4.2 Data Code Tables

The Data Code Tables listed below are not intended to be exhaustive, but rather suggest the types of code tables that may be useful within a WIC IS. The design of the system will determine the specific requirements for code tables. To increase a system's flexibility and adaptability for different State environments, it is highly recommended that code tables be used to the fullest extent possible. The values associated with the code tables may be determined either at the State level or at the local level depending on the policies of the individual States.

The following data code tables have been identified for the proposed State WIC information system:

4.2.1 Adjustment Reason

Description: The Adjustment Reason code table is comprised of data elements describing reasons rebate invoices are adjusted (e.g., error, formula returned).

Data Elements:

   Rebate Invoice Adjustment Reason Code

   Rebate Invoice Adjustment Reason Description

4.2.2 Administrative Hearing Type

Description: The Administrative Hearing Type code table is comprised of data elements listing the types of entities that participate in administrative hearings, (e.g., participants, vendors, users/staff).

Data Elements:

   Administrative Hearing Type Code

   Administrative Hearing Type Description

4.2.3 Annual Income

Description: The Annual Income code table lists the maximum allowable income level of a WIC Program enrollee based on the number of individuals living in the same economic unit with the enrollee.

Data Elements:

Participant Income per Period

Allowable Family/Household Size

4.2.4 Appointment Type

Description: The Appointment Type code table is comprised of data elements listing the types of appointments participants have with WIC staff (e.g., (re) certification, nutrition education, food instrument pick-up).

Data Elements:

Scheduled Appointment Type Code

Scheduled Appointment Type Description

4.2.5 Appointment Document

Description: The Appointment Document code table is comprised of data elements listing the types of appointment letter templates that are available.

Data Elements:

Scheduled Appointment Document Code

Scheduled Appointment Document Description

4.2.6 Archive Record Type

Description: The Archive Record Type code table is comprised of data elements that describe the type of record being archived.

Data Elements:

Archive Record Type Code

Archive Record Type Description

4.2.7 Bloodwork Type

Description: The Bloodwork Type code table is comprised of data elements that describe type of bloodwork test performed (e.g., Hematocrit, hemoglobin, or erythrocyte protoporphyrin).

Data Elements:

Participant Health Bloodwork Type Code

Participant Health Bloodwork Type Description

4.2.8 Breastfeeding Discontinued Reason

Description: The Breastfeeding Discontinued Reason code table is comprised of data elements listing the reason(s) breastfeeding stopped (e.g., went back to work, baby's age, no support from family/friends).

Data Elements:

Breastfeeding Discontinued Reason Code

Breastfeeding Discontinued Reason Description

4.2.9 Breastfeeding Status

Description: The Breastfeeding Status code table is comprised of data elements listing the breastfeeding status of a participant (e.g., currently breastfeeding, discontinued breastfeeding).

Data Elements:

Breastfeeding Status Code

Breastfeeding Status Description

4.2.10   Budget Code

Description: The Budget Code code table is comprised of data elements that describe different types of budget categories (e.g., Breastfeeding, Client Services, Nutrition Education, or Program Administration). These codes are used by the NSA Budget and NSA Expenditure data stores.

Data Elements:

Expenditure Budget Code

Expenditure Budget Description

4.2.11 Card Replacement Reason

Description: The Card Replacement Reason code table is comprised of data elements listing the reasons a participant's card is replaced.

Data Elements:

Participant Card Replacement Reason Code

Participant Card Replacement Reason Description

4.2.12 Care Plan Template Type

Description: The Care Plan Template Type code table is comprised of data elements listing the types of care plan templates available for a participant.

Data Elements:

Participant Care Plan Template Type Code

Participant Care Plan Template Type Description

4.2.13 Category/Subcategory Category

Description: The Category/Subcategory Category code table is comprised of data elements listing the categories to which a food item can belong (e.g., milk, cheese, cereal).

