Subject: Re: Reminder Proposed Funding Methodology Comments are due March 16th

Hello Madeline,

The Klamath Tribes response to the consultation meeting held Jan. 30,2007. Unfortunately, we could not hear all that was said at the meeting as we were on conference call. The information that commodity program has received the formula is un-clear on how much tailgating is taken into consideration as it is a major factor within the Western Region Food Distribution Programs. The Klamath Tribes is also seeking information regarding a resolution that was voted on and sent forward at one of NAFDPIR Conference in San Diego, CA which, going forward with a funding method for all Food Distribution Programs was voted against.

Thanks

Richard Tupper, Program Manager
