthorize this program is pending Congressional action).

**Statement of the Budget Request** – The 2007 request of \$44,332,000 for Native American Programs will meet the critical needs of Native American children and families by providing competitive community-based project funding for social and economic development activities.

**Program Description** – The programs authorized under the Native American Programs Act promote the goal of social and economic self-sufficiency by serving all Native Americans, including over 561 federally recognized tribes, 60 state recognized tribes and all Indian and Alaska Native organizations, Native Hawaiian communities, and Native populations throughout the Pacific basin. The Native American Program assists tribal and village governments, Native American institutions and organizations in their efforts to support and develop stable, diversified local economies. Competitive grant project funding is leveraged by tribes and non-profit organizations to develop and implement sustainable community-based social and economic programs and services that will reduce future generational dependency on public funds.

The Native American Programs Act provides project funding for training and services that promote healthy family relationships and lifestyles among native people. Funded projects may address social services to assist Native Americans with disabilities, services to the elderly, programs for at-risk youth and may be used to create employment and educational opportunities in addition to preserving native languages. These programs also promote infrastructure and business activities, professional capacity-building skills, training, entrepreneurship, financial literacy and the implementation of environmental laws, codes and ordinances.

Funding for the Native American Program during the last five years has been as follows:

2002 .....	\$45,826,000
2003.....	\$45,457,000
2004.....	\$45,157,000
2005 .....	\$44,786,000
2006 .....	\$44,332,000

**Performance Analysis** – This program is scheduled for a PART review in FY 2006. A data collection tool, which assesses grantee accomplishments in such areas as job creation and community partnership establishment, is currently being field-tested. From this tool, the Native American Program will be able to track its performance measures, including those below:

Performance Goal	Results	Context
Increase the number of jobs created through ANA funding.	Results will be available in 2006.	ANA's economic development strategy was developed, in part, to address socio-economic trends

		<p>which indicate that, when compared to all other groups of citizens in the United States, Native Americans living on reservations and in urban communities rank at the bottom of nearly every social, health, and economic indicator. This measure focuses specifically on job creation.</p>
--	--	--

**Rationale for the Budget Request** — The FY 2007 request is the same as the FY 2006 enacted level. These funds will be used to continue to support activities that cover a wide range of community-based social and economic development projects that emphasize self-sufficiency; ensure the preservation and enhancement of Native American languages; and enable tribes to plan, develop and implement environmental programs and laws.

SOCIAL SERVICES RESEARCH AND DEMONSTRATION

Authorizing Legislation – Section 1110 of the Social Security Act and Section 241 of the Public Health Service Act.

	2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
BA	\$26,012,000	\$5,868,000	\$0	-\$5,868,000
PHS Evaluation Funds	6,000,000	6,000,000	6,000,000	0
Total, Program Level	\$32,012,000	\$11,868,000	\$6,000,000	-\$5,868,000

2007 Authorization....Such sums as may be appropriated.

**Statement of the Budget Request**— The FY 2007 budget request of \$6,000,000 for Social Services Research and Demonstration to be funded through PHS Evaluation Funds will provide funding to support cutting-edge research and evaluation projects in areas of critical national interest.

**Program Description**— Social Services Research and Demonstration funds support research and evaluation efforts that address the goals of: 1) increased stability and economic independence for American families; 2) improved healthy development of children and youth; and 3) services that are more effective, cost less, and respond better to customer needs.

Projects are conducted through grants, contracts, and cooperative agreements. Evaluation results, policy implications, and data from projects are disseminated to other federal agencies, states, Congress, researchers and others through publications (including final reports and information memoranda), the Internet, conferences, and workshops. For example, over the last several years, evaluations and projects were funded exploring topics such as: welfare-to-work strategies for the hard-to-employ; programs to strengthen family relationships and promote healthy marriage related to the family formation goals of PRWORA; and continuing state welfare reform efforts.

Funding for Social Services Research and Demonstration during the past five years is as follows:

2002 .....	\$30,918,000
2003 .....	\$34,749,000
2004 .....	\$19,168,000
2005 .....	\$32,012,000
2006 .....	\$11,868,000

**Performance Analysis** — This program has not been subject to the PART process. No performance measures have been established for Social Services Research and Demonstration. This program supports conducting research and evaluation that inform policy, practice, and performance management in ACF programs.

**Rationale for the Budget Request** — The FY 2007 budget request for Social Services Research and Demonstration is \$6,000,000, to be funded with PHS Evaluation Funds as authorized in section 241 of the Public Health Service Act. This is a decrease of \$5,868,000 from the FY 2006 enacted level. This budget assumes enactment of S.1932 (the Deficit Reduction Act of 2005) which fully funds welfare research and evaluation activities separately in the Temporary Assistance for Needy Families (TANF) and Children's Research and Technical Assistance (CRTA) accounts.

<sup>2</sup> Includes funding for information technology support, contract processing fees, conference fees and printing costs.

COMPASSION CAPITAL FUND

Authorizing Legislation – Section 1110 of the Social Security Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$54,549,000	\$64,350,000	\$100,000,000	+\$35,650,000

2007 Authorization....Such sums as may be appropriated.

**Statement of the Budget Request** – The FY 2007 budget request of \$100,000,000 for the Compassion Capital Fund will help faith-based and community organizations increase their effectiveness and enhance their ability to provide social services to those most in need.

**Program Description** – The Compassion Capital Fund is a key component of the President’s faith-based initiative. The goal of the Compassion Capital Fund (CCF) is to help grassroots faith-based and community organizations maximize their social impact as they provide services to those most in need. The CCF administers three discretionary grant programs:

- The CCF Demonstration program provides funding for intermediary organizations in well-defined geographic locations with experience in providing training and technical assistance to smaller faith and community-based organizations in their communities. These intermediary organizations serve as a bridge between the federal government and the grassroots faith-based and community organizations that the CCF Demonstration program is designed to assist. Intermediary organizations provide two services within their communities: (1) capacity-building training and technical assistance to faith-based and community organizations; and (2) financial support--through sub-awards--to some subset of the organizations receiving training and technical assistance. These capacity-building activities are designed to increase an organization's sustainability and effectiveness, enhance its ability to provide social services, diversify its funding sources, and create collaborations to better serve those most in need.
- The CCF Targeted Capacity Building program provides funding for grassroots faith-based and community organizations that address the needs of distressed communities. The program funds capacity-building activities that produce measurable impacts resulting in more sustainable organizations. By addressing issues that are critical to the long-term viability of the organization, community-based organizations are better prepared and positioned to understand and meet the needs of the communities they serve.
- The First Lady’s Helping America’s Youth Initiative focuses on connecting at-risk youth with family, school, and their community in order to help children and teens reach their full potential. Under CCF, we support this initiative by focusing on the prevention of violence and helping youth at risk of gang influence. This initiative builds the capacity of faith-based and community organizations that foster supportive relationships with youth. Organizations directing youth to social services and other healthy activities that provide messages about healthy behavior and risk avoidance, and that create an alternative to gang involvement, are given priority for funding. Priority also is given to faith-based and community organizations that plan to serve areas with significant gang activity.