Data Elements:

Category/Subcategory Category Code

Category/Subcategory Category Description

4.2.14 Category/Subcategory Subcategory

Description: The Category/Subcategory Subcategory code table is comprised of data elements listing the subcategories to which a food item can belong (e.g., 2% milk, cheddar cheese).

Data Elements:

Category/Subcategory Subcategory Code

Category/Subcategory Category Code

Category/Subcategory Subcategory Description

4.2.15 Certification Status

Description: The Certification Status code table is comprised of data elements used to describe levels of certification, as well as to set up compliance investigator participants (e.g., applicant, certified, waiting list, compliance investigator, ineligible).

Data Elements:

Participant Certification Status Code

Participant Certification Status Code Description

4.2.16 Clinic Status

Description: The Clinic Status code table is comprised of data elements listing the possible status of a clinic (open, closed, temporary, seasonal).

Data Elements:

Clinic Status Code

Clinic Status Description

4.2.17 Complaint Source Type

Description: The Complaint Source Type code table is comprised of data elements listing the types of entities that file complaints (e.g., participants, vendors, users/staff).

Data Elements:

Complaint Source Type Code

Complaint Source Type Description

4.2.18 Complaint Status

Description: The Complaint Status code table is comprised of data elements listing the possible status of a complaint (e.g., resolved, pending).

Data Elements:

Complaint Status Code

Complaint Status Description

4.2.19 Complaint Type

Description: The Complaint Type code table is comprised of data elements listing the types of entities against whom complaints are filed (e.g., participants, vendors, users/staff).

Data Elements:

Complaint Type Code

Complaint Type Description

4.2.20 Compliance Activity Reason

Description: The Compliance Activity Reason code table is comprised of data elements listing the types of reasons for compliance activities (e.g., response to complaint, routine monitoring, high risk monitoring).

Data Elements:

Vendor Compliance Activity Reason Code

Vendor Compliance Activity Reason Description

4.2.21 Compliance Activity Task

Description: The Compliance Activity Task code table is comprised of data elements listing the method by which WIC staff will check for compliance (e.g., safe buy, food substitution).

Data Elements:

Vendor Compliance Activity Task Code

Vendor Compliance Activity Task Description

4.2.22 Compliance Activity Type

Description: The Compliance Activity Type code table is comprised of data elements listing the ways WIC staff can monitor compliance (e.g., compliance buy, record audit).

Data Elements:

Vendor Compliance Activity Type Code

Vendor Compliance Activity Type Description

4.2.23 Compliance Activity Violation Indicator

Description: The Compliance Activity Violation Indicator code table is comprised of data elements listing a vendor's violations (e.g., allowed food substitution, invoice values do not match purchase prices).

Data Elements:

Vendor Compliance Violation Indicator Code

Vendor Compliance Violation Indicator Description

4.2.24 Customer Service Action Taken

Description: The Customer Service Action Taken code table is comprised of data elements listing the types of actions taken in response to a customer service call (e.g., referred to specialist, site visit).

Data Elements:

Customer Service Action Taken Code

Customer Service Action Taken Description

4.2.25 Customer Service Problem Resolution

Description: The Customer Service Problem Resolution code table is comprised of data elements listing the possible resolutions to a customer service call issue (e.g., resolved, pending).

Data Elements:

Customer Service Problem Resolution Code

Customer Service Problem Resolution Description

4.2.26 Customer Service Request

Description: The Customer Service Request code table is comprised of data elements listing the types of entities that request customer service assistance (e.g., participants, vendors, users/staff).

Data Elements:

Customer Service Request Code

Customer Service Request Description

4.2.27 Dual Participation Potential Match Program

Description: The Dual Participation Potential Match Program code table is comprised of data elements listing the types of programs to which a participant may have applied or is participating that would constitute dual participation (e.g., WIC, CSFP).

Data Elements:

Dual Participation Potential Match Program Code

Dual Participation Potential Match Program Description

4.2.28 Education Level

Description: The Education Level code table is comprised of data elements listing the level of education completed by a participant (e.g., some high school, high school graduate, some college, college graduate).

Data Elements:

Participant Education Level Code

Participant Education Level Description

4.2.29 Education/Training Offer Class

Description: The Education/Training Offer Class code table is comprised of data elements listing types of classes offered to participants, vendors, and users/staff (e.g., breastfeeding class, vendor training).

Data Elements:

Education/Training Offer Class Code

Education/Training Offer Class Description

4.2.30 Education/Training Offer Status

Description: The Education/Training Offer Status code table is comprised of data elements listing status of classes offered to participants, vendors, and users/staff (e.g., scheduled, pending, refused).

Data Elements:

Education/Training Offer Status Code

Education/Training Offer Status Description

4.2.31 Education/Training Offer Topics Covered Code

Description: The Education/Training Offer Topics Covered code table is comprised of data elements listing the topics covered.

Data Elements:

Education/Training Offer Topics Covered Code

Education/Training Offer Topics Covered Description

4.2.32 Education/Training Offer Type

Description: The Education/Training Offer Type code table is comprised of data elements listing the types of entities that are offered education (e.g., participants, vendors, users/staff).

Data Elements:

Education/Training Offer Type Code

Education/Training Offer Type Description

4.2.33 Employment Status

Description: The Employment Status code table is comprised of data elements listing levels of employment status for participants (e.g., employed full time, employed part time, unemployed).

Data Elements:

Participant Employment Status Code

Participant Employment Status Description

4.2.34 Event Day Preference

Description: The Event Day Preference code table is comprised of data elements listing the days of the week that a participant prefers to schedule events.

Data Elements:

Event Preference Preferred Day Code

Event Preference Preferred Day Description

4.2.35 Event Time Preference

Description: The Event Time Preference code table is comprised of data elements listing the time of day that a participant prefers to schedule events.

Data Elements:

Event Preference Preferred Time Code

Event Preference Preferred Time Description

4.2.36 Event Type

Description: The Event Type code table is comprised of data elements describing various types of events that can be set on a master calendar (e.g., nutrition education class, staff meeting, holiday).

Data Elements:

Event Slot Type Code

Event Slot Type Description

4.2.37 Expenditure Type

Description: The Expenditure Type code table is comprised of data elements describing various types of expenditure categories (e.g., Communications and Travel, Equipment, Indirect Costs, Information Systems, Other Direct Costs, Salaries and Benefits, and Space Utilization). These codes are used by the NSA Budget and NSA Expenditure data stores.

Data Elements:

Expenditure Type Code

Expenditure Type Description

4.2.38   Food Instrument Type Category

Description: The Food Instrument Type Category code table is comprised of data elements listing food instruments types (e.g., milk only, infant cereal, and infant formula).

Data Elements:

Food Instrument Type Category Code

Food Instrument Type Category Description

4.2.39   Food Item Disposition

Description: The Food Item Disposition code table is comprised of data elements listing the types of dispositions for the food items purchased during a compliance activity (e.g., donated, destroyed, held for evidence).

Data Elements:

Food Item Disposition Code

Food Item Disposition Description

4.2.40   Food Package Type

Description: The Food Package Type code table is comprised of data elements listing the types of food packages that are determined (e.g., breastfeeding mother food package, Infant under 6 months food package).

Data Elements:

Food Package Type Code

Food Package Type Description

4.2.41   Grant Type

Description: The Grant Type code table is comprised of data elements that describe different types of grants (e.g., Food, NSA, State, OA).

Data Elements:

Grant Type Code

Grant Type Description

4.2.42 Health Change

Description: The Health Change code table is comprised of data elements listing the ways in which health data can change (e.g., increase, decrease, no change). Health data elements that use this code table include: Participant Health Weight/Length Change, Participant Health Blood Change, and Participant Health Weight Change.

Data Elements:

Health Change Code

Health Change Description

4.2.43 Identity Documentation

Description: The Identity Documentation code table is comprised of data elements listing the types of documents an applicant can provide as proof of identity.

Data Elements:

Participant Identity Documentation Code

Participant Identity Documentation Description

4.2.44 Immunization Status

Description: The Immunization Status code table is comprised of data elements listing a participant's immunization status (e.g., immunizations up to date, needs immunization).

Data Elements:

Participant Health Immunization Status Code

Participant Health Immunization Status Description

4.2.45 Income Documentation

Description: The Income Documentation code table is comprised of data elements listing the various acceptable sources to verify an applicant's income (e.g., W2, pay stub, participation in other program).

Data Elements:

Participant Income Documentation Code

Participant Income Documentation Description

4.2.46   Income Eligibility Programs

Description: The Income eligibility code table is comprised of data elements describing types of programs in which an applicant is income eligible. Data Elements that use this data code table include: Participant Adjunct or Automatic Income Eligibility Code and Participant Self-declared Income Eligibility Code.

Data Elements:

Income Eligibility Code

Income Eligibility Description

4.2.47   Ineligibility Reason (Participant)

Description: The Ineligibility Reason (Participant) code table is comprised of data elements that describe the reasons why an applicant cannot be certified with the WIC Program (e.g., improved health, does not meet residency requirements, does not meet income requirements, does not meet age requirements, six month postpartum and not breastfeeding, one year postpartum, and no nutritional need).

Data Elements:

Participant Ineligibility Reason Code

Participant Ineligibility Reason Description

4.2.48   Ineligibility Reason (Vendor)

Description: The Ineligibility Reason (Vendor) code table is comprised of data elements that describe the reasons why a vendor cannot be authorized with the WIC Program (e.g., prices exceed maximum prices, no caseload in area).

Data Elements:

Vendor Authorization Ineligibility Reason Code

Vendor Authorization Ineligibility Reason Description

4.2.49   Language

Description: The Language code table is comprised of data elements listing the languages, other than English, that a participant fluently speaks (e.g., Spanish). Language codes are used in participant records, to indicate preferences and determine appropriate classes when scheduling appointments, and when setting up event slot types. Date stores that use the Language code table include: Event Preference, Event Slot, and Participant.

Data Elements:

> Language Code
>
> Language Description

4.2.50   Marital Status

Description: The Marital Status code table is comprised of data elements that describe the participant's present marital situation (e.g., not married, married, and unknown).

Data Elements:

> Participant Marital Status Code
>
> Participant Marital Status Description

4.2.51   Master Calendar Type

Description: The Master Calendar Type code table is comprised of data elements that describe the types of calendars that can be set by clinics, local agencies, or the state agency (e.g., clinic, vendor management classes, nutrition education classes, staff calendar).

Data Elements:

> Master Calendar Type Code
>
> Master Calendar Type Description

4.2.52   Monitoring Activity Reason

Description: The Monitoring Activity Reason code table is comprised of data elements listing the types of reasons for compliance activities (e.g., response to complaint, routine monitoring, high risk monitoring).

Data Elements:

>   Vendor Monitoring Activity Reason Code
>
>   Vendor Monitoring Activity Reason Description

4.2.53   Monitoring Activity Task

Description: The Monitoring Activity Task code table is comprised of data elements listing the method by which WIC staff will conduct monitoring activities.

Data Elements:

>   Vendor Monitoring Activity Task Code
>
>   Vendor Monitoring Activity Task Description

4.2.54   Monitoring Activity Type

Description: The Monitoring Activity Type code table is comprised of data elements listing the ways WIC staff can perform monitoring visits.

Data Elements:

>   Vendor Monitoring Activity Type Code
>
>   Vendor Monitoring Activity Type Description

4.2.55   Monitoring Activity Violation Indicator

Description: The Monitoring Activity Violation Indicator code table is comprised of data elements listing a vendor's violations (e.g., insufficient quantity of WIC foods, issues with store cleanliness).

