PRINCIPLES FOR DETERMINING COSTS APPLICABLE TO
ADMINISTRATION OF THE FOOD DISTRIBUTION PROGRAM
ON INDIAN RESERVATIONS

This Exhibit sets forth the procedures implementing uniform requirements for the negotiations and approval of cost allocation plans with State agencies, in accordance with the provisions of Federal Management Circular 74-4 and OASC-10, "Cost Principles and Procedures for Establishing Cost Allocation Plans and Indirect Cost Rates for Grants and Contracts with the Federal Government," U.S. Department of Health, Education and Welfare. This material is adapted substantially from the circular; changes have been made only when necessary in order to conform with legislative constraints.

A. Purpose and scope.--(1) Objectives. This Exhibit sets forth principles for determining the allowable costs of administering the Food Distribution Program by State agencies under FNS approved State Plans of Operation. The principles are for the purpose of cost determination and are not intended to identify the circumstances or dictate the extent of Federal and State or local participation in the financing of the Program. They are designed to provide that all Federally assisted programs bear their fair share of costs recognized under these principles, except where restricted or prohibited by law. No provision for profit or other increment above cost is intended.

(2) Policy guides. The application of these principles is based on the fundamental premises that: (a) State agencies are responsible for the efficient and effective administration of the Food Distribution Program through the application of sound management practices.

(b) The State agency assumes the responsibility for seeing that Food Distribution Program funds have been expended and accounted for consistent with underlying agreements and program objectives.

(c) Each State agency, in recognition of its own unique combination of staff facilities and experience, will have the primary responsibility for employing whatever form of organization and management techniques as may be necessary to assure proper and efficient administration.

(3) Application. These principles will be applied by FNS in determining costs incurred by State agencies receiving FNS payments for administering the Food Distribution Program.

B. Definitions. Approval or authorization by FNS means documentation evidencing consent prior to incurring specific costs.

Cognizant Federal Agency means the Federal agency recognized by OMB as having the predominate interest in terms of program dollars.

FNS HANDBOOK 501
EXHIBIT H

Cost allocation plan means the documentation identifying, accumulating, and distributing allowable costs of program administration together with the allocation methods used.

Cost, as used herein, means cost as determined on a cash, accrual, or other basis acceptable to FNS as a discharge of the State agency's accountability for FNS funds.

Cost center means a pool, summary account, objective or area established for the accumulation of costs. Such areas include objective organizational units, functions, objects or items of expense, as well as ultimate cost objective(s) including specific costs, products, projects, contracts, programs and other operations.

Federal agency means FNS and also any department, agency, commission, or instrumentality in the executive branch of the Federal Government which makes grants to or contracts with State, local, or Indian tribal governments.

Payments for administrative costs means reimbursement or advances for costs to State agencies pursuant to any agreement whereby FNS provides funds to carry out programs, services, or activities in connection with administration of the Food Distribution Program. The principles and policies stated in this Exhibit as applicable to program payments in general also apply to any State agency obligations under a cost reimbursement type of agreement performed by a subagency, including contracts and subcontracts.

Food Distribution Program administration means those activities and operations of the State agency which are necessary to carry out the purposes of the Food Stamp Act of 1977 and 1304(a) of the Food and Agriculture Act of 1977, including any portion of the Program financed by the State agency.

Local unit means any political subdivision of government below the State agency level.

Other agencies of the State means departments or agencies of the State or local unit which provide goods, facilities, and services to a State agency.

Subagencies means the organization or person to which a State agency makes any payment for acquisition of goods, materials or services for use in administering the Food Distribution Program and which is accountable to the State agency for the use of the funds provided.

Services, as used herein, means goods and facilities, as well as services.

FNS HANDBOOK 501
EXHIBIT H

Supporting services means auxiliary functions necessary to sustain the direct effort of administering the Food Distribution Program. These services may be centralized in the State agency or in some other agency, and include procurement, payroll, personnel functions, maintenance and operation of space, data processing, accounting, budgeting, auditing mail and messenger service, and the like.

C. Basic guidelines.--(1) Factors affecting allowability of costs. To be allowable under the Food Distribution Program, costs must meet the following general criteria:

(a) Be necessary and reasonable for proper and efficient administration of the Program, be allocable thereto under these principles, and, except as specifically provided herein, not be a general expense required to carry out the overall responsibilities of State, local, or Indian tribal governments.

(b) Be authorized or not prohibited under State, local, or Indian tribal laws or regulations.

(c) Conform to any limitations or exclusions set forth in these principles, Federal laws, or other governing limitations as to types or amounts of cost items.

(d) Be consistent with policies, regulations, and procedures that apply uniformly to both Federally-assisted and other activities of the unit of government of which the State agency is a part.

(e) Be accorded consistent treatment through application of generally accepted accounting principles appropriate to the circumstances.

(f) Not be allocable to or included as a cost to any other Federally financed program in either the current or a prior period.

(g) Be the net of all applicable credits.

(2) Allocable costs. (a) A cost allocable to a particular cost objective to the extent of benefits received by such objective.

(b) Any cost allocable to a particular program or cost objective under these principles may not be shifted to other Federal programs to overcome fund deficiencies, avoid restrictions imposed by law or grant agreements, or for other reasons.

(c) Where an allocation of joint cost will ultimately result in charges to the Program, an allocation plan will be required as prescribed in Section 1 of these principles.

(3) Applicable credits. (a) Applicable credits refer to those receipts or reduction of expenditure-type transactions which offset or reduce expense items allocable to programs as direct or indirect costs. Examples

FNS HANDBOOK 501
EXHIBIT H

of such transactions are: Purchase discounts; rebates or allowances; recoveries or indemnities on losses; sale of publications, equipment, and scrap; income from personal or incidental services; and adjustments of overpayments or erroneous charges.

