General Statement

The Social Services Block Grant (SSBG) is designed to reduce or eliminate dependency; achieve or maintain self-sufficiency for families; help prevent neglect, abuse or exploitation of children and adults; prevent or reduce inappropriate institutional care; and secure admission or referral for institutional care when other forms of care are not appropriate. The Social Services Block Grant serves low-income children and families, the disabled, and elderly with well-documented need.

Since enactment in 1975, Federal funding under Title XX has represented the Federal Government's partnership with States to ensure the availability of social services for vulnerable families and children and acts as the glue that holds the human services delivery system together. The Social Services Block Grant provides State and local flexibility in managing Federal funds and enables States to target social services to those populations that might not otherwise be eligible for services needed to remain self-sufficient and economically independent.

Services directed toward the program's goals include, but are not limited to: child care services; protective services for children and adults; services for children and adults in foster care; services related to the management and maintenance of home day care services; employment services; information, referral, and counseling services; the preparation and delivery of meals; health support services; and appropriate combinations of services designed to meet the needs of children, the aged, the mentally impaired, the blind, the emotionally disturbed, the physically handicapped, and alcohol and drug addicted individuals.

Activities supported with Social Services Block Grant funds vary from State to State, with each of the 50 States, the District of Columbia, and jurisdictions designing social services programs best suited to meet the specific needs of their residents.

2006 Authorization....Such sums as may be appropriated.

Statement of the Budget Request

The FY 2006 budget request of \$1,700,000,000 for the Social Services Block Grant program will provide funding to states for a broad array of social services targeted to the needs of individuals residing within the state.

Program Description

The Social Services Block Grant is an appropriated entitlement program that serves low-income children and families, the disabled and the elderly. Social Services Block Grant funds are distributed to the 50 United States and the District of Columbia, based on each State's relative population as compared to all other states. Distributions are made to Puerto Rico, Guam, American Samoa, the Virgin Islands, and the Commonwealth of the Northern Marianas based on the same ratio allotted to them in 1981 as compared to the total 1981 appropriation. There are no matching requirements.

This program encourages each state, as far as practicable under the conditions in the State, to furnish a variety of social services best suited to the needs of individuals residing within the State.

Funding for the Social Services Block Grant program during the last five years has been as follows:

2001.....	\$1,725,000,000
2002.....	\$1,700,000,000
2003.....	\$1,700,000,000
2004.....	\$1,700,000,000
2005.....	\$1,700,000,000

Performance Analysis

No performance measures have been established for the Social Services Block Grant program.

Rationale for the Budget Request

The FY 2006 request is the same as the FY 2005 enacted level. SSBG funds are used to prevent, reduce or eliminate dependency; prevent neglect, abuse or exploitation of children and adults; prevent or reduce inappropriate institutional care; and provide admission or referral for institutional care when other forms of care are inappropriate.
