

Wind Power Status, Problems and Solutions

Prof. Martin J. Pasqualetti
School of Geographical Sciences
Arizona State University

Humanity's Top 10 Problems for the Next 50 Years

1. Energy
2. Water
3. Food
4. Environment
5. Poverty
6. Terrorism and War
7. Disease
8. Education
9. Democracy
10. Population

Wind Power is One Part of the
Energy Supply Answer

Environmental Benefits

- No SO_x or NO_x
- No particulates
- No mercury
- No CO₂
- No water required
- No waste
- Reversible

Three Themes

- Status
- Problems
- Solutions

#1 - Wind Power Status

World Wind Capacity 2005

~58,000 MW

Source: Paul Gipe Associates

Wind Energy is a Real Business

US\$22 Billion in 2005

Source: Paul Gipe Associates

What is Wind's Market Potential?

- At least 20,000 MW total installed by 2010 in U.S.
- 6% of electricity supply by 2020
→ = 100,000 MW of wind power installed by 2020
= a \$100 billion market!

Installed Wind Capacity 2005 Where Canada & US Stands

Wind Power Classification

Wind Power Class	Resource Potential	Wind Power Density at 50 m W/m ²	Wind Speed ^a at 50 m m/s	Wind Speed ^a at 50 m mph
2	Marginal	200 - 300	5.6 - 6.4	12.5 - 14.3
3	Fair	300 - 400	6.4 - 7.0	14.3 - 15.7
4	Good	400 - 500	7.0 - 7.5	15.7 - 16.8
5	Excellent	500 - 600	7.5 - 8.0	16.8 - 17.9
6	Outstanding	600 - 800	8.0 - 8.8	17.9 - 19.7
7	Superb	800 - 1600	8.8 - 11.1	19.7 - 24.8

Photo: Mathew Taylor

Class 3 – Class 7 = >44,000 MW potential in Oaxaca*

* Assumptions: installed capacity per sq km = 5 MW; total land area = 91,500 sq km.

#2 – Problems

Visual Aesthetics

You can do many things to make wind turbines less objectionable, but you cannot make them invisible.

- Highlands County, Virginia
- Cape Cod, Massachusetts
- Palm Springs, California

THE ROANOKE TIMES

11.4.2005

Highlands torn by winds of change

A proposal to build wind turbines in Highland County has polarized the rural community's residents.

"Some say who doesn't..."

Opposition in Highland County, VA

P.S.

That's not wind.
We're blowing you a kiss.

Love, Palm Springs

FAIRWAY

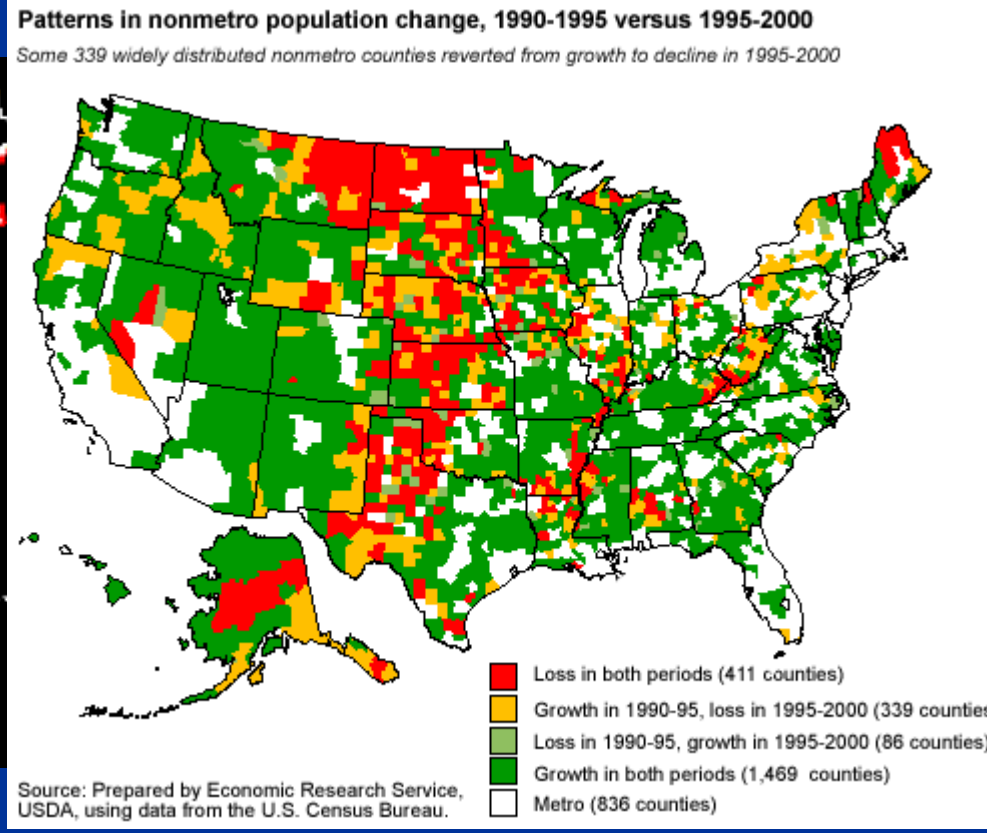

#3 - Solutions

1. Move from NIMBY  PIMBY
2. Recognize the "Morality" of Wind Energy Landscapes
3. Develop Compatibility Rankings

(PIMBY) Please In My BackYard

Windy Rural Areas Need Economic Development

Saving the Family Farm Dixon, Illinois

Revenues to farmers are \$3-5,000 per turbine per year

2. The Morality of Wind Energy Landscapes

*Wind Power Promotes Awareness of Energy
Supplies*

3. Develop Compatibility Rankings

- Rank #1 properties would be those where it is not only suitable but overtly requested for wind development, such as farms in Iowa or Kansas
- Rank #2 properties would likely be acceptable, such as in southeastern Washington
- Rank #3 properties might be acceptable in certain circumstances, such as near Palm Springs
- Rank #4 properties would be completely off-limits, for example, on the top of Mt. Rushmore