(b) Applicable credits may also arise when Federal funds are received or are available from sources other than FNS to finance operations or capital items donated or financed by the Federal Government to fulfill matching requirements under another program. These types of credits should likewise be used to reduce related expenditures in determining the rates or amounts applicable to a given program.

D. Composition of cost.--(1) Total cost. The total cost of a program is comprised of the allowable direct cost incident to its performance, plus its allocable portion of allowable indirect costs, less applicable credits.

(2) Classification of costs. There is no universal rule for classifying certain costs as either direct or indirect under every accounting system. A cost may be direct with respect to some specific service or function, but indirect with respect to a program or other ultimate cost objective. However, it is essential that each item of cost be treated consistently either as a direct or an indirect cost. Specific guides for determining direct and indirect costs allocable under the Food Distribution Program are provided in the section which follows.

E. Direct costs.--(1) General. Direct costs are those that can be identified specifically with a particular cost objective. These costs may be charged directly to the Food Distribution Program, contracts, or to other programs against which costs are finally lodged. Direct costs may also be charged to cost objectives used for the accumulation of cost pending distribution in due course to programs and other ultimate cost objectives.

(2) Application. Typical direct costs chargeable to the Food Distribution Program are: (a) Compensation of employees for the time and effort devoted specifically to the administration of the Program.

(b) Cost of materials acquired, consumed, or expended specifically for the purpose of the Program.

(c) Equipment and other approved capital expenditures.

(d) Other items of expense incurred specifically for efficiently and effectively administering the Food Distribution Program.

(e) Services furnished specifically for the Program by other agencies, provided such charges are consistent with criteria outlined in Section G of these principles.

FNS HANDBOOK 501
EXHIBIT H

F. Indirect costs.--(1) General. Indirect costs are those:

(a) Incurred for a common or joint purpose benefiting more than one cost objective.

(b) Not readily assignable to the cost objectives specifically benefited, without effort disproportionate to the result achieved.

The term indirect cost as used herein applies to costs of this type originating in the State agency, as well as those incurred by other departments in supplying goods, services, and facilities to the State agency. To facilitate equitable distribution of indirect expenses to the cost objectives served, it may be necessary to establish a number of pools of indirect cost within a State agency or in other agencies providing services to a State agency. Indirect cost pools should be distributed to benefiting cost objectives on bases which will produce an equitable result in consideration of relative benefits derived.

(2) State agency indirect costs. All State agency indirect costs, including the various levels of supervision, are eligible for allocation to the Program provided they meet the conditions set forth in their principles. In lieu of determining the actual amount of State agency indirect cost allocable to the Program, the following methods may be used:

(a) Predetermined fixed rates for indirect costs. A predetermined fixed rate for computing indirect costs applicable to program administration may be negotiated annually in situations where the cost experience and other pertinent facts available are deemed sufficient to enable the parties to reach an informed judgement: (1) as to the probable level of indirect costs, in the State agency during the period to be covered by the negotiated rate, and (2) that the amount allowable under the predetermined rate would not exceed actual indirect costs.

(b) Negotiated lump sum for overhead. A negotiated fixed amount in lieu of indirect costs may be appropriate under circumstances where the benefits derived from a State agency's indirect services cannot be readily determined as in the case of a small self-contained or isolated activity. When this method is used, a determination should be made that the amount negotiated will be approximately the same as the actual indirect cost that may be incurred. Such amounts negotiated in lieu of indirect costs will be treated as an offset to total indirect expenses of the State agency before allocation to remaining activities. The base on which such remaining expenses are allocated should be appropriately adjusted.

(3) Limitation on indirect costs. Some Federal programs may be subject to laws that limit the amount of indirect cost that may be allowed. When the amount allowable under a statutory limitation is less than the amount otherwise allocable as indirect costs under these principles, the amount not recoverable as indirect costs under a program may not be shifted to the Food Distribution Program.

FNS HANDBOOK 501
EXHIBIT H

G. Cost incurred by other agencies of the State.--(1) General. The cost of service provided by other agencies may only include allowable direct costs of the service plus a pro rata share of allowable supporting costs and supervision directly required in performing the service, but not supervision of a general nature such as that provided by the head of a department and his staff assistants not directly involved in operations. However, supervision by the head of a department or agency whose sole function is providing the service furnished would be an eligible cost. Supporting costs include those furnished by other units of the supplying department or by other agencies.

(2) Alternative methods of determining indirect cost. In lieu of determining actual indirect cost related to a particular service furnished by other agencies of the State, either of the following alternative methods may be used, provided only one method is used for a specific service during the fiscal year involved.

(a) Standard indirect rate. An amount equal to ten percent of direct labor cost in providing the service performed by other agencies of the State (excluding overtime, shift, or holiday premiums and fringe benefits) may be allowed in lieu of actual allowable indirect cost for that service.

(b) Predetermined fixed rate. A predetermined fixed rate for indirect cost of the unit or activity providing service may be negotiated as set forth in Section F(2) of these principles.

H. Cost incurred by State agency for others. The principles provided in Section G will also be used in determining the cost of services provided by the State agency to another agency.

I. Cost Allocation Plan.--(1) A cost allocation will be required to support the distribution of any indirect costs. All costs allocable to the Food Distribution Program under cost allocation plans will be supported by formal accounting records which will substantiate the propriety of eventual charges.

