VIRGIN RIVER WATERSHED MEETING Friday May 9, 2008

Interested parties are invited to participate in a Virgin River Watershed Analysis meeting scheduled May 9, in Hurricane, Utah.

A goal of the study is to produce a watershed plan that assists in successful management of the Virgin River and tributaries, and related resources. Major watershed issues identified with stakeholders include: floodplain management, land use planning, water supply, invasive species, and river function.

Meeting Agenda Items Include

Floodplain Management Strategy Review

Watershed Issues and Findings

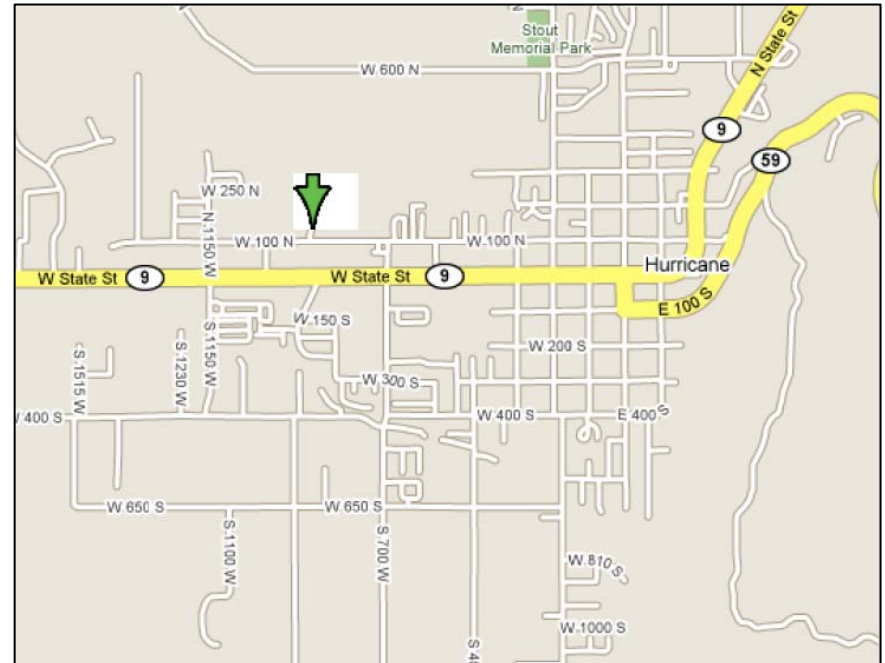

Recommendations to Address Issues

Discussion and Review

The study began in August 2006 and will be completed in the next several months. This will be one of the final watershed meetings prior to completing this study.

Time: 9:00- 12:00 (MST)

Location: Hurricane City Hall
147 N. 870 West
Hurricane, UT 84737
