

REPORT TO CONGRESS

DEPARTMENT OF DEFENSE SALES OF SIGNIFICANT MILITARY EQUIPMENT TO FOREIGN ENTITIES FISCAL YEARS 2006 AND 2007 June 2008

Office of the Under Secretary of Defense (Acquisition, Technology)

Background

Section 1231 of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364), requires the Secretary of Defense to submit an annual report to Congress on foreign military sales (FMS) and direct sales to foreign entities of significant military equipment manufactured in the United States during the preceding calendar year. The report is to identify for all sales of significant military equipment in excess of \$2,000,000: (1) the nature of the equipment and the dollar value of the sales; (2) the country to which the equipment was sold; and (3) the manufacturer of the equipment and the State in which the equipment was manufactured. The law defines the term “significant military equipment” as having the meaning given the term in section 47(9) of the Arms Export Control Act (22 U.S.C. 2794(9) note).

The information requested by section 1231 is not stored in a single data base. The Department of Defense is able to obtain and report information on FMS only. Information on direct commercial sales is available only through Department of State’s Licensing Division. While the State Department was able to provide most of the requested information on direct commercial sales, it does not track the State in which the equipment was manufactured and did not provide the manufacturer.

It should also be noted that the data required to satisfy the FMS reporting requirements of section 1231 are not available in a readily accessible data base and must be requested from each of the Components on a manual data call basis. As a result, it took more time than anticipated to prepare this report. Accordingly, this report will address both the fiscal year 2006 and 2007 reporting periods. Further, although section 1231 requests data on a calendar year basis, the Department collects its data on a fiscal year basis. Therefore, the FMS data reflects FMS purchases in FY 2006 and 2007.

FMS Purchases

1. FY 2006

Fifty-three countries procured significant military equipment (SME) that exceeded \$2,000,000 through the FMS system in FY 2006. The total value of these purchases was \$3,912,001,805. These purchases were made through the Air Force, Army, and Navy. A detailed breakout of the purchases by military department, contract number, manufacturer, dollar value, type of hardware and state of performance is set forth in attachment 1.

2. FY 2007

Fifty countries procured significant military equipment (SME) that exceeded \$2,000,000 through the FMS system in FY 2007. The total value of these purchases was \$5,114,390,826. These purchases were made through the Air Force, Army, and Navy and Marine Corps. A detailed breakout of the purchases by military service, contract number, manufacturer, dollar value, type of hardware and state of performance is set forth in attachment 2.

Direct Commercial Sales

1. FY 2006

The United States State Department authorized \$5,296,745,444 in direct commercial sales of reportable SME to 43 countries in FY 2006. A detailed breakout of the purchases by dollar value, and type of hardware is set forth in attachment 3.

2. FY 2007

We are still awaiting State Department's input on the direct commercial sales authorized for FY 2007. A supplemental report will be submitted when we receive the data.

\$2,213,331	Saudi Arabia	Category III(a) Ammunition/ordnance.	Cartridges 20mm through 40mm
\$13,333,321	Saudi Arabia	Category III(a) Ammunition/ordnance.	Explosive cartridges
\$17,835,900	Saudi Arabia	Category IV(a) Rockets (including but not limited to meteorological and other sounding rockets), bombs, grenades, torpedoes, depth charges, land and naval mines, as well as launchers for such defense articles, and demolition blocks and blasting caps.	Hellfire missiles
\$2,100,000	Saudi Arabia	Category VII(a) Military type armed or armored vehicles, military railway trains, and vehicles specifically designed or modified to accommodate mountings for arms or other specialized military equipment or fitted with such items.	Military trucks
\$8,182,166	Singapore	Category III(a) Ammunition/ordnance.	Explosive cartridges