The background of the slide features a series of wind turbines silhouetted against a warm, golden sunset sky. The turbines are arranged in a line across the horizon, with the largest one on the right side of the frame. The overall mood is serene and focused on renewable energy.

Wind Power Status, Problems and Solutions

Thank you

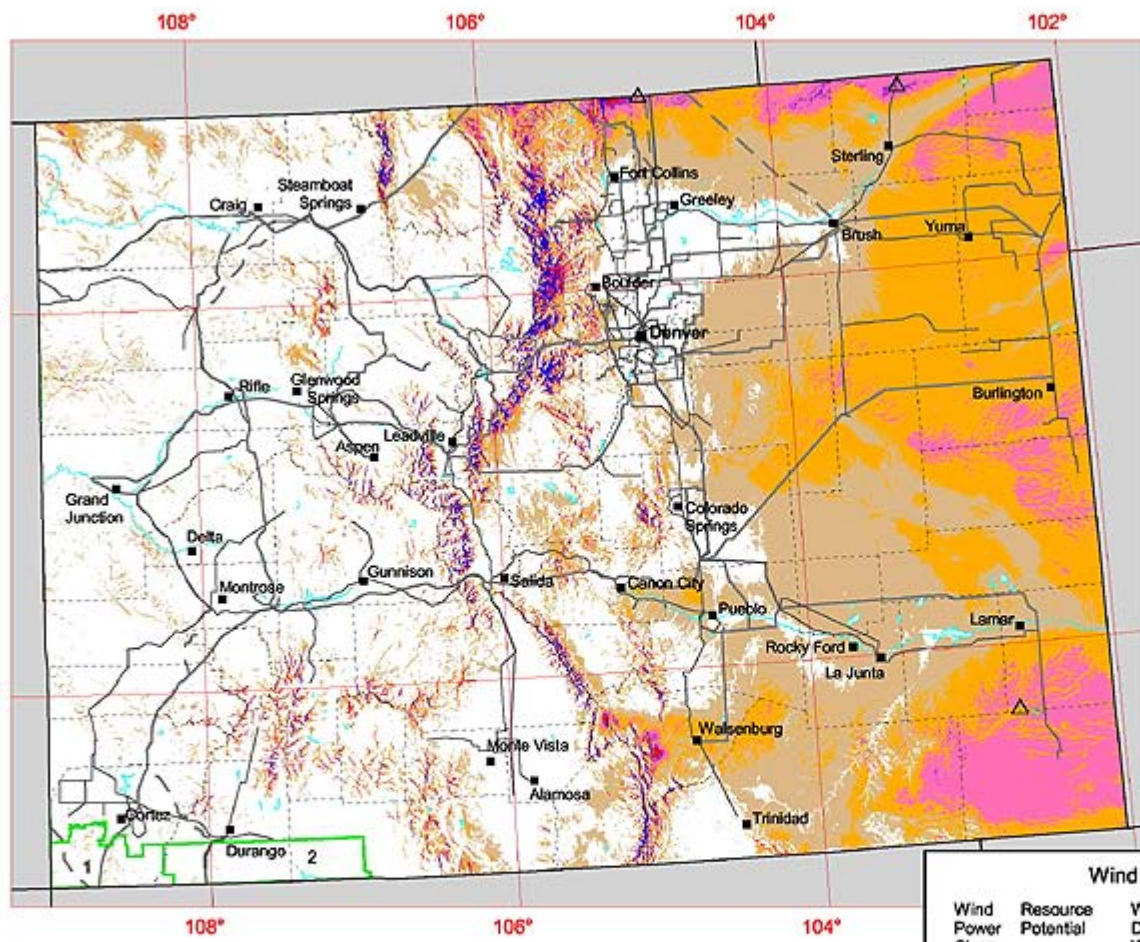

Case Study: Prowers County, Colorado

- 162-MW Colorado Green Wind Farm (108 turbines)
- \$200M+ investment
- 400 construction workers
- 14-20 full-time jobs
- Land lease payments \$3000-\$6000 per turbine
- **Prowers County 2002 assessed value \$94M; 2004 assessed value +33% (+\$32M)**
- **Local district will receive 12 mil tax reduction**
- Piggyback model

“Converting the wind into a much-needed commodity while providing good jobs, the Colorado Green Wind Farm is a boost to our local economy and tax base.”

John Stulp, county commissioner, Prowers County, Colorado

Colorado

50 m Wind Power

**Transmission Line*
Voltage (kV)**

- 115 - 161
- 230
- - 345

Benefits of Wind Power Lamar, CO

Summary of Wind's Benefit to Prowers County

- \$764,000/year: new county revenues
- \$917,000/year: School General Fund
- \$203,000/year: School Bond Fund
- \$189,000/year: Prowers Medical Center
- 29% Increase in County Tax Base
- Tremendous Support from Community
