## 2008 Journal Holdings List

The Medical Library has over 900 titles in its journal collection; approximately 450 of these are active subscriptions as of 2008. All journal titles may be found in the journal stacks.

Older volumes of active subscriptions will be found in the journal stacks or on microfilm; many of the inactive titles have been moved into storage in Building 31. In addition, we now have 5 titles in an electronic (online) only format. Other titles also have online access – this information is noted in the title entry.

The entries in this list reflect the extent of our holdings, and where they may be found. The following sample entry will serve as a key:
