

**NIST Training Program**  
**Liquefied Petroleum Gas Liquid-Measuring Devices**  
**Table of Contents**

	<u>Page</u>
<b>Chapter 1 -- Introduction to the Course</b>	
Chapter Objectives	1-1
The NIST Training Program	1-1
The Importance of Testing LPG Liquid-Measuring Devices	1-2
Course Objectives	1-3
Prerequisites	1-3
Summary	1-4
<b>Chapter 2 -- The Nature of LPG Products, Their Storage, Measurement and Delivery</b>	
Chapter Objectives	2-1
Introduction	2-1
Anhydrous Ammonia	2-1
LPG Properties and Characteristics	2-2
Design of the Delivery System	2-4
Types of Delivery Systems	2-9
Summary	2-9
<b>Chapter 3 -- The Operation of LPG Liquid-Measuring Systems</b>	
Chapter Objectives	3-1
Introduction	3-1
The Intake Line	3-2
The Meter and Indicating and Recording Elements	3-9
The Discharge Line	3-23
Summary	3-24
<b>Chapter 4 -- Safety</b>	
Chapter Objectives	4-1
Introduction	4-1
Properties and Hazards of LPG Products	4-2
Emergency Equipment	4-4
Routine Safety Practices	4-5
Emergency Procedures	4-7
Summary	4-10

## **Chapter 5 -- Test Equipment, Report Forms, and Preliminaries to the Field Examination**

Chapter Objectives	5-1
Introduction	5-1
Basic Equipment	5-1
LPG Field Standard Provers	5-3
Report Forms	5-17
Summary	5-20

## **Chapter 6 -- Inspection**

Chapter Objectives	6-1
Introduction	6-1
Inspection	6-6
Additional Inspection Procedures	6-38
Summary	6-38

## **Chapter 7 -- The Test**

Chapter Objectives	7-1
Introduction	7-1
Preparation for Testing	7-2
Pre-test Determinations	7-3
The Test	7-10
Summary	7-34

## **Chapter 8 -- Post-Test Tasks**

Chapter Objectives	8-1
Introduction	8-1
Security Seals	8-2
Recording Audit Trail Information	8-4
Noting Totalizer Readings	8-5
Evaluating Examination Results	8-5
Determination of Compliance Action	8-5
Notifying the Owner or Operator	8-7
Marking the Device	8-7
Report Forms and Recordkeeping	8-8
Summary	8-8

## **Appendix A -- Examination Procedure Outlines**

## **Appendix B -- Tables**

## **Appendix C -- Anhydrous Ammonia**
