III. Health information

I, the undersigned, certify that the horse described above meets the following requirements:

(a) it comes from a country where the following diseases are compulsorily notifiable: African horse sickness, dourine, glanders, equine encephalomyelitis (of all types including VEE), infectious anaemia, vesicular stomatitis, rabies, anthrax;

▶⁽¹⁾ A1▶⁽²⁾ M8▶⁽³⁾ M16▶^{(4) (5)} A2▶⁽⁶⁾ M22

▼ B

- (b) it has been examined today and shows no clinical sign of disease ⁽³⁾;
- (c) it is not intended for slaughter under a national programme of infectious or contagious disease eradication;
- (d) it has not been outside the Community for a continuous period of more than 30 days and was imported into the country ⁽¹⁾ of dispatch on ⁽⁴⁾ either from a Member State of the Community or from a country appearing in the same group (see above) and since its exit from the Community it has never been in a country other than those in the same group; it has been resident on holdings under veterinary supervision, accommodated in separated stables without coming into contact with equidae of lower health status except during racing, competition or cultural events;
- (e) it comes from the territory or in case of official regionalisation according to Community from a part of the territory of a third country in which:
- (i) Venezuelan equine encephalomyelitis has not occurred during the last two years;
 - (ii) dourine has not occurred during the last six months;
 - (iii) glanders has not occurred during the last six months;
- (f) it does not come from the territory or from a part of the territory of a third country considered, in accordance with Community legislation, as infected with African horse sickness;
- (g) it does not come from a holding which was subject to prohibition for animal health reasons nor had contact with equidae from a holding which was subject to prohibition for animal health reasons:
- (i) during the six months in the case of equine encephalomyelitis, beginning on the date on which the equidae suffering from the disease are slaughtered;
 - (ii) in the case of infectious anaemia, until the date on which, the infected animals having been slaughtered, the remaining animals have shown a negative reaction to two Coggins tests carried out three months apart;
 - (iii) during six months in the case of vesicular stomatitis;
 - (iv) during six months in the case of equine viral arthritis;
 - (v) during one month from the last recorded case, in the case of rabies;
 - (vi) during 15 days from the last recorded case, in the case of anthrax.
- If all the animals of species susceptible to the disease located on the holding have been slaughtered and the premises disinfected, the period of prohibition shall be 30 days, beginning on the day on which the animals were destroyed and the premises disinfected, except in the case of anthrax, where the period of prohibition is 15 days;
- (h) to the best of my knowledge, it has not been in contact with equidae suffering from an infectious or contagious disease in the 15 days prior to this declaration.

- IV. The horse will be sent in a vehicle cleaned and disinfected in advance with a disinfectant officially recognized in the country of dispatch and designed in a way that droppings, litter or fodder cannot escape during transportation.

The following declaration signed by the owner or representative ⁽²⁾ is part of the certificate.

- V. The certificate is valid for 10 days. In the case of transport by ship the time is prolonged by the time of the voyage.

DECLARATION

I, the undersigned (insert name in block letters)
(owner of representative ⁽²⁾ of the horse described above)

declare:

1. the horse will be sent directly from the premises of dispatch to the premises of destination without coming into contact with other equidae not of the same health status;
2. the conditions of paragraph (d) in Chapter III are fulfilled;
3. the horse was exported from the EEC on ⁽⁴⁾.

.....
(Place, date).....
(Signature)

(1) Part of the territory in accordance with Article 13 (2) of Directive 90/426/EEC as set out in Commission Decision 92/160/EEC, as last amended.

(2) Delete as appropriate.

(3) The certificate must be issued on the day of loading of the horse for dispatch to the place of destination or on the last working day before embarkation.

(4) Insert date.