\$120,450,000	Singapore	Category VIII(a) Aircraft, including but not limited to helicopters, non-expansive balloons, drones , and lighter-than-aircraft, which are specifically designed, modified, or equipped for military purposes.	Gulfstream aircraft
\$322,643,881	Singapore	Category VIII(a) Aircraft, including but not limited to helicopters, non-expansive balloons, drones , and lighter-than-aircraft, which are specifically designed, modified, or equipped for military purposes.	Sikorsky helicopters
\$28,234,620	Singapore	Category XI(a) Electronic equipment specifically designed, modified or configured for military use.	Sonar systems
\$14,014,500	Singapore	Category XII(a) Fire control systems; gun and missile tracking and guidance systems gun range, position, height finders, spotting instruments and laying equipment; aiming devices (electronic, optic, and acoustic); bomb sights, bombing computers, military television sighting and viewing units, and periscopes.	Periscopes
\$6,613,996	South Korea	Category III(a) Ammunition/ordnance.	Explosive cartridges
\$24,207,135	South Korea	Category IV(b) Launch vehicles and missile and anti-missile systems including but not limited to guided, tactical and strategic missiles, launchers, and systems.	Missile launchers
\$4,058,365	South Korea	Category XI(a) Electronic equipment specifically designed, modified or configured for military use.	Direction finders
\$2,730,000	South Korea	Category XI(a) Electronic equipment specifically designed, modified or configured for military use.	Electronic warfare system
\$3,625,000	Spain	Category XI(a) Electronic equipment specifically designed, modified or configured for military use.	Multi-mode radar
\$3,140,044	Spain	Category XI(a) Electronic equipment specifically designed, modified or configured for military use.	Radio sets
\$3,170,448	Spain	Category XI(a) Electronic equipment specifically designed, modified or configured for military use.	Radio sets

\$6,142,075	Sri Lanka	Category II(a) Guns over caliber .50 (12.7mm), whether towed, airborne, self-propelled, or fixed, including but not limited to, howitzers, mortars, cannons and recoilless rifles.	Cannon systems
\$35,500,000	Sweden	Category XII(c) Infrared focal plane array detectors specifically designed, modified, or configured for military use; image intensification and other night sighting equipment or systems specifically designed, modified or configured for military use; second generation and above military image intensification tubes, and infrared, visible and ultraviolet devices.	Infrared viewers
\$3,859,906	Switzerland	Category IV(a) Rockets (including but not limited to meteorological and other sounding rockets), bombs, grenades, torpedoes, depth charges, land and naval mines, as well as launchers for such defense articles, and demolition blocks and blasting caps.	AMRAAM missiles
\$51,000,000	Switzerland	Category VIII(a) Aircraft, including but not limited to helicopters, non-expansive balloons, drones , and lighter-than-aircraft, which are specifically designed, modified, or equipped for military purposes.	F-18 fighter aircraft
\$13,313,305	Taiwan	Category III(a) Ammunition/ordnance.	Explosive cartridges
\$386,610,488	Turkey	Category VIII(a) Aircraft, including but not limited to helicopters, non-expansive balloons, drones , and lighter-than-aircraft, which are specifically designed, modified, or equipped for military purposes.	Sikorsky helicopters
\$6,460,000	Turkey	Category XII(d) Inertial platforms and sensors for weapons or weapon systems; guidance, control and stabilization systems; astro-compasses and star trackers and military accelerometers and gyros.	Inertial navigation systems
\$19,892,071	Uganda	Category XI(a) Electronic equipment specifically designed, modified or configured for military use.	Radio sets

\$4,123,000	Ukraine	Category XII(d) Inertial platforms and sensors for weapons or weapon systems; guidance, control and stabilization systems; astro-compasses and star trackers and military accelerometers and gyros.	Gyroscopes
\$3,112,765	United Arab Emirates	Category I(a) Nonautomatic and semi-automatic firearms to caliber .50 inclusive (12.7 mm).	Machine guns
\$3,776,016	United Arab Emirates	Category VII(a) Military type armed or armored vehicles, military railway trains, and vehicles specifically designed or modified to accommodate mountings for arms or other specialized military equipment or fitted with such items.	Military trucks
\$180,250,000	United Arab Emirates	Category XV(a) Spacecraft, including communications satellites, remote sensing satellites, scientific satellites, research satellites, navigation satellites, experimental and multi-mission satellites.	Commercial communications satellite
\$110,933,648	United Kingdom	Category IV(a) Rockets (including but not limited to meteorological and other sounding rockets), bombs, grenades, torpedoes, depth charges, land and naval mines, as well as launchers for such defense articles, and demolition blocks and blasting caps.	AIM-120 missiles
\$110,933,648	United Kingdom	Category IV(a) Rockets (including but not limited to meteorological and other sounding rockets), bombs, grenades, torpedoes, depth charges, land and naval mines, as well as launchers for such defense articles, and demolition blocks and blasting caps.	AIM-120 missiles
\$66,024,851	United Kingdom	Category IV(a) Rockets (including but not limited to meteorological and other sounding rockets), bombs, grenades, torpedoes, depth charges, land and naval mines, as well as launchers for such defense articles, and demolition blocks and blasting caps.	Rockets
\$97,122,447	United Kingdom	Category VIII(a) Aircraft, including but not limited to helicopters, non-expansive balloons, drones , and lighter-than-aircraft, which are specifically designed, modified, or equipped for military purposes.	ASTOR aircraft

