Welcome to the Leech Lake Recreation Area

Leech Lake, Minnesota

The Leech Lake campground is located in the heart of the Chippewa National Forest in Federal Dam, Minn., and is best known for its fishing and boat access to Portage Bay on Leech Lake. Excellent opportunities are available for walleye, perch, bass, northern pike and musky, where every cast has the potential to yield a true trophy. Leech Lake, particularly Portage Bay, is home to the legendary Musky Rampage of 1955. The campground offers well-maintained campsites, showers, clean facilities and boat mooring. Experience picturesque sunsets, autumn colors or just peaceful evenings around the campfire where the only "noise" you hear will be loons in the distance. Relax and enjoy your visit!

This pamphlet provides you with general information and park rules that will ensure a pleasant and safe visit for all. Please check bulletin boards for more information.

Leech Lake fills a basin formed by receding glaciers. The 126,000 acre reservoir, formed upon construction of the dam in 1884, controls the runoff from a 1,163 square mile drainage area, contains 316 miles of shoreline and encompasses about 14 natural lakes. Lake levels were raised approximately two feet after impoundment.

The dam is located on the Leech Lake River, 214 river miles from the source of the Mississippi River at Lake Itasca, 27 river miles from the confluence with the Mississippi, and approximately 2,188 river miles from the mouth at the Gulf Coast.
