Funding Opportunity Description: Subject to the availability of appropriations for fiscal year 2007, the Corporation for National and Community Service (the Corporation) announces the anticipated availability of approximately \$88,000,000 to award to new and re-competing AmeriCorps State and National grants. The grants in AmeriCorps State are: State and Territory Competitive; States, Territories and Commonwealths without Commissions; and State Education Award Program (EAP). The Corporation’s mission is to improve lives, strengthen communities, and foster civic engagement through service and volunteering. In the FY 2007 competition, we will give special consideration to projects that address one or a combination of four strategic initiatives that meet critical needs of our nation, achieve national service goals, and address community problems:

- 1. Mobilizing more volunteers.**
- 2. Ensuring a brighter future for all of America’s youth.**
- 3. Engaging students in communities.**
- 4. Harnessing baby boomers’ experience.**

Additional programs and program models that may receive special consideration in the selection process are described in the AmeriCorps regulation § 2522.450 (http://www.nationalservice.gov/pdf/45CFR_chapterXXV.pdf). I. FUNDING OPPORTUNITY DESCRIPTION

A. Funding Program Description

For more than a decade, the Corporation for National and Community Service—through its Senior Corps, AmeriCorps, and Learn and Serve programs—has mobilized a new generation of engaged citizens. This year, more than 1.8 million individuals of all ages and backgrounds will serve through these programs. They will help thousands of national and community nonprofit organizations, faith-based groups, schools, and local agencies meet local needs in education, the environment, public safety, homeland security, and other critical areas. For example, in 2005-2006, more than 21,000 national service volunteers contributed to hurricane relief and recovery across the country.

AmeriCorps grants are generally awarded to eligible organizations to recruit, train, and manage AmeriCorps members who address unmet community needs. AmeriCorps members are individuals who engage in community service. Members may receive a living allowance during their term of service. Upon successful completion of their service members receive an education award from the National Service Trust.

Roughly three quarters of all AmeriCorps grant funding goes to Governor-appointed state service commissions which award subgrants to nonprofit organizations in their states. These organizations recruit AmeriCorps members to respond to local needs. The Corporation distributes most of the remainder of the grant funding directly to national organizations operating in more than one state.

We will give special consideration to projects that address one or a combination of four strategic initiatives:

1. Mobilizing more volunteers. The Corporation will invest in organizations that can effectively recruit, train, manage, and use volunteers who will ultimately have an impact on the success of their program. We will increase the capacity of faith-based and other community organizations to mobilize volunteers in communities to meet critical needs. We plan to support organizations that develop strong partnerships and collaborations with volunteer centers or other volunteer connector organizations in their service areas.

2. Ensuring a brighter future for all of America's youth. The Corporation will invest in organizations that provide caring adults as mentors for youth from disadvantaged circumstances, and opportunities for young people from disadvantaged circumstances to serve their communities. We plan to support organizations that recruit and manage at-risk youth serving in National Service Programs, and mentoring efforts, particularly those targeting children of prisoners.

3. Engaging students in communities. The Corporation will invest in organizations that implement effective strategies for connecting their school, faculty, staff, and administration with their communities through service and volunteering. We plan to support K-12 and higher education institutions that effectively incorporate service-learning into their curricula, and the number of college students engaged in community service and service-learning. We will also help colleges and universities expand support for student service.

4. Harnessing baby boomers' experience. The Corporation will invest in programs that plan to capture the talents, skills, energy, and experience of baby boomers and older Americans to

meet local and national needs. We plan to improve the capacity of nonprofits to attract and retain boomers via targeted training and technical assistance.

(For more information on these strategic initiatives, please see the Corporation’s Strategic Plan (www.nationalservice.gov/about/focus_areas/index.asp).

Additional programs and program models that may receive special consideration in the selection process are described in the AmeriCorps regulation § 2522.450. You will note that mobilizing volunteers, youth in disadvantaged circumstances, working with educational institutions, and baby boomers are priorities in the regulation as well as our strategic initiatives. You are encouraged to integrate the priorities and initiatives into your program design, as they logically align with your organizational mission and objectives.

Program requirements are located in the AmeriCorps regulations, 45 CFR §§ 2520 - 2550 (http://www.nationalservice.gov/pdf/45CFR_chapterXXV.pdf). Changes to these regulations can be found in the AmeriCorps rule published in July of 2005 (www.americorps.gov/about/ac/rulemaking.asp). This *Notice of Federal Funding Opportunity (Notice)* should be read together with the regulations and the AmeriCorps application instructions for the program to which you are applying (www.americorps.gov/for_organizations/funding).

3. Application Instructions

B. Authority

These funds will be available under authority of the National and Community Service Act of 1990 (42 U.S.C. §§12571-12595).

II. Award Information

A. Number of Awards and Award Amount

In 2006, 25% of the applicants for State and National funding were awarded grants. Based on estimates of continuing and re-competing applications in 2007, we expect an even higher degree of competitiveness in the competitions described in this *Notice* overall. Some competitions will be more competitive than others.

B. Education Awards

After successfully completing a term of service, an AmeriCorps member is eligible to receive an education award from the National Service Trust. The member may use the education award to

pay for current educational expenses at qualified institutions of higher education, or to repay qualified student loans. The award currently is \$4,725 for a year of full-time service, with correspondingly lesser awards for part-time and reduced part-time service. A member has up to seven years after his or her term of service has ended to use the award.

