

My little boy
has asthma.

WE'LL BOTH GET A FLU VACCINE.

Even if you're healthy, if you live with or care for people at high risk for severe complications from influenza, you should **get vaccinated**. Groups at high risk include **infants, pregnant women**, kids and adults with chronic medical conditions like **asthma, diabetes**, or **heart disease**, and adults aged **65 and older**.

**DON'T GET THE FLU. DON'T SPREAD THE FLU.
GET VACCINATED.**