(2) There are two types of cost allocation plans: (a) Statewide or central service cost allocation plan identifies and distributes the cost of services provided by support organizations to those departments or units participating in Federal programs.

(b) Indirect Cost proposals distribute the administrative or joint costs incurred by the State agency and the cost of service allocable to it under the Statewide or central service cost allocation plan in a ratio to all work performed by the State agency. The process involves applying a percentage relationship of indirect cost to direct cost.

FNS HANDBOOK 501
EXHIBIT H

(3) Requirements. The cost allocation plan of the State agency shall cover all allocated costs of the department, as well as cost to be allocated under plans of other agencies or organizational units, which are to be included in the costs of Federally-sponsored programs. The cost allocation plans of all the agencies rendering services to the State agency, to the extent feasible, should be presented in a single document.

(4) Instructions for Preparation of Cost Allocation Plans. In most cases, the Department of Health, Education and Welfare, in consultation with the other Federal agencies concerned, will be responsible for developing and issuing the instructions for use by State agencies in preparation of cost allocation plans. The responsibility applies to both central support services at the State, local, and Indian tribal government level and indirect cost proposals of individual State agencies.

(5) Submitting Plans for Approval. (a) Responsibility for approving cost allocation plans for individual State agencies has been assigned by the Office of Management and Budget to the cognizant Federal agency.

(b) State cost allocation plans must be submitted to the cognizant Federal agency within six months after the last day of the State's fiscal year. Upon request by the State agency, an extension of time for submittal of the cost allocation plan may be granted by the cognizant Federal agency. It is essential that cost allocation plans be submitted in a timely manner. Failure to submit the plans when required will cause the State agency to become delinquent. In the event a State becomes delinquent, FNS will not provide for the recovery of central service and indirect costs, and such costs already made and claimed against Food Distribution Program funds will be subject to disallowance.

(5) Negotiation and Approval of Cost Allocation Plans for States. The cognizant Federal agency, in collaboration with Federal agencies concerned, will be responsible for negotiation, approval, and audit of cost allocation plans.

(6) Negotiation and Approval of Cost Allocation Plans for Local Governments. Cost allocation plans will be retained at the local government level for audit by the cognizant Federal agency except in those cases where that agency requests that cost allocation plans be submitted to it for negotiation and approval.

(7) A current list of cognizant Federal agencies is maintained by the Office of Management and Budget.

(8) Resolution of Problems. The Office of Management and Budget will lend assistance in resolving problems encountered by Federal agencies on cost allocation plans.

(9) Approval by FNS. FNS reserves the right to disapprove costs not meeting the general criteria outlined in Section C of these principles. FNS shall promptly notify the State agency in writing of the disapproval, the reason for the disapproval and the effective date. Costs incurred by State agencies after disapproval may not be charged to FNS unless FNS subsequently approves the cost.

Standards for Selected Items of Cost

A. Allowable Cost. Standards for allowability of costs are established by Federal Management Circular 74-4. These standards will apply regardless of whether a particular item of cost is treated as direct or indirect. Failure to mention a particular item of cost in these standards is not intended to imply that it is either allowable or unallowable, rather determination of allowability in each case should be based on the treatment of standards provided for similar or related items of cost. The allowability of the selected items of cost is subject to the general policies and principles as stated in Attachment A to Federal Management Circular 74-4.

(1) Accounting. The cost of establishing and maintaining accounting and other information systems required for the management of the Food Distribution Program is allowable. This includes costs incurred by central service agencies of the State or Indian tribal government for these purposes. The cost of maintaining central accounting records required for overall State, local, or Indian tribal governments purposes, such as appropriation and fund accounts by the Treasurer, Comptroller, or similar officials, is considered to be a general expense of government and is not allowable.

(2) Advertising. Advertising media includes newspapers, magazines, radio and television programs, direct mail, trade papers, and the like. The advertising costs allowable are those which are solely for:

- (a) Recruitment of personnel required for the Program;
- (b) Solicitation of bids for the procurement of goods and services required;
- (c) Disposal of scrap or surplus materials acquired in the performance of the agreement; and
- (d) Other purposes specifically provided for by FNS regulations or approved by FNS in the administration of the Food Distribution Program.

(3) Advisory Councils. Cost incurred by State advisory councils or committees established to carry out Food Distribution Program goals are allowable. The cost of like organizations is allowable when used to improve the efficiency and effectiveness of the Program.

FNS HANDBOOK 501
EXHIBIT H

- (4) Audit Service. The cost of audits necessary for the administration and management of functions related to the Program is allowable.
- (5) Bonding. Costs of premiums on bonds covering employees who handle Food Distribution Program funds are allowable. The amount of allowable coverage shall be limited to the anticipated maximum amount of food distribution administrative funds handled at one time by that employee.
- (6) Budgeting. Cost incurred for the development, preparation, presentation, and execution of budgets are allowable. Costs for services of a central budget office are generally not allowable since these are costs of general government. However, where employees of the central budget office actively participate in the State agency's budget process, the costs of services identifiable to the Food Distribution Program are allowable.
- (7) Building Lease Management. The administrative cost for lease management which includes review of lease proposals, maintenance of a list of available property for lease, and related activities is allowable.
- (8) Central Stores. The cost of maintaining and operating a central stores organization for supplies, equipment, and materials used either directly or indirectly for the Food Distribution Program is allowable.
- (9) Communications. Communication costs incurred for telephone calls or service, telegraph, teletype service, wide area telephone service (WATS), centrex, telpak (tie lines), postage, messenger service and similar expenses are allowable.
- (10) Compensation for Personal Services.--(a) General. Compensation for personal services includes all remuneration, paid currently or accrued, for services rendered during the period of performance in the administration of the Program including, but not necessarily limited to, wages, salaries, and supplementary compensation and benefits as defined in Section A(13) of these principles. The cost of such compensation are allowable to the extent that total compensation for individual employees is reasonable for the services rendered; follows an appointment made in accordance with State, local, or Indian tribal government laws and rules and which meets Federal Merit System or other requirements, where applicable; and is determined and supported as provided in Section A of these principles. Compensation for employees engaged in Federally-assisted activities will be considered reasonable to the extent that it is consistent with that paid for similar work in other activities of the State, local or Indian tribal government. In cases where the kinds of employees required for the Food Distribution Program activities are not found in the other activities of the State, local, or Indian tribal government, compensation will be considered reasonable to the extent that it is comparable to that paid for

