Subject: NIOSH Approval TC-84A-4250 revoked

RESPIRATOR USERS NOTICE

Subject: NIOSH Has Revoked Nitta S.A. Corporation's Approval TC-84A-4250. This approval was for the Nitta S.A. Corporation's Model 9510-1 N95 Filtering Facepiece

The National Institute for Occupational Safety and Health (NIOSH) wishes to inform respirator users that the NIOSH certificate of approval TC-84A-4250 for Nitta S. A. Corporation's Model 9510-1 N95 filtering facepiece has been revoked as of May 25, 2007. Please see the attached photograph of the Nitta model 9510-1 N95 respirator.

A NIOSH approval is issued to a respirator only after it has been evaluated in the laboratory and found to comply with all the requirements of Title 42, *Code of Federal Regulations* (CFR), Part 84. Nitta S. A. Corporation has failed to meet these requirements; therefore, TC-84A-4250 is **no longer** certified and approved by NIOSH.

Revocation of this approval means that the Nitta S. A. Corporation's Model 9510-1 N95 filtering facepiece (TC-84A-4250) will no longer be listed as NIOSH-approved respirators. Revocation also means that respirators bearing this NIOSH approval number TC-84A-4250 may no longer be manufactured, assembled, sold, distributed, or used.
