

## APHIS PRECLEARANCE PROGRAMS

Listed below are the countries where APHIS conducts commodity preclearance programs and the commodity (ies) involved. Commodities are marked whether they are treated (T) or inspected (I) in the second column. The status column is marked (V) if the program is voluntary and (M) if it is mandatory. All commodities, except for bulbs are accompanied by a PPQ Form 203 signed by the APHIS Officers who are on site during the inspection and /or treatment. The IS Regional Office in Santiago send an E-mail 203 for Chilean and Argentine precleared commodities sent as maritime cargo.
