

HOLLYWOOD VAULTS INC

A secure port along the information highway for film, tape & media storage

COMPANY PROFILE

HOLLYWOOD VAULTS, Inc. was founded in 1985 to address a critical need in the entertainment and media industries. HOLLYWOOD VAULTS is a high-tech film and tape storage facility catering to the storage needs of Hollywood's motion-picture film, television, video, and music industries. HOLLYWOOD VAULTS has created a modern approach to the storage of valuable media materials, offering unparalleled quality, convenience and security at competitive rates. Today HOLLYWOOD VAULTS is regarded as one the nation's premier public film and tape storage vaults.

The primary facility consists of a 6,200 square foot building located in the heart of Hollywood's film and tape industries, at 742 North Seward Street. The two-story building, constructed by HOLLYWOOD VAULTS, Inc. entirely of concrete, is climate controlled, providing the ideal temperature and humidity conditions for the safe-keeping of film and media materials. The environment within the vaults is cold and dry, maintaining 45° Fahrenheit & 40% Relative Humidity. The facility is security monitored for heat, smoke, fire, flood, temperature, humidity and intrusion by a central security station 24 hours a day, and utilizes a night-time patrol service. A Halon fire suppression system is utilized throughout the entire building.

HOLLYWOOD VAULTS operates on a self-service basis, allowing clients 24-hour access to one or more of the 140 individual units leased within the vault. Storage units vary in size, with an overall maximum capacity of 156,000 cans of film or tape. Clients deliver, organize and retrieve their own materials, and retain full control and responsibility for their goods, including insurance. Each storage unit is part of a Swiss-made high-density mobile shelving system, and is equipped with individual aisle locks and floor-to-ceiling adjustable steel shelving to accommodate maximum storage capacity. A dumbwaiter is provided for easy second floor access. Pushcarts, hand trucks, step-ladders and a lobby phone are also provided for client use. The innovative design and well-executed construction allows clients 24-hour access to this unique un-manned facility. Administration is handled through the HOLLYWOOD VAULTS corporate office in Santa Barbara, California. Due to the outstanding quality, impeccable maintenance, and high security of the storage space, client turnover is negligible. HOLLYWOOD VAULTS is filled to capacity and maintains a waiting list. An addition to HOLLYWOOD VAULTS is under construction at this time.

HOLLYWOOD VAULTS clientele represent a who's-who of the following industries: Film, Television & Video Production, TV Commercial Production, Ad Agencies, Record Companies, Recording Artists, Radio Production, Video & Film Distribution, Museums & Archives, institutions and general business.

David Wexler, founder and owner of HOLLYWOOD VAULTS, is recognized as an expert in the field of film and tape vaulting. His design consultancy includes the following clients: Federal Safe Deposit Company of Beverly Hills, Broadcast Standards Inc., Walt Disney Studios, Paramount Pictures, Western Security Bank, Eastman Kodak Co., The Cousteau Society, Los Angeles Fine Art & Wine Storage Company, Technicolor Film Laboratory, Jean-Michel Cousteau Productions, Steven Spielberg, Pearl Jam and Amgen.

Mr. Wexler's professional affiliations include: Self-Service Storage Association (SSSA), American Film Institute (AFI), Society of Motion Picture & Television Engineers (SMPTE), Association for Recorded Sound Collections (ARSC), Society of Professional Audio Recording Services (SPARS), Technology Council of the Motion Picture-Television Industry (TCMPT), Society for the Preservation of Film Music (SPFM), Society of American Archivists (SAA), Association of Moving Image Archivists (AMIA), Material Handling & Management Society (MHMS), International Facility Management Association (IFMA), and American Society for Industrial Security (ASIS).
