## Food Group Choices

## What and How Much Would YOU Eat for a Day?

Use this chart to plan a day's worth of foods YOU like to eat that will give you the kinds and amounts of foods you need.

| Food group amounts based on age, gender, activity level |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- |
|  | Less Food | Food Amounts <br> for 2,000 <br> calories | More Food | Fill in Amounts <br> YoU need |
| Fruits | $11 / 2$ cups | 2 cups | $21 / 2$ cups |  |
| Vegetables | 2 cups | $2^{1 / 2}$ cups | 4 cups |  |
| Milk | 3 cups | 3 cups | 3 cups |  |
| Meat and Beans | 5 ounces | $51 / 2$ ounces | 7 ounces |  |
| Grains | 5 ounces | 6 ounces | 10 ounces |  |

How to use the Food Group Choices-worksheet:

1) Write the names of foods on the squares for each food group on the worksheet.

- Divide the total amount for a day ( $51 / 2$ oz. or equivalent) among the three Meat and Beans group squares.
- Choose two vegetables (try to get dark-green and orange-colored ones).
- Choose grain foods made with whole grains (for extra credit).

2) Cut, or tear apart, the square sections of this chart.
3) Sort the squares into piles according to the way you would eat them as part of meals or snacks.

## "My" Food Group Choices-Topic 5 Teacher's Version

This worksheet shows "YOUR" alternative day's worth of foods, compared to the poster.

| Breakfast | hard cooked egg (= 1 ounce), toast, (= 1 ounce), orange juice (= 1 cup) |
| :---: | :---: |
| Lunch | ham \& cheese sandwich ( 1 ounce ham, $1 \frac{1}{2}$ ounce natural cheese) on whole-wheat bread (= 2 ounces) with lettuce and tomato ( $=1 / 2$ cup) vanilla yogurt ( $=1$ cup), pear ( $=1$ small), carrot chunks ( $=1 / 2$ cup). |
| Snacks | 2 molasses cookies, 2 mugs of coffee with $\frac{1}{2}$ cup milk each (= 1 cup) |
| Dinner | chicken breast (= $3 \frac{1}{2}$ ounces), rice ( $=1 \mathrm{cup}$ ), spinach salad (= 1 cup ), cucumber slices ( $=1 / 2$ cup), pineapple chunks ( $=1 / 2$ cup) |

Salad dressing, mayonnaise, and soft margarine are YOUR source of oils for this day.
