SUBJECT: Using Wide Area Workflow to Process Vouchers for Cost Reimbursable,
Time and Material (T&M), and Labor Hour (L/H) Contracts

The functionality to process certain types of contract financing payments including vouchers under cost reimbursable, Time and Material (T&M) and Labor Hour (L/H) contracts was implemented in Wide Area Workflow (WAWF) in July, 2003. The Defense Contract Audit Agency (DCAA) successfully led a pilot of this technology with numerous vendors to prove this WAWF voucher processing capability. This functionality now allows the Department to deploy WAWF for use with these types of contractual actions. Therefore, DoD Components must immediately update their WAWF deployment plans to include deployment of this functionality in accordance with the direction of the Acting Under Secretary of Defense, Acquisition, Technology and Logistics (AUSD(AT&L)) to "transition rapidly to WAWF as a mandatory payment requirement."

The Defense Federal Acquisition Regulation Supplement (DFARS) Section 232.7000 requires contractors to submit payment request in electronic form. WAWF is considered an acceptable electronic form for these transmissions. When the electronic vouchers are processed in WAWF, they may be slightly different than the paper equivalents. DFARS Section 242.803 (Attachment 1) establishes the auditor as the contracting officer's representative for receiving and reviewing interim vouchers, for

authorizing direct submittal of vouchers, and for forwarding final vouchers to the Administrative Contracting Officer (ACO). WAWF electronically routes contractor and auditor information to the auditor, payment office or the ACO, consistent with the DFARS. The voucher, pre or post-audit, can be securely accessed through WAWF. Therefore when a vendor uses WAWF to process vouchers, it fulfills all requirements for distribution.

The Defense Procurement and Acquisition Policy action officer for WAWF Deployment is Lt Col Thomas Snyder, thomas.snyder@osd.mil, 703-614-3883.
