## 41 Establishing Predominant Crops and Crop Characteristic Defaults

### A Introduction

This paragraph explains how to establish predominant crops and crop characteristics, including displaying, selecting, and entering data.

\*--Exhibit 10.5 contains the valid current year's crops and crop characteristics. The crops in Exhibit 10.5:

- are also known as CVS
- contain all crops for acreage reporting purposes.

**Note:** For a list of NAP-eligible crops, refer to 1-NAP.

### B Requesting Additional Crops, Types, and/or Intended Uses

Use Exhibit 9 when requesting additional crops, crop types, or intended uses. To validate the request, State Offices shall:

- complete Exhibit 9, indicating 1 of the following on the form:
  - the request is for adding a new crop to CVS for acreage reporting purposes only
  - the request is for a NAP crop eligibility determination for a crop currently listed on CVS only
  - the request is for both crop addition to CVS for acreage reporting purposes **and** for NAP eligibility determination

**Note:** Ensure that a request is handled according to 1-NAP.

- perform a thorough review and analysis of all available data for the crop and its characteristics
- prepare a written document to **justify** the addition of the crop/type or intended use. The justification documentation should, at a minimum, answer the following questions.
  - Is the crop or crop type currently listed on the CVS crop table under another name or synonym?
  - What specific differences are there in the crop type being requested and the crop types already available on the CVS crop table?
  - What are the differences in the characteristics of the crop types being requested, such as prices and yields?--\*

\*--B Requesting Additional Crops, Types, and/or Intended Uses (Continued)

State Offices shall submit **all 3** of the following information to Eloise Taylor by e-mail at **eloise.taylor@wdc.usda.gov** or FAX to 202-720-4941:

- completed Exhibit 9
- written justification based on State Office research and analysis
- documents to support justification (research from Internet, universities, cooperative extension, etc.).

**Note:** Requests for additions will **not** be considered unless all required parts are included.--\*

**Crop Characteristic Codes (Continued)**

**C Third Character Field Status Codes (Continued)**

For 2005, status codes 1 through 9 are added in the third character. By assigning this code to the third and subsequent plantings of a crop, a change in the key has been made and each planting of the crop will be summarized. In 2005, the crops would be reported as follows.

Field #	Crop	Type	Acres	Int Use	Status
1	TMATO	CHR	10.0	Fh	I
1	TMATO	CHR	10.0	Fh	R
1	TMATO	CHR	10.0	Fh	R 1
1	TMATO	CHR	10.0	Fh	R 2

**Note:** NAP as well as other programs have a need to know the planting period. Using the third character for codes 1 through 9 will identify up to 11 different planting periods.

**Instructions for Posting Copies of CLU to FTP**

\*--According to subparagraph 501 K, step 12, County Offices are required to:

- FTP a copy of the certified CLU to APFO
- post an updated copy of CLU to the APFO FTP site every 30 calendar days thereafter.

Use the following instructions to post the certified CLU, including the CRP table, to the APFO FTP site. The **wetlands point layer** should **not** be included.

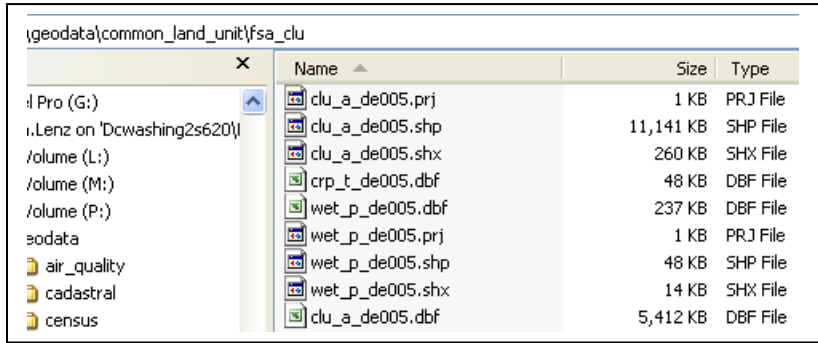

**Note:** CED’s should ensure that they are posting shape files currently exported from ArcSDE. According to subparagraph 504 E, the shape files are to be zipped for better file management. No file encryption is necessary since the APFO FTP site is a secure location.

County Offices that:

- manage more than one CLU layer need to FTP one zip file per county
- manage split county CLU layers need to coordinate merging the CLU files before sending to APFO

**Note:** Contact the State Office GIS Specialist for more information.

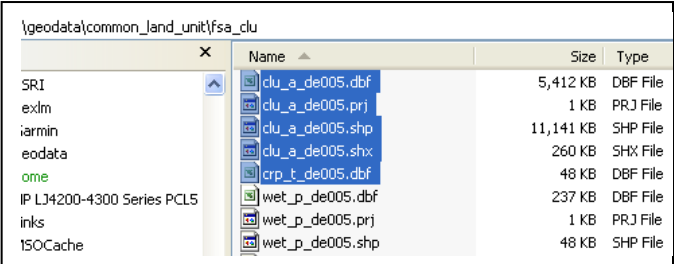

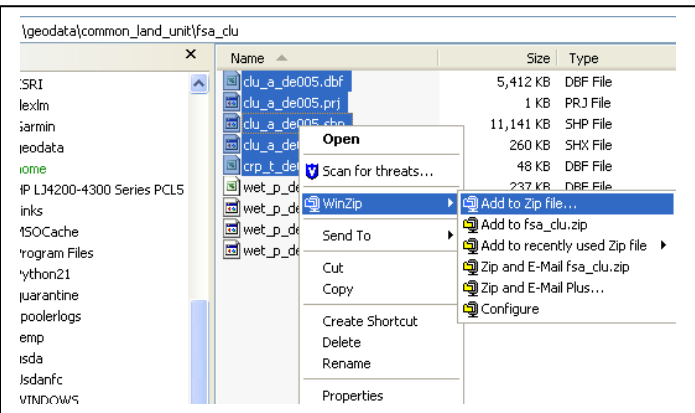

- need assistance doing either of the following should contact their State Office GIS Specialist:
  - exporting CLU and the CRP table to the **F:\geodata\common\_land\_unit\fsa\_clu** folder
  - using the WinZip procedure.
