

Summary Report of Occurrences Reviewed

From October 27 – November 3, 2006

Summary: 24 occurrences at 14 sites reviewed during this period.

Significant Occurrences (2)

Injuries – 1 occurrence at 1 site

- ***SC – Argonne National Laboratory-East (Significance Category 3).*** On October 27, 2006, an employee was injured while using an overhead hoist and trolley with slings to move a 1,200 pound shipping crate up a staircase when the crate moved up unexpectedly and struck an employee's left ankle. The employee was treated at a local hospital and released with an ankle support and crutches. X-rays for a bone fracture were negative. A safety-stand down was initiated.

Environmental Compliance Concerns – 1 occurrence at 1 site

- ***Los Alamos National Laboratory (Significance Category 4).*** On October 25, 2006, the State of New Mexico Environment Department (NMED) issued a Notice of Violation to LANL alleging that hazardous waste debris was stored in an unapproved staging pile during January-February 2005. A Settlement Offer from NMED proposed a civil penalty of \$402,600, and a settlement meeting is being scheduled.
