

MAP PROJECTION
The map is a planar projection of a portion of the spheroidal surface of Venus. The map is based on the spherical coordinates of the Venusian surface as determined by the Soviet Union. The map is based on the spherical coordinates of the Venusian surface as determined by the Soviet Union. The map is based on the spherical coordinates of the Venusian surface as determined by the Soviet Union.

MAP SCALE
The map is based on the spherical coordinates of the Venusian surface as determined by the Soviet Union. The map is based on the spherical coordinates of the Venusian surface as determined by the Soviet Union. The map is based on the spherical coordinates of the Venusian surface as determined by the Soviet Union.

MAP DATA
The map is based on the spherical coordinates of the Venusian surface as determined by the Soviet Union. The map is based on the spherical coordinates of the Venusian surface as determined by the Soviet Union. The map is based on the spherical coordinates of the Venusian surface as determined by the Soviet Union.

MAP REFERENCES
The map is based on the spherical coordinates of the Venusian surface as determined by the Soviet Union. The map is based on the spherical coordinates of the Venusian surface as determined by the Soviet Union. The map is based on the spherical coordinates of the Venusian surface as determined by the Soviet Union.

MAP NOTES
The map is based on the spherical coordinates of the Venusian surface as determined by the Soviet Union. The map is based on the spherical coordinates of the Venusian surface as determined by the Soviet Union. The map is based on the spherical coordinates of the Venusian surface as determined by the Soviet Union.