Funding for the Compassion Capital Fund during the past five years has been as follows:

2002 .....	\$30,000,000
2003 .....	\$34,773,000
2004 .....	\$47,702,000
2005 .....	\$54,549,000
2006 .....	\$64,350,000

**Performance Analysis** – This program has not been subject to the PART process. A two-year evaluation of the Compassion Capital Fund to be completed by September 2007 will examine the services provided by intermediaries and provide an assessment of the effects of these services on the improvement of organizational capacity of faith-based and community organizations. Findings from this evaluation will allow the Administration for Children and Families to refine or enhance administration of the Compassion Capital Fund in order to better serve faith-based and community organizations and, ultimately, the families, individuals, and communities they serve.

**Rationale for the Budget Request** – The FY 2007 budget request for the Compassion Capital Fund is \$100,000,000, an increase of \$35,650,000 from the FY 2006 enacted level. Of this amount, \$50,000,000 is dedicated to continue support for the First Lady’s Helping America’s Youth Initiative. Using community-based strategies, the gang prevention initiative builds the capacity of faith-based and community groups who are fostering supportive relationships with youth and directing them to social services and healthy activities that provide an alternative to gang involvement. The remaining \$50,000,000 is dedicated to continue support for CCF Demonstration Program funding for intermediary organizations, as well as for CCF Targeted Capacity Building Program funding for smaller grassroots faith-based and community organizations.

Specifically, the \$35,650,000 increase will support 16 more intermediary organizations serving grassroots faith-based and 10 more youth gangs grants to continue support of the First Lady’s Helping America’s Youth Initiative.

<sup>1</sup> Includes funding for one new resource center in FY 2005 and an additional center in FY 2006.

<sup>2</sup> Includes funding for information technology support, grant/panel reviews, conference and contract fees.

COMMUNITY SERVICES BLOCK GRANT

Authorizing Legislation – Section 674(a) of the Community Services Block Grant Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$636,793,000	\$630,425,000	\$0	-\$630,425,000

2007 Authorization.... Authority expired on September 30, 2003. The Administration is no longer seeking reauthorization.

**Statement of the Budget Request** – The Administration is not seeking funding or authorization for this program because of the lack of demonstrated results.

**Program Description** – The Community Services Block Grant program provides grants to states, territories and Indian tribes to provide services and activities to reduce poverty, including services to address employment, education, better use of available income, housing assistance, nutrition, energy, emergency services, health, and substance abuse needs. Each state submits an annual application and certifies that the state agrees to provide: (1) a range of services and activities having a measurable and potentially major impact on causes of poverty in communities where poverty is an acute problem; and (2) activities designed to assist low-income participants, including the elderly, to become self-sufficient.

Allocations are based on relative percentages of 1981 funding levels under Section 221 of the Economic Opportunity Act of 1964 as amended. The Community Services Block Grant Act requires states to pass through 90 percent of the federal funds allocated to eligible entities, which in most cases are Community Action Agencies.

Funding for the Community Services Block Grant during the past five years has been as follows:

2002 .....	\$649,967,000
2003 .....	\$645,762,000
2004 .....	\$641,935,000
2005 .....	\$636,793,000
2006 .....	\$630,425,000

**Performance Analysis** – A PART review was conducted as part of the FY 2005 budget process, and the Community Services Block Grant program was rated “Results Not Demonstrated.”

**Rationale for the Budget Request** – The FY 2007 budget does not request funds for the Community Services Block Grant program because it lacks performance measures, does not award grants on a competitive basis nor hold grantees accountable for program results. These findings are reflected in the low PART assessment rating of Results Not Demonstrated.

COMMUNITY SERVICES DISCRETIONARY ACTIVITIES

Authorizing Legislation – Section 674(b)(3) and 680 of the Community Services Block Grant Act.

	2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
Community Economic Development	\$27,295,000	\$27,022,000	\$0	-\$27,022,000
Rural Community Facilities	7,241,000	7,293,000	0	-7,293,000
Total, B.A.	\$34,536,000	\$34,315,000	\$0	-\$34,315,000

2007 Authorization... Authority expired on September 30, 2003. The Administration is no longer seeking reauthorization.

**Statement of the Budget Request** – The Administration is not seeking funding or authorization of this program because of lack of program results.

**Program Description** – Community Services Discretionary Activities grants are provided to private, locally-initiated community development corporations which sponsor enterprises providing employment, training, and business development opportunities for low-income residents. Grants also are provided under the Community Services Discretionary activities authority to public and private non-profit agencies for activities benefiting migrant and seasonal farm workers and to public and private organizations to carry out programs in rural housing and community facilities development.

Funding for Community Services Discretionary Activities during the past five years has been as follows:

2002 .....	\$33,976,000
2003 .....	\$34,825,000
2004 .....	\$34,090,000
2005 .....	\$34,536,000
2006 .....	\$34,315,000

**Performance Analysis** – These programs have not been subject to the PART process. No performance measures have been established for the Community Services Discretionary Activities programs.

**Rationale for the Budget Request** – The FY 2007 budget does not request funds for the Community Services Discretionary Activities program. The services provided under these programs are redundant with similar programs currently operating in other Departments as well as new Administration efforts to target funds more effectively.

JOB OPPORTUNITIES FOR LOW-INCOME INDIVIDUALS (JOLI)

Authorizing Legislation – Section 505 of the Family Support Act of 1998 and Section 112 of the Personal Responsibility and Work Opportunity Reconciliation Act 1996.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$5,436,000	\$5,382,000	\$0	-\$5,382,000

2007 Authorization....\$25,000,000.

**Statement of the Budget Request** – The Administration is not requesting funding for the Job Opportunities for Low-Income Individuals program.

**Program Description** – The Job Opportunities for Low-Income Individuals (JOLI) program provides grants on a competitive basis to non-profit organizations to create new employment and business opportunities for TANF recipients and other low-income individuals through projects that include self-employment and micro-enterprise, expansion of existing businesses, new business ventures and strategies of developing or creating new jobs or employment opportunities.

Funding for the Job Opportunities for Low-Income Individuals program during the past five years has been as follows:

2002 .....	\$5,500,000
2003 .....	\$5,464,000
2004 .....	\$5,432,000
2005 .....	\$5,436,000
2006 .....	\$5,382,000

**Performance Analysis** – This program has not been subject to the PART process. No performance measures have been established for the Job Opportunities for Low-Income Individuals program.

**Rationale for the Budget Request** – The FY 2007 budget does not request funds for the JOLI program. This program duplicates activities that can be funded by states under the TANF program.

INDIVIDUAL DEVELOPMENT ACCOUNTS

Authorizing Legislation –Section 416 of the Assets for Independence Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$24,704,000	\$24,452,000	\$24,452,000	\$0

2007 Authorization....\$25,000,000 (Legislation to reauthorize the program is pending Congressional action.)

**Statement of the Budget Request** – The 2007 budget request of \$24,452,000 for the Individual Development Accounts (IDA) program will provide on-going support for the IDA program, thereby allowing low-income individuals and families to save money and increase economic self-sufficiency.

**Program Description** – The Individual Development Accounts demonstration program will help determine: (1) the social, civic, psychological and economic effects of providing to individuals and families with limited means an incentive to accumulate assets by saving a portion of their earned income; (2) the extent to which an asset-based policy that promotes saving for post-secondary education, home ownership, and micro-enterprise development may be used to enable individuals and families with limited means to increase their economic self-sufficiency; and (3) the extent to which an asset-based policy stabilizes and improves families.