Data Elements:

>   Vendor Monitoring Violation Indicator Code
>
>   Vendor Monitoring Violation Indicator Description

4.2.56   Nutrition Goal Outcome

Description: The Nutrition Goal Outcome code table is comprised of data elements that describe the possible outcomes of nutrition goals set by the participant and nutritionist (e.g., goal achieved).

Data Elements:

Nutrition Goal Outcome Code

Nutrition Goal Outcome Description

4.2.57   Nutrition Risk Code

Description: The Nutrition Risk code table is comprised of data elements that describe a participant's nutrition risk (e.g., low maternal weight gain, anemia, hypertension, maternal smoking). Standard codes were determined by FNS in conjunction with State and local WIC experts.

Data Elements:

Participant Health Nutrition Risk Code

Participant Health Nutrition Risk Description

4.2.58   Organization

Description: The Organization code table is comprised of data elements that describe the organizations that impact WIC participants (e.g., Immunization Program, Medicaid, homeless shelters). Organizations can include: outreach organizations, referral organizations, and out of state organizations from which participants transfer.

Data Elements:

Organization Code

Organization Description

4.2.59   Other Programs

Description: The Other Programs code table is comprised of data elements that describe the programs in which WIC participants may also participate (e.g., Food Stamp Program, TANF, Medicaid, Food Distribution Programs on Indian Reservations).

Data Elements:

Participant Participation in Other Programs Code

Participant Participation in Other Programs Description

4.2.60   Outcome

Description: The Outcome code table is comprised of data elements that describe the types of outcomes to various events (e.g., rescheduled, cancelled, held/attended). Data stores that utilize this code table include: Administrative Hearing, Sanction, and Scheduled Appointment.

Data Elements:

Outcome Code

Outcome Description

4.2.61   Participant Category

Description: The Participant Category code table is comprised of data elements listing the categories to which a participant must belong in order to be certified with the WIC Program (e.g., pregnant woman, breastfeeding woman, postpartum non-breastfeeding woman, infant, or child).

Data Elements:

Participant Category Code

Participant Category Description

4.2.62   Participant Status

Description: The Participant Status code table is comprised of data elements listing the possible status levels for a participant (e.g., active, inactive, terminated, transferred, suspended, on waiting list).

Data Elements:

Participant Status Code

Participant Status Description

4.2.63   Peer Group

Description: The Peer Group code table is comprised of data elements listing the band or peer group to which a vendor can belong. This is determined by factors such as vendor type, vendor location, etc.

Data Elements:

Vendor Peer Group Code

Vendor Peer Group Description

4.2.64   Physical Presence Exception

Description: The physical presence exception code table is comprised of data elements listing the acceptable reasons physical presence exceptions can be made.

Data Elements:

Participant Physical Presence Exception Code

Participant Physical Presence Exception Description

4.2.65   Pregnancy Outcome

Description: The Pregnancy Outcome code table is comprised of data elements describing the outcome of a woman's current pregnancy (e.g., live birth, stillborn, miscarriage, neonatal death).

Data Elements:

Participant Pregnancy Outcome Code

Pregnancy Outcome Description

4.2.66   Priority Level

Description: The Priority Level code table is comprised of data elements listing the possible priority levels for a participant (based on participant category and risk factor)

Data Elements:

Priority Level Code

Priority Level Description

4.2.67   Product Type/Form

Description: The Product Type /Form code table is comprised of data elements describing the forms of packaging or state in which a food product is authorized (e.g., concentrated formula, powered formula, frozen juice). Product Type /Form codes are used in the Rebate Actual and Rebate Estimate data stores.

Data Elements:

Product Type/Form Code

Product Type/Form Description

4.2.68   Racial/Ethnic Ethnicity

Description: The Racial/Ethnic Ethnicity code table is comprised of data elements that list the types of ethnic backgrounds to which a participant may belong. The categories are: "Hispanic or Latino" or "Not Hispanic or Latino."

