| Wisconsin | 13,400 | 23,900 |
| Wyoming | 1,900 | 3,100 |
| National Total | $\mathbf{9 0 7 , 3 0 0}$ | $\mathbf{1 , 5 1 4 , 7 0 0}$ |

Notes applicable to this table:
Data as of: 15-FEB-2001

1. The source for this table is ACF-801 data for FFY 1998 from April through September. No ACF-801 data was required before April 1998.
2. All counts are "adjusted" numbers of families and children unless otherwise indicated. These "adjusted" numbers represent the number funded through CCDF only. The "adjusted" number is the raw or "unadjusted" number reported by the State multiplied by the pooling factor as reported on the ACF-800. The District of Columbia reported a pooling factor of only 5\%.
3. All states provide an actual unadjusted count of families served each month. For States reporting full population data, the number of child records reported each month were directly counted. However, for States that only submit samples (as indicated by an "A" superscript) , the ratio of children-to-families was determined each month from the samples and then multiplied by the reported number of families to obtain an estimate of the unadjusted number of children served each month. The unadjusted average number of families and children were obtained from the monthly numbers in the Federal Fiscal Year (FFY).
4. At the time of publication, Maine and Northern Mariana Islands had not yet reported ACF-801 data for FFY 1998 as indicated by the "E" superscript. Six other grantees submitted less than 6 months of ACF-801 data as indicated by the "B" superscript; District of Columbia, Mississippi, Nevada, Ohio, Oklahoma, and Pennsylvania.
5. The reported results shown above have been rounded to the nearest 100 . The national numbers are simply the sum of the State and Territory numbers.
6. The reliability of the data provided by grantees is highly questionable due to serious information system problems during the reporting period as indicated by a " C " superscript for grantees Indiana and Mississippi.
F. Reflectors a recent change made by the state to its pooling factor Delaware.

Table 2
Child Care and Development Fund
Percent of Children Served by Payment Method (FFY 1998)

| State | Grants I Contracts \% | Certificates \% | Cash \% | Total |
| :---: | :---: | :---: | :---: | :---: |

| Utah | - |  | 100\% | 20,107 |
| Vermont | 0\% | 100\% |  | 8,537 |
| Virgin Islands | 2\% | 98\% |  | 1,231 |
| Virginia | 1\% | 99\% |  | 47,623 |
| Washington |  | 64\% | 36\% | 94,071 |
| West Virginia | - | 100\% |  | 11,865 |
| Wisconsin | - | 100\% |  | 48,841 |
| Wyoming | - | 100\% |  | 4,906 |
| National Average/Total | 10\% | 84\% | 7\% | 2,585,927 |

1. The source for this table is ACF-800 data for FFY 1998. The ACF-800 is based on an annual unduplicated count of families and children; i.e. a family or child that receives one hour of service on one day is counted the same as a family or child that receives full-time care throughout the fiscal year.
2. All counts are "adjusted" numbers of families and children unless otherwise indicated. These "adjusted" numbers represent the number funded through CCDF only. The "adjusted" number is the raw or "unadjusted" number reported by the State multiplied by the pooling factor as reported on the ACF-800. A few States have indicated that the pooling factor reported on the ACF-800 is not applicable to the ACF-801. This report takes all these factors into consideration in calculating the "adjusted" numbers or percentages. The District of Columbia reported a pooling factor of only $5 \%$.
3. A " $0 \%$ " indication often means the value is less than $0.5 \%$ rather than actually zero. In a few instances, the sum of the categories may not appear to add up to exactly $100 \%$ because of rounding. A "-" indicates that the reported figure is 0 or not reported.

Table 3
Child Care and Development Fund

| Percent of Children Served by Types of Care (FFY 1998) |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| State | Child's Home | Family Home | Group Home | Center | Total |
| Alabama | 0\% | 20\% | 6\% | 74\% | 40,311 |
| Alaska | 5\% | 57\% | 3\% | 35\% | 16,739 |

1. The source for this table is ACF-800 data for FFY 2004. The ACF-800 is based on an annual unduplicated count of families and children; i.e. a family or child that receives one hour of service on one day is counted the same as a family or child that receives full-time care throughout the fiscal year.
2. All counts are "adjusted" numbers of families and children unless otherwise indicated. These "adjusted" numbers represent the number funded through CCDF only. The "adjusted" number is the raw or "unadjusted" number reported by the State multiplied by the pooling factor as reported on the ACF-800. A few States have indicated that the pooling factor reported on the ACF-800 is not applicable to the ACF-801. This report takes all these factors into consideration in calculating the "adjusted" numbers or percentages. The District of Columbia reported a pooling factor of only 5\%.
3. A " $0 \%$ " indication often means the value is less than $0.5 \%$ rather than actually zero. In a few instances, the sum of the categories may not appear to add up to exactly $100 \%$ because of rounding.
4. In some States there were no children served in Unregulated settings and thus the percent is "-" since division by zero is undefined.
5. New Hampshire did not report a consistent and/or complete ACF-800 for FFY 1998.

Notes applicable to this table:
Data as of: 15-FEB-2001

1. The source for this table is ACF-800 data for FFY 1998, an unduplicated annual count.
2. This data has not been adjusted by the pooling factor (unadjusted data) because ACF-800 Data Element 6a it is reported as a count of providers receiving CCDF funding.
3. Note that this table reports the number of providers (not the number of children). A provider that serves one child is counted the same as a provider serving 200 children per day.
4. New Hampshire and Virginia did not report the number of providers by setting type.
5. A "-" indicates that the reported figure is 0 or not reported.

1. The source for this table is ACF-800 data for FFY 1998, an unduplicated annual count.
2. This data has not been adjusted by the pooling factor (unadjusted data) because it is impossible to tell which families receiving consummer information also received CCDF funding.
3. NA=Not applicable, does not offer grants or contracts for subsidized child care slots.
4. A blank cell indicates that the State did not provide a response.