The grants are awarded for five-year projects. Eligible grantees include: non-profit organizations; state, local, or tribal governments that apply jointly with a nonprofit; and “Low Income” designated credit unions or certified Community Development Financial Institutions that partner with a community anti-poverty organization.

Applicants must raise private and public (non-federal) funds to receive a federal grant. The leveraging requirement is effectively a one-to-one ratio in that the Federal grant can not exceed the non-federal funds raised for the project, nor can federal matches into IDAs exceed the non-federal matches. The maximum federal grant is two million dollars per year.

Funding for the Individual Development Accounts program during the past five years has been as follows:

2002 .....	\$24,943,000
2003 .....	\$24,827,000
2004 .....	\$24,695,000
2005 .....	\$24,704,000
2006 .....	\$24,452,000

**Performance Analysis** – The PART review was conducted as part of the FY 2006 budget process, and the program was rated Adequate. The assessment found that: (1) the program addresses a specific problem and supports a national impact evaluation to determine whether the IDA strategy helps families become economically self-sufficient, and (2) while AFI grantees must report on individual goals and measures, the program has not established annual and long-term program-wide performance measures to which grantees commit and toward which they work. In response to these findings, ACF will work to develop grantee-supported performance outcome measures.

**Rationale for the Budget Request** – The FY 2007 budget request for the IDA program is \$24,452,000, the same as the FY 2006 enacted level. This request will fund an estimated 62 grants to provide on-going support for the IDA program, thereby allowing additional low-income individuals and families to save money and increase economic self-sufficiency. In concert with Congressional action to reauthorize the program, ACF will pursue administrative and legislative proposals to improve program effectiveness. The efforts will focus on improving program flexibility, encourage program simplification, and increase participation eligibility.

<sup>1</sup> Includes funding for information technology support, grant/panel reviews, salaries and benefits and associated overhead and printing costs.

<sup>2</sup> Since OCS did not receive sufficient numbers of high-quality grant applications in FY 2005, additional funds were included in contracts to focus on building the capacity of the field through outreach activities, increased marketing and partnering with other government agencies to cultivate stronger applicants.

## FAMILY VIOLENCE PREVENTION AND SERVICES/BATTERED WOMEN'S SHELTERS

Authorizing Legislation — Section 310 of the Family Violence Prevention and Services Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$125,630,000	\$124,731,000	\$124,731,000	\$0

2007 Authorization.... Such sums as may be appropriated.

**Statement of the Budget Request** — The FY 2007 budget request includes \$124,731,000 to provide on-going support for the critical core services to individuals and families affected by domestic violence.

**Program Description** — The Family Violence Prevention and Services program provides grants to states and Indian Tribes to support programs and projects that work to prevent incidents of family violence, provide immediate shelter and related assistance for victims of family violence and their dependents, and provide resources to programs that provide prevention and intervention services for families in abusive situations. These grants are made in support of the strategic goal of healthy, safe and supportive communities and tribes and the performance goal of building these healthy, safe and supportive communities to increase the ability of family violence victims to plan for safety.

By statute, 70 percent of Family Violence funds are awarded in grants to states and territories. State grants are allocated based on the state's population. Grants to territories and insular areas are up to one-eighth of one percent of the amounts available for grants for that fiscal year. The Act specifies that a state may keep five percent of its allotment for administrative costs and must distribute the remaining funds to local public agencies and non-profit private organizations, including religious and charitable organizations and voluntary associations. Seventy percent of a state's funds must be used to provide immediate shelter and related assistance to victims of family violence and their dependents. Most states exceed the 70 percent requirement. States may use the remaining funds to: establish new shelters in under-served areas; expand counseling, self-help, and substance abuse referral services; set up demonstrations programs, e.g., elder abuse shelters; or, provide training for staff and volunteers.

By statute, 10 percent of Family Violence funds are allocated for grants to Indian Tribes and tribal organizations. The amount of the Indian grants is based on the population of the tribe. Tribes use these funds primarily for emergency shelter and related assistance. These grants have assisted tribes in focusing on and improving services to victims and their families. Some tribes also have used these funds for public education efforts to break the patterns of family violence.

State Domestic Violence Coalitions receive 10 percent of the appropriation to further the purposes of domestic violence intervention and prevention. State Domestic Violence Coalitions are membership organizations for all shelters in the state. The grants to the coalitions support technical assistance efforts with their membership and other related service providers. The grants also support training and related collaborative efforts with other social services sectors, e.g. law enforcement, health, education and welfare.

The network of Information and Technical Assistance Centers (the National Resource Center and the Special Issue Resource Centers) receives five percent of the appropriation to provide information, technical assistance and training to federal, state, Indian and local domestic violence agencies and other professionals and individuals in the field. The purpose of this network (a network of five domestic violence resource centers: National Resource Center on Domestic Violence, Resource Center on Civil and

Criminal Law, also know as Battered Women's Justice Project, Health Resource Center on Domestic Violence, Resource Center on Child Protection and Custody, and Resource Center for Indian Tribes and Tribal Organizations) is to strengthen the existing support systems serving battered women, their children and other victims of domestic violence. The network also provides comprehensive information and resources, policy development, and technical assistance designed to enhance the prevention of and community response to domestic violence.

The statute also authorizes funds for activities relating to the issue of family violence through grants, contracts or interagency agreements. Under this authority, grants have been awarded to:

- Support collaborative efforts between faith-based/spiritual community organizations and the domestic violence community that created additional points of entry for persons in abusive relationships as they seek services and more informed responses;
- Historical black colleges and universities, Hispanic-serving colleges and universities, and tribal colleges and universities to support social work graduate student practicums' in domestic violence;
- Projects demonstrating protocols and training approaches that are useful to organizations and agencies providing services to immigrant and battered women. Projects between child protective service agencies and domestic violence advocacy organizations were supported to develop effective strategies for domestic violence services integration into child protection systems and strategies; and
- Domestic violence prevention service providers and advocacy organizations for public information and community awareness activities.

Funding for the Family Violence Prevention and Services program during the last five years has been as follows:

2002 .....	\$124,459,000
2003 .....	\$126,403,000
2004 .....	\$125,648,000
2005 .....	\$125,630,000
2006 .....	\$124,731,000

Additionally, the Stamp Out Domestic Violence Act of 2001, Public Law 107-67, created a domestic violence semi-postal stamp. Proceeds from stamp sales directly funded competitive grant awards to domestic violence service providers for enhanced services to children and youth who have been exposed to domestic violence. During FY 2005, \$1.2 million was committed to children services through the semi-postal stamp proceeds.

**Performance Analysis** — A PART review was conducted during FY 2006 budget process, and the program was rated Results Not Demonstrated. As a result, the program has worked to develop meaningful outcome performance measures and to create improved ways of measuring program success annually and long-term. In collaboration with state and local partners, the family violence program has developed outcome oriented performance measures. These new measures will be introduced to the domestic violence community through a series of workshops and regionally-based trainings. Assisting in this effort will be the National Resource Center on Domestic Violence, representatives of state domestic violence coalitions, and staff of the National Network to End Domestic Violence. As a result of this combined effort, ACF will be able to more accurately track progress in its Family Violence Prevention and Services programs.

**Rationale for the Budget Request** — The FY 2007 budget request for the Family Violence Prevention and Services Program is \$124,731,000, which is the same as the FY 2006 enacted level. The requested level of funding will be used to maintain the range of services, residential and non-residential, provided

by shelters and maintain the number of shelters funded by the grants for battered women's shelters. These funds will provide on-going support for the critical core services to individuals and families impacted by domestic violence.

DOMESTIC VIOLENCE HOTLINE

Authorizing Legislation — Section 316(g) of the Family Violence Prevention and Services Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$3,224,000	\$2,970,000	\$2,970,000	\$0

2007 Authorization...\$3,500,000

**Statement of the Budget** — The 2007 budget request included \$2,970,000 to staff the National Domestic Violence Hotline 24 hours per day, 7 days a week.

**Program Description** — The National Domestic Violence Hotline is a cooperative agreement which funds the operation of a national, toll-free telephone hotline to provide information and assistance to victims of domestic violence in an effort to build healthy, safe and supportive communities and tribes. Counseling and referral services are provided 24 hours a day, 365 days a year. The hotline also must publicize its telephone number and the services it provides to potential users throughout the United States.

The hotline serves as a critical partner in the prevention and resource assistance efforts of the Domestic Violence Resource Network. It provides assistance in the following areas: (1) crisis intervention by helping the caller identify problems and possible solutions, including making plans for safety in an emergency; (2) information about sources of assistance for individuals and their friends, families, and employers wanting to learn more about domestic violence, child abuse, sexual assault, intervention programs for batterers, working through the criminal justice system, and related issues; and (3) referrals to battered women's shelters and programs, social service agencies, legal programs, and other groups and organizations willing to help.

The Hotline maintains a database, which collects information on services for victims of domestic violence, including the availability of shelters to which callers may be referred throughout the United States. Trained hotline counselors are available for non-English speakers and the hotline is accessible to persons who are hearing-impaired.

Funding for the Domestic Violence Hotline during the last five years has been as follows:

2002 .....	\$2,157,000
2003 .....	\$2,562,000
2004 .....	\$2,982,000
2005 .....	\$3,224,000
2006 .....	\$2,970,000

**Performance Analysis** — The program has worked to develop meaningful outcome performance measures. An additional efficiency measure has been developed: to shorten the average “wait time,” the Hotline will continue to use improved technology along with the adjustment in staffing patterns and on-going training. The decrease in “wait time” will account for fewer dropped calls that are placed to the Hotline, thus increasing the number of calls to which they can respond. The National Domestic Violence Hotline (NDVH) has two performance measures related to average-calls-per month and training hours of advocates who handle sexual assault calls.

Performance Goal	Results	Context
Increase through training the capacity of the National Domestic Violence Hotline to respond to an increase in the average number and the type of calls per month.	In FY 2005, the domestic violence program handled an average of 16,500 calls per month, exceeding its target of 14,500 by 13 percent.	Surpassing the target was accomplished through technological assistance, staffing pattern adjustments, and on going in-service training.

**Rationale for the Budget** — The FY 2007 budget request for the Domestic Violence Hotline is \$2,970,000, which is the same as the FY 2006 enacted level. The Hotline averages 300 to 400 calls a day. However, a public awareness message or a program that publicizes the Hotline can provide a spike of 400 to 500 calls within hours. The requested level funding will enable the Hotline to maintain its core number of advocates at 28 full and part-time staff, and approximately 20 relief staff and 25 volunteer Hotline advocates. This staffing level assures the Hotline is answered 24 hours per day, 7 days a week.

FEDERAL ADMINISTRATION

	2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
Federal Administration	\$185,210,000	\$183,365,000	\$188,123,000	+\$4,758,000
Center for Faith-Based and Community Initiatives	1,375,000	1,386,000	1,386,000	0
Total, BA	\$186,585,000	\$184,751,000	\$189,509,000	+\$4,758,000
<i>FTE</i>	<i>1,330</i>	<i>1,327</i>	<i>1,319</i>	<i>-8</i>

2007 Authorization...Such sums as may be appropriated.

**Statement of the Budget Request** — The FY 2007 budget request of \$189,509,000 for Federal Administration is \$4.8 million above the FY 2006 enacted level. This funding level fully supports key Departmental management initiatives and 1,319 FTE.

**Program Description** — The Federal Administration account includes funding for salaries and benefits and associated expenses of the Administration for Children and Families, including the Center for Faith-Based and Community Initiatives. These resources provide support for staff and related program management activities necessary to effectively administer federal programs that promote the economic and social well being of families, children, individuals and communities. ACF conducts operations at ACF headquarters in Washington, D.C., in the ten regional offices of the Department of Health and Human Services, and at the thirteen audit offices of the Office of Child Support Enforcement in various locations throughout the country.

Funding for Federal Administration during the last five years has been as follows:

<u>Year</u>	<u>\$</u>	<u>FTE</u>
2002	\$172,963,000	1,465
2003	\$173,362,000	1,390
2004	\$179,280,000	1,346
2005	\$186,585,000	1,330
2006	\$184,751,000	1,327

**Performance Analysis** — ACF has been a leader for HHS in achieving the President’s Management Agenda (PMA) goals. ACF is committed to achieving results through the six PMA initiatives and continues to strive to meet the criteria for a green progress rating in all initiatives. ACF has been successful in achieving a green in five of the areas and a yellow progress rating from HHS under the Eliminating Improper Payments initiative during the fourth quarter of FY 2005 due to challenges in developing and implementing plans under the TANF and Foster Care programs consistent with the Improper Payments Act of 2002 (IPIA). The extensive flexibility of State TANF Program operations and the prohibitions on data collection in the TANF legislation have continued to present challenges to identifying an effective and cost efficient methodology for measuring improper payments in the TANF Program. We are continuing to engage in activities with states to improve our effectiveness in this area. In addition, the Foster Care program reported an error rate in the FY 2005 PAR and we are working to finalize plans for incorporating administrative cost errors as part of that error rate.

**Rationale for the Budget Request** — The FY 2007 budget request for Federal Administration is \$189,509,000, \$4.8 million above the FY 2006 enacted level to fund inflationary increases in rent and other non-pay spending and a portion of mandatory pay increases. As a result this request would support 1,319 FTE – a reduction of 8 FTE from FY 2006. This request also fully funds the President’s Management Agenda e-Gov initiatives and Departmental enterprise IT initiatives and continues support for improper payment activities including funding for enhanced single state audits in three to five states in an effort to develop an error rate methodology which will help reduce improper payments.

The Unified Financial Management System (UFMS) is being implemented to replace five legacy accounting systems currently used across the Operating Divisions (Agencies). The UFMS will integrate the Department's financial management structure and provide HHS leaders with a more timely and coordinated view of critical financial management information. The system also will facilitate shared services among the Agencies and thereby help management reduce substantially the cost of providing accounting service throughout HHS. Similarly, UFMS, by generating timely, reliable and consistent financial information, will enable the component agencies and program administrators to make more timely and informed decisions regarding their operations. UFMS reached a major milestone in April 2005 with the move to production for the Center for Disease Control (CDC) and the Food and Drug Administration (FDA). ACF’s FY 2007 budget includes \$1.3 million<sup>1</sup> for this purpose.