FNS HANDBOOK 501
EXHIBIT H

similar work in the labor market in which the employing government competes for the kind of employees involved. Compensation surveys providing data representative of the labor market involved will be an acceptable basis for evaluating reasonableness.

(b) Payroll and Distribution of Time. Amounts charged to the Program for personal services regardless of where treated as direct or indirect costs, will be based on payrolls documented and approved in accordance with the generally accepted practice of the State, local agency. Payrolls must be supported by time and attendance or equivalent records for individual employees. Distribution of salaries and wages of employees chargeable to more than one program or other cost objective will be supported by appropriate time reports or approved time study methodologies. The method used should be included in the cost allocation plan and should be approved by FNS.

(11) Depreciation and Use Allowance.--(a) State agencies may be compensated for the use of buildings, capital improvements, and equipment through use allowances or depreciation. Use allowances are the means of providing compensation in lieu of depreciation or other equivalent costs. However, a combination of the two methods may not be used in connection with a single class of fixed assets.

(b) The computation of depreciation or use allowances will be based on acquisition cost. Where actual cost records have not been maintained, a reasonable estimate of the original acquisition cost may be used in the computation. The computation will exclude the cost of any portion of the cost of buildings and equipment donated or borne directly or indirectly by the Federal Government through charges to Federal programs or otherwise, irrespective of where title was originally vested or where it presently resides. In addition, the computation will also exclude the cost of acquisition of land or buildings.

(c) Where the depreciation method is followed, adequate property records must be maintained, and any general accepted method of computing depreciation may be used. However, the method of computing depreciation must be consistently applied for any specific asset or class of assets for all affected Federally-sponsored programs and must result in equitable charges considering the extent of the use of the assets for the benefit of such programs.

(d) In lieu of depreciation, a use allowance for buildings and improvements may be computed at an annual rate not exceeding two percent of acquisition cost. The use allowance for equipment (excluding items properly capitalized as building cost) will be computed at an annual rate not exceeding six and two-thirds percent of a acquisition cost of usable equipment.

(e) No depreciation or use charge may be allowed on any assets that would be considered as fully depreciated, provided, however, that reasonable use charges may be negotiated for any such assets if

FNS HANDBOOK 501
EXHIBIT H

warranted after taking into consideration the cost of the facility or item involved, the estimated useful life remaining at time of negotiation, the effect of any increased maintenance charges or decreased efficiency due to age, and any other factors pertinent to the utilization of the facility or item for the purpose contemplated.

(12) Disbursing Service. The cost of disbursing program funds by the State Treasurer or other designated officer is allowable. Disbursing services cover the processing of checks or warrants, from preparation to reconciliation of such records with related cash accounts.

(13) Employee Fringe Benefits. Costs identified are allowable to the extent that total compensation for employees is reasonable as defined in paragraph (10)(a) of these principles.

(a) Employee benefits in the form of regular compensation paid to employees during periods of authorized absences from the job, such as for annual leave, sick leave, court leave, military leave, and the like, if they are: (1) provided pursuant to an approved leave system, and (2) the cost thereof is equitably allocated to all related activities, including Federally-assisted programs.

(b) Employee benefits in the form of employers' contributions or expense for social security, employees' life and health insurance plans, unemployment insurance coverage, workers' compensation insurance pension plans, severance pay, and the like, provided such benefits are granted under approved plans and are distributed equitably to programs and to other activities.

(14) Employee Morale, Health and Welfare Costs. The cost of health or first-aid clinics and/or infirmaries, recreational facilities, employees' counseling services, employee information publications, and any related expenses incurred in accordance with general State, local or Indian tribal policy, are allowable. Income generated from any of these activities will be offset against expenses.

(15) Exhibits. Cost of exhibits relating specifically to the Food Distribution Program are allowable.

(16) Legal Expenses. The cost of legal expenses required in the administration of the Program is allowable. Legal services furnished by the chief legal officer of a State, local or Indian tribal government or his staff solely for the purpose of discharging his general responsibilities as legal officer are unallowable. Legal expenses for the prosecution of claims against the Federal Government are unallowable.

(17) Maintenance and Repair. Costs incurred for necessary maintenance, repair, or upkeep of property which neither add to the permanent value of the property nor appreciably prolong its intended life, but keep it in an efficient operating condition, are allowable.

FNS HANDBOOK 501
EXHIBIT H

(18) Materials and Supplies. The cost of materials and supplies necessary to carry out the Program is allowable. Purchases made specifically for the Program should be charged thereto at their actual prices after deducting all cash discounts, trade discounts, rebates, and allowances received by the State agency. Withdrawals from general stores or stockrooms should be charged to cost under any recognized method of pricing consistently applied. Incoming transportation charges are a proper part of material cost.

