Requests for additional information or copies of this information collection should be directed to Rosemarie Downer at (703) 305-2129.

SUPPLEMENTARY INFORMATION:

Title: Enhancing Food Stamp Certification: Food Stamp Modernization Efforts.

OMB Number: Not Yet Assigned.

Expiration Date: To be determined.

Type of Request: New collection of information.

Abstract: Over the past decade, increased awareness of the importance of the FSP as a basic safety net as well as a critical work support has led to a variety of efforts to expand eligibility, increase program access and reengineer the FSP. At the same time, States are also focusing on ways to increase operational and administrative efficiency and program integrity.

In an effort to document and understand the range of efforts States are employing to enhance the FSP certification process and to modernize FSP administration, FNS plans to develop a comprehensive, national inventory of FSP modernization efforts undertaken in all the States; document key features and outcomes associated with food stamp modernization; systematically describe and compare techniques States are using to modernize the FSP; identify promising practices; and create a single, comprehensive information source on State modernization initiatives. Results of this study will inform FNS policy discussions, provide technical and procedurally relevant information to

States, and provide a comprehensive and centralized source of information for assessing ways to improve food stamp certification and responding efficiently to the variety of stakeholder queries received.

Specifically, the study will focus on four types of modernization efforts: policy changes to modernize FSP application, case management, and recertification procedures; reengineering of administrative functions; increased or enhanced use of technology; and partnering arrangements with businesses and nonprofit organizations. The study will examine the impact of these modernization efforts on four types of outcomes: program access, administrative cost, program integrity, and customer services.

To address these objectives, the study will implement a survey of all 50 States (and the District of Columbia, Guam, Puerto Rico, and the Virgin Islands) that includes State and local FSP administrators and community organizations and for-profit organizations assisting State modernization efforts. Data will also be obtained through: (1) Descriptive case studies incorporating qualitative data through interviews with local and State-level staff as well as community organizations and for-profit contractors; (2) discussion groups with food stamp participants and eligible non-participants and (3) a limited number of brief in-person exit interviews with food stamp applicants and participants. The study will rely on extant data to describe FSP performance before and after the implementation of State modernization efforts with respect to application approval rates, participation rates, payment accuracy, administrative costs and other outcomes.

Survey, interview and focus group questions will be kept as simple and respondent-friendly as possible. Responses to all questions will be voluntary. The Food and Nutrition Service will take the following steps to treat the data provided in a confidential manner: (1) No data will be released in a form that identifies individual respondents by name and (2) information collected through interviews will be combined across other respondents in the same category and reported in aggregate form. Respondents will be notified of the confidentiality measures during data collection.

Affected Public: Staff involved in or knowledgeable about modernization efforts at the State level, including FSP directors, policy and operations staff, Management Information System (MIS) and data reporting staff and call center

staff; staff from local food stamp offices; State and local staff from community organizations and for-profit contractors assisting with food stamp modernization efforts; and food stamp applicants, participants, and eligible non-participants.

Estimated Number of Respondents: 804. This number represents the sum of State-level FSP staff involved in food stamp modernization efforts, community organization staff or for-profit contractor staff involved in food stamp modernization efforts, food stamp applicants and participants, and eligible non-participants.

Estimated Number of Responses per Respondent: 1. For the State-level respondents, 14 will be respondents twice (once to a survey and once to an in-person interview) and the rest will respond once. For the local-level respondents, 28 respondents will be respondents twice and the rest will respond once.

Estimated Annual Responses: 804.

Estimated Hours per Response: 1.75. All burden estimates include respondents' time to prepare for and complete surveys, administrative interviews, focus groups, or exit interviews with FSP applicants and participants. Surveys: 2 hours each for State and local level FSP interviews and 1 hour each for community representative or for-profit contractors; in-person administrative interviews: 1 hour each; focus groups: 1.5 hours per participant; exit interviews with FSP applicants and participants: 10 minutes each.

Estimated Total Annual Burden: 1404 hours.

Dated: June 7, 2007.

Roberto Salazar,

Administrator, Food and Nutrition Service.

DEPARTMENT OF COMMERCE

International Trade Administration

(A-570-877)

Notice of Amended Final Determination of Sales at Less Than Fair Value and Antidumping Duty Order Pursuant to Court Decision: Lawn and Garden Steel Fence Posts from the People's Republic of China

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: June 14, 2007.

SUMMARY: On September 22, 2005, the United States Court of International Trade ("CIT") sustained the *Final Results of Redetermination Pursuant to Remand, Hebei Metals & Minerals Imp. & Exp. Corp. And Hebei Wuxin Metals & Minerals Trading Co., Ltd. v. United States* (July 20, 2005) ("*Second Remand Redetermination*") made by the Department of Commerce ("the Department") pursuant to the CIT's second remand of the final determination of the less-than-fair-value investigation of lawn and garden steel fence posts from the People's Republic of China ("PRC"). See *Hebei Metals & Minerals Import & Export Corporation and Hebei Wuxin Metals & Minerals Trading Co., Ltd. v. United States*, Consol. Ct. No. 03-00442, Slip Op. 05-126, (CIT September 22, 2005) ("*Court Decision in Hebei Metals*"). As there is now a final and conclusive court decision in this case, the Department is amending the final determination and antidumping duty order of this investigation.

FOR FURTHER INFORMATION CONTACT: Jennifer Moats or Blanche Ziv, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-5047 or (202) 482-4207, respectively.

SUPPLEMENTARY INFORMATION:

Background

On April 23, 2003, the Department published in the **Federal Register** its final determination in the above-referenced investigation covering the period October 1, 2001, through March 31, 2002. See *Final Determination of Sales at Less Than Fair Value: Lawn and Garden Steel Fence Posts From the People's Republic of China*, 68 FR 20373 (April 25, 2003) ("*Final Determination*"). Following publication of the *Final Determination*, Hebei Metals & Minerals Import & Export