Operations and Maintenance (O & M) activities for UFMS commenced in FY 2005. The Program Support Center will provide the O & M activities needed to support UFMS. The scope of O & M services includes post deployment support and ongoing business and technical operations services. Post-deployment services include supplemental functional support, training, change management and technical help-desk services. On-going business operation services involve core functional support, training and communications, and help desk services. On-going technical services include the operations and maintenance of the UFMS production and development environments, on-going development support, and backup and disaster recovery services. ACF’s FY 2007 budget includes \$1.1 million<sup>1</sup> for this purpose.

HHS agencies have been working to implement automated solutions for a wide range of administrative activities. As UFMS development and implementation move toward completion, there are added opportunities to improve efficiency through automating the transfer of information from administrative systems to the accounting system. ACF’s FY 2007 budget includes \$400,000<sup>1</sup> to support coordinated development of these improved automated linkages and administrative systems.

This request includes funding to support the President’s Management Agenda Expanding E-Government and Departmental enterprise information technology initiatives. Operating Division funds will be combined to create an Enterprise Information Technology (EIT) Fund to finance specific information technology initiatives identified through the HHS strategic planning process and approved by the HHS IT Investment Review Board. These enterprise information technology initiatives promote collaboration in planning and project management and achieve common HHS-wide goals. Examples of HHS enterprise initiatives funded by the EIT Fund are Enterprise Architecture, Capital Planning and Investment Control, Enterprise E-mail, Grants Management Consolidation, and Public Key Infrastructure.

---

<sup>1</sup> This effort is funded from programs that have statutory authority to pay for program support costs as well as Federal Administration funds.

ADMINISTRATION FOR CHILDREN AND FAMILIES  
Refugee and Entrant Assistance

SIGNIFICANT ITEMS IN HOUSE, SENATE AND CONFERENCE  
APPROPRIATIONS COMMITTEE REPORTS

Items Listed in House, Senate and Conference Appropriations Report Language

Item

**[Efforts to provide appropriate detention facilities for unaccompanied minors]** – The Committee directs that not later than one year after the date of enactment of this Act the Secretary of Health and Human Services shall submit a report on progress made by ORR and programs funded under this Act to shift children from secured detention facilities to more age-appropriate shelter-based facilities for unaccompanied children in its custody. (H. Rpt. 109-143, p.128)

Item

**[Care provided to unaccompanied children]** – The Committee directs that not later than 1 year after the date of enactment of this Act the Secretary of Health and Human Services shall submit a report on progress made by ORR to deinstitutionalize the care provided to unaccompanied children in its custody, including the utilization of community-based, child welfare centered services. (S. Rpt 109-103, p.199)

Item

**[Unaccompanied minors program]** – The conference agreement provides \$78,083,000 for the unaccompanied minors program. The House bill proposed \$63,083,000 for this program. The Senate provided \$63,083,000 through regular appropriations and \$15,000,000 as an emergency for this program. The conference agreement does not include emergency funding for this program. The conferees direct the Secretary of Health and Human Services to issue a report by no later than one year after the date of enactment of this Act on progress made by the Office of Refugee Resettlement and programs funded under this Act to shift children to more child-centered, age-appropriate, small group, home-like environments for unaccompanied children in its custody. (C. Rpt 109-337, p.86)

Action taken or to be taken

Prior to the program's transfer from the Department of Homeland Security (DHS) to ORR, more than 30 percent of all UAC were housed in juvenile detention centers. In less than three years, ORR has made a dramatic shift in the type of shelter used for these vulnerable children.

Currently, ORR has fewer than 2 percent of its UAC population in secure detention facilities – a reduction of more than 70 percent. As a viable alternative, ORR has developed “staff-secure” facilities that offer a heightened level of staff supervision, communication, and services in a structured, licensed shelter care setting. These facilities must offer full services, that is, the same services that UAC are offered in ORR funded shelters: educational classes all day, recreation, outside recreation, medical screenings and treatment, psycho-social assessments, group and individual counseling, and reunification services. In FY 2005 2 percent of the UAC population was placed in staff secure facilities

The vast majority of UAC (approximately 84 percent) are placed in shelter care and the remaining 12 percent are placed in foster homes, group homes, and residential mental health treatment centers.

FY 2006 House Appropriations Committee Report Language (H. Rpt 109-143)

Item

**[Services for abused immigrants]** – The Committee urges ORR to allow individual abused, abandoned or neglected children in its custody, when appropriate, to access State dependency proceedings for ultimate care and placement in State foster care or under legal guardianship as a necessary predicate for their eligibility for special immigrant juvenile status. (p. 127)

Action taken or to be taken

While the Homeland Security Act (HSA) transferred responsibility for the care and placement of unaccompanied alien children (UAC) to ORR, it did not include the authority for ORR to grant immigration benefits to UAC. The consent component of the Special Immigrant Juvenile (SIJ) process is the initial part of a process that may result in an immigration benefit; and the Department of Homeland Security has retained responsibility for this activity.

Item

**[Pro bono legal counsel for refugees]** – The Committee encourages ORR to fund pilot programs to study and assess the benefits of providing pro bono counsel to children in ORR custody. The Committee also encourages ORR to give high priority to the availability of pro bono legal counsel when selecting facilities for housing unaccompanied children in ORR custody. (p. 127)

Action taken or to be taken

ORR has accorded high priority to pro-bono representation for UAC in its care. At the end of FY 2005, the Vera Institute was awarded a three-year contract to develop pro-bono outreach capacity at selected non-profit legal service providers who serve UAC in ORR's custody. Currently, the Vera Institute is reviewing proposals submitted by various legal groups, and they will select six to seven organizations that will serve UAC in geographical areas with high apprehensions such as Phoenix, El Paso, Houston, Harlingen, and Southern California.

Item

**[Follow-up to Chicago pilot-advocacy for unaccompanied children]** – The Committee understands that ORR carried out a successful pilot program in Chicago, Illinois through Heartland Alliance on the benefits of child advocates for unaccompanied children. The Committee encourages ORR to implement follow-up pilot programs to further develop the findings and best practices of the Chicago pilot program regarding the utilization of child advocates to identify the child's best interests from a child welfare perspective so that such information can be taken into consideration by attorneys and judges involved in a child's immigration proceedings. (p. 128)

Action taken or to be taken

The Child Advocate Project, which was started in FY 2004 in Chicago under the Midwest Immigrant Human Rights Corp. of Heartland Alliance, appoints and trains "child advocate" volunteers for certain categories of children (e.g., very young, disabled, pregnant teens, etc.) who are in ORR custody at the International Children's Center in Chicago, one of the ORR-funded shelters for UAC. The advocates meet with their assigned children weekly and provide support, advice and guidance. Though the project is in its early stages, child advocates have had a beneficial impact on unaccompanied alien children's cases and assist attorneys by representing what is in the child's best interests. In FY 2006 ORR plans to replicate this project in Houston for UAC in staff secure and secure placements, subject to availability of funds.