(19) Memberships, Subscriptions and Professional Activities.--(a) The cost of membership in civic, business, technical and professional organizations is allowable, provided:

(i) The benefit from the membership is related to the Program,

(ii) The expenditure is for agency membership,

(iii) The cost of the membership is reasonably related to the value of the services or benefits received, and

(iv) The expenditure is not for membership in an organization which devotes a substantial part of its activities to influencing legislation.

(b) Reference Material. The cost of books, and subscriptions to civic, business, professional, and technical periodicals is allowable when related to the Program.

(c) Meetings and Conferences. Costs are allowable when the primary purpose of the meeting is the dissemination of technical information relating to the Program and they are consistent with regular practices followed for other activities of the State agency.

(20) Motor Pools. The costs of a service organization which provides automobiles to user State agencies at a mileage or fixed rate and/or provides vehicle maintenance, inspection and repair services are allowable.

(21) Payroll Preparation. The cost of preparing payrolls and maintaining necessary related wage records is allowable.

(22) Personnel Administration. Costs for the recruitment, examination, certification, classification, training, establishment of pay standards, and related activities for the Program are allowable.

(23) Printing and Reproduction. Cost for printing and reproduction services necessary for program administration, including but not limited to forms, reports, manuals, and information literature, is allowable. Publication costs of reports or other media relating to Program accomplishments or results are allowable.

FNS HANDBOOK 501

(24) Procurement Service. The cost of procurement service, including solicitation of bids, preparation and award of contracts, and all phases of contract administration in providing goods, facilities and services for the Program is allowable.

(25) Taxes. In general, taxes or payments in lieu of taxes which the State agency is legally required to pay are allowable.

(26) Training and Education. The cost of in-service training, customarily provided for employee development which directly or indirectly benefits the Program is allowable. Out-of-service training involving extended periods of time is allowable only when specifically authorized by FNS.

(27) Transportation. Cost incurred for freight, cartage, express, postage and other transportation costs relating either to goods purchased, delivered, or moved from one location to another are allowable.

(28) Travel. Travel costs are allowable for expenses for transportation, lodging, subsistence, and related items incurred by employees who are in travel status on official business incident to the Program. Such costs may be charged on an actual basis, on a per diem or mileage based in lieu of actual costs incurred, or on a combination of the two. The changes must be consistent with those normally allowed in like circumstances in nonfederally-sponsored activities. The difference in cost between first-class air accommodations and less-than-first class air accommodations is unallowable except when less-than-first-class air accommodations are not reasonably available.

B. Costs Allowable with Approval of FNS.--(1) Automatic Data Processing. The cost of data processing services for Food Distribution Program administration is allowable. This cost may include rental of equipment or depreciation on State agency owned equipment. The acquisition of equipment, whether by outright purchase, rental-purchase agreement or other method of purchase, is allowable only upon specific prior approval of FNS as provided under the selected item for capital expenditures. The conditions for Food Distribution Program funding of the acquisition of Automatic Data Processing equipment and services are contained in these principles in accordance with OMB Circular No. A-90.

(2) Definitions.--(a) "Acceptance Documents" means written evidence of satisfactory completion of an approved phase of work or contract, and acceptance thereof by the State agency.

(b) "Advance Planning Document" or "APD" means a written plan of action to acquire the proposed ADP services, system, or equipment, the APD must contain a statement of needs and objectives:

(i) The feasibility study;

(ii) A preliminary cost/benefit analysis including lease/purchase options;

FNS HANDBOOK 501

(iii) A personnel resource statement indicating availability of qualified and adequate staff including a project director to accomplish the project objectives;

(iv) A detailed description of the nature and scope of the activities to be undertaken and the methods to be used;

(v) A proposed schedule;

(vi) A proposed budget; and

(vii) A statement indicating the period of time for which the services, system, or equipment described are expected to be used; for integrated computer systems, a statement of the percentage allocated to FNS and a breakdown or explanation of how the percentage was determined.

(c) "Automatic Data Processing" or "ADP" means data processing performed by a system of electronic or electrical machines so interconnected and interacting as to minimize the need for human assistance or intervention.

(d) "Automatic Data Processing Equipment" or "ADP Equipment" means:

(i) Electronic digital computers, regardless of size, capacity or price, that accept data input, store data, perform calculations and other processing steps, and prepare information.

(ii) All peripheral or auxiliary equipment used in support of electronic computers whether selected and acquired with the computer or separately;

(iii) Data transmission or communications equipment that is selected and acquired solely or primarily for use with a configuration of ADP equipment which includes an electronic computer; and

(iv) "Data input equipment" means equipment used to enter data directly or indirectly into an electronic digital computer; peripheral or auxiliary equipment; or data transmission or communication equipment.

(e) "Automatic Data Processing Services" or "ADP Services" means:

(i) Services to operate ADP equipment, either by private sources, or by employees of the State agency, or by State or local organizations other than the State agency; and/or

(ii) Services provided by private sources or by employees of the State agency or by State and local organizations other than the State agency to perform such tasks as feasibility studies, system studies, system design efforts, development of system specifications, system analysis, programming and system implementation.

FNS HANDBOOK 501

(f) "Data Processing" means the preparation of source media containing data or basic elements of information and the use of such sources media according to precise rules of procedures to accomplish such operations as classifying, sorting, calculating, summarizing, recording and transmitting.

(g) "Feasibility Study" means a preliminary study to determine whether it is sufficiently probable that effective and efficient use of ADP equipment or systems can be made to warrant the substantial investment of staff, time, and money. The study shall project for a three year period the requirements for ADP equipment, services, and systems.