Table 2: Term of Service and Education Award

Term of Service	Minimum # of Hours	Education Award
Full Time	1700	\$4,725
One Year Half Time	900	\$2,362
Two Year Half Time	900	\$2,362
Reduced Half Time	675	\$1,800
Quarter Time	450	\$1,250
Minimum Time	300	\$1,000

C. Project/Award Period

The Corporation generally makes grant awards for three years, with funding in annual increments. Grantees will be eligible for continuation funding in the second and third year contingent on the availability of appropriations, compliance, and satisfactory performance. **AmeriCorps members may not begin service until the Corporation issues a grant award. A program may not certify any hours a member performs prior to the award being issued.**

D. Cost per Member Service Year (MSY)

The Corporation determines the maximum cost per MSY on an annual basis. Applicants calculate their cost per MSY and the Corporation uses this number to compare costs of programs. The cost per MSY is determined by dividing the Corporation’s share of budgeted grant costs by the number of MSYs requested in the grant. One MSY is the equivalent of a full-time term of service. The cost per MSY does not include child care or the value of the education award a member may earn.

The maximum average cost per MSY across all subgrants in a state is \$12,600. The maximum cost per MSY for National Direct and Indian Tribes is \$12,600. Subject to appropriations, the maximum cost per MSY for State and National EAPs will increase in 2007 from \$400 to \$600. The maximum cost per MSY for new and re-competing Professional Corps is \$2,500. Planning grants do not include members, and so have no cost per MSY.

E. Enrollment and Retention

We will consider both grantee compliance with grant requirements and program performance in assessing continuation requests and re-competing applications. In order to leverage our limited grant funds, programs should strive to improve their rates of enrollment and retention. We expect grantees to enroll the full number of members included in their grant award. Enrollment rates will have a direct bearing on the number of slots and the size of awards we approve in the continuation and re-compete processes.

Although we recognize retention rates may vary among effective programs depending on the program model being implemented, we expect grantees to vigorously pursue the highest retention rates attainable by their program model. Where necessary, a target retention rate will be negotiated.

F. Type of Funding Instrument

The type of funding instrument is a grant.

III. Eligibility Information

A. Eligible Applicants

The Corporation wants to ensure that all eligible organizations are able to compete on an equal basis for federal financial assistance. Eligibility requirements are presented in Table 4, below. Eligible applicants that have never received funding from the Corporation or AmeriCorps are encouraged to apply for the grants described in this *Notice*.

B. Match Requirements

Program requirements, including requirements on match, are located in the AmeriCorps regulations, and summarized below.

Table 3: Match Requirements in the AmeriCorps Regulations

Competition	Match Requirement
State and Territory Competitive; States, Territories and Commonwealths without Commissions; National Direct; Tribes	Minimum grantee share is 33% of operating costs and 15% of member support costs. Overall grantee share of total program costs increases gradually to 50% by the tenth year of funding and any year thereafter.
State EAP and National EAP	Grantee pays all program costs over \$600 per MSY provided by the Corporation.
Professional Corps	Minimum grantee share is 33% of operating costs only. Grantee pays all member support. Overall grantee share of total program costs increases gradually to 50% by the tenth year of funding and any year thereafter.
National Planning Grants	Minimum grantee share is 33% of operating costs only. No members are associated with these grants, so member costs do not apply.

C. Living Allowance

You must provide full-time members with a living allowance that is between \$11,100 (minimum) and \$22,200 (maximum) except as noted in Section D., below. You are not required to provide living allowances for members serving less than full time. The federal share (including Corporation and any other federal funds) may support up to 85% of the living allowance.

D. Living Allowance Exceptions

Prior to September 21, 1993: If your service program existed prior to the National and Community Service Trust Act of 1993 (enacted September 21, 1993), the law does not require you to provide living allowances to your members. If you choose to offer the living allowance, you are exempt from the minimum requirement of \$11,100 but not from the maximum requirement of \$22,200. If the living allowance you provide is less than the minimum, the federal share (including Corporation and any other federal funds) may support up to 85% of the living allowance you provide.

Education Award Program Grantees: If you are an EAP grantee, you are not required to provide a living allowance, but if you do, it must comply with the maximum requirements set forth in the Living Allowance Requirements section above.

National Professional Corps Grantees: Full-time Professional Corps members must receive a living allowance or salary, which must meet the minimum, but may exceed the maximum set for other AmeriCorps programs.

E. Other Eligibility Requirements

Lobbying: Any organization described in Section 501 (c) (4) of the Internal Revenue Code of 1986, 26 U.S.C. 501 (c)(4) that engages in lobbying activities is not eligible to apply, serve as a host site for member placements, or act in any type of supervisory role in AmeriCorps programs.

Current Grantees: An organization that currently operates a Corporation-funded program or is applying for other Corporation funding is an eligible applicant.

Multiple Submissions: The same project cannot be funded by multiple AmeriCorps grants. If you have more than one application pending before the Corporation for the same project, you must state this fact in each application. You will be required to withdraw all but one if two or more are approved for funding.