FY 2006 Senate Appropriations Committee Report Language (H. Rpt 109-103)

Item

*[Services for abused immigrants]* – The Committee is aware that at times ORR allows individual abused, abandoned, or neglected children in its custody to access State dependency proceedings for ultimate care and placement in State foster care or under legal guardianship. The Committee urges ORR to continue this practice in such cases as it is appropriate. (p. 198)

Action taken or to be taken

While the Homeland Security Act (HSA) transferred responsibility for the care and placement of unaccompanied alien children (UAC) to ORR, it did not include the authority for ORR to grant immigration benefits to UAC. The consent component of the Special Immigrant Juvenile (SIJ) process is the initial part of a process that may result in an immigration benefit; and the Department of Homeland Security has retained responsibility for this activity.

### General Statement

The Refugee and Entrant Assistance program is designed to help refugees, asylees, Cuban and Haitian entrants, and trafficking victims to become employed and self-sufficient as quickly as possible. As a result of the Homeland Security Act of 2002, the program is now also responsible for coordinating and implementing the care and placement of unaccompanied alien children who are in federal custody by reason of immigration status. These duties are consistent with the Administration for Children and Families' strategic goals of increasing independence and productivity of families, increasing employment and promoting the social well-being of children. The President's appropriation request of \$614,935,000, represents the amount needed to maintain current assistance levels, and to provide support for victims of torture and unaccompanied alien children in federal custody.

Refugee and Entrant Assistance funds support seven programs:

- Transitional and Medical Services — This program provides cash and medical assistance to financially needy refugees, asylees, trafficking victims and entrants who are not categorically eligible for TANF, Medicaid, or SSI, and provides foster care services to unaccompanied minors. States are reimbursed for costs incurred to administer refugee program activities. Programs are monitored and data is collected and evaluated. Wilson/Fish projects provide alternative approaches to the state-administered programs. The Voluntary Agency Program (Matching Grant Program) provides one dollar in matching funds for every two dollars of federal funds.

- Victims of Trafficking — Reauthorized in FY 2006 under the Trafficking Victims Protection Reauthorization Act of 2005, this program extends eligibility for benefits and services to trafficking victims to the same extent as refugees.
- Social Services — The Social Services activity assists refugees in the areas of social adjustment, employment services, and attainment of self-sufficiency as rapidly as possible. Services include English language training, employment-related services, and a variety of special projects and activities.
- Victims of Torture — Reauthorized in FY 2006 under the Torture Victims Relief Reauthorization Act of 2005, this program provides medical and psychological treatment, social and legal services, and rehabilitation for victims of torture.
- Preventive Health — This program provides medical screening, outreach, orientation and access to health care for refugees to preserve the public health and ensure that health problems are not a barrier to achieving self-sufficiency.
- Targeted Assistance — Grants are made to states to provide services to counties or other localities with large refugee populations, high refugee concentrations, and high use of public assistance.
- Unaccompanied Alien Children — Transferred to ORR by the Homeland Security Act of 2002, this program involves the care and placement of an increasing number of unaccompanied alien children per year who are apprehended by INS agents, Border Patrol Officers, or other law enforcement agencies and placed in federal custody.

Office of Refugee Resettlement Populations Served

Year	State Dept Refugee Ceiling	Refugee Arrivals	Cuban/Haitian	Asylees	Trafficking Victims	Unaccompanied Alien Children
2003	70,000	28,234	8,687	24,264	151	4,792 <sup>1</sup>
2004	70,000	52,868	22,923	22,923	162	6,200
2005	55,000	53,813	9,275	23,922	230	7,800
2006	70,000					
2007	70,000					

<sup>1</sup> The Unaccompanied Alien Children program was transferred from the Department of Homeland Security to ORR in March of 2003; therefore ORR only placed children for six months of FY 2003.

TRANSITIONAL AND MEDICAL SERVICES

Authorizing Legislation –Section 414 of the Immigration and Nationality Act and Section 501 of the Refugee Education Assistance Act of 1980.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$204,993,000	\$265,547,000	\$282,333,000	+\$16,786,000

2007 Authorization... Such sums as may be appropriated. (Legislation to reauthorize the program is pending Congressional action.)

**Statement of the Budget Request** — The FY 2007 budget request of \$282,333,000 for Transitional and Medical Services will provide eight months of cash and medical assistance to eligible refugees, entrants, asylees, and trafficking victims, as well as foster care services to unaccompanied refugee minors and victims of a severe form of trafficking until emancipation.

**Program Description** — Transitional and Medical Services can be provided in three ways:

1. State refugee program offices are reimbursed for costs incurred to administer the refugee program. Cash and medical assistance is provided to adult refugees, asylees, entrants, unaccompanied refugee minors, and certified adult trafficking victims who are not categorically eligible for TANF, Medicaid, or SSI. State refugee program offices also are reimbursed for providing foster care to an unaccompanied refugee minor until the child reaches the age of eighteen. If a state has established a later age for emancipation from foster care, reimbursements will be provided until that date.
2. Under the Voluntary Agency (Matching Grant) Program participating national voluntary refugee resettlement agencies, many of which are faith-based organizations, provide a match (in cash or in-kind services) of one dollar for every two dollars of federal contribution. The participating agencies provide services such as case management, job development, job placement and follow-up, and interim cash assistance to help refugees become employed and self-sufficient within their first four months in the U.S. Participating refugees may not access public cash assistance.
3. Alternative projects for refugees that encourage refugee self-sufficiency, Wilson-Fish projects, are funded in ten states, and provide interim financial and medical assistance for newly arrived refugees to increase their prospects for early employment and self-sufficiency and to reduce welfare dependency.

Funding for Transitional and Medical Services during the last five years has been as follows:

2002 .....	\$227,243,000
2003 .....	\$219,853,000
2004 .....	\$168,975,000
2005 .....	\$204,993,000
2006 .....	\$265,547,000

**Performance Analysis** — This program was evaluated under the PART process of the FY 2007 budget and has received a rating of Effective.

ORR met the targets for two of its key performance measures that focus on employment: “increase entered employment through the Matching Grant program” (the FY 2004 target was 71 percent and the actual was 72 percent), and “increase the percent of refugee families that are self-sufficient within the first four months after arrival” (the FY 2004 target and actual were 72 percent).

Performance Goal	Results	Context
Increase the percent of refugees who enter employment through the Matching Grant program.	ORR has met this performance target since CY 2004, and also met the targets from 1999 through 2001.	The majority of the refugee populations being served with ORR funding during 2004 required more intensive services prior to job placement because of special medical needs, lack of formal education, and limited or no English proficiency. These refugee populations came from less developed countries such as Liberia and Sudan.

**Rationale for the Budget Request** — The FY 2007 budget request of \$282,333,000 for Transitional and Medical Services (TAMS), a \$16,786,000 increase from the FY 2006 enacted level, will provide the level of funding necessary to continue to provide eight months of cash and medical assistance to eligible refugees, entrants, asylees, and trafficking victims, as well as foster care services to the unaccompanied refugee minors until emancipation. Given the intense needs of refugees currently coming to the United States, this assistance is especially critical. For example, in FY 2005, ORR resettled 53,813 refugees from 62 different countries who speak 42 different languages. This diverse refugee population included significant numbers of Hmong, Somali Bantu, Sierra Leonian, and Liberian refugees from less developed countries, with special medical needs, lack of formal education, and very limited or no English proficiency. For these populations, the provision of eight months of cash and medical assistance, while they learn English and prepare for employment in the U.S., is critical to their adjustment and future ability to become self-sufficient.

