

INDEX

This index lists primary references for the major topics and procedures described in this manual.

Accessibility	6-8
Adaptors	Appendix B, Page B-16
Adjustors, registration	3-20
Advancement to zero	3-19, 6-26
American Society of Mechanical Engineers (ASME)	2-5
Analog type device	3-17
Anhydrous ammonia	2-1, Appendix C
Approval	8-5
Assistance, provided by owner	6-9
Automatic temperature compensators	3-21, 6-30
Back pressure	3-23
Bleeder valve, prover	5-7, 5-9
Bleeding hoses	4-6, 5-16, 5-17
Bleeding prover	5-16, 5-17
Boiling point	2-2
Butane	2-3
Bypass circuit, external	3-5
Bypass circuit, internal	3-4
Bypass circuit, prover	5-8
Calibration, prover	5-13
Cavitation	3-4
Certificate of Conformance (NTEP)	6-6
Check valve	6-36
Compensated draft	7-15, 7-18
Compliance actions	8-5
Computing-type registers	7-13
Condemnation	8-6, 8-7
Correct	8-6
Differential pressure valve	2-1, 2-6, 2-7, 3-24, 6-28
Digital type device	3-17
Discharge line	3-22, 6-34
Discharge nozzle	3-24
Discharge outlets	6-34
Discharge rate	2-10, 6-13, 6-20, 7-15, 7-29
Drafts, basic procedure	5-15
Draft, test	5-5, 7-7
Drain time, prover	5-13, 5-14
Electronic registers	3-15, 3-16, 6-26
Emergency procedures	4-7
Error, meter	7-4, 7-23, 7-31, 7-32
Ethylene glycol	5-2

Examination, defined	6-5
Examination Procedure Outlines (EPOs)	6-2, 7-3, Appendix A
Excess-flow valves	3-5
Facilitation of Fraud	6-13, 6-34
Fire	4-5, 4-9
Fire extinguishers	4-5
Flow rate	6-13, 6-20, 7-29
Gravimetric proving	5-3
Handbook 44	1-2, 5-3
Hazards of LPG	4-2
Hose, discharge	3-24, 6-36, 7-34
Hydrostatic pressure relief valves	3-6
Identification	7-2
Increment, digital device	6-23
Indicating wheel	3-15
Indicating elements	6-21
Inspection, defined	6-5
Installation	6-12
Intake line	3-2
Latent heat of evaporation	2-2
Leaks	3-5, 4-8, 4-10
Leveling shelves, prover	5-7, 5-8
Limitation of use	6-20
Liquefied Petroleum Gas (LPG), defined	2-2
Lower neck gauge, prover	5-7
Maintenance, of metering equipment	6-13
Maintenance, prover	5-16
Marking	6-15
Marking of device, official	8-7
Measuring elements	6-28
Mechanical registers	3-14, 6-26
Meniscus	5-10, 5-11
Meter	2-6, 3-9
Meter identification plate	6-19
Money value computations	7-13
Money values	7-14
National Conference on Weights and Measures	6-39
National Fire Prevention Association (NFPA)	2-9, 3-9
National Training Program	1-1
National Type Evaluation Program (NTEP)	6-6
Normal test, defined	7-6
Notification of owner	8-7
Objectives of this module	1-3
Performance curves, meter	7-30
Piping	2-4, 6-34
Positive-displacement meters	3-9

Post-test tasks	8-1
Prerequisites for this module	1-3
Pressure correction table, prover	7-17, 7-21
Pressure differential between prover and metering system	7-12
Pressure gauges	3-6, 5-7, 5-8
Pressure relief valves	3-6, 3-24, 4-11
Pre-test determinations	6-5, 7-3
Primary elements	6-21
Product identity	6-25
Propane	2-2
Properties of LPG	2-2, 4-2
Prover, field standard	5-3
Pulsers	3-15
Pumps	2-5, 3-2
Readability	6-24
Recording elements	6-21
Recordkeeping	8-8
Register	3-14
Rejection	8-6
Report forms	5-17, 8-6, 8-8
Retail devices	6-25
Reversal of flow	6-36
Safety	4-1
Safety equipment	4-4
Safety practices, routine	4-5
Scale plates	5-9, 5-10
Security seals	6-31, 6-32, 8-2
Selection	6-10
Service outlets	6-35
Service valves	3-9
Set-up, prover	5-11
Slippage	3-13, 7-31
Slow-flow test	7-29
Special test	7-27
Special test, defined	7-6
Specific gravity	7-4
Spray fill	2-8, 2-9
Static electricity	4-4, 4-6
Storage tank	2-5, 4-3
Strainers	3-9
Suitability of metering equipment	6-11
Temperature compensation/ correction	3-21, 7-17
Temperature, effect of on measurement	2-4, 2-10, 3-21, 5-8, 7-4
Temperature readings	7-15
Test liquid	7-3
Test Notes	7-11

Test portion of examination	7-10
Test procedures	7-10
Thermometers	5-2
Thermometer well	5-7, 5-8, 6-29
Ticket printer	3-20, 6-21, 6-22, 7-12
Tolerances	6-20, 7-4
Totalizers	3-19, 6-22, 7-2, 7-34, 8-2, 8-5
Uncompensated draft	7-23
Uniform Weights and Measures Law	8-6
Unit price	6-25
Units, delivery	3-19, 6-22
Units, measurement	7-23
Upper neck gauge	5-6, 5-10
Use requirements	6-13, 6-27
Vapor eliminator	2-6, 3-7, 6-28
Vaporization	2-6, 3-4, 3-25
Vapor pressure	2-3
Vapor-return line	2-9, 5-4, 5-5, 5-7, 6-37
Vehicle-tank meters	2-1
Volume corrections	7-17, 7-27
Volume correction tables	Appendix B
Volumetric proving	5-3
Wear, meter	7-31, 7-32
Weights and Measures Division, NIST	1-1, 5-4
Wet hose condition	3-24, 6-36
Wetting the prover	5-13, 7-11
Wholesale devices	6-26
