INTERAGENCY AGREEMENT
BETWEEN
DEPARTMENT OF TRANSPORTATION/
FEDERAL AVIATION ADMINISTRATION
AND
U.S. ARMY CORPS OF ENGINEER

I. PURPOSE

The purpose of this basic Interagency Agreement is for the Federal Aviation Administration (FAA) to obtain the expertise in security design possessed by the U.S. Army Corps of Engineers (Corps).

II. OBJECTIVE

The objective of this project is to apply the Corps' expertise to FAA's congressionally mandated project to develop guidelines for the construction of airports.

III. SCOPE

The Corps will accompany the FAA on surveys and prepare reports based on these surveys.

IV. STATEMENT OF WORK

TASKS:

1. Accompany FAA on surveys of selected airports.
 - a. During these surveys, the Corps will observe airport maps and schematics, as well as critical areas of the airport.
2. Compile observations into a report detailing the following:
 - a. The specific threats, vulnerabilities and recommended protective measures for each airport visited.

- b. Reports will follow established security engineering procedures developed by the Corps.
- c. Recommendations will be geared to architectural, structural and electrical engineering.

V. DELIVERABLES

Deliverables shall be submitted to FAA's Office of Civil Aviation Security (ACS).

<u>Deliverable</u>	<u>Due Date</u>
Report summarizing Airport 1	5 weeks after survey completion
Report summarizing Airport 2	6 weeks after survey completion