Data Elements:

Participant Racial/Ethnic Ethnicity Code

Participant Racial/Ethnic Ethnicity Code Description

4.2.69   Racial/Ethnic Race

Description: The Racial/Ethnic Race code table is comprised of data elements that list the race(s) to which a participant may belong. For race, the categories are: American Indian or Alaska Native; Asian; Black or African American; Native Hawaiian or Other Pacific Islander; or White.

Data Elements:

Participant Racial/Ethnic Race Code

Participant Racial/Ethnic Race Code Description

4.2.70   Reject Reason

Description: The Reject Reason code table is comprised of data elements describing reasons why food instruments or transactions are rejected during redemption activities (e.g., exceeded maximum value, past expiration date). Data stores that use the Reject Reason code table includes: Food Instrument.

Data Elements:

Reject Reason Code

Reject Reason Description

4.2.71   Report Type

Description: The Report Type code table is comprised of data elements identifying a report as a monthly or annual (closeout) report. The Grant data store uses the Report Type code table.

Data Elements:

Report Type Code

Report Type Description

4.2.72   Residency Documentation

Description: The Residency Documentation code table is comprised of data elements listing the sources used to document the participant's current residency.

Data Elements:

Participant Residency Documentation Code

Participant Residency Documentation Description

4.2.73   Residential Status

Description: The Residential Status code table is comprised of data elements listing the current living situation of the participant (e.g., domiciled, migrant, and homeless).

Data Elements:

Participant Residential Status Code

Participant Residential Status Description

4.2.74   Resource Type

Description: The Resource Type code table is comprised of data elements listing the types of resources available to a clinic or local agency (e.g., equipment, classroom). Data stores that use this code table include: Event Slot (Event Slot Required Resource) and Resource.

Data Elements:

Resource Type Code

Resource Type Description

4.2.75   Sanction Case Type

Description: The Sanction Case Type code table is comprised of data elements listing the types of entities that have sanctions brought against them (e.g., participants, vendors, users/staff).

Data Elements:

Sanction Case Type Code

Sanction Case Type Description

4.2.76 Sanction Type

Description: The Sanction Type code table is comprised of data elements listing the various types of sanctions that can be brought against a participant or vendor (e.g., suspension, fine).

Data Elements:

Sanction Type Code

Sanction Type Description

4.2.77 Sanction Violation

Description: The Sanction Violation code table is comprised of data elements listing the various types of violations made by a participant or vendor (e.g., food substitution).

Data Elements:

Sanction Violation Code

Sanction Violation Description

4.2.78 Source of Information About WIC

Description: The Source of Information About WIC code table is comprised of data elements listing the possible places/ways in which a participant learned about WIC (e.g., friend, radio advertisement).

Data Elements:

Participant Source of Information About WIC Code

Participant Source of Information About WIC Description

4.2.79 Self-declared Income

Description: The Self-declared Income code table is comprised of data elements listing a source of Self-declared income (e.g., participation in TANF, Food Stamps, etc.).

Data Elements:

Self-declared Income Eligibility Code

Self-declared Income Eligibility Description

Self-declared Income

4.2.80   Special Formula/Medical Foods Received Reason

Description: The Special Formula/Medical Foods Received Reason code table is comprised of data elements listing the reasons a participant receives special formula or medical foods (e.g., allergies).

Data Elements:

Special Formula/Medical Foods Received Reason Code

Special Formula/Medical Foods Received Reason Description

4.2.81   State Postal Abbreviation

Description: The State Postal Abbreviations code table is comprised of data elements listing the approved abbreviation for each state and WIC geographic area (e.g., Alabama, Alaska, American Samoa, and Northern Mariana Islands).

Data Elements:

State Name

State Postal Abbreviation

4.2.82   Stock Type

Description: The Stock Type code table is comprised of data elements listing the various types of serialized and non-serialized stock that can be tracked by a clinic, local agency, or State agency (e.g., food instruments, video equipment, card stock). Data stores that use the Stock Type code table are Item Stock- Non-Serialized and Item Stock- Serialized.