(h) "Request for Proposal" or "RFP" means the document used for public solicitations of competitive proposals from qualified sources as outlined in 7 CFR 277.14.

(i) "Service Agreement" means a document signed by the State or local agency and a second State or local organization providing ADP services to the State or local agency which:

(i) Identifies those ADP services to be provided by the provider agency;

(ii) Includes, preferably as an amendable attachment, a schedule of charges for each identified ADP service, and a certification that these charges apply equally to all users;

(iii) Includes a description of the method(s) of accounting for the services rendered under the agreement and computing services charges;

(iv) Includes assurances that services provided shall be timely and satisfactory; and

(v) Requires the provider agency to obtain prior State agency approval and to follow competitive procurement procedures equivalent to those contained in 7 CFR 277.14 for the acquisition of any ADP services in support of or in addition to the service agreement.

(j) "Software" means a set of computer programs, procedures, and associated documentation by which ADP equipment is used and operated.

(k) "System Design" means the putting together of a new or more efficient ADP system which avoids the deficiencies and discrepancies in the old system.

(l) "System Specifications" means information about the new ADP system--such as workload descriptions, input data, information to be maintained and processed, data processing techniques, and output data--which is required to determine the ADP equipment and software necessary to implement the system design.

FNS HANDBOOK 501
EXHIBIT H

(m) "System Study" means the examination of existing information flow and operational procedures within an organization to determine how to provide more timely, accurate, and meaningful information for management decision-making and to develop new or improved ADP systems to service, control and coordinate the activities of the organization to improve operational efficiency. The study essentially consists of three basic phases: Data gathering or investigation of the present system and new information requirements; analysis of the data gathered in the investigation; and synthesis, or refitting, of the parts and relationships uncovered through the analysis into an efficient system.

(3) Obtaining Approval. Prior approval by FNS is required for costs of ADP equipment or ADP services in support of the Food Distribution Program which exceed \$25,000 in combined Federal and State funds per project. Requests for approvals must be forwarded through the State agency prior to submittal to FNS. Approval by FNS will be based on a review of the studies conducted by or for the agency that will justify the acquisition of the proposed ADP equipment or ADP services. Written approval of the Advance Planning Document must be obtained from FNS by the State agency prior to entering into contractual agreements or making any other commitment for acquisition of ADP equipment or ADP services.

(4) Approval by the State Agency. Approval by the State agency is required for all documents specified in this regulation prior to submittal for FNS approval. In addition, State agency approval is also required for those acquisitions of ADP equipment and ADP services not requiring prior approval by FNS.

(5) Competitive Procurement. Acquisition of ADP equipment and purchase of ADP services shall be based on competitive procurement procedures specified in 7 CFR 277.14 when Food Distribution Program funds are involved. State agency officials responsible for such procurement will ensure that formal advertising is the method of procurement unless the conditions for negotiation in 7 CFR 277.14 are met. Notwithstanding the existence of circumstances justifying negotiation, competitive procurement shall be obtained to the maximum extent practicable. The competitive procurement policy shall be applicable except for ADP services provided by the agency itself, or by other State or local agencies.

(6) Submittal of Documents.—(a) Prior to claiming funding under the Food Distribution Program the State agency will be required to submit:

(i) The advance planning document;

(ii) The service agreement (when data processing services are to be provided by a State central data processing facility or by another State or local agency);

(iii) The request for proposal, prior to its issuance when service or equipment proposals are being solicited from commercial sources; and

(iv) The contract, prior to signature of the contracting officer when services or equipment are to be acquired commercially.

(b) Voluntary submittal, or when requested by FNS, will be made of:

(i) The system study,

(ii) The system design,

(iii) The system specifications,

(iv) The acceptance document.

(7) Methods for Charging Costs. Methods and procedures for properly charging the costs of all systems whether acquired from public or private sources shall be in accordance with this regulation and applicable FNS instructions.

(8) Access. Access to the system by FNS in all of its aspects, including design, development, and operation, including work performed by any source, and including cost records of contractors and subcontractors, shall be made available by the State at intervals as are deemed necessary by FNS to determine whether the conditions for approval are being met and to determine the efficiency, economy and effectiveness of the system. Failure to provide full access by appropriate State and Federal representatives to all parts of the system shall result in termination of Food Distribution Program funds in the costs of the system and its operation.

(9) Ownership Rights.--(a) Software. The State will have all ownership rights in software or modification thereof and associated documentation designed, developed or installed with Food Distribution Program funds except that FNS reserves a royalty-free, non-exclusive license to reproduce, publish, or otherwise use, and to authorize others to do so, such software, modification and documentation. Proprietary software which is provided at established catalog or market prices and sold or leased to the general public shall not be subject to the ownership provisions of this section.

(10) Use of ADP Systems. ADP systems designed, developed or installed with Food Distribution Program funds shall be used for a period of time consistent with the Advance Planning Document as approved, or which FNS shall determine is sufficient to justify the Federal funds invested.

(11) Basis for Continued Federal Financial Participation. Periodic onsite surveys and reviews of State and local agency ADP methods and practices may be conducted by or for FNS to determine the adequacy of such methods and practices and to assure that ADP equipment and services are utilized for the purposes for which Federal funds were authorized. Such surveys may include:

(a) Pre-installation Readiness. A pre-installation survey including an on-site evaluation of the physical site and the State agency's readiness to use the proposed ADP services, equipment or system when installed and operational.

(b) Post-installation. A review conducted after installation of ADP equipment or systems to assure that the objectives for which Federal financial participation was approved are being accomplished.