VICTIMS OF TRAFFICKING

Authorizing Legislation – Section 113(b) and Section 202 of the Trafficking Victims Protection Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$9,915,000	\$9,816,000	\$14,816,000	+\$5,000,000

2007 Authorization...\$15,000,000 for international victims and \$10,000,000 for domestic victims.

**Statement of the Budget Request** – The FY 2007 budget request of \$14,816,000 for Victims of Trafficking will ensure continued administration of a national network for tracking and certifying trafficking victims, including a newly authorized grant program for United States citizens who are victims of trafficking.

**Program Description** – The Trafficking Victims Protection Act focuses on preventing human trafficking overseas, increasing prosecution of human traffickers here in the U.S., protecting the victims, and providing them with federal and state assistance where necessary. Victims of a severe form of trafficking are defined as people who are sexually exploited or compelled to provide labor through physical force, fraud, or coercion. Estimates indicate that there may be thousands of victims in the U.S.

This program extends eligibility for benefits and services to trafficking victims to the same extent as refugees. The law requires HHS, in consultation with the Attorney General, to certify adult trafficking victims as a pre-condition for their eligibility. Once certified, the adult trafficking victims will be eligible to apply for benefits and services under any federal or state funded program, to the same extent as refugees. Adult trafficking victims may be eligible for refugee cash and medical assistance and social services. Victims under 18 years of age do not need such certification in order to be eligible for benefits and services under the unaccompanied refugee minors program, but rather receive eligibility letters.

Beginning in FY 2006, the Trafficking Program will phase in a single national contract for the support of services to victims of human trafficking, which will provide a defined per capita benefit available to any qualified organization which is serving a victim of trafficking. ACF also will continue to make more limited grant opportunities available during FY 2006 and FY 2007.

The Trafficking “Per Capita Victim Services” contract will provide a more rational allocation of resources by making service funding available only to organizations which are actually serving victims of trafficking. The services contract will increase the accountability and responsibility of the social service process by requiring potential recipients of financial support to report the size of the trafficking victim client caseload they are serving. In addition, we anticipate that the services contract will contribute to the safety and rescue of trafficking victims by permitting a wider array of public and private non-profit entities to assist in the rescue and restoration of trafficking victims. The establishment of standards of care protocols in the services contract will ensure a high level of care as condition of receipt of funds.

Funding for Victims of Trafficking in previous years has been as follows:

2002 .....	\$ 10,000,000
2003 .....	\$ 9,935,000
2004 .....	\$ 9,909,000

2005 ..... \$ 9,915,000  
 2006 ..... \$ 9,816,000

**Performance Analysis** — This program was evaluated under the PART process as part of the FY 2007 budget process, and has received a rating of Moderately Effective.

Performance Goal	Results	Context
Increase the number of victims certified per year.	The baseline for FY 2004 is 163 victims of trafficking certified. In FY 2005, 230 victims were certified, which exceeded the FY 2005 target of 200 victims certified.	The “Rescue and Restore” public information campaign on Trafficking should result in an increase in the number of victims certified each year.

**Rationale for the Budget Request** — The FY 2007 request of \$14,816,000 is a \$5,000,000 increase from the FY 2006 enacted level. This budget request will support the national network for tracking and certifying victims and providing services to such victims. In addition, the \$5,000,000 increase will support a newly authorized discretionary grant program to fund states, Indian Tribes, units of local government, and nonprofit, nongovernmental victims’ service organizations. The grant program will assist eligible organizations in establishing, developing, expanding and strengthening assistance programs for United States citizens or aliens admitted for permanent residence, who are the subject of sex trafficking or severe forms of trafficking in persons that occurs, in whole or in part, within the territorial jurisdiction of the United States. The federal share of these grants will not exceed 75 percent of the total cost of the projects.

SOCIAL SERVICES

Authorizing Legislation –Section 414 of the Immigration and Nationality Act and Section 501 of the Refugee Education Assistance Act of 1980.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$152,243,000	\$154,004,000	\$149,610,000	-\$4,394,000

2007 Authorization....Such sums as may be appropriated. (Legislation to reauthorize the program is pending Congressional action.)

**Statement of the Budget Request** – The FY 2007 budget request of \$149,610,000 for the Social Services program will support state-administered programs emphasizing employment-related activities.

**Program Description** – A portion of the Social Services funding is distributed by formula to states and a portion is distributed through discretionary grants. Priority is given to English language training, case management, employment preparation, and job placement and retention services.

Funding for Social Services during the last five years has been as follows:

2002 .....	\$158,600,000
2003 .....	\$150,139,000
2004 .....	\$152,218,000
2005 .....	\$152,243,000
2006 .....	\$154,004,000

**Performance Analysis** – A PART review was conducted as part of the FY 2004 budget process, and the program was rated Adequate. This process resulted in ORR modifying some of its long-term and short-term measures to improve their precision as indicators of performance.

ORR has set a specific and ambitious long term goal. By 2012, states will achieve a 65 percent entered employment rate. States with entered employment rates less than 50 percent will be expected to achieve an annual increase of at least 5 percent of the prior year’s actual percentage outcome. States with an entered employment rate greater than 50 percent will be expected to achieve an annual increase of at least 3 percent of the prior year’s actual percentage outcome. States that reach a high employment and self-sufficiency rate of 85 percent among employable refugees may choose to maintain their target levels rather than increase them. States are expected to increase the percent of refugee cash assistance cases closed due to employment by at least 3 percentage points annually as a subset of all entered employment from the prior year.

Performance Goal	Results	Context
Increase the percent of refugees who enter employment through the provision of employability services under the Social Services program.	In FY 2004, ORR met this performance target, with 50% of eligible refugees entering employment through ACF-funded refugee employment services. This exceeded the FY 2004 target of 46.35%.	The majority of the refugee populations being served with ORR funding during 2004 required more intensive services prior to job placement because of special medical needs, lack of formal education, and limited or no English proficiency. These refugee populations came from less developed countries such as Somalia, Liberia and Sudan.

**Rationale for the Budget Request** – The FY 2007 budget request of \$149,610,000 for the Social Services program is a \$4,394,000 decrease from the FY 2006 enacted level. This budget will continue to support state-administered social services through formula-funded programs and discretionary grants emphasizing employment-related services, such as job preparation, placement, retention, and upgrading services, provided concurrently with English language training.

VICTIMS OF TORTURE

Authorizing Legislation – Section 5(b)(1) of the Torture Victims Relief Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$9,915,000	\$9,816,000	\$9,816,000	\$0

2007 Authorization...\$25,000,000.

**Statement of the Budget Request** – The FY 2007 budget request of \$9,816,000 for the Victims of Torture Program will provide a comprehensive program of support for domestic centers and programs for victims of torture.

**Program Description** – This program provides services and rehabilitation for victims of torture. Grantees are primarily non-profit organizations and allowable services include treatment, social and legal services, and provision of research and training to health care providers to enable them to treat the physical and psychological effects of torture.

Funding for Victims of Torture during the last five years has been as follows:

2002 .....	\$10,000,000
2003 .....	\$ 9,935,000
2004 .....	\$ 9,909,000
2005 .....	\$ 9,915,000
2006 .....	\$ 9,816,000

**Performance Analysis** – This program has not been subject to the PART process. Performance measures are being developed for this program.