Data Elements:

Stock Type Code

Stock Type Description

4.2.83 Survey Opinion

Description: The Survey Opinion code table is comprised of data elements listing the responses given by a participant, vendor, or user/staff when responding to a survey (e.g., agree, disagree, undecided).

Data Elements:

Survey Response Opinion Score (Code)

Survey Response Opinion Description

4.2.84 Survey Type

Description: The Survey Type code table is comprised of data elements listing the type of survey given (e.g., new participant, subsequent certification, new vendor).

Data Elements:

Survey Questionnaire Survey Type Code

Survey Questionnaire Survey Type Description

4.2.85 Termination/Suspension Reason

Description: The Termination/Suspension Reason code table is comprised of data elements that list the various reasons why a participant is no longer certified with the WIC Program (e.g., deceased, dual participation, error, voluntary withdrawal, and transfer to another clinic).

Data Elements:

Participant Termination/Suspension Reason

Participant Termination/Suspension Reason Description

4.2.86 Title/Role

Description: The Title/Role code table is comprised of data elements that describe the level of a WIC staff member (e.g., nutritionist, certification clerk).

Data Elements:

User Title/Role Code

User Title/Role Description

4.2.87   UPC/PLU

Description: The UPC/PLU code table is comprised of data elements listing the UPC/PLUs stored for a vendor.

Data Elements:

Food UPC/PLU Code

Food UPC/PLU Description

4.2.88   Use/Disposition

Description: The Use/Disposition code table is comprised of data elements that describe the possible dispositions of a food instrument (e.g., redeemed, replaced, voided).

Data Elements:

Food Instrument Use/Disposition Code

Food Instrument Use/Disposition Description

4.2.89   User Function

Description: The User Function code table is comprised of data elements that describe the system functions assigned to users (e.g., certification, food instrument issuance). Data stores that use this code table include: Unauthorized Access and User Access.

Data Elements:

User Function Code

User Function Description

4.2.90   Vendor Authorization Activity

Description: The Vendor Authorization Activity code table is comprised of data elements listing the possible status of a WIC vendor's application (e.g., submitted, in review, pending clarification, suspended, withdrawn).

Data Elements:

Vendor Authorization Activity Code

Vendor Authorization Activity Description

4.2.91 Vendor Authorization Status

Description: The Vendor Authorization Status code table is comprised of data elements listing the types of vendor authorization statuses available (pending, authorized, terminated).

Data Elements:

Vendor Authorization Status Code

Vendor Authorization Status Description

4.2.92 Vendor Risk Factor Type

Description: The Vendor Risk Factor Type code table is comprised of data elements listing the various risk factors associated with a vendor (e.g., low variance).

Data Elements:

Vendor Risk Factor Type Code

Vendor Risk Factor Type Description

4.2.93 Vendor Type

Description: The Vendor Type code table is comprised of data elements listing the types of vendors (e.g., supermarket, convenience store, pharmacy).

Data Elements:

Vendor Type Code

Vendor Type Description

4.2.94 Void Reason

Description: The Void Reason code table is comprised of data elements describing reasons food instruments or family/household accounts are voided (e.g., error, lost, stolen). Data stores that use this code table include Food Instrument.

Data Elements:

Void Reason Code

Void Reason Description

4.2.95 Weight Status Classification

Description: The Weight Status Classification code table is comprised of data elements listing the classifications of weight status for a participant (e.g., normal, underweight, overweight, obese).

Data Elements:

Weight Status Classification Code

Weight Status Classification Description

4.2.96 WIC Service Type

Description: The WIC Service Type code table is comprised of data elements listing the types of services provided by WIC to various entities (e.g., vendor monitoring, participant nutrition education).

Data Elements:

WIC Service Type Code

WIC Service Type Description

4.2.97 Zip Code

Description: The Zip Code table is comprised of data elements listing the zip codes within the state.

Data Elements:

City Name

Zip Code