(c) Utilization. A continuing review of ADP facilities to determine whether or not the ADP equipment or services are being efficiently and effectively utilized in support of the Food Distribution Program. Should FNS determine from such surveys or reviews or otherwise that the State agency has improperly used Food Distribution Program funds, termination of Food Distribution Program funding may be invoked. Such termination would be limited to the costs of the data processing services or equipment in question as specified in the written notification of termination by FNS.

(12) Application of This Section. The conditions of this section apply for initial and continuing authority to claim Food Distribution Program funding for automatic data processing services and equipment. Due to the procurement of ADP equipment and services, approved cost allocation plans will not be valid unless documentation required under B(1) of this Section is submitted and approvals under B(1) of the Section are obtained.

(13) Building Space and Related Facilities. The cost of space in privately or publicly owned buildings used for the benefit of the Program is allowable subject to the following conditions.--(a) The total cost of space, whether in a privately or publicly owned building, may not exceed the rental cost of comparable space and facilities in a privately owned building in the same locality.

(b) The cost of Space may not be charged to FNS for periods of nonoccupancy, without authorization of FNS.

FNS HANDBOOK 501
EXHIBIT H

(i) Rental Cost. The rental cost of space in a privately-owned building is allowable.

(ii) Maintenance and Operation. The cost of utilities, insurance, security, janitorial services, elevator service, upkeep of grounds, normal repairs and alterations and the like, are allowable to the extent they are not otherwise included in rental or other charges for space.

(iii) Rearrangements and Alternations. Costs incurred for rearrangement and alternation of facilities required specifically for the Program or those that materially increase the value or useful life of the facilities (Section B(3) of these principles) are allowable when specifically approved by FNS.

(iv) Depreciation and Use Allowances on Publicly owned Buildings. These costs are allowable as provided in paragraph A(11) of these principles.

(v) Occupancy of Space Under Rental-purchase or a Lease with Option-to-purchase Agreement. The cost of space procured under such arrangements is allowable when specifically approved by FNS.

(14) Capital Expenditures. The cost, net of any credits, of facilities, equipment, other capital assets, and repairs which materially increase the value or useful life of capital assets, and/or nonexpendable personal property, having a useful life of more than one year and a net acquisition cost of more than \$5,000 per unit after allocation to FNS as projected for one year after purchase, is allowable when such procurement is specifically approved by FNS. No such approval shall be granted unless the State agency shall demonstrate to FNS that such a cost is:

(a) Necessary and reasonable for proper and efficient administration of the Program, and allocable thereto under the principles provided herein, and

(b) That procurement of such item or items has been or will be made in accordance with the standards set out in 277.14. In no case shall such a cost become a program charge against FNS prior to approval in writing by FNS of the procurement and the cost. When assets acquired with Food Distribution Program funds are:

(i) Sold,

(ii) No longer available for use in a Federally-sponsored program, or

(iii) Used for purposes not authorized by FNS, FNS's equity in the asset will be refunded in the same proportion as Federal participation in its cost. In case any assets are traded on new items, only the net cost of the newly acquired assets is allowable.

(16) Management Studies. The cost of management studies to improve the effectiveness and efficiency of program management for the Food Distribution Program is allowable. However, FNS must approve cost in excess of \$2,500 for studies performed by outside consultants or agencies other than the State agency.

(17) Preagreement Costs. Costs incurred prior to the effective date of approval of the amended indirect cost proposal or the revised Statewide cost allocation plan, whether or not they would have been allowable thereunder if incurred after such date, are allowable only when subsequently provided for in the plan or approved indirect cost proposal.

(18) Professional Services. Cost of professional services rendered by individuals or organizations not a part of the State agency is allowable. Prior authorization must be obtained from FNS for costs exceeding a total of \$2,500.

(19) Proposal Costs. Costs of preparing indirect cost proposals or amendments for allocating, distributing, and implementing provisions for payment of portions of the costs of administering the Food Distribution Program by the State agency are allowable.

(20) Cost Incurred by Agencies Other than the State. Allowable supporting costs are those services which may be centralized and includes such functions as procurement, payroll, personnel services, maintenance and operation of space, data processing, accounting, budgeting, auditing, mail and messenger service and the like. Supervision costs will not include supervision of a general nature such as that provided by the head of a department and his staff assistants not directly involved in the operation of the Program.

Public reporting burden for this collection of information is estimated to average 180 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (03-48-0044), Washington, DC 20503.

General Instructions

This form is designed so that application can be made for funds from one or more grant programs. In preparing the budget, adhere to any existing Federal grantor agency guidelines which prescribe how and whether budgeted amounts should be separately shown for different functions or activities within the program. For some programs, grantor agencies may require budgets to be separately shown by function or activity. For other programs, grantor agencies may require a breakdown by function or activity. Sections A, B, C, and D should include budget estimates for the whole project except when applying for assistance which requires Federal authorization in annual or other funding period increments. In the latter case, Sections A, B, C, and D should provide the budget for the first budget period (usually a year) and Section E should present the need for Federal assistance in the subsequent budget periods. All applications should contain a breakdown by the object class categories shown in Lines a-k of Section B.

Section A. Budget Summary Lines 1-4 Columns (a) and (b)

For applications pertaining to a *single* Federal grant program (Federal Domestic Assistance Catalog number) and *not requiring* a functional or activity breakdown, enter on Line 1 under Column (a) the Catalog program title and the Catalog number in Column (b).

For applications pertaining to a *single* program *requiring* budget amounts by multiple functions or activities, enter the name of each activity or function on each line in Column (a), and enter the Catalog number in Column (b). For applications pertaining to multiple programs where none of the programs require a breakdown by function or activity, enter the Catalog program title on each line in *Column* (a) and the respective Catalog number on each line in Column (b).