\$97,122,447	United Kingdom	Category VIII(a) Aircraft, including but not limited to helicopters, non-expansive balloons, drones , and lighter-than-aircraft, which are specifically designed, modified, or equipped for military purposes.	ASTOR aircraft
\$97,122,447	United Kingdom	Category VIII(a) Aircraft, including but not limited to helicopters, non-expansive balloons, drones , and lighter-than-aircraft, which are specifically designed, modified, or equipped for military purposes.	ASTOR aircraft
\$97,122,447	United Kingdom	Category VIII(a) Aircraft, including but not limited to helicopters, non-expansive balloons, drones , and lighter-than-aircraft, which are specifically designed, modified, or equipped for military purposes.	ASTOR aircraft
\$97,122,447	United Kingdom	Category VIII(a) Aircraft, including but not limited to helicopters, non-expansive balloons, drones , and lighter-than-aircraft, which are specifically designed, modified, or equipped for military purposes.	ASTOR aircraft
\$2,700,000	United Kingdom	Category VIII(b) Military aircraft engines.	Gas turbine engines
\$28,520,162	United Kingdom	Category XI(a) Electronic equipment specifically designed, modified or configured for military use.	Electronic countermeasures equipment
\$16,000,000	United Kingdom	Category XI(a) Electronic equipment specifically designed, modified or configured for military use.	Electronic warfare system
\$12,181,898	United Kingdom	Category XI(a) Electronic equipment specifically designed, modified or configured for military use.	Radar system
\$3,000,010	United Kingdom	Category XI(a) Electronic equipment specifically designed, modified or configured for military use.	Radio sets
\$3,000,010	United Kingdom	Category XI(a) Electronic equipment specifically designed, modified or configured for military use.	Radio sets

\$13,750,000	United Kingdom	Category XII(c) Infrared focal plane array detectors specifically designed, modified, or configured for military use; image intensification and other night sighting equipment or systems specifically designed, modified or configured for military use; second generation and above military image intensification tubes, and infrared, visible and ultraviolet devices.	Infrared viewers
\$6,344,424	United Kingdom	Category XII(c) Infrared focal plane array detectors specifically designed, modified, or configured for military use; image intensification and other night sighting equipment or systems specifically designed, modified or configured for military use; second generation and above military image intensification tubes, and infrared, visible and ultraviolet devices.	Night vision scopes
\$9,441,838	United Kingdom	Category XII(d) Inertial platforms and sensors for weapons or weapon systems; guidance, control and stabilization systems; astro-compasses and star trackers and military accelerometers and gyros.	Inertial navigation systems
\$118,556,466	United Kingdom	Category XV(a) Spacecraft, including communications satellites, remote sensing satellites, scientific satellites, research satellites, navigation satellites, experimental and multi-mission satellites.	Commercial communications satellite
\$118,556,466	United Kingdom	Category XV(a) Spacecraft, including communications satellites, remote sensing satellites, scientific satellites, research satellites, navigation satellites, experimental and multi-mission satellites.	Commercial communications satellite
\$8,000,000	Venezuela	Category VIII(a) Aircraft, including but not limited to helicopters, non-expansive balloons, drones , and lighter-than-aircraft, which are specifically designed, modified, or equipped for military purposes.	Aircraft engines
\$5,296,745,444	TOTAL