**Rationale for the Budget Request** – The FY 2007 request of \$9,816,000 is the same as the FY 2006 enacted level. These funds will maintain medical and psychological treatment, social and legal services and rehabilitation for victims of torture.

PREVENTIVE HEALTH

Authorizing Legislation –Section 414 of the Immigration and Nationality Act and Section 501 of the Refugee Education Assistance Act of 1980.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$4,796,000	\$4,748,000	\$4,748,000	\$0

2007 Authorization... Such sums as may be appropriated. (Legislation to reauthorize this program is pending Congressional action.)

**Statement of the Budget Request** — The FY 2007 budget request of \$4,748,000 for Preventive Health will ensure adequate health assessment activities for refugees.

**Program Description** — Funding for preventive health services is awarded to states through this discretionary grant program to provide health screening/assessment services to refugees. The Office of Refugee Resettlement recognizes that a refugee's medical condition may affect public health as well as prevent a refugee from achieving economic self-sufficiency.

Funding for Preventive Health during the last five years has been as follows:

2002 .....	\$4,835,000
2003 .....	\$4,804,000
2004 .....	\$4,792,000
2005 .....	\$4,796,000
2006 .....	\$4,748,000

**Performance Analysis** — This program has not been subject to the PART process.

The program does not have measures included in the performance budget, however, internally, the program tracks the number of persons served from all eligible populations where medical screenings are reported by the initial resettlement state. The program seeks to increase the number of medical screenings reported by states as a percentage of the eligible population of refugees, asylees, Cuban and Haitian entrants, Amerasians and Trafficking victims through the use of Preventive Health funds for outreach and referral. In FY 2004, 45 percent of all eligible populations were reported by states to have been medically screened.

**Rationale for the Budget Request** — The FY 2007 request of \$4,748,000 is the same as the FY 2006 enacted level. These funds will support continued medical screening, outreach, orientation and access to health care for refugees to preserve the public health and ensure health problems are not a barrier to achieving self-sufficiency.

TARGETED ASSISTANCE

Authorizing Legislation –Section 414 of the Immigration and Nationality Act and Section 501 of the Refugee Education Assistance Act of 1980.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$49,081,000	\$48,590,000	\$48,590,000	\$0

2007 Authorization... Such sums as may be appropriated. (Legislation to reauthorize the program is pending Congressional action.)

**Statement of the Budget Request** — The FY 2007 budget request of \$48,590,000 for Targeted Assistance will provide needed employment services to help increase the number of refugees entering employment and reduce their need for cash assistance.

**Program Description** — This program provides grants to states with counties that are impacted by high concentrations of refugees and high dependency rates. States are required by statute to pass on to the designated counties at least 95 percent of the funds awarded. Services provided by this program are generally designed to secure employment for refugees within one year or less.

Funding for Targeted Assistance during the last five years has been as follows:

2002 .....	\$49,477,000
2003 .....	\$49,155,000
2004 .....	\$49,025,000
2005 .....	\$49,081,000
2006 .....	\$48,590,000

**Performance Analysis** — See Performance Analysis section under Social Services. Performance data reported under Social Services contains targeted assistance outcomes as well as Social Services.

**Rationale for the Budget Request** — The FY 2007 request of \$48,590,000 is the same as the FY 2006 enacted level. These funds will be awarded to states to continue to provide services to counties and other localities with high refugee concentrations and high use of public assistance.

UNACCOMPANIED ALIEN CHILDREN

Authorizing Legislation — Section 462 of the Homeland Security Act.

2005 Enacted	2006 Enacted	2007 Estimate	Increase or Decrease
\$53,771,000	\$77,302,000	\$105,022,000	+\$27,720,000

2007 Authorization....Such sums as may be appropriated.

**Statement of the Budget Request** — The FY 2007 budget request of \$105,022,000 for the Unaccompanied Alien Children (UAC) Program will provide sufficient funds to appropriately care for the anticipated increasing number of children in care at any time throughout the fiscal year and provide for more thorough background checks prior to placement of these children.

**Program Description** — The UAC program provides for the care and placement of unaccompanied alien minors who are apprehended in the U.S. by Homeland Security agents, Border Patrol officers or other law enforcement agencies, and taken into care pending resolution of their claims for relief under U.S. immigration law or release to an adult family member or responsible adult guardian. Resolution of UAC claims may result in release, granting of an immigration status (such as special immigrant juvenile or asylum), voluntary departure, or removal from the U.S.

The principal objective of the program is to provide appropriate temporary shelter for these children and the costs associated with these facilities dominate the UAC budget—slightly more than 85% of the entire budget. State licensed facilities receive grants to provide shelter care, foster care, staff secure and secure detention care and related services. The program also provides medical care, pro-bono coordination, family reunification and secure transportation services through grants, inter-agency agreements, and contracts.

Funding for the Unaccompanied Alien Children Program since its transfer to ACF has been as follows:

2003.....	\$37,082,000
2004.....	\$52,770,000
2005.....	\$53,771,000
2006 .....	\$77,302,000

**Performance Analysis** — This program has not been subject to the PART process. Performance measures are being developed for this program.

**Rationale for the Budget Request** — The FY 2007 budget request for the Unaccompanied Alien Children Program is \$105,022,000, a \$27,720,000 increase from the FY 2006 enacted level. This increase will provide sufficient funds for (1) care and placement of an increasing number of unaccompanied alien children through foster care, shelter care, staff secure, or secure detention centers; (2) additional field staff in areas of high apprehensions; (3) expansion of the pilot pro-bono legal services program to a national level; and (4) more thorough background checks of sponsors prior to the placement of these children.

From the increased funding requested in the FY 2007 budget, approximately \$16 million will be used to fund shelter needs for this larger population of apprehended children. Due to expanded targeted border

patrol operations aimed at apprehending undocumented aliens, the trend of caring for an increasing number of children each year is expected to continue through FY 2007. The number of unaccompanied alien children in care increased from a monthly average of approximately 600 in FY 2004 to approximately 850 in FY 2005. We estimate a monthly average of approximately 1,000 unaccompanied alien children in care during FY 2006 and approximately 1,200 in FY 2007. Annual placements increased from approximately 6,200 in FY 2004 to approximately 8,000 in FY 2005 with an anticipated average of approximately 9,600 annual placements in FY 2006 and 11,500 in FY 2007.

An additional \$10 million will be used to provide expanded background checks prior to placement of these children. The background checks will cost approximately \$1.5 million and will result in an increase in shelter costs of approximately \$8.5 million. The more extensive background checks will require children to stay in shelter longer, until the checks are complete.

Currently, background checks are conducted primarily on the adult to whom the UAC is released and home assessments are done on a very limited basis. With these additional funds, we will conduct more thorough background and fingerprint checks to include other adults living in the household and expand our use of home assessments prior to release of the UAC based on case circumstances. These expanded background checks are in the best interest of UAC, to ensure safety and prevent release to an environment of adults with criminal records and or child/sex abusers.

Finally, \$2 million of the increase will be used to fund expansion of the pilot pro-bono legal services to a national level, the hiring of additional field staff in areas of high apprehension, and the increased medical services and administrative costs associated with the rise in UAC placements.
