Subject: FW: CEC agenda

Dear Ms. Phipps,

We have reviewed the CEC agenda and applaud your efforts in this area. The agenda suggested that translating some materials into Spanish for health care providers was one of your goals. We are in the process of compiling some Spanish language materials for the new PEHSU in Mexico. We have several bilingual faculty members. We would be glad to participate in a border health conference within our region, which includes Texas and New Mexico. We recently participated in the Paso del Norte conference in El Paso, TX. Let us know how we can help.
