

Charleston District - Corps of Engineers Regulatory Division

Courtesy List of South Carolina Environmental Consultants

Updated February 2008

The following list of environmental consulting firms is presented as a courtesy to help the general public find professional assistance in matters related to the Clean Water Act, which may include wetland delineations and the preparation of permit applications within the State of South Carolina.

This list is compiled in alphabetical order first by City/Town location of the consultants' office and/or mailing address, then in alphabetical order by name of the consulting firm. The location of the office does not necessarily indicate the geographical area in which the consultant conducts work. To determine in what geographical area the consultant works, please contact the consultant directly. In addition, to determine what type of work the consultant specializes in, (i.e. wetland restoration) please contact the consultant directly.

Note: These companies have indicated to us that they remain available for this type of work and have requested that they be placed on this list. This office is willing to work with any and all qualified environmental consultants. It is the responsibility of the consulting firms to update this office with changes to their contact information.

Please be aware that inclusion on this list should not be considered an endorsement by the Charleston District / Corps of Engineers of any listed consultant or firm.

To have your company added to this list, or to make updates to the listing, please contact the Project Manager of the Day at 843-329-8044.
