

Recall Contact?:

If the Recall Contact flag is selected, a minimum of two devices is required and a maximum of three devices is allowed. Select the Device Type and enter the Device Contact Number/Address where the user should be contacted in the event of a recall and select **Add Device**. The escalation order is determined by the order in which the devices are listed below. The device listed at the top will be contacted first. To change the escalation order, select an entry in the Entered Devices list and select **Up** or **Down**. To remove device/contact information, select the entry in the Entered Devices list and select **Remove**.