For applications pertaining to *multiple* programs where one or more programs *require* a breakdown by function or activity, prepare a separate sheet for each program requiring the breakdown. Additional sheets should be used when one form does not provide adequate space for all breakdown of data required. However, when more than one sheet is used, the first page should provide the summary totals by programs.

Lines 1-4, Columns (c) through (g)

For *new applications*, leave Column (c) and (d) blank. For each line entry in Columns (a) and (b), enter in Columns (e), (f), and (g) the appropriate amounts of funds needed to support the project for the first funding period (usually a year).

For *continuing grant program applications*, submit these forms before the end of each funding period as required by the grantor agency. Enter in Columns (c) and (d) the estimated amounts of funds which will remain unobligated at the end of the grant funding period only if the Federal grantor agency instructions provide for this. Otherwise, leave these columns blank. Enter in columns (e) and (f) the amounts of funds needed for the upcoming period. The amount(s) in Column (g) should be the sum of amounts in Columns (e) and (f).

For *supplemental grants and changes* to existing grants, do not use Columns (c) and (d). Enter in Column (e) the amount of the increase or decrease of Federal funds and enter in Column (f) the amount of the increase or decrease of non-Federal funds. In Column (g) enter the new total budgeted amount (Federal and non-Federal) which includes the total previous authorized budgeted amounts plus or minus, as appropriate, the amounts shown in Columns (e) and (f). The amount(s) in Column (g) should not equal the sum of amounts in Columns (e) and (f).

Line 5 - Show the totals for all columns used.

Section B Budget Categories

In the column headings (1) through (4), enter the titles of the same programs, functions, and activities shown on Lines 1-4, Column (a), Section A. When additional sheets are prepared for Section A, provide similar column headings on each sheet. For each program, function or activity, fill in the total requirements for funds (both Federal and non-Federal) by object class categories.

Line 6a-i - Show the totals of Lines 6a to 6h in each column.

Line 6j - Show the amount of indirect cost.

Line 6k - Enter the total of amounts on Lines 6i and 6j. For all applications for new grants and continuation grants the total amount in column (5), Line 6k, should be the same as the total amount shown in Section A, Column (g), Line 5. For supplemental grants and changes to grants, the total amount of the increase or decrease as shown in Columns (1)-(4), Line 6k should be the same as the sum of the amounts in Section A, Columns (e) and (f) on Line 5.

Line 7 - Enter the estimated amount of income, if any, expected to be generated from this project. Do not add or subtract this amount from the total project amount, Show under the program

INSTRUCTIONS

It is important that a separate form be prepared for each destination (item 2) when delivery conditions require changes in elements of information in items 5, 6, 7, 8, or 9.

In the "Type of Action" entry, check one box only indicating whether the form is to provide data for: (1) a NEW destination, (2) notification of CHANGE in data for an existing receiving point, or (3) DELETION of a destination receiving point.

ITEM

- 1 Self-explanatory.
- 2 Name of the city to which shipment is to be made. Show State only if different from item 3.
- 3 Self-explanatory.
- 4 Enter the title of the Distributing Agency's representative who is accountable for distribution of donated foods. Names are not to be shown unless essential to the Distributing Agency's operation. The Entity Number is the code designation assigned by USDA for a destination receiving point, and will be filled in by the Distributing Agency each time the form is submitted. *(Prior to submitting the form for establishment of a new destination receiving point, the Distributing Agency will contact the FNS Regional Office and obtain an Entity Number.)*
- 5 If delivery at destination is to be accepted by the Distributing Agency's representative (shown in item 4), enter "Same as item 4." If delivery at destination is to be accepted by someone other than the representative shown in item 4, that person's title is inserted here. Names are not to be shown unless essential to the Distributing Agency's operation.
- 6 This item is used jointly with item 7 since the information to be supplied is dependent upon the method of shipment indicated in item 7.

A. For Rail Delivery - No entry is to be made unless delivery to a specific location is essential to program operations, e.g., the receiving warehouse is located on a rail siding. When an entry is necessary, the address shown shall include the specific location at which the car is to be placed for unloading. When reciprocal switching is not in

effect at the point of delivery, the name of the railroad which serves this location shall be shown. For example "Blank's Warehouse, ACL," or "Industrial siding, PPP." Where reciprocal switching is in effect at the point of delivery, no delivering carrier shall be specified. If delivery is to be made on a team track, the name of a specific team track shall not be shown unless it is essential to program requirements.

Limitations. Show limiting conditions, if any, at the destination point, e.g., "Cannot handle care over maximum length of 53 feet."

B. For Truck Delivery. Show exact street address for location at which delivery will be accepted. If same as for "Rail Delivery," enter "Same as for rail delivery."

Limitations. Show limiting conditions, if any, at the destination point, e.g., "12 1/2-foot clearance."

- 7 It is desirable that shippers be allowed to make shipment by either rail or truck so that the means of transportation can be selected which will result in least transportation costs. Distributing agencies may restrict the method of shipment only when necessary to their program operations. If a specific mode of transportation is shown, an explanation must be made of the need for the restriction.
- 8 If this person is the same as the one to whom the Notice of Shipment is sent, enter "Same as item 9." Names are not to be shown unless essential to the Distributing Agency's operations.
- 9 Self-explanatory. Names are not to be shown unless essential to the Distributing Agency's operations.
- 10 Indicate the outlet(s) to which distributions are made from this destination point.
- 11 12, 13, and 14 self-explanatory.
- 15 & 16 The Distributing Agency's representative (item 4) will complete these entries.
