The primary user of this data is the U.S. Army Corps of Engineers. The data are essential to justify the expenditures of Federal funds for navigation project operations, maintenance, rehabilitation and improvement, and for justifying the construction of new navigation projects. Data specific to individual reporting companies are considered confidential and protected from unauthorized disclosure under the Trade Secrets Act (18 U.S.C. Chapter 93, Section 1905) unless otherwise authorized by law. In order to minimize the reporting burden on vessel operating companies, the Corps will furnish data to other federal agencies in accordance with the Paperwork Reduction Act (44 U.S.C. 3510 (a)).
